

Give The Doctor a Break

We once heard a doctor say that he did not have to look at business charts and economic statistics in order to tell how things were going in the business world.

But because the doctor's business is good, that doesn't mean that he necessarily has the peace of mind which ought to go with a good business.

"Few persons realize how hard earned is the doctor's competence, which, nine times out of ten, is surprisingly modest."

"If a doctor is the proprietor of a half decent practice he seldom eats a meal in peace, and in his middle years, what with hastily eaten meals and broken rest and overwork, he surrenders to angina pectoris, the scourge of the medical profession, and a youthful hopeful steps into his practice and goes the same route in the fullness of time."

Another Step In Flying

The reality of night sleeping accommodations aboard passenger planes has arrived to mark a new era in air transportation.

In a bed as comfortable as one would have in his own home, the former American war bird was lulled to sleep by the drone of the motors while the giant plane soared over towns and countryside at a dizzy speed.

It must have been a far cry to him from the days when he took his small fighting ship aloft to seek out enemy fighters in the early hours of some winter morning.

The installation of sleeping accommodations aboard transport planes so that one may really go to bed and get a restful sleep, presages the day not far off when one may board a plane at any point in the country as night is falling, go to sleep, and wake up fresh in the morning at the farthest extremity of the country.

Over-night flights from New York to San Francisco in complete comfort will mean a great thing to the business men who look upon every daylight hour as a precious thing.

THE NATIONAL WHIRLIGIG

BY PAUL MALLON

The farm credit boxes are so wrought up about the failure of their organization to function that they are planning a nice little house-cleaning.

Heads of at least two federal land banks are already marked for the sweepers. Their identity cannot be announced yet, but it would not be surprising if the broom started to work in the vicinity of New Orleans and St. Louis.

Also the appraisal personnel in other sections is to be dusted off and renovated.

The truth seems to be that Henry Morgenthau has discovered some of his co-workers are not personally in sympathy with the farm credit act.

Their appraisal work has been the subject of severe inside criticism from farmers, senators and representatives. There is evidence that in some instances unduly low appraisals have been made.

It is a very delicate job to value farms in these days. There is no real market for the land. If an appraiser wants to be tough, there is nothing to stop him except his conscience.

The man who is leading the inner group is supposed to be Senator Huey P. Long of Louisiana. He is known to have been strenuous about the matter, but neither will talk. The senator says there are better ways to get results than by attacking the existing system.

NORTHERN TYROL IS FILLED WITH WARLIKE ASPECT

Preparations Made To Prevent Socialist Activities Of Nazi

INNSBRUCK, Austria, Oct. 1.—Preparations in progress here to prevent National Socialist activity in the Tyrol reminded observers of mobilization or army maneuvers.

On one occasion 400 soldiers, machine guns roared through this city toward the German border, while large reinforcements from regiments in other parts of Austria have been brought to the barracks here.

Private airplanes from Vienna and Graz have been sent here and placed at the disposal of the Department of Public Safety.

A delegation of prominent men has gone from here to the capital, Vienna, and requested the Prime Minister to open concentration camps in the Tyrol for all persons who carry on German Fascist activity or activities against the independence of Austria.

There have been movements of Austrian troops also, along the Austro-German frontier, and a rather extensive dismissal of National Socialists from the civil service.

The government, too, has issued an appeal for 8000 volunteers for the new auxiliary defense force which Austria has been permitted to form.

These measures have been provoked largely by the Hammer in which conspirators Franz Hofer, chief of the Hitlerites in the Tyrol, from jail and enabled him to escape to Italy. He then flew to Germany where he was received with ostentation at the National Socialist Congress at Nuremberg.

That Austrian National Socialist companies are said to be recruited and trained in Germany causes some anxiety here. Hofer acts in Czechoslovakia and in Switzerland, attributed to the German Fascists, acceptance of the tendency here to take precautionary measures.

There can be no doubt that, with airplanes, machine guns, a new militia, the retraining of National Socialists, etc.

Jesse Jones (R. F. C.) His credit and closed banks drive may have the center of the stage from now on. Johnson is being shoved back in the crowd. That is only natural. His work is nearly done.

Every person on the street these days whispers: "What do you think of the N. R. A.?" or "Why doesn't someone do something about it?"

The truth has been told. People are forgetting about it. Impatience. Some part of the blame must be shared by the enthusiastic leaders of the N. R. A. who made wild promises to what it would do.

The basic fact is that the N. R. A. was a very necessary thing in its original conception. The codes sought for the basic industries were far enough advanced to take effect. The disparity between their interests and their own (wages and hours of labor) was appalling.

Difficulties came when they tried to apply the same principle in blanket form to every little crossroads drug and grocery store. The little fellows were living from hand to mouth on the verge of bankruptcy.

The dissatisfaction aroused by this program obscured the real good accomplished by the basic program.

The bigwigs here know that as well as the man in the street. The credit drive is virtually an official admission of it. They are trying to save the little fellow by feeding him credit to meet his increased costs.

History will probably give the N. R. A. a better grade than it deserves now.

Traveling Around America

AMONG the many unique trees in Central America perhaps the most beautiful is the Tree of Fire. The tree shown here spreads like a darning umbrella over the main plaza in San Pedro Masahuat, El Salvador, a picturesque little village of adobe houses and thatched huts clustered on a steeply sloping street.

FEDERAL GIFTS OF SUPPLIES IS BEING PLANNED

Huge Distribution Of Agricultural Surpluses To Be Made

WASHINGTON, Oct. 6.—The Army and clothing given away by the Red Cross last year out of farm board wheat and cotton will look surplus compared with the distribution of surplus agricultural supplies among the needy now being planned by the government.

A special unit of the Agricultural Adjustment Administration former for the purpose of buying surpluses and transferring them to the 2,500,000 families on relief will be set up by Maj. Robert M. Littlejohn, of the War Department General Staff at the head.

The plan frankly recognizes that the United States Government has at least as much responsibility toward its own people as it assumed toward those of other countries several years ago, declares Henry A. Wallace, Secretary of Agriculture.

Three sources will probably be drawn upon to pay for the commodities—the proceeds of processing taxes levied under the Agricultural Adjustment Act; funds appropriated by the Emergency Relief Act of 1933; and loans from the Reconstruction Finance Corporation.

Extra Inning Tilt Decided In Favor Of Giants, 2 To 1

WHAT A NEW WRINKLE

Washington: Myer walked but he was forced at second on Gettysburg roller to Hubbell who threw Myer out at second. Dave Harris hit to Ryan who threw Goslin out at second. Critz could not get Harris at first however. Cronin singled into short-right field, and Harris went to third on the play. Schutte popped out to Critz to end the rally.

Ninth Inning New York: Myer singled into right field and Hubbell sacrificed him to second. Cronin to Myer, who covered first. Ryan advanced to third as Weaver tossed Moore out at first. Critz fled out to right field.

Tenth Inning New York: Terry was out, Weaver to Knebel. Ott fled out to Harris. Davis was out, Myer to Knebel.

Washington: Knebel struck out. Bluege fled out to Ott. Sewell was out, Ryan to Terry.

Eleventh Inning New York: Jackson singled to third. Manusso sacrificed Jackson to second. Weaver to Myer. Ryan batted to left, scoring Jackson. Hubbell singled to center, Ryan going to second. Weaver was removed from the game in favor of Jack Russell. Moore struck out. Critz fled out to Schutte.

Washington: Schutte singled to left. Knebel got a hit at first. Bluege sacrificed the runners up a base as he went out, Jackson to Critz, who covered first. Sewell was walked intentionally, hitting the bases. Bolton, batting for Russell, hit into a double play, Ryan to Critz to Terry.

SURVEY REVEALS  
GAIN IN TRENDS  
IN SEPTEMBER

Industrial Recovery Is  
Accelerated After  
Early Lull in Gait

NEW YORK, Oct. 4.—September closed better than it opened, states Dun & Bradstreet, Inc., in its trade review of last week. Trends have become more definitely established, industrial recovery has been accelerated, and consumer buying is being pursued with more vigor, following the lagging gait caused by inclement weather conditions during the greater part of the month, says the survey.

of the WPA being perfected from week to week, the review holds that there has been a "effortful" diminution of the unavoidable controversies and impetuous arising from too sanguine expectations from the immediate application of the various codes. The comparatively large number of banks, it adds, which still are closed or are operating under restrictions, continue a constant handicap in many districts, while plans for expansion are being held in abeyance by the higher collateral requirements for loans, pending the clarification of the entire banking situation.

Referred to the retail and wholesale market, this authority is of the opinion that the desire to build inventories in advance of rising markets had virtually come to an end, giving a steadier tone to buying movements and a firmer base on which to plan future operations. Consumer resistance to advanced prices of many items was reported to have been neither broad nor open as these advances have been moderate in most instances, while sales and manufacturers' cooperation with retailers to make the markups gradual by the elimination of all extras and non-essentials, which heretofore have borne heavily in distribution costs.

This agency says that after the lull in retail demand for nearly two weeks, fall buying moved forward with more surety, as wholesalers too pressing to permit further postponement, and buying power is provided by the constantly widening gains in employment.

UTILITIES GROUP  
GATHERS AT 8TH  
ANNUAL MEETING

Change in State Laws  
Seen Beneficial To  
Public Ownership

CHICAGO, Oct. 6.—Advocates of public ownership of utilities were told here at their eighth biennial conference, ending recently, that their movement only if greater effort is made to liberalize state laws regarding the operation of utilities, and if administration of these projects is kept on a professional plane, free from political patronage.

Mr. Louis Bartlett of San Francisco, author of the California Uniform Utilities Act, which removes barriers to public ownership and operation of utilities, and the latter subject by Dr. Arthur E. Morgan, chairman of the board of directors of the Tennessee Valley Authority.

revenue the same way privately owned projects are. "The success of public ownership will extend only so far as it can be divorced from political patronage," said Dr. Morgan. "In the past, with public functions, contributing only a small part of our social and economic life, political patronage was a vicious disease, but was not necessarily fatal."

her in the harbor and cut it for as Haverstraw sailed.

The crew—17 bronzed veterans of the sea from Nova Scotia—was found in Haverstraw, N. Y., looking for the main highway; they were arrested and charged with vagrancy.

It was the largest liquor haul in several years, customs officers said. Masquerading as the Texas Ranger, the British freighter Haverstraw eluded a patrol of coast guard vessels searching for

the law of the states were framed, at first, to encourage the private companies to engage in the power business," Mr. Bartlett said, "and as these have grown powerful, they have obtained laws making it difficult, and in some cases impossible, for municipal competition to arise."

"No state has a coordinated plan for hydro or steam development and practically every city system is on its own. It is axiomatic that large electric developments, serving many uses and communities, with the resultant high factors can operate more cheaply and efficiently than the Diesel engine in a small community, although, by reason of the abnormally high rates charged for wholesale power, many cities find they can save money by having plants of their own. Groups of cities, or whole states, could do much better with large generating units at strategic points. But this is impossible, because of the tangle into which the power companies keep municipal laws and state charters."

The efforts of advocates of public ownership, Mr. Bartlett said, must be directed toward changing the laws of the various states to remove whatever legal obstacles exist, if public ownership is to have a fair chance, and to allow municipal utility projects to be financed out of expected

**33 PROMISES TO BE WORST YEAR FOR HURRICANES**

**Expected To Surpass '87 Considered As Banner Storm Year**  
 WASHINGTON, Oct. 4.—The year 1933 promises to be the worst hurricane season in recent history, even surpassing 1887, which is generally looked upon as the banner storm year.  
 With several weeks to go before the hurricane season is over, the Weather Bureau announces that already 16 hurricanes have occurred, the same number as in 1887. The hurricane season lasts from August to November.  
 Five heavy tropical storms have struck this country since mid-summer, the Bureau says. The other 11 gales, however, either went out to sea or veered to the southward.  
 From the weather expert's point of view, many of these hurricanes really have just been tropical cyclones. A cyclone does not enter the hurricane class until it reaches 75 miles per hour in velocity.  
 The Eastern Seaboard and Florida have put up with two tropical storms so far this season, although the second detoured out to sea after it got as far north as the Virginia Capes.  
 Texas has not been so lucky. It has had three tempests, although one of them was rated a small matter as hurricanes go. The other

**Bids Asked On Huge Amount Of Steel To Be Used For Rails**

WASHINGTON, Oct. 4.—(AP)—The administration yesterday asked four steel companies to submit bids on \$44,525 tons of steel rails for 47 railroads.  
 Later, bids will be asked of a large number of companies on 245,321 tons of steel fastenings with which the rails would be tied together after they have been laid.  
 The railroads informed Joseph R. Eastman, co-ordinator of transportation, they would need a total of 1,969,746 tons of steel. The administration is to buy the rails on a contract for \$45,000,000 or more from public works fund, with which to make the purchase.  
 To carry out the plan, which was left more destruction in their wake.  
 The Bureau has prepared a chart showing the hurricane record for the season. Courses of such storms are plotted, showing their progress and velocity. Tracing of the land course is a simple matter for the Bureau, with its local stations sending in detailed reports.  
 Citrus fruits of Texas were almost wiped out early in September. The department of agriculture estimates the damage at 88 percent. A record crop had been expected as new acreage coming into production.  
 Besides, productive power for several years has been lessened because of damage to trees. Some grapefruit had been harvested and a certain amount of fallen fruit was salvaged, but this will not help much, the Department said.  
 A hurricane which struck Florida at the time Texas was being devastated caused about a 25 percent loss for oranges and tangerines.  
 Property damage from hurricanes has been heavy but no accurate estimates can be made of the loss.  
 Truck crops along the Eastern Seaboard from the Virginia Capes southward suffered from the tropical storms. Tobacco in Virginia and Maryland was damaged. Fruit and corn all through the East felt the effects. Corn came back in many regions, although it will be hard to harvest because stalks were blown down.

**VANDY SEEKS WIN OVER TARHEELS AFTER BAD START**

**Gators Ready For Light Sewanee 11 Which Promises Real Tilt**  
 ATLANTA, Oct. 4.—(AP)—Vanderbilt, halted by Oklahoma in a scoreless duel last week, hopes to find the victory column again Saturday at Nashville over North Carolina, and incidentally, to add another triumph for the Southern Conference over their Southern rivals.  
 The Commodore sophomores showed great promise in their opener against Cumberland but were unable to do much gaining either through the air or with a running attack against the Sooners.  
 North Carolina, the mystery team of the Old North State, also had its hands full to eke out a touchdown win over Davidson. Vandy won last year and likely will be accorded a good chance of winning again.  
 Florida, recalling Sewanee's great fight with Kentucky, is not underrating the little Tennessee team and is preparing hard for would supply work for men in steel mills and on the railroad. The steel code was complete, so the companies might compete. After the bids are in, they will be made public and the lowest will be taken as the base price at which the steel will be purchased. The bids are for rails of 60 pounds per yard or over.  
 The Pennsylvania railroad, which wants 100,000 tons of rails, will place its own orders and not ask a price reduction. Some roads are seeking a reduction from the present price of \$40 a ton while others, contemplating important orders, made a condition that the price shall not exceed \$35 a ton.  
 The needs of the carriers were made known yesterday when Eastman gave out a letter he wrote to Myron C. Taylor, chairman of the United States Steel Corporation; Eugene F. Grace, president of the Bethlehem Steel Corporation; L. E. Block, chairman of the Inland Steel Company; and Arthur Hoeder, receiver for the Colorado Fuel & Iron Company.

**Stetson-Georgia Boys Set For Game Tonight**

DELAND, Oct. 4.—Twenty-three stalwart Middle Georgia College gridiron warriors headed by Coach Jake Morris, arrived here at 5:30 P. M., yesterday and established headquarters to await the impending fray with the Stetson University footballers to be staged at Holley Field tonight at 8 o'clock.  
 The visitors were able to secure a short workout last night between showers. At the conclusion of the practice session they were declared fit and ready to show the Hatters all that the old trick bag contains when the whistle blows for the commencement of hostilities.  
 Complete in the Middle Georgia lineup is Linder, a fleet,

Whitehill Blanks Giants Under Black Skins, 4 To 0; Roosevelt Sees Contest

By ALAN MOORE. Washington Senators, before Griffith Stadium, Washington, Oct. 3. The grand old baseball team of Washington... Whitehill's great outburst... Roosevelt's masterful left-handed strategy...

Whitehill, the top-ranking member of the Washington staff this year, held the heretofore reluctant and reluctant Giants to five well-distributed hits, including Travis Jackson's booming double... Roosevelt's masterful left-handed strategy...

Although it was a great day for the Senators as they put their selves back into the world series fight... Roosevelt's masterful left-handed strategy...

Washington Senators cut a new world series deal for themselves... Roosevelt's masterful left-handed strategy...

Table with columns for team, player, and statistics. Includes sections for 'Yesterday's Highlights' and 'AWARD AND WINNER'.

Table titled 'BAMATTAN MARKET' listing prices for various goods such as Hen Eggs, Bananas, Lard, Roast, Steaks, Hens, and Fryers.

PICK THE WINNER

Last week's sports and ties spelled doom for many Sanford football fans... The first three persons sending in the nearest number of winning teams will be awarded two tickets each to the Millers Theatre...

Table for 'PICK THE WINNER' contest with columns for Name, Address, and team selections: Alabama vs. Mississippi, Amherst vs. Princeton, Army vs. V. M. I., California vs. St. Mary's, Duke vs. Wake Forest, Florida vs. Sewanee, Georgia vs. Tulane, Georgia Tech vs. Kentucky, Harvard vs. Bates, Kansas vs. Notre Dame, Lehigh vs. Columbia, Maine vs. Yale, Navy vs. Mercer, Nebraska vs. Texas, Ohio vs. Purdue.

Washington Senators cut a new world series deal for themselves... Roosevelt's masterful left-handed strategy...

Advertisement for 'The Seminole Sausage Shop' featuring an announcement, a list of sausage products with prices (e.g., SAUSAGE lb. 15c, BACK BONE lb. 15c, PIG HAMS lb. 15c), and a contact address at Sanford Ave.

not threaten until the arrival... Roosevelt's masterful left-handed strategy...

The official paid attendance of 25,727 fell far short of expectations and nearly 14,000 short of the park's capacity...

The Senators, after a brisk pep talk by their manager in the clubhouse, came out with so much vim and vigor that they had the p-d-y Fitzsimmons on his heels and the crowd on its feet yelling at the very outset...

Fitzsimmons added down for the next five innings he worked before yielding to Pinch Hitter Peel and Relief Pitcher Bell in the eighth...
