Opening Night Of High Fever Follies Is Termed As 'Smash Hit'

By Virginia Coan
Several stars were born last night when the curtains went up on the High Fever Follies, the revue staged at the Seminole High School for the benefit of the Seminole Memorial Hospital.

and another as a scrubwoman mimicking models in a dress shop. Mrs. Bruce's counterpart in the "Face to Face" scene was Hank Johnson, a young Navy man, who appeared in several scenes, and seemed to enjoy every one. As the slovenly Sam Gioia, however, he hit his peak. This skit was the highlight of the evening.

those in the "Wobblin' Like a Dame" production number. The girls who made history were magnificent in this scene and their costumes fabulous.

Weather

Increasing cloudiness tonight and Tuesday with showers Saturday followed by clearing and cooler by night.

Budget Slice Approved By Money Committee

WASHINGTON (UP) — The House Appropriations Committee today approved almost intact a slice of President Eisenhower's budget — reflecting a slackoff in the congressional economy drive.

Commission to add to the District of Columbia's park, parkway and playground system.

Thus, prospects are the Congress will wind up increasing the president's \$73,000,000,000 spending budget, particularly in view of the drive underway to step up defense spending and to offset the business slump with more government spending.

recent assertion that known domestic reserves of uranium are adequate for at least a 10-year supply.

Murray, Vocational Education Director Resigns Yesterday

Fred C. Murray, Director of Adult and Vocational Education for Seminole County submitted his resignation to the Seminole County Board of Education.

The Commanding Officer of the Naval Air Station Sanford, Capt. Lionel A. Arthur, has announced that the District Public Works Office, Sixth Naval District has

issued invitations for construction contract bids for a project at NAS Sanford estimated to cost over one million dollars.

Groundbreaking Feb. 19 For New Tourist Info Booth

Final details of the groundbreaking ceremony Wednesday, Feb. 19 were announced yesterday at the weekly Jaycee luncheon.

Pioneer Night Speakers Revealed

Speakers for the 33rd annual Pioneer Night in Lake Mary on the night of Feb. 22, were announced this morning by Frank Evans, originator of the event.

The work will include one rigid frame prefabricated steel warehouse approximately 100 feet wide by 240 feet long, three rigid frame prefabricated steel barracks of H-shape assembly, each wing will be approximately 20 feet wide by 96 feet long, the center section between wings will be of concrete and masonry construction;

Mr. Harris, chairman of the committee, told Jaycees that each member should bring a shovel with them to the ceremony. The event will take place at 4 p. m.

Time For Taking Drivers License Exams Extended

Time for taking drivers license examinations will be extended in Sanford and Seminole County, according to Seminole County Judge Wilson Alexander and Troop Commander Harry Weaver of the Florida Highway Patrol.

Herald Mailway Edition Being Readied

The Sanford Herald's Mailway Edition is being prepared for publication late this month or in early March, Publisher Fred Perkins said today.

WOULD A FENCE HELP?

If we could build a fence around the world, what would it mean?

Would we live happily with one another? Would we respect our limitations and still feel free within our confines? Would we stop wars, and know eternal peace?

Probably not. Because, while you can fence in physical objects, the minds, the hearts, and the souls of man cannot be harnessed. Nor could we be forced to live in peace. Blessed peace can come only to us through practicing the love, the faith, the tolerance and the understanding that God, through His Church on earth, tries again and again to teach us.

With that in mind, remember World Day of Prayer this year. Determine not to build a fence around yourself, or around anyone else—but to pledge, instead, to enlarge your horizons and the horizons of the entire world through the common voice of prayer.

And what better place in which to make such a pledge than the Church itself?

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Psalm	133	1-4
Monday	Proverbs	4	1-4
Tuesday	Ephesians	4	21-22
Wednesday	John	17	1-11
Thursday	John	4	14-24
Friday	John	8	12-13
Saturday	John	8	12-13

With no engineering experience, Ferdinand de Lesseps planned, promoted and built the Suez canal. He talked Turkey's viceroy of Egypt into giving right of way in 1854, but four years passed before he raised the capital. Successful in building Suez, he failed when he tackled the mountain-blocked, fever-ridden Isthmus of Panama.
Isthmus near Madrid was being used by a single jet fighter squadron and was of limited value because its take-off and landing patterns criss-crossed those of a nearby civilian field.
The report also charged that the manner in which the Air Force negotiated its contracts for air bases in Spain resulted in increased costs and contract delays.

Pepper To Reveal Plans In April

MIAMI (UPI)—Former Sen. Claude Pepper says he expects to announce in April whether or not he will run for the Senate this fall.
Pepper, who lost his seat in a bitter contest with Sen. George Smathers in 1950, says he is undecided about going back into politics. He said he should know by April whether he will run. "Don't count me out," he emphasized.
Rumors have circulated freely in recent months that Pepper would throw his hat in the ring against Sen. Spessard Holland, so far unopposed. But new rumors in the past two weeks indicated that Pepper has decided against running.

Dog Rattles When Coughs

ELFORD, England — (UPI)—Everytime Buster, a mongrel pointer, coughed, he rattled.
His owner, Mrs. Elizabeth Buxton, learned why when Buster gave a particular violent cough and three half pennies shot out onto the floor.
Mrs. Buxton rushed him to an animal dispensary and veterinarian gave him a quick fluorescent examination.
The operation followed immediately. They removed three beer bottle caps, two pennies, one piece of bone, one blue crayon, one pair of cuff links, one large button and one stone.
Before he was allowed to go home, Buster was shown the articles spread on a plate. He backed away hastily.

Thirty to 40 freight cars of raw material are required to fill a 1,100-ton blast furnace.
England was once the center of horse breeding in Europe.
The Hottentots inhabited South Africa before the Zulu invasions.
value, but the volume exported was down somewhat.
Value of soybean exports rose, more than offsetting declines in edible vegetable oils and flaxseed.

8:31, the last in a series on "Conditions of Discipleship."
The public is cordially invited to all services of public worship.
Recreation and meetings of youth groups, Wed., 8:30 p. m.

Farm Exports Reach All-Time High Last Year
WASHINGTON (AP)—The Agriculture Department said today farm exports reached an all-time high despite a decline in the second half of the year.
The 1957 total was eight per cent above the 1956 exports of \$4,200,000,000, the previous record. The record prior to 1956 was \$4,100,000,000 in 1951.
Farm exports in the last half of 1957 were \$2,100,000,000, 10 per cent less than the \$2,300,000,000 in the comparable period of 1956.
The largest increase in 1957 compared with 1956 was in exports of cotton. Cotton exports were up more than \$300,000,000, accounting for practically the whole year's gain.
Among grains and feeds the gain in value for wheat was just about enough to offset reductions in exports of other grains including milled rice and feed grains. Tobacco shipments were larger in

"VOICE" WINNERS—Five state and territorial winners of the Voice of Democracy Contest are pictured in Washington with a special certificate they received from Dr. L. G. Doobick, United States Commissioner of Education, whose office endorses the contest. C. (UP Telephoto)

Auto Fins

By JIM KLOCKENKEMPER
United Press Automotive Editor
DETROIT (AP)—In the wake of Russia's Sputniks, some of America's intellectuals decided our culture had gone to pot and they settled on automobile tail-fins as the object of their wrath.
Today, the honored stylist who brought car tail fins to their ultimate—and some say their most graceful—use refused to apologize for his fin "sins."
Virgil M. Exner, 44, Chrysler Corp. vice-president and director of styling, said he feels the fins he designed are expressions of a car's "look of motion."
"In the main," he said, "the very people who criticize our ornamentation would be the first to criticize designers whose products looked too cheap and plain."

Symbol Of Motion

Exner said the fin has become "the symbol of the latest, most up-to-date design and to us that is a compliment."
"The fin is part of the dart, or needle shape, that expresses motion," he said. "When shapes are used that do not indicate the product as all, that is what I call excessive design."
A trim, impeccably dressed silver-haired man, Exner was speaking from behind a large, dark-stained desk in his Chrysler styling center office. The office was tastefully paneled and draped and in no way excessively decorated.
Of future styling, Exner said, "We will continue to express a feeling of motion. A car is not a static thing like a refrigerator."
He said things demanded by the public include more inside room, a low silhouette. "This provides a more pleasing shape and better proportions but we can't improve what we've done in the past" and more glass. "We try to slant down the roof pillars as

much as possible. We are experimenting with cantilevered roofs with no front pillars."

Adaptation To Small Cars
Touching on the forbidden field of small car design, an area in which America's Big Three car-makers are silent, although it's known all are preparing plans, Exner said he thought American stylists can adapt U. S. styles to small cars.
"You do not have the proportions to work with in a small car, you must remember," he said. "Also, Europe has produced some particularly beautiful custom-built small cars although on their production models they generally haven't bothered with styling facilities."
"Even a small, economy car doesn't have to look deliberately square in appearance," he said. "New developments of the lightweight metals are going to be of increasing value in styling because these metals can be used in the basic design of the car."

Number Of Tetanus Cases Increases

Dr. C. M. Sharp, Director of the Bureau of Preventable Diseases for the Florida State Board of Health said today, that the number of cases of tetanus, or lockjaw, reported in Florida in 1957 increased by 34 per cent over the tabulation for 1956. The report was based on figures tabulated by the Bureau of Vital Statistics, Florida State Board of Health.
Tetanus, or lockjaw, is a serious, often fatal, disease that occurs as a result of a minor injury producing a break in the skin allowing the entrance of certain small bacteria or germs from the soil.
There were 22 cases reported in 1956 and 32 deaths resulting. For 1957 there were 63 cases with 29 deaths reported. Although the tetanus mortality rates in Florida have steadily declined from 1937 to 1950, they have shown little change during the past seven years.
Dr. Sharp recommended more active efforts on the part of physicians to see that all adults and children have immunization against this disease from which they have contracted it.
"All tetanus deaths," said Dr. Sharp, "are potentially preventable with immunization, such as that given to persons in the armed forces. Two injections at an interval of four to six weeks, followed by properly spaced boosters will confer long-term protection. The

Air Force Charged With Using Funds On Unneeded Base

WASHINGTON (AP)—Comptroller General Joseph Campbell has charged the Air Force wasted \$5,000,000 by building an air base in Spain for which there was "no operation need."
He also said the Air Force constructed another base of sharply limited value at Tarazon near Madrid simply because Spanish officials wanted a "showplace near their capital."
Committee members recently made an on the spot study of the Air Force's half-billion-dollar base program in Spain.
Campbell said the totally unnecessary base was constructed at San Pablo, Spain. He said the decision to go ahead with it apparently was for other than military reasons. He did not elaborate but said pointedly the Air Force could have saved \$5,000,000 by not building the base.
If added facilities were needed, he added, they could have been obtained by expanding other facilities at a fraction of the cost.
Campbell said the Tarazon

Guard Against Danger Of Hazardous Frostbite

By HERMAN N. BUNDESEN, M.D.
THE danger of frostbite is with us once again. Caused by exposure to extreme cold, frostbite probably is one of winter's most common ailments.
Some persons, of course, are more sensitive to cold than others. Even a cold shower will cause welts to form on the skin of some highly sensitive individuals. Their skin may become itchy and swollen if they so much as carry a cold bottle of milk—or beer—under their arms.
Bad Case
But whether you are this sensitive to cold or not, remaining outside in freezing temperatures for too long a period may give you a bad case of frostbite.
The cold constricts the arteries and freezes the fluid found between the cells. This, in turn, causes rupture of the cells and formation of clots in the small arteries.
There are four degrees of frostbite, the worst of which generally leads to development of gangrene and possible amputation.
In the first degree, or the most minor of the four, only the outer layer of skin is involved. It becomes white or a yellowish color.
Outer Skin Layer
Blisters or peeling of this outer skin layer characterizes damage of the second degree.
Thick layers of skin and tissues are destroyed in the third degree. And the fourth, as I have said, usually leads to gangrene.
The colder the weather, the greater hazard frostbite becomes. But you don't have to go

Guard Against Danger Of Hazardous Frostbite

out in sub-zero temperatures to become frostbitten. The freezing point of the skin is between 28 and 32 degrees. That's only a little below the freezing point of water. Actually, because of various factors, such as dryness of the skin and air, the freezing point sometimes may be as low as zero.
Tight Clothing
But it can be well above zero and frostbite can occur in any subfreezing temperature, especially if you are wearing tight shoes, boots, gloves or other clothing. If you have anemia or some circulatory or metabolic disease, you are more susceptible.
Light, but well-fitting, woolen clothing offers the best protection against frostbite.
Gradual Process
Treating the trouble should be a gradual process.
If the foot is frostbitten don't walk on it. Don't rub it briskly with your hands. And, despite age-old advice, don't rub it with snow. In fact, don't even apply heat to it. You must warm the area gradually.
The best thing to do is to let it thaw out in a normally heated room. If pain is severe, you can cool the affected area with a fan to enable the temperature to rise more slowly.
QUESTION AND ANSWER
H. T.: What are the most common causes of death in the U.S.?
Answer: Heart disease comes first. The second most common is cancer. Other causes are tuberculosis, pneumonia, diabetes, kidney disturbances and accidents.

WIN new HOUSEPOWER contest

WRITE A CAPTION FOR THIS CARTOON... \$100,000 IN PRIZES
Grand Prize \$5,000 Cash
2nd prize \$2,500 cash
3rd prize \$1,500 cash
4th prize \$1,000 cash
Hundreds of additional electric appliance prizes!

It's easy! It's fun! Nothing to buy. First, read the facts about HOUSEPOWER shown below. Then write your cartoon caption on official entry blank, mail it. Entry blanks are available at any participating electric appliance dealer, electrical contractor, or your Florida Power & Light Company office.

READ THESE FACTS... IMPROVE YOUR HOME... WIN WONDERFUL PRIZES

Today, 4 out of 5 homes have low HOUSEPOWER, not enough electrical wiring, outlets, and switches. See cartoon. The home is obviously one of the 4. If the man can find an outlet to plug the TV cord into, he's certainly going to see one or more of the symptoms of low HOUSEPOWER. His TV picture may shrink and wobble when the coffee maker starts, the lights may dim. The coffee maker will be slow heating up. And no wonder the Mrs. looks bewildered at the man's "Octopus plug"—a sure sign of low HOUSEPOWER. For full HOUSEPOWER all they'd have to do is call their electrical contractor for a "HOUSEPOWER Rating." The electrical contractor can do the job quickly, neatly, economically. And full HOUSEPOWER will increase the value of his home.
To show you how easy it is, here are some sample captions:
"I told you to get the wiring checked, Mr. Fix it!"
"How can I get a midnight snack with low HOUSEPOWER?"
"We might as well have a real octopus in here!"
See how simple it is! Now get to work on your own caption... and pack up your entry blank today from any participating electric appliance contractor, electric appliance dealer, or your Florida Power & Light Company office.

WHO MAY ENTER: Any user of electricity in his place of residence in the continental U.S. or Hawaii except employees (and their immediate families) of Electric Power Companies, Electric Leagues and Associations, their Advertising and Contest Agencies.
DURATION OF CONTEST: Contest ends April 30, 1958. Entries postmarked after April 30, 1958 or received after May 5, 1958 are not eligible.
HOW TO ENTER: Read carefully these facts about HOUSEPOWER. Then complete entry blank and mail to HOUSEPOWER, P.O. Box 2010, Grand Central Station, New York 17, New York. Multiple entries will be accepted, provided an Official Entry Blank is used each time. Entry blanks may be obtained from Florida Power & Light Company, any participating electrical contractor or electric appliance dealer.
JUDGING: Judging will be done by the Contest Management Division of Richard Manville Research Inc.—an independent contest organization. Judging will be based on the degree of aptness, originality, and sincerity of the caption you submit.
ANNOUNCEMENT OF WINNERS: Winners will be notified by mail approximately 8 weeks from closing date of contest. Only one prize per household. Winners list may be obtained by enclosing a self-addressed, 6 cent stamped envelope with your entry.
Each contestant consents and agrees that neither the sponsor of the contest, nor the Contest Management Division of Richard Manville Research Inc. nor any of their respective employees, will incur any legal liability for any negligence, error, act, or failure to act in the sponsoring or conducting of this contest or the handling, or judging, of any contestant's entry, however, all due caution will be exercised to prevent the occurrence of any such error.

School Rooms Or Television Station? Do We Need Both

Maybe we don't understand how millions can be saved with the expenditure of a half-million dollars this year and perhaps we are not familiar with just exactly how a program initiated in Florida will save the construction of numerous school rooms needed at the present time.

However, we have heard the wailing of educators for the need for additional school rooms and schools facilities that would cost upward in the multi-millions of dollars.

What we don't understand is the expenditure of state funds for a network of television stations for educational purposes while counties in every section of the state cry for funds to construct new classrooms and school facilities.

An announcement was made earlier this month that the "budding network of television stations was stepped up when the state Educational Television Commission got a go-ahead to connect Jacksonville Gainesville and Tallahassee with a micro-wave network.

The announcement went on to say that the Tampa-St. Petersburg connection could be ready by this fall and that the commission also considers adding southeast Florida in the network as soon as possible.

When completed, the news item said, the network will connect five junior colleges and three universities.

We understand that the 1957 Legislature appropriated a half million dollars for this fantastic expenditure while students this fall in Seminole County will possibly have to attend class in churches and other buildings or double shifts be initiated.

Perhaps our state educators have the cart

Let's Start A "Zoo Day" Here

Have you visited the Sanford Zoo recently?

It would be quite an "eye opener" to take an afternoon off and really take in the Zoo and its population.

Of course there are two new animals on hand to welcome the newcomer or the folks who haven't been around in several months. A couple of cub lions that are as cute as a lion cub can be. Cuddly, and acting just like one would expect a lion cub to act.

These new additions to the population at the Sanford Municipal Zoo were made possible through contributions by one of Sanford's aggressive business concerns and one of the Zoo's active civic clubs.

Next on the list would be additional new animals to entertain the children and grown folks alike.

We thought of the idea that possible local school could declare a "Zoo" day sometime during the year with youngsters contributing their pennies, nickels, dimes, and quar-

Junior Rocketeers Get Safety Advice

JACKSONVILLE—Junior rocketeers can get help from the U. S. Army in making their rocket projects safer, Brigadier General Loyd C. Mathery, Commanding the Florida Military District Headquarters here announced.

The growing number of accidents to young rocket enthusiasts has prompted the Army Ballistic Missile Agency and Redstone Arsenal, Huntsville, Ala., to offer safety advice to young rocketeers.

Major Gen. John B. Madaris, head of the missile agency, Maj. Gen. H. N. Tolson, commander of Redstone Arsenal and Dr. Warner Ovn Braun, chief scientist and widely known rocket authority, will make information on safety aspects of propulsion and ignition system, safe handling procedures, safety distance factors, and

other related information available to science teachers whose students are undertaking rocket building projects.

Inquiries should be addressed to the Safety Officer, Army Ballistic Missile Agency, or Redstone Arsenal, Ala.

In addition to the information on the safety aspects of rocketry experiments now being furnished to inquirers, the Army's Missile Center is preparing a booklet expressly directed toward amateur rocket hobbyists.

This illustrated pamphlet will stress safety aspects of construction and firing the rockets.

When the booklet is ready for distribution, the Army said, a public announcement will be made. The Department of the Army in Washington is studying other means of rendering assistance to amateur rocket groups in an effort to stimulate interest in scientific and technological fields, as well as to reduce further the ac-

before the horse as network facilities are constructed necessitating huge expenditures for personnel to operate the network, provide teachers and professors to appear before the microphones and cameras, and then provide additional professors on the receiving end to explain all that is going on and answer questions of the students.

We're a progressive state—certainly—but we should be progressive enough to realize that some needs come ahead of others and that spending is going on at a pace unprecedented in the state history. For what? A television network to point to and say "look what we've got."

Teachers are yelling for more money, construction programs are awaiting the taxation of the people to provide the funds, and the people yell for a teaching program that would include a stepped up study of mathematics, chemistry, and other studies to meet the nation's scientific and defense needs.

What price spending have we gotten into? Can it be answered to the complete satisfaction of the man on the street whose tax deductions are now depriving him of necessities of life?

A few students will use the television network—perhaps—while thousands await proper facilities in which to become acclimated to the thoughts of study and education.

We like television—it's a wonderful medium of entertainment. But our budding educators are also budding with a television network that doesn't relieve the situation in the State of Florida one iota.

Let's face the facts and spend our money where it benefits the most.

ters to a fund to be used to obtain new animals.

This fund, we suggested, could be administered by a committee and a treasurer.

Perhaps the children would like to see a Zebra added to the zoo population, maybe a pygmy elephant, or a giraffe—let alone animals from that colorful kingdom about which children and grownups are so curious.

There are many different types of animals that could be obtained for the zoo with a proper fund and since so many enjoy the zoo, there's no reason why the fund should not be started.

Right now would be a good time to start a "Zoo Day" in Sanford and Seminole County!

What with recent talk of an eight-hour day for homemakers, it's a wonder some union hasn't tried to organize the ladies. If such a move succeeded, guess which union would be the most powerful in the land.

It takes a lot of will power to appear nonchalant when a rich uncle leaves you out of his will.

Over in Italy, we are told, they are referring to the American satellite as the Ike-nik. If the name ever comes into general use the Democrats may demand that a second satellite be sent up so they can be accorded equal time in space.

Red China's Mao recently gave a demonstration of his ability to plow a straight furrow. Wouldn't it be nice if he may decided to give a demonstration of some straight talk.

OUT IN THE COLD
PENSACOLA (UP)—Palmer Jarrell has no home, he reported to the sheriff—somebody stole it.

The sheriff's office said Jarrell reported his \$3,500 house trailer was missing and asked officers to look for it.

Students attend upon rocket experiments.

Dealer Wanted For Sensational SPA SWIMMING POOL

NO previous construction experience necessary, due to the simple inoperative construction methods used. People everywhere are acclaiming this, the finest of all residential swimming pools at low cost. 12x27, 3' to 6 1/2 ft. deep for only \$1,975.00 (INSTALL-ED, 18x32, and 20x18' also similarly low priced, including: Jacuzzi Filter with self-priming pump—Finest 1 piece embossed vinyl liner in production today—automatic skimmer—3' cement walk on 3 sides—6' walk at diving end—12' coping all around—Liner is Algae & corrosion proof, never needs painting and has a 5 YEAR Warranty.

• CAN BE SOLD AT HUNDREDS OF DOLLARS LESS THAN ANY COMPARABLE POOL ON THE MARKET
• SOLD DIRECTLY TO THE DEALER—NO EXPENSIVE CELEBRITY NAME OR DISTRIBUTOR TO ADD TO THE COST
• EXCLUSIVE FRANCHISES COVER A LARGE TERRITORY (usually a full county) AND ARE BEING GIVEN TO RELIABLE DEALERS FOR PURCHASE INVESTMENT OF LESS THAN \$1,500 IN MOST COUNTRIES

Write or call today, you will be amazed at the tremendous money-making possibilities of this pool.

By CHARLES M. McCANN
United Press Staff Correspondent

The purge in East Germany shows how seriously the denunciation of Josef Stalin continues to affect the Communist world after two years.

"Stalinist" leaders are still in firm control in East Germany, Hungary, Czechoslovakia, Bulgaria and Romania.

But they are on the defensive, and they are still being opposed by prominent Communist Party members.

Walter Ulbricht, the East German Communist leader, defeated an attempt to depose him by ousting three first-ranking party members who demanded a drastic liberalization of his regime.

Two weeks previously, Hungari-

Inside Washington

BY HENRY CATECANT
Central Press Washington Writer

WASHINGTON—It is a certainty that control of America's outer space programs will be taken out of the hands of the military and placed in a civilian agency.

President Eisenhower already has ordered a study aimed at switching the program, and Congress is going to insure that civilian control be exercised over space developments.

Eventually, or as soon as Congress and the administration can make arrangements, the space program will be put under either a new civilian agency or the Atomic Energy commission.

There is a strong precedent for the action. The same thing happened to the atomic bomb project which was removed from the Army's Manhattan Project to the newly-created AEC.

Of course, the Pentagon will continue to develop its missiles and there will be no interference with the military aspects. But the

new system of control will operate much as the AEC does now in supervising atomic energy policies.

MR. SAM'S RECORD—House Speaker Sam Rayburn's long service in Congress was pointed up dramatically the other day by Senate Republican Leader William F. Knowland.

Knowland, who is relinquishing his long Senate seat next year and hopes to be governor of California, said that when his own father was in the House from 1908 to 1916, "Mr. Sam was there at that time."

He said the beloved Rayburn has "outlived two generations of Knowlands." This was in reference to the fact that the senator is quitting Congress at the end of this year.

Knowland continued: "I suppose if some day one of my daughters, granddaughters or grandsons should be elected to Congress, Mr. Sam will be there to greet them."

Knowland, of course, is Republican, while Rayburn is sometimes also known on Capitol Hill as "Mr. Democrat."

NAVY RESEARCH—Some taxpayers' eyebrows—and even anger—may have been aroused a few years ago if it was made public that the Navy was providing

funds to investigate the digestive processes of a certain insect or to look into what makes plants green.

Yet, out of the insect inquiry involving an undersea wood-borer—the studies have resulted in a program of defending underwater piling and other structures against the insect. A few thousand dollars in research is saving the taxpayers millions.

On the survey of what makes grass or wood green, the Navy hopes to work out as a result a device to provide unlimited oxygen supplies for persons confined in close quarters indefinitely—as in submarines or space ships.

The reason plants "breathe" carbon dioxide and "exhale" oxygen. Humans breathe oxygen and exhale carbon dioxide. A balance can be developed only if the plants can handle the same volume of air as the people involved. A "gas converter" is the answer, and studies now underway may develop just that.

The conclusion: basic research—even on subjects that may seem silly to the average person—possibly produce important discoveries for the nation.

State Polio Cases Running Slightly Higher This Year

A series of three meetings will be held by the State Road Board in Tallahassee prior to adopting June 19 of the State Road Department budget for 1958-59, Ralph Davis, Executive Director, said today.

The deadline for tentative budgets to reach Tallahassee from the districts was set for April 7, and adoption of the tentative budget will be on April 17. The Road Board will hold a meeting and public hearing on the tentative budget May 22.

Road Board Member Albert L. Rogero has approved budget hearings for the first district March 20-21 in Bartow.

Road Board Member Earl P. Powers has approved budget hearings for the second district for March 13 in Lake City, and March 14 in Gainesville.

Road Board Member James Nelson Jr. has approved budget hearings for the third district for March 25 in Tallahassee, March 27 in Clewiston, and March 28 for Pensacola.

Road Board Chairman Wilbur E. Jones has approved a budget hearing for March 18 in Ft. Lauderdale.

Road Board Member William H. Dial has approved a March 18 budget hearing in DeLand for the fifth district.

Agency Records Being Criticized

TALLAHASSEE (UP)—State Auditor Bryan Willis has criticized records of the West Coast Inland Navigation District, but said the financial condition was good.

Willis in an audit of the agency's records for the fiscal year ending Sept. 30, 1957, said financial records were not well kept through April 1957, and the records were not currently posted.

"Checks were not carefully prepared and some checks were paid by the First National Bank of Bradenton, although the payee has been erased or changed," he said. "Some checks were paid, although not dated and some checks were paid even though they did not bear the signature of the chairman, which signature is required by law."

The auditor said the financial condition was good, finances were generally carefully managed and all collections of record were accounted for.

Up until 1944, congressmen were paid only six dollars a day and that was during the time Congress was in session.

The Sanford Herald SPORTS

Today's Sports Parade

By OSCAR FRALEY
United Press Sports Writer
NEW YORK — Ty Cobb, the old "Georgia Peach," figures that Ted Williams can go on "at least as long as I did" and the Boston Red Sox star agrees without question.

Cobb played until he was 43. Williams, who last season was the top hitter in baseball with a .388 average will be 40 in August.

According to Cobb's figures, Williams has at least three good seasons left in him and Williams backed this up by confiding to friends "I feel I have several more good years left."

"Several" is a rather indefinite span of seasons.

In Good Shape

"But you can't get away from the fact that Williams is in remarkable physical shape and takes care of himself," said Cobb, who hit .328 for the Philadelphia Athletics when he closed it out at 43.

Williams is looking forward eagerly to a season in which the rich Red Sox will pay him \$125,000. He is in happier winter spirits than ever and is concerned only about an ankle injury he suffered during a Labrador last fall. Doctors have told him the ankle will be all right but he admits "it still bothers me."

Cobb thinks he will be all right, too, and asserts that Joe DiMaggio "could have played a couple more years, too."

Joltin' Joe discloses that he could have "written my own ticket" to keep playing with the Yankees when he stepped down after the 1951 season at the age of 37.

"Dan Topping offered me a blank contract and told me to fill in my own figure," says DiMaggio. "But I knew I couldn't play every day and I wasn't worth that kind of money to the Yankees."

A Proud Man

There is more to DiMaggio's pride than meets the eye. He is extremely proud man. He cherishes the great moments he had with and for the Yankees and, when physical ailments cut down his efficiency and he faced periods of inaction on the bench, Joe decided that he owed it to himself as well as to the team to step down.

He played only 116 games in 1951 and batted what was, for him, a mediocre .263.

"But he could have played several more years," Cobb insisted after listening to these factors.

"My point is that all athletes have a longer playing life than they did in my day."

The famous giant crab of Japan is the largest known spider crab. It has legs from four to six feet in length.

FSU Coach Reveals Golf Schedule Plans In Final Stages For Major Stock Car Races

TALLAHASSEE—A variety golf schedule that includes 17 dual meets and two tournaments was released today by Florida State University golf coach Bill Odehal.

The Seminoles have already opened the schedule with a 297 triumph over a touring University of Wisconsin team. Their next meet is with Moody AFB at Valdosta, Ga., Feb. 17.

The two tournaments which the FSU golfers will enter are the Florida Intercollegiate at Ocala March 6-8 and the Southern Intercollegiate at Athens, Ga., May 1-3.

Florida State has won the Florida Intercollegiate title the past two years in a row. The golfers won nine of 10 dual meets last year and finished fourth in the national collegiate.

The FSU freshmen golfers will compete in six dual meets and the Florida Intercollegiate this spring. They open with Florida at Gainesville, Feb. 24.

March 3, Moody AFB at Tallahassee; March 6-8, Florida Intercollegiate at Ocala; March 11, Jacksonville Navy at Tallahassee; March 14, Pensacola Navy at Tallahassee; March 17, Georgia Tech at Tallahassee; March 22, Florida at Tallahassee; March 25, Georgia at Tallahassee; March 28, Jacksonville Navy at Jacksonville.

B. Morrow, J. Crow Get United Press Awards Last Night

DALLAS, TEX. — Track ace Bobby Morrow and football star John Crow got the highest accolades available to them as amateur athletes last night.

The Sullivan Award, emblematic of the nation's outstanding amateur athlete for 1957, went to Morrow, recognized king of the world's sprinters.

To United Press awards as the nation's football player of the year, the back of the year and as an All-American back went to Crow, who won those honors by sweeping margins in balling by the country's sports writers and sportscasters.

In addition to the UP awards, Crow also was honored by the Texas Sports Writers Assn. as year and southwestern of the year — two honors that Morrow won for 1956.

BOOK SIGN ROOKIE

BOSTON — Ronnie Stapler, a five-time, 185-pound catcher from Presque Isle, Maine, has been signed by the Boston Red Sox organization and will report to the club's Southern Association farm club in Memphis, Tenn. Stapler played for Colby College in Waterville, Me., the past three seasons.

Julia Ward Howe was the composer of the song with the line, "Mine Eyes Have Seen the Glory of the Coming of the Lord."

Giardello Looking For Summer Bout

PHILADELPHIA — It may be April in Paris for Joey Giardello or a Philadelphia fight with Neil Rivers, but who fourth-ranked middleweight took a long-range view today to a summer bout for the championship.

Giardello, who now has a run of 15 straight bouts without a loss in his comeback following his bad-boy reformation, left-handed his way past tough but untested Frank Sautina, the transplanted Texan, now living on Long Island, N. Y.

Giardello won the unanimous decision over Sautina in a nationally televised bout before 2,100 of his one-time home town fans. He now lives in Rosedale, also on Long Island.

Giardello won the unanimous decision over Sautina in a nationally televised bout before 2,100 of his one-time home town fans. He now lives in Rosedale, also on Long Island.

Ensley One Of Top Favorites In Race

NEW SMYRNA BEACH — Jack Ensley of Indianapolis, Ind. was rated as one of the top favorites for the 40-lap Paul Whiteman Trophy race climaxing a six-event sports car race program at New Smyrna Beach Airport Sunday afternoon with more than 80 drivers slated to take part in the second annual New Smyrna Beach program sanctioned by the Florida Region Sports Car Club of America.

But at least a half dozen Florida drivers and some from other neighboring states are ranked as real threats to take over the top honors in the final event of Sunday's race program.

The Sunday program gets underway at 10:30 a. m. with the first preliminary being a seven-lap race for novice drivers. Three 12-lap preliminaries follow at 11:00, 11:30 a. m., and 12:30 p. m.

The Windy Morton Memorial race, driving a Corvette, was the 15th in a 94-fight career and was won in the early rounds before the crowding Sautina loosened enough to do any effective punching.

"I was in terrific shape and could have gone 15 rounds," Giardello said as he made the most of the three official nods which stoned for his split decision win over the European in July, 1956.

"I couldn't get started until the sixth," Giardello explained about his seventh loss in 16 bouts since coming to America two years ago. "I felt I was winning the fight, but I guess I got started too late. He's a good boy and a tough fighter."

A survey shows that more than three out of every five brides do not know how much money their husbands earn.

Baffin bay was named for the explorer William Baffin.

FCC House Investigation To Erupt In New Fireworks Today

WASHINGTON (UP) — The House investigation of the Federal Communications Commission is expected to erupt in new fireworks today.

Quoted chief counsel Bernard Schwartz was recalled for a second public hearing to tell "all he knows" about alleged improper White House influence and official misconduct in the FCC and other federal regulatory agencies.

His return came on the heels of these developments:

—A source on the subcommittee

conducting the inquiry told the United Press "I believe there's something in the files" showing FCC Commissioner Richard A. Mack switched his stand on the controversial Miami TV Channel 10 award after becoming an FCC member. Schwartz has accused Mack of accepting \$2,000 from a store for National Airlines, whose subsidiary finally was given Channel 10 with Mack voting for the award. Mack has denied any impropriety.

—G. T. Baker, president of Na-

tional Airlines, demanded to be heard in the case and called for a sweeping investigation of a large number of persons including Schwartz; A. Frank Zatsenline of Miami Beach, unsuccessful contestant for Channel 10; Paul A. Porter, FCC chairman and Zatsenline's counsel in the contested case; columnist Drew Pearson and his assistant Jack Anderson; and present and former investigators for the subcommittee.

Rep. Oren Harris, chairman of

the House Commerce Committee, said Baker will be given a chance to testify "at the proper time."

A published report in a New York newspaper said today that Mack, before becoming an FCC commissioner, recommended Zatsenline for Channel 10 in a letter to the FCC. It said the subcommittee has the letter.

Mack, a Democrat appointed to the FCC by President Eisenhower, voted to award Channel 10 to Public Service Television Inc., a subsidiary of National Airlines.

All Fives Returned

Harris told the United Press today "I look like we've got all the subcommittee files back."

Some of the files of the group's behind-the-scenes inquiries were reported missing last week.

Harris said Schwartz, in his new role as a super-pointing witness, would be asked a few "cleanup" questions about his charges against Mack before getting into the alleged White House influence. However, it appeared likely the Miami TV case might keep the center of

the spotlight in view of late-breaking developments in the case.

Harris said when Schwartz completes testimony on the Miami case he will be permitted to testify on any other matters he had under investigation when he was fired last Monday night.

"We are going to let him tell the committee all that he knows," Harris said. "The committee wants all the information it can get."

"Influence" to be Abred

Asked specifically if this would

include Schwartz's charge of White House "influence" on supposedly independent regulatory agencies, Harris said, "he'll have an opportunity to present that."

Schwartz said Tuesday that before he was discharged he was making plans to "bring to light" the machinations of the White House clique in controlling decisions of the agencies.

He said this "clique" included

Pres. Adams and D. A. ...

... Sherman ...

... counsel Ger- ...

... merce Secre- ...

... tary Sinclair Weeks, former New York Gov. Thomas E. Dewey and Col. George Gordon Moore, brother-in-law of President Eisenhower's wife.

The bulk of this week's hearings will deal with the Miami TV case. Four Miami TV case names were mentioned by Schwartz Thursday were scheduled to testify Tuesday and Wednesday.

Mack himself was told to stand by for a possible appearance Wednesday.

Weather
Fair and continued cold today and tonight; low tonight 34 to 32.

Anglo-American Offer Accepted By France

TUNIS, Tunisia (UP) — France today officially accepted an Anglo-American offer to help solve the Tunisian dispute and Tunisia immediately eased its blockade of 22,000 French troops.

An announcement in Paris said the French government accepted an American and British offer to use their "good offices" to settle the dispute. Tunisia has hinted it would accept a firm offer, too.

The formal Anglo-American offer was made to French Foreign Minister Christian Pineau today by U. S. Ambassador to Paris Amory Houghton and British Ambassador Sir Gladwyn Jebb, former British representative to the United Nations.

was the first official accord reached between French and Tunisian authorities.

The terms of agreements made it seem possible the Franco-Tunisian dispute might be settled "out of court" rather than threatened out in the United Nations Security Council. The United States fears such a debate would hurt the entire Western cause.

Bourguiba threatened to open the entire question of the Algerian rebellion in the United Nations General Assembly—a move feared by France.

He also moved up troop reinforcements to France's billion-

dollar naval base at Bizerte. Tunisian newspapers said Tunisia was expected to publish a decree today ending France's treaty given rights to use the base.

Soviet "Relief Ship"

In addition, a Soviet "relief ship" carrying supplies for Algerian refugees was reported due here soon, raising anew the possibility that Russia would busy itself in the North African situation beyond its normal propaganda activities.

United Nations debate on Algeria as well as the French bombing of Sakiel Sidi Yousef still appear-

ed to be Bourguiba's trump card. France considers Algeria an integral part of France and bitterly opposes U. N. debate.

Sunday night Bourguiba telephoned Nasser and asked Ambassador Mongi Slim to bring a second complaint before the Security Council Tuesday when it takes up Tunisia's demands for action in the bombing of Sakiel. This would amount to an extension of the earlier complaint of "aggression."

The new complaint called the Algerian war a threat to North African peace.

Within minutes the Tunisian government announced it had agreed in principle to let 10,000 French troops confined to their bases, the French embassy announced in Tunis.

First Official Accord

Tunisia has alternately eased and tightened the blockade of French bases in Tunisia. Today's

MIAMI (UP) — Weathermen forecast a brief letup tonight in the severe cold wave over Florida but predicted possible snow in northern districts and a chilling rain over central and south portions Tuesday.

The Lakeland Frost Warning Service said frost would blanket most areas of Florida Wednesday morning following the 11th cold wave of the winter.

Temperatures this morning

dropped to the mid 20's in north Florida and the mid 30's in the Miami suburbs. Frost was spotty, although it was reported very heavy at Fort Pierce in the Indian River district.

Lows Tuesday morning, preceding the light rain or snow, will range from 26 in the extreme north to about 40 in the south—a few degrees higher than the lows this morning.

The successive cold waves caught the state's tourist trade from both directions today.

A blizzard in the northeast kept 91 airline flights grounded and an estimated 7,500 tourists away from

Florida's "gold coast" Sunday.

On top of that, a new cold wave gripped the Sunshine State.

The heavy snow in the north and east probably will cut sharply into tourist travel again today.

Subfreezing temperatures reached all the way southward to Lake Okechobee this morning and readings in the mid-30's were the rule south of the lake through the farming areas inland from the tourist centers.

It was the 10th cold spell of Florida's worst winter on record and the fifth to bring subfreezing temperatures in a little more than two months.

Weathermen predicted highest temperatures today would range between 44 to 50 in the northern portions of the peninsula and 50 to 60 in the south. It will be cold again tonight.

A warming trend, though it may be gradual and brief, is expected to arrive Tuesday afternoon.

Although cold, Florida's weather has been sunny for the past two days. And Miami registered a high of 60 degrees Sunday—a nippy 60 because a strong north-west wind was blowing.

Tourist spot operators said there was one good thing about the northern blizzard. True, potential tourists could not come to Florida but likewise, they pointed out, those already here could not return north.

Office Building Broken Into; Two Boys Apprehended

An office building at the new colored cemetery, property of Ray Slaton, was broken into Friday night and two juveniles apprehended.

Constable J. Q. "Slim" Galloway said this morning that Slaton went to his office Friday night and noticed someone running from the building.

Galloway said the two juveniles, both white boys, were apprehended about an hour later by tracking bicycle tracks that led from the building.

The juveniles lived in the neighborhood of the building. Constable Galloway said the boys gained entrance to the building by breaking a jalousie window and screen. They had taken a typewriter and other office equipment from the building and were preparing to take it away. However, lights from Slaton's automobile scared them away.

The two youths were turned over to Seminole County Juvenile Judge Wilson Alexander. They were released pending a hearing at a later date.

Reports Will Be Heard At Mental Health Meeting

The Seminole County Mental Health Association will meet tonight at 8 p. m. in the First Federal Savings and Loan Association Building, 119 West 1st St.

Mrs. B. E. Chapman announced that there will be reports from the Finance and Budget Committee and the Educational Committee.

Projects for this year will be on the agenda. The public is invited to attend, since all meetings are open to the public.

Glee Club Will Entertain Lions

The Seminole High School Glee Club, under the direction of Miss Ollie Reese Whittle, will entertain the Sanford Lions Club at its noon luncheon meeting tomorrow at the Yacht Club.

W. Hugh Duncan, president of the club, announced the program today.

Additional Local News On Page 3

Funeral Services For W. E. Jameson Tuesday Afternoon

Funeral services for William E. Jameson, 78, who died at Veterans Hospital, Bay Pines, at 8:30 Friday morning will be held tomorrow afternoon at 4 o'clock at Benson Funeral Home with Dr. R. E. Rutland of the First Methodist Church officiating.

The Elks Lodge will conduct services at the graveside in Evergreen Cemetery.

Mr. Jameson had spent 30 months in the hospital and had been ill for five years.

He was born Aug. 23, 1879 at Simuland, Ky. He came to Sanford from Kissimmee and had lived for here over 30 years.

He was a veteran of the Spanish American War and was a member of the local camp of Spanish American War Veterans. He was also a member of the Sanford Elks Lodge.

Survivors include his wife, Mrs. Mary E. Jameson, Sanford; one son, Henry M. Jameson, Sanford; one grandson, William E. Jameson III; and one niece, Mrs. J. C. Trawick, Sanford.

FSU Band Performs At SHS Tomorrow

The Florida State University Symphonic Band will present an excellent example of the quality of musicianship of the FSU School of Music with the performance here tomorrow at Seminole High School beginning at 1:45 o'clock, of "Three Candy Cornets," a trumpet trio played by Charles Turner, Calvin Hasbrouck, and Mike Higgs. The group is being featured during its 1958 Annual state tour of the band.

This entertaining number is an unusual type of trumpet trio featuring the muted sounds of the trumpet. The performers make up the trumpet section of the Symphonic Band and they have had considerable professional experience as a group.

Charles Turner, a senior from Bunnell, Florida, has been active in the Marching Chiefs and Symphonic Band during his four years of college. He is majoring in Applied Music and is presently leading a well-known campus dance band, the Commodores. Charles has had experience with Ralph Flanagan and his band.

Calvin "Sonny" Hasbrouck is a graduate student at Florida State University from Tallahassee. He received his Bachelor's degree in Music from FSU in 1955 and served as band director in Quinman, Georgia for one year. He is currently working on his Master's degree in Music and is a graduate assistant.

Former Sanfordite New Ox Fibre Brush Company President

A former Sanford man was elected president of the Ox Fibre Brush Co. recently.

Frederick W. Weitzel was named president of the company at a meeting of the board of directors held in New York City.

Weitzel fills the vacancy created by the tragic death of A. R. McEwen, who died in a fire at his home in Hartman, N. J., Jan. 10.

The new Ox Fibre Brush Co. president, while in Sanford, was a member of the Masonic lodges here, president of the Sanford Lions Club, and interested in such active in civic affairs.

Having been associated with Ox Fibre for the past 30 years, Weitzel has served as vice president and president of the biggest sales agency of the company since 1954.

Central office of the company, which has subsidiary plants in Benson Junction, Fla., and Clayton, N. J., will continue to be located at Frederick, Md., a company spokesman said. Weitzel, who resides at Braddock Heights, Md., will continue to live there.

Weitzel became associated with Ox Fibre Brush Co. in 1928, coming to Florida as manager of the Palmto Fibre Processing Plant at Benson Junction. It was under his supervision that whisk broom production was begun. Ox Fibre originated Palmto whisk brooms which became one of the most successful sales items developed by the company.

In 1931, Weitzel was transferred to Frederick, Md., as general superintendent. His promotion to general manager of Ox Fibre came in 1938 and following 23 years at the Air Force during World War II, during which time he served as Lieutenant Colonel in the North Atlantic Division of the Air Transport Command, he rejoined the company and became vice president and director.

Building Permits Near \$1 1/2 Million Mark In County

Building permits soared to a valuation near the \$1 1/2 million mark when Robert S. Brown, Seminole County Zoning Commission director reported last week's total.

Brown said this morning that 28 permits for the construction of homes and buildings were issued last week at an estimated valuation of \$237,544.

Permits fees amounting to \$237 were collected.

Last week's permits bring the total number issued since Nov. 19, 1957 to 178. Only 2 permits were issued last December and 19 were issued during November.

Since Jan. 1 of this year more than 150 permits have been issued by the newly established office with fees collected amounting to more than \$1,500.

Estimate of valuation of permits issued since Nov. 19 of last year comes to \$1,463,153, Brown said in his report this morning.

During the first two weeks of Feb. a total of 60 permits have been issued. By the end of the month it is expected that the number of permits for February will exceed 150.

THOMPSON IN BERLIN

BERLIN (UP) — Lewellyn Thompson, U. S. ambassador to Russia, resumes his air journey to Moscow today after conferring here with David Bruce, U. S. ambassador in West Germany. Thompson stopped off in West Berlin on route to Moscow from Washington where he conferred with President Eisenhower.

Waterway Extension Support Is Sought

TAMPA (UP)—The Florida Waterways Committee was asked Friday to support an extension of the proposed West Coast Intercoastal Waterway from Tampa Bay to Fort Myers.

The proposed waterway, which has been authorized by the federal government, would extend from St. Marks River to Tampa Bay. The committee was asked at

its quarterly meeting today to use its influence in having the proposed waterway extended from Tampa Bay to Fort Myers.

This would enable barge traffic to move between the Lake Okechobee area and the port of Tampa.

The committee, headed by Chairman John Krider of Sanford, took no immediate action.

A statement prepared by Geo and Jenson, Consulting Engineers, Inc., of West Palm Beach, gave the status of the proposed Sanford-Titusville Canal Project, which the Army Engineers claim is economically not feasible.

The report by the consultants pointed out that the aim of the proposed project is to make a through waterway from Port Canaveral to central Florida. It pointed out that the Navy has recently dredged the Canaveral harbor to a depth of more than 30 feet and that further improvements are planned.

U. S. Army District Engineers have reported unfavorably on the proposed project and the unfavorable report now awaits review by the Board of Rivers and Harbors of the Corps of Engineers in Washington.

Krider reminded interested parties today by letter that a meeting will be held in Sanford on Feb. 21 to further discuss action to be taken in reversing the decision of the Army Corps of Engineers "unfavorable" report on the Sanford-Titusville Canal.

Those meeting in Sanford Friday are members of a committee appointed at a recent meeting held in Orlando. Krider is chairman of the committee which includes George Gibbs of Jacksonville, George King of Port Canaveral, Earl Brown of DeLand, Ransom Downs, Orlando, A. W. Lee, Sanford and Lester Bush of Palatka.

It is also expected that Col. Herbert Gee of the Engineering firm of Gee and Jenson of West Palm Beach and Dr. R. W. Bradbury, transportation economist of the University of Florida in Gainesville, will also attend the meeting. The hearing before the Board of Rivers and Harbors in Washington have been set for late April.

New York Resident Dies Here Saturday

John Henry Hoffmeister, 53, died early Saturday morning shortly after arriving here from New York City.

Mr. Hoffmeister was born in New York City July 20, 1902. He came to Sanford Friday night. He is survived by one sister, Mrs. Henrietta Vogt of Washington, D. C.

Remains were sent to New York City this afternoon for funeral service and interment.

Hoffmeister's funeral home was in charge.

Pyramids Discovered

CAIRO (UP) — Italian archaeologists have discovered 15 small pyramids dating back 35 centuries near the Egyptian-Sudanese border town of Wadi Halfa. It was reported today.

Special Commission Meet Called Tonight

A special meeting of the Board of Sanford City Commissioners has been called for tonight at 8 p. m. in the commissioners room of the city hall.

The agenda calls attention to two special items to be discussed.

There will be a joint discussion with the Sanford Housing Authority concerning the maintenance of sewer lines within the housing project.

Second item on the agenda is a review of a proposed draft of the gas company franchise.

A franchise for the gas company to operate in DeLand has been studied with the possibilities that a similar document could be prepared for presentation to officials of the Sanford Gas Company for consideration.

Commissioners requested officials of the Sanford Gas Company to prepare a franchise to be sub-

Music, Mystery To Highlight Club Session Tomorrow

Mystery and music will highlight the meeting tomorrow night of the Sanford Tourist and Shuffleboard Club at the club rooms in Fort Mellon Park. The event will start at 8 o'clock with a covered dish supper following which a program under the direction of Sanford's "good will ambassador," Charles Morrison, will be staged.

The mystery part of the program will be a demonstration of extra sensory perception by Ernest Southward, vice-president and general manager of the Southward Mfg. Co., here. Southward, who has made a reputation as a magician of note, has enlarged his hobby to embrace the field of naming objects held by volunteers in the audience, which he is thoroughly blindfolded. His dictionary experiment has baffled all who have seen it and it is anticipated that tomorrow night's group will not be able to determine how it is done.

Morrison, with the aid of Arthur Greer, manager of the Sanford Gas Co. will lead a period of community singing, always a popular feature with the members of the local organization.

Dr. Matthews Will Address Open Meet Tuesday

Dr. Cooper Matthews, principal of the Forest Park School for exceptional children will speak tomorrow night at 8 o'clock at an open meeting to which the public is invited.

The program, sponsored by the American Home Department of the Sanford Woman's Club, will be held at the Woman's Club building on Oak Ave.

Dr. Matthews will speak on and discuss "The Education of the Handicapped Child." He will show movies along with his discussion.

A spokesman for the American Home Department said "This is an important subject which many of us should hear and we urge as many Sanford and Seminole County citizens as possible to hear Dr. Matthews."

Funeral Services For W. E. Jameson Tuesday Afternoon

Funeral services for William E. Jameson, 78, who died at Veterans Hospital, Bay Pines, at 8:30 Friday morning will be held tomorrow afternoon at 4 o'clock at Benson Funeral Home with Dr. R. E. Rutland of the First Methodist Church officiating.

The Elks Lodge will conduct services at the graveside in Evergreen Cemetery.

Mr. Jameson had spent 30 months in the hospital and had been ill for five years.

He was born Aug. 23, 1879 at Simuland, Ky. He came to Sanford from Kissimmee and had lived for here over 30 years.

He was a veteran of the Spanish American War and was a member of the local camp of Spanish American War Veterans. He was also a member of the Sanford Elks Lodge.

Survivors include his wife, Mrs. Mary E. Jameson, Sanford; one son, Henry M. Jameson, Sanford; one grandson, William E. Jameson III; and one niece, Mrs. J. C. Trawick, Sanford.

FSU Band Performs At SHS Tomorrow

The Florida State University Symphonic Band will present an excellent example of the quality of musicianship of the FSU School of Music with the performance here tomorrow at Seminole High School beginning at 1:45 o'clock, of "Three Candy Cornets," a trumpet trio played by Charles Turner, Calvin Hasbrouck, and Mike Higgs. The group is being featured during its 1958 Annual state tour of the band.

This entertaining number is an unusual type of trumpet trio featuring the muted sounds of the trumpet. The performers make up the trumpet section of the Symphonic Band and they have had considerable professional experience as a group.

Charles Turner, a senior from Bunnell, Florida, has been active in the Marching Chiefs and Symphonic Band during his four years of college. He is majoring in Applied Music and is presently leading a well-known campus dance band, the Commodores. Charles has had experience with Ralph Flanagan and his band.

Calvin "Sonny" Hasbrouck is a graduate student at Florida State University from Tallahassee. He received his Bachelor's degree in Music from FSU in 1955 and served as band director in Quinman, Georgia for one year. He is currently working on his Master's degree in Music and is a graduate assistant.
