

NATO SHAKING AT TOP AND BOTTOM—A British dispute with Iceland over fishing waters, added to the Greece-Turkey squabble over Cyprus, has NATO (countries in black) rocking at top and bottom. Next month, Iceland will begin to enforce an extension of fishing limits from three to 12 miles. Britain threatens to send warships along with trawlers if this happens. Norway and Sweden, fearing Iceland's action will divert fishing to their waters, may follow suit. Iceland's fisheries ministry is headed by a Communist. Map shows importance of Iceland to NATO.

Strangler Smiles, Tells Child Mother Okay; She's Dead

BIRMINGHAM, England (UPI)—A strangler walked out of the bedroom where he had just raped and murdered Mrs. Joyce Green and smilingly told her terror-stricken 6-year-old son, "Don't cry, sonny, your mother's all right."

Police said the 31-year-old man put up a fierce struggle before she was murdered Monday shortly after her husband had left for work.

Little Stephen Green hid under the covers of his bed when he

saw the man attack his mother. When her screams stopped he got up again and met the killer face-to-face.

After the killer spoke to him and left the house, Stephen tried to rouse his mother, then ran sobbing to a neighbor. "Mother's dead, mother's dead."

Under patient questioning by Scotland Yard's murder squad, the boy told his story and described the murderer as "a big man in blue with a white face."

Proposals Studied On 'Lagging' Wage

SAN DIEGO, Calif. (UPI)—Delegates to the national convention of the American Federation of Government Employees today studied proposals to increase the pay of government workers.

One of the plans was presented by James A. Campbell, national president of the federation, who charged that a lag in adjusting salaries of government workers has "greatly harmed" career service.

Campbell said there have been only two general pay increases for government workers in the past seven years and that many classes of federal employees are lagging far behind the pay received in private industry.

He proposed annual salary hikes for government workers to meet

Campanella Makes Big Impression On Little League Team

NEW YORK (UPI)—Baseball's Little League champions from Monterrey, Mexico, aren't likely to forget their visit with one of Monterrey's all-time sports heroes—Roy Campanella.

Years ago the father of the kids from "south of the border" parted with delight when Campanella slugged homers for the Monterrey team in a Mexican league back in the days before Campy joined the Brooklyn Dodgers and became one of the most famous catchers of all time.

So the kids knew all about Campy from the stories their fathers told, and were looking forward to visiting him.

Campy met them at the NYU Bellevue Medical Center where he is waging his battle to overcome the paralysis that has gripped much of his body since he suffered a broken neck in an auto accident last January. He was sitting in a wheelchair.

Campanella, who learned to speak Spanish in his Mexican league days, talked with the boys in their own language. He asked them about all the homers they hit and he told pitcher Hector Torres he remembered playing ball with his father—"He could have made the major leagues."

The kids left quietly when the visit was over. They were just as impressed by Campy as their dads were—but for a different reason.

Unfinished Business

TOPEKA, Kansas (UPI)—It took police to assure a pinball player he could return the next day to collect on the 12 tag games he had just won at a tavern's legal closing time.

Railroad To Move Lakeland Stations

LAKELAND (UPI)—The Atlantic Coast Line Railroad will move out of downtown Lakeland. P. J. Lee, assistant ACL vice president from Tampa, told the City Commission Tuesday the railroad will move its freight and passenger stations and most of its track "in the very near future."

The railroad will comply with a city proposal by which the ACL will accept eight acres of outlying land from the city to build new terminals. In turn, the city will take over the four-acre site on which the terminals are now located.

News Of Men In Service

ANNAPOLIS, Md. (UPI)—Enrolled as a midshipman of the Fourth (freshman) Class at the U. S. Naval Academy at Annapolis, Md., is Michael A. Tammy, son of Col. and Mrs. Lewis D. Tammy of Sanford, Fla.

Tammy graduated from the Seminole High School at Sanford. He entered the Naval Academy on a Presidential appointment, and was sworn in as a midshipman on June 30.

Members of the "plebe" class are scheduled to be graduated in 1962 and are now receiving intensive indoctrination in advance of the regular academic year which begins in early September.

SANTA ANA, Calif. (UPI)—Marine Sgt. Ray C. Henderson, son of Mr. and Mrs. H. W. Henderson, 514 Melrose Ave., Sanford, Fla., and husband of the former Miss Donna McTeer of Sanford, Fla., is serving with the Third Marine Aircraft Wing at the El Toro Marine Corps Air Station, Santa Ana, Calif.

He Drives Boat, She Falls; Seeks Absolute Divorce

KNOXVILLE, Tenn. (UPI)—Mrs. Jean Brownfield, 34, asked absolute divorce from her husband Monday, charging that he operated the family boat in such a manner as to cause her to fall when she was water skiing.

Mrs. Brownfield charged that, among other things, that although she has "gained an average of better reputation in water sports" her husband, Paul E. Brownfield, operated the boat in such a manner as to cause her to fall when they go water skiing.

Mrs. Brownfield said he did this to "humiliate" her in the presence of friends.

They Got Message

NEWINGTON, Conn. (UPI)—Apostolia Tolis, co-owner of the Newington Theater, wrote police that he would not pay for the services of an officer at the theater. That night his safe was robbed of \$250.

Autopsy Scheduled

MIAMI (UPI)—An autopsy was scheduled today to determine the cause of the death of a power company lineman who died while fastened with a safety belt to the top of a utility pole.

He Finished Fast

ASHFORD, Conn. (UPI)—Jack Barry of Merchantville, N. J., won the annual nine-mile road race around Lake Chaffee, but he had to outdistance a dog named Pope in get to the finish line safely.

WILBUR C. KING
Sole Springs, Hardee County, Florida

Dear Mr. and Mrs. Votaw:

I am again candidate for the important office of Commissioner in Group 3 on the Florida Railroad and Public Utilities Commission.

I have faithfully served all the people of Florida in this capacity for the past 11 years.

Our Florida is growing rapidly and needs opportunities to guide its growth. My record shows I am fully equipped to meet the requirements of this office.

I sincerely solicit your vote and active support.

Most gratefully,
WILBUR C. KING
Candidate
Florida Railroad and Public Utilities Commission, Group 3

Commissioners Tell Why Engineer Fired

Three members of the Board of County Commissioners today cited the reasons for the dismissal of William Hoag as county engineer.

4. In the opinion of the undersigned (Dodd, Dyson and Little), he failed to exercise good judgment in the handling of the department's personnel.

of this county want, and expect their County Commission to employ personnel who are capable of doing the job they are hired for.

AUTO HEIRRESS JAILED - Mrs. Horace F. Dodge II, wife of the heir to the auto fortune millions, is pictured after her release on bail from a Los Angeles, Calif., jail.

Government Asks Court To Back Negroes' Case

Marshall Leads Off Testimony; Judges Submit Questions

Integration At-A-Glance

United Press International - Attorneys at three integration "hot spots" in Virginia prepared today for a series of court battles that are expected to continue right up to the opening of school next week.

Virginia districts, seeking to knock down the state's pupil assignment law, interest has centered on Norfolk, Arlington County and Charlottesville.

Attorneys Seeking Ruling To Return Seven To Central

WASHINGTON (UPI) - The government asked the Supreme Court today to let seven Negro children return to Little Rock's Central High School when it opens Sept. 8.

News In Brief

NEW YORK (UPI) - Four out of five drivers 60 years old and over suffer from eyestrain problems that make them a risk on the highway, according to the Motorists' Vision Committee of the American Optometric Association.

hold Enix today on the grounds that he had written a speculative story about Jordan.

"We assure the people of Seminole County that Mr. Hoag was not fired with any malice or spite," the three officials said.

Shakespeare Visits

STRATFORD, Conn. (UPI) - A recent visitor to the American Shakespeare Theater here was a man named William Shakespeare.

Noted Inventor Dies - PALO ALTO, Calif. (UPI) - Nobel Prize winner Dr. Ernest O. Lawrence, 57, inventor of the atom-smashing cyclotron, died in Palo Alto Hospital Wednesday night after an operation.

"It did not improve and, on the basis of complaints, we felt that, in our judgment and for the best interest of the county, he should be discharged. Unfortunately, Mr. Hoag did not measure up to the expectations of at least three members of the Seminole County Commission, incidentally we would like to reveal his figures as to how he saved Seminole County \$10,000 in this five-month period."

Reporter Expelled

AMMAN, Jordan (UPI) - Jordanian authorities expelled Associated Press correspondent Rein

23 Killed, 13 Hurt - TAIPEI, Formosa (UPI) - Twenty-three persons, most of them teen-age girls, were killed and 13 other persons were injured Tuesday when a fireworks factory exploded in Chiayi in central Formosa, reports reaching here Wednesday night said.

Hoover To Donate Pension To Charity - NEW YORK (UPI) - Former President Herbert Hoover and today he will give to public charity what the tax collector doesn't take of his \$25,000 a year presidential pension.

Citrus Owners Get Break; Judge Says Pay Limit Invalid

WINTER HAVEN (UPI) - A circuit judge declared unconstitutional Wednesday compensation limits in the state Plant Board's "push and treat" program for radiating the citrus disease spreading decline.

Turkey Crop Drops - WASHINGTON (UPI) - The Agriculture Department estimates the 1958 turkey crop at about 78 million turkeys—four per cent less than in 1957.

Wedding Planned - HOLLYWOOD (UPI) - Actor Ty Hardin, 28, and actress Andrea Martin, 23, who recently postponed their marriage plans on the advice of their agents, plan to be married Sunday at 10:30 a.m. at the First Baptist Church in the San Fernando Valley.

New Tank Planned

OAK RIDGE, Tenn. (UPI) - The Atomic Energy Commission announced Wednesday it is planning construction of a 325-foot water tank, the highest in this country, to store water for additional fire protection at the atomic installation here.

He Fenced Her In - NORWALK, Conn. (UPI) - Concetta Palumbo won a divorce after complaining that her husband kept her penned up at home for nearly eight years. Her husband is a fence contractor.

McDonald Backs School Bond Issue - The president of the Sanford Junior Chamber of Commerce today endorsed the proposed school bond issue in Seminole County, to be on the Sept. 9 primary election ballot.

Airline Attempts To Prevent Strike

WINSTON-SALEM, N. C. (UPI) - Piedmont Airlines President Thomas W. Davis says he hopes company pilots will accept a new wage plan that would ward off a scheduled strike of pilots set for Monday night.

Son Succeeds Father - MADISONVILLE, Tenn. (UPI) - The post of criminal court judge for Tennessee's fourth judicial district is strictly a family affair. When Judge R. Beecher Witt stepped down after 32 years in the job, he was succeeded by his son—James C. Witt.

Quotable Quotes - United Press International - LOS ANGELES - Mayor General William P. Rogers, on school integration: "There is no state, granting the will, which cannot maintain law and order and at the same time prevent a final decision of a court to be carried out."

Helping Modern Man

Wage increases along with a pension program, rules and working conditions are under dispute. Regarding wages, Davis said, "We made an offer to the union some time ago that is as high or higher than any other in the local service airlines industry."

Lasting Impression - CHICOPEE, Mass. (UPI) - George Holcomb's interest in Indiana started when he had his picture taken with Iron Trail, the Indian who posed for the old U. S. nickel. That was 44 years ago, when Holcomb was 10. Now he owns about 5,300 paintings and photographs of the American Red Man.

One Card For All - WILLIAMSTOWN, Mass. (UPI) - Prof. Frederick L. Schuman of Williams College sends one greeting card a year to each of his friends. Every summer Schuman wishes them a Merry Christmas, "best and next," a Happy New Year, "last and next," and greetings for Memorial Day, Independence Day, Labor Day, Thanksgiving Day and "any other holiday you are a mind to celebrate."

Postmaster Given 'Retiring' Party

LONGWOOD - Mrs. L. R. Payne, retiring postmaster, was honored at a surprise party, given at her home on Rock Lake by the employees of the Longwood Post Office.

Helping Modern Man - Wilson spoke at the 1958 Kappa Tau Alpha dinner before the convention of the Association for Education in Journalism. The convention, attended by more than 300 journalism teachers and administrators, opened the 50th anniversary of the Missouri University School of Journalism.

Stolen Car Found Burned In Grove - A 1957 model automobile was found abandoned and burned in an orange grove off Red Bug Road late yesterday afternoon.

Newspaper Reflects Today's Living Pace

Justice Department Says Integrate In Brief Filed With Supreme Court

WASHINGTON (UPI)—The Department of Justice filed a brief with the Supreme Court today urging that the earlier decision of the Court in racial integration of Central High School in Little Rock be affirmed.

The department, speaking for the federal government and President Eisenhower, backed attorneys for the NAACP in asking that the court set aside a stay order issued by the 8th Circuit Court of Appeals.

The decision could come late today.

The government brief, signed by Sol. Gen. J. Lee Rankin, said the earlier decision of the Supreme Court is correct in that it recognizes that the narrow grounds of opposition, violence, and unlawful acts do not justify a postponement of the plans.

The brief said there is "no evidence in the record to indicate that determined local authorities cannot handle, if necessary, any future disturbances occurring in or around Central High School."

Troops were dispatched to Little Rock last fall to prevent interference with integration.

The government brief made it clear that the Justice Department believes the Supreme Court has the full power to grant the petition for removal of school integration blocks.

Judicial Errors

The brief said Judge Lemley's decision rested on two "basic misconceptions"—first, as to the governing principles laid down by the Supreme Court for determining when a delay in carrying out integration orders may be allowed, and secondly, as to the extent to

which "constitutional rights may be nullified or impaired because of hostile actions taken by those opposed to the exercise of such rights."

The government said the Supreme Court itself has made it clear "that mere popular hostility, where it exists, can afford no legal justification for depriving Negro children of their constitutional rights."

The school board in a brief filed this week declared that feeling was at such an "emotional pitch" that troops again would be required to enforce integration.

The government brief said there is not the "slightest suggestion that the colored children did anything to incite violence or disorderly conduct."

"Because they were colored," it added, "their mere presence in the school led others to engage in the conduct which the district court thought to be sufficient justification for suspending the children's constitutional rights—rights which can be enforced only while they are of school age, so that any suspension of their rights is actually a permanent and irretrievable deprivation."

Bombing Attempts Laid To Terrorists

INDIANAPOLIS (UPI)—Police today blamed terrorists for an attempted bombing at the home of Maurice Hutcheson, president of the Carpenters Union, and a blast which shattered windows at another union officer's home.

Police Chief Frank Mueller ordered special guards to patrol Hutcheson's home and the homes of other officials of the Carpenters Union.

Police Lt. Richard Calne said he doubted if the unexploded bomb found at Hutcheson's home or the one which damaged the home of international vice president John R. Stevenson Tuesday night were intended to kill anyone.

"I do not consider this an attempt on Hutcheson's life," Calne said.

95 Negro Children Plan To Enroll In Integrated School

NASHVILLE, Tenn. (UPI)—A total of 95 Negro children registered Tuesday to attend integrated first grades here, with no trace of the violence that attended last year's desegregation activities.

John Kasper, who led segregation proponents last fall, did not appear and there were no demonstrations as integration in the city began its second year.

Seven elementary schools will have mixed classes this year. Five of the seven were integrated in the 1957-58 school year.

The integrated schools are Fehr, Glenn, Clemons, Caldwell, Buena Vista, Jones and Fall. Caldwell and Jones were not integrated previously.

Fehr, Glenn, Clemons and Caldwell each had one Negro first grader while Buena Vista had seven and Jones and Fall two each.

On Sept. 5 the second and all other elementary grades will register, and school begins Sept. 8. This year the second grade will be integrated under a grade-year plan approved by the federal court here.

A total of 115 Negro students were eligible to register for mixed first grades this year, but many Negro parents asked for transfers.

Picnic Scheduled By Church Sunday

SLAVIA—The annual picnic of St. Luke's Lutheran Church and School will be held Sunday, beginning at 1:30 p. m. on the church picnic grounds.

Games, races, and contests for all ages, including adults, will take place throughout the afternoon. The usual picnic refreshments will be available, plus a party booth and hamburger stand. Members and friends of the congregation are invited.

Legs 'Out Of Gas'

HAMDEN, Conn. (UPI)—After he had driven eight miles on his tricycle, four-year-old Donald Clarkson of North Haven was found exhausted and crying. He told police, "I ran out of gas."

6 Die In Building

POLIGNO, Italy (UPI)—A two-story addition to a building collapsed here Monday, killing the owner of the building, his wife and one son and three workmen.

Guard To Aid Law

INTEGRATION TOO FAST — IKE — President Eisenhower appears to be ducking as he walks with Press Secretary James Hingerty to his new conference in Washington. The Chief Executive acknowledged friends that racial integration in schools should be moving at a slower pace. (UPI TELEPHOTO)

Florida Gridders Report Saturday

GAINESVILLE — A contingent of some 70 varsity candidates and 50 freshmen will report to the University of Florida campus this Saturday evening, prior to beginning football practice next Monday morning.

Head Coach Bob Woodruff, beginning his ninth season as chief of the Gators' football team, will greet the team for the first time this fall at the evening meal on Saturday.

On Sunday the varsity squad will gather at Florida Field to pose for newspaper photographers and television cameramen, beginning at 9:30. Newspapermen and television personnel will be honored at a luncheon at the Gainesville Golf and Country Club following the photo session.

While a majority of the players on the Florida team have but short distances to travel since they reside within the State, several will need to get an early start in order to arrive on time.

Captain Don Fleming, star left end, will journey from Shady-side, Ohio, and three others will come with him from the Ohio-West Virginia area.

Conservation Work Money Available For Area Farmers

Curtis J. Green, Farmers Home Administration county supervisor, reported that area farmers are thinking of better conservation methods, development of farm water supplies and good drainage as means of improving their farm value and to increase their income.

Green called attention to a loan program available to eligible farmers, to help carry out such improvements. The making of soil and water conservation loans to farmers who are eligible, is one of the functions of the agency's county office located in Room 317, Sanford Atlantic National Bank, Sanford.

To be eligible for a loan, the applicant must be a farm owner or operator, with necessary experience, whose credit requirements for soil and water conservation improvements cannot be supplied by private or cooperative sources. Each county has a three-member county committee and one of its duties is to determine whether an applicant is eligible for a loan.

Under the present program, the agency has completed four years of making soil and water conservation improvements. During this time, 120 individual farm families throughout the nation, plus 14 associations serving 5,200 families, have borrowed \$13,109,000. Under the present fiscal year, Congress has made \$5,500,000 available for direct soil and water conservation loans.

Sports Parade

By OSCAR FRALEY
United Press International
NEW YORK (UPI)—Frankie's reflections on sports in general.

If they're really trying to find Frankie Garbo, why don't they look in Mexico City?

It's amazing to me how those high board divers keep from getting punch drunk. (And I don't mean the ones in Madison Square Garden.)

If I could catch fish on a hook as easily as I catch the hook in my pants I'd be the world's greatest fisherman.

Picking All America teams is one of the dullest pastimes of them all.

Argue all you want, but Roy Campanella always got my catching business ahead of Yogi Berra.

Like a Penn State.

If honey can litters into Cadillacs, Robin Roberts oughta buy an agency.

Penn State's Murray Horn shines up as the King of the golden bear this fall.

A three-foot putt has to be the toughest shot in golf. (Aside from hitting the ball straight.)

It takes more guts than a burglar to parlay Bermuda shorts and a Van Dyke hair into a million dollars today in the best-of-five playoffs.

In the Tuesday action, Dolhan shot out Columbus, 6-0 and Selma defeated Pensacola, 1-5. Each team now has won one game and lost one.

Daytona Hotel Says Ireland Didn't Pay

DAYTONA (UPI)—A warrant has been issued here for the arrest of actor John Ireland who is accused of failing to pay a \$1,375 hotel bill, it was reported today.

Circuit Clerk Jeta Mathias said a capias warrant was issued for the actor's arrest with bond set at \$2,500.

State Atty. W. W. Judge said he filed a larceny by fraud information against Ireland after a Daytona Beach hotel manager complained he was unable to collect payment on the bill run up in July, 1957.

Hotel Manager W. Scott Petrol said Ireland gave him a check for the bill before checking out, but said it would have to be collected by an agent in New York City. Petrol said he sent the check to the designated agent and it was never returned.

Ireland was staying in Daytona Beach at the time while working in summer stock.

'Spy' Is Reported

LONG BEACH, Calif. (UPI)—Carmen Basilio will meet Art Aragon in a 10-round bout at Los Angeles Sept. 5, called off a scheduled sparring session Tuesday when he spotted a "spy" in his training camp. Basilio changed his plans when he learned Benny Covars, who helps train Aragon, was in the audience.

Playoffs Deadlocked

By United Press International
The four top finishers in the Alabama-Florida League were tied up today in the best-of-five playoffs.

In the Tuesday action, Dolhan shot out Columbus, 6-0 and Selma defeated Pensacola, 1-5. Each team now has won one game and lost one.

Driver's Licenses On Sale Sept. 2.

TALLAHASSEE (UPI)—Florida's 1958-59 driver's licenses go on sale throughout the state Tuesday, Sept. 2.

Floridians bought 2,197,668 driver's permits last year and more are expected to be sold this year. The new license is good until Sept. 30, 1959.

Your present license expires this coming Sept. 30.

Cost of the license is \$1.25, of which 25 cents goes for driver education in the schools. They are sold through county judges' offices.

Legal Notice

Notice of Public Hearing
The Board of Seminole County Commissioners will consider a proposed regulation regarding the placing of any billboard type sign or any advertising signs on any County right of way, with the exception of temporary directional signs not larger than 7' x 30' which may be erected on County rights of way such signs shall be not more than forty-four (44) inches high to the top from ground level, that they be placed so as not to provide a traffic hazard and that they receive approval of the Zoning Director at the location.

Public Hearing will be held in the Seminole County Court House, County Commissioners' room on Thursday, September 18, 1958 at 2:00 P. M. or as soon thereafter as possible.

Board of County Commissioners
Seminole County, Florida
By John Krider, Chairman
Attest G. E. Herndon, Clerk

SEMINOLE COUNTY ZONING COMMISSION
Notice of Public Hearing
To whom it may concern:
The Seminole County Zoning Commission, in accordance with Section 20 of the Seminole County Zoning Regulations, proposes to recommend to the Board of Seminole County Commissioners an amendment to Section 12 of the Zoning Regulations as follows:

Section 12.01 of the Zoning Regulations shall be amended to read:

Section 12.01. The setback of all buildings from the side property lines shall be 10% of the lot width, provided that such setback shall be not less than seven and one-half (7 1/2) feet, and provided in no case shall the setback be less than 2 feet. The setback measured from the ground level on the adjacent side of the proposed building. The setbacks of all buildings from the rear property lines shall be not less than ten (10) feet. The above shall apply to all lots or parcels of land in all residential districts, or residences and their auxiliary buildings which may be built in any district. The rear yard requirements shall apply in any district.

The setbacks of all buildings from the side property lines shall be as follows: Side yards shall be not less than seven and one-half (7 1/2) feet. The setbacks of all buildings from the rear property lines shall be not less than ten (10) feet. Board Voices Hope Court To Postpone Little Rock Mixing

WASHINGTON (UPI)—Little Rock School Board members today voiced revived belief the Supreme Court may uphold their fight to postpone integration at Central High School.

However, government attorneys said the high court's scheduling of a full hearing on the case Sept. 11 was merely giving the school board "due process" of law. They predicted the court would order immediate integration.

U. S. Solicitor General J. Lee Rankin called inconceivable the idea the court would uphold an order by Federal Judge Harry H. Kalb that would delay integration at Central High for 2 1/2 years.

Defers Decision

The Supreme Court late Thursday afternoon deferred until Sept. 11 a decision in the case in order to give the school board an opportunity to prepare its arguments.

The board members headed by School Superintendent Virgil T. Blossom planned to return this afternoon to tense Little Rock where the Arkansas Legislature already has named Gov. Orval Faubus with power to close Central High rather than have Negroes attend it.

They immediately faced the question of whether Central High would open on an all-white basis Sept. 8—three days before the extraordinary hearing—rather than Sept. 15 as expected by the Supreme Court.

Space Law Needed To Protect Moon, Official Declares

By ROBERT MUSEL
United Press International

THE HAGUE (UPI)—The American presence of the International Astronomical Federation expressed concern today over the possibility the Russians may try to annex all or part of the moon.

At a meeting in Washington today, the nations most likely to be the first to land men on the moon—will let the United States decide whether earth nations should be allowed to claim moon territory.

Hayley said specifically he would "feel happier" if the Russians would give some assurance they have no territorial designs on the earth's first satellite.

He also urged regulations requiring nations who launch "man-made moons" to install controls that would prevent their becoming a menace to life and property.

"As the satellite vehicles grow larger and larger, the metal scattered in the death plunge (when they disintegrate on reentering the atmosphere) will become more and more dangerous," he said.

"We must therefore provide, through the means of radio command, that the nation which projects a satellite will be able to guide that satellite to earth in an area free from threat to life and property, or destroy it harmlessly."

"No one seems to realize the terrible implications of placing earth-landing vehicles in orbit without first providing means to control these vehicles."

Civilians Endorse School Bond Issue

The Civitan Club of Sanford voted unanimously to support the school bond issue at its meeting last night at the Pine-crest Inn.

President William Hallback announced a resolution is being drawn up to back the move for improved educational facilities in the county. A. K. Shoemaker was appointed chairman of the annual fruit cake sale, to be held between Thanksgiving and Christmas.

10,000th Telephone Installed Here

The first 10,000 were the toughest. This will be the first telephone installed in Sanford since the exchange was moved from Geneva to Sanford in 1954.

It required more than 90 years for the Sanford exchange to get 10,000 telephones, but engineers have predicted that the next 10,000 will be installed in the next six years.

When Southern Bell purchased the local telephone exchange on May 1, 1915, there were 425 telephones in use. Sanford had a population of 8,010 at that time. Two years after the exchange was bought by Southern Bell, an exchange was opened in Geneva. Shortly, another was opened in Divedo.

Southern Bell officials are optimistic about the future growth of Sanford and Seminole County. The Sanford exchange now serves 31,000 persons, Oviedo 2,200 and Geneva 100.

Bob Sheddin, manager of the local exchange, said that when the exchange was moved to Sanford in 1954, the population of this area will be more than 60,000.

Norfolk Will Admit Negroes To Schools

By LON K. SAVAGE
United Press International

NORFOLK, Va. (UPI)—The Norfolk School Board announced today it will admit 17 Negroes to six white schools Sept. 8.

The decision was reached despite a state law that would require that any integrated public school be closed immediately.

The school board advised Federal Judge Walter E. Hoffman that it would comply with court orders to start integration in schools here.

How to Order

School Board Chairman Paul G. Schwitzer read the school board's seven-page report before a packed courtroom.

Schwitzer said the school board decision was "in compliance" with the instructions of Judge Hoffman to the board last Monday. Hoffman had ordered the board to reconsider its Aug. 18 rejection of 151 Negro applications for white schools.

Hoffman made it clear, however, that if the U. S. Supreme Court reverses the 8th Circuit court's opinion, he will permit "reconsideration" of the Norfolk board's decision.

However, Hoffman said, "I presently have no intention of recommending reconsideration until I get the word from higher authority on the subject."

Hoffman also said that if the Supreme Court reverses the lower court ruling and sends a stay to the Little Rock case, it would by its action, completely and effectively... destroy the effective compliance of those who... the Board of Education... the May 17, 1954 Supreme Court decision.

Atlas Hits Target In Canaveral Test

CAPE CANAVERAL, Fla. (UPI)—The intercontinental Atlas that shot "right down the rifle barrel" of the Air Force another step toward today in development of the missile which is scheduled for a full, 5,500-mile flight soon.

A spokesman for the firm which makes the Atlas guidance system said 30 minutes after the 50-foot missile soared off late Thursday night the flight was a "great stride forward" in the nation's ICBM program.

The Atlas was the third equipped with all three of its engines, which ultimately will enable it to travel up to 6,300 miles and drop a hydrogen warhead on an enemy target.

The spokesman said the Atlas blasted "right down the rifle barrel" into the bullseye—a predetermined target position in the South Atlantic.

It was learned that unless a major hitch develops in further short-range tests, an Atlas will be launched on a 5,500-mile flight late in September or early in October.

Records do not show when the first telephone was installed in Sanford. Of the 10,000 in the exchange, about 100 are in Geneva, some 300 in Oviedo and the remainder in Sanford.

The exchange was doubled in the past five years. It was in May, 1955, that the 5,000th telephone was installed.

Sheddin, in commenting on the progress of his company, said: "We are convinced that Sanford and Seminole County will in the not too distant future, be heavily populated. We are growing, and will continue to grow. Our company is making plans to keep step with this progress."

Police Battles Mob

MEXICO CITY (UPI)—Troops and police used tear gas Thursday night to break up a mob of 30,000 students staging a demonstration at the university here. More than 100 persons were injured.

TV Debut Slated

Scenes taken at Seminole Memorial Hospital will be part of a new television film, "Hands Around the Clock," to be shown over WLOF-TV Channel 9, Tuesday at 9:30 p. m.

The film is for the purpose of showing viewers what goes on behind the scenes in Florida's hospitals.

Taipei Being Evacuated; Bombardment Continues

U. S. Pilots Get Orders To Pursue Attacking Planes

WASHINGTON (UPI)—Authoritative sources reported today that U. S. Pacific forces have given their jet pilots permission to pursue any attacking Red planes across most of Formosa Strait.

The sources told United Press International that the Pacific Command has relaxed the "hot pursuit" boundary line that in the past made part of the embattled strait a haven for Red Chinese jets.

The report came as the State Department warned the Reds that it would be folly for them to carry out their new threat to invade the Nationalist-held offshore islands of Quemoy and Matsu.

The former "hot pursuit" boundary line generally followed the Red-held mainland at distances ranging from 25 to 30 miles from shore.

It was understood the new pursuit line order would not extend to the mainland itself, but details were not revealed.

The State Department statement, released late Thursday, did not say whether the United States would fight to defend Quemoy or other islands near the Chinese mainland.

But it renewed Secretary of State John Foster Dulles' warning of "highly hazardous" for Red China to assume that an attempt to conquer the offshore islands could be a limited operation.

The statement was a reply to a broadcast by the commander of Communist Chinese military forces in Fokien province along the Formosa straits who called on the Nationalist garrison on Quemoy to surrender.

Officers Probing Death Of Patient Of 'Hoax' Doctor

CHICAGO (UPI)—Police disclosed today they were investigating the death Aug. 6 of Miss Lucy Murphy, 70, one of the 100 or more patients allegedly treated by fake doctor Peter J. Frank.

Frank was exposed earlier this week when a private nurse became suspicious of a lethal procedure he wrote for an elderly heart patient.

Police said he admitted a two-month-long hoax during which he used as a physician. He had served three years in prison for similar activity and was released six months ago.

Miss Murphy became ill the night of Aug. 7 and her family called their regular doctor. When he could not be located a telephone answering service scouted the call to Frank, who was posing as Dr. Edwin Geller.

Relatives told police Frank administered epinephrine, the same drug which led to his arrest. Miss Murphy died a short time later.

Police said the woman's regular doctor signed the death certificate attributing death to "cerebral apoplexy."

Schedules Changed At Civic Center

Taking effect Monday is a new schedule for the youth wing of the civic center.

The wing will be open from 7 to 10 p. m. on Monday and Tuesday nights; 7:30 to 10:30 on Wednesday, Thursday, and Friday nights; and 7:30 to 11 p. m. on Saturday nights.

Monday and Friday nights will remain strictly junior high nights. Wednesday and Thursday will be for young adults, out of high school, married or single. Tuesday and Saturday are for senior high and college students only.

A Saturday night record hop featuring dancing on the patio is a weekly event.

Family Gives Up

TALLADEGA, Ala. (UPI)—Calvin Tucker, his wife and six children have moved out of their log home. It caught fire 22 times in two days.

"It's really a mystery," Fire Chief S. H. Joiner said Thursday. "If it's not a chemical reaction or spontaneous combustion, then I don't know what it could be."

Sanford's Colors Head For Strait

The colors of the Sanford Navy base today are steaming from the Mediterranean toward the troubled Pacific and embattled Formosa Strait.

Carrying the colors of the local base are pilots from Sanford, currently assigned to the Sixth Fleet. Sanford-based pilots soon will be home across attached to the Seventh Fleet, standing by in the Pacific as the Chinese Communists continue to pound away at Quemoy and other off-shore islands near the China coast.

In charge of the local group which is moving from the strait-torn Mid-East to the Far East is Lt. Gerald M. Roberts, commander of Heavy Attack Squadron Seven's Detachment 43, which is aboard the Carrier Essex.

The Sanford group is expected to arrive in the Formosa Strait in about two weeks. This group was the first on the scene in the recent deployment of the coast of Lebanon when the Mid-East crisis reached its peak.

Although it will require about two weeks to make the trip from one troubled area to the other, local pilots will not be idle. Much of their time will be utilized in "home up" on the area into which they are headed. Maintenance crews will be busy checking engines and giving planes a thorough "going over."

The planes, AJ Savages, were used extensively for reconnaissance in the Mid-East in recent weeks. This versatile aircraft can be refueled in mid-air and is ideal for all-weather bombing.

This could be a case of "out of the frying pan and into the fire" for the Sanford group. With a new area, different set of circumstances and uncertainty of the situation, local personnel will use the two weeks to get ready for the unexpected.

"This could be a case of 'out of the frying pan and into the fire' for the Sanford group. With a new area, different set of circumstances and uncertainty of the situation, local personnel will use the two weeks to get ready for the unexpected."

Odham Announces For Holland, Sees Pepper At Airport

ORLANDO (UPI)—Claude D. Pepper and J. Bayley Odham, two-time gubernatorial candidates who Thursday announced his support of Sen. Spessard L. Holland, had a surprise meeting at the Orlando Airport today.

The two greeted each other cordially and shook hands. Odham said he had not heard from Pepper for his old friend was supporting his opponent.

Odham, en route to campaign in Miami with Holland, said he pledged his support to the senator before Pepper announced his candidacy. He quickly added, "I'm not listed among the Pepper backers."

But he said one reason he favored Holland was that he felt the incumbent could work better with Sen. George Smathers than could Pepper. He said it is important "to preserve that effective team" in Congress.

Odham added he would not take part in any of the "hot tactics" which Pepper has accused some Holland backers of using.

Earlier today, Pepper told reporters he felt "great regret" to hear that Odham had thrown his support to Holland.

"Somehow, I just can't imagine Mr. Odham being in that kind of company and being happy about it," Pepper said. "I know he doesn't approve of the tactics being pursued by my opponent and won't be a part of those tactics."

He added that Odham's stand "doesn't disturb me a bit in the world, although I'd like mighty well to have him on our side. He's in strange company."

Social Security Pay, Tax To Climb

WASHINGTON (UPI)—President Eisenhower signed into law today a bill boosting social security benefits 7 per cent and increasing taxes on workers and employers by more than one billion dollars a year.

The new law directly affects the pocketbooks of nearly 90 million persons.

The President, in a formal statement, described the act as "a significant forward step."

Social security checks will be fatter, starting in February, for the 12 million persons on the benefit rolls. For most of them the increases will run about 7 per cent, averaging \$4.75 a month for retired workers.

Starting Jan. 1, higher social security taxes will be levied on the 35 million full and part-time employees and self-employed persons covered by the program.

In addition to reducing workers' take-home pay, the new law boosts payroll taxes for employers. They must match the amount contributed by their employees into the social security fund.

The President criticized a provision which increases by an estimated 197 million dollars a year federal grants for state-operated relief rolls. He said this "can lead only to the weakening of the responsibility of the states and communities."

The new tax rate on employees will be 2 1/2 per cent on the first \$4,800 in annual earnings. The tax now is 3 per cent on the first \$4,200. Self-employed persons will have to pay 3 3/4 per cent on the first \$4,800 instead of 3 3/8 on the first \$4,200.

This means employees earning \$4,800 or more will pay \$120 in social security taxes next year, an increase of \$25.50. The maximum tax on self-employed persons will be raised to \$150, an increase of \$38.50.

As for the benefit increases, no retired worker or lone surviving widow who went on the rolls at age 65 or older will get an increase of less than 3 1/2 months.
