As tough as varnish.... As beautiful as enamel.. but dry in 30 minutes

EVOE Brushing Lacquer is amazing in more ways than one! It is as tough as a varnish; as beautiful as an enamel. But instead of taking hours to dry, it actually dries hard in 30 minutes!

Think what this means: you can lacquer a chair with Devoe and sit down safely on it in half an hour; refinish a floor and walk across it 30 minutes later; decorate things without taking them out of service for more than half an hour.

FACTS -AND THE OPEN MIND

THE MOST important element in business success— I and the most difficult—is to be sure that you, have all the facts before you act.

GET them all, from every possible source, is the first objective in General Motors. The Research Laboratories contribute some. These are nuggets, left in the crucible, after hundreds of (ideas that looked good have been burned away. The Proving Ground contributes others. Dealers contribute. The public contributes. Every department contributes. Through the whole organization runs a spirit of inquiry and of rigid insistence on proof.

Our of such thinking come the new models announced from time to time by Chevrolet, Pontiac, Oldsmobile, Oakland, Buick, LaSalle, Cadillac-all with Fisher Bodies. And by Frigidaire. Each new model is a tested step forward. Nothing goes into it as a result of habit or guess or pride of opinion.

Nothing counts but hard-won facts; gathered and used with an open mind.
