

STINSON KINLAW SUFFERS INJURY IN GRID PRACTICE

Leg Broken When He Is Tackled During Fast Scrimmage Monday

One of the most promising of football careers came to a sudden and dramatic end late yesterday afternoon when, tackled by Bryan Riser, strongest and heaviest player on the Seminole High School football eleven in a light scrimmage which was concluding an afternoon's workout, Stinson Kinlaw, veteran ace of the backfield and one of the most aggressive and quietly determined young football players ever holding a place on a local grid team, suffered a broken leg which will prevent his appearing in even one game of the coming football season.

His loss means a serious setback to a promising football eleven being trained by Coach Leonard Melucas, for he was considered one of the outstanding backfield candidates on the field. Always a quiet, serious minded person, who remembered well the lessons he had been taught, young Kinlaw, writing in pain just before he quietly fainted away to be revived a second later, bore his misfortune with more than ordinary courage. He knew that his dream of becoming his team's most valuable man had come to an end. He knew that his desire to lead this year's squad to brilliant victories over the strongest opponents it has ever had, was only a fleeting vision, to haunt him during the long days as he lies in his bed while his mates carry on in his place.

Early today, he was reported as resting as well as could be expected, and was said to be cheerfully contemplating witnessing some of the games from the sidelines, a treat promised him by his physician. His room was besieged by his football friends and others who sought news concerning his misfortune.

Realizing the seriousness of the situation but not losing their nerve, members of the team met at last night at the high school for a night's talk. There Coach Melucas told them briefly, that such degrees of life may be expected in any situation, and that they should not become discouraged. The entire team appeared to be grimly determined to try a little harder for a man they were young Kinlaw's closest friends and admirers. From every indication manifested last night and at school today, the team as a whole will be knit more strongly together as a result of this, the most serious accident in a training season since Roy Symes received a similar injury while preparing for the 1929 eleven.

Signal drills and short scrimmages featured yesterday's abruptly ended session. There was no let down from the time practice first began until Coach Melucas dismissed the boys, and many valuable lessons were learned as the players were sent through their simple plays.

Golf Association Gives Death Knell To New Golf Ball

By ALAN GOULD. Associated Press Sports Editor. NEW YORK, Sept. 15.—(A.P.)—The United States Golf association yesterday pronounced the "death sentence" of the so-called "balloon" golf ball, with the official announcement that a "new ball of increased weight will become effective for play, on or after Apr. 15, 1932."

The exact specifications of the new ball have not yet been fixed. The ball put into play this year for the first time and which aroused so much protest weighed 1.65 ounces.

The announcement of the pending change came from H. H. Ramsay, president of the United States Golf association, in the following statement:

"The association has been carefully studying the golf ball situation since the first of the year in all sections of the country and among all classes of players. The size of the 1.68 ball is universally popular. Tests are now being conducted along the line of an increase in weight. A new ball of increased weight will be adopted to become effective for the play on or after Apr. 15, 1932. The final weight specifications will be announced next November."

The decision to try another type of golf ball is a direct result of nation-wide protests which began last winter and reached a climax early in the summer.

By retaining the advantageous features of additional size, which put more weight into the ball, the golfing fathers apparently are convinced they will meet the objection arising from the increase of the "balloon" ball in the past and in the past seasons which were the main source of the complaint on retaining the

Tulane Looms As Best Contender In Dixie Grid Circles

LOS ANGELES, Sept. 15.—(A.P.)—When football teams are being considered for sectional and national honors well in advance of the opening of the 1932 season, it might be well to give a thought to the Greenbacks of Tulane, down New Orleans way.

Tulane has not lost a game in the south since Oct., 1928, won the southern conference championship in 1929 and was co-champion in 1930. As Bernie Bierman's lads play eight conference games this season they have a chance to establish themselves at or near the top again.

Two Tulane players, barring injuries or other unexpected developments tending to slow them up, should be well up in the national stars, Jerry Dalmryple, end, and Don Zimmerman, halfback, were stars last year and their friends expect them to be better in 1932. Zimmerman, a sophomore last year, stands in the front rank in three classes of football endeavor, punting, passing and carrying the ball. Zimmerman also has made a name for himself in past defense. He holds, too, the National Junior A. A. U. pole vault record of 13 feet, 5 1/2 inches. He was fourth in seniors' pole vault competition.

Zimmerman is a good basketball player and so good on the pitching mound that he can have a contract with the Chicago White Sox when his college days are behind him.

Dalmryple's name always is mentioned when the crack ends of the Southern conference are being considered.

The football season promises to be active both indoors and out. All summer motion picture companies have been busy preparing a screen menu for followers of the autumn game. With the first kickoff will come a flood of football pictures.

Howard Harding Jones, the "head man" of the University of Southern California, and Glenn Schoey Warner, mentor at Stanford, have made semi-educational pictures. Another company brought out a dozen Notre Dame stars and two other screen efforts will be completed in September.

The motion picture business is going in for sports on a large scale, its efforts covering baseball, golf, football, boxing, wrestling, billiards and other games.

All the football pictures are being held for the opening of the season, making it certain that the fans will not lack entertainment, either in the theater or in the stadium.

present size was reached by the executive committee of the United States Golf association during the amateur championship at Beverly two weeks ago. A majority of opinion, it is understood, favored going back to the old weight of 1.62 ounces, but this has yet to be definitely decided on.

More than a year's notice was given the golfing public before the present ball was made official, replacing the sphere that had been in use for 10 years. The old ball weighed 1.62 ounces and measured 1.62 inches in diameter. These are still the specifications of the British official ball.

G. A. R. CONVENES. DES MOINES, Iowa, Sept. 15.—(A.P.)—The Grand Army of the Republic yesterday plunged into the round of activities of its sixty-fifth annual encampment. Kansas veterans advanced H. I. Merrill for commander-in-chief, Cleveland, Springfield, Ill., and St. Paul were among the first cities to make bids for the 1932 convention.

GIRL'S TEAM OF ORLANDO BEATS LOCAL TINY TOTS

Strong Visiting Outfit Wins Contest By Ten To Seven Score

By E. H. CULLUM. The Blackwood Cleaners Girl's team of Orlando defeated the Piggy-Wiggly Tiny Tots in a hotly contested game last night by the score of 10 to 7.

Jewell Minchew pitched the first four innings for the Tiny Tots and allowed the Blackwood girls only five hits; however, errors by her team mates gave the Orlando girls 6 runs in the first inning and 4 in the fourth. Ethel Gates went into the box at the beginning of the fifth inning and through the ninth inning set the Orlando girls down practically in one-two-three order, giving up only one hit during the time she hurled. Bill securing a triple in the sixth inning which she tried to stretch into a home run and was out at the plate.

Dorothy Powell, for the tiny tots, had a perfect night at the bat, securing a home run, two doubles and a single out of four times up. Virginia Britt was the heavy hitter for the Orlando girls, getting two triples out of four trips to the plate.

Considering that the Blackwood Cleaners girls team is the best girl's team in Orlando, the Tiny Tots made a wonderful showing against them, as the tiny tots are composed of the younger girls and have played only two or three games all season.

As the fans were under the impression that the umpire behind the plate was from Orlando, the writer wishes to state that the umpire-in-chief was a Mr. Robinson, of West Palm Beach, half-brother of Mr. Edwards of this city. It is the writer's understanding that Mr. Robinson is an umpire in the East Coast League, both in baseball and diamond ball.

The game tonight will be between the Park Lake All Stars of Orlando and the Sanford-Oviedo Truck Growers.

CAPTURE NEGRO FUGITIVE. TALLAHASSEE, Sept. 15.—(A.P.)—The state prison bureau was advised yesterday that Willis Mack, negro convict who escaped from a prison camp in July, had been captured in West Palm Beach. Mack was serving a year's sentence for embezzlement in St. Lucie county.

GENE SARAZEN IS MEDAL WINNER IN P.G.A. QUALIFYING

Scores 73 And 72 For Low Score Among U. S. Professionals

PROVIDENCE, R. I., Sept. 15.—(A.P.)—Little Gene Sarazen, one of the best "money players" in golf, today put a 72 on top of a 73 to gain the medal in the P. G. A. championship 36-hole qualifying test here on the long and windy Wannamoisett course.

Eddie Schultz, of Troy, N. Y., little known youngster so far as major golf is concerned, finished a stroke behind the Italian star from Great Neck, L. I., with a total of 145. Schultz' only mistake of the day came on the tricky 425-yard sixth, a par four hole. He put his drive in the trees and used up seven strokes before he holed out. This break, however, failed to daunt him and he called home in 74. His steady afternoon performance earned him a neat 72.

Arthur Gusa, Rhode Island champion, finished his first leg in the P. G. A. title event, finished with 147. He was unable to control his irons on his first round and used up 77 blows. On his second trip he collected four birdies, which gave him a par 70, a performance equalled only by

Abe Espinosa, of Chicago, who held the 18-hole lead. Johnny Golden, of Norton, Conn., gained a pair of 74s for 148 to share the fourth place with Tom Greav, of Albany, N. Y., who had cards of 72 and 76. Billie Burke, open champion, and Walter Hagen, five times winner of the P. G. A. championship, played steadily on both rounds and placed in a four-way tie for fifth honors with totals of 149. The others in- sios of 160 were Henry Cuici, of Stratford, Conn., and Walter Murray, former public links player from Valparaiso, Ind.

Burke over-clubbed on his first nine holes and, although he corrected this fault later in the round he was fortunate to bring in a 78. His afternoon tour, however, was almost flawless. Two short putts that rimmed the cup in the ninth and 18th forced him to take a 71 instead of the subpar figure he appeared entitled to. Hagen, who started without benefit of a single practice round, did his best work in the morning when he scored a 73. He hooked often and found several traps in his second round and his card of 76 included a half dozen fives.

Many Are Injured When Berlin Cops Fight Unruly Mob

BERLIN, Sept. 15.—(A.P.)—Upwards of 60 men and women were injured last night, some seriously, in fighting which broke

out between police and a crowd of 1000 which was trying to jam its way into the sports-palace to hear a debate between communist and social democratic leaders.

The throng arrived before the doors of the palace were opened and began exchanging banter. The exchange soon gave way to fist-cuffs, and then the police intervened.

Charging the crowd, which refused to give way, the police swung their rubber clubs with telling effect and the crowd broke in a panic, dashing through side streets and trampling several women.

The street was littered with pocketbooks, umbrellas and top-coats.

GENUINE "BULL" DURHAM TOBACCO
NOW 5¢ formerly 8¢
"ROLL Your OWN!"

Genuine "BULL" DURHAM Tobacco at 5¢ marked the entrance of my father, Percival S. Hill, into the Tobacco business. For 14 years he was President of The American Tobacco Company. The fine quality and popularity of "BULL" DURHAM were always subjects of great pride to him. Therefore, it is particularly gratifying to us to offer this important saving and service to the American public at this time.
