CHAPTER TWENTY-TWO

Caroline was grimly impassive, shrunk back into the recesses of her wheel chair like an old tortoise retracted into his shell. Clive was openly distressed; Edna, quite bewildered under her surface calm. Captain Sanders looked resigned and cynical. Only Gerry showed strong feeling.

"What is this anyway, Sara? As it planned?"

"Yes. Her chin lifted defiantly. "I had to know the truth."

"Well, you know it now and I hope you're satisfied. I am Gerry. Hope and I think you're out of your mind."

There was a sudden flush on his smooth, gleaming cheeks as he turned to Capt. Sanders. "I hope you're satisfied, too? She's wasted enough of your time and mine."

"All right, Home," Sanders' voice was peremptory, but this time he used the name Home without reservation.

"This man is Gerry Home," said Caroline. "You can get a way from that. It's a fact. Mr. Harrison's identification cannot be impugned."

"Does it matter?" said Sara, wearily. "Real or not, someone got the ruby. Who, we don't know. We probably never will."

"Sara was almost running when she reached her apartment house. She looked longingly at the lights in Judith's window. There was none in Gerry's."

She hurried into the lobby, stepped before the elevator. Not tonight, she couldn't. Not after hearing that footstep again in the street.

She began to run up the fire stairs. At the first landing she had to pause for breath. She heard the hiss of the elevator, mounting. Had she made sure the lock was caught when she closed the front door behind her? Perhaps not, but that must be Gerry in the elevator, going up to his own apartment from Judith's.

She tried up the next flight, panting, and came out into the hall on her own floor. A lamp burned high in the wall beside the elevator. Beyond, in shadow, stood a tall, broad-shouldered figure. He looked at her, and hand raised as if to knock on her door.

So Gerry hadn't gone on to his own apartment. He had stopped to make his peace with her.

He turned at the sound of her step. His face was quite clear in the light from the lamp—warm brown eyes under heavy brows; sudden smile, friendly, quizzical. This was the way she remembered him, not at all like the sulky, self-important young man at Aunt Caroline's this morning. How could he be so different in different moods?

Then she saw the three, tiny moles on his right cheek, spaced widely in a rough triangle. Not clear, speaks or freckles, but moles. There's something wrong, somewhere. Something about his face. Now she knew what it was. How could she have forgotten?

The man at Aunt Caroline's this afternoon had no moles on his cheeks at all. She had noticed how smooth and unblemished they were when he dashed. The man before her now was not the impostor.

New Plan Set To Help Prisoners

JESSUP, Maryland, (AP)—The aged idea of making the punishment fit the crime is all well at least in Maryland. As proof of its conviction, the state has embarked on a 10 million dollar gamble near here called the Patuxent Institution.

Believed to be the only place of its kind in the nation, Patuxent is the testing ground for what its director, Dr. Harold M. Boslow, describes as a "new, dynamic concept" in the handling of a special type of criminal.

He is the unpredictable criminal who, because of mental deficiency or emotional unbalance, poses a constant danger to society. Defective delinquents, penologists call them.

If he remains until the mental or emotional kinks which make him a menace to his fellow men are ironed out through psychiatric therapy.

If it takes longer than his original sentence, he stays, anyway. If it takes less time than the sentence, he is transferred to a conventional penal institution to finish his term. If he never responds, he never leaves.

Approved by the Legislature in 1931, Patuxent was dedicated and opened for business only nine months ago. The main building, costing about four million dollars, houses all services and includes bed space for 400 patients. Another building, a separate enlarged diagnostic center and additional living quarters, raising the capacity to nearly 1,000 will cost another six million.

In each grassy walled cell are a single bed, table and chair, toilet and sink. Throughout the rest of the building corridors and rooms are done in pastel greens and buff-colored pressed volcanic ash.

Boslow, a 40-year-old native of New York, grew up in Appalachia, Va., and received his undergraduate education at the University of Virginia. He was flight surgeon with the 8th Air and medical training at the Force in Europe during World War II and is on the staff of the Phipps Clinic at Johns Hopkins Hospital.

Officials of Michigan, Pennsylvania and New York have shown intense interest in his work at Patuxent. Experts in some states are frankly skeptical about the institution's chances for success.

"It may be years before we can know if we are making progress," Boslow admits. "But Patuxent represents a new, dynamic concept—and it must be given a chance."

Family Picket Line Is Withdrawn By Discharged Man

RENSSELAER, N. Y. (AP)—The family picket line that shut down a big freight car manufacturing plant and left 500 workers idle has been withdrawn.

E. J. McLean, 31-year-old discharged plant guard, said yesterday he had decided to let his dispute with the Pullman Standard Car Manufacturing Co. be settled through regular grievance channels of the CIO United Brotherhood of Carpenters and Joiners of America.

His picketing, started by his 7-year-old wife and two of their small children, interrupted operations of the plant Wednesday and closed it completely Thursday.

McLean claimed that he was unjustly fired after a fight with another employee three weeks ago.

5 U. S. Civilians Are Given Release

HONG KONG (AP)—Five American civilians arrived in Hong Kong today after long detention in Red China. Of the 1, whose release the Chinese Communists promised during the talks at Geneva, 14 have now reached freedom.

The five, who arrived from Shanghai aboard two British ships were:

Dilmus T. Kanaly, 36, Houston, Tex.; Robert Howard Parker, 33, a native of Philadelphia; Emma Angelina Barry, 13-year-old daughter of an American father and a white Russian mother; Mrs. Marcella Munsterman Hauser, Wolcott, Ind.; and Eva Stella Duzay, 62, a Carmelite nun from Boston known as Sister Theresa.

Also returned from Red China to Hong Kong today was Roger DesRienndt, a Belgian soldier who went over to the Reds five days after the Korean armistice was signed ten years ago.

America Is Faced With Ticklish Deal

WASHINGTON (AP)—The United States is trying to counter with its own offer a Russian bid to sell arms to Egypt. Such a sale of American weapons would almost surely bring a hot protest from Israel.

The American offer was made on the theory that United States security would be weakened if Russia became an arms supplier to Middle Eastern countries.

Israel was described as very much interested in the American offer but was reportedly seeking American financial aid to buy the military equipment.

Israel regards any attempt to bolster the armed forces of the Arab countries as a threat to its own security. However, Israel's forces are known to be better equipped than almost all the Arab countries combined.

Prisoner Sends Wishes

CHICAGO (AP)—Prisoner Ray McNally, bedridden and partly paralyzed, received a get well message yesterday from a prison inmate he once shot.

"If it wasn't for you, I would not be living today," the letter read. "I pray to God for your quick recovery."

McNally said he shot the man as he attempted to flee from a police car. He said the prisoner, whose name was not given, was later sentenced to Joliet State Penitentiary for armed robbery.

Belching Is Not Always Due To Organic Disease

By HERMAN M. BUNDLES, M.D.

In some countries of the Middle East, loud and frequent belching during and after meals is considered common courtesy. The host believes it demonstrates appreciation of the feast.

Our own dining etiquette, however, is somewhat different. Even a barely audible belch is very embarrassing and requires profuse apologies.

Despite the popular belief, belching is not caused by abnormal fermentation in the stomach. The gas is merely air which you have swallowed.

Give Relief

You have a certain amount of air in your stomach all the time. Constant swallowing of more air, however, leads to a feeling of fullness in the upper abdomen or lower part of the chest. Belching gives you relief but, unfortunately, frequent attempts to belch probably will lead to the swallowing of more air.

Sometimes belching is a symptom of organic disease. Maybe chronic obstruction is responsible. Chronic enteritis, or gall bladder inflammation, with or without gallstones, usually causes these symptoms. Also, hastily eaten meals and failure to chew your food properly frequently brings on this embarrassing trouble.

QUESTION AND ANSWER

V. F. P.: What is the cause of burping?

Answer: Burping is inflammation of a sac containing fluid located over any one of many joints.

Inflammation may occur as a result of an injury or infection or may be caused by overuse of the part.

Agencies Promoting Gun Safety

By DION HENDERSON

THE ASSOCIATED PRESS

You can't buy a hunting license to shoot people, but more men probably will be hit by gunfire this fall than moose in these United States, and more boys will be killed than buffalo.

And as more and more hunters with less and less experience crowd into the same—or smaller—available hunting areas, the conservation and firearms and safety folks have a pretty good idea what's in store for the future if something isn't done.

Something is, of course. In fact, a great many things. Nearly every state and every agency with an interest in hunting is doing its best, along with thousands of private organizations, to promote gun safety.

Some states—like New York and California—require that young hunters pass a test in gun handling that many an older would flunk before issuance of the first hunting license. Others, like Idaho, have set up local training programs for youngsters and adults both, not only to teach the fundamentals of firearm handling, but to provide actual shooting experience under supervision. And still others, like Arkansas, are concentrating on educational campaigns that can't help but reach the ears or eyes of every hunter in the state.

However, a check of hunting accidents around the country shows clearly the human element that is the major factor in nearly every mishap.

For instance, the last annual survey compiled by the National Rifle Assn. showed 1,100 firearms accidents in 34 states, and ten Canadian provinces cooperating on reports. Of these 19 per cent were fatal.

Deer hunting—the most widespread form of game hunting—led the list with 261 gunshot wounds which might not surprise the observer who could understand how a man in the brush might be mistaken for a deer.

But rabbit hunting claimed 234 victims, and pheasant hunting 182. The sort of short-circuits the National reported that of 64 gun accidents in the state last year (13 of them fatal) 24 occurred not even while the hunter was firing at game, but while he was merely handling a gun with casual abandon.

Kentucky researchers looking into 26 case histories that were live men and boys before the shooting started found that more than half shot themselves. More than one-third were under 20 years of age. But exactly 10 per cent were in the age groups 21-30, 31-40 and 41-50.

Oregon counted 13 persons dead and 27 wounded last season and found three-fourths of all of them happened at a range of less than 50 yards. The bulk of these involved persons shot by loaded guns in autos, in boats or around camp.

"All violations of the basic 10 commandments of gun safety," the state's report read.

Among New Mexico's 19 casualties, 10 were children and three involved hunters of less than five years hunting experience. But the other seven involved veterans of from 10 to 30 years.

Shark-Bitten Duo Rescued From Sea

HONOLULU (AP)—Two shark-bitten survivors of a mid-Pacific plane crash were en route to Honolulu today aboard the freighter that found them after 44 hours in the sea.

Three others were dead from the crash of a Flying Tiger DCA cargo plane about 600 miles west of here.

A rescuee from the freighter Coast Adventa identified the survivors as:

Chief Pilot Tony Machado, 40, Hollywood, Calif., and captain Robert C. Lightower, 32, Vallejo, Calif.

The two survivors were reported suffering from shark bites, broken bones and shock but the rescue vessel said their condition was not critical.

You Too May Stand Straight By Helping Crippled Children

It is possible that you will receive a sheet of stamps by mail in the near future. And each stamp will bear the picture of a smiling lad topped with "Florida Elks" and underlined with "Harry-Anna Crippled Children's Home."

This will provide you with an opportunity to serve hundreds of children who are being rehabilitated, given another chance to walk as you and I.

The Harry-Anna Crippled Children's Home is a charity hospital for the convalescence of any crippled child in Florida whose parents are unable to pay for hospitalization.

Going Both Ways

If you have an old banjo, stuck away in the attic, or a ukulele or a stringless guitar, you ought to haul them out and dust them off because they're all back in style. So are player pianos and that astringent, twanging, honky-tonk piano. The young people have discovered these melodious instruments and the record business is booming on good guitarists and thumping good banjo men.

As a matter of fact things seem in general to be rolling two ways at once. Cars are long and sleek and houses are ranch-spreading, planes are jet-propelled and we just can't seem to get enough progress.

Yet fashion's latest look is a look backward. Ladies are wearing those shoes again, the ones with the dagger point toes and what they call an opera heel. It starts big at the heel bone and skinnies down to pencil point thickness. They look a little like the shoes that Minnie Mouse wears. As for the male garb, the three-button suit is Edwardian. The narrow lapel, and higher top button makes any man look as if he were wearing an old turtle shell. And that natural shoulderline—to whom did that ever do any good?

It seems as silly to put a flapper in a 1955 kitchen as it does to seat King Edward on a hassock before the TV set. But as for the ukulele, there, my friends, is a real maestro's instrument. Just pass me the sheet music for Harvest Moon.

FBI Director Says Crime Trend May Be Breaking

WASHINGTON (AP)—FBI Director J. Edgar Hoover says today "may" show a long overdue break in the upward crime trend of the past seven years.

Hoover reported a slight drop of 2.7 per cent in the number of major crimes committed in the first half of 1955 compared with the corresponding period last year. The drop was so slight, however, that he said 1955 may be "the

Work of this hospital is financed through contributions from the Elks of Florida, who generously support most of the operations of the huge medical center. But the Elks invite the assistance of those who are interested in helping in the rehabilitation of children.

Once each year the seals we mention are mailed in order to raise funds for the home. These seals are to be used on letters that you might mail. Your contribution may be returned in the self-addressed, stamped envelope accompanying your letter, and each will be gratefully received and accepted.

Each letter, bringing you the seals, will bear an invitation. It says, "Won't you come and visit us sometime?" You'll see some of the finest youngsters in Florida retaining their health because of the generosity you show in your contributions.

The letter, signed by Donald Bales of Sanford concludes, "No man stands as straight as he who stops to help a crippled child."

We quite agree.

Progress Underway

Just ten days ago, McGregor Smith, Chairman of the Board of Florida Power and Light Company announced one of the greatest single power plant expansion projects in the history of Florida.

Even though the project is in Broward County, the impact of such expansion is felt around the State.

Construction contracts were let about ten days ago and preliminary work started on the installation of two 160,000 Kilowatt turbine generators at Florida Power and Light Company's Ft. Lauderdale Plant on the New River canal.

Your hundred workers and three years will be necessary for the completion of the two units. Not only will these be the two largest generators ever installed in Florida but their addition to the plant will make it the most powerful electrically producer in the State.

The phenomenal growth of the area, as well as all of Florida is expected to continue and Smith said, "We are taking steps to be prepared for it."

Not only will the addition of the two powerful units to the Broward County plant at Ft. Lauderdale, but the entire system of the Florida Power and Light Company will feel the benefit of such expansion, with a greater supply of power and with the \$30,000,000 program a great boon to the economy of the State.

Predictions in the Sanford area last year set the population trend here at triple its present census in ten years.

The \$30,000 Kilowatt combination of the power plant project is sufficient to take care of an increased population of nearly a million people. It will add more generating capability than its entire system could produce on V-J Day, one and a half times as much, according to McGregor Smith's announcement.

It takes money, and plenty of it, to keep on with the burden of population growth in Florida. As a matter of fact, it takes more than private business can provide from reserve funds, so the borrowing power of company officials must be used to keep shoveling to the forefront.

With such programs continuing, we are proud to be served by a forward-looking organization like the Florida Power and Light Company. We know, with such policies taking care of the growth in our area where electric power is concerned, our community will never be lagging behind, for a power supply.

Let's gauge our own growth with that of the Florida Power and Light Company and our pattern will be developed for a bigger and wealthier area, in the years ahead of us.

fourth consecutive year in which more than two million major crimes will have been committed.

Hoover's semiannual "Uniform Crime Reports for the United States" estimated 1,120,000 major crimes reported in the first six months of 1955. This was a drop of 7,700 from the first half of 1954.

Murder, robbery and burglary decreased while rape and larceny increased.

Women Gradually Leaving Homes

NEW YORK (AP)—Who said women's place was in the home? That old saying is less true every year. And there is no better time to point it out than now—during National Business Women's Week.

The ladies are no longer content to rule the world by rocking a cradle. Their hand are reaching for the cash register.

The influx of the petticoat crowd into industry is truly startling. Nearly one out of three of America's 48 million employed now powder their noses on the job.

Women first began punching time clocks in large numbers during the first world war. The trend mushroomed during the second world war, and then, after a brief abatement, picked up again.

The most significant development: More married as well as single women now seek steady work outside the home.

Why? Some hold that the invention of labor saving devices has made housekeeping so simple wives are no longer content to spend their extra leisure leading a home.

A more likely answer: Papa's paycheck no longer will pay the installments on all the bright new gadgets that modern couples now feel are necessary for a rich full life—a new car, television set, automatic dishwasher, and the like. The only practical solution—same has to go out and get on a payroll.

Certainly the old-fashioned husband who once melodramatically proclaimed, "I'd starve before I'd let my wife go to work," is getting scarcer. Some wives even complain, "I'd like to stay home, but that husband of mine—he keeps pushing me out into the labor market." More and more wives are finding that the best way to keep a husband in, first, to keep a job, or the new home before he goes home the better.

Each year women go into new fields once ruled only by men. There are lady stenographers, lady stockbrokers, lady riveters, lady building contractors, lady channel swimmers, lady welders. So far there have been no major league lady baseball players—although this possibility is mulled over from time to time—or a really promising lady heavyweight fighter. Women still prefer to do their infighting at home.

A look at the 1954 census figures—the latest I have at hand—shows, however, the significant increase women have made in America's working world.

In that year there were 33,841,000 women in an employed population of 63,830,000. The statistics show that women prefer indoor jobs to those that offer them the benefits of fresh air and exercise. There were 6,126,000 women clerks and office workers compared to 2,378,000 men, but women common laborers were outnumbered by men 107,000 to 2,319,000. This does seem a pity, considering women's discovery that women are actually stronger than men.

Stutter Shakes Political World

WASHINGTON (AP)—A man's heart beat stutters momentarily—and in those fleeting moments a whole political world is shaken to its foundations.

That is what happened when President Eisenhower suffered a heart attack early Saturday at Denver.

First there was the stunning shock of the news hitting the capital with all its implications. But even in the outpouring of sympathy and prayers for the President's recovery, there was the realization that nothing in politics was quite the same as it had been before those fateful hours between midnight and dawn two days ago.

There was the reluctant acceptance by Republicans of the probability most of them had refused to admit before—that Eisenhower will not be the GOP presidential candidate next year.

And there was the recognition by the Democrats that fate, even in a unwelcome manner, had placed them suddenly in a far stranger position to challenge the

Republicans for control of the White House in the 1956 elections. Politics being what they are, both sides must now look at the coming campaign from radically altered points of view. And this much at least is apparent:

The Republicans no longer can count on Eisenhower as a candidate. Neither are they in a position to urge him to run again even if the President should recover completely from this attack. To do so would put the GOP chiefs in the awkward position of asking Eisenhower to undertake a strenuous

"NOTHING UNDER THE SUN IS EVER ACCIDENTAL"

Within your own lifetime you have noticed how much better your medicines help overcome sickness, and the greatly increased knowledge your physician has to keep you well. These benefits are not, "Accidental!"

All over the world research scientists are searching for new and better treatments. The pharmaceutical industry expends vast sums to perfect a single better drug. Almost as great a "Miracle," as the results they accomplish is the comparatively low cost of medicines. You are actually spending less per sickness than you ever did before.

Try and Stop Me

By BENNETT CERF

IN MISSOURI, they tell about a city fellow who was rash enough to buy a mule, but soon realized he didn't have the faintest notion of how to make it obey his commands. So he hired a professional mule trainer.

That worthy approached the mule with a murderous gleam in his eye and a heavy wooden board in his hand. He took a roundhouse swing and socked the mule's back just as hard as he could. The mule didn't even blink. The trainer whacked him again.

"Gosh 'n' mighty," protested the owner, "are you fixing to murder my mule?"

"It's easy to see you know nothing about these critters," said the trainer grimly. "That thing you gotta do is win their attention."

A Budapest merchant rushed into an eye and ear hospital demanding emergency service. "The symptoms have been growing ever since the Communies have been here," he wailed. "I just don't see what I hear!"

Southside School Patrol Mothers Issued Equipment; Given Bus Rules

Mrs. Frances Murray, chairman of the Southside school safety program and Mrs. Alice Wilk co-chairman along with the school patrol mothers, met yesterday morning at 10 a. m. for a business and discussion meeting in the Seminole County school administration building.

Police Chief Roy Williams and Plimm, Arnold Williams were on hand to tell those present that any speeders or violators, regarding school bus rules, should have their tag numbers turned in. They also distributed whistles, flags and arm bands for the patrol mothers.

Mrs. Henry D'Amico, who has been a patrol mother for some time, demonstrated what a patrol mother should do. She explained that the mother should be at the bus stop 10 minutes before the children arrive and that in a neighborhood such as hers the mothers took turns each morning.

"In order to keep peace," she said, "we let the little boys go first, one morning and the little girls the next."

She went on to say, "All pets must be kept at home and the picking of flowers and such things must be strictly forbidden. The children are really quite orderly."

Chief Williams showed the group how they should slow down a car and how to stop one with a patrol flag. "I think the universal gesture," he said, "to stop a car would be to stick the flag straight out." He explained that this is important as the driver of an automobile will be watching the flag and might get confused if it is not done right.

Mrs. Velma Mitchell, principal of the school, announced that she will send each child home with a set of rules for bus stops.

The rules read: (1) Arrive at the bus stop not more than 15 minutes before bus time; (2) Leave pets or non-school children at home; (3) Only one patrol mother at a stop each morning unless designated by the chairman; (4) Climbing on trees, fences, telephone poles, or on houses is forbidden; (5) Leave flowers, shrubs, or property untouched; (6) Cross a street only when the patrol mother signals; (7) Obey Patrol mother at all times; (8) Be in line as bus approaches; (9) Good citizens will not push or shove, or be noisy; and (10) Any one disobeying these rules will be reported.

Plimm, Williams told the approximately 20 mothers present that school patrolmen ranging from the ages of 10 to 18 will be sworn in as soon as possible and will receive badges and the authority to ride on the buses to maintain order. He and Chief Williams said that portable 15-mile school zone signs will be placed at the bus stops and can be removed by the mothers when not in use.

A no-parking zone in and around the school was discussed as there is "quite a bit of confusion" when the mothers come for their children. "Some of this will be let up when the schedule is changed from 12 o'clock to two o'clock," said Mrs. Mitchell.

The last discussion dwelt around the tentative bicycle safety club which is being planned. If the plan works out all bicycles will be registered, put in top working order, and seals will be issued to the owners. When more information is obtained further plans will be announced.

Rebekahs Convene

Seminole Rebekah Lodge met Thursday in the IOOF Hall with Noble Grand Mabel Brown presiding.

After routing business "Happy Birthday" was sung to the several members having recent birthdays.

A screen which will be used in showing pictures of Rebekah work was presented to the lodge from the past noble grand.

The meeting was dismissed in due form with 19 members and two visitors present.

Extension Group Has Fall Party Feting Members

One of the "loveliest and most enjoyable" affairs of the early fall season was the annual party honoring the members of the Extension Group of the First Baptist Church.

The guests assembled in the recreation room of the Sunday School building with Mrs. R. T. Hunt, superintendent of the Extension Department in charge. Decorations were varicolored hibiscus and pink and white gladioli along with mums.

The Rev. John Miller accompanied by Mrs. Miller at the piano sang a beautiful solo. The Rev. W. P. Brooks Jr. gave an appropriate short talk stressing the role that shut-ins can play in the church program by their "never-ceasing prayers and examples."

Many show extreme bravery, courage, patience and cheerfulness in the face of illness and suffering," he stated. Prayer was then given by Mrs. A. J. Peterson.

Mrs. J. F. Harrison presented an inspirational devotional illustrating with flannelgraph. Mrs. Pearl Hansell closed the business session with a prayer.

The Rev. Miller then led the group in community singing accompanied by Mrs. H. H. Newman. "Those present entered heartily into the singing and thoroughly enjoyed the singing of 'old-time' hymns," a member said.

Delicious refreshments were served by the hostesses after which the guests were invited into the small chapel where a color film "The Resurrection" was shown.

Present on this occasion were Mrs. A. J. Peterson, Mrs. Pearl Hansell, Mrs. H. V. Smith, Mrs. P. P. Campbell, Mrs. S. J. Hanks, Mrs. H. H. Newman, "Mother" Britt, Mrs. Pearl Byrd, Mrs. J. F. Harrison, Mrs. Addie Hunt, Mrs. S. J. Meeks, Mrs. Ruby Reed, Mrs. Ray Reed, Mrs. Jewel Chapman, Mrs. Rosalie Hollomon, Mrs. R. T. Hunt, Mrs. William Marshall, Mr. and Mrs. M. S. Nelson, Mr. and Mrs. John Miller and Dr. W. P. Brooks Jr.

Wilson School PTA Discusses Carnival

The Wilson School PTA in Paula held its first PTA meeting Friday night at 7:30 p. m. in the school.

The annual budget was prepared and plans were discussed for the Halloween carnival. Mrs. John Griffin was named general chairman of the event and is to work with Mrs. J. I. Smith, Mrs. H. F. Ganas, Mrs. E. L. Lewis and Mrs. J. P. Bates.

Officers for the year are Woodrow Davis, president; Mrs. John Griffin, vice-president; Mrs. M. E. Warfield, secretary; and Mrs. Jean Brock, treasurer.

The year's committees were appointed at the executive committee meeting which was held Sept. 22. They are publicity, Mrs. Ganas; membership, Mrs. Smith; magazines, Mrs. C. A. Lee; budget and finance, Mrs. Jean Brock; devotional, Mrs. Davis; program, Mrs. J. C. Sikes; county council delegates, Mrs. Charles L. Jarrett, and Mrs. Leon Keel; alternates, Mrs. Griffin and Mrs. M. E. Warfield; room mothers first and second grades, Mrs. Lee; Mrs. Grady Davidson, Mrs. Smith and Mrs. Ganas; third and fourth, Mrs. Lewis; Mrs. Naomi H. Schneider and Mrs. Warfield; and fifth and sixth grades, Mrs. Brock, Mrs. Davis and Mrs. Spencer O'neal.

The meeting was adjourned and refreshments served.

Maryland Follows Reasoning

By THE ASSOCIATED PRESS
If you want to be champ, the best thing to do is lick the champ. Maryland followed this reasoning in effect, to assume today the role of No. 1 college football team in the country.

Before they invaded College Park, Md., last weekend, UCLA's Pacific Coast champions had won 19 straight. They had been picked in the preseason Associated Press poll as the best bet for the mythical national championship. And they had led the first weekly ratings.

Maryland beat the Uclans 7-0. In a class fight with Michigan the power of the Big Ten, the Marylanders rolled up a total of 1,113 points in the poll of sports writers and broadcasters to jump from fifth to first in the standings, Michigan, which defeated Missouri 42-7, had 1,032 points.

Points are awarded on the basis of 10 for a first-place vote, 9 for second, etc. Completing the first 10 were Georgia Tech, Notre Dame, Oklahoma, Army, UCLA, Ohio State, Southern California and Texas Christian.

Notre Dame made an impressive debut against Southern Methodist, winning 17-0. Army smothered little Furman 31-0. Texas Christian ran up a 32-0 score on Texas Tech. There are three newcomers to the top 10 replacing Pittsburgh, Mississippi and Navy.

The leaders with first-place votes in parentheses:

1. Maryland (45)	113
2. Michigan (48)	1032
3. Georgia Tech (11)	701
4. Notre Dame (3)	671
5. Oklahoma (12)	622
6. Army (1)	437
7. UCLA	358
8. Ohio State (1)	299
9. Southern Cal. (3)	269
10. TCU (3)	229

The second 10:

11. Pittsburgh (1)	258
12. Mississippi (1)	250
13. Navy (1)	241
14. Duke	85
15. Wisconsin	50
16. Penn State (1)	50
17. Washington (1)	50

University Buzzes At Disappearance Of Football Player

BOULDER, Colo. (U)—The University of Colorado campus buzzed today over the disappearance of football guard Joe Connors during the second half of the CU-Arizona game here Saturday.

Coach Dal Ward said Connors played part of the first half. But when Ward called for him to enter the game in the third quarter, the 245-pound lineman was not on the bench.

Ward said he could not explain Connors' absence. "Have no idea where he is," the CU coach added, and declared: "I'm not going looking for him—he'll have to come back on his own."

Connors, a 23-year-old native of Pittston, Pa. enrolled at Colorado in the fall of 1954 after a hitch in the Marine Corps. He was ineligible last year because he played at William & Mary in 1953. He reported to the Buffalo varsity as an end last spring, was switched to guard, and later was listed as one of the best new linemen on the squad.

End Coach Ray Jenkins said going AWOL at the height of a game is without parallel in collegiate football.

"We've lost them the day before a game and a week before a game but never during a game," he told newsmen. The Colorado team knocked over Arizona, 14-0, in the rain last Saturday and is preparing for a Big Seven Conference game with Kansas here next Saturday.

By ED CORRIGAN
NEW YORK (U)—Even though Manager Casey Stengel doesn't know who is going to play, his New York Yankees today remained steady 13-10 favorites to win the World Series from the Brooklyn Dodgers.

The first game is scheduled for the Yankee Stadium at 7 p.m. tomorrow, and Stengel may not decide on his lineup until 12:30. "I don't know what my infield or my outfield is going to be," he said, "and I won't know until just before the game. All I know is that I have a couple of starting pitchers ready—Whitey Ford for the first game and Tommy Byrne for the second."

The forecast is for rain all day tomorrow, and possibly Thursday too. If the opener is postponed, the elements would work in favor of the Yankees because Mickey Mantle's ailing leg would have additional time to heal.

At the moment, Mantle, the Yanks' leading batter and home run hitter, is far from optimistic. In fact, if the first game goes on as scheduled, he probably won't start. "It feels better," said Mantle, "but I still haven't tried to put any pressure on it."

If Mantle is unable to make it, Irv Noren probably will move from left field to center field. Bob Cerv or Elston Howard then probably would move in to left field.

Except for Mantle, the Yanks are in line shape. Their only other doubtful spot is shortstop, where it's a tossup between Phil Rizzuto and Gerry Coleman. Yogi Berra will catch, Joe Collins play first base, Billy Martin (his Army leave has been extended) second, Gil McDougald third and Hank Bauer right field.

Brooklyn Manager Walt Alton, as usual, has been going about his job in strictly a businesslike manner—no fuss, no indecision, no turmoil. Long ago, he had decided on his series lineup and for the next 24 hours he needs only to hope his men stay in top shape.

Right fielder Carl Furillo has a cold, but he reported he expected to be ready for action. Alton met yesterday with his board of strategy to talk over the Yank weakness and reported he was "very pleased" with the conference.

I answer to an observation by a reporter that he must have had some trouble keeping his club "up" for almost a month—the Brooks clinched the National League pennant Sept. 8—Alton replied: "No major league ball player has yet kept 'up' for a World Series. They all know this what they've been fighting for all year, and they're not going to stop now."

Perhaps the only big question mark on the Dodgers is their pitching staff. Big Don Newcombe, who goes in the opener, is the only flinger on whom Alton could count on day in and day out through the regular season.

The Dodgers' lineup, in addition to Furillo and Newcombe, will have Roy Campanella behind the plate, Gil Hodges at first, Don Zimmer at second, Pee Wee Reese at shortstop, Jackie Robinson at third base, Junior Gilliam in left field and Duke Snider in center.

After Newcombe, Alton probably will start Billy Loes in the second game, and follow with Carl Erskine for the third game, Johnny Podres or Karl Spooner for the fourth and come back with Newcombe for the fifth.

After Byrne in the second game, Stengel probably will send Bob Grim against the Brooks in the third game, then Bob Turley in No. 4 and Don Larsen in No. 5.

Camp Set Up Outside Fields By Avid Fans

NEW YORK (U)—Manager Mayo Smith of the Philadelphia Phillies, in town for the World Series, had this observation today: "A World Series is a pitching contest. I think Brooklyn pitcher Clem Labine is going to be one of the most important men in the country in the next few days. He's the Dodgers' best."

The first two games are in the Yankee Stadium and they don't get over to Brooklyn until Friday, but there's a fellow camped outside Ebbets Field since last Saturday. The Yank campers didn't begin arriving until yesterday.

Whitey Ford, who is to start the first game for the Yanks tomorrow, said Jackie Robinson is the toughest batter ever faced. But I feel real good about starting against the Dodgers—in the Stadium," added the Yanks' No. 1 hurler.

Carl Furillo, the Dodger right fielder, is nursing a cold which means that he's had trouble now in four series. Before the '53 Series, he suffered a fractured left hand in a scuffle with Leo Durocher, in '52 he had eye trouble and in '49 he suffered a groin injury.

The Brooklyn Red Cross issued a list of instructions to Dodger fans on how to keep calm with the observation: "Since the Dodgers went to such lengths to protect the fans, the least the fans can do is try to protect themselves."

Surprising Turnout Sees Finks' Action

PITTSBURGH (U)—A surprising turnout of 26,338 fans saw quarterback Jimmy Finks toss two touchdown passes to give the Pittsburgh Steelers a 14-7 victory over the Chicago Cardinals in a National Football League opener for both clubs last night.

With only 32 seconds of the final quarter remaining Finks hit halfback Ray Mathews with a 27-yarder which broke a 7-7 tie. The Steelers took a 7-0 lead in the third quarter when Finks chimaxed a 77-yard drive with his short pass to end Jack O'Brien in the end zone.

The Cardinals tied the score in the final quarter when Lee Sanford, a 220-pound linebacker, intercepted a Finks pass on the Cardinal 3-yard line and rumbled 92 yards to pay dirt.

The Steelers had 23 first downs to 8 for the Cardinals. The visitors, who went into the game a half point favorite, gained only 63 yards rushing and passing. Finks made good on 20 of 34 pass attempts for a net gain of 236 yards.

Doug Ford Has \$7,000 From Win

NEWTON, Mass. (U)—Doug Ford the National PGA titleholder who passed up a promising baseball career for golf, was \$7,000 richer today after a hard-earned victory in the \$43,000 Sponsors Tournament at the Charles River Country Club.

The 33-year-old son of a former golf pro in New Haven, Conn., appeared to welcome the tingling pressure in the 72-hole competition and wound up with a score of a 12 under par 276.

"I felt great, the course was great and the shots fell right most of the time," Ford said as he pocketed the big check which boosted his earnings for the year to more than \$34,000.

An outstanding player who had many baseball scouts eyeing him, Ford won a scholarship for his diamond ability to Manhattan College. But while still 17, his first love switched from baseball to golf when he won the New York State Amateur championship.

Ford turned pro in 1949 and almost immediately became known as a fierce competitor with ice in his veins. His coolness paid off yesterday.

With Art Wall Jr. of Pocomo Manor, Pa., and Dr. Cary Middlecoff, the non-practicing dentist from Memphis, Tenn., pressing him, Ford fired a three-under par 69 over the 6,431 yard course in his final round.

Wall carded a fine 68 on the final 18 holes for a 277 and second place money of \$3,750. Middlecoff, who was three off the pace after 34 holes, made a tremendous bid but had to settle for a 65 and a 278 total, good for \$2,500.

Other top finishers were Fred Haas of New Orleans and Cleveland, Calif., with 290 (\$2,100); Leo Biaggini of Willoughby, Ohio, who moved into fifth place with a brilliant 66 in the final round for 283 (\$1,800); Jackie Burke of Houston, Tex., with 284 (\$1,600); Fred Hawk-littler of Palm Springs, Calif., deadlocked at 285 (\$1,300 each).

University of North Dakota football teams have won eight North Central Conference titles.

Jones High Scores Slight Margin Over Crooms Team

Monday's Sessions Are On Light Side

By THE ASSOCIATED PRESS
With the exception of Vanderbilt, Southeastern Conference teams took Monday's practice sessions on the light side. The Commodores, however, are taking in double sessions this week.

Coach Art Guepe of Vandy said the extra drill is not a reaction to the 14-13 heartbreaker the Commodores dropped in Georgia Saturday. He said the night session was ordered to give all hands a chance to get familiarized with playing under lights.

Alabama which tangles with Vandy at Nashville Saturday night, began its workout today, with Coach J. B. Whitworth saying, "We will improve as the season progresses." He said his charges weren't at all downhearted as a result of their opening 20-10 loss to Rice Institute.

Only new injury for the Tide was a bruised leg for tackle Doug Potts. Hurt in the rice encounter were guard Max Kelley and center Glenn Graham. It won't be known for several days whether the three will be ready for action against Vandy.

Mississippi's rebels, despite last Saturday's loss to Kentucky, showed a lot of spirit in Monday's drill. They will open their home season Saturday against North Texas State.

LSU will resume rough workouts later in the week in preparation for the team's second invasion of the Southwest Conference Saturday against the Rice Owls at Houston. The Tigers were dumped 28-0 by Texas A&M last Saturday.

The Kentucky Wildcats are taking it easy after their 21-14 upset of the Rebels. The 13 players who saw most of the action Saturday worked briefly in sweat clothes. The Wildcats step out of the league next Saturday night against Willanova at Lexington.

Two fast moving sophomores—quarterback Gene Newton and left halfback Al Cottrell—ran with Tulane's first team Monday and may start next Saturday in another out-of-conference clash with Northwestern at the Green Wave's home field at New Orleans.

Mississippi State, fresh from a 17-7 victory over Tennessee with no major injuries reported, is getting lined up for next Saturday's contest with Memphis State. This will be the Maroons' first home game of the season at State College, Miss.

The Georgia Bulldogs took a long look at movies of their victory over Vandy. Coaches Monday praised the work of end Cleve Clark, and tackle Walter White and Alex MacDonald.

Rain kept the Georgia Tech Yellow Jackets from Monday's practice. Trainer Duck Andel reported star halfback Paul Rotenberg twisted his left knee during the Jackets' 14-win over Florida. Andel says he may not be ready to play against Southern Methodist in Atlanta Saturday.

The Florida Gators will be in full gear Tuesday in readiness for their clash with Auburn Saturday. Coach Bob Woodruff said he is "not discouraged a bit" about the amount of effort his team put out against the Jackets.

Tennessee's Vols are making preparations for next weekend's encounter with Duke, after taking a 13-7 licking from Mississippi State. In a light workout Monday, the Vols reviewed mistakes that tripped them Saturday.

John Garrett, Rice's brilliant golfer, shot a new course record 63 to win the medal in the Monroe, La., golf tournament. The next day his 67 wasn't good enough. He lost his first round match 1 up to Jim Ledbetter of LSU.

Panthers Gather First TD

By JAMES BROWN
The Jones High Tigers, before a crowd of 1500, defeated the Crooms Academy, Panthers by a slight margin of 12-6.

During the first half, the Panthers had running fullback, Gene Knight, scored the first touchdown of the game after the terrific running of Don Burke, Crooms' star halfback.

Crooms' linemen Joe King, Zeke Washington, and Bobby Lamb played an exceptionally good defensive game. Just before the end of the first half, Don Burke, passer and Bobby Lamb, receiver completed the first pass of the game. Jones High did not complete any passes during the first half, but they were able to make an interception of one of Crooms' longest passes.

During the half, the Jones High Marching Band gave the crowd a splendid performance. The marching Music-Makers of Crooms Academy also entertained the spectators during the half, with a very fine performance. Coming back after the first half the score still remained Jones High-0, Crooms-6.

Jones High, after several unsuccessful attempts scored two touchdowns to win the game 12-6. Both teams ran from the T-formation. The lineup of the Panthers on the kickoff were left end, Bubber Black; Melvin Sutton, left tackle; Joe Jackson, left guard; Bill Scurry, center; Zeke Washington, right guard; Ralph Thomas, right tackle; Bobby Lamb, right end; Backfield, Woodie Detreville, quarterback; Don Burke, left halfback; Gene Knight, fullback; and Sam Nesbitt, right halfback.

These boys have proved to be good competitors to the Jones High Tigers. The two teams fought every minute of the game as it was a very tense game.

Major Loop Owners Go Over Demands Made By Players

NEW YORK (U)—Major league owners today were mulling over four new demands of the players—although they haven't been put forth formally yet.

The player representatives met yesterday with their attorney J. Norman Lewis and drew up the resolutions. They are:

1. That each major league squad be limited to two bonus players and that these not be included in the regular 25-player limit.

2. That players be given a chance to deal directly with the South American and Cuban winter leagues instead of the negotiations going through the owners.

3. That service in the armed forces be counted in the players years of baseball service for pension purposes.

4. That owners be forced to consult with player representatives before completing deals for radio and television for the World Series and All Star Game. This is now handled by the commissioner's office.

The players said they felt idle bonus players on a roster kept veterans out of work, so they asked that they not be counted on the limit.

Golfing Grand Slam Celebrated Tonight At Atlanta Party

ATLANTA (U)—The famed golfing grand slam made by Bobby Jones, 25 years ago will be celebrated tonight at Atlanta's biggest golfing party.

Friends of the golfing great will assemble at the Atlanta Athletic Club to honor the man who has done so much for golf.

It was 25 years ago today that Jones completed his sweep of the four major American and British titles. He defeated Eugene Homans, 7 and 6, to win the U.S. Amateur at the Marion Cricket Club.

Earlier in the year he won the British Amateur at St. Andrews, the British Open at Holyoke and then came home to capture the U.S. Open at Interlachen, Minneapolis, Minn.

Jones retired from competitive golf soon after winning the U. S. Amateur and devoted much of his time to building up the course at the Augusta National Club in Augusta, Ga.

Darold Erickson of Sioux Falls, S. D., played end and tackle for Army last season. This fall he has moved to center.

GOV. AVERTLMBRIMMAN of New York testifies before the Senate Judiciary subcommittee, which is holding hearings on the illicit drug traffic problem. The Governor told the group meeting in the Federal Building, New York, that he has a four-point plan to fight the spread of drug addiction. They are: heavier penalties for dope peddlers; compulsory treatment of addicts; Federal economic and diplomatic sanctions "to dry up the stream of narcotics at source"; and elimination of conditions encouraging drug addiction. Case Against 2 Men Enters Second Part On Kidnap Charges

GREENWOOD, Miss. (AP)—The second phase of the state's case against two white men accused of kidnaping and killing a Negro boy begins here this week.

Dist. Atty. Stanny Sanders said he expects a preliminary hearing on the kidnap charge to be held not later than Friday. The men were cleared of a murder charge last Friday in a trial that drew international attention.

The boy, 11-year-old Emmett Till of Chicago, was snatched from his uncle's home near here early Aug. 28—four days after he allegedly willfully and made "insulting" remarks to Mrs. Roy Bryant, 21, on the Bryant grocery store at Money.

Revant, 21, and his half-brother J. W. Milam, 36, of Glendora, Miss., were arrested the next day. A brutally battered body identified as Till's was found in adjoining Tallahatchie County Aug. 31.

For extra flavor, garish pots to assist with finely chopped green onion or chives.

Merchants Suggest Job Tax Clinics

For the benefit of some 20,000 small employers in Florida who in January will begin paying unemployment compensation tax for the first time, the Florida State Retailers Association has suggested job tax clinics in various parts of the state.

All employers of four or more workers are subject to the tax, at 3 per cent of payroll, effective Jan. 1. Prior to that date they must file Form U.C. 1 and plan their schedule of quarterly reports and payments.

"We suggest job tax clinics be held soon in six or eight major centers throughout Florida," the Florida State Retailers Association today wrote Chairman James T. Vocelle of the Florida Industrial Commission.

"Our organization offers its cooperation in arranging and conducting these clinics because so many of the newly covered employers are small merchants," the message to Chairman Vocelle added. "They need full information on the state unemployment compensation statute and its requirements."

"Actually, the regional sessions could well be broadened to serve all covered employers," Dallas Hostetter, executive director of the state retailers group proposed. "Such a package plan offered by the Commission would help presently covered employers review methods of insuring the possible merit rating in this time of tight expenses," Hostetter added.

"If a schedule of clinics is set up in advance, the state retail organization will alert local action committees of merchants in 120 cities, towns and villages throughout Florida," the association advised Chairman Vocelle.

The Florida Retailers Association has joined in offering the Industrial Commission its cooperation on the suggested series of clinics for all employers.

Clements May See Big Career Ahead

AUSTIN, Tex. (AP)—The first pass sophomore Joe Clements of Texas threw in a college game was a completion and this fall, quiet kid could be headed into a record-writing career.

When he threw that pass, he was fourth-string quarterback. At the end of the game against Tulane Saturday, he was the man under center with the first string and the regular signal-caller. Was Fondren had been shifted to another back field spot. Fondren can run but his passing was getting nowhere.

In the Tulane game—his second in college—Clements completed 17 of 22 to help Texas win 35-21. The performance gave him an astonishing season record of .33 and Longhorn coaches believe he can keep going.

SRD Is Ready

(Continued from Page One) from Five Points to the Orange County line."

On the question of a cash bond of one million dollars because of right-of-way condemnations and declaration of taking, Dial said, "The county commission goes out and buys the right-of-ways for their appraised value or less, and that leaves only a small percentage of the property left for condemnation and for declaration of taking. If the value of that portion is only in that amount and I am sure that the Road Board will help out in matching such funds," said Dial. "It has been done before. I want to see the road built and I want to help you," he said.

Asked whether or not he had contacted property owners along the right-of-way who had shown a willingness to contribute right-of-ways, Fox said, "No. Only two property owners have actually signed deeds contributing their right-of-way property to the county, and of the 15 others who had shown a willingness to contribute they had not contacted any of them because he could not get hold of the 'exceptions'." "No one would give them to me," he said.

Mrs. Vera M. Tolle, secretary to the Citizens Committee and the Long Range Highway Planning Committee of the Seminole County Chamber of Commerce, said this morning, "I offered the exceptions to Mr. Fox but he told me that he would not need the information until the appraisal was complete."

"There are a couple of the property owners who listed no right-of-way property but have not been contacted," she stated.

Bradley Odham, chairman of the Citizens Committee and of the Long Range Highway Planning Committee of the Seminole County Chamber of Commerce, said this morning, "I am not surprised that the paid right-of-way man of the county commission, who must look to them for his salary, will attempt to place the blame for possible failure of our 17-92 project at anybody else's doorstep he can. I want to state here and now that the State Road Department, its District Office in Deland, and the Road Board member of this district, William A. Dial of Orlando, have been far more cooperative in work on this project than any reasonable person could expect. The county commissioners have continually dragged their feet on this project. They have, all year long, ignored my requests to add necessary help to secure the adequate right-of-ways and right-of-way information. I personally like Jack Fox but I have found it extremely difficult to get any action out of him all along. A number of people," said Odham, "have indicated to our committee that they will give right-of-ways and to my knowledge he hasn't contacted and secured the deeds from anyone on his own initiative."

"After all," said Odham, "as a paid right-of-way man of the county commission, this should be his first job. Somehow, probably from the direction of the County Commissioners, he hasn't had time to devote to the 17-92 project. On last Thursday he had time to work on Celery Ave. and State Road 46, and neither of the roads are in the budget."

"I am confident that the State Road Department will do everything within its power to help us build 17-92 this year if the County Commission will stop dragging its feet and take an affirmative and positive action at our next Tuesday's meeting. I am confident that the road can be built this year."

"I urge every citizen to do his part on this project by expressing his feelings to his County Commissioner," Odham said. And added, "Be present Tuesday at the next Seminole County Commissioners' meeting."

Army Takes Over Where It Left Off

NEW YORK (AP)—Army has taken up right where it left off last year and leads the nation's colleges in total offense and rushing.

The Cadets, who finished No. 1 in both departments, are right back at the top, according to statistics of the National Collegiate Athletic Bureau released today.

After one game, an 81-0 decision over Furman, the Cadets have piled up 567 yards in total offense, including 318 on the ground.

Strung out behind Army's fast start in the offense rankings are Oklahoma, which amassed 433 yards enroute to a 13-0 score over North Carolina, Boston College, Holy Cross and Illinois. The same five, plus potent Texas Christian, top the ground-attack listings.

West Virginia averaged almost 15 yards per forward pass attempt in its Richmond opener Saturday, getting 208 yards and 3 touchdowns on just 14 throws, 9 of them completed. Of those that have been tested in two outings, however, Texas and Stanford rate as air travel leaders, with 183.3 and 182-yard-per-game averages.

Picture Favorable In All Available Reports On Vaccine

WASHINGTON (AP)—Surgeon General Leonard A. Scheele said Monday "the picture looks very favorable" from available reports on the effectiveness of Salk antipolio vaccine.

The head of the U.S. Public Health Service said the reports are still incomplete, fragmentary in some instances, and unanalyzed but they all indicate the vaccine has been 100 per cent effective where polio has prevailed this summer.

"The published reports from health officials of New York state and New York City and from the state health officer of Oregon are very heartening and it is hoped the results in those areas are typical of the entire country," Dr. Scheele said in an interview.

The three departments he named had reported the vaccine appeared to have been 100 per cent effective among children given the full recommended three shots in 1951, when extensive testing was under way. They also reported favorable results so far this year.

"Those reports and all others we have received indicate the vaccine has given protection," Scheele said.

However, we will have to have a longer time before the picture can be objectively analyzed.

BURGLARY REPORTED HOLLYWOOD (AP)—Police are investigating the weekend burglary of an apartment occupied by an ex-army captain from Egypt.

The burglary was reported by neighbors of Fouad Aref, 29, who was an advisor in Egypt for C. B. Demille's "The Ten Commandments."

Aref told reporters he had been out with a "beautiful and well known Hollywood actress" but declined to identify her.

20 Stitches Needed To Repair Boxers

NEW YORK (AP)—It took a total of 20 stitches to repair winner Neal Rivers and loser Bobby Dawson after last night's 10-round bout at St. Nicholas Arena.

Rivers suffered a deep gash over the left eye early in the fight and Dawson was slashed around the right eye in two places in the final round.

Rivers, 35½, a Niagara Falls, N.Y., boy who had to go to California to get action, will be back Nov. 7 to box the winner of an Oct. 17 match between Arlie Towne and Milo Savage, one of the two men to knock him out.

The 23-year-old Rivers, a free swinger, has won nine straight for a 25-4-1 career record since he left the Golden Gloves in 1932. He stopped Jesse Turner and outpointed Jimmy King in his last two previous starts.

Dawson, 153½, originally from Blakely, Ga., now fighting out of New York, is a lanky middleweight who fought men like Yolande Pompey during his three-year travels in Europe.

7. We would like to show you some of the things that make the new 1956 Ford one of America's finest cars—despite the fact it is one of America's lowest-priced cars. Let's start with these long, low lines. Looks like it hates to stand still, doesn't it?

Let's take a walk around the NEW '56 FORD!

It's the fine car at half the fine car price!

1. Here's what you ride on. This frame has five cross-members including a K-bar member up front. It can take it! And Ford's Ball-Joint Front Suspension really bounces out bumps.

2. Here, on your left, is the inspiration for the styling of the '56 Ford—the famous Ford Thunderbird. You can see the similarity from any angle. Look at those broad, flat hoods, those veined headlights, for example. Here is styling that will stay in style.

3. Here's the new 202-h.p. Thunderbird Y-8 and we assure you, it will give you new driving enjoyment. It's available in Fordomatic Fairlane and Station Wagon models... the 176-h.p. Y-3 in Fordomatic Mainline and Customline models... the 137-h.p. Six in all models.

4. This Lifeguard cushioning for instrument panel and sun visors is optional. It gives you extra protection against serious injuries when thrown forward in an accident. You may also have optional seat belts to help keep occupants securely in their seats.

5. Note the deep-center design of this new Lifeguard steering wheel. The wheel rim is over three inches above the rest to help cushion the driver in case of an accident.

6. Well, that covers the important points. But there's a lot more. So we'd like to invite you to come in and see the new '56 Ford for yourself. Then you'll see the colorful new exteriors and interiors, the quality workmanship that is evident everywhere. Then you'll learn the full story. You'll know that Ford is the full car at half the fine car price.
