CONGREGATIONAL CHURCH
Park Avenue and Third Street
J. Bernard Root, Minister
Church School 10:00 A.M.
Morning Worship 11:00 A.M.
Sermon: "The Lost Word".

A Book For These Times
"If the Apocalypse closes the Bible, it opens the book of the world, translating Christ into the vocabulary of the larger efforts, the race problems, the social achievements of history. It is the only fitting close of the Bible, being a vision neither of things past nor of future things, but of the eternal present. The Babylon of the Book is neither Rome nor the city of the Euphrates. It is any center of rebellion against light. The beast with seven heads and ten horns is not Caesar alone. It is the unscrupulous Man of Power in every age. The Christ whose presence is the glory of the Book is the immanent Christ, in whom the human and the Divine blend—mighty but merciful, His word sharper than a two-edged sword, yet redeeming. His face as the sun shining in splendor, His voice like music."
Joseph Fort Newton

SEVENTH DAY ADVENTIST CHURCH
Seventh Street and Elm Avenue
Sabbath School, 9:30 A.M. Saturday.
Church service 11:00 A.M.
William Buckner and William Watt, elders.
Mrs. Harry Watt, Sabbath School superintendent.

War Preparations

(Continued From Page One)
ars could keep moving only 2 1/2 hours on a full load of gas.

The specifications of the biggest American tanks are not yet publishable data. But Brig. General D. J. Crawford, commanding officer of the Detroit arsenal, put it this way in commenting on a new contract to the Chrysler Corporation:
"Chrysler, with the assistance of ordnance, will be making preparations for the production of heavier land battle tanks which tests show will out-slug any land fighting machine ever produced by our Allies or our enemies."
Which would indicate that the engineers have solved those problems of the competing ratios between speed, weight, heat consumption, and durability on the road, or over the fields.

Meanwhile, the Army has taken the wraps off a typical new tank, the "Walk-Back" which is small, fast and lethal. It weighs less than 20 tons, can wind up to 40 miles an hour, has an automatic torque transmission, and gyroscopic sights that keep the gun on the target, however the hull may be bouncing around.

The same trademark appeared again in an unusual place—a leather goods plant in Dec Moines. Through three wars, the Boyl Corporation has been making packs for the infantry, pistol holsters, and binoculars, artillery harness and gun covers. The firm still is filling such orders.

But something new has been added. Walter Boyd said. His craftsmen are working on a huge contract for containers and parachutes, capable of carrying 5,000 pounds.

What does it mean? It illustrates the increased importance of the air-drop, light carriers of that size would be necessary to supply by air a unit far ahead of its own lines, isolated and perhaps totally surrounded. The tricks of that technique were under study in the last few years as they are being developed in Korea today.

2 Red MIGs Collide During Attempt To Shoot Down U.S. Jet

Seven Enemy Planes Damaged As Fierce Air Battle Rages Over North Korea

TOKYO, Mar. 12—(AP)—A spectacular explosion of two colliding Russian-made jet planes stole the Korean war spotlight today as ground action slowed behind retreating Communists.

The MIGs were trying to make a tight turn while chasing an American F-80 Thunderjet. They hid and exploded.

"Best damn show I've ever been couldn't cut it fine enough, colon," said Lt. Arthur Walton of a flight of four F-80s attacked Bethesda, Md., one of the pilots by 16 speedy Red planes.

The four F-80s reported they damaged four other MIG-15s in a 10-minute dogfight. That brought the bag of damaged MIGs to seven for the biggest two days of jet fighting over northwest Korea in (Continued on Page Six)

Galloway Elected To Head Florida Tax Collectors

John L. Galloway, Seminole County tax collector, was elected president of the Florida Association of County Tax Collectors at its 22nd annual convention Thursday at the Seminole Hotel, Jacksonville.

Mr. Galloway, who served as vice-president of the organization last year, has been a member since 1947. He succeeded A. G. Appleberg of Bay county. Other new officers include county vice president and James M. Gilbert of Lee county, secretary and treasurer.

Following the death of Jno. D. Jenkins, Mr. Galloway was made Seminole County tax collector on Jan. 31, 1947. In 1948 he was elected for a four year term, beginning in January, 1949.

Born in Brunswick county, North Carolina, he received his early education in Sanford.

Local Salvation Army Captains Go To Meet

Capt. Eva Williams and Lieut. Hazel Frierson returned Thursday from Atlanta, Ga., where they attended the Salvation Army Congress for the southern territory.

The program included a big parade, and Capt. Williams played bass horn in a 22 piece band that participated.

She reported that the most inspiring talk at the congress was made by Commissioner Norman Marshall of Chicago who spoke on the work of the Salvation Army in the world today.

Lieut. Frierson stated that she enjoyed a pagant devoted to missionary work of the organization in India and other foreign lands.

One of the workers impersonated an African which doctor, she said.

A group of native Salvation Army officers from Mexico appeared in costume.

Gold Ore Auctioned To Buy New School

CRIPPLE CREEK, Colo., Mar. 12—(AP)—Want to buy some gold ore? You can get a chunk for a dollar, and help build a school besides.

School kids at Cripple Creek and Victor today offered to send it anywhere in the United States. It's their way of financing a new school.

Gold still is mined in the area, but not in the quantities it was when 60,000 residents supported 25 schools. Now the 1,500 people have two schools for 375 students.

Both are more than 50 years old.

The kids' fathers and miners have mined 80 tons of ore, which the mine workers contributed.

Boxes lined with cotton are ready to be packed. As the boxes come in, the kids will break the big chunks into little ones.

Just address your orders to the school kids of Cripple Creek or Victor. They'll do the rest.

Fitzgerald Wins Los Angeles Oscar

LOS ANGELES, Mar. 12—(AP)—The 1951 Irish Oscar, a statuette of St. Patrick, has been won by James Fitzgerald of the American Overseas Irishmen, a Catholic organization, announced yesterday that members of the organization in the United States and Canada consisted of the 1951 award for the Order of St. Patrick's Day Ball Mar. 17.

Fitzgerald, a Protestant, often portrayed the role of a Catholic priest on the screen.

More Than 2,000 Attend Farmers' Auction Opening

Seminole High Band Serenades Crowd During Barbecue

More than 2,000 persons attended the barbecue and opening program of the Sanford Farmers Auction, Inc., at its new location one mile south of Sanford on the Orlando Highway Friday afternoon.

At 5:00 P. M. when the barbecue serving was started at the market building, a long line had already formed, and people were still being served at 7:30 o'clock when Larry Jones, auctioneer, was introduced by C. R. Dawson, president of the organization.

Carl Williams, who was in charge of the barbecuing, had located his barbecue pits right in the main building, and a strong east wind sent the aroma of cooking meat clear to the highway, several hundred yards distant.

Adding greatly to the enjoyment of the occasion was the concert of the Seminole High School Band led by E. E. Black.

The steady arrival of automobiles (Continued on Page Two)

Arkansas Negro To Open Fight To End Separate Schools

LITTLE ROCK, Ark., Mar. 12—(AP)—"Segregation is evil, it must go," a Negro attorney declared here last night in announcing plans for legal action to ban segregation in some Arkansas public schools.

Spokane, 200 members of the National Association for the Advancement of Colored People, Harold W. Flowers of Pine Bluff, Ark., said the Arkansas legislature failed to provide adequate funds for education and called it a "blatant in disguise."

Flowers pointed out that the U. S. Supreme Court has ruled that Negroes may attend white schools in places where equal facilities are not provided, and said:

"The inequality of schools for whites and Negroes in Arkansas gives us a foothold which we can must use to a touchdown."

He charged the legislature had guaranteed that the schools would be in poor financial condition, and warned that "if the representatives don't care about education of white people, they certainly don't care about education for the colored."

Flowers told the delegates he planned to start his battle for equal school facilities in Cleveland county within two weeks.

He urged members of the Little Rock NAACP chapter to cooperate in the action to bring about equalization in school districts.

"We must determine among ourselves that segregation is evil, that it has no place in a democracy, and that it must go," Flowers said.

Pigeons Drink Scotch But Escape Capture

LEVEN, Scotland, Mar. 12—(AP)—The town council gave its 200 recalcitrant pigeons a liquor party Saturday night, but not a bird was in line today for the anticipated pigeon pie.

The pigeons have been making mincemeat of themselves from perches in the town hall. The council fed them grain soaked in Scotch whisky, expecting to get the birds drunk and then catch them.

But the birds gobbled up the whisky-grain, soared drunkenly back to their rooftops and leetered there until they sobered up.

Said Borough Surveyor A. V. Samuel, a member of the plan for alcohol disposal:

"Either the whisky is watered down these days or these birds are old drinking hands."

Small Business Aid Washington

WASHINGTON, Mar. 12—(AP)—Senator Humphrey (D-Minn.) said he will offer today a bill to set up an Office of Small Business Defense Production to map ways of meeting small business needs effectively in the rearmament program.

"The sad fact is that small business has had the door slammed in its face," Humphrey said yesterday in announcing his plan.

"Meanwhile, a relative handful of the larger companies are being handed multi-million dollar amounts that even our industrial plants are being bought for from six to eighteen months.

Hiss Appeal Is Denied By High Court

Request For Review Of Conviction For Perjury Is Turned Down By Tribunal

WASHINGTON, Mar. 12—(AP)—The Supreme Court today refused to review the perjury conviction of Alger Hiss.

The refusal lets stand Hiss's conviction and five year sentence given him in a jury's finding that he lied in denying he fed government secrets to Russia from his high State Department office.

Justices Reed, Frankfurter and Clark disqualified themselves from considering Hiss's appeal.

Reed and Frankfurter testified as character witnesses for Hiss at his first trial in federal court in New York but not at the second trial which resulted in the conviction.

Clark was attorney general at the time the government prepared its case against Hiss.

Hiss was convicted on Jan. 21, 1950 has been free on \$10,000 bail pending supreme court action on his appeal. His first trial ended July 8, 1949, with the jury deadlocked 8 to 4 for conviction.

Hiss now can ask the high court to reconsider its refusal to accept (Continued on Page Six)

Communist Leader Is Released After Serving 10 Months

NEW YORK, Mar. 12—(AP)—Eugene Dennis, General Secretary of the Communist Party in the U. S., was released from prison today after serving 10 months for contempt of Congress.

"Now, I'm in good fighting trim," he told reporters, explaining he had lost 40 pounds while in prison. "I will really explain for peace."

Dennis emerged from the Federal House of Detention 50 minutes before his scheduled release time, and only his wife, Peggy, and 12-year-old son, Eugene, Jr., were there to meet him.

They breakfasted at a nearby restaurant, and later about 400 persons gathered to meet Dennis and sing. "We will not be moved."

Dennis, sentenced for contempt in refusing to answer questions of the House Un-American Activities investigating committee, now faces a five-year term in the Communist conspiracy case.

He and 10 other Red leaders were convicted of conspiring to advocate forcible overthrow of the U. S. government, and are still free in jail awaiting appeal to the U. S. Supreme Court.

Welfare Board Hawkins Enrolls Shepard Air Force Base

WELFARE BOARD
Unit No. 4 of the State Welfare Board, moved today from the old hospital building at Fifth Street and Oak Avenue to its former location in the Melch Building, it was announced by Mrs. Troy Ray, supervisor.

The main office of the board is in Room 250, located in the rear of the building. Mrs. Ray has 12 members on her staff. Office hours are from 8:00 A.M. to 5:00 P.M. Monday through Friday.

Allied Soldiers Freed After Red 'Schooling'

CAPTURED BY THE CHINESE COMMUNISTS, a group of U.S. soldiers huddle around a makeshift stove at a roadblock center in Korea, tired and haggard looking after making their way back to Allied lines following 17-day ordeal of being Red captives. Classes on "the righteousness of Communism" failed to suppress the boys' loyalty to their country.

The group (left to right) are: Pvt. Robert Dunsen, Dayton, Ohio; Pfc. Joseph A. Collins, Baker, N. C.; Cpl. Lawrence Becklund, Sydney, Australia; Lt. Angus MacDonald, Brisbane, Australia; and Lt. George S. Dornier, Des Moines, Ia. Several of the men suffered wounds. (U. S. Defense Dept. Photo)

Senators Are Told Of Huge Ship Profits

RFC Investigators Hear Former Con- gressman Tell Of Enormous Returns

WASHINGTON, Mar. 12—(AP)—Joseph E. Casey, former congressman, testified today he invested \$20,000 in a company which brought five surplus government tankers and later sold the stock for about \$270,000.

Casey, now practicing law in Washington, was asked about the thin deal by Senators looking into alleged use of influence on government agencies. He is a former Democratic House member from Massachusetts.

The senators had developed earlier that Casey had been associated with Joseph Rosenbaum in practice before the Maritime Commission and had received \$15,800 in fees from Rosenbaum.

The Senate banking subcommittee, which is primarily investigating (Continued on Page Six)

Air Force Calls Ten Thousand Non- Flying Personnel

WASHINGTON, Mar. 12—(AP)—The Air Force announced today it is calling to active duty in the next nine months 19 non-flying Air National Guard units composed of 10,000 officers and men.

The first of the Guard units will be called into service within two months. The others will be brought in during the following seven months.

The Air Force did not disclose either the identity or the future assignments of the units.

The 19 units include eleven aircraft control and warning groups, five signal light construction companies and three communication squadrons.

This call to non-flying units is in addition to the mobilization orders that have gone out to 22 fighter and light bomber wings of the Air National Guard. More than half of these flying wings already are on duty. The Air Force said, and the remainder will be in service within a month.

The call up of the 19 units will complete the mobilization of the Air National Guard's aircraft control and warning groups. One such group was ordered into service several months ago.

All officers and men brought into service under today's orders will serve 21 months unless their period is extended by Congress.

Tourist Club Meet Delayed To Mar. 19

Due to the annual Pioneer Night celebration at Lake Mary, Saturday night, the Seminole County Chamber of Commerce has changed its scheduled Tourist Club program here to Monday night, March 19, Manager Ed Whitney announced this morning.

A program of entertainment is being planned for the Monday night program, and a local group will provide music for the occasion. Refreshments will be served and it is expected that more than 300 persons will be present at the Tourist Center.

Reservations may be made by telephoning Mrs. W. H. LaFette, 250-W.

House Committee Approves Lowering Draft Age To 18; Ike Says Europe Can Be Held

Senate Told Twelve U. S. Divisions Can Hold Breton Penin- sular Against Reds

WASHINGTON, Mar. 12—(AP)—General Dwight D. Eisenhower has told senators that 12 American divisions—with sufficient air and sea support—could hold the Breton peninsula of France against any Russian attack.

In confidential testimony given to Senate committees Feb. 1, the North Atlantic Pact commander expressed confidence that "our 150,000,000 enlightened people can still whip 190,000,000 backward people" in Russia if he were to.

Asserting that the men in the Kremlin "like their jobs," Eisenhower said that if the Soviet leaders declare war now "they are really fools."

"They cannot win on the global picture instantly and quickly by a complete knockout," he said.

"Therefore we do have a long, bitter struggle of attrition against the United States and this 150,000,000 people when they are united under such an attack—is still the most powerful thing on this earth under the almighty himself."

The five-star General told members of the Senate Foreign Relations and Armed Services Committees that the decision on whether to use the atomic bomb would have to be made on the basis of whether its military value outweighs the moral disadvantages.

"If I thought the net was in my favor," he said, "I would use it instantly."

Sen. Wright (D-Ark.) said he thought that the United States ought never to say that it won't use the atomic bomb. He argued that this country ought to maintain the position that it might use the bomb any time Russia provoked war through a satellite.

Eisenhower said that if Russia seemed about to get control of (Continued on Page Six)

Crime Committee Opens Hearings On N. Y. Gambling

NEW YORK, Mar. 12—(AP)—George Morton Levy, general counsel for Roosevelt Roosevelt, told the Senate Crime Investigation committee today that he paid Frank Costello, gambling figure, \$60,000 to cut the race track of bookmakers, Levy said.

"They warned him the track was 'infested with bookies,'" the attorney, appearing at the state of a climatic series of committee hearings, said he paid Costello \$35,000 a year for four years ending in 1949. He testified the late New York State Attorney (Continued on Page Six)

Rollins Students Protest Dismissal Of 19 Professors

WINTER PARK, Mar. 12—(AP)—The Rollins College campus calmed down today following word that about a third of the faculty would be dismissed for economy reasons.

Students and faculty members over the weekend demanded facts on the case, but today the students were quietly in classes again in a closed meeting at the Rollins chapter of American Association of University Professors was called for late in the day to protest the action.

A president of the local chapter is Ralph Huntley, of the science faculty.

The list of those to be dismissed following sessions of the Board of Trustees and the president was (Continued on Page Six)

Alonzo Church Dies In New Orleans

Alonzo Church, a former resident of Sanford, died recently in New Orleans, it was learned here Sunday.

The parents of Mr. Church died when he was very young and he was raised by his maternal and Mrs. R. F. Whitner, the latter an aunt, at their home near Silver Lake.

A graduate of the University of the South at Rutherford, Mr. Church's first job was with the J. E. Ingraham party, the first white man to cross the Everglades, serving in the capacity of "compass man." This was in 1902.

Soon afterward he entered the insurance business and moved to New Orleans, in January he and Mrs. Church celebrated their golden wedding anniversary.

Survivors include the widow; one daughter, Louise; two sons, Randolph and Alonzo Lee Church and several grandchildren. Funeral services were scheduled to be held this afternoon in New Orleans.

Oil Stove Fire A defective oil stove resulted in a fire that damaged the kitchen and contents in a home at Twelfth Street and Olive Avenue at 1:30 o'clock Saturday afternoon.

At the same time a grass fire was raging to a wide extent in the Dreamwood section, said Chief M. N. Cleveland. It took more than three hours of fire fighting and backfiring under the Chief's direction before the threat of the fire was eased. No property damage was reported.

Underworld Chiefs To Be Questioned Be- fore TV Cameras

NEW YORK, Mar. 12—(AP)—George Morton Levy, general counsel for Roosevelt Roosevelt, told the Senate Crime Investigation committee today that he paid Frank Costello, gambling figure, \$60,000 to cut the race track of bookmakers, Levy said.

No Hope Is Seen For Fish Hospital Here At Present

No hope was held out for any early construction of a hospital in Seminole County by the Fish Commission today by Bill Kirk, a member of the Hospital Committee, or by W. A. Leffler, one of the trustees of the Fish estate, both of whom suggested that the people here should proceed at once with plans for building a County hospital.

Reporting on a meeting held Saturday by the Hospital Committee with the Fish trustees, Mr. Kirk said the committee was told that the assets of the Fish estate are not liquid and that plans are going ahead to build a hospital in DeLand which will cost more than originally expected, possibly \$800,000. He added that the committee was assured by the Fish trustees of all possible co-operation in plan to build a County hospital here.

Mr. Leffler pointed out that only five of the nine trustees were present at the meeting, that the bid on the DeLand hospital has not yet been let and so they don't know how much it is going to cost. But he pointed out that the people of Duval are now building a hospital of their own with federal assistance, that other hospitals are being built elsewhere and that people here ought to be making plans to (Continued on Page Six)

Horticulturists To Hold Three-Day Meet In Orlando

ORLANDO, Mar. 12—(AP)—More than 100 horticulturists from southeastern states will attend a three-day annual meeting of the southern section of the American Society of Horticultural Science opening here April 1.

During the first day of the (Continued on Page Two)

De Wolski Is Student At Air Force School

MATHER AIR FORCE BASE, Calif., Mar. 12—(Special)—Constantine T. de Wolski, son of Mr. and Mrs. C. L. de Wolski of Green Acres, Sanford, is now a student at the USAF Bombardment School at Mather Air Force base, Calif.

The course he is taking will qualify de Wolski as an Aerial Observer (Bombardment) and will entitle him to wear the wings of the "1037," as he is known in the Air Force.

This is the second school the captain has attended since receiving his commission in March of '44. In 1949 he completed the Air Tactical School at Tyndall Air Force Base, Fla.

Capt. de Wolski served as a troop carrier pilot with the 8th Air Force in the last war. After termination of the war, he went to the 13th Air Force in Philippines for 25 months.

GOZO VISIT LONDON, Mar. 12—(AP)—Eve- hear of the island of Gozo?

Buckingham Palace disclosed today that Princess Elizabeth will visit there later this month. It is the lesser of the two main islands which make up the British naval bastion of Malta.

Primary purpose of Elizabeth's trip, which begins Mar. 19, will be to spend a while with husband Prince Philip. He is stationed at Malta with the British Mediterranean Fleet, in which he commands a frigate.

RAINFALL
Although the shower last night and early this morning added only .31 inch of precipitation it was welcomed by growers at the end of a dry spell which has lasted 19 days. It was the first rainfall during March. The last recorded rain was on Feb. 24, E. J. Moughlin, weatherman, said this morning.

Vinson Predicts Quick Committee Passage Of All Sections Of Manpower Measure

WASHINGTON, Mar. 12—(AP)—The House Armed Services Committee today approved lowering the draft age to 18 and six months, and lengthening of the service term to 26 months.

Chauman Vinson (D-Ga.) said the action was final and was taken "without objection."

The committee in closed session the consoling section by section a revised version of the bill introduced by Vinson for cutting the draft age below the present 19-year limit, extending the period of service and setting up a Universal Military Training program for the future.

The House bill differs in several respects from the one which the Senate passed Friday.

Vinson has predicted speedy committee approval, with the hope of getting the bill before the House Wednesday and obtaining passage before Easter.

The committee rejected two moves to separate draft changes from the Universal Military Training plan.

Vinson said the committee turned down "overwhelmingly" a motion by Rep. Amden (D-Ill.) to make two separate bills.

By a vote of 17 to 15, it disapproved a motion by Rep. Anderson (R-Calif.) to set up two bills in the bill—one dealing with draft changes and the other with UMT.

Vinson said the troops-to-Europe controversy had not yet been brought up.

The House Republican policy committee last Friday adopted a (Continued on Page Six)

Seminole County Fair Scheduled To Open Tonight

The Seminole County Fair, sponsored by Act 53, the American Legion, will open tonight at 6:00 o'clock and will continue through Saturday, James J. Galloway, Legion Fair chairman, announced this morning.

Describing the fair as "bigger and better than ever," he stated that two large tents will house the exhibits.

Among the outstanding exhibits will be those of the Seminole County Home, Boy Scouts of America, the Veterans on the Farm Training Class and the Future Farmers, Boy Scout troops, The Florida Highway Patrol and the State Game and Fish Commission. These exhibits will be on from 10:00 to 6:00 P.M. The Prill Amusement Co. has charge of the midway.

School children will be admitted free to the fair on both Friday and Saturday afternoon from 1:00 to 6:00 P.M. The Prill Amusement Co. has charge of the midway.

Two Hearings Held In County Court

Two preliminary hearings were held in County Court Friday by Judge Douglas Stinson.

Ernest White, who was charged with entering the home of H. M. West, 914 Pine Street on Feb. 10 and taking \$75 in cash and a radio, was ordered held under \$1,000 bond on a charge of breaking and entering.

J. H. Reid was bound over for action of the Circuit Court under \$1,500 bond on a charge of armed robbery. The charge was brought by R. W. Barnes, Atlantic Coast Line yard foreman. The defendant is a yard conductor.

TODAY'S BIBLE VERSE

Nations that accept God as their guide need no iron curtain to conceal their poverty and wretchedness. For this God is our God forever and ever; He will be our guide unto death.—Ps. 48:14.

Congratulations to John G. Loewy upon his election as president of the Florida Tax Collectors Association.

Congratulations to Governor Warren for removing Sheriff Culbreath from office. A little late perhaps but better late than never.

Paul Lake, former Sanford man, is mentioned as a likely prospect for the office of Hillsborough county commissioner to take the place of Elbert Moore whom Governor Warren appointed sheriff in place of Hugh Culbreath recently indicted for graft.

Although there has been a great shortage of labor in Florida, as well as all kinds of employees, during the last year, the sum of \$7,691,000 was paid by the State in jobless benefits, that is compensation for not working. However, \$11,141,000 was paid for not working.

The Tampa Tribune points out that administrative costs in Florida's State Welfare Department are unusually low, that money might be saved in the \$50,000,000 a year budget if more investigators were hired for case studies. Actually it cost \$49,849,000 in relief funds, or about 4.8 percent. Also, it cost \$1.53 per case in Florida to administer old age assistance, compared with a national average of \$2.21.

The 26th annual Pioneer Night will be held in Lake Mary next Saturday night. Started back in the mid-7920s by Frank Evans, these Pioneer Nights have come to be looked upon as one of the outstanding annual occasions honoring pioneers anywhere in this part of Florida. They come by the scores from miles around, representing practically every state in the union, to get together, renew old acquaintances and to enjoy an outstanding program ably presided over by the inimitable Frank Evans.

At least two cabinet members, Attorney General McGrath and Secretary of Commerce Sawyer, have come out against any form of censorship of the press whatever in the present emergency. "Experience from the days of Gutenberg down to most modern presses," says the Attorney General, "has shown that there is no such thing as a good and a sound press if it is coerced in its freedom of opinion and its right to print the news in any way inhibited or curtailed. The most abominable newspaper where freedom of the press prevails is an enormous improvement over the best government controlled newspaper in a total state." And that from a government official who has been criticized by experts.

Manuel Tito's charge that Russia is planning war against the Communist state on the Adriatic recalls that the first World War had its origin in this same vicinity long before Communism became a vital factor in world politics. Then the Archduke Ferdinand, heir apparent to the throne of Austria, while on a visit to the neighboring country of Serbia, was assassinated by a young Serb named Gavrilo Princip. Over the years, the Serbs have been accused of everything, but it is hard to believe that they would have been the ones to start a world war.

Increasing Longevity

American boys entering employment at age 18 have 66 chances in 100 of living to the retirement age of 65. For their grandfathers who started work around the turn of the century the chances of attaining age 65 were only 51 in 100.

This is based upon a study by the Metropolitan Life Insurance Company of the improvement since 1900 in the chances of survival. During the first half of the 20th century the expectation of life at birth in the United States has increased from 49 to 68 years.

The outlook today for years of life after the age of retirement is more favorable than is generally realized, with the chances about 58 in 100 that men at age 65 will live at least 10 years longer, the Metropolitan notes.

Likelihood that a man will survive from his 23rd to his 52nd birthday, the usual interval from marriage until the last child leaves the family, is about 88 chances in 100, while at the turn of the century the chances were only 74 in 100.

Chances of survival for women are substantially more favorable than for men throughout life, according to the Metropolitan. At present a woman at age 23, the average age at which the first child is born, has 94 chances in 100 of living to her 49th birthday to witness the marriage of her youngest child; in 1900 the figure was 80 in 100.

"It is particularly fortunate that the mortality among young women is very low," the company comments, "because many of them carry the responsibility of nurturing a young child. Currently about 1 in every 2 couples has a child within two years of marriage."

The results of the survival study are seen by the company as having important social and economic implications in setting forth the chances that the head of a family may not live until his children are self-supporting, or until the mortgage on his home is paid or other obligations to dependents have been met, and the probability that the wife will outlive her husband.

"Fortunately, our country has large and ever-increasing provisions for meeting these contingencies through individual savings and life insurance," the Metropolitan points out. "The measure of financial security which the American people have provided for themselves and their dependents has not only promoted their happiness and well-being, but has also strengthened our national economy."

How To Fight Russia

The way to fight Russia, according to Hanson W. Baldwin, military writer for the New York Times, is to attack its extremities. Napoleon and Hitler demonstrated for all time the folly of an invasion of the Russian interior. The better course was taken in the Crimean War of 1853-56. Then England and France attacked the Crimea, at the southern tip of Russia, laying siege to the naval fortress of Sebastopol.

The idea may have been sound, but the execution was bad. The British and French generals quarreled, and all lacked competence. Some modern experts believe Sebastopol could have been seized quickly, but the opportunity was lost, necessitating an eleven-month siege. The fall of the fortress brought Russia to make peace on terms satisfactory to the Allies.

The Crimea is not Russia's only vulnerable point. The Ukraine is its granary, and is approachable from the Black Sea. Then there are the Asiatic outposts, to defend which Russia would have to ship men and supplies for thousands of miles. That was one reason why Russia lost the 1904-05 war with Japan.

For that matter, had Napoleon abandoned his invasion and lopped off Russia's extremities, he might have brought the czar to terms. He might, for instance, have restored the independence of Poland, but presumably fear of antagonizing Austria, a co-owner of Polish territory, prevented. Doubtless the Pentagon is considering this man-saving method of making war, and these bits of history influence our present policy.

Uncle And Nephew

To the questionable doctrine that a man must be held responsible for his most casual associates has been added lately the even stranger notion that he should be condemned if any of his relatives seem to be undesirable.

Had this idea prevailed in 1899, Edward F. Croker might never have become New York City's most famous fire chief. He was the nephew of the Tammany boss of the day, Richard Croker, and doubtless was not injured by that relationship when the time came to pick a head for the fire department. Despite the suspicion attaching to his appointment, he made good, and continually risked his life in attempts to get as near as possible to the center of a big fire. He served from 1899 to 1911, and afterwards lived in retirement till his recent death at 87.

His uncle Richard is remembered as a particularly undesirable type of political machine head. He was linked with an East Side gang in his younger days, and some writers have suggested that he never shook off the characteristics of that period of his life. Lincoln Steffens, the journalist investigator of bosses, called him "kind and sweet." Apparently no other historian saw those qualities in him. His downfall came when he frankly told a legislative investigating committee that he was working for his pocket all the time. The voters rose up, tossed out Tammany and Croker with it. He took his gains to Ireland and there ended his days.

Edward Croker did much to redeem the unhappy association of the family name. The possibility should be remembered when others are attacked because of their relatives.

Epps, Runge A re Accepted At Emory Dentistry School

ATLANTA, Ga., Mar. 12.—(Special)—John William Epps and William Howard Runge of Sanford have been accepted by the Emory University School of Dentistry, according to announcement this week by Dean John Buhler. It is possible to accept only about one out of four of the qualified applicants, because only a limited number of places are available in the school. Of the 25 who will make up the class, 15 will come from Florida. The school is one of the best in the country, and the students receive a high quality of education. The school is located in Atlanta, Ga., and is one of the largest in the South. It has a long history and a high reputation. The school is known for its excellent faculty and its modern facilities. The students receive a thorough education and are well prepared for their profession. The school is a great honor for the students who have been accepted.

Galloway Elected

(Continued From Page One) He served in World War I, entering as a private and emerging with rank of captain, and... level of scholarship above average (receive satisfactory ratings on aptitude tests) appear for a personal interview before the admissions committee, says Dean Buhler. Severing Diplomatic Relations With Common Sense

Crosby Rift Seen In Wife's Trip Aboard

NEW YORK, Mar. 12.—(AP)—Diala Lee Crosby, wife of singer Bing Crosby, boarded a plane today for a three-month tour of Europe and told reporters they could make their own story on her marital status. Reporters asked her if there were any truth in recurring rumors of a rift between her and her husband. "No comment," she said. "You can make your own story." Asked if she wished to deny the reports, she said: "I do not want to make any comment." Mrs. Crosby traveled aboard a Pan-American World Airways plane from Amsterdam, Holland. She was accompanied by Dr. and Mrs. George J. Hummer, of Santa Monica, Calif., and her secretary, Miss Georgina Harwick. The men were newly "swamped" in Spain, Italy, France, Western Germany, Switzerland, Denmark, England and Ireland. They are due to return to the United States in June.

Union Readies Blow At Argentine Paper

BUENOS AIRES, Argentina, Mar. 12.—(AP)—The government-supported General Confederation of Labor today readied another swipe at the apparently doomed anti-Peron newspaper La Prensa. The Union ordered its 4,000,000 members to stop work for 15 minutes tomorrow as a show of strength against the journal, which has not published since a union boycott and strike started Jan. 26. There appeared little chance the paper would appear again under its present management, which opposes the regime of President Juan Peron.

Rollins College

(Continued From Page One) not released pending notification in person and by letter. The list was expected to be available tonight. Dr. Paul Wagner, 32-year-old president of the little Central Florida school, told a student meeting last night the situation does not exist merely at Rollins. About 25,000 college professors around the nation have been dismissed in view of world conditions, he said. One faculty member — mathematics professor George Sauter — told the student meeting the president had been given a formula but it had been violated to suit the occasion. Wagner said in answer to a newspaperman's query, anyone reporting he is letting out "science members to bring in his own men was circulating a vicious lie. Trustees voted Saturday to make a considerable cut in the budget for the 1951-52 school year, including abolishing intercollegiate athletics and letting out about 10 of the 53 faculty members. The college will not seriously curtail its services nor its curriculum," the board announced. "Some professors and part time instructors must be dropped but the student-teacher ratio will be the best in four years—10.44 students to each instructor and important characteristics of the college will be retained."

Horticulturists

(Continued From Page One) meeting papers will be presented on fruits, vegetables, ornamentals and processing, according to G. H. Blackman, head of the Horticulture Department of the University of Florida's Agricultural Experiment Station at Gainesville. He is chairman of the Arrangement Committee. Following the presentation of the papers, the horticulturists will visit an ornamental nursery at Apopka, a citrus packing and processing plant at Tymbonee, a plant nursery at Maitland, a plant nursery at Plant City, a breeding station at Lake Arrowood and the Vegetable Crops Laboratory at Bushnell. The Floridator of the visitors will also include the Everglades Experiment Station, Belle Glade, and Horticultural points of interest around Fort Myers. West Palm Beach, Fla., is the headquarters of the Florida Horticulturists' Association. The association will be in charge of the meeting. The meeting is being held at the University of Florida's Agricultural Experiment Station at Gainesville. The meeting is a great opportunity for horticulturists to share their knowledge and experience. The meeting is a great honor for the horticulturists who have been invited to attend.

Increased Volume In Strawberries Forecast For Week

JACKSONVILLE, Mar. 12.—(Special)—The first strawberries of this season moved out of the State Farmers' Market during the past week and volume is expected to increase by the end of the current week, according to information received in the office of William L. Wilson, Director of State Markets. "During the past five day, attention period 750,158 bushel sized crates of tomatoes brought a gross revenue of \$416,683.25 to growers in the Florida City State Farmers' Market. Prices ranged from \$1.05 to \$1.09 per crate. A light volume of Pole beans sold from \$2.25 to \$3.00; squash \$2.50 to \$3.75, and string beans \$2.50 to \$2.75. A total of 25,666 crates of strawberries averaged 19.38c per pint on the Plant City State Farmers' Market during the past six day period. Total gross revenue to growers reached \$179,000. This is an increase over the previous week. If warm weather conditions continue, volume is expected to decrease. "Word from the Fort Pierce State Farmers' Market states weather conditions permitting, they anticipate a light movement of spring vegetables and approximately 10% of the estimated 7,000 acres of tomatoes to begin April 1st, 1951, starting April 15th to 18th and the balance starting the latter part of April. "Spring vegetable crops are reported making good progress in the Wauchula State Farmers' Market area though dry weather is making irrigation in some sections necessary. Cucumbers are expected to begin moving to the market within the next two to three weeks. "A light volume of pepper, eggplant and squash continue to move in the Fort Myers State Market area with a good volume of cucumbers anticipated around April 1st. "The Sanford State Farmers' Market moved out in one day. Heavy movement of citrus and a wide variety of vegetables continued throughout the week. Good demand held on most commodities though prices slipped off slightly. Sales totaled 144,029 units valued at \$438,544.13. "Movement of spring crops is heavy in the Palmetto State Farmers' Market area, more than a hundred crates per day, and this is expected to double about April 1st, with good weather prevailing. Celery and cabbage lead with corn, pepper, collards, and turnips following. "The Palmetto State Farmers' Market reports a good supply of market area with a fair to satisfactory price. "The transportation situation is becoming serious to growers on the Palmetto State Farmers' Market who face considerable loss because of shortage of rail and truck facilities for handling the enormous spring harvest. Volume on all commodities continues to increase with better than 800 cars moving out the past week."

Too Late To Classify

By RUSSELL KAY

VERO BEACH — The way Florida is growing now a fellow has to visit a community every month or so to recognize the pace. I hadn't been out on several years and drove over last week to make arrangements for the Spring Convention of the Florida Press Association to be held there April 6, 7, 8. I hardly knew the place. It seemed likely they had torn down all the old landmarks I used to know and have replaced them with beautiful new modernistic buildings. The residential area is also taking on that new look with building in evidence everywhere. Two civic projects are well under way, a new hospital and an attractive youth center. Alex is genuinely disturbed over the rising death rate due to automobile accidents on our highways and is equally disturbed over methods employed by local peace officers in handling traffic cases. Some communities, he pointed out, pay little attention to law enforcement of traffic regulation other than in the operation of "speed traps." He plans to present a bill in the legislature designed to do away with this nasty racket and at the same time provide for better statewide enforcement regulations by responsible, carefully trained officers stationed at each gateway to the state who would contact all motorists, officially welcome them to our state and present them with a booklet or literature explaining traffic regulations which would be rigidly enforced. It would be the duty of the patrolmen to assure our visitors that they were welcome guests, that we wanted them to enjoy every minute of their stay with us and at the same time, we were concerned with their safety on our highways and they could help tremendously by observing our traffic regulations which would be rigidly enforced. The bill would extend highway authority to the State even through municipalities on through highways financed by the State and this would serve to eliminate the "sneezed thru" racket that in many instances has given Florida a black eye. The bill has genuine merit and should be given careful consideration. Local law enforcement officials won't like it and can be expected to put up stiff opposition, but my guess is that the public would strongly favor such a move, for most folks are more than fed up with present enforcement methods as practiced by local authorities. Alex would maintain a 15 mile an hour limit in all local school zones and a 35 mile an hour limit within incorporated city limits, but everywhere else on state maintained highways the 60 mile an hour limit would prevail. Representative MacWilliam attributes two outstanding causes of highway accidents—speed and drunken driving. He would give the State Highway Patrol full authority to enforce the 60 mile speed limit without fear or favor, and firmly believes that if a re-enforced and drivers realize that a sonable rate of speed is strictly enforced they will definitely risk the loss.

of their drivers' license if they do not observe the law, it will result in sharply reducing the number of accidents on our highways. MacWilliam is not the only one concerned with our highway safety problem and last week Marvin L. Holloway, manager of the Tampa Motor Club, urged that safety education in our grade and high schools be stepped up as another means of meeting the serious highway safety problem. "The state's alarming death toll for 1950 should serve as a forceful reminder to the public that even more teaching of the principles of safety, to properly train the drivers of tomorrow, is a necessary and vital subject for future classroom planning," Holloway points out. "Taking issue with Senator Bayard of St. Petersburg, who recently termed driver training in our schools a 'frill,' Holloway said national safety experts repeatedly pay high tribute to the driver training program, coupled with intensive safety lessons in these classrooms. It has consistently reduced the number of major accidents among teen-agers wherever it has been constructively employed. Driver education is currently offered students as an elective subject in approximately 60 Florida high schools. It is an approved course at most institutions of higher learning. It could be expanded to cover Junior high schools and to include more driving for everyone. Why spend thousands of dollars in educating a boy or girl only to have it nullified through one fatal traffic accident?"

Are You One Of The Million? By W. V. Blitting Touchon Drug Co. It is estimated that over a million people in the United States have diabetes and are not aware of it. Not until their condition becomes serious will medical advice seem imperative. Then treatment may mean great and difficult changes in habits of living. Whereas, if all cases of diabetes could be recognized in the early stages, control would be an easier matter. For the diabetic a dependable pharmacy makes self care simpler. Here all requirements in quality drug products are available promptly. (Copyright) This is the 237th of a series of editorial advertisements appearing in this paper each week.

Fashion Review Held By Home Department

A fashion review was held at the meeting of the Sanford Home Demonstration Department Thursday at the Tourist Center.

Those present were Mrs. Inghram, Mrs. Coe, Mrs. Crawford, Mrs. Williams, Mrs. Davis, Mrs. Wallis, Mrs. Wilson Bond, Mrs. J. N. Asterello, Mrs. John Callahan, Mrs. Wilbur Smith, Mrs. Homer Rice, Mrs. M. J. Morris, Mrs. C. H. Flowers and Miss Lila Woodward.

The Lamplighter

The Lawton story of "The Prince of Peace" is coming to Sanford in about a week. This picture is different from any that you have ever seen. It parallels, though it is much longer, the recent short called "You can Change the World" It has a message for everyone, and critics have acclaimed it in a variety of eulogistic terms.

Produced by Hallmark Productions "The Prince of Peace" is based on the annual Easter Pageant, envisioned and effected by the late Mrs. Mark Wallock of Lawton, Okla. Heaving that the various incidents in the life of Christ would take on a deeper meaning if acted out by everyday people.

In the early '50s, a new site was found, that in the Wichita Mountains. Each year increasing numbers of people came to see this religious pageant, pronounced as one of the finest in the world; and, too, each year the pageant improved because somehow even more beautiful than its predecessor. Word spread fast until this annual event was witnessed by many hundreds of people from every state in the country.

Just as the completion of the filming of the scenes from "The Prince of Peace" His energy was spent and his dream was completed. In the picture, Rex Wallock will be played by Forrest Taylor. It will be a play within a play. The actors will portray both themselves as well as some biblical personality in the pageant.

Ginger Prince, six year old newly discovered talent, comes near straining the show. She can sing, act, and dance. Millard Family, a citizen of Lawton, plays the part of Jesus so well that he is under Hollywood contract. The rest of the cast is excellent - and well they must be to elicit such warm words of praise from highly selected columnists and radio personalities.

To say anyone about "Prince of Peace" would be to say too much. It is an extraordinary film, a spiritual adventure the effect of which would be much the same as if you saw and heard a Sunrise Service, or a High Mass. "Prince of Peace" is especially a "family picture." It represents a welcome and timely change.

"The Mudlark" starring Irene Dunne will play here Tuesday and Wednesday. It's the story of a little girl who wanted to be in Queen's theme and did. Irene Dunne's performance has been praised from Maine to California. You should like "The Mudlark".

Seminole Tennis Team Opens With Georgia Bulldog

TALLAHASSEE, Mar. 12.—(Special)—"There will be no rest for me this Spring," declared Coach Ralph Matherly as he looked over the Florida State University's varsity tennis schedule released today by Athletic Director Howard G. Danford.

Sports Roundup

NEW YORK, Mar. 12.—(AP)—One thing which has run up the telephone bills for the getting trying to pick the "at large" teams for the NCAA basketball tourney is the four-year men's... At least two bright prospects were turned down because their regulars have played four seasons...

Ranzino Is Picked For A11 - America Basketball Five

By ASSOCIATED PRESS SAN LANTINO, who led the North Carolina State Wolfpack to the top of the 17-team Southern Conference, was chosen today (Friday, March 9th) as one of the five best collegiate basketball players in the nation with his nomination to Collier's 1951 All-America team by the National Association of Basketball Coaches.

Japan To Face U.S. For Shot At Davis Cup This Summer

By SYD KRONISH AP Newswriter Sports Editor NEW YORK—The U. S. and Japan will be enemies again this summer. Both will send their best forces to the firing line.

Winter Olympics Will Be Put On In Norway's Capital

By HENRY HENRIKSEN AP Newswriter OSLO—For the first time in history the Winter Olympics will be held in a large city. Not only that but the 1952 games, from Feb. 14 to 25, will be held right in the heart of Oslo, capital of Norway.

Costs are up \$65 for each new Telephone

... And Meeting Florida's Needs Requires More and More of Them!

Like everything else, the cost of building telephone plant has been going up. In 1948 our investment in Florida averaged \$289 for each telephone in service. Since that time each telephone added has required an average investment of \$354, or \$65 more.

Day-to-day operating costs have continued going up. Too—wages, taxes, material and supplies. Taken together, the increased cost of providing facilities and the increased cost of operation add up to a **shrinking return on a growing investment.**

That makes it increasingly difficult to obtain the money required to go on building in Florida. The money you pay for service goes for operating the business, not for expanding it. When there are new facilities to be built, the new money must be obtained through the sale of our stocks and bonds to people who have money to invest. And it's a company's ability to earn on its investment that determines how well its securities will sell in competition with the stocks and bonds of other companies.

There's still a big telephone job to do in Florida, and that job is growing larger as the State grows at an unprecedented rate. It will take a financially sound Telephone Company to keep up with the rapid growth of Florida.

YOU CAN CALL MORE FLORIDIANS—AND MORE CAN CALL YOU

1500.000.000 Speed to Success Florida System Since 1948

The number of Florida telephones has doubled in the last five years, making the service more valuable to all. Fifty-three buildings and additions have been completed. Long Distance direct dialing, and 215,314 applications for telephones installed. And the demand for telephone service is still growing.

Korean War

(Continued From Page One)
this war.
A total of 61 MIGS in flight of 10 to 20 each—engaged U. S. F-80s and F-86s in four dogfights Sunday and today.

On the ground, Red resistance collapsed on the east central front and faded sharply before a three-pronged Allied spearhead along the west-central sector of the Allies, advancing 70-mile line.

United Nations tank columns rolled to within five miles of Hongchon on the west-central front. HONGCHON is a great Communist troops staging area and once was reported to be Chinese general headquarters.

U. S. forces met little resistance as they probed within sight of the big Red supply center. Only the day before, Reds before HONGCHON fought stiff rear-guard action, indicating they would make a last-ditch stand.

British, Canadian and Australian troops were within five miles of HONGCHON on the south. They were 22 miles south of the 38th Parallel.

A U. S. First Cavalry Division tank force stabbed three miles forward Monday to within five miles of the Red center on the southwest.

U. S. First Division Marines, approaching HONGCHON from the southeast, were reported six miles away.

North Korean resistance collapsed on the east-central front. Allied troops moved in quickly behind the fleeing Reds and seized Mount Taemi without firing a shot.

Seizure of the commanding peak straightened out the east-central front. It was dented five miles last week by a furious Korean Red counterattack.

Front line officers said there was no danger of further bucking of the line in that sector.

U. S. Eighth Army commander, told war correspondents that U. N. "forces have let a lot of air out of the inflated balloon of the Chinese military establishments."

In six days the grinding Allied offensive has killed or wounded about 33,000 Communist troops.

Ridgway said the ration of

Crime Committee

(Continued From Page One)
Racing Commissioner Benjamin Downey had war ed him about the bookies, and said, "If you don't stop it, I'll take your license away."

NEW YORK, Mar. 12 (AP)—The Senate Crime Committee opened its climactic series of hearings today, with a host of politicians and some of the nation's top underworld figures on top.

Senator Estes Kefauver, (D-Tenn.) the chairman, said his investigating group will try to determine if any "solid links" exist between crime and politics in New York City.

He noted that charges of such links were made in the last municipal election.

Reporters, clerks, stenographers and lawyers jammed the tiny hearing room in the federal courthouse. Television and newsreel cameras towered over the long committee table.

Kefauver said the committee was interested in any local corruption, as it affects the national picture.

Waiting in the ante-room to testify were a motley aggregation of witnesses, including petty officials, gamblers, nondescript characters, and an array of reputed boss underworld leaders.

The New York hearings, to last a week to 10 days, will be the last major sessions before the winding up of the crime group's life at the end of the month.

Kefauver said that by reserving New York City as the final site of its investigations, the committee has been able to accumulate data that will aid in pushing the probe more effectively here.

He said this schedule was followed because "the city is bigger and the tasks of our committee is bigger here."

TV broadcasts, to be carried by all major stations locally, will bring the public sessions into the homes of a possible 2,225,000 set owners.

Among scheduled witnesses today are gambler kingpins Frank Erickson and Joe Adonis.

Erickson once headed a \$12,500,000-a-year bookmaking empire. Adonis has Governor Thomas E. Dewey nomination for "public enemy number one."

Six more witnesses were listed for today. Gambling appeared to be the main topic before the committee for the start of the week-long hearings.

However, Alfred Klein committee counsel, told newsmen yesterday that during the week more than 50 witnesses will appear. These, he said, will include underworld figures, politicians and criminal lawyers.

It will be the biggest and probably the most sensational series of the public hearings held by the committee since it began looking into interstate crime.

Attorney George Merton Levy of Freeport, N. Y., was called as the first witness. Levy is the founder of Roosevelt Raceway at Westbury on Long Island.

He also has been legal advisor to Erickson and Charlie (Lucky) Luciano, deported vice overlords named by the Kefauver committee as star of the American underworld.

Erickson was next on the scheduled program, going to the U. S. courthouse hearings from the city penitentiary.

Erickson recently lost a legal fight to avoid testifying before the committee. He contended he had a right to serve out a two-year sentence for gambling in the peace and solitude of his cell.

Adonis, whose real name is Joseph Doto, was to be called later in the day. Adonis has been listed by the committee as one of the seven members of the board of directors of American crime.

Other witnesses slated for calls today included James Watson, Erickson's son-in-law and Charles Lipaky, a New York City Republican leader.

Committee counsel Rodolph Haley said Watson has "some connection with Roosevelt Raceway."

Communist casualties to U. N. Losses was "well over 60 to 1."

The commander said "it would be a tremendous victory for the United Nations" if the Korean war ended at the 38th Parallel. The Parallel was the pre-war dividing line between Red North and Republican South Korea.

But, Ridgway added, he knew of no plan to end the fighting there.

"If Communist China failed to be a defeat for her, of incalculable drive us into the sea, that would be of importance," Ridgway said.

"The degree to which we defeat her military reputation," he continued, influences the thinking of millions and millions of people in Asia.

"Eventually it must rest on the political action of their government. This would be of tremendous importance."

Ridgway said also that new American troops are appearing in Korea as replacements for combat veterans. He called it the beginning of a "greatly increased flow of replacements."

Irene Dunne, as "Queen Victoria," grants an interview to a street reporter in a scene from 20th Century-Fox's "The Mudiars," showing Tuesday and Wednesday on the Ritz Theatre screen.

Draft Age Lowered

(Continued From Page One)
resolution, co-authored by Arends, that troops shall be committed to the European area as proposed under the Atlantic Pact arrangement until the necessary authorization for such commitment is approved by both bodies of Congress.

Erends said he did not know when he would propose it in the committee.

Several new amendments are expected to be offered, and members said they did not see how the committee can finish its work on the bill for several days.

Rep. Brooks (D-La.) said he intends to propose that inactive reserves called to active duty be released as soon as possible if the national security would not be endangered.

The revised bill contains a provision that inactive reservists should be released after 12 months active duty or as soon after that as possible.

Colored News

By MRS. C. E. NEAL

The February Calendar of Events observed at Seminole County School No. 1, was among educational in the history of the school.

Photographs, sketches, cartoons, paintings, pictures and clippings from magazines and papers, provided a wealth of valuable information for the observance of February Events. There was a display of pictures with biographies prepared by students, stemming from American history and English class assignments for the month.

Among the "February Greats," whose biographies were selected by students, were, George Washington, Abraham Lincoln, Frederick Douglass, Longfellow, James Russell Lowell, William F. Cody, and a few others which were chosen for research and report material.

Among the Negro Greats, chosen for the February objectives, were, Richard Wright, Dr. George Washington Carver, Booker T. Washington, Mary McCloud Bethune, Dr. Carter G. Woodson, Ralph Bunche, Countee Cullen, Rolyand Hayes, Marion Anderson, Langston Hughes, Joe Louis, Jackie Robinson, and many other.

They were all grouped and studied according to their contributions to the American way of life. The research revealed that there is definite proof that the Negro has taken his rightful place on the National Production Line as Educators, Artists, Librarians, Labor Leader, Clergymen, Manufacturers, Sports Participants, Technicians of all kinds, and Politicians.

The schedule of events also provided for resource visitors who made possible, vital and realistic experiences. Among the business and professional persons invited to provide such experiences were, Dr. Geo. H. Sibley, Mrs. A. A. B. Ford, and Mr. D. C. Brock.

During the February observances, the class rooms were made very attractive with beautiful Valentine decorations which were made in the art classes. The general bulletin boards were replete with February and Current information.

Grades Seven and Eight, under principal Hamilton, placed special emphasis on Negro History Week. Sections of their room were adorned with pictures of outstanding Negroes, their contributions, and lists of their accomplishments.

Members of Bob Scout Troop No. 101 (Altamonte Springs), presented an interesting program at assembly during Boy Scout Week. Another outstanding feature of the month was the guest speaker at the Seminole Rosenwald Monthly professional faculty meeting.

Mrs. Mae Francis Muller, music instructor Seminole County, Mrs. Muller, spoke on the subject, "Music In The Elementary Schools," which was creditably illustrated. The teachers were more musically inspired as a result of her lecture.

Hiss Appeal

(Continued From Page One)
cept his appeal.
If that request is turned down—and the court's agreement to reconsider is rare—the former high level State Department official will have to go to prison and begin serving his sentence.

In New York, Chester T. Lane, counsel for Hiss, said that the matter of a request for reconstruction had not been discussed, and he thought such a move unlikely.

Hiss, through his attorneys, Beer, Richards, Lane & Haller, issued this statement: "The efforts of the committee on Un-American Activities, vociferously supported by like-minded elements in the press, succeed in making it all but impossible in the present atmosphere of public tension.

"Due to these efforts prejudice, fear and perjury prevailed to produce a verdict. But the wrong will surely be righted.

"My attorneys and friends will continue to search for the facts which will show how (Whittaker) Chambers fabricated the evidence against me. Today, as formerly, I am proud of my 15 years of public service and, with a clean conscience, I continue to look forward to the time of my vindication."

In order actions and in order In other actions today the Supreme Court:

1. Agreed to say whether daily Bible reading in New Jersey public schools violates the Federal Constitution. A number of other state similarly require Bible reading to pupils.

2. Denied James A. Moffett, former New Dealer, a hearing in his multi-million-dollar suit against the Arabian-American Oil Company to collect for services performed with President Roosevelt, Harry Hopkins and other government officials.

Moffett sued for \$5,000,000 for the services and won \$1,150,000 from a New York jury. But the verdict was set aside by Federal Judge Edward A. Conner on the ground the action was contrary to public policy. Moffett said his efforts protected the company's oil concession in Saudi Arabia but the firm protested that no man should be permitted to sell his

influence with public officials.

3. Denied the government a new hearing in its legal battle to keep possession of more than \$8,000,000 worth of common stock of the Dollar Steamship Line. The stock was transferred to the Maritime Commission in 1938 under an arrangement by which the ship line got a government loan. Later the Dollar interests paid back the money and asked returned of the stock. The government refused but lost out in the U. S. Court of Appeals here.

4. Declined to unravel a legal tangle caused by conflicting orders of two U. S. District Judges in affairs of the Lastron Corporation which has defaulted on more than \$36,500,000 it borrowed from the Reconstruction Finance Corporation to launch an experiment in mass production of prefabricated houses.

RFC Investigators

(Continued From Page One)
gating reports of favoritism in RFC lending, has run across Rosenbaum's name repeatedly in its digging into RFC matters.

Casey testified that Rosenbaum and Robert W. Dudley, a member of Rosenbaum's law firm, were "very minor" stockholders in a company — American Overseas Tanker—he set up for the ship transaction.

In its essential details, as Casey told it, the ship purchase worked out this way: The stockholders put up \$100,000 and borrowed \$10,000,000 from an insurance company. They bought the ships from the Maritime Commission for \$7,500,000, spent \$500,000 reconditioning them and leased them to Standard Oil of New Jersey.

The rentals paid off the cost and loan. After three or four years, the ships were sold for \$2,800,000 which was "almost all" profit.

Furthermore, Casey said, he was able to treat the \$270,000 he got back on his \$20,000 investment as capital gains and not subject to income tax.

He frankly acknowledged that the main purpose of creating the company was to be able to treat the profits as capital gains rather than income.

Senator Bricker (R-Ohio) asked Casey if any member of Rosenbaum's firm had suggested the

influence with public officials.

3. Denied the government a new hearing in its legal battle to keep possession of more than \$8,000,000 worth of common stock of the Dollar Steamship Line. The stock was transferred to the Maritime Commission in 1938 under an arrangement by which the ship line got a government loan. Rotary Luncheon

(Continued From Page One)
build their own hospital.

He added that under the terms of the Fish will, the trustees could build a wing, or any part of a County hospital, and that "we ought to go ahead and get our plans set to build our own hospital, which should possibly be the Seminole County Hospital," and get what help we can from the Fish estate later."

County Commissioner H. B. Pope pointed out that Senator L. P. Boyle has been instructed to draw up necessary legislation to be introduced in the Legislature meeting Apr. 3 to raise the ceiling above the present \$300,000 limit on the amount of hospital bonds which the County is authorized to issue.

Dr. Phil Westgate of the Central Florida Experiment Station presented a program called "Seminole Firsts," in which he called attention to a litany book let written over half a century ago which he had found in the Municipal Library on General Sanford and the Iel Air Groves near Lake Wales. He said that Sanford was the first person in the United States to plant leeches nut trees.

Among Sanford firsts listed by Dr. Westgate were the first settlement here, first dry town in the River Valley at Fort Mellon in 1837, first in transportation with seven railroads operating in and out of Sanford in 1888, first college with Rollins College being stemmed from first dry town in Florida, first in tourists with the Sanford House, a tourist hotel, built here in 1875 as the largest in South Florida.

The importance of agriculture in the past and present was stressed by Dr. Westgate as he pointed out that General Sanford was the first to have an experimental station here, and that the first hotel was set aside by Federal Judge Edward A. Conner on the ground the action was contrary to public policy. Moffett said his efforts protected the company's oil concession in Saudi Arabia but the firm protested that no man should be permitted to sell his

influence with public officials.

Ike Says

(Continued From Page One)
Western Europe, this country would have to use everything it means every atom bomb in your stockpile.

Urging the committee to approve sending additional U. S. divisions to Europe, Eisenhower said that "so long as you have a few troops (in Europe) I would shake with respect to their safety in case we get in trouble."

"You give me a small army of dozen divisions, for example, and there is no Russian army in the world—short of some catastrophe I couldn't possibly foresee—that could destroy them before we could do something about it," he declared.

Senator Russell (D-Ga) asked what Eisenhower meant.

"For example, you could put a dozen American divisions in the Breton peninsula, where they can be covered by our own sea and air power, and the Russians couldn't touch them to save their souls."

Eisenhower said, however, that if the forces were spread on a wide perimeter, air power could not be concentrated at any single point.

RELIEF AT LAST FOR YOUR COUGH, Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel green laden phlegm and aid nature to soothe and heal raw, tender, inflamed, bronchial membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, Creomulsion is guaranteed to please you or druggist refunds money. Creomulsion has stood the test of many millions of users. (Adv.)

Chrysler again remakes your motoring life!

FEEL THE MIGHT OF FirePower...

180 HORSEPOWER. Here you see the secret of FirePower's unmatched ability... the new Chrysler Hemispherical Combustion Chamber, heart of the finest motor car engine built today. In this dome-topped, clean-walled area, you see the only ideal combustion chamber in a motor car engine today... the only way to develop full combustion, full compression, full work and value from every drop of fuel!

in the handsomest, best-riding new CHRYSLERS ever built!

Not since 1924, when Chrysler introduced the high-compression engine, has there been an engine as basically new as FirePower! Imagine 180 horsepower... in the most efficient and all-around economical motor car engine ever built! With all its matchless road power and performance... FirePower gets more work from a gallon of gas than any engine you can drive... on regular grade fuel... runs almost completely carbon-free... will require less attention and upkeep cost than any engine you have ever owned!

But FirePower is only one of the "firsts" in these cars. Chrysler this year also presents two other great and basic engineering advances... exclusive new Oriflow shock absorbers give every new Chrysler over twice the shock-absorbing power of any other car... and, optional at extra cost, miraculous new Hydralguide power steering now removes four-fifths of the human effort from steering or parking your Chrysler!

All this—plus gracious new beauty and 70 other new changes await you at your Chrysler dealer's now. Doesn't all this make him a man you want to call on... very soon?

Chrysler FirePower. Finest engine ever put in an automobile. BILL KIRK MOTORS, 1001 South Sanford Avenue, Sanford, Florida
