

Patton's Third Cuts Germany In Half In Czechoslovakia

(Continued From Page One)

Patton's Third Army is storming the burning capital.

The Nazis also said the Red Army exploded a new offensive on a 17-mile front south of Stettin a drive to outflank Berlin and join the Allies on the north German plain.

A Moscow dispatch said the Russians could see the burning city of Berlin. Soviet front dispatches said a third Ukrainian army on the Austrian front west of Vienna has forced areas along the Nazi line along the Erlauf River between St. Pölten and Linz.

One column was reported on the outskirts of Melk on the Danube, 40 miles west of Vienna. Zisterdorf, an oil center 25 miles northeast of Vienna fell. The Second Ukrainian army was assaulting the outer defenses of Brunn, Czechoslovakia, five miles from the city.

Polish troops with the British Eighth Army in Italy advanced in the Po Valley to within 10 miles of Bologna. The U.S. Fifth Army ground slowly toward Bologna from the south against enemy entrenched caves, tunnels and pillboxes along the mountain highway.

In the Pacific American infantrymen drove into the hills of Baguio, Japanese Philippines headquarters, while Superforts ripped airdromes in southern Japan for the second consecutive day.

The Tokyo radio reported the Yanks invaded Menna Islet, an airbase of the west coast of Okinawa. A Superfort headquarters disclosed on the anniversary of General Douglas MacArthur's arrival that about half of the industrial section of the Japanese capital has been destroyed.

PARIS, April 18, (AP)—American forces drove within four miles of the border of Czechoslovakia last night, virtually bisecting Germany, broke into the great city of Leipzig and fought steadily through the streets of Magdeburg, 60 miles west of Berlin.

German radio commentator Marx Kroll said that with the enemy break through from the west and another from the east, and with wedges pointing from both directions toward Berlin, the organic structure of the German front has crumbled to bits. He terms West Front and East Front have lost their meaning.

A Berlin military commentator asserted that Germany had been cut in half and now was forced to fight on two separate battlefields, but did not say whether this meant that Allied and Russian forces actually had met or merely that the Reich had been cut in two geographically by American forces reaching Czechoslovakia.

A late front dispatch said that Lieut. Gen. George S. Patton's Ninetieth Infantry Division, which with the Twenty-sixth Infantry is driving toward Czechoslovakia on a 15-mile front, had pushed eastward two miles during the day to within four miles of completing its stab across the waist of Germany.

Chemnitz Stormed

The German garrison of Chemnitz, beleaguered fortress city 38 miles west of Dresden, rejected a Third Army ultimatum to surrender and was being stormed from less than two miles away.

Lieut. Gen. Courtney Hodges' First Army troops captured Chemnitz through Leipzig's outer defenses on the fourth day of the battle for that city and were meeting lessening resistance as they fought into its bomb-battered outskirts. Some captured Nazi garrison members proved to be military mental cases, and some uniformed women were killed as they manned defense guns.

Two tank divisions of Lieut. Gen. William Simpson's Ninth Army—the Thirtieth Infantry and the Second Armored—bounced an all-out assault on Magdeburg after heavy aerial bombardment and were reported making "excellent progress" through the streets of the industrial city on the banks of the Elbe River.

A front dispatch said U.S. Infantry was methodically approaching the city's center, but that Simpson's tanks were being hampered by thick smoke screens laid down by German guns from across the Elbe.

First, Ninth Linked

Troops of the First and Ninth armies linked up at Bernburg, a short distance from the Elbe some 47 miles due south of Magdeburg. The Ninth Army's bridgehead across the Elbe at Barby, southeast of Magdeburg, remained intact. German forces who had been bypassed by the Ninth Army north of Magdeburg made an attempt to break through and escape up the Elbe to the north, but were turned back after a brief battle.

Chaplin Is Adjudged Berry Baby's Father

LOS ANGELES, Apr. 18, (AP)—Charles Chaplin was adjudged to be the father of Joan Berry's baby by a jury in superior court yesterday.

The jury of 11 women and one man brought in its verdict at 5:25 P.M. after deliberating the bitterly contested case for two hours and 55 minutes.

The courtroom was only sparsely filled when the verdict, climax of the second hearing in the suit, was read.

Battle Against Truman On Tariffs Begins In Senate

(Continued From Page One)

He would be glad to see other leaders of the "Big Five" power bloc.

He got to work at 8:30 A.M. and promptly the Senate House began humming with developments. Among other things the new President:

1. Told reporters at his first news conference that he would be very happy to meet Prime Minister Churchill, Premier Stalin, and President Chiang Kai-Shek, although he has not initiated writing. He would be glad to see General Charles de Gaulle, if the French leader cared to arrange such a conference.
2. Signed the one-year extension of lend-lease, which he termed a "mighty instrument for victory."
3. Nominated Lieut. Gen. George S. Patton Jr. and Gen. Henry H. Hodges to be full generals; nine major generals to be lieutenant generals.
4. Appointed John W. Snyder, St. Louis banker, as Federal Loan Administrator.
5. Disclosed that he has no plans to lift the ban on horse racing, the midnight curfew, or the brownout, at least until V-E Day.
6. Backed up the Bretton Woods pact for an international bank and stabilization fund, and the Roosevelt reciprocal trade program.
7. Conferred with the U. S. delegation to the United Nations Conference on World Organization, and said he would back it to the limit.
8. Arranged to make a brief radio speech to American soldiers and sailors throughout the world at 10:00 P. M. (EWT) last night.

At one point during the day the President remarked, "I've got so much work to do, I don't know which way to turn."

His first news conference a 45-minute affair which set a record for attendance—648 reporters and 50 visitors.

He joked that his time for starting work today, after strolling from the Blair house across the street, was a little late for him and that the reporters hadn't seen anything yet.

He fired back his answers as one would expect from an ex-architect and made known his attitude toward the curfew, the brownout, Bretton Woods and a host of other subjects, foreign and domestic.

He said he expects Soviet Foreign Minister Molotov to call on him on route to the San Francisco Conference. While the President will not go to San Francisco he will have a message of welcome. He will back the U. S. delegation from his desk where

he said, he belongs.

The Roosevelt cabinet, he reiterated, has been asked to remain. This was set at rest by the fact that Mr. Hoover, who had returned to South Carolina, the President said, and his advice will be sought when needed. But there are no plans for him now in the Administration sector.

One from the President's desk were the scores of Edgewise Mr. Roosevelt told, replaced by several ash trays and a few pencils. Attending the conference, though, were Stephen Early, the late leader's press secretary; Admiral of the Fleet William D. Leahy, his personal chief of staff; William F. Hassett and Jonathan Daniels, other Roosevelt secretaries. Mr. Truman said he had asked them to stay on while his staff is being trained.

He announced the appointment of Mark P. Conolly of Clinton, Mass., as his confidential secretary, and Leonard Reimach as his press secretary and radio adviser.

President Truman drew from the ranks of his Missouri friends for his first major appointment, naming John W. Snyder, St. Louis banker with 15 years of government experience, to fill the vacant post of federal loan administrator.

Snyder, 48, has served for five years as executive vice president and director of the Defense Plant Corporation, which is a subsidiary of the Reconstruction Finance Corporation, the most vital branch of the government's multi-billion dollar program.

His successor, Fred M. Vinson who served as loan administrator for only a few weeks before being transferred to the post of war mobilization director left vacant by the resignation of James P. Byrnes.

Standing erect and smiling he joked with the reporters as they came into the oval room where Mr. Roosevelt has held so many of his 908 interviews with press and radio.

Senate Passes Bill Of Senator Boyle On GI Marriages

TALLAHASSEE, Apr. 18, (AP)—The Florida Senate passed 27 to 8 and sent to the House Monday a three-day waiting period marriage bill.

Only minor floor opposition developed against the measure, which was opposed last week on grounds that it would reduce fees of courtship judges in counties bordering Georgia and Alabama.

Rep. Lloyd F. Boyle of Sanford, who introduced the proposal, predicted that Georgia and Alabama would follow suit if Florida enacted the bill.

He said the bill was urged strongly by all welfare groups in the state and was designed to prevent hasty marriages and reduce divorces.

The measure requires altar-bound couples to file written affidavits three days before issuance of the license, stating their correct ages. Written consent of the parents or guardian would be required for persons under 21. The county judges would be required to post the application at the courthouse.

If the bill, if enacted, would become effective as soon as the governor signs it.

Ask Education Survey

The legislature also called for a survey of the state's higher education needs including education of persons under 21. The county judges would be required to post the application at the courthouse.

One of their lovely daughters had to nurse their mother for a week. The other helped nurse her husband's father, looked after her children and work to make money.

"These good old people have the politicians taking of old age pension over the radio so they applied but the lady in charge said their daughters would assist them, they couldn't get any old age assistance and this man died for want of proper medical attention and he didn't want to impose on his daughters."

"Another man the day he was 65 notified the man he was working for that he never intended to do another day's work. He was making from \$8.00 to \$10.00 per day. He worked for the state as assistance but to get the so-called pension they have to take the pauper's oath and swear they have no children or relatives that will help them and if they have any money it will be deducted from their so-called pension. If they owe money on their home and farm to the government and want to work at their home and little farm for their children fighting to save their country, we cannot get any pension although we haven't a dollar left after paying our government interest, some on principle, taxes and insurance. Yet the government forces us to pay when they honestly owe us more than we do them but if we don't pay they take our property. We cannot get any pension unless we give up all we have, don't work, swear our children will not assist us and we will not work. If we do work, try to save our property and pay our debts, our taxes are raised by increasing the tax value of our property \$10,000.00 per year, we must pay the heavy expense of the welfare workers.

"Please don't fence us in and take our property and force us to become parasites and do a low death. We cannot do a great deal but let us work and do or try to do our part to make this a better world.

"Won't you, as Governor and senators, see the President and our Representatives in Congress to pay the old timers here in Central Florida the ten million they acknowledge owing us. Our Congressmen and Senators are too busy to get this debt paid. They feed the worst outlaws and murderers on earth and take the best care of them while they reduce to pauper's a lot of many of us here. Our children have suffered for proper nourishment, some have gone to a pauper's grave, while their children have grown up and are now fighting for their country. PLEASE DON'T FENCE US IN and give

us a slow death. I sometimes think Dr. Asler was right when he said old people should be chloroformed and guess Congress would pass such a law if they didn't know they will some day get old themselves. If you are going to pass old age pension let our county judges pass on who is eligible and then send the monthly assignment to those entitled and not spend so much getting it paid.

To this letter Governor Caldwell made the following reply:

"Dear Mr. Thompson:

I have considered carefully your letter of April 9. If you will be specific in the cases about which you complain, I will be glad to have them thoroughly investigated. I note your suggestion on the handling of the Old Age Assistance program. I must advise you that under the plan you have outlined the federal government will not match the state's part, thereby necessitating a considerable reduction in grants under a system of state matching. The State Welfare Program is but a small percentage of the overall expenditures in this program. I am glad to have the benefit of your remarks, however."

Florida's forests are among its most valuable resources. Much of its present prosperity is based on those forests. An important part of its development into a great Industrial Empire in the future depends on even greater use of these resources in many new lines of production. Help build Florida's future by protecting its forests.

Records from this spectacle were to have been devoted to the World War II Veterans Memorial Honor Roll fund, and it was announced by Mr. Field that if those receiving checks care to endorse them back to the Legion, the person or firm making the endorsement will be credited with a donation to the Veterans' fund.

It was voted that C. W. Labill and Joel Field draw up a resolution pledging to President Truman, the confidence and support of the Post in the tasks that lay ahead. Upon suggestion of Mr. Labill, the Post stood in silent attention for a period in honor of the late Pres. Roosevelt.

The meeting was well attended and was presided by an outdoor fish fry under direction of Comdr. Thom.

Thompson Makes Sharp Criticism Of Pension Plan

(Continued From Page One)

One of their lovely daughters had to nurse their mother for a week. The other helped nurse her husband's father, looked after her children and work to make money.

"These good old people have the politicians taking of old age pension over the radio so they applied but the lady in charge said their daughters would assist them, they couldn't get any old age assistance and this man died for want of proper medical attention and he didn't want to impose on his daughters."

"Another man the day he was 65 notified the man he was working for that he never intended to do another day's work. He was making from \$8.00 to \$10.00 per day. He worked for the state as assistance but to get the so-called pension they have to take the pauper's oath and swear they have no children or relatives that will help them and if they have any money it will be deducted from their so-called pension. If they owe money on their home and farm to the government and want to work at their home and little farm for their children fighting to save their country, we cannot get any pension although we haven't a dollar left after paying our government interest, some on principle, taxes and insurance. Yet the government forces us to pay when they honestly owe us more than we do them but if we don't pay they take our property. We cannot get any pension unless we give up all we have, don't work, swear our children will not assist us and we will not work. If we do work, try to save our property and pay our debts, our taxes are raised by increasing the tax value of our property \$10,000.00 per year, we must pay the heavy expense of the welfare workers.

"Please don't fence us in and take our property and force us to become parasites and do a low death. We cannot do a great deal but let us work and do or try to do our part to make this a better world.

"Won't you, as Governor and senators, see the President and our Representatives in Congress to pay the old timers here in Central Florida the ten million they acknowledge owing us. Our Congressmen and Senators are too busy to get this debt paid. They feed the worst outlaws and murderers on earth and take the best care of them while they reduce to pauper's a lot of many of us here. Our children have suffered for proper nourishment, some have gone to a pauper's grave, while their children have grown up and are now fighting for their country. PLEASE DON'T FENCE US IN and give

Identical resolutions were adopted by the house and senate extending the life of the citizens' education committee for two years and asking it to recommend to the 1947 legislature what, if anything, should be done about the college system. They now must be concerned in by the other houses.

Seventeen steps bills already passed by the house were approved by unanimous vote in the senate and sent to the governor. They included all of the 100 program except the bill providing special tax on horse racing, and to give the state the odd-cent "break" on all three sports.

Chaplin Is Adjudged Berry Baby's Father

LOS ANGELES, Apr. 18, (AP)—Charles Chaplin was adjudged to be the father of Joan Berry's baby by a jury in superior court yesterday.

The jury of 11 women and one man brought in its verdict at 5:25 P.M. after deliberating the bitterly contested case for two hours and 55 minutes.

The courtroom was only sparsely filled when the verdict, climax of the second hearing in the suit, was read.

Speaking of Vice Presidents who made good when elected to the Presidency what about Theodore Roosevelt who became president when McKinley was assassinated in 1901?

Had a long visit with Paul Harbor who started Leesburg's annual watermelon festival and he still thinks Lake County is the choicest spot for watermelons.

Sanford residents who have not already done so should buy a home if they cannot buy a home now they should at least buy a lot on which to build a home as soon as materials and labor are available.

In considering cabinet appointments for the next few years, it is important to remember that whoever happens to be Secretary of State will become President if Mr. Truman should die in office.

Some reshuffling of the cabinet is almost inevitable now that the nation has a new President. It is reported that every member immediately tendered his resignation and was requested to remain on the job by President Truman.

President Truman made it perfectly clear in his first speech to Congress that policies inaugurated by Roosevelt with respect to the war will not be changed. There will be no modification in the demand for unconditional surrender, no diminishing effort toward a just peace.

We believe the most accurate estimate of President Roosevelt as a world leader that we have seen in the last few days was made by Walter Lippmann, who said: "Here lay the political genius of Franklin Roosevelt; that in his own time he knew what were the questions that had to be answered, even though he himself did not always find the full answer."

We have been seeing more and more lately in the newspapers and magazines about insomnia and the cause and cure of sleeplessness, as more people worry about their sons or husbands in the service, or working long hours in war factories, spend their nights tossing from side to side unable to lose consciousness.

When you see trouble coming, get out from under. Germany is in for a lot of trouble, and the manufacturers of the Rhineland are trying to escape their share. To do this they are financing a movement for a separate state.

Separate Rhineland

The Rhinelanders have it all worked out. The West German Confederation would avoid all the pains and penalties inflicted on Nazi land and, if Germany recovered from its present crushed condition, would vote itself back into Germany. They are confident that the United Nations would not resist this piece of self-determination.

Nutrition Secrets

Many diseases have long been known as due to improper diet. Men who sailed long voyages in the early days learned, for instance, that lemons would ward off or cure scurvy and similar ills. But they didn't know why.

Today Dr. Tom Douglas Spies has the answer. Interested from youth in pellagra, which is prevalent in much of the South, he began in 1930 to study it and other results of malnutrition. Going to Hillman Hospital in Birmingham, Ala., in 1935, he established a Nutrition Clinic which put his feeding theories into practice.

Dr. Spies says there are five groups of people among whom malnutrition may exist: those too poor to afford proper variety of diet; "food cranks"; who limit their choice of food; persons with digestive difficulties; women carrying nursing children; and chronic alcoholics.

Disappearing Doctrine

"I have been lecturing for years," said Whiting Williams, popular speaker on labor and other civic problems, "and used to be heckled regularly by single taxers. That is one type of interruption which I no longer have."

Single tax seems in fact to be a by-gone school of thought. The doctrine, originating in "Progress and Poverty" by Henry George, advocated taxing one thing only, the increase in the value of land which arose from the enhanced worth that its location brought.

What has become of the formerly vocal single taxers? One cause of their disappearance may have been the collapse, during the depression, of down-town real estate values. The excess land value on which single taxers wished to levy absolutely disappeared in many cases.

The vast increase in government expenditures is probably another cause. Government costs so much more now that all the land values on earth could not pay for it. Income taxes and other methods of raising revenue must be called upon if government is to be carried on.

At any rate the single taxers have for some time been singularly quiet.

Too Late To Classify

At a time when most government officials are crying for more and more money and taxpayers are advocating the creation of additional boards, bureaus and commissions, it is startling and refreshing to find one public servant who is still economy minded and feels that the time has come to stop and count our change.

With the legislature in adjournment, I took advantage of the opportunity to visit with some of the State officials and one of those I called on was Col. J. M. Lee, State Comptroller. Since he has been handling State finances for the past 12 years, I was interested in getting his reaction to the proposal that additional revenue to the amount of \$28,000,000 be provided by the present legislature.

I also wanted to know what he thought of the report and recommendations of the Legislative Committee on Efficiency and Economy. Fortunately, I found the Colonel with time to talk and with something to say. He bluntly expressed the opinion that if we would eliminate a lot of frills and fo-t-de-rols and put our State government on a sound business basis, we not only won't need any additional taxes, but we will operate on a much more efficient basis.

Thumbing a copy of the State Constitution, the Colonel called attention to its provision for the operation of State government by elective officers, answerable to the people, and contended that if most of the bureaucratic boards, agencies and commissions were weeded out and their duties placed back where the Constitution says they should be most of our troubles would be eliminated and governmental operating expenses reduced to a point where increased revenues would be unnecessary.

Instead of simply consolidating these agencies as the committee recommends, Lee would wipe most of them out entirely, thus eliminating an amazing amount of duplicated effort and sharply reducing the number of people on the State payroll.

"I am the Comptroller of the State," he said, "and the Constitution says that it is my duty to examine, audit and settle the accounts of all officers of the State and perform such other duties as may be prescribed by law."

"But I don't do any such thing," he continued. "A hundred

"BURDEN OF THE YEARS"

quillion dollars is handled by State boards and commissions and not even the legislature has a check on them.

As for auditing another department, although the constitution specifically names it as my duty, but I do not have the funds to perform such duty under the present practice. I have even been used as a defense witness in cases where public funds have been embezzled and I am helpless to protect the public interest even though it is my sworn duty to do so.

For example, I can be placed on the witness stand by an attorney defending an embezzler who asks the question, 'Mr. Lee, are you not the only State official under the Constitution charged with the responsibility of auditing the accounts of public officials?' I must answer 'Yes or No' and am compelled to answer in the affirmative. His next question is 'Did you audit the accounts of the defendant in this case?' I am forced to reply in the negative. Then I am asked if as the only State official authorized by constitutional authority, I can swear that a shortage exists in the defendant's account. Again I must answer 'No' because to the jury the attorney says 'Thank you Mr. Lee and the defendant is found not guilty.'

Lee contends that if all revenues were placed under the Comptroller where they belong and all auditing of accounts were under his personal jurisdiction as the Constitution provides, such embarrassing situations as the one given above would not be possible. Application of effort would be unlimited and the public welfare safeguarded with greater efficiency and less expense.

Saturday Will Be Legion Poppy Day

Once again on Poppy Day, Apr. 21, the members of the American Legion Auxiliary will dedicate their best efforts to the distribution of memorial poppies to the citizens of Sanford. The chairman announced today. It is one of the ways in which they pay tribute to and keep faith with those who give in the nation's service, saying as they fell:

"Take up our quarrel with the foe,
To you from failing hands we throw
The torch—be yours to hold it high."
The wearing of the poppy has become a silent pledge, renewed each year, that the people of America have not forgotten the responsibility they have been given by their fighting men of both wars, and Mrs. Sam Long, many of these men have given their lives or their health for us, and it is with deep gratitude to them that we set aside a day on which to honor them and assure them that we remember our promise.

On Poppy Day the women of the Auxiliary will offer poppies to everyone in Sanford. There is no fixed price for a poppy, whatever is given is a gift. The little boy's penny and the business man's dollar are equally acceptable. It is hoped that every citizen will be wearing the crimson badge by midnight, Apr. 21.

Every cent that is given is a penny goes toward the rehabilitation of disabled fighting men and to the aid of the children of the dead and disabled. These sums of war's disaster will be glad to see the poppies flowing on lapels again this year.

DAR's Pay Tribute To Late President

A tribute to the late Franklin Delano Roosevelt was made by members of the Daughters of the American Revolution meeting Friday at the home of Mrs. John Meisch, Jr. with Mrs. A. B. Key as co-hostess.

Mrs. J. B. Ray, presiding, conducted the meeting which opened with the D.A.R. ritual and a prayer and a flag pledge was given to the American flag draped in black as a memorial to the late Mr. Roosevelt.

In the absence of the corresponding secretary, the report of the D.A.R. state board meeting held recently in Jacksonville was read by Mrs. H. J. Lehman. Monthly reports were submitted and a committee composed of Mrs. C. B. Dawson, Mrs. Lehman and Mrs. F. E. Roundtree was appointed to revise the organization's by-laws.

Mrs. A. W. Lee, Mrs. J. P. Hagan and Mrs. Edgar Mitchell were selected as a nominating committee to select officers for next year. During the program hour, a silver offering was taken for Jamaica, a D.A.R. approved school in South Carolina. Mrs. Key took the oath of president of the newly organized Fort Mellon chapter of the Daughters of the American Revolution.

During a social hour, the hostesses served delicious refreshments to the 14 members present.

Mrs. Roundtree Is P. T. A. President

Mrs. A. D. Roundtree was elected president of the West Side Parent Teacher Association Thursday afternoon during a meeting at the school.

Other officers elected for the coming year are Mrs. J. F. Hardy, vice-president; Mrs. C. A. Anderson, secretary; Mrs. J. A. Calhoun, treasurer; and Mrs. H. A. Watt, historian. Installation services will be held in May.

The attendance prize was won by the fourth grade. Following the meeting, refreshments were served in the school lunchroom.

Point values for pork, pork products, lard, shortening, margarine, salad, and cooking oils were increased for April because of slightly tightening supplies.

OPA rationing Executive Stewart C. Maxey said this week increased point values on pork cuts and pork products were limited to one or two points. Maxey pointed out, explaining the pork supply for April rationing period is about five per cent less than that in March.

Revised OPA Meat Subsidy Is Announced

Program Is Designed To Relieve Price Squeeze On Packer; Public Pays Same

WASHINGTON, Apr. 20. (AP)—A revised OPA meat price and subsidy program designed to meet industry complaints of price "squeezes" was reported today by the Senate food investigators. Informed quarters said the new program would continue consumer prices at their present levels, and accomplish the adjustments through subsidies.

The program may be announced this week. Details of the program were not disclosed, but the general aims were outlined in a letter from Wilbur La Rue, general counsel of the National Independent Meat Packers Association, to Chairman Thomas (Okl.), of the Senate Agriculture Committee.

La Rue said the OPA had "agreed in principle" to a more flexible policy under which it will seek to "keep the industry revenues in any quarter above the cost of production and to adjust during the year to equal to those in a fair average base period."

Caldwell's Beer Tax Bill Is Hit By Senate Vote

Plan To Raise Money Is Ruffled In Committee By 7 To 6

TALLAHASSEE, Apr. 20. (AP)—Gov. Caldwell's program for a first relief bill from the legislature was defeated when the Senate Finance and Taxation Committee, headed by a 7 to 6 vote, approved his recommended beer tax of three cents a bottle.

The vote came after a two-hour public hearing in which Caldwell declared the proposed bill from seven-o'clock to a vote in three days would put all of Florida's breweries out of business.

Members of the House Finance and Taxation Committee and the Senate Finance and Taxation Committee met in the hearing room at the State Capitol building today to discuss the Caldwell bill.

It will raise a two-third cent tax on the sale of beer in the state. The bill also provides for a 10-cent tax on the sale of beer in the state.

The bill, if passed, would raise the price of a six-pack of beer from 35 cents to 41 cents.

Turn Backs On Allies As Goebbels Admits Decision Is Near; Hitler Retreat Hit

A Berlin military spokesman said the Russian spearheads had penetrated the Hangelberg forest between seven and twelve miles. The German High Command announced Red forces smashed six miles into Berlin's outer defenses within thirteen and half miles northeast of the city limits.

The German central reserve was thrown into the "murderous battle at the gates of Berlin today," the Nazi radio said, reporting Russian spearheads threatened strongholds 4 to 17 miles northeast, and east of the smoking capital.

To meet the massive Red Army push described as raging almost to the limits of Greater Berlin, the Germans were forced to retreat from their positions on the eastern front.

The German high command said the Russian spearheads smashed through the Hangelberg forest between seven and twelve miles northeast of Berlin today.

Truman Busy

WASHINGTON, Apr. 20. (AP)—President Truman, keeping up the prodigious work schedule he has followed since he was sworn in, rounded out one week in office yesterday with a demonstration of his intention to work with Congress.

While giving full evidence of his cooperative attitude in a meeting with Democratic leaders of both Houses, the new Chief Executive at the same time made it clear he is not retiring from the field. Rather, he stepped into the current legislative picture by telling his cabinet he stands fully behind the general legislative program of Franklin D. Roosevelt.

Wednesday Rains Welcome Relief On Local Farms

Golden Sweet Corn Cut By Galloway

Growers of citrus, corn, beans and peppers in Seminole County hailed with joy two downpours of rain Wednesday that in Sanford totaled 9.3 of an inch, adding in the slight drizzle of Tuesday evening, according to B. F. Whittier, weatherman.

The first shower Wednesday came at from 3:30 to 4:00 o'clock in the afternoon, and wind and rain with heavy drops swept the downtown section, but out at the Sanford Naval Air Station there was no rain recorded.

The real downpour came, accompanied with thunder and lightning at 7:00 o'clock. A strong southeast wind had been blowing and this shifted to the north and brought a drizzling rain.

Army Advances Slowly On Japs On Okinawa Isle

Admiral Halsey Demands Jap Officer For Every Soldier

Three American infantry divisions advanced slowly against the deep Japanese defenses of Naha, Okinawa, in the heaviest all-out offensive of the Pacific war.

Unopposed amphibious forces developed a new threat to Naha, the 1st Division captured Bairoa Island, 45 miles north of Okinawa, which was already threatened by the U. S. 5th, 6th and 7th Divisions within 30 miles of east Okinawa.

On Okinawa, the Seventh, 27th and 96th Divisions of the 24th Army Corps, ended a 13-day stalemate attacking the front wall of the intricate Naha defense. Admiral Nimitz said a terrific bombardment and "great flights of carrier aircraft" supported the offensive.

Admiral Halsey has called for the death of a Japanese officer "two ranks higher" for every one of our men who was "killed" in the Pacific war.

This retribution would be a peace price for Japanese atrocities in a post-war plan which also would impose indefinite armistice, without a peace treaty, and military rather than civil control.

The plan to control Japan was evolved out of discussions with his staff, and Halsey refers to it as "this plan of ours." It is (Continued on Page Eight)

Navy Ball Team Is Defeated By 4 To 2

The Sanford Naval Air Station ball club, managed by Lieut. J. R. Edison, was defeated Wednesday, by a slight margin of 4 to 2, by the Daytona Beach Naval Air Station Nine. Pitcher for the Sanford team was V. J. Covello while N. E. Stewart was behind the plate.

Neither team scored in the first, second, third, fifth or sixth innings and in the fourth both sides made one run. In the seventh, Sanford picked up one run to lead two to one; however, in the eighth, the Daytona team scored three runs to win. Sanford failed to score in the first half of the ninth to end the game.

The Sanford club will be host to the Army Air Corps team from Hemdricks Field, Sebring, this afternoon at 4:00 P. M. in the municipal park. T. W. Borking will pitch and J. H. Denner will catch for the home team.

Sanford will play Sanford here at the municipal park Sunday at 2:00 P. M., when E. W. Howell will start in the pitcher's box, and Denner will catch.

WMC Director Will Confer On Veterans

R. A. Rasco, state director of the War Manpower Commission and R. E. McDonald, will meet this afternoon at 3:00 o'clock to assist in organization of the Veterans Service Committee of which Ned Smith is chairman, and to plan for aiding returning veterans in this section.

Various kinds of civic organizations have been invited to attend the meeting, which will be held in the Commissioner's room at the City Hall.

Last week's Service authorities made it known that building sites in their community were available without charge to military personnel of Camp Blanding.

Grease Dumping By Groceries Is Cause Of Kicks

Wholesale and retail grocers are kicking the government for its failure to stop the practice of dumping grease on the streets.

The practice is said to be widespread in Sanford and other cities.

The grocers say that the grease is dumped on the streets by the grocers themselves, and that the government is doing nothing to stop it.

Robert L. Cullum Missing In Action

Word has been received from the Navy Department that Robert Lee Cullum, hospital apprentice, 2/c USNR son of Mrs. E.H. Cullum, 519 Oak Avenue, and the late E.H. Cullum, is missing in action.

In order not to give possible aid to the enemy, the name of his ship and station has not been divulged.

Robert Cullum was born in Orlando in 1925. He attended local schools and Seminole High School. He enlisted in the Navy in August, 1941, trained at Pensacola and has been overseas since December, 1941. He was 20 years of age on his last birthday.

Lieut. Vernon Altman In Georgia Hospital

Lieut. Vernon (Lefty) Altman, veteran bomber pilot of mid-air over Germany, is reported improving rapidly from combat fatigue at Flinn General Hospital, Thomasville, Ga., according to reports received by his parents, Mr. and Mrs. M. V. Altman, of Sarasota and formerly of Sanford.

A graduate of Seminole High School in 1935, Lieut. Altman served his family by always managing to get his plane back to his base, although sometimes it was filled with holes from flak and anti-aircraft.
