**PREVENTIVE FOR  
 PERITONITIS IS  
 SAID DISCOVERED**

**Fluid Said To Be 100  
 Percent Effective,  
 Experiments Show**

By HOWARD W. BLAKESLEE  
 Associated Press Science Editor

BOSTON, Oct. 29.—(AP)—A newly discovered preventative for surgery's worst death risk, peritonitis, was announced to the American College of Surgeons here.

The preventative is a vaccine, called amniotic fluid, and its discovery came from the study of babies during Caesarean operations. In these operations, Herbert L. Johnson, M. D., of Boston, noticed that the mothers suffered fewer abdominal adhesions than usual.

Several years study led to virtual certainty that the protection was due to the amniotic fluid which surrounds a child before birth. The same, or a similar fluid, is present in the higher animals.

Thus animals would furnish a source for the fluid if it could be used in other than Caesarian surgery. Animal experiments were carried on for years. In the animal work, Dr. Johnson was assisted by Dr. Rhinda Warren and J. Stewart Rooney of Boston.

A concentrated fraction of amniotic fluid was developed, its source being cows. Clinical work, the tests on human beings, went

**Positive Relief  
 for MALARIA!**

**Sure End to Chills  
 and Fever!**

Here's real relief for Malaria—Grove's Tasteless Chill Tonic! Quickly it stops the chills and fever and restores your body to comfort. Many remedies will merely alleviate the symptoms of Malaria temporarily, but Grove's Tasteless Chill Tonic goes all the way and completely rids your system of the infection.

Grove's Tasteless Chill Tonic is a real corrective of Malaria because it contains two things: First tasteless quinine which kills the Malarial infection in the blood. Second, tonic iron which helps overcome the ravages of the chills and fever and fortifies against further attack. Play safe! Take Grove's Tasteless Chill Tonic. It now comes in two sizes—50c and \$1. The \$1 size contains 2 1-2 times as much as the 50c size and gives you 25 percent more for your money. Get a bottle today at any drug store.—Adv.

**3 Hours' Stopped On  
 Miami-Chicago Run**

CHICAGO, Oct. 29.—(AP)—A three and one-half hour stoppage in the running time of the Florida, the Illinois Central's passenger train operating between Chicago and Miami, was announced yesterday.

Under the new schedule the train leaves Chicago at 8:00 P. M., arriving in Miami 26 hours and 20 minutes later, and leaves Miami at 9:30 P. M., reaching here in 27 hours and five minutes.

**Macon Street Car  
 System Abolished**

MACON, Ga., Oct. 29.—(AP)—Car No. 206 will never roll along the streets of Macon again.

Yesterday morning at 11:45 A. M., when Motorician James C. Smith brought his gaunt old trolley to a halt in the power company's barn here, it marked the end of the trolley car system in Macon.

At 5:23 A. M. yesterday morning the first of a fleet of 17 new beautiful buses took over the transit lines in Macon.

**Illness Overcome  
 Enjoy Snowstorm**

CALLANDER, Oct. 29.—(AP)—The Duane's quintuplets, five months old yesterday and healthy, were out in a snowstorm, and they enjoyed it.

Snow fell from a gray sky, but the five sisters were left on the porch of their hospital to complete a five-hour nap. Snow fell on their blankets, but they remained snug and warm.

## JAPAN WILL NOT SWERVE FROM VIEWS

### Delegation At Naval Confab Again Will Say Nation Demands Equality In Tonnage

LONDON, Oct. 31.—(A.P.)—The Japanese delegation to the naval conversations, it was learned authoritatively today, will inform the Americans late today that there can be no surrender on the question of the principle of naval tonnage equality. The Japanese will make it clear it was learned, that unless Britain and Americans are willing to confer on equality there is virtually no hope for an agreement. The British and American delegations have rejected as impossible suggestions made by Ambassador Bishi of Japan in Washington that Japan be granted naval tonnage equality on the installment plan. A spokesman for both the British and American delegations has asserted that tonnage equality will not be approved under any conditions since Great Britain and the United States stand firmly behind the continuance of the present five-five-three ratio of the three nations.

## Trade Body Group Urges People To Okey Enabling Act

The Executive Committee of the Seminole County Chamber of Commerce has voted unanimously to recommend to the people of the county that they vote for Constitutional Amendment No. 2 at the polls on the ballot for the election of Nov. 6.

This amendment, if carried, would enable the people of Jacksonville and Duval county to hold an election to determine whether they wish to merge their municipal and county governments.

The Executive Committee points out that if the election should carry and the experiment is made of merging the two governments in Duval county, the success or failure of the experiment would determine whether such a move would be wise in other counties in Florida.

Harry M. Papworth, president of the meeting which was held yesterday, reported that a delegation of local dairymen had waited upon him requesting that attention of the people be called to the fact that the law of the state prohibits any one selling or giving away milk from any cows except those in an authorized and inspected dairy.

Mr. Papworth stated that there is a heavy fine for those purchasing or accepting milk which has not been properly inspected in accordance with the regulations of the State Dairymen Control Commission and the State Board of Health.

The committee also voted to approve the recommendation of the organization's Publicity Committee that signs and road markers now in use be repainted and put in use for the fall season; to purchase 1,000 copies of the special edition of The Sanford Herald, and to arrange for a general membership meeting in the near future which would serve to present and discuss the various problems now before the community.

At the meeting the following were present: Mr. W. H. Williams, president of the organization; Mr. W. H. Williams, secretary; Mr. W. H. Williams, treasurer; Mr. W. H. Williams, chairman of the publicity committee; Mr. W. H. Williams, chairman of the membership committee; Mr. W. H. Williams, chairman of the finance committee; Mr. W. H. Williams, chairman of the executive committee.

## Annual To Include Of Red Fronting

WASHINGTON, Oct. 31.—(A.P.)—The annual meeting of the National Association of Manufacturers will open today in Washington. The meeting will be held at the Mayflower Hotel and will last for several days. The association is a national organization of manufacturers and is one of the largest and most influential of the kind in the United States.

Mr. R. E. Majors, mother of six children and wife of a local newspaper editor, is running for mayor of Claxton, Ga. She conducts a personal column in her husband's newspaper and decided to seek the post because she had asked for more street lights and the elimination of weeds and received no encouragement from city heads. (Associated Press Photo)

## JOHN MEISCH, SR. IS OPPOSED TO EXEMPTION PLAN

### Says Schools Will Be Hurt If Bondholders Will Benefit

Declaring that the adoption of the Homestead Exemption Amendment will hurt the county funds and will hamper the operation of the schools and other departments, John Meisch, chairman of the board of county commissioners, today urged Seminole County citizens to vote against the amendment.

"If you want your schools to close," Mr. Meisch declared, "you will vote for this amendment because there is no way they can operate after losing so much money until some other source of revenue is found. In the end, a sales tax, and no telling how many other taxes, will be levied and the little home owner will have to pay a bigger bill than he does now."

Mr. Meisch said that the amendment looks good on the surface, but that if you will take a pencil and paper and do some figuring you will soon find it won't benefit the little fellow. "If it would," he said, "the bondholders wouldn't be for it."

Declaring there was not the slightest chance that the Supreme Court would allow the homes to be exempted from taxation to pay bonds, Mr. Meisch said, "What we would really be doing in adopting this amendment would be giving the bondholders a first mortgage on our homes instead of a second mortgage. At present the first tax pay operating expenses, but if the homes are exempt from operating levies, then bondholders will get it all."

## Business And Professional Men Will Lay Aside Dignity To Play Burro Ball

Business and professional leaders of this city will lay aside their dignity this evening in their attempt to appear as contestants in the first game of burro ball ever played in Sanford.

Teams representing the Sanford Rotary Club and the Sanford Business Club will take to the field tonight to play the first game of burro ball ever played in Sanford.

The game will be played on the Sanford fair grounds and will be a contest between the Sanford Rotary Club and the Sanford Business Club. The game will be played on the Sanford fair grounds and will be a contest between the Sanford Rotary Club and the Sanford Business Club.

## RETAIL TRADE IN SOUTH UP TO NEW HIGH

### Activity During Past Month Is Best In Past Four Years, Bank Survey Shows

ATLANTA, Oct. 31.—(A.P.)—Retail trade in the sixth federal reserve district with seasonal adjustments rose in September to a figure higher than that for any other month in the last four years. The monthly review of the Federal Reserve Bank of Atlanta, released yesterday, shows that retail trade in the district in September was 26.5 percent greater than a year ago, and increased 29.6 over August.

Based upon reports from 90 firms, wholesale trade increased 7.5 percent from August to September. Wholesale trade was 15.2 percent greater than in September last year and higher than for any other month since November, 1930.

Building permits issued at 9 reporting cities declined 8.3 percent from August to September, but were 1.3 percent greater than in September last year, and for the nine months have been 6.2 percent greater than in that part of 1933. Contracts awarded in the district, however, increased in September over August.

A decline of 29.6 percent in September compared with August was shown for cotton consumption by mills in Georgia, Alabama and Tennessee, and 23.3 percent less than in September last year, largely because of the textile strike. Production of orders also declined compared with both periods. Employment at the reporting mills at the end of September was 18.1 percent less than a month earlier and 14.1 percent less than a year ago.

The Oct. 1 estimate by the United States Department of Agriculture, its review, also indicates that the cotton crop in the six states located wholly or partly in the district, will amount to 3,224,000 bales, an increase of 4.4 percent from the September estimate, but 4.4 percent less than 1933 production. October estimates increased somewhat over those for September for hay and tobacco, but declined slightly for corn.

At weekly reporting banks in seven of the larger cities, an increase of 4.5 million in total loans between Sept. 13 and Oct. 10 was only partly offset by a decline of 2.5 million in holdings of government securities. Demand deposits at these banks declined during this period, but were 25.3 million greater than a year ago.

Total production of Florida citrus fruits for the 1934-35 season is estimated at 86 million boxes. The growing season, the review pointed out, has been unusually favorable so far.

## Attempt Is Made On Life Of King Boris

LONDON, Oct. 31.—A time bomb explosion, obviously an attempt on the life of King Boris, III, of Bulgaria, was caused by a fire in the leader of the king's train Monday according to a Dally Mail dispatch from Varna, Bulgaria, yesterday.

## RATIFICATION OF SUPERVISORS OF AMENDMENT HELD MARKET WILL BE AS UNWISE MOVE NAMED MONDAY

### Fletcher Thinks Those Who Vote For It Are Misled As To Result

JACKSONVILLE, Oct. 31.—Florida voters who vote to ratify the proposed Homestead Exemption Amendment do so because they have been misled as to what the results of the amendment's provisions will be, in the opinion of United States Senator Duncan U. Fletcher, dean of the Florida delegation in the Congress of the United States.

Senator Fletcher expressed his views on the amendment and as to national affairs yesterday just a few hours before he boarded the Tampa and the Atlantic Coast Line Railroad for Washington, where he will be busy on senatorial matters until the next Congress convenes early in January.

At Senator Fletcher views the proposed Homestead Exemption Amendment do so because they have been misled as to what the results of the amendment's provisions will be, in the opinion of United States Senator Duncan U. Fletcher, dean of the Florida delegation in the Congress of the United States.

## National Lottery Plan In Balance

WASHINGTON, Oct. 31.—By 1 P. M. Tuesday the gamblers will have a pretty good idea whether the United States ever will have a national lottery or whether they will have to keep on playing the Irish sweepstakes.

The answer will be found in a ballot box up in Bergen county, New Jersey, where Representative A. Kenney, a Democrat, is running for re-election. He is the author of a bill to create a national lottery, to be conducted by the veterans' administration, the proceeds to be used for paying the soldier bonus.

## 25,000 Californians May Lose Vote Right

SAN FRANCISCO, Oct. 31.—(A.P.)—The right of thousands of voters in Los Angeles to vote in the November election hung in a state of suspense yesterday, while here a prospective withdrawal of California's governor from the state at fever heat. Los Angeles, the stronghold of U. S. Democratic nominee.

## DENVER MOB GATHERING FOR NEW RIOT

### Blood Shed In Streets Of Colorado Capital Tuesday In Protest Against FERA Plan

DENVER, Oct. 31.—(A.P.)—A mob that clashed in bloody riots with police yesterday and threatened to "Meet bullets with bullets" started forming in suburban Englewood today for a march on Denver to protest.

The anti-FERA police was doubled to a force of about 12 men, and 60 Denver officers armed with machine guns and tear gas, and held ready within the Denver City limits about four blocks away for reinforcements if necessary.

The mob numbered about 200 but others were gathering. First-aiding men and women who shouted protests against curtailment of federal relief work flung anarchist bludgeons in Denver's streets yesterday.

Dispersed once after a wild battle with police, the 300 agitators gathered again within the shadow of the Colorado capitol and scattered before swarming police sticks only after being exhorted to change from fists to bullets today.

Four police were injured. One may die. One agitator was in a critical condition. Twenty others were hurt less seriously. Authorities alleged communists were involved.

"If police want bullets, we will meet them with some of our own," a speaker told the crowd which had been permitted to gather at Denver's famous civic center near the state capitol building.

"Get him," belted one of the agitators. Fights broke out. Police then dispersed the crowd but strike leaders threatened to renew activities today.

## Jennings Predicts Amendment's Defeat

DAYTONA BEACH, Oct. 31.—Florida will repudiate the Homestead Exemption Amendment next Tuesday, Frank Jennings of Jacksonville, president of the All-Florida Protective Association, predicted here last night.

Jennings, who came here under the auspices of the Young Democratic Club of Volusia County, which is impartial on the amendment, said he had not before made a prediction on the outcome of the vote on the measure, but that he was convinced the rapid swing of sentiment within the past 10 days meant victory for its opponents.

## Russian Scientists Restore "Dead" Man

MOSCOW, Oct. 31.—For two minutes, according to a high soviet medical authority, life has been actually restored to a "dead" man by artificial means. The astounding experiment succeeded, according to Russian scientists, after a man had been dead for three hours, a suicide by hanging.

A report of the experiment was released yesterday by an official of the central institute for blood transfusion, which is said to have similarly revived dead animals.

First game of a new series of games in the Sanford Bowling League will be played on the local alley tomorrow night when the Randall Electric Co. team meets the St. Johns River Line Co. team. Friday night the Hi-Grade Bakery (Continued On Page 4)

## Operated On

Little Patricia Ann Wobbe, daughter of Mr. and Mrs. D. O. Wobbe, of Memphis, Tenn., is going to have a long time to tell about her operation. She was only 20 minutes old when she had her appendix removed. She is doing nicely as this picture indicates. (Associated Press Photo)

## CITY NEWS BRIEFS

Local weather yesterday: High 70, low 54.

The City Brierley offers many happy returns to Jennie May Edgerton, and others whose birthday anniversaries will be observed tomorrow.

Indicating the beginning of the citrus fruit movement by boat is the fact that during the past four days, 17,000 boxes of fruit from Central Florida groves were shipped from Sanford by boat. This number is the equivalent of nearly 48 freight car loads of fruit, or a good sized train load.

The St. Johns River Line Co. handled the 17,000 boxes. Last year, the company handled over 1,000,000 boxes of citrus during the season.

Regular meeting of Celery Camp No. 825, Woodmen of the World, will be staged at Woodmen Hall tomorrow night at 7:30 o'clock. Plans are to be completed for the district meeting which is to be held at Winter Garden at an early date. The Auxiliary of the Camp also will meet at the Hall, and starting at the same hour.

Chamber of Commerce officials today announced that they had declined to endorse the work being advanced by a negro who says he is Bishop Socrates A. E. O'Neill of Washington. Officials stated that they could not endorse his work because they knew nothing of the church which he allegedly represents. O'Neill arrived here yesterday and announced that he would conduct a series of lectures. He states that he has worked for many years in the interests of the moral development of his race.

First game of a new series of games in the Sanford Bowling League will be played on the local alley tomorrow night when the Randall Electric Co. team meets the St. Johns River Line Co. team. Friday night the Hi-Grade Bakery (Continued On Page 4)

## RESTORATION OF PAY CUTS TO BE URGED

### Roosevelt Would Have Federal Employees Back On 1932 Wage Basis By Next July

WASHINGTON, Oct. 31.—(A.P.)—Full restoration of government pay cuts next July 1 will be recommended by President Roosevelt.

The President made this announcement today at his press conference.

This means a five percent increase in all government salaries which will make them reach the 1932 level.

Mr. Roosevelt said the pay increase would be urged in expectation of an increase in values and prices by July 1.

He does not feel the increase will be warranted by Jan. 1, but is confident of an upward trend by the time new government year begins in July.

Upon taking office, the President brought about a 15 percent cut in government pay. The last Congress restored 10 percent of this reduction.

## Kiwanians Seek Stetson-Rollins Game Here Dec. 25

Seeking to raise funds for the Boy Scout camp building and at the same time effect a re-establishment of the football rivalry which once existed between Rollins College and Stetson University, officials of the Sanford Kiwanis Club have invited the two teams to meet at Municipal Park on Christmas Day.

Athletic Director H. R. McQuillan and other officials of Stetson have already signified a willingness to meet Rollins on neutral ground, and a desire to effect a reconciliation of existing differences between the two schools as quickly as possible.

Kiwanis officials will make every effort to induce Rollins College to meet with Stetson officials in conference on the subject at an early date. Word has been received here, Kiwanis officials say, which indicates that heads of the two schools are amenable to the plan.

It was indicated here today that if assurance is received that the two teams will meet here Christmas Day, steps will be taken at once to improve Municipal Park and erect bleachers sufficient to accommodate as many as 5,000 persons.

## Citrus Independents Organize For Fight

LAKELAND, Oct. 31.—(A.P.)—Reaffirming opposition to the personnel of the tentative Florida Citrus Control Committee, a group of independent growers and shippers, claiming to represent nearly 80 percent of the citrus industry in the state, met here yesterday and formed the "Associated Citrus Growers of Florida."

H. C. Case, Fort Myers grower, was elected president of the organization, with headquarters at Lakeland. The group moved to apply immediately for a state charter.

The Payroll Tax

As if business did not have enough trouble already, it is now proposed to enact a payroll tax for unemployment relief.

The exact amount of the tax has not been arrived at yet but it is expected to be somewhere between 2 and 5 percent.

The tax would apply to little business as well as to big business. It would also apply whether a business were making money or losing it.

That is, they would be increased unless the tax could be passed along to the employees, or to the consuming public.

The plan has the advantage of putting the relief expenditures on the government on a pay-as-you-go basis.

Obviously the government cannot go on borrowing forever, and up to date there seems to be no indication of unemployment being reduced.

One reason for such violent outbursts of mob emotion as disgraced the State of Florida the other day when a negro was lynched near Marianna is the failure of the courts and the jury to convict and provide adequate sentences.

Human life is too cheap in Florida. In the Marianna case, a negro had raped and killed a girl. No chances were taken that he might escape punishment.

COMMENTING ON St. Petersburg's defeat of the sales-tax program after careful consideration, the Tampa Daily Times hits the nail on the head as follows: "If or when the Homestead Tax-Exemption Amendment passes, instead of individual cities objecting to such a tax, Florida is going to head a state-wide protest against the same kind of tax."

SANFORD TWENTY YEARS AGO

Mrs. C. M. Vorce entertained the members of the Auction Bridge Club with a charming luncheon at her home at Monroe Wednesday afternoon.

Mr. and Mrs. J. P. Butler are announcing the birth of a fine baby girl, Dorothy Cecil.

Miss Addie Vincent of Orlando is the guest of friends in Sanford. She was one of the attendants at the Macey-Osborne wedding.

Mr. James Brice of Orlando was the guest of Dr. and Mrs. A. E. Phillips on Thursday.

Mrs. Weatherbee, Sr. and Mrs. Nellie Weatherbee of Kissimmee are visiting Mrs. Jack Davison.

Miss Mary Chappell has gone to Deland to be present at the masquerade ball tonight at Stetson University.

Instead of decreasing our tax base, we feel that the base should be broadened so as to get more nearly perfectly those classes of property largely or altogether exempt from taxation.

From our viewpoint, adoption of the amendment would take away the main source of revenue for operation of the city and leave the home owners with a limited tax base for the service.

Unless new revenue sources develop, the community cannot receive the best service for the money it pays.

The amendment does not provide "tax-free homes" as Florida cities are heavily burdened and the home owners are fully protected under the present law.

It is comparatively easy to get around the law and the amendment when the law is not strictly enforced.

It is comparatively easy to get around the law and the amendment when the law is not strictly enforced.

SANFORD FORUM

Sanford, Fla. Oct. 28, 1934

Editor, Sanford Herald: I see by the papers that they are proposing a lot of questions to Governor Sholtz as to the effect of the home exemption.

Would the Governor please tell the people of Florida how much revenue will regulated dispensaries would bring to the cities, counties and the state?

Florida is building fewer homes each year for the reason it is cheaper to rent than it is to pay taxes, repairs and insurance.

Unless the home exemption is passed you will see rents go as high as the few people can afford to rent, then many families will be forced to move or live in shacks not decent to raise a family.

I would like for the Governor to tell the people of Florida if there are any gambling houses in the state and if they pay any revenue to defray the expenses of the state, city, or county in which they are run and located?

Yours for good homes, schools and churches, W. M. THOMPSON

SEPTIMUS BEST WARNS UP COLLECTION OF BACK TAXES

Foreclosure Suits To Be Filed At Rate Of 10 Or More Daily

ST. PETERSBURG, Oct. 31. - High pressure in speeding up the campaign for the collection of delinquent city taxes is to be put on immediately through the filing of additional foreclosure suits at the rate of 10 or more a day, as fast as bills of complaint in individual cases can be prepared by the legal department.

Explicit instructions to that effect were given to City Attorney W. F. Way and Finance Director Frank Wilson by Mayor R. G. Blanc and Councilman F. W. Webster, members with Councilman John B. Smith of the special committee on the tax situation, at a meeting in the mayor's office recently.

Agreeing to meet again this week with Smith, the third member of the committee, who was absent at the first conference, as soon as reports can be obtained on collections resulting from suits to date, Blanc and Webster arranged with Oscar W. Gilbert, manager of the West Coast Title Company, to turn out reports on delinquent properties to the legal department as fast as required.

Lists of delinquent taxes on lands in the area between Fifth Avenue north and south westward to Sixteenth Street are to be used first in the attempted cleanup to obtain cash to offset the \$104,000 deficit which previously it had been proposed to meet with excise taxes.

City Attorney W. F. Way, who met with the committee, estimated that fully half of the 150 foreclosure suits instituted since last May had resulted in settlements.

Councilman Webster openly criticized the legal department for what he intimated was lack of sufficient progress during the period which the council had ordered steps to be taken to foreclose delinquents.

He urged upon Mayor Blanc, with the agreement of the latter, that another meeting of the council committee should be held, when Councilman Smith also could be present, at which methods could be formulated to bring further pressure upon tax dodgers.

City Attorney Way declared that he had filed suits as fast as the records on properties could be obtained and the bills of complaint prepared. He asked for more clerical stenographic help and said he already had ordered 1,000 more bills of complaint from the printer for use in starting new suits. He announced that he would turn another list of delinquent properties, reported to him by the tax division of the finance department, over to the West Coast Title Company for check of the title records.

Gilbert, manager for the title abstract concern, told the council committee that he would "put the machinery in motion to give them to you as fast as you want them; we'll co-operate with the city in making this drive."

Mayor Blanc pointed out that there was no incentive to the property owner to pay up, as long as there is no penalty for non-payment under the present King bill amendment to the charter, but that there would be as soon as foreclosure proceedings are filed.

City Attorney Way explained that immediately upon the filing of a bill of complaint in a tax foreclosure suit, the property owner is assessed a personal interest on the delinquent debt, in addition to court costs running from \$3.75 to \$12 in each case.

# AVY DROP IN FLORIDA, GEORGIA GAMES REPORTED TO CLASH IN HOT U. S. STEEL GAME SATURDAY

## 787 Deficit Is Shown For Quarter; Output Now Gaining

NEW YORK, Oct. 31.—(AP)—The heavy drop in steel production and sales since June, when the United States Steel Corporation's September quarter statement showed a deficit of \$2,787,000, is being offset by a gain in output during the first three months of the year.

W. C. Taylor, chairman of the board, in a statement issued after the directors' meeting, said that while output had dropped to 25 percent of capacity during the first three months of the year, it is now 35 percent with indications of betterment.

The board declared another dividend of 50 cents on the preferred stock, payable Nov. 25, to stockholders of record as of Oct. 15. The corporation has paid this amount on the senior shares each quarter since January, 1935, when the dividend rate was reduced from \$1.75 quarterly.

Operating earnings during the September quarter, after ordinary expenses, amounted to \$3,000,000.

# Tampa Attorney Argues That Repeal Will Not End Activities Of Bootleggers

## OCALA, Oct. 31.—Judge O. K. Reaves, Tampa, advocate of the retention of prohibition in the constitution of Florida, told a crowd at the civic center tonight that to say legalized liquor will keep down the bootlegger is "just so much hogwash."

The former circuit judge said that bootlegging is good business because bootleggers do not have to pay taxes.

Declaring that prohibition is one of the great moral questions now before the people of Florida, Judge Reaves predicted that repeal would mean more whiskey, more women in the whiskey trade and more women drinking.

Repeal, he asserted, tends to social depravity and religious starvation. Conditions under repeal, he said, will be worse than they were prior to prohibition because of the change in the social industrial order.

Women having been placed on an equal social footing with men in economic and political life, will be tempted to drink as much as men, Judge Reaves said.

To show what condition existed before prohibition, the dry speaker pointed to Pittsburgh in 1901. Quoting from the Pittsburgh Press of that year, he said that there were "places in Pittsburgh where children can obtain beer and where many gambling dens of all descriptions are being operated in violation of the law."

Reading from the Pittsburgh Leader of 1900, Judge Reaves said "there are 2500 whiskey dealers in Allegheny county selling whiskey without a license."

He also quoted a Chicago Tribune of 1911 as saying that "there are blind pigs everywhere, there is no trouble to get whiskey or

club to be found on the sidelines with an injury unless the hurt is of such proportion that the player under no circumstances can perform. Broken arms or legs seem to be the only things that bar a boy from saying to his coach, "I'm ready, and how!"

Coaches Stanley, Clemons and Bowyer are spending extra time in the official huddle this week working on offense and defense for Georgia. There will not be an effort spared in Gatorland in the program to have the Gators at top speed by Saturday, mentally and physically. Usually the mental part of the preparations take care of themselves, for the very mention of the Georgia game puts the Gators "on edge."

Captain Chuck Rogers turned in a nice game at left end against Maryland, and likely will lead the Gators against Georgia, with Moye at right end, if he is not troubled with his bad hand. The tackle slots seem about the same, with the twin lads, Starbuck and Stark, slated for first duty. Welcome Shearer did not play at all against Maryland, but his faulty arch is responding nicely to the rest cure treatment, and it is possible that the senior snapper-back will be called on to resume his place with the first eleven. The guard situation continues to puzzle those who like to do everything out just so. Iron Man Art Shouse and Irrepressible Pug Bryan started the Maryland game, but Turner, Hughes and Root saw a good bit of service, and in addition there is Lane and McCampbell to be reckoned with.

The backfield situation will change little with major hopes resting in Wally Stovon, Billy Chase, Jack Beckwith, Charlie Stolz, Duke Warren and Walter Middlekauff. The Gators hope to have their running attack improved and a strong counterpart to their passing threat for Georgia.

Here's a look at past Georgia-Florida games:

1902 Florida 27, Georgia 27.  
1903 Florida 21, Georgia 11.  
1904 Florida 21, Georgia 11.

1,544,000 New Autos Sold In 3 Months

DETROIT, Oct. 31.—(AP)—Statistics compiled by the Ford Motor Co. and other manufacturers show that 1,544,000 new automobiles were sold in the United States during the first three months of the year.

The figures show a 10 percent increase over the same period in 1934.

In Michigan, the state with the largest number of new cars sold, 154,000 were sold in the first three months of the year.

# MODELS DENY ARGUES AGAINST INROADS OF DEBS

## Society Buds Accused Of Taking Positions From Professionals

NEW YORK, Oct. 31.—New York's professional models, who denounce before society's notables, are threatening to go on the picket line—against society itself.

Gertrude Mayer, titian-haired, Fifth Avenue model number, stepped a trimly shod foot indignantly as she protested against Park Avenue deb and snobs when she accused of taking jobs away from professionals.

Miss Mayer's complaint against these society girls is two-fold: 1. They are taking modeling jobs not only in charity fashion shows, she said, but in the shops as well, cutting into their professional means of livelihood.

2. They are not good models, and therefore they are lowering the standards of the business.

"They don't know how to do justice to the garments they are showing," said Miss Mayer. "They don't know how to walk. They have no balance. They don't know what to do with their hands. They don't know how to wear their clothes and show them off properly."

Miss Mayer, who came from Paris and eight years ago founded what she claimed was the first training school for models in the United States, said she planned to call a meeting of professional models next week for a discussion of plans to combat the "debutante menace."

She will propose a personal appeal to society leaders, and if that fails the professional models will be asked to picket the next fashion show.

Miss Mayer estimated that "essentially 1,000" jobs have been filled during the last year by society girls, "none of whom seems to realize that modeling has become a specialized field."

"They go into a retail store," she said, "and they say, 'Look here, now, I have a big following. I am well connected socially, I belong to various clubs, and I can bring you a good clientele, and the store hires them.'"

Only professional models, who have practiced walking long hours with the Manhattan telephone book on their heads, know that there is a different walk for each type of garment, said Miss Mayer.

Asked why society girls turned to modeling, she expressed a belief it was because they suddenly discovered it was "a lucrative business, they like to wear good clothes, and it gives them an opportunity to make new contacts."

Recently added to the library of directories available at the Chamber of Commerce are the 1934 editions of city directories of Birmingham, Montgomery, Mobile, and Tallahassee.

## Ratification Of Amendment Held As Unwise Move

(Continued From Page One)

of the Florida population owns property and questioned if the 85 percent, "the fact," he said, "who are voting for the amendment" have not been "affected" as to what "it will mean to them." They are the ones, he contended, "who will have to pay the influence and other taxes to make up the great loss in revenue."

He is particularly fearful as to the amount of money the ratification of the amendment will take away from the schools.

"They are asking for \$2,000,000 more for the schools on the present school fund, and where will the money come from?" He said that if the state continues to fund it, it has recently the amendment will be defeated in the Nov. 3 election.

# ALAMOR MIGHT BE ALIVE BUT FOR VANITY

## Monarch Discarded Bullet-Proof Vest Just Before Death

By CHARLES E. MINTNER  
(Associated Press Feature Staff)

HELGLADE, Oct. 31.—(AP)—King Alexander of Yugoslavia, assassinated recently in Marseille, owned two bullet-proof vests. The Associated Press learned that he put on a bullet-proof vest, and removed it at the last moment because an admiral's uniform fits better without it.

Previously he had worn his bullet-proof protection only under tunics of his army uniform. Experts told the Associated Press that had he worn his bullet-proof vest at Marseille he would have lived, since none of the bullets struck him in the head and the vest was sufficiently strong to have deflected those which ripped into his body.

Alexander himself rejected the idea of such protection when an agent came to him prior to his leaving his country to tell him the protection and insisted he should wear one.

The king thenupon consented to witness a demonstration of the garment's impregnability. The agent donned one of the vests for a demonstration. One of the king's guards fired three rifle shots at the agent from a distance of 10 paces.

The shots went true but the agent was unharmed, the bullets glancing off the vest.

A burglar who returns the loot he carries away is at large in this city. At least, so reports A. L. Kelley, barber at the City Barber Shop of Magnolia Avenue. Mr. Kelley stated that about 10 days ago, someone entered his home and carried away a large quantity of new clothing and other articles of value to the family. Last Saturday night, while the family was away, someone brought back every article that was stolen except a small jug of wine.

C. E. Hawkins of Knoxville, Tenn., has arrived in Sanford to assume a position with the Henry McLaulin Jewelry Store. Mr. Hawkins is an expert watchmaker, engraver, and diamond setter, and he has had 17 years of experience in his profession. In fact, Mr. Hawkins comes from a family of watchmakers, his father and brother both having been identified with this profession for many years. Mr. Hawkins recently completed a four year term of service with Keedy's, Inc., in Little Rock, and a similar term with Max Friedman Jewelry in Knoxville. He will bring his family to Sanford within a short time.

Judges yesterday noon were unable to decide the winner of a debate before Sanford Rotarians on the subject "Resolved: That the Homestead Amendment should be adopted." The affirmative side was defended by Roy Heller, while the negative discussion was in the hands of J. L. Ingley. Visitors attending the meeting included Asher Peter and K. C. Moore of Orlando, and E. J. Hall Jr., of Sanford who explained the Recreational Program proposed for this county. Upon vote of the membership, a donation was made to the Welfare Lunch Fund for indigent children.

"State Association" night will be observed by Sanford Elks on Friday night, Nov. 9, it was announced today by Lodge Secretary Howard Overlin. The guests of honor will be Cosplan Hale of New Smyrna, president of the State Elks Association, and G. W. Spencer of Sanford, its vice-president. A regular old time Sanford party is in the office, Mr. Overlin said he urged all members to attend the affair. An invitation has been sent out to all lodges in the district, and to officers high in Elksdom, including Alto Adams, district deputy grand exalted ruler, Dr. D. G. Ashton of the Harry-Anna Memorial Home, Harold Colles of Jacksonville as secretary of the State Association, and J. Edward Baker, past president of the Association.

Members of the Publicity and Building Materials Committee of the Seminole County National Housing Administration Monday afternoon selected the property which is to be remodeled as a demonstration of what can be done under the National Housing Act plan. E. J. Moughton, Al Lee, C. E. Rawson, Ed Randall, and G. U. Stuart were appointed to make final arrangements for the remodeling demonstration, exhibition, and publicity. Others attending the meeting were: R. L. Dean, J. L. Marellotta, G. A. Speer, Jr., W. L. Cooper and Karl Lehmann.

A special Chamber of Commerce Committee appointed to study, Referendum No. 87 of the Chamber of Commerce of the United States on National Expenditures voted in favor of 12 of the 14 questions submitted, and voted adversely on two of the questions. The committee recommendations will be presented to the Board of Directors at their next meeting. Those meeting Monday to discuss the subject included W. H. Schmidt, E. L. Dean, S. G. Gray, J. L. Ingley, B. F. Haines, W. H. Tunnell, John Meisch, Sr., H. M. Papworth, Fred R. Wilson, and Karl Lehmann.
