THIRTY CENT COTTON LEVEL REACHED IN FUTURE MARKET ON REPORT OF SCARCITY

OF OFFERINGS IN THE SOUTH AND CONTINUED DEMAND

FUTURES SOLD

Up to Thirty Fifteen; an Advance of Two Dollars Bales Over Yesterday

(By The Associated Press) NEW YORK, Feb. 27.—The long talked of thirty-cent level for cotton prices was reached in the futures market today on reports of steadily increasing scarcity of offerings in the south and a continued trade demand. Contracts for delivery during May sold up to thirty-fifteen, an advance of about two dollars a bale over yesterday's closing.

WASHINGTON, Feb. 27.—Cotton prices are not at a point where they afford sufficient compensation to the growers in view of the extensive use of land and labor in cotton production the federal trade commission reported to the senate, in a response to a senate resolution adopted March 16, 1922. The report also brought out the fact that cotton future trading in 1921-1922 was something over 15 1-2 times the size of the crop.

About one half of the domestic cotton crop is exported, giving to the foreign markets, especially Liverpool, a great influence on domestic cotton prices, said the report.

It is pointed out that the average spot price for middlings cotton in 1911 was 12.7 cents, a price somewhat higher than the average for the twelve preceding years. During the war there was a great increase, but the maximum came after the armistice. The maximum of 41.4 cents was reached in April, 1920.

From this time on there was a decline culminating in a closing price of 10.28 cents at New Orleans from June 20 to 24, 1921, a drop of over 75 per cent within a little over a year. The price of cotton, according to the report, fell from 22.0 per cent above the 1913 level in April, 1920, to 13 per cent below in June, 1921.

From 1913-1914 to 1920-1921, the domestic crop ranged from a little over 16,000,000 bales in 1914-15 to somewhat over eleven million bales in 1920, the average being about 12,500,000 bales. The world crop, averaging 20,200,000 bales, showed substantially similar variations. In 1921-22 the domestic crop showed an extraordinary decrease to only 8,000,000 bales, while the world crop came to a little under 16,000,000 bales.

Supreme Court Hears Oral Arguments on Joe Earman's Case

Mayor and Judge Were Sentenced to Ten Days for Contempt

(By The Associated Press) TALLAHASSEE, Feb. 27.—Charge that Circuit Judge Davis West Palm Beach, had added to the minutes of his court to make it appear that the court was in session during the alleged contempt by Municipal Judge Earman, and Mayor Biggers, was made by Attorney Hodges representing the men in oral arguments before the supreme court today on a writ of habeas corpus.

TALLAHASSEE, Feb. 27.—The supreme court today heard oral arguments on writs of habeas corpus recently granted in behalf of Joe Earman and E. L. Biggers, municipal judge and mayor of West Palm Beach respectively, who were sentenced to ten days in jail by Circuit Judge Davis for contempt of court. After serving a day's sentence the officials were released under bond, pending the disposition of appeals.

TO SELL CHARLESTON BASE COSTING 11 MILLION

WASHINGTON, Feb. 27.—The Charleston, S. C. quartermaster base has been declared surplus by the war department and will be sold, under sealed proposals, late in April. The base cost \$11,000,000.

WASHINGTON, Feb. 27.—Brigadier General Hines, retired, was nominated by President Harding to become director of Veterans Bureau succeeding C. R. Forbes.

VOTE OF THANKS GIVEN HERALD BY ROTARIANS

FINE MEETING TODAY AT VALDEZ WITH LARGE NUMBER OF VISITORS

The Sanford Rotary club had another fine meeting today with many visitors present from various cities of the state. Among them were the following:

George Henry, Marcus Fagg and Finley Knight of Jacksonville, Fitz Dade, N. P. Yowell, Jake Burkhardt and Sexton Johnson of Orlando and Dr. Quirk of Watkins, New York.

President Thrasher called the meeting to order and called upon Marcus Fagg to return thanks after which the assemblage sat down to one of the Valdez luncheons and enjoyed the entire menu. The president in a few well chosen remarks thanked the editor of the Herald for his good service in giving publicity to the club, for his service in other channels and called the attention of the club to the fact that the Daily Herald was now one of the best daily papers in the state and a credit to the city and was therefore due to a rising vote of thanks and appreciation by the club and they responded by a rising vote of thanks.

President Thrasher then arose and presented a beautiful jeweled Rotary emblem to Harry Stevens, the first president of the club and who is now a past president in which the president called attention to Harry's good work the first year of the club's existence. Harry thanked the club for the gift and said half the praise was due to George Knight for his work of bringing the club to Sanford and of his willingness to go ahead with the good work at all times. Marcus Fagg, the head of the Children's Home at Jacksonville was called upon and in his usual cheery style gave the club some good thoughts about service, about the work of Rotary and expressed his pleasure at being a member of the Rotary club and how glad he was to be attending the meeting with Sanford. Mr. Fagg gave a brief outline of the work of the Home in caring for orphans and the children, who have no homes and told a very interesting story of placing two of the children with a fine family at Pensacola as one instance of the work of the home in placing children with foster parents. Mr. Fagg is a most forceful speaker and the members felt well repaid at having heard him again. Sanford Rotary has a great interest in the work of Mr. Fagg and the home and they were glad to have him here today.

N. P. Yowell of Orlando being called upon for a few remarks said he was always glad to be in Sanford where he felt like he was at home and where he knows so many people and had so many warm friends and he said that while Orlando members were always visiting Sanford he failed to see many Sanford members visiting Orlando and he hoped that more of them would come to Orlando where they could always be assured of a welcome.

KLAN DEFEATED IN EL PASO ELECTIONS

EL PASO, TEX., Feb. 27.—The Ku Klux Klan has suffered its first notable political defeat in Texas in R. M. Dudley's election as mayor of El Paso. Dudley won a decisive victory over H. E. Gardner, who was endorsed by the Ku Klux Klan in a campaign marked by almost unbelievable bigotry.

Complete returns Sunday showed that the vote was, Dudley, 7,752; Gardner, 4,452.

IRIG. GENERAL HINES WILL BE DIRECTOR VETERAN'S BUREAU

(By The Associated Press) WASHINGTON, Feb. 27.—Brigadier General Hines, retired, was nominated by President Harding to become director of Veterans Bureau succeeding C. R. Forbes.

ADMINISTRATION REQUEST FOR WORLD WIDE COURT WAS REJECTED YESTERDAY

Pet Measure of Republicans Gets a Jolt in the Senate

(By The Associated Press) WASHINGTON, Feb. 27.—The possibility of Senate action before Congress adjourns Sunday on the administration request for authority to participate in the League International Court of Justice under the League of Nations was removed through conference yesterday afternoon between Senate leaders.

Preliminary to today's meeting of the foreign relations committee for initial consideration of the plan, was submitted last Saturday, leaders of all senate factions exchanged views and, it was said, were all of the opinion that the matter would have to go over until the next congress.

Judgment was general that the few days remaining of the present session were totally inadequate to bring about any decisive step on such an important matter.

Intense interest among senators in the administration proposal was manifested by a flood of statements. Those from Democratic leaders indicated favor for the plan but there was a pronounced hostile note from the irreconcilable camp and almost complete absence of public endorsement from the administration and reservationists groups.

Senator Johnson, of California, a prominent Republican irreconcilable, issued a statement ironically critical of the administration proposal and declaring the United States would not go into the league.

"If," said Senator Johnson, "we now do what is asked the situation is

ADMINISTRATION SHIP BILL BEING KEPT ALIVE TODAY TO WORK OUT SALVATION

Formulation of Plans for Dealing With War Time Merchant Marine

(By The Associated Press) WASHINGTON, Feb. 27.—The administration ship bill was kept alive in the senate yesterday by further debate, but executive officials recognizing the end to be near, began formulation of plans for dealing with the government's war-impelled merchant marine venture with the aid of the legislation.

Chairman Lasker of the shipping board conferred with President Harding, then met with the other members of the board and afterward announced that the policy of the administration would be worked out and made public before the end of the week. He declined to give any indication of the plans under consideration beyond saying they were of "a startlingly novel nature."

Hopeful until last week that the shipping bill would be enacted, administration officials have given no indication of what alternative they have in mind. President Harding, in making his final appeal for passage of the legislation in the course of his address to congress February 7, and on the British debt settlement, said that if the legislative branch refused to approve the shipping bill or to submit an alternative "the executive branch of the government may proceed as best it can to end the losses in liquidation and humiliation."

Inasmuch as the president has declared one of the prime purposes of the shipping bill to be to get the government out of the shipping business, it was generally believed today that the administration's policy con-

PRESIDENT HARDING WILL LEAVE WASHINGTON IN MARCH FOR FLORIDA

Expects to Be the Guests of McLean on Houseboat—First Stop Will Be at Ormond

(By The Associated Press) WASHINGTON, Feb. 27.—President and Mrs. Harding expect to leave Washington March 5th on a Florida trip when they will be the guests of Mr. and Mrs. Edward McLean, of Washington. It was officially announced at the White House that the presidential party will go first to Ormond on the Halifax river.

Hon. Chas. D. Haines Entertained Sanford People Last Night

Theatre Jasmine Was Scene of Fine Entertainment and Display of Talent

Sanford people were the guests of Congressman Charles D. Haines last night at the Theatre Jasmine, at Altamonte, the private theatre of Mr. Haines where each year he gives a week toward the entertainment of the people of the various cities and towns near Altamonte. Last year he entertained Sanford and the house was filled but last night it seemed that there were so many other attractions that many who wanted to go to Altamonte had previous engagements and the beautiful little theatre was only fairly filled.

The programs given at the Jasmine are not in the amateur list at all but many professionals are among those who give their time toward filling in a finished program that intersperse the moving pictures and out in the pine woods in the midst of the Haines estate this little theatre houses some of the best talent in this part of the country.

Mrs. Howard Lyman, known to the stage as Emma Abbott, and who resides at Altamonte can always be relied upon to give something splendid in the musical line as Mrs. Lyman has a voice of exceptional sweetness and she brought down the house last night with several fine selections. At the close coming out in gingham and bonnet and with a milk pail as the Milkmaid she gave a song "Ohio" in compliment to the editor of the Herald that was greatly appreciated by all those present and especially the "hecklers" in the audience.

Another clever performer was Billy Bird, of New York, who is the guest of Col. Haines for the week and who has a wonderful baritone voice and who is also a clever performer on the piano. His songs and piano duets last night were a feature of the entertainment.

The colored boys and girls of Hungford Institute close by, many of whom are employed on the Haines estate in the summer, electrified the audience by their singing, the leader being especially good and her rendering of "When Melinda Sings" was away above the average.

The Jasmine Orchestra rendered two music between acts and the moving picture was greatly enjoyed and all present wondered just how their host could procure such good pictures for private entertainment but he is a man who does big things and his guests always have a surprise awaiting them at the Jasmine.

The evening was one of unalloyed pleasure and Mr. Haines before the program started announced that the entertainment was really planned as a compliment to the editor of the Sanford Herald as a token of his appreciation for the good work of the newspaper. He owned and operated several newspapers in the north during his busy career and knew their trials and tribulations and his compliment to the Herald was the entertainment last night.

At the close of the show the editor of the Herald spoke a few words of thanks for the entertainment upon behalf of the Sanford people and for the Herald and all those who were fortunate enough to attend the show last night at the Jasmine left with the feeling that in Charles D. Haines they have a real friend, a real citizen and a real man in every respect.

And next year when it is announced that the Theatre Jasmine will have something special for Sanford there will not be standing room.

FIVE PINELLAS MEN ON TRIAL AT TAMPA FOR VIOLATION PROHIBITION LAWS

(By The Associated Press) TAMPA, Feb. 27.—March 15th was set by Judge Mack in Federal court for the trials of five Pinellas county men who were charged with violating charges of conspiracy to violate the national prohibition law. All pleaded not guilty. They are at liberty on bonds of \$1,000 each.

According to an estimate made by Al Branning, one of the best posted nursery men in this section, fully 1,200,000 citrus trees have been planted along the ridge this season. No big plantings like that at Temple-town a year ago when more than 100,000 trees were put out in one grove have been recorded, but a great many smaller groves have been put in up and down the Ridge.

PRESIDENT HARDING'S PLAN FOR PARTICIPATION IN PERMANENT COURT JUSTICE

POSTMASTER GENERAL WORK TAKES NEW JOB

WILL BE SECRETARY OF THE INTERIOR AND HARRY NEW TO DE POSTMASTER GENERAL

(By The Associated Press) WASHINGTON, Feb. 27.—The selection of Postmaster General Work to succeed Albert Fall as secretary of the Interior, and Senator Harry S. New, of Indiana, to become postmaster general was announced at the White House today. The change in the cabinet lineup will take place on March 4th when Fall retires and the nominations of Work and New were sent to the senate today to permit confirmation before the present session of congress adjourns.

The selection of Work to take interior portfolio has been forecast ever since Harding began consideration of names of available candidates. A resident of Colorado and a man of demonstrated ability in governmental organization, Work is regarded by the President as fulfilling all qualifications for secretary of the interior. New had been offered a place in the original Harding cabinet but declined because he thought he could render the administration greater service by remaining in the senate. In last year's primaries he was defeated for re-nomination, however.

RECEIVED MUCH ATTENTION IN TODAY'S NEWS-PAPERS ABROAD

That American Aloofness in European Affairs Being Abandoned

(By The Associated Press) LONDON, Feb. 27.—President Harding's proposal for participation of the United States in the permanent court of international justice received much attention in today's newspapers which interpret it as an important sign that the American aloofness in European affairs is being abandoned.

The Times says "The policy of aloofness is a creed worn out. In its time it was useful but formulated for the conditions of the world, which have passed away."

WASHINGTON, Feb. 27.—A resolution to carry out the new administration proposal for American membership in the international court of justice organized under the league of nations agreement was introduced in the senate by Senator King. There was no discussion and it went over unanimously.

Senator Robinson, of Arkansas, acting Democratic leader, gave out a formal statement declaring that on formal study "he had a feeling of friendliness" for the administration plan, but added that it indicated a policy of timidity and half-heartedness by the administration in its foreign policies.

MIAMI, Feb. 27.—William Jennings Bryan while expressing his approval of the step taken by President Harding in a proposition that the United States take a conditional seat in the international court of the league of nations, in a statement today, said:

"I think our action should be broader than the president's proposals. His appeal is only to the international court. That only deals with matters which can be arbitrated. I think that an investigation of all disputes is as necessary as those to which arbitration can be supplied and that therefore we should be represented on the tribunal that investigates only and as well on that tribunal that decides, reserving at all times the independence of action as in the 30 treaties.

WASHINGTON, Feb. 27.—Postponement of action until the next session of congress on Harding's request for authority to enter the international court set up by the League of Nations virtually was decided on today by the senate foreign relations committee. No vote was taken by the senators representing all views said the consensus of opinion was a matter which could not be brought before the senate in time remaining before the present session ends.

BAND CONCERT BY ORLANDO BAND GREATLY ENJOYED

RECORD BREAKING CROWD WAS OUT TO HEAR OUR NEIGHBORING CITY'S FINE BAND

What was probably the record-breaking attendance at band concerts was out yesterday at Central park to hear the Orlando band. There would have been many more if there had been more seats but many people stood up during the entire concert that took over one hour to render and it was one of the best musical programs ever heard in this city. The Orlando band is known as the Pythian band and they have a fine Damon in the person of Leader R. D. Cobb, who put them through their paces yesterday and never allowed more than two minutes to elapse between selections. The band showed careful training and the power to master the most difficult numbers and Orlando put over a good deal when they engaged the Orlando-Pythian band to give them concerts during the winter season instead of going out of town for a big musical organization. In this respect they have followed the lead of Sanford and they are evidently well pleased with their splendid band. The feature of the concert was the wonderful singing of Mrs. Ella Harris who has a most excellent baritone voice of great power, and her rendition of "Smilin' Through," and "All Over Nothing" and several encores, were well received. Mrs. Harris not only has a fine voice but it carries to a great distance in the open air and all of her numbers were greatly enjoyed. This exchange of bands during the winter season is a fine idea and our next band will probably be Kissimmee or DeLand.

EAST SANFORD

Moore's Station folks gave another of their popular salt water fish fries Thursday evening at the church. The supper was fine and what we paid a quarter for would cost a dollar for anywhere but here. There was a good attendance. The proceeds go to increase the fire insurance on the church.

Mr. and Mrs. Walter M. Haynes have moved to their new home on Cameron Avenue. Mr. Haynes' father, from Gardena, California, is with them. Walter will still hold down his job with the Haynes & Rattiff Printing Co. in town, but the rest of the family will turn farmers. They purchased the former Chandler place.

Mrs. A. Corpany left Wednesday night for Brooklyn, N. Y., to visit her sister, Mrs. Margaret McCowin. Mr. McCowin died a short time ago.

Mr. and Mrs. George Chambers were guests of Mr. and Mrs. J. C. Ellsworth from Saturday till Monday. The Chambers were enroute to their home in Willoughby, O., after spending the winter in Tampa. Mr. Chambers and Mr. Ellsworth are cousins.

Mr. and Mrs. E. A. Taylor entertained with a lovely bridge party on Friday evening. The invited guests being Mr. and Mrs. Dieterich and daughter, Gladys, Mr. and Mrs. Lonnie McMullen and daughter and Mr. and Mrs. R. K. Gore and two children.

George Bridgeford, of Willoughby, Ohio, who has been spending the winter here, has gone to Vero to remain till April.

Mr. and Mrs. D. C. Howard, from town, were spend-the-day guests of Mr. and Mrs. B. H. Squire Sunday.

Mrs. Lilly Jones and aunt, Miss Sally Hoskins, were guests of Mr. and Mrs. J. F. McCaslin Tuesday on a motor trip to Lakeland, Lake Wales and other points. Miss Hoskins accompanied by Mrs. McCaslin are in Eustis Thursday for the Washington birthday celebration, going over in Mrs. Jones car.

Mrs. W. R. Prevatt was brought home Friday from the Fernald-Laughton hospital and is recovering nicely. Her mother, Mrs. L. B. Cuffy is here from New Smyrna caring for her.

Mrs. Frank Cowan was taken to Dr. Robson's hospital last week having been very ill since the birth of their son a few weeks ago.

Wild blue violets, white violets and the lovely wild jessamines are in bloom, so are the pine, sweet gum and maple trees. Spring is surely approaching.

Celery was not damaged by the recent frosts hereabouts. Many of the growers were rushing the season with spring vegetables well advanced and lima beans, snap beans, sweet corn, squash, Irish potatoes, peppers, tomatoes and many other kinds of early things were badly damaged in several localities, the frosts appeared in streaks, as usual.

Mr. and Mrs. Heck Runley have bought a place in Mecca Hammock and gone there to farm.

LOCALS

Alphabetical Conner, of the Sanford Shoe & Clothing Company, is a business visitor in Jacksonville today.

Many Sanford people will avail themselves of the kind invitation of Col Haines to be his guests at the Theatre Jessamine tonight at Altamonte.

Mr. and Mrs. P. P. McGraw, of Orlando, were visitors in this city yesterday. Percy is secretary of the Typographical Union and came down to collect dues from the Union printers here.

A. F. Falch is the new chef at the Valdez Grill and they say he is one of the best in the business. See the advertisement of the Valdez Grill in the Daily Herald and take your next meal there.

Harry Wendler of Orlando is in the city today assisting in getting out the current number of the Feathered Warrior at the Herald office. His father, Dr. J. H. Wendler, is very ill at his home in Orlando.

Mrs. Tillman is in the city to demonstrate Valliere's Dainty Flour at the Piggly Wiggly store Monday, Tuesday and Wednesday. Sanford ladies should not fail to see this demonstration at the Piggly Wiggly.

Mr. and Mrs. Matt Caley of Michigan, townspeople and friends of Mr. E. T. and Miss Emma Woodruff when the latter were residents of that northern state, were visitors at Mr. Woodruff's home here the past week.

Col. Dan Morgan Smith speaks at the high school auditorium tonight on the subject "The Spirit of America" or "Who is Running This Country." Col. Smith is a graduate of Florida university and is well known in Sanford where he has addressed the people upon several occasions. The lecture is free and everyone who can do so should hear it.

Many people from Orlando were up yesterday to hear the Orlando band, and many from Sanford went down to hear the Sanford band, but the Orlando people who stayed at home and heard the Sanford band and the Sanford people who stayed at home and heard the Orlando band were well repaid for both bands performed with entire credit to themselves.

Mr. and Mrs. J. S. Marshall, friends of Mr. E. T. and Miss Emma Wood-

ruff, who are spending the winter months in St. Petersburg, drove over to Sanford Saturday and have been guests of their former Michigan neighbors at the Woodruff home, 4th and Oak avenue, a few days. They were delighted with what they saw in and around the "City Substantial." Mr. Marshall, then a youthful lad, was in Sanford, with others, at the then years ago. Of course he would, now, never know he had ever been our commercially thriving and growingly beautiful town. After several winters in California, where the Marshalls have a number of near relatives and inducements are strong to establish their cold weather residence, they lean quite evidently toward Florida and are planning to be in Sanford for considerable time another season.

Complimentary Entertainment at Altamonte Tonight

The complimentary entertainment given by Col. C. D. Haines at his private theatre at Altamonte, to Sanford people, will start at 7:30 and since it is thirty minutes drive it would be well to leave Sanford about 7 o'clock. The show will start early in order to give the visitors plenty of time to get home after the show is over. Col. Haines is greatly interested in Seminole county and it is a great pleasure to him to give the folks a night at his beautiful theatre, The Jessamine at Altamonte. Each year he arranges a good movie program and vaudeville stunts and invites the Sanford folks to be his guests and tonight he will have something especially good for them. Remember the Theatre Jessamine at Altamonte is the place and the time is 7:30. All tickets have been reserved and if you received one and cannot use it give the ticket to some one who would like to attend. The Theatre Jessamine is west of the Altamonte Hotel and instead of turning toward Orlando just follow the road around in the rear of the hotel and go west about a quarter of a mile and you will see the theatre building on the main road going from Altamonte to Apopka. The entire distance from Sanford to the theatre is only about fifteen miles over good roads all the way.

If accident, or some remote contingency, should necessitate repair of your Hupmobile, the probability is that the job will cost you far less. For instance, the camshaft operates in bronze bushings,—which in itself means long wear. When wear does take place, it means the replacement of an expensive bushing, instead of the camshaft itself.

FIGHT MOSQUITOES NOW

The fight against the mosquito and the house fly should be begun at once. The winter months have been unusually mild and propagation of both pests named has not been greatly retarded.

Mosquitoes and flies brought about the downfall of the great Roman empire, through the diseases caused by them; they prevented the digging of the Panama canal by the French and Havana was a torture chamber and pest hole till Gorgias and Goethals drove out the mosquitoes and flies in Perry, Fla., and in Brewster, in our own Polk county, mosquito control paid vast dividends.

The fight is on and should remain on until Bartow is absolutely freed from malarial pests and this can be made free if every citizen will do his or her part and if the following simple suggestions are followed:

- 1. Examine all rain barrels, cisterns or other artificial water containers on your premises and see that they are properly protected. These are ideal mosquito breeding places. Your property to see that no standing water is located thereon. If accumulations are found, take steps to eliminate them by an approved method.
2. Inspect all flower urns or vases which are likely to hold a small amount of water—these are often obscure offenders.
3. Tightly screen all openings to the house. Screen fireplace openings and chimneys.
4. Whenever a citizen leaves the community for an extended vacation, or visit it is advised that all toilet fixtures be drained and the water run off.
5. The City Manager is considering a plan of increased inspection service. Inspectors will be instructed to vigorously prosecute all violators of the ordinance provisions.
The success or failure of any mosquito campaign depends solely upon the hearty co-operation given it by every citizen.—Bartow Record.

to Altamonte and meet the man who in the goodness of his heart goes to so much trouble to give them an evening of enjoyment—all absolutely free. It is to be regretted that more Sanford people did not go to Altamonte last night. The house should have been filled and in filling it they would have showed Mr. Haines and the people of Altamonte that they appreciated this fine courtesy, but Sanford is not alive to her best interests in this respect and they usually fail to mingle with their neighbors when the opportunity is afforded to them.

The editor of the Herald is appreciative of the fine compliment paid the Herald by Congressman Haines. An old newspaper man himself, he understands that few bouquets are ever placed in the hands of editors while they are living and his words of commendation for the Herald and its work in the community were appreciated more than words can tell. And again we want to thank him for his fine entertainment, for his words of appreciation to the Herald, for his whole-souled hospitality, for his support of those measures that mean something for this community, for his enterprise, for his real Americanism and his patriotism.

ALL WANT GOOD WATER

Every city in the land is concerned about its water supply or has been concerned about it some time in the past. Los Angeles went two hundred miles to get good water and New York went some fifty or more miles, and other cities have gone many miles to get a supply of good water and a good supply of water. In order to get the best water obtainable the expense is a small matter and growing cities like Sanford must look ahead and arrange for a water supply not only for the present needs of the city but for a city of twenty thousand people and Sanford will soon have that many.

Mr. Faulkner's suggestion that the taxpayers will naturally hesitate to vote a bond issue exceeding a million dollars for the purchase of a new source of water supply in advance of the definite indication of the water to be used is undoubtedly in harmony with the views of many of the people. It is no reflection on the commission-ers that this is the case—ordinary prudence would dictate this course. The further statement that there has been ample time to reach a decision is also justified. Engineers have been working on the problem for more than a year, and much data has been compiled in advance of their employment.

The attitude of the people of Tampa, as the Times interprets it is that they favor municipal ownership of the water plant—and of other utilities too, it is believed—but that they are more deeply concerned in obtaining a good quality and an abundant supply of water than they are in the purchase of the plant. Present conditions are imposing a great hardship on the people. There are industrial plants in the city which pay out nearly as much money for bottled drinking water for their employes as they

OUR GUESTS—AND PATRONS

Last Monday on the first page of the New York Herald there appeared a special dispatch, sent from Miami, that told to millions of readers of the daily news, that from "250,000 to 300,000 visitors spend \$50,000,000 in Florida." This was the information conveyed in the black-letter headlines over the following five brief but mighty important and significant paragraphs that constituted the dispatch:

"Florida, now at the height of her greatest tourist season, has as guests between 250,000 and 300,000 persons from every state in the Union and many foreign countries. With a coal shortage looming after the prolonged miners' strike, this season began with a rush fully six weeks earlier than usual, and with the recent cold wave the winter pilgrimage has mounted to flood stage proportions.

"Figures compiled by chambers of commerce estimate that 50,000 tourists now are in Miami. This probably gives to Miami the edge over any other one city by several thousand. Palm Beach, St. Petersburg, and Orlando claim from 20,000 to 35,000 each, while the scores of towns on both coasts have attracted many more thousands.

"With 300,000 persons the basis for its figures the chamber of commerce has estimated that the money spent in the state will reach \$200,000,000. For the winter season the average visitor spends about ten weeks, and each tourist spends at least \$10 a day.

"Hundreds of thousands of dollars worth of real estate has been purchased this year by Northerners, and therefore it is considered that the estimate of \$200,000,000 is conservative."

This dispatch did not appear in the Herald in the ordinary newspaper news of that day. It was set in what, in newspaper parlance, is known as a double-column box, that is, the type matter enclosed in a line border, which made the article stand out glaringly on that front page, at the top of two columns, so that it could not be missed by any one picking up the paper that day.

Asks from being a double advertisement in Florida, and for which the Herald was not paid one cent, the late several features in connection therewith that ought to be appreciated by every resident in Florida and by every other person at all interested in the state.

First, why is it that so many people come to Florida year after year why is it that so many of them find their way to Miami? Because Florida and Miami, and other cities and towns here so prominently, hold out inducements that pull people to Florida. They are not wilderness, nor swamp lands, nor a hot sunshine and warm alone, that induce people to come here "250,000 to 300,000" of them in the current season. They come because Florida has provided, otherwise than in climate, balmy breezes and the like for the proper entertainment of these annual visitors; has provided hotels and apartment and boarding houses, fitted with modern equipment, such as guests have come to expect and demand; Florida has provided entertainment, chief of which are golf courses, tennis courts, and other forms of outdoor amusement, not forgetting good roads by which travel throughout the state is made possible and agreeable, nor railroad trains as comfortable and as speedy as any that carry passengers anywhere.

Other provisions, too numerous to mention, have been and are being provided for these visitors, our guests and patrons. For are not these annual visitors our patrons, as well as our guests? Surely they are, when they bring to the state, and spend here \$30,000,000 in a single season. That's what they are doing this year; it's what they will do next year, and next, and next—as long as adequate provisions are made for their entertainment. And the number of visitors will increase from year to year as facilities for enjoyment and health and comfort are provided. The benefits, financial and otherwise to be derived by the people of Florida will be in proportion to their effort to attract these visitors.

thing that needs to be considered—giving the people what, reasonably, they want. Doing this, and doing it to the utmost of possibility and ability is what will continue to bring hundreds of thousands of people to Florida every year, and millions of money, even in excess of the thirty million dollars coming into the state this year, in this present season.

That it is, "giving people something for their money," that is worth more to Florida than spending millions for advertising the state and not giving other millions to needed improvement and entertainment, housing facilities, which realize hospitality is not the least—Times Union.

EDMONDS' TEARS MYSTERY FROM BOARD MEETING

EDITOR OF MANUFACTURERS' RECORD WRITES OF RE-SERVE SECRECY

The Manufacturers Record of last week published probably the longest editorial which ever appeared in an American paper. It covers about 18,000 words, or nine full pages of the paper, and was wired from Daytona where Richard H. Edmonds, editor of that paper, makes his winter home.

The occasion for this remarkably long editorial, Mr. Edmonds says, was due to the fact that he had secured a stenographic report of the meeting of May 18, 1920, of the conference of the Federal Reserve Board, of the Federal Advisory Council and the Class A Directors of the Federal Reserve Banks, the proceedings of which were printed in 100 pamphlets for confidential use and the type then distributed in which extreme secrecy was urged by Governor Harding in order that the newspapers and the public might not know the discussions which took place.

Mr. Edmonds succeeded in getting hold of one of these copies which contains a detailed report of the discussion which went on during the entire day relating to the reduction of credit and the deflation of business. The vital thing which characterizes the importance of this report is that in closing the meeting Governor Harding warned those in attendance that they must be "careful not to give out anything about any discussion of discount rates. That is one thing that there ought not to be any previous discussion about because it disturbs everybody, and if people think rates are going to be advanced or lowered, they will be in a position to get into the banks before the rates are put up and the policy of the Reserve Board is that that is one thing we never discuss with newspaper men."

Here, says Mr. Edmonds, instructions to the men who had been holding one of the most far-reaching meetings in the business history of the world that all information received by them should be kept strictly confidential and that they should not be sent out for the purpose of keeping the public from knowing the whole truth.

In this statement of policy of secrecy on the part of the Reserve Board, Governor Harding referring to newspaper men said: "If a newspaper man comes in and wants to know if the board has raised any rates or is likely to do any more about rates, come right in and make about the weather or something else, and we'll tell him we cannot discuss rates at all, and I think we are all agreed it would be very ill advised to give out any impression that any general overruling of rates was discussed at this conference."

This is the most amazing revelation ever made of suppressing the most vitally important financial and business question that could ever come before the country, said Mr. Edmonds. Further in the same statement Governor Harding said to those in attendance: "You can go back to your banks and, of course, tell your fellow directors as frankly as you choose what happened here today, but caution them to avoid any premature discussion of rates as such."

With these remarkable statements as the opening paragraph of his editorial, Mr. Edmonds quotes verbatim many of the statements made in discussions during the day, with editorial comments upon them.

A few of those present protested against the general plan of restriction of credits and the deflation of business, but the majority present seemed to have favored the breaking down of prices and heartily commended the work which had already been done through the Federal Reserve System in curtailing credits and thus restricting business. Emphasis was laid upon the necessity of encouraging farmers to produce as freely as possible, but when the farmers had increased their production under the urgent advice, credit was later on restricted and prices were broken down, bringing bankruptcy upon hundreds of thousands of farmers. One of the bankers in attendance said: "I think a rea-

senable depression of business will be a good thing for the country." Another banker, of Philadelphia, said: "We have been endeavoring in our own bank in the last month to force Liberty bonds on the market, but they do not go on very comfortably."

A New York banker, referring to commercial paper said: "We want to limit it as much as we possible can limit the creation of commercial paper." Another referring to the same subjects urged the restrictions of credit, and said: "You must do something more than send them requests. The way to do it is to bring them face to face with the officials of the Federal Reserve Banks in each district and have them understand the situation, and have them in turn go back and deal with the commercial and business interests; and added that the result is a stabilization of credit. The same as we curbed sugar and coal when there was a real need for it" thus showing that despite all the claims made that the Federal Reserve Board had not restricted credit, here are dozens of statements specifically saying that it had done so. And these statements were made by directors of the Federal Reserve Banks.

Another in discussing the proposed restrictions of credit said: "It has got to be cut out through the board and the banks and through these gentlemen and their associates, reaching down to the bottom I believe. And I believe, Mr. Chairman, that your speech properly disseminated among them with the show of authority, even if you do not have it, will bring it about." Here is a definite proposition from one of these directors that the government of the board should seek to force a show of authority, even if it did not have it, upon all the banks of the country the views which he had expressed.

Another remarkable action taken at this meeting was the appointment of a committee to wait upon the Interstate Commerce Commission and urge that body to increase railroad freight rates, thus presenting to the power of the Federal Reserve System to influence the Interstate Commerce Commission to do as it wished.

As his editorial Mr. Edmonds has stated verbatim the statements made by these men, in each case naming the man from whom he has quoted. Every member of the Board, of the Advisory Council and the Class A Directors specifically belong to the banking fraternity. There was not a dis-

Embraces the Features of Preceding Bills
And Is Strong Measure Completed By House Committee
 (By The Associated Press)
WASHINGTON, Feb. 24.—Compensation of a farm credit bill embracing the principal features of Lenroot, Anderson, Capper and Strong measures was completed by the house banking committee today. Chairman McFadden said the bill would be formally reported to the house Monday and taken up for passage probably on Tuesday.
 Chairman McFadden said the measure would set up a sixty million dollar intermediate credit organization as an adjunct to the federal farm loan banking system, but with assets entirely independent of the parent body. The paper of the intermediate credit system would be eligible for rediscount at the Federal Reserve bank.

INJURED IN WRECK
 (By The Associated Press)
MEXICO CITY, Feb. 27.—At least a dozen officials of the Mexican railway, including Vincent W. Yorke, the chairman of the road, are in a hospital here as the result of the wrecking of the train to which their special car was attached. Mr. Yorke's skull may be fractured. His wife was severely bruised. The accident occurred at San Marcos Saturday night.
 When the train, which was going from Vera Cruz to Mexico City, left the rails the private car plunged down a 60-foot embankment. A. de Siva, a British contractor, was killed. The cause of the accident has not been determined.

MAY LOSE CITIZENSHIP
 (By The Associated Press)
WASHINGTON, Feb. 27.—If Isadora Duncan, the dancer, dislikes the American institutions and American ways as much as she pretends, she may soon be relieved of ever bothering about them again.
 In view of remarks attributed to her recently as she was sailing from New York for Europe, Secretary Davis, as head of the governmental department dealing with naturalization, has asked Attorney General Daugherty if there is not a way by which she may be divested forever of her American citizenship.

THRIFT MEANS POWER!

In the "Safety Deposit" of human knowledge—the dictionary—there is a small, but powerful word, THRIFT, which means saving, success, industry, management, good fortune, and all else best for people, cities and nations.

THRIFT IS BANKED HAPPINESS and the Cornerstone of Prosperity

Thrifty is the Four-leaf Clover in business. It poisons and exterminates bad luck, failure, indolence, doubt, fear, worry and eliminates the chance of a "wasted life." The moss of misfortune, the weeds of poverty and the mortgages of mistakes will not block the way for the Thrifty Person. Call and let us explain "THRIFT". Make this your Thrift Week.

Lot Sale Success After First Start, Big Crowd Today

Is Promised to J. E. Spurling, the Man Who is Creating So Much Excitement

Sanford, Fla., Feb. 26.

Mr. R. J. Holly, Editor, Sanford, Fla.

My dear Mr. Holly: No doubt my friends are wondering how the big lot sale which they have been hearing so much about is coming out. Well, here it is. In the first place it did not start with a bang as some had predicted. To the contrary, it was a tame affair, in starting—only a few there with still less lots sold, but just as the watch indicated ten a. m. I called for a draw on the lots already sold and as there were six lots sold by that hour we put on three draws. Mr. W. R. Pell drew the first one. His ticket was again placed in the box, another draw was made, going to a young man, then a third draw brought another crisp one dollar bill to Mr. Pell. This ended the drawing for some time, as only one more lot was sold for two hours or more, folks coming out and going after looking over the lots and hesitating to see just how things were progressing. Then came another sale of two lots and another draw. From that time things began to pick up. Then a draw for a ten dollar gold coin and the old enthusiasm came like an old time Methodist revival with shoutings and dancing in the camp. I wish our pastor could have been there. Well, this is the way the first day ended—one wanted us to continue until he could go home and bring a friend who had told him he wanted a lot—but it was already getting dusk and we told him to come in the morning. Another said a certain lot tomorrow would be his. Another said he could not buy today but he would be sure to be there tomorrow. Another that they had sold a party one that would be ready to stake the necessary cash down, etc., etc. Now these did actually happen as I am telling you and the thing broke up for the night with an old-time love feast, so we broke sandwiches and lived over the happenings of the day, everyone promising to be on hand good and plenty tomorrow.

Yours truly,
J. E. SPURLING

MUST CONQUER FEARS OF LITERATURE OF DESPAIR

(By The Associated Press) CLEVELAND, O., Feb. 27.—The process of political, social, industrial and racial disintegration cannot be thinking that we can shut our eyes to the ugliest facts of our time and blindly chant "Day by day in every way, the world is growing better and better," Glenn Frank of New York City, editor of the Century Magazine, told the meeting of the Council of Cities of the Methodist Episcopal church here.

Five fears were specified by Mr. Frank as contained in the books of certain authors who have gone to make up what Mr. Frank termed the "literature of despair." The prophecy of the New Dark Ages springs from some one or all of these five distinct fears. He described these as the Biological fear that the best blood of the world was turning to water; the Psychological fear that the crowd-man and crowd-processes of thinking will push to the wall that insurgent individual whom we hitherto regarded as one of the mainstays of progress; the Economic fear that our industrial civilization has overreached itself and is due for a collapse; the administrative fear that the bigness and complexity of the modern world has outstripped the administrative capacity of mankind and the Moral fear that the younger generation has renounced allegiance to all wholesome

CARRY A SPARE TIRE

standards of conduct and is on the loose. The authors named by Mr. Frank as having contributed in some of their work to this literature of despair include Lothrop Stoddard, Lebon, Trotter, Everett Dean Martin, Lord Bryce, L. J. Jacks, Dean Inge, H. G. Wells, Edward Grant Conklin, Ralph Ames Gram, Madison Grant "and others."

SANFORD AND SEABREEZE WILL PLAY OFF TIE AT DELAND WED.

Seabreeze Won Saturday's Game, Evening Things Up and Tomorrow's Game Will Decide Winner

Playing on an outdoor court, with concrete floor and poor lights, the Celery Feds were not equal to the task of winning over Seabreeze last Saturday night and the boys from the coast won the final count, 22 to 10. By winning this game the Seabreeze team evened honors with Sanford which calls for a pay off of the tie.

Sanford and Seabreeze will meet in DeLand tomorrow night on a good court, to play this game and the Sanford players as well as the Sanford fans feel confident that the result will be different.

The proceeds of this game, after the expenses are deducted, will be split fifty-fifty between the two teams, and for that reason, the Sanford officials want all the Sanford fans that can possibly do so, to go over to DeLand tomorrow night to witness this game? The admission will be thirty-five cents, and with small admission and the good game that is promised, it could pay all the loyal ones for their time, trouble and trip. Tomorrow night at DeLand.

Jimmy Murphy Starts New Year With a Win

LOS ANGELES, Feb. 27.—Jimmy Murphy, last year's champion automobile racer, won the first event of this season's competition, a 250-mile affair, on the Los Angeles Speedway yesterday in 2 hours, 9 minutes, 43 seconds.

Benny Hill was second, Ralph DeAlma third, Eddie Hearne fourth, Frank Elliott fifth, Tommy Milton sixth, Dario Resta seventh, Art Klejan eighth, W. D. Morton ninth and Jerry Underlich tenth.

Murphy's average speed was 115.8 miles an hour, set a new track record, the old mark being 114.6 miles an hour, made by himself last December. It was said to be a world record.

No accident marred the race, which was witnessed by a crowd estimated at 70,000.

Murphy won 500 points toward the 23 championship and \$9,000; Hill 106 points and \$5,000; DePalma 149 and \$3,000, Herne 80 and \$2,000, Elliott 1 and \$1,750, Milton 35 and \$1,250, Resta 25 and \$1,000, Klein 15 and \$800, Morton 10 and \$700, Wonderlich 5 and \$600.

Loss of Miller Fails to Stop Michigan Five

ANN ARBOR, Feb. 27.—When Bill Miller, all-conference forward of the University of Michigan quintet, was recently declared ineligible, it was thought that the Wolverines had lost a great deal of their scoring power. For Miller was not only a clever basket shooter but also ranked as one of the best free throw artists in the Big Ten.

But while Miller's absence is of course felt, still in Captain Gilbert Ely, center, Coach Mather has found a worthy successor to his star forward. In fact the elongated pivot man has far exceeded expectations and has stepped into Miller's shoes in stellar style.

WALK-AWAY FOR CHAMPS OVER THE AMERICAN LEGION BOWLERS

Pennington Rolls High with Belding Second, Cobb Only Man for Legion That Rolls "Dead" Man Average

WALK AWAY—DC SPORT

The American Legion bowlers furnished very little opposition for the Champs last night at the bowling alleys and when the smoke was all cleared away the Congregationals had a lead of 433 pins.

Pennington, bowling 511, was high man of the evening with Belding second with 482. Cobb, bowling 377, was the only man in the Legion team that rolled better than the 375 "dead man" average.

The Rotes and Brotherhood play tonight. Last night's score was as follows:

Legion	1779
G. Pezold	118 137 101—356
L. Hill	152 112 106—370

STATE NEWS

TALLAHASSEE—The city officials and the chamber of commerce proposition made by the West Florida Power Company whereby the latter would take over the city's power plant and operate it in connection with their system. Under the offer made by the power company the local power plant would remain the property of the city and be used as a station by the West Florida company.

PUNTA GORDA—Charlotte county voted overwhelmingly in favor of a bond issue of \$200,000 recently for the purpose of completing the state road number five, the Tamiami trail through this county. When the work of paving the road is completed the road will be hard surfaced all the way between Tampa, Miami and Fort Myers.

SOUTH JACKSONVILLE—The public forum is animated at present by the question of whether the city wants a street railway system and if it does, how to get it. The inauguration of a bus line is also advanced. Either means of transportation under the plans advanced would run across the St. Johns river bridge to Jacksonville.

CELERY SEED

Sanford lost to Seabreeze. 'Tis tuff.

The Feds are not much on an outside court but they expect to turn the tables at DeLand tomorrow night.

This game that was lost Saturday calls for an extra game on the schedule. That will give the fans one more game to see, if they will go to DeLand tomorrow night.

The American Legion was somewhat weak last night. Couldn't keep up with the fast pace set by the Champs. Better have Floyd, Sam Yount and some others out to these games if they want to get into the running.

The Rotes and the Brotherhood will play their regular match tonight and from the dope being handed out, Jimmy Stewart has strengthened his team considerably and expects to win or at least give the Rotes a strong run for their money.

Don't forget the sporting event at Lake Mary tomorrow night. There will be some real skating as well as some real music. This place at Lake Mary has become the most popular place in Seminole county and is drawing large crowds.

Something still brewing in the base ball park line. Another week and we expect it will be settled. And when it is, you can put it down in your little blue book that next year will find a big league team training in Sanford.

Amount and Ownership Chief Kinds of Wealth Will Be Investigated (?)

Another Wonderful Idea of Our Wonderful Congress

(By The Associated Press) WASHINGTON, Feb. 26.—Inquiry to determine the amount and ownership of the "chief kinds of wealth" in the United States would be made by the Federal Trade Commission under a resolution introduced in the senate today by Senator Norris. On objection of Senator Smoot consideration of the resolution was postponed for a day.

Orange county citizens, by a unanimous vote, at a meeting held in the court house, decided to instruct their representatives in the next legislature to introduce and work for the passage of a local no-fence law that shall make it necessary for cattlemen to fence their cattle in all sections of Orange county, except the south and eastern portions. This will protect the rich grove and trucking lands in other sections.

Opposes No-Fence Law State Division, Removal of Capital and Bonus

Senator Mitchell Does Not Favor Re- Apportionment based on Population

(By The Associated Press) ELBERS, Fla., Feb. 27.—Opposition to a general no-fence law, state division, removal of the capital, and a soldier bonus was expressed by Senator James M. Mitchell, in a statement made public today dealing with his plans for the forthcoming legislative session.

He expressed his disfavor of the suggestion in some quarters that a new constitution be written and that the primary law be repealed. It would be impossible to write a constitution that would never need amending, he declared.

"I am opposed to a general no-fence law" the statement continued, "because at the present time 95 per cent of the lands of the state are unimproved and probably will not be for many years to come, and much of it is not suitable for anything but free range."

"I am in favor of separating state and county taxes, by allowing the state to make up its budget for the amounts needed, and apportion same to the several counties according to population. Then each county would be able to establish 100 per cent valuation and reduce its millage 75 per cent, and be able to bond for sufficient money to make its needed public improvements."

"I am opposed to state division because our state is small enough as it is. Division would increase our taxes in order to support two sets of state officers."

"I do not favor capitol removal at this time, as the expense and direct loss would be too much to justify it."

"I am in favor of accepting federal aid for schools and roads on a basis of cooperation."

"I am opposed to a bonus for veterans, ship subsidy, or any other donations that encourage indolence."

"I am in favor of abolishing all concessions that do not benefit the taxpayer, and repealing all laws that require the levying of extra taxes to enforce."

Small Expense Attached to Prison Far mat Raiford

Two Men and Two Women Guarded 375 Prisoners

(By The Associated Press) TALLAHASSEE, Feb. 27.—Two men and two women "guarded" 375 prisoners at the state farm at Raiford during the month of February, according to the monthly report made by Superintendent J. E. Blitch. The entire institution showed only nine persons on its payroll with an aggregate of \$1,153. Of the nine prison attaches, only four worked as guards.

It is explained that none of the prisoners is shackled nor held under a gun unless he is under punishment for infraction of the prison rules. Four thousand acres, according to the report, are under open cultivation by the inmates of the farm, while they have also to work some 11,000 acres of wooded lands.

Only 35 of the 375 prisoners are able-bodied class of men, the remainder being women and defective men.

STANDARD GAS PRICE JUMPS—OTHERS FOLLOW

The retail price on gasoline at the Standard Oil Company stations was increased from 21 to 23 cents a gallon Monday, and the Gulf Refining Company announced the price at its stations will also increase two cents Tuesday.

Officials of the companies attributed the retail increase to a heavy increase in the price of crude oil, and it was stated the rise would be permanent.

The price of lubricating oils will not be increased, it was stated.—Jacksonville Journal.

FOR CLEANING RANGE PARTS

The range burners often get a baptism of grease from the skillet. Burned to a crisp it requires endless scraping and scouring to remove it. A better and easier way is to clean them with lye. It's a quick job and leaves the burners clean and smokless and restores the blue flame.

Directions: Boil the burners five minutes in a solution of 2 tablespoonfuls of lye in 4 quarts of water and rinse in clear hot water. Boil pots, skillets or pans in a like solution or boil the solution in the vessels. Never use lye on aluminum.

That's why the sale of Calumet is 2 1/2 times as much as that of any other baking powder.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.
