Marriage Is Subject Of Family Education Program Slated Here

DR. ROBERT J. SCHMIDT

What is the secret of the successful marriage?
Seminole County residents will be seeking the answer during five-day Family Education Institute in Sanford on Mar. 5-9.

Salvation Army Financial Drive Now In Progress

Ralph A. Smith, chairman of the Salvation Army Advisory Board has announced that the Annual Financial Campaign of this agency is now in progress.

Last year, the Salvation Army provided 11,342,195 meals to needy men, women and children in the United States.

These formed only one type of aid given by this organization, whose working principle is "to have a need, at the point of need, at the time of need."

Dr. White's Advice Getting Expensive

ROCKY MOUNT, N. C. — Political advice from President Eisenhower's heart specialist, Dr. Paul Dudley White, is getting mighty expensive.

Dryness, Winds Causing Fires

The Ramsey, assistant County Forest Ranger, announced this morning that he won't be able to stand by on control burns, burn anyone's property for them, or blow fire lines at the present time.

Real Estate Is Big Business C. Turley Informs Realtors

Clarence Turley, president of the National Association of Real Estate Boards, addressed a recent meeting of realtors of Central Florida.

J. W. Hall, president of the Seminole County Board of Realtors, and A. B. Peterson Jr., of Sanford attended the meeting to hear the national president.

Turley told the realtors "there are presently 57,200 members of the National Association of Real Estate Boards with more than 12,000 real estate boards represented."

Ike's New Program Presents Challenge

THOMASVILLE, Ga. — President Eisenhower's new program for releasing a billion dollars worth of uranium at home and abroad for peaceful atomic projects presented a challenge to Russia today to follow suit.

Volcano Erupts

TOKYO — Mt. Sakurajima, erupted more than 30 times yesterday and early today services reported.

UDC Speaker Told

The Norman de V. Howard Chapter, UDC will hear Karlyle Housholder speak on "Youth Problems of the South" Friday afternoon at its regular chapter meeting which will take place in the home of Mrs. G. D. Bishop.

Europe Counts 840 Dead

LONDON — Frozen Europe counted at least 840 dead today in the worst winter in living memory.

Central Europe—once vast expanse of trusted snow— anxiously watched its food and fuel supplies dwindling as the disastrous freeze-up went into its 24th day.

Huge ice packs floated down the North Sea. Temperatures along Germany's Baltic coast dropped to 4-above zero.

Ice floes paralyzed shipping on Dutch canals and threatened the Netherlands with a serious coal shortage.

A local thaw brought landslides to southern Italy. At Vasto, near Pescara, 50 families fled as their homes collapsed on a crumbling hillside. In northern Italy, more snow was forecast.

In southern France, snow 20 inches deep cut off villages and tore down phone and power lines. Prices of vegetables and eggs rocketed as farmers and truck gardeners reported crippling losses.

The weather took a heavy toll of birds and wild animals. Deer walked through the busy streets of Bad Harzburg, Germany, looking for food. Fifty hungry gulls attacked a fried potato seller's booth in Inland and made off with his stock.

All Dutch planes were ordered to look out for colonies of starving birds.

Reens Kormiza, a vaudeville snake charmer, went to the mayor of Bethune, in northern France, for help in warming her eight pythons and five alligators.

The International Assn. of Machinists, which called out 12,000 members in the strike at Republic Island is now has scheduled similar action against three divisions of the aircraft Engine & Airplane Corp.

Some 1,600 union members are employed in the three Fairchild plants — the engine division at Deer Park, guided missile division at Wyandanch and the Stratons Corp at nearby Bay Shore. The latter makes high altitude aircraft equipment.

The strike deadline is next Monday for the engine plant, March 1 for the Stratons Corp, and March 9 for the guided missile division.

A union spokesman said the penalty system and 32 grievances were at issue in this dispute. "Wages haven't even been discussed," he said.

Judge Reprimands Rosen For Rash Statement

Witnesses Add New
Fire To Inquiry

Surprise witnesses, brought to Orlando by the Government to testify during the trial of J. Luther Hobbs, suggested Seminole County Sheriff, and five other defendants allegedly involved in a county wide conspiracy to control moonshine whiskey, added new fire to an already blazing eight-day courtroom controversy.

Prior to placing the first witness on the stand, Attorney Sam Murrell, defending Jerry Martin, Negro, requested the court to strike testimony by William A. Horne, former Sanford Police Department officer and former deputy sheriff under Hobbs, from the records on the basis that the testimony was immaterial and was construed to impeach the testimony of defendant Martin.

James H. Pace, Ashburn, Ga. attorney who stated that he had been practicing law for 34 years in Turner County, said that "Hobby peered off \$300 bills from a roll estimated to be one and a half to two inches in diameter and handed them to him to be held in escrow."

The deal was for an Ashburn city lot that was stated by Hobby to be a gift from his father. Pace admitted, however, that Hobby's father was there when the transaction was consummated. Pace said, however, that the elder Hobby said nothing during the transaction.

Anthony B. Battaglia, attorney at law and former Assistant U. S. District Attorney, told from the witness stand of his declining to prosecute a case made against Bobby Guess, alias "Big Boy" in the U. S. District Court in Sanford. Battaglia attempted, through the questioning of Assistant U. S. District Attorney E. David Rosen, to impeach the testimony of former Deputy Sheriff Morgan McClelland who was a witness in the case against Guess. Objections by defense attorney William W. Judge were sustained and testimony by Battaglia regarding the Mettelian testimony eliminated.

Following a conference in the Judge's chambers, court recessed at 3:15 to allow attorneys time to prepare their arguments.

The pulpit of the First Methodist Church will be filled Sunday evening by the Rev. W. E. Timms, pastor of the First Methodist Church in Marietta, Mich.

The Rev. Timms' sermon topic will be "Burden or Bridge". He is a regular winter visitor in Sanford.

Guest Pastor Told

All the homes being built in Grove Manor were designed by the architectural firms of Hurton & Rodgers of Sanford and Joe Shifall of Winter Park.

Tutor stated "I have great confidence in the Sanford area. We have tried to add to Sanford lovely residential areas that give the best in comfortable home living." He further stated that he is pleased with the growth in this area and the company intends to aid also in the building of commercial projects in the Sanford area.

Complete details of the start of the project will be seen today in the special section.

Herlong To Seek Demo Nomination For Representative

Congressman A. S. (Syd) Herlong, Jr. today announced that he will again seek nomination as the Democratic candidate for Representative in Congress from the Fifth Congressional District.

In a statement released by his office, Herlong said: "I have today mailed my oath and qualifying fee to the Honorable R. A. Gray, Secretary of State, in Tallahassee."

"I have enjoyed serving as Representative in Congress from our Fifth Congressional District. I have reached a point in seniority now where I can be of greater help to our people and to our district than ever before."

Herlong first went to Congress in January, 1949 and has served continuously since that time. He is a member of the Committee on Ways and Means, the first Floridian in history to be elected to the most important and influential committee in Capitol Hill.

Herlong has also served as Democratic Whip for the South-eastern area.

He has been a resident of Leesburg since 1920 and attended Sumner and Lake County schools. He graduated from the University of Florida in 1916. He was County Judge of Lake County from 1937 until his election to Congress.

Firm Is Featured
In Special Section
Of Today's Paper

A special section of today's Sanford Herald features the firm of Odham & Tudor, Inc., and the million dollar residential section to be known as Grove Manor.

The complete story of the Odham & Tudor project along with pictures and stories of the personnel who have made the project come to a reality.

The Grove Manor residential subdivision eliminates a three million dollar home building program in the Sanford area in a 13 month period.

Grove Manor will be devoted to exclusive homes in the \$16,500 to \$28,000 class located in a setting of citrus grove and beautifully landscaped wooded areas just off Melonville Avenue at 23rd St.

All the homes being built in Grove Manor were designed by the architectural firms of Hurton & Rodgers of Sanford and Joe Shifall of Winter Park.

B. W. Tudor and his son Bob Tudor, vice-presidents of Odham & Tudor live in Alexandria, La. They have owned and operated the Tudor Construction Co., a general contracting firm in Alexandria for the past 35 years.

Windup Argument Heard

The courtroom of the U. S. District Court at Orlando this morning was electrified shortly before closing arguments by Assistant U. S. District Attorney David Rosen, ended.

In a frenzied prosecution before the jury in the windup argument in the trial of J. Luther Hobbs, suspended Sheriff of Seminole County along with defendants, A. E. Evans, Dwight Yelvington, Jerry Martin, Willie Brown and James Smith, Rosen said, "I haven't got the right to state whether or not a man is guilty or not guilty but in my conversation with spectators in the lobby I found—"

Defense Attorney, William W. Judge rose to his feet quickly and yelled "Your honor!"

Rosen hastily apologized to Judge William J. Barker, the defendant, the members of the jury and each person in the courtroom for his out of place statement concerning heresy argument.

As the court recessed for the lunch hour and after the jury left the courtroom, Judge Barker reprimanded Rosen saying "Mr. Rosen I am surprised at your statement before the jury."

Rosen again apologized for his out of place statement but so late.

Evidently Rosen has torn down his bulldip in a nearly three hour argument that six men had conspired to control the moonshine district in Seminole County.

Spectators nearly rose to their feet and an overture of mumbling grew but of Rosen's statement before the jury this morning.

Assistant District Attorney Rosen had only one statement to make following his insertion of heresy into the prosecution argument. "I ask you to consider the evidence gentlemen. Consider your responsibility and return your verdict of guilty and you can go home proud!"

Before a crowded courtroom from the beginning of the government argument this morning, the Assistant District Attorney exhorted that a conspiracy existed by building up his prosecution in the unfolding of statements by witnesses for the government and for the defense.

It is evidenced from the lengthy prosecution arguments this morning that the jury will not receive its instructions from Judge Barker until late this afternoon.

Prior to beginning the argument, Judge Barker informed the jury that if the overt acts described in the indictment handed by a Federal Grand Jury in Tampa in November of last year, were taken out and will not be considered.

Only eight of the 19 overt acts remained to be considered by the jury.

Problems Of Citrus Growers Is Subject Of Dr. Cake's Talk

Dr. E. W. Cake, a Citrus Marketing Extension Specialist, spoke to the Seminole County Farm Bureau members at the regular monthly meeting of the organization recently.

Dr. Cake, of the University of Florida, explained to the Farm Bureau members exactly what the University was doing to help the citrus growers with their problems. He said, "Various problems came to me as a specialist to solve them," as he explained that problems such as cost, handling of citrus, arrangement of packing houses, and new automatic packing machinery come before them.

"More than 800 million dollars was reportedly made last year by the citrus industry," Dr. Cake said, and over half of this was turned in by an assortment of cooperatives.

The huge earnings were due to good management and a lot of push by the directors of the cooperatives, said Cake. Modern machinery and packing houses help the volume output of Florida citrus, he said.

And with a greater output it means more citrus on the markets and greater demands for the product. With these demands, he explained, the growers will have a better market for their citrus and citrus products.

Dr. Cake told the Farm Bureau members that he expects, by 1970, there will be only about a 30% increase in citrus and citrus which is due to the fact that are being set out is now leading in the of citrus, followed by and Texas," Dr. Cake said.

A covered dish up of the business meeting Dr. Cake spoke.

Baked Food Slated For B...

A group of "Longway Cooks" has planned a "Sale for this Saturday 25, beginning at 10 a. hart's Store.

This event has been the benefit of the Longway Building Fund. If Mr. Dodson split on the street one time in Sanford, Mr. Hobbs would have brought it. Mr. Dodson hasn't even split on the street," said Rosen.

"You've seen quite an array of witnesses, honest men, decent men, felons and forgers. I know that a tremendous issue will be made of the characters of government witnesses," Rosen said.

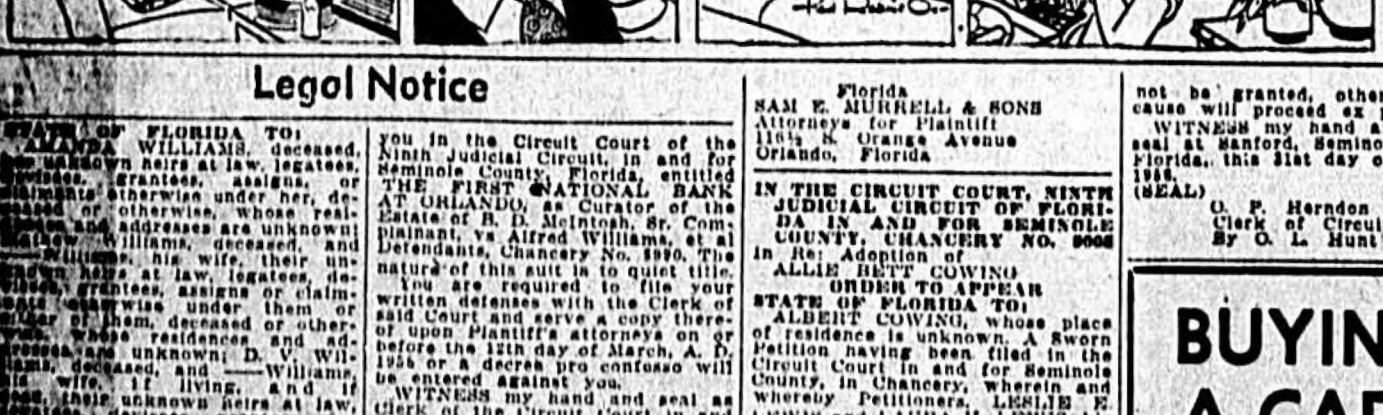

The character witnesses are important Rosen told the jury and "I had only one question to ask each one—'Have you heard the testimony in the courtroom?' Their opinions of their precious Mr. Hobbs would have been quite different had they heard these witnesses," Rosen said.

Before making his statement before the jury that was challenged by Defense Attorney William W. Judge and upheld by Federal Judge William J. Barker, Rosen

Moore, Commission Are Having Verbal Sparring Match

SACRAMENTO, Calif. — A verbal sparring match has developed between light heavyweight champion Archie Moore and the California Athletic Commission. The rift arose yesterday over Moore's opponent in a non-title 16-round boxing match in San Diego Monday. Moore said he would meet Bob Dunlap. Then Secretary Joseph Genshlea announced the commission decided to substitute Frankie Daniels. Reached hours later at his San Diego home, Moore cracked: "I did not know the athletic commission was empowered to make matches. I have signed to meet Dunlap, not Daniels."

BUYING A CAR?

Use The Low Cost Sanford Atlantic Finance Plan

SANFORD ATLANTIC NATIONAL BANK

Installment Loan Dept. MEMBER FDIC

DR. PAUL DUDLEY WHITE (center), Boston heart specialist, James L. Jenkins (left), and Dr. Robert King, former American Heart Association president, examine a crossbow and harpoon prior to sailing from Los Angeles in a power cruiser to Lower California. The group will attempt to chart the heartbeat of whales. A sea-going electrocardiograph is being taken on the expedition. The whale research is in connection with a theory of Dr. White's that some of the variations in pulse or heart behavior in humans may result from differences in the size of individual hearts rather than from any malfunction. Whales have the slowest heartbeat of all mammals.

Newsprint Plant To Be Ready In '58

PALATKA (AP)—A union paper says Hudson Paper and Mill Corp.'s proposed 25 million dollar newsprint plant here will be in production by July 1958. The Paper Worker, a monthly published by the International Brotherhood of Pulp Sulphite and Paper Mill Workers, printed the report in its current issue. William Mazer, corporation president vacationing at Palm Beach, declined comment. He said the company probably would have an announcement after he returns to New York next month. The Paper Worker said 75,000 tons of newsprint would be produced the first year with an eventual capacity of 123,000 tons a year. With a newsprint plant, the Hudson payroll here would total 12 million dollars a year.

Sen. Kefauver's 4-Day Campaign Ends With Request

MINNEAPOLIS (AP)—Sen. Kefauver today ended a four-day Minnesota campaign last night with a call for removal of what he termed the "union-busting provisions of the Taft-Hartley law."

He drew applause from an audience of about 400 at the Minneapolis Labor Temple when he said:

"The Eisenhower administration promised to eliminate certain features of the labor act but the first thing they did was to bring a bill out of a Senate committee with three or four more strike-busting provisions."

He said also that the Eisenhower administration had failed to "keep faith with the people" on the labor law changes as well as on the farm program and foreign policy.

With respect to Secretary of State Dulles, Kefauver said he was "walking around on the brink of war" while the people want peace, going up, down and sideways in his foreign policy, everywhere but forward."

Quick Thinking Helps Save Man

VILLANOVA, Pa. (AP)—Quick thinking by a passer-by who remembered a mechanical digger a few blocks away helped rescue a workman buried under more than five feet of earth.

A sewage disposal pit where he was working 10 feet below the surface had caved in on Francis K. Santiago, 25, of neighboring West Chester.

The passer-by reminded Santiago's fellow workers of the mechanical digger as they began working frantically with shovels and their hands to free him.

The machine was brought to the scene and put into operation. It skimmed off each shovelful gingerly until it reached the point where Santiago was estimated to be. Hands and shovels soon found him — unconscious. Oxygen was applied when his head was uncovered and 25 minutes later his body was freed.

Meat packers must sell \$10 worth of products in return for a profit, according to the North Carolina State College of Agriculture figures based on 1954 operations.

WIS BANTER, America's premier mixer, smiles for photographers in New York just before he drew a lifetime suspension from the executive committee of the AAU. Bantier, now a lieutenant in the Marines, was barred for allegedly accepting "excess expense amounts." The runner said he will "sue to enjoin the AAU from carrying out the suspension." (International)

Ill Health Can Cause Youngster's Nightmares

By **HERMAN M. BUNDESEN, M.D.**

NIGHT terrors are frightening things both to youngsters suffering them and to their parents as well.

Without any warning the child suddenly sits up in bed and begins trembling and screaming in terror. Sometimes parents find their tot sitting on the floor in this condition.

Serious Form
Generally, it is a dream which has disturbed him. This disturbance might be considered a severe form of nightmare.

The youngster is bathed in sweat and sometimes points at an imaginary object which he believes is frightening him. He may clutch at you for protection, but it will be some time before he recognizes you and can be calmed.

Once he is quieted, he will fall asleep quickly and will not even remember the occurrence the next day.

The disorder is most often found in children with anemia or other causes of ill health.

One Attack
The attacks may occur each night or at intervals of weeks or even months. Seldom does a youngster suffer more than one attack a night.

LABOR SINGLES OUT 12 GOP SENATORS FOR THE AX

HERE ARE 12 Republican senators whose re-election must be stopped, according to a political report at the recent AFL-CIO executive council meeting. The report lists their 12 states (white on map) as "statistically marginal," meaning they could go either way. The ultimate aim in defeating these senators is repeal of the Taft-Hartley law, according to the report.

2 Football Teams Invited To Play At April Wedding

MONTE CARLO, Monaco (AP)—

Monaco officials, bubbling over with plans for the April marriage of their prince to Grace Kelly, announced that two American football teams will be invited over in play.

The teams were not disclosed, but officials said the game will be held in the Louis II Stadium, which never has seen such a contest before. It was set for April 17, the day Prince Rainier III and Miss Kelly will be united in a religious ceremony.

If Monacans are amazed at their first look at American football, the Americans probably will be astounded by a program that their hosts plan. An aerial is to cross the stadium on a tight wire, naming before the royal box to unfurl the Monacan and American flags.

Plaza sources said preliminary estimates of the bill for celebrating the wedding come to around 100 million francs — \$285,000.

To the growing list of celebrities who will be in Monaco for the wedding were added the names of British ballerina Margot Fonteyn, Bob Hope and Ring Crosby.

DIRTY BUSINESS

WICKLIFFE, Ky. (AP)—A local citizen climbed on the roof and lowered a chain down the chimney to clear out the flu. His wife stayed in the house, holding a box over her head at the flu's opening to catch the sent. The box overflowed, bathing the woman in snot and spreading it over the walls and floors of all the rooms.

TIME FOR CHANGE

CRESTON, Iowa (AP)—About 4 p. m. the prisoner was searched while being booked at the city jail for intoxication. After counting the man's money, one policeman said to another, "88.35." "My gosh," said the accused. "Is it that late?" And he reset his watch.

THE HARDEST WINTER in a century has frozen almost all of Europe's inland waterways, disrupting river commerce and bringing untold hardship in thousands. Above, barges and tugs are trapped in the Danube River. Billiards and heavy snow have tied up roads in many countries. Efforts are already being made to bolster dams and levees against floods that may come with the Spring thaw.

Viewers Shed Many Tears Watching 'This Is Your Life'

By **CHARLES MERCER**
NEW YORK (AP)—I seem to be about the only person in the country who has no emotional reaction to Ralph Edwards' "This Is Your Life" on NBC TV.

"This Is Your Life," as you doubtless know, is a very popular program with an enormous audience broadcast each Wednesday evening at seeing an unsuspecting person have his past life unfolded by Edwards with the connivance of the person's friends. In seven years of this arduous labor Edwards has caused all but two of his subjects to weep. And, if you can believe what you read, the tears shed weekly by the TV audience would fill a small reservoir.

"This Is Your Life" also is the program that sometimes throws many astute critics into a rage—an emotion not far removed from tears. "Plain ordinary commercialized sadism" is the way one has characterized it.

Well, the other day when Ed Edwards dropped into New York from his Hollywood habitat we had a chat. It was rather an odd interview because Edwards scarcely got a word in.

He impresses me as a carefully controlled but basically pretty nervous in his program as an instrument of good emotional release.

I told him that his program fascinates me technically but that possibly because of a regrettably low emotional pitch I've never shed a tear while viewing it. I believe, I said, that every subject for one of his profiles must have suffered some traumatic experience, emotional or physical. Edwards didn't altogether agree, but he understood what I meant.

We all bear scars — if only the long absence of a beloved relative in reunion or recollection we sometimes cry. What's wrong with tears? When I returned from overseas, after World War II I met my wife in a crowded railroad station and we both cried. We weren't embarrassed if we'd

A CONTINGENT of U. S. Marines storms the slopes of Iwo Jima, with famed Mount Suribachi in the background, during a re-enactment of the World War II feat. Some 10,000 Leathernecks from a 70-ship task force hit the beaches of the historic island during a three-day "battle" to test America's Far East force. (International)

met on "This Is Your Life" we'd have cried — and the public has. One point of criticism of "This Is Your Life" are humiliating. What a ridiculous idea! Then let's ban public laughter, too.

Another point of criticism is that some memories are too painful to be born. This view is at variance with most of religious and psychiatric teaching which says that man must learn to live with all his memories. This "Your Life" may not be the best place to begin learning, but a subject's friends have decided it is at least a place.

Another criticism is that Edwards whoops up the emotions too hard. Could he be but my judgment of the man after talking to him is that he does so honestly because he has tremendous emotional responses himself.

An adult with normal mentality may become insane, but he can never become feeble minded.

Young Ladies Needed By Armed Forces

The Women's Army Corps is seeking qualified young ladies to fill classroom vacancies in 14 of its special technical schools between now and March. It was announced today by M/SGT Henry P. Jacobsen, the Army Recruiter.

The courses listed by the recruiter are: general drafting; dental; medical laboratory; X-ray technician; operating room technician; medical records technician; cooking; photography and photo laboratory procedures; stenography; signal supply; and supply records specialist.

"Assignment to one of these courses is guaranteed in writing before enlistment under the provisions of the Army's "Guaranteed For You" program. The guarantee states the starting date of the class, location of the school and dates during which the young women must enlist in order to complete basic training before the starting date of the class.

Each WAC must take 12 weeks of basic training at the new seven million dollar WAC Training Center at McCallum (Anniston) Alabama. A 30 day leave is granted upon completion of basic training after which students report direct to their chosen school.

"To attend one of these special courses, women are required to be single, between 18 and 24, high school graduates, and pass the standard Armed Forces examinations. No related vocational background is required to attend these courses," he concluded.

Interested young women who would like further information about these courses or have questions regarding enlistment invited to see Sgt. Jacobsen at Sanford Post Office each Monday and Wednesday from 9:30 till 3:30 or the U. S. Army Recruiting Station in Orlando.

State's Vote To Make May 30 Day For Memorial Activities

There are two questions now being presented to the people of Florida through the medium of newspapers.

Should Daylight Savings Time be favored for Memorial Day?

Should Memorial Day be celebrated May 30?

The Florida State Retailers Association is seeking the answers from the citizens of Florida in a statewide effort to determine what people would like to do regarding these very vital questions.

It is indicated that the merchants will discuss the possibilities of Daylight Savings Time when they meet on April 25 and 26. Their annual get-together. In the meantime, the response to the issue may have reached a point where it may be determined a clear cut, statewide consensus of opinion has been reached.

We are all aware that the Daylight Savings Time habit was instituted to "take away an early morning hour and add it to the afternoon. However, the fact that all of our governmental activities retain Standard Time the year around causes quite a bit of confusion for many citizens.

It seems that it might be possible that everyone can't get together on this question of "changing the clocks". So as a substitute, why not just advance one hour the time for Memorial Day to open during the period from April 25 to September 25. The identical purpose would be reached and all of the clocks would remain unchanged and unchallenged.

For instance, if you've been working the hours 9 to 5, you could report for work at 8 and get off at 4. Then you could have that extra hour in the afternoon to read the Sanford Herald, enjoy a bit of sunshine or "make it yourself" hobby, and the radio and television programs would appear at their correct time, according to your clocks.

The State Retailers Association has asked for an opinion and that seems to be ours. Now, as for May 30 being observed as a holiday, why not make that one day Memorial Day officially for every State and territory?

Our Congress has recognized May 30 as a national holiday. The 1955 session of the Florida Legislature sanctioned that date as a State holiday by officially noting, "the day shall be suitably observed by the schools as honoring the American soldiers of all wars who have given their last full measure of devotion."

So, let's all get together to honor the war dead. Let's make May 30, by a vote of the people, a day for Memorial activities.

Automatic House

A Philadelphia engineer by the name of Robert T. Sheen has built a remarkable house ever in St. Petersburg, and we're predicting that there will be many more like it in days to come. This home over across the State comes about as close as anything yet built to being an automatic house of the future.

As president of the Instrument Society of America, Sheen is deeply involved in industry's rather swift movement toward automation. His house, which boasts automatic air conditioning and a waterfall in the living room, is a sort of showcase for devices designed to make living easier.

For instance, a heat pump used in this particular dream house, uses well water to both cool and warm the home. Even when the occupants are away, the house is automatically dehumidified each morning. The kitchen is crammed with labor saving devices, and music can be turned on at will in almost every room. There is even an automatic waterer for the house plants, not to mention an outside sprinkler that tends to the lawn.

Many a housewife will doubtless consider the Sheen home an answer to a dream. And so it is. It provides a foretaste of the luxury and ease that may become fairly common in the future.

But before we become too immersed in such automatic living, it might be a good idea to ask ourselves a couple of questions. What are we going to do with the leisure time when it comes?

Will it breed indolence or a richer, fuller life?

Now is the time to search for answers.

Shipment Of Tanks Adds Worry

By SAM DAWSON
NEW YORK (AP)—Shipment of American tanks to the troubled Middle East adds one more worry for the far-flung oil empires.

Some of the richest foreign holdings by American capital lie in the oil-bearing region. Political unrest won't make their management problems any lighter.

Complications include the American government's anxiety lest the huge oil reserves fall into Soviet hands; the pressure on the oil companies by the Arabian rulers to pump lots of oil now so they will be royalties to spend; and the political pressure here at home pushed by domestic crude oil producers to halt the increasing flow of foreign oil to these shores and to go slow on Middle East expansion.

Oil imports increased 18 per cent last year, while domestic output was going up 7 per cent. Total consumption here went up 8 per cent for the biggest gain in five years.

This helped the oil industry to

add even more impressively to its profits. The first 26 oil companies to report their net income after taxes in 1955 show a total of \$1,217,873,515, a 16 per cent increase over the 1954 total of the same companies of \$1,044,972,946.

The outlook for 1956 is bright. In January demand was running 8 per cent ahead of booming 1955.

The importance of Middle East oil continues to grow. U.S. government agencies had estimated that the proved oil reserves in that area came to around 100 billion barrels. Some American oil authorities put their own estimate higher. But this month a report released by the Joint Congressional

Urges Second Term

THOMAS A. DEWEY, former governor of New York State and twice a GOP Presidential candidate, tells reporters in Washington he thinks "a second term for President Eisenhower is necessary to the world and the best prospect for peace." He made a statement after a conference with the President in which, said Dewey, they discussed world affairs and also "a little politics."

COUNTY BOY'S JOB

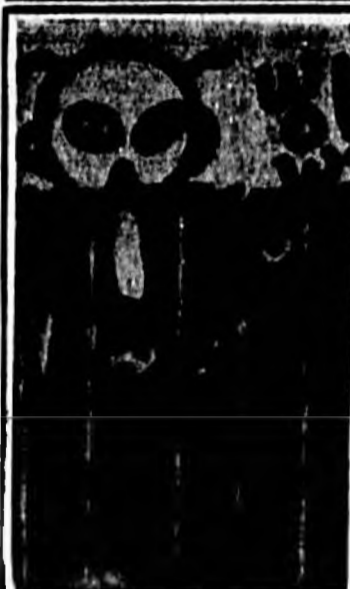

CHICAGO (AP)—Catching a pig on a city street really isn't an easy task as Desk Sgt. John Sloan discovered when two city-reared officers sent to round up the porker came back empty-handed.

"So I sent out an expert," he said.

The expert was Police man Warren Swegel who spent his early life on a farm. He returned with a 6-month-old, 40 pound animal and said: "I just grabbed it by the rear legs and off we came to the station."

The Bataks of Sumatra base much of their economy on the palm tree. They make thatch from its fibers, liquor and sugar from its juice, brooms from its stems and ax handles from its branches.

The Department of Agriculture says 10,000 species of insects found in the United States are important enough to be labeled "public enemies."

Although bald eagles often eat mammals or birds, they prefer fish.

Few People Survive 'Seven Sisters'

By HAL SOYLE
GEORGETOWN, Colo. (AP)—On a wintry night two years ago one of "The Seven Sisters" struck Leroy Buckley with a mighty white fist of death — but he escaped alive.

By doing so the 28-year-old Korean veteran has become something of a living legend in this old mining town near famous Loveland Pass, high in the towering Rocky Mountains.

The "Seven Sisters" are seven perilous snowfalls along the winding road through the pass. Few persons caught in a major avalanche survive. Leroy is the second member of his family to accomplish that feat. He is the grandson of famed Alice "Maw" Buckley, a real "first lady" of Colorado's fabulous past. This doughty Irish pioneer mother raised 13 children of her own, befriended hundreds of miners, died triumphantly in 1945 at 85.

In 1918 Raymond Buckley, Leroy's uncle, and two other men were caught in an avalanche while inspecting a mine site. The uncle saved himself by clinging to the limb of a tree that withstood the flooding snow. His companions perished.

Leroy and his father, John, own a garage here. Over the years they have rescued hundreds of motorists stranded on the wintry heights.

At dusk on Nov. 24, 1953, Leroy was returning after towing a stranded car over the pass. The Seven Sisters seemed serene in a luminous peace. Then sister No. 6 reached for him without warning.

"I saw a sudden white fluffy cloud before me," Leroy recalled. "And then I couldn't see anything. The glass crashed around me, the front of the car crumpled.

even sure what was happening." In the vast maelstrom of snow, rocks, and splintered trees the light 14-ton toy truck was as helpless as a peanut in a hurricane. It sailed through the air, turning end over end, and landed upright 200 feet below on the roadway, then skidded another 100 feet before coming to a halt.

Buckley pawed at the imprisoning snow that had kept him from being thrown out of the cab or banged to death inside the wreckage. The radiator had been smashed in, the wheels and fenders ripped away.

Blood streamed from a deep and terrible gash reaching from young Buckley's cheek around to the back of his neck. He never even noticed it until he climbed back to the highway. A second torrent of snow loosed by another of the Seven Sisters had blocked the road farther down. Leroy had to clam-

ber over it before finding help. A doctor that night took 36 stitches to close his wound.

A medal of St. Christopher, the patron saint of travelers, had been torn loose from Leroy's throat. Feeling that St. Christopher had intervened to save his son, Leroy's father decided some months later the medal should be retrieved.

They searched and searched but could not find it.

"I thought perhaps if I prayed it would help," said the elderly Buckley, who is devout. "So I got to my knees and as I finished my first 'Hail Mary,' Leroy reached into the snow and said, 'Here it is, Dad.'"

The father, stirred emotionally by his memories, looked affectionately at his son.

"Whenever he drives by the Seven Sisters now," he said quietly he "says a silent prayer. Some one saw him up there on the mountain that night and helped him."

Don't Forget March 9

Don't forget that March 9 is the day set aside for showing our appreciation for the first major highway construction project completed in Seminole County in the last 20 years.

The dedication and official opening of French Avenue will take place at 4 o'clock in the afternoon on March 9 in front of Seminole High School.

It is only right that we should all turn out to show our complete appreciation for the first throughway in Seminole County.

The bigger the crowd, the greater the appreciation.

Questions Arise About Lobbying

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON (AP)—Now that the Senate appears ready to investigate lobbying — it remains to be seen how thorough a job is done — these background questions arise: Who's a lobbyist? What is lobbying? What's wrong with it?

When an individual or a group urges members of Congress to vote one way or the other on a piece of legislation, that is lobbying. Some groups hire individuals or whole staffs to do lobbying for them. These are professional lobbyists.

There's nothing wrong with lobbying. It's a right guaranteed by the Constitution whose first amendment says: "Congress shall make no law... abridging... the right of the people... to petition the government for a redress of grievances"

In fact, paid lobbyists can be of a lot of help to Congress when it is trying to learn the facts about a piece of legislation in order to decide how to vote on it.

The lobbyists know their particular field and can testify fully why the bill will help or hurt their side. The lobbyists on the opposite side do the same.

There are all kinds of lobbies: business, farmer, labor, and peace groups; research, educational, medical associations; government agencies try to get Congress to see their point of view before a bill is passed or killed.

Even the White House does lobbying when its representatives try to persuade members of Congress to their administration's point of view on a pending measure.

What, then, is wrong with lobbying? It's wrong when money is used to influence the vote of a member of Congress. The money can be handed out in various ways. Even that may not be wrong unless bad intent can be proved.

For instance, a lobby may con-

tribute to the campaign fund of a member of Congress or a political party, and the contributor may argue his only reason for doing so was because he admired the senator or representative or the party.

But if money is handed out to influence a vote, it becomes a crime under the Corrupt Practices Act. The intent, of course, has to be proved. There is another law, passed in 1946, which requires lob-

Anyone Planning To Announce Engagement? Take These Hints

Any of you gals planning to announce your engagements soon? If so I think this information will help those inquiries you will be making.

Do you have to give a girl an engagement ring? Can you be engaged and announce the engagement even though she doesn't get a ring?

Certainly. Lots of girls prefer that way, hoping the boy will put that money toward the vine-covered cottage. If you can't afford a diamond, however, remember that any stone may be selected as the engagement stone. The girl's betrothal is usually second choice, though some girls prefer to wear the young man's birth gem.

How should we announce our engagement?

Parents usually send the announcement with a photograph of the bride-to-be to local newspapers. Before that, however, all relatives are told although they are asked to keep the secret until the wedding date has been set.

Q. When does my future bride wear her engagement ring?

A. The ring is not usually worn until there has been a public announcement.

Q. Is it necessary to bring a gift to an engagement party?

A. No. Relatives and intimate friends usually do bring the couple a gift but it is not obligatory and should not be expected.

Q. Is it necessary to have a formal engagement party?

A. A tea or dinner party is customary but more young people are having the big informal-type party which they enjoy more.

Q. Would it be considered corny to make the announcement over a radio?

Lider Springs Group To Sponsor Child In Children's Home

The Missionary Circle of the Elder Springs Baptist Chapel met at the chapel at 2:30 p. m. recently.

The session was called to order by Mrs. W. O. Wade, chairman. The WMU watchword was given and two hymns sung. Mrs. H. A. Steinmeyer gave an inspiring devotional using as her topic "Serving God At Home" with the scripture First Timothy 5:8.

Mrs. O. P. Wade gave an interesting talk on Stewardship with "beautiful illustrations". The minutes were read and Mrs. G. W. Miller reported on the child which they will sponsor for the Children's Home in Lakeland.

Mrs. Steinmeyer gave an interesting talk on her recent visit to the Children's Home there and Mrs. C. C. Hannar told of visiting done to all the shut-ins in the community.

There was one new member welcomed into the circle; Mrs. Vance Duke. Also included were four visitors, Mrs. W. P. Brooks Jr., Mrs. Katherine Gracey, Mrs. R. T. Thomas and Mrs. Peterson. Members present were Mrs. O. P. Wade, Mrs. L. W. Steinmeyer, Mrs. H. A. Steinmeyer, Mrs. W. O. Nolan, Mrs. G. W. Miller, Mrs. C. W. Ergle, Mrs. C. C. Hannar, Mrs. Marie Carpenter, and Mrs. R. E. Soderholm.

The session closed with a prayer by Mrs. Ergle.

Footnotes to Fashion

By SANDRA
A RAINBOW OF COLORS shine in the lights of the 1938 spring fashions.

It is after year-in-the-making that traditional navy, black and white colors. Behold - NATURAL steps into the picture.

Colors in natural range from "delicate beige to deeper tan—even in accessories where the two top colors are FLAX, a pale beige, and the FRENCH BREAD, a warmer tan."

NATURAL fibres "are the news in blends, as wool with linen, silk with wool, cotton with wool, cotton with silk. The fluid lines of the silhouette are NATURAL, too—not cinched in or padded out."

NATURALLY the spring-fashions are light, lighter, lightest! "Fabric mills subtract ounces from coatings, and suitings, by added cotton, silk or calynthetics; they styled 100 per cent silks and cottons to look like tweeds and wools; and feel like air conditioning."

Besides this natural feeling the array of colors outside any gallery.

Dance Program Is Presented Tuesday In Tourist Club

The Duxbury School of Dance presented a "delightful" program to approximately 65 members and guests of the Sanford Tourist and Shuffeboard Club Tuesday night at their regular meeting and covered dish supper.

Mrs. Doris Duxbury, was emcee, and presented a program accompanied on the piano by Mrs. C. Blankenship.

Those appearing were "Some Folks Don't Think I Can Tap" five tots; "I'm Nobody's Baby" Michael Pone "Dixie Dance" Joy Duggar; "St. Louis Blues" vocal Cindy May; "Ballin' The Jack" Bobby June Berry; "Dance" Sandy Getman, Cynthia Krutzyer and Donna Peterson; "Blue Skies Dance" Doty Williams; "At Sundown Tap" Joey Mace; "A Good Man Is Hard To Find" Cindy Robb; "Ain't She Sweet" Sally Robb; Judy Birchell and Marian Washburn; "Acrobatic Dance" Johnella et al; "Bye Bye Blues Tap" Betty Lynn Seivance; "Slow Foot Dance" Diana Nichols; "Rhythm Tap" Nancy Richard, and June Jennings; and "Birth of the Blues" by Pat Rabun, Joy Duggar and Janice White.

Light refreshments were served and Mr. and Mrs. Herman Dams were guests of the evening.

Annual Community Sing, Lake Mary, Led By Glee Club

The Annual Community Sing was held Tuesday evening in the Lake Mary Chamber of Commerce. Mrs. Walter I. Piper, president of the Business Women's Circle of the community Church, who sponsors this event, welcomed the audience, which filled the hall.

Mrs. L. W. Scott gave the invocation and the program was turned over to Mrs. R. E. True, chairman of the affair. She presented Miss Gene Nunnely, Supervisor of Music in the Sanford Schools, who had brought out a group of her talented 8th and 6th Grade girls—12 singers and an accompanist.

The audience participated in the first three songs, led by Miss Nunnely, with Roger Harris, also of Sanford, at the piano. They were all old favorites, "Little Brown Church in the Vale", "Home on the Range", and "Swanee River."

The girls sang "A Grand Night for Singing", "As Long as Children Pray", and "The Little Worm". Their numbers were well received, showing as they did the excellence of their training and the real effort the girls put into their work.

Allison Lee, the pianist was splendid in her two selections, "Sweet Hour of Prayer" with variations and the gay and ever popular "Nola", Dr. H. W. Rucker of Sanford, accompanied by Mr. Harris sang "Bandalero" and "The Blind Ploughman". Dr. Rucker never misses a Lake Mary Sing and the audience always enjoys his singing.

With Mrs. N. V. Farmer at the piano and Miss Nunnely again directing, the house sang with a will three other old favorites, "When You Were a Tulip", "Smiles" and "Let Me Call You Sweetheart". Miss Nunnely closed the program with two solos, "Homing" and "Can't You Hear Me Calling, Caroline?"

At the end of the entertainment, cookies and hot chocolate were provided for the guest singers and pie and coffee were sold by the Business Women's Circle, thus providing a social hour for the Lake Mary people as well as the friends from Sanford who always attend this affair.

Position Accepted

Miss Jean Harris, daughter of Mr. and Mrs. Carl H. Harris, Myrtle Ave. is spending a few days with her parents and her aunt, Mrs. Flora Spurling, before transferring to Washington, D. C. March 1, to a new assignment with the U. S. Public Health Service.

Miss Harris, who has been associated with the Communicable Disease Center in Atlanta, Ga., for the past few years, has accepted a position with the Division of Communicable Diseases, Washington.

THE QUICKSILVER POOL

There's nothing like a good pool game to relax after a long day's work. This is the story of a young man who has just graduated from college and is looking for a job. He goes to a pool hall and meets a girl who is also looking for a job. They play a game of pool and fall in love. The girl is a very good player and the young man is a very good player. They play every day and their love grows deeper. One day the young man goes to a job interview and is hired. The girl is also hired. They are now a young man and woman with jobs and a love that is true.

CHAPTER TWO
 Mrs. Tyler's chair was wheeled to the table and she slipped extra cushions under her back. Wade pulled out Lore's chair and looked at her steadily, lightly as she took it. The old lady's quick eyes did not miss the gesture and it was a sign that she was getting over her depression. Lore looked quickly away as she took the chair. A soft and comforting representation of good faith and good will. A fortifying gesture, she thought, and wondered if Wade could be permitted to forgive the room with something good in it.

"Why don't you say good-bye to me now as they were settled. 'Good-bye, ma'am. I've called him three times at least. He doesn't want to see you again. He says I'm a nuisance. I don't know what you're doing about it.' Wade mentioned something that was still only five or six, but his mother merely smiled to him and turned her head to look at Lore. Wade looked at them steadily, with his neck drooping over a table edge. Lore managed a smile in Jimmy's direction, but he looked away without returning it. It was a relief when Mrs. Tyler got up and left. Wade looked at her as she went. He was a young man of about thirty, with a well-cut, high forehead and a pair of eyes that were as blue as steel. He was wearing a dark suit and a white shirt. His hair was dark and wavy. He was looking at Lore with a steady gaze. Lore was a young woman of about twenty, with a round face and a pair of eyes that were as blue as steel. She was wearing a dark dress and a white collar. Her hair was dark and wavy. She was looking at Wade with a steady gaze.

"Good morning, Jenny," he said when they all looked up. "It's good to see you again. I'm sorry to hear that you're in a hurry."

Jenny only mumbled a reply, giving no sign that she had seen her father for nearly a year. The grandmother told her sharply to speak up and Lore began to say something warm and friendly to the boy, but the room suddenly seemed to suppress any reply she could give. Wade's eyes looked at them steadily, with his neck drooping over a table edge. Lore managed a smile in Jimmy's direction, but he looked away without returning it. It was a relief when Mrs. Tyler got up and left. Wade looked at her as she went. He was a young man of about thirty, with a well-cut, high forehead and a pair of eyes that were as blue as steel. He was wearing a dark suit and a white shirt. His hair was dark and wavy. He was looking at Lore with a steady gaze. Lore was a young woman of about twenty, with a round face and a pair of eyes that were as blue as steel. She was wearing a dark dress and a white collar. Her hair was dark and wavy. She was looking at Wade with a steady gaze.

"What's the matter with you?" Wade asked. "You're not looking at me."

"I'm not looking at you," Lore said. "I'm looking at the pool table."

"You're not looking at me," Wade said. "You're looking at the pool table."

"I'm not looking at you," Lore said. "I'm looking at the pool table."

He did it deliberately to draw attention away from his discomfort. Wade pushed his mother's chair across the hall and she began to stare at the wall. For a few moments Lore looked at the disengagement with Jimmy, but attention again upon the depressing still life of dead game over the sideboard.

"That one-eyed fellow over there," she said to Jimmy. "I don't dare to laugh in this room with him watching me. 'What do you say to me now?'"

"I've got a few things to get in order," she said, "and then I'll come down to see your mother."

"I don't mind," Lore said. "Perhaps this afternoon I'll go for a walk through the woods. I'd like to climb the hill and see the house from above. 'Not up the hill, please. I'd rather you stayed out of the upper woods, Lore.'"

"But why, Wade? I've always walked a great deal at home. I never mind going up to the house at all."

"I don't mind," Lore said. "Perhaps this afternoon I'll go for a walk through the woods. I'd like to climb the hill and see the house from above. 'Not up the hill, please. I'd rather you stayed out of the upper woods, Lore.'"

"I don't mind," Lore said. "Perhaps this afternoon I'll go for a walk through the woods. I'd like to climb the hill and see the house from above. 'Not up the hill, please. I'd rather you stayed out of the upper woods, Lore.'"

"I don't mind," Lore said. "Perhaps this afternoon I'll go for a walk through the woods. I'd like to climb the hill and see the house from above. 'Not up the hill, please. I'd rather you stayed out of the upper woods, Lore.'"

"I don't mind," Lore said. "Perhaps this afternoon I'll go for a walk through the woods. I'd like to climb the hill and see the house from above. 'Not up the hill, please. I'd rather you stayed out of the upper woods, Lore.'"

Brundage Says Trials Give U.S. Back 'Good Old Days'

CHICAGO (AP)—Give the United States back its "good, old days" of athletics and this country need not worry about Russia's Olympic training techniques.

So said Avery Brundage, president of the International Olympic Committee today, as he minimized the importance of so-called Russian training camps.

In an interview, Brundage said Russia is "two years behind us" in living modes and that "no roads, no cars and no entertainment" formed the nucleus of the Soviet nation's superb conditioning program.

Brundage said the idea of a training camp, such as Russia purportedly uses for Olympic training, "is all right for the underdog type of athlete, but for the trained athlete it would be the last place he'd want to be."

Speaking as a former athlete, I'd say confinement in a camp would soon make me sick of my speciality," said Brundage, who competed in the 1912 Olympic games and won the U. S. all-around track title three times, in 1914, 1916 and 1918.

"Fifty years ago—good Lord, was it that long ago—when I was competing in track," said Brundage, "every neighborhood in Chicago had an athletic club. Now they're worrying about teen-age gangs everywhere."

"There were track meets at every park and outlying picnic ground every Saturday and Sunday. By bike or stroller, I'd travel 10 or 12 miles every week-end to compete."

"So did every other athletic-minded boy in those days. We kept in shape during the week by walking—not riding—to school, to the store, to wherever we had to go."

Trials Of Games Of Games Showing

By ED WILKS
 The Associated Press
 The trials and tribulations of postseason engagements are beginning to show in college basketball with some coaches putting possible tournament tactics to competitive tests.

Taps Gallagher of Niagara, or instance, deployed his NIT-bound Eagles in a zone defense in the second half while defeating Syracuse 86-50 last night. It was the first time in 20 years of coaching that Gallagher had resorted to the zone.

And Fred Schaus, in his second year as coach and readying West Virginia for its title defense in the Southern Conference tournament next week, sent the Mountaineers into a full-court press right off the bat for the first time this season in a 97-88 decision over William & Mary.

Niagara had a four-point lead at the half, but Syracuse, which had beaten the Eagles earlier, gained an 80-74 deadlock with 11' left in the game. Then Alex Ellis, one of Niagara's sophomore stars, tapped in a rebound and the stalling Eagles eased home. Tommy Hemans, Niagara's steady senior, was high with 23 points—20 in the second half.

Hot Rod Hundley (who else) was the big gun for West Virginia. He packed in 11 points as the Mountaineers ended their regular Southern schedule in a first-place tie with George Washington. The champion and NCAA entry, however, will be decided in the three-day tournament opening a week from today at Richmond.

Other strange things happened last night too. Princeton and Yale struggled through five overtime periods, one short of the major college record, before the Tigers won 79-77 to retain second place in the Ivy League. The first four extra sessions were scoreless. Yale controlled the center jump and held out for a last-second shot. But missed each time.

Princeton, which blew a 15-point lead in the second half, then controlled the fifth extra center jump and outscored Yale 8-4 with Ben Spinelli hitting a hook and jump for the final points.

E is e w h e r e, the tournament choices have a better accounting than that of the winter league. In eight Monday and Tuesday, Dayton, ranked fourth in the Associated Press poll and headed for the NIT with Niagara, handed Seattle its most humiliating of nine defeats, 80-48. Seattle, winner of 15 and named today as an NCAA "at-large" entry with Oklahoma City, failed to hit from the field in the first 40 minutes.

Winners Of Today's Games Meet Friday For NAAS Crown

FASRON-51, VAR-11 No. 1 Heavy Attack Training Unit (HATU) and VAR-7 No. 1 game teams in the semi-finals of the 1956 NAAS Sanford Basketball Championship Playoffs by virtue of first round victories...

Tournament play resumed today after a one-day layoff from the Washington's Birthday holiday with HATU meeting VAR-7 No. 1 in the 3 p. m. game on the Station court and FASRON-51 vying with VAR-11 No. 1 in the second contest slated to begin at 4:30 p. m. Winners of these games will meet Friday for championship.

Monday found VAR-7 No. 1 dropping the NAAS five by a top adult score of 76-54 in the four-quarter-round. The HATU squad knocked VAR-11 No. 2 out of the sudden death playoffs by outpointing them 59-27. HATU center M. E. Young saved the way with 14 baskets and two free throws for a 30 point total.

FASRON-51 and VAR-5 met in the first game of Tuesday's play and provided the best game of the series as far as thrills and action are concerned. The FASRONers, cashed in on good basketball work and the sharp shooting of Jim Castano to topple the VAR-5 quintet by a slight 58-50 margin.

Castano accounted for 31 of his team's 58 total points during the game that saw four men called out on fouls and two others rack up four apiece.

In Tuesday's second clash, VAR-11 No. 1 routed VAR-7 No. 2 67-20 in an uneventful game. VAR-11 No. 2 grabbed a quick-six points in the opening minutes and then stalled, failing to connect until the second half while the men of VAR-11 No. 1 steadily piled up an insurmountable lead.

There's no telling how ready he'll be. There is a gleam in Casey's eye that is understandable from a casual view of Kubek. If you push Stengel he'll say: "The boy is going to be a great player some day. He's real good right now and he'll be better after we teach him a few things. He's big and strong and a good hitter. He's got a great arm and can throw from any position. And watch the way he runs. He's a good shortstop, but what I like best about him is that he's the kind that can play anywhere on the ball field and he won't hurt you."

Kubek batted .348 at Owenboro, Ky., in the Class D Killy League in 1954 and .334 including 14 home runs at Quincy in the Class B Three-Eye League in 1955. He is 20, stands 6-3 and weighs 185. He currently is on the roster of the Birmingham club of the Class A Eastern League. From the looks of things, don't expect him to stay there too long.

Stengel Has Plans For Tony Kubek

Middlecoff Strong Favorite Today In Houston Open
 HOUSTON (AP)—After three practice rounds of subpar golf, Cary Middlecoff was a strong favorite today in the first round of the \$30,000 Houston Open.

Mike Souchak, defending champion, was rated second but his odds were 3-1 compared with a surprising 3-1 for the former Memphis dentist.

Middlecoff, seeking his third victory of the winter tour, has showed the 7,122-yard, par-72 Memorial Park course with birdies the past three days.

Souchak's last year's 43-hole final round 65 to come from behind by four strokes and take \$6,000 in top money with a tournament record 273. Middlecoff won the 1953 Open at Memorial but did so in a playoff after finishing 72 holes in a tie with four others at 283. He had a 278 in 1954 to finish second, two strokes behind Dave Douglas.

Other favorites: Gene Littler, 6-1; Tommy Bolt, 8-1; Lloyd Mangrum, 10-1; and Jimmy Demaret, Jackie Burke Jr. and Doug Ford, Phoenix.

Marriage

(Continued From Page One)

ing of what is actually happening in a changing society — it has changed greatly since they were youngsters — and an understanding of how they can better function as parents in the light of changes that have taken place.

Topics for both youth and adult sessions are selected by the participants to best fit local needs. Subject matter for the Sanford adult meetings will include:

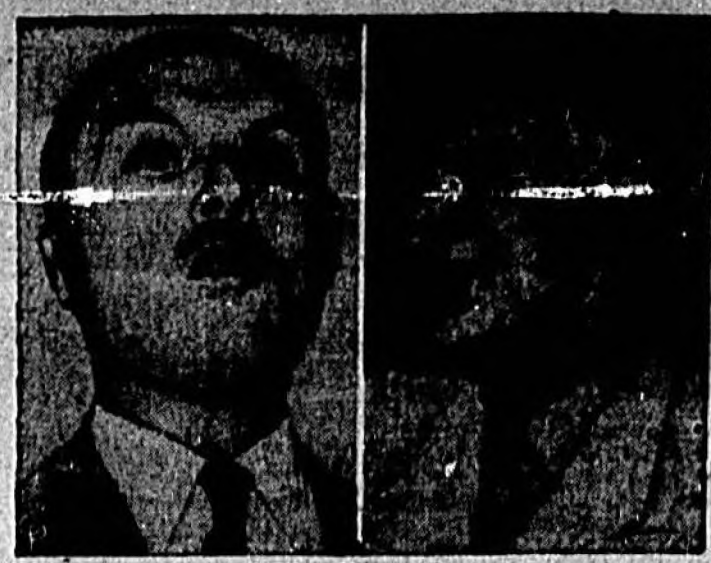

What young people need to know about marriage and family living, everyday problems of normal youth, problems and responsibilities of parenthood, and how parents can help teen-agers.

The youth classes will cover such topics as:

What it means to grow up, emotionally, getting along with others, developing an attractive personality, youth and parents see them, successful dating, the difference between love and infatuation, the purpose of engagement, the choice of a marriage mate, looking toward successful marriage, and what makes a happy family.

The overall Extension Division family life education program was developed in an effort to counteract the trend toward broken homes — Florida has the highest divorce to marriage ratio in the nation. It is believed that better informed youth will be better able to cope with everyday problems of marriage.

Schmidt believes the institute program will have a real influence in the years ahead.

PRIME Minister Constantine Karamanlis' pro-Western party seems assured of a slight majority in the new Greek Parliament although he was faced with a formidable coalition of nationalist and Communist-line forces. One of the main leaders of the seven-party Democratic Union was Sophocles Venizelos (left), 63, son of Greece's greatest modern statesman, the late Eleftherios Venizelos. Heading the coalition was George Papandreu (right), 54, chief of the Liberal Party. Both are shown speaking to their followers in Athens. (International)

"It will make its impact on the future families of Florida, on these youngsters who get married later on," he says. "They will carry with them at least some of the things which we have discussed."

Schmidt, an ordained Baptist minister and father of three children, has been active in the Extension Division's family life program since 1953. A native of Pennsylvania, he studied for the ministry at the Baptist Seminary, Rochester, N. Y. He holds a bachelor of science from Minot State Teachers' College, N. D., a master's from Iowa State University, and a doctorate from the University of Pittsburgh. He completed post-doctoral study in marriage before joining the FSU faculty. He taught at Iowa State, Minot Teachers' College and Evansville College, Ind. He also organized and directed a community youth center in Madison, S. D.

Schmidt is a member of the American Sociological Society, the National Council on Family Relations, the Southeastern Council on Family Relations and the Southern Sociological Society.

Try and Stop Me

By BENNETT CERF

REPORTS AN ENGLISH PUBLISHER: "On the way to my New York hotel from the Idlewild Airport, I decided to pick up a couple of American shirts, so I told my driver to stop at the first haberdashery he encountered. When we were stopped by a red light, he inquired, 'What was that you said, Boss?' 'A haberdashery,' I repeated. 'Yes sir,' he murmured, 'a haberdashery it is.' We rattled along a couple of blocks, then he stopped once more. 'Listen, boss,' he assured me. 'With me there's no use beatin' round the bush. What is it you want? Liquor—or women?'"

Red Skelton says that Broadway wives ought to make mighty successful dry cleaners: they work fast and leave no ring.

There's a young dancer in Hollywood who solemnly assures casting agencies that her name is Eysel Tower.

Ciro's Night Club To Be Closed Down

HOLLYWOOD (AP)—Owner Herman Hoyer said today he plans to close down his world-famed night club about May 26.

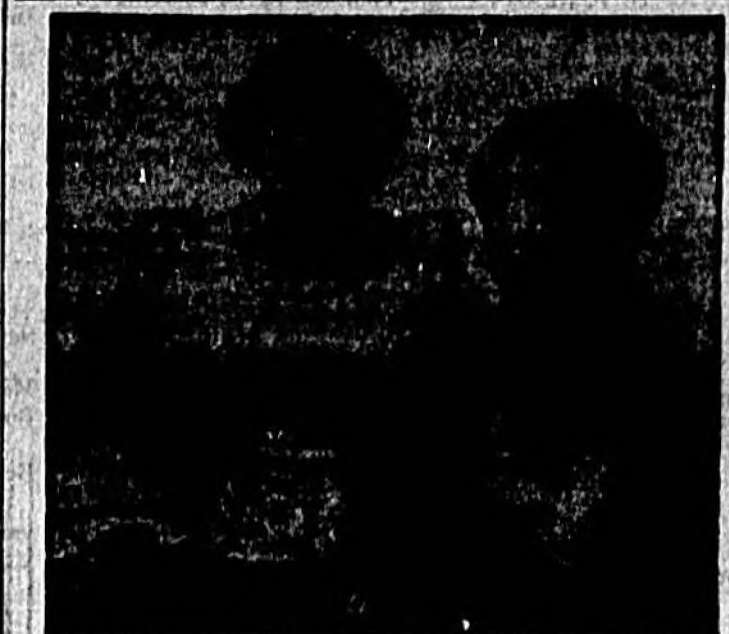

His threat to end the long and colorful history of the Sunset Strip showplace seems, he said, from "current practices" in the entertainment industry. But he declined to elaborate.

"We haven't had a strike," he remarked. "We haven't had labor

trouble. We've had more big names than any other night club in the world, and we've had some wonderful parties. But certain practices have made it very difficult to continue in business. I'm not going to fight it any longer.

"Ciro's is going out in a blaze of glory. The place will be Pearl Bailey, Maurice Chevalier and Martin and Lewis. I expect to close the place down around May 26 or perhaps a little later."

He admitted that he is leaving

What a treat for little boys and big boys alike! Here is an angel food cake that is so quickly and easily made that Mother can serve it to the men in her life again. Made with an angel food mix, one package produces an exceptionally high, light cake. Topped with a yummy chocolate glaze—wow! Who wouldn't be pleased!

Chocolate Glazed Angel Food Cake
Prepare one package Swiss Down Angel Food Mix according to package directions. Top with Chocolate Glaze.

Melt 2 tablespoons of butter with 2 squares unwrapped chocolate. Combine 2 tablespoons of hot milk with 1 cup sifted confectioners' sugar and a dash of salt. Add chocolate mixture gradually; mix until smooth.

Odham & Tudor Announce New Million-Dollar Homes Development

THIS BEAUTIFUL ORANGE GROVE SOON TO BE BEAUTIFUL GROVE MANORS

AN AERIAL VIEW of beautiful Grove Manors, where Odham & Tudor is beginning construction on 35 new homes. As you will notice the streets and clearing have already been started.

Huge New Development To Climax \$3,000,000 Area Building Program

First Home To Be Completed In New Area Soon

Odham & Tudor, Inc., headed by J. Brailey Odham, today announces the construction of the first home in Grove Manors, one of the most exclusive subdivisions ever planned for Sanford and the Sanford Area.

The residential area, an outcome of the builder's own dream has been planned for months to make it the finest and most modern area for comfortable living. The homes already planned for Grove Manors will include some of the most outstanding features ever designed.

Construction of the first home in Grove Manors, says Brailey Odham, got underway on February 15, turning one of the most beautiful grove areas of the City into a picturesque development.

Grove Manors is located just off Mellenville Ave. at 23rd Street and is one of the most exclusive spots in the Sanford Area for the development of finer homes.

Completion of Grove Manors will climax a \$3,000,000 building program in Sanford by Odham & Tudor, Inc. which began here a little more than 12 months ago. The new development will add a million dollars to the already huge program started here by J. Brailey Odham, head of the firm that has sky-rocketed the building industry in the Sanford Area to a new construction level that is unsurpassed.

Homes constructed in the area will be in the \$16,500 to \$25,000 class that will undoubtedly add more home beauty and modern facilities than ever before.

From the drawing board to the final completion of each home, says Brailey Odham, of Odham & Tudor, Inc., only the finest materials and the best construction are planned for each exclusive home in Grove Manors. Individual homes will be a picture of beauty placed in a setting that only Grove Manors could provide.

The rolling grove area, ideal for home sites, provides large lots for each home constructed, with every facility to make Grove Manors homes exclusively outstanding in every way that home design and planning can contribute.

J. Brailey Odham Is Well Known Leader

Grove Manors Boosts All-Star List Of 25 Features

In addition to the usual building code regulations, Grove Manors homes can boast a whole host of special features, making up an all-star cast of 25. They are:

1. Well designed; built to endure.
2. Paved streets.
3. City Water.
4. Furred and plastered walls.
5. Tile window sills.
6. Jalousies and awning windows.
7. Terrazzo floors.
8. Large water heaters.
9. Colored tile baths.
10. Spacious closets.
11. Beautiful, roomy cabinets.
12. Private patio off master bedrooms, on some models.
13. Unusual large lots.
14. Separation of bedrooms from living area.
15. Huge master bedrooms.
16. Large main bathrooms and powder rooms.
17. Large, light living rooms.
18. Dining rooms part of living area.
19. Sheltered entrances.
20. Cheery kitchen; large counter-top area.
21. Service entry traffic by-passing kitchens.
22. Two-stall carports, with built in storage.
23. Entrance foyers absorb all cross traffic.
24. Built-in workshop corner in garage.
25. Large windows throughout.

These 25 features are but a few of the outstanding examples of special characteristics that set the Groves Manor homes off to themselves in individuality.

Features such as these that will be found in Groves Manor homes are incomparable additions that will create a home pride such as no other construction features one might find in average subdivisions.

J. Brailey Odham, head of the home building firm of Odham & Tudor, Inc. is one of Sanford's foremost civic leaders.

Throughout his career, Odham has contributed much to the development and progress of Sanford and Central Florida, because of his innate desire to further the best interests for every citizen. A strong believer in democratic freedom, Odham has spent his citizen through his campaigns for the City, County and State.

Serving his country in the U. S. Navy during World War II, Brailey Odham returned to Sanford and the oil business, entered the automobile field, and then found his place in the growth of Sanford as he headed Odham & Tudor, Inc.

Brailey Odham conceived the home development program from idle property in and around Sanford and mushroomed a 12-month program to a mammoth three-million dollar development for homes in five areas of the community.

Odham has personally supervised the construction of each of the developments by him as ideal

Birthday Celebration

Not only was Feb. 15 a birthday for Odham & Tudor, Inc. it was an event that brings to the eyes of the citizens of Sanford one of the most astounding records in the home building field in Florida.

gracious living. Each day finds the developer watching the homes under construction for the personal satisfaction of knowing that only the best was provided for those who sought to buy homes in and around Sanford.

Odham & Tudor Set Amazing Record

One of the amazing feats accomplished by Odham & Tudor, Inc. during the 13 months that they have been building finer homes for Florida living is the fact that a home has been constructed and sold on the average of one every 1 1/2 days.

Brailey Odham, president of Odham & Tudor, Inc. in announcing the start of construction of the first home in the fabulous Grove Manors residential section, also reveals that 156 homes have been built and sold in the four areas already underway or completed, South Pinecrest, Pinecrest Bel-Air, and Rose Court are the residential sections which include a total of 156 homes.

Homes in the four areas have been luxury homes in a moderate price range, all with city conveniences such as City water and City sewers as well as paved streets.

Now, Odham & Tudor, Inc. will start construction of the first home in a section of Sanford that has long been pointed to as one of the beauty spots of Central Florida. These homes, says Brailey Odham, will be exclusively luxurious in a development appearing more like a park in a suburban beauty spot than a residential section.

Each home will have its own particular setting where design, architecture, engineering, and materials will frame the dwelling in a panorama of loveliness. Only the best is good enough for Odham & Tudor, Inc. construction, and Brailey Odham has invited his prospective home owners to watch each home grow, from the foundation to the last coat of varnish and the final sprig of grass that spreads each lawn with a live carpet of green.

Pinecrest, South Pinecrest, Rose Court Bel-Air—And Now—Grove Manors

General Manager Art Harris

Spacious, comfortable, modern living in an aura of comfort and pleasure has been planned for each home in Grove Manors. And each home added to the residential area that is destined to be the show place of Central Florida will start more and more people talking about this new Sanford residential area.

Nothing has been spared in the planning of Grove Manors with months of engineering, examining of materials, selection of utilities, paints, hardware, and colors devoted to making Grove Manors a neighborhood of distinctive homes of contemporary architecture.

No other residential area has been planned so carefully so that each home owner can be assured of every restriction necessary to protect the value of a finer home in an exclusive residential section.

Odham & Tudor, Inc., Grove Manors homes are better than the finest, they will be the ultimate to meet the tastes of discriminating home owners.

The fifth residential area for Sanford, planned and developed by Odham & Tudor, Inc., headed by J. Brailey Odham, got underway February 15, when the construction of the first home in Grove Manors began.

The spectacular record of one of the fastest growing home building firms in Florida started with the construction of homes in Pinecrest, south of Sanford.

So great was the demand for the Odham & Tudor, Inc. finer homes for Florida living, that the South Pinecrest development was added, with others following in close succession with homes in Rose Court and Bel-Air.

Starting just 13 months ago today, Odham & Tudor will climax its mammoth home building program in Sanford with the exclusive Grove Manors.

The million-dollar homes Development will bring their total construction in Sanford to three-million dollars, one of the most amazing stories of home construction in the South.

The five home developments provide home owners and prospective home owners with a selection of planning to fit every need and every income. Each home constructed by Odham & Tudor, Inc. has been with the desire of the firm to provide the finest living for every dollar invested.

There has been no equal to the immediate reaction to the Odham & Tudor, Inc. program of providing

modern homes at the lowest possible cost. Careful planning and the use of only the finest materials available on today's market has made the homes in five separate developments of the greatest demand.

On the thirteenth-month birthday of Odham & Tudor, Inc., the firm celebrates by getting underway its most exclusive and most beautiful residential section. Homes in the \$16,500 to \$25,000 design have been planned for Grove Manors which is located on either side of Mellenville Avenue at 23rd Street.

Provided for every residential area constructed and planned by Odham & Tudor, Inc., have been paved streets, city water, sewage, large lots and utilities that make home living the most modern and comfortable available.

Gathering ideas from every available source to the home builder, Brailey Odham has selected only those, regardless of expense, that would add to finer homes for Florida living. Each home has been designed for comfort and a lifetime of pleasure.

Sound construction, with only the finest materials, has made the Odham & Tudor, Inc. homes the center of attraction in the Sanford and Central Florida area.

Odham & Tudor, Inc. has provided the enjoyment of family living in the contemporary manner while the new development, Grove Manors will offer City comfort in a suburban environment.

Accent on Beauty

Each home in Groves Manor is carefully selected and designed to blend with the suburban atmosphere and unusual surroundings of the site chosen by Odham & Tudor, Inc. for the most unique and exclusive residential section in the Sanford Area.

The architectural designing achieves the casual and comfortable appearance of modern living, yet blends with the winding streets and the beautiful woods environment.

Colors will be chosen to keep every home in subdued quietness with trim materials and styled entrances that will glow with a brilliant welcome.

Hobby Case Goes To Jury Today

Well-Known Speaker Addresses DeBary Chamber Of Commerce

Government, Defense Wind Up Arguments

Arguments for the government by Assistant District Attorney E. David Rosen in the concluding portion of the trial of J. Luther Hobby, suspended Seminole County Sheriff and five co-defendants, took the entire morning session yesterday before Judge William J. Barker of the U. S. District Court, Southern District of Florida and the jury of 12 men.

Defense Attorneys William W. Judge, Mack N. Cleveland Jr., and E. M. Murrell wound up their arguments before the jury and court late yesterday afternoon with Assistant District Attorney Rosen concluding the rebuttal arguments at 5:30.

In a brief argument by Attorney Sam Murrell representing defendant Jerry Martin he told the jury "From evidence given on the witness stand—the defendant Jerry Martin is not guilty."

"My client feels flattered," said Murrell, "that he is pictured as conspiring with the high sheriff who had the knowledge and knew how," he said. "All of you know how a bunch of Negroes will act when some high-powered investigator comes around and they're told that if they don't sign they will go to jail."

Defense Attorney Mack N. Cleveland Jr. pictured two City of Sanford Police Department patrolmen, Joe Hickson and Carl Dodson, were "pretty busy men" when they went to prosecuting Attorney Karlisle Housholder, former Assistant State's Attorney Hubert Griggs and State's Attorney Murray Overstreet, then to get in their cars and go to Tallahassee for commissions as Special Investigators and later return to work their eight hour shifts, following which they worked about 24 hours a day "for no pay."

From Jan. 30, 1954 to Jan. 30, 1955 there has been no prosecution of the cases made during the special raids made two years ago. They didn't tell you, Cleveland said, of the 27 raids made in their own territory or the outcome of the trials before a City Court with no jury.

Attorney Cleveland pointed out that the elected officials, Housholder, Griggs and Overstreet, familiar with the territory, the witnesses, and the testimony, did not think enough of the evidence to prosecute those involved.

"As each of these defendants come into this room they are cloaked with innocence until it is proven, beyond all reason of doubt that they are guilty," Cleveland said. "Mr. Rosen, too, has a responsibility in this case in the defendants," he pointed out.

"I'll get even with you," was a remark of Joe Hickson, and "I've worked eight hours a day and sometimes 24 for no pay," said Cleveland. "There's your conspiracy—there are your two characters—the defense attorney told the jury, "and they were working for a man who was an unsuccessful candidate for sheriff."

"...you're going to convict a man on the stuff that came from this witness stand then no man is going to want to offer his services in the interest of good government when he is confronted with 'we'll get even with you one way or another,'" he said.

Counsel for the defense, Daytona Beach Attorney William W. Judge told the jury yesterday, in closing arguments, "You gentlemen are a part of a great system—in he tried in an American Court is an honor that some people do not have. The tradition of the American system of jurisdiction is every man is equal under the law and when that some day comes when he or she find themselves before a bar of justice and the chips are down—is the test of that great system."

"The United States never loses as long as justice is done. The government may win or lose—the defense may win or lose—but the government never loses," said Judge.

"The crime of conspiracy, under

the Federal Law, is the combination of two or more people to violate the laws of the United States. In the books, they call it a partnership in crime," Attorney Judge told the jury.

"I don't want to have it said that I overlooked for any reason the testimony of Mr. Lee Pace," said Judge. "Irrespective of the resentment that Mr. Rosen holds as to Mr. Pace's honesty I say to you we have not challenged his honesty. And I want to make it clear that the testimony of Lee Pace is of concern in this trial—it should concern you. But the testimony of Lee Pace should be examined in the light that will set it out in full," he said.

"I most respectfully urge, gentlemen of the jury, that Judson Luther Hobby is not guilty. The conviction of Judson Luther Hobby will result in a miscarriage of justice. You won't want to put the stain of dishonor on a man who has done his duty—to put the taint of dishonor on a man who has driven out these wood rats."

In the rebuttal, by Assistant District Attorney Rosen, he pictured suspended Sheriff Hobby as a dishonest law enforcement man and in a barbed remarks attempted a retaliation to the closing arguments made by the defense.

The court recessed until 10 o'clock this morning.

Local DAV Chapter To Dedicate New Building March 10

Senator Douglas Stenstrom has announced that the Seminole County Chapter of the Disabled American Veterans will hold a dedication ceremony of the new home on Highway 17 at 4 p. m. Saturday, March 10 at 4 p. m. The dedication will be followed by a fish fry sponsored by the Chapter at the Farmers' Auction Market with supper being served from 8 p. m. on.

State DAV leaders will be present and a welcome will be extended by Mayor F. D. Scott. City and county officials have been invited to attend.

The new home contains a large meeting room, ladies' and men's restrooms and a kitchen; is of concrete block construction with terrazzo floors. It is constructed on land given the Chapter by the City of Sanford and many local building and supply firms assisted the Chapter. Everyone is invited to attend. Senator Stenstrom is program chairman in charge of the program for the day.

State's Population Continues Growth

Florida's population continues its steady growth and has increased approximately a million since the 1950 census, reveals the Florida State Board of Health.

Of this increase, approximately one-fourth is due to natural increase, the excess of births over deaths. The remainder is the result of migration into the State.

Preliminary figures for 1955, just released in the Bureau's monthly report, show increases in births, deaths, marriages and divorces.

The continued growth of the population of the State is the principal factor responsible for these increases," says Dr. Wilcox T. Sowder, State Health Officer.

The natural increase in Florida's population for 1955 (the excess of births over deaths) was 86,104 persons. Births to residents of the State totaled 89,192, while deaths totaled 33,088.

There were over 4,000 more babies in Florida during 1955 than in 1954, while births totalling 84,084 and non-white births numbering 25,106.

Estimated death rates in both Florida and the United States as a whole show increases in deaths from the principal chronic, cancer and heart disease. However, from the principal chronic diseases cancer and heart disease. However, declines.

Tuberculosis death rates in Florida in recent years have been generally lower than those of the United States and syphilis rates higher. This continues to be true.

During 1955 the tuberculosis death rate in Florida was 7.3 per 100,000 population, as compared to the national rate of 8.6; syphilis death rate was 2.8 per 100,000 in Florida, as compared to the national rate of 2.3.

A greater proportion of Floridians lost their lives in motor vehicle accidents in the State than in the United States as a whole. The death rate in Florida from motor vehicle accidents last year was 26.1 per 100,000 population while the national rate was 20.8.

Some 982 Floridians were killed in motor vehicle accidents during 1955—while 837 died as a result of motor vehicle accidents during 1954—a gain of 65 persons.

Accidents continue to be one of the State's biggest killers. Accidents, other than motor vehicle accidents, claimed the lives of 1,271 people in Florida during 1955; in 1954 the total was 1,411.

No Relief In Sight For Europe

LONDON (AP) — A slow thaw spread fearsome landlides and flood threats over parts of southern Europe today. The rest of the Continent shivered, with little sign of a break in the worst winter anybody could remember.

No deaths were yet reported from the slides in Italy and Yugoslavia, but it was believed they would add to the toll of 831 known dead in the record freeze, now in its 23th day.

Crop damage ran into hundreds of millions of dollars. Food prices rocketed. Coal and other fuel was running short.

At Vasto, in central Italy, a landslide crumpled 150 homes. Hundreds of workmen fought to divert the vast mass of rumbling soil and snow from other homes and a railroad.

Scores of smaller slides cut roads and menaced villages throughout Italy's central Apennines Mountains. Landslides also were reported in Yugoslavia.

Hundreds of starving gulls invaded public parks in southwest France to snatch carp and goldfish from ornamental lakes. Their usual source of food—the Garonne River—was frozen.

U. S. helicopters in the same area dropped food to 20 resin collectors isolated in vast fir forests.

Field Consultant Visits Local TB, Health Association

Miss Frances Neel, Field Consultant of the Florida Tuberculosis Association, Jacksonville, visited the Seminole County TB & Health Association Wednesday and Thursday, Feb. 22 and 23, Mrs. Lorraine Graham, executive secretary of the county association.

A conference of ward members of the association during which plans for expanding the work of the association were discussed.

The following board members were present: R. J. Dauman, R. E. Karna, Chief M. N. Cleveland, the Rev. L. L. Day, R. T. Milwest, Ralph Penold, Mrs. J. D. Condel, Mrs. James Board, Mrs. J. M. Cameron, Mrs. Hulda Kibbes, and Miss Frances Neel of Jacksonville.

Sportsmen To Meet

The Seminole County Sportsmen's Association will meet at the City Hall Tuesday at 8 p. m. Movies will be shown and some reports made from the Game and Fresh Water Fish Commission.

Boat, Ski Club Meets Tonight

The Sanford Boat and Ski Club will gather at the CAP Hall above Touche's Drugstore tonight at 8 o'clock.

All members are urged to attend as a discussion will be held on the barbecue planned Sunday. The public is invited to attend.

PRESENTS MEMBERS OF CUMBERLAND University Dr. L. L. Rice (center) at the DeBary Chamber of Commerce dinner recently. Dr. Henry S. Whitman was president of the DeBary Chamber of

Judge Barker Instructs Panel To Carefully Weigh Facts

SNAAS Combined Charities Drive To Begin March 1

The NAAS Sanford—Hawley One annual combined charities drive will begin March 1 and run through March 20. The drive is headed by the Combined Charities Committee under the chairmanship of Capt. J. T. Blackburn.

Others included on the committee are the various commanding officers who served as a policy committee and the SNAAS chaplain. The second committee is the Drive Committee composed of representatives of the various units which will be a working unit.

The purpose of the drive is to combine all the drives into one big event so there will be no other collection from the station personnel during the rest of the year.

A goal of \$10,000 has been set by the committee, who will solicit from the approximately 2,300 men and civilian personnel on the base. Included also will be the squadron now based in Fort Lauderdale, VAH-8, and the unit stationed at Jacksonville, VAH-1.

Resides the national charities picked, local ones will be included also. "As if it were a Community Chest Fund Drive."

Capt. Jackson stated "We are most pleased to have our station civilian personnel join with the military personnel in this important drive and support those who are less fortunate than we are.

We are also grateful to the Sanford Herald for printing and furnishing the pledge cards for the Drive and also to the Sanford Federal Savings and Loan Association which will receive deposits until they are collected," he continued.

Three major approaches will be made to reach the goal. (1) Direct solicitation (2) squadron projects and (3) the committee is planning to hold a station carnival.

Capt. Jackson stated, "These drives have been held in other Naval stations and have been very successful, as I know it will be here on the Sanford base."

Designated charities include The Naval Relief Society, "to help in times of trouble, the personnel and their dependents"; the American Red Cross; March of Dimes (1955 drive); the annual underprivileged Children's Christmas Party; American Cancer Society; Sanford Police Benevolent Association; Local USO; American Korean Foundation; Contingency Fund for Emergency Drives (such as the 1955 Flood Relief Drive and

Rosen Strives To Make Amends For Statement

12,579 Automobile License Tags Sold In Seminole County

Up through the rush period including Feb. 21, the day after the deadline for obtaining 1955 automobile license tags, a total of 12,579 tags were sold, it was revealed today by John L. Galloway, Seminole County Tax Collector, who acts as Agent for the Motor Vehicle Commissioners.

These sales amounted to around \$275,000. Collections for tags are remitted to the Motor Vehicle Commissioner just as soon as reports can be prepared after the sales are made.

During the last few days before the deadline, and the following lines formed in the last minute rush to buy automobile license tags but four cashiers were on duty and it is doubted that anyone had to wait in line more than an hour, and possibly more than long, Galloway stated.

Registration cards are written up during the summer months and placed in order on the desk behind the first time is a different transaction is a straight renewal of a Seminole County tag the transaction takes only a few seconds. Transfer of titles and the obtaining of Seminole County tags for the first time is a different transaction as all documents have to be carefully examined to see if they are in order before issuing the tags.

The 1955 sale of license tags shows an increase of 1,578 over the number of tags issued during 1954. Tax Collector Galloway stated today. During 1955 11,001 tags for automobiles and trucks were issued, he said, in comparison to the 12,579 issued so far this year.

The 1954 Special March of Dimes drive).

Multiple Sclerosis Fund; American Heart Fund; Navy Olympic Fund each man will give a dime; National Foundation for Crippled Children; Seminole County T. B. and Health Association; Salvation Army; National Association for the Blind; Muscular Dystrophy Fund; Crusade for Freedom and Special Expenses (bonding of custodian, bank service charges, advertising, etc.).

Cooper Appointed District Manager For Southern Bell

John S. Cooper has been appointed Southern Bell Telephone Company for the Orlando area effective pointed District Manager on March 1. He replaces Jim Brown who is being transferred to Nashville, Tenn.

Cooper's first assignment in Florida was in Jacksonville in 1935, after several years with the company in Atlanta. He held various positions in Daytona Beach and Miami before being appointed as District Manager for the Gainesville area in 1948.

In 1950, he was transferred to Jackson, Miss., as District Manager where he stayed until May of 1952.

Cooper came back to Florida in 1952 and was assigned on the Staff of the Florida Commercial Manager. He has directed customer relations activities for Southern Bell as part of this position. He has been very active in civic affairs wherever he has been located. He and his wife, Jerry, are members of the Baptist Church. Jim Brown will become District Manager of the Nashville area with headquarters in Nashville.

Telegraph Network To Speed Messages Between Offices

The Sanford office of the Winn-Dixie Stores produces operation will be connected with five other offices of the widespread two-state produce buying function.

Winn-Dixie Stores, Inc. has inaugurated a six hundred acre seven mile, high-speed private wire network, leased from Western Union, to speed the flow of messages between its major produce warehouses, field buying offices and the produce department headquarters in Jacksonville, Florida.

The system interconnects Winn-Dixie produce operations in Miami, Tampa, Sanford and Pompano Beach, Florida, and Greenville, S. C. with the headquarters office. Special electronic selectors enable any two stations on the circuit to communicate independently with one another or it is possible for any office to send a message to any desired group, or to all stations simultaneously.

The wire system is equipped with printing telegraph machines with a speed of sixty five words a minute. At its destination, the message is received automatically in page form, ready for instant use. Capacity of the wire system is thirty nine hundred words hourly and thousands of messages monthly may be transmitted.

"Our new, ultra-modern telegraph network leased from Western Union gives us a direct, two-way, record communication with our buying points," said Frank C. Broun, Winn-Dixie's chief buying officer. "This added speed of communication will enable us to buy and ship produce faster and more efficiently, saving and shipping such items as peas and green beans and other produce and meats."

Rotary Club Meet Monday Canceled

There will be no meeting of the Sanford Rotary Club Monday noon because of the Ladies' Night Chicken Supper held last Wednesday night on the grounds of the local Elk's Lodge. The affair, which was attended by nearly 80 local and visiting Rotarians and guests, was voted one of the best yet held by the club, both from the culinary and fellowship angle.

The ladies were particularly gratified that they could dispense with the planning of an evening meal and the men were pleased because the menu consisted of both smoked and barbecued chicken, chicken and dumplings, tossed salad (although it really was "mixed" by Tom Jones), potato salad, doughnuts and coffee. Al Lee and his committee, Tom Brown, Jim Holtzclaw, M. L. Raborn, Earl Turner, and Tom Jones, ably assisted by "Skipper" Gene Rountree, were "voted" cooks and good fellows "par excellence" for their fine handling of the function.

To give attendance credit to those local Rotarians as well as to visitors who did not attend the ladies night function, Dr. R. W. Ruprecht club secretary, will be at the Yacht Club during the noon hour next Monday to register those desiring to check in.
