Petaín Hailed As Patriot By Paris Witness

Territorial Changes Vie With Trial As Center Of Interest Throughout Europe

(By Associated Press) Petaín treason trial entered its 13th day today with the defendant described as a man "of perfect patriotism and loyalty to Franco" in a telegram read into the evidence. The wire was sent by Pierre Merillon, a French delegate to the San Francisco conference.

The defense is ready to call up 35 witnesses, but contended the most important evidence would come from letters, telegrams, and other documents written during the occupation—many kept a secret even from Pierre Laval. Petaín's right hand man.

Territorial changes were big questions in other parts of Europe today. Turkey was said to be awaiting a decision on Russia's demand for a revision of control on the Dardanelles Straits.

The German Baltic port of Stettin was said to be under the control of the Poles, although no formal boundary making decisions have been reached. Tito's Yugoslavia provisional parliament granted amnesty to former Chetniks and others who collaborated with the Germans during the occupation, while all Greek political parties are conferring on the suggestion a representative government be formed.

WASHINGTON, Aug. 6, (AP)—President Truman returns from Potsdam this week with the immediate job of providing answers for a growing list of questions on the pattern of the Big Three peace for Europe.

At the Potsdam time he is reported giving top priority to measures planned with the British for speeding final victory over Japan.

Number one in any tabulation of points left unclarified after Mr. Truman's first Big Three conference still is this: What about any Russian plans for the war against Japan? Only activities of the Soviet Government and the Red Army are likely to answer that one.

But there is an imposing list of other matters on which Congressmen and others, after reading the Potsdam communiqués, have suggested the need of enlightenment.

Chief of these is the background of apparent concessions (Continued on Page Three)

Lt. Claude Kelly Served In Europe, Is Home On Leave

First Lieut. Claude D. Kelly, who served a year in the European theater with the First, Third and Ninth Armies, during which time he was a platoon commander in a tank and a battalion, is home on 30 day leave visiting his wife and daughter and his parents, Mr. and Mrs. A. L. Kelly, 208 Laurel Avenue.

Lieut. Kelly participated in three major battles, the Belgian Bulge, Battle of the Rhine, Ruhr Pocket, Hitler's redoubt area and the Badland land in Czechoslovakia.

Lieut. Kelly's platoon overran a German prisoner of war camp in the Ruhr pocket, liberating several hundred American soldiers and more than a thousand Russian, French and Polish prisoners. The whole platoon was cited for this deed, due to the fact that they went through two miles of enemy fire to reach the camp.

In April, 1944, Lieut. Kelly entered the service. He received his commission as second lieutenant at Camp Hood, Texas, and as first lieutenant at Camp Breckinridge, Ky. Prior to entering the service he was a member of the Foremost Deities. During his youth and high school days, he was a carrier for The Herald.

He graduated from Seminole High School.

At the present time he is enjoying his leave and getting acquainted with his nine month old daughter. His brother, Sgt. Al Kelly, Jr., is in Germany and has served in four major campaigns with the Seventh Army, with the 64th Signal Battalion.

HOME ON LEAVE

HOME ON LEAVE 751—Lieut. R. A. Wallace of the 7th Airborne Squadron of the Seventh Army, has returned from overseas on a 30-day leave. He is spending a 30-day leave with his parents, Mr. and Mrs. A. B. Wallace, of Silver Lake.

Truman And King Meet On Warship

AS PRESIDENT HARRY S. TRUMAN boards H.M.S. Renown at Plymouth, England, King George VI greets him with a handshake. The Chief Executive stopped off to see the English ruler before he left for the U.S. aboard the cruiser Augusta (International Radio photo)

Roberts Pledges Livestock And Tobacco Auctions Brightest Spots

Lower Rail Rates Expected If Channel Is Fully Developed

Pledging continued support to the St. Johns River development project "until you get it," Warren Roberts, editor of the Orlando Morning Sentinel, told the Sanford Rotary Club today. "You are going to get lower freight rates regardless of river improvements, but if the channel is developed you will have a 20 percent reduction in rail rates with three months."

A lot of people will benefit from river transportation who will develop a ton by water, he said, pointing out that where present rail rates are low, Embury, Orlando's support of the development of the St. Johns, he pointed out that benefits would not be confined to Sanford but would extend in every direction for a distance of 50 miles.

Barges of the future, he said will be equipped to carry perishables with refrigeration and other facilities vastly increasing the available tonnage over present water transportation.

Mr. Roberts was introduced by George Touhy who had charge of the program. President Les Leisher announced that at the last meeting of the board, W. H. Brown, A. W. Kings and Tom Brown had been elected to the board. Visitors at today's luncheon included: Lewis D. Hines of Starks Harry Caskey of Memphis, Tenn.; Lieut. Raymond Kaler and Warrant Officer Jack Evans.

Marshall Urquhart Released From Duty

(SPECIAL BLANDING, Aug. 6, (Camp)—I-74 Marshall Urquhart has been released from active duty with the Army of the United States after serving 46 months.

He is the son of Mr. and Mrs. J. H. Urquhart of Celery Avenue, Sanford.

He has served overseas for 38 months in the MTO theater and is entitled to wear Battle Participation Honor for 6 campaigns.

The separate, who plans to make his home in Sanford was discharged through the Separation Center at this post where, in the course of one day he was processed. Each man about to be discharged is given an orientation talk which prepares him for civilian life and outlines his benefits under the GI Bill of Rights. He is also given counseling service and his separation pay.

Pfc. Lee Hunter, who after returning from Germany has been spending leave of a month with his parents, Mr. and Mrs. G. H. Hunter, of Beardsall Avenue, will report at Camp Blanding, Thursday for further duty.

Pfc. Hunter was sent overseas in January and served with a tank battalion attached to the 7th Infantry in the Battle of the Ruhr pocket. He wears two stars on his ETO ribbon. He entered the service in May, 1944, and trained at Ft. Knox, Ky. Prior to entering the service, he was employed at the Martin Aircraft Company in Baltimore. He graduated from Seminole High School in 1939.

HOME ON LEAVE 751

HOME ON LEAVE 751—Lieut. R. A. Wallace of the 7th Airborne Squadron of the Seventh Army, has returned from overseas on a 30-day leave. He is spending a 30-day leave with his parents, Mr. and Mrs. A. B. Wallace, of Silver Lake.

Four More Fore-Warned Jap Cities Turned Into Ashes By Superforts

Hiram Johnson, Senator From California, Dies

Leader Of Isolationists Sank Wilson's League Of Nations

WASHINGTON, Aug. 6, (AP)—The death of veteran Senator Hiram W. Johnson, California Republican, at the Bethesda, Md., Naval Hospital, was announced today by the Senator's Secretary G. W. Ruffe.

A striking Senate figure since he first was elected in 1916, he played lead of no small part in the defeat of President Wilson's League of Nations covenant and later in opposing United States adherence to the World Court. One of his last great Senate fights was against the passage of the Teapot Dome Draft Bill.

He had been expected to take the lead in opposition to the recently approved World Charter of Liberties presented to the Senate.

The late Senator died of a thrombosis of the brain, after being in the hospital about two and a half weeks.

Lieut. Williamson Welfare Officer, Detached At SNAS

Lieut. I. B. Williamson, athletic, recreation and welfare director at the Sanford Naval Air Station, was detached to the Sanford, Fla., Naval Air Station, where he will be in charge of the welfare of the personnel of the station.

Lieut. Williamson's usual assignments include duties at the Naval Academy, NASD Boston, Pensacola, NASD Miami, and Hollywood, Fla.

A graduate of the University of Michigan, Lieut. Williamson was an outstanding end of the Wolverine football team of the early thirties. After a hitch as coaching football at his alma mater, he served in the Navy from 1934 to 1937.

The Welfare and Recreation department under his leadership has made rapid strides forward and the facilities broadened constantly to reach more and more officers and enlisted personnel. To mention a few highlights, his administration has installed an enlarged station orchestra, a weekly instead of semi-monthly station news paper, a weekly community physical training program and new inter- and intra-station competitions in various sports.

His record as an athletic director in the command is long. Locally he is considered one of the most versatile athletes ever attached to SNAS and is very adept in any competition.

1,406 Persons Jobless; None In Seminole

TALLAHASSEE, Aug. 6, (Special)—Unemployment is at or near the vanishing point in Seminole County, according to figures released by Chairman Carl B. Smith of the Florida Industrial Commission.

No claims for unemployment compensation were paid to residents of Seminole County during the week of July 23 to 28, Chairman Smith said. This would indicate that all eligible covered workers in this county in search of jobs had found them and were at work.

In order to qualify for unemployment compensation, the claimant must apply for and accept any suitable job open.

Throughout Florida 1,406 claimants received compensation during the last week for which figures are available. Of these 523 were male and 883 female. In addition, 130 Florida claimants now residing in other states received payments. The total amount paid out was \$23,017.50.

Unemployment has increased somewhat this summer largely due to the closing down of the citrus packing and canning plants during the off season and to changes in war orders.

Bread baking, or the preparation of cakes from flour and parched grain by means of heat, is one of the most ancient of occupations.

Dramatic Moment As Laval Faced Petaín In Court

PIERRE LAVAL, as a witness in the Petaín trial, today faced Benito Mussolini, Premier of France, in the courtroom at the Palais National in Paris. Petaín was the defendant. Laval was the witness. The courtroom was crowded with spectators.

Orlando Medics To Play Yowell Team Here Tonight

Double-Header Will Be Played By Teams In League Tomorrow

Softball fans are expected to turn out in full force tonight to see the tilt at Municipal Stadium between the Medical Detachment of Orlando Army Air Base and the Yowell team of the Sanford Softball League.

The game will be played at 7:30 p.m. and is expected to be a close one.

On Tuesday afternoon at 7:30 o'clock, the East and West Side baseball teams will play the first game of the "World Series" at Municipal Stadium.

The game will be played at 7:30 p.m. and is expected to be a close one.

On Wednesday night, the "Mystery" team will play the "Mystery" team at Municipal Stadium.

The game will be played at 7:30 p.m. and is expected to be a close one.

The game will be played at 7:30 p.m. and is expected to be a close one.

The game will be played at 7:30 p.m. and is expected to be a close one.

30,000 Canadian Soldiers Arrive In Pacific Area For Active Duty In War

(By Associated Press) American airmen today said they had turned four more forewarned Jap cities into ashes as 750 superforts and Mustang fighters reportedly swept the enemy's sacred islands with fire bombs, rockets and parachuted mines.

Returning to their Marine island bases, the crewman told of setting fire to the cities at a rate of one per hour. Some met in those flat and strong intercepting formations, rocket planes as they rained the stars. The Tokyo radio described an "undefeatable" advance formation of 10,000 Canadian soldiers arrived at forward Pacific bases today.

They will be followed by 4,000 more Canadian soldiers and 10,000 more Canadian soldiers.

The Tokyo radio described an "undefeatable" advance formation of 10,000 Canadian soldiers arrived at forward Pacific bases today.

They will be followed by 4,000 more Canadian soldiers and 10,000 more Canadian soldiers.

American airmen today said they had turned four more forewarned Jap cities into ashes as 750 superforts and Mustang fighters reportedly swept the enemy's sacred islands with fire bombs, rockets and parachuted mines.

Returning to their Marine island bases, the crewman told of setting fire to the cities at a rate of one per hour. Some met in those flat and strong intercepting formations, rocket planes as they rained the stars. The Tokyo radio described an "undefeatable" advance formation of 10,000 Canadian soldiers arrived at forward Pacific bases today.

They will be followed by 4,000 more Canadian soldiers and 10,000 more Canadian soldiers.

CITY BRIEFS

Seminole County commissioners will meet Tuesday morning at 10:00 o'clock in regular monthly session.

Vice Commander H. B. Pope will preside at the meeting tonight at 8:15 o'clock of Campbell-Loring Post of the American Legion.

The gun rationing department of the War Price and Rationing Board will be open this week during morning only between the hours of 9:00 o'clock and noon.

The officer left for his present overseas station in July 1945. He is the son of Mr. and Mrs. William E. Kader, 2560 Palmetto Avenue, Sanford. His wife, Mrs. E. Kader, lives at 1220 Myrtle Avenue in the same city.

Sanford Lodge No. 62, F & A. M., will meet Tuesday evening at 8:00 o'clock in the Masonic Temple. The apprentice degree will be conferred. All Master Masons and Fellowcraft are invited to attend.

WEATHER
FLORIDA—Partly cloudy this afternoon, tonight and Tuesday. Widely scattered thunderstorms in south portion and over north portion in afternoon.

So pecky has she proved to the Japs that Tokyo Rose, the notorious propaganda broadcaster, announced thousands of the Japs but flared were attending their own funeral services before taking off to destroy her. They did.

BIBLE VERSE FOR TODAY

FAITH THAT DOES NOT EXPRESS ITSELF IN ACTION IS A SHABBY THING...

Wait Whitman Contemplates His Biographer

Your learned books are so full of vast thoughts borne by words...

I read your careful judgments, Well considered views, manly opinions...

O, you weighers of other men's souls,

You gentlemen umpires of God's high spirits!

How can the careful judge the momentarily careless?

How can the calm speak of the deep, inner turbulence?

How can the deaconous approach those blessed with nature's frenzy?

CHARLES ANGOFF

Sending pictures in color by radio seems to be the next step in this fast moving world.

By the way, what ever happened to that tennis tournament they were going to have this summer?

Every day we are asked when we are going to resume publication of the daily...

Laval arrived wearing his usual scold while the dispatch from Paris...

In planning the young lady's wedding nowadays the first thing to find out is what relatives...

The quality of softball currently being presented at the Municipal Softball Field...

Secretary Anderson says there is absolutely no danger that the government is going to ration coal...

Latest reports indicate that more than 60,000 workers are now out on strike...

Government officials are showing marked concern over the plight of Central Florida...

Determined Doctor

Dr. Elizabeth O. Hayes, who had once worked at the Grenfell Mission in Labrador...

She demanded sewers, water systems, inside bathrooms and foundations under houses...

The general manager of the mining company says the doctor demands the "economic impossibility."

"Dr. Hayes has the people worked up to a white heat. She organized them like the 13 colonies..."

The physician thinks an epidemic would cost more than pipeline and inside plumbing.

Similar problems occur elsewhere. Too often the epidemic gets there first.

War Maps

We don't happen to be in the map business, but find ourselves increasingly impressed with the value of geographical maps in the office...

The most interesting is a globe, which quickly shows where things are in this big world, and in relation to each other.

Here is where our men are fighting. Right here, on this very spot, is the place from which a neighbor got a letter from his son the other day.

Then another whirl and here is the other side of the earth with an entirely new environment.

Planes And Myths

There is an old saying that "what man can imagine man can do." And indeed it seems so.

It is at the same time very modern and very ancient. A Greek myth, originating thousands of years ago...

The poet Milton tells in his poem "Paradise Lost" how the rash flyer fell from the Zenith "like a falling star."

More Autos

It was good news to millions of Americans when Irving S. Olds, chairman of the U.S. Steel Corporation, expressed his opinion that there would be enough steel available...

And it is not merely a matter of getting more cars for people to run around in and do their chores and have a good time.

Livestock And Tobacco Auctions Brightest Spots

(Continued From Page One)
Steers sold from \$7.10 to \$12.20, and bulls \$7.00 to \$9.10.

The Plant City State Livestock Market's last reported sale handled 120 cattle and three hogs for a day's total of \$3,900.74. The average price for the cattle was \$7.05 to \$10.00 per hundred; steers \$7.50 to \$10.50; bulls \$6.00 to \$8.70; yearlings \$5.50 to \$8.80 and calves \$7.50 to \$10.50.

Director Wilson summarized activities on other markets, and in adjacent territory as follows: "While it is early to tell the exact amount of acreage for each crop in the Sanford area, H. J. Lehman Market Manager reports that most all farmers are contemplating planting approximately the same as last year. This applies most definitely to the principal crops, cabbage and celery.

"Larry Hamilton of Fort Pierce states that a large acreage of melons and cucumbers began last year's expected. Pepper and eggplant seedbeds are being planted.

"Fall activities are expected to get underway in the Palatka territory around September 1, H. G. Williams states. Thus far plans of farmers are indefinite on crops and acreage.

"R. E. Johnson, Market Manager at Plant City has reported that rains in that area have adversely affected root crops and okra. Strawberry nursery plants have also suffered and preparation of land for crops has been delayed.

"Planting of eggplant and pepper seedbeds in the Pompano section is expected to get underway late in August, J. L. Warren Manager has reported. Activities there at present center on routine clearing of ditches, repairing of dikes and bridges.

"Between twelve and fourteen hundred acres of early potatoes will be planted in the Florida vicinity, we have been informed by C. S. Phillips, president of the State Farmers Market at that point. The sugar situation is apparently cutting Florida City's sales to less than 200,000.

"J. C. Phillips reports from Babcock that land is being prepared for all fall crops with increased acreage expected. Growers there are greatly concerned with the anticipated labor shortage due to Government announcement that laborers from the Bahamas will be available in smaller numbers than for the last season.

From where I sit... by Joe Marsh

Herb's Got a Great Little Wife

Everybody's talking about what a grand job Herb Heim is doing at the war plant. Not just one shift, but two a day - to help build the war materials our men need.

Good for Herb! But I'd like to say a word for Mary, Herb's wife. She runs the house, cooks the meals, takes care of the children, and works on salvage drives and bandies for the Red Cross. Believe me, that's using work for any woman!

Yet when Herb comes home - too tired to talk of watch where he drops his advice - Mary makes allowances. She brings him a little bit of beer, and makes an effort to give him a little vacation for them both. Next morning, Herb goes to work as fresh and energetic as ever.

From where I sit, we're all Mary Heim are doing a grand job. We're all doing our part to win the war. Let's all be like Mary Heim. Let's all be using work for any woman!

THE ANSWER is Yes!
Yes, sir! Conditions are improving! Now, we have more functional parts and can still supply plenty non-functional parts you may need.

Calling All Ford Owners

THE \$64 QUESTION

ARE FORD PARTS AVAILABLE?

Because of the all-out war production at the Ford plants, we have in some instances been limited in supplying parts promptly. But more Genuine Ford Parts are available now.

GOOD NEWS
We are maintaining a full stock of all standard Ford replacement parts to make your car reliable and keep it on the job.

BETTER SERVICE
Our trained mechanics, equipped with the latest tools and equipment, will give you the best service you can expect. We'll get you back on the road as fast as possible.

Petain Hailed As Patriotic By Paris Witness

(Continued From Page One)
by the western Allies to return to the plan for Europe.

Reaction Studied
But Mr. Truman is fully aware of the reaction at home to such dispatches from the United States as the President's August 2nd dispatch to the United States Congress, which was a direct rebuke to the Vichy government.

President Truman's report to the American people is already well known in preparation of the precise time of the President's return to the United States. The dispatches from the United States have said it will be early this week Mr. Truman is expected to tell the Parisians of the people soon after war.

President Truman may propose an enlarged and modernized national guard as an alternative to pacifist military conscription, it was reported today.

The President was said to be studying the whole question of post-war military needs, especially in the light of this country's planned participation in the United Nations organization.

Truman has indicated he will have something to say on this when congress returns in October. He has declined to express an opinion on compulsory military training in the meantime.

May Favor a Guard Plan

Four More Fore-Warned Jap Cities Turned Into Ashes

(Continued From Page One)
of Tokyo. The raid began at 11 P.M. Sunday (Tokyo time) and lasted until midnight.

Of these three, Mombashi had been warned by leaflet, August 1 that it would be fire-bombed into oblivion. Tokyo and the B-29's "fled" at midnight. The B-29's no immediate confirmation of the raid from Twentieth U. S. Air Force headquarters.

Delayed dispatches meanwhile indicated that the Third Fleet was operating off the coast as late as Saturday.

Vice Admiral John S. Lockwood, commander of the Third Fleet carriers, said that aircraft from U. S. flat-tops would "hunt down and destroy every airplane on the enemy homeland."

Other high-ranking officers of the Third Fleet, quoted in a dispatch dated "Off Japan, August 4," said Halsey's armada was a powerful and dominating that it could now steam right into Tokyo Bay "any time the mission would be worthwhile."

One dispatch, filed from McCain's flagship Saturday noon suggested the Third Fleet was maneuvering or possibly refueling off the Japanese coastline six days after its last official report of a strike against Nippon's home islands.

Tokyo reported 160 Okinawa based fighters and bombers, including B-24 Liberators, B-29 Mitchells and P-38 Lightnings attacked Agoshima, Miyazaki and Oita Prefectures on the eastern coast of Kyushu during the Sunday forenoon.

Eighty P-51 Mustangs, presumably based on two raided the Tokyo-Yokohama area in three waves, enemy broadcast said. The targets were airfields, "various residential quarters" in Tokyo, Kanagawa, Chiba, Muzumi and Ibaraki Prefectures adjoining the capital area.

Tokyo said two superfortresses had bombed Omiya, 10 miles northwest of Tokyo, while a third B-29 flew over a wide area of central Honshu and two Navy bombers patrolled over Tokyo Bay.

The whopping crane is the largest of North American birds.

Illinois University Seeks Answer On How To Build Home After War

By WILLIAM J. CONWAY
AP Newsfeatures Writer
CHAMPAIGN, Ill.—Are you planning to buy or build a home after the war?

Aware that millions of Americans may be, the Small Homes Council of the University of Illinois helps them answer such questions as: "How can I finance a home?" "How much can I spend?" "How can I select a suitable neighborhood, a good lot and a satisfactory plan?"

The council, now in its first year of operation, work under a coordinator, William H. Scheick, who is a practicing architect and a professor of architecture. It has the cooperation of experts in such university departments as engineering and economics, and of federal and state agencies, financial and real estate organizations, and manufacturers of materials and equipment.

Here is what the council advises: Financing should receive first

consideration. Decide on a payment plan. Most people, lacking sufficient funds to buy a place outright, make a down payment from their savings and borrow the rest on a mortgage with the property as security.

Find out next what your preliminary costs will be—contractors' or architects' charges, appraisal and notary fees, the expense of obtaining a fireproof title and recording the mortgage, landscaping now or repairing old property, equipping kitchen and laundry.

Consider Emergencies
After providing for those outlays and putting aside an adequate cash reserve as a hedge against unexpected costs—and to cover such emergencies as sickness or unemployment—make as large a down payment as practical. The larger the down payment the greater your equity in the property. Consequently, the amount you must pay out in in-

terest on the money you borrow is smaller.

You probably will obtain one of two types of loans from a bank or other lending agency. One, a straight mortgage, is a promise to pay back definite amounts at specified future dates, and to make interest payments at regular intervals in between. The other—the kind most widely used—is the amortized mortgage. This involves regular payments, monthly or otherwise, which include both the interest due and a portion of the principal until the debt is paid completely.

How much can you spend for a home? A rule of thumb says you can afford a home equal to two years' income. The council has advised that the wage bracket and schedule can be offered, but developed a method for arriving at a practical estimate.

First each family must figure out its "income for housing"—that is, how much it can afford for a home on, say, a month-to-month basis.

This can be done by simple arithmetic (see table No. 1). You first find out the total of your normal living expenses. Then you determine your total net income—your gross income minus income tax, pension or other deductions. Next you subtract your normal living expense total from your net income total. The balance should be what you can afford to pay out regularly.

Enter All Net

When you have learned your monthly "income for housing," you are in a position to determine how much of a house you can afford. For this the council furnishes a table that allows for all but the preliminary cost (see table No. 2). The table includes terms of loans in a prevailing range—four to six per cent for 10, 15 or 20 years—but a smaller range may be used for illustrative purposes. As used here, the first column lists monthly "income for housing." The second and third indicate total home

costs, including the terms of loans at typical levels—five per cent for 15 or 20 years—used to indicate the price of the home that a given "income for housing" can finance. To set the table find your own "income for housing." Then read across to the column under the loan terms you desire. When you arrive at that figure, you add to it the down payment you can make. The total of these two figures should give you a good idea of the total investment you can handle.

The council urges (a) stay within your income, and (b) check your estimate with your lender's agency.

You also can work out an answer to the question: what are the costs of home ownership? Put down on a monthly basis if you prefer, the amortization costs (payments of principal and interest on your loan), fire, theft and any other insurance, taxes and an amount for repairs and upkeep (roughly and described). Add the figures and you will have an approximation of your home owning expense. Compare it with your "income for housing."

And handle the upkeep obligation with generous care! That man throws more householders than any other.

Danes Are Worried Over Shortage Of U. S. Cigarettes

(Fish In A Series)
By KAJ RICH
Copenhagen—In Denmark the first enthusiasm over peace has now given way to disappointment over the fact that no Virginia cigarettes are available. And official regret at the quantitative (quantity) shortage, especially in relation to England.

The latter does not have much to do with the current low prices for Danish products (beef, ham, etc.) raised only 25 per cent above the pre-war level, or the high prices asked for Danish products (the price of fish is still high). The explanation lies in the fact that Danish goods are returning practically empty.

This explains such writings in the financial press as: "The Danish financial position is not so good as it was when there is no better for England. If Denmark and other countries are not to have a chance to raise their living standards, they will find it more difficult to buy from them. If they do not buy from them, they will not buy from them. If they do not buy from them, they will not buy from them."

Some business people now are arguing that Denmark should not cut all its ties with Britain's market. They fear that Danish products will be warmly welcomed in the latter but be cheaply sold in the latter. The same products from the British dominions.

The coal or credit gap and Danish industrial production is another problem.

Aside from Britain the possibility of obtaining coal in Poland which is not buying foodstuffs, and is unable to offer credit. Thus far the only credit that has been obtained is a Swedish loan of 250,000,000 Swedish crowns, of which 50 per cent is going to repay Sweden for assistance given the Danish colonies in Brigid.

On top of this rather gloomy economic situation come new and not improper wage claims from workers and state employees. Several strikes had been held. Procedures to government headquarters have indicated groups for a 10-hour week, higher wages and restoration of the right to strike.

The coalition government, comprising old party factions and resistance members from Communist to Conservative, has promised to investigate all claims but has had no success so far.

All parties are awaiting the national election to disclose political strength. It is expected to reveal a strong leftward swing. Communists, who now hold only three seats of the 140 in parliament, are expected to win 15 to 20 this fall.

The proposed Communist-Socialist fusion still has not been decided, possibly because each group fears the other would benefit most.

The Communists here are fully democratic and have recently declared themselves to be absolutely democratic and parliamentarian, citing the per se conditions they offered in the war. They are very "soft" who fear if they lose their feelings towards defeatism.

The armed groups of the Danish resistance movement still have not been abolished as a matter of fact, mostly because each group fears the other would benefit most.

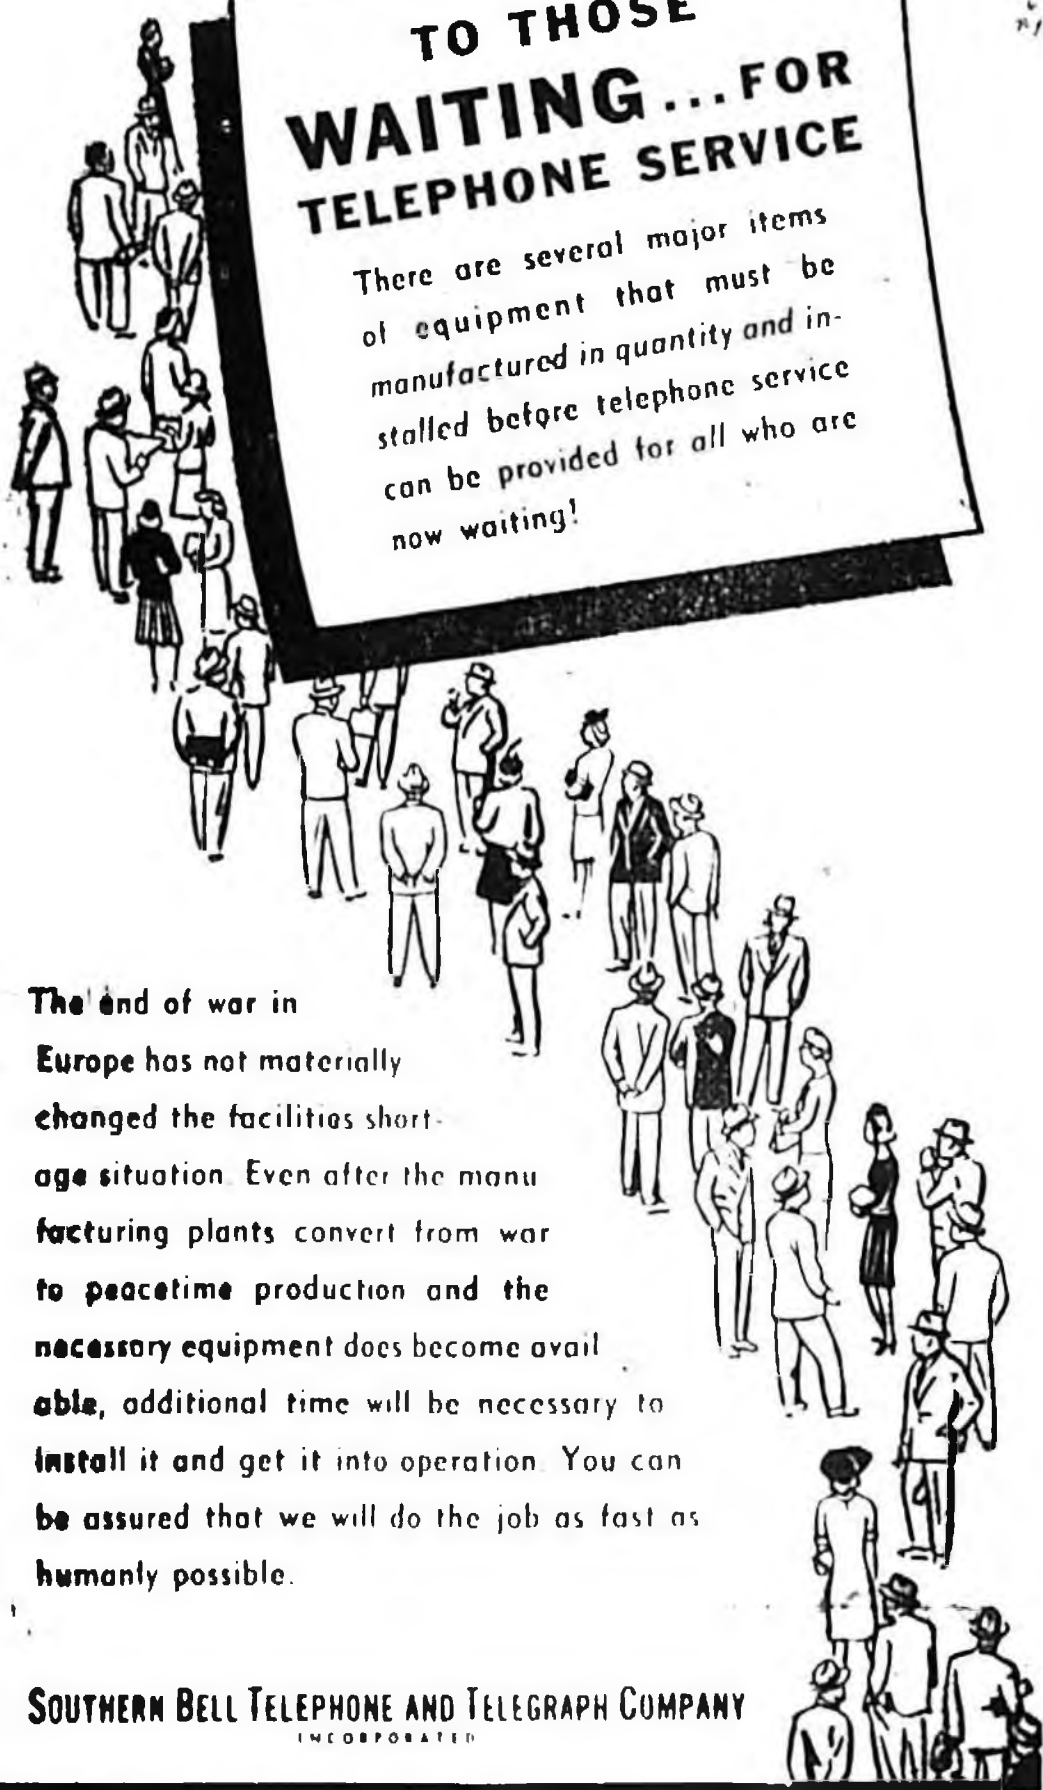

The Communists here are fully democratic and have recently declared themselves to be absolutely democratic and parliamentarian, citing the per se conditions they offered in the war. They are very "soft" who fear if they lose their feelings towards defeatism.

The Danish Farmers as a Whole Sliced Their Mortgage Debt in 1944, Bringing the Total Down to the Lowest Since 1916

The Danish farmers as a whole sliced their mortgage debt in 1944, bringing the total down to the lowest since 1916.

TO THOSE WAITING...FOR TELEPHONE SERVICE

There are several major items of equipment that must be manufactured in quantity and installed before telephone service can be provided for all who are now waiting!

The end of war in Europe has not materially changed the facilities shortage situation. Even after the manufacturing plants convert from war to peacetime production and the necessary equipment does become available, additional time will be necessary to install it and get it into operation. You can be assured that we will do the job as fast as humanly possible.

President's Press Secretary Is Old Hand At Reporting

By JACK STINNETT
WASHINGTON—Unless you are from the territory served by The St. Louis Post-Dispatch you are meeting Charles Griffith Ross for the first time.

In the next few years, the name of the tall, grizzled, slightly stooped, 50-year-old chief of President Truman's press corps will become as well known to you as did that of "Steve" Early who performed the same service for President Roosevelt for 12 years.

The name of Charles Ross may become even better known. President Roosevelt held his press conferences twice a week and when he made interim press announcements, they were made in his name. President Truman has indicated that he will hold a single press conference a week—more if needed—but even if he does, the name of Charles Ross will be the President's mouthpiece for the press and radio men.

Charles Ross is a tall, grizzled, slightly stooped, 50-year-old chief of President Truman's press corps will become as well known to you as did that of "Steve" Early who performed the same service for President Roosevelt for 12 years.

A canvasser of the Washington press had news correspondents make it plain that in their opinion President Truman could not have done better than select Ross.

Ross started his Washington career with the Post-Dispatch 20 years ago, and except for five editorial posts he has been in the Post-Dispatch since. He has a reputation for clear reporting and a thorough understanding of what goes on here.

Personally, there isn't much doubt that President Truman agrees with the assessment in their estimate of Charles Ross and Harry Truman were classmates 10 years ago. When the two of them got together, they called up their old English teacher in Independence, Mo., Mrs. Mathilda Brown, just to let her know that a couple of her boys were working together again.

When Truman came to the Senate from Missouri, Charles was a frequent caller at his office and intimates of both held that the advice committee Ross handed out on Capitol affairs and politics was always worth any news that was handed him in return. President Truman and Ross had been working together for years.

Ross was born in Independence in 1896 and took his degree at the state university 20 years later. One of his sons, the former chief of the Post-Dispatch, served three years in the army during the war. After several years of practical experience, Ross spent the next several years in the newspaper journalism faculty, but turned again to active newspapering when he became chief of the Post-Dispatch Washington bureau in 1937. He was the chief of the Post-Dispatch Washington bureau for the next three years and has since then had about all the honors that journalism can give. President Truman has named him to the top of the press corps.

THE Friendly RAILROAD

To the thousands of men and women who comprise the Seaboard family, the term "customer service" is not just a catch phrase. It is rather the outward expression of a sincere desire to treat our patrons as we would want to be treated if we were in their place.

A railroad is no different from any other enterprise, in that the human equation is vital to the success of the business. And while it is well known that courtesy is of first importance as a business builder, we take great pride in the fact that with Seaboard the friendly smile and cheerful word spring from that innate consideration for others which is the basis for all true courtesy.

The Seaboard's primary function is to provide adequate transportation service to the public. In the fulfillment of that objective it is our ambition to do so in such a way as to justify the claim—"once a patron, always a friend."

Those Boys Need You BUY WAR BONDS

Former GI Finds It Takes About Two Weeks To Get Army Out Of System

By HAL P. COOPER AP Newswriter
WASHINGTON—The first time two MPs came into a cocktail bar and I didn't reach for my pass I knew the Army was out of my system.

I'm glad to be able to say that a week after I got my discharge I could hardly tell an MP from a squadron barber without a program. I was also completely free of that impulse to salute second lieutenants—one way or another.

The discharged soldiers I know just want to go back quietly to a job. In two weeks you'd never know they had been soldiers and to tell the truth they never were—just civilians in uniform.

I have noticed that discharged soldiers adjust more easily to civilian life than civilians adjust to discharged soldiers. The civilians seem to feel that the man coming out of the Army needs special attention. It makes him feel conscious and uncomfortable.

They press drinks on him in bars. He'd rather they wouldn't. Maybe he can't afford to buy a round when his turn comes.

They introduce him around with embarrassing accounts of his prowess in battle when he'd a lot rather tell his own lies. They imagine war is what veterans want to talk about. Most veterans feel that to be happy arguing politics, whether the Giants can stay up there in the National League or what will happen when Joe Louis and Billy Conn get into a ring again.

Above all, civilians keep asking discharged soldiers how it feels to be out of the Army. All we ever can think of to say is "good" or "fine" or something equally inartistic. It makes us feel stupid. It makes it hard to concentrate on being a civilian.

Yesterday a friend of mine got his discharge and came home. He was a tech sergeant, top tur, "ret runner" on B-17's. He'd did 50 missions in the Mediterranean and then out of curiosity went out and did 25 more over Germany.

His curiosity is now satisfied. I called him up to welcome him back. Of course the first thing I asked him was, "How does it feel to be out of the Army?"

"Listen, Cooper," he said. "Did you ever know I came from Texas? Well, the reason you didn't was because I am the only living Texan who never bragged about Texas. I don't think the part of Texas where I come from is fit to live in. That's how much of an individualist I am."

"Well for four years that individualist was told what clothes to wear, when to get his hair cut, when to get his pants pressed, when to shine his shoes, when to shave, when to eat, when to eat, when to leave camp, when to get back, where to sleep, what
