

## Semi-Private, Private Rooms Affected

### Some Hospital Rates Higher Than Study Indicated

By ED PHICLETT  
Herald Staff Writer

Rates for private and semi-private rooms at Seminole Memorial Hospital are actually \$5 higher than listed in a study prepared by Hospital Administrator Bob Besserer and approved last week by the hospital's board of trustees, The Herald learned today.

Besserer presented the study to trustees, citing even with the higher rates approved Aug. 12, Seminole Memorial's rates in at least one category are in the top one-fourth of hospitals listed, not in the bottom three-fourths.

The board approved — on Besserer's recommendation — an increase in rates from \$55 to \$63 for private rooms and a \$50 to \$58 hike for semi-private rooms.

A hospital spokesman confirmed Seminole Memorial presently charges \$60-a-day for some private rooms and \$55 for some semi-private rooms, as of Aug. 12, were priced at \$50. In reality, only 44 such rooms were in that price range while another 166 rooms, in the semi-private classification, were scaled at \$55 per day.

The same omission occurred in the private room classification, which showed these rooms priced at \$55 per day. Actually, only two of 18 such rooms were priced that low while 17 others were priced at \$60 per day, again, as of Aug. 12.

"We just found out about it. There is a discrepancy, and it'll have to be straightened out. . ."

—A Hospital Spokesman

When the board-approved increases go into effect within 60 days, semi-private room rates will jump to \$63 daily and private room rates will go to \$68.

The study did list deluxe private rooms at \$60-a-day, and the board approved a hike in that category to \$68-a-day.

A hospital spokesman called the differences a "typographical error" and promised to check it out.

"We just found out about it. There is a discrepancy, and it'll have to be straightened out. . ."

—Mrs. Sophia Shoemaker said, "I prefer you discuss this with Mr. Besserer or Mr. (John) Evans." Evans is board chairman.

Contacted at his office, Evans said he would "talk" to Besserer when the hospital administrator returns from vacation.

Evans said none of the board members have the "time or the expertise" to check into details or recommendations made by hospital administrators.

Evans said he wasn't aware of the difference in rates, but he promised to find out the reason.

"I don't know until it can be brought up at a board meeting."

"All I can do is ask him (Besserer)," Evans said.

Besserer is out of town on vacation and is expected back in Sanford on Monday.

Of the hospitals surveyed by Besserer, rates for semi-private rooms at Seminole Memorial in 60 days will be higher than nine of 12 hospitals included in the study.

Besserer's second in command, Reid Brodie, the hospital's officer in charge of personnel, declined to discuss the matter.

"I'm not in that department," Brodie said.

Trustees contacted today were unaware of the "discrepancy."

## Sheriff Appeals Budget

Ken Monroe, county sheriff's department comptroller, flew to Tallahassee today to deliver Sheriff John Polk's \$2.6 million budget appeal to Lt. Gov. Jim Williams.

Meanwhile, the County Commission, which approved a \$2.3 million 1975-76 budget for Polk has replied to the appeal petition saying Polk's request is "unwarranted."

Monroe also will present to Williams a copy of the commission's reply to the commission's reply to the Department of Administration Wednesday, the final day for filing the reply.

The Department of Administration will consider setting a public hearing on Polk's appeal which will entitle sheriff's department personnel and commissioners to have vocal arguments over the more than \$300,000 difference.

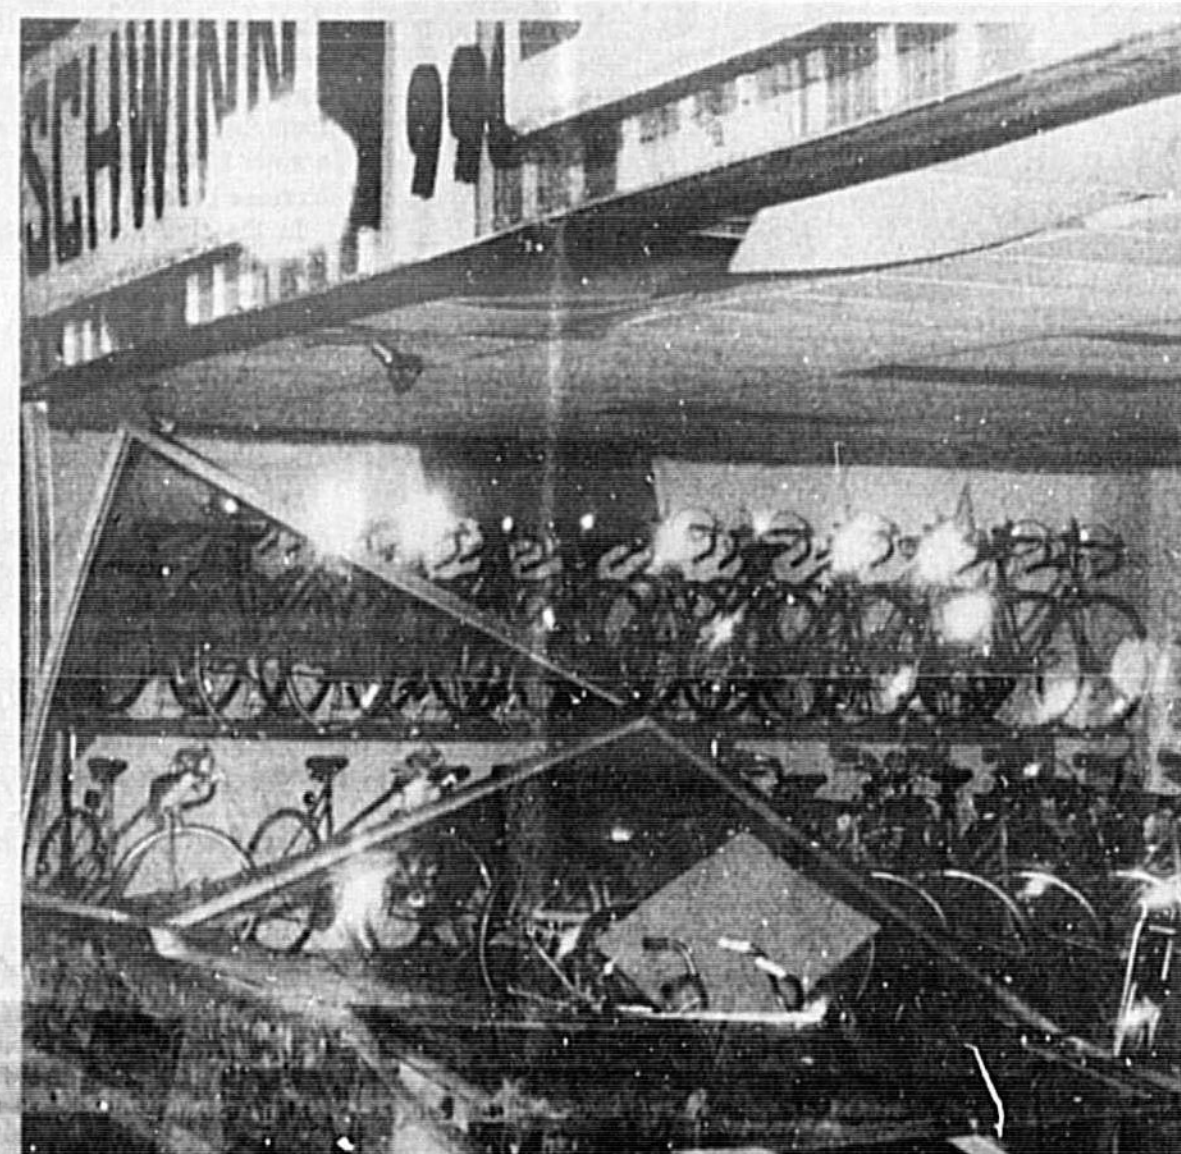

The commission's reply states that for the sheriff "to ask for any more money at the time when the tax revenues are down is an unprincipled and unwarranted request."

After the commission approved the \$2.3 million budget, Polk said the money is "not sufficient" to operate the county's law enforcement agency for the next year.

"The budget approved by the board is not sufficient to operate the sheriff's department in an effective and efficient manner," Polk said.

He said the full \$2,635,913 budget request is necessary to fulfill the obligations of this office.

The difference between Polk's original request and the budget approved by the board is \$285,966 which is reflected in the areas of deputies salaries, social security and retirement, expenses other than salaries, capital outlay, investigations and contingency, Polk said.

The front windows of the Schwinn Bicycle Shop on SR 436 in the Fern Park area were blown in, leaving some water damage in the wake of the windstorm.

## Devastating Storm Rips South Seminole

By DONNA ESTES  
Herald Staff Writer

An unconfirmed tornado cut a one-half mile wide swath down the SR 436 corridor in South Seminole County last night, leaving "several hundred thousands dollars worth of damage" in its wake, Altamonte Springs Mayor Norman Floyd said today.

"It is difficult to give an exact damage estimate at this time," Floyd told The Herald, adding city personnel in the police and fire departments, utility and street departments were called to duty last night and were continuing a cleanup operation today.

The Altamonte Springs Police Department said a citizen reported shortly after 7 Wednesday night of spotting a tornado in the vicinity of U.S. 17-92 and SR 436. Heavy rains, hail and high winds struck an area one half mile wide and four miles long for a period of two to three minutes. The police department spokesman said half the site of golf balls was reported.

"It just happened 'Bing,'" said Bill Slevin, general manager of the Days Lodge on Douglas Road north of SR 436. "The roof of one of the (Days Lodge) buildings was peeled back and a portion of that building was evacuated as a precautionary measure because of excessive water. We turned the power off and moved occupants of 27 suites into vacant suites in another building," he said.

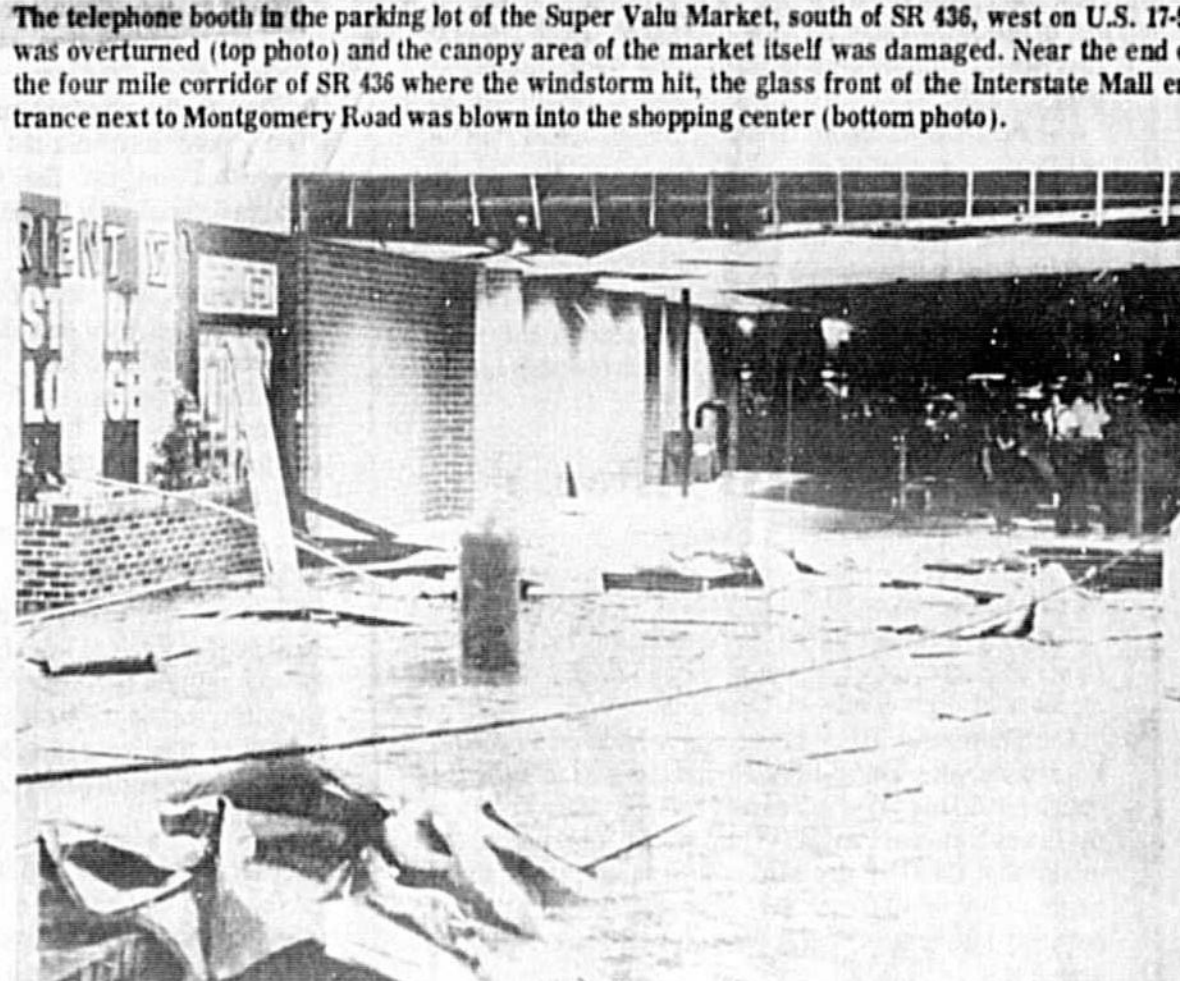

Slevin said the portion of the roof that blew off in turn blew in some of the balcony railings, knocking them down. No one was injured, but some vehicles in the parking area of the motel may have been damaged.

"It seemed to be a sudden thing," Slevin said, adding adjusters are assessing the damages today.

The Altamonte Springs Keller Road sewer plant, near the Orange County line, recorded three inches of rain in an hour. But, Mayor Norman Floyd said the rain was much heavier in the downtown section of the city.

"We (the mayor and City Commission) were having a budget meeting. I looked out the window and could barely see the side-walk, but could not see my car in the parking lot. "One heck of a lot of water"

(Continued on Page 12-A)

The telephone booth in the parking lot of the Super Valu Market, south of SR 436, west on U.S. 17-92 was overturned (top photo) and the canopy area of the market itself was damaged. Near the end of the four mile corridor of SR 436 where the windstorm hit, the glass front of the Interstate Mall entrance next to Montgomery Road was blown into the shopping center (bottom photo).

## Ex-Policemen Isolated After Report Of Threat

By BOB LLOYD  
Herald Staff Writer

Officials at the Lake Butler state prison reception and medical center today confirmed that three ex-city of Sanford employees — two former policemen and a former animal control officer — are being held in "protective custody" after death threat rumors, but said the alleged threat hasn't been substantiated.

Lake Butler Supt. J. B. Godwin said there is no "active investigation" under way concerning the alleged threat or a reported "contract" in the life of former policeman Raymond Bennett, 30, of 113 Country Club Circle, Sanford.

Bennett, former patrolman Hiram Hamlin, 22, of 2831 Magnolia Ave., and former animal control officer Robert Ray Campbell Jr., 23, of 1513 1/2 Palmetto Ave., were sentenced to prison June 17 after pleading guilty in connection with a nighttime burglary ring operation.

Relatives of Bennett said they received a letter from the ex-officer saying he was moved to isolation after rumors at the prison of a "contract" to kill him.

The letter reportedly also stated that Hamlin and Campbell were in danger of bodily harm.

Bennett was sentenced to seven years prison and eight years probation; Hamlin to five years prison and five years probation; and Campbell to 10 years in prison. A circuit court

## Charges Of Impropriety Bring Moratorium Bid

By MICK LOCHRIDGE  
Herald Staff Writer

Seminole County Commissioner Mike Hattaway will request a 30-day moratorium on purchase negotiations for a clay pit to "clear the air" with citizens over impropriety with the county's selection and purchase of the 104-acre clay pit site.

Hattaway, project commissioner on clay site selection, announced in a press conference Wednesday, his intention to request the commission next Tuesday for the 30-day delay. He said he had not consulted commissioners prior to his announcement.

Meanwhile, Tom Dewolf, vice-president of the Markham Woods Residents Association, said he will use the 30 days to investigate the feasibility of operating a clay mining pit at the site west of 14, and east of Markham Woods Road.

The Markham Woods residents have protested the location of a clay pit in the vicinity of their homes because they contend the county did not make a thorough search for a broker on the land deal.

The salesman for Laurel Realty is Tom

would reduce the living quality of the area.

The county plans to purchase the land with revenue bonds from Lester Mandell, president of Greater Construction Company for \$517,000. Mandell said Wednesday he had no objections to a 30-day delay. Hattaway said the payment was to be made in November.

Meanwhile, Asst. County Property Appraiser Bill Suber reports the land is assessed at approximately \$280,000. But Hattaway says the property assessment is "no barometer to go by when purchasing land."

Hattaway said he requests the Markham Woods residents to investigate the contact between the county and Mandell and for them to look for another site for the clay pit.

Hattaway says he is "reassured" the residents will "find nothing wrong" with the contract and said "I don't think they can find another site." He said he would take a "hard look" at a better site.

Several residents Tuesday night questioned the contract because Laurel Realty was a

The county plans to purchase the land for \$517,000. The land is assessed at approximately \$280,000, according to Assistant County Property Appraiser Bill Suber.

Binford, County Attorney Tom Freeman's first cousin.

Freeman said he did not know what would happen should the county change its mind on a clay pit site.

"There is a legally binding contract with Greater Construction Company and the county," Freeman said today.

Hattaway says he wants to "discuss intentions" that the county's overpaying for the property and that "something is wrong with Laurel Realty receiving a commission."

Mandell said a \$60,000 broker commission will be split \$30,500 between Laurel and Metropolitan Realty, a company owned by Greater Construction Company.

## Hattaway Seeks Delay On Clay Pit Negotiations

Binford said he learned the county was looking for a new clay pit site from news reports and asked Mandell for the listing on the land. Binford also said he suggested that Mandell deal directly with the county because Binford is Freeman's cousin. Mandell then approached the county with the deal.

Hattaway says he dealt only with Mandell and contends what commission Mandell pays a broker is Mandell's business. He says the county could not have purchased the land for less than \$517,000.

"The county got a good deal, and I got a piece of the action," Binford said Wednesday. "The deal is strictly above board, ethical and clean."

Binford said Laurel will receive 50 per cent of the \$50,000 commission and he will receive one half of Laurel's commission.

Hattaway said he had not consulted with Freeman or any commissioners prior to Wednesday's announcement for a moratorium. He said he was concerned with the "reputation" of the commission and the staff.

Dewolf, an attorney, requested a 30-day period Tuesday to comply with the appeal period on the county's Board of Adjustment, which approved the pit application Monday.

In a 3-2 vote Tuesday, the commission also approved the application.

"I assume the delay is in line with my request," Dewolf said. "My concern is not looking into the contract, but looking for another clay site."

Dewolf charged the county has not made a thorough search for a clay pit site.

"They have to make a thorough search and they haven't done it," he said.

However, County Engineer Bill Bush said the county has made a "reasonable, diligent, and sufficient investigation and search for a clay pit." The clay will be used for construction of roads.

He says the Mandell site is the "best" clay resource in the county for the price and the clay yield. He said 15 sites were investigated prior to the Mandell selection. Bush says the 14 corridor has the highest clay yield in the county.

## Cuban Changes To Come Slowly

The Herald Services

Cuba is now officially out of the Latin American doghouse. The Organization of American States has lifted sanctions imposed in 1964. The United States voted to end the boycott, but not its own 1962 one yet.

First, it will seek an agreement on the \$1.8 billion claims for expropriations against Fidel Castro's government; then a great legal and administrative web of boycott rules must be undone. Neither is expected before the presidential elections of November, 1976.

Cuba will not gain immediately from the OAS-opened door. Several countries have been trading regularly despite the boycott. Mexico never boycotted at all. Russia is still Cuba's main trading partner; and Comecon, the eastern trading block, is still over a half of Cuba's export market.

Since Cuba joined Comecon in 1972, exports to eastern Europe and Russia have more than tripled, to \$1.5 billion in 1974. Exports to Japan and western Europe have jumped from \$218 million in 1970 to \$590 million in 1974; imports from these countries have risen from \$362 million to \$846 million.

1974 sugar harvest was good at 5.3 million tons; recent reports suggest the 1975 crop is about the same, though drought damage could bring it down.

World prices for sugar have dropped, but most of the Cuban crop is anyway committed. Cuba says that its real GNP under long-term, presumably costly, top-secret contracts with Russia. At present, Cuba depends for 65 per cent of its foreign-exchange earnings on

FIDEL CASTRO

sugar, which brought in an estimated \$1.5 billion in 1974. Cuba wants to diversify. With the world's second-largest known nickel reserves, it is expected to pour half a billion dollars' investment into doubling output by 1980 to 65,000 tons a year. Tourism will be another key foreign-exchange earner in the forthcoming five-year plan, to be published in October.

Cuba is now regarded as creditworthy. Recently it went to the Euromarket for a D-mark loan worth \$100 million. No American bank could subscribe, but Russian, Canadian, British, Italian and Middle East capital lapped the loan up. That brings credits for Cuba to just under \$2.5 billion since August, 1973.

Generous export credits have come from Argentina, partly to finance sales of vehicles by Ford's Argentine subsidiary to Cuba; this is the only notable instance of alleged circumvention of the boycott by an American multinational. Cuba says that its real GNP rose by 11 per cent in 1973 and 10 per cent last year; if so, it had the highest growth rates in Latin America, beating even Brazil.

The Herald Services Charles Percy and Adlai Stevenson, the senators from Illinois, who he worked for so many years, and even of the Speaker of the House of Representatives, Carl Albert of Oklahoma, where Boorstin grew up.

But Boorstin's nomination to run the Library of Congress has become an unexpectedly hot political issue of the torrid Washington summer. He is direct one of the world's great research institutions and to administer the most extensive library anywhere on this globe.

(Senator Cannon's committee has opened hearings on the eleventh man to be named to the position by the President since the Library of Congress was established in 1800 — the hiring of Daniel Boorstin, an eminent historian, for 25 years a member of the academic staff of the University of Chicago, fresh from a successful stint as director of the Smithsonian Institution's museum of history and technology and recent winner of the Pulitzer prize for his third volume of his uniquely irreverent history of "The Americans: The Democratic Experience".

Boorstin's personal political views have come under attack from various sides — once a member of the American and British Communist parties, he later recanted and testified before the House Un-American Activities committee, and eventually became a philosophical friend of the conservative former vice-president, Spiro Agnew.

# Devastating Storm Rips Through South Seminole

(Continued From Page 1-A) Power generators at some of the city's utility plants were knocked out, requiring emergency power to be switched on. The four-mile long damage area in the SR 436 corridor apparently began in Casselberry's Seminole Plaza where the store window at the Shoe Tree was blown in. Damage has been estimated at \$125 to \$150. Power was out in the downtown Casselberry area for one hour to 90 minutes, according to the Casselberry Police Department. Large hail stones, measuring as much as one inch across, fell in many areas of Casselberry. Debris from falling trees was being cleaned up today. Seminole Sheriff's Deputies reported eight window panes at the Central Florida office of the American Red Cross, 99 W. 436, Fern Park, were broken in the front window. A screen was damaged when a large piece of

plastic from "some nearby business" was blown against the front of the building by high winds. Deputies reported \$4,000 in damage at Valley Forge Apartments on SR 436 in Altamonte Springs. Deputy David Duguid reported high winds destroyed a sign, outside lights, six flag poles and pool furniture and a cupola was blown off a roof and a top off a pump house. At the Club 436 parking lot, a 1972 Pontiac Sedan, owned by Catherine B. Quinn, 115 Salem St., Altamonte Springs, sustained \$500 in damage when the wind blew a steel chimney plate from a nearby building onto the car. Injured from flying glass, according to Deputy Ed Standley, were William Jones, 24, with a shoulder cut and his wife, Marcia Jones, 25, who suffered a cut on her left knee and right arm. Both were treated in the emergency room at Florida Hospital North and released.

The front of the store was severely damaged. None of the store personnel were injured. At the Interstate Mall, south of SR 436 at Interstate 4, the whole glass front at the main entranceway next to Montgomery Ward store was blown into the lobby. "There could have been a lot more damage and many more injuries if the windstorm had struck a residential area rather than the SR 436 corridor, Floyd said.

The speaker was a regular driver at Volusia County Speedway. The driver he spoke of was Tiny Lund, who was headed again for the victory circle at VCS. And I thought he had to be the best short-track racer around. The last time Tiny was down this way, he told me he had an open date in his schedule and came down from some fun racing. He was bidding for the late-model sportsman championship. I asked him about "fun racing" and he just laughed. "Well," he said, "when you are running for the points, you run with 10 or more cars that really make you push your car to the extreme. Therefore you don't have a chance to

## They're Going To Miss That Man

### Pit Stop

By CARL VANZURA

"Look at that. Have you ever seen anybody put a car around the track like that?" The speaker was a regular driver at Volusia County Speedway. The driver he spoke of was Tiny Lund, who was headed again for the victory circle at VCS. And I thought he had to be the best short-track racer around. The last time Tiny was down this way, he told me he had an open date in his schedule and came down from some fun racing. He was bidding for the late-model sportsman championship. I asked him about "fun racing" and he just laughed. "Well," he said, "when you are running for the points, you run with 10 or more cars that really make you push your car to the extreme. Therefore you don't have a chance to

enjoy the race." Tiny also said that the big-point races were on asphalt, and he liked to run on dirt tracks because he could put on a show for the crowd. That night he said that Ray Gardner's win streak was about to end and it did. Lund's No. 55 took the

checked flag once again. Tiny was an aggressive driver that would take, but never give an inch. If a car got around him, the driver deserved it. But usually, Tiny would come right back and put his car in front. Most drivers knew not to lean on Lund, because Lund would lean back harder. In Jacksonville earlier this year, Tommy Higgins and Lund were in a shoving contest. The result was Higgins' car in the wall and Tiny out of his car chasing Higgins and crew over a fence. The next week Lund and Higgins were pitted next to each other, best of friends again. Tiny, a giant of a man, (6-feet, 4-inches; 250 pounds) spent most of his time in late-model sportsman action, but was a threat with good equipment on the superspeedways.

He held the record with 41 Grand American wins, and he was the 1973 Grand National East champion with five victories. He also won the Grand American title in 1968 and 1971. In 1970, he won 19 Grand American races, including 10 straight. Lund's biggest win was the 1963 Daytona 500 when he drove a Wood Brothers Ford. Tiny's game now, having died in a wreck at Talladega Sunday, doing what he did best in this world — bringing a lot of enjoyment to the people he knew with his sharp wit and never-ending jovial mood. For his racing fans, he would broadside his car through the turns sideways, even if he was a lap ahead. He knew that's what they came to see. They came to see Tiny. And they're going to miss that man.

## Seminole Beefs Up Grid Duo

By JIM HAYNES  
Herald Staff Writer

Gerald Meyer and Ken Adams would rather switch than lose, and that's not necessarily good news for football opponents of Seminole High School. When spring training concluded last May, Meyer was a guard and Adams a tackle. Seminole Head Coach Jerry Posey didn't feel things were secure on the offensive line, and made changes "to shore up matters." Changes included moving Meyer to center and bumping Adams over one slot to guard. "This has beefed up both positions," said Posey before practice Wednesday, a myriad of conditioning drills and various shulldgery expected to result in pass receivers running correct routes, guards punting and tackles tackling. Seminole has 33 candidates for the varsity squad undergoing twice-a-day workouts. Posey inherited eight returning starters from the 4-5-1 team coached by Claude Woodruff last year. Meyer and Adams exemplify results of a solid off-season weight program. Running through calisthenics with dispatch, their rippling muscles peeking from shorts and T-shirt attire, both appear in midseason physical form. "It took me about one day to get the knack of snapping the ball," said Meyer. "Right now I'm working on getting my forearm up and firing out. I like it (center) — anything that will help us win. And I think we got something going. Spirit is good. And we are looking good, too." Meyer, the 18-year-old son of a Sanford insurance agent,

Gerald Meyer, left, and Ken Adams sweat through a Seminole practice. (Herald Photo by Gordon Williamson)

## Phillips Sells Winning Idea To Houston

HUNTSVILLE, Tex. (AP) — Houston Oiler Coach-General Manager O. A. "Sam" Phillips must feel more like a salesman than coach of a National Football League team. Last season as Oiler defensive coordinator, Phillips had to sell former Coach Sid Gillman on the idea that his three-man front defense would work. Then he had to sell his skeptical players on the idea, including defensive end Elvin Bethea and middle guard Curley Culp. After a 7-7 finish in 1974, Phillips reaped quite a bonus for his selling job.

But now Phillips is back selling again, this season as head coach, and he thinks what the Oilers started last season under Gillman can continue under the new administration. "There's not a position on this team that I don't feel good about," the burr-headed Phillips says. "That doesn't mean we don't have problems but I like our potential." Houston's greatest potential seems to be defense, which repeatedly picked up a sagging offense last season and helped the Oilers become the biggest turnaround team of the year. Acquisition of middle guard Curley Culp from Kansas City solidified Houston's defensive front along with ends Tody Smith and Elvin Bethea. The strong inside linebacking of Steve Kiner and Gregg Bingham should be even better this season. Phillips successfully made his point about training camp tactics. The Oilers reported to camp three weeks later than under Gillman and did not hold a full scrimmage prior to their first exhibition game, a 13-7 victory over New Orleans. "I think we can teach more in small groups," Phillips said. "We're here to learn anyway and get ready for the regular season." Houston's offensive hopes this season once again hinge on development of a solid running game and finding a big running back. Injuries and misuses last season held Oiler rushers to an average of 97 yards per game.

## Auburn Eyes Year: Shug's Last Stand

AUBURN, Ala. (AP) — Next January, about the time they start picking college football's national champion, Auburn's Ralph "Shug" Jordan won't be sitting at his head coach's desk wondering if there's enough room in the trophy case for another gridiron prize. Instead, Jordan will have hung up his cleats and field jacket, put on a new hat and taken a prestigious seat at Auburn's Board of Trustees table. Instead of debating end runs and cross bucks, he'll be huddling with businessmen and educators, plotting the university's multi-million dollar educational strategy. But Jordan, from his trustee's chair, probably will be looking over his shoulder at the Top Ten polls as well. His War Eagles, which finished eighth in the nation last season, are likely to be in the thick of the Top Ten running again. And why not? This season is Shug's last stand. The gentlemanly Jordan announced last spring that the coming football campaign will be his 25th and last at the helm of the Tigers. That prompted Gov. George C. Wallace to pick Jordan for a trustee's post when the season ends. And, if it ends as it has for 12 of the last 25 years, Jordan will move to his new job after the post-season bowls around the first of January. His duties to the college football world should be full of cheers — the kind you hear at Auburn victories. His squad has had all spring and summer to make a blood pact that Shug will go out a winner. But it won't be easy. The Tigers lost eight mainstays from the 1974 defensive unit that guided Auburn to a 9-2 record and a 2-3 manhandling of Texas in the Gator Bowl. Returning to lead the defense is Liston Edkins, a 6-foot-4, 230-pound end who can count on 225-pound tackle Rick Telfair for a lot of help. Shoring up the secondary will be senior Rick Neel, a journeyman back who has switched from offense to a safety slot.

## Angel Answer: Ryan Back

By THE ASSOCIATED PRESS

The California Angels have speed on the mound and speed on the basepaths; but in the home run derby, they're slower than a home run trot. "As goes the pitching, so goes the Angels," says California Manager Dick Williams, whose club has connected for a major league-low of 42 homers this season. "We're still trying to catch Roger Maris."

The pitching went well Wednesday with fireballer Nolan Ryan blazing his high, hard ball once again after missing 11 days with a combination of a pulled groin muscle and control problems. Ryan gave up three hits before being relieved in the eighth inning as California beat the Milwaukee Brewers 6-1 for Ryan's 13th victory in 25 decisions. Elsewhere in the American League, Oakland beat Detroit 3-1; the Chicago White Sox dumped the New York Yankees 5-3; Kansas City topped Boston 3-1, and Baltimore shaded Minnesota 3-2. Ryan managed a leadoff single to Bob Sheldon in the first inning and then didn't give up a hit until the eighth when Bill Sharp doubled and then scored on Robin Yount's double. At that point Ryan was lifted for Andy Hassler. "I slowed up my delivery after the first inning and things fell into place," said Ryan, who struck out nine and walked three. "I'm still not completely in the groove, but I'm satisfied with the way I threw the ball today."

A's 2, Tigers 1  
Pitchers: Tony Siebert and Jim Todd, who were not with the team at the start of the season, combined to pitch a fourhitter and the A's ended Detroit's four-game winning streak. Siebert allowed three hits in the first five innings to pick up his third victory of the season. Todd blanked the Tigers on one hit over the final four innings for his ninth save of the year.

White Sox 5, Yankees 3  
The Yankees dropped to 9-10 under new Manager Billy Martin, the first time they've been under .500 for games Martin has managed.

Chicago's Wilbur Wood, 13-16, broke a personal three-game losing streak with a six-hitter. After Bobby Bonds' three-run homer in the second, Wood surrendered only two more hits the rest of the way.

Royals 3, Red Sox 1  
Rookie Dennis Leonard held Boston to six hits and hit-batting John Mayberry had three hits in Kansas City's victory. Mayberry stroked the first of his two doubles in the fourth and scored on George Brett's single. After a walk to Tony Solaita, Al Cowens followed with an RBI double. Amos Otis slugged a two-out triple in the fifth and came home on Mayberry's double.

Orioles 3, Twins 2  
Ross Grimesy hurled a seven-hitter as the Orioles picked up a game on the Red Sox and now trail Boston by seven games in the A.L. East. Dave Duncan scored the Orioles' third run in the ninth when he doubled and came around on Tommy Davis' infield single, which scored baseman Rod Carew threw past first for an error.

## Halicki Gets A Licking

By THE ASSOCIATED PRESS

San Francisco's Ed Halicki was displaying his knowledge of the Pittsburgh hitters again Wednesday night when they suddenly taught him a thing or two. "For a young guy, Halicki knows our club very well. His pitching pattern against us is excellent," said winning pitcher Jim Rooker after the Pirates rallied for three runs in the eighth inning and a 3-1 victory over the Giants. The victory was the Pirates' second in a row — the last time that happened was an Aug. 3 doubleheader — and kept them one game in front of Philadelphia in the National League's East Division. The Phillies defeated the Atlanta Braves 4-1. Meanwhile, the St. Louis Cardinals remained 7½ games back by blanking the Cincinnati Reds 4-0, the New York Mets dropped five games out by losing to Houston 5-4 in 10 innings and the San Diego Padres outlasted the Montreal Expos 8-4. The Los Angeles Dodgers and the Cubs were rained out in Chicago. The Pirates, who had dropped 11 of their last 13 games, were blanked on two hits for 7-13 innings by Halicki, who had beaten them three times this season. But Richie Zisk got an infield hit with one out in the eighth, took second on Manny Sanguillen's single and scored the tying run on rookie Craig Reynolds' double. Following an intentional walk to pinch hitter Bill Robinson, Randy Moffitt relieved Halicki and Rennie Stennett rapped a tie-breaking two-run single. Cardinals 4, Reds 0  
Bake McBride drove in three runs with his third and fourth homers — his first since May 2 — and Ron Reed pitched a four-hitter as St. Louis ended Fred Norman's six-game winning streak. Ken Reitz' run-scoring single broke up a scoreless double in the fourth following hits by Willie Davis and Reggie Smith. An inning later, Lou Brock singled and McBride drove the next pitch over the right field fence near the foul line. The speedy outfielder later greeted reliever Will McEaney with an inside-the-park home run in the eighth. Reed permitted singles in each of the first four innings, then set down 13 batters in a row following Tony Perez' lead-off hit in the fourth. After an error by shortstop Mike Tyson, Reed retired the last five batters to end the game. Phillies 4, Braves 1  
Greg Luzinski drove in his 100th run of the season with a seventh-inning double and Dave Cash delivered a pair of run-scoring singles. Larry Christenson was lifted for a pinch hitter in the seventh after allowing only three Atlanta runners to reach base, two on singles and one on a walk. Astros 5, Mets 4  
Cesar Cedeño led off the 10th inn-4 with a single off rookie Rick Baldwin and scored on Cliff Johnson's hit-and-run double for Bill Virdon's first triumph as manager of the Astros. Johnson hit his 12th home run in the sixth inning. Padres 8, Expos 6  
Eduardo Hernandez snapped a 5-5 tie with a three-run double in the seventh inning, and Gene Locklear knocked in four runs, three with his fourth home run of the season.

A Ford In His Future? Rockefeller Faces Rocky Road

WASHINGTON - (LENS) - When President Ford set up his election campaign office last month, Vice President Rockefeller lost no time in remarking: "I am not a candidate; have you ever heard of anyone running for vice president?" As a matter of fact, people have been known to campaign openly for the vice-presidential nomination, if only in the Democratic party where pretty well anything is permitted. Nothing comes of such open campaigns because, in nearly every set of circumstances, a vice-presidential candidate needs only one vote, that of the nominee for president, to whose choice the national party convention must, almost inevitably, defer. In that sense Rockefeller was right, but there are other ways of running for vice president, as Hubert H. Humphrey demonstrated in 1954 when the choice was up to President Lyndon Johnson. Humphrey's problem was to convince the sole elector, Johnson, that choosing Humphrey would be the best thing for the party, the campaign, the administration and the president's personal happiness and peace of mind. This was a delicate operation, needing no brass bands or booster demonstrations, but the president was duly convinced and chose Humphrey, not without keeping the suspense up until the end. It is of course, a method that can work only when the identity of the presidential nominee is known in advance of the nominating convention. Just such a case has come to pass through the replacement of Mr. Nixon, who would not have been eligible to succeed himself again, by Mr. Ford, who is eligible and running. President Ford will be the Republican candidate next year, barring some strange and unexpected turn of events. It is, therefore, inevitable, therefore, that he will find himself in possession of the single vote for the Republican vice-presidential candidate. He could choose not to exercise it, and leave the party's national convention to fight the matter out; that would be unusual, and risky. He could foreclose the question by announcing his choice in advance, but why should he do that? It would not help his own nomination. If his nomination needed any help, which it does not, the man most likely to help him to be nominated would probably not be the right one to help him to get elected, simply because the party is not the country. What Mr. Ford has done is to say that while he entirely approved of his vice president and was "for" his nomination, he and Rockefeller would campaign for their own and the decision would be up to the delegates. If Rockefeller were to take these words literally and act upon them by running a separate public campaign for himself, he would be more likely to damage his chances than to help them. Presidents do not want vice presidents thrust upon them; a vice president who did manage to thrust himself, if that were possible, would quickly find his official life not worth living. For Rockefeller, in addition, life as a private person holds no great terrors thanks to an abundance of wealth, position, influence, interests, health and vigor that is unusual in vice presidents. If he stays, he wants to stay because he is wanted; were he to leave, he would want to leave gracefully trailing the perfume of success. Plainly Rockefeller's campaign has to be of the private kind, designed to sustain Mr. Ford's conviction of his usefulness in office and value in the national election, while disarming opposition within the Republican party that might, if strong enough, make him an awkward man to nominate. These are perfectly feasible aims. His chief difficulty with the
