The Next Boom!

If it is true as General Johnson and Karl Lehmann insist, that the country, in general, and Florida, in particular, are on the verge of another boom, we are wondering how the people of Florida, especially, will take it. We wonder how many people actually learned a lesson in the last boom and that time when money became plentiful, will know what to do with it. If those who went through that mad and hectic period of 1924-25 actually received any benefit from it, they certainly will not make the same mistakes again as they did then.

SANFORD TWENTY YEARS AGO

At a meeting of the officers of the Elks Lodge here last night, the president, Dr. J. J. Kelly, decided to give a talk on the building boom of 1924-25. He said that the boom was a result of the war and that it was a result of the war and that it was a result of the war.

Almost everyone in those days could make money and big money. It was not true at all to say an effort was made to get a comparatively few dollars. Practically everyone was making money in real estate, in stocks, in bonds, in the bank, or in some other way. The boom was so general that it was almost impossible to get a comparatively few dollars.
