Federal Control Of FEC Urged

Autumn Arrives: Snow In Rockies, 90s In Northeast

United Press International
Autumn rode in on brisk winds today serving the Great Plains, where temperatures slid to the 30s.

Snow whitened wide areas of the Rockies and the Dakotas, and flood threats remained in some areas of the south central states.

Fall officially arrived at 1:06 a.m. (EDT).

The weather bureau said the thousand-mile a day front that soaked the nation's mid-section with up to eight inches of rain was finally losing its punch. Locally heavy rains fell during the night in Texas and Mississippi.

The swollen Pedernales River all but isolated the town of LBJ Ranch today at Johnson City, Tex. The river, 20 feet above its normal level, covered two bridges to the ranch and left a rough dirt road as the only access.

Reports from the northeast provided sharp contrast to the nippy Great Plains readings. The mercury was expected to hit the 90s again in the northeast.

Herders were moving nearly 10,000 sheep out of the Big Horn Mountains' summer range northwest of Casper, Wyo., Wednesday.

The girls, Diana Bevester, a week by 10-foot snowdrifts in an area where grazing usually continues until October. Herdies or stock losses were reported.

50 YEAR Masonic pins and gold membership cards were presented at Wayfarers meeting in DeBarry Civic Center to Herbert Olsen and Ralph G. Beidler (seated, left to right). Distinguished officials present were (standing, left to right) Samuel H. English, president of DeBarry Wayfarers; John A. Fuller of Sanford, district deputy grand master, district 15, and Woodrow Cash of Sanford, past deputy grand master. (Middleton Photo)

Music Teacher Shot To Death

HOT SPRINGS, Va. (UPI)—A preliminary medical report revealed a young Georgia girl who had come to Virginia to teach music was shot to death. The girl, Diana Bevester, was shot in the back of the head by a 22 caliber pistol, a 100-foot shot, near Ingalls' airport near here.

Both County Commonwealth's Attorney Erwin Bolman and the state's chief medical examiner said the girl had been shot in the back of the head. Three investigators were summoned to the site where the girl was found. They said a 22 caliber pistol was found within five feet of the spot where the girl had come to rest. Although the area had been searched before, they said no weapon had previously been spotted.

Authorities refused to speculate as to whether the death was due to murder or suicide.

Miss Wickerham, a 1964 graduate of the University of Georgia, had been found driving alone in the high-mountainous country around Covington, where she taught music in several elementary schools.

She disappeared Sept. 5 after her roommate said she left their hotel room to put her car away for the night.

State police had originally counted the death as a highway fatality but they asked her name be deleted from the fatality count "as her death was not caused by injuries received in a motor vehicle."

A final medical report was expected from Dr. Mann by early next week.

Odd-Ball Letter Delivered By Post Office Dept.

NEWARK, N.J. (UPI)—The letter was addressed to Dr. Thomas G. Dickinson, 187" north latitude: 8232" Newark's post office had received all kinds of odd mail, but this one had the mailman stumped until Postmaster Joseph J. Benucci observed: "The two lines have to cross one point, let's see where it is."

The point turned out to be Sarasota, Fla. Benucci called the doctor's home address and they confirmed that a Dr. Thomas G. Dickinson lived in the town. They gave Benucci the doctor's street address and he forwarded the letter.

Recently, the Newark post office got a letter from the doctor thanking them for going to the trouble to find out just where he lived.

Dickinson said the letter had been mailed in Germany by a friend who is a pilot for Trans World Airways.

"We did it just for fun to see if it would get here," he said.

Dusty Boots Riding Association Enjoys Trail Ride And Barbecue

By Margaret Cooby
The Dusty Boots Riding Association held its first trail ride and barbecue of the 1965-66 season Sunday afternoon.

Starting from the Onora Road area, 18 horses and 17 members and guests, including a four-year-old cowboy and seven-year-old cowgirl, bricked moved out, headed up by Trail Boss Bob Harvey with the Trail Master, David Willis, riding drag.

The permittee had obtained special permission to cross private pasture land so that travel along main roads was eliminated.

It was a beautiful trail and the horses and riders enjoyed the experience of crossing wooden bridges, jumping gullies and wading through streams—an opportunity they don't often have. It was a lovely day and it was the consensus of the riders that the 10-mile trek to Lake Jessup was thoroughly delightful. The group would have continued but dinner-time was rapidly approaching.

Meanwhile, back at the arena, under the direction of committee Chairman E. C. Bradford, Chief Barbecue Harold Cochran was sweating over the hot coals preparing perfectly toasted chicken halves.

As the riders approached, the sumptuous feast was ready, and none too soon, as the happy riders brought their appetites with them. The tons of food soda also was a welcome sight to the parched riders.

There were more than thirty members and friends for the delicious dinner of chicken salads and all the fixings. Everyone agreed that the chairman, cook and committee, including Jesse McCarthy, Howard Lloyd and Secretary Mitchell, had done a superb job and hope similar rides will be on the program often.

Fresh, fun, far out and way in—today's spirit echoes in the line of the young pleat silhouette (top left) piled sky high in American opium, American opium hood (top right) buttons under the chin. Kim Wilson Honored On 9th Birthday

By Mrs. H. L. Johnson
 Little Kim Wilson, daughter of Mr. and Mrs. Harry Wilson, of Riverway Avenue, had a wonderful surprise of her young life Monday afternoon. Several of her neighborhood playmates met at the home of Linda and Anne Newman across the street and then came over to the front door of the Wilson home and started singing "Happy Birthday" to Kim.

Mrs. Wilson then took the girls on a shopping trip to the new Stanford Plaza and on the way stopped at the home of this correspondent where they had their picture made.

They returned to the Wilson home where they enjoyed a supper of pizzas, tacos and soft drinks. Later on they enjoyed ice cream and birthday cake, decorated with nine candles and white and pink roses. Kim then opened her gifts from the guests. Those helping to make Kim's afternoon enjoyable were Elizabeth Warren, Debbie Baker, Linda and Anne Newman and Kim's sister, Joy.

KIM WILSON was surprised on her 9th birthday, Sept. 20. Enjoying the surprise birthday festivities are front row, from left, Joy Wilson, Kim Wilson, honoree, and Elizabeth Warren. Back row from left are Linda Newman, Anne Newman and Debbie Baker.

SIDE GLANCES

By Galbraith

DEAR ABBY: My folks and I have always been close, but now that the draft call has been increased against my going into the service, she keeps telling me all kinds of ways to fall my physical. I have wanted to enlist, but if I do it will break my mother's heart. I will be taking my physical soon and I know I can pass if I want to. I would like to meet her more than she already is.

FROM ILLINOIS
 The examining team knows more tricks than your mother, so don't start off on the wrong foot by trying to break your mother's heart. I will be taking my physical soon and I know I can pass if I want to. I would like to meet her more than she already is.

JACOBY ON BRIDGE
 In our own slim bidding we use both the Blackwood four-trump and the tierber four-club conventions to ask for aces. In general Gerber is used as an emergency to cover times when we want to use four-trump as a strong bid in no-trump.

Today's hand is taken from a recent tournament. Oswald Jacoby was North and John Gerber was South and out of deference to the inventor they were playing Gerber all the way.

Johnny might well have opened with a forcing two bid but no one ever is passed out at one club and Johnny made this bid.

When Ossie jumped to two spades Johnny was mildly surprised and delighted to find an ideal opportunity to use his convention. He jumped to four clubs. The four-spade response showed two aces. Gerber's four-no-trump was a demand for game.

WE THE WOMEN
 By Mrs. Muriel Lawrence

DEAR MRS. LAWRENCE:
 My husband's 11-year-old daughter by his former wife is staying with us indefinitely because of serious illness in her mother and my problem is her habit of lying in bed until noon every weekend. This is a serious problem because Saturday morning is my busiest time, my husband says I have to put up with it. I am a housewife and my mother lets her do this. But I don't think it's right to expect me to cook two breakfasts because her mother has spoiled her.

ANSWER: Why do we have to put up with it? I interpret such condemnation as criticism of their own mothers. Aware as they are that their father's love and loyalty has been taken away from their absent mothers and transferred to their stepmothers, any spoken criticism of their training arouses intense and defensive resentment.

What I wish for this child's appreciation of her breakfasts you cook isn't remarkable enough for you to make it your reason for demanding her presence at the table. No, you have to bolster it up by claiming "rightness" for it in order to respect it. It has to be given the shove of your superior "rightness" to make it stand up to her defiance. You can advance it with any confidence or authority. Maybe you'd better start thinking about what you put into the making of breakfasts. They don't just happen. We have a plan and we expect them to plan the planning of them as we have to exercise our own hands to prepare and serve them. Don't these outlays of our effort rate enough respect to make it necessary to go on and on with talk about the "rightness" of our wish that a child appreciate them?

Elder Springs Club Studies Leisure Time

The values of leisure time and using it correctly were pointed out at the first meeting of the season for Elder Springs Extension Homemakers Club by the club's chairman, Mrs. Carl Bradbury.

Mrs. Bradbury warned that chronic fatigue may be a danger sign and should be checked. She stressed that proper diet should be a regular habit as well as a proper use of leisure time which should be devoted to a minimum of activity in order that it might be relaxing.

In other business of the meeting, held at the Agricultural Center with the president, Mrs. Margaret Tyndal, presiding, it was voted that the club will enter an exhibit in the county fair scheduled for the first week in November.

Mrs. Egin Myers is in charge of the fair committee. New club leaders for the year, other than Mrs. Myers, are Mrs. Bradbury, Mrs. George Lee, clothing; Mrs. William Martin, foods; Mrs. Violet Beckhorn, home improvement; Mrs. John Bush and Mrs. Ben Taylor, family life; Mrs. Morris Nelson, public relations; L. B. Black, civil defense; and Mrs. William Martin, arts.

Officers for the year, in addition to Mrs. Bradbury, are Mrs. Bradbury, first vice president; Mrs. Robert Andrews, secretary; Mrs. Robert Bradbury, treasurer; and Mrs. Beckhorn, delegate.

Religious Liberty Declaration OK'd

VATICAN CITY (UPI) — The Ecumenical Council in a preliminary vote registered overwhelming approval of a declaration affirming the right of all men to religious liberty. The vote came after Pope Paul VI blocked a conservative attempt to prevent it.

Informed sources said the vote was held on personal orders of the pontiff.

It was an overwhelming victory for council liberals who had won their initial approval of the document by a vote of 1,097 to 224.

Blood Banks Kill Insurance Plan

TALLAHASSEE (UPI) — Blood bank opposition prompted refusal to grant state license to a transfusion insurance firm.

Insurance Company of Broardway blood bank said that without blood bank cooperation the insurance plan could not work.

All blood banks had notified him that they were opposed to the insurance, he said.

Williams said the proposal would result in depletion of the supply of blood in the banks because patients would let the insurance pay instead of replacing the blood, as is currently being done.

WATER VOTE
DAYTONA BEACH (UPI) — The issue of bonding the Florida in and out of state by the city's water supply will go before the voters Oct. 19 for the first time.

The city commission agreed unanimously to have another referendum on the question. Similar proposals were defeated in 1952 and 1954.

Protecting Their Stake

American business is increasing its investment in higher education. With the opening of the fall term, colleges and universities will have in their coffers more than \$200 million as one year's contribution by business. In addition, business will have provided a total of \$33 million in scholarships and other aid to students. More than 500 companies now sponsor scholarship programs and this number is growing every year. It's a high yield venture of the times, type.

Leave It To Them

It's not your imagination. There ARE more buses on the highways. They are carrying passengers on scheduled trips, as usual. But you meet more and more of them headed for some mystic place called "Chartered." Whenever this Shangri-la may be, it's Utopia for the bus companies, which are happily reporting big gains in tour and charter revenues. The chartered buses of from one day with trips by high school senior classes to historic spots. Home Buyers Get Warning From Hoover

WASHINGTON (UPI)—Buying a new home with government-insured mortgage? Better make certain you're not breaking the law. That's the word from FBI Director J. Edgar Hoover.

The Federal Housing Administration (FHA) insures mortgages on new houses and home improvements. Naturally, the FHA insists that whoever gets the loan be a good credit risk.

But, according to Hoover, a number of unscrupulous real estate salesmen and developers are taking advantage of the current housing boom to circumvent the letter and the spirit of the rules.

The FBI has uncovered instances where a salesman has sold a house financed with an FHA-backed mortgage to someone who didn't have enough cash to make the required down payment.

Another trick is to change a poor credit risk into a good one by omitting or understating income or creating or inflating income or savings. In one instance, a salesman valued himself at \$50,000 on the loan application.
