

Easter Lily Ball Stated Saturday

The Fourth Annual Easter Lily Ball, is scheduled for Saturday at the Mayfair Ball Room by the Society for Crippled Children and Adults of Seminole County.

Mrs. Laymon Goodman, president of the organization, announced today that Freddie Castro's orchestra will play for dancing and there will be door prizes and entertainment. Dancing will begin at 8 p.m.

Dress for the ball is optional, Mrs. Goodman said, and all proceeds go toward the work of the organization in aiding crippled children and adults of Seminole County.

Tickets are on sale from all members of the organization including Mrs. Goodman, Kenneth McIntosh, Mrs. James Taylor, Dr. Vann Parker, and others.

I have always believed in the inspiration of the Holy Scriptures, whereby they have become the expression to man of the Word and Will of God.—Warren G. Harding.

Garden Circle Hears Talk On Amaryllis

Mrs. J. N. Anrum of Bear Lake filled in for Miss Helen Cockley, who was unable to attend as program speaker for the Bear Lake Garden Circle meeting held last Wednesday at the home of Mrs. Robert Kowalski of Shirley Dr., in Bear Lake Manor.

Mrs. Anrum gave a most enthusiastic and interesting talk on the culture and care of the Dutch amaryllis, explaining that the amaryllis as we know it today had its beginning in 1606 when it was known as "the American

Lily." Its name comes from the Greek word "amorphos" which signifies "sparkle." The speaker brought with her many species and varieties of the plant and displayed a bulb in the growing stage. She advised that some amaryllis blooms run as large as 11 inches in diameter and bear three to five blooms on a single stalk.

She warned that the bulbs should not be planted too deeply and that sand, peat and loam should be kept damp and not wet. The amaryllis takes two years to

reach the blooming stage and ultimate success for a grower is the achievement of a pure white bloom.

Mrs. Anrum also discussed pollination and explained various methods for treatment of diseased bulbs. She has grown amaryllis for some years and now has more than 2,000 varieties.

In business of the club a nominating committee of Mrs. Richard Scott, Mrs. Jay W. Malone and Mrs. Vernon Herrington was appointed and plans were made for a fashion show and re-

ception to be held at the Bear Lake Community Club on May 11.

Mrs. Malone won the door prize gift certificate which is given each month to the club by the Azalea Park Nursery.

The next meeting will be held at the home of Mrs. Allen L. Wentworth, Lake Asher Circle, Bear Lake Manor.

Lyman P-TA To Hear Mize

Juvenile Delinquency with Judge Vernon Mize as guest speaker.

Following the meeting, parents will have opportunity to visit teachers in class rooms and refreshments will be served in the cafeteria.

The question of putting up a plaque on the old county jail was brought up at a short meeting with Police Chief Roy Williams, Architect Jim Chapman and Pete Knowles Monday. Pete vetoed the idea.

One more item on the jail... The price (including architect's fee) won't exceed \$12,000 "even if we have to leave a hole in the roof," said Mr. Knowles today.

SCRAMBLED NOTES FROM AN UNSCRAMBLED REPORTER:
Board of Realtors Monday night backed up the FHA and VA on their temporary ban on speculative buildings... Realtors say they want to protect property values... They watch those unemployment figures.

The realtors made public for the first time the recently completed survey on vacant homes in Seminole County... survey shows that north of Five Points there are 272 vacant homes and 712 in South Seminole.

Figures revealed also that since 1959 there were close to 5,000 new homes built... according to the realtors... 1,000 vacant... which means that 4,000 new homes are now being occupied.

One builder laid off 24 men last week.

Realtor President Bryan Kimball reported that 416 of those vacant homes are above the \$12,000 price range.

The survey only includes single family homes...

Here's a breakdown on vacant homes on an area basis:
Chuluota, 67 out of 300 homes are vacant... Tangiwood area, 49... Hefster Homes and Casselberry, 87... Weatherfield, 37... Saulando Estates, 9... Bear Lake Hills, 57... Oakland Hills, 28... Gulfview across from Mobile Manor... 22 homes... all but two vacant.

AND SOME MORE:
Lake Harriet Estates, 50... English Estates, 42... Longwood, 28... North Orlando, 68... Altamonte, Oriente and Del-Ray, 65... Oviedo, (hold your hats) 1.

AND SOME MORE:
Pinecrest (all three additions)... 37; Country Club, 36; Dreamwood, 9...

ONE MORE WORD: The FHA should have limited its ban to low cost, dollar down homes and leave the capable builders working on the \$14,000, \$25,000 class alone.

Don't forget homestead exemption time is running out. Deadline is March 31.

County Engineer Carlton Jiles and Attorney Harold Johnson hard at work on the county's new right of way policy which will be presented to the County Commission Friday.

Congressman Syd Herlong's office called today reporting that the regional post office has granted city mail delivery to Fern Park although the post office serves only 1,379 patrons. The postal office department has waived the requirements setting up mail delivery only for a population of 2,500.

Christmas seals contributions totaled \$9,870.50, Chairman Claude Hittell told us today.

Seminole Democrats announced today that they will sponsor political rallies beginning next week. First on the schedule to be reported in Wednesday's Herald.

QUERY FOR THE DAY: Anybody ever hear about our getting a new post office. It seems I heard a few years back we were getting one.

Put down your calendar March 28... John Kridler speaks to the Kiwanis Club and John told us this morning that he will have a few choice words for "those who have dragged their feet" holding up the Sanford-Canaveral Canal.

47 Candidates Qualify For County Offices

Troops Guard Argentina

Military Set To Put Down Any Violence

BUENOS AIRES (UPI) — Troops took up positions today, ready to deal with any violence that might result from government takeover of 5 of the 11 provinces that went Peronist in Sunday's election.

All military leaves were canceled and other security measures were ordered on a precautionary basis. Apart from a few protest bombings, however, there was no immediate report of violence.

Civilian administrators were appointed for Buenos Aires, Rio Negro, Santiago del Estero, Tucuman and Chaco—the five provinces taken over by the government—but for the moment the military was in effective control.

No immediate takeover was ordered in the other six Peronist provinces—Chubut, La Plata, Misiones, Nuequen, Salta and San Juan—or in Jujuay, where the Christian Democrats won with Peronist support.

Leaders of the strongly Peronist CGT Union Federation need today to discuss possible reaction to the government move. Observers said the union leaders might call a nationwide general strike.

Monday's crackdown was the most drastic anti-Peronist action any Argentine government had taken since 1955, when ex-President Juan D. Peron was kicked out by the army.

It followed the first election since Peron's overthrow in which his supporters had been free in most cases to nominate their own candidates.

Intervention, a fairly widespread Latin American custom, enables the federal government to take over any province which it regards as "maladministered."

BRADENTON (UPI) — Fire struck Monday at a house where six Negro children were alone. All died in the blaze.

A woman who was the mother of two of them was gone when the fire broke out in the little frame house. She tried to get in the house to save some of them, but a man pulled her back after the fire burned her face and arms.

The youngest of the children, a girl 10 months old, was apparently the only one who had any chance of getting out. A witness saw the infant crawling toward a window, but the blaze engulfed the child before the witness could reach in and pull her out.

The other five children, the oldest four years, were found burned to death in another room.

Public Letter Knowles Clarifies Funds Statement

The Herald today is publishing a letter by City Manager W. E. Knowles in the hopes of clarifying the position of members of the industrial board in regard to the handling of public funds appropriated to the board.

Last Saturday, Knowles at the City Commission meeting, questioned the handling of these funds and asked to be relieved of all financial responsibility in regard to the funds.

Following is Mr. Knowles' letter:
"Regarding the story of the handling of funds for the Industrial Park, I wish to make it clear that at no time was any member of the Industrial Park Committee in question nor were the thoughts or proposals of said board.

I did question the administrative procedure followed when setting up the \$1,000 appropriated by the City Commission for the use of the Committee. This concerned solely the accounting management of the funds.

In discussing this item, it was pointed out that Section 27(d) of the City Charter holds the City Manager responsible for the financial condition and reporting to the City Commission. In addition, it was pointed out that the City Commission had designated the Manager to sign all city vouchers concerning the expenditure of city funds.

Saturday it was brought to light that \$1,000 had been drawn on city funds and set up in a special bank account without the City Manager's knowledge or signature. This is the incorrect administrative procedure under discussion. There is absolutely no question of the whereabouts of any of the funds.

I believe it would be well to clarify this matter for the benefit of the Industrial Park Committee," Knowles said.

Israelis, Syrians Exchange Gunfire

TEL AVIV, Israel (UPI)—Israeli and Syrian troops exchanged gunfire across the border at the Sea of Galilee today, an Israeli spokesman reported.

It was the second outbreak of shooting around the sea, which also is known as Lake Tiberias, in recent days. Last week an estimated 30 per cent were killed in a border clash.

The military spokesman said Syrian troops opened fire with machineguns, recoilless rifles, anti-tank guns and mortars at an Israeli patrol boat this morning, and Israeli troops returned the fire.

France Warned Of Drastic Transformation

PARIS (UPI) — President Charles de Gaulle told Parliament today that the ceasefire pact with Algerian nationalists will bring such a "sweeping and profound transformation" he must ask the French people to sanction it by referendum.

De Gaulle made the statement in a three-minute message read for him at extraordinary sessions of the two houses.

Deputies and senators stood in silence to hear the message except for three independent "French Algeria" deputies who remained seated in protest. There was no applause at the end.

De Gaulle said the country would be called upon under Article II of the Constitution to endorse a bill which would: Approve a communique issued by the French cabinet Monday night announcing appointment of diplomat Christian Fouchet as French high commissioner in Algeria and other measures that will set the territory on the road to independence.

Authorize De Gaulle to arrange a referendum vote in Algeria and to set up an independent state there in cooperation with France if that is what Algerians want.

Since the nine million Moslems of Algeria will be able to smother the 1.1 million residents of European extraction at the polls, it is generally conceded Algeria will become independent.

Castro's Food Claim Baseless

MIAMI (UPI) — U. S. Customs Commissioner Philip Nichols said Monday the United States is not to blame for the food shortage which has led to rationing in Cuba.

Premier Fidel Castro blamed the U. S. embargo for the shortage of food, but Nichols pointed out the embargo does not prohibit food and medical shipments to the island.

"The U. S. government has done nothing to prevent this (food) trade," said Nichols, here on an inspection tour. "Castro apparently just doesn't have the dollars to buy."

The Israeli government said the shooting followed violation of Israeli territory by Syrian Soviet-made MIG17 jet fighters this morning.

George Holder Runs For County Board

GEORGE HOLDER

George Holder of Mobley's Corner, at the junction of SE 434 and Hwy. 17-92 has announced his candidacy for the County Commission race in District 4 in the Democratic primary.

Holder, 51 years old has lived in Seminole County for the past 17 years, coming here from Tennessee. He works in the mutual department of the Sanford-Orlando Kennel Club.

"I believe I can represent District 4 as a commissioner better than it has been in the past," Holder said today.

"I believe in a full time medical officer for the County Health Dept., in open meetings to the public and press, safety for the schools, improvement of all county roads and traffic lights for all dangerous intersections," he added.

"I believe the county board can work with the Winter Park Telephone Co. and the Southern Bell Co. for direct dialing from South Seminole County to Sanford. I believe the county should require and furnish physical examinations each year for school bus drivers for safety of all our children," Holder said.

The new candidate resides with his wife and has two sons, George Jr. with the Florida Highway Dept. and Richard, a student at Florida Southern College.

Reds Offered Test Gains If They Sign Pact

GENEVA (UPI) — Britain said today the Soviet Union could have the military advantages gained in its nuclear tests last autumn if it will sign a test ban treaty with adequate international inspections.

The Earl of Home, Britain's foreign secretary, warned the 17-nation disarmament conference "the dreary dangerous round of competition would begin again" unless there is an iron-clad policing of nuclear tests.

He said verification lies at the heart of the disarmament and nuclear tests problems. In the opening speech of the morning session, Home urged the Soviet Union to agree right away to a treaty with effective international controls.

Deadline Finds 2 Republicans Seeking Office

A total of 47 candidates for county offices has filed with the clerk of the Circuit Court at the courthouse as deadline for qualifying closed at noon today.

Make Moon Florida's 68th County - Bryant

JACKSONVILLE (UPI) — Gov. Farris Bryant Monday urged county commissioners to pull together with state officials to make the moon Florida's 68th county.

"The resources of the state government are yours to command," Bryant told the opening session of the annual Mid-Year Conference of the State Association of County Commissioners.

He said Florida had become the center of the space age. Bryant said the state must not fall short of its future "greatness."

"If we are equal to our task," he added, "we will make the moon our 68th county."

Bryant also told the commissioners they had \$23 million on deposit in the State Road Department. He said it was a "great shame" the counties weren't using that money when they had so many roads to be built.

Spring Gets Watery Welcome

By United Press International
Spring got a watery welcome today from what may have been the worst U. S. winter in half a century.

Rain and snow flurries were the rule over much of the nation. Warming temperatures eased flood threats in many areas.

Spring was scheduled to arrive at 9:30 p. m. in the Northern Hemisphere, when the sun's path crosses the Celestial Equator.

But departing winter left marks which will be hard to erase in some areas.

It was a winter of misery and tragedy, a winter of record cold and snowfall in the Midwest, a winter of mudslides and floods in the Far West, a winter of crop-killing frosts and deep snows in Dixie, a winter of massive storms along the Atlantic Coast. It was a perverse winter of extremes.

It was a winter for the survivors to tell grandchildren about.

The U. S. Weather Bureau said it was the first time since 1910 that abnormal weather was the pattern from coast to coast.

On the Great Lakes mariners called it the worst winter for shipping since 1936, when Lake Michigan froze over completely.

It was unusually mild along the Atlantic Coast, but last month's storm which hit New York, New Jersey, Delaware, Maryland, North Carolina and Virginia was the worst in several decades. New Jersey alone reported a death toll of 32 and damage in excess of \$80 million.

Rainfall was six inches above normal at Los Angeles, Calif. Snowfall was 33 inches above normal at Minneapolis, Minn. Southeastern Idaho had the worst floods in its history in February. Boston, Mass., had the snowiest February in 28 years and the driest January in seven years.

Bryant suggested the counties spend about \$13 million of the amount to improve and build new county roads.

Although he said he knew it would require statutory changes, he suggested two methods. One, develop area compacts whereby counties pool their resources and lend money to those who need it. Second, establish an investment council to loan money to counties with interest, "always maintaining a reserve."

Public Lecture Concludes Jehovah's Witness Assembly

Sunday saw the successful conclusion of a three-day assembly of Jehovah's Witnesses in Daytona Beach which began with a session of the ministry school on Friday and the ordination of 25 new ministers on Saturday.

Climax of the assembly came on Sunday afternoon with the public address, "Who Will Rule the World?" with 1,522 in attendance.

Nixon (Natch) Raps Kennedy

WASHINGTON (UPI) — Richard M. Nixon says that President Kennedy endangered the security of the Cuban invasion when he was campaigning for the White House.

Nixon, in his book, "Six Crises," wrote that the Central Intelligence Agency briefed Kennedy on plans for the invasion during the 1960 campaign.

But the former vice president said his Democratic rival came out publicly on Oct. 30 for U. S. intervention in Cuba and aid to anti-Castro forces.

"I thought that Kennedy, with full knowledge of the facts, was jeopardizing the security of a United States foreign policy operation," Nixon wrote.

The Republican candidate said this was the only time he personally got angry at Kennedy during the campaign.

He said it particularly disturbed him because he had been advocating for nine months inside the Eisenhower administration that the anti-Castro forces be armed, but could not say so publicly.

Nixon's book, published by Doubleday and now on sale, recounts crises he faced during his Washington career, from the Hiss-Chambers case to his own losing fight for the presidency.

Henry Crerar was the first Canadian general in history to command a Canadian army marching under the Dominion flag. As lieutenant-general of the newly organized first Canadian army, he led his men into battle in France in June of 1944.

On other subjects, Bryant said for the first time in history money for road building was being taken "off the top" and was being used for state-wide needs, not for districts. He said sectional lines could not be followed in obtaining rights-of-way. The isolated farmer must be considered, Bryant added.

The governor also took a slap at critics of his financial program: "He who stands in the way does Florida a disservice."

Mr. J. R. Ball Dies At Home

J. Roy Ball, 82, died at his home at 2:30 a. m. Sunday, 616 Palmetto Ave. He was born in Mexico, N. Y., April 7, 1879 and was a retired farmer. He was a member of the Methodist Church.

Survivors are his wife, Anna; five children, Mrs. Laila Austin, Mrs. Elmer Axtell, Elwood and Donald Ball, all of Sodus, N. Y., and Mrs. Doris Amelle, Rochester, N. Y.

The remains will be sent to Sodus for services and burial. Hixon Funeral home is in charge of local arrangements.

Grace Plans Movie Return

HOLLYWOOD (UPI) — Princess Grace of Monaco will return to Hollywood in late summer to resume her movie career in a thriller directed by Alfred Hitchcock and based on the suspense novel "Marnie" by English writer Winston Graham.

The American-born princess, the former Grace Kelly, will be accompanied by her husband, Prince Rainier, and their two children, Princess Caroline and Princess Albert Alexander, when she returns to Hollywood to make the picture during her summer vacation.

Dear Abby: By Abigail Van Buren

DEAR ABBY: I would like to know if it is proper to wear your engagement and wedding rings if you are divorced. I have two children, and people look at me as though I have never been married when they see me with my children and notice I am not wearing any rings. To tell you the truth I did not put away my rings, my husband took them back when we got divorced. I have been thinking about buying myself another set just to keep people from wondering what kind of a woman I am. DIVORCED

DEAR DIVORCED: Don't buy yourself a set of rings. Anyone who is interested in knowing your background will ask you. As for the "guessers" — let them guess. YOU know you were married.

DEAR ABBY: For 15 years I have been working in a store. I like the work (I am a clerk) and give the customers good service. Recently, women customers have been asking me, "What is your nationality? You have an accent. Where are you from?" Do I have to give strangers my life history? I meet all kinds of people during my day's work and I would never ask such a question of them. How shall I answer? D. A. K.

DEAR D. A. K.: The simplest answer is a two-word reply, "From France, Germany, Holland" (or wherever you are from). You need not recite your life history. If any questions are asked beyond that, start selling.

Jacoby On Bridge By Oswald Jacoby

A letter from California reads: "Here is a hand that almost broke up both a partnership and a friendship. Playing at three no-trump, South held off two heart leads, but because West held the ace of clubs the strategy did not go and South had to go down one at three no-trump. If either partner had bid spades, the spade game would have been a lead pipe cinch and each partner blames the other one. How about it?"

The answer is that South was unlucky, but he was entirely responsible for the bad luck. South has exactly 18 points, no-trump distribution and stoppers in all suits except that bid by partner, but

DEAR ABBY: Have you ever heard of anybody going down the aisle in a wheelchair? Well, that's what I would like to do, but everybody is trying to talk me out of it. I am a polio victim, have been in a wheelchair six years and will never walk again. I have always wanted a beautiful church wedding with a veil and my fiance says there is no reason why I shouldn't have it. Tell me honestly if you think I am foolish for wanting this type of wedding in my condition. ON WHEELS

DEAR ON WHEELS: I am sure there are others who have gone down the aisle in a wheelchair. I see no reason why you shouldn't. If you and your fiance desire it, keep your wheels oiled, and good luck.

DEAR ABBY: Is it all right to have married bridesmaids? My sister says that it is and I say it isn't because the word BRIDESMAID means "maiden" or unmarried person. NEEDS TO KNOW

DEAR NEEDS: It is permissible to have married bridesmaids and is frequently done.

Stop worrying. Let Abby help you with that problem. For a personal reply, enclose a stamped, self-addressed envelope.

We The Women: By Ruth Millet

The trouble with the person—

—Who takes his own troubles lightly is that he takes your troubles lightly, too.

—Who never has a bad word to say about anyone is that his good words don't carry much weight.

—Who has all the time in the world is that he thinks everyone else has all the time in the world, too.

—Who talks brilliantly is that he usually talks all the time.

—Who would give you the shirt off his back is that he usually doesn't have a shirt—and needs yours.

—Who is never critical is that his praise can't be relied on.

—Who is always cheerful is that he grates on your nerves when you aren't.

—Who won't take "No" for an answer is that you often wish he would.

—Who knows how to tell a story is that often he doesn't know how to listen when someone else is telling one.

—Who prides himself on being frank is that he is so often rude.

—Who has a real knack for imitating others is that he can probably do a very amusing imitation of you.

—Who can be counted on to tell you things for your own good rarely tells you anything pleasant.

—Who never likes the way things are run is that he doesn't want to try running things himself.

—Who never seems to grow older is that he never seems to grow up, either.

—Who tells you not to worry is that he doesn't offer to do your worrying for you.

major suit and should respond one spade.

You should never use the two no-trump response when you can show a major suit at the one level.

After the one spade response, North would raise to two spades. South would jump to three no-trump and North would go on to four spades.

Now about North's bidding. His one diamond opening and three no-trump rebid were both correct. A rebid to three spades would have won all the marbles, but North had no reason either to shy away from no-trump or to show his spades. South was not supposed to have four good spades as part of his two no-trump bid.

Pot Luck Dinner Honors Doooms Family

Mr. and Mrs. Robert Doooms and family of Jacksonville and formerly of Sanford, were honored Sunday with a pot-luck dinner by the Friendship Sunday School Class of the First Christian Church in Sanford. The group met at the home of Mr. and Mrs. Marvin Rohlf, 113 East Coleman Circle, for the celebration. The Doooms were members of the Friendship Class, while living in Sanford. Couples and their families attending included, Mr. and Mrs. Clyde Walker, Mr. and Mrs. Evans, Mr. and Mrs. Russell Scott, Mr. and Mrs. Ted Brown, Rev. and Mrs. James N. Barnett, Mrs. Jack Bullin and family, Mrs. H. K. Ring and sons and her mother, Mrs. Cora Neal, of Mt. Pulaski, Ill., and Dalley Smith. About 40 class members and their children were present for the get-together.

Woman's Club Hears Program On School Laws

Supt. H. T. Milwee was guest speaker at the meeting of the Civic Department of the Sanford Woman's Club, Wednesday. He spoke about the "school laws" and stated that there are 13,000 children in Seminole County schools now and the number is expected to be twice that by 1970. A covered dish luncheon was served at noon by hostesses, Mrs. C. R. Dawson, Mrs. W. M. Brinson, Mrs. B. C. Moore and Mrs. J. W. Hall. Mrs. James E. Hall of Granite City, Ill., was welcomed as a guest.

Casselberry Personals

By Jane Casselberry
Miss Diane Wharton of Longwood has returned home after a week's confinement in the Winter Park Hospital for treatment of a very serious strep throat. Mr. and Mrs. Clare Balmer of S. Triplett Dr., Casselberry recently enjoyed a two day visit from their friends, Mr. and Mrs. Donald Paris of Bantley Creek, Pa.

Garden Gate

Magnolia Circle
Mrs. T. J. Taylor
March is the harbinger of spring and all gardeners who have been sitting around with itching fingers can get out the pruning shears, sharpen them up and begin pruning. The lovely tropical shrubs and plants which Jack Frost scalded and melted will come again and in our wonderful climate be more symmetrical and robust than ever. Florida landscape plants grow rapidly and sometimes are very leggy. Wise pruning keeps them the right height and develops bushy and healthy plants. Start your pruning at the end and slowly cut back until you reach live wood. Watch for buds as lots of plants that were injured are already sending out new growth. After pruning, apply plenty of fertilizer and water. Any cut limb over two inches in diameter should be treated with wound dressing. Lawns browned by freeze should be fertilized and generously watered. New growth will shed the dead brown and soon the lawn will be lovely and green. All garden lovers and workers should start a compost heap and March is a fine time as our majestic oaks will begin to drop their leaves. It always hurts to see leaves piled up to be hauled away. To start your compost pile, dig a hole three feet square and three feet deep; sprinkle a layer of leaves in the hole with fertilizer and water down. Repeat until the hole is full. To this add all grass clippings and small pruned branches. All garden magazines carry suggestions and of course a fenced bin or a walled pit is better. At the end of the rainy season, turn compost over with a pitch fork and the following spring you have this wonderful organic soil to put on your garden. Organic matter acts much like a sponge, absorbing and holding many times its weight in water. This much lowers soil temperatures in summer and conserves heat in winter.

Airman Doebener is being transferred from duty with the U. S. Air Force in Alaska to New Mexico and they stop over in Casselberry for a visit. Other guests joining the group were Mrs. Doebener's parents, Mr. and Mrs. Fred I. Hodges and her sister and husband, Mr. and Mrs. George Gitz, all of Portland, Conn.

Jaycee Wives Hear Program On Antiques

The monthly meeting of the Jaycee Wives was held at the home of Mrs. Hammond Polk in Sunland Estates. Two prospective members, Mrs. Wendell Agee and Mrs. E. Coleman, were welcomed by the group.

During the business session it was voted to sponsor a retarded child at the Sunland Training Center in Gainesville. The members are now busy selling candy to raise funds for their various projects. Guest speaker for the evening was Mrs. Harold Howe, who lives in Vermont and is spending the winter in DelBary, who has had extensive training in the field of antiques and at present is writing for a magazine about them.

Capacity Crowd Attends Pilot Club Benefit Card Party At Civic Center

HAPPY SURPRISE is mirrored on the face of Mrs. Roy Bernard, as she receives the grand prize at the Pilot Club benefit card party, held at the Civic Center. In the picture, from left are: Mrs. B. G. Chapman, Finance chairman; Mrs. John Lambertson, presenting the prize to Mrs. Bernard; Mrs. Elsie Farley, fashion show chairman and Miss Janet Smith, assistant chairman. (Herald Photo)

A capacity crowd of card players were busily engaged in their favorite games Thursday when the Pilot Club sponsored its annual Benefit Card Party and Fashion Show at the Civic Center. Spring fashions from Yowell's were the highlight of the evening under the direction of Mrs. Elsie Farley with narration by Pilot Club president Mrs. David Gatchel. Models were Mrs. George Stone, Mrs. A. O. Payne, Mrs. V. C. Messenger, Mrs. Morris Ferguson and Mrs. Shirley Secord. Hair styles were by Dawn's Beauty Shop and make-up by Mary Tyre of Beauty Counselor. Mrs. John Lambertson was general chairman for the event, assisted by Miss Janet Smith and Mrs. B. E. Chapman. All proceeds of the benefit will go to the Pilot Club's milk fund. No one likes "mystery" calls. Leave your name and number if the person you're phoning is not at home.

Girl Scout Diary

BROWNIE SCOUT TROOP 463
Brownie Scout Troop 463 recently observed its first birthday. The celebration marks the anniversary of the troop's formation and the investiture of the girls as Brownie Scouts. They meet on Tuesday afternoons. On this particular day they opened the party with the renewal of the Brownie promise, while the girls gathered around the birthday cake. The special cake was decorated in the brown and yellow color scheme with a trefoil design on top. The large birthday candle was finally blown out, by the joint effort of the entire troop. Following refreshment time, membership stars were awarded to the girls who have completed their first year in scouting, and friendship pins were given to the newer members. The Troop scrapbook was displayed and the Brownies voted to use the profit earned from their recent sale of Girl Scout cookies for a cook-out, March 24. Games were enjoyed and the party ended with the group singing the "Brownie Smile" song. Mrs. John R. MacFarlane is leader of the troop, assisted by Mrs. James R. Conroy. Troop members are Kathleen Conroy, Jamie Crowder, Cecilia Eby, Laura Fillion, Patricia Getman, Tereasa MacFarlane, Deborah Michaels, Cynthia Miller, Mary Monroe, Karen Sasser, Kathie Sasser, Eileen Seaman, Elizabeth Smith and Linda Tremblay.

Week after week carefully tabulated figures published in "Automotive Market Reports" show that Chevrolet trucks are worth more in resale value.

why?

If you were a professional used truck buyer, why would you pay more for one make than another?

There may be several reasons, but among them would be:

- A greater demand for the product
- A more desirable product for resale

So if used Chevrolet trucks consistently bring higher prices at auctions all over the country, it means that their quality features pay off for you not only as long as you own them but also when you are ready to trade them—double-wall cabs, doors and side panels, roof insulation, select wood floors, reliable and economical engines, real rugged tailgates, a suspension system that helps prolong truck life.

See your Chevrolet dealer for a quality '62 Chevrolet Jobmaster truck.

"Automotive Market Reports" is a weekly authoritative publication which reports the average prices paid for used trucks and cars by professional buyers of auctions all over the U.S.

Appointed — Elected

A Sanford resident recently queried us on the possibility of making the county superintendent of schools appointive rather than elective. We checked with sources in the state capital and with local officials to determine how Seminole might make the change.

The procedure is as follows: The county school board first must ask a member of the county's legislative trio (two representatives and one senator) to seek legislative approval of a constitutional amendment that would allow the county to operate under the appointive system. The amendment is voted upon during the general election by all Florida voters.

Other counties seeking the appointive system would be included on the same amendment. Records show that individual county requests normally are approved by state voters.

Once the county, the state voter approval, becomes effective to adopt the appointive system, the school board then must request the county commission to place the issue before county voters as a referendum. If it is approved by a simple majority, the system is put into effect.

The first four counties to receive state approval to appoint school superintendents are Duval, Dade, Sarasota and Pinellas. All but Duval now are operating under the appointive system.

At present 13 more counties have requested a state referendum so they can be eligible to use this system. It is expected that the names of these counties will be placed before state voters in November.

It seems to us that the present system of electing the county school board members and separately elect-

ing the school superintendent is dividing the responsibility. Under the system now being used by three Florida counties and being requested by others, the board members still are elected by the voters but the superintendent is appointed by the board.

The key to the appointive system, naturally, is a strong and efficient school board. Under the present arrangement the board and the superintendent are separate entities, each selected by the people but neither responsible to the other. If the superintendent were appointed, then policy making would be centered with the school board rather than with both the board and the superintendent.

Appointment of the superintendent by the board, we believe, would create a more closely knit operation and eliminate the possibility of policy conflicts.

If the board felt the superintendent was not carrying out the board's policies, it could take immediate action to remedy the situation. An elected superintendent must face the people only every four years, and many of his decisions — both good and questionable — can easily be forgotten between elections.

In the event "politics" entered into the situation and the voters believed the school board was taking advantage of its right to appoint, the voters could realign the board at next election. Under the appointive system the voters would in no way lose control over the school system.

We believe that the county would profit by adopting the appointive system. It should create a greater efficiency in school operation by allowing the board to work with a man of its own choosing and it lessens the possibility of an unqualified person securing the post.

Dick West Says

I'm For Glenn Monument

WASHINGTON (UPI) — Some of the good folks in Lt. Col. John Glenn's old home town have started a campaign to build a monument to commemorate his space flight.

Pursuant to this cause, Rep. Tom V. Moorehead, who counts the townsmen among his constituents, held a news conference Tuesday to announce plans for the project. I stopped by Moorehead's office to attend the briefing because I am heartily in favor of any monument that isn't located in the National Capital.

Monument building in Washington has about reached the saturation point, so that any one, regardless of how worthy, creates space problems of the nonastronautical type.

Eventually, I suppose, we will be able to hitch monuments to rockets and boost them into orbit. But that is a long-range solution.

Fortunately, there are few

memorials in New Concord, Ohio, where the proposed Glenn monument would be located. Therefore, I would like to do my bit to help the project along.

The new concordants hope to finance the memorial through public contributions, and I'm afraid I can't be of much assistance in that field.

I do, however, have a suggestion to offer which could cut the cost of the monument insofar as the expense of designing it is concerned.

My economizing idea stems from a controversy that arose here some time ago over the design submitted for a proposed memorial to President Theodore Roosevelt.

As originally conceived, the center piece of the TR monument would have been an oval shaped work of abstract sculpture from the far-out school of art.

However, its ultra-modern lines offended many congressmen and kinmen of the late President. They protested

that the monument would resemble a "celestial sphere" or a "globular jungle gym."

So great was the outcry, the memorial commission finally abandoned the design and replaced it with a more conventional plan featuring a statue of Roosevelt on the verge of shouting "bully!"

It seems to me that this turn of events presents a splendid opportunity to the villagers in New Concord. What they should do is ditch out to the discarded Roosevelt design and use it for the Glenn memorial.

A "globular jungle gym" might not be very symbolic of Roosevelt's charge up San Juan Hill, but I can't think of anything more appropriate for commemorating the conquest of space.

Considering the circumstances, I imagine the celestial sphere blueprints could be obtained for a song, say a couple of choruses of "I don't know what it is, but I like it."

Oder-Neisse Gains Support

(UPI)—Since World War II West Germany has suffered from a split personality. It manifests itself on the one hand in demands for reunification and return of lost territories, and on the other in a mental depression based on war guilt.

Reunification of Germany was a basic platform of the Potsdam agreement to which the Soviet Union was a signatory.

The same agreement provided that Poland was to take over a 30,000-square-mile slice of former Hitler Germany beyond the Oder-Neisse rivers and administer it until final boundaries were fixed under a four-power peace treaty with all Germany.

The Poles and the Russians long since have declared the Oder-Neisse line "final." East Germany, under Moscow prodding, also reluctantly recognized in 1950 the Oder-Neisse line as a "peace frontier."

West Germany never has recognized it, nor have the Western Allies.

The decision originally was designed to compensate Poland for the loss of an equally large area in the east which was taken by the Soviet Union. Some five million Poles from the east were moved on into the territory from which about nine million Germans were expelled.

It has remained a primary source of friction between Poland and West Germany ever since.

Now some Germans are taking the view that the loss of the "eastern territories" should be recognized as an accomplished fact and relations with Poland brought to something resembling normal.

The German Free Democrats, who now are members of Chancellor Konrad Adenauer's government, campaigned on a platform which included normalization of relations with Poland.

Recently eight prominent members of West Germany's powerful Evangelical Church circulated a memorandum among the political parties promoting much the same idea.

Among Germany's allies, notably Britain and France, there also is a belief that the Oder-Neisse issue should have been settled long ago by German recognition.

The argument is that most German expellees no longer have any real desire to return to the lost territories and that to recognize the Polish claim would be to knock the props from under the argument which the Soviets have used to encourage Polish fears of a revenge-seeking Germany.

A reversal of the situation could lead to establishment of diplomatic relations and go far toward winning over the Poles who say traditionally that "the West begins in Poland."

Political Notebook

WASHINGTON—(NEA) — Congressional approval of a compromise \$435 million, three-year program to retrain workers displaced by machines is the first step in the attack on unemployment.

Best estimates are that this will provide retraining for 680,000 workers; 180,000 in the first year, 250,000 in each of the two succeeding years. Costs may average \$30 to \$50 a week for from 20 to 52 weeks per worker, depending on skill required.

This program will supplement that of another 6,000 workers already being retrained in 52 area redevelopment projects authorized by Congress last year. More of these projects will be started at an accelerated rate before an after the new program gets under way.

But the two programs combined won't begin to solve the whole unemployment problem as its dimensions are now known.

Labor Secretary Arthur Goldberg estimates that at the average 3 per cent annual growth rate, about 1.8 million workers are now displaced by automation every year.

If this is so, it means that 33,000 workers are losing their jobs to machines every month. This is the size of the problem. It is obvious that the technologically unemployed are not being retrained fast. But it is also apparent that not all of the displaced workers stay unemployed. If they did, total unemployment would be increasing instead of declining.

Some workers automated out of jobs are retrained by private industry for new skills. Others have the wit and resources to retrain themselves or go find other jobs.

But these measures don't solve the whole problem. Private industry can't be expected to retrain every displaced worker for somebody else to hire. This is the justification offered for government aid in retraining workers for new jobs.

Removing the cause for technological unemployment by curbing automation for increased productivity is not the solution, though it is one answer offered by some labor union leaders.

Others: maintenance of featherbedding or make-work rules, reduction of the work week, payment of longer term unemployment insurance or larger severance pay on dismissal, earlier retirement and guaranteed pensions. These are some of the demands in current labor contract negotiations, and they are being fought.

The President's labor-management advisory subcommittee on automation disagreed on most of these issues. But they did agree unanimously on three central principles:

1. Automation is essential for increased productivity and the general welfare.

2. This progress must be achieved without sacrifice of human values.

3. Technological development with adequate safeguards against economic injury to individuals is the joint responsibility of private industry and government.

Achievement of these goals will solve only one part of the larger, total unemployment problems, however.

The big picture includes, in addition to the 1.8 million technically unemployed each year: the 1.2 million new workers entering the labor force each year, the 4.5 million now unemployed and the 2.0 million working only part time.

For the solution or reduction of this whole employment problem, admittedly the biggest and most important internal issue today, the Kennedy administration offers a comprehensive package. It is admittedly far more controversial than the retraining program just approved. It includes:

—A grant of authority to the President for temporary reduction of low-bracket income taxes in time of recession.

—Authority to launch public works programs prepared in advance and kept on the shelf till needed to make jobs.

—Adult education for seven

million illiterates and some solution for craft union discrimination. (These are major handicaps to increased employment opportunities.)

—Trade, tax and other economic incentives to increase the 3.5 per cent average annual growth rate and create more jobs.

This is the program now before Congress. If it isn't the best solution for the unemployment problem, the challenge to the Republicans, in their desire to create a more positive image in this election year, is to come up with a better one.

Spares Play

By John A. Spolaki

Last year the team that won the National Team Handicap BPAA Tournament received \$7,500!

I believe that some of our own boys are looking up yonder for some of those George Washington's, too!

For the benefit of those of you not knowing the facts and figures of this event, it only costs \$3 per man or \$15.00 per team to enter and this includes your bowling. In return you stand a good chance of possibly getting your way paid to the nationals in Virginia in June.

So far, I've seen applications filled in for Pine Crest Inn, Gene's Seminoles Cleaners and Jet Lanes. Remember, you may enter as often as you like and make up your own teams.

Say now, will you look here: The women out-bowled the men in the Thursday Nite Mixed League.

Hi game and series for the ladies was that of Margie Woods who had a 219/545 set. Marge bowls for Pryor's State Farm Insurance. Not too far behind was Dot Powell (Powell's Office Supply) with a 207.542. (Man, I can see that handwriting on the wall! Spol-

Play Opens At 6:30

PROUD FISHERMEN. Harold Martin and Bob Tanner of Chuluota, display impressive catch of large-mouth bass recently caught in local Lake Mills. These whoppers weighed in at 10 1/2, 7 1/2, and 5 1/2 lbs.

The Biddy Basketball League will wind up its season this Friday and Saturday, with the Tournament.

Robson's Sporting Goods won the regular League Championship when Day and Nite Grill lost to First Federal Saturday March 19.

The tournament will get underway Friday evening at 6:30 with Day and Nite Grill playing Strickland-Morrison; 7:30 First Federal vs Sanford Atlantic Bank; 8:30 Robson's vs Sanford Electric and closing out the first round Standard Oil will meet WTHR at 9:30.

Play will continue Saturday morning with one game at 9:30 and another at 10:30. The Championship game will be played at 8 p. m. Saturday evening. Immediately following the Championship game there will be trophy presentations to the winner.

Retained Seeks Main Event Win

Orville Moss, owner of the winning kennel at the Sanford-Orlando Kennel Club, is sending Retained to the post in tonight's featured ninth race in quest of another main event victory.

The Mosses greyhounds have been hot as firecrackers this season and through Saturday night they had presented their owner with a grand total of 99 firsts.

Retained accounted for five of these victories, having won in Grades C, B and three times in Grade A.

Other top bracket speedsters in tonight's ninth are Henry Hoyt, Erma Eastman, Deputy Dawy, Cedar Cadet, Gay L., Blue Glitter and Rex Tray.

Aside from Retained, Mulberry Kennel's Deputy Dawy will also be seeking a sixth win. Four-time winners in the octet are Cedar Cadet, Gay L., and Rex Tray.

Fred Whitehead's Rex Tray rates as a 3 to 1 favorite on the morning line. He has drawn the one hole and does well from an inside box.

There are just 11 more days of racing with remaining events highlighted by the Derby eliminations Monday and the running of the 27th annual Derby on Friday, March 30.

Seminole Split Golf Play Over Weekend

By Ronnie Broadway

Herald Sports Editor

Seminole High School's golf team split a weekend slate this past weekend, dropping a match Friday to Florida Central by the score of 11-15-15. Sanford defeated Leesburg Saturday by the score of 12-6.

In Friday's match, Hubert of Florida Central defeated Ed Hamilton of Sanford, 2-1-15, Russ Pearson of Sanford and Johnson of Florida Central split their match 1-1-15. The best ball of the match also split, 11-15-15.

The second foursome saw Sanford's Ray Bradford down Green, 2-1-15, and Moran of Florida Central beat Sanford's Jeff Williams, 2-1-15. Florida Central won the best ball 3-0.

In the third foursome, Weinstein of Florida Central defeated Sanford's Leo Watson, 2-1-15, while Ricky Gleason of the Seminole squad downed Cohen of Florida Central, 2-1-15. Florida Central once again won the best ball, 3-0. Florida Central won the match, 17-15-9-5.

In Saturday's action, Leesburg's Wrinkle defeated Ed Hamilton, 2-1-15, but Russ Pearson came back to down Herlong of Leesburg, 3-0. Leesburg won the best ball, 2-1-15.

In the second foursome, Sanford really racked up, as Ray Bradford dumped Hoyt, 3-0, and Jeff Williams of the Seminoles defeated Crain of Leesburg by the same score. Sanford won the best ball in this match, 2-1. The final tally saw Sanford in front, 12-6.

Action in the Jet Lanes Kegler League this week found the first and second place teams, Kwite White and American Legion, splitting two points each.

Other results: O. K. Tire Store took four points from Wheeler Fertilizer and Riggs Sunoco took four points from Craig Carp, while Glen's Phillips '68' took three to one from Harley's Sinclair.

High team single and series went to American Legion 907/2542, while high game goes to Dan Rittze 222 and high series to Charles Tournoux 571.

Other 200 or better games were telled by John Bridges, Charles Tournoux, 202; Richard Barnes 210, and George Swanni, 214.

Yanks, Reds Head In Other Way

The New York Yankees and the Cincinnati Reds, last year's World Series rivals, are headed in opposite directions on the spring training trail.

The Yankees have gone un-beaten in their first nine exhibitions while the Reds have won only three of 10 tuneups, leading some support to those experts who claim Manager Fred Hutchinson's crew will have plenty of trouble defending the National League championship this year.

At this stage of their training last spring, the Yankees had won only one of nine games and Manager Ralph Houk was worried. Now Houk is smiling and the rest of the American League managers are worried, for the champs are winning most of their exhibitions with "fringe" players.

Bob Turley, Gary Blaylock, Ed Stove and Frank Carse shared the pitching Monday as the Yankees blasted the Milwaukee Braves, 10-4, at Fort Lauderdale, Fla. Of the four hurlers, only Turley probably will be with the club on opening day.

The big right-hander, hampered most of last season by a sore arm, worked the first two innings against the Braves, giving up a pair of scratch hits but no runs. Roger Maris' double and triple and Bobby Richardson's three singles paced New York's 14-hit attack.

The Reds, meanwhile, dropped a 3-4 decision to the St. Louis Cardinals at Tampa. The Cards scored their first two runs without the benefit of a hit off Jim Maloney, who doled out seven walks in the first three innings. Curt Flood's double and a single by Ken Boyer accounted for the Cards' winning run in the sixth. Frank Robinson hit a two-run homer for the Reds.

The New York Mets, like the Reds, also can't win for losing. The new National League entry suffered its fifth straight defeat, 1-0, to the Baltimore Orioles. Brooks Robinson, who had tripled to open the fifth inning, scored the only run when shortstop Elio Chacon made a hurried, wide throw to the plate after fielding Andy Etchebarren's difficult bouncer.

The Washington Senators

Redmen, Bradley Favored In NIT

NEW YORK (UPI) — St. John's and Bradley, two seeded teams, are favored to win tonight and advance into the semifinals of the National Invitation Basketball Tournament at Madison Square Garden.

St. John's is the heavy choice over Holy Cross while Bradley is a slight favorite over Duquesne in quarter-final games. The winners then will meet Thursday night after Dayton plays Loyola of Chicago on the same program.

The Redmen, rated No. 1 in the East, have won the NIT championship three times while the Braves from Peoria, Ill., have captured two titles. Both teams drew first round byes in the current tourney.

St. John's will be out to stop Holy Cross' high-scoring Jack (The Shot) Foley, who scored 34 points in the Crusader's 72-71 opening round victory over Colorado State.

Coach Joe Lapchick of St. John's says, "Maybe I should tell my five guys to cover the other four guys on Holy Cross and let Jack Foley roam. After all, he's going to score 30 to 50 points anyway no matter what we do."

Foley averaged more than 33 points a game as runner-up to the nation's top scorer, Bill McGill of Utah, this season.

Hot Nichols

ST. PETERSBURG, Fla.—(UPI)—Bobby Nichols shot a near record 64 Monday and collected \$2,800 in his first tournament victory on the PGA tour since turning pro in 1960.

Ware Paces Golf Play

The qualifying round for golf club championship, sponsored by the Sanford Atlantic National Bank, resulted in the low medal being won by Sadie Ware.

A three way tie for low net between Jane McKibbin, Ida E. Wilton and Frances Reinhart will necessitate a playoff at a later date. A playoff for low putts between Min Keenan, Vivian Pierce and Blanche Nicely, will be necessary for the prize presented for this feature by Jeanne Fouk, the defending champion.

Match play follows, with two matches scheduled for each week and the finals to be played on or before Wednesday, March 28, at the Mayfair Country Club.

DIFFERENT?

What's different about Rambler's rustproofing?

It goes all the way up to the roof. Only Rambler has Deep Dip rustproofing—entire body immersed in primer paint right up to roof—plus 8 other body rustproofing steps.

What's different about Rambler's brakes?

They stop when other brakes can't. Double-Safety Brake System has tandem master cylinders. If front brakes fail, rear brakes still work and vice versa. Self-adjusting brakes standard, too.

What's different about Rambler's headroom?

It's greater than any other American car's. Rambler Classic Grand Ambassador V-8 beat all other makes in front-seat headroom (even Cadillac)—can seat six 6-footers easily.

What's different about Rambler's muffler and tailpipe?

They won't rust out. Ceramic-Armored muffler, tailpipe guaranteed against defect as long as you own your new Rambler. If either rusts out, collision damage excepted, a Rambler dealer makes free replacement.

What's different about Rambler's prices?

They're America's lowest. Only Rambler brings you America's lowest suggested retail prices for convertibles, 2-door and 4-door sedans and wagons—all quality-built with Rambler excellence.

LOOKING FOR AN EXTRA CLEAN USED CAR

Narrow Religion View Hit

Rev. John Thomas, of Holy Cross Episcopal Church, speaking to Rotarians Monday, said that to believe that God is only the God of our small world and not of the entire universe, is to make God too small.

"To believe that there is absolutely no possibility of the existence of any other intelligent beings anywhere in the universe is too narrow a concept of God, when we consider that our earth is only a small planet out of more than a 100 million planets in this galaxy, which is only one of millions of galaxies," Rev. Thomas said.

"But there still exists in London a society which insists that the earth is flat, and

right here in Sanford there are people who say that God does not intend for us to go into space," he said.

"But God has given us curiosity and intelligence. Whether our explorations led us to discover a new island here on earth, or a new planet in the universe, He asks that we obey His moral laws," Rev. Thomas emphasized.

"But God expects of us that we make proper use of our discoveries," he added, "and not take by force anything belonging to other intelligent beings."

"When," Rev. Thomas asked, "repeating and emphasizing the word 'when,'—'When we meet other intelligent beings, what will be our reaction?'"

The minister said that the world's history is not good on this point.

"We tend to treat people different from ourselves as monsters, and this is propagated and encouraged by weird science-fiction movies, comic books and stories, and cheap Hollywood dramatizations."

"The nature of man is to destroy that which is different, the instinct is to kill. If they are not like us, will they automatically be inferior? Are we the ultimate in beauty and grace?"

Rev. Thomas answered this question with a graphic illustration in a humorous vein, as he suggested that his listeners take a trip to the beach, or just stand in front of a full length mirror.

Rev. Thomas went on to pose questions in a religious light on suppositions of what intelligent beings from other planets might be.

"Will they have freedom of thought and will? Will they be free agents? What will be their nature? Will they be fallen from Grace as we are, will they be still in perfect innocence?"

"Did our Lord's dying for the sins of the world occur more than once?" he asked.

"Some churches are ready to send missionaries!" the Rector said.

"Which church should be allowed to send the first chaplain could be a very sticky question on our voyage to the moon or to other planets," Rev. Thomas pointed out.

Casselberry Lions Elect New Officers

By Jane Casselberry

The Lions Club of Casselberry elected officers for the 1962-1963 year at last Thursday's meeting, accepting the entire slate proposed by the nominating committee.

New officers are Frank C. Morris, president; Victor Viner, first vice president; Curtis Blow, second vice president; Don Green, third vice president; Raymond

Morris, secretary; Carl Jack, treasurer; Frank Brademacher, tail twister and Darwin Shea, Lion tamer.

Clyde Kerce and Miller Evans were elected to the Board of Directors.

Pat McKinney, guest of Morris and James Meyers, guest of Kerce, were introduced.

Al Greene, builder of the "Lion's Club House," presented a check for \$500 to the club which represented the amount of profit made on sale of the home.

It was announced that \$350 above expenses was realized from the two Harness Horse Matinees held at Seminole Park Raceway. The club voted to give \$10 to the Casselberry Volunteer Fire Dept. for standing by at the track during the two events and to give \$50 to the Raceway.

Laundry Clinic To Feature Drying, Ironing

Miss Myrtle Wilson, Seminole County Home Demonstration Agent, reminded homemakers who were unable to attend today's session of the clinic, "Easy Laundry Thru Know-How," that a resume of the day's events will be given from 7:30 p.m. until 9 p.m.

Wednesday's program will be devoted to drying, ironing and power and general safety features of modern equipment.

The clinic, a pioneer in its field is being held at the 25th St. Home Demonstration Center. The Wednesday schedule is from 10 a. m. until 3 p. m. Working with Miss Wilson to present the educational program are Miss Catherine Knarr, Extension Service specialist; Miss Patricia Collier, regional home economist; Miss Lucy Nowlin, home service representative of Florida Power and Light Co. and Davis L. Spell, Culligan representative.

Ten local dealers are displaying equipment and have cooperated in bringing the free educational program to Sanford, Miss Wilson advised.

Safe Boat Handling Course Set For Area

The U. S. Coast Guard Auxiliary Flotilla 411 announces that the Winter Park Recreation Department is sponsoring its Eight Lesson Course in Basic Seamanship and Safe Boat Handling. Weekly classes will be held each Thursday at 8 p. m. beginning April 8th at the Winter Park Recreation Center.

The course will be taught by a staff of six experienced instructors of the Coast Guard Auxiliary. It is designed for the average boater, or boater-to-be, both men and women, and the young and old alike. Also, many experienced boaters take the course as a refresher.

Funeral Director Is Speaker For Oviedo HD Club Members

By Jean Lyles

Members of the Oviedo Home Demonstration Club, meeting last Friday at 9:30 a. m. at the Women's Club, heard Bill Gramkow of Gramkow Funeral Home speak on "Family Crises."

Gramkow emphasized that all members of a family should know who is to take care of details in the event of a death and advised that a doctor, minister and the funeral director should be the first persons notified when death occurs.

He pointed out that all facts of information given in connection with a death should be exact and that it is very important that everyone make a will, no matter what the estimated value involved.

Following a question and answer period, the business meeting was opened by Mrs. Arthur Richter, president, and prayer was given by Mrs. W. P. Carter.

Plans were announced for a dress revue to be staged sometime in May solely as an entertainment feature and all members of the Oviedo club were urged to participate.

Members also were asked to save old rags which will be sold to a chemical company and the proceeds turned over to the County Council.

The Oviedo group will furnish the USO Birthday Cake next Tuesday with Mrs. Richter baking the cake and Mrs. Ruth Miller and Mrs. William Dietrich to provide cupcakes for the occasion.

Members joined in singing "Happy Birthday" to Mrs. Carter who celebrated the anniversary on Friday.

The club was unable to make log planters as scheduled since Mrs. Dee Anderson, who was to instruct, was unable to attend because of sickness in her family.

Church Organist To Study For Ministry

Our Relationship With God Most Important Thing To Us

(This is the fourth in a series of articles by laymen on "What My Religion Means To Me.")

By Orville W. Touchton

When asked this question, I wondered where do I start to answer such a question. Immediately the thought came that I must begin with Christ. I must also begin with my favorite scriptures: John 3:16 "For God so loved the world that He gave His only begotten Son that whosoever believeth in Him should not perish but have eternal life." Acceptance of this brings me into the right relationship with God and in a world like we live in, the right relationship with God is the most important thing in a person's life.

We live in days that try men in every way. As we look around us, we see our country engaged in a struggle with Russia for the peoples of the world who are not committed to either philosophy, as well as a struggle for those who are already committed to one side or the other.

In this fight our most important weapon is our faith in God, if we will really put it to the test and be sincere in our efforts to show the peoples of the world that we are truly concerned about them.

In these days men have developed the power to destroy themselves and many peoples' hearts fail them because of fear of what tomorrow will bring. As a Christian I have the assurance of God that whatever happens, I am His child and in His protective custody.

As I continue to live, I have the opportunity to serve Him each day. When it is time to depart this life, be it soon or late, I have His assurance that He has a place prepared for me.

A religious experience which gives us this kind of assurance from God should also send us out to tell others. It should make us concerned that other people would come to know our Saviour, so they will also have this assurance for life.

"Love thy neighbor as thyself" is the admonition of Jesus. For most of us this is a difficult task, because for most of us the most important person in the world is me. Christianity in its true form changes it to others, as the old hymn says, "Let me live in such a self-forgetful way, that even when I kneel to pray, my prayer will be for others."

How do I go about this business of serving others in a complex society such as we live in today? What is my motive for serving others? If I follow God's guidance, I should have no trouble with the answer to these questions. In serving others the Golden Rule should be the guide for each decision. I am afraid that all too often we paraphrase the Golden Rule this way "Do unto others as they do unto you and do them first." As a Christian I can not follow this thinking and acting, for if I do I deny all that God has done for me and make my claims for Christianity mean nothing.

To sum up, my religion means I have God on my side and have placed myself on His side. Certainly these are two different things, for God is always on our side, but often we are not on His side.

Teen Club Makes Donation To Church Fund

By Carol Jepson

At a recent meeting, the Chuluota Teen Club voted to donate \$5 to the Community Church Building Fund. Presentation was made Sunday by Ronnie Murphy and Bob Pentz.

Club members recently collected \$83.35 for the Central Paly Fund in a door to door drive throughout the community. Thanks are extended to everyone for their cooperation with this project.

Planned for March 31, is a picnic-swim party at Rock Springs. Members will meet at the home of Mr. and Mrs. W. Fox on Second St. for departure at 10 a. m. sharp.

OPEN FRIDAY NIGHTS 'TIL 8:00

AROUND THE CLOCK
By LARRY VERSHEL
JUST FOR THE RECORD DEPARTMENT: We never questioned any member of the Industrial Board. Come to think of it, neither did Pete Knowles. The only thing Knowles queried the board about was administrative procedure and the accounting management of funds . . . Can't help it if some people only read the headlines . . . By the way, we queried Earl Higginbotham, one of the commissioners that did not make Saturday's controversial meeting, and Earl said the board should never have relieved Knowles of the responsibility of "watching our money." He's our watchdog," said Mr. Higginbotham.

AND ANOTHER THING. We got some calls last night wanting to know if that was a correction in Tuesday night's paper on the Industrial Park story. IT WAS NOT. Nobody was misquoted and nothing taken out of context. We just gave Knowles a chance to clarify the situation.

Every Wednesday Mr. Knowles sends an informal "news-letter" to the commission on doings around City Hall for the past week. It sure would be interesting to see the one Pete sent this week.

County Commission Chairman J. C. Hutchison said Tuesday that 100 copies of the new controversial franchise directive will be made up and available in Bob Brown's office in the courthouse. It will take about 10 days to be mimeographed and stenciled. No public hearing will be called until that time.

The County Commission (three members present) met in brief session Tuesday afternoon (regular meeting postponed until Friday) and opened bids on electrical and plumbing work for the stockade out by the County Home. As you remember the stockade will be turned into an office for our agricultural units. Anyway, the bids will be awarded Friday. Apparent low bidder for electrical equipment was R. L. Johnson of Sanford . . . the bid: \$1,057. Low bid for plumbing looks like L. A. Harvey of Sanford, \$438.

ON THE POLITICAL FRONT: County Commission candidates and school board candidates will start squaring off in rallies soon. It might be interesting to take a fast look at some of the "hot" political issues. In the County Commission race looks like the franchise directive, Civil Defense appropriations, full-time health director and administrative aide will be the big ones. In the school board race (two contested) it will be whether a superintendent should be appointed or elected and revived interest in PTA's.

Attention men: A Silver Service counterpart of the Pink Ladies of the hospital will be formed soon. Anyone of you retired men interested in gardening, mechanics and stock work, interested in giving some free time to a worthy cause are asked to contact Bob Bessner at the Hospital. An organizational meeting is scheduled for next week. Time and place will be announced later.

The Chamber of Commerce's road committee will meet Thursday at 7:45 p.m. at the Florida State Bank lounge.

QUOTE OF THE WEEK. At the basketball banquet Tuesday night some little youngster shouted during the ceremonies: "I lost my bubblegum." Don't look at me, I haven't got it.

Free Rights Of Way Sought

A proposed right of way policy will be presented Friday to the County Commission by County Engineer Carlton Bliss. In it he will ask that no future county roads be built unless the rights of way are donated free to the county by the property owners or already have been donated.

The policy, drawn up by Bliss with an assist from County Attorney Harold Johnson, elaborates on minimum right of way widths; prescribes the manner in which rights of way are obtained and outlines a policy to be used in designating projects to be included in the annual county and drainage improvement construction program.

The right of way widths for existing and proposed county projects shall meet the following criteria:
Road Projects:
A—through county roads—80 feet wide.
B—county service roads—dead end or serving adjacent properties only—66 feet.
C—sub-division streets—50 feet.
Drainage Projects:
A—0-10 feet top width channel—25 feet.
B—10-25 feet top width channel—40 feet.
C—25-50 feet top width channel—75 feet.
D—Over 50 feet top width channel—channel width plus 25 feet each side.

The policy points out that the granting of rights of way to the county or the acquisition of rights of way does not assure the immediate construction of needed improvements on such right of way. Steps taken to get additional rights of way will not be taken by the county until a petition is received by the engineer, signed by the present owners of at least 51 percent of the property along the length of the project.

New Franchise Protested As Just 'Rehash'

A delegation of property owners, who said they represented some 1,000 people in South Seminole County, protested the newly revised franchise directive Tuesday calling it a "rehash" of the old plan and "prematurely conceived."

The delegation, headed by Zoning Board member George Borrows and Col. Paul Bissell was made up of residents of Lake Mary, Forest City, Fern Park, Goldenrod, Oviedo, and the Altamonte-Maitland area.

The group made its protests to the Herald. The delegation said that mandatory connections within two years was unfair and that the entire program as "set forth in the directive would be an additional burden on the taxpayers."

Borrows, apparent leader of the delegation, reported that more research was needed on the directive and "it is not an emergency measure."

A public hearing on the directive probably will be announced in 10 days, Zoning Director Robert Brown was ordered by the commission to make available some 100 copies for the public.

Among the criticisms leveled at the directive, which was drawn up by W. E. Knowles, III, Lester and Bill Kratzer is:

"The public's first basic right is invaded by the regulations imposing mandatory connection to sewer lines by property owners, which regulation was in the recondensed directive and brought strenuous objections."

"That this infringement on personal rights has a delaying fuse of two years does nothing to reduce the injustice, actually help the homeowner, or materially change the public objections to such arbitrary imposition."

"The 8 percent assured profit for the utility companies written into the directive."

"Long term large area franchise."

The delegation wanted it understood that before any franchise is granted a referendum to include all property owners in any franchise area be held. They cited that a public hearing would not solve anything.

North Orlando Elects Two

Stephenson, Anderson Win Easily

Robert S. Stephenson, group 2, and Woodrow W. Anderson, group 4, were elected to the North Orlando Village Council by an overwhelming majority in Tuesday's election, the first ever held in the Village.

Final tabulations showed 100 of the 208 registered voters cast ballots. Stephenson carried the group 2 ticket by a 152 majority over opponent Henry Ward Jr. while Anderson carried the group 4 balloting by a 91 majority over William Wolfe and F. Stewart Helmsly.

Accepting congratulations from Mayor Frank Fasula and other residents present for the final tally, Stephenson said, "I hope I can fulfill my obligation to the residents and return the trust and confidence they have given me in electing me councilman of this city."

Anderson said, "I sincerely appreciate the trust and confidence you have shown here today by electing me to serve you on the Village Council. It is my desire to serve you in a manner worthy of this trust."

"We have passed our first test in the municipality with an excellent mark . . . 169 voting of 208 registered. Let's all get behind promotion of the welfare of the community and make it a place of envy and pride."

"You have the ability, talent and spirit to do it. Now if we motivate these forces and channel our energies into one direction, that of mutual assistance and respect, we definitely can expect a harmonious growth for our community."

"Thank you again for your kind expression of faith voiced here today."
The two men will be sworn into office at the April Council meeting.

Rallies Scheduled In South Seminole

Plans for four political rallies in South Seminole County areas were announced Tuesday with the first panel discussion and question-and-answer period set for North Orlando and Oviedo at the North Orlando Civic Assn. Hall on March 30 at 7:30 p.m.

The nine candidates will be limited to five minutes each with the question-and-answer period to follow.

Other rallies to be announced will be for the Bear Lake-Forest City areas; Lake Mary and Longwood areas and tentative plans are being made to hold the final mass rally at the Jai Alai Fronton.

Civic minded citizens and groups of each community are participating with members of the South Seminole Democratic Women's Club to stage the rallies.

Civilians In Argentina's Cabinet Quit

BUENOS AIRES (UPI)—Civilians members of President Arturo Frondisi's cabinet resigned under military pressure early today, relieving the crisis touched off by Sunday's provincial elections.

The military leaders who compelled the government on Monday to nullify sweeping Peronist election victories announced late Tuesday night that Frondisi could continue as president if he would form a military-civilian coalition cabinet.

A few hours later, Frondisi announced the cabinet resignation in terms clearly indicating that he had yielded to the generals and the admirals. He said he would form a "cabinet of national union."

Russia Ready To Cooperate, Nikita Says

MOSCOW (UPI)—Premier Nikita Khrushchev said today Russia is ready to work with the United States in exploring space, but he added the "realistic" condition that full cooperation must await a disarmament agreement.

The Soviet premier, in a note to President Kennedy, suggested that a "first step" could be made with a pact for joint rescue operations for astronauts forced to make an emergency landing on return to earth.

Khrushchev said he envisioned American-Soviet collaboration to put a spaceship on the moon. But he added the joint efforts would be "limited" without an East-West disarmament agreement.

Foreign ministers now meeting at a disarmament conference in Geneva have made no significant progress. The U. S., British and Soviet nuclear negotiators met this morning for 80 minutes but made no apparent progress in breaking the impasse over international control on nuclear testing. U. S. chief delegate Charles C. Stieff said "there was no fundamental change."

"It is very desirable," Khrushchev said, for the two nations to sign a pact providing for aid in searching for and rescuing "spaceship, Sputniks and capsules that descend to earth due to accident."

"Such an agreement seems even more necessary because the point in question here is the saving of the lives of cosmonauts, those intrepid explorers of universal space," Khrushchev said, according to the Tass news agency.

Running Battle Rages In Oran

ALGIERS, Algeria (UPI)—French gendarmes in armored cars fought a running battle through the streets of Oran today with grenade-throwing European extremists.

First reports said there were "several casualties" in the clashes in the big port city which is a stronghold of the underground Secret Army Organization (OAS).

OAS terrorists also were active in Algiers. One Moslem was killed and five wounded — including four women and a child when a grenade was thrown into a native quarter. There were other bombings and shootings elsewhere.

The death toll in the mortar-shelling Tuesday of a Moslem crowd in Algiers was mounting steadily, making it the most murderous single incident yet attributed to the European extremist organization.

Police sources said at least 20 more had died from wounds suffered when six mortar shells exploded among a group of unsuspecting men, women and children, for a total of 21 dead and 89 wounded.

European farmers in rural areas were stocking up on food and arms in fear of retaliation for OAS attacks on Moslems throughout Algeria.

Warning Due

JERUSALEM, Israel (UPI)—The Israel cabinet met in emergency session for three hours Tuesday night and was expected to warn the United Nations of what it considered grave implications of the latest border shooting incident with Syria.

Cramer Asks Easing Of Construction Ban

WASHINGTON (UPI)—U. S. Rep. William C. Cramer, R-Fla., asked the Federal Housing Administration Tuesday to cut back its total halt of construction commitments in seven Florida counties.

Cramer said the sweeping cutoff would "further depress the housing market, soften buyer demand, undermine general confidence in real estate, and bring unemployment in the building and allied trades."

The St. Petersburg Republican suggested that the cut-off be applied only to individual subdivisions or builders after a survey of inventories. He said investigation showed that more than 60 per cent of defaults are in eight to 10 subdivisions in each of seven counties, or in about 15 per cent of the building areas.

Cramer's home county of Pinellas is one of the seven counties affected by the ban, which the FHA instituted pending a study of a "soft market" in housing.

The other counties are Dade, Broward, Palm Beach, Hillsborough, Orange, and Seminole.

Gun Gals' Just A Snook Hobby

FOLEY, Ala. (UPI)—The training of 23 telephone operators into a uniformed, professional machine-gun unit was viewed today as "just a hobby" of the girls' debonair, bachelor boss.

"Just like you like golf and I like fishing, he likes fooling around with firearms," said Mayor Henry Carson of John McClure Snook, 42-year-old vice president and general manager of the Gulf Telephone Co.

Snook surrendered eight automatic weapons to federal alcohol tax unit agents Tuesday after he was cited for failing to have the guns properly registered. He recently said his women employees were being trained in the use of weapons as part of his plan for "an armed democracy."

Carson described Snook as a benefactor of his South Alabama town and said "I'm certain if there was any violation of the law it was unknowingly." He said the taking of the weapons—"I think 'confiscate' is too strong a word"—should have been done quietly.
