

## Extra! Extra! Lions Feed Boys, Reverse Old Order

Quoting Max Stewart, "the old procedure of feeding boys to lions was reversed at Sanfords Springs Friday afternoon, when Sanford Lions fed boy members of the Seminole team which won the ninth annual championship series."

Before the feed was set before them after an evening of swimming and other games, Milton Huddleston, Seminole star, was presented with a baseball in honor of the fact that his scholastic record was the highest at Sanford Grammar School during the year.

Again quoting Mr. Stewart, "Doc Epps, pinch-batter for the Seminoles in their last game of the championship series, won the 'hot-dog' eating contest with both hands tied behind him. After the contest, however, it was found out that he was not eligible for the championship or the contest, as he passed his 13th birthday 20 years before the contest began."

Those enjoying the picnic were the following members of the 1935 championship team: Eugene Cochran, William Branen, Arthur Branen, Richard Meriwether, El-

mer Gradike, Charles Cameron, William Hoblehan, Roland Floyd, Milton Huddleston, Bernard Colins, Thomas Cobb, Wesley Cunningham, Wade Singletary, Edward Walther and Doc Epps.

Others attending were: Billy Epps, Frances Cobb, Billy Holleyhead, Dr. and Mrs. A. W. Epps, Mr. and Mrs. K. A. Cobb, Glenn Lingle, and Max Stewart.

## Burpee Seed Store Now Air Conditioned

Having recently completed the only air-conditioned seed store-room in the southeast, C. R. Mason, local manager of the Burpee wholesale seed store, revealed this morning that he expected to move into his new location on West First Street sometime before the first of July.

Mr. Mason stated that his new office contains the only air-conditioned store-room in the southeast, a room which maintains constantly a room temperature of from 57 to 60 degrees. In this room will be stored practically all of his smaller seed, especially flower and vegetable.

This "cold" room has an advantage over the regular refrigeration plants in that it does away with moisture which is as damaging to the seeds as hot weather. The coils in the system used by Mr. Mason are placed above the room, and the cold air is drawn through the room and forced out the opposite side by a fan, thus eliminating the moisture usually present with the cold.

Burpee Seed Company has been in business since 1910 and is one of the oldest and strongest of the companies. The local branch supplies all of the south, east, Alabama, Georgia, the Carolinas, Florida and the West Indies.

## Palmer Lauds New Sanford Ball Club As Best In Years

Take it from Floyd "Bill" Palmer, former Central Florida and Northeast Florida League umpire, the present Sanford Baseball Club is the smartest which has appeared in this city since Sanford won the Florida State League pennant in 1927 when such stars as Ben Cantwell, Johnny Wilson, Rip Dunbar, and Otto Dumas ap-

peared here.

He made this statement this morning after having witnessed yesterday's Fed victory over the strong DeLand team, and he offered his view-point because he believes local fans should lend their united support to what he terms "One of the greatest young teams in this or any other semi-pro league in Florida."

Palmer, declaring the fact that "smart" baseball will win in any league, credited Manager Bill Cobb with having lined up an outstanding group of clean, young college and semipro stars who had been clicking three games ago.

He said that "smart" baseball beat Leesburg here last Thursday, pointing particularly to Walker's scoring from first in the first inning of that game, on what he termed "heads up" baseball.

"Smart" baseball led to the defeat of the Reds yesterday, Palmer said as he also lauded Doug Harder as one of the most capable right-handers he has ever seen.

Burpee Seed Company has been in business since 1910 and is one of the oldest and strongest of the companies. The local branch supplies all of the south, east, Alabama, Georgia, the Carolinas, Florida and the West Indies.

ton Beach met to lay plans for the season.

All tournaments will be played on the same basis as the pre-summer tournaments of the winter season. Entrance fee will be 50 cents per person, with no green fees to be asked.

All tournaments will be best ball matches involving the two men in each team. All scores must be made by foursome play. Each player will be handicapped, the handicap being 20 percent of his strokes over par on his home course, but in no case to exceed a handicap of 18.

Players appearing for tournaments must present their handicap signed by the pro or manager of the club he represents.

The second tournament will be played at New Smyrna on June 23, the third at DeLand on June 20, and the fourth on July 7.

## Peace Held As Greatest World Need

Roosevelt Tells West  
Point Men To Pro-  
mote Friendship,  
Spare Aggression

EST POINT, June 12.—(AP)—The greatest curse of the world, President Roosevelt asserted, is "the assurance of an assurance based mutual understanding mutual regard."

Speaking before the graduation class of the United States Military Academy, the Executive said "if you at all times to promote and to encourage spirit of mutual helpfulness, indeed, your services will full value to your nation and a source of content to yourselves."

Maintain an army in proportionality," the President said to secure us from aggression, but it is so created modest in proportion as to prove that no threat to the rights of others remotely intended addressing the graduating class of the military academy, he left by train for Washington.

President also reflected his own thoughts as executive of the United

of the most difficult the Government today and the aggrandizement of a group and to keep the prestige of the general and unimpeded. The command of an army and, in addition, most (Continued on Page Three)

Chairman Sees No  
Reason To Worry  
Over Canal Damage

JUNE 12.—(AP)—Coachman, executive of the Atlantic Association, said here there was no concern about the damage to the canal and to the water which would pass either to the damage to agriculture or other supply.

His statement followed meeting of representatives of counties through which the canal would run, to discuss right-of-way.

"No concern," he said, due to the fact that in these counties have first hand a very thorough knowledge of these questions by government extending period of the last three years at a cost of \$240,000." Options already have been taken by sponsors of the recent Legislature.

Duval, Clay, Putnam, Levy and Citrus counties will pay to finance the right-of-way for the project.

## Chaco Boreal War Is Ended By Agreement

Paraguay And Bolivia  
Sign Pact After Be-  
ing Urged By Five  
Neutral Nations

BUENOS AIRES, June 12.—(AP)—Paraguay and Bolivia today signed a peace protocol ending their long and bitter war in the Chaco Boreal.

A central military commission was to be organized at once to proceed by airplane into the Chaco in order to prepare a 12 day truce to take effect Friday.

The military commission includes United States Military Attaché Captain Frederick Sharp.

Final acceptance of the peace plan advanced by neutral mediators to terminate the bitter war was announced early today.

Word that representatives of the belligerents had agreed to the truce came several hours after a last minute hitch threatened to thwart the pacification efforts of five neutral powers, including the United States.

Just before accord was to have been signed last night, Luis Ríos, Paraguayan foreign minister, said the proposals for a simple armistice without the guarantees found in one of a newly developed species. The legs are contained in the peace formula and as table delicacies and the skin is used in making women's shoes. (Associated Press Photo)

**Governor Urges  
Vigorous Drive To  
Collect Back Taxes**

A \$6,000 verdict was returned by a jury at the Court House in TALLAHASSEE, Fla., June 12.—(AP)—against the state of Umatilla Fruit Co. and in favor of Sam W. Campbell, et al, to recover \$10,000 of the civil action dam- age suit which was begun before Circuit Court Judge Millard R. Smith on Monday afternoon.

The jury was composed of R. J. M. Thompson, Orman Jacobs, J. K. Lawton, G. F. Stonerick, H. W. Pite, and C. W. Rjablow.

The suit was based upon a con- tract between the Umatilla Fruit Co. and a relative of Mr. Campbell, now dead. It involved the alleged non-payment of \$6,000 as rent of the Campbell property.

Some commissioners contend admit yours liked."

Foreclosure laws had virtually de- stroyed tax collecting power of the governor and can not be

said.

Shultz Tells County  
Commissioners To  
Start Drive At Once

TALLAHASSEE, June 12.—(AP)—Vigorous action in collecting taxes and caution against excessive reduction in accepting settlement of delinquent taxes were urged yesterday by Governor Shultz and Comptroller Lee at a conference of county commissioners and other officials here.

Some commissioners contended

foreclosure laws had virtually de-

stroyed tax collecting power of the

governor and can not be

said.

Before the Burton-Eichelsberger case got under way with the selection of R. M. Ball, G. R. Mc- Dade, G. W. Bunnell, J. H. Mon- kie, F. L. Shrewsbury and Andrew Moran as jurors, Judge Smith sentenced L. V. Eichelsberger, who was being defended by G. W. Spencer.

Before the Burton-Eichelsberger case got under way with the selection of R. M. Ball, G. R. Mc- Dade, G. W. Bunnell, J. H. Mon- kie, F. L. Shrewsbury and Andrew Moran as jurors, Judge Smith sentenced L. V. Eichelsberger, who was being defended by G. W. Spencer.

They had pleaded guilty to the robbery of George Taylor on June 1. Taylor was relieved of \$24.50 by the two men.

**Rail Fares Would  
Be On Flat Basis  
Under New Scheme**

WASHINGTON, June 12.—John A. Hastings, former Fla. State Senator, proposed to the Senate Interstate Commerce Committee recently that railroad fares be put on a flat rate basis, like the mail system, so that the charge for any trip would be \$2, no matter how long the ride on one line.

Under his revolutionary plan, a trip from New York to San Francisco would cost \$2, due to the change from one line to another in Chicago. The plan would require that the government take over the railroads until their receipts increased, and also involve a government subsidy.

Mr. Wiesbold has a bas-relief plaque of a discobolus; Mr. Hardin, a seated figure, and a deer; Mr. Bolton shows a study of a Western mustang, while Miss Lewis' sculpture is a statuette.

"All of the work in the exhibition is entirely the original work of the students," Miss Lewis stated. "For we accept no copies in the class."

One of Hastings' technical experts, however, predicted that his committee would be forced out of business and that if it were extended to freight on a \$1 flat rate basis, as Hastings suggested, the railroads and probably some of their shippers would be ruined.

Railroad Commissioner Joseph H. Eastman thought the plan might be "worth looking into."

Since the art project is drawing to a close this week, 12 certificates will be awarded to the 12 students who have worked for 40 hours or more in the class and have made satisfactory progress.

The public is invited to witness the display.

## Mayo Claims Legislature Hurt Farmers

Solons Should Have  
Given Board Right  
To Borrow Money  
To Build Marts

TALLAHASSEE, June 12.—(AP)—Nathan Mayo, commissioner of agriculture, said today the fall of the 1933 Legislature to pass a bill authorizing the State Marketing Board to receive federal aid for the construction of wholesale farmers' markets is "a serious blow" to the state since it "would have meant millions of dollars to Florida farmers."

"I am keenly disappointed that the Legislature failed to pass this bill," Mayo said. "The state is buying today \$60,000,000 worth of food products annually from other states that should be produced in Florida. The state institutions are buying from \$50,000 to \$50,000 worth monthly which they would gladly buy in Florida if they could procure it."

Word that representatives of the belligerents had agreed to the truce came several hours after a last minute hitch threatened to thwart the pacification efforts of five neutral powers, including the United States.

Just before accord was to have been signed last night, Luis Ríos, Paraguayan foreign minister, said the proposals for a simple armistice without the guarantees
