BASE BALL

The Game at Orlando

With over six hundred fans yelling themselves hoarse, almost equally divided between Orlando and Sanford, with automobiles and carriages banked from the grand stand entirely around the field to the far fence, Orlando and Sanford in the first game of the season succeeded in making a grand-stand finish, the score standing 3 to 3 at the close of the eleventh inning, an agreement having been made at the end of the ninth to stop if either side had scored in the eleventh, both teams being green and greatly in need of work, while the afternoon was excessively warm.

Determined that strict order should prevail at all costs, with a strong desire to have a pleasant season of sport with their old time rivals, the management had the entire field roped off, blue coats at every hand to keep the crowd back, and an order that the first offender be ejected from the grounds. An agreement was also reached prohibiting any player from making a kick to either umpire, all objections being in the hands of the two captains. Be it said to the credit, not only of the two teams, but the umpires, Messrs. Jim Pounds, for Orlando and Mr. Davis for Sanford, that not an objection was made by either team and the prospect for a splendid series of games between the two towns was never brighter.

There is no denying the fact that Sanford has a splendid team. While a trifle weak in one, or possibly two places, the aggregation as a whole is composed of good ball players and excellent gentlemen.

The Orlando boys, to say the least, surprised the natives. Not a soul could be found before the game, who had the temerity to predict a victory for the home team, but many thought a first-class aggregation could be made of the talent at hand with practice and work, but the fact that none of the boys had been in a game this season, or recently, at least, could not be lost sight of. To say that the fans, and especially the management of the Orlando baseball team, were thor-

oughly satisfied with the outcome of the game, is drawing it mildly.—Reporter Star.

The Game at Sanford

On Friday a return game was played at Sanford and for an ordinary day the crowd was all that could be desired. Both teams had played good ball the day before and both were confident of success. Sanford was shy on pitchers as Boaguwell was on the sick list and Gore's arm was not in good shape so it fell to Wallace to again go in the box and to the big one's credit be it said he pitched a fine game. Those that managed to connect with the sphere were unable to make a long drive while the Sanford boys batted Young Windham, brother of the great Jimmie, at will, Clyde Pounds knocking a home run. With all the heavy cannonading the Sanford team could not make good in the critical moments and went down to defeat with a score of 8 to 3 in favor of Orlando. There were many costly errors made by Sanford which enabled Orlando to carry off the game but the fans were not discouraged because any one with half an eye can foresee victory for Sanford when our regular team is mustered with every man in his place. One of the best features of the series this season is the entire absence of sectional feeling that marred the pleasure of the games two years ago. While some of the decisions last Friday were very close there was not a kick made and this kind of deportment means that Sanford and Orlando will have a season of good ball, good gate receipts and good feeling when it is all over.

Kissimmee and Sanford

Kissimmee ball team played at Sanford on Monday and the threatening showers kept down the attendance somewhat. Those that braved the elements managed to enjoy themselves, although the game was not a good exhibition of ball playing. In the sixth inning a decision of the umpire peeved Manager Fred Bass and he called his men off the field, the score standing 6 to 5 in favor of Sanford.

On Tuesday the team played at Kissimmee and from all accounts the game was a very tame affair. Ralph Stevens pitched for Sanford and the score was 7 to 4 in favor of Sanford.

We hope to have more games with Kissimmee for they are a clever lot of ball tossers and manage to give our boys some very good practice.

Thursdays Game at Sanford

Sanford 9. Orlando 8.

The game is never won until the last score is counted in the ninth. At least that is the way it looks to the Orlando rooters who left the field in the eighth inning convinced that Orlando had won with the score standing 8 to 5. With all this heavy handicap Sanford won and we would like to tell about it only the story in detail would take up more space than we can spare and then—what's the use? We won!

The game started with Wallace in the box—good old Wallace—who had been sick Wednesday night but offered to take the mound and do his best. The new catcher, Burden was on hand to receive, the new third, Bowen, and short stop Bridges were in their places and Sanford fans just couldn't see anything but success; but after the bombarding commenced and Pee Wee Bennett of Orlando knocked a home run and let in two men there was despair written on the faces and Manager Spencer commenced to shrink up until he was able to get in his car without opening the door.

And then that bold baid Clyde Pounds knocked another home run and the score kept climbing until in the seventh it stood 8 to 3 and no chance to save our bacon.

The Sanford men were not idle during this time but were batting our friend Jimmy Windham all the time only fate seemed against them enlarging the score. In the field the Sanford boys played a good game, Bridges making a sensational one hand catch, Snedigar making a good catch and Funk also covering his part of the garden and stopping them coming his way.

The game was one of those peculiar hoodooes that could not be explained and while there were errors made on each side Sanford played as good a game as Orlando. Finally Biddy Gore was put in the box changing positions with Wallace and to Biddy's credit let it be said that he pulled the team out of a bad hole only one hit being given up after he started flinging.

In the eighth—well, there was some ball playing and the great Jimmy Windham could not stem the tide and there are some uncharitable people who claim that Windham went up in the air. At any rate in the eighth with two men on bases Snedigar knocked a two bagger scoring two and with the score standing 8 to 8 the crowd took a new lease on life and Orlando failing to score

in their half of the ninth, Sanford came to the bat resolved to soak the cover off the horsehide and they did.

Bowen comes to the bat making a safe hit. Funk followed making a hit and letting Bowers go to second. Lawler made a two base hit scoring Bowen and Funk. Clyde Pounds came to bat making a hit and Lawler went to third. Then good old Wallace came to the bat making a two base hit scoring Lawler and Pounds, making the score 9 to 8 in favor of Sanford. About this time pandemonium broke loose, everybody went bughouse and in the grand mix up the sporting editor lost his score card and the details of the game went with it. At and rate the best part of the game comes in the ninth and the thrills given in this inning were enough to satisfy the taste of the disgruntled fans who were so blue before this inning.

The Sanford team so far has shown good form and can put it all over the Orlando team whenever they lighten up and try more team work. Clyde Pounds is a great ball player and we have great confidence in his ability to deliver the goods before the season is over. Anyhow we don't wish to dishearten Orlando by giving them too stiff a proposition and the whole matter is just a friendly pastime. Both sides are taking the matter good naturedly and some fine games are promised ere the flag falls.

Give the team your support financially and morally and go to the game.

Notes of the Game

Sanford made 11 hits and Orlando made 5, which indicates that Orlando is doing some stick work.

Burden, Bower and Bridges, the B's, all new men made good and have won a place.

Spencer was silent up to the 9th inning and then he made a break for Mayor Lake and tried to roll him in the sand.

Biddy Gore distinguished himself by pulling the bunch out of a hole. He only yielded up one hit after taking the firing line.

Any team that can pull victory out of defeat and roll up four scores in the last half of the 9th deserves honorable mention. The Sanford boys are all right, every one of them.

The attendance was the largest of the season the automobiles being parked half way around the entire diamond.

The work of Umpires Davis and Pounds is highly commendable each man giving

his best efforts toward the close points in the game and their decisions are never questioned.

The first Sanford player that makes a home run on the home grounds in any game with Orlando will be presented with a fine hat by Palmer & Seigh.

(Continued from first page.)

evening, closing with a most impressive service.

The business of the conference was closed on Saturday, at which time resolutions were passed thanking the citizens for the cordial hospitality that had been extended to the members of the conference during their stay in Sanford.

Some of the preachers left Saturday for their homes on the east coast, but others remained over and will go on to Orlando to attend the meeting of the State Epworth League Conference that meets there this week.

Conference Notes

Dr. R. V. Atkinson of Miami and Rev. R. Ira Barnett of West Palm Beach during their stay in Sanford were the guests of Mr. and Mrs. G. W. Spencer at their home on the Heights.

Miss Ada Miller of Palatka was the guest of Mrs. Chandler.

Mr. and Mrs. W. H. Williams had as their guests Rev. J. D. Sibert and Rev. W. A. Myers.

Rev. H. Dutil of Palatka was entertained in the home of Mr. and Mrs. W. J. Starling.

Circuit Court Adjourns

Judge Minor S. Jones adjourned circuit of the 7th Judicial Circuit, which met Tuesday morning, to July 5th, when Judge Perkins of DeLand will be on the bench.

Card of Thanks

To those who were so kind to us in our late bereavement and loss we extend our heartfelt thanks.

Mr. and Mrs. G. W. Messenger and Family.

HOME TALENT IS GOOD

Library Association Receives a Neat Sum From Play

DISTRICT SKULE GREAT SUCCESS

Home Talent Scores a Hit With Large Audience

District-School at Blueberry Corners drew a large crowd to the High School Auditorium last Friday night, and from the time the curtain rose on the scene, in which the school committee was deliberating on the choice of a new teacher for the school, till the closing chorus, there was a continuous round of mirth and laughter. The personnel of the play was made up entirely of prominent people of Sanford, and each one was deserving of special mention as unique characters.

The large auditorium was well filled as the people of this place are ever ready to give of their time and means to further the interests of a good cause. From the time the curtain rose on the first scenes, a school room in which the school board had met to receive applicants and select a teacher for the school, till the closing chorus there was a continuous round of mirth and laughter.

Considerable difficulty was experienced in making a selection of a teacher from the four applicants who applied in person. The first to appear was Miss Dashaway but she failed on the examination and was turned down. Miss Bilinda Sharp thought a woman should be paid the same salary that a man was paid, but the board couldn't see it that way. Miss Sallie Simple's youthfulness was against her, so she too was sent on her way. The remained for the last who came, Hezekiah Pendergrass, to meet the requirements of an exacting board which he did to the satisfaction of all.

The second scene was the first day of school, morning and afternoon sessions. Roll was made, names and ages given and they were all there, from the sixteen year old miss to the bare-footed, red headed urchin.

Sallie Brown and her little brother, Luther, four years old, were the last to arrive, and were reproved by the teacher for being tardy on the first day, but Sallie deserved credit for getting there at all, having the care of her youthful brother. The first class called for recitation was spelling, and as usual there was the good speller who could turn them all down, the poor speller who couldn't spell at all, the one who peeped in the book when teacher wasn't looking and the brilliant scholar who "didn't see that word." The class in geography is deserving of special mention for brilliancy. Many local hits were made that were very clever.

The closing day of school, which was a momentous occasion, was probably the crowning effort. Best clothes were worn, compositions were read, speeches made to the gratification of school committee and visitors present. Uriah Perkins, chairman of committee, addressed the school eloquently at the close of the exercises. Every one who took part in this entertainment deserves credit for contributing to its success and special mention would be made if space was available. It is hoped that these "stars" will again appear for the pleasure of the Sanford public.

The choruses were much enjoyed, and the quartet that sang "Old Kentucky Home" was particularly fine.

Mrs. L. E. Tolar was pianist for the evening and rendered some beautiful selections. The play was given for the benefit of the Sanford Library Association and a nice sum was realized for this popular institution. The following were the characters:

PERSONNEL OF CASTS.

School Committee.
Uriah Perkins, Chairman. M. F. Robinson
Jacob Billaker. F. P. Foster
John Smith. C. R. Walker

SANFORD, THE CORN BELT OF FLORIDA

The Fields of Fine Corn Around Sanford Are the Wonder of the Agricultural World

Will wonders never cease!

This exclamation was made by a gentleman one day last week after a trip on the traction line over the east side and an automobile trip over the west side.

Few people would realize or believe the story about the wonderful yield of corn and hay that at present is growing upon the fields in the Sanford Celery Delta—fields that only a few weeks ago were filled with celery and lettuce. The hay crop is volunteer and need no attention, coming up luxuriantly after the other crops have been shipped. No such hay

crop can be raised in the south as that which springs up on the sub-irrigated celery lands around Sanford and the farmers are selling it at \$10 per ton, all they can haul.

The visitors to the city last week were amazed to observe the giant stalks of corn all through the Celery Delta, each stalk having two and three large well filled ears of corn and no better crop could be grown in the famous corn belts of the north. The corn is being affected in Kansas and other Middle West States by the drought, something that never happens on our sub-irrigated lands and the people coming to Sanford this week

from those sections are agreeably surprised to find such corn growing in Florida where they expect to see nothing but sand. Each year finds the Sanford farmers getting back to Nature for all that he needs and with plenty of corn, hay, cowpeas, plinters and velvet beans for horses, cattle and hogs, the farmers of the North are settling upon Sanford as the real farming and vegetable section of the entire South. The day is over for the one crop idea in Sanford and each year sees new crops, better crops, more cattle, more hogs, more chickens, a better living, a surer living and a finer foundation section and a Greater Sanford.

OFFICER GRAVES KILLED

Accidentally Shot While Grappling With Negro Prisoner

While preventing the escape of a negro prisoner at the city jail at noon yesterday F. Z. Graves was instantly killed by the accidental discharge of a pistol in the hands of Officer Safford. The negro prisoner had been before Mayor Lake for selling whiskey and while being put in the cell by Officer Safford broke loose and ran behind the steel cage grabbing an empty bottle and attempting to strike the officer. Mr. Graves happened to be in the city building and rushed to Safford's assistance both officers using the butt ends of their pistols in trying to force the negro back in his cell. While Mr. Safford was using his gun the weapon was accidentally discharged the bullet striking Mr. Graves and killing him almost instantly. The negro broke away and ran out of the cell and up the alley when a shot from Safford's revolver brought him down seriously wounded. Mr. Safford did not know that Mr. Graves had been shot until his return with the negro prisoner when he found him breathing his last.

Mr. Safford is heartbroken over the affair and the terrible accident has cast a gloom over the entire city. Mr. Graves for several years was on the city police force where his vigilance and courage made him a terror to the criminal class. For some months past he had served as street commissioner.

He leaves a wife, three sons, and four daughters to mourn his loss.

Herald Takes the Lead

Results guaranteed to advertisers has been the slogan of The Herald and while our subscription list will compare favorably with any weekly paper in the state the management was greatly surprised to get the following letter:

Editor Sanford Herald, Sanford, Florida,
Dear Sir:—We beg to advise you that after summing up the total amount of replies received from our recent series of advertising, placed with six newspapers in Florida towns, the Sanford Herald yielded us more replies than any other.

Yours truly,
JOHN A. CUNNINGHAM.

All of which indicates that in a large contest recently inaugurated by Jno. A. Cunningham in which each paper was pitted, The Herald headed the list. This should prove interesting to present advertisers and those who contemplate using our papers.

CITY COUNCIL MEETS

Postponed Session Held Last Monday Night

Council met in postponed session, July 26, at 7:30 p. m.
Present: D. L. Thrasher, President; W. D. Holden, H. R. Stevens, S. Runge.
Absent: H. Ward, B. A. Howard and J. D. Davidson.

Minutes of last meeting read and approved. Two petitions largely signed asking the council to pass an ordinance forbidding the sale of merchandise and cold drinks on Sunday read and referred to ordinance committee.

Communication from the Sanford Traction Company asking that certain sheets be designated for the use of their car tracks read and referred to the street committee.

Resolutions adopted by the Sanford Library Association and referred to the council, read.

Taken under advisement bid of Chase & Co. for insurance on new fire engine referred to fire committee.

On motion, the street committee was authorized to settle the difference with Mr. Crawford in regard to change in bridge across Pump Branch at 7th street for \$150. The following resolution was read and adopted:

Resolved, That Postmaster C. F. Haskins be notified that the city of Sanford now has more than 5,000 inhabitants and is now prepared to have free delivery of mail and that Mr. Haskins be required to take necessary steps to secure this accommodation.

On motion the street committee was authorized to purchase sewer pipe for Rand avenue sewer.

On motion council adjourned.

M. W. LOVELL, Clerk

The Postoffice Rules

Our postmaster formulates the following rules for the benefit of his patrons and that you may know what you may expect: No letters given out until they have been received. If you don't get a letter or a paper on the day you expect it have the postmaster look through all the boxes and down the cellar also. It ought to be there somewhere and he likes to hunt for it just to please you. If your friend don't write rave at the postmaster. He is to blame. If he tells you no, put on a grieving look and say there ought to be some. He is probably hiding your mail for the pleasure of having you call for it. Ask him to look again. If you are buying stamps make him lick them and put them on, that's his business.

BALL GAMES ONLY

Sanford Will Not Celebrate In Old Fashioned Fourth

On account of a general apathy and lack of interest in the Fourth of July celebration it has been decided to cut out the barbecue and fish-fry and other stunts and have a double header ball game with Orlando on the afternoon of July Fourth. The consensus of opinion seems that a big celebration would cost too much and a general day of celebrating would mean closing of the stores which some of the merchants wish to avoid.

It was hoped a great celebration and old time Fourth could be planned and the Sanford spirit of hospitality prevail, but no one seems to take the initiative and agree to finance the proposition. There is time to reconsider the proposition and have the fish-fry, but at present the prospect for a barbecue is unfavorable.

The ladies will preside at the West Side Park and the basket-picnic, idea still holds good and the farmers will congregate and discuss the issues of the day, but aside from the ball game there will be no spectacular effects and the red fire and rockets have turned to punk.

The eagle will scream but not loud enough to disturb the slumbers of those who want a safe and sane Fourth and no noise.

Will Open Dental Office

Dr. F. C. Boardman, of this city, son of our fellow townsman and merchant. Mr. F. N. Boardman, will in a few days open dental parlors at Sanford, where he has already engaged quarters in the G. & W. building next door to the N. P. Yowell store. Dr. Boardman graduated in the early spring from the Baltimore College of Dental Surgery with high honors and only a few weeks ago passed a very satisfactory examination before the State Board of Examiners at Pensacola. A bright career is predicted for the young man who has not only acquitted himself handsomely both in college and before the board, but has an engaging manner, a splendid address and a way of making friends that promises to take him to the top rung of the ladder of success.—Reporter Star.

Woodmen Circle Dance

Don't forget the dance to be given by the Woodmen Circle Tuesday evening July 4th at city hall. Dancing to begin at 8:30. Come every body and enjoy the glorious Fourth, for those do not dance there will be good music, refreshing beverages and a general good time for everybody, all for 50 admission. Come early and get the worth of your money.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Because a group of revolutionists entrusted with the work of maintaining order at Vega De Metzitan, in the State of Hidalgo, forced Franz Reitter, a civil engineer, to remove his shoes and then barefooted wait upon them like an ordinary servant, the German minister, Admiral Paul Von Hintze, has demanded reparation from the Mexican government. He also demanded indemnity for losses incurred by the company for which Reitter was working. The government has ordered an investigation of the charges.

Reliable advices have been received from Albania that the situation there is extremely critical. Turkey has massed 50,000 troops within a day's march of the Montenegrin frontier. Charles R. Crane, of Chicago, who has just arrived at Vienna from Cetinje, after traversing Albania, describes the conditions as absolutely intolerable. The Turks, he says, are devastating whole districts, killing prisoners, refugee women and children, burning homes and crops and blowing up churches.

The inquiry into the Colorado group of beet sugar factories, controlled by the American Sugar Refining Company through the Great Western Sugar Company was concluded Saturday by the Sugar Trust investigating committee. This week the so-called Sugar Trust interests in California industries will be taken up. John D. Spreckels will be a witness as also will Claus Spreckels upon his return from Europe. Further insight into the relations of the Mormon Church and the American Sugar Refining Company will be sought from Prophet Joseph F. Smith, head of the Mormon Church.

A new record in the foreign commerce of the United States, surpassing that of any business history was made during the eleven months of the fiscal year ending with May. During this period the imports and exports of the United States, as compiled by the Bureau of Statistics, amounted to \$3,312,383,506, which exceeds the record year of 1908 by almost \$3,000,000. The balance of trade in favor of American business men from their foreign customers amounts to \$501,523,502 for the eleven months.

An investigation of cold storage eggs for the government, will be conducted this summer by Prof. W. A. Stocking of Cornell. It will be conducted largely in Omaha packing houses. The object is to find out particularly what kind of eggs should be placed in storage so as to insure keeping quality.

A state-wide movement having for its object the repeal of the near beer clause and the abolition of locker clubs was launched throughout Georgia on Monday by the Anti-Saloon League. Letters had been sent to the pastors of all the churches in the State and these were read at today's services. Resolutions accompanying the letters also were presented to the congregations. These approved the near beer bill and called upon the several Senators and Representatives to work and vote for its passage.

Stringfellow-Howard

The announcement of the marriage of Miss Ella Stringfellow and Mr. C. C. Howard came as a surprise to their many Sanford friends. The event occurred in Jacksonville last Tuesday and the first inking their friends had of the event was the receipt of postal cards.

Both young people are popular in Sanford social circles, Miss Stringfellow being the oldest daughter of Judge L. G. Stringfellow has resided in this city since her early childhood and numbers her friends by the score.

Mr. Howard has been a resident of Sanford for several years being a member of the Howard-Packard Land Co., and a general favorite with every one. He is also engaged at present in railroad construction work. The happy couple after a wedding trip will make Sanford their home. Mr. Howard having a nice home already prepared on Myrtle Ave.

The Herald joins the many friends in wishing Mr. and Mrs. Howard a happy and prosperous life.

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Chiel is Among Ye' Taking Notes and Faith, He'll Prent 'Em" — So Says Saunterer.

Special Correspondence to The Herald.

Coal Chute Memorial
A coal chute reared its grimy head
Across a landscape fair.
Within a city's limits shed
Its dust, poisoned the breeze swept air.

Avast, the City Fathers cry:
The railroad merely smiled and said
Unto itself, "They dare not try
The law—we'll be there when they're dead."

And so the railroad went its way,
Serenely, calm and unperturbed;
It cared not whom its dust might slay,
The while its chute stood updisturbed.

Some day, perhaps, removed 'twill be,
So let us not the railroad hate
About two thousand years, A. D.
Will very likely be the date.

L. R. V.

¶ About as good a way to study human nature is when you are driving on the public road. If a man is willing to observe the laws and the courtesies of the road, he will duly give his share of it when meeting another, and show he is willing to do the gentlemanly thing about it. But when you meet one who takes every advantage of those he meets, and holds the road for his own selfish self, often to the great discomfort of those he meets, or will not allow them to pass, we are almost sure to think of pork in connection with such drivers of teams.

¶ The farmer who owns a farm is the particular person who is fixed. Banks may fail and factories close, workmen strike and mines suspend, merchants fall and town burn, times may be panicky and even crops may be short—but the farmer who owns his acres will get along. He will live in comfort and quiet, with plenty to eat, drink and wear. He is the most independent man on earth. Yet there are lots of them who do not appreciate their situation.

¶ The telephone girl is a sadly misjudged person. Her work is difficult and her errors marvelously few. She has no time for unnecessary words, though she is as polite as the public will permit her to be. She knows that you never think of her

services, except when it goes wrong and never speak of her except to "knock." Yet she patiently does the best she can for you through long hours and for small pay. Do not imagine that you are distinguishing yourself by complaining against her. Thousands have been ahead of you. But say a word in her favor at the right place and you stand almost alone with an approving conscience.

¶ There is a moral grandeur in the thought—"I have made myself". The world may wag their heads, and you may be denounced, but if you are conscious of that integrity of purpose which has always characterized you, and that you now stand on an eminence, placed there by your own rectitude of heart, you have nothing to fear. You had not the influence of wealth, nor the "God speed you" of powerful friends; but you had more—a heart fixed and determined, and this is what has made you what you are. Go on—add virtue to virtue—look steadily at the goal before you, and at last your best teachers and artful companions will acknowledge your superiority and feel proud of being among the number of your friends. The man who is resolved to be something in the world should have nothing to fear, and when he little dreams of it, honors are gathering about his head and an influence goes out from him, which is exerted silently but surely for the good of thousands.

¶ A man never realizes the superiority of woman so much as when he is sewing on a button without a thimble, pushing the needle against the wall to get it half way through and pulling it through the other half by hanging on to it with the teeth.

¶ I see by last week's Herald that my old friend, Charlie Hand will be in the race for Sheriff and I am glad to hear it. You could hardly find a better man for the place if you travelled the country over and he ought to win in a walk. I do not say that Charlie Hand should have this office because he is entitled to it from years of service as a deputy, but he is the man eminently fitted for the place because he is cool, self-reliant, well educated, a business man and a man who uses good judgment. A sheriff needs all these qualifications and he should be a man who holds the office free and untrammelled by any party affiliations or promises. The primary is a long way off, and I shall be heard in Charlie's defense

several times ere election day—but keep your eye on Hand.

¶ In my peregrinations about the city I notice that the dirtiest alley, the dirtiest vacant lot and the worst smells are around the Herald office. In spite of all the editor of the Herald can do to keep his own place clean and neat this fact remains and it appears that the city council must want The Herald to vacate and are making the place uncomfortable enough to force the departure. Just why so much rubbish and weeds are allowed to collect here, just why cows should be pastured here and just why this neck of woods should be forced to undergo such treatment is beyond comprehension. Every one in the block is kicking every day about it but the nuisances are not abated up to the present writing.

¶ My friend, W. C. Palmer, made a good suggestion this week and that is a Y. M. C. A. for Sanford where we could have a good swimming pool, gymnasium, reading room, etc. This movement should be taken up by the different churches and would certainly prove beneficial to both young and old. There is no place for a young man to go at present in Sanford. No place where he can meet for few hours in pleasure recreation and where the environment would be for character moulding. The Y. M. C. A. has proved a great boon for the young men of other places and Sanford ought to have one even if it had to be started on a small scale. I agree with Mr. Palmer that we should have a meeting at some time in the near future and ascertain how such an institution could be started.

¶ It seems now that Sanford will not have a big celebration but that two games of ball, a basket picnic, a quiet day and a ball at night will be the sum total for the day of Independence fame. So mote it be! We can have a safe, sane Fourth, the kind the ladies talk about. Not the kind the grandfather used to make but the new fangled kind that the new woman tell us about. Our friends from the country can bring their baskets and swap horses and lies and Jack Knives and all of us can have a nice, quiet, ladylike Fourth. The trouble seemed to be that my old friends B. W. Herndon, E. E. Brady, Felix Frank and F. P. Foster could not be induced to sacrifice themselves for their country. They were burned once and they seem shy of the fire cracker ever since.

Efficient Staff of Reporters Weekly Covers the Territory for The Herald

LAKE MARY MELANGE

To the editor of The Herald: Clarence and Raymond Willsey and Edgar Rose have returned to Lockhart after spending several days here with their grandparents Rev. and Mrs. J. F. Sundell.

Mrs. Barney Ingersol, who is spending the summer in Buffalo writes that she is having a very pleasant time.

Miles Clamp is back in town after spending several months down on the East Coast.

Mrs. Wm. Hand and children Miss Clarice and Master Carl from Sanford spent the day with friends here last Saturday.

Rev. J. F. Sundell has gone to Roseland Fla., for a few days on a business and pleasure trip.

At the last meeting of the Lake Mary Social and Industrial League it was decided to discontinue the monthly picnic until Sept., on account of the hot weather the next picnic will be on the last Friday in Sept.

GENEVA JOTTINGS

Special Correspondence to The Herald: On account of the illness of the pastor, Rev. Brook, the pulpit of the Methodist church was filled Sunday morning by Rev. Saunders.

Evan Pattishall has just returned from Sioux City, Iowa where he graduated in music.

Mrs. T. W. Geiger and little daughter, Georgia, are visiting relatives in Oxford, Ga., going up last Monday.

Mr. and Mrs. J. A. Worthy former residents of Geneva but now living near Americus, Ga., are on a visit to their daughter, Mrs. V. T. Peters.

Miss Ruth Hand has returned home after spending several weeks pleasantly with Mrs. Moran.

There will be an ice cream festival at the city hall on Friday evening, the 30th inst., given by the ladies for the benefit of the hall. The public is cordially invited to attend.

Messrs. E. W. and F. F. Sieg and families from Americus, Ga., who have recently visited relatives in Geneva, returned home last Tuesday.

Miss Lida Geiger is attending a normal school in Gainesville, Fla., for the summer months.

Hoyle Taylor is in Geneva for a short while in the interest of an insurance company.

Mr. and Mrs. O. E. Liggin from Americus, Ga., are visiting relatives in Geneva for a few weeks.

Mrs. K. M. Sieg and daughter, Miss Kittie Wells, have arrived in Geneva and will in future reside here.

Mrs. Laura Harris and children, Miss Maude and Jack are visiting their aged relative, Mrs. Elizabeth Pravat.

Miss Ella Mackey, of Sanford is visiting Miss Irene Lansing.

Quite a jolly party consisting of the families of Messrs. Sieg, Speer and Etheredge, spent several days last week end camping on Lake Harney.

The Geneva Fish Company composed of T. W. Geiger, David Speer, Geo. Geiger and Irving Baker are making necessary preparations to open up their fish business with the beginning of the season.

Miss Miller of Palatka gave an interesting talk on missions at the Methodist church last Sunday evening. She was the guest of Mr. and Miss Daniel on Monday when several ladies had the pleasure of meeting this interesting lady.

Misses Daniel, McLain and Pattishall attended the Epworth League conference in Orlando last week.

J. T. McLain and wife complimented a few friends with a joy ride last Wednesday and attended the League conference in Orlando.

Mrs. K. M. Sieg and children took a pleasant launch ride to Sanford last Tuesday.

The following news has recently received here.

Mr. Evan G. Partishall has just been graduated in the course in Elpe Organ from the Conservatory of Music, connected with Morningside College, Sioux City, Iowa. Mr. Partishall has been but one year in Morningside but has won for himself a high place of regard in the student body as well as the faculty. He has been one of the moving spirits in the Glee Club and in general college life

has participated enthusiastically. The people of his town may well feel delighted over the fine showing of this promising young man."

MOORE'S STATION

Special Correspondence to The Herald: Here is all success to the Herald Printing Co., long may it flourish.

Melons and eggs plant are the popular vegetables just now, field corn will be a large crop, some fine hay is being cut and stored.

Mr. and Mrs. T. Johnson and children made a house party at Coronado Beach last week and report a delightful time.

Miss Clara Estridge and Lloyd M. Lucas were married at the Baptist parsonage on Sunday June 25th by Rev. Wildman. They are on a trip South, will visit Tampa and other points, will be at home shortly at their house ready prepared for them on Railroad St. Both are popular and well known and have the hearty congratulations of a host of friends.

Mr. Jones of Beardall Ave is on a visit to Wichata Kansas, his former home.

Madames Hart and Vaun of Geneva are guests of Jacksonville friends.

For the Herald printing Co., Moores Station in last weeks issue it should of read Miss Laura Fish was spending the summer on Long Island instead of Fog Island.

Mr. and Mrs. H. C. Fruelit are the new neighbors in the Speer house on Miller Ave, they come here from Celery City and formally from Lima, Ohio.

Mr. and Mrs. Guerry are rebuilding their home and making a very comfortable, commodious house.

CAMERON CITY CLIPPINGS

Special Cor. to The Herald.

Mr. Kenedy of Hayden Indiana who owns a farm just north of town will have a house built on his lots on Michigan Ave, and move here in the early fall. He has sent plans and specifications to local carpenters for bids on the work and is anxious to have it pushed to completion as possible.

A gentleman who is delighted with our beautiful park, our location and our people is planning to build a hotel here. This would certainly be an ideal spot for the winter tourist seeking quiet rest and at the same time not wishing to be shut away from the world. With the inter-urban line to carry him to town almost any hour of the day, with our beautiful groves in which to spend his out door hours and our beautiful gardens and nearby orange and grapefruit groves to supply his table, he could not but find it pleasant and beneficial.

Mr. Dressler of Ohio, has purchased two and a half acres of Prof. George Swartz and intends to locate in Cameron City. We bid him welcome.

Mrs. W. W. Dresser who has been visiting in New York is expected home in about three weeks.

Our farmers are still shipping eggplant, tomatoes, peppers and some potatoes.

Mr. A. B. Howard is fertilizing the Wolverine farm which he recently purchased from Mr. Keelor, much from the old railroad grade near the fisher's camp.

Mrs. F. F. Dutton and children spent last Friday in Cameron City, the guest of Mrs. Minnick. Mrs. Dutton and children will for an extended visit with Mr. Dutton's parents in Illinois.

Among our Sunday visitors were Mr. and Mrs. Ginn, Mr. Brumley and family, Mr. Brisson and family, the Dutton family and Prof. and Mrs. Maris.

Mr. and Mrs. Worthington spent Sunday at the Minnick home.

John Shinn who has been spending the summer with his parents in Kansas, will return to Florida and Cameron City.

Our men are beginning to plan for some work in Howard Park.

Beck's Park is a favorite place to spend Sunday afternoons. Our young people especially enjoy it.

Badger-Rabun

A very pleasant wedding took place at the home of Mr. and Mrs. D. S. Rabun of Sanford, June 20, when his daughter, Lilly May, was married to Mr. John G. Badger, of Tampa, Fla.

The wedding took place at eleven o'clock. It was a real home wedding, only the immediate relatives of the family and a very few intimate friends were present at the ceremony. The wedding dinner followed which was very sumptuous. The table was beautifully decorated, the brides cake, ornate with oranges leaves and beautiful roses, formed the center piece.

The bride is the accomplished daughter of a prosperous farmer of Sanford and the groom is a rising young engineer of Tampa.

They left immediately after the dinner for Tampa where their future home will be. Many handsome and useful gifts were received by the happy couple.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardul, the woman's tonic. Cardul is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUL The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardul. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardul helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardul, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardul. It will help you. Ask your druggist.

The GREATEST PLAY I EVER SAW
AS TOLD TO Hugh S. Fullerton

BY HUGH DUFFY.

Famous Outfielder and Base Runner Chicago and Boston Teams, Now Manager of the Chicago White Sox.

Tommy McCarthy was the greatest outfielder that ever lived, and he made the greatest play I ever saw. In fact, he made half a dozen of the greatest plays I have ever witnessed, including the one that I think was best of

HUGH DUFFY.

all. McCarthy was in a class by himself as an outfielder. His judgment was superb; he was a quick thinker, full of nerve, fast, and a wonderful thrower. I never have seen anyone, either before or since, who could think or act as quickly as he could. I played alongside of him and many times marveled at his work. The play he made was in a game between Boston and Pittsburg, when Connie Mack was leading the Pittsburg team. It came in the ninth inning and the score at the time was 6 to 4 in Boston's favor and both teams were hitting freely; the work of the fielders alone saving them from larger scores. Men were on the bases in almost every inning and it took brilliant playing to prevent scoring. Pittsburg got men on first and second bases at the start of the ninth inning before a ball was out and Billy Merritt, who was dangerous in a pinch, was at bat. He failed to hit the ball hard, but dropped a short fly between left and center fields, right in the groove where it is so hard for outfielders to reach one. Our outfield was far back, and McCarthy, who was playing center, didn't seem to have a chance to reach the ball. He came tearing in at top speed, however, and tried for the ball on the fly. I think that when he got within thirty or forty feet of it he saw that he could reach it, but immediately decided upon another plan. He sprinted in. The base runners saw that he could reach the ball and hurried to get back to their bases. Instead of catching the ball, however, Mac scooped it, trapping it while going at full speed, and without slackening his pace at all he heaved the ball to Lowe on second. Lowe touched the base runner and then stepped on second base for the forceout, completing the double play. The Pittsburg team was all at sea, not knowing whether Mac had caught or trapped the ball, and Merritt, who had hit it, was so confused or else so astonished at Mac's play that he had stopped half way down to first base and was standing watching to see what was happening around second base. Lowe, of course, supposed Merritt had gone over first base, but McCarthy never seemed to overlook anything. He was still running in, and was almost to second base when he saw Merritt's abstraction and sprinting on he grabbed the ball out of Lowe's hand, and without stopping raced on through the diamond and touched Merritt, making the third out and completing the most astonishing and brilliant triple play I ever saw. His trapping of the ball was done so cleverly and rapidly that only one or two men on the two teams realized what had happened, but McCarthy had the whole thing planned out and accomplished the feat almost without assistance. I believe that with the speed with which he was coming forward when he caught the ball, he could have run on to second base, touched the runner and the bag, then gone on and touched Merritt, completing a triple play unassisted, a thing which no outfielder ever did, and which is considered impossible.

HOWARD - PACKARD LAND COMPANY

Bulletin

If You Intend To Buy At Volusia Farms Buy Now

There is today the largest movement of homeseekers from the Central & Western States to the South-eastern States known. On the regular excursion dates this past winter the trains coming to Florida have been crowded with this class of passengers like that of the old time movement to the West. All railroads entering Florida report great movement of homeseekers and land buyers.

The spring movement is just starting. People are, more than ever before, realizing the great opportunities for good, cheap lands to be found in Florida, and next fall and winter will certainly see a greatly augmented movement of people Florideward.

We entertained more people in Sanford than ever before in our history and are entertaining large numbers this spring. Even the spring and summer is a good time to see Florida. It is, possibly, better to see it in summer than in winter, to rid yourself of that bugaboo that because Florida is in the south it is hot, forgetting that the location of Florida, between ocean and gulf, is responsible for a superb summer climate.

It is almost a year since we placed Volusia Farms on the market. During that time we have sold many farms, both for full cash and for easy monthly payments. The year has seen the price advance from the starting price of \$25 an acre to \$30 and from \$30 to \$40, at which price it remains until further notice.

Our plan is to allot a certain number of farms to sell at each advance. When that number is reached, the price is again advanced. Just as soon as the allotted number of farms is sold at \$40, the price will go to \$45.

This is why we say if you intend to buy at Volusia Farms, buy NOW. Certain it is you'll never buy cheaper; certain it is that if you postpone buying, you'll buy at a higher price, until some day, you'll be glad to pay a price per acre based on the productive capacity of the soil.

There is no man who comes to Florida properly equipped in health and with enough money to tide him over the "settling" period, who is willing to do the work of a MAN who cannot find profitable employ-

ment and the avenue opened to independence. A cry of distress is rare. The question of existence almost solves itself. With increased wealth and diversified interests we have made sure and rapid strides; our people are alive to good roads, the development of our St. Johns river and are comprehending as never before their own strength and the great riches which lie hidden in our wonderfully fertile soil.

If one could travel this section who was familiar with conditions even five years ago, he would be amazed at the changes which even this brief span of time has wrought. The cleared land, the cultivated acres, the groves, the pastures, the busy streets in modern towns and cities every few miles, would tell, above the power of words, the marvelous recuperative power of our people and of the golden future which spreads before the vision.

In the mighty agricultural awakening which has come to Florida there is not a note of dissonance.

So we say again, if you intend to buy at Volusia Farms, BUY NOW N—O—W. Take advantage of the present conditions and of the ruling price.

Volusia Farms is a genuinely GOOD buy for any man who ultimately intends to live in Florida. Various tracts of the land are suited for various pursuits—Orange and Grapefruit culture, early vegetable growing, pecan culture, stock raising, and if for pleasure only, there's several unsold tracts abutting on beautiful lake shores where a winter home would be next to nature's heart.

These lands are located right in the favored fruit and vegetable belt of southern Volusia County, Florida, about 125 miles south of Jacksonville, and between the St. Johns river and the Atlantic ocean, being about sixteen miles from the latter, not very far, you see, from the Indian river, where the finest oranges and grapefruit in the world are grown.

Twenty miles to the north is DeLand, sometimes known as the Athens of Florida. It is here that the famous Stetson University is located.

The entire tract has a gentle slope from the north to the south. Our land touches the river immediately south of the Kalamazoo depot. This natural slope furnishes the necessary drainage on which health and wealth depend.

Good wells of water can be obtained at depths varying from a few feet to one hundred feet and the water in these wells rises so near the surface that it can be easily pumped out by hand for all ordinary purposes, while with the aid of a small engine, any farm can be irrigated and the farmer entirely independent of rainfall.

Volusia Farms are easily within 50 hours of the great markets of the East. Compare with California, three weeks from her principal market places.

Let us make another comparison. The waters of the Grand river, Colorado, were diverted to irrigate 12,000 acres of desert land. A few years ago all of the land was a drug on the market at \$10 an acre, sagebrush and cacti furnishing the only break in its desert undesirableness. When the water project was completed, but before actually one drop of water had been turned upon the desert, prices jumped to \$200 and \$300 an acre.

It is unbelievable, almost, to think that people would prefer \$300 an acre land out in the sun-baked, sizzling desert to \$40 an acre land in the charming, comfortable, pleasurable, worth-living Florida.

Land in the west is priced much closer to its productive capabilities than has hitherto been the rule with Florida lands, but that time is coming even for Florida.

Volusia Farms are today worth much more than we are asking you, and there is no saying how long you will have an opportunity of buying at present prices. We are ruled entirely by supply and demand.

So we say again, if you intend to buy at Volusia Farms, buy now.

Send in your reservation and if, within sixty days you make personal inspection of the tract we reserve for you and find we have misrepresented anything—your money back. Don't forget that we would rather you come here yourself and bought, as we have never advocated the buying of land sight unseen.

First of all write for our booklet "Resources of Volusia Farms". No man living in other sections of the country can afford not to know about Volusia Farms. Its development means the enrichment of the State and every man and woman is necessarily interested in knowing of the progress and prosperity of every portion of our country.

Write for our booklet, "Resources of Volusia Farms"

HOWARD - PACKARD LAND COMPANY, Inc.
Peoples Bank Building

SANFORD, FLORIDA

CITRUS SOUTHERN COMING

New Traction Line Staking Out Several Routes

A party of officials of the Citrus Southern Railway Company were in Sanford Saturday conferring with the city officials here in relation to the entrance of the line to Sanford and the routes to be taken, the granting of a franchise to the corporation and other matters of an important nature.

In the party was Mr. T. K. Miller, president of the company and a resident of Pittsburg; J. J. Brophy, vice president and legal adviser, and Moore Kelly, secretary and treasurer.

The company has surveyed two complete routes from Sanford to Kissimmee and St. Cloud and is now busily engaged in finishing the third route. The route to be taken will not be decided upon until the franchises have been granted by the cities of Sanford and Orlando, then the most feasible of the three will be selected. Terminal facilities and dockage and wharf accommodations have already been secured in the cities of St. Cloud and Kissimmee. The Sanford and Orlando franchises have been applied for and the case of the company will be presented in a short time to the councils of both places.

The communities which the officials of the Citrus Southern Railway Company have visited have manifested every inclination to cooperate with the company in rendering it all the assistance within their power of both a moral and material nature. Each section visited has at once realized the value of the construction of this line to their communities in the matter of better transportation accommodations and seem to be vying with one another as to how one community can outdo the other in rendering aid to the project.

President Miller said that where the sentiment was so entirely unanimous in favor of a project as it has been found to be in favor of the building of the Citrus Southern, that it was simply a matter of details that was now standing in the way of the beginning of actual work on the construction.

The capital stock of the company is only \$500,000 and the number of miles of road to be built and equipped is fifty, thus allowing \$10,000 per mile for this work. It was shown to the committee, that conferred with President Miller that the traction companies operating in Florida were capitalized at \$63,000 per mile and were paying 1 per cent per annum on this capitalization. On the same basis of earning power the Citrus Southern would be able to pay dividends amounting to 24 per cent per annum. This being the case with the large capitalization, it would appear to be an easy matter to pay 5 per cent on \$10,000.

The fact was brought out very clearly that the backers of this corporation were fully convinced that the road could be made a very useful utility to the communities touched by its rails and they feel that everyone interested in property along its right-of-way should take up and carry a portion of the burden of promoting, building and operating the line, as all would be interested alike and the benefits produced could not be monopolized by any single individual or community. Times-Union (Cor)

Dean Spencer Injured

While returning from the Elks ball game last Tuesday, Dean Spencer had his leg broken in an automobile accident.

The game over, all were anxious to reach Orlando in time for supper and as a consequence some pretty fast driving was indulged in, but from those who witnessed the accident, the speed of the car at the time was not excessive. When the marl was reached, about two miles from Sanford, Mr. J. P. Musselwhite's Hupmobile was in front, Mr. VanDuzor's car next, while back a short distance H. A. Grant. About the time the VanDuzor car overtook the Hupmobile, a wagon, driven by a negro, was met and in attempting to pass both the wagon and the automobile, the car swiped the wagon, Dean Spencer being thrown to the ground and his leg broken, also sustaining a number of bruises. The other occupants of the car retained their seats and were not injured. The colored driver of the wagon was thrown to the ground but was not seriously hurt, although his wagon was pretty badly torn up.

The Dean was brought to the city and received medical attention afterward being removed to his home in Orlando where he is improving.

On The Railroad Again

Some one has suggested that the Railroad Co., place seats at 2nd and 3rd street crossing so that the weary pedestrians could rest while waiting for the long freights to pass. Now I do think the Co. should put awnings over the seats for old sol has been beaming down so scorching hot these days that the poor pedestrian would be so shrunk up from baking they would not be able to pursue their journey.

One Who Waits.

POULTRY NOTES BY C. M. BARNITZ RIVERSIDE PA. CORRESPONDENCE SOLICITED

GROWING GOSLINGS.

If an amateur you will be surprised how quick after hatching the goslings give you the cold shoulder and cut loose from their mammy's apron strings.

The old duck must wonder what's coming when those snake-like heads poke themselves from under her, but she gets the jolt of her life when, a few weeks after, the independent little rubbernecks give her the grand bounce for ever.

That's the charm of goose culture. They are the easiest proposition in poultry, have few diseases, need little care, and almost live on grass. Just three or four weeks' feeding, then on to the grass for the summer.

TOULOUSE GOSLING ONE DAY OLD.

then a few weeks' fattening before Thanksgiving. You sell and have a big profit.

Most goose breeders hatch with hens, six to the set, and are careful to keep the gulls warm and dry at first, not allowing them to swim until down disappears.

At first they cannot endure hot sun or wetting, and a cold strong wind is a detriment.

They are housed in a large box or coop with a grass run about it.

Feeding is simple.

The first few days some feed coarse corn bread soaked in milk and mixed with short grass or lettuce, and then

TOULOUSE GOSLING SIX WEEKS OLD.

follow with a crumbly mash, two parts bran and one each of mids and corn meal, with table scraps thrown in, and all sprinkled with fine grit.

Others start with bread dipped in milk and squeezed dry or simply crumbly corn mash and from these lead to coarse grain.

Grit is placed in bottom of water vessels, and these are made so gulls cannot splash themselves.

At first they are fed four times daily, just what they eat with a relish, grazing between meals and then torped on grass altogether.

At eight weeks they are confined and fed on cornmeal mixed with 15 per cent meat scrap, and at the end of ten weeks should weigh eight to ten pounds dressed.

DON'TS.

Don't breed mixed geese. To breed Toulouse is not to lose.

Don't imagine Runts, because their squabs are large, will your and their feed bill discharge. Three pairs of squabs a year will surely not a penny clear, and you'll go in the hole, my dear.

Don't be so soft if you soft roasters try to pass the Rocks, the Reds, the Brahmas, by.

Don't hit in. Neither make a goat of yourself nor allow others to do so.

Don't be afraid of a blister. Success and blisters are twin sisters. Don't blush for a coxy badge. If you apologize for a coxy, you're foxy. Don't "strike when the iron is hot." Make it hot with a hot shot. Don't sell eggs from a stolen nest unless you give them a thorough test. Don't use pork cracklings when beef and calf plucks are better and as cheap.

NO MORE CRANKING

The 1912 Everitt "Six" Presents for \$1850

More than You Ever Hoped to Buy Under \$3500--in the First All-Chrome-Nickel Steel Car Ever Offered at a Moderate Price

THE CAR THAT STARTS ON A PUSH BUTTON

THE CAR THAT STARTS ON A PUSH BUTTON

The 1912 Everitt "Six--48" Fully Equipped, \$1850 Deliveries After July 15th

The Car That Starts on a Push Button--No More Cranking

Today We Tell You--as Promised in the Saturday Evening Post--of the Everitt's Crowning Achievement--a Positive-Action Self-Starting Device, Which is Not a Costly "Extra," but a Part of Our Regular Equipment.

With its perfect self-starting device, the six-cylinder, all chrome-nickel steel Everitt, fully equipped for \$1,850, exceeds the most optimistic motorist's dream.

No man who has owned a "six" has ever repented of the outlay involved, but until today only one owner in a thousand felt able to meet the necessarily high prices asked.

Every consideration of construction, of ample power production, of continuous torque, of overlapping impulses and of real value returned in luxurious comfort prompts high prices for cars of the six-cylinder type.

We knew that if we could place an Everitt "Six" on the market at anything near the usual price for four-cylinder cars of good average quality, it would be the most attractive car the world had ever seen.

The addition of a self-starting device works a complete change in motoring. It removes an element of actual danger and eliminates the last factor demanding brute strength.

That such a device was badly needed was long realized, yet many otherwise famous designers have failed utterly in solving this problem.

We purposely refrained from announcing the Everitt self-starter until its complete reliability had been proved beyond the shadow of a doubt.

It is operated by means of a push button on the dash-board; is unique in type--never failing--always ready.

In other words, we have been able to reduce our manufacturing expense far below that incurred by other manufacturers, and when you buy an Everitt car your share of this difference stays in our pocket.

The New Everitt "Four--36," Fully Equipped, \$1,500. Deliveries After July 15th.

Equally remarkable at its price is the Everitt "Four--36," because it actually offers you at \$1,500 quality and features that are not to be found in any car within many hundred dollars of its cost.

It has the Everitt self-starting device, and is the only four-cylinder car on the market at a moderate price which includes such a device as a part of its regular equipment.

Like the Everitt "Six--48" it is constructed throughout of chrome-nickel steel--a feature that instantly settles, without any opportunity for argument, the paramount question of quality employed in the material.

It is literally true that there is not to be had, at any price, a four-cylinder car which exceeds the Everitt "Four--36" in this highly important particular.

Another Startling Announcement

The "Everitt 30" Reduced to \$1250

But, we decided merely a "six" would not be sufficient. It must be constructed throughout of chrome-nickel steel; that marvelous alloy which by all tests has three times the strain resistance of selected open-hearth steel, and has an actual value six times as great as common steel.

We had still another high mark to reach. The Everitt must be equipped with a self-starting device, positive in action, easy to operate--thoroughly trustworthy.

This combination of what we deemed essential to the perfect "Six" could not have been placed in any car at any price up to a short time ago. The presence of any two of those features in other cars presupposes a cost, today of \$3,000 or more.

Not only is the Everitt "Six," with its full 48-H. P. and features just enumerated, greater value than has been sold for \$4,000 within the present year, but it would actually be necessary for other factories to receive in excess of \$3,000 for it now in order to show any profits.

How, then, has this miracle of value and price been reached? The question is highly important, because its answer will establish in your mind entire credibility for this--beyond question the most remarkable automobile offer ever made.

By Scientific Management, as the result of the advice of experts who have critically supervised every form of our shop practice for many months, we have effected great savings in manufacturing costs, all of which now benefit the buying public.

We are especially proud of the exceptionally fine design of this car--of its generous proportions--of its striking beauty both in exterior appointments and interior equipment.

For this season, the body lines of this "Four" have been brought to greater refinement. Larger tires and demountable rims have been added, and a top, windshield, gas lamps and speedometer are all included in our standard equipment for 1912.

Although only rated at 36, its powerful motor has been shown by long continued brake tests to reach and easily maintain 46 H. P.

Study the condensed specifications of the Everitt "Four--36," which are given below. Keep in mind the quality of this car in every detail as you read the list.

Remember, also, those vital features which are distinctly Everitt, and you will better appreciate the exceptional value that is offered at this exceptional price.

Condensed Specifications of the New Everitt "Four--36," \$1,500

Four-Cylinder, 36 H. P.; Long Stroke Motor; Chrome-Nickel Steel Throughout; 34x4-Inch Tires; Demountable Rims; Cellular Radiator; 115-Inch Wheel Base; Top, Windshield, Lamps, Generator and Speedometer Included; Dual Ignition; Manufactured Complete in One Factory.

Condensed Specifications of the Six-Cylinder Everitt; \$1,850

Six-cylinder, 48 H. P., Long Stroke Motor; Chrome-Nickel Steel Throughout; 36x4-Inch Tires Demountable Rims; Cellular Radiator; 126 1/2 Inch Wheel Base; Top, Windshield, Lamps, Generator, and Speedometer included; Dual Ignition; Manufactured Complete in One Factory.

The Standard "Everitt 30" for \$1,250

(Top Lamps, Generator and Windshield Included)
In general appearance, size and power the "30" shows little change for the new season, although those familiar with this famous car will discover in it many refinements and important improvements. It is a veritable triumph to be able to offer you the "30" for \$1,250 for 1912, including the top, windshield and complete equipment.

Preparing For The Hay Crop (By G. H. McQuarrie)

The amount of money sent out of Florida yearly for hay amounts to hundreds of thousands of dollars. Most of this will be kept at home when our farmers realize how easy it is to make their land produce an abundant crop of hay.

With but few exceptions, all the land in the State is capable of producing luxuriant crops of crabgrass and beggarweed, and in the northern and western sections, Mexican clover in addition.

When the natural grasses do not prevail to the extent necessary for a good stand, cowpeas can be sown any time up to the middle of July, with an assurance of getting a good crop of the highest grade of hay.

A mixture of cowpeas and sorghum makes an excellent hay for work stock, and may be especially recommended for this purpose. About forty pounds of sorghum seed per acre may be used.

Another good mixture is sorghum and German millet. About thirty pounds of millet seed per acre is added to the amount of sorghum already recommended.

The application of the same amount of nitrate of soda at the same period on land that has grown a spring crop will often be found to be an advantage with sorghum and millet.

Notice of Dissolution of Partnership Notice is hereby given that the partnership firm of Nyman & Henderson has been dissolved and terminated.

BASE BALL

Last Friday's Game

Swelled up with their signal victory of Thursday the Sanford boys went down to Orlando last Friday imbued with the idea that they could put it all over the boys of the capital city, but they didn't.

Baguwell, the tall sycamore from the Mississippi, occupied the mound for Sanford and although he has been very sick for several weeks and his arm is not in condition he did very well.

Johnny Windham did the heaving for Orlando and about all there is to the thing is the score 4 to 3 in favor of Orlando. Some of the Sanford boys claim that Umpire Davis scored the winning run but we are not making kicks against the umpires this season. You don't win games chewing the rag with the umpire and the boys are ones who are depended upon to win the game. There is much work to do ere the ideas of July when the big noise takes place and our boys must tighten up and play inside ball and play it all the time.

The following is a report of the game from the Orlando Reporter Star:

After being defeated at Sanford Thursday by purely rotten playing, although Sanford put up a good game at the finish holding the boys down, the team going to pieces in the eighth inning, when the score stood eight to three in favor of Orlando. Frank Pounds being about the only man on the team to escape the error mark, the largest crowd of the season journeyed to the Fair Grounds to see the game yesterday afternoon. A careful count of the automobiles, a solid line banking from the grand stand entirely around the field, showed one hundred and six cars and many carriages and buggies, the attendance being estimated between six and seven hundred and this on a day other than a holiday. With both teams very evenly matched, the game from start to finish was exciting in the extreme. A few errors on the part of our players almost caused heart failure, but altogether, the game was very clean and entire void of wrangling of any kind. Mr. Davis for Sanford, and Mr. Jim Pounds for Orlando umpired a splendid game and while some decisions were very close, all were taken with good grace. Sanford has an excellent team and from now to the close of the season the sport loving public can rest assured that they will get their money's worth.

Elks Play Ball

The game of ball between Orlando lodge of Elks and Sanford Lodge on Tuesday for the benefit of the Sanford Hos-

Hurt's Regular Pose

pital was one of real games of the season and not a comedy as the public was led to believe. These old boys and young boys while new at the game show-

Felix Frank in the field

Was Slow in Relaying a Drive.

ed remarkable ability and some excellent stunts were pulled off.

Thigpen, Hurt and Marrow did the heaving for Sanford. Dr. King was catcher, Mayor Lake, first base, Davis, second, Morrow third, Yowell right field,

Arthur Yowell's Stick Work

Just Before He Dug Holes in the Atmosphere With a Three-Bagger.

E. E. Brady center, Felix Frank left field, and Hurt, short, J. D. Roberts also played.

Orlando's line-up showed the Schultz brothers, of Winter Park, as the battery Mr. W. L. VanDuzer held down first base, W. M. Brittain occupied the second, third base was looked after by Mr. Crossley, David Fishback, at short, show-

King Knocked Home Run

If Anything Ever Reached Heaven, It Was the Little Round Thing He Watteded.

ed that he had not forgotten the game, Mr. H. A. Grant in right field, Ralph Yearby in center and S. Y. Way in left. Only two accidents marred the game, neither

of which will prove serious, Mr. Crossley getting a finger split by a hot ball, while Ralph Yearby was hit in the mouth by a ball at which he batted, knocking a foul.

The game was really a good exhibition of ball playing and the spectators were greatly surprised at the brilliant playing

Lake Was On First Base

Fielding His Position, Watching for a Bunt and Holding the Base Runner.

of some of the old timers who had, not played a game in fifty years.

Orlando won by a score of 6 to 5 and it darkly hinted that Umpire Spencer went back on his home team and threw them down after he had promised to decide against Orlando. Arthur Yowell claims he can get the best of them yet and that Orlando put in two ringers in

Morrow Was a Star

They Couldn't Put 'Em Where He Wasn't.

the Winter Park battery. Mayor Lake is still dazed from his long run to first base and is uncertain just how it happened but all the boys say they will get Orlando's goat at the next Elks game and the public anxiously awaits the issue.

The game was good and as usual the Elks have demonstrated that their hearts are in the right place by giving the proceeds to charity.

Thigpen Fanned Evry Time

Wanted to Argue When He Fanned.

Brady Was Bum In-Field

He Felt Like a Mexican Insurrecto and Called for a Truce.

Davis Was Sensational

Spencer a Rotten Umpire

The Umpire Sent Him Off the Field.

Sanford 9, Orlando 1

Tell it softly and slowly and sweetly! Sanford won the game yesterday in Orlando and the score was 9 to 1 and the great Jimmy Windham was knocked out of the box by the wielders of the willow from the celery fields. Wallace and Burden were the battery for Sanford. Windham and Beardall for Orlando and the game after the first inning was just made up of sounds of the willow against the ball and the Sanford boys running bases. Honestly Manager Spencer was forced to make the boys desert because their tongues were hanging out. Can't give you the details, and they would only weary the reader. Here's hoping Orlando will ginger up courage today to make the game more interesting.

Big Game Today

Orlando comes today to clip the tops of Sanford Celery boys and a most interesting game is promised.

ALL AROUND FLORIDA

The General News of "The Land of Flowers."

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

Palatka is to have a new school building to cost about \$30,000 and while the plans submitted have not been passed upon by the board of public instruction, it is understood that the choice may be made very soon and a contract awarded in time to complete the building before the year is out.

Miami is now preparing to try oil on some of the streets and with the results observed on county roads, expects that oil will be found of great value in the city also. The county has six miles of oiled roads and it is claimed that they are practically free from dust and preserve their shape and firmness.

The Arcadia news gives the full details of the new court house to be constructed for DeSoto county at Arcadia. It is to be a very fine building, with ground dimensions of 190 by 75 feet, constructed of brick, marble and terra cotta. The cost is expected to be about \$80,000 and it will be modern in appointments and large enough to provide for the growth of the county's business for years to come.

Shady, a few miles south of Ocala, was the scene of a murder Monday night in which Mrs. Arndt killed her husband. The shooting followed a very bitter quarrel between the two in which the woman seized a gun and fired a load of shot into her husband's body. Death was instant.

After one of the most remarkable runs ever held in South Florida, Fred Ferman, of Tampa, in a Cadillac 30 touring car, on July Fourth won first money for touring car class, and Harry Land of Bradentown, came first in the roadster class, he making a perfect score for the run from Tampa to Bradentown in one hour, forty-four minutes and twenty-two seconds, with a model 18 Buick. The race was under the auspices of the Tampa and Bradentown Auto Clubs.

Meteor at Gainesville

A meteor of tremendous size passed over Gainesville about 10 o'clock on Tuesday morning, causing considerable excitement as it sped southwesterly at a height of several hundred feet, accompanied by a rumbling noise resembling thunder. Houses shook for an instant, and many believed that an earthquake was upon them. The rumbling noise could be heard for three or four miles, until the meteor disappeared from view. It was plainly visible, and resembled a bright, burning comet. It was fully a minute in view, and reports have reached the city that it fell near Micanopy.

Dissolution Notice

Notice is hereby given that the Firm of Maxwell & Rourke is this day dissolved. S. Maxwell will conduct the business in his own name, having purchased the interest of E. B. Rourke in the stock and fixtures of said firm. Please make all payments and present all claims to S. Maxwell.

The firm is deeply sensible of the liberal patronage they have received and Mr. S. Maxwell earnestly solicits a continuation of the same and assures the public of his willingness to serve them at all times.

June 28th, 1911.

S. MAXWELL & E. B. ROURKE. 46-4c

Every politician who wants an office and cannot get it, every man who has an ax to grind wants somebody else to turn the wheel for him; every organization that would promote its own interest at the expense of some other deserving association and is denied the assistance it requires; and every faker who would fool the people, speaks despitely of the press. They claim that the newspapers are "under control", that they are published in this, that or the other interest, and that their influence, so far as they have any influence, is for sale, and a good many people believe it, because it is a human nature to think evil of one's neighbors.

SANFORD BOOSTERS—Taken from Sanford Edition of the Florida Flower, of Tampa

Death of Mrs. Arthur Yowell

One of the saddest deaths that has ever occurred in this city was that of Mrs. Arthur E. Yowell at her home on Oak avenue last Tuesday evening at nine o'clock, after an illness of about five weeks. This sad ending of a beautiful young life has cast a shadow of sorrow over the entire city. Mrs. Yowell who was formerly Miss Miriam Mettinger, has grown to young womanhood in Sanford and was universally loved for her charming personality and beautiful christian character. She was a devoted member of the Methodist church and has been since childhood. From the Sunday school she will be sadly missed, where she was a valued worker, having taught the primary class for years, also as a member of the church choir, where her sweet voice has given much pleasure.

The deceased is survived in Sanford by her grief-stricken husband, Arthur E. Yowell, who is a member of the firm N. P. Yowell & Co.; father and mother, Mr. and Mrs. J. K. Mettinger; two sisters, Misses Beth and Ruth Mettinger, an uncle and aunt, Mr. and Mrs. Harry J. Wilson, besides a host of friends who are deeply grieved on account of her sad death.

"God touched him with His finger, and he slept," the poet wrote. So may we say of this dear life—"God touched her with His finger, and she slept," but not until a beautiful life was lived, a noble example of patience, fidelity to truth and faith were given. Not until visions of a heavenly life, in Christ Jesus, had cheered and illumined the valley of the shadow. And now, that she sleeps, memory takes up the harp of life, and smiting the strings, finds that her virtues melt into music. So it ever is, when a life is nobly and divinely lived.

The funeral services were held at the residence at half past one o'clock, conducted by Rev. J. A. Hendry, assisted by Rev. J. F. McKinnon. The remains were taken to Orlando on the afternoon train where the interment was made. The grief-stricken family have the deepest sympathy of their many friends.

Funeral of F. Z. Graves

All that was mortal of Officer F. Z. Graves was laid away last Saturday in the family burying ground at Osteen. The funeral was largely attended and was conducted by Rev. Hendry of the Methodist church. An honorary escort of forty members of the Celery City Aeris of Eagles accompanied the remains to the depot. The pallbearers were W. H. Tillia, G. W. Smith, W. E. Holmes, Herman Hutchinson, C. F. Williams and J. Silver. N. J. Stenstrom headed the escort.

Card of Thanks

To the kind friends who assisted us in our late bereavement and in many ways tendered to alleviate our sorrow we wish to extend our heartfelt thanks.

Mrs. F. Z. GRAVES AND FAMILY

Vaccination for Typhoid

Those desiring gratuitous vaccination for the prevention of typhoid fever can secure the treatment by calling at the headquarters of the State Board of Health, 517 Dyal-Upchurch building, on the 5th, 15th and 25th of July and succeeding summer months. Owing to the prevalence of typhoid in many sections of the country, a large number of people are expected to respond.

State Health Officer J. Y. Porter and Assistant Hiram Byrd will see to the vaccination of all who visit the office, the only requirements being that they appear promptly at 10 o'clock and continue through three injections, these being necessary in order to guarantee immunity from the disease. Applicants may begin on any one of the dates above mentioned, but they must promise to take the three necessary injections.

Typhoid vaccination was first tried with success in the British army during the Boer War, and later experiments were made in the United States Army. Success being signal, vaccination is now compulsory in the army.

Dr. Porter inaugurated the plan in Florida last summer, securing supplies of the vaccine for each post of the Board of Health in the State, and expects even better results this year.

Surgeon-General George H. ... who was Dr. Porter's class mate at West Point, has agreed to furnish him with all the vaccine needed for the State, and all who wish vaccination and are not able to pay for it, are urged to take advantage of the offer.—Jacksonville Metropolis.

Thompson-Butts

Miss Thompson of Astor, Florida and Capt. R. J. Butts, a popular conductor of the A. C. L. were married in Jacksonville the residence of Mrs. M. C. Tolar, Mr. on Wednesday. After a wedding trip the happy couple will reside in this city at and Mrs. Butts have many friends in this section and will receive a hearty welcome upon their return.

Quiet, Same Fourth

Sanford experienced a quiet, same Fourth last Tuesday and while the city was full of visitors there was no noise or rowdiness and even the small boys were not as noisy as usual. The ball games and dance were the only forms of amusement, yet the visitors managed to enjoy the day to the fullest.

Sold Fine Farm

Levi Binford has sold another one of his fine farms, the one known as Indiana, situated near Beck hammock. The purchaser is J. T. Dunn M. D. of Simsville Ky. Dr. Dunn is a prominent Surgeon and when he makes Sanford his home will add much to our already estimable class of professionals.

A Sad Death

A large number of Sanford citizens, were inexpressibly shocked and saddened on Sunday last, to learn of the distressing accident which resulted in the sudden and tragic death of Percy L. Dickins; a brother of Mr. J. W. Dickins and a former resident of Sanford, which occurred in Gainesville, Georgia; Saturday noon.

Mr. Dickins was in the employ of the Southern Railroad and in the discharge of his duties as flagman, was on the caboose of a freight train, as it was backing into Gainesville. In some way, he lost his balance and falling in front of the moving car his bright young life was instantly crushed out by the remorseless wheels.

The family were immediately notified and met the remains at Waycross, Ga., where they were interred Monday afternoon.

Percy lived in Sanford a number of years. He grew to manhood here. After the death of her husband Mr. J. W. Dickins Senior, Mrs. Dickins removed from her home in Enterprise to Sanford when Percy was quite a lad, to be with her three sons, Messrs. W. M., J. W. and J. E. Dickins, who were then in business in Sanford.

Percy's many boyhood friends and scattered now, will be grieved at his untimely death.

He was of a bright, happy genial nature, which won him friends by the score and best of all, he possessed that charm of manner which enabled him to retain his friends. On reaching manhood he entered the store of his brother, W. M. Dickins, then one of Sanford's largest grocers. About five years ago he left Sanford, living in different parts of Florida and Georgia. A short time ago, he left Tampa and went to Atlanta, which was his home; while in the employ of the Southern while in the service of which he lost his life. His friends were expecting a promotion for him in a short time. He made many warm friends in his Georgia home, five of whom accompanied his remains to Waycross.

It cannot fail to be of interest to the Barocca Class in Sanford, to learn that Percy was an enthusiastic member of one of the Barocca classes in Atlanta.

It is always sad to know that death can come to the young and strong and that neither manhood or vigor, can avail.

The sympathy of a host of friends is with the sorrowing mother, who will sorely grieve for her baby boy.

The sisters and brothers, who will mourn the loss of the much loved youngest brother, and the many friends, who will miss a warm hearted, genial comrade.

Percy leaves to mourn his early death his mother, Mrs. E. H. Dickins and sister, Miss Arabelle, of Tampa; Mrs. Edgar Powell of Chicago, Messrs. W. M. Charley and Frank Dickins of Tampa; J. W. Dickins of Sanford and R. S. and J. E. Dickins of Waycross, Georgia.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers.

The Southern Commercial Congress announces that it is preparing to open in Washington, on October 1, a permanent exhibit of Southern productions and resources. A floor space of 5,500 square feet, in one great room, will be used in the Southern building. It will be accessible from Fifteenth street, and also from the corridors of the building and will be made one of the points of interest to be seen by all visitors to Washington.

With Washington thermometers registering 107 degrees, the weather record for the season was equalled this week. The official temperature was 98 and the suffering was increased by the humidity. No immediate relief, it was said, is in sight. The weather bureau promises that the coming week will be one of moderate temperature in the South Atlantic and Gulf States and generally over the region west of the Mississippi. High temperatures will prevail the first part of the week in the northern and middle states, east of the Mississippi followed by a change to lower temperature in these districts about Wednesday.

Indications are growing that Congress may conclude its extra session earlier than has been generally expected. Many Senators together with Representatives Underwood and Democratic House leaders, are figuring on the first week of August as a possible adjournment time. The situation, however, is not sufficiently clear to warrant a positive prediction. No understanding has yet been reached for a vote on any of the trio of big measures before the Senate, the Canadian reciprocity bill, whose advocates express complete confidence in its passage, and the wool tariff and free list bills. Senator Penrose, chairman of the Finance Committee, proposes, however, to press for unanimous consent to fix dates in quick severance for votes on all three measures.

The loss of more than five hundred lives is to be credited to the general heat wave of July 1 to 5, 1911, which official advisers say will abate sometime tomorrow. The torrid period will be memorable in weather annals for its wide extent, its long duration, its record breaking temperatures in many places and the long list of fatalities which it has caused.

Three lives lost and property damage estimated at \$100,000 is the result of the terrific wind and hail storm which swept Wilkes and Lincoln counties in Georgia late Monday, according to reports brought here today. The path of the storm was about four miles wide. Many acres of grain and other crops shared a like fate.

The Japanese naval hero, Admiral Togo, will have no difficulty in viewing everything he cares to see in the New York navy yard, or in any other part of the naval establishment. Although a regulation of long standing prohibits the exhibition to foreign visitors of any of the constructions in the navy yards, this will be gladly suspended by the navy department for the benefit of Admiral Togo. It is expected he will board the giant battleship Florida, now nearing completion in the New York navy yard.

At the Star Theatre

Coronation of King George V, Tuesday, July 11th. The people of Sanford will have an opportunity of witnessing the crowning of the new King of England which it has been said was the most impressive in the history of the Empire.

This is one of the great achievements of motion photography and this magnificent film is being featured in all the large cities of the country. A grand Pageant of ancient splendor, costumes and barbaric beauty. One night only at the Star Theatre. The prices for Matinee will be 5c and 10c, for the evening 10c to all.

Notice To The Public

All bills due the Sanford Herald on or before June 30th are payable to me and hereafter no bill will be traded out on The Herald by any one connected therewith. Bills due to me must be settled at once as I am anxious to square up all the outstanding indebtedness.
