

# Conservatively Speaking — — — —

*The Sanford Herald* at present has 28 employees, 12 correspondents, 28 carrier boys. Most of these people have families, over 100 people are supported by the wages earned by the Sanford Herald staff.

*The Sanford Herald's* yearly payroll is \$100,000. This is "working money" — an important factor in the day-by-day economy of the great community it serves. National statistics show that each dollar changes hands an average of five times before again returning to a bank... which means you have a second chance to see the dollar you spend FOR ADVERTISING YOU BUY in Seminole County's own local newspaper.

*The Sanford Herald* employees spend their share of the \$100,000 payroll at home in Sanford, for groceries, clothes and all of their living necessities. Many of the Sanford Herald employees own their own homes in Sanford built by local builders, in many cases financed by local institutions.

## Commissioner Wilson Will Seek Re-Election Nov. 6

### A. Lund Charges 'Stevenson Guilty Of Double-Talk'

DELAND— "Stevenson is guilty of 'double-talk' to the American people", asserted Arnold Lund, Republican nominee for Congress of the Fifth Congressional district. "He has been telling the farmers that their prices are too low. Then within a few days time, he tells the consumer that prices are too high."

Lund made the accusation before a meeting of the Men's Republican Organization of DeLand yesterday.

"The Democratic presidential candidate should stick to facts", Lund stated. "He knows that food prices are three per cent lower than in 1952. He also knows that wages are much higher as well."

"Stevenson has one speech for the farmer and an entirely different one for the public consumer", he stated. "I don't believe the people will be deceived by this constant flow of double-talk he is giving them."

Lund continued to attack the record of his Democratic opponent, Congressman A. S. Herlong Jr., whom he is trying to replace. "I admit Mr. Herlong has done a lot of special favors for certain important people in this district. Perhaps that explains what he was doing instead of answering important roll calls in Congress and why he hasn't had time to get some much needed legislation introduced and passed. It's my belief that a Congressman ought to represent all the people and not a special few," he said.

"Herlong recently admitted voting against military aid to our allies. He said he did so only once. The record shows that he voted against such aid four times in the past four years", he stated. "I think the American people don't want another Pearl Harbor episode. They want these outer borders of our defense kept strong so long as Communism is alive."

### FSU Concerts Will Be Broadcast Over WTRR This Week

Concerts by students and faculty of Florida State University will again be heard over Radio Station WTRR this week as "Repeat Performance" a half hour tape recorded program is carried to a widespread radio audience.

Roy Flynn, director of radio and television at FSU, said 17 stations, including WTRR in Sanford, are already committed to carry the series, with negotiations currently under way so that the network will include 50 radio outlets. Last year, Flynn said, "Repeat Performance" had a potential audience of 7,300,000 through 25 stations.

The first "Repeat Performance" program is from an outdoor concert given last spring by the Symphonic Band. Dr. Doak S. Campbell, FSU president, is guest speaker. Patti Wisener, West Palm Beach, is student writer-producer for the year-long series. WTRR has featured "Repeat Performance" in its program schedule for several years.

### 1st Aspirant To Reveal Candidacy

City Commissioner A. L. Wilson, appointed to fill the vacancy caused by the resignation of former City Commissioner, announced today that he would be a candidate for re-election to fill the one year unexpired term as City Commissioner.

Wilson is the first to announce his candidacy in the forthcoming Nov. 6 race for three seats on the Board of Sanford City Commissioners.

Commissioner John Krider's term of office expires at the end of the current year as does the term of office of Commissioner Earl Higginbotham. Neither have given any indication as to whether or not they will be candidates for reelection.

Merle Warner, Sanford service station operator, last year said that he would be a candidate in this year's election. However, Warner has given no indication that he would announce his candidacy for the November race.

Commissioner Wilson, in an interview today said that "I have been approached by a number of Sanford citizens asking if I would be a candidate for reelection." "I don't know yet," was the answer Wilson said that he gave each one referring to the possibilities of his candidacy. "My first thoughts were to forget about it and leave politics up to someone else," said Commissioner Wilson who was appointed on May 14, 1956 to fill the vacancy which existed until such time as an election is held.

"After much consideration," he said, "I have decided that since I accepted the appointment for a few months at the request of the four commissioners with whom I am serving, I would offer myself as a candidate for the ensuing year which completes the unexpired term, thereby giving the citizens of Sanford an opportunity to express themselves as to whether or not they want me as a member of the Board of Sanford City Commissioners."

"I have taken my appointment very seriously, worked earnestly and sincerely in trying to do what was best for the city and for the people," he said.

### Mrs. Stone In Fair Condition; Others On Critical List

B. E. Purcell who was injured in an automobile collision Sunday afternoon near Baton Rouge, La. along with several occupants of the car traveling with him, is confined to the Baton Rouge General Hospital at Baton Rouge, La.

Purcell's condition, according to reports this morning, remains "critical."

Mrs. Bernice Stone, manager of the Purcell store in Sanford, who was traveling with Mr. and Mrs. Purcell at the time of the accident is reported to be in "fair" condition.

Another occupant of the car in which Mrs. B. E. Purcell was killed, Mrs. Leo J. Willis is still listed in "critical condition."

B. E. Purcell, Mrs. Bernice Stone and Mrs. Willis are confined to the Baton Rouge General Hospital.

### John L. Lee Accepts Position With ICC

JOHN L. LEE  
(Staff Photo)

A railroad man who began his career at the age of 11 leaves Sanford Friday to accept an appointment with the Interstate Commerce Commission with headquarters in Birmingham, Ala.

John L. Lee came to Sanford in 1938 with an assignment as branch manager for the Postal Telegraph Co. handling the telegraph file at Chase and Co. exclusively for two years. In 1940 Lee went to work for Atlantic Coast Line Railroad where for 6 months he was agent and operator, then car distributor for 12 months, train dispatcher for the past 13 years, 7 of which were spent as chief dispatcher.

On Monday, Oct. 2, John L. Lee will accept his appointment as Service Agent of the Bureau of Safety and Service of the Interstate Commerce Commission, with a leave of absence from the ACL.

Little did Lee know, as a boy of 9 when he first became interested in railroad agency and telegraph work, that he would some day be contacting all of the railroads in the area assigned to him in the governmental agency for which he will now work.

Lee's first inspiration came from a small town doctor who liked to punch out dots and dashes on a telegraph set as a "ham operator." He recalls that as he played with the doctor's son who was about the same age as himself, one day the doctor was pounding out dots and dashes when he stopped and turned quickly.

### De Bary Cub Scouts Display Swimming Feats To Parents

DE BARY— An unique spectacle was given Sunday at the estates pool, adjacent to the De Bary mansion. Spectators thronged the grounds, watching eight to ten-year-olds of the den clubs demonstrating group swimming, strokes and water rescue. Miss Nelder, the hostess, put the swimmers through their paces.

All through the summer these kids have been working toward this goal and amazed their parents and visiting friends by the fine team work and excellence of their performance. In turn the cubs were gratified and surprised when, at the grand finale of the exhibition, Miss Nelder presented each swimmer with a Red Cross beginners official card. Frank Guruchari, young chief of den three gave a startling demonstration of a boy "about to drown" in the water and "rescued" by Miss Nelder. This show was especially staged for parents to see the value of the summer's instruction.

Advancement awards were presented to the following: den one, Steve Jackson, silver arrow; den two, John Meinel, gold and a silver arrow; Tommy Guruchari, two silver arrows; Philip Gabler, membership card; den three, Jack (Continued on Page Two)

### Elks To Observe Railroad Night Tomorrow Evening

Railroad Night will be observed at the Elks Club Thursday night at 8:30.

According to Roy Green, Excited Ruler of the local Elks Lodge, railroad men of the Elks Lodge will be honored during the Thursday evening meeting.

A free barbecue and program will follow the meeting.

### 11 Constitutional Amendments To Be Defined For Group

The legislative delegation will tell members of the Seminole County Junior Chamber of Commerce at their noon luncheon meeting tomorrow, about the 11 Constitutional Amendments which will be voted on throughout the State of Florida, on Nov. 6.

Senator Douglas Stensborg, Representative Mack N. Cleveland Jr. and Representative Gordon V. Frederick will give brief explanations of the Constitutional Amendments.

Each member of the delegation will explain several of the proposed amendments for the benefit of the Jayce members at their Thursday noon Yacht Club luncheon meeting.

Jayce President George Andrew Speer said this morning that the amendments are "so important that an invitation has been extended to all who are interested to meet with the Seminole County Junior Chamber of Commerce members to hear the explanations."

### Warren Baker Dies In Mounting Ga.

Mr. Warren Baker, brother of Dr. C. W. Baker of Sanford, died yesterday in the Moultrie Hospital at Moultrie, Ga.

Mr. Baker, of Normand Park, Ga., visited in Sanford many times.

Funeral services will be held in Normand Park tomorrow afternoon at 3 o'clock.

MEMBERS OF THE MARINE SECURITY GUARD Division of Sanford Naval Air Station who participated in the recent week-long field day held aboard the station, pose with Captain E. J. Love, USMC, Officer-in-Charge of the Detachment, and First Sergeant H. H. Merrill. They are: (l. to r. back row) Cpl. G. G. Drawly, Cpl. K. L. Elliott, Pfc. R. D. Knith, Pfc. L. G. Higginbotham, Pfc. ### Scholarship Loan Exams To Be Given In State Oct. 16

An examination to fill vacancies for \$400 a year General Scholarship Loans for the preparation of teachers and State Nurse scholarship loans will be held Tuesday, Oct. 16, in six centers of the state, according to an announcement received from Thomas D. Bailey, State Superintendent of Public Instruction, by local education authorities.

Applicants for General Scholarship loans for the preparation of teachers must be enrolled in college during the first semester of the 1956-57 school term.

Applicants for the State Nurse Scholarship Loans must be presently enrolled in nursing school or must enter not later than Feb. 1957.

Successful applicants in the competitive examinations, who are currently enrolled in school may receive payment for the first semester.

Tests will be given in six centers at 8:30 a. m., Oct. 16.

In Deland at Stetson University with Don R. Allen in charge; Bethune-Cookman College with Evelyn Sharp in charge.

In Gainesville at the Recreation Center, 516 N. E. 2nd Ave., with Margaret Rosenberger in charge and at A. Quinn Jones Elementary School, Room seven with Harold Jones in charge.

In Miami at the School Administration Bldg. Auditorium, 275 N. W. 2nd St. with H. George Lohelle and Margaret J. Golkey in charge.

In Pensacola at the Pensacola Vocational School, 215 W. Garden St. and Washington Sr. High School, E. Tunis St., with R. S. Orr in charge.

In Tallahassee at Florida State University, Suvannavong Room with Nelle Wright in charge and at Lincoln High School Library with Dorothy Holmes in charge.

In Tampa at Hillsborough Schools, Room 221 with Wayne Hamilton in charge and at Middleton High School with Frank Miles in charge.

To be eligible to participate in the examinations, the applicant must be a bona fide resident of Florida for at least one year and applicants for teacher scholarships must also have resided in the county represented six months. Applicants for teaching scholarships must also be registered in the school, college, or division of education of an approved institution of higher learning in Florida and must be following an approved program of study leading to a graduate certificate to teach in the public schools of this state.

Application forms are available at the office of the Coordinator of Instruction in the Seminole County Court House.

### Marine Unit Observes First Anniversary

On October 3, 1955, the Marine Guard unit of NAS, Sanford, was officially activated. The first year has been a series of past for the young unit. Many sailors have paused to gaze at these men in green working laboriously in perfecting gun drill, foot drill and employing arm and hand signals in the movement of troops.

The unit has gained the respect of those who are associated with it. Its sincerity of purpose, its quiet proficiency in executing its mission and its constant outstanding appearance of personnel and quarters have produced open admiration for this Marine Guard.

In brief, the role of the Marine assigned barracks duty is usually many sided. The primary concern of each Marine is the successful accomplishment of the unit's mission. All of the courses of instruction given to the unit are directed toward better preparing the individual for execution of his portion of the unit mission.

Through the medium of a strenuous sports program, the Marine is aware of another responsibility, physical fitness. By means of constant inspection the Marine unit has established a name of being a "crack" unit. Training has produced many keys to success, be it war, or sports.

Constant instruction in platoon and company infantry subjects serve as a reminder to each Marine that his primary mission as a Marine is that of being always ready to perform the duties of an infantryman, regardless of rank; furthermore that each Marine regardless of present assignment is listed as a potential Marine Rifleman by his superiors.

On this, the unit's first anniversary, they can point with pride to their formal scholastic achievements. Over 75% of the unit has passed a course of formal education. A high percentage of the unit is actively engaged in off duty education at various Colleges in Winter Park. Nineteen men have received their high school diplomas through the Armed

Forces high school level education tests. The unit can be proud of these successes.

As a preliminary to their anniversary party, the Marine unit conducted a week long field day of military subjects. For fair evaluation to all, the unit developed eight suitable "topics"; one half of these were subjects of application, disassembling four small arms, M1 rifle, light machine gun, Browning Automatic Rifle and .45 pistol. The remaining four topics were chosen from subjects of instruction covered by the unit this year: Uniform Regulations, Individual Protection of a Rifleman, Interior Guard, and (Continued on Page Two)

### Fire Protection For Farm Areas Topic At Session

Fire protection for Seminole County farm areas was the main topic of discussion at the meeting of the Seminole County Farm Bureau directors held at the Geneva home of Tommy McLean.

With all of the directors of the Seminole County Farm Bureau present it was revealed that a board member had met with Sanford Fire Chief Mack M. Cleveland Sr. to determine what type of equipment would be necessary for the farm area protection.

Farm Bureau resolutions affecting the local farmers were read and discussed prior to their being presented at the Farm Bureau State meeting to be held Oct. 28-30 at Fort Myers.

C. A. Tucker, Seminole County Agriculture Agent was presented to the board members by W. W. Lins, president of the Seminole County Farm Bureau.

Also present to meet the board were County Service Agents Thurman Wright and Ollie Williamson.

A meeting of the Seminole County Farm Bureau membership was set with the 1st being announced later and each member to be notified. The meeting will be preceded by a covered dish supper with the meat course being furnished by the bureau.

Refreshments were served following the Board of Directors meeting.

### Firemen Express Thanks For Replies To Questionnaire

DE BARY— The DeBary Volunteer Firemen's Association wishes to thank most heartily those who responded to its questionnaire of Sept. 15 and to request those who have not yet answered, to do so, if possible, by Oct. 9.

The statements mailed included a brief history of the fire department's aims and projects, the inhalator service and fire duties. Residents were asked to join as active or associate members, working toward the purchase of added equipment and further service to the community. All revenues were listed as well as expenditures.

The firemen meet the second Thursday of each month at the firehouse at 7:30 p. m. The women's auxiliary meets the same day at 2:30 p. m. The questionnaire not only gave interesting information; it solicited aid from those who are protected night and day by its vigilance.

### Horticulture Topic At Club Session

DE BARY— The De Bary Garden club will welcome a guest speaker, Miss Edith Selter, DeLand librarian at its first meeting of the year, Friday at 2 p. m. in the civic center.

Miss Selter will give a review of "The Coming of The Flowers." Horticultural topics will be the topic of the day.

EIGHT LITTLE MEMBERS of Brownie Troop number five accompanied by two of their leaders, visited The Sanford Herald plant in observance of National Newspaper week and were conducted by Charlie Morrison, member of the paper's advertising staff, on a tour that showed them the fashioning of a newspaper from the time copy arrives until the complete paper rolls off the giant press. Making the visit were the following Brownies: Brenda David, Linda Ethridge, Jimmie Sue McClellan, Scottie McClellan, Suzanne Orseno, Linda Robson, Barbara Thomas and Barbara Williams. Troop leaders were Mrs. Joseph Orseno and Mrs. J. P. McClellan. As a souvenir of their visit, each child received a type metal slug with her name thereon. They expressed themselves as grateful for an interesting visit. (Staff Photo)

### Commissioner

(Continued from page one)  
people of Sanford," he said.  
Wilson said "Since I have no personal political ambitions or aspirations, I feel that I can best serve the city in the best interest of all taxpayers. And since I am not representing any particular interest or group, political or otherwise, or being backed by any special interests, I am in a position to speak, vote, and act freely on all questions with only my conscience and the taxpayers of Sanford as a whole as my guide."

"These few months in office have shown me that the City of Sanford is big business," Commissioner Wilson said. "And it needs sound thinking, progressive planning, and close scrutiny of the purse strings at all times, in order to adequately meet the growing demands of a prosperous and growing city."

"In making myself available for this important position, I pledge, if elected, to consider it an honor to serve as Sanford's City Commissioner, and to work diligently as all times in the best interest of Sanford and all of its taxpayers," he said.

Commissioner Wilson enumerated the important projects in which he is interested and to which he will give his wholehearted support. He named the Causeway, Sanford Titusville Canal, Deeds and Wharves project, the securing of industry, extension of the power system, street paving program, and the expansion of the city as some of our most needed projects.

"I will qualify with City Clerk H. N. Meyer immediately," Commissioner Wilson said.

### Bevan Is Elected Britain's Labor Party Treasurer

BLACKPOOL, England (U.S. Press)—British Labor party yesterday elected Aneurin Bevan as its treasurer, emphasizing the opposition party's sharp swing toward advocacy of more state ownership.  
The fiery Welsh orator scored a substantial victory over George Brown, a moderate Labor member of Parliament, to regain his seat in the party's important National Executive Committee.

Moderate followers of Party Leader Hugh Gaitskell retained their strong majority on the 28-member executive, but the Bevanite group of left wingers increased its holdings.  
Bevan's victory touched off speculation he might attempt to unseat Gaitskell as leader of Labor's parliamentary group or at least try for the deputy leader's post held by James Griffiths, a fellow Welshman.

Asked about this, Bevan replied: "I can't answer at this stage. One never rules out any possibility."  
Bevan, 38-year-old former coal miner and Parliament's strongest speaker since Sir Winston Churchill stepped aside, will fill one of the party's most powerful posts as treasurer.

### Murder, Suicide Apparent Cause Of Couple's Death

PHILADELPHIA (U.S. Press)—The bodies of a Philadelphia man and an attractive young New Jersey woman were found Monday night in a dimly lit section of a north-central Philadelphia subway.  
Detective Daniel O'Mahoney said it "seems to be murder and suicide" in the death of the couple, both employees of a Philadelphia pharmaceutical firm.

The victims were identified as Miss Claire Parkowitz, 21, of Westville, N. J., and Roy W. Luther, 26, of Philadelphia. She had been about four times and Luther twice by a German luger found near Luther's outstretched hand.  
A sawedoff shotgun, which had not been fired, was found against a nearby pillar of the subway.  
O'Mahoney quoted the girl's parents as saying she had been "going with Luther for about six months but broke off with him several weeks ago." A note found in Luther's pocket said that unless a reconciliation were effected the writer was going to "do something drastic," O'Mahoney said.

Investigators said the shooting may have occurred about an hour before the evening rush hour, when the bodies were found.

Reservations Being Made For Touring Florida Party  
SANFORD—The De Bary Women's club will sponsor a Touring Florida party on Oct. 13 at the community center. Dessert will be served at 7:30 p. m. and everyone is welcome.  
Mrs. Richard M. Ford is chairman and will be assisted by Mrs. Joseph Byrnes, Mrs. David MacFarlane, Mrs. George Ludwig, and Mrs. J. Bennett and Mrs. Charles Youman.  
For reservations please phone Mrs. Hart, 1275-M.

### Arthur J. Chick Is Transferred To Fleet Reserve

Arthur J. Chick, Aviation Structural Mechanic First Class, who has been in VAH-11 since Dec. 23, 1935, was transferred to the Fleet Reserve Tuesday, Oct. 2 after 20 years in the naval service.

In an informal ceremony at VAH-11's formation for morning muster, Cdr. E. C. Mikhahn, USN, Commanding Officer of VAH-11, presented Petty Officer Chick with a letter of commendation. Cdr. J. H. Bear, USN, Executive Officer, in behalf of the men of VAH-11, gave Chick several mementoes of their friendship toward their shipmate.

A native of Norfolk, Va. this career sailor has had varied duties with aviation units at Norfolk, San Diego, Oceans, USS Solomon Islands (CVE-41), USS Midway (CVA-41) and Sanford. Among his campaign awards he wears the Good conduct medal with five stars, Pre-Parli Harbor, European Occupation, and the American Defense Ribbon.  
Chick is married to the former Miss Erma Fisher of Asheville N. C. They have resided in Sanford since March 1953, when he reported to an aviation unit stationed at Sanford. At present their home is at 802 1/2 West 25th St., and their two children, Arthur Jr., age nine and Erma Gail, age five, are attending the Pioneer school. Petty Officer and Mrs. Chick plan to make this City their permanent home.

### Rev. Schlessmann To Open Devotion At Convention

Rev. Phillip Schlessmann, pastor of the Lutheran Church of The Redeemer, Sanford, will open the afternoon devotions at the fifth biennial convention of the Florida Georgia District Lutheran Women's Missionary League in Lakeland, Oct. 6.  
Lutheran women from throughout the District will meet at the New Florida Hotel for their two-day session.  
Representing the women of the Lutheran Church of The Redeemer at the convention will be Mrs. John Senkarik and Mrs. Henry Thurston.  
Mrs. Esther Fisher of Gotha, district president, will preside over convention sessions.  
Conducting the Saturday afternoon devotions with Pastor Schlessmann will be Rev. Walter Lutz, LWML pastoral advisor from Tampa.

### Saturday Last Day Residents Can Register To Vote

Mrs. Camilla Bruce, Seminole County Supervisor of Registration, expressed confidence this morning that "we will go over the 12,000 mark in registrations for Seminole County this year."  
Mrs. Bruce said "We had 89 new registrations on Monday and 111 yesterday." She explained that these were new registrations and did not include those who "came in to change their address or to verify their registration."  
The office of the Seminole County Supervisor of Registration remained open last night from 7 to 9 o'clock to accommodate those who could not register during the day.  
Mrs. Bruce emphasized that Saturday will be the last opportunity for citizens who are qualified to vote to register. Oct. 6 is the deadline, explained Mrs. Bruce, and the office, located in the Chamber of Commerce Building, corner of First Street and Sanford Ave., will remain open until 9 o'clock to take care of everyone who desires to register so that they may vote in the Nov. 6 general election.  
"We are happy that so many are registering to vote but we also hope that everyone won't wait until the last minute to register," Mrs. Bruce said.

ANNOUNCEMENT that Superior Court Judge Blair F. Guenther (above), of Philadelphia, is to meet with President Eisenhower in Washington on October 3 has led to speculation that he may be named to succeed retiring Associate Justice Sherman Minton of the Supreme Court. Judge Guenther is the son of a miner.

### Marine

(Continued from Page Two)  
History and Tradition of the U. S. Marine Corps.

Marines placing highest in the competition received radio, wristlets, fountain pens and cigarettes. The individual high in each of the subjects received a prize. The three top men in each subject also received points of five for 1st place, three for second, and one for third place. These points were tallied to determine the top Marine in all events. The field day was viewed by all as a complete success.

The prizes along with appropriate congratulations were presented at a unit formation to the winners of the contest by Major Louis J. Sartor, Commanding Officer, Marine Barracks, NAS Jacksonville, Fla. The individual winners were:  
Col. J. R. Rice, Clothing Regulations, History and Tradition of the USMC; Col. R. S. Blodgett, Individual Protection; Col. J. P. Williams, Interior Guard; Col. E. M. Nelligan, Light Machine Gun; Col. W. H. Higgins, AS Automatic Pistol; PFC J. O. Baker, M1 .30 Caliber Rifle; PFC W. E. Tanner, Browning Automatic Rifle. The top three men in the overall competition were: Col. J. R. Rice with 16 points.  
The Marines are capping their anniversary celebration with a unit party at Rock Springs today.

### State Secretary Lauds Local Lions For "Aid To Blind"

Members of the Sanford Lions Club heard their State Secretary, Tom Kirkham, speak on "Lionism at the first evening meeting scheduled by the local civic organization held at 8:45 p.m. on Monday at the Yacht Club.  
Kirkham praised the Sanford Lions Club in their "aid to the blind" program which is carried on with funds derived from the sale of light bulbs and brooms.  
The State Secretary also commended the local Lions Club for their outstanding record in presenting the "Junior Baseball" program which next year will be the 30th season.  
Lions Club President Dallas Loop expressed pleasure at the "good attendance" for the first evening meeting of the group.  
Ben Wade, chairman of the Lions Club committee for the sale of light bulbs this year told the local members that the annual light bulb sale will get underway Tuesday, Oct. 16.  
"We will conduct a house to house canvass of Sanford," Wade said, "during that week to give Sanford homemakers an opportunity to help the Lions Club in their sight conservation program."  
W. Hugh Duncan, secretary of the Sanford Lions Club, said that the regular meetings of the local organization will be held on Monday evenings, 8:45 p.m. at the Sanford Yacht Club.

Jackson, wolf badge and gold arrow; Donald Wolf, wolf badge; two gold and two silver arrows; Bobby Corson, gold arrow; Kenneth La Roy, wolf badge and two gold arrows; Edward Redman, two silver arrows; Guy Miller, gold arrow; Wellesey Corbett, silver arrow.  
After the aquatics a social hour was enjoyed with the parents joining in the swimming fun. Refreshments were served by den two. The leaders of the swimathon were: William Neider, chairman, assisted by Curtis Reiman, John Jackson, Wellesey Corbett, Robert Nolte and Horace Cotcher; with den mothers and assistants, Mrs. R. Nolte and A. Blakemore of den one; Mrs. Ralph Stumpf Jr. and Mrs. J. Jackson of den two; Mrs. W. Corbett and Mrs. C. Redman, den three; Miss Sally Neider, instructor.

NINTH-MONTH-OLD Johnny Gold of Northwood Hills, Middlesex, England, will be operated on at the Mayo Clinic, Rochester, Minn., for a rare heart ailment. He was brought to the United States by his parents, Mr. and Mrs. William H. Gold. Funds are being provided by British newspaper readers.

### Governor Of Canal Zone Visits Local Couple Yesterday

Master Sergeant and Mrs. L. L. Phillips, who lived in the Canal Zone while in the U. S. Army until M-Sgt. Phillips' retirement on June 30, 1954, were visited by Gov. ernor and Mrs. Seybold yesterday.  
Phillips served as chauffeur for the Governor of the Canal Zone. Governor and Mrs. Seybold first visited Mrs. Phillips at their home and then greeted M-Sgt. (retired) Phillips at John J. Carver's Barber Shop where he is employed as a barber.  
The Governor of the Canal Zone and his wife are presently visiting Lt. Gen. H. L. McBride in Winter Park.  
M-Sgt. (retired) Phillips said this morning "It would be fine to have Governor and Mrs. Seybold come to Florida to live—they are fine people."

QUITE unconcerned is 19-month-old Kathleen Johnson, of Water-town, N. Y., as she waits to be taken to a hospital operating room for removal of a peanut that lodged in her lung. She was flown to St. Albans, N. Y. for the surgery. (International)

# Your Newspaper Is Dedicated To County's Development, Growth

We're right in the middle of it!—the annual observance of National Newspaper Week.

The slogan for this yearly custom is "Your Newspaper . . . Freedom's Key to Better Living."

Your newspaper is the outlet for free speech . . . the freedom of the press . . . in your own hometown—just as every other community has its outlet for the dissemination of news about and of your neighbors, such as DeLand, Kissimmee, Leesburg, Ocala, Melbourne, Daytona Beach, or wherever such communities might exist across and around the nation—so do you have Your Newspaper.

And your newspaper tries, very sincerely, to be your key to better living in every respect. Advertisements are directed at acquainting you with merchandise and services worth every cent it requires to get them.

Reproduction is held at a maximum of quality whenever it is possible.

And what of the news content of your daily paper?

The "good enough" newspaper never is good enough because it cannot advance the interest of the town.

A real newspaper has a place for everything and everything in its place. A page is reserved for editorial comment and although it cannot always meet with complete approval of each and every reader, it is your newspaper's duty to maintain editorial comment on an established policy. Even the controversial matter should remind a reader that only "lukewarm" social journals go day after day without benefit of editorial expression about your community.

This year in 1956, as countless newspapers the world around are celebrating the 50th anniversary of the completion of a 48-line Gutenberg Bible in 1456, we commemorate the field of printing and publishing as it has evolved over five centuries.

It has come a long way. The published word has become a servant of the people, a weapon against ignorance, and a standard bearer for truthful dissemination of the news, day by day.

Your newspaper, The Sanford Herald, is an important and integral part of your every-

day life. The role it plays comes into the limelight this week for special emphasis.

The growth of your community is measured by the growth of your newspaper—as Sanford grows, so does The Sanford Herald. As the industries in your community expand, so does your newspaper.

The Sanford Herald is dedicated to the development and expansion of the community which it serves.

## Individual Freedom

Before one gets carried away with enthusiasm by all the things political candidates promise to have the government do for us, it might be well to consider what has made this country what it is as a yardstick in making a choice between candidates.

Most of the social and economic gain in this country have come from the efforts and initiative of the individual and not from government planning: Fulton invented the steamboat; Bell developed the telephone; Ford built the first low-cost car; Franklin discovered electricity; Wright created the airplane; Whitney designed the cotton gin; and so on, ad infinitum.

Without the work of the individual, we would still be living under a feudal system that allowed us only a bare subsistence. It is the accomplishments of the individual that have lifted us to present levels—not the accomplishments of government.

Yes, American progress rooted in individual freedom. That points to a yardstick that can well be used in judging those candidates who would bring about a society where "do-all" government would reduce the individual to the status of a statistic.

## Mental Illness

Our time may go down in medical history as the era when the scourge of mental illness began to be approached with optimism and hope. Though the mentally ill occupy more than half of the nation's hospital beds, there is growing conviction that much can be done to restore the afflicted ones to normal life.

This conviction is solidly grounded on the progress that has been made, especially during the past decade. And there is increasing evidence that we stand on the verge of much greater progress. This feeling is well established in a current issue of a popular quarterly:

"It seems probable that the coming generation will see the same kind of exciting progress in the cure and prevention of mental illness as the last generation has witnessed in the conquest of physical disease."

That is a hopeful outlook based on expert opinion. Yet the dream cannot be realized unless a concerted effort is made. State hospitals are over-crowded; there are far too few trained people to do the job that needs to be done. Facilities and personnel cost money, which the public must provide. But the rewards will be great.

## Too Late To Classify

By RUSSELL KAY  
Are you familiar with Florida's Financial Responsibility Law? If you own or drive an automobile you had better "get the facts" as our friend Jack Webb says in "Dragnet."

The law requires the owner or driver of an automobile to be responsible for personal injury or property damage resulting from any automobile accident, either through insurance covering such liability or by posting a substantial bond for the protection of fellow motorists.

If you are now driving a car and are not covered fully with liability and property damage insurance, you are asking for it.

Sooner or later you will be involved in an accident, and when that happens you will hear from Tallahassee and stand an excellent chance of losing your driver's license.

Perhaps, like I did, you may think that if your car is insured and you are involved in an accident that was minor and not your fault, you are not responsible. Don't kid yourself.

Here is what happened to me. I am not complaining. I think the law is a good one and I am glad to learn that it is being rigorously enforced.

My daughter, an experienced driver with a proper driver's license, was driving my car and had stopped for a red traffic light several feet behind another car. While waiting for the light to change, a third car, traveling too fast, struck my car in the rear knocking it into the car ahead.

Don't think that if it was just a "little" accident and reported

## Income Is Zooming From State Forest Products Industry

TALLAHASSEE—Income from Florida's burgeoning forest products industry zoomed to \$371,111,000 in 1954, according to statistics gathered by the Florida Forest Service.

Total value of the forest products industry—which rates alongside tourism and citrus as the state's three top sources of income—was almost quadrupled during the 1944-54 decade.

Skyrocketing pulpwood production evidenced the most spectacular increase as it jumped in value more than 10-fold during the period. With a 1944 value of \$44 million dollars, booming pulpwood production made the figure rise to almost \$64 million dollars in 1954, the latest forest income figure available.

Payroll value of the forest products industry during the decade jumped from \$9 to \$18 million dollars.

All forest products items showed an increase during the period, with the exception of cross-tie production. Bated in 1944 at almost six million dollars annually, it dropped steadily down to the

1954 value of just under two million dollars.

Second to pulpwood as an income producer was lumber, with a wholesale manufactured value in 1954 of almost 70 million dollars. Wood saws stores accounted for almost 23 million dollars of the total. Veneer and fuelwood production tallied better than 15 million dollars each.

Other items in the total forest income figure include gum naval stores, poles and piling, and fence post production.

Current value of the forest products industry is estimated to be over the 400 million dollar mark, but complete statistics are not available for later than 1954.

## Ike Decides To Work Harder

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP)—With the election about 40 days away President Eisenhower, campaigning pretty leisurely so far, has decided to work harder for votes.

His press secretary, James C. Magerty, announced late yesterday that Eisenhower will not limit himself to the five or six nationwide radio-TV broadcasts that had previously been planned for him.

Whether the Republicans are getting concerned about their Nov. 6 chances is something only the White House inner circle knows. Vice President Nixon has been making a whirlwind speaking tour since Sept. 18. But Eisenhower has made just two major speeches since the campaign began.

Meanwhile, this month Adlai Stevenson and Estes Kefauver, the Democrats' presidential and vice presidential candidates, have been getting a terrific campaign pep.

If Republicans think they have this election in the bag they may be right. But reports from around the country indicate that an Eisenhower victory this year—if there is one—will not be by the same landslide margin of 1952.

For most of his White House term Eisenhower has been comparatively free of personal attacks. But he has found out by now he was wrong if he thought he could enjoy the same kind of immunity in this presidential campaign.

Stevenson and Kefauver have both fired at him hard and personally, at his administration and at the men around him.

They have painted him as a passive character, a kind of Republican party captive who, if he wins, will be overshadowed by Nixon in running the country the next four years.

Eisenhower's campaigning has been pretty much limited to the past nine days. Watching his speeches unfold seems to indicate that he's getting tired of being attacked and would like to unwork a few walls of his own.

His first broadcast, Sept. 19, took some oblique digs at the Democrats. It was a speech on peace and good times and the ap-

plishments of his administration, particularly in foreign affairs. It was hardly a fighting speech. It was mild and full of high-sounding principles.

On Sept. 21 he talked to farmers in Iowa. A lot of farmers are concerned by the decline in their incomes. They want solutions. Eisenhower offered them none in what he said was not a major speech. He concentrated on reminiscences about his own farm boyhood and pious generalities.

Then on Tuesday, at Peoria, Ill., he got down to cases on farming with a major speech. In this one he ripped into the Democrats, blaming them for the farmers' woes.

He offered nothing new in the way of solutions beyond what the Republican party platform already contained. Stevenson had the advantage on him in this. He

hasn't offered anything that isn't contained in the Democratic platform.

But Stevenson, in his extensive tours of the country, has met and talked with more farmers personally, getting as much mileage as possible out of what he has to offer, and doing his best to turn farmers against the Republicans.

It is possible that Eisenhower, noting Stevenson's personal kind of campaigning, will try to do more of what he himself did on his visit to Iowa last Friday.

**BOARD MEET CONTINUES CLEARWATER**—The Florida Federation of Women's Clubs continued its annual board meeting today.

Rep. William C. Cramer, Republican congressman, was to talk on Florida's water problems.

## NOTICE

Sealed bids in duplicate covering building described in specifications dated October 1st 1956 for Legion Fair Building 100'X100' X 10' on U. S. highway 17-92; one and one half mile south of Sanford, Florida; will be received by Campbell - Lossing Post No. 53 Inc., P. O. Box 13, Sanford, Florida.

Specifications will be furnished by writing above address or calling at Galloway's Service Station—401 West 1st St. The Legion reserves the right to reject any and all bids.

Closing date to receive bids, October 10, 5 p.m.

# 'Errors Detected Will Be Corrected'

Displaying a brow knitted with worry, Sanford Seminoles head coach Bill Fleming pointed to his charges yesterday afternoon during another day of rough and tumble offensive and defensive scrimmages. They were a combination of mud soaked jerseys from the sweat and dust, black eyes, small lacerations, bruises, and scratches, bruised cartilage, and twisted ankles, and all the other minor ailments commonly found in gridiron circles.

"Look," he said as he pointed out individual players, "Notice the outstanding play these different fellows show."

He pointed to center Brantley Schirard, Schirard is a terror in the line; he blocks hard and he owns good holes for his backfield. Then Brantley's younger brother, Duke, relieved his bigger brother and Brantley moved into the halfback slot. He pounded through the line time and again for substantial gains, showing superb power and drive.

Then Fleming pointed halfback James Yessie. Yessie is a 160 pound junior speedster. Yessie took the ball on a handoff, sharply to the outside and reared down the sideline for a scrimmage touchdown. "Looks good today, doesn't it?" Fleming quipped.

Then he pointed Murray Nance in the line. Nance has had a personal plague of minor injuries in the last several days that have caused havoc with him. But yesterday Nance looked good at the defensive guard slot. Then he tried his best at a defensive end.

Then the head member moved over for defensive scrutiny. Marshall Scott and Fred Behrens showed up well over the center. Tom Brown was outstanding as a defensive end, the weak spot of the team, and turned all runs to the inside for easy tackles. Besides experimenting with Nance on the other defensive ends, Bill is also experimenting with Dick Phagan, Johnny Williams, and Allen Brain to try and find someone to hold down the other outside defensive post. "And we're still looking," Fleming said and smiled.

Eddie Barber came under the watchful eye of Fleming. "He's good on defense," Fleming said, "and he loves to make a tackle."

"I could analyze each man and come up with something favorable," Fleming continued. "We have a host of boys who are showing up well as individuals on the team. We have good material and plenty of material. But the trouble with every young ball club, and we're no exception, is the inability to function as a team unit. We need desperately to work better as a unit."

This is a summation of the deficiencies of the Sanford Seminoles. They have an excellent defensive unit, yet it looks a little lacking when compared in a unit to the individuals making it up. The offense is ideal. It features two good quarterbacks, one a right-handed passer and the other a south-paw. There is a host of halfbacks with a lot of competition still going on for a starting back. There are two fullbacks that are running well with the ball and the offensive line has wonderful material.

Two weeks ago the Sanford Seminoles showed that they failed to function as a team. They lost a bruising 33-7 game.

"The first step in correction is to find the error," Fleming asserted, and there was a hearty approval from all present. "It took us a while to find ours, perhaps because the small ones were so numerous that we couldn't give them a general classification. But now we pretty well know the score, and we're going to do something about it. We will not play another game this season like we did the last one."

These are pretty encouraging

## Motorcade Is Set To Apopka Friday By Chiefs Club

The Seminoles Chiefs Club announced today that it would sponsor another in a series of parades. This time it will be in the form of a motorcade leaving from the front parking lot of Seminole High School Friday evening at 6:30 and proceeding to Apopka.

Everyone is invited to be a part of the gigantic motorcade, and Chiefs Club president, John Schirard Jr. urged that all Seminoles fans motoring to Apopka to witness the Seminoles-Blue Darters clash become a member of the caravan.

Chiefs Club members will be in the SEM parking lot as early as 6:15, handing out streamers, banners, and noise-makers to all cars entering the motorcade. The motorcade is slated to start for Apopka not later than 6:45.

"It's only a short trip to Apopka," John Keeling, secretary-treasurer of the Chiefs Club, stated, "and there's no reason why we can't turn this into a tremendous affair. There is room for over a thousand cars in the parking lot, so the fans shouldn't be afraid of not finding a parking place."

This is another wonderful opportunity for the many fans of the Sanford Seminoles to show that they are behind the team with 100 percent support, and at the same time let Apopka know that the Seminoles have a huge following.

Be sure to make your plans to be on hand at the Seminole High parking lot at 6:30 Friday evening.

EX-RIVALS NOW TEAM-MATES  
NEW YORK (AP)—The chances are that Lou Fontana, roughhouse defenseman of the New York Rangers, and Red Sullivan will see eye to eye during the National Hockey League campaign. They tangled twice last season but now are teammates. Sullivan was with the Chicago Black Hawks last season.

TRADE, CULTURAL CENTER IN 'REAL TROUBLE'  
TALLAHASSEE (AP)—Gov. Collins acknowledged yesterday that the Inter-American Trade and Cultural Center at Miami was in "real trouble" with a depleted treasury and the poorest bond market in 25 years.

But he said that a new and sound plan for financing the proposed multimillion dollar project had been shaped up and that it would succeed if the bond market improved and Florida financial backing can be obtained.

"IKE, DICK," ADIAL ESTES' ON SAME BUTTON  
MIAMI (AP)—"Ike and Dick" backed up "Adial and Estes" on a presidential campaign button distributed at a Miami rally.

It came to light when teen-aged David Human inquisitively pulled off his souvenir Stevenson badge apart. On the inner side of the backing was the GOP ticket.

A manufacturer explained it was accidental use of scrap metal.

words, coming from the conservative Fleming.

These are pretty encouraging

DRUMMING UP A LITTLE BUSINESS for the Florida Gators football season are these two majorettes from the University of Florida. They'll be leading the famed Fighting Gator Band during the festivities this fall. They are (l. to r.) Margaret Ruth Kelly, daughter of V. A. Kelly, 4025 Alcazar, Jacksonville, and Colleen Engelbreton, daughter of Forrest Engelbreton, 1017 W. 25th St. Sanford.

## Greyhound's Line Is Looking Sharp

The undefeated, unscathed-on Lyman Greyhounds got down to business yesterday as they prepared for the season's test of strength when they entertain powerful Tavares Friday night in Longwood.

"I don't think we'll pull through this one without being scored on," head coach Jim Payne said, "but if our defense keeps shaping up, I think we will be able to hold them down."

Tavares has had two successful outings thus far this season, and has averaged scoring over 20 points each game. It will be the toughest opposition yet to face the Greyhounds this season.

But the Lyman line will be greatly boosted by the return of pounding Pete Van Horn to full strength. Van Horn suffered a knee injury two days before the season opened, and has been running on low gas since then. "But his knee hasn't bothered him this week," Payne said, "and he should be running at full speed."

Alton Boone, 185 pound stand-out tackle has been showing up exceptionally well on defense. Boone and Dave Redwine have given the untouched Lyman goalposts a potent polka.

Harold Stone, alternate end and fullback, has earned admiration and respect among his team mates for his performance this week. Stone has shown tremendous drive after receiving passes from quarterback David Stevens and has been hardest man to stop this week.

Lamar Holms, a superb example of running form and style, has been hitting hard in the line bucks, and the play series will be used extensively against Tavares.

Lyman's leading ground-gainer, Jim Hopkins, has coupled with John Fambro to make some new razzle-dazzle for the speedy Greyhounds. This is the Greyhounds first season running from the Split-T and Hopkins and Fambro are improving rapidly.

One portion of any football team is always given less praise than it deserves. That portion is the line. In the case of Lyman, it deserves much praise. Men

like Miller, Stone, Van Horn, Boone, Redwine, McLeod, and Farmer are the ones that keep a team in the ball game. They open the gaping holes and stop the opposition from making yardage. Certainly it is a tribute to any ball team to weather two games without being scored on.

## Heavy Backfield Experiment Nil

Jack Stotsky's virna attack kicked the heavy offensive backfield out the window for the Sanford Seminoles as they prepare to invade the Apopka Blue Darters Friday night.

JACK STOTSKY

Stotsky is the outstanding offensive center and defensive line-backer who showed enough skill, power, and determination to take the place of Brantley Schirard, who was to alternate at the half-back slot and give the Seminoles additional power and drive through the line. This additional weight and power was designed to loosen up the opposing defense and give the lighter, faster halfbacks an opportunity to break away for additional punch in the scoring machine.

Returning, however, to the half-back slot is Joe Russi. Russi suffered a re-occurrence of last year's leg injury and was benched for the remainder of the season, but the doctor has released him for "limited" action other than kicking for the Seminoles.

But it all evens up one for one, inasmuch as Phil Byrd failed to see action in yesterday's rough house scrimmages. Monday Byrd suffered cuts and bruises above his left eye and will not be able to see action for the remainder of the week.

## Chiefs Club Meet Slated Tuesday

John Schirard Jr., president of the Seminole Chiefs Club, announced this morning that there would be a meeting of the Chiefs Club next Tuesday night at the City Hall.

The meeting is scheduled to start at 7:30 p.m., and all members and interested persons were urged attend.

Applications for membership will be taken before and after the meeting. The Chiefs Club now boasts a membership of 105, but there should be twice that many.

DRAFTED AS A SOPH  
WILLIAMSBURG, Va. (AP)—William and Mary halfback Charles Sidwell holds an unusual distinction — that of being drafted by a professional football team while still only a college sophomore. The Cleveland Browns drafted the 210-pound 6 foot 2 star last January. Sidwell was eligible for the football draft because he's a Korean War veteran whose original college class at William and Mary has long been graduated. He lives at Portsmouth, Va.

# Passport to Happiness

By MAYSIE ORRIS

© 1958, Maysie Orris. Reprinted by permission of Avalon Books. Distributed by King Features Syndicate.

**SYNOPSIS**  
Mrs. May Featherstone, wealthy English woman, has a son, James, who is a doctor. She has a daughter, Valerie, who is a nurse. She has a son-in-law, Dr. Harrison, who is a doctor. She has a daughter-in-law, Mrs. Harrison, who is a nurse. She has a son, James, who is a doctor. She has a daughter, Valerie, who is a nurse. She has a son-in-law, Dr. Harrison, who is a doctor. She has a daughter-in-law, Mrs. Harrison, who is a nurse.

**CHAPTER 10**  
**TIGHT LINES** appeared about Doctor Harrison's lips and his dark eyes glowed angrily as he faced Val. "I'm willing to apologize to Mrs. Featherstone and explain I was in a rage at the time I threatened her. After all, I can understand why she wouldn't want me as a son-in-law. My family's a good one and I'm proud of them, but certainly they've never been mentioned in 'Debut'." She wanted a social marriage for Eileen. She wanted a title for her too, and Dirk Hanson would have accepted that ultimately. He had everything to recommend him to her except the cash, and she had that.

He thrust his hands into the pockets of his uniform jacket. "Oh yes, I can see why she resented me. I can even understand why Eileen finally gave in to her. She's a hard-driving woman and completely ruthless. At least," he added, "I like the tempo of her voice when she's angry. I tried to understand why Eileen gave in to her."

"I think Eileen loved me," he went on quietly. "I was convinced she did, and when I saw that"

ly. They want to get in the movies and they all rush to Hollywood. "But the way to get in films is stay right here. Let them come to you."

Her own formula for breaking into the cinema has been live TV and Broadway shows.

She made a big splash a couple of seasons back in a bit appearance on Sid Caesar's NBC-TV show. Later, Caesar called her back and worked a whole show around her.

"Somebody's always bound to be watching, one place or the other," Barbara figures.

Before her stint on the Caesar show, Miss Nichols probably was the best-known unknown in the land. For two years she was the calendar girl of Esquire magazine, and as a model her face and figure appeared on the covers and inside pages of 300 other magazines.

Determined since childhood that she wanted an acting career, Miss Nichols captured a batch of beauty contest titles and went on to bit roles in light club and stage shows.

Then a movie scout spotted her on the Caesar show—and that got her a part in "Miracle in the Rain." Next came roles in "Step Down to Terror" and "Beyond a Reasonable Doubt."

There has been a certain similarity about all of Miss Nichols' roles to date—dance hall hostesses or burlesque performers. But nobody is going to typecast her forever Barbara vows.

"I don't want to be a leading lady. A few years ago you're doing 'Give me character roles like Claire Trevor played—you know, all hard outside but a real heart of gold.'"

## B. Nichols Says Play Hard To Get

**NEW YORK (U)—** For TV stars with an eye on a film career, Barbara Nichols has a word of advice. The way to break into movies, she says, is to play hard to get.

This 5 foot, 5 1/2-inch stunner with turbulent ash blonde hair, speaks with some authority. She avoided movie studios and the scouts found her on TV. And with three movies completed, bountiful Barbara has yet to take a screen test.

"Most girls have it all wrong," she explains just a mile reluctant-

## Traffic Death Increase Told

**CHICAGO (U)—** The nation's traffic deaths increased in August for the 18th consecutive month and the National Safety Council says the toll for 1958 appears headed for a new record of between 41,000 and 42,000.

Accidents on highways killed 3,600 in August, the council reported Monday. That was a 2 per cent increase over the 3,530 killed in August last year.

The council said traffic deaths in the first eight months this year totaled 29,350 up 8 per cent from the comparable period of 1957 when 27,460 persons died. The largest recorded toll for the first eight months of the year was 24,467 in 1937.

The all-time traffic toll was 39,969 in 1941. Last year's total was 38,300.

## New Rocket Hits 80 Mile Altitude

**WASHINGTON (U)—** A new cheap and lightweight rocket was reached an altitude of 80 miles and a speed of 3,800 miles an hour in its first test off Wallops Island, Va.

Dr. S. Fred Singer of the University of Maryland, administering the project for the Defense Department, said its chief value is simplicity in launching and its cost of around \$2,000, about a tenth that of comparable rockets now in use.

The rocket was built by the guided missiles division of Republic Aviation Corp., Mineola, Long Island, N. Y.

## Jobless Payments Cover Fewer Weeks

Jobless payments covered 1,555 fewer weeks of unemployment in August than in the same month last year, reports Industrial Commissioner Chairman James T. Vocelle.

Payments totaled \$1,868,959 high so far for any month this year, as August is seasonally the month of slowest economic activity in the state.

Number of weeks of unemployment covered by benefit payments was 91,676 this August compared to 92,969 last year. The August picture in claims for jobless benefits reflected a

THE MUTUAL SECURITY PROGRAM is the matter under consideration as President Eisenhower meets with citizen advisers at the White House. In front (l. to r.) are: John L. Lewis, president of the United Mine Workers; the President, and Benjamin Fairless, coordinator, ex-chairman of U.S. Steel. Standing (l. to r.): Walter Bedell Smith, vice chairman American Machine and Foundry Co.; Richard R. Deupree, Proctor and Gamble board chairman; Jesse W. Tapp, Bank of America; Colgate W. Darden, Jr., president University of Virginia, and Whitelaw Reid, newspaper executive.

**Traffic Heavy Between Sun, Nine Planets**

CAMBRIDGE, Mass. (AP)—Would you like a trip to the moon, or maybe some planet like Mars? You'll probably have to consult a road map. The traffic problem may be considerable.

That space between the nine planets and the sun looks empty, but it isn't. In addition to cosmic dust, there are mountains flying around out there—little planets called asteroids.

And then there are comets, meteors, and meteorites. Millions of objects.

Interest in space travel got another boost this summer when Prof. Donald Menzel, director of the Harvard College Observatory, predicted that rockets to the moon will be possible in 10 years.

He was speaking of a rocket without passengers. But he didn't say that a passenger rocket was impossible—just that its great cost would delay such a venture.

The first moon rocket, as envisaged by Dr. Menzel, will be a scientific instrument, maybe to televise areas we can't see—like the side which the moon always keeps turned away from us.

As for a passenger rocket, Dr. Menzel says we'll have to do a lot of study and charting of conditions in space to make it practical.

If you're interested in some of the traffic hazards that might be involved consider the information in a book called "Between the Planets." It's mostly concerned with the lesser members of the solar system which he calls the "substructure."

"Our general impression of the solar system," he says, "is based on the majestic behavior of the planets. They are widely spaced and move in nearly circular orbits that change very slowly. The substructure of the system is entirely different. It is a hurly-burly of perturbation's collisions, rapidly changing orbits, evaporations and electrical influences."

On earth we might be peppered by a good many of these smaller objects if it weren't for the cushion of our atmosphere in which most of them are destroyed. As it is, Prof. Watson says, "millions of tiny particles dash into our atmosphere each day. Each year billions of tiny, millions of small, and thousands of large bodies strike the earth."

"High altitude rockets appear to encounter many small particles in the upper regions of our atmosphere."

Now about the moon which has a significant atmosphere to protect its surface? "We are sure," Dr. Watson says that millions of meteors strike the moon each day. Of course, many of the meteorite objects are very little—the size of pin heads, or weighing only as much as a few drops of water.

But the largest objects—asteroids—are big, husky fragments—apparently parts of one or more planets smashed up in some long-ago collision. Some are several

THE LIFELESS BODY of one of two men who died to save another is carried from a gas-filled sewer in Yonkers, N.Y. The men, John Mansfield, 50, and John McSpedon, 26, were swept away in the poisoned blackness after they had fastened a rope around the waist of Ralph Prelato, 33. They had entered the sewer to rescue Prelato, who had collapsed from fumes, when they suddenly were overcome and carried off by running 20-inch-deep water. (International)

**Crime Increases in Florida Cities**

WASHINGTON (AP)—Reflecting a national trend, crime increased in Florida cities during the first half of this year.

An FBI report released Thursday showed crime in Florida up in five of six major categories. Nationally, crime rose 14.4 per cent. The report did not give percent-

age increases by states. For Florida cities, the report gave these crime rates per 100,000 persons in the six major crime categories, first half of 1956 and 1955 in that order:

Murder and non-negligent manslaughter, 6.3 in 1956 and 6.2 in 1955; robbery, 37.1 and 41.4; aggravated assault, 56.3 and 56.7; burglary, 476.8 and 474.6; larceny and theft, 1,078.5 and 877.7; auto and 149.0 and 120.9.

The report listed crimes for specific communities of over 25,000 with figures in order for murder, robbery, aggravated assault, burglary, larceny and theft and auto theft:

Gainesville—2, 1, 23, 102, 262, and 23, in 1956; 2, 1, 17, 42, 240 and 15 in 1955.

Key West—0, 5, 12, 11, 50, and 10 in 1956; 0, 5, 6, 24, 94, and 26 in 1955.

Lakeland—1, 3, 69, 54, 150, and 21 in 1956; 0, 1, 25, 63, 139 and 8, in 1955.

Panama City—0, 4, 4, 54, 109 and 11 in 1956; 8, 13, 78, 226, 347, and 55, in 1955.

St. Petersburg—2, 7, 15, 225, 731, and 65, in 1956; 1, 12, 25, 323, and 38, in 1955.

Tallahassee—1, 3, 26, 94, 275 and 37 in 1956. No report in 1955.

West Palm Beach—2, 9, 21, 128, 322, and 43, in 1956; 6, 7, 24, 97, 220, and 23, in 1955.

Comets, on the other hand, are believed far less formidable than they appear. They consist of a relatively small nucleus at most a few miles across—perhaps a porous mass of solidified gases or ice, maybe some gravel or small stones plus a tail of gases. Some of them are poisonous, but so dispersed they are not dangerous.

Meteors may range up to several hundred yards in diameter. And they rush into our atmosphere at speeds of eight to 40 miles a second.

All this may make space travel seem pretty risky, even assuming that all the problems of temperature, air pressure, propulsion, gravity, steering and supplies can be solved.

But maybe you shouldn't cancel your moon-trip plans after all. Dr. Menzel says that from the collision standpoint, it may turn out to be "not half as dangerous as driving on modern traffic-filled highways."

## New Road Route Met With Mixed Reaction

### Hiway May Bypass Sanford

News of the State Road Board's tentative approval of a limited access highway that was reported to bypass DeLand, Orange City, DeBary, Sanford, Casselberry, Winter Park and Orlando met with mixed reaction this morning.

However, in early morning releases from Tallahassee, the road was described as starting at a point near Sanford and across Lake Monroe to a point south of DeLand where the present four lane highway reverts to two lanes.

Chamber of Commerce Manager John Krider, who is also City Commissioner and County Commissioner-elect said this morning "my comment should be reserved until we find out what the route is going to be."

Krider said, "I am disappointed at the moment. We expected trouble but you don't get things without trouble. We're not going to just sit back and let this thing happen without opposition."

On the route of the proposed highway that was approved because the caseway joining French A. and 17-92 in Volusia County would be parallel with the federal government's limited access highway, Krider said "we're not familiar enough with it to know what to do—as soon as the engineers complete the designation of the route we'll know what steps to take."

"We're not giving up on French Ave.," Krider commented, "it's going to take a lot of thinking and we've got to have a plan."

Chamber of Commerce President Clifford McKibbin was very brief in his statement when he said "until we're more informed about it we're not in a position to make any statement."

Bruce Odham, chairman of the Highway Range Highway Planning Committee, reached in Titusville this morning by telephone, said "All I know is what I've read and I'm confident the Billy Dial, Fifth District Road Board Member and the State Road Board of Florida are going to do everything they can to work out a plan on this road that will satisfy the federal government and come as near satisfying the business people as possible."

"Road Board Commissioners have two problems," explained Odham, "one of planning roads to meet the needs of traveling public and the other of trying to appease those who have invested along the existing routes."

"This new route may be two or three miles west of Sanford," said Odham, "it's progress, though it doesn't meet our immediate program, its long range benefits will be terrific."

Odham, in explaining his position (Continued On Page 3)

### Lund Says SNAS Allocation Should Be Made At Once

Immediate allocation of the seven million dollar approval for expenditures on the Sanford Air Base should be made as rapidly as possible, Arnold Lund, Republican nominee for Congress in the Fifth Congressional District, declared today.

"Congress has approved the spending of this money for the base," he stated, "but my investigation at Washington discloses that there has been no allocation of the funds to date. When this is the public should be notified of it. There should not be a delay in getting action on this project."

Lund stated that it was difficult to obtain information on such matters because of the great number of bureaus in Washington through which matters had to clear.

"President Eisenhower has been trying to streamline the multiple number of bureaus in Washington," he said, "in fact, he has recommended favorable action on the Hoover Committee Report that is designed to get rid of many of them."

"Most of these bureaus came into being since 1933 through the desire of the Democrats to create jobs. Many are useless and many are overlapping. Many are responsible for the 'same work,'" he added, "it's high time a more simple manner could be devised so that the public could find out what is going on. But that is difficult without a centralization of the bureaus."

Lund pointed out that many of the bureau chiefs were reluctant to give out information on improvements contemplated which they did not have complete facts pertaining thereto.

"If the Eisenhower program of centralizing authority on various projects, that are being undertaken, is carried out," he said, "The public would have a better opportunity to obtain first hand facts on matters which are vital to them."

GAINESVILLE. — Here's an idea of what the Kentucky "Wildcats" will be faced with when they meet the Florida "Gators" this weekend. These majorettes are members of the University of Florida Fighting Gator Band. They are (l to r) Colleen Engebreton, daughter of Mr. and Mrs. Forrest Engebreton, 1017 W. 26th St., Sanford; Mary Poynter, daughter of Mrs. R. R. Poynter, Country Club Colony, Melbourne; and Mary Margaret Stafford, daughter of J. A. Stafford, Coleman.

## Mutual Concert Assn. To Open Season With Thumbnail Theatre

The Seminole Mutual Concert Association opens its 1956-57 winter season on Nov. 19 when Mary Hutchinson, noted Broadway singer, brings her "Thumbnail Theatre" to Sanford.

Four concerts will be presented this year, said the concert association's president, Francis Roumiliat, today.

"We believe that the Sanford concert audience, members of the Mutual Concert Association, will enjoy Miss Hutchinson in the opening performance of the season," said Roumiliat.

Miss Hutchinson scored a great success with critics and audiences alike in her New York debut at Times Hall two seasons ago, which called for a second and equally successful appearance there the following season. Mary Hutchinson is a favorite solo artist from coast to coast.

Her program will include "Thumbnail Theatre," a group of original character sketches; "Dramatic Portraits" portraying her own life and drama; "Shakespeare's Heroines" with immortal lyrics faithfully adapted.

It was pointed out that Miss Hutchinson will be seen and heard in both comedy and dramatic sketches.

The concert, this season, will again be held in the Pinecrest School Auditorium.

Three other concerts, for the coming season will be held in January and February of 1957. These will include The Chantiers Male Quartet, four soloists from the Robert Shaw Chorus.

Players, Incorporated, known as America's finest touring repertory theatre company, will offer methods of eating, dressing, studying, traveling and a multitude of other things. It creates a desire on the part of the reader, to possess the many things they read about and this desire creates an impulse to improve earning capacities to the end that people are also improved.

The subject of my talk today is the relationship of the newspaper to the community. I know of no better way to start a talk on newspapers than to give a definition of news.

The following definitions were obtained by a questionnaire sent out to editors by Colliers Weekly: News is whatever your readers want to know about.

Everything that enough people want to read is news, provided it does not violate good taste and the laws of libel.

News is anything that happens in which people are interested.

Whatever concerns public welfare, whatever interests the individual in any of his relations, activities, opinions, properties or personal conduct is news.

News is the essential facts concerning any happening, event, or idea that possesses human interest; that affects or has an influence on human life or happiness.

News is based on people, and is to be gauged entirely on how it interests other people.

News comprises all current activities which are of general human interest, and the best news is that which interests the most readers.

Newspapers are second to none in the business of gathering and disseminating the news as the name implies, newspaper, news, no other mass media can substitute for the daily printed words of a newspaper.

I would like to give you what my personal conception of a newspaper is. I believe that it is the greatest force for good or evil in a community.

We who are fortunate enough to operate a newspaper I consider temporary custodians of a service vehicle in our community. By our operation of a newspaper we assume tremendous responsibilities. First to the public that we serve, secondly to the employers and lastly to the stockholders.

We who are responsible for the publication of newspapers must have the courage to never compromise with special interests against the interest and welfare of the people that we serve. We must have the courage to do that which may be unpleasant to maintain the health of the whole being of the newspaper.

And to maintain that health nothing can do so much as first keeping our minds on the matter of service to the people that we serve and second keeping the property financially sound enough so that we can not feel that we can be persuaded into doing that which we feel should not be done or leave undone that which should be done for the betterment of our community and our newspaper.

When we assume the responsibilities of operating a newspaper then we assume the task of helping the community to prosper and

## Condemnation Suit Net Verdict Is Returned By Jury As \$161,709

### Eisenhower-Lund Meeting Scheduled Oct. 9 In Daytona

Gov. Goodwin Knight of California will lead an Eisenhower-Lund mass meeting Oct. 9 in the Daytona Beach Peabody Auditorium, it was announced yesterday.

The meeting will promote the candidacy of Arnold Lund for Congress, as well as the campaign for President Eisenhower, according to Dwight H. Allen, chairman of the Volusia County Republican Organization.

Delegations from 11 counties are expected. The meeting which is open to the public will begin at 8 p.m., Allen said.

"All people who support Eisenhower and Lund are invited to attend. There will be no charge for admission," he said.

"Governor Knight is a national figure and I believe all who attend will enjoy hearing him and Lund present the issues of this campaign. I urge that people that want to hear the facts of this campaign attend this meeting," Allen stated.

Appointed to serve on the steering committee for the meeting by Allen were William S. Moore, Kenneth Koh, George W. Mass, Mrs. Katherine Clarke, Mrs. King Nelson of Daytona Beach, Roy Stuger, Leslie Mayer, Mrs. W. W. Hurt, Harry A. Dooley and Mrs. Walter Miller, all of DeLand Volusia County.

Others appointed to this committee included Albert Schwartz, Mrs. Veda Grimes, Mrs. Josephine Wright, William C. Coleman Jr., and Mrs. A. F. Van Dolan, of Orlando; Floyd Shaver and Clark Kaufman of Leesburg; Mrs. Elizabeth Paffy of Clermont; Clark Vance of Ocala; F. A. Hellingworth of Kissimmee; James F. Tomovic of St. Cloud; Lewis W. Mueller and Mrs. Jennie McNulty of Melbourne; Dr. W. D. Hinman and B. T. Keating of Floral City; William Beausay of Flagler Beach; B. W. Carey of St. Augustine; Guy Allen of Sanford; Mrs. Knox Butler of Cocoa; Gen. Elmer Carter of Titusville; Wheelock Whitney Jr. of Ponte Verda Beach.

A Circuit Court jury completed its findings on the condemnation suit in acquiring right-of-ways for the four-laning of 17-92 from Five Points to the Orange County line yesterday.

The suit required more than a week to complete and was heard before Judge Vassar Carlton, Circuit Judge of the Ninth Judicial Circuit.

The net verdict returned for land and attorneys fees came to \$161,709.

The court appraisal for the parcels of land and property in the condemnation suit was approximately \$33,000 less than the verdict returned yesterday afternoon.

The land, involved in the condemnation proceedings, was set at \$248,000 with the attorneys fees at \$13,709.

Brian Henry atorney for the State Road Board, represented the State and County Attorney Mack N. Cleveland Jr., represented Seminole County.

Many of the parcels of land, involved in the condemnation proceedings, were settled out of court, and the amount of money involved in the settling of the claims is in addition to the jury verdict.

Attorney Mack N. Cleveland Jr. this morning, said "We will pretty well exhaust our county money available for right-of-ways on the south section of the 17-92 four-laning project."

Seminole County Tax Collections Drop Last Month

Sales Tax collections in Seminole County dropped for the first time in many months, according to a report this morning from State Comptroller Ray E. Green.

The collections in September, based on August sales, of this year came to \$26,221.28.

The total collections for Sept., 1956 are \$1,022.44 lower than the same period in 1955, according to the report from the State Comptroller. Sales Tax collections for the month ending Sept. 30, 1955 were \$26,942.82.

However, the statewide Sales Tax collections picture, as reported by Ray E. Green was as follows:

Sales tax collections during the month of September (based on August sales) totaled \$7,123,346. As expected this was a decrease under the \$7,149,683 collected during the previous month; however, the decrease of \$1,708 was very fall—during 1955 September fell \$42,000 below the collections of August.

This month's collections represent a large increase over collections for the same month of the previous year, an increase of \$1,112,728, or 15.4 per cent. (September 1955 collections were an increase of 15.1 per cent over September 1954).

Collections to date this fiscal year amount to \$21,215,529, an increase of \$2,418,622 over the \$18,796,907 collected to date in 1955. This is an increase over last year of 12.8 per cent. (First three months collections last fiscal year were an increase of 15.4 per cent over the same period in 1954).

From these figures it is evident that dollar-wise and percentage-wise, collections this year are running ahead of last year's in an appreciable amount. In addition, we have made a study of collections during the last five years; during that time collections during the first three months have represented between 20 and 22 per cent of the year's final total. If this pattern is not changed, collection for this fiscal year will easily surpass \$100 million dollars, (\$88,004,354 was collected last fiscal year).

### Veterans In Area To Get Assistance From Consultant

Veterans of this area who need assistance in obtaining benefits provided by the federal government should contact Raymond James, Assistant State Service Officer.

Veterans or their dependents may consult James while he is in this area and may receive assistance in filing applications for hospitalization, compensation, pensions, insurance problems, loan benefits, educational training benefits and miscellaneous subjects, where legal entitlement is involved.

James has been invited to this area as a special consultant by Karlisle Household, county service officer. He will relieve Tom Doan who is on sick leave and may be contacted as follows: Oct. 5 from 1:00 to 4:30 p.m. at county service office.

### Hospital Notes

- Oct. 3 Admissions: Denmark Montgomery (Sanford); Mrs. Alice Glenn (Sanford); Dora Guerry (Sanford); Deckberg; Mary Barkley (Orlando); Samuel Fulton (Sanford); Rev. Henry Williams (Sanford); Charlie Carter (Sanford); Louise Partain and baby boy (Sanford).
- Oct. 4 Admissions: Mack Cleveland Sr. (Sanford); Mrs. J. N. Walls (Sanford); Sheila Jordan (Sanford); William B. Murray (Sanford).

### 'Civil Defense's Topic At Women's Civic League Meet

LONGWOOD — Longwood Women's Civic League met on Tuesday for its first meeting of the year '56-57 at Library Hall.

In the absence of the president, Mrs. B. R. Gray, who is on vacation in Oregon, second vice president, Mrs. Gerland Shaw presided over the meeting. The secretary also being away, minutes were omitted and Mrs. N. A. Bunnell took notes.

Topic of the meeting was "Civil Defense" and Mrs. James McGrath, who has been associated with that subject for some time, very ably explained the necessity of all being prepared in case of such an emergency arising.

### Registration List Reaches 12,272

Seminole County's registration list is higher now than it has ever been, according to Seminole County Supervisor of Registration Camilla Bruce, this morning.

"Through yesterday, our total registration is 12,272," Mrs. Bruce said today.

Registration, at the office of the Supervisor of Registration in the Chamber of Commerce Building, will continue through 5 p.m. Saturday.

### Rally Day Set At Altamonte Church Sunday

ALTAMONTE SPRINGS — The Altamonte Community Church Sunday School will hold its annual Rally Day Sunday at 9:30 a.m. according to an announcement by Superintendent Allen Forward.

A brief program will be presented by each class and promotion will be made at this time. Teachers are Mrs. Graham Fuller, Mrs. Allen Forward, Mrs. Donald MacLeod, Mrs. K. Durnell and Miss Mary Jane Smith.

The program will be held in the new educational building and all parents and friends are invited to attend.

### Purcell Funeral - Saturday Morning

Funeral services for Mrs. B. E. Purcell, who was killed in an automobile-truck collision near Baton Rouge, La. last Sunday, have been set for Saturday morning, Oct. 6, at the First Methodist Church in Orlando, at 11 o'clock.

### Herald's Loyalty Is To Sanford, Seminole County

The editor and publisher of The Sanford Herald spoke at the noon luncheon meeting of the Sanford Rotary Club, Monday and the Sanford Kiwanis Club yesterday.

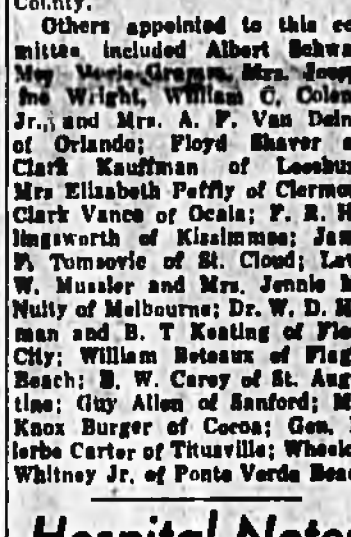

The two programs were in observance of National Newspaper Week which is being conducted throughout the United States.

The address made by Fred Perkins, editor and publisher of The Sanford Herald was as follows: "This is National Newspaper week and a good time to remember just how much we depend upon our Newspapers.

The average American is the best read individual the world has ever known. Americans acquire more and more knowledge everyday through the abundance of reading matter that comes their way.

Newspapers have adopted as their theme for National Newspaper Week "Freedom's Key To Better Living." And truly your newspaper is the key to better living.

It tells of new and improved

KIRK MAY (Staff Photo)

### Herald Carrier Says Honesty Is Best Policy

A Sanford Herald carrier spied a five-dollar bill on the floor in one of Sanford's department stores yesterday which had gone unnoticed just below a pack of dresses.

"It wasn't mine," said Kirk May, 18-year-old carrier, "but I couldn't leave it there for someone to pick up and take off for themselves.

"I picked it up and took it to the manager of the store and turned it in," said Kirk.

"Five dollars is a lot of money," said Kirk, "but it wasn't mine and I wouldn't keep it."

### Central Baptist Church Ordains Three Deacons

Charles Cole, J. Q. Gallaway, and Jack Owens were ordained as deacons of the Central Baptist Church of Sanford at an Ordination Service held last Sunday at 3:30.

The Ordination Service was deeded by the Rev. Merle Wentz of DeLeon Springs; the Charge to the Deacons was given by the Rev. Fred Fisher of the First Baptist Church of Sanford; the Charge to the Church was given by the Rev. Lewis Pugh of Longwood; and the Ordination Prayer was led by the Rev. E. G. Brown of Lake Monroe.

### American Legion Convenes Monday

ALAMONTE SPRINGS — The bi-monthly meeting of American Legion Post No. 123 and Auxiliary Unit will be held at the Legion Home Monday at 8 p.m.

Commander, D. T. Warren will conduct the Post meeting. Mrs. Frank Russell is Auxiliary president.

### Game Postponed

BROOKLYN (AP)—Baseball Commissioner Ford Frick today ordered the postponement of today's second game of the World Series between Brooklyn and the New York Yankees because of a light rain and "menacing weather."
