What is needed is a full-voiced YES from the registered voters of Seminole County that they want to see the education program equipped with the physical facilities which must be provided

amendment-and that is what this is all about-will merely reinstate the financing which was never in-Florida voters approved it in 1963. But when

the new constitution was adopted, the continuance of this bond financing was stopped - surely not wittingly-but by neglect or oversight. That is why any opposition to the YES vote almost asks the question that no-one has authoritatively answered: "Why?"

voiced his support. Furthermore the support has been buttressed by statistics which prove that any failure to approve would not only gravely damage our educational system but could lead into other means raising revenues which would not be so painless for

we say it again: Approval of the bond issue does not include any NEW Taxes. But what it does mean is that the Florida educational facilities will get needed help with construction of buildings and equipment to meet the inescapable demand which comes in our growing state.

We have said it before and today-THE DAY-

If this is true elsewhere in Florida, it is very inti-

mately true for Seminole Countians. We have been

dramatic growth during the next decade.

of the flood of tourists which can responsibly be expected with Walt Disney World being the magnet which has already drawn minor tourist attractions to Central Florida. And more will come. But the tourists are not the ones who will produce the demand for more schools, for better schools and, above all for the vocational and technical schools

which have been so neglected. Hendrix Chandler, corporate secretary of the Board of Regents, spelled out the danger should the amendment not be approved. He cited the cases of the new state universities to be located in Miami and Jacksonville and the new dental school at the Uni-

Interpretive Report:

these important educational facilities would not be This will be the 1970s. Almost everyone is aware able to open in 1972 as present forecasts promise. Education Commissioner Floyd Christian, who has his hand on the pulse of education in Florida, has emphasized that enrollments in state supported institutions of higher learning will double in the next

No sound thinker would deny this nor would any logical voter ignore Mr. Christian's accompanying warning that failure to approve the amendment would have two definable results: 1. curtailment of enrollments or 2, new taxes. We trust that everyone of our readers has al-

ready voted when this edition arrives at the home. If not, hurry down and cast your ballot - apathy alone can prevent a resounding "YES!"

Mental Health!

Whether you want to or not, it is time to think about mental health. This is a subject F which has had more than enough lip service and appears to be almost impossible to get off the ground in terms of action.

We have expressed our concern from time to time. We have been in touch with organizations who are themselves quite aware of the need and yet find action lacking.

One of the most comprehensive reviews of this sad situation was given at the recent meeting in Sanford on "Seminole In The Seventies" conducted by the League of Women Voters of Semipole County. Dr. Frank Leone, director of the Seminole

County Health Department, was the voice of authority. We would suggest that anyone who has more than a superficial interest in the mental health program get in touch with the

He has statistics and personal information enough to not only answer questions but to stir those who are concerned into action. Here are a few excerpts from Dr. Leone's

paper which give some idea of what a personal talk and visit with the mental health expert "Mental health is one of our more pressing health problems and it continues to become more

acute. More than 50 per cent of the patients that

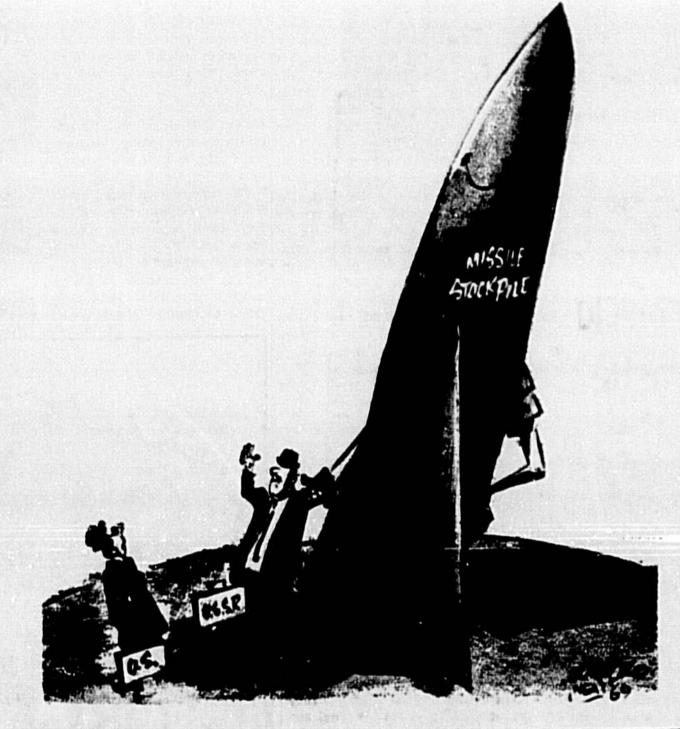

seek help from a doctor are also suffering some

mental problem." Also, "There is a soaring incidence of emo-tional disorders of adolescents. Those in the 15-24 age group in mental hospitals alone have risen by 35 per cent despite a 9 per cent drop in

overall patient load." And, "Remember with your help the mentally ill can come back. They can be rehabilitated Crane's Worry Clinic: and return to work to become partially or fully self-supporting."

Food for thought? Now, how about some

Simple solution to rising car prices.

The Simple Machine. Ford Maverick. Still \$1995*

the reason is simple-solid value. Now, with other car prices going up all around it, Maverick is going its own Mavericky way. It still costs \$1995° and that's still a small price to pay for a car that's simple to drive . . . simple to park . . . simple to service . . . simple to repair . . . and simple to own.

Simple to drive. Turn on the engine and you turn loose the power of 105 horses. Yet Maverick rivals the economy imports in gas mileage. Simple to park, Maverick can U-turn in a tighter circle than the leading import. It can nip around corners and slide into tight parking spaces with amazing agility.

Simple to repair. The Maverick Owner's Manual has 24 pages of instruction for routine maintenance jobs you can do yourself like change spark plugs, adjust ignition timing, and more. Fenders and grille can be replaced in a matter of minutes. Simple to own. The simple machine can start

expensive to maintain than an economy import.

Maverick requires fewer oil changes, fewer chas-

sis lubrications, too. You save time and money.

Friday night the unofficial "county championship" in football goes on the line. Where it will wind up is anybody's guess. Some say Lyman, while others tab Seminole. On paper, and looking at the two teams performances through six games,

one can conceive that of a "tossup" contest. This game could prove to be "the contest" for both teams this year and in their short epic seven game series. So far, Seminole has won four of the seven games, while Lyman has taken the last three tilts in a row.

The Greyhounds have a veteran ballclub, while the Seminoles have a group of talented players, many with limited game experience. But the SHS gridders have proved to be probably one of the state's finest dark horse teams this year, sustaining only one defeat in six outings, and that loss coming from power-packed Palatka, 27-21.

Lyman had a 15 game regular season winning streak going into DeLand over a week ago, but the Bulldogs proved that they were ready and stunned the Longwood 11, 20-0. This may be on Lyman's side. The Hounds had a great deal of pressure put on them, as any team does when they have a sustained winning streak. The pressure is off now and the Lyman-Seminole rivalary is on! This game will probably feature every aspect of football,

with Lyman's sensational running backs Rick Browne and Charlie Mathews providing the punch for the Hound's offensive machine. But Sanford has prided itself on defense this season and Coach Grey Boyles, Seminole's rugged defensive line coach is putting his pigskinners through their paces, led by such standouts as team captain Dana Yelinek and Andy a number 76 jersey and has become SHS's defensive terror, in hulking 220 pound tackle Dallas Brown. Brown, only a sophomore has proved that he has what it takes. Coach Tom Perrin cast a weary eye at the running antics

of Browne and Mathews. Browne, everyone's All-Stater last year, is probably one of the finest fullbacks in the Southeast and can bust a tackle or hurdle a line with ease. Mathews has carried much of the Lyman running burden this year with his brillant end sweeps with Browne throwing the blocking. Coach Dick Copeland takes pride in this power-

Seminole also has a powerful ground moving squad in the

likes of quarterback Tom Barks, Tim Perrin, Ronnie Howell, Chris Maltby, and lightning fast Rick Gilmore. The SHS team has had no real problem sweeping the ends or bursting up the middle for sizeable gains. It's going to be a real gem, one that will probably draw the biggest crowd of the year in Seminole County, and one

thing it most likely will be, is close and exciting.

Homemade ice cream is a special treat, fun to make and eat just the way you like it. Fruit can go in, on or with the ice cream. Nuts are another favorite addition. Or maybe you like your ice cream plain—the better to sauce it as you serve it!

CREAMY RICH PEACH ICE CREAM

2 cups whipping cream
2 cups light cream OR half
and half I tablespoon (I envelope) unflavored 1 cup sugar

2 tablespoons vanilla 2 cups whipping cream 2 cups mashed peaches 2 eggs, beaten 1/4 cup sugar 1/4 teaspoon salt

In a heavy 2-quart saucepan combine gelatin and sugar; stir in 2 cups whipping cream. Heat over low heat, stirring constantly, until gelatin is dissolved. Stirring constantly, gradually add hot mixture to eggs. Stir in salt, remaining whipping cream, light cream and vanilla. Chill thoroughly. Combine mashed peaches and % cup sugar. Proceed with freezing according to directions. When ice cream is half frozen, stir in sweetened fruit and continue freezing. Makes approximately 2 quarts.

OLD-FASHIONED CHOCOLATE ICE CREAM

1/8 teaspoon salt 1 1/2 cups milk 2 squares (2 oz.) unsweetened 2 eggs 1 1/2 teaspoons rum extract 1 1/2 cups light cream OR half 3/4 cup sugar 2 tablespoons regular all-purpose

In a heavy 2-quart saucepan scald milk. Add chocolate; stir until blended, Mix sugar, flour, salt; stir in % cup milk-chocolate mixture to make a smooth paste; return all to saucepan. Over low heat, cook, stirring constantly until thickened. Beat eggs slightly; stir in milk mixture, then return all to saucepan. Cook 2 additional minutes. Cool in refrigerator, then add rum extract and

cream. Chill thoroughly, Freeze according to directions, Makes 1% quarts,

BUTTERMILK SHERBET

1 cup sugar

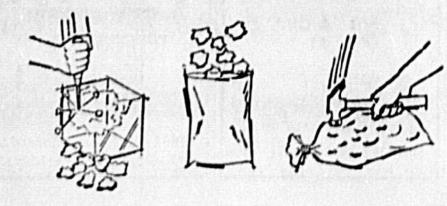

Dash of salt

2 cups buttermilk 1 tablespoon (1 envelope) plain gelatin 1/4 cup cold water

3/4 cup hot water 1 cup canned crushed pineapple

2 teaspoons grated lemon peel 2 tablespoons lemon juice

In a bowl combine sugar, salt and buttermilk, Soften gelatin in % cup cold water, then dissolve in % cup hot water. Add to buttermilk mixture. Stir well until thoroughly dissolved. Stir pineapple, lemon peel and fuice into mixture. Chill thoroughly. Freeze according to directions. Makes 11/2 quarts.

Get out the ice cream freezer, stock up on dairy ingredients and ice and join the ice cream fans who are rediscovering the delights of making their own.

Ice, and lots of it, is a necessity. Iceman's packaged ice, hard-frozen and slow melting, is the convenient way to have all you need on hand. It's available in block form, cubes or already crushed.

Whether you prefer the hand-cranked type or the electrically-driven ice cream freezer, you'll find a glorious array of recipes. The sampler below includes an uncooked fruit sherbet made with buttermilk. Others use milk, cream or half and half — they're simple, custard-based ice creams which require only brief cooking. Use the recipes to make the "mix" of your fancy, then follow the freezing directions.

You may have one problem: Deciding who gets to lick the dasher. Some things never change.

VANILLA CUSTARD ICE CREAM

3/4 cup sugar 2 tablespoons regular all-purpose

2 cups light cream OR half and half 2 eggs, slightly beaten

2 cups light cream OR half and half 1 1/2 tablespoons vanilla

In a heavy 2-quart saucepan combine sugar, flour and salt; gradually add 3 cups cream. Cook over medium heat, stirring constantly, until thickened. Cook 2 additional minutes. Add small amount of hot mixture to eggs; return all to pan. Cook, stirring constantly, 1 additional minute. Remove from heat. Add remaining 2 cups cream and vanilla. Chill thoroughly. Freeze according to directions. Makes 1% quarts.

VARIATIONS

STRAWBERRY ICE CREAM: Reduce vanilla to 1 tablespoon. Combine 3 cups fresh mashed strawberries with 14 cup sugar. When ice cream is half frozen, stir in sweetened fruit and continue freezing.

BANANA ICE CREAM: Reduce vanilla to 1 teaspoon, Add 1 cup mashed banana, 2 tablespoons lemon juice and 3-4 drops yellow food coloring to chilled mixture just before freezing.

MAPLE NUT ICE CREAM: Substitute 1 teaspoon imitation maple flavoring for vanilla. Stir 1 cup finely chopped nuts into chilled mixture just before

CHECKLIST FOR SUCCESSFUL HOMEMADE ICE CREAM

1. Make ice cream mix and chill.

2. Set out rock salt and measuring cups. 3. Use packaged crushed ice to give the ice cream finer texture. If you start with a block of ice or cubes, follow the simple steps illustrated on the left. Chip ice from block.

Place ice chips in a canvas bag. Crush with mallet or hammer. 4. Assemble - spatula, plate or tray, waxed paper and towel or rug to cover freezer during hardening.

5. To Make Ice Cream: Pour chilled mix into freezer can, filling it no more than % full to leave

room for expansion. Insert dasher; put top on tightly.

Be certain assembled can rests in indentation. Adjust top assembly so Place layer of rock salt on 3-inch layer of crushed ice. (Large pieces may

block rotation.) Layer ice and salt: 1 cup salt to 2 quarts ice, until tub is tightly packed. Note: If too much rock salt is used, the ice cream will freeze too rapidly and produce a coarse textured ice cream, or may freeze a crust around the

edge of the can, stopping rotation.

Turn hand crank until turning becomes labored or, if you are using an electric freezer, the motor labors. To Harden Ice Cream:

Carefully remove the cover, brushing away any salt or ice. Lift out the dasher and scrape the ice cream back into the can. Cork or plug the cover. Place waxed paper across the top of the can then replace Pour off brine and pack container with more salt and crushed ice in the Cover with towel, rug or newspapers to insulate. Let stand 1 hour or until
