courts. It grew out of efforts of the land development company to enjoin the state from using Apalachicola bay for oyster planting.

The case was once taken to the United States Supreme Court when that tribunal upheld the claim of a Spanish-Indian grant made by the land development company. A survey of the waters, however, was ordered. The state began using that portion of the bay not within the limits of the survey, and the injunction proceedings were then reopened.

The latter figure, however, included 2,297,271 acres of improved land, 2,780,790 of woodland, and 968,630 of "other unimproved land."

The farm value of land and buildings in 1925 was \$480,321,268 and \$281,449,404 in 1920. The land alone this year was valued at \$417,215,172, against \$228,424,740 five years since, with buildings comparing, \$63,106,096 in 1925 and \$53,024,664 in 1920. The average value of land and buildings in 1925 was \$8,111 per farm and were then reopened.

Two Major Advantages Studebaker Alone Offer

1-One-Profit Value 2-Unit-Built Construction

THERE are (as you probably know) only two manufacturers who actually build their cars complete - make all their own bodies, engines, clutches, steering gears, differentials, springs, gear sets, axles, gray iron castings and drop forgings.

One of these is Ford-in the low priced field. The other is Studebaker in the fine car

Because we eliminate the extra profits and overhead that many other manufacturers have to pay to outside parts and body makerswe are able to use finer materials and workmanship-yet charge no more than competing

But there is another side to One-Profit manufacture - a feature that no careful buyer can afford to overlook.

Under this One-Profit policy the entire car is designed. engineered and manufactured as a complete, coordinate harmonious unit in Studebaker plants. Being Unit-Built it functions as a unit. And this adds years to its life-gives you scores of thousands of miles of excess transportationgreater riding comfort-minimum repair costs-and, finally, higher resale value.

Examine the Standard Six Coach closely-make detailed comparisons with other cars-and you will understand the full meaning of One-Profit value.

A Coach of quality

It is called a coach only because it is the lowest priced closed car ever sold by Studebaker. But it is a quality car through and through.

Do not buy his coach with the expectation that you'll have to trade it in at the end of a year or so. It's not a one-year car.

Instead, it has been honestly built to give you scores of thousands of miles of dependable service.

Notice the durable wool upholstery. See the heavy ornamental hardware; the plate glass windows and windshield: the fine trim to hide all tacks; the clock and gasoline gauge on dash; automatic windshield cleaner: stop light; locks on ignition, steering gear, door and the tire carrier - all operated by a single key.

quality of materials and workmanship that are out in the open. The sturdy frame for the body is built from the fine northern ash and hard maple. Slam the door and the sound says quality. Underneath the upholstery you'll find two layers of

These are all features that you can easily

washed, quilted cotton, one layer of gentine curled hair and extra tong springs closely held together by small coil springs. This is the identical cushion and seat construction used in the highest priced cars. Long resilient springs made of special chrome Vanadium steel give greater buoyancy and protec-

tion from road shocks. The crankshaft is completely machined on all surfaces to eliminate vibration. And the motor is the most powerful in any car of this size and weight, according to the rating of the National Automobile Chamber of Commerce. It is a motor built for smooth, trouble-free service at 5 to 55

miles an hour-not for excessive speed or spectacular stunts. The body is smart in appearance - yet provides ample room to seat five passengers in real comfort. Ample room to enter or leave without disturbing occupant of folding seat.

Make comparisons before you buy

These are advantages made possible by One-Profit manufacture. Check them off point by point-in comparison with other coaches.

Only after you have seen this One-Profit Studebaker with its Unit-Built construction, will you realize why it offers a value that cannot be obtained in any other car. It is the automobile equivalent of Pullman transportation.

The Studebaker policy of "no yearly models" is a further protection to owners. Under this policy Studebaker cars are always up to date - we add improvements from time to time and do not save them up for spectacular annual announcements which make cars artificially obsolete.

Come in-let us demonstrate the Standard Six Coad without obligation on your part.

MILLIONAIRE'S SECRET?

A SALARY never made a millionaire. A few thousand dollars in gilt-edge bonds never made a millionaire. Four or five per cent in a savings bank may have started, but it never made a millionaire. What is the millionaire's secret?

Thousands of shrewd investors have found the answer in Coral Gablesromance land of southern Florida, most beautiful of all of Miami's suburbs. They have seen a few thousand dollars-perhaps the savings of a lifetime-increase to tens of thousands of dollars in a single year. They have purchased land in this miracle city of the South, they have sold it and purchased again, and they have been amazed at their profits. They have made more actual money in Coral Gables in one year than they had made in their former homes in ten or twenty years.

Land in Coral Gables has shown marvelous increase in value every year! An investment of \$80,000 in business and residential property in 1921 re-cently returned over \$400,000! Ordinary building plots have brought profits of 100 per cent in one year.

> Home Builders Stabilize Investment

And yet, Coral Gables is a city of homes marvelous homes on on palm-cooled plazas . . . homes

costing real money, built to live in for a lifetime. And while the growth of Coral Gables has been spectacular, it has been sound, for Coral Gables is the dream city of the home-seekerthe man who wants to forget "seasons" and live in a tropical land.

Some of the shrewdest investors of our day endorse Florida real estate as the opportunity of a lifetime-such men as B. C. Forbes, Arthur Brisbane, Jesse Livermore, Samuel Untermeyer and a score of others.

A Few Hundred Dollars Will Start You

Building plots in Coral Gables may now be secured by a payment of only a few hundred dollars. These plots are offered in a wide range of prices, which include all improvements such as improved streets, street lighting, electricity and water.

"Mining is carried on by open pit methods; the rock, as well as the over-burden being removed either by hydraulics, steam shovel or by floating dredge. The hard rock variety is of the uniformly exported. The pebble rock is largehigh grade and it almost entirely ly used domestically, but frequently, export shipments have been increasing.

"Another industry in which Florida takes a leading part is in the production of fullers-earth, a clay used in the refining of crude minical, animal and vegetable oils. Two counties, Gadsden and Manatee, are the only ones producing this carth at the present time. The refined product is shipped principally to the refining centers of the mid-western states.

"Another clay nroduced in this state which is of higher; grade is the kaolin, a white burning clay used in the manufacture of high grade "orcelains. This is a produced in Putnam and Lake counties and occurs intimately mixed with the rather coarse siliceous sand, and from which it is removed by washing. The refined clay is shipped to the potterie of New York, Pennsylvania, Ohio and New Jersey, where it is mixed with less plastic clays for manufacture of various white wares.

PRACTICAL **CO-OPERATION**

Greater Miami must have the thorough-going. energetic and practical co-operation of all her citizens at this time in order to build rapidly enough to take care of the ever increasing influx of newcomers.

Committee meetings are all right but committee meetings often talk around the subject rather than going straight to the heart of the problem.

Britt-Chittenden Realty Company, 210 East First St., Sanford, Fla.

It is the ambition of Shoreland Company to accomplish the very maximum possible for the upbuilding of the Miami Shores section of Greater Miami. Particularly is this the case now that Greater Miami has included within her borders 50% of the entire Miami Shores properties.

We know of no better way in which we can cooperate in the great problem that faces the city administration than to push forward with the utmost speed, with the highest degree of efficiency, the building of streets, sidewalks, curbing and landscaping the Miami Shoroes properties and installing the water and electric light system therein.

All of these city improvements, of course, become the property of the buyers without any special assessments during the life of these improvements and over and above all these added advantages, which are simply added to Nature's own paramount advantages to the credit of Miami Shores in the matter of location, accessibility and relation to Biscayne Bay, is the element of service that goes automatically with our sales policy—the assurance of a continued advertising and sales policy for the service of the buyers of Miami Shores property.

This is not just a promise, not just a random statement, but it is backed by a record of performance, for since Miami Shores was originally placed on the market our sales organization has resold over 12 million dollars' worth of property at a profit to the original investor.

What is a Well-dressed Man?

To be well-dressed, a man doesn't need the bearing of an actor, the figure of an army officer, or the income of a bank director.

Good looks are not necessary, as long as a man has good taste. And as far as income goes-well, many of our bestdressed patrons are young men whose salaries must go a long way, with every dollar doing its duty.

Our clothes, though very modestly priced, possess the same elements to be found garments-style that is cleangarments-syle that is cleancut and well-mannered fabrics of pure texture and pleasing pattern — tailoring that is perfect in every particular.

If you wear our clothes you are a well-dressed man.

Miami Millionaire, On Visit To Gotham, Warns Jobless To Stay Away From Florida

NEW YORK, Oct. 9.—Under a two column head, reading "Miami Millionaire Warns Away Jobless and Penniless," the New York Evening Post ran the following:

The advance guard of the new Florida millionaires has arrived in New York city in the person of S. M. Tatum of Miami, said to have cleaned up \$20,000,000 in real estate in the last two years and to number among his acquaintances 200 other millionaires.

Mr. Tatum consented to be interviewed in his hotel yesterday, but expressed surprise that New York newspaper readers should be interested in his doings. It was explained to him that Florida today ranks with the Klondike in point of news interest, and that as thousands of young men and wo-men are preparing to fold their

"A man came up to my office a few weeks ago and said:

"Mr. Tatum, I guess you don't remember me. Twenty years ago you sold me a lot on Miami Avenue for \$500. I have just sold it for \$250,000, and I'll retire.

"Yes, I Would!"

Average men and women when asked if they would accept an opportunity that was plainly evident—one they could see and knew to be such, unequivocally, will reply with emphasis, "Yes, I would!" In fact they will become somewhat indignant that anyone should doubt their perspicacity to the extent of asking them such a question.

Not much is known of the St. Cloud outfit, except that it is an exceptionally heavy aggregation and will undoubtedly outweigh the local team saveral pounds to the man. It will furnish the Sanford linemen, however, an excellent chance to try out the valuable lessons in line play which they have received from Coach Welchel the past week. The backfield gives no cause for worry backfield gives no cause for worry and it is confidently expected that the Sanford members will give a good account of themselves.

It remains to be seen, however, how the line shapes up and if it play, up to the mentor's expectations, there is less to be feared.

tions, there is less to be feared from Sanford's future opponents. Plant City comes here with a powerful team a week from tomorrow and the St. Cloud game should serve as a conditioning tilt for that difficult conflict.

Hard Scrimmage Is Held night and the entire team showed night and the entire team showed much improvement. The way the men went through their pacer yesterday made it difficult to realize that it was the same outfit that played some raggedly against Leesburg last week. The line charged low and fast, the wingmen were down the field aimost before the punts and passes were started, and the backfield was speedy and full of life and spirit.

A large turnout of local fans and enthusiasts is expected at the Municipal Athletic Field tomorrow when the St. Cloud football team comes here to meet the Sanford High School gridders. Enthusiasm has been running high in the local innitiution and practically every student will be in attendance to morrow to lend their cheers and encouragement to Coach Welchel's warriors.

The men themselves are in fine fettle and are all keyed up for tomorrow's battle. Coach Welchel has given them a hard week's training and it looks as if St. Cloud is dual for rather an unpleasant afternoon.
