## ITALY EVACUATES CORFU THIS MONTH

## REVOLUTION SPREADING THROUGHOUT SPAIN

### PEACE HOVERS OVER EUROPE WHEN ITALY AGREES TO ALL SUGGESTIONS OF COUNCIL

AND COMES TO A FULL AND COMPLETE AGREEMENT ON THE MATTER.

SEPTEMBER 27TH  
Date Set For Italians To Evacuate Island of Corfu.

(By The Associated Press)  
Belgrade, Sept. 14.—Italian chargé d'affaires here informed the Jug-Slav government last evening of Premier Mussolini's desire that direct negotiations between Rome and Belgrade regarding Fiume be resumed. The resumption of negotiations are fresh basis is considered possible, although no decision has been reached as yet.

Paris, Sept. 14.—When Premier Mussolini declares the annexation of Fiume to Italy he will announce the withdrawal of the Italian troops from Porto Barros, and adjoining harbor. It is learned here from an authoritative quarter, Italy will thus give up any claim to that port, also to Sussak and to the Delta there which will be left to Jug-Slavia.

Paris, Sept. 14.—(By The Associated Press).—The danger of the peace of Europe from the Italian Occupation of Corfu ended tonight, when, after another difficult session, the ambassadors' council came to a full agreement. Italy finally consented to evacuate Corfu before the end of September. It is understood they are to leave the island by September 27.

It is also understood the council agreed that if on the date of evacuation, the inter-allied commission of inquiry reports that Greece has not done all possible to discover and punish the assassins of the Italian members of the Greco-Albanian boundary mission, the 50,000,000 lire deposited by the Greek government shall be paid over to the Italian government as reparations.

Up to almost the last moment, the Italians insisted that the powers ought to take Premier Mussolini's word as to the evacuation, and leave it to him to fix the exact date after the reparation measures had been carried out.

The British ambassador insisted quite as strongly that public opinion throughout the world ought to be reassured by a definite arrangement that would put an end to the talk that Italy intended to remain in Corfu indefinitely. He asked that the Italian premier choose a fixed date which would be early enough to set all speculation as to Italy's intentions at rest.

The allies assured the Italian ambassador that the greatest diligence would be exercised in pursuing the inquiry into the assassination of General Tallini and the other members of the Italian boundary commission and pleaded with him to urge Rome to accept the desire of Great Britain and fix a precise date for the evacuation of the Greek territory, so as to relieve the world of anxiety.

The afternoon session was postponed until six o'clock and then again at 8 o'clock in order to give time for the ambassadors to communicate with their governments.

Two more hours were occupied by the ambassadors at the evening session before they could come to an agreement, but eventually it was announced in an air of great relief that Italy had agreed to evacuate. An official communiqué issued soon afterward said:

### FORMER BANDIT SUES FOR ONE MILLION DOLLARS

MINNEAPOLIS, Minn., Sept. 14.—Emmet Dalton, last survivor of the famous Dalton gang which operated in Kansas and Kentucky years ago, Monday filed suit in Federal District Court seeking \$1,000,000 damages from William H. Fawcett, publisher of a monthly magazine, because of articles published in the periodical.

The articles, it is alleged, reflect on the character of the gangster, "who had a high code of honor, even in their career of crime."

Since Dalton was released from prison in 1907, he has devoted much of his time to lectures on the subject of right living.

### HEARING WILL BE HELD AT ORLANDO

GEORGIA DENTIST  
GETS PEN SENTENCE

TALBOTTON, Ga., Sept. 14.—Dr. C. M. Black, prominent dentist of Talbotton, charged with murder in connection with fatal stabbing of Jesse C. McQuirt, local merchant was convicted of voluntary manslaughter, by a jury in superior court here early yesterday.

The sentence of 19 to 20 years in the penitentiary was set by the jury and pronounced directly after the reading of the verdict.

tion created by the assassination of Italian delegates. The solution immediately will be transmitted to Athens and also communicated to the League council and will be made public tomorrow at noon.

The members of the commission of inquiry will leave tomorrow to take up their work with instructions to pursue their investigations with the greatest energy.

### The Good Roads Boosters Came Home This Morning From Green Cove Springs

Both Sanford and Orlando Were Represented by Large Delegations—Grand Time Reported and Much Good Accomplished.

When the Sanford and Orlando delegations sailed from the Clyde Line dock here Wednesday afternoon at five o'clock they had started one of the finest trips of their chaotic young lives (or chaste lives) and during the time that they were sailing the stormy St. Johns and while they were at the Good Roads meeting at Green Cove Springs they had one of the best times that any member of the party has enjoyed in years. Of course there is nothing quite like a St. Johns river trip on the good ship City of Jacksonville and there could hardly be a better crowd from either Sanford or Orlando as the one gathered together Wednesday afternoon. Everything that could be done for the comfort of the party was done and with Secretary Postman of the Chamber of Commerce a Frank Akers and others to look after the details the trip was pleasant and profitable. It was undoubtedly profitable although we learned after arriving at Green Cove Springs that the State Road Department members were not at the meeting to see the big delegations from Orlando, Sanford, DeLand, Palatka and other towns or to hear the good roads thunder that was shot at them yesterday.

There was nothing special of note on the trip to Green Cove Springs on the boat as everyone retired very early after drinking plenty of ice water and tea although before they retired they had a few impromptu speeches, plenty of music by A. With-

ington and Reg Holly and all retired in good spirits (and you can take this with a pinch of sulphur water).

The party woke up Thursday morning in Green Cove Springs and immediately after breakfast went to Quil-Anna Springs—this is pronounced with a sneeze and a pinch of snuff washed down with river water. But regardless of the name the spot is one of the prettiest in the state and the clear water bubbles out in a crystal pool that flows on into the big swimming pool and it is one of marvelous purity and clean and sanitary in appearance. Many of the visitors took advantage of the opportunity to take their annual bath whether they needed it or not and after Sanford Orlando and Orlando singers had entertained the big crowd that had gathered after the parade the barbecue dinner was announced and about half a million people more or less made a break for the tables and most of them were just ahead of the writer which necessitated his standing H.R.D.L. which necessitated his standing around on first one foot and then the other fellow's foot until he finally made a break through the line and obtained some of the finest chicken pilau, barbecued pork, beef, mutton and other good things with coffee and then everyone sat in the shade of the magnificent oaks until time for the speakers. The combined bands from DeLand and Palatka rendered several airs and then many good speakers told the folks about Road No. 3 and

what it means to the entire state of Florida. Among the speakers were Telfair Stockton of Jacksonville, Judge Perkins of DeLand, Carl Brown of DeLand, Senator Russell of Palatka, Mayor Alsop of Jacksonville, F. O. Miller of Jacksonville and our own Mayor Forest Lake of Sanford.

Altogether it was a most successful meeting and after it had adjourned the entire crowd gathered at dock to see Sanford and Orlando delegations do their stuff while the bands played and the people came aboard and had light refreshments and Walter Ruse made several campaign speeches and never has Green Cove seen such a jolly bunch. The boat pulled out about five in the afternoon and at the earnest solicitation of the party Capt. Coleman finally consented to stop at Palatka and unload some freight and let the delegations parade the streets which they did and woke up Palatka. The moving picture show turned out and the bunch went to the City Park and Forest Lake and Walter Rose told them about it from the band stand after which the bunch walked back down Lemon street singing songs and telling those on the street who they were and what they were. Arrived at the boat again the bunch sang about one thousand songs and as a result they all have a frog in their throats today but they gave Palatka a hurrah that they will not soon forget. Settled down on the boat again they played checkers, chess, marbles and rook until about ten or more and

### 30 BILLIONS IS GERMANY'S LIMIT

THIS AMOUNT WAS OFFERED IN  
LAST PROPOSAL BY  
BERLIN.

(By The Associated Press)  
NEW YORK, Sept. 14.—Germany can pay no more than 30,000,000,000 gold marks in reparations, which is the sum offered in the last proposal made by Berlin, Dr. Cuno, the former chancellor of Germany declared today or his arrival on the steamship Reliance for a visit of several weeks in this country. Dr. Cuno, who is now president of the Hamburg-American Line, said he was visiting the United States for the fourth time, as a private citizen and shipping man. His visit had no political significance, he said.

### MAYOR ORDERS NEGROES OUT OF JOHNSTOWN, PA.

(By The Associated Press)

### MILLER CONFESSES TO LANE MURDER

(By The Associated Press)  
TAMPA, Sept. 14.—Frank Miller, alias Frank Meyer, alias Joe Meyer, is held in jail here charged with the murder of John H. Lane, citrus grower at his home in Seffner last Wednesday. Sheriff Spencer said that Miller had admitted he killed Lane, after a drunken argument and had buried the body in Lane's fruit grove.

### Fourteen Indictments Against Ohio Men

(By The Associated Press)  
COLUMBUS, Ohio, Sept. 14.—Fourteen indictments charging William G. Benham, president and Dwight Harrison, secretary and treasurer of the E. L. Dollings Company of Ohio with obtaining money under false pretenses were returned by the Preble county grand jury at Eaton, Ohio, according to an announcement by Attorney General Crabbe. Harrison is under arrest but Benham has not been taken.

### Tulsa Tribune Will Apply For An Injunction

(By The Associated Press)  
TULSA, Okla., Sept. 14.—The Tulsa Tribune today announced it would apply for an injunction to the United States district court to prevent Governor Walton from interfering with the publication of the paper if the executive carries out his threat to establish a military censorship of its news columns. No censor appeared this morning but Adjutant General Marsham announced one would be placed there this afternoon.

### AVERAGE HUMAN LIFE EXTENDED OVER 12 YEARS

WINNIPEG, Sept. 14.—The average life of the human being has been prolonged from 12 to 15 years as a result of recent advances in medicine and surgery, Dr. Charles H. Mayo, of Rochester, Minn., declared Monday night before the Manitoba American College of Surgeons. Dr. Mayo expressed the opinion that the progress already made would be surpassed in the years to come.

Dr. Mayo emphasized the need of education in the battle against disease. "The life of an individual," he said, "could be prolonged by five years if the medical practitioner was consulted every two years after a person passed his 40th year."

### PROHIBITION AGENT COBB HAS RESIGNED

(By The Associated Press)  
TAMPA, Sept. 14.—The resignation of Prohibition Agent Cobb is announced by Director Allee, who also made it known that Agents G. D. Murill and Carl C. Walker have been discharged because of infractions of department rules.

### TWO MINISTERS RESIGN AT FIRST SIGN OF TROUBLE

### SEEKING RELIEF From The Immoral Practices Of The Present Government.

Madrid, Sept. 14.—The Spanish cabinet resigned this morning. King Alfonso has returned to capitol and was met at the station by members of the cabinet and proceeded directly to the palace where he went into conference with Premier Alhucemas. It is understood the Premier requested the King to grant the government facilities for the punishment of the military revolters at Barcelona and elsewhere. The King refused and the Premier thereupon submitted the resignation of the entire cabinet. King Alfonso at once asked Captain General Primo Rivera, the leader of the military movement against Alhucemas's cabinet, to form a new cabinet.

Madrid, Sept. 14.—(By The Associated Press).—Spain is in the travail of a revolution. A military coup d'état, originating in Barcelona, has spread rapidly through various districts and provinces of the country and has aroused the deepest concern to the government.

At the head of the movement is the captain-general of Barcelona, Primo Rivera, a man of strong influence and powerful associations. Behind him march the officers of the army, who have been chafing for many months under the ignominy of the Moroccan campaign and with the officers the rank and file, who seem ready to follow their leaders to the end.

King Alfonso is believed to be at San Sebastian. There are various reports as to his probable action in the crisis, and he may even now be on his way to Madrid to take up consideration of the threatening situation with Premier Alhucemas.

After protracted meetings of the cabinet, a message was sent to General Rivera requesting him to abandon the movement for patriotic reasons, but he absolutely refused to do so. The foreign minister, Santiago Alba, who is believed to be particularly obnoxious to the revolting elements has resigned from the ministry, as well as the minister of labor, Felix Armand.

The under-secretary of war, General Bermudez Castro, informed the correspondents this afternoon that the minister of war had a long conversation on the telephone with General Rivera who informed the minister that he had rebelled against some members of the present government. The captain general paid tribute to Premier Alhucemas and the minister of the interior, the Duke of Almodovar.

Contradictory reports are very prevalent here. Although the under-secretary of war told the newspapermen that King Alfonso had left San Sebastian by automobile for Madrid, there was an authoritative report much later that the king was still enjoining there and that he would not come to the capital until tomorrow.

### OUR HOUSE

It should be yours, if I could build The quiet old dwelling I desire, With books and pictures bravely filled, And chairs beside an open fire, White-paneled rooms with candles lit, I lie awake to think of it!

A dial for the sunny hours, A garden of old-fashioned flowers— Say marigolds and lavender, And nigamette and fever-few, And Judas-tree and maidenhair And candytuft and thyme and rue— All these for you to wander in.

A Chinese carp (called mandarin) Waving a sluggish silver fin Deep in the moat; so tame he comes To lip your fingers offering crumbs. Tall chimneys like long listening ears, White shutters, lily green and thick, And walls of ruddy Tudor brick Grown mellow with the passing years.

And windows with small leaded panes, Broad window-seats for when it rains, A big blue bowl of pot pourri And—yes, a Spanish chestnut tree To coin the autumn's minted gold. A summer house for drinking tea— All these (just think) for you and me.

A staircase in the old back wood Cut in the days of Robin Hood, And banisters worn smooth as glass, Down which your hand will lightly pass;

A piano with pale yellow keys For wistful twilight melodies, And dusty bottles in a bin— All these for you to revel in. But when? Ah, well, until that time We'll habit in this house of rhyme. —Christopher Morley in New York Evening Post.

## MRS. C. V. BALSOU TAKES ISSUE WITH PETER O. KNIGHT

(By The Associated Press) NEW YORK, Sept. 13.—In a letter from Mrs. Consuelo Vanderbilt Balsau, which the New York Herald publishes today the former daughter of Mrs. O. H. P. Belmont and late W. K. Vanderbilt takes issue with Peter O. Knight, of Tampa, for his statement, recently made on his return from a tour abroad. She said she could not doubt Knight's statement that he had not found done Frenchman willing to give America the slightest credit for winning the war but regretted that the Frenchmen he met misrepresented the feelings of their country men. She recalled a motor trip on Bastille day when she said every village and town she passed was decorated with the stars and stripes and tri-color.

## THREE MEN SENTENCED AT NEWMAN

### Another Man on Trial Today in Georgia Murder Case

(By The Associated Press) NEWMAN, Ga., Sept. 13.—Walter Feltman was this afternoon freed of the charge of murder in connection with the slaying of Millard Trouton, whose body was thrown into the creek August 12. The presiding judge ordered a verdict of acquittal. Feltman was the first of the four men tried to be freed.

ATLANTA, Ga., Sept. 13.—Three more men were sentenced to serve prison terms at Newman, Ga., late yesterday in connection with the death of Millard Trouton. Floyd Weldon was found guilty by a jury of murder with recommendation for mercy and was sentenced to life in prison. Jeff Minter and Leon Goodrum entered pleas of guilty to manslaughter and were sentenced to serve 3 years, according to Solicitor W. Y. Atkinson.

Walter Feltman, the solicitor declared, the only other man accused of murder in the Trouton case, waived corpus delicti proceedings, and will go on trial at Newman today.

J. W. Minter, father-in-law of Trouton was convicted last week of first degree murder and was sentenced to be hanged at Newman next month. His son, Grady Minter, was sentenced to life in prison following his conviction by a jury.

Weldon went on trial yesterday. He denied any complicity in the death of Trouton, Solicitor Atkinson declared over long distance telephone to The Associated Press, but admitted being with members of a party which confessed to having thrown Trouton alive into a shallow creek after weighing him down with rocks. He said he did not know the purpose of the party when he joined it.

Mr. Atkinson stated that Sheriff Carpenter as a witness related that other members of the party told him that Weldon aided in securing heavy rocks to weigh down Trouton. One of the stones produced by Weldon, according to Mr. Atkinson, was tied to Trouton's head.

Trouton was accused by Minter and members of his family of having mistreated his wife. She separated from him and when he made an effort to effect a reconciliation according to confessions obtained, he was kidnapped and taken to a small bridge spanning the creek and thrown into the water. His body was recovered several days later.

## PEOPLE WILL NOW HURRY TO FLORIDA

INWOOD, Mich., Sept. 13.—The first snow of the season in the Iron Range country was witnessed here at noon yesterday when snow flurries lasting twenty minutes, followed a gradual drop in temperature.

At other points south of here in Wisconsin the decline in temperature was followed by hail doing little or no damage.

DULUTH, Minn., Sept. 13.—A brief snow flurry visited Duluth at 11:45 a. m. yesterday.

HIBBING, Minn., Sept. 13.—Snow flurries yesterday gave the Mesaba range an early tinge of winter when snow fell for more than an hour.

## FISHING TOWN IS DESTROYED BY TIDAL WAVE

MEXCALI, Lower Cal., Sept. 13.—Wireless messages received here late yesterday report the destruction by a tidal wave of San Jose de Cabo, a small fishing town on the west coast of California, just above Cape San Lucas. The number of lives lost is not known.

Most of the 500 inhabitants of the town are believed to have escaped to higher ground when the tidal wave swept over the place yesterday, according to radio advices sent out by a steamer which cleared Cape Lucas shortly before the catastrophe. Steamers carrying merchandise to Guamas, which had cleared the cape in time to escape destruction or damage from the wave, have been ordered to return to San Jose de Cabo for relief work, the message stated. One of the vessels, it was said, carried 300 laborers for the cotton fields near here.

## MRS. COPPEDGE IS KILLED IN AUTO WRECK

### ORANGE COUNTY WOMAN INSTANTLY KILLED NEAR EAU GALIE

Mrs. T. M. Coppedge of Formosa was instantly killed near Eau Gallie yesterday forenoon when an automobile in which she was riding "side-swiped" another machine, according to word received here.

S. E. Barnwell, Jr., of Jacksonville, a tire salesman, was driving the machine which crashed into Mrs. Coppedge's motor, it was said. Several friends of Mrs. Coppedge, motoring to Miami with her, escaped injury.

Mrs. Coppedge has lived near Orlando for many years and is well known. Her husband conducts an automobile paint shop here. Funeral services will be held from the First Baptist church this afternoon at 4:30, the body coming in on the afternoon train—Sentinel.

## RELIEF QUOTA RAISED, MORE MONEY NEEDED

### CONTINUED SUPPORT OF THE PUBLIC IS NECESSARY

WASHINGTON, Sept. 12.—The five million dollars originally asked of the American people for Japanese earthquake sufferers was exceeded by more than a hundred thousand dollars today as contributions continued to pour in from every section of the country, but Red Cross officials sent forth the word that continued support of the public was necessary.

A total of \$5,108,300 had been pledged when the books were closed for the day. The executive committee of the Red Cross announced, however, that late advices on the extent of the catastrophe made it clear that the sum originally asked for would be inadequate, and the campaign for funds would be continued.

Three of the country's divisions to which the work of collecting money was allotted exceeded their quotas on the first \$5,000,000. They were the Washington, Central and New England divisions. The Washington region reported \$3,014,000 against a quota of \$2,900,000; the Central gathered \$801,000, with a quota of \$800,000 and New England showed returns of \$400,000 against \$350,000 asked.

Other contributions by divisions were: Southern \$200,000; Southwestern \$300,000; Pacific \$295,800; Insular and foreign \$201,500.

## Prisoners Criticize Escaped Convict

(By The Associated Press) LANSING, Mich., Sept. 13.—When one of their number escaped, the prisoners of the State Highway construction camp at Grand Blanc held an indignation meeting and severely criticized him, according to a report received here by Governor Groesbeck. Convict labor in state highway construction has been used this summer for the first time on an extensive scale in Michigan. Short terms convicts have been employed and they have been promised paroles at the end of the road building season, together with the money they have earned on the work.

## DISAPPEARANCE OF PITTSBURGH SALESMAN REMAINS UNSOLVED

DENVER, Sept. 13.—The disappearance of G. B. Metz, 24, a salesman of Pittsburgh, Pa., who dropped from sight here Monday after leaving a note in which he said he was "going on a dangerous mission" remains unsolved.

Detectives are working on two theories, snafu and suicide. The note discovered by a maid at Metz' hotel when she entered his room read:

"I am going on a dangerous mission tonight. If anything should happen that I do not return please forward the personal papers you will find in the small drawer to Mrs. H. B. Creelman, New York city.

(Signed) "G. B. METZ." "Personal effects to Mrs. G. A. Keller, New York city. Catalog to Pittsburgh Lamp, Brass and Glass Company. Car to Saunders."

The car referred to was an automobile Metz rented. It will be returned to its owner. Metz was last seen at his hotel by a maid Monday morning. He came to Denver about two weeks ago.

A shoplifter entered a St. Louis store and got a nice fur coat and four months.

## SANFORD AND ORLANDO ROADS BOOSTERS LEFT LAST NIGHT FOR GREEN COVE

(Continued from page 1) completion of the St. Johns scenic highway.

Mayor Lake and Colonel Lewis O'Bryan will be the speakers for Sanford at the meeting. Kendrick Guernsey, secretary of the Orlando chamber of commerce, will represent Orlando and Orange county.

The social features of the trip have been provided for, and will without doubt promote most cordial relations between those making the trip and affords an opportunity of closer acquaintance.

Preparations are being made to entertain nearly 3,000 people at Green Cove Springs when steps will be taken to bring to the attention of the state highway commission a stretch of twenty-six miles through Clay county which needs reconstruction. Efforts to finance this road work will be made at the meeting which will draw the attention of people for miles around the Green Cove Springs district.

Unable to bond itself further, Clay county cannot pay for the building of a thoroughfare through twenty-six miles of its territory. This road is all that is needed to complete a splendid highway from Jacksonville to the south. Several years ago Clay county bonded for building this road which has worn out after being in service use for a long period. It will be necessary to secure state aid in reconstructing the highway and it is for that purpose that the rally will be held today.

DELAND, Sept. 13.—A special train carrying 100 good roads boosters, accompanied by the DeLand band of twelve pieces, left here at 9 o'clock this morning for the good roads rally at Green Cove Springs.

By order of the mayor, all places of business, including the two banks will be closed all day.

MANY FILIPINOS ARE NOW OUT OF WORK

MANILLA, Sept. 14.—The Insular labor bureau has issued a statement saying more than 1,000,000 laborers are available in the islands, not counting females, of whom there are about 292,000 available for work. Many laborers have emigrated to

Hawaii in the hope of finding better employment conditions in the sugar industry.

Mrs. Hilmer Lundquist and daughter, Melva, returned home Sunday from a pleasant visit to Winter Garden.

LAKE MONROE

The Athletic club held its regular meeting at the school auditorium Monday evening. Some necessary business was transacted, such as settling accounts and making arrangements for a basket ball ground, instead of a tennis court, the former seeming more practical at this time.

Mrs. E. Lee Smith and her Sunday school class of thirty or more pupils, of Orlando, came over Sunday and gave a delightful musical program at the Baptist church at the end of the regular services. Afterward a picnic dinner was spread at the church yard.

Mrs. Sarah Lyons and Mr. J. W. Miller surprised their friends by going to St. Augustine where they were quietly married. Both are well and favorably known people of this community where they have resided for some time. Mrs. Miller is a native of Indiana and Mr. Miller coming from Pennsylvania.

The Monroe graded school is progressing nicely under the management of Prof. Jacobs and his teachers. The enrollment is about 125 and more pupils are yet to enter. The work has been found too heavy for the three teachers so arrangements are being made to employ a fourth teacher. Mr. John Jenkins, of Sanford, recently paid the school a most welcome visit and made a good talk to the children. Other appreciated visitors have been Superintendent T. W. Lawton and Rev. E. Lee Smith.

Little Frank Price had the misfortune to cut his face very painfully, while playing croquet with his little friend, Eddie Allen, by being struck with a mallet.

Mr. and Mrs. J. W. Bell, Fred and George Bell have returned home after spending the summer at Hot Springs.

Rev. James Johnson and family are home after a summer spent in the Carolinas, Tennessee and Georgia.

Miss Lida Miles has returned after a pleasant visit to relatives in Orlando.

Mr. and Mrs. J. T. Jacobs spent the week-end at their home in Chuluota.

Mr. and Mrs. R. A. Stephens and family of Davenport have moved to Monroe.

Mr. Brown Stafford has gone to Detroit, where he has accepted a position.

Mr. Bruce, father of Mrs. E. Stafford, is critically ill at the latter's home.

Mrs. McGuire of Lake Butler is a guest of her daughter, Mrs. Albert McGuire.

Frank Hatch has disposed of his farm on First Street to Mr. Forester and moved with his family to the boulevard, where they are building a neat home.

Mr. and Mrs. Deuford Knapp visited the latter's parents, Mr. and Mrs. Charles Bales.

Carl Naughtner has purchased a tract of land near the school and is clearing the same.

Tetus Keller of Tennessee is visiting relatives in Monroe. Mrs. Keller is expected to be in Monroe this winter.

F. H. Black and E. A. Osteen, our popular grocerymen, have installed a large new soft drink fountain. It is of white enamel and is entirely sanitary and very convenient.

A LARGE FAMILY HONORS RAGPICKER

BAY CITY, Mich., Sept. 14.—The father of 33 children, the oldest of whom is 67 years old and the youngest a babe of 14 months, is the claim of distinction of Charles L. Lucius, a ragpicker who is a descendant of two Dutch generals, and successively a rancher, a guerilla fighter, Indian fighter, and a member of both the Union and Confederate armies during the civil war.

Of the 33 children who have called Lucius, the list includes four sets of twins, one set by his present, or fourth wife, and the others by a second wife.

Lucius bears his 91 years lightly. He can do the accepted "daily dozen" exercises while the average person is making up his mind to start. With ease he can rap his knuckles on the floor without bending his knees.

BRITISH LIQUOR MERGER.

LONDON, Sept. 14.—Another big whiskey share deal is in the course Dewar Limited will add \$3,000,000 to arrangement whereby Buchanan their already large capital of \$37,500,000. This will be the absorption of Mackie and Company, distillers and proprietors of certain well-known brands of whiskey.

Buchanan and Dewar now own most of the big distilleries in the north of England and Scotland.

UPSALLA AND GRAPEVILLE

Wm. Henderson and children, Nelson, Archie and Lucy May went to Kissimmee in their car, Saturday and the next day Mrs. Henderson and the three smallest children who had been there visiting for a week at the home of her parents, Mr. and Mrs. Tyner and also to see her sister, Mrs. Prevatt.

Rev. Clark and wife called last week at the home of Mr. and Mrs. Trumond Bolie and Mr. and Mrs. Entzmlinger, and also took dinner with Mr. and Mrs. Alfred Ericson.

Drs. Clark will not be with us until the fifth Sunday, September 30, as he was asked to give an address next Sunday evening just before school commences at Sorrento.

Forrest West returned home Friday, much to the delight of his family and friends here, having been away for a number of months engaged in agricultural work in their school at Etawah, Tenn.

John, Elmar, Jr., and Eric Lundquist and Bernard Hersch are taking a few days off before school on a camping out and fishing trip to Lake Brantley, out Palm Springs way. The boys sure deserve a little let-up, as they have all worked hard during this vacation.

A pleasant time was had at the home of Mr. and Mrs. Hilmer Lundquist on Saturday evening. Some 35 friends surprised Hilmer on his birthday and helped to cheer him up during the absence of his wife and daughter, who returned the next day. Mr. and Mrs. Hamill Tolar and family were out from town. All report a good time.

**ROAD DEPARTMENT TO SEND ENGINEER TO MAKE INVESTIGATION**

Construction work on the new road to be built between this city and the St. Johns river at the Osteen bridge with funds derived from the sale of the \$600,000 bonds voted several months ago, has been started and will be carried on actively until the road is completed.

The first construction camp for the tractor has been established at Sanford. Operations are to be carried on both ways from this point. The contractor is given 250 working days from the time his bond was made to complete the building of the road.

It is probable the road to DeLand and Sanford will be blocked for a time as a result of these operations and trips to these cities will have to be made by way of Daytona.

It is said the board of county commissioners had word at their meeting held in DeLand last week from Chairman H. B. Phillips of the road department that the survey as made by the state road engineer below Oak Hill would be accepted and adopted by the state road department.

However, it is reported that since that time the department chairman has consented to permit the engineer to come back to Oak Hill to make another investigation and permit another survey. It is believed that if the state department insists using the survey and route for Dixie highway laid out by the department engineer, landowners in the Oak Hill section will tie the back up with an injunction so far as the bond funds are concerned, they claim the bonds were voted to be used on the present route of Dixie highway.

The outcome of the controversy at the state road department will be watched with interest by the taxpayers.—New Smyrna News.

**OUR-DOOR SEDAN. THE NEW FORD**

Larger cowl, hood and higher radiator bring a vastly improved appearance to the new Ford four-door sedan and this enclosed type, which has enjoyed unusual popularity since it was added to the Ford line, now presents a greater attractiveness than ever before.

The change in the front of the car, which has produced a more sturdy effect, gives a highly pleasing and graceful sweep to the body lines. Enlarging the cowl also has effected the interior in affording more foot room for occupants of the front seats and assuring added riding comfort. The interior fittings are in choice materials and seats are huge and deeply cushioned.

Any desired ventilation may be secured through the revolving type window regulators which are on all side windows. A dome light is provided for interior illumination.

Central avenue has been graded, paving laid, and is now ready for a rock paving, which will soon be laid. The paving contractors are making work, and Sanford will soon see streets that will be a credit to this growing town.

**Good Morning**

A good morning, one that is good in every sense of the word, follows a summer night spent in cool, refreshing sleep.

Before long you will need a pleasant sleeping porch which will let you get out of the stuffy interior rooms. Such a porch pays dividends in better health and the "pep" that comes from sound sleep.

Add a room to your home by building a screened, mosquito-proof sleeping porch this spring. We can help with the plans and furnish the lumber, screens and other things you will need.

**PRISONER ADMITS HAVING MARRIED SEVEN WOMEN**

Los Angeles, Sept. 14.—The authorities hoped today to receive replies to telegrams they sent yesterday inquiring into the alleged matrimonial adventures of Harry R. Hanson, who was arrested here last Friday under the name of A. E. Woods, and suspected for a time of being Dr. P. V. Allen, wanted in Seattle, Wash., in connection with the death there in 1916 of Anna Danielson.

Investigation had failed to connect him with the Seattle case and the authorities were about to release him when they decided to give him "one more thorough grilling." Considerably to their astonishment they said, he then confessed that he had been married seven times, declared all seven women were still living, but admitted therefore that six of the alleged ceremonies were illegal.

His first marriage, as officers quoted him, was to Emma L. Johns, in Warren, Ohio, 27 years ago and his last six all contracted in the last four years were to Delia Whalen, Lewisburg, Ohio; Jennie Nlurec, Tacoma, Wash.; Nine R. King, Fort Wayne, in which ceremony he used the name of A. E. Reed, and Bell Parker, Spokane, Washington, whom he married under the name of W. A. Allen; Mae S. Roush, Des Moines, Iowa, where he again used the name of A. E. Reed and Bill Parker, Evansville, Wis. All were believed to have had considerable money.

He was said to have a list of more than 60 women, matrimonial prospects whose wealth or prospects of it he had reduced to tabulated form. These women represented many parts of the United States and Canada, and Mexico as well, it was stated.

**Judge Maines Returns**  
Judge Schelle Maines, returned last night from Dayton, Ohio, where he, Mrs. Maines, and baby Mary-Ethel, with Mrs. A. M. Phillips have been visiting Mrs. Maines' parents, Mr. and Mrs. John Herby for the past month. Mrs. Maines, Mary-Ethel and Mrs. Phillips, prolonged their stay and will return about October 10th. The Judge reports a gain in weight of five pounds and he is to be congratulated on this, as he was looking rather thin before he went away.

**VILLA'S LARGE DOMAINS WITHOUT A LEADER**

MEXICO CITY, Sept. 14.—When Francisco Villa fell at Parral under a hail of bullets a small kingdom in the state of Durango lost its ruler, and nearly 6,000 potential soldiers their chief.

The fact that the former bandit leader exercised virtually feudal rights over an extent of mountains and plains as large as the state of Tlaxcala, with a population of nearly 100,000, came to light when a commission representing the "colonias" he had settled around about Canutillo journeyed to the capital to ask President Obregon what the policy of the government would be in regard to the Villa holdings. They were told it would not be altered, and those of the former outlaw's followers who had devoted themselves to agriculture would not be molested.

When Villa first submitted himself to provisional President Adolfo de la Huerta in 1920 and received, for himself and his 50 followers, the hacienda of Canutillo, the government thought the Villa problem had been solved. But when the pacified rebel's friends learned of the good luck of those who had surrendered with him, hundreds of them addressed petitions to their former leader asking for lands in the district in which he dominated. Villa complied as did the government and more ranches were bought and turned over to them for the formation of military-agricultural colonies.

Prior to his death Villa was the dominating force in a district included in a line running from Rosarito, along the border between Durango and Coahuila through Descurridora, El Rodeo and back to Rosarito by way of Ornelas. Various villages and towns are included in this district but most of the inhabitants, despite the existence of these municipal governments, looked to Villa for justice.

Only staple merchandise is handled and the prices are plainly shown—you select just what you want; carry it home and save the difference.

**THE PERILS OF INDIGESTION**

The Disease That Strikes Without Warning. Quickest Way to Get Well is Through New Treatment Containing Seventeen Ingredients That Renew Every Part of the Body.

Indigestion in any form often proves fatal, but even in a mild degree is dangerous, because it brings on one ailment after another, running throughout the entire system, taking in the liver, stomach and blood, producing malnutrition and finally reaching the heart. For this reason any remedy that merely relieves the pain is not sufficient, but a complete systematic treatment is necessary to get permanently well.

This complete treatment is found only in a prescription called Re-Cu-Ma, which contains seventeen well known and thoroughly tested ingredients, so skillfully compounded that each one performs its function on the various parts of the body perfectly and harmoniously.

This remarkable prescription starts right to work on the digestive tract, relieves constipation, purifies the blood (the cause of rheumatism), cleanses the kidneys and puts your entire system to rights, thoroughly acting upon the colon, which, according to Prof. Metchnikoff of the Pasteur Institute, Paris, is the cause of all our bodily aches and pains. Re-Cu-Ma will dispel biliousness, sick headaches, nervousness and completely rid your system of all toxic poisons, which have been the direct cause of your sickly condition.

Re-Cu-Ma is sold and recommended by the Union Pharmacy and other good drug stores, and if you don't feel a decided change in your condition after taking according to directions, you get your money back.—Adv.

There is not much difference between a Spanish bull fight and the stunt to be pulled off tonight in New Jersey. Possibly the main difference is, the bull fight is more humane, more moral, less objectionable in every respect. We Americans should cease our criticisms of Mexican bull fights until we tame the beasts of the prize ring in our own country.

### OUR FLAG

Let the sun of the morning kiss it, let the evening sunset glow With a warmth of love and gild it ere it sets in depths below; Let the wind caress and fold it, let the stars in glory shine On the emblem of Our Country, loved as your flag, loved as mine.

Let the voices of the children sing the music of its soul, Chant its chorus, O, yet people, till the mountain echoes roll; Sing and shout its hymn of freedom, fling its spirit to the breeze, Till the notes are caught and answered in the hearts across the seas.

Let no thought or deed unworthy smirch its stripes of purest white, Let no strain of craven silence rob its red of luster bright, Let no shame bedim the star shine on its field of heavenly blue, For it's Our Flag, friends—it's Our Flag; I'm proud of it—are you?

as bad as they were before a large sum of money was expended on them. Some one should look after this feature of our highways.

Why do not county Commissioners employ men whose duty it shall be to keep in good repair a certain number of miles of a given road. One man can easily care for ten miles of road, filling up holes, looking after drainage, preventing digging out of ruts by heavy machines. Many times two shovels full of rock will do more good than a truck load a month for a certain number of miles of road and they keep that section in repair. Why not the commissioners do likewise?

The approaches to Sanford should be beautified. First impressions are usually lasting. Hundreds and hundreds of auto parties will soon pass this way going over the state. When they come near our city what sort of an impression will the tall weeds, brush, mudholes, and ragged roads make on them? It would seem like property owners would take extra care of their land jutting on the highways but many of them seem to have no desire to make their farms or lots attractive. Cannot some thing be done to fix up a little? Elect a woman on the board of County Commissioners and possibly something will be done.

### THE EUROPEAN SITUATION

WELLESLEY HILLS, Sept. 14.—“What would a new European war do to business?” The question was put to Roger W. Babson as he was reading a mass of telegrams and cables coming in from all parts of the world, asking what effect another European war would have on business. “It seems inconceivable that Eu-

rope will permit herself to get entangled in another war at this time,” he replied. “Yet conditions are far more favorable for a conflict today than they were in 1914. Moreover, the wisest students of international affairs have been predicting for some time that another war is sure to come and that it will again begin in the Balkans. Doubtless the Greeks kill-

ed the Italian Commission in cold blood. Probably it was no accident. Greece feels very bitter toward the rest of Europe. The Greeks believed that they were a great factor in helping the Allies whip Germany and that the Allies later ‘double-crossed’ Greece in favor of Turkey because Turkey has oil and Greece has no oil! The Greeks felt that there is nothing more they could lose and that perhaps they might gain back something out of another struggle,—at least they would have their revenge. This was the situation. Italy's self respect compelled her to take some action, but I hope this affair will quickly be settled and forgotten.

“How much further trouble will develop, only time can tell. The trouble between Italy and Greece is not the only European tangle which must be straightened out. If another real war should soon develop, it now looks as if Germany would line up with Greece and Russia, and that France would back up Italy with the help of Turkey. Were it not for Egypt and India, England would keep out of it this time; but with her great interests in the East, no one can predict what England will do. It looks now as if Germany might be the real winner in such a conflict,—at least, it would take France's mind off ‘Reparations’ for a while, and perhaps make the League of Nations a greater force for good. Now that the Allies have given in to Turkey and returned to her so much that they had taken away, it is a great temptation for some of the other nations—like Russia, Germany, and Bulgaria—to try the same game.

“As to the effect on business in the United States: Of course the temporary result of another European War would be upsetting to business in many lines. Any shock is unsettling and disturbing. This explains the action of the commodity market and the stock market during the past weeks. For six months following the declaration of war July 30, 1914, commodity prices and stock prices declined, and business in general was very bad. Before the close of the year 1914, however, orders began to come from Europe in large quantities, our mills were workers soon again had money to spend. By the close of 1915, stocks were high, wholesale prices were climbing, and the United States was becoming very prosperous.

“But Europe then had money with which to buy, and a fine credit,” continued Mr. Babson. “Today conditions are entirely different. Europe now has very little gold she can

send us. We do not want her securities except at a great discount. Can she send us goods with which to pay for our own goods? She can do this during times of peace, but can she do it during a time of war? This is the great question, and only the future can answer it. If Europe cannot send us goods to pay for war supplies, then she cannot send in goods to compete with our own factories. This would at least relieve some of the foreign competitive pressure which threatens us today. This especially applies to the wheat growers of the United States. Another war could send the price of wheat up to two or three dollars a bushel.

“What Europe really needs,” concluded Mr. Babson, “is some ‘honest to goodness’ religion! We shall see

no real and lasting prosperity until Europe gets headed in the right direction. Some real religion will lead to a real League of Nations; and when such real religion is evident, Europe will find all parties in this country ready to help form such a League. Europe today is a hot-bed of jealousy, selfishness, and political intrigue. Only as the hearts of both the people and the leaders of Europe are softened, will the tangle be straightened out. It may take another war with all its gruesomeness and suffering to bring Europe to her knees. We all hope it will not; but in addition to hoping, let us pray,—not only for Europe but for ourselves,—that we may be honest and unselfish, remembering that we have responsibilities as well as opportunities and that no country can per-

manently prosper thru the misfortunes of another.”

"The Battle of Bull's Run."

Yep, we mean the ball of those Argentinian pumps...

But it may not be a run—the bull may have to be taken on "the run" to the hospital in an ambulance.

And again he might leave in his jazz buggy—happy, contented and with the world's championship tucked safely in his hold.

Probable—but HIGHLY improbable.

Firpo is systematic—his first kayo came from an amateur—in his very first attempt at pugilistic life—the systematic part of it is that he is giving the world's champion a chance to give his last kayo.

A bird, came in this morning and wanted us to put some money on Firpo but we nixed the excuse that we had spent our last nickel for chewing gum to chew while waiting for the fight returns. You know the real reason.

But the worst part of the whole scrap is that we won't get the returns "punch by punch." Peter Schmal who was to have had charge of the leased wire tonight received a telegram yesterday that the Associated Press would be unable to furnish leased wire service to Sanford. So unless radio fans get it tonight Sanford will not be aware of the winner until tomorrow morning.

And still the grinding practice of football goes on! Coach Wilkinson had about twenty-five huskies out yesterday and put 'em thru a lively scrimmage.

Who says S. H. S. won't cop the state championship? Bring him forth, we'll use Coach's speedboard on him.

New Smyrna High School is going to bloom forth with a football team this year. If these fellows can do as well in football as they did in baseball the past season they will be going some.

Gainesville High's chances were slightly weakened yesterday when it was announced that Jack McDowell, a strong cog in Enrior's Purple Hurricane last year will not attend Gainesville High this year.

So long—hope you sleep as sound as the "Angel" will tonight—late tonight we mean.

RICKARD EXPECTS HOT BATTLE

New York, Sept. 13.—(By the Associated Press.)—Tex Rickard tonight predicted an evenly waged battle tomorrow when Firpo and Dempsey clash.

"I look for a slashing fight with the odds of victory about even," declared the promoter. "I think the experts who pick Dempsey to win easily and quickly are all wrong. Firpo is a big, husky fellow, one of the strongest ring men and hardest hitters I have ever seen. He has proved he can take lots of punishment and come back with a knockout wallop. Dempsey may have advantages in speed, experience and generalship, but he is not the superman that a lot of critics would make him seem. He will have the hardest fight he has ever had to keep the championship.

NEW SMYRNA HIGH PLANNING TO HAVE GOOD SQUAD THIS YEAR

Plans are being made by the boys who will be pupils in the high school this year to organize a football team, and as a preliminary a number of the boys were out on the campus Wednesday afternoon for a workout and to see how they like the game. The local high school has never been represented by a real football team, and it is planned this year to have a team which will give a good account of itself throughout the season. High School Principal Harbin will coach the boys and help to make the selection of material and organize the team. It is planned to have about three squads and pick the best team from these three squads. The townspeople should give every encouragement to the boys in this endeavor.—New Smyrna News.

BROTHER BENJAMIN AT THE SANFORD CONVENTION

Editor J. H. Benjamin, of the Ocala Star, attended the meeting of the Florida Associated Dailies held at Sanford last week and his three column editorial describing what he saw and heard there and the newspaper men he met on that occasion is filled with wisdom and sparkling wit.

And that, in a measure, he says, is the difference in Sanford since he saw it first some years ago and as he saw it the other day. He tells of Bob Holly's activity in seeing to it that those jolly newspaper men were well entertained and talks wittily about all those pencil pushers.

He says the meeting was called to order the palm room of the Valdez Hotel, by Mr. Ed Taylor of the Miami Herald. Of Mr. Taylor (the retiring president) Mr. Benjamin says "he looks just like the managing editor of a big newspaper always appears in fiction, and as he sometimes appears in fact. He has a stern countenance with about half a cigar sticking out of one corner of it. He looks so fierce that we'll bet all the other newspaper men in Miami borrow money from him, and if we ever go broke in the Magic City, we'll surely attack him for five dollars. When we called the meeting to order, he looked just like he was going to send the crowd out on assignments, and if he had said to us, "Benjamin, go down on the lake front and see how much bootleg has come in by boat today," we'd have said "Yes, sir," and scooted out."

He speaks touchingly of Clayton Codrington of the DeLand News and of Arthur Codrington. The late lamented Chris O. Codrington who established the News had been a fast friend to Mr. Benjamin, as he was to the editor of the Gainesville Sun. He calls Harry Brown of the Lakeland Star-Telegram the Beau Brummel of the Florida press and he corrects the impression he had about Lynn Bloom. He found that Lynn was not over six feet four inches tall with ears like a windmill and that he didn't carry ten penny nails in his pocket to bite on. We take the following clipping from the Star's editorial:

"If we ever find the man who told us Herb Felkel was dried up and homely we will write that man an ante mortem obituary, which will give him a pain to read. Herb is almost as good looking as he is clever, which is saying much."

"We had cordial greetings from M. T. Gaines of the Daytona News, who has been a friend in spirit many years; M. J. Seed, of the Daytona Journal, who has grown much since he was planted; W. A. Elliott of the Times-Union; our friend next door, W. P. Arnold of the Gainesville Sun; Frank Kay Anderson of Winter Park; Jack Worthington of the Lake Wales Highlander; George Kellar of the Mergenthaler Linotype Company, and to put the matter in a nutshell we were kindly treated and made to feel much at home. The boys said something about our being the dean of the daily newspaper men, and of a fact we were the oldest by several years of any man at the meeting, but Col. R. W. Davis, of the Gainesville Sun, Milton A. Smith of the Tallahassee Democrat and perhaps some others have a few years on us."

"Mr. U. L. McCall of this division of the Associated Press was present and was very welcome, as nearly all the Florida dailies take the A. P. service, which is the most reliable in the world."

"The other gentlemen present, with all of whom we had the privilege of a kindly greeting, were Ralph Cooper, Antietan Paper Company, Jacksonville; Stanley Lichty of the Melbourne Times; Geo. Hosmer of the Fort Myers Press; R. B. Brossier of the Orlando Reporter-Star, and perhaps there were others we did not meet."

"The business meeting dealt with various questions of no interest to those outside the profession. The very competent newspaper manager, W. M. Pepper, of the Gainesville Sun, was elected president; Bob Holly was appropriately selected for vice and the association wisely concluded it would not pick any better man than Clayton Codrington for secretary. Mr. Pepper wasn't pres-

Mrs. R. E. Tolar wishes to announce to the club members that she has a quantity of Government flower seed which will be glad to distribute to those members who may desire them. They may be obtained from her at her residence, and will also be given away on application, at the first club meeting.

The following poem by Edmund Vance Cooke holds a message of encouragement:

Did you tackle the trouble that came your way With a resolute heart and cheerful? Or hide your face from the light of day?

With a craven soul and fearful? O, a trouble's tone, or a trouble's announce,

Or a trouble is what you make it, And it isn't the fact that you're hurt that counts, But only how did you take it?

You are beaten to earth? Well, well, what's that? Come up with a smiling face. It's nothing against you to fall down flat.

But to lie there—that's the disgrace. The harder you're thrown, the higher you bounce, Be proud of your blackened eye!

It isn't the fact that you're licked that counts, It's how did you fight and why?

And though you be done to the death, what then? If you battled the best you could, If you played your part in the world of men,

Why the Master will call it good. Death comes with a crawl, or comes with a poof, And whether he's slow or spry, It isn't the fact that you're dead that counts,

It's how did you die and why?

It's how did you die and why?

It's how did you die and why?

It's how did you die and why?

FACTS IN THE HISTORY OF ROAD BUILDING

Good roads were first built by the more active and prosperous towns or townships. The larger centers of population attracted the road traffic of adjacent communities. Such traffic did not help build or maintain the roads it partly destroyed. This destruction resulted in a demand for county appropriations for road building. The moneys were first distributed among the towns or townships on some agreed plan, and were spent by them, or under the joint authority of county officials. Under these conditions most of such moneys went into politics, and not into roads, and there was no uniformity in construction or care.

As a result there was a reaction in favor of county roads built and maintained by the county officials. Then, and only then, did the bulk of such appropriations get into roads, and there was a beginning of efficiency and uniformity.

But history repeated itself. The more active and prosperous counties built and maintained good roads. These were again destroyed by the traffic from adjacent counties. This traffic did not help build or care for the roads it destroyed. There followed a state-wide demand for state appropriations toward road building. Again history repeated itself in the form of state aid to the counties and towns, to be spent by them or under joint authority of the state officials. And again most of such moneys went into politics, and not into roads, and lack of efficiency and uniformity persisted.

As a result of this waste, history once more repeated itself, and there was a demand for state highways built and maintained by the state under its highway commission. Efficiency and uniformity were the result, and the moneys went into roads. Those states which now have the best road systems have a three-fold system, each under the exclusive jurisdiction of its properly constituted authorities. This has produced

the largest mileage of good roads for the least expenditure. It has brought efficiency and uniformity out of chaos, and the money has gone into roads.

Why not a four-fold system, with the Nation doing for states what the states have done for counties, and the counties for townships?

By this four-fold system of roads there will be an impetus, as yet unthought of, given to road building throughout the Nation. Authority and responsibility will be logically and economically divided and fixed without conflict arising. Uniformity and efficiency will be established. Standards of construction and maintenance will be raised. The entire Nation will be given "Good Roads Everywhere" by a well-balanced, connected system of National, State, County, and Town Highways reaching out to the most remote parts. They will be built in the shortest economy. The money will get into roads, where it belongs, and the cost will be equitably distributed upon

THE REAL BENEFIT OF GOOD ROADS

A small dog, barking loudly, chased madly after a passing express train up a country railroad platform.

"What makes him run after it?" asked a traveler of the station agent, owner of the dog.

"I dunno," answered the agent, thoughtfully. "But that never bothered me so much as what will he do with it if he ever catches it!"

There are many communities which think loudly about the need of good roads, the value of good roads, the use of good roads. They talk themselves into a bond issue, or a road tax, and build one, two, ten miles of good roads. Too often these miles neither begin anywhere, nor end anywhere; do not connect with any good road at either end. Travelers wonder what they will do with their good roads now they have caught them?

There is no magic in a few miles of paved highways. The farmer who must haul produce through mud to get to a paved highway, and over ruts and stones after leaving it to get to market, experiences no real economy. The economy and benefit of improved highways comes when they are improved for all their length. A chain is no stronger than its weakest link. A regiment is no faster than its slowest soldier. A road, for economy of horse flesh or motor capacity is no more economical than its worst mile.

WILL PASS AUTOMATICALLY TO RETIRED LIST NEXT YEAR

Washington, Sept. 14.—John J. Pershing celebrated yesterday his sixty-third birthday. He began his last year of active service in the army to which his life has been devoted at his desk in the war department performing the triple duties of acting secretary of war, general of the armies, and chief of staff.

September 13, 1924, which also is the anniversary of the opening of the battle of St. Mihiel, the man who commanded the American army then in its first great drive against the German lines in France will pass automatically to the retired list.

**THE EVERLASTING PARALYZING TRUTH**

The Tavares Herald has again changed hands, A. P. Vaughn disposing of the paper to Ralph Gore of Sanford, who took possession Monday, Sept. 10th. For many years Mr. Gore has been linotype operator on the Sanford Herald and his departure from that office was sad as a funeral for he had been an efficient and energetic workman. The Tavares Citizen under his management should show marked improvement.—Clermont Press.

Ralph Gore, has been an appreciated employe of the Herald for the past three years, and has never missed showing up on time. He is one of the fastest operators in the state

**Rob's Calomel of Nausea and Danger**

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotabs"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines, has entered upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a small amount of water, that's all. No taste, no griping, no nausea, no salts, a good night's sleep and the next morning you are feeling fine, with a clear liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original sealed packages, price thirty-five cents for the large family package; ten cents for the small trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly "delighted" with "Calotabs" (Adv.)

**Why Are Some Store-keepers So Obstinate?**

I am an old-fashioned buyer of the necessities for my household. I go to the store myself. To me this work is not irksome. In fact, I like it. I like to look at the shelves so full of cans and packages of so many colors. I like to do this for the same reason that I don't mind being in a crowd.

When in a crowd I look for familiar faces. When I see them I am delighted. When I am in a store I look for familiar goods and when I see them I buy. Those goods have become familiar to me through advertising and I have noticed that the grocery men who have the most of those familiar packages somehow or other seem to always go ahead.

I went into a store not of my own choosing but with a friend who, among other things, asked for a very well known article of food which is packed in a can, although she did not ask for any specific kind. I always buy — and instinctively I told her that was the kind she should ask for.

The dealer overheard me and said, "Madam, I never sell that article, I sell instead something very much better — my own brand."

Then he launched into a five-minute talk on why this article was better than the one I had named. But somehow my friend had been convinced by what I had suggested and she did not buy that can which the grocer offered.

And I thought as I walked out how stubborn and obstinate that man was. He had lost a sale, had probably taken his first step toward losing a customer, and had certainly lost a good deal of time, especially since some other people were standing around waiting to be waited on.

If that grocer had sold advertised goods he would certainly have had the brand I suggested and he would have made a sale; incidentally, he would have bid us good day cheerily and we would have been satisfied.

Familiar faces are wonderful. To me, in my capacity as a buyer for a fairly large household, familiar things on the shelves of the stores I visit are only a little less wonderful, for those familiar things help me in doing better and more economically the job which I must work at every day.

Those advertised articles which I buy and which I always buy I know have been submitted to the criticism of both competitor and consumer. This submission to almost world-wide critical examination demonstrates to me that the manufacturer has supreme confidence in his goods. He cannot tell a falsehood about the things he makes, because there are too many in the world to find him out.

Constant advertising of any product proves that product has stood the test of scrutiny. Is it any wonder then why I, as one of several million women in my same position, prefer articles with which I am acquainted to products about which I have no knowledge and about which the manufacturer does not seem to have the courage to enlighten me?
