Oviedo Is Prepared For Busy Shipping Season This Winter

\$125,000 Combined Ice And Citrus Packing Plant Opens; Big Farm Acreage Noted

Construction Effects Progress

Black Crops Expected To Bring Immense Wealth To Section

With the doors of Oviedo's \$125,000 combined ice and citrus packing plant open for the first time, with citrus shipments being good prices and with truck plantings over last year's excellent business in Oviedo was predicted yesterday by B. G. Smith, president of the Bank of Oviedo, and other prominent business men and growers in interview with The Herald.

Survey of the town's business outlook for the winter shows increase in the cash reserve of bank over this period last year. Winter business conditions in Oviedo are in the opinion of such men as W. J. Lawton, one of the leading merchants; G. W. Wheeler, a grower; B. F. Wheeler, president of the Nelson & Co., Inc., a house; and H. T. Warren, a grower.

Outline of the town's business during the past year was presented in an interview with Mr. Smith. The biggest increase, in money expended on the new packing and ice plant at the Lake Charm Fruit new organization. Then \$30,000 First Baptist church, a \$30,000 addition, to including a gymnasium, and six miles of new pay within the town limits in 1926 in new residences.

Winter's shipping business is well under way. Cars and trucks are leaving weekly and oftener daily oranges and tangerines in their way north or are all in the markets. The early fruit are making both oranges and tangerines growers optimistic of the outcome of the year's business.

The track crop will be large—larger than last year's—over principally devoted to late celery which is a profitable crop to many growers and is expected to repeat again after the close of the season.

Mr. Smith and Mr. Wheeler declared that the citrus season was short. Mr. Smith stated that perhaps 100,000 tons would be shipped before the season closed. He was confident, however, that any increase in the actual number of tons from last year's totals will more than overcome by the higher prices to be obtained this year.

The new Lake Charm Fruit plant illustrates the confidence of its backers in Oviedo as a citrus center. The \$125,000 investment represents not only a plant modern in every respect and operated entirely by electricity but in addition an ice plant with a capacity of 40 tons a day for use, not only in the plant but for the consumption of retail buyers in Oviedo and the surrounding territory.

The packing plant has a city of eight cars of fruit a day which is more than ample territory's needs for several years at least. Although new groves are being planted at least considered both residents and outsiders. The new grove of the new company are: Ward, president; Joe Wolf, president; E. B. Mandson, secretary; and H. E. Cole, treasurer.

Among the new grove and truck plantings is an extensive program pushed at Garden City by the Field Land Company of Chicago. The tract is 1,500 acres in Oviedo and on Sanford-Oviedo Road and containing 1,500 acres in all. Eighty acres have already been set out with citrus and a contract for the clearing of an additional 100 acres of citrus land was let last week. Five houses have been built and 10 miles of road completed. Mr. Smith said in his opinion the tract contains some of the best citrus land in the state and that within a short time it will be one of the show places of Seminole County. The tract is under the direction of J. H. Hall, of Orlando, sales agent for the land company. The year's truck crop will cover (Continued on page Four)

LOVER CLAIMS DEATH BULLET FIRED BY GIRL

Entry In Diary Shows Existence Of Clandestine Love Affair Between Divorcee And Young Married Lover

Faison Is Accused Of Shooting Girl

Father Of Five Small Children Claims She Shot Herself As He Was In Her Rooms

RICHMOND, Va., Nov. 17 (INS)—"We loved together until 2 A. M. on the grounds of the club," reads an entry in a small diary, which recorded the transports of passion which held sway over the lives of pretty Elsie Snipes, divorcee and music teacher, and John Esley Faison, young married man and father for two years, and which had come to its ending in a bitter tragedy today.

Faison, secretary-manager of a country club, was held in county jail, formally charged with shooting the girl, despite his denial and his plea that she ended her own life with his pistol while he was in her apartment before daylight yesterday. And Mrs. C. A. Holt, aged mother of Miss Snipes, this afternoon took the body of her daughter back for burial tomorrow in the little family plot at Princeton, N. C.

Meanwhile police investigating the tragedy, were piecing together an aged story of a clandestine love affair between the two. Other documents found in Miss Snipes' apartment included a batch of letters written by Faison, in which he proclaimed his affection in extravagant terms of endearment and outlined his plans to divorce his wife—mother of his five small children—and marry Miss Snipes.

The mother of the girl today refused to believe Faison's story that Miss Snipes took her own life, when Faison stepped into an adjoining room, and asserted that "Elsie never killed herself."

A formal charge of shooting to death Elsie Holt Snipes, beautiful 28-year-old divorcee, John W. Faison, 31, country club secretary, today steadfastly repeated his original story told police that the young music teacher shot herself.

Entering a plea of not guilty when he was arraigned late last night, Faison was remanded to jail in default of bond, with his case set for Nov. 20. Mrs. Snipes was the daughter of Mr. and Mrs. C. A. Holt, of Princeton, N. C., and was the former wife of Ira Snipes, who has since remarried and lives at Tarboro, N. C.

Teacher Is Injured In Encounter With Unruly Pupil Here

Miss Elizabeth Garrett, a South-Side Primary School teacher, yesterday afternoon suffered slight cuts and bruises about the head when a pupil, whom she was trying to discipline, gave her a push causing her to fall with her head striking the pavement. She was taken to the Fernald-Laughton hospital where her wounds were dressed. She was discharged shortly afterwards and nurses said today that the injuries were superficial but painful.

Ralph Dean, aged nine, a pupil at the school is said to have become engaged in a fight with a passing negro boy and when the teacher attempted to part the pair, the boy is said to have resented the teacher's interference and engaged in an encounter with her. The youth, according to the police version of the affair, gave the teacher a shove and she fell on the pavement.

The boy was carried to the police station where he remained until last night when he was hospitalized where his parents, who turned over to his father is said to be a railroad employee and was reported out of the city yesterday afternoon. No action was taken by the police but it is understood that the case may be taken in charge by the county probation officer.

It was reported that the boy will not be permitted to return to school, for the time being at least.

Three Births To Every Two Deaths In October

For every three births during the month of October there were two deaths, according to a report submitted today by S. L. Smart, local registrar of vital statistics. A total of 39 births and 26 deaths were recorded for the past month.

Births were listed as follows: male white, 8 female white, 6; male colored, 12; female colored, 13. Deaths were: male white, five female white, four; male colored, eight; female colored, nine.

Communist Agitators Are Claimed Responsible For Propaganda Against U.S.

WASHINGTON, Nov. 17 (INS)—Communist agitators were financed by the Mexican treasury to go into Guatemala and other central American countries and spread the doctrine of Bolshevism, the Washington Herald asserted today in the fifth of its series of articles describing the anti-American activities of the Calles government.

The Herald reproduces documents said to have been secured from the secret files of the Mexican foreign office to support the charges. One Pablo Palovichi, described as a propaganda expert connected with the Russian legation, was permitted to draw \$35,000 for the purpose of "propaganda expenses" among the Indians of Guatemala, and among the school children of Mexico. The facsimiles of the documents printed by the Herald bear the signature of President Calles.

One order for \$25,000, dated that it is to go for "Communist propaganda directed by Mr. A. B. Secretary of the Russian legation in Mexico." Another order, dated this sum to be paid in the Bank of Mexico with the usual serial receipts, and that no entry of this payment be made in the books of the central bank department," said the order.

Palovichi, said another order, dated to be given \$4,000 for "expenses on printing books of socialist propaganda for the communist party of the young, of this capital, Mexico City."

The Herald asserts that the communist campaign was undertaken by President Calles in close cooperation with the Soviet government of Russia, and that one of the objects was to overthrow the conservative government of Nicaragua and set up in that country an anti-American administration that would frustrate the construction of the proposed Nicaraguan canal by the United States.

YOUTH KILLS GIRL ALREADY SHOT BY HER OWN HAND

Then Attempts To Kill Self Tragedy Results From Her Parents Refusal To Permit Marriage Because She Ails

WALTHAM, Mass., Nov. 17.—(INS)—"She was in terrible pain. She kept gasping and gasping and begging me to finish it. 'Finish me, finish me,' she cried until I couldn't stand it any more and finally I just had to shoot her." This was the story told by Joseph Buckley, twenty-three, of Weston, who is dying here in the Waltham hospital, while his sweetheart, Miss Grace Mills, nineteen, of this town lies dead with two bullet wounds above the heart.

The young couple, who met while both were in the employ of the Potter Press, a local publishing firm, have been engaged for almost a year. The girl's mother, Mrs. John Barry, and her stepfather refused to allow a wedding because of the heart disease from which Miss Mills suffered. "They wouldn't let us marry," the young man adumbrated. "We met Tuesday afternoon and decided that if we couldn't live together, we could certainly die together."

"She wanted me to shoot her and I wanted her to shoot me," Buckley said, "but neither could bear to hurt the other. We finally returned to Waltham, arguing all the way, then drove back again to Sudbury."

In this town near Haverhill's Wayside Inn, the girl made a sudden decision, he said. She grabbed the gun her fiancé had bought and shot not him but herself. She did not, however, die. "She seemed to be suffering terribly," the young man continued, "and she kept begging me to shoot her and put her out of pain. 'Finally I couldn't stand it any longer. I just had to do as she wanted. I hated to kill her,' he cried, "you must believe that, don't you, you must believe that!"

Local Nimrods Prepare For Opening Of State Hunting Season Next Sunday

With the opening of the hunting season only two days away, indications are that the woods this year will draw a large aggregation of local sportsmen who are planning to leave Saturday and Sunday in quest of deer, turkey and other game. Reports from the county judge's office are to the effect that the number of licenses issued thus far is slightly smaller than for this time last year but it is believed that a last minute rush will swell the total over the 1926 figure.

State licenses issued so far total 103 while special deer permits County hunting licenses have been granted, making a total of more than 600 licenses issued exclusive of fishing licenses. It is estimated that the fishing licenses number 450.

The season formally opens on Sunday, November 20. Hunting on Sunday is forbidden by state law and although the state game department has no jurisdiction over Sunday hunting, the sheriff's office reiterated today its intention to enforce the state law and permit no shooting of game until Monday. With this edict facing them, local nimrods will have to postpone their hunting for one day into effect according to C. F. Marshall, deputy game commissioner who has just returned from Tampa where he and other deputies held a conference with State Commissioner J. B. Royall.

In a short statement today, Mr. Marshall said: "Under the recently enacted state-wide law, November 20 will find the following game available to the hunter and trapper: Deer, (buck only), up to December 31; quail, until February 15; rails, or marsh hens, to November 30, and to be taken only on the salt water marshes of the state; turkey, duck, doves, geese, grant, snipe, coots, gallinules and squirrels, to January 31."

"The open season for fur-bearing animals will continue to February 15, except that the red, or grey fox may be taken only on January 31 and without dogs."

DEMOCRATS TO HAVE HARMONY BANQUET SOON

Campaign Will Be Formally Inaugurated With Revival Of Famous Jackson Day Dinners Famous For Fireworks

Leaders Hope They Can Get Together

Trouble Centering In Choice Of Main Speaker Account Of Difference In Liquor Views

BY GEORGE R. HOLMES
International News Service
Staff Correspondent
WASHINGTON, Nov. 17.—The Democratic campaign of 1928 will be formally inaugurated in Washington in mid-January with a revival of the famous Jackson day dinners that have been productive of so much fireworks in other years. Its sponsors hope it will be a "harmony dinner."

Clem L. Shaver, chairman of the Democratic National Committee, said today it had been definitely decided that the dinner would be held, and that it would be of the harmony variety. There is, however, no unanimity in Democratic circles over the political wisdom of staging the event, and there is a wide range of opinion as to the program that should be attempted.

If the program that is the chief source of worry, any Jackson day dinner worthy of the name would have to include, it was pointed out, all of the prominent figures in the party, and particularly all those who are to be considered presidential candidates in 1928. The list is long and the range of their political views is wide. There would be, it is presumed, Gov. Al Smith of New York, Wm. G. McAdoo, Gov. Ritchie of Maryland, Gov. Donahay of Ohio and the Democratic leaders in Congress such as Senator Walsh of Montana, Senator Red of Missouri, Senator Robinson of Arkansas, Senator Glass of Virginia, Senator Simmons of North Carolina, and a great number of others.

Gov. Smith and Gov. Ritchie and Senator Reed are classed as wet. Gov. Donahay, Mr. McAdoo, Senator Walsh, Senator Glass and the southerners generally are classed as dry. How a speaking program could be arranged for such a distinguished gathering without inviting a clash of views that would defeat the harmony purpose of the dinner is a question that is yet to be worked out.

Chairman Shaver said today no decision has yet been made on the program. He rather inclines to the suggestion advanced by some Democrats that the best way out of the dilemma would be to have but one speaker who is not identified with either the Smith or McAdoo, or wet or dry, factions of the party. John W. Davis, the 1924 candidate, has been suggested as the ideal selection for this task. Ex-Gov. James M. Cox of Ohio, the 1920 candidate, has also been suggested.

There are still others, however, who believe this would be a negative suggestion.

Fiance Kills Self While Lover Paces Floor In Next Room

NEW YORK, Nov. 17.—(INS)—Infused by her lover that his financial situation would not permit "the thought of marriage," Miss Grace Von Ritberg, 28, believed to be the daughter of a German Countess, ended her own life with poison while her sweetheart paced the floor in an adjoining room, according to information in the hands of police today.

Henry Waver, an artist in whose apartment the girl was found dying, was quoted by the police as saying he had met Miss Ritberg on an Atlantic liner last spring and had informed her several days ago that he was in no position to consider marriage. She became despondent, he said, and last night stepped into an adjoining room in his apartment and swallowed the death poison.

A note which Miss Ritberg left behind read: "I love you. I am returning the cigarette case." The gift which she returned was wrapped in paper colored red, white and black, the old imperial German colors.

The dead girl was of distinguished American and German parentage. It was revealed today by her mother, with whom she lived in an apartment here, that the Countess Von Ritberg, her mother, said the girl was a niece of John E. Campbell, once governor of Ohio, close friend of Abraham Lincoln. Her father, Count Von Ritberg, once chamberlain to the Prince of Lippe was divorced by her mother eighteen years ago.

PENSACOLA—1927 construction here will probably pass three million mark.

U. S. Buys Patent Of Latest Wing Device

LONDON, Nov. 17.—(INS)—The United States has bought the American patent rights to the new Handley-Page slotted airplane wing, the latest device in aviation construction, the Daily Chronicle announced today. The price was \$1,100,000.

The wing has a number of slotted surfaces near the edge of the wing that it is maintained will permit an aeroplane to be controlled even after the engine has stalled and the speed has been greatly reduced.

SMITH REPORTED TO HAVE STARTED STATE CAMPAIGN

Effort To Win Florida Delegation In National Convention Said By Supporters Of Al Smith; Interest Gains

JACKSONVILLE, Fla., Nov. 17.—(INS)—Reports that emissaries of Governor Al Smith of New York have launched a campaign to win the Florida delegation in the National Democratic Convention were current here today from sources known to favor the candidacy of Governor Al Smith. The rumor met with a prompt and emphatic denial, while in the camp of the opposition, the gossip is given credence. This development has created an interest in the presidential nomination that overshadows the gubernatorial nomination.

During the recent session of the state legislature, backers of Governor Smith are said to have approached members of both houses in the interest of New York's favorite son but was reported that they were met with a cool reception in a majority of cases. Work is underway, it was said today to create Smith campaign organizations in every county in the State and in order to perfect a statewide machine and "unlimited funds" are available for this purpose.

Volusia Grand Jury Charges Pell With 1st Degree Murder

Eddie Pell of Osteen has been indicted on a charge of first degree murder in connection with the slaying of David E. Walker, Volusia county constable, last July according to word received here late Wednesday from DeLand where the grand jury went into session for the full term of the circuit court.

Pell is alleged to have murdered Constable Walker at Osteen when the officer attempted to search his auto for liquor. At a preliminary hearing following the shooting Pell is said to have admitted the deed but claimed he fired in self-defense, alleging that the constable became abusive and that he (Pell) feared death or injury.

The defendant was ordered held without bond by Judge J. E. Peacock of DeLand, but later Pell was given his liberty on a \$12,500 bond on habeas corpus proceedings before Judge Wallace W. Wright in this city. This bond was later withdrawn and Pell gave himself up to authorities to be demanded to jail.

In the first report of the grand jury no true bills were returned against H. O. Prideaux and Obie Williams, a negro, both of whom were arrested in connection with the slaying of Walker.

Final Rites Held Here This Morning For Pioneer Citizen

Funeral services for A. V. McGuin, pioneer resident and prominent citrus grower who died suddenly Sunday night at his home at Paola, were held this morning at 11 o'clock at the funeral home of Miller and Erickson, local undertakers. Rev. W. P. Burman, pastor of the First Methodist Church, was in charge of the services.

The body will be sent to Atlanta, Ga., for interment, and will be accompanied by Mrs. McGuin who was summoned here late Monday afternoon following discovery of the body at the home in Paola. Death is believed to have been caused by an attack of heart trouble.

Mr. McGuin had lived in Seminole County for many years, being one of the largest citrus growers for many years. Two years ago he retired and removed to Atlanta where he remained until a short time ago when he returned to Sanford. He had been living at Paola on one of his groves and was to have been joined by Mrs. McGuin on Thanksgiving.

Last Saturday morning he was in an automobile mishap when he drove his car into the front of the McCrory store on First Street and it is believed that the shock from the accident resulted in the heart attack that proved fatal.

REMUS FEARED WIFE INTENDED SQUEAL ON HIM

Imogene's Brother Declares Divorce Testimony Would Give Remus Much Worry

Dodge Story Said To Be All Fiction

Tedious Task Of Selecting Jury Goes Slowly On Its Way

CINCINNATI, O., Nov. 17.—George Remus, former millionaire "king of the bootleggers," killed his wife, Imogene, not because of her friendship for Franklin L. Dodge, Jr., the dry agent, but because he feared the testimony she planned to give in the divorce court, the slain woman's brother, Harry F. Brown, declared today.

Mrs. Remus was on her way in a taxi to the divorce court to testify on the morning of October last when Remus followed her in his limousine and shot her when he jockeyed her cab to a curb in Eden Park.

"In my sister's effects are documents, letters and other evidence that will prove Remus killed her because of the testimony she intended to give that day," declared Brown.

This evidence is at the disposal of the prosecution if it wishes to use it. Remus knew that my sister's testimony would cause him no end of difficulties because of his many unlawful and crooked deals."

Dodge is in seclusion in a Cincinnati hotel, as is Ruth Holmes Brown and other important witnesses. Brown said he had been in touch with Dodge.

"Dodge denies the cowardly charges of misconduct with my sister that Remus has made against him," said Brown. "He will prove it at the proper time."

A tedious task of selecting a jury was resumed with 18 tentatively accepted jurors in the box. The exercising of peremptory challenges by the state and defense proceeded after a new panel of 60 talesmen was sworn in.

Remus was the magnet that drew the crowd. The spectators watched this strange, stockily built man with the large bald head comfort himself in a manner befitting a lawyer in a case that has attracted national attention. He perused bulky law books, scribbled in ledgers and now and then took the floor to question talesmen in his deep, throaty voice. Word's rolled easily and honorously from his ready tongue. He was dressed in a neat fitted blue business suit. A pearl gleamed from his black tie.

The first hour of the session was given over to the routine business of the Judge's ruling on claims of exemption from the jury service made by a dozen or more members of the new panel of 60 sworn in this morning.

The first five talesmen examined, three men and two women, testified they were opposed to capital punishment and were excused. The next man had formed a fixed opinion regarding the Remus case and he, too, was excused.

Considerable time was consumed in the examination of Thomas A. Newman, 67, a specialty salesman. Asked if he knew of any reason why he would not make a fair and impartial juror, he said he did not add:

"I have always believed in the golden rule and I would apply it in this case. I never form any hasty opinions."

Both state and defense passed Newman and he remained in the jury box. The state then exercised its second peremptory challenge excusing Joseph C. Dury insurance salesman.

The first man of the third venire was then called. He was Arthur Gear, a florist. He said he was opposed to the death penalty and was excused.

Time Limit Closes 3 Seeking City Office

With the time limit already passed for qualifying for the approaching election to be held Dec. 6, Sanford voters will be called upon to register their choice between three men who seek the office now held by Commissioner W. C. Hill whose term expires Jan. 1 and who declined to become a candidate for re-election. Frank L. Miller, O. P. Beck and H. R. Stevens, all of whom are residents of Sanford for many years, are the men who aspire to hold office as commissioners. All three of them qualified last week and have been submitting petitions in their behalf to the City Clerk in accordance with provisions of the City Charter.

SPORTS

Rockne Is Criticized For Losing To Army Which Is Sixth Team Ever To Win

BY DAVID J. WALSH
International News Service
Sports Editor

NEW YORK, Nov. 16.—New York, hitherto the official county seat of the pro-Rockne movement, ventured as close as was consistent with its traditions of other years to putting the Notre Dame coach right on the electric transfer today, proving that only success really succeeds. Mr. Rockne made the mistake of losing a football game here last week.

It happened to be something like his sixth defeat against 87 victories since taking over Notre Dame football but that didn't deter one of our critics from chiding him on his tactics in the Army game and another openly charged him with trying to fool the public by putting the wrong numbers on the back of his players. This last diatribe was headed "Rockne displeases New York football fans," and on to assume that Rockne not only coached and trained his football men but made a personal issue of dressing them.

At that he does look after his players' comforts and conveniences with more care than does the average big college coach but still I find it hard to believe that Rockne stood at the dressing room door on Saturday, as was strongly intimated in this article, with programs in one hand and jerseys in the other and deliberately handed the wrong numbers to the right men. In fact, I don't believe he had anything to do with the distribution of the jerseys, which were new ones especially purchased for the game.

The critics of Rockne's tactics merely questioned his judgment of backfield men but I very much doubt if this writer would have dared to go even that far had Notre Dame obtained as much as a tie with the Army. An 18 to 0 defeat is a very emboldening circumstance. Still, the young man may have the right of it, at the same time.

"Niemic," he wrote, "played slightly more than one-quarter of the game; and Niemic is the heart of that team. Those passes he threw to Colerick in the last period, especially when the Army knew that every play was a pass, were superb. Had Niemic been passing and kicking all through the game, the Army machine might have functioned well earlier, and Niemic is a very handy boy when the goal line is only four yards away."

This latter is a subtle thrust at the Notre Dame failure to score from the four yard line in the second period with the first string backs in the game. It is second guessing no more, no less.

So is the assumption that Niemic could have worked his passes earlier in the game. When he did throw them, a lot of third string Army men were in the game, which fact interfered with the success of the plays not very much. As for Niemic's kicking, it was my impression that Duhanan did a better job of punting while he was in the game.

However, post mortems never saved a man's life. The truth of the matter is that Notre Dame was stale, dead on its feet. It had the men, it had the plays but not the speed and dash to carry them through. On defense, the team could neither tackle nor charge, except for certain men in the forward line.

It would be doing the Army injustice to say that Notre Dame's schedule beat it, because it can be taken for granted that successive games with the navy, Indiana, Georgia Tech, Minnesota and West Point did the Irish almost no good at all.

Explorer Plans To Go To Bottom Of Ocean
NEW ORLEANS, Nov. 16.—(INS)—William Beebe, noted explorer, revealed today his plans to go down into the depths of the ocean for one mile to investigate creature life there.

"I have designed and am having built a glass cylinder 21 inches in diameter, in which I propose to go down 5,000 feet in the ocean and watch the life in the depths of the sea," he said.

"The walls of this cylinder will be seven inches thick of glass and celluloid in layers so that it will give, I am told that it will be simple to make. It will stand the pressure of five tons to the square inch which is found at a depth of five miles in the sea."

Beebe, who is here on a lecture tour, said such a contrivance will enable him to see the tiny creatures who hover in pin point lights on their bodies as to find their way about through the darkness.

TIGER TO HAVE OPERATION
NEW YORK, Nov. 16 (INS)—"Tiger" Flowers, claimant of the world's middleweight title and one of the outstanding contenders in the much disputed present light heavyweight scramble will undergo an operation today which will prevent his reappearance in the ring before Jan. 15 or next month.

FLORIDA FROSH PREPARING FOR GAME WITH S. C.

Coch Coach Brady Cowell Pleased With Exhibition Of Charges Against Oglethorpe's 'Rats'

UNIVERSITY OF FLORIDA Gainesville, Nov. 16 (Athletic News Bureau) Tuesday afternoon found the Florida freshmen again hard at work in preparation for their final home game of the 1927 season here Saturday with the University of South Carolina frosh. Scrimmage was on the Tuesday program, and practically every member of the squad of forty saw action with the exception of Perrine, a halfback, and Higgins, a tackle, who were missing from Monday's workout because of light injuries sustained in the Oglethorpe game, and who donned togs Tuesday but only for light practice. Coach Cowell was well pleased with the fine exhibition of his cohorts in drubbing Oglethorpe 37 to 0, and thirty-seven athletes got into the game at one time or another.

Considerable time, in addition to scrimmaging, is being spent this week in forward pass defense, blocking and tackling, falling on the ball, wind sprint and other exercises. Monday's workout was probably the stiffest Monday session held this season.

In Salsby, a freshman from New Smyrna, Coach Cowell has uncovered a splendid punter, who bears every indication of fast improvement. From scrimmage he can average 40 yards with his kicks, and in the Auburn, Tech and Oglethorpe contests, his fine booting has been noteworthy. A half carrier, Salsby is ranking with the best in the Rat camp, and his receiving forward passes has netted the "Baby Gators" many excellent gains. Salsby forms and is a member of the "Big Four"—Betha, Sals, Ferguson and Sals, a combination that gives the Florida frosh an exceptionally strong defensive and offensive crew.

The entire Florida line functioned nicely last week, with Clemmons, center, and Steele, tackle, standing out as the most consistent of all the players. These boys are rated as good time-ber for next year's varsity. Clark, a tackle, who since the beginning of football season, has annexed fourteen pounds, and who was switched to tackle after starting at an end position, is another lad who is giving the mentors something to talk about. There are others on the Rat line who have displayed good form, and are likely to keep moving forward, but thus far it has been the play of Clemmons, of Leon High; Steele from Tampa, and Clarke from Cocoa, which has won foremost comment.

Mandell Wins Bout With Highly Rated Myers In Easy Go

CHICAGO, Nov. 16.—Those boxing fans who had predicted everything from housemaid's knees to anterior sclerosis for Sammy Mandell as a result of his infrequent performances in the roped arena had another guess coming today.

For it was Sammy Mandell, the lightweight champion of the world, who last night climbed into a ring at the Coliseum with Spurr Myers, one of the toughest junior welterweights in the business, and gave that young man the most scientific beating of his career.

It was Mandell's first local appearance since he won the lightweight title from Rocky Kansas here two years ago. He was done very little fighting since and many of his followers feared that he had "slipped". But if the Rockford Flash was only a flash before, he is now a full grown lightning bolt, and nothing less. Sammy won every round. And there were ten of them. Instead of waiting for Myers to lead, Sammy tore right in at the first gong and scored with a rain of rights and lefts to the head. He never let up. He swarmed all over the Idaho battler and had him confused and missing. The last half of the fight was a one-way affair with Mandell at the controls. The \$20,000 worth of customers booed Mandell when he entered the ring, but they were cheering for him before the fight was over.

SWIMMERS REPORT

PRINCETON, N. J., Nov. 16.—(INS)—Princeton's field of natural candidates had shattered all records today with the appearance of 80 men at the season's first call. Fifteen of this number are varsity letter men.

'Baby-Face' Wants Sammy's Title

They call Jimmy McLarnin a "baby-face" boxer, but don't think he's had a tough day when in the ring. McLarnin recently knocked out Kid Kaplan and is now angling for a fight with Billy Wallace. McLarnin, like Wallace, is seeking a bout with Sammy Mandell for the lightweight crown.

Chemists Investigate On Theory Of Murder

RALEIGH, N. C., Nov. 16 (INS)—Information that may clear up the mystery surrounding the death of Lydia Case, 20-year-old daughter of a prominent Henderson county farmer, was expected momentarily today from state chemists been examining the viscera of the girl for traces of poison.

As a result of the examination, which is expected to determine whether or not she was poisoned, Henderson authorities will be enabled to continue their investigation which already has led to the detention of three youths—Ben and Tom Southern and George Drake—who are alleged to have been on a joy ride with the girl the day she was killed.

After a fruitless all-night search by her parents, the girl's partially clad body was found in an abandoned barn by a 6-year-old boy the following morning. There were no signs of violence on the body. Police said her three boy companions took her to the barn when she complained of being ill and returning later, found her dead. They fled to South Carolina, police allege.

STONEJ NAMED

CHARLESTON, S. C., Nov. 16.—(INS)—Mayor Thomas P. Stoner today was nominated, carrying every ward with his entire ticket, by more than 4,000 majority. The vote; Stoner 8,210; Sinker, 3,866. It was the most orderly primary Charleston had experienced in 16 years.

RACE HORSES SOLD

LEXINGTON, Ky., Nov. 16.—(INS)—The 25 thoroughbred horses sold by H. C. Ragan, Lexington turfman at auction here, brought a total of \$22,645 it was announced today.

Service, First and Last.

OUR BUSINESS HAS TWO OBJECTIVES;
1. To service your old battery by scientific equipment and methods, and to help you get the most value out of it. Succeeding in this we are certain that when your old battery can be made to perform no longer, having secured your confidence, it will enable us
2. To sell you a Vesta Battery with its important and exclusive feature; The Isolators (which lock the plates apart), and to stand behind it with our service to the end that it will give you the satisfaction to which you are entitled.

BIG FALL SPORTS CARD PLANNED AT PINEHURST, N. C.

Golf, Polo, Races, Shooting And Tennis Scheduled For Season; Mid-January Meet Will Open The Golf Year

PINEHURST, N. C., Nov. 15.—Golf, polo, horse racing, trap shooting, archery and tennis are included on the sports schedule of this resort in the sandhills of North Carolina this season.

The golf season really gets under way with the twelfth annual Carolina Amateur Tournament November 22 to 26 inclusive, with qualifying at 18 holes and all subsequent matches over the same distance.

December 6, 7, 8, and 9 the women will take the spotlight and compete for the various trophies offered in the seventh annual Carolina Tournament. Then follow the holiday events which draw the undergraduates from the colleges of the country.

First comes the attractive sixth annual Father and Son tourney the day before Christmas, medal play to follow December 26, 27, 28, 29 and 30 with the 25th annual Mid-

Winter Tournament, qualifying on all matches at 18 holes.

The New Year will be ushered in at Pinehurst with the fourth annual Mid-January tournament programmed for January 10-14 inclusive, all rounds at 18 holes. Then follows one of the season's chief events—the 21st annual St. Valentine's Tournament, with a 36-hole qualifying test.

February 6-9, inclusive, the women compete in the 23rd St. Valentine's Tournament, and February 21, according to a decree made by the Board of Governors 24 years ago, the famous Tin Whistles Club will have the "right of way" over the championship No. 2 course on which to play their 24th annual tournament.

On February 22-25 the host of seniors who frequent the resort

will stage their eighth annual tournament of medal and match play in flights of eight. No one under 55 years of age is eligible to play in this event.

The annual spring tournament being the 21th in order of sequence is scheduled for February 27 to March 3, while March 29 and 30 are set aside for the 26th annual United North and South Open championship, 72 holes medal play with a \$2,000 purse. Sandwiched between the open

event and the North and South Amateurs, is the scheduled 25th annual team match, Florida vs. Florida, carded for March 1-5.

"Fred Niblo's advice won me to Luckies," says Jimmie DeFore

The well-known trainer and boxing expert explains his preference to Evelyn Hoey, Musical Comedy Star, as they chat before the Buckingham Fountain in Chicago, Ill.

You, too, will find that LUCKY STRIKES give the greatest pleasure—Mild and Mellow, the finest cigarettes you ever smoked. Made of the choicest tobaccos, properly aged and blended with great skill, and there is an extra process—"IT'S TOASTED"—no harshness, not a bit of bite.

Fred Niblo, Noted Motion Picture Director, writes:

"To a moving picture director there is no luxury like a good cigarette—one that gives pleasure to the senses but also relief to the voice. Such a cigarette I have found in Lucky Strike—and during the filming of big tures like 'Ben Hur' I smoked 'Luckies' even directing in the open air thousands of cameramen, and never once did I ever suffer throat irritation."

"It's toasted"
No Throat Irritation—No Cough.

The Sanford Herald

Published every afternoon except Sunday at Sanford, Florida, 111 Magnolia Avenue.

Owned on second class matter October 27, 1918, at the Postoffice at Sanford, Florida, under act of Congress of March 3, 1879.

HOLLAND L. DEAN, EDITOR; HOWARD BERG, MANAGER; DANIEL B. JONES, Managing Editor.

SUBSCRIPTION RATES: One Year \$7.50; Six Months \$4.50; Three Months \$2.75; By Carrier per Week \$0.15; Weekly Edition per Year \$2.00.

The Herald, Sanford's pioneer newspaper, subscribes to the Florida State News Service receiving from this superior news organization every day's news daily covering all the leading events of the entire world. The I. N. S. is especially influential in Florida, and its manner of handling state news is without equal.

The Herald is a member of the Audit Bureau of Circulations, an International Association of Publishers, Advertisers, and Advertising Agents which requires each publisher member to submit to a census agent a list of subscriptions. This is done to verify circulation at all points of circulation as well as honest business methods.

THURSDAY, NOV. 17, 1927

THE HERALD'S PROGRAM: Economy in city and county administration; Deepen water route to Jacksonville; Construction of St. Johns Indian River Canal; Installation of monthly "Pay-up Week"; Augmenting of building program—houses, hotels, apartment houses; Community Chest; Completion of city beautification program; A new and modern hospital.

BLESS YE FOR TODAY GIVE GOD HIS DUE: Give unto the Lord, O ye kindreds of the people, give unto the Lord glory and strength, Psalm 96:7.

PRAYER: We would ever declare Thy glory among the heathen and Thy wonders among all people.

COURTESY: Blessed be God who made such pretty birches, And spent such gold in dandelion's crowns, He made small swallows flying o'er great churches, Made little fish that gaze from streams at towns, He made great woods to give the small birds perches, Made the green meads to give the crickets gowns, He made the snail, He made the crab which lurches Sideways to port, made cockleshells, made clowns, Blessed be God, so sweet, so near is He, He made the old man's sunlight, made this hour, Made stars for roof tops, O what courtesy! 'T was He who dreamed the honny-suckle flower, He gave the mole a labyrinth, He gave the beach grass the embroidery of the wave.

Oriebe is no longer a coming city; it seems to have arrived.

Men with receding chins are usually the ones who are down in the mouth.

The Tampa Tribune brings out the fact that the S. L. O. P. is the State League of Paraplegists.

We never can remember whether it was a little learning or a little living which the poet said was a dangerous thing.

Shots heard over telephone starts murder investigation—headline. Moral: Hang up the receiver before you shoot.

The approach of the Christmas holiday season doesn't seem to be adding much of a stimulus to the newspaper business.

The Record bewails the increase of St. Augustine's dog crop. Buy yourself a pup, Herb, and watch him grow up. You'll feel differently about it.

Ruth and George will return to their homes in Lakeland soon. Florida Times-Union. Not after signing that thousand dollar a day contract.

The Tri-City Times asks, "Why not spend the summer this winter in Florida?" A great many will and we'd like to see Sanford get her full share.

Financiers are people who are called in to clean up things when patriots have gotten through fighting.—Tampa Times. What do you mean, "clean up?"

What we can't understand is why Senator Glass should care whether negroes in the south vote. It's about as easy to get them to vote for you as against you.

If the wife of a ship's captain loves with another man, would you call her a skipper—Dade City Banner. Yab, and she was probably the skipper before she sloped.

A Chicago economist insists that the saturation point has been reached in autos. We saw one in the lake the other day that had certainly reached the saturation point.

Arthur Brisbane's column appears in the Tampa Tribune the Jacksonville Journal, the Miami Herald, the Palm Beach Post and the Sanford Herald. It is undoubtedly the most widely read column in the country.

Newton D. Baker, according to the Jacksonville Journal, refused to make the statement that Mayor Thompson of Chicago is the most important man in the world. The war secretary "admitted" he did not know everybody.

Sanford's New Bank

Announcement made through The Herald yesterday that a new bank will be established here within a short time has been received with cordial interest by Sanford citizens who have felt that this city should have at least one more financial institution and who have eagerly been awaiting the day when some group of practical bankers could be induced to enter the Sanford field.

The organization of the Sanford Atlantic National Bank will mean a great deal to Sanford. With prominent business men on its board of directors and with the financial backing of the Atlantic National Bank of Jacksonville, the largest financial institution in Florida, the new bank will have a strong foundation and is destined for immediate success. The institution will have the benefit of the services of experienced bankers whose success is unquestioned and whose familiarity with Florida conditions makes them especially fitted to supervise the local bank.

The fact that such a strong institution as the Atlantic National Bank has decided to make a connection in Sanford, their first direct contact outside of Jacksonville, is within itself a tribute to the possibilities of Sanford and Seminole County. It demonstrates without question the faith of these bankers in the future of this community and their faith should be an incentive for us to look with a more optimistic view to the future.

The Herald extends a hearty welcome to the new bank and congratulates its founders upon their selection of Sanford because we believe that their faith has not been misplaced.

What Of The Hotel?

What are the problems confronting hotel owners and operators? At a meeting of hotel managers held recently in Orlando, this matter was thoroughly discussed and along with it many phases of the hotel's work which undoubtedly reacts to the public good.

In Florida the hotel is so intimately associated with the very life of the community that any mention of the former without consideration of the latter would be impossible. It would be equally unthinkable for a city in Florida to lay its plans for the future without due regard for the hotels.

At the recent convention in Orlando among the subjects brought up for discussion were the following: "What are the publicity and advertising plans for the coming winter season of the cities in which the hotels operate?"

"What are the plans of the hotels in connection with these local campaigns?"

"What should the hotels emphasize in their publicity and advertising?"

"What should they avoid?"

"What is the best plan for national distribution of hotel literature?"

"What is the best plan for the interchange of literature between Florida hotels?"

"What is the best plan to promote courtesy on the part of hotel employees?"

"What is the best plan by which the hotels can feature Florida citrus fruits, vegetables, and sea foods on their menus?"

"What is the attitude of the hotels regarding conventions in Florida at all seasons of the year?"

"Outline of plans for the apprehension of hotel dead beats and bad check artists."

"What effect has the operation of tourist camps and roadside lodgings upon the hotel industry in Florida?"

"What is the attitude of the hotels regarding city, county, and state taxes?"

The feature of these subjects which appealed to us as being most essential to the success of both hotel and community was advertising. What are the advertising plans of cities in which hotels are operated? And what are the plans of the hotels in connection with these local campaigns?

The Herald has been given assurance of reasonable reliability that Sanford's leading tourist hotel will open again this winter and that a contract has been signed with a new management. This in itself is encouraging news as many had been led to believe that perhaps this great asset of Sanford, into which so many of us put our money for the general benefit of the community, might remain closed this winter.

We shall anxiously await the announcement of the policy of the new managers. The hotel can be made a success and by being made a success greatly benefit the entire city. But it will never be a success until it is advertised and tourists coming to Florida are told that they can be comfortably taken care of here in a tourist hotel.

WISE DECISION

OCALA STAR

The Florida State News, Tallahassee (Charlie Hunter's paper), has switched from the morning to the afternoon field. A wise decision. While there are various arguments advanced from time to time why the morning or afternoon paper can best serve its subscribers, in a city like Ocala, newspaper readers prefer an afternoon paper. It brings to their doorsteps every evening the news of the community of the day, fresh after it has happened. In a city of from six to twelve thousand population most of the things the home folks are interested in take place during the daylight hours and they prefer to read about them in the quiet of the evening, around the supper table or in the family sitting room, when the cares and vexations of the day have been laid aside. The evening paper also brings the happenings of the outside world to its readers hours ahead of its morning contemporary and in these days when stirring demonstrations are taking place it has been demonstrated time after time that the afternoon paper brings the news first. Our fellow townsman made a wise move when he changed to the afternoon field with his state capital daily.

KNEES AND CHINA

TAMPA TIMES

A painful incident was described in a cablegram from Peking to the New York World. It seems that while a "pretty, ivory-colored girl" was riding in her ricksha, outside the Tartar wall on Cheimen street, the coolie stumbled, fell, let go his hold of the shafts and, as is a habit with the vehicle tilted over backward dumping the girl or the street on her head while her feet described a graceful arc and her skirts fell back and exposed her legs above the knees." Such exposure being contrary to a recent edict of Marshal Chang Tso Ling that knees are immortal, the unfortunate young woman was fined the Oriental equivalent of \$10.

Painful as the courts decision may have been to the ivory-colored girl, it is even more painful to the American reader to discover that a civilization as ancient and presumably as wise as China's permits knees to be banned on moral aesthetic reasons would be understandable to the American, New York World. It seems that more familiar sight than knees and whose morals are apparently unaffected thereby.

There may be an occasional pair of knees which for beauty and symmetry, make up for the various deficiencies that this is very doubtful and the Chinese would inspire greater respect in this country if they would amend their law so it would apply only to knees that aren't pretty.

Pretty knees are quite likely to be displayed anyway, law or no law as the Chinese will discover. Accidents, particularly in a land of rickshaws, will happen. The fact that nobody has ever yet seen anybody who has seen a pair of really pretty knees probably accounts for the small moral damage wrought by the knees-display. There just isn't any such thing as pretty knees. Nature fashioned knees for service, like that of hinges on gates, and not for beauty.

As Brisbane Sees It

Buy Furs Now. Thanksgiving Wisdom. 20,000 Pearls, or Wives. Women Must Weep. By Arthur Brisbane. Copyright 1927 by Star Co.

ABNORMALLY HOT weather interferes with sale of furs, overcoats and other "cold weather goods." It's bad for business, but the wise citizen finds it good for his pocketbook. It won't be hot all winter. Buy overcoats and furs now, and save money. All merchants are reducing prices.

IN HIS Thanksgiving proclamation Governor Smith of New York advises the people "to pray for wisdom in using the gifts of providence," and that is the best Thanksgiving advice in a long time. It is easy in this prosperous country to acquire wealth, not so easy to use it wisely, for the good of others, and the good of your soul.

AN EXPERT from Sweden says jewels formerly owned by the Turkish sultan are earth's most magnificent. They include "a throne of pure gold, covered with 20,000 oriental pearls. That sounds grand, but really it isn't. The man sitting on the 20,000 pearls was nothing but a dull Turk, always afraid some one would poison him or tear his wifes."

Twenty thousand more Circassian wives would have done him as much good as the 20,000 oriental pearls, and that isn't saying much. It isn't what you have, but what you do with it that counts.

BIRTH CONTROL and publishing information about it are approved by Britain's "national council of public morals."

The really, women should have the right to decide how many children they will have. But it is well that understanding of birth control has been postponed. It might have prevented the arrival of Napoleon and Carlyle, and surely would have prevented the arrival of Garuso, a nine-tooth child.

The rubs men must work and women must weep," seems fair enough. But women have had more than their share of weeping.

REPORTS OF Trotsky's assassination were not convincingly contradicted yesterday.

His killing would be base ingratitude for his energy that kept the allies at bay when they decided to "squell" bolshevism.

Such killings are usual things in revolutions. Robespierre killed Lanton, the greatest French leader. Then Robespierre went to the guillotine with a broken jaw, and Charlotte Corday murdered Marat in his bathtub. Then came Napoleon. You may see something like that in Russia.

AN ARMY of British unemployed, headed for London, marched through a crowd of men and women in pink coats hunting the fox, with hounds to help. Men galloping over the fields in bright pink, for pleasure, contrasted sharply with marchers leaving hungry children at home.

Voltaire said of the English that they were like their beer, froth at the top, dregs at the bottom, excellent in the middle. On this occasion some of the bottom and top met.

SCIENTISTS SEEKING "cold light," hope to find it in "atomic vibration, produced by shifting of the electrons in their orbits inside the atom. Planets in our solar system are electrons on a big scale. If they changed their orbits and collided, there would be plenty of light for a moment, but not light without heat.

OF ONE THING, you may be sure, the human brain doesn't produce any light worth while, in education, art or science, without much heat and genuine combustion. You must, as Dante said, "work as nature works in fire," or your work amounts to little.

ENGINEERS FROM everywhere watched the shipping board's freighter, Mercer, experimenting yesterday with pulverized coal for fuel. All business men that burn coal, and especially all city officials, are interested. Fires from pulverized coal cut cost and produce no smoke.

A GREAT AUTOMOBILE combination is rumored, with the able Mr. Durant at the head of it, involving the sum of \$200,000,000. Once that would have sounded impressive, but it is only a little of General Motors at the present puppiap. (puppiap) au uuyi. The bigger the unit, the better for business. It is hard for little fish to live in these waters with the help of mass advertising which they can't well afford.

EUROPE BELIEVES THAT Germany, Austria and Hungary will be united in one country, to which Austria can now contribute only one big city, with a little front yard around it.

The French do not object seriously. Europe's nations have learned that the best they can get from war is fearful calamity, and so actually inclined to try friendly concessions and co-operation.

McINTOSH—Right of way being cleared on Hickman road leading from McIntosh to Shiloh in preparation for further improvements.

Sandspur Bridge Club Entertained Tuesday Night By Miss Ward

A lovely social affair of this week which was of exceptional pleasure was that of Tuesday evening when Miss Fern Ward entertained the members of the Sandspur bridge club at her home on Seventh Street.

Marigolds and ferns helped to emphasize the color scheme of green and gold. These two colors were carried out in every detail and also in the refreshments.

Scores for the interesting game of bridge were kept on a novelty carry partner tallies each depicting a scene of some well known romance. After the stated number of progressions had been played scores were counted and the prize for top score, a combination lamp, was awarded.

Miss Norma Williams, Mrs. Edward Higgins, who held the score book, was consoled with a box of French stationery. In cutting for the other prize, a set of tallies, Miss Marion Hand was the lucky one.

Refreshments consisting of hot rolls, pickles, apricot salad and coffee were served at the conclusion of the game.

The players were Miss Nonie Williams, Miss Sara Wetren Easton, Miss Frances Dutton, Miss Mina Howard, Mrs. Marion Hand, Mrs. Earl E. Jones, Mrs. R. G. Williams and Mrs. Edward Higgins.

Mrs. Epps Is Hostess At Delightful Bridge Party On Wednesday

The lovely home of Mrs. A. W. Epps in Edgewood was the scene of a very pretty party Wednesday afternoon when she entertained the members of the Wednesday afternoon bridge club.

Poinsettias, chrysanthemums, marigolds and ferns were used to accentuate the colors of red, yellow and green, suggestive of the Thanksgiving season.

Tallies used for the game of progressive bridge were done in turkeys, pumpkins and other Thanksgiving ideas. When the usual number of rounds had been played, scores were added and it was found that the high score prize, an embroidered guest towel, had been won by Mrs. Charles Cook, while the low score prize, a hand vase was given Mrs. John C. Smith.

Butterfly salad, sardines, sherbert, cake and coffee were served at the tea hour by the hostess. Playing bridge were Mrs. Charles Cook, Mrs. Henry Pardon, Mrs. Jack Hewitt, Mrs. J. B. Lawson, Mrs. Howard P. Smith, Mrs. John C. Smith, Mrs. K. B. McCracken, Mrs. John W. Meisch Jr., Mrs. Tom Belt, Mrs. Ed Rawson and Mrs. Emmett Hunt.

Mrs. G. Irving Loucks Entertains At Bridge Wednesday Afternoon

Entertaining in her usual gracious manner, Mrs. G. Irving Loucks was hostess at bridge Wednesday afternoon at her home on Magnolia Avenue. The guests were the members of the Afternoon Ten Duplicate bridge club.

Pink roses and antigonon lent their beauty in decorating the rooms where the card tables had been spread for play. The afternoon hours were quickly spent with games of duplicate bridge and at the conclusion of the game, it was found that Mrs. T. L. Dunbar had made highest scores.

Welfare Department Holds Enjoyable Meet Wednesday Afternoon

The opening meeting of the Welfare Department of the Woman's Club held Wednesday afternoon with the chairman, Mrs. Henry Wight presiding, proved interesting as well as instructive.

Mr. E. M. Galloway gave a short drill on Parliamentary law. These drills will be made a regular feature of the meetings of this department. H. C. DeBose gave a brief talk on election laws and qualifications necessary to vote.

Miss Alexander Vaughn told of the duties and office of tax assessor and collector. The duties of the County judge and how he is appointed were told by Mrs. Fred R. White. Mrs. I. D. Maran in her talk told of the duties of the sheriff, the functions of his office and how it is maintained and also the number of deputies.

At the conclusion of these talks a short business session was held and routine picture committee reported that the pictures now being shown at the Saturday morning matinees at the Milane were of their own selection.

A motion was made to appoint a committee to go before the county commissioners in regard to a county demonstration agent.

Mrs. L. N. Stephenson Gives Enjoyable Party For Bridge Associates

An enjoyable social affair of Wednesday evening was the bridge party given by Mrs. L. N. Stephenson at her home on Martin Street. The rooms where the card tables had been placed for play were adorned with baskets of pink roses and a pungent ferns.

Pink roses and kewpies adorned the table cards used for the game of bridge and the prize for top score, a flower basket was awarded Mrs. Walter Berry. Mrs. J. E. Ritchie was consoled with a pair of candlesticks for having made lowest score.

Late in the evening Mrs. Stephenson served orange jello topped with whipped cream, cake and tea. Those laying bridge were: Mrs. Walter Berry, Mrs. J. E. Ritchie, Mrs. C. W. Stouendmire, Mrs. C. H. Driver, Mrs. Robert Masska, Mrs. Wurt W. Warner, Mrs. F. Husky Wight and Mrs. Stephenson.

E. C. Davis of Orlando spent the day here Tuesday on business.

Mr. and Mrs. E. H. Ashcraft and Mrs. Mary Strong spent the week-end at Tampa.

Mrs. W. T. Wheelers returned home Monday evening from Waycross, Ga., where she was called by the death of her nephew John Borland.

Mr. and Mrs. C. R. Kirtley announce the birth of a son, Tuesday, November 15, at the Fernald-Laughton hospital. The baby has been named Henry Wight Kirtley.

Mrs. Forrest Lake, who has been ill for several months at Jefferson Hospital at Philadelphia, Pa., will arrive here Friday en route to Formosa. She will be accompanied by her daughters Mrs. Monroe B. Hutton and Miss Maurie Lake.

Lovely Bridge Party Given On Wednesday By Mrs. Lee Conoley

Mrs. Lee A. Conoley entertained most delightfully at bridge Wednesday afternoon at her home in Franklia Terrace. The guests included the members of the Sandspur bridge club.

Pink and yellow, the colors chosen for this afternoon were beautifully carried out with an abundance of pink radiance roses and chrysanthemums. The tally cards were done in floral designs carrying out the preferred colors.

After the fifth progression of the game had been played, scores were compared and the prize for highest score, a brass dinner gong, was presented Mrs. Clyde Byrd.

Following the awarding of the prize, the card accessories were removed and the tables spread with dainty covers and refreshments of creamed chicken in patties, nut bread, olives, lemon pie topped with pink meringue and orange sauce were served by the hostess.

Enjoying the cordial hospitality of Mrs. Conoley were: Mrs. Clyde Byrd, Mrs. Raymond G. Fox, Mrs. Emmett McCall, Mrs. Braxton B. Eugene, Mrs. W. C. Hill, Mrs. George Hayden, Mrs. Ben Canwell, Mrs. Charley Parks, Mrs. F. E. Rannulit, Mrs. Eugene Tittle, Mrs. Alfred W. Lee Jr., and Mrs. H. B. McCall Jr.

The many friends of Mrs. Mary Strong will regret to learn that she is ill at her home on Magnolia Avenue.

George Cowan and Bertram Sheppard have returned from Atlanta, Ga., where they spent a few days.

Mr. and Mrs. Donald Smith returned home Tuesday evening from Bradenton where they spent the week end.

Ben Coglum and small piece, Caroline Coglum leave Friday for Jacksonville where they will spend the week end.

The many friends of Mrs. W. Wallace Wright will regret to learn that she is ill at her home on Melville Avenue.

Mr. and Mrs. Ferfoot Bryant of Lakeland spent the week-end here with Mrs. Bryant's parents, Mr. and Mrs. J. T. Newby.

JACKSONVILLE—Contracts let for purchasing 50,000 cubic yards of shell for highway work in county.

WASHINGTON LETTER

WASHINGTON, Nov. 17—Armed Day found numerous speakers dilating on the glories of war, but few bothered to mention the expense.

The merest glance at the federal government's expenditures reveals that war is far and away our most costly luxury. Obviously, the greatest loss of the World War was to be compelled from the casualty lists, but it has been over nine years and the American people are still paying out more than 75 per cent of all the money that comes in and goes out of the treasury to defray the direct cost of that war and of preparedness for the next.

The treasury collected more than four billion dollars in the fiscal year of 1927 and paid out more than three billions for war bill and the national defense. The figure for 1928 will show no great decrease.

Reparations were \$4,129,394,000. The surplus was \$635,000,000 and that was applied to debt reduction, making a total direct war and defense outlay of \$3,165,000,000.

The money was split up as follows: Debt retirement \$1,156,000,000; Interest on debt 787,000,000; Army and Navy 680,000,000; Veterans' Bureau 391,000,000; Postoffice 221,000,000.

Seventy million dollars should be deducted from the army appropriation in figuring the total war burden, to approximate the amount spent on rivers and harbors.

For various reasons, the burden will not soon be lighted appreciably. These reasons include the likelihood that European nations will eventually pay no more than a fraction of their debts to us and

Conradi Promises Naughty Books To Be Banned At Tally

TALLAHASSEE, Fla., Nov. 17.—(INS)—Alleged "filthy, vile and obscene" text and reference books claimed by a church committee to have been in use in state institutions of higher learning have been removed, according to a report made by a committee of the Florida Presbyterian at its session in Havana.

"Certain books in the departments of sociology and psychology of the Florida State college for Women, such as Van Tessler's 'Psychoanalysis,' Kroeber's 'Anthropology,' and Allport's 'Social Psychology' were used and we have been assured by Dr. Conradi, president of the institution, that these books and all others which have been objected to have been removed from the college library," the report read. It also reported that Van Tessler's 'psychoanalysis' had

been removed before any objection had been made to it.

"We further have the assurance from the president of the college that if any teachers are found teaching anything contrary to the word of God and the Christian religion, such teacher will be reported to the board of control and the president will recommend removal of the books removed from the college library were recently listed in a pamphlet published by the church committee entitled 'Filthy dreamers.'

FLOOD CONTROL OPPOSED

WASHINGTON, Nov. 15.—(INS)—Emphatic opposition to linking the Mississippi River flood problem with a nation-wide scheme of flood control water-power development, and reclamation was registered before the House Flood Control Committee today by spokesmen for the United States Chamber of Commerce.

JACKSONVILLE—Building permits issued in South Jacksonville in single day totaled \$48,750.

Pimples, Boils, Skin Eruptions

Skilled physicians recognize the appearance of pimples, boils and other skin eruptions as being an indication of an abnormal condition of the system. This is why so many thousands have been enabled to free themselves of these unsightly blemishes and painful annoyances by taking a course of S.S.S.

"I suffered from impure blood—was weak, and I had lost so much weight, I didn't look natural. I had pimples and was also bothered with a breaking-out that itched terribly. I also had boils one after another. I tried different kinds of remedies, but nothing did me any good until a friend advised me to take S.S.S. which

I did. This was some time ago. Now I feel well, and I am getting along fine. S.S.S. stopped the itching and it cured me of boils. I advise all weak and run-down people to give S.S.S. a trial. It clears up the skin, makes you strong and fills you with energy." Mrs. J. W. Barker, 1337 Walnut Street, Cincinnati, Ohio.

You owe it to yourself to try S.S.S. It helps Nature build up red corpuscles. It improves the processes by which the blood is nourished. It is time-tried and reliable.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

Dog Races In Atlanta Are Stopped By An Injunction Issued By Judge Hutcheson

ATLANTA, Ga., Nov. 17.—By (Special News Service)—Grayhound racing which started in Atlanta with great ceremony and flamboyant demonstration, has received the official "thumbs down" and the dogs have tracked south to more fertile fields.

Two days after dog races opened at the Dixie Lakes Kennel club to the tune of several bands and the presence of many race fans, a temporary injunction issued by Judge John B. Hutcheson at the request of solicitor general Claude Smith forced the mechanical rabbits to be returned to their boxes.

The temporary injunction was issued against the operation of the pari-mutuel betting machines and the racing automatically ceased with the absence of the sale of certificates on the various dogs.

The hearing for the injunction suit was to have been held Tuesday of this week, but a continuance was granted at the mutual consent of the state and attorneys for the track the injunction remaining in force.

The dogs, it was said, have already been taken to Florida for the winter season, but whether or not they can race there is a matter of speculation, Florida having banned the pari-mutuel last year in a supreme court decision that set out of carillon chimps in the state.

Oviedo Is Prepared For Busy Shipping Season This Winter

(Continued from page One)

or approximately 500 acres, mostly late celery with beans, peppers and lettuce thrown in. Extensive lettuce experiments which may result in Oviedo's becoming more of a lettuce section are being conducted by H. T. Warren at Forest Garden Farms. Mr. Warren is experimenting with six varieties of iceberg lettuce, which he says is outstripping Boston lettuce five to one everywhere except in the northeastern states.

Since last season both the Atlantic Coast Line and Seaboard Air Lines have made extensive improvements in their track facilities, said Mr. Smith. They have not only added new side track and new loading track but have extended their lines more completely through the farm belt until at present no farmer in the district has to haul his crop over a quarter of a mile, which Mr. Smith believes is a condition unparalleled in Florida.

The schools, churches and business houses of Oviedo are all flourishing with the citrus and truck industries, said Mr. Smith. The Baptist Church with its new building is under the direction of the Rev. J. M. Cook, and the First Methodist Church is led by the Rev. C. W. Williams. Both churches have Sunday schools. The staff of teachers at the high school has been increased from nine to 12 this season and the Parent-Teachers' Association is serving lunches for all the children.

The sound condition of the town's finances is indicated by the swelling reserve in the Bank of Oviedo which shows a healthy increase over this same period last year. "The bank has weathered the financial storm without borrowing and has met all the legitimate demands of its customers," said Mr. Smith. "It's a strictly home grown and home owned institution." The officers are Mr. Smith, president; T. W. Lawton, vice-president; O. P. Swope, vice-president, and J. E. B. Ansell, cashier. Mr. Smith, Mrs. Lawton, Mr. Swope and B. P. Wheeler comprise the board of directors.

Mr. Wheeler is fully as confident as Mr. Smith in the fairness of the season's business outlook. "We have a right to be optimistic," he said yesterday. "The citrus outlook is more promising than last year. The celery crop will be good and there will be a large increase in the late planting. General business conditions are improving as the citrus situation lends strength to buying." We are getting many inquiries from outsiders anxious to start new groves or buy groves here as a result of fruit prices. This year we have made the Nelson & Co., Inc., packing plant entirely electrical as a part of our policy of improving with the times.

H. T. Warren declared he believes the lettuce market would be good this year because of the reported shortage in the coming California crop. He announced he had put a celery washing and pre-

MIND'S ATTITUDE GETS BLAME FOR BODILY AILMENTS

Emery Doctor Declares High Blood Pressure Is Caused By Mental Attitude And Often Takes 10 Years Of Life

MEMPHIS, Tenn., Nov. 17.—(INS)—High blood pressure, enlargement of the heart and ensuing death are caused by a person's mental attitude, according to Dr. Stewart R. Roberts, of Emory University. One with high blood pressure lives 15 or 20 years of his life in 10 years, that is his heart, under greater strain, wears out quicker. Dr. Roberts told delegates attending the annual convention of the Southern Medical Association.

"The heart beats 72 times a minute, 4320 an hour, 30,720,000 times a year. It pumps five quarts of blood a minute, seven and a half tons a day which is equal to lifting 2,000 pounds 122 feet in the air. "A white man's blood pressure in this country is 130 and a Chinese person's in China is 100. When a white man goes to China his blood pressure drops to 100 and if a Chinaman comes to America it rises to about 120.

"This is believed due to a different intellectual tension. The average blood pressure of a community is an expression of the state of mind of that community," Dr. Roberts said. "Some who suffer from high blood pressure do not appear to be nervous. People can be apparently quiet and calm and still be under excessive nervous strain.

"This is the man that starts and stops quickly, thinks fast and is always alert. His state of mind may be inherited from past generations, just as the state of mind of America is indifferent from that of China. "The cure then is the slowing up of mental activity, relaxation hot baths should be taken every night. A person should be made to wallow in hot water. Vacations are good."

Proper care of babies was the subject of a talk by Dr. L. R. Debuys. "Twenty five percent of our men are deficient and a great part of this could have been prevented by proper care in childhood," declared Dr. Debuys. "New born babies that are underweight or premature should be placed in incubators and kept at an even temperature. A slight change from hot to cold in the first few days of a baby's life is a severe and is often fatal. For that reason a baby should be at least 24 hours old before its first bath."

Bob Ishie Purchases First Street Garage

The Fletcher Battery and Electrical Company at 230 West First Street has been purchased by Bob Ishie, according to an announcement made on Wednesday. A general repair garage will be conducted by Mr. Ishie.

The new owner of the shop was formerly connected with the L. W. Phillips & Sons, local Dodge dealers and is an experienced mechanic. Repair work on Dodge and Ford cars will be the specialty of the new concern although efficient service is guaranteed for all makes of cars.

The garage will carry the Pan-Am line of gasoline and oils, cooling plant into operation for this season.

G. W. Morgan, another grower, also predicted an excellent season with more development and more acreage than heretofore. He said he believed crops were in good shape and the prospects bright for a successful season.

W. J. Lawton, one of the leading general merchants, said that business is better this fall than it was at this time last year. He said he is confident there will be more money in celery and fruit this year than in 1926 and that the season will be an excellent one for the Oviedo merchants. He said another factor was the increase in the laboring population since last year.

FITZPATRICK DIES
MAMARONECK, N. Y., Nov. 17.—(INS)—Frederick F. Fitzpatrick president of the American Locomotive Company and a director in numerous other large corporations, died at his home in Larchmont, last night, it was learned here today.

Winter and Spring Are Wea

Martin L. Wheeler, 76-year-old Florence, Colo., hotel owner, was lonely and Miss Midge Glenn, 20, of Everton, Mo., was tired of farm life. They exchanged a few letters, met for the first time in Pueblo and were married an hour later. Wheeler has nine children, having married the first time 56 years ago. He was the boyhood chum of Midge's great-grandfather.

DEMOCRATS TO HAVE HARMONY BANQUET SOON

(Continued from page One)

tive proceeding and one not calculated to accomplish much good. They contend that Gov. Smith is the outstanding figure in the party today, and that to deny him the opportunity to speak at a Democratic banquet would be tantamount to touting Hamlet without Hamlet. There will be much discussion and many conferences before a decision on the program is reached that much is assured.

Of course, it was pointed out by some Democrats, there is no assurance that Gov. Smith would attend if invited. The New York governor has been assiduously refraining from making any speeches outside of New York, and those he has made inside his state have been concerned solely with state matters. He has not publicly discussed Democratic national politics since he so dramatically appeared on the stage in Madison Square Garden one night in July of 1924.

American Legion To Launch Drive To Aid Wounded

(Continued from page One)

\$12,000,000 the first year, with a reduction each subsequent year due to deaths.

"This bill would accord to the officers, who risked their lives for their country during the World War, the same disability retirement privileges now enjoyed by the professional soldier," Senator Tyson explained. "It is an act of justice to the men, who gave up remunerative positions to serve their country and who returned to private life, unable to continue their former professions, due to wounds." The measure twice has passed the Senate in previous years only to die because it failed of enactment in the House.

WINTER HITS N. Y.

NEW YORK, Nov. 17 (INS)—After experiencing the warmest Nov. 16 in history, New York today was due for a touch of winter, according to weather forecasters. Rain was to be followed by freezing temperatures.

OFFICER IS ARRESTED

PERKING, Nov. 17.—(INS)—Heinrich Kreuz, disbursing officer of the United States Legation for whom a search was made in connection with a shortage of \$31,000 in government funds handled by him, was arrested today in Singapore.

MISSISSIPPI TO BE NEXT ELEVEN FACING SOUTHERN

Moccasins Have Strong Team To Play In Thanksgiving Day Scrap; Team Back From Game With Alabama Eleven

LAKELAND, Fla., Nov. 16.—(SPECIAL)—Schedule-makers have been most unkind to the Southern College Moccasins this year, and after having been met and beaten by two undefeated teams in the S. I. A. A. the Moccasins have yet another undefeated outfit to face. This call is the Mississippi College Choctaws, who will arrive here Turkey Day for a scrap with the Moccasins.

The Missisippians seem fully as strong as any team the Moccasins have battled this year. Their most recent victory was when they invaded the camp of the Birmingham-Southern Panthers and bewildered the Panthers with a dizzy forward pass attack. The Choctaws defeated the Panthers 21 to 19.

Captain Jimmy Haygood and his boys back from their disastrous road trip of ten days, have started preparing for the invasion of the Choctaws. Haygood believes that with his charges battling on their home soil they will have a much better chance to hold the Missisippians than was the case when they went against the powerful Chattanooga eleven last Saturday.

The main fly in the ointment is that Russel Dugan, his backfield star, is still limping from the injury he received in the Stetson game. The Moccasin mentor had hoped it would heal in time for the Mississippi conflict, but it looks right now as if his lones were in vain.

Otherwise the Moccasins will be all set for the Choctaws, with Hollis Galloway having fully recovered from an early season injury. Galloway was right for the first time in the contest with Chattanooga and in the game the coming Saturday with Rollins and the battle with the Choctaws he should be able to give a good account of himself when it comes to running the team at quarter.

COLDS THAT DEVELOP INTO PNEUMONIA

Permanent coughs and colds lead to serious trouble. You can stop them with Cromolium, an emulsified cream that is pleasant to take. Cromolium is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, Cromolium is recognized by high medical authorities as one of the most effective means of permanent relief of colds and all forms of throat troubles. Cromolium contains an alkaloid to soothe and heal the inflamed membranes and inhibit the infection and irritation which the colds cause. It is a powerful germicide and soothes the rawness of the throat. It is the most effective remedy for colds and throat troubles. Cromolium is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Cromolium is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

This graphic picture shows the wreckage of the gas plant of the exploded. Many people were killed and scores were injured in the Equitable Gas Co., at Pittsburgh, after a 100-foot gas tanklast, which rocked all of Pittsburgh.

English Woman Unmoved Over Possibility Of Being Heir To American Fortune

LONDON, Nov. 17.—Although she has been told that there is a possibility of her receiving a big portion of an American fortune exceeding \$500,000, Mrs. W. F. Pearson of The Waldrons, Croydon just smiles and says: "It may be his sister."

Her sister, who lives in Hampstead a suburb of London, is similarly calm. So are her seven sisters and brothers.

If they can establish family relationship satisfactorily they will be entitled to participate in the estate of an American multi-millionaire who died two years ago.

Mrs. Pearson received the surprise of her life when holiday-making in Belgium.

"A letter was sent to me from an Irish lawyer. It informed me of this fortune, and stated, that I probably was entitled to benefit. Naturally it was exciting to hear such news. If the claim of my family is established, the possibilities would certainly be interesting."

"But we remain unperturbed. We prefer to wait and see what happens, rather than hurriedly assume we are all millionaires."

There are many claimants for the fortune, and if my claim were established so, too, would be those of my brothers and sisters. Also it would be necessary to ascertain whether there were other relations entitled to share. So far as I can see there are forty or fifty claimants."

Mrs. Pearson smilingly declared that she declined to believe in such extraordinary good luck until it materialized. Then she explained: "The fortune which, from all accounts, amounts to \$565,000,000 was amassed by William Andrews Clark, who died two years ago. He is supposed to have left his home in the North of Ireland at the age of 20. He had been in for law and school teaching, but gave up these occupations, so it is said, to journey to Colorado. From there he went to Montana and prospecting for copper with such striking success that he rapidly made his fortune. At that time he added to his wealth so considerably that he assumed control of vast undertakings and became a Senator."

"His first wife died childless, and so did his second. The search for heirs has apparently been going on ever since his death, and several claimants from Australia appeared. They claimed to be descendants of the eldest son of the millionaire parents."

Residents in their town (Newcastle, N. S. W.) formed a syndicate and subscribed \$100,000. Representatives of that syndicate recently paid a visit to Ireland. They had with them a precious old yellow Bible that had been brought from a farm house in Australia. In it was recorded the marriage of John Clark and Mary Andrews, who it is claimed, were the parents of the millionaire.

"This Bible is the property of the grand-children of the Joseph Clark who, it is believed, was a brother of the millionaire. Joseph is supposed to have gone to Australia at that time that his brother went to America. Inquiries in Ireland are said to show that William Andrews Clark, builder of the fortune, was a descendant of Thomas Clark and Mary Harris, of Bangorban in the Parish Kilmoghney."

"My family belongs to the North of Ireland, and presumably, in the search of the records, my name was obtained. My mother died 23 years ago, and my father, who would have known all about it, died last February at the age of 91. If the reasoning is correct my great-grandmother and Mr. William Andrews Clark's grandfather were brother and sister."

Child Welfare Body To Meet Shortly In Birmingham, Ala.

BIRMINGHAM, Ala., Nov. 17.—(INS)—A program covering various phases and problems of child welfare, including foster homes, Mother's Aid, health clinics, institutional care, and child-placing has been announced for the Regional Conference held under the auspices of the Guild Welfare League of America in Birmingham, November 21 and 22.

It is expected that a record number of representatives from various South Carolina institutions and agencies will attend the conference, since the membership of the League includes a large number of charitable institutions.

The chairman of the Birmingham Conference is A. T. Jamison, head of Greenwood, South Carolina. The League itself is an association of child-care agencies and institutions, which is constantly developing better ways to care for dependent children. It is sort of travelling college of children's social work and benefits. It is continually improving the progress of child-care the lives of thousands of children are being changed materially for the better.

U. S. IS REVIVING TENNESSEE JURY OLD TRADE DAYS OPENS PROBE IN ON MISSISSIPPI NEGRO LYNCHING

Tonnage Has Been Increased Ten Times By Federal Aid In The Last Eight Years; Steamboat Days Are Back

Civic Leaders Are Expected To Identify Mob Members In Quiz Into Storming Of Jail And Hanging Of Youth

ST. LOUIS, Mo., Nov. 17. (INS)—In eight years the United States government has done the impossible—rejuvenated and infused a life into the dying Mississippi river trade. It has turned trade back to the surging river, increasing annual tonnage from 129,000 tons in 1918 to 1,200,000 tons in 1926; it has more than quadrupled its inland fleet of steamers and barges and it has improved the navigation conditions on the river itself.

But more important than anything else, it has smashed the bugaboo, and more and more independent packet companies are putting boats in the short trades between important river cities. Plans already are underway for the formation of privately owned corporation to operate in the longer trade routes and one group actually is considering building a fleet of fast passenger boats to run between St. Louis and New Orleans, as in the days of old.

Old Packet Lines

Several packet lines operate from St. Louis; some sending their steamers to up-river Illinois and Missouri ports, others plying the down river stretches as far as Cape Girardeau, Mo.

At Cairo steamers work the Ohio river and venture out for a few nearby towns along the Mississippi.

Memphis has many packet boats plying up and down the river to Arkansas, Tennessee and Mississippi towns. At one time service was maintained to Vicksburg, and may soon be re-instated, it is understood.

Vicksburg is an important river town. Its steamers connect with New Orleans on ports on the Yazoo river.

Packet trade out of New Orleans, through the bayous and up the Red and Ouachita rivers grows heavier yearly.

The writer, observing down-river development from the U. S. express steamer Gulfport, saw many steamers now plying regular trade routes that were not in service five years ago. The Memphis-New Orleans companies especially have taken encouragement from the government's accomplishment.

Shippers Encouraged

And the small packet companies in turn encourage the small shippers, whose cargoes are too small for handling by the government. As packet companies in their home districts owned by home interests.

McADOO IS DEFENDANT WASHINGTON Nov. 17—(INS)

Washington Nov. 17—(INS) Secretary Gibbs McAdoo, today was named defendant in three suits totaling 45,000 growing out of an accident near Edison, W. Va., on June 6.

Go into the trade, the merchants of fer, more and more freight for shipment on the river.

No less than six large corporations and financial groups are watching and investigating the workings of the federal barge line. Soon, it is believed the service will go over to private ownership and that much improvement and expansion will follow.
