TAXES ARE MADE FIRST LIEN UPON STATE PROPERTY

Measure Passed By Legislature Would Be Given Precedence To All Claim Due Under Legal Assessments

TALLAHASSEE, June 4.—Taxes imposed in accordance with constitutional provisions are made a first lien with precedence over all other liens on property in Florida, under provisions of a bill passed by both houses of the state legislature. The measure, introduced by Representatives McLeran of Sumner and McKenzie of Putnam, members of the House Committee, reads as follows:

"Be It Enacted by the Legislature of the State of Florida: Section 1. That all taxes imposed pursuant to the constitution and laws of this state shall be a first lien superior to all other liens on any property against which such taxes have been assessed which shall continue in full force and effect until discharged by payment, and no act of omission or commission on the part of the tax assessor, or any assistant tax assessor, or any tax collector, or any board of county commissioners, or any clerk of the circuit court, or any other officer of this state or any newspaper in which and advertisement of sale may be published, shall operate to affect the payment of said taxes, but any such acts of omission or commission may be corrected at any time by the officer or party responsible for the same

in like manner as it now or may hereafter be provided by law for performing such acts in the first place, and when so corrected they shall be construed as valid ab initio and shall in no way affect any process provided by law for the enforcement of the collection of any such tax."

Schulte Realty Co. Opens Office Here; Strauss In Charge

The A. B. Schulte Realty Company, Inc., with main offices in Daytona, has opened a branch office in Sanford with Teddy Strauss, district manager, in charge, according to an announcement of the company this morning. Mr. Strauss' headquarters will be located at the Motezuma Hotel.

The Schulte company is making offerings in New Smyrna Beach properties and Mr. Strauss announces that a daily bus service will be operated from Sanford to the bus stop leaving at 9:30 o'clock in the mornings and returning at 4:30 o'clock in the afternoons.

New Smyrna beach properties, Mr. Strauss says are proving popular due to the ideal location. The property is bounded on the east side by the Atlantic Ocean and on the west by the famous Indian River and now is connected with New Smyrna proper by a magnificent bridge recently completed.

Mr. Strauss points out that the most beautiful on the entire Florida coast and that the temperate summer climate makes it an ideal all-round summer resort.

"Tampa Steps Out" Is Name of New Song to Be Sung by Realtors

TAMPA, June 4.—"Tampa Steps Out" will be the name of a beautiful song that will be sung by local delegates to the annual convention of the National Association of Realtors in Detroit during June 23 to 26 and at the Kiwanis International in St. Paul during June 22 to 25, according to plans now under way here. Both the realtors and the Kiwanis will carry a special quartette to their convention for the purpose of singing the song, which was composed by Frank W. Sulley, of this city. The Real Estate Board of Tampa will pay the expenses of the quartette to the convention and will distribute 10,000 copies of the song free while the Kiwanis Club will distribute 5,000 copies of the song among the homes in the towns that they will visit on the way to the International.

St. Petersburg Park Plans to Be Studied

ST. PETERSBURG, June 4.—Plans for the most advantageous expenditure of the \$250,000 voted at the recent bond election for park improvements will be studied in detail this summer by W. F. Smith, chairman of the park board. He will go to northern and eastern cities this summer for the study of their parks and will call upon some of the leading landscape architects of the country for tentative plans for the development of the waterfront parks of this city. Mr. Smith will make a report to the park board upon his return and the improvement of the parks will start immediately.

1,000 INVESTING BANKERS TO VISIT ST. PETERSBURG

Committee of National Association in State to Plan for Convention Which Meets On December the Seventh

ST. PETERSBURG, June 4.—Approximately 1,000 bankers from throughout the United States will gather in this city on Monday, December 7, for the annual convention of the National Association of Investment Bankers of America according to announcement of the committee on arrangements. The committee which is in the city now making preliminary arrangements is composed of Clayton G. Schray, of Chicago, assistant secretary of the national association; James N. former Harvard Gridiron star.

According to Mr. Schray, many of the members of the association are former athletes of college and record holding fame and it is planned to have a series of athletic events as part of the entertainment. These events will cover baseball, tennis, golf, and various other sports.

Three special trains will leave Chicago and two special trains will leave New York on December 4 next and will arrive in Winter Park on Sunday, December 6, the transportation chairman explained. Here the delegates will enter buses and be carried on a tour across the state to St. Petersburg, passing through Orlando, Winter Haven, Tampa and other towns along the route where they will be entertained.

Among the athletes who will be present, it was said, will be Bob Gardiner, Harvard, pole vault champion; Perry Adair, Atlanta, Chick Evans, Chicago, and Harrison Johnson, Nelson Whitney, all golf champions or record holders at one time; and Tack Hardwick,

BIBLE THOUGHT FOR TODAY

A CURE FOR WORRY.—Be careful for nothing; but in every thing by prayer and supplication with thanksgiving let your requests be made known unto God.

And the peace of God, which passeth all understanding, shall keep your hearts and minds through Christ Jesus. Philippians iv: 6, 7.

FACE THE SUN

Don't hunt for trouble, but look for success. You'll find what you look for: Don't look for distress, if you see but your shadow, Remember, I pray, That the sun is still shining, But you're in the way. Don't grumble, don't bluster, Don't dream, and don't shrink, Don't think of your worries, But think of your work. The worries will vanish, The work will be done No man sees his shadow Who faces the sun.

Condon is evidently one of those one track-minded men, whose regard for veracity is no greater than a cat's paw for a dog and since he is from California what better could you

Florida Sets The Pace

Once again Florida takes the lead. This time it is in the matter of speed laws. Great was the surprise but welcome was the word which came over the Associated Press wire from Tallahassee that on Tuesday both houses of the legislature had accepted the theory that improved highways are designed for rapid transit, and that they had increased the automobile speed limit from thirty to forty-five miles an hour.

With a wonderful system of roads already constructed, and many more in the course of building, Florida traffic is safe even though it moves at a faster clip than in other states. And just because the speed limit is forty-five miles an hour there is no reason to think there will be more recklessness in the driving of motor vehicles. A heavy car built so that it holds to the road can easily go forty-five miles an hour without menacing either life or limb. And with the liberal speed limit which is being allowed there will probably be fewer accidents than there have been up to this time.

As a rule when a man is driving forty or more miles an hour his mind is on his driving and he is on the alert every minute while the contrary is true when a driver is compelled to poke along at a slow gate. He then begins to do sight-seeing and often loses control of his car.

Another good feature of the measure just passed is that it regulates the speed in small towns to fifteen miles an hour in the business districts and twenty-five miles an hour in the residential sections. This should result in fewer towns staging hold-up games on unsuspecting motorists who violate some ten-mile-an-hour ridiculous law in a town with less than twenty-five inhabitants.

This is another good publicity stunt on the part of this progressive state which has come to realize what favorable publicity means to it. When Florida's action becomes known this state will come in for another good batch of advertising, and free advertising at that. And the result will be even a greater number of tourists.

The lawmakers of Florida deserve to be congratulated on the passage of this measure. It is a good move and one which demonstrates good judgement on the part of those who voted for it.

Florida does things with great rapidity. It moves fast. It shows the way to the rest of these United States.

Another Good Example

One of the methods adopted by Miami in its anti-mosquito campaign is a "machine barrage". Taking the place of four men, an automatic squirter will be used to spray oil into mosquito breeding waters. Used cylinder oil drained from the crankcases of automobiles in public garages is bought by the city at low cost, and the machine will shoot this oil at the rate of five gallons a minute into places where mosquitos are likely to breed.

Already the anti-mosquito campaign in Miami is said to have so greatly reduced the number of the pests that very little complaint of the nuisance is heard. But the idea is to make the entire Miami section mosquito-less. And there will be no cessation of the campaign until this is achieved.

The automatic machine purchased this season to help in the work cost three hundred and fifty dollars. It is mounted on a truck chassis and is carried to any section of the city where undrained land makes a mosquito harbor. A pressure of four hundred pounds makes it possible to send the oil spray quite a distance, and the work is done far more rapidly than can be done by men with hand sprays.

Some day not very distant every section of Florida will be free from mosquitoes. The rapid advancement of development projects brings with it the establishment of drainage system, the filling of low lands, the elimination of all big areas in which mosquitoes used to reign supreme. And along with this prospect is the present readiness of the people to join in every campaign of warfare against the pest. Educated as to the habits of mosquitoes, man knows how to get rid of them by simple means. It would seem that every town in Florida could afford an oil-spray machine like Miami's to assist in the good work.

MY FAVORITE STORIES

BY IRVIN S. COBB

Immediately following the Spanish-American war a story went the rounds regarding a volunteer who suffered grievous hardships, first at Chickamauga, then at Tampa, then in Porto Rico and wound up by having a spell of slow fever. One night when he was convalescent but still shaky, an officer passing through the hospital ward overheard the invalid as he conversed with himself. "I love my country," the volunteer was saying. "I've fought for her and if it was necessary I was ready to die for her. But if I get out this mess I ain't never going to love another country as long as I live!" For this ancient yarn there is a companion piece of comparatively recent vintage. A battered veteran of the regular army, who had been wounded at Chateau Thierry, was visited by a chaplain. The latter inquired regarding his well-being and expressed the hope that the soldier would live to wear the uniform for a great many years to come. "Well, padre," said the old timer, "so far as I'm concerned I'll tell you how the world stands: Before this here World's war came along I thought I'd had a lot of experience and had seen my share of hard campaigning. I served in Cuba and in the Philippines, and when the Indians acted hostile, I went on the scout after them several times, out West. But we didn't have to deal with pizen gas or high explosive shells the size of them little mix-ups. Padre, I of galvanized iron ash-cans in any un-lung back if Uncle Sam wanted me to help mop up anybody that went on the rampage back home in God's country. But strictly in confidence, I don't mind telling you that this here is going to be my last World's war."

AMENDED "TO DEATH"

TAMPA TRIBUNE

The Tribune regrets to note the state advertising fund bill has been amended by the Senate, reducing the amount of the appropriation from \$200,000 to \$100,000 and changing the personnel of the body to be charged with the expenditure of the money.

As originally drawn, the bill provided for a state board, to be appointed by the Governor, with each congressional district represented. This would have enabled the Governor to select men who have some knowledge of advertising and men who have had some experience in preparing and circulating publicity. The amendment deprives the Governor of this privilege except in the case of two members from the state at large, and places the Commissioner of Agriculture, the Comptroller and the State Treasurer on the board, thus vesting virtual control of that body in state officials who, however efficient they may be in the discharge of their official duties, have little or no knowledge of or acquaintance with advertising or publicity.

The sum of \$50,000 would not be sufficient to carry on a campaign worth the time, trouble and expense. When it is considered that Miami alone is expending \$300,000 the coming year in advertising Miami alone, that Tampa is expending close to \$100,000 through the Board of Trade alone for this purpose, not including the large sums spent here by private enterprise, a fund of \$50,000 for advertising the state as a whole is manifestly inadequate. In order to obtain the proper results from a state advertising campaign, at least \$200,000 a year is required, and this money should be spent and this advertising directed by men of experience along with the large sum of money of the development, resources and progress of the state—not by men who are closeted in official capacities in Tallahassee and who are, by environment unfitted for the job of conducting a great advertising campaign for the state.

If the Senate amendments are to be adhered to then it is better that the bill be killed in its entirety. As amended it would bring no worthwhile benefit to the state and the money spent would virtually be wasted.

As Brisbane Sees It

Price Fixing Legal. Religious Schools Win. Marshall Is Dead. Ladies and Discipline. By ARTHUR BRISBANE (Copyright 1925)

THE SUPREME Court decides that the "trade association" method of co-operating, within great industries is NOT a violation of the Anti-Trust law. That's a most important, and very wise decision, but it will cause roars, and heart pains in certain circles. It means that the heads of great industries can agree on prices to be paid by the public, and it will save much trouble to cement makers, steel men and others.

IT WILL be said that the decision will open the door to extortionate price fixing, and there is no doubt that it will facilitate excesses, if manufacturers are foolish enough to indulge in them. But that can be attended to when the times come. Meanwhile, prices will be stable, wages can be made fair, without giving the mean employer an unfair advantage. And the business should go to the best goods and the best salesmen.

A CONDITION of anarchy and price cutting is not desirable in modern business. Stability is the great thing. The Government establishes it in post office rates, the Interstate Commerce Commission enforces it in railroad rates.

ANOTHER SUPREME Court decision rendered yesterday will meet with general approval. It declares void the Oregon law compelling all the children to attend the public schools, and thus preventing an attendance at private schools that include religious teaching.

FATHERS AND mothers should have something to say about their own children, the mothers especially. And the "something" include children's schooling, the right to include in it as much religion, any kind of religion they choose. If the parents themselves pay for any special schooling desired for their children, and provided such teaching includes the fundamentals of sound, practical education, there should be no meddling interference.

PUBLIC SCHOOL advocates should concentrate on improving the public schools with public funds and let other methods alone. And the other lines of education should and must be careful to let the public schools alone.

THOMAS R. Marshall, once Vice-President and always a good American citizen, is dead. He knew how to mean what he said, and to make others know his meaning. When he was Governor, he certainly spoke not taking the law seriously, decided to have horse races and betting, in the good old way. Indiana's laws forbade it.

GOVERNOR Marshall assured that there would be no betting, said he believed it, and would even help to make it true. "I'll send the militia to the track, with instructions to arrest every man making or taking a bet, and I'll send enough militia to do the job well." The track did not open.

WOMAN, ESPECIALLY as she grows older, is among the most determined of created beings, and slowly, through the ages, she has been educating man, and making him, if necessary, by violence.

Two recent cases: Mrs. Alexander Norbert, fifty-one, of Illinois, confessed she killed her husband and said she would go to State's Prison. She set fire to her bed in prison and burned herself to death. Mrs. Elizabeth Storaci, of New Jersey, mother of eight, decided that her husband deserved punishment, and killed him by pouring boiling olive oil over him as he lay in bed.

WOMEN OF refinement rarely do such things, but all women, according to their development, find means to make men better, or make them sorry they are so bad. And to woman's determination may be attributed practically all of men's reluctant moral betterment.

THOUGHTFUL FINANCIERS, "managing" railroads with their pen and stylus through their fingers complain. They say "workers on railroads lack the old-time loyalty and enthusiasm."

That's sad, but how do the financiers know? They never meet the men.

YESTERDAY THE Pennsylvania road retired ninety-five men on pension. Five had served the road faithfully for fifty years or more, and forty-five for forty years, or longer.

IF RAILROADS were loyal to their men, as the men are to the roads, there would be less trouble.

THE LAURA SPELMAN Memorial, established by Mr. Rockefeller in memory of his wife spent last year in useful public work \$6,580,000.

In old days the money might have been spent in an effort to placate divine justice. Now it's used to help the living.

And that's an improvement.

THE QUESTION NOW ARISES

ROUGH STUFF

ASHEVILLE CITIZEN

As a gossip factory, our beautiful and famous national capital at times hangs up impressive records. Now the talk across the afternoon tea-cups is that certain rich Americans go over to France, accept invitations to banquets, arize and remark how mistaken the United States is in not cancelling the French debt, and, in return for their scenic denunciations of their country, are "decorated" thus acquiring the right to wear a broad and brilliant ribbon across their manly chests. But the gossip has not stopped at that. The other day Representative Hamilton Fish of New York asked Mr. Coolidge to enforce the criminal statute against Americans who communicate with any foreign official with the intention to influence or defeat the policies of the United States. Such a law Mr. Fish declared was enacted while Benjamin Franklin was Ambassador to France and it provides for a \$5,000 fine and three years imprisonment for the guilty party. Mr. Fish became personal in the matter, "urging that a test case be made against a prominent New York international banker for apologizing for the United States for having asked France to recognize and fund the war obligations." Whether the gentleman mentioned got a "ribbon," is not disclosed in the dispatches. But how is it to be proved that France has given anybody a "ribbon" for saying one thing or another? How connect the "decoration" with any reference to the debt? Besides, why interfere with the almost universal desire to wear a ribbon, emblem or other insignia? Are the Washington gossips envious of the decorated ones? Everybody knows that the average man is monstrously attracted by the opportunity to wear an upron, sash or plume, even in America. Top that off with a change to display the ornamentation in a parade or a public ceremony, and resistance to the temptation is well-nigh impossible. Prosecute Americans for wearing ribbons abroad when their fellow countrymen drape themselves with var-colored coats at home? The thing hardly seems reasonable.

FINAL BUSINESS MEETING OF YEAR HELD BY THE WOMAN'S CLUB

By Mrs. E. A. Douglass the final business meeting of the club year of the Woman's Club was held at the club house, Wednesday afternoon, immediately after the luncheon, with the president, Mrs. Henry Wight in the chair.

The annual reports from the officers and chairman were heard, and each was full of interest, as they related in detail the various important things which have been accomplished during the year.

The first vice president, Mrs. W. M. Scott, who is finance chairman, gave a splendid report of what the club had done along financial lines, and also outlined the policy of the organization in regard to raising money, which had worked out most agreeably. The report of the second vice president, Mrs. W. A. Fitts, membership chairman showed a large increase in membership during the last year.

Mrs. E. M. Galloway, third vice president and program chairman, reported that in her absence, on account of illness, her work for the most part done on the programs by Mrs. Fred T. Williams, to whom the credit was due for the splendid year books. Mrs. Williams stated that she had efficient co-operation in this work and asked for a continuance of this in getting out the year books. It was also stated that it was a matter of gratification that the year books had been carried out almost in full. Members were asked to pay their dues at once so names could be put in the year book.

Mrs. Galloway, who has just taken over the duties of recording secretary, gave a brief report, asking for the observance of the rules of practice in making motions, making it possible to keep the minutes correctly.

The treasurer Mrs. John Meisch, made a report of which the club is justly proud, showing that the finances of the club was in a good condition and all obligations paid.

The report of the chairman of the literature department, Mrs. C. C. Woodruff, was very interesting and the outline for the program for the year was given by the chairman of programs, Mrs. E. L. Markel.

Mrs. D. P. Drummond, music chairman, reviewed the work of her department the past season and gave a most delightful outline of what the next year's program would be.

Mrs. W. D. Gardner, vice chairman of the social department, reported for the chairman, Mrs. W. L. Morgan, who has moved to Daytona. Mrs. W. T. Langley the incoming chairman of the social department, gave some most interesting plans for the future.

The welfare chairman, Mrs. J. G. Sharon read a splendid report of work accomplished during the year, the greatest achievement being the donation to the building fund of \$610. Every project of the welfare department seemed to be a success during the year, the

GET-TO-GETHER LUNCHEON GIVEN BY WOMAN'S CLUB WEDNESDAY

The "Get-to-gether" luncheon of the Sanford Woman's Club which was held yesterday at the Club house for the purpose of discussing club affairs of the past, present and future proved a most delightful affair.

The members, upon their arrival, were greeted by the hostesses of the day, Mrs. George D. Bishop, Mrs. R. A. Newman and Mrs. G. Irving Loucks and Mrs. Henry W. Wight, president of the club.

The club was beautifully decorated with bowls of rich colored zenias and daisies which came from Mrs. Wight's wonderful garden. Five large tables were arranged, one for the president with the past presidents, and one for each executive chairman with her standing committee. These tables were each centered with a bowl of zenias which Mrs. Wight presented to each chairman. Many small tables were arranged, each being centered with a small crystal basket of daisies.

A most excellent luncheon of four courses was served at 1 o'clock. The different luncheon committees was composed of: Mrs. J. D. Woodruff, chairman, Mrs. C. R. Kirtley and Mrs. B. D. Caswell. They were ably assisted by Mrs. B. B. Baggett, Mrs. Percy Mero, Mrs. W. C. Hill, Mrs. Clyde Byrd, Miss Fern Ward, Miss Olive Newman, Miss Mae Holly and Miss Mildred Holly.

During luncheon the program was given. Mrs. Mary Puleston asked grace for the assembled body. Mrs. Wight, in her usual charming manner gave an address of welcome. The gathering under the direction of Mrs. W. S. Leak sang the following song most lustily:

Tune, "There is a Tavern in the Town."
 There is a club in Sanford Town, Sanford Town,
 And there the women sit them down, sit them down,
 And figure out the things they want to do,
 And then you bet they put them through.
 So the men had better hurry,
 For there'll be an awful flurry,
 If the things we know we want do not get done, done, done.
 Mrs. Wight then introduced in turn the past presidents of the club, Mrs. E. M. Galloway, Mrs. John Leonard and Mrs. I. E. Tolar, each of whom gave most interesting talks of club affairs during the time of their administrations. (Mrs. D. L. Shoemaker, of Eau

Pensacola Is Asking Mobile Rate on Iron

PENSACOLA, June 4—Petition for the adjustment of rail rates on iron and steel shipped from the Alabama mineral districts to Pensacola will be placed on a parity with those granted to Mobile has been made with the Alabama Public Service Commission by the standard railroad companies operating in that state. This announcement was made here by the traffic department of the local chamber of commerce.

Traffic manager Percy W. Reed, stated that he expected that the adjustment would be made as the Interstate Commerce Commission had ruled that the rates for Mobile were discriminatory against Pensacola. He added that he thought there would be protest which might delay the adjustment for a short time. The adjustment, he said, will give Pensacola a much wider distribution of the products in question.

The rates from the Birmingham district on manufactured iron and steel articles is 19 cents per hundred to Mobile and 33 cents to Pensacola. The appeal asks that these be put on a par.

TWO PASSES AND TRIPLE IN FIFTH DEFEAT LOCALS

Lakeland Makes Two Runs in That Inning Which Proved Sufficient. But Visitors Add Four More

Two free passes to first and a triple in the fifth inning of yesterday's game gave Lakeland two runs, which proved to be enough to win, but the visitors, to make victory doubly sure, added two runs each in the sixth and seventh innings, bringing the total score to six.

Sanford's lone tally was made in the third inning, when Chauncey singled and scored on a double by Cusack. This was the only inning in which the locals were able to get more than one hit. Luther for the Highlanders holding them to a total of seven for the entire game.

The visitors began hitting Cusack in the second inning, getting a men on third and one on second, but Cusack tightened up and retired the side without a score. In the fifth, Ponder walked, Ery went out to left field, Luther walked and then Dumas tripled to right scoring Ponder and Luther. Buckley went to first on fielder's choice and Dumas was thrown out at the plate. Surface fled out.

In the sixth, with one out Welsh singled, Doyle singled, Welsh going to third, and Doyle to second on the throw Ponder was safe on fielder's choice and Welsh was thrown out at the plate. Ery singled, scoring Doyle and Ponder; Luther singled but was forced out at second.

In the seventh, Dumas walked, Buckley singled and Surface tripled scoring Dumas and Buckley and then Brazier, Welsh and Doyle were easy outs.

Sanford started what looked like was going to be a rally in the ninth, when Frisbie singled with one out, but Murphy hit into a double play and the game was over.
