2 Recommendations Are Understood To Have Been Adopted To Assist Germany

LONDON, July 28.-(A.P.) stood to have been adopted today by the seven-power conference considering Germany's financial exists. The first in that the gov-ernments concerned should invite the Bank of England, the Bank of France, the Federal Reserve Bank of the United States, and the Bank for International Settlements, to renew for three months the hun-dred million-dollar credit they granted Germany for one month on July 15.

July 15.

The second is that the principal private banking establishments of the countries concerned should be urged to leave their existing cred-It appears to use that there is not much left to be but to pass the appropriation hill and the binance ministers of the nations participating in the conference for determinant as very and so home. This could have been done to days ago just as well as new.

The Senate passed a two cent gas tax this afternoon, but it is not tax this afternoon to the finance ministers of the nations participating in the conference for determination as to whether, any technical considerations would prevent their being carried out.

Secretary Stimson said the conference is making progress and he is appeared to leave their existing credits in Germany's hands. The recommendations, it is said, are being presented this afternoon to the finance ministers of the nations participating in the conference for determination as to whether, any technical considerations would prevent their being carried out.

# Hawks Will Seek To Regain Lost Record

NEW YORK, July 22.—
(A.P.)—Capt, Frank Hawks announced today he would leave early tomorrow on a round trip flight to Hawana to regain the record recently lost to James Hall, stock broker, Hawks still holds the elapsed time record from Havana to New York but Hall beat his flying time in both directions. Hall left at noon for Montreal planning to start back immediately from there in an effort to beat Hawks' record of an hour and 45 minutes from that city here.

## REDUCTION MAY BE POSSIBLE FOR SCHOOL MILLAGE

Proposed Measures In Legislature Would Be Help To County

If the Legislature passes proosed measures which will result in more than \$7,500,000 being appropriated for school purposes in the state during the coming year, Seminole County taxpayers will be levied but five mills for the operalevied but five mills for the opera-tion of their schools in 1931-1932.

According to the tentative bud-get prepared by T. W. Lawton, superintendent of schools, and pre-sented to the County Commission-ers last week, the taxpayer gets a reduction of five mills for school purposes because Seminole County's share of the appropriation from the state will be slightly in excess of \$90,000 almost twice as much as it has been in former

werklos of short-term credits into long-term credits during the next size of short-term credits during the next size of the proposed share is about \$60,000,000. France's share is about \$60,000,000.

The American proposals were made public today by Acting Secretary Casile of the state department. He emphasized the proposal as were not in the nature of a merotorius.

# What How PLYMOUTH LOATING POWER THE WHOLE RATION WANTS TO KNOW MORE ABOUT I

cradle. Vibration is thus en-The revolutionary character of the New Plymouth has created a great flood of in-turest. Even the hardest of akaption are so amazed at this new four that performs like an eight that they ask easerly for the facts behind this tre-

mentious eccomplishment. What is Floating Power? Ploating Power is a term applied to the new and revolutionary principle of mounting the engine in the car frame, developed by Chrysler Motors englneers for the New Plymouth.

Just how is the engine

on two live-rubber mountings nearly an inch thick. These mountings are so placed that a line drawn through them pas-ses through the center of gravity of the engine. Thus the engine is suspended in perfect

What does Floating Power do? The live-rubber mountings allow the engine to rock upon its natural axis as if in a cushioned tirely eliminated from the car.

Why does Floating Power succeed when all other methods fail? Because Chrysler Motors engineers have not tried merely to dampen vibration; they have achieved an entirely new principle which dissipates the motor impulses so that they never reach the body and frame.

Why and How is Power Increased? Because the elimination of vi-

bration allows higher compresbion, which gives greater horseshwer without increasing cylinder size. Ploating Power makes possible 56 brake-test horsepower and actual atopwatch speeds of 65 and 70 miles an hour, and pick-up from 0 to 40 miles in 9.7 seconds.

What else does Plymouth offer?

A score of things! Plymouth's Free Wheeling combines the advantages of the various types now in use. As a result, it per-

mits Free Wheeling in all a ward speeds, and it also may be completely locked out! To Rasy-Shift transmission walks enables you to white without chables, from second into his and back into second, if wish, at speeds up to 50 miles an hour.
