A country club property of lakes and hills.

## Skillful Treatment of Nature's Handiwork

At Loch-Arbor a wonderful setting was furnished by nature-for here will be found the most picturesque type of tropical beauty in lavished profusion. Skillful landscape engineers, men with vision and appreciation of its unmatchable possibilities, are given free rein to produce a homesite of the highest type.

Driveways are laid out with graceful curves, its fascinating lakes and waterways are now being developed. All improvements which are now being installed, are of the highest character and complete in every detail.

THE COUNTRY CLUB SECTION WILL BE PLACED ON THE MARKET WITHIN A FEW DAYs. RESERVATIONS CAN BE MADE THROUGH OUR REPRESENTATIVES, OR AT THIS OFFICE. IMMEDIATE SELECTION IS ADVISED.

When you drive this car yourself you will at once realize the newer luxury of Pullman smoothness and steadiness at high speeds.
You will realize that neve; before did you drive with such safety, such assurance.

You will know that no SANFORD AUTOMOBLI

|  | Lumn cement much effect |
| :---: | :---: |
|  |  |
|  |  |
|  |  |
|  |  |
|  |  | by manufacturers of a new type of hydraullic cement called cement gives a service which will enable builders to new fect on Florida's grent construction program

In an article in the New York Commercial, William Whit with the new cement is due to its chemical composition recipal raw material. Tests show it to have strength at the at has been allowed to sreat as the strength of concrete Another advantage of Lumnite, according to Mr. Whit tam is that "setting" begins at the interior of the mass. Th chemical action thus set up generntes internal heat, which is declared to act as a substantial protection against frost. Ab
sence of moisture in the new cement during the curing perio is also regarded as a characteristic of much value. Sweeping changes in cement building construction, into
which a fourth of the country's cement production goes, is seen by Mr. Whittam who points out that with the intro foundation today, remove and put it in service with in twene four hours, pour a base for dynamos or heavy duty machin ery today, put the machines in operation tomorrow
prove a boon to Florida. Construction work is going on in Florida on a greater scale than in any other state in the Union, and time enters into building projects as an important item. Large struetures are in course of erection in
order to provide much needed housing or office space order to provide much needed housing or office space, and
doubtless any new method by which the time consumed in building such buildings may be reduced, will meet with popbullding suc
ular favor.

## A Pilgrimage From Maine

Differing from editorials appearing in other northern papers is one published in the Portland Press Herald unde
date of December 2 . Instead of manifesting a spirit of hos lility toward Florida as many other publlications have done The Maine paper assumes a decidedly friendly attitude and
one of co-operation. ill take a special train and devote sixtcen days in February to touring Florida for the purpose of attracting attention of
some of the people who are here to the attractions that Maine some of the people who are here to the attractions that Maine
has to offer as a state in which to spend an enjoyable sum
mer. There is no doubt that Floridans will give this pilgrim age a hearty welcome and that they will do everything with
their power to give those who come all the way from Maine a good time while they are within the borders of Florida.
And there is no doubt whatever but that Maine and all of the people from that State will profit by the attitude it has
regarding Florida and the way things are done down this In its editorial regarding the pilgrimage to be made carly
next year The Press-Irald says:
 dividually the pilgrims will yet eery much more out of the
trip themselves than they pive. They will have a chance to

# ＂WATCH DAYTONA BEACH＂ 10，000 Cars a Day Roll Over the Daytona－Deland Cross－ State Highway 

Daytona is on the main highway，and this fact is one of the dominating reasons for her tremendous growth of 400 per cent ins the last five years．True，her beach is world famous，as is her climate，scenery and＂home－town＂atmosphere．But Day－ tona is in the path of the thousands who motor from the north to Florida．Daytona is the first large city south of Jacksonville on the Dixie Highway．Daytona is the terminus for the cross－ state highway to the Gulf，and today sraffic over this highway is estimated at 10,000 cars a day，or as much as passes over the Dixie IHighway．
It is logical that Daytona should have grown－and it continues to grow．Her expansion is now following the Daytona－Deland road which is the first winit of the cross－state highway．But a few mimules from the city an intensive development has been progressing．Strects are cul，a country club started，a golf course mearly conopletct，anid every o Pher feature of H．J． Coulld＇s master selburth is progressing．Alel until this week not a．lot has locein offered for salle in

## Conqueror Df The Mongolan Wilds

Dr. Roy Chapman Andrews, who startled the world a few years ago by discovering a nest of dinosaur eggs ten million years old, arrived in New York on November 9th from his Third Asiatic Expedition under the auspices of the American Museum of Natural History.

Again he attributes much of the success of his expedition to the astounding performance of his five Dodge Brothers Motor Cars.
Following is a direct quotation from an official statement by Dr. Andrews upon his return to America:

> The Gobi Desert in Mongolia is the most extensive undeveloped and unexplored region now left in the world. Until a few years ago it was retarded by the impossibly slow traffic of camel trains, the only means of communication.
> But now it is being crisscrossed in every direction by motor cars, or, more correctly by one motor car, the Dodge. Sixty or seventy Dodge Brothers cars are making regular trips far into the interior of this vast waste, bringing out loads of sables, py cious furs, wool and other products.
> No other car except the Dcdge is found there because we have tried it out on each of our three expeditions and have had it demonstrated to our satisfaction that the Dodge is the only car that will stand up under the strain of the roadless desert and do everything we ask of it.

Few people have occasion to subject their motor cars to punishment of this severity. It is reassuring, however, to know that in emergencies Dodge Brothers Motor Car is built to meet the test.

These dependable and sturdy qualities also account for the fact that more than $90 \%$ of all the motor cars Dodge Brothers have built during the past eleven years, are still in active service.
