Gridiron Contest Will **Feature Celebration** On Armistice Day

"A number of freshmen are beginning to compete strongly with some of the older men for positions on the high school squad for this season and show prospects of becoming, within the next two or three years, some of the best high school players in the state," declared Head Coach Kenneth B Hait to a representative of The By Fighting With Irresistible ton and Crouse. Acrald Wednesday afternoon.

The abestatement was made after a small first year man ran rings around contenders for the varsity team in his backfield play-This fact, stated Hoach Hait. should be an inspiration to other high school boys who are not so large or who think they are not old enough to play football. He urges that every boy attending high school and is physically able, to come out to the practises and "learn football" whether he can

What the team of next year or the year after amounts to, depends on the boys of the eighth and ninth grades," stated the coach. "If they take part in the practices, even though they are unable to make the team this year, they probably will become valuable players before they leave high school."

In less than thirty seconds it becomes a delightful open car, with all the unhindered freedom every motorist likes and enjoys. Its double utility satisfied a most urgent need-it is as revolutionary as the self-starter and electric lights. the new Studebaker Standard Six price. And the price is the same as that of the open car - with advantages in finish, fit-

tings, room and comfort no open car could ever give! Framed and shaped in steel, the upper part of the Duplex Body is built integrally with

the lower part-it functions perfectly with the lower part-it is permanently beautiful. But even without the "double-value" of the Duplex Body the new Standard Six would still be the same great Studebaker

success. For its introduction marks the beginning of an era in the automobile industry when fine cars of real quality, plenty of room and comfort, impressive appearance, splendid power and performance may be had at a price the average buyer can afford to pay.

Surpassing mechanical superiority is obvious in every mile you drive it. Power, smoothness, silence you expect in any good six-cylinder car; but in this great car your expectations will be exceeded. You cannot anticipate such performance-perfection in any car even within hundreds of dollars of

The proof is easy to establish - drive it yourself, try it out on your favorite hill, test its speed on the straight-away. Sense what "ease of operation" really means in terms of effortless steering, velvety clutch action, easy gear shifting and instant brake epplication.

Experience what real comfort means in plenty of room, soft deep cushions; genuine balloon tires; long, supple springs.

The new Standard Six will tell you a story as it has never been told before by any other car at the Standard Six price.

Whether you are in the market now or next year-you should see this new Studebaker. It is a car that will revolutionize values in the automobile industry!
