

Woman's Throat Cut, Robbers Escape

By DAVID BRYANT
Managing Editor

Two robbers — one carrying a knife and the other a pistol — robbed a Sanford food store today, cutting the woman manager in the throat and making off with about \$700.

The manager, Mrs. Gloria Dyer of Sanford, wasn't seriously injured.

She told Sanford Police she

knife-waving robber and his companion walked into the store at Palmetto Avenue and 25th Street just after 10 a.m.

"They walked around for awhile before the one with the knife put it to my throat and told me to open the safe," she said. The safe contained the weekend receipts.

She said she told the pair she didn't have the key, but the man with the knife cut her on the

neck, snarling, "Don't give me that! Do you want me to slice your throat?"

"Then," she told officers, "I opened the safe and they got the money." They also took her purse and cash from the register.

Prior to leaving, the robbers cut the lines to two telephones and ordered the 32-year-old manager to lie on the floor.

Mrs. Dyer, who was alone in

the store during the robbery, told police she didn't know if the men ran to a car or into one of several nearby residential areas.

At one point, two young men matching the descriptions of the robbers were taken by police to the small Handy Way Food Store, but Mrs. Dyer said they weren't the robbers.

Mrs. Dyer, distraught but fighting, to regain her composure, told officers both men were of average height; one had longish dark hair; and the other lengthy blond hair. Both were clean shaven, and both wore old, faded clothes.

"The one with the dark hair," she told officers, "seemed a lot neater than his friend."

It was the blond man who cut her, she said.

Police surrounded the store and vicinity within three minutes of Mrs. Dyer's telephone call, but the pair had already escaped.

Mrs. Dyer accompanied officers to police headquarters, where she was to scan mug files.

She said one of the robbers had been in the store on other occasions, and that she could identify him by sight.

If you were looking for your neighborly Seminole Countians yesterday (and couldn't find too many), don't be misled into thinking the worst...they're not moving out of the county!

Perhaps if you had made the scene to New Smyrna on Sunday you'd be able to better appreciate where everyone was issuing, or girl-watching, or whatever.

The truth of the matter is that after counting close to 500 license plates bearing Seminole's no. 17, I just gave up. I really believe we had more on the beach than Orange County's no. 7 plates, too.

Incidentally, last week we told you that there wasn't the first service station open on Sunday in the Daytona Beach area.

Not so for New Smyrna this past weekend...there were more than enough stations open—without any long lines, either.

Here in Seminole County—the north end, that is, last week there was only one station pumping gas. This week, three more opened their pumps. It's getting better all the time.

TIMELY QUOTE — "I know of no more bombshells. I don't think there will be any." — Vice President Gerald Ford, on what else? — Watergate.

Mr. Ford made that statement about a week or so ago, and this morning we're told of his son's remarks of late yesterday, wherein he (the son) wasn't impressed with Mr. Nixon's handling of the Watergate, and "I don't think my dad is either."

F.O.D.M. (That was a bombshell Mr. Ford.)

A reminder... the Sanford Chamber of Commerce "personality breakfast" is scheduled for Tuesday 8 a.m. at the Civic Center and will feature spiritualist Anne Gehman.

Should prove interesting. Remember, it's open to all members and there's FREE orange juice and coffee, too.

We've been asked to remind you... the South Seminole Boy's Baseball League is NOT soliciting any funds. Evidently there have been some who've been knocking on the doors with an extended palm, and passing themselves off as members of the league.

Knowledge is the wing where we fly to heaven.

PROTECTION FROM WHAT?
THESE two Sunday strollers at New Smyrna Beach yesterday had the crowds curious while parading with their transparent umbrellas. Their "aching bones" prediction of rain was wrong — it was sunny all day. Perhaps they anticipated some strollers on the beach, and would lower the umbrellas to shield themselves from any embarrassment?

Reduced Lighting
When you have a reduction in lighting, you have an increase in burglaries," Miller said in an interview.

The FBI reported that in 1972, the last full year for which complete figures were available, there were 2.34 million burglaries in the country. The burglary rate jumped 38 per cent in the five-year period from 1967 to 1972.

Miller, president of Inter-matic, Inc., says there may be as many as three million burglaries in the country this year. He theorizes the energy crisis may be promoting an increase in the crime.

Miller's consultants say they don't know the kind of burglar who uses electromagnets and helicopters to make dazzling jewel thefts. "If they exist, they probably never get caught," Miller said.

"All the rest are either self-taught or learned the trade in prison from other thieves," he says. He also says that burglars don't spend time staking out houses. "They simply walk through a neighborhood and when they spot a home where they believe nobody is home, they break in. The crucial time is between 6 p.m. and 11 p.m."

Burglars usually "knock on doors and if someone turns out to be home they pose as a salesman who has the wrong address."

"A sure tip-off to the burglar is to see the same light burning all the time. Another is a perfectly cleaned house. If women would leave the bed messed up, a burglar rarely will enter a house."

Daylight burglaries also have increased, Miller said. "After all, most burglars wear suits and look just like businessmen. They don't go around in masks with their collars turned up."

Energy Crisis Gets Blame For Promoting More Crime

CHICAGO (AP) — Burglary is one of the most rapidly growing occupations in the United States, says James C. Miller. He heads a firm that manufactures burglary-alarm devices and hires convicted burglars as consultants. The former convicts enlighten the firm on tricks of the burglary trade and how to thwart them.

Gurney Apartment Deal Disputed

MIAMI (AP) — A former fund-raiser for Sen. Edward Gurney, R-Fla., has sworn that Gurney once approved accepting a free oceanfront apartment in return for his influence with a federal agency, the Miami Herald has reported.

In a Sunday story, the newspaper quoted two unnamed sources as saying fund-raiser Larry E. Williams has told federal investigators that Gurney replied "fine" when informed he would get the apartment in return for influence with the Federal Housing Authority.

The Herald said the alleged favor-exchange was never completed. Instead, Gurney bought the Vero Beach condominium apartment for \$50,000 in 1973, the Herald said.

Gurney, a member of the Senate Watergate committee, is up for re-election this year. Williams, 29, currently is serving a one-year prison sentence after pleading guilty to attempted tax evasion and helping channel illegal payments to an FHA official. He was indicted by a federal grand jury probing a secret fund he allegedly raised for Gurney from builders. The Herald has said Williams raised as much as \$400,000 in unreported funds from people seeking influence with the FHA.

ALTAMONTE'S FEMALE POLICE OFFICERS
Pat Rea and Mike McFadden, of the Altamonte Springs Police Department are sworn by City Clerk Phyllis Jordahl (l). The women will also work with juveniles and female arrestees.

Smile You Housewives! Food Prices To Decline

By LOUISE COOK
Associated Press Writer

The family grocery bill declined slightly during March, the first such drop in five months, an AP marketbasket survey shows.

More items went up in price than went down. But sales on meat and eggs cut the dollar value of the marketbasket in nine of 13 cities checked, with an average decrease of 2.2 per cent. It was the first month since October that marketbasket declines outnumbered increases.

The AP priced 15 food and nonfood items in 13 cities on March 1, 1973, and has rechecked at the beginning of each succeeding month.

The latest check showed that 32.3 per cent of the items in the survey went up in price during March, 1974; 23.6 per cent decreased; 36.4 per cent were unchanged; and 7.7 per cent were unavailable on one of the two survey dates.

The marketbasket decreases ranged from a fraction of a per cent in Albuquerque, N.M., to 4 per cent in Boston where the price of a pound of chopped chuck dropped from \$1.49 to \$1.09.

The bill was up in four cities — Seattle, Wash., New York, Miami and Philadelphia — with an average increase of 1.6 per cent.

Higher Gasoline Prices Changing Day To Day

By DAVE GOLDBERG
Associated Press Writer

The bad old days of gasoline shortages may be behind us, but American motorists may have to get used to prices that are higher and fluctuate wildly from day to day and station to station.

An Associated Press survey of gasoline prices around the country shows that the price of gas varies greatly, even within a city. And many drivers may find that their favorite station may raise or lower prices by as

much as a nickel regularly, depending on prices charged by major companies and their wholesalers.

Despite variations from state to state there were a number of trends that showed up in the survey. Among them:

—Most Americans are paying between 50 cents and 60 cents for their gas. But a number of stations — primarily those franchised by Exxon and Mobil — are selling regular for less than 50 cents.

BOYCOTT TODAY

Boycott Supported

NEW YORK (AP) — Even as the Soviet Union was publicly supporting the Arab oil boycott against the United States, the Russians were shipping quantities of their own petroleum products to this country. U.S. Customs records here show that since the first of the year, four tankers loaded with Russian petroleum products docked in New York and New Jersey ports.

Grocery Bill Declines

NEW YORK — The family grocery bill declined slightly during the first three months of the year, an AP marketbasket survey shows. More items went up in price than went down, but sales on meat and eggs cut the dollar value of the marketbasket in nine of 13 cities checked, with an average decrease of 2.2 per cent. It was the first month since October that marketbasket declines outnumbered increases. Prices in every city were higher at the beginning of April 1974 than they were on March 1973. The marketbasket bill was up an average of 13.3 per cent over the 13-month period, with increases ranging from 8 per cent in Los Angeles to 25 per cent in Philadelphia.

Gas Prices To Fluctuate

NEW YORK — The bad old days of gasoline shortages may be behind us, but American motorists may have to get used to prices that are higher and fluctuate wildly from day to day and station to station. An Associated Press survey of gasoline prices around the country shows that the price of gas varies greatly, even within a city. And many drivers may find that their favorite station may regularly raise or lower prices by as much as a nickel, depending on prices charged by major companies and their wholesalers. The survey showed that most Americans are paying between 50 cents and 60 cents for their gas. Gas generally costs more in the New York, Philadelphia and Chicago areas. But gas is available at less than 50 cents a gallon in areas near Los Angeles, Boston and Atlanta.

Growing Occupation

CHICAGO (AP) — Burglary is one of the most rapidly growing occupations in the United States, says James C. Miller. He heads Intermark, Inc., a firm that manufactures burglary-alarm devices and hires convicted burglars as consultants. The former convicts enlighten the firm on tricks of the trade and how to thwart them. Miller says his burglary consultants tell him that, contrary to popular belief, burglars don't stake out houses and hardly ever pick locks. They say a sure tip-off to a burglar is to see the same light burning all the time or a perfectly closed house.

Sirica, Ford Best-Dressed

NEW YORK (AP) — Judge John J. Sirica and industrialist Henry Ford II are included in a list of best-dressed men for the year. The Fashion Foundation of America announced the results after completing its 35th survey of custom tailors and designers in search of the sartorial trendsetters. The fashion experts came up with well-dressed men in 11 different fields. Sirica, who has presided over many Fordgate hearings in the U.S. District Court in Washington, D.C., won the honor in the judicial field. Ford, chairman of the board and prime mover of the Ford Motor Company, led in the business category. The Shah of Iran was named the best-dressed statesman.

Others in the current list and the categories they were cited in were:

Sen. Mark O. Hatfield of Oregon — government; former New York City Mayor John V. Lindsay — civic affairs; Johnny Carson — television; golfer Doug Sanders — sports; Penthouse magazine publisher Bob Guccione — communications; actor Robert Redford — screen; actor Henry Fonda — stage, and Lou Puro, board chairman of El San Juan Hotel, San Juan, Puerto Rico — host.

Strike Averted

NEW YORK (AP) — A contract settlement has averted a strike by 37,000 subway and bus workers. It threatens to paralyze New York City's transit system which carries 6.4 million riders daily. The cost of the two-year package agreed upon by two transit unions and the Metropolitan Transportation Authority was estimated at \$135 million by Authority chief Dr. William J. Ronan. He said that the settlement will not jeopardize the city's 25-cent bus and subway fare, providing federal transit subsidies are forthcoming. A 14 per cent wage increase included in the package would bring the average transit worker's annual salary to about \$15,300 by 1976. The current average salary for the bus and subway workers is \$13,421 including overtime. The agreement came Sunday night two hours before a midnight negotiating deadline and seven hours before the 5 a.m. deadline for the walkout.

Kennedy Leading Choice

PRINCETON, N.J. (AP) — Sen. Edward M. Kennedy of Massachusetts still tops the popularity list of Democrats considered potential 1976 presidential candidates, according to the latest Gallup Poll. Kennedy was preferred by 44 per cent of the rank-and-file Democrats questioned in the poll. Alabama Gov. George C. Wallace was second with 17 per cent. A November 1973 survey showed Kennedy with a similar lead, 41 per cent to Wallace's 15. Sen. Henry Jackson of Washington moved up from the earlier poll to tie with Sen. Edmund M. Muskie of Maine for third place. Jackson increased his standing from 6 to 8 per cent, while Muskie's popularity slipped a point from 9 to 8 per cent.

Night Fighting Emphasis

WASHINGTON (AP) — U.S. military officials say study of Soviet equipment captured by the Israelis last fall shows the Russians are placing special stress on night fighting. As a result, the Pentagon is spurring research efforts to improve night vision gear for both ground and air warfare.

Former Presidential Aide Chapin, In Court On Charges He Lied

WASHINGTON (AP) — Former presidential aide Dwight L. Chapin goes on trial today in federal court on charges he lied to a grand jury seeking information about the political espionage activities of Donald H. Segretti.

The opening day of the trial was expected to be devoted to jury selection. U.S. District Judge Gerhard A. Gesell has said he hopes to complete the trial within a week.

Chapin, former presidential appointments secretary, was indicted Nov. 29, 1973 on four counts of lying to a grand jury.

Special Watergate prosecutor Leon Jaworski said that ousted White House counsel John W. Dean III would be a key government witness against Chapin.

Dean Testified

Dean, who pleaded guilty last October to conspiring to obstruct the investigation of the Watergate break-in, already has testified as a prosecution witness at the New York trial of former Cabinet members John N. Mitchell and Maurice H. Stans.

Another key prosecution witness will be Segretti, who served five months in a federal correctional facility after pleading guilty to misdemeanor violations of federal election laws. Segretti was released last Monday.

Like Dean, Segretti agreed to cooperate with the special prosecutor's office.

Meanwhile, Vice President Gerald R. Ford has blasted the Committee for the Re-election of the President, describing it in a Chicago speech as an "arrogant, elite guard of political adolescents."

Ford spoke Saturday to more than 1,000 midwest Republicans, including GOP National Chairman George Bush and presidential hopeful Sen. Charles H. Percy of Illinois. The audience stood and cheered Ford's biting remarks about the re-election committee.

Blomes Committee

The House committee "violated the historic concept of the two-party system in America and ran roughshod over the seasoned political judgment and experience of the regular Republican party organization in the 50 states," Ford said Saturday to more than 1,000 midwest Republicans, including GOP National Chairman George Bush and presidential hopeful Sen. Charles H. Percy of Illinois. The audience stood and cheered Ford's biting remarks about the re-election committee.

In other Watergate developments, Percy said Sunday in New Haven he expects Nixon to be impeached this year. Meanwhile, sources in Washington said quiet preparations are underway in several Senate offices for a possible impeachment trial. The sources also said other studies are underway.

Consumers Expect To Pay At End Of Steel Talks

WASHINGTON (AP) — Steel industry negotiators are beginning two weeks of hard bargaining in what is expected to result in a costly settlement for the industry and higher prices for consumers.

Bargainers for the Big 10 steel producers and the United Steelworkers of America face a self-imposed April 15 deadline to reach accord on a new contract or submit all unresolved issues to binding arbitration.

The talks get underway today with both sides anxious to avoid arbitration on major issues. A settlement is expected that is likely to follow the pattern shaped earlier this year in USW contracts with the aluminum and can industries.

Debate Only Produces Talk

WASHINGTON (AP) — The Senate is entering a second week of debate on a controversial reform bill with no end yet in sight.

Sen. Lowell P. Weicker, Jr., R-Conn., a Vietnamese war veteran who opposes the bill, had a substitute measure on tap for today's session.

There are several ways to effectively reform campaign spending without resorting to government financing," he said.

A key part of the bill provides for use of tax funds to finance, in whole or in part, primary and general election campaigns for federal officials.

The House has two major pieces of legislation on its agenda this week.

Expected to be acted on first is a compromise bill to establish a consumer protection agency to act on behalf of consumers in the courts and in proceedings before other federal agencies.

It also would submit legislative recommendations to the President and to Congress and more controversy is likely over a bill that includes authorization for an increase of \$474 million in U.S. military aid to South Vietnam during the fiscal year ending June 30. This would be in addition to the \$1.26 billion previously approved.

Deputy Secretary of Defense William P. Clements has testified that the extra aid is needed by South Vietnam to hold off the North Vietnamese. Without it, he said, the South Vietnamese will have to begin curtailing their military operations by mid-April.

Weicker said the cornerstone of his proposed substitute campaign measure is the shortening of campaigns.

It provides for a single primary on the first Tuesday in October for nomination to federal offices, with the general election a month later. Campaigns could not start before the first Tuesday in September. No funds could be collected or spent before then.

A candidate could have only one campaign committee that would handle all contributions and expenditures and these would have to be reported two weeks before the election.

No contributions could be collected after the report was submitted, nor would any additional expenditures be permitted other than those budgeted for in the report.

Cash contributions of more than \$50 would be outlawed, and no candidate would be allowed to spend more than \$10,000 of his personal funds on his campaign.

Varying Views Told On Peace Settlement

WASHINGTON (AP) — The extent to which the United States is committed to the Paris peace agreement to aid South Vietnam has drawn varying interpretations from the secretary of state and the chairman of the Senate Foreign Relations Committee.

Secretary of State Henry A. Kissinger believes that the United States is politically and morally committed to giving long-term military and economic aid to South Vietnam.

Under the Paris agreement, Kissinger said in a letter to Sen. Edward M. Kennedy, D-Mass., "The United States committed itself to strengthening the conditions which made the cessation of hostilities possible and to the goal of the South Vietnamese people's right to self-determination."

Kissingers Want Privacy

ACAPULCO, Mexico (AP) — Acapulco's social set awaited word today on whether the newlywed Kissingers were up on invitations.

But Washington's most famed swinger appeared intent so far on keeping a veil of privacy around his honeymoon.

Some 50 vacationers lined the Las Brisas dock Sunday and applauded as Secretary of State Henry A. Kissinger and the former Nancy Maginnes returned from a three-hour cruise around choppy Acapulco Bay in a speedboat called El Orate — The Lunatic.

Two hundred of Secret Servicemen trailed El Orate around the bay, then packed into two cars to follow Kissinger's limousine back to banker Estuquico Escandon's secluded villa overlooking the sea where the couple is staying.

"I'm sure there will be some parties or at least a dinner or two while they're here," said local Acapulco socialite wistfully. But he added that the Kissingers had accepted no invitations yet.

Market Sealed Off

BELFAST, Northern Ireland (AP) — Hundreds of troops and police today sealed off the market square in Belfast, an Irish Republican Army stronghold, in a major search for terrorist explosives.

The search came as Prime Minister Harold Wilson prepared to meet in London with key cabinet ministers to discuss new security measures after a weekend of violence that left six dead in Ulster.

Meryl Rees, the secretary of state for Northern Ireland, returned from Belfast to London to give Wilson a first-hand account of the weekend's events.

Rees will deliver a policy statement to the House of Commons Thursday and is expected to announce the new security measures.

Clashes At Golan Heights

For the 21st consecutive day, Syrian and Israeli armor and artillery clashed along the 10-mile cease-fire line in the Golan Heights this morning.

The Israeli command said the Syrians fired first on Israeli positions in the southern sector of the plateau. It reported no casualties.

The Syrian command said its heavy artillery pounded Israeli positions on four major hills of the Heights overlooking Quneitra, the large Syrian town seized by Israel during the 1967 war.

The report said tanks and anti-armor guns were dueling in several locations.

The Syrians also gave no report of casualties.

Thunderbolts Of Henry Kissinger

By launching a counterattack against France's attempt to break Europe's special relationship with the United States, Kissinger the peacemaker shows his other face.

explain why he should have seized upon one audience after another since March 4 — first the journalists in the plane carrying him back from Europe to America, then the Senate Finance Committee, then the letter to Brandt signed by President Nixon, and then, of all things, a congregation of Congressmen's wives — to spell out his complaint against Europe.

It bears all the marks of a premeditated and rehearsed campaign. Kissinger has taken the opportunity to ask the Europeans just what they mean by saying that they want to be a "distinct and original entity" in their relationship with the United States.

That word "distinct" can point in either of two different directions. It can mean that the Nine want to work towards a joint European foreign policy that will nevertheless continue to be based on the idea of a special connection between western Europe and America, or it can mean that the Nine are looking towards a time when Europe will treat the United States as merely one great power among others, no different in status from the other European powers.

Ahead Of His Target

OSAKA, Japan (AP) — Kenichi Horie, the first yachtsman to cross the Pacific alone, is nearing his goal of a nonstop solo voyage around the world.

Horie, 35, who set out from Osaka on board Mermaid II last Aug. 1, radioed on Sunday that he was about 1,420 miles south of Midway, leaving him about 3,300 miles to go to reach Japan, the Asahi Shinbun reported.

The newspaper said Horie told members of an amateur wireless club that he was about 10 days ahead of his target of circumnavigating the globe, a voyage of about 30,000 miles, in 280 days.

Horie, who crossed the Pacific solo in 1962, gave up a previous attempt to sail round the world in 1972 after a storm destroyed his yacht's four masts three days out of Japan.

He reported that severe storms partly crippled his yacht this time, but he managed to make the necessary repairs.

The first man to sail nonstop around the world singlehanded was Sir Francis Chichester of Britain in 1967. Several others have done it since.

Cuban Visit Planned

MIAMI (AP) — Mexican Foreign Minister Emilio O. Rabasa says Mexican President Luis Echeverria will visit Riba before his presidential term expires, Havana Radio said today.

In a broadcast monitored in Miami, the Cuban radio said Rabasa met with Cuban Prime Minister Fidel Castro and President Osvaldo Dorticos before leaving Cuba Thursday night.

Rabasa, the first Mexican foreign minister to visit Cuba since Castro seized power in 1959, headed a Mexican delegation which spent three days in Cuba.

The radio broadcast said Castro and Rabasa discussed the situation in Latin America and relations between Mexico and Cuba.

Rabasa said Mexico would support Cuba's position regarding Latin America, the broadcast said, and when Cuban Foreign Minister Raul Roa said Cuba did not want to join the Organization of American States, Rabasa said Mexico would respect that decision.

Moon Circling Mercury

PASADENA, Calif. (AP) — A tiny moving object which scientists say may be a moon circling Mercury has thus far eluded Mariner 10's powerful cameras, despite an intensive space search.

The cameras scanned the neighborhood of Mercury on Sunday, seeking the mysterious object which was detected by the probe's ultraviolet instruments.

"It is clear that there is a strong source of radiation detected from Mercury and in apparent motion relative to the planet," said Dr. M.E. McEroy of Harvard University.

Analysis

A decision on how Europe should behave cannot much longer be postponed, and it is the two social democratic governments of Harold Wilson in Britain and Willy Brandt in Germany, however beset by other preoccupations, that had better be prepared to take the matter decisively into their hands.

The criticism that Kissinger has been remorselessly delivering against the Europeans cannot be explained as merely an unplanned attack of exasperation about the way the European community sent out its invitation to the Arabs on March 4 to have a private get-together.

Disliked

No doubt Kissinger disliked that, but it needs something more than a fit of irritation to

Author Chides Press On Letter Interpretation

ZURICH, Switzerland (AP) — Alexander Solzhenitsyn says that American newspaper commentators mistakenly interpreted his "Letter to the Soviet Leaders" as a call for nationalism.

The exiled Soviet writer, in an interview Sunday, said mutual understanding between the Soviet and American peoples "is particularly essential and is very difficult to establish and often insufficiently thought-out judgments of the daily press."

"Here is a recent example," he continued.

"My letter to the Soviet Leaders was, even before its publication in the press, beginning with The New York Times, interpreted in various and often mistaken interpretations in contradiction to its real meaning. My program set down in this letter is self-defense, not self-defense of nations and people, but of the individual man. My program set down in this letter is self-defense, not self-defense of nations and people, but of the individual man. My program set down in this letter is self-defense, not self-defense of nations and people, but of the individual man.

Club Of Rome

The Club of Rome is an international association of scientists and industrialists that sponsors studies and discussion meetings of statesmen and experts on major problems.

Solzhenitsyn had been asked if he planned to visit the United States. He said that his refusal of invitations from AFL-CIO President George Meany and Sen. Jesse Helms, R-N.C., "was not a final refusal on principle, but only one resulting from the physical limitations of my life here."

Pope Appears Recovered From Influenza Attack

VATICAN CITY (AP) — Pope Paul VI appears to have recovered from his second attack of influenza in a month, but Vatican sources say he is still weak, often in pain and needs a long rest.

The sources say the 76-year-old Pope is being strongly advised against resuming the full schedule of work and reading that, until a few weeks ago, ran from dawn until past midnight.

The Vatican did not elaborate on the Pope's illness last week except to say that it was a slight indisposition. The sources said it was a recurrence of the flu that hit him earlier in March.

The Pope ran a slight fever and canceled his weekly general audience on Wednesday. He did bless the crowd from the study, however.

On Sunday, the Pope spoke from the open window of the study in the crowd in St. Peter's Square. His voice was firm and he appeared fit.

But the Vatican sources said the two flu attacks have aggravated an old and painful disease, arthritis of the joints. The disease, which the sources did not identify, reportedly has been with the pontiff, always frail, has for some years walked with a slight stoop and has needed help sitting down and standing up.

Labor Has Key For Inflation

West Virginia miners who staged a wildcat strike are back in the pits and the government servants in San Francisco who demand services in that city for more than a week are back at their desks. But the economic loss that a relative handful of militant workers can cause society at large has been vividly exhibited and is reason for concern when viewed in a larger context.

Unfortunately, government, labor and industry officials predict that we have seen the beginning. Symbolic of this point of view is the recent statement of Peter J. Brennan, secretary of labor, who declared that workers will be looking for their pound of flesh in 1974 and I am not one to say that they are wrong.

Much discussion at a recent convention of the United Mine Workers was devoted to the strategy of exploiting the energy crisis to get fat contracts. Jerry Wurf, president of the American Federation of State, County and Municipal Employees, says that group will not be inhibited by fraudulent guidelines or arbitrary standards in negotiating for government workers. The AFL-CIO as a whole has established a 12 percent pay raise as its goal for 1974, and so it goes.

Workers In all fairness there is substantial reason for the American worker to be restless. Wages and prices controls simply have not worked and, as a result, the rate of inflation last year was 8.8 per cent—even higher for food. At the end of

Despite Shellacking, Lawyers Are Needed

By FRANK MACOMBER
Copley News Service

The American lawyer's image has taken a considerable tumble in the last year. Many of the accused in the Watergate scandals are attorneys. Former Vice President Spiro Agnew is a lawyer. Yet, insists Herbert S. Denenberg, Insurance Commissioner for the state of Pennsylvania, there are times when most people urgently need the services of an attorney, to save their reputations or their property, perhaps even their livelihoods.

Denenberg often is called the Ralph Nader of Ben Franklin's trade, for he has written appraiser's guides to most types of insurance, medical care and dentistry.

Information The guide to lawyers contains detailed information and advice on what to look for and look out for when you retain an attorney.

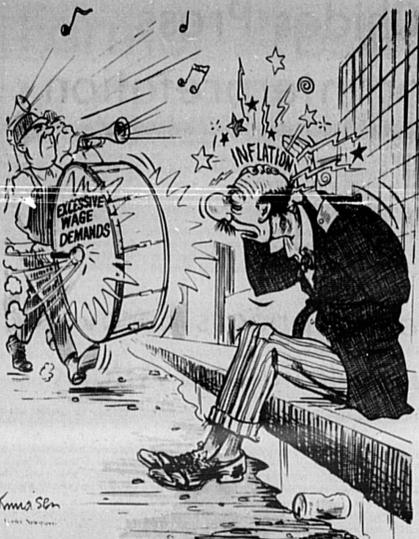

Practice may make perfect, but many practicing lawyers aren't, he says. "Many consumers don't understand what lawyers do or how they work and they don't know how to separate the good ones from the bad."

Denenberg says the new guide was inspired by the recent development of prepaid liability insurance. He predicts its popularity will climb sharply in the next few years. And, of course, in Pennsylvania, as in other states, it will be regulated by insurance departments.

"When Medicare started, there was an immediate jump

in a forward to the guide. Denenberg emphasizes that "I don't have anything against lawyers. I'm a lawyer and so is Ed Weintraub, my special assistant, who helped write this guide."

"But I am against incompetent and dishonest lawyers who are worried more about themselves than their clients."

Era Of Terror Hits U.S.

By FRANK MACOMBER
Copley News Service

The kidnap terror of the Lindbergh era lives again in the United States. Some analysts feel that it is inevitable that political terrorism, which has been typical of guerrilla gangs operating in Latin America in recent years, would spread to the United States.

Political motives were ascribed to the country's first explosive kidnaping: the abduction of newspaper heiress Patricia Hearst.

The Hearst kidnaping led in turn to others: the abductions of Atlanta newspaper editor Reg. Murphy, 4-year-old John Cadillada of Dix Hills, N.Y., business woman Betty Ann Van Balen of Rosnoke, Va., and Mrs. Eunice Kronholm, wife of a wealthy St. Paul, Minn., banker.

Far Away Until early February, Americans had read with some detachment of the 190 kidnapings in Argentina last year, even though many of them were far away and American firms already had begun to withdraw their executives from Argentina and some other Latin American countries where violence was stronger than law.

Now the arm of the political terrorist has created a mood in this country reminiscent of the 1930s when famed aviator Charles Lindbergh's son was kidnaped and killed.

Sixteen days after Patricia Hearst was kidnaped Feb. 4 in Berkeley, Calif., the Atlanta Constitution's editor became

antiterrorist project for the International Association of Police Chiefs.

Ripe Now "We're ripe for this sort of terrorism, and I think we're seeing only the beginning."

Chinese Missile Ranked

By EDWARD NEILAN
Copley News Service

Peking could achieve an ICBM (intercontinental ballistic missile) operating capability as early as 1976 and an SLBM (submarine-launched ballistic missile) operating capability "at a somewhat later date."

That is the assessment made by Secretary of Defense James R. Schlesinger in his annual Outlook for Defense report released recently.

The part of Schlesinger's report that has received most of the publicity with good reason, is that dealing with the Soviet Union's seemingly relentless quest for nuclear weapons superiority over the United States.

Planning But the Soviet strategic capability no longer is the only one that the United States must take into account in its foreign planning.

Key Officials "Congressman Hanna expressed an interest in meeting Jack Anderson and business leaders. A cable from Washington, Park Korean entrepreneur in search of oil deals around the Middle East."

Oil tycoons from all over the world are swarming over the Middle East in pursuit of Arab oil concessions. But the enterprising Park is the only one who has brought along a U.S. congressman to introduce him to the right people.

Hanna is Capitol Hill's premier globe-trotter. In January, he was galivanting around the Far East "as a guest," he admitted to us, "of the Pertamina Oil Company," Indonesia's national oil firm. From Indonesia, he flew to the Middle East. Classified cables from the U.S. embassy in Sana, Yemen, picked up the story.

"(Hanna) was joined here by a Mr. Park, a former South Korean national engaged in shipping, elaboration of foreign investment opportunities and apparently political lobbying in Washington."

For nearly three days, the pair flitted around Yemen meeting government and business leaders. A cable from Ambassador William Crawford informed the State Department:

"Congressman Hanna expressed an interest in meeting Jack Anderson and business leaders. A cable from Washington, Park Korean entrepreneur in search of oil deals around the Middle East."

Dad May Escape Chair In Jax Torture Deaths

JACKSONVILLE, Fla. (AP) — Ernest John III, 13, and Ernest John II, 11, were sentenced to life in prison for the deaths of their father, Ernest John I, 47, and their mother, Mary, 45, in 1971 at a time when Florida did not have a capital punishment law.

Following the U.S. Supreme Court's June 1971 decision striking down the death penalty in three other states, the state Supreme Court ruled Florida's capital punishment law unconstitutional. And the state was without a law until the legislature re-enacted it.

State Tax Hassle Brings No Laughs In Lake Mary

LAKE MARY— Even if it were just a bit early for an April Fool's joke, Lake Mary wasn't laughing Saturday at a special City Council meeting to determine if the city had been collecting illegal property taxes. "Some of us in Tallahassee who had been processing state revenue sharing one specific way just couldn't understand what we were doing."

Citizens For Public Disclosure

Public officials are entitled to some degree of privacy, agreed persons polled in Sanford this morning, but area residents said it would be in the best interest of both the office-holder and the voters if officials were required to divulge their financial resources. "If an individual takes a public office, his finances should be made public; by putting yourself up for public office you are making your whole life public," commented Sanford resident Betty Brusnahan.

Thefts Hit Hearst Food Giveaway

BIRKBELEY, Calif. (AP)— Internal thefts and poor administration riddled the mass food giveaway aimed at ending Patricia Hearst's two-month captivity, says the community coalition named to monitor the handouts. Washington Secretary of State A. Ludlow Kramer, who organized the People in Need program, denied the charges. The coalition aired its complaints on KPFA radio here Sunday in a prepared statement read by seven representatives of San Francisco Bay area groups.

'Csonk' Em, 'Kick' Em, Start A 'War'

TORONTO (AP) — Larry Csonka, Paul Warfield and Jim Kick — gears in the Miami Dolphins' grind-it-out offense — have jumped for an estimated \$3.5 million to the Toronto Northmen of the World Football League, giving the fledgling league almost instant respectability.

"We're guaranteed this money," said Kick after the signings, effective for the 1974 season and for three years, were disclosed Sunday. "If we get hurt, if we die, if the WFL doesn't get off the ground, we still get it."

May Not Play

The trio — Warfield is a receiver, the other two are running backs — will play out their 1974 options with the team which they helped win the last

two National Football League championships.

Miami Coach Don Shula, however, said he might not even play the three this coming season. But Csonka discounted any reprisal by Shula, saying, "He wants to win the Super Bowl again and so do we."

Each earned about \$60,000 last season as Dolphins, plus the extra money — \$15,000 each in the Super Bowl — for playoff victories.

No breakdown on how the \$3.5 million would be divided among the three was disclosed. Presumably, Csonka would get the most money.

Kick said the other 11 teams in the WFL, which will begin play in July, contributed \$1 million to the contracts, highest-priced deals ever in pro football history.

"I am disappointed, shocked, sick, whatever..." a bitter Joe Robbie, managing general partner of the Dolphins, said in Miami Sunday night after the jump was announced in Toronto. "I feel player agent Ed Keating took three of our players to Canada who were in a frame of mind to come back and listen when they left."

But Robbie said the Dolphins weren't concerned about any legal action "at this point."

Csonka, who rushed for more than 1,000 yards the past three seasons, said his financial future was a primary consideration in the move.

Even More

"In this case, it is one of the considerations, of course," the bull-necked fullback said, "but there are others... the Toronto club offered us more than we anticipated — even more than we had asked for in the exploratory package."

Robbie said he had asked Keating to return with the players from Toronto, where negotiating sessions took place, adding that the "\$3 million wouldn't be in two days." But Robbie said Keating responded with a "take it or leave it" attitude and the Dolphins officials refused to negotiate by phone.

"Everyone knows how I feel about them," Shula said. "They are great players. We were in a unique situation of being able to go after our third Super Bowl in a row next season. Our thought was to do everything possible to get everyone back."

Warfield, like Csonka, acknowledged that money played

a part in his decision.

Kick lost his starting position to Mercury Morris in 1972, also said pride was a factor in his decision to sign with Toronto.

Lot Of Pride

"I have a lot of pride and I want to play a lot of football," he said. "I feel I can contribute to any football team. That is one of the big reasons."

The contracts were for "well in excess of \$3 million," Keating said. "I hope this introduces a new concept in owner-player relationships."

Robbie said Keating asked the Dolphins to match a Toronto offer of \$3.5 million — \$3 million to be deposited in advance in a bank account, and a guaranteed three-year, no-out, no-trade contract.

Csonka, a 6-foot-3, 240-pounder, is a six-year NFL veteran and pounded out a record 145 yards and two touchdowns in the Dolphins' 247-rout of Minnesota in Super Bowl VIII in January.

Warfield, a veteran of 10 NFL seasons, led the American Conference last year with 11 touchdown receptions. The 6-foot, 190-pound receiver made 29 regular-season catches for 314 yards, a 17.7-yard average.

Kick was the Dolphins' No. 2 running back behind Csonka until he was replaced by Morris. His primary attributes have been his pass receiving and blocking, and what Shula has called his nose for the goal line in short-yardage, scoring situations.

Despite Robbie's remarks, it

appeared there was little resentment among their teammates.

Glad For Them

All-pro guard Larry Little said he was "glad for them — it's an opportunity. I'm just sorry I'm not going up there with them."

Star cornerback Tim Foley said the team would miss the trio but didn't feel they were deserting the Dolphins. Dole said Csonka has "made a tremendous contribution to us and the team. I hope everybody is happy he's got such a good deal put together."

Kick said that another Dolphin star, defensive tackle Manny Fernandez was exploring an offer from the Portland WFL franchise.

Robbie Is Glum; NFL Players Eye Sum

MIAMI (AP) — You just can't replace Larry Csonka, Jim Kick and Paul Warfield, says the coach of the two-time Super Bowl champion Miami Dolphins.

"Everybody knows how I feel about them," Don Shula said Sunday night after learning that the trio had signed a \$3.5 million contract to play with the Toronto Northmen of the new World Football League. "They are great players."

"I'll play it by ear," Shula said. "Our thought was to do all possible to get everyone back and go for another championship."

"I said I was sure I could persuade them it would be in their interest to stay in Miami," Robbie added. "But for all I know there may have been Toronto representatives listening right then. I think the contract was signed then, if not before."

But Robbie said he refused to negotiate by telephone, con-

Canada Is Joining Pro Football Fight

By FRANK BROWN AP Sports Writer

The effects of Sunday's "shot heard 'round the world'" of pro football may not be certain for as long as two years. But one thing was made clear by the signing of Toronto Northmen contracts of Larry Csonka, Jim Kick and wide receiver Paul Warfield: an international war has begun, and the battles will follow as leave countless casualties behind.

The fighting was already underway in Canada over permission for the Northmen to play in Toronto. But the signing of the three National Football League stars has drawn the United States into the conflict.

The signing of marginal players didn't make waves any more than it did in the early stages of the American Football League, American Basketball Association or World Hockey Association. But the acquisition of Csonka, Kick and Warfield cannot be overlooked. The three were major contributors to two consecutive Super Bowl champions and now they've come to the WFL.

Chain Reaction?

And that could set off a chain reaction of "if it's good enough for them, it's good enough for me" thinking among NFL players.

Joe Robbie, Dolphins' managing general partner, had a chance to match the Toronto offer. He didn't. Financial respectability like that offered by Bassett comes only once in a career, so three very talented football players will play out the option year on their NFL contracts and join the Northmen in Toronto — or wherever — in 1975.

But the heavy fighting has not begun.

There is one certainty: complacency has been shattered in NFL offices across the United States. The upstart league isn't kidding around.

SHS's Brown Keys Sweep

By JOHN CHERWA Herald Correspondent

Monday, April 1, 1974 Page 1B

FOREST CITY — Sanford's Randy Brown drove in the winning run in the first game of the pitching credit and closed the winning home run in the second game as the Tribe swept a doubleheader 6-4, 6-5 from Lake Brantley, Saturday afternoon.

Brown became a one-man team in the second game as the doubleheader, hitting two home runs over the short Brantley game, in addition to picking up the win in relief.

The first contest was a pitching duel between ace Patriot pitcher Keith Bebout and Sanford's George Hoffman. The home run was the difference.

Sanford first baseman Bennie Mills, hit one out in the fourth inning, but was more than matched in the bottom of the third when Steve Hargis hit a grand-slam homer.

The tying and winning run came in the top of the seventh frame.

Shaun O'Brien was hit by a pitch but was erased when Smith hit into a fielder's choice.

John Zeuli followed with a single and Brown, pinch hitting for George Sinkanich, singled Smith home.

The Tribe added an insurance run when Brown reached second on an error, third on a passed ball and scored on Mills' single.

The second game saw both teams play "long ball," in a short park.

Struggle's Center

At the center of the struggle is Northmen owner John Bassett, whose \$3-million package offered a segment of the Miami Dolphins' potent offensive battalion to the World Football League.

The success of this maneuver will be gauged at the turnstiles when, and if, Toronto plays its first game with the mercenary troops.

Nordiques Sweating Out World Hockey Playoff

By The Associated Press

The regular season has ended for the Quebec Nordiques, but the pressure will continue for another week.

Quebec dropped the final game of its World Hockey Association schedule, 3-2 in overtime, to the New England Whalers Sunday afternoon and now must wait until the Chicago Cougars play their remaining two games to see if they've made the playoffs.

The Nordiques have 80 points and hold fourth place in the East Division, while fifth-place Chicago needs two points in its final games to displace Quebec and face New England in World Trophy first-round action.

Elsewhere in the WHA Sunday, the Edmonton Oilers defeated the Cougars 4-1; the Cleveland Crusaders trimmed the Jersey Knights 4-2; the Toronto Toros edged the Los Angeles Sharks 5-4; the Minnesota Fighting Saints topped the Houston Aeros 5-2, and the Winnipeg Jets dropped the Vancouver Blazers 4-3 in overtime.

Tom Webster scored with 2:40 remaining in the overtime to win the game for the Whalers. Mike Parizeau had tied it for Quebec with less than six minutes left in regulation play.

Oilers 4, Cougars 1

Ron Clinton scored a goal and an assist to help Edmonton defeat Chicago and keep the Quebec playoff hopes alive temporarily.

The victory in rusty Steve Carlyle, Ken Baird and Rusty Paatelainen also scored, clinched third place in the West Division for the Oilers.

Crusaders 4, Knights 2

Cleveland clinched a playoff spot in the chaotic East Division behind Skip Krake's two goals.

Toros 5, Sharks 4

Toronto also gained an East Division playoff berth with its victory over Los Angeles Rookie left wing Pat Hickey scored his 28th goal of the season at 14:11 of the third period to win it for the Toros.

Saints 5, Aeros 2

Mike Walton scored his 50th goal and eighth assist of the season to spark the Minnesota triumph. Murray Heatley had a goal and two assists for the Saints.

Jets 4, Blazers 3

Fran Huck scored two minutes into the overtime period to give Winnipeg its victory. Vancouver's Bryan Campbell had tied the game with 15:23 gone in the third period.

Three Killed In Rocket Car Crash

By BLOYS BRITT AP Auto Racing Writer

Dave Anderson, a race driver for 21 years, wanted a shot at Gary Gabelick's world land speed record. He'll never get it.

Anderson, 41, died Saturday when his rocket-propelled dragster crashed at Charlotte, N.C. Two other persons were killed in the accident.

Carlos Reutemann, a broad-shouldered comparative newcomer from Argentina, had forecast last year that 1974 would be his big year on the international Formula 1 Grand Prix circuit.

Saturday, Reutemann won the South African Grand Prix. Only 10 days ago, American star Peter Revson had met his death in a crash while testing for the race.

Anderson, who labeled himself "the world's fastest shoe" and called his hydrogen peroxide dragster the "Pollution Packer," had set 13 international speed records at Bonneville, Utah, last September. He had planned to go back later this year with a much stronger rocket car and shoot for Bagelick's existing mark of 622 miles an hour.

But in an exhibition run down the one-eighth mile strip at Charlotte, Anderson's slow down drag chute failed to open after a run.

Anderson apparently slammed on the brakes and the car began spinning, finally crashing into a concrete barrier. En route, it cut down mechanics Rick Jackson, Southern 26, and David Oxendine, 21, who were working on other race cars.

All three apparently died instantly. At least three other persons were injured by flying debris.

High Court: Destroyer Gets 'Derby' Shot

ARCADIA, Calif. (AP) — A big, lacy colt takes his owner to the Kentucky Derby for the first time next month after scoring the biggest surprise victory in the 37-year history of Santa Anita classic for 3-year-olds.

Gone into the Santa Anita Derby on Sunday, seven of the sophomores had won stakes. Only Destroyer, a huge son of Vitrolite and grandson of Nashua, had not.

He had, in fact, earned only \$14,000 prior to this \$120,000 run. Jockey Milo Valenzuela quickly urged him to the front in the 1 1/2-mile race and the colt challenged the only serious challenger, Little Mule, who went ahead by one-half length going into the stretch, only to have Destroyer's counter-attack bring him the victory by a head

in 1:48 4/5. The triumph paid \$89.80, \$22.40 and \$7.20.

Previous high winning payoff for a \$2 ticket in the Derby was \$63.60 by Sweedie in 1940.

Aloha Mood returned \$6.00 and \$4.00 and favored Agitate finished third for a \$3.20 payoff as each of the eight carried 120 pounds.

"He's entered and he's going," declared owner Kenneth Opstein of Sioux City, Iowa, a former sports writer turned insurance executive who never has been to the Kentucky Derby.

Destroyer's time was well off the Santa Anita Derby record of 1:47, set by Lucky Delonair in 1947 and equaled by Sham last year.

Saturday's \$34,700 San Simun Handicap also saw a surprise as Johnny Steve Valdez won with Matkun for an \$8.60 payoff. The favored Forage finished second and Selecting was third.

In Saturday races, 42-year-old Willie Shoemaker finally recorded his 100th career triumph in a \$100,000 stakes race when he rode favored Miss Musket to victory by 1 1/2 lengths over Out To Lunch in the \$100,000 added Fantasy Stakes at Oaklawn Park.

Underdog Bushog established himself as a legitimate Kentucky Derby prospect by capturing the \$128,800 Flamingo Stakes at Hialeah. It was the first major victory for the lightly-raced 3-year-old who went off at 81. Favored Jiggs wound up third, 2 1/2 lengths back.

Hayes Unstoppable

By HOWARD SMITH
AP Sports Writer

"We know we can beat the Knicks now," declared Captain Elvin Hayes. "This is just what we needed to win it all."

Hayes and the rest of the Bulls were brimming with confidence Sunday after dumping New York 99-87 to even their best-of-7 National Basketball Association Eastern Conference semifinal series.

Elvin Smart

"Smart plays can play with five fives," said Capital Coach K.C. Jones. "Dumb players will sit out, and there are a lot of dumb players around. But Elvin isn't one of them."

Milwaukee ran off 12 straight points, seven of them by Oscar Robertson, midway through the third period to pull away from Los Angeles. Kareem Abdul-Jabbar had 32 points and Robertson 19 for the winners. Gail Goodrich had 21 points for the Lakers who shot a miserable 38 per cent from the field.

Matchmaker Malcolm Tall has mentored Leon Hall of Jacksonville as a possible opponent for the state's champion, but Wright handled him easily the last time they met, so Hall might not be brought in. Since it is only a preliminary it indicates Wright's opposition will not be too tough.

Wright has appeared in Tampa previously and headlined the only card that was held in Florida by the Florida Boxing Association, a one-sided thrashing over a reluctant Levi Forte at the American Legion Hall in Orlando last year.

Two nights later in Eufla, Solomon McTier, who is banned from fighting in Orlando for a variety of reasons, which I will not go into at this time as I have explained them at some length in the past, will headline the professional fight card.

I am all for what they are trying to do there—have a small time fight club where anyone can get a chance to appear, not just a select few. But in all honesty I can not recommend this card to anyone.

I don't expect big time boxing in a small town like Eufla, but the main event figures to be a disgrace. McTier is fighting Bowie Adams. I understand the star of "Wild Wild West," Robert Conrad, will be there to referee or judge or just sit there and look pretty, but that doesn't mean that Bowie Adams should be able to get into the arena without a ticket.

I have stated on several occasions I am all for the fighters. They can do almost no wrong in my eyes, but not so Bowie Adams was once a good fighter that

"I'll play 150 minutes a game if I have to get it," he said.

The Sabres got first-period heroics from Jerry Korab, Gil Perreault and Brian Speer, chasing Gump Worsley out of the net.

Winger Rick Martin, for example, has his eye set on the magic 50-goal mark and he is determined to get it.

Martin netted his 48th of the season Sunday night as the Sabres whipped the Minnesota North Stars 6-1, ending the Stars' hopes for a playoff berth.

Elsewhere in the NHL, Boston whipped Detroit 6-1; Toronto tied the New York Rangers 4-2; Pittsburgh beat Atlanta 4-2; St. Louis skated to a 2-2 tie with Chicago; and Vancouver routed California 7-0.

Martin scored 37 goals last season and is most anxious to get 50 this season. He has three games left to do it.
