

Man's Body Begins Journey To Its Resting Place

SPEECH WRITTEN FOR DAYTON CASE IS MADE PUBLIC

DAYTON, Tenn., July 29.—"The Tennessee case" an address prepared by William Jennings Bryan in defense of the Tennessee anti-evolution law, which the late congressman was prevented from delivering at the Dayton trial because of an early termination of the case, was made known to the world Tuesday by Mrs. Bryan.

A sudden decision of the defense to submit the case without argument and permit a verdict of guilty, prevented the delivery of the speech, says an introductory note to Mr. Bryan's address. "As it presents the issues involved and the reasons for the law, prohibiting the teaching in the public schools of any hypothesis that makes man a descendant of any lower form of life, it is printed for the information of the general public."

Mr. Bryan declared in the address that the case was no longer local, but that it "has assumed the proportions of a battle royal between unbelief that attempts to speak through so-called science and the defenders of the Christian faith, speaking through the legislature of Tennessee."

"It is for the jury to determine whether this attack upon the Christian religion shall be permitted in the public schools of Tennessee by teachers employed by the state and paid out of the public treasury," was a conclusion drawn.

Mr. Bryan declared in the address that the case was no longer local, but that it "has assumed the proportions of a battle royal between unbelief that attempts to speak through so-called science and the defenders of the Christian faith, speaking through the legislature of Tennessee."

RUBBER SPEEDS TO AMERICA ON THREE VESSELS

Ships Speeding Toward U. S. In Effort to Arrive Here Before End of This Month To Fulfill July Contracts

6,500 Tons Included In Large Shipment

NEW YORK, July 29.—A race with time and the market between Singapore and New York, is on, it was learned today. Three freight ships—the Kansas, the Siberian Prince and the Menelaus—are crowding on every point of steam possible in an endeavor to make port by Friday, July 31, at 12 midnight.

The prospect that this additional cargo rubber will reach our port in time and the certainty that it will soon be available for buyers for delivery on contracts was a factor in the decline of rubber today, although it was not the entire force behind the decline. Another factor was the fact that the American government has made strenuous representations to the British government about the runaway market which has followed the re-stricting of rubber shipments under the "Stevenson scheme" of limiting exports.

Reports received in the rubber trade say the Siberian Prince, the Kansas and the Menelaus, are endeavoring to make the trip under twenty days against an average time of twenty-four days. They are bringing approximately 13,000,000 pounds of crude rubber, grown in the Straits settlement and valued at current market prices for spot, some \$1,500,000.

Gould Widow Weds Titled Englishman In Canada Tuesday

NEW YORK, July 29.—Mrs. Guinevere Sinclair Gould, widow of the late George J. Gould, was married in Montreal Tuesday to George St. John Broderick Viscount Dunsford, eldest son and heir of the Earl of Middleton. Announcement of the wedding was made by a local attorney, acting for the viscount.

While the viscount and viscountess will reside in London, their friends indicated the new Lady Dunsford would not abandon her fight in this country for \$4,000,000 claimed as her share of the Gould fortune.

Watt Is Manager Of New Filling Station

Sanford Filling Station number two on Sanford Avenue and Twelfth Street owned by W. H. Reitz and J. H. Pyte, formally opened for business today. Alexander Watt, known to his friends here as "Scotty," will be manager of the city's newest filling station. Mr. Watt has been engaged in this line of business here for several years using which time he has built up a large patronage among the motorists of Sanford.

President!

CAUSE OF BREAK BETWEEN BRYAN, WILSON DIVULGED

Intimate Friend of Bryan Says President Changed Text of Austrian Note and Brought Resignation

PORTLAND, Ore., July 29.—Milton A. Miller, of Portland, an intimate friend of the late William Jennings Bryan Tuesday gave an account that Bryan told him in 1920 of why he happened to quit the cabinet of President Wilson. It had nothing to do with the president's notes to Germany as dispatches have reported, said Miller.

Miller said Mr. Bryan told him the United States was having trouble with Austria during the summer of 1915 and it was thought the Austrian embassy was plotting to cripple American plants. Mr. Bryan prepared a note which Mr. Wilson approved and Bryan sent it to the cable office after delivering a copy to the Austrian ambassador, Dr. Konstantin Theodore Dumba, with the statement that the note to Austria would be sent the same as the copy Dr. Dumba received.

Howard Is Being Held For Ransom In China

PEKING, July 29.—Consular advices say that ransom in money and cartridges has been demanded by the brigands, who captured Dr. Harvey J. Howard of the Rockefeller hospital in Peking more than a week ago while visiting at the Manchurian ranch of Morgan Palmer who was killed. Amount of the ransom was not specified and the whereabouts of Howard were not revealed.

Walker Seizes Big Liquor Shipment; Narrowly Escapes Bootlegger's Bullet

What is said to have been one of the largest liquor shipments ever seized by officers in Sanford, was captured by Constable E. E. Walker Monday night on West Second Street, when over 600 quarts of whiskey together with a Hudson automobile, an automatic pistol, were taken by the officer.

POLICE TO WAR ON RECRUITERS OF LABOR HERE

First Negro Arrested Under Campaign Recently Started, Receives Fine of \$300 Or Twice Amount Of License

Many Leave City In Past Several Weeks

With the arrest Monday of Dave Brown, Negro, on a charge of securing negro laborers without a license, officers of the Sanford police department began an extensive crusade against labor recruiters, who are said to have introduced between 300 and 400 negroes to leave Sanford during the past few weeks.

Municipal Court, Brown was fined twice the amount of a city license, or \$300. In lieu of the fine he was given a sentence of 60 days in jail. The negro failed to pay the fine and is now serving a term on the streets.

Determined to put an end to the labor soliciting, Mayor Lake announced today that he had given instructions to the police department for vigilant campaign against the recruiters.

Sanford Ministers To Speak In Interest Of Greater City Campaign

Next Sunday will be "Clivie Sunday" in a number of the churches of Sanford complimentary to the get-together movement of the Chamber of Commerce. The ministers will appear on the spiritual and cultural side of community co-operation. In the building of a well-rounded community, education, art, recreation, and social work of mankind must be looked after along with the upbuilding of the community from a material standpoint.

Earnings In Steel Industry Reported Slightly Improved

NEW YORK, July 29.—Satisfactory operating conditions in the steel industry in the second quarter of the year were reflected in the earnings statement of the United States Steel Corporation, made public Tuesday, showing total earnings of \$10,624,221. The report met the expectations of the financial district, in that profits were slightly better than those of the preceding quarter but below the figures of the corresponding period last year.

Washington News

The evolution case was postponed until Friday. Testimony as to earnings was introduced in the Nickel-Plate hearings. Protest against textile wage reduction was made by President Green of the American Federation of Labor.

Big Mass Meeting At City Hall Is Successful; Karr Enthuses Crowd

Karr Tells Kiwanians Boys And Girls Must Be Given Advantages Of Recreation

Dr. Alexander Karr will make a short talk at the Milane theater tonight in the interest of the "Greater Sanford" Campaign, according to an announcement today. The American City Bureau director will speak about 8 o'clock, his address coming during the intermission between the first and second shows. Many people, who have not yet heard Dr. Karr are expected to hear him tonight.

Milane Patrons To Hear Karr Tonight

Dr. Alexander Karr was again the principal speaker of the Kiwanis Club at its luncheon at the Seminole Cafe today and delighted his hearers with an address on the subject he has stressed a number of times in previous addresses, that of caring properly for the rearing of boys and girls in this community.

Community House Is Most Necessary

"If Sanford isn't a good city in which to raise boys and girls," he declared, "no matter how large it may grow and how rich it may become it will not be a successful city." Don't think too much of the material things and thus forget the children," he urged.

R. G. Davey Gives Interesting Account of Trip; Musical Numbers Greatly Enjoyed

Dr. Alexander Karr was again the principal speaker of the Kiwanis Club at its luncheon at the Seminole Cafe today and delighted his hearers with an address on the subject he has stressed a number of times in previous addresses, that of caring properly for the rearing of boys and girls in this community.

Declares Any City Failing To Provide For Proper Raising Of Children Can Never Become A Successful City

"When a child is born into the world, a new universe is born," he said. Will the people of Sanford properly provide for the uplifting of such a universe? he asked.

Educational Director Of Campaign Says Co-Operation Will Determine Success

A program was rendered by the Sanford municipal band and was enjoyed by those present. Following the concert, Mayor Forrest Lake took charge of the meeting as chairman and after a few brief remarks, he urged the cooperation of the people of this city in the campaign to the best of their ability, he introduced City Attorney George A. DeCottas as the first speaker of the evening.

Sanford Must Be Distinguished City

Mr. DeCottas gave a number of interesting and vital facts concerning the growth and the material prosperity of Sanford during the past several years. He cited instances of construction and development of the various municipal and private developments here which if all were added together would run into several millions of dollars.

Recreation Center Is Necessary; Other Talks Are Heard

Mr. DeCottas gave a number of interesting and vital facts concerning the growth and the material prosperity of Sanford during the past several years. He cited instances of construction and development of the various municipal and private developments here which if all were added together would run into several millions of dollars.

GROWERS ARE TO PROFIT BECAUSE NEW ICING PLANT

The new icing and re-icing plant to be constructed here by the Ball Ice and Machine Company of St. Louis, for the purpose of serving Sanford and Seminole county growers with a daily supply of 400 to 500 tons, will be a great asset to the community and will probably result in a considerable saving to local shippers, according to T. L. Dumas, local superintendent of the Atlantic Coast Line Railroad.

Dr. Karr to Speak To Growers of This City On Next Friday Night

A special meeting of growers of Seminole county has been called for next Friday night at 8 o'clock at the court to hear Dr. Alexander Karr, education director of the Chamber of Commerce and the Chamber of Commerce at the request of a number of growers who had heard Dr. Karr talk and wanted as many other growers as possible to have an opportunity to hear him. The meeting will be for both men and women and a fine turnout is expected.

Miami Realty Attempts Suicide

July 29.—Mrs. Alina ... in critical condition ...

New York Peddlers Attend Big Dinner

NEW YORK, July 29.—Peddlers of the East Side who vend from pushcarts everything from pickles to fur coats evidently have their period of affluence for 250 of them attended a \$5 a plate testimonial dinner last night at which the king and queen of the peddlers were crowned.

Large Web Of Underground Oil Lines Represents Sum Over Half Million Dollars

CHICAGO, July 28.—The transcontinental underground web of pipe lines that silently supplement the surface feeding of industry, has been developed into an oil carrying system that is comparable with the expansion of the railroads after the Civil War.

A network of more than 65,000 miles of two-to-twelve-inch pipes touch both coasts and spread into the mid-continent, connecting crude oil fields with refineries and industrial plants in distant sections of the country. This system is estimated to represent an investment of \$518,500,000 in the United States.

One of the largest companies figured that if the work of transporting the oil were taken over by the railroads tomorrow, it would require two million tank cars, in addition to 10,000 locomotives, to handle it.

Three main or "trunk" lines join the central and western fields with the Whiting, Indiana, refineries, and two of these continue to the Atlantic seaboard. Another trunk line connects the Salt Creek, Wyoming, and Elk Basin region with this line at Freeman, Mo.

The system is made up of dozens of trunk lines, taped by gathering lines or feeders. If all these trunk and gathering lines were connected in one line they would reach three times around the earth. The most recent addition was the 1,400-mile line from Tipton, Mo., to Chicago, via Kansas City. More than 500,000 barrels of oil are required to fill this line, which carries a "frozen liquid capital" figured at \$800,000.

The trunk lines are of eight and twelve inch pipe, while the gathering lines range from two to six inches. The pipes are laid three feet under ground.

Oil is forced through the pipes by powerful pumps, located 20 to 50 miles apart along the line, oil moves at a speed of three or four miles an hour, depending upon the contour of the country and the viscosity of the petroleum.

Building and laying of the pipe lines is similar to the construction of the railroads. Reconnaissance parties make the survey, the pipe layers string the pipe along the ground and when the shallow ditch has been dug, usually by machine, it is eased into place. Under favorable conditions, a crew of 10 men can lay a mile of pipe a day. The right of way, telegraph and telephone lines and sufficient acreage for pumping sites are obtained by the purchase of "easements." In some cases the right of way may

be obtained by condemnation proceedings.

The power which the pipe lines hold has caused them to be defined as public carriers and as such are under strict government regulation. The holders of the largest systems are Prairie Pipe Line company, with 10,772 miles, representing an investment of \$85,478,000; the Sinclair company, with 5,732 miles, representing an investment of \$71,592,000; the Buckeye company with 6,355 miles, representing \$21,775,000, and the National Transit company, with 3,542 miles, representing \$16,531,000.

The operation of a pipe line is continuous. Every day in the year the oil flows steadily. The pumping stations are all connected with communication wires. Road men daily inspect the lines for leakage.

The quantity of oil handled by the lines is more than 400,000,000 barrels annually, transported over a distance ranging from a few miles up to 1,400. They bring 150,000 barrels daily from the eastern and mid-continental fields to the Atlantic seaboard.

Celebration Planned Will Recall Flight

FRIEDRICHSHAVEN, July 28.—The 25th anniversary of the first Zeppelin flight will be celebrated in this city in August. On his first flight Count Zeppelin succeeded in remaining in the air only 29 minutes. To the coming celebration a number of prominent personalities in the world of economic and science will be invited.

Count Ferdinand von Zeppelin was born at Constance, in Baden, Germany, in 1838. During the American Civil War, he served as a volunteer in the Union Army. It was while he was in America that he made his first ascent in a balloon. He died in Berlin in 1917.

Threatened English Strike More Serious

LONDON, July 28.—Possibilities of a threatened strike of coal miners became more serious today when a conference of the transportation and railway unions decided to take steps to prevent the movement of coal in the event the miners struck.

Total expenditures by the bureau during the year ending July 1, 1924 was \$25,796.96. The bureau operated.

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, July 28.—Extraterritoriality! Try saying it. It can be done, of course, by most people. But mightily few can say it "on high." A vast majority have to throttle down and feel their way.

What I mean is: Can you come to "extraterritoriality" unexpectedly, in the middle of a sentence, and take it uninterruptedly and go right on without a pause or a backward glance or a passing thought that you topped that enunciated hurdle in pretty good style?

I'll take the negative on all bets offered, and win by a wide margin in the long run.

To illustrate, here's the opening sentence in a letter from President Green of the American Federation of Labor to President Coolidge of the United States. See if you can read it rapidly and distinctly, clearly pronouncing every word, from start to finish.

"On behalf of the American labor movement I wish to urge for your favorable consideration

and speedy action that the United States take the initiative in calling an international conference to make plans to abolish extraterritoriality in China."

Saying "extraterritoriality" is a serious problem at the state department right now. Chinese troubles have been uppermost there for several weeks and "extraterritoriality" their keynote, in many experts' opinion, so it has to be talked about half the time.

Some of the department folk, by constant effort and application, have got it down pretty pat. Some have trouble with it every time. A few can't say it at all.

It's delayed business appreciably, if the efficiency bureau, which is deeply concerned in such matters is to be believed. Delays in this efficient.

So the bureau asks "Why not abandon the darn word? In future let's say 'extraterritorial rights.'" You gotta hand it to that bureau. It does think up the brightest things.

Percentage Hired Laborers In State Decreases In 1925

TALLAHASSEE, July 28.—That the percentage of hired laborers on farms decreased 3 1/2 per cent between January 1, 1924 and the same date of 1925, is shown in a survey of farm population made by the United States Department of Agriculture in which it is estimated that the number of such laborers totaled approximately 109,000.

Despite the fact that during 1920, the peak postwar year in farm prosperity, when there was a net gain in the total farm population of about 200,000 over the preceding year, this recent survey indicates a discouragement, apparently, on the part of hired laborers and a return to the cities. It is cited, however, that the return movement from the farm during 1924 was partly offset by an opposite movement to the farm on the part of city population, the gross movement totaling 1,396,000 persons. Of this number it is estimated by the Department of Agriculture that only 25.2 per cent were actually hired laborers, the rest consisting mainly of owners of farms who found that they could not afford to live in the cities on the rentals of their farms. Many were persons who had sold their farms but were obliged to take them back because of the failure of agreed payments, while others returned because they failed to find the city all that they had expected it.

Mr. Bryan's position seems to be that some of the evolutionists may believe in God, but they have no right to.—Ohio State Journal.

Percentage Hired Laborers In State Decreases In 1925

During the biennial period of 1923-24 there were 142 arrests made for violation of the shell fish laws. Of this number 130 convictions were obtained, six cases are still on the docket and only six have been acquitted. During this same period 35 illegal seines and illegal nets were seized, some with and some without prisoners.

The report of the state shell fish commissioner for the biennial 1923-24 shows that there was a substantial increase in the shipment of Florida oysters and clams over the previous biennial. During the last biennial 221,924 barrels of oysters and clams were taken from the public reefs of the state and shipped raw or canned. This is an increase of 31,924 barrels over the previous biennial.

Florida was the first state to own and operate her own dredge and planting machinery. The state is leading all other states in the conservation of her natural oyster reefs. During the biennial period of 1923-24 the state planted 463,085 bushels of oysters (live seed) on the public reefs for the free use of the public reefs for the free use of available oyster supply today can be attributed to this replanting, says the report of the shell fish division of the state department of agriculture. Clams planted during the same period totaled 304 bushels.

NOTICE OF APPLICATION FOR TAX DEED UNDER SECTION 575 OF THE GENERAL STATUTES OF THE STATE OF FLORIDA

Notice is hereby given that H. H. Bundy purchaser of Tax Certificate No. 291, dated the 4th day of June, A. D. 1925, has filed said certificate in my office and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida, to-wit:

SW 1/4 of SE 1/4 of NE 1-4, Sec. 24, Twp. 21 S. R. 30 East—19 acres.

The said land being assessed at the date of the issuance of such certificate in the name of O. C. Wheaton. This said certificate shall be returned according to law on the 27th day of Aug. A. D. 1925.

Witness my official signature and seal this 21st day of July, A. D. 1925.

V. E. DOUGLASS, Clerk Circuit Court, Seminole County, Florida.

NOTICE OF APPLICATION FOR TAX DEED UNDER SECTION 575 OF THE GENERAL STATUTES OF THE STATE OF FLORIDA

Notice is hereby given that A. E. Johnson purchaser of Tax Certificate No. 293, dated the 7th day of June, A. D. 1925, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole county, Florida, to-wit:

SW 1/4 of S 1/2 of Lot 2, Section 9, Twp. 21 S. Range 29 East—1 1/2 acres.

The said land being assessed at the date of the issuance of such certificate in the name of unknown. Unless said certificate shall be returned according to law tax deed will issue thereon on the 27th day of August, A. D. 1925.

Witness my official signature and seal this 21st day of July, A. D. 1925.

V. E. DOUGLASS, Clerk Circuit Court, Seminole County, Florida.

ADVERTISING Construction of Hills and Bridges

Sealed proposals will be received by the Board of County Commissioners of Seminole County, Florida, at their office in the court house at Sanford, Florida, at or before 2 P. M. August 10th, 1925, for the following:

Construction of earth fills at the following points:

- (1) Along the south shore of Lake Monroe from Lake Monroe Highway bridge eastward 1 1/2 miles 200,000 cu. yds.
- (2) Approach to draw bridge over St. Johns River at east end of Celery Avenue, 18,700 cu. yds.
- (3) On Geneva Road across St. Johns River, 81,000 cu. yds.

Construction of 2 crested truss bridges totaling approximately 400 feet in length and the erection of protection fenders for old draw bridge.

Each proposal must be accompanied by a certified check, made payable at sight, for 2 per cent of the amount of the bid to V. E. Douglass, Clerk of the Board.

The successful bidder or bidders will be required to furnish a bond equal to 50 per cent of his or their bid of such bond to be executed by a surety company licensed to do business in the State of Florida, said bond to be approved by the Board of County Commissioners. Plans and specifications may be secured from Fred T. Williams, engineer, at the office of the Board at the office of Fred T. Williams, engineer, after July 28, 1925, at the office of Fred T. Williams, engineer, after July 28, 1925, at the office of Fred T. Williams, engineer, after July 28, 1925.

Now his voice is so melodious his singing so amuses the many theatres are sold out in advance of my act

Aquatic Fox Trot Lures Young America To Water

JOSEPHINE GUERIN

The story of my troubles and how I started swimming again when I think of you.

Youngsters Like Crawl When Done Musically

New York City.—An expression of the intense Americanism of the younger generation is the new American crawl stroke in swimming, says Josephine Guerin, famous swimmer and high diver.

The crawl, like the breast stroke, of which Miss Guerin wrote for readers of this paper, is more effective exercise when done to music. But while the breast stroke goes best to a waltz, the crawl is an aquatic fox-trot.

Says Miss Guerin, "Tune the saxophone and banjo for 'When I Think of You,' or put a record on the victrola by the water's edge, then—take your position—"

"Hands clear in front, palms down, both legs extended straight out behind you."

"FIRST STROKE: Right hand straight, pull down to the body."

"SECOND STROKE: Draw arm over the level of the water, slightly bending the elbow."

"THIRD STROKE: Shoot the arm out straight ahead, keeping the arms straight with the palms down on a level with the shoulder. As the right hand comes to the level of the left, start down stroke with the left hand."

"Breathing for the crawl is on every other beat."

A Dollar Buys More Telephone Service Than Ever Before

THIS year the demands for service in Florida will require additions and replacements to the telephone system costing approximately \$4,000,000. This money must be obtained on the company's credit. And, as you know, the credit depends largely upon the earning capacity, as in any other business.

With the investment in service growing so enormously each year the investment per telephone station is also increasing rapidly. Unless there is a corresponding increase in the revenue per telephone station, the company's borrowing capacity, or credit, will not be strong enough to attract investors.

The telephone using public is benefiting by the growth of the system. The service is now better than ever before, and is more valuable to the individual user as well as to communities at large.

Economical management and efficient workers have kept the operating expenses at a minimum, despite the increase of from 10 to 25 per cent in wages and taxes over pre-war levels, and an increase of more than 45 per cent in the cost of everything else which forms a part of the telephone plant.

Telephone rates have not increased in anything like a reasonable proportion, and today your dollar buys more telephone service than ever before in the history of the telephone business in Florida.

This problem is one of equal concern to telephone users and telephone companies, but its solution depends largely upon the public's appreciation of its importance.

FORMER SANFORD MAN MARRIED TO NIECE OF DR. LANGLEY IN ALABAMA

Of much interest to the many friends of the young couple is the announcement of the marriage of Miss Irma Connie, of Camp Hill, Ala., to Maunsel Gabbett, of Savannah, Ga. Mrs. Gabbett is a niece of Dr. W. T. Langley of this city, she has visited here a number of times and has a host of friends who wish her every happiness. Mr. Gabbett was formerly a Sanford man and has a number of friends here.

The following extract was taken from the Camp Hill paper: "A pretty wedding occurred at the Universalist Church Tuesday at four thirty in the afternoon, when Miss Irma Connie, of Camp Hill, highly esteemed musician and popular teacher of music, was united in marriage with Mr. Maunsel Gabbett, of Savannah, Ga.

"The church was elaborately decorated for the occasion. The chancel was completely transformed by a most effective use of trellises covered with smilax roses, while ferns were employed to heighten the beauty, and white lillies offered a striking contrast to the rich green of the surrounding foliage. The lights were enclosed in shades of pink crepe paper, and the wing addition was furnished as a reception hall with appropriate couches and chairs, tables, rugs and flowers.

Promptly at 4:30 Miss Catharine Chester furnished violin music, and following this Miss Sarah Chester rendered an appropriate solo. This in turn was followed by a solo by Mrs. George Heard, Miss Mildred Simmons acting as accompanist for all three. As the first strains of the wedding march were heard the ushers, Mr. W. E. Tuck and Mr. Jim Daniels, entered, and were followed by the bridesmaids, Miss Martha Langley and Martha Gabbett. Mrs. Theodore Langley, of Sanford, Fla., was matron-of-honor, and Miss Lydia Langley acted as maid-of-honor. Robert Langley, ring bearer, carried the ring in a rose, and Maude Kelly Green and Jane Flurry were the flower girls. These preceded the bride-to-be entering on the arm of her brother, Hubert Connie, who also gave her away. The groom entered the auditorium from the retiring room at the left of the chancel, escorted by Mr. Cary Parker, the best man, and advancing through a bower of foliage not the bride at the altar where Rev. George A. Gay received them and read the marriage service.

Following the ceremony the bride and groom left for a wedding trip to Savannah, Ga., and other points. A large assemblage of friends and relatives showered congratulations upon the departing couple.

RULES TOWN 117 YEARS

SURVILLE, France, July 29.—The majority of this little village of 310 inhabitants has been in the same family 117 years. The first mayor, Honore Petel, was elected in 1808, and since then five other Petels have held the office. The last, Alfred Petel, recently was re-elected for a four year term. He was first elected in 1908.

Clay tablets excavated at Ur and dating back to 2200 B. C. show that temple officials when traveling held letters of credit which enabled them to obtain food in the cities through which they traveled.

It is estimated that the crow causes an annual damage of \$3.55—a cent a day per crow.

SUNDAY SCHOOL CLASS HAS GOOD MEETING MONDAY

The Wesleyan Truthseekers of the First Methodist Church met at the home of Mrs. H. H. Chappell on Celery Avenue Monday afternoon for a combined business and social meeting.

The home of Mrs. Chappell was never lovelier than on this occasion. Pink vine and hibiscus were artistically combined in decorating.

Mrs. R. W. Turner, president, presided over the meeting. Mrs. Camp, in the absence of the devotional chairman, Mrs. C. H. Smith led the devotional meeting, at the conclusion of this the president called for the reading of the minutes which were approved. The treasurer's report was very gratifying and showed a good balance on hand. Routine business was disposed of. The membership committee reported eight new members, several of these being present. There were three visitors, Mrs. Harvey and sister and also Mrs. D. I. Stallings of Columbus, Ga.

The door committee for the month of August was then appointed and were as follows: Mrs. Shoemaker, Mrs. Wilson and Mrs. Moyer. At the conclusion of the business session the meeting was turned over to the hostesses for the afternoon. A delicious ice course was served.

LIBRARY STORY HOUR

Miss Helen Vernay will have charge of the Story Hour next Saturday morning at 10 o'clock. Among those who will assist her are Miss Mary Lee McLaulin, a talented young visitor from Macon, Ga., and several of the young folks who regularly attend. Last week Miss Margaret Zachary held a very enjoyable program in the park, and additional numbers were given by Alice De Coursey, Nannie Brown Kelly and Richard Smith.

Miss Sallie Humphrey and Johnnie Humphrey arrived Tuesday from Clinton, S. C., to spend a month's vacation with their sister and brother, Mr. and Mrs. R. T. Humphrey at 215 Avacado Avenue.

W. C. Coursey went to Jacksonville Sunday to accompany his daughter, Miss Virginia DeCoursey home. Miss DeCoursey has been attending the summer session of the North Carolina State College for women.

J. T. Newby returned Tuesday from points in North Carolina. Mrs. Newby and daughter, Miss Lucille Newby, will remain at Rocky Mount, N. C., for some time, the latter having undergone an operation for appendicitis.

"L. O."

A good position is offered you in another city. It is so good that you can not turn it down. You accept.

You find, on arrival at your new home, that your position demands better clothes, a more prosperous-looking "front." Your moving expenses have eaten up your capital. You need credit.

You go into a store you would like to trade with. You order out a suit of clothes, and give your references, some friend or some store with which you have a good credit. You order the merchandise sent to your new address.

An hour later the telephone rings. You learn that you have been denied credit.

Two little letters—an "L", an "O." The wires work fast. They have told the credit man that you "Left Owing"—you did not make proper settlement when you left the old town. An embarrassing situation for everybody, but whose fault is it?

If you should leave Sanford, arrange in some way to pay your bills or make satisfactory settlement. It is the business of the Credit Men's Association to give the truth about your record, and it will always be given. Rest assured that this is one place where, always, "your sins will find you out."

Pay your bills promptly, when due. It is never uphill to the man on the level.

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, July 29.—Money's money. It seems as if folk would be glad to take all of any kind—any good kind—they can get.

Yet federal reserve bank representatives from all parts of the country told Assistant Secretary of the Treasury Dewey, recently that they don't believe his attempt to popularize \$2 bills will succeed. They reminded him of his failure to get silver cartwheels back into circulation.

"Yes," argued Dewey, "but there was some sense in that. Cartwheels really are pretty heavy to lug around. This prejudice against \$2 bills is so silly."

"No sillier than a prejudice against Friday the 13th," rejoined the bankers. Still, they promised to try.

The country's tremendous demand for paper currency has the bureau of engraving and printing simply run ragged. Working overtime, it can't turn the stuff out fast enough. Dewey's idea is to

EXTERMINATE ANTS IN THEIR NESTS

Smokers Run Away With Second Game; Beat Sanford 9 To 4

With Errorless And Superb Support Of Teammates, Estrada Pulls Out Of Several Bad Holes For Smokers

Snead Bingles Four Times Successively

Celery-Feds Play Good Ball Except In Fifth When The Smokers Score Six Runs

The league leading Tampa Smokers romped away with another victory over the Celery-Feds Tuesday afternoon on a muddy field by a score of 9 to 4. Except for the fifth and seventh innings in each of which Sanford scored two runs Estrada, pitching for Tampa, kept the situation well in hand because of the able assistance of his teammates, who played errorless ball.

On two successive hits by Culbreth and Dumas in the first followed by a choice by Curley on which no one was out, three Celery-Feds filled the bases with none out. Estrada then settled down to real pitching and let the local team down without a score until the fifth inning.

After striking out his first time at bat, Snead, second baseman for the Smokers hit four times successively, two of the bingles being two-baggers. He sent in two Tampa runs and helped the Smokers around the bases in the fifth when they made six runs. Snead is credited with two of the scores.

In the third inning Jesmer was walked by Alverson and went to second on a sacrifice by Peterson. Snead hit for two bases, scoring Jesmer, going to third when Hickey was out at first. Estrada hit safely to center field and Snead scored. Estrada was out at second on a ground ball to Culbreth, playing that position.

In the fifth frame Jesmer and Peterson walked successively, but Jesmer was caught off second a moment later via the catcher to third to short route. Snead hit safely to right field and Hickey followed with a bingle to center and the bases were full. Kelly went in for Alverson and Estrada took his base when he was hit by a pitched ball, scoring Peterson. Weik singled to right field scoring Hickey and advancing Estrada to third. Estrada scored when Alford threw wild to third in an effort to catch the Tampa hurler off base. Leo then crashed one of Kelly's offerings to deep right for three bases scoring Weik. He scored on a wild pitch. Allen fouled out to first, Huggins hit safely to left field and Jesmer, up for the second time during the inning, was out pitcher to first.

In the second half of the fifth, Culbreth struck out and Dumas singled to right field. Curley was hit by Estrada. Frisbie was safe at first on a fielder's choice but Dumas was out at third, pitcher to third. McQue was up and crashed one of Estrada's offerings to deep center for three bases, scoring Frisbie and Curley. Bailey was out short to first.

In the seventh Dumas walked and Curley hit safely to left field. Frisbie walked and the bases were full again. McQue fouled out to third and Bailey was safe at first on an infield hit to second, scoring Dumas and Curley. Wade

grounded out to first and Alford was out pitcher to first, retiring the side without further scoring. The Smokers scored their ninth and final run in the eighth inning. Huggins was out pitcher to third and Jesmer walked for the third time during the game. Peterson struck out but Snead hit safely to left field and Jesmer crossed the plate. Hickey struck out.

Box Score table for Tampa vs Sanford

Summary: Two base hit, Snead. Three base hits, Leo, McQue, Snead. Double plays, McQue to Culbreth to Bailey Base on balls, off Estrada 6, Alverson 5, Kelly 1. Struck out by Estrada 8, Alverson 2, Kelly 2. Hits off Alverson 1 in 4-1-3. Left on base, Tampa 5, Sanford 11. Hit by pitcher, Estrada by Kelly, Curley by Estrada. Umpire, Pish. Time of game, 2:30.

How They Stand

Florida State League and National League standings table

13-INNING GAME IS CAPTURED BY SAINTS TUESDAY

Block's Team Comes From Behind To Score Victory Over Lakeland; Herandez Draws Fine From Umpire

LAKELAND, July 29.—The Saints and the Highlands staged a real-time pitching duel here Tuesday, going full 13 innings before the Saints finally won, 6 to 5. Hernandez was fined \$25 by Umpire Ware and ordered from the park when he threw a handful of dust into the umpire's face when caught at the plate in the ninth on an attempted steal.

Box Score table for Lakeland vs Sanford

Summary: Two base hit, Edwards, Mesner, Brown, Brazier. Three base hit, Brazier, Welch. Left on base, St. Petersburg 6; Lakeland 4. Base on balls off Hewitt 0; Edwards 0; Ery 2; Johnson 3; Craig 9. Hits off Ewert 3 in 3-1-3; off Edwards 6 in 8-2-3 innings. Winning pitcher Edwards. Losing pitcher, Craig. Umpire Ware. Time 2:35.

SENATORS DROP DOUBLE BILL TO THE WHITE SOX

Walter Johnson Driven From Box By Chicago Onslaught; Connie Mack's Crew Lose; Cleveland Wins From Boston

WASHINGTON, July 29.—Chicago gave the Washington Senators a severe setback Tuesday winning both games of a double-header. In the first game the White Sox drove Walter Johnson to cover, forced the Harristons to use three other pitchers, and won 15 to 5. In the second contest the Sox, after pounding two pitchers from the mound, won 6 to 2 when the game was called in the eighth because of darkness.

Score by innings: Chicago 002 011 006—10-11-2. Washington 001 020 002—5-11-1. Batteries: Lyons, Connally and Schalk; Johnson, Marberry, Russell, Ozden and Ruel.

Second Game Score by innings: Chicago 401 100 00—6-7-1. Washington 000 200 00—2-9-2. Batteries: Cveugros, Connally and Grobowski; Schalk; Zachary, Marberry, Gregg and Ruel, Severid.

INDIANS WIN BOSTON, July 29.—Cleveland found no trouble in hitting Boston pitchers Tuesday and won 16 to 7. The Indians piled up 24 hits, Sherrod Smith having a perfect day at bat on four trips to the plate. Joe Sewell's playing around short stop was a defensive feature.

Score by innings: Boston 010 004 460—16-21-4. Cleveland 012 002 011—7-10-1. Batteries: Smith and Myatt; Ruffing, Fuhr, Neubaur, Ross and Heving.

YANKES BEAT BROWNS NEW YORK, July 29.—One old right-hander proved better than two young left-handers Tuesday and New York defeated St. Louis, 6 to 2. Bob Shawkey was more effective than Ernie Wingard and Chester Falk, the latter going to the mound in the seventh.

Babe Ruth hit into the bleachers for his eleventh home run of the year in the seventh with Paschel on base and he drove in a run in the opening round with a single. He scored himself three times, being forced in by Wingard's wildness in the third. The Babe put a climax to the game by picking Hargrave's foul out of a pavilion box for the final out.

Score by innings: St. Louis 200 000 000—2-8-0. New York 300 001 20x—6-8-1. Batteries: Wingard, Falk and Hargrave; Shawkey and Bengough.

TIGERS BEAT ATHLETICS PHILADELPHIA, July 29.—Detroit took the first game of the series with the Athletics here Tuesday, 4 to 3. A home run into the left field stands by Riney, driving in Dausa ahead of him in the fifth inning, gave the Cobbers a lead that the Athletics could not overcome. Poole's wild throw of Cobb's grounder and a single by Heilmann scored the winning run in the sixth inning.

Score by innings: Detroit 000 031 000—4-7-1. Philadelphia 011 001 000—3-11-2. Batteries: Dausa and Bassler; Rommel and Cochrane.

The American Museum of Natural History is maintained almost exclusively by the contributions of its 7,052 regular members.

PITTSBURG WINS FROM BRAVES BY SCORE OF 5 TO 1

Mendows Allows Only Seven Scattered Hits; New York Wins By Home Run Smash; Cincinnati Beats Phillies

PITTSBURGH, July 29.—Mendows kept Boston's hits well scattered Tuesday and Pittsburgh won 5 to 1. Benton had only one bad inning, the fifth, when the Pirates scored three times on two walks, a sacrifice and two singles. Wright the Pirate shortstop, had eleven fielding chances without a slip.

Score by innings: Boston 000 000 000—1-1-2. Pittsburgh 001 030 10x—5-9-0. Batteries: Benton and Seiner; Mendows and Smith.

GIANTS DEFEAT CUBS CHICAGO, July 29.—Five lusty home smashes by the New York Giants gave the champions an easy victory over Chicago, 10 to 3 in the first game of the series. Jack Bentley allowed the Cubs only 5 scattered hits and never was in great danger as his team mates played great ball behind him. Muesel got two home runs.

Score by innings: New York 210 002 410—10-18-2. Chicago 002 000 010—3-5-0. Batteries: Bentley and Gandy; Cooper, Iueh, Jones and Gonzalez.

REDS BEAT PHILLIES CINCINNATI, July 29.—The Reds ran their winning streak to four games when Luque held the Phillies to five scattered hits and shut out the visitors in the first game of the eastern series. Luque was in rare form as he fanned 10 Phillies, getting the side in the fifth inning.

Score by innings: Philadelphia 000 000 000—0-5-0. Cincinnati 100 010 01x—3-5-0. Batteries: King and Wilson; Luque and Hargrave.

ROBINS BEAT CARDINALS ST. LOUIS, July 29.—Duster Mails weakened and Brooklyn defeated St. Louis, 12 to 9. The Robins bunched hits in the sixth and seventh innings for eight runs. Manager Rogers Hornsby of the Cardinals increased his season's string of circuit clouts to 26 by hitting into the right field bleachers in the eighth inning with the bases loaded.

Score by innings: Brooklyn 000 104 421—12-15-1. St. Louis 010 303 050—9-15-2. Batteries: Grimes and Hargrave; Mails and O'Farrell.

Havana Fire Damage Placed at \$2,500,000

HAVANA, July 27.—Eight firemen and citizens were injured yesterday in a fire which destroyed six warehouses on the water front of Regla across the bay from Havana. The loss is estimated at \$2,500,000.

Stethoscope Reveals Conspirators' Plot To Kidnap Film Star

LOS ANGELES, July 28.—What detectives diagnosed as a plot to kidnap Mary Pickford and hold her for \$2,500,000 ransom was revealed by putting a physicians stethoscope to the crack under a hotel door. The operator of the listening device told part of what he heard at yesterday's session of the trial of three alleged plotters, reading from notes he took while words of the alleged conspirators to him from an adjacent room through the stethoscope reporter, related to the defendants sought to plan to kidnap some. Finally picked Mary Pickford. Negri also was considered also Jackie Coogan.

It is not uncommon Italian laborer or farmer to make a hearty meal and wine, though he often wash in a loaf of bread with boiled greens or beans.

L.B. Higginbotham Held At DeLand On Charge Of Murder

DELAND, July 28.—Luther B. Higginbotham, now being held in the Volusia county jail here for grand hearing for the murder of Millard Minchew at Tomoka on the morning of May 24, last, and Idella Drury have been granted a marriage license, it has been learned here. It is understood that the marriage will be solemnized in the jail on Sunday, July 26. Both gave their addresses as Ormond, Florida.

Luther Higginbotham was named as the murderer of Millard Minchew by a coroner's jury and later at a preliminary hearing before County Judge John E. Peacock, was held without bail for the grand jury at the fall term of the circuit court.

Millard Minchew was shot to death early in the morning along the Tomoka trail west of Ormond. When arraigned for the preliminary hearing, Luther Higginbotham declared that he shot in self-defense.

Fred Higginbotham, brother of Luther, and Millard Minchew had been arrested prior to the shooting on charges of illegal possession of liquor.

The prosecution, it has been intimated, will base its case on the alleged motive of crime as being a quarrel said to have taken place between the men following the arrest that one of the arrested men had given the sheriff information about the liquor selling of the other.

TUBERCULOSIS CHECKED

DUBLIN, July 28.—Tuberculosis in the Free State is gradually lessening, statistics show. In 1919 one in about every 70 of the population was affected by some form of the disease while in 1923 the proportion had diminished to about one in every 90. The decrease in deaths from all forms of tuberculosis in five years was 1,371. In 1923 the tuberculosis death rate was 1.41 per 1,000.
