**ST CARLOAD  
1925 CITRUS  
TOP SHIPPED**

**Netto Firm Sends  
Four Cars of Grapefruit  
to Markets in the East**

**ment Earlier  
than Last Season**

**to Gives Notice of  
Strict Adherence to  
Law Passed in April**

**LMETTO, Sept. 19.—(A)**  
The first grapefruit to  
be shipped out of the State  
this season was billed Palmetto  
Eastern markets Friday  
at Manatee Fruit Com-  
pany.

The fruit was put through  
coloring rooms and came  
highly colored. It was  
shaped and ran well to the  
selling sizes. The official test  
went beyond the requirements  
at the last session of Leg-  
slature.

Company official say they will  
ship at least two car-  
loads a day for the next  
two weeks. They shipped four  
Friday as a start.  
This is the second time in suc-  
cession this company's grove has  
been the first grapefruit to  
be shipped out of the State.

It is not known what the price  
is, but it is expected, as de-  
clared as this fruit is in quality  
grade, it will bring a good fig-  
ure.

**ments Two Weeks Earlier**  
**LAHASSEE, Sept. 19.—(A)**  
The shipment of Agriculture  
Friday began receiving the  
requests of the season notifi-  
cation of the intention of Citrus  
growers and packers to be-  
gin shipping fruit.

Two weeks earlier than  
last season. The time set  
for the shipments was given as be-  
ginning Sept. 20 and Oct. 1.  
The Commission of  
Citrus may have time to de-  
termine the inspector for the various  
shipping points.

Following receipt of the notices  
Mr. Mayo immediately instructed  
members of his inspection depart-  
ment to proceed to the point nam-  
ed. They have positive instruc-  
tions that no freight shall be per-  
mitted to be shipped unless it meets  
the requirement as to juice con-  
tent and otherwise specified in the  
act of 1925.

**Ruled Approved**  
Provisions of this act, it was  
stated, were approved by the  
Senate on the bill after a care-  
ful investigation by chemists,  
and by the Senate and other ex-  
perts. Provisions of the act  
were approved by the Senate  
and other experts. Provisions  
of the act were approved by the  
Senate and other experts.

**Temporary Building  
For Diet Is Planned**  
**OKYO, Sept. 19.—(A)**—At an  
ordinary session today, the  
diet voted 1,800,000 yen for the  
construction of a semi-permanent  
diet building. The structure  
will be built upon the site of  
the former Diet building which burned  
yesterday. This is expected to  
be completed in January in time  
for the diet session.

Police announced that the fire  
today was caused by a care-  
less workman using a gas light.

**Bryan Estate Figures  
Will Be Made Public**  
**MAMI, Sept. 19.—(A)**—The  
will know the value of Wil-  
son Jennings Bryan estate the  
first part of next month, re-  
sulting from the settlement of  
the work of settlement.

Present estimates of the Bryan  
estate running from \$500,000 to  
more than \$1,000,000 are purely  
speculative, according to W. E.  
Thompson, former secretary of the  
donor, who now stands in an  
ambivalent relation to the family.

## Scopes Appeal Is Filed In Tennessee Supreme Court; Case Set For September 28

**KNOXVILLE, Tenn., Sept. 19.—**  
(A)—The celebrated Scopes evolu-  
tion trial, which turned the eyes  
of the world to the Rhea County  
Court House at Dayton in July,  
Thursday was transferred to a new  
scene of conflict when the appeal  
was formally filed in the state su-  
preme court here.

The title of the case is John T.  
Scopes, Plaintiff in Error vs. State  
of Tennessee, Defendant in Error.  
The record is among the largest  
ever filed in the court.

The name of the late William  
Jennings Bryan, who participated  
in the Dayton trial appears on the  
title page of the transcript, though  
the name was complete or present to  
John T. Raulston, trial judge. The  
case is to be heard on the first  
day of court when it convenes in  
Knoxville, Monday, Sept. 28.

But the case will not be argued

## WILBUR, DAVIS TO BE QUIZZED FIRST BY AIR PROBERS

**No Appropriations Available  
For Use of Committee;  
Davis Plans to go into Dis-  
cussion of Airmen's Policies**

**WASHINGTON, Sept. 19.—(A)**  
—Acting Secretary of War Davis  
will be the first witness to be  
heard by the President's air board.

In vitations to appear were ex-  
tended to the two department  
assistants Friday after the board,  
at an informal meeting, had decided  
to begin its inquiry by examining  
the policies and administration of  
the Army and Navy air services,  
both for many months the targets  
of vigorous criticism by Col. Wil-  
son Mitchell, former assistant  
Army air chief.

Mr. Davis, who originally sug-  
gested the non-military investiga-  
tion, was asked to appear when  
the hearings started at 10:30 a. m.  
Monday, and Mr. Wilbur's appear-  
ance was requested Tuesday. Both  
promptly accepted.

The board members today also  
gave further consideration to the  
course to be pursued in their in-  
quiry, but did not go into the  
question of financing it, this ques-  
tion being postponed to permit a  
more thorough estimate of the  
expedients that will be required.

No money for board.

It was made known at the White  
House that no appropriation was  
available for use of the board and  
that it must make its own arrange-  
ments with respect to expenses.

The President, however, expects  
that the three members of Con-  
gress on the board will be able to  
carry out their duties by supplying  
clerks, stationery and many in-  
cidental items. He is of the opinion  
that expenses will not be heavy,  
and that the board can care for  
itself at present, being reimbursed  
if necessary, by Congress when it  
convenes.

Mr. Davis plans, in his testimony  
before the board, to go into a  
broad discussion of the policies of  
the Army air arm, and he will  
be accompanied by several officers  
qualified to explain details of  
the administration and activities  
of the Army air arm.

Major General Patrick, chief of  
the Army air service, will be one  
of these, and it is probable that  
Maj. Gen. John L. Hines, chief of  
staff, and Brig. Gen. Hugh A.  
Drum, assistant chief of staff, will  
be the others.

**Willings to Help**  
The acting secretary frequently  
has expressed willingness to  
co-operate with the board to the limit,  
and will be prepared to offer all  
available information it desires.

Secretary Wilbur today person-  
ally presented to the board a copy  
of a report made last Winter of  
a special Navy board on the rela-  
tive value of surface vessels, sub-  
marines and aircraft. The report,  
which held that the battleship was  
still the backbone of the Navy,  
severely criticized at the time by  
Colonel Mitchell.

The Navy secretary plans to  
present to the board Tuesday sev-  
eral other reports on naval mat-  
ters, and to answer whatever ques-  
tions may be asked.

## Australia Likely To Hold Election Soon

**MELBOURNE, Australia, Sept. 19.—**  
(A)—A general election in  
Australia is impending. Prime  
Minister Bruce announced tonight  
that parliament would be dis-  
solved when the tariff bill and  
supply provisions have been en-  
acted. He was not able, however,  
to announce the date of election.

**Markets**  
**CHICAGO, Sept. 19.—(A)**—  
Wheat, December, 1.50 to 1.50 1/4;  
May, 1.52 1/2 to 1.53; Corn, Decem-  
ber, 80 1/2 to 81; Oats, December,  
41 to 41 1/4.

**NEW ORLEANS, Sept. 19.—(A)**  
—Cotton, closed steady at net un-  
changed to seven points down Oc-  
tober 23.84; May, 24.05, bid.

## CHAPMAN'S PAL IS SOUGHT BY U.S. POSTAL MEN

**Inspectors Throughout This  
Country Have Been Told  
To Make Every Effort To  
Catch "Dutch" Anderson**

**Fugitive's Death Is  
Denied by Officials**

**Is Described as Murderer,  
Safe Blower, Pickpocket,  
Forger and Bank Burglar**

**WASHINGTON, Sept. 19.—(A)**  
—Postoffice inspectors throughout  
the country, recognized as form-  
ing one of the most effective sec-  
ret service organizations in the  
world, have been directed to make  
every effort to apprehend George  
"Dutch" Anderson, pal of Gerald  
Chapman, notorious bandit and fugi-  
tive from the Atlanta peniten-  
tiary.

Best the recent report that a  
body found at Dubuque, Ia., was  
believed to be that of Anderson,  
led to a general impression that  
he was dead. Rush D. Simmons,  
chief postoffice inspector, today re-  
quested all postmasters to give the  
widest possible circulation to in-  
formation that examination by in-  
spectors who know the fugitive dis-  
closed that the report was erro-  
neous.

Described by postoffice inspec-  
tors as a "murderer, safe-blower,  
all-around bandit, pickpocket, for-  
ger, bank burglar and general  
thief," Anderson has been sought  
by federal, state and local author-  
ities since he escaped December 30,  
1923, with Gerald Chapman from  
the Atlanta penitentiary where  
they were serving a 25-year sen-  
tence for the million-dollar hold-  
up of the mail truck in New York  
Chapman was captured, turned over  
to Connecticut authorities, convicted  
of murder there and now is un-  
der sentence of death. Postoffice  
inspectors have been on the trail  
of Anderson a number of times,  
but he has eluded them. Should he  
be arrested, he probably would be  
turned over to Indiana officials for  
trial on a charge of murder pend-  
ing against him at Muncie,  
Ind., with Charles Wolfe, now  
in custody. He is alleged to have  
killed Mr. and Mrs. Ben Hanes, who  
were in the car with Chapman.

Two rewards, aggregating \$1,500  
have been offered for his capture.  
Mr. Simmons has learned that  
Anderson is a number of times,  
several languages, can move in any  
society, is fond of music, good lit-  
erature and good living, and often  
frequents good hotels and high  
class furnished apartments.

**NEW HAVEN, Conn., Sept. 19.—**  
(A)—A substitute complaint has  
been filed in federal court here by  
the United States district attorneys  
office in a case brought against  
Gerald Chapman, bandit, now in  
state prison under reprieve from  
the death sentence for killing a  
New Britain policeman.

This complaint seeks to provide  
for seizure of any property which  
Chapman may have or which may  
be brought to light later. The or-  
iginal complaint was to secure re-  
version of any lot of the big mail  
robbery in New York in which he  
had a part.

The government still is seeking  
light on the disposal of money and  
securities obtained in several ro-  
bberies in which Chapman is claim-  
ed to have had a hand.

**Victim of Explosion  
Made Lame For Life**

**ORLANDO, Sept. 19.—(A)**—Mrs.  
Don C. Bass, who was injured yes-  
terday when a bomb exploded in  
the automobile she was starting in-  
to that city, will always be lame,  
according to attending physicians  
at a local hospital where she was  
taken following the explosion.

Mrs. Bass is in the hospital with  
both ankles broken and bones of  
one of her heels badly crushed.  
She will be confined there some  
time, physicians stated and it will  
be months before she can walk.

**Program For Organization Meeting  
Of Christian Church Is Announced**

Final arrangements for the or-  
ganization meeting of the Sanford  
Christian Church Sunday afternoon  
at the Women's Club, have been  
completed by local members of  
the Christian Church, according to  
an announcement made today by  
those in charge of the plans.

Since the institution some time  
ago, of services here by the local  
contingent of the Christian Church,  
members have been laying plans  
for formal organization and incor-  
poration as a recognized congrega-  
tion. The meeting, to begin at 3  
o'clock tomorrow will be the cul-  
mination of these plans. It is  
believed that the services tomorrow  
will be for the purpose of electing  
and ordaining various officers of the  
church, and for the discussion of  
plans for future development, it  
is declared.

Rev. J. L. Jackson, president of  
the Orlando district, will preside  
at the meeting. It is announced,  
and a fitting program for the oc-  
casion has been prepared. High  
officers of the church will be in  
attendance and special musical

## Federal Church Council Verifies Recent Report On National Liquor Problem

**Body Issues Statement Fri-  
day Vouching For Authen-  
ticity of Findings of The  
Educational Department**

**Likely Cause Given For  
Latest Controversy**

**Dr. Marquis, Presbyterian, In  
Statement Says Report Was  
Account of Research Work**

**NEW YORK, Sept. 19.—(A)**—The  
Federal Council of Churches Fri-  
day, through a formal statement  
issued by the chairman of its ad-  
ministrative commission, officially  
vouched for the authenticity of the  
six-part report on prohibition con-  
ditions issued in Washington by the  
research and education department  
of the council.

The authenticity and authority  
of the report had been called in  
question by Dr. Clarence Tru Wil-  
son, of Washington, general sec-  
retary of the Methodist Church of  
America.

In the local offices of the Council  
it was said that a possible explana-  
tion of the controversy was that  
the executive committee of the  
council, of which Dr. Wilson is a  
member, is composed of widely  
scattered members who meet but  
once a year. It comprises the com-  
mittee on policy for the council,  
while the administrative commit-  
tee, of which Dr. John A. Marquis  
is chairman, is the committee on  
work or business of the council,  
and not concerned with policy.

Possible Mishandling  
The prohibition report therefore  
could have been handled by the ad-  
ministrative committee without the  
knowledge of some members of the  
executive committee.

Dr. Marquis, who also is general  
secretary of the board of national  
missions of the Presbyterian church  
in a statement today said:

"The report on the prohibition  
situation, prepared by the depart-  
ment of research and education of  
the Federal Council of Churches,  
and issued to the press this week,  
is precisely what it was announc-  
ed to be, namely, a research docu-  
ment dealing with the facts of the  
present situation and in no way  
involving the attitude or policy of  
the Federal Council with refer-  
ence to prohibition, which are well  
known. The Federal Council has  
repeatedly made itself clear on this  
point. It always has been, and is  
now, wholly committed to national  
prohibition."

"The purpose of the department  
of research and education of the  
council is not propaganda, but a  
scientific study of the actual situa-  
tion in social situations involving the  
public welfare. It is composed of  
men and women who know the re-  
search business and are thorough-  
ly scientific and impartial in their  
method. The study in question has  
been going on for more than a year  
and a statement concerning its  
scope and purpose was made in a  
report at the quadrennial meeting  
of the Federal Council in Atlanta,  
Ga., last December.

"The present exhaustive report  
was issued in the conviction that a  
scientific and effective handling of  
a great social task like prohibition  
requires a knowledge of all the  
facts, whether favorable or unfavor-  
able. This the department sought  
to do—simply to gather the facts  
and state them frankly and fairly  
to the public."

"It is the hope and belief of the  
department that its presentation of  
the facts will awaken the friends  
of prohibition to the necessity and  
urgency of a much more active sup-  
port of the government in its ef-  
forts to enforce the law than has  
been obtained heretofore."

## PLANS PROGRESS FOR CEREMONIAL HERE IN OCTOBER

**Local Shriners Busy Making  
Preparations For Welcome  
of Largest Class of Can-  
didates Late Next Month**

Plans for the Shrine ceremonial  
to be held in this city Thursday,  
Oct. 29, by the Morocco Temple  
of Jacksonville, are progressing  
rapidly, according to an announce-  
ment made this morning by Ed-  
ward F. Lane, president of the local  
Shrine Club.

Mr. Lane stated that he has re-  
ceived word from John Chandler  
Reynolds, illustrious Potentate of  
Morocco Temple, to the effect that  
arrangements are rapidly being  
completed for the affair, which  
will be one of the great-  
est ceremonials ever held in the  
state. Mr. Lane, in his statement,  
declared that local committees have  
visited Daytona, New Smyrna,  
Hastings, St. Augustine, Palatka,  
Cocoa and Titusville, making ar-  
rangements for the reception here  
of 25 candidates who will be in-  
ducted in the ways of the order,  
at that time.

Included in the communication  
from Jacksonville is the program  
to be followed during the session.  
The program, as announced, pro-  
vides for a trial service, to be held  
at Jacksonville at 9 o'clock Wednes-  
day night, Oct. 28, arriving in Sanford  
at 2 o'clock on Oct. 29. The pa-  
rade will form at 11 o'clock Thurs-  
day morning, to be followed by  
luncheon.

The first section of initiates  
will be taken in at 2 o'clock, fol-  
lowed by entertainment by the  
band charter in one of the parks,  
to be announced later. A dance be-  
ginning at 9 o'clock is planned.  
Trains returning to Jacksonville  
will leave here at 1 o'clock and  
arrive at 7:45 o'clock.

As in the past, Sanford Shriner-  
s will make every effort to in-  
sure success of the affair. Mr. Lane  
averred today. The services of a  
professional decorator have been  
secured. It is declared, and exten-  
sive plans are being made for a  
public entertainment in the even-  
ing previous to the ceremonial,  
according to the announcement. Mr.  
Lane stated that accommodations  
for approximately 7,500 visiting  
nobles will be furnished.

Advice to the candidates, of a  
reassuring nature is being broad-  
cast freely, it is stated, and par-  
ticular emphasis is laid on the  
necessity of maintaining a firm grip  
on the rope.

**Northerners Show  
Much Interest In  
State Says Williams**

Considerable drought in some  
sections, good crop conditions and  
universal interest in any topic  
concerning Florida, are the im-  
pressions brought back to San-  
ford Thursday by Fred T. Williams,  
city and county engineer, when  
he returned to this city after a  
five weeks' trip through  
Michigan, Illinois, Indiana and  
Ohio. Mr. Williams reported the  
port of a lengthy dry spell, is ex-  
periencing considerable trouble  
securing even drinking water, in some sections.  
He stated that crops are in a re-  
markably good condition, however,  
despite the drought.

Speaking of the interest in Flor-  
ida, Mr. Williams stated that cur-  
rent reports are not exaggerated  
and that apparently everyone in  
the United States is coming to  
Florida this winter. He said that  
several relatives of his will be  
among the winter visitors of San-  
ford.

According to Mr. Williams the  
advertising campaign recently in-  
augurated here has already begun  
to be felt in certain areas. He  
reports numerous inquiries con-  
cerning Sanford and Seminole  
county. It is his opinion that the  
movement recently inaugurated  
here to provide tepts for tempo-  
rary shelter for tourists during the  
winter season is an advisable pro-  
cedure, in view of the expected  
rush for housing quarters during  
the winter months.

## Judge Labors

**J. W. Woodruff, judge of the U. S. district court at Omaha, is spending his vacation by working as a common laborer on a public garage he is building as an investment. Labor union rules prevent him from doing skilled work, so he carries mortar and bricks and does other kinds of common labor. Before starting out in overalls at 7 a. m., he plays a round of golf on the links of the fashionable Lakoma club.**

## GROWTH OF CITY SHOWN IN WATER WORKS FIGURES

**Meter Installations Increase  
35 Per Cent Last Year  
According to Department  
Records At City Building**

The water department of the  
City of Sanford for the last year  
reports an extension of service  
facilities in the city representing  
an increase of approximately 35  
per cent. This gain is shown in  
figures made public today by E.  
S. McCall, office manager of the  
water and gas departments of the  
city administration.

According to Mr. McCall's sta-  
tistics, on July 31, 1924, water me-  
ters to the number of 929 were  
in service in the city. On Aug.  
15, 1925 the office records show  
a total of 1,300 meters in service,  
revealing an increase for the year  
of 377 meters, or approximately  
35 per cent.

On July 31, 1924 there were 54  
fire hydrants in use in this city,  
it is said. On the corresponding  
date of this year, a total of 225  
hydrants are in service, according  
to this report. It is shown that  
during the year 171 such connec-  
tions were installed. Mr. McCall  
stated that there were 25 addi-  
tional hydrants to be installed as  
quickly as his department can  
handle them. Pressure at these  
hydrants is estimated at 90  
pounds per inch, it is said.

Indicative of City's Growth  
These figures, it is pointed out,  
are indicative of the growth and  
extension of the "City Substantial"  
during the past 12 months. The in-  
crease noted in the number of cus-  
tomers of the water department  
shows an approximation of the  
number of families, who have set-  
tled here during the year, it is  
declared.

In connection with the report  
made public this morning, Mr.  
McCall reviewed a number of in-  
teresting facts concerning the  
Sanford water supply. Speaking  
of the storage tank, completed last  
year at a cost of nearly \$500,000,  
he stated that the capacity of this  
structure is estimated at 200,000  
gallons. Distribution to local con-  
sumers, he explained, is by force  
pumping, providing an average  
pressure throughout the city, of  
55 pounds per square inch. Pump-  
ing facilities include four pumps,  
two of which are oil driven and  
two operated by oil engines. It is  
shown that these pumps have a  
combined capacity of 125,000 gal-  
lons per hour.

In reviewing the water supply  
situation in Sanford, Mr. McCall  
declares that this city is among  
the best served in the state, stat-  
ing that the water used is high-  
ly rated by the state health de-  
partment, and that the supply  
here is far greater than the de-  
mand is likely to become for a  
number of years.

## Weather To Be Fair Next Week, Is Report

**WASHINGTON, Sept. 19.—(A)**  
—The weather outlook for the  
week beginning Monday in the  
South Atlantic and East Gulf  
States is mostly fair except for  
periods of showers about middle of  
week. Temperatures near or  
above normal are predicted.

## NEW YORK MEN PAY \$100,000 FOR VICK PROPERTY

**New Owners Planning  
To Develop Tract,  
Making Restricted  
Home Site Property**

**Deal Negotiated  
By D. L. Thrasher**

**Tract to Be Laid Out  
Under Supervision  
Local Realty Man**

Sale of the Vick tract in  
northwestern section of San-  
ford to a group of north-  
eastern capitalists for sum of \$100,  
000, was announced today by  
D. L. Thrasher upon his re-  
turn from New York City  
where he has been for the  
past several days negotiating the  
transaction.

Mr. Thrasher stated that the  
property, comprising 40 acres ly-  
ing along Geneva and Sanford Av-  
enues, will be developed by the new  
owners as a high class, restric-  
ted subdivision. It is their in-  
tention, he declared, to make the de-  
velopment one of the most attractive  
localities.

Purchasers of the tract, ac-  
cording to Mr. Thrasher, in-  
clude F. V. G. and  
Mr. G. A. Garland.  
Capes. These men are in-  
vested in this section some time  
ago, it is said, and Mr. Thrasher  
closed the deal with them while on  
his trip to the metropolis.

The organization interested in  
this project is said to be noted  
for the character of all its realty  
developments in New York and  
New England and, it is declared,  
in all instances, the syndicate,  
three members of which are widely  
recognized building contractors,  
has the reputation of giving im-  
mediate attention to the require-  
ments of a community in the con-  
struction of homes.

Development of the project will  
be under the personal direction of  
Mr. Thrasher, who, in announcing  
his plans, stated that lots in this  
subdivision will be fully pro-  
tected by ample restrictions.

The sales and promotion meth-  
ods to be employed will be along  
the same lines now used by the  
developers of all large Florida  
realty projects.

An intensive advertising cam-  
paign will be conducted in news-  
papers and magazines throughout  
the country, it is announced.

Sale of the Vick tract, as  
announced today, will make the  
second deal closed during the past  
week embracing prices of six fig-  
ures, it is shown. Sale of the lease  
on the Walter Hand block for a  
high figure was announced a few  
days ago. Transactions of this  
magnitude are democratic in  
the intense activity in real estate  
circles here, it is pointed out, and  
the belief is expressed that the  
near future will find still greater  
interest in Seminole county attrac-  
tions.

## Annual Poultry Meet For Seminole County To Be Held October 2

The Annual Poultry Institute of  
the Seminole County Agricultural  
Association will be held this  
year at Geneva on Friday, Oct. 2,  
according to announcement made  
today by B. F. Whitner Jr., county  
farm agent. Those in charge of  
the plans for this meeting have  
arranged to hold the institute in  
two sessions, afternoon and even-  
ing, the first to begin promptly  
at 2 o'clock, it is announced. Adop-  
tion of a high speed program in-  
cluding two sessions in the same  
day, is said to be better than the  
arrangement at Longwood of last  
year, when it was noted that the  
first day session was the better  
attended.

Arrangements have been com-  
pleted for the entertainment of  
members who will attend the  
meet. Mr. Whitner declared. Use  
of the newly completed Geneva  
Women's Club has been extended  
for the meeting it is learned, and  
preparations have been made to  
entertain visitors at a picnic dur-  
ing the day.

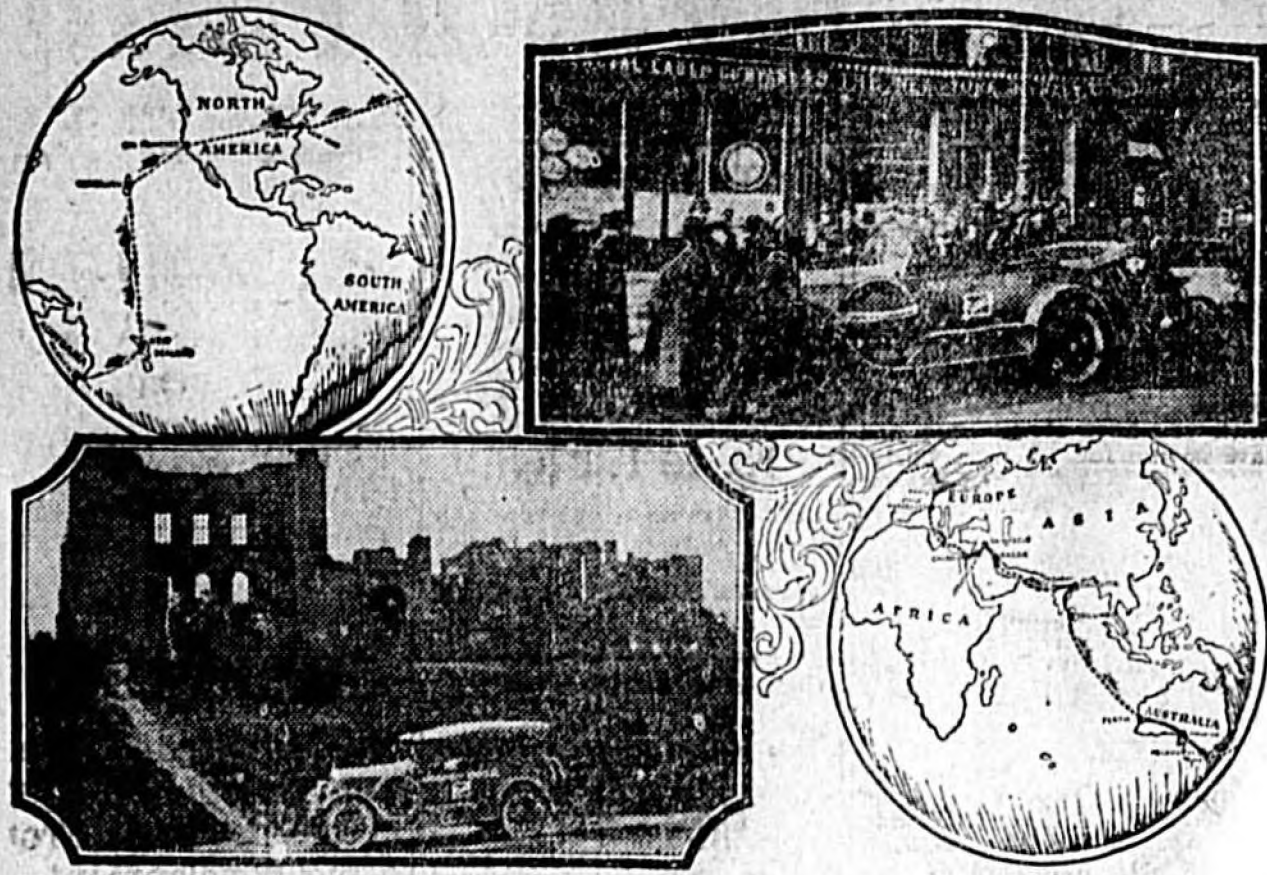

A cordial invitation has been ex-  
tended to all those interested in  
the subject by those in charge of  
the meet.

## Rocks, Eggs Thrown In Anti-Klan Battle

**NORTH BROOKFIELD, Mass.,  
Sept. 19.—(A)**—Four serious clashes  
between members of the K. K. K.  
and unorganized young men de-  
termined to break up an hamper  
Klan outdoor meetings have oc-  
curred in this state this summer. The  
latest was a battle in the town  
square last night in which hun-  
dreds participated. Rocks and  
eggs were freely used as weapons

# Buick Loops Globe in Record Run

The above illustration shows the route taken by the "round the world" Buick. The lower left photograph shows Kenilworth Castle, Warwick, England, in the background; the photo at the upper right shows the globe circling in front of the Paris office of the New York Herald. The car is being driven by dealer representatives. It will have had 350 different drivers when it completes its world tour in New York.

A Buick car, which departed unheralded from New York City last December to be driven from one Buick dealer to another in a trip around the world, is nearing the end of its long journey.

The car, a Standard Six Touring model, is strictly "on its own," being unaccompanied by mechanics or special drivers. When it returns to New York City the machine will have been handled by approximately 350 different drivers.

The last difficult leg of the trip has been completed, a long run over the questionable roads across the continent of Australia. The car is now en route to New Zealand and Honolulu, from whence it will be shipped to San Francisco and driven across the United States through Detroit and Flint to New York.

The trip around the world was conceived to demonstrate that a Buick will travel to the remote corners of the earth and that on such a journey it is always safeguarded by service facilities.

The globe-encircling car has made its trip without faltering. Driven from dealer to dealer by dealers' representatives only, it has demonstrated Buick's ability to withstand the "man-handling" from hundreds of drivers of various nationalities and degrees of skill.

After coming from the regular assembly line in the factory at Flint, Mich., it was equipped with four spare tires and a shovel. Supplies boards provide oil, gasoline and other uninhabited regions.

After being boxed and sent to New York City it was shipped across the Atlantic to Liverpool, where its land journey started on December 21, 1924. The car was passed from dealer to dealer en route to London.

It then was shipped from London to Amsterdam. With frequent changes of drivers it passed south through Europe, visiting Brussels and Paris and finally reaching the Mediterranean at Marseilles, France.

On January 29, it was placed on a steamer bound for Port Said, Egypt. From there it was driven south to Cairo. Then the route swung "east" through Suez, where the real test began. Through Palestine and the biblical country, the car proceeded to Beirut, Damascus and Bagdad, accompanying one of the desert convoys of the Naima Transport Company, which incidentally uses Buicks in its desert fleet.

The Syrian desert was crossed without difficulty. The Buick distributor in Beirut, however, gives some idea of the country traversed, in the following letter excerpt:

"The road was terrible in places, being nothing more than a cart track strewn with large boulders. In the run over the Lebanon Mountains the car climbed to a height of more than a mile. After spending the night at Damascus, the 540-mile run to Bagdad was made at an average speed of 25 miles an hour."

The Mesopotamian distributors took the Buick at Bagdad and drove it to Basra on the Persian gulf, from whence it was sent to Bombay, India. From there it was driven over a different trail-roads across India to Akra, and finally Calcutta.

It then went to Ceylon, where the Buick distributors drove it for three days before sending it to Perth, on the southwest coast of Australia, where it arrived April 1. The desert waste of southern Australia between Perth and Adelaide was regarded as the most difficult part of the trip. The distance is something more than halfway across the United States. This long stretch of bad going was negotiated successfully, as was the shorter journey from Adelaide to Melbourne, near the southeast end of the continent. The car since was driven to Albany and then to Sydney, from which point it was shipped to New Zealand.

After completion of the globe journey it is planned to preserve the car as an object of historical interest.

## ORANGE COUNTY PROPERTY SALES TOTAL 31 MILLION

Considerable Amount of Dealings is For City Property But Activity is More Uniform in Farming Sections

ORLANDO, Sept. 18.—(AP)—Realty sales in Orange county for the year up to Sept. 10 totaled \$31,507,291, according to a compilation made by the Orlando Realty Board. While much of this activity is centered in Orlando, an analysis of the figures shows that the activity is more uniform throughout the county because of numerous towns in the agricultural sections. These communities, all fall within the trade area of Orlando and have helped to increase the activity in business property.

August building permits broke all records by reaching the one million two hundred thousand dollar mark in Orlando and the September building permits are being issued at the same rate, \$300,000 in permits already having been issued. It is estimated that building permits in Orlando will reach \$6,000,000 this year.

Apopka, in the northwest part of the county, reported sales in surrounding acreage in the vicinity of Wekiwa Springs at \$120,000. A twelve check on traffic taken in Apopka showed that 2,928 cars passed through the city and that 915 of the cars were non-residents.

Winter Park, Orlando's sister city, broke all records of her real estate sales in one week when they totaled more than one million two hundred and fifty thousand dollars. This property was bought mostly by eastern capitalists in large amounts. The city is keeping up its building of homes, the report shows.

Winter Garden reported an increasing rapidly with one company making \$250,000 worth of sales in three days. Many homes are being built to care for the population which is increasing at the rate of 20 per cent per year.

Dr. C. G. Boström, the state railway's eye specialist in Sweden, has found that between five and six per cent of all men are color blind.

## FLORIDA FACTS

The new Florida registration license law affecting real estate brokers and dealers and salesman goes into effect on Sept. 30.

Registration will be made in each county under the supervision of the county judge and duplicates of the applications made for such licenses will be sent to the Florida State Bureau of Real Estate License Registration in Orlando.

It will require a minimum of ten days for the license to be approved and issued. This time is specified so as to give anyone the privilege of protesting the issuance of a license to an applicant and for stating his reason for his protestation.

The board in Orlando will consider the protest and give the applicant time in which to make his reply and the decision will then be made.

Application forms will be in the hands of the county judges within the six days, according to the plan of the bureau officials.

Sent 50 ends the fiscal year in which real estate operating licenses are issued. New dealers wishing to do business in the state or those who have just established licenses before they can begin operation.

The Florida State College for Women opened its doors for the 1925-26 session on Monday, Sept. 14.

This is the twentieth term of the school, it having been opened in 1905.

Approximately 1,500 students will be enrolled when registration is completed, according to the registrar. In 1905, the first year of operation the enrollment was 294.

There were only two wooden dormitories on the campus in 1905. Today there are numerous brick structures of beauty and large size.

The grounds cover three hundred acres and are located a truck farm and a dairy which supply the needs of the school.

The value of the college property has been placed at \$1,500,000.

The college will close its doors for the session on June 9, 1926. It will recess for the Christmas holidays on December 18, next and will reconvene on January 5.

There were 526 students in the summer school during its past session.

## State Suffers From Hot, Dry Weather

JACKSONVILLE, Sept. 18.—(AP)—Another week of unusually hot and dry weather featured the month of September in Florida. The need of rain is general and urgent over most of the state. September, notably a wet month over much of the state has given practically no rain in some counties. No crop progress was made during the week. Sugar cane, sweet potatoes, peanuts, truck, strawberries and citrus fruits unfavorably affected. One optimistic feature was that the dry, warm and clear weather favored the harvesting of cotton hay and corn.

The word "thoroughbred" often confused with pure bred, is a term properly applied only to a breed of light horses that were introduced into America in 1730.

Like the teeth of a horse or the rings on a tree can be used to tell the age, so the percentage of lead that minerals contain can serve as a key to the age of the minerals.

For inspection, see Superintendent on the ground.

For full particulars, See J. D. Parker, Superintendent, W. B. Williams, City Manager, or L. R. Phillips, Clerk.

## STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, Sept. 18.—(AP)—President Coolidge resents intimations that he's crippling the government departments by forcing them to economize.

He says they're just as efficient as ever and all talk to the contrary is mere propaganda, designed to make it harder for him to cut taxes down.

Doubtless there's a good deal in this, but if the president thinks the department personnel aren't, in reality, shrieking with agony, then he hasn't been listening, that's all.

The army and navy cutery is worst, for the simple reason that they are, of all departments, the most liberally manned. Even on their last appropriations they nearly starved. They didn't need to, however.

The trouble was, they tried to stay too big.

A given sum, which will just support a smallish army or navy comfortably, obviously isn't going to support much larger ones without skimping, just as an income merely adequate for a family of two is altogether inadequate for a family of ten.

The war and navy departments have been worrying along on their present allowances by permitting barracks to fall into decay, doing without ammunition and equipment, abandoning various projects and laying up ships.

And now, according to the president, they've got to stand a fresh cut.

This, practically all the authorities say, means just one thing—they'll have to begin paring down in size. Anybody who ever in any army or navy men will realize how that thought makes 'em gripe.

and neighboring commonwealths, and barristers and prospective lawyers will gather during the time to undergo examination for their respective profession.

This medical examination has been set for October 9. That for the bar will come ten days later, or Oct. 19.

Indications are that both gatherings will be well attended. Physicians from several neighboring

states are said to be contemplating attending the medical examination for the purpose of obtaining permission to practice their profession in the Flower State. The same thing can be said of the lawyers.

G. T. Whitfield, clerk of the Supreme Court, and who is also secretary of the recently organized Board of Law Examiners, stated that approximately 2,000 inquiries have been received regarding the approaching examination, but that thus far the actual applications have been comparatively few. The time limit for applications will not expire until Sept. 29, however, the secretary explained, and by that time the expected flow will likely be well underway.

Mr. Whitfield recently mailed out literature to the inquirers, setting forth the rules and regulations of the board, as well as other matter of interest to the prospective student.

The sitting of the Board of Law Examiners next month will be the first since its organization under a recent legislative act, F. P. Fleming, of Jacksonville, is chairman of the board.

A new method of bread-making that will preserve freshly baked bread for a period of two years has been invented after ten years' experimentation by Mr. Jean Matti, a Swiss baker.

Lake Alfred.—(AP)—Two hundred and sixty thousand dollar street-paving program to be voted upon.

## October Will Be Examination Month At State Capital

TALLAHASSEE, Sept. 18.—(AP)—October will be "examination" month for Florida.

Physicians and physician-students from all sections of the state

If you get him he ought to be fried in SNOWDRIFT. If you don't there are a dozen uses for the SNOWDRIFT. It's a perfect—all purpose cooking fat.

Pearl Burial of Prehistoric Race

New light may be shed on a prehistoric race that inhabited America through the discoveries of H. C. Shetrone of the Ohio Historical and Archaeological Society in excavating a mound near Bainbridge, O. Shetrone found four skeletons which apparently had been buried in robes made entirely of pearls. The photo shows the piles of pearls around one skeleton, indicating the civilization of this prehistoric race, the skulls rested on copper plates, shreds of a beautiful fabric were found, and one skeleton wore a necklace of big bear tusks.

Dry Agents Blinded By Bootleg Liquor

CLEVELAND, Sept. 19.—(AP)—A series of blindness and serious stomach disorders to federal prohibition enforcement agents here is attributed to their sampling of bootleg liquor to obtain evidence. Six agents in this district suffered from part blindness and stomach disorders sufficiently serious to send them to the hospital for treatment. Drinking liquor at the place it is sold is a necessary preliminary, the agents said, in order not to arouse suspicion of the seller when he asks for a bottle to take away.

TONG MEMBER KILLED

NEW YORK, Sept. 19.—(AP)—A killing of a tong member, less than four days after signing of formal truce, was seen by local police in the killing today of young Sue Gum, tong member of New York's Chinatown.

Reveals Bandit Lair Bulgar Sheep Herder

HASKOVO, Bulgaria, Sept. 19.—(AP)—Dimo Marcheff, a goat-herder, has become a rich man for revealing to the police the mountain hiding place of Mitu Ganef, notorious chief of a robber band. Marcheff had been one of the bandit's victims for a long time, being obliged to furnish food and other supplies. Consequently, it afforded him great pleasure to guide the police to Ganef's hiding place. As a reward the ministry of the interior presented Marcheff with 40,000 lire; the district of Haskovo gave him 200 sheep and a money reward, and the community of Suzam has set aside a site, upon which the villagers will build a house for him.

Barbers are not responsible for the hats of their customers, in a decision handed down by a New York judge who held that "the barber is a craftsman, laboring for wages, not a capitalist conducting a business of trade and trust."

NOTICE OF SPECIAL LEGISLATION

Notice is hereby given that application will be made to the State Legislature at a special session thereof to be held in Tallahassee, Florida, on a date to be set by the Governor of the said State

of Florida for the passage of the proposed act entitled "An act establishing a bird reservation to be known as the Lake Chalm Bird Reservation in the County of Seminole, Florida." Be it enacted by the Legislature of the State of Florida: Section 1. A Bird Reservation to be known as the Seminole Bird Reservation is hereby created in the County of Seminole within the limits and boundaries and hereinafter described, to-wit: Section 2. That it shall be unlawful to kill, hunt, trap, destroy by any means whatever, within the limits of the said Bird Reservation provided for in Section 1 of this act, any bird, wild turkey, wild goose, or any wild bird or wild fowl of any kind, or squirrel at any time and that there shall not hereafter be any open season for game birds or fowl of any kind, except domesticated, wild snipe and quail, and any person who at any time violates the provisions of this law shall upon conviction be punished as is now provided by law for violations of the Game Laws of the State of Florida: Section 3. It shall be the duty of the County Commissioners of the County of Seminole to post at various places on the Lake Chalm Bird Reservation, provided for in this act, notices to the public showing that no hunting is permitted in said reservation and warning the public against violations of this law. Section 4. This law shall become effective immediately upon its passage by the Legislature and approved by the Governor of the State of Florida or its becoming a law without his approval. OVIDE CHAMBER OF COMMERCE Sept. 9-12-19-26, Oct. 3-10-17-24-31, Nov. 7-14.

MIAMI SHORES AMERICA'S MEDITERRANEAN

Leaving It to Us!

THE tremendously significant fact in connection with the remarkable sale of the first section of Miami Shores' Arch Creek Properties on September 3—when \$22,414,700 worth of real estate was oversubscribed by \$11,319,650—is the confidence in this company and its property expressed in such an unusual manner by the buyers.

Ninety per cent of these buyers, upon the memoranda attached to their checks, requested the Shoreland Company to make the selection of their properties irrespective of location and price.

Could there be greater evidence of appreciation of Miami Shores' value as a property?

Could there be greater evidence of confidence in the Shoreland Company as a developing company?

Could there be anything added to this statement of fact to the potential investing public in the Greater Miami District?

As an investor, we submit that you would do well to consider carefully Miami Shores as an investment opportunity.

BIBLE THOUGHT FOR TODAY

WHAT DOES GOD REQUIRE?—And now, Israel, what does the Lord thy God require of thee, but to fear the Lord thy God, to walk in all his ways, and to love him, and to serve the Lord thy God with all thy heart and with all thy soul. Deuteronomy 10: 12.

A TREE

A solitary tree, it stood, And to the breeze it flung, Its stalwart limbs of virgin wood, With crimson tassels hung.

Around was heard the hum of bees, As they its dainties sought, The cloudland sails of summer's breeze, Its wholesome fragrance caught.

Its branches held a robin's nest, And sheltered off the squirrel; It offered all a nontide rest, From morning duties' whirl.

Fanned by its leaves the sun-scorched air, Grew balmy, moist and cool; The children rocked a hammock there, And played at close of school.

How useful in the broad highway, Was it to least and man, Let everybody plant a tree, And help in God's wise plan, Z. I. Dahvice.

Advertisement in the Cleveland Plain-Dealer says: "Fords. Buy from the oldest and most reliable used dealers in Cleveland. All our cars have a sixty-day written guarantee." Boy, page Diogenes.

The reason motion picture houses have pipe organs is that the sound of shucking peanuts annoys those who suffer from indigestion.

Senator Borah says, looking slyly over at Al Smith, "We now have the Democratic Presidential candidate for 1928." Oh, Well, a lot of things can happen in three years.

Finance Minister Caillaux has called for this country for the purpose of settling France's debt. Those of us who believe with President Coolidge, "well, they hired their money, didn't they?" are relieved to see France taking her debt seriously.

It was two years ago this month that Dempsey and Fitz provided such an interesting evening in Boyle's Thirty Acres. Since that time Dempsey's ring activities have been confined to matrimony, movies and nasal operations, and we doubt if any of them have tended to make him more pugilistic.

The New York Herald Tribune carries the following personal mention: "Mr. and Mrs. C. M. Jones, whose summer home is at Roslyn, are being congratulated on the birth of a daughter. Their wedding will take place in August." Well the sooner, the better.—Sanford Herald. Yes, it would seem that in the general rush of business some important details have been overlooked.—Tri-City News.

Every newspaper publisher and every newspaper worker is conscious—often bitterly so—of the fact that his newspaper does not meet the approval of everyone in the community where it is published. This is discouraging. Of ten because the men and women actuated by high ideals and a real passion for public services in an unselfish, big way. And it is a truism that a newspaper editor receives more free advice than anyone in any other occupation, not even expecting a baseball umpire. Few people would think of advising a surgeon on the proper procedure in a delicate operation; he would be held, who would undertake to tell an artist how to handle his brush; it would take a skill that she took no hurt from the sharp blades which pinned her hair.

Sour Grapes and Otherwise

Scarcely a day goes by but what some out-of-state newspaper comes to our desk with much ill-humored attack on Florida. Advice is given the home-folks of these newspapers not to buy land in Florida, not to seek a livelihood in Florida, not to think of Florida even as a place for vacations. In fact we have seen intense and varied slander directed against Florida by some newspapers.

It is said that wonderful Florida is a bubble which will burst as all other bubbles burst and residents will find their wealth ruined and immersed in soap suds. Numerous oil town booms are cited as examples. Even Los Angeles is compared to Florida cities and is said to be dead now.

But most of these criticisms smack peculiarly of sour grapes. We note that in a certain town in Indiana so many of its people have moved to Florida that it now resembles to some extent the Deserted Village. No wonder the newspapers in this town attack Florida. It is the struggle for existence and the survival of the fittest.

Floridians should not take such acrimonious invective too seriously. They may sting but they do no permanent harm. Henry Ford will tell you that every knock is a boost if it comes from the outside and remember that the Ford car got more advertising from the slurs which were hurled at it by contemptuous individuals than from the big ads for which Mr. Ford paid.

And with all these ungracious remarks, occasionally we find one which takes the right attitude and as the Miami Herald says, realizes that "if one section of the country is prosperous, that prosperity is reflected in some degree in every other part of the country." The Birmingham News takes exactly the right attitude. It says:

Birmingham is a good servant, Birmingham is ready to do good turns for her neighbors. Birmingham steel, iron, cement, cast iron and soil pipe, and great quantities of building material of various kinds are being shipped to points in Florida where people are building towns and cities by magic—and by grace of such industrial centers such as ours which have the material to do it with. Birmingham architects and engineers and artisans are being drafted to lay the foundations of these towns and cities and build their superstructures. Florida, that was supposed to be too flea-bitten and fever-infected and mosquito-ridden "for white folks to live in," suddenly appears demanding all the developments, material and otherwise, with which the temperate zone is blessed. Congratulations! Birmingham's ready to help them turn the trick. Although our manufacturing plants are running almost at full capacity, and though we need most of our skilled and common labor to turn these many building tricks here at home, doubtless we can work a bit harder to accommodate our ambitious neighbors.

After all a spirit like that is really more of what we like to consider American and has considerably more of the Christian element than that of the newspaper which would keep its readers from the health and prosperity of Florida. It would be well for many critics to try to understand the attitude of the Birmingham paper.

A Scrap of Paper

Scraps of paper have played important parts in the history of the world, and none, perhaps, had more momentous results than Bethman-Holweg's scrap of paper which sent the German troops slashing through Belgium, but the Naval Court of Inquiry which on Monday will begin the investigation of the Shenandoah disaster will have to do with a scrap of paper of almost equal importance.

This scrap of paper is the chart on the Shenandoah's barograph, an instrument which records weather conditions. The little uneven lines on the chart reveals, according to a correspondent for the New York Herald Tribune, "a little 'weather' somewhere between Wheeling, W. Va., and Cambridge, Ohio. A sudden change in the atmosphere is shown, the temperature suddenly dropping from 72 to 60. The blue line on the sheet shows that the ship first rose to a height of 1,500 feet. For a time it remained at this elevation and then shot up suddenly to 2,400. The line shows that it later dropped a little."

"From the point of the drop after 2,400 feet the recording pen suddenly went up and down with such rapidity that a blurred jagged line shows the manner in which it was shaken. The structure of the ship is believed to have caught the first strain as it crazily whirled, trembled and bucked. The blue line next shows that the ship went almost straight up into the air at great speed, reaching a height of 6,000 feet. The line is traced vertically there for a space showing that it was held at that height. Then a sudden descent is indicated, and in that last fatal descent the speed was so great that even the faithful mechanical pen fell from its task and left no further record."

This then is a story, more accurate than any eye witness' might be, which the Court must consider. The barograph conclusively disproves the theory that the airship was flying too low and that its gondola struck some object on the ground. It shows very plainly the violence and the tempest and indicates that the Shenandoah might well have withstood the strain of any ordinary wind and rain storm.

There will be copious testimony from survivors and eye-witnesses for the Court to hear but the mute evidence on the chart of the barograph will have far more than anything else to do with the decision of the naval flying men and the future air policy of the United States.

MY FAVORITE STORIES

By IRVIN S. COBB

The Poor Aim of Mr. Zeno. When the circus reached the small Vermont town the proprietor feared for awhile that his afternoon performance might lack its chief feature. The star of the aggregation was Zeno, the Mexican knife thrower, answering in private life to the name of Hennessy. Twice a day Zeno, dressed in gaudy trappings would enter the arena accompanied by his wife, a young, plump and pretty woman in pink tights and followed by a roustabout bearing a basket full of long bows and shining battle axes. While the band played an appropriate selection of shivery music the young woman would flatten herself against a background of blue planking which had been erected in the middle of the ring. There she would pose motionless, her arms outstretched and her feet close together. Then Zeno, stationing himself forty feet from her, would fling his knives and axes at her, missing her each time by the narrowest of margins. Presently her form would be completely outlined by the deadly steel, but such was Zeno's marvelous skill that she took no hurt from the sharp blades which pinned her fast. But on this day Mrs. Zeno had fallen ill and although the circus owner offered a reward for someone who would take her place, he

As Brisbane Sees It

The Ocean Harnessed. Count 5 Quadrillions. No MacIntyre, No Career. His Piece of Earth. BY ARTHUR BRISBANE (Copyright 1925)

NEWS OF THE day, that will be important in the history of a thousand years hence, is the decision of voters in Maine approving \$100,000,000 expenditure to harness the tides in Passamaquoddy Bay. That power, according to Dexter P. Cooper, able engineer, will give four times the energy that can be developed at Muscle Shoals, namely 3,268,000,000 kilowatt hours per year.

THIS MEANS creating the equivalent of 500,000 horsepower all the year round. The price will be cheap, for a "horsepower" does not have to be fed, watered, bedded down, groomed, shod, doesn't get glanders, or epileptic, does not grow old or die.

FIVE HUNDRED THOUSAND horse power that will last, rush-through turbines, as long as ocean tides rise and fall, will make Maine one of the greatest industrial states in the Union, and add tens of billions to the States' wealth.

Let's hope those enterprising corporation gentlemen will wait at least a month or two before getting the project away from the citizens that are going to pay for it.

EVEN MORE exciting than the great Bay of Fundy power project, but less important in our earthly struggle for existence, is the result of Dr. Kurt Lundmark's studies of the nebular strange clusters in the distant heavens, reminding you of frog's eggs floating on a pond.

Dr. Lundmark, a great scientist of Sweden, calculates that some of these nebulae are moving away from us at the rate of 2,000 miles a second, more than 7,000 miles an hour.

That's a speed worth talking about, it makes 300 miles an hour by airplane seem contemptible.

YOU HAVE been swimming in the ocean, with jellyfish bumping against you, making you feel that the water was almost made up of jellyfish.

Dr. Lundmark says that space around us, is a crowded ocean of other. All space is thickly sown with meteors the sort that occasionally strikes the earth, or melt as they strike our atmosphere, and are called "shooting stars."

For every million cubic miles of space, according to the learned doctor there are six thousand million meteors and there are 1,000,000 cubic miles of space in every cubic block of ether 100 miles square.

NO MAN can conceive the number of meteors that we pass in our annual spiral journey of more than 500,000,000 miles around the sun.

Imagine a column 100 miles square, reaching from the earth to the sun. It would contain 5 quadrillion, 500 trillion rushing meteorites, a sum that may be written out as follows: 5,500,000,000,000,000.

As to the number of meteorites occupying the space between this earth and the sun, in one year's travel, you can figure that out for yourself.

There is in those fragments of broken up old planets, plenty of material for manufacturing new ones.

MISS FAY LANPHEER, young California girl, who "easily and naturally" won the beauty crown of "Miss America" says, "Marriage won't interfere with my career."

Of course not. The real business of human beings on this earth is to make it a little better while they are here, and hand on what ability they have to future generations, that they also may work.

Good qualities, as heredity proves, are handed on by women. And the woman whose programme does not include marriage can't possibly have a complete career, no matter what the feminists may say. In a chain, the link that breaks is not the successful link.

CHARLES VAIL owned a humble residence, an old furniture van, turned into a dwelling, and Vail was a squatter on the land beneath his van.

But it was Vail's home, his piece of the earth. When the van burned at New Brunswick, N. J., Vail cut his throat, and died.

This tragedy contains information for single taxers and others that oppose individual ownership of ground. It does seem absurd that a man should say, "I own it," of earth created a hundred million years before he was born.

THE BUSY MAN'S NEWSPAPER

JUST IN PASSING

BY R. J. HOLLY

Mell Smith advertises that Florida is no place for Rip Van Winkles. They haven't heard about this in Sanford yet, Mell.—Red Davis in DeLand News.

No Rip Van Winkles here, Red. They are all working on the DeLand road at present and after that they expect to get a job on the DeLand News.

If some of the present so-called "comic strips" in the newspapers are funny then Jack Lloyd is an undertaker. They are about as funny as a crutch.

A lunch of folks here are worrying to death about the question of whether we will get new people in here this winter. This is not worrying me at all. The big question is "where will we put them, after they come here."

All of which brings to mind the fact that tents and small shacks will have to be erected either at the present auto camp or at some other spot where sewerage, lights and water are available. We must be able to take care of several thousand new people from January 1 to April 1.

Seventeen years ago in Sanford I made the statement that if the time ever came when Sanford people would stand together, forget their petty jealousies and peanut politics and pull together that we would have the best and the largest city in central south Florida. The time is almost here but we still need a few first class funerals.

What owner of high class subdivision property in Sanford will be the first to put on a bus line? We need it to bring the new people here.

Sanford folks must have their Elder Springs Water. Some of them spending the summer in the mountains this summer had Elder Springs Water shipped to them while they were away. There is no drought in Sanford and no dearth of good drinking water.

From many points in the state come reports that the milk supply cannot keep up with the demand. With milk selling at twenty-five cents a quart there ought to be a fine chance for dairymen in Florida and especially in Seminole county. This should be a strong talking point for our county and city advertising.

A "bumper" crop of tourists is coming to south Florida over that wonderful road in Volusia county. They are being lunched for about twelve miles over all kinds of detours. Unless this road is made passable soon there will be no tourists coming this way for they could make better time going via the Everglades, Key West and Havana.

According to a small item noted in the Sanford Herald it seems that some fellow was caught unloading liquor the other night and the public has not decided whether to burn him at the stake or give him the contract to build the DeLand-Orange City road. A joint debate between all parties concerned would be a wonderful advertisement for the city during the winter months.

W. H. Tummeliffe, president of the Sanford Bank & Trust Company is back on the job after spending two weeks with many old time friends in New York. He spent some time with Dr. Frank Crane and Dr. Royal Cop-land, two famous writers and well known New Yorkers and renewed old times with them. Dr. Frank Crane will visit Mr. and Mrs. Tummeliffe during the winter.

Some people seem to think that just because this city recently raised \$100,000 for advertising that all of it should be spent in ten days and at the present time there should be at least six million people falling over each other getting here in time to pick up the wonderful bargains in real estate. It takes time to even spend money after you acquire it and the Chamber of Commerce is more concerned at present in saving part of this sum and putting the rest where it will do the most good.

If you would follow the Chamber of Commerce committees around for a week and see half of the work they are doing you would be surprised not only at the amount of time they put in for the city's good but also at the time they lose from their own business. It is always easier to criticize than it is to commend and while the committees expect criticism they also expect the public to at least give them time to breathe between meetings.

Some-day this loyal Sanford men who have spent years of their time trying to do something for this city will get credit. The aforesaid credit will have to be chalked on their tombstones but they will get it in time for their descendants to use it for advertising purposes. Meantime it would be a mighty good thing for the "wise guys" to attend some of the Chamber of Commerce meetings and find out just what the "earnest workers" are really doing.

And while we are all loafing on the job would it not be a good thing to have more co-operation from all classes and less knocking in this dear little city. More working together and less gossip, more construction and less talk, more earnest work and less stick whittling.

## Mrs. Smith Entertains With Lovely Courtesy Honoring Two Visitors

Mrs. David Deas and Miss Louise Deas of Shreveport, La., the charming house guests of Mrs. T. L. Dumas, who are being extensively entertained during their visit here, were again the guests of honor on Friday afternoon, when Mrs. G. F. Smith entertained most graciously at bridge at her home on Magnolia Avenue. The guests included the members of the Every Week Bridge Club with two extra tables. The room, where the card tables were placed were beautifully adorned with baskets and bowls of pink roses, antigon, hibiscus and ferns.

Dainty girl heads with the card symbols marked the tallies for the interesting game of bridge played during the afternoon. After the usual number of progression, scores were counted and the prizes awarded. Mrs. Forrest Lake, holding high score was awarded Houligant's powder. The consolation prize, also Houligant's powder, fell to Mrs. D. L. Thrasher. The guest of honor were each presented dainty gifts. Mrs. Deas was presented a Maderia Tray Cover, while Miss Deas received handkerchief.

At the conclusion of the game, the tables were laid with dainty covers and refreshments of chicken salad, olives, potato chips, saltines and pineapple sherbert, were served.

Those enjoying the cordial hospitality of Mrs. Smith were: Mrs. David Deas, Miss Louise Deas, Mrs. Forrest Lake, Mrs. James Sharon, Mrs. W. J. Thigpen, Mrs. B. F. Whitner, Mrs. Samuel Puleston, Mrs. D. L. Thrasher, Mrs. A. K. Powers, Mrs. T. L. Dumas, Mrs. Alex Vaughn, Miss Katherine Wilkey, Mrs. Raymond Phillips, Mrs. S. Deighton and Mrs. Deane Turner.

## SCRAP IRON CLASS

The Scrap Iron Class meets every Sunday morning at the Princess Theater at 10 o'clock with R. A. Winston as teacher. A cordial invitation is extended the public to attend these meetings.

## CONGREGATIONAL CHURCH

Sunday School, 9:45 a. m. Morning Service and Sermon, 11 o'clock.

Evening Service and Sermon, 8 o'clock.

It is hoped that there will be a large gathering of members and friends for these services.

## CHRISTIAN CHURCH

H. F. Bolton. Services at American Legion Home.

Bible school, 9:45 A. M. Sermon and Communion, 11 A. M.

Wednesday evening prayer meeting at the home of Mrs. R. A. Terheun.

## FIRST BAPTIST CHURCH

Sunday school, 9:30 A. M. Morning worship and sermon, 11 A. M. Subject of Sermon, "The Mission of the Modern Church."

Young People's Unions, 7 o'clock.

Evening service 8 o'clock. Subject, "The Heart of All the World's Troubles."

Wednesday evening 8 o'clock will be held the second of the series of meetings for all officers and teachers of the Sunday school, and all the members and friends interested in the fall and winter work. John D. Jinkins will make the opening address.

A prelude to the evening service will be a study of "The Kind of Policemen for Sanford."

## FIRST METHODIST CHURCH

Sunday school, F. B. Adams, Superintendent, 9:30 A. M. Morning worship, Sermon by the pastor, 11 A. M.

Senior, Intermediate and Junior Leagues, 7 P. M.

Prayer meeting, Wednesday, 8 P. M.

New members will be received at morning service. Visitors and strangers cordially invited.

## TO HOLD MEETING MONDAY

A special meeting of the Woman's Christian Temperance Union at the home of Mrs. R. W. Turner at 306 Palmetto Avenue will be held Monday afternoon at 3 o'clock, according to an announcement made today by Mrs. Mary A. Douglass, vice-president of the organization.

## CHRISTIAN SCIENCE SOCIETY

## Personals

D. L. Thrasher and Joe Campbell spent Friday in Daytona.

W. A. Zachary was a business visitor in Ocala Friday.

E. F. Lane and G. B. Ross spent Friday in DeLand on business.

Frank C. Kulzick, of Milwaukee Wis., was a business visitor in the city for the past several days.

Mr. and Mrs. T. L. Long left Saturday for Philadelphia where Mrs. Long will undergo an operation.

Mrs. Ollie Marshall spent Friday in Winter Haven as the guest of friends.

T. A. Jones left Thursday for Kimmee where he will be the guest of friends for several days.

Joe Campbell of Tulsa, Okla., is the guest of Mr. and Mrs. S. B. Wallace for several weeks.

Harry Ferran of Eustis was in the city Friday, as the guest of his sister, Mrs. D. L. Thasher.

Mr. and Mrs. Charles T. Fuller of Rock Hill, N. C., arrived in the city this week to make their home here.

Mr. and Mrs. Paul L. Redfeard of Elfers, are the guests of Mr. and Mrs. G. W. Spencer for the week end.

Miss Lillie Ruth Spencer will leave Sunday for Tallahassee where she will resume her studies at the Florida State College for Women.

Mrs. A. B. Mahoney, Mrs. Allie Peters, Mrs. John Schirard and Mrs. Ernest Kruff spent Friday in Orlando on a shopping tour.

R. L. Robinson of Eustis, a former resident of this city, returned Friday to again make his home here.

Mr. and Mrs. F. E. Roumillat, Francis and Lucy Roumillat, motored to Tampa Thursday and were the guest of relatives.

Mr. and Mrs. Charles W. Hill and little son, Charles left Friday for Macon, Ga., where they will spend several weeks as the guests of relatives.

Miss Dorothy Crabtree, who has been the attractive house guest of Mrs. F. E. Roumillat for the past week, left Thursday for her home in Tampa.

## Master Fred Daiger Jr. Gives Picnic Party Celebrating Birthday

Saturday being his ninth birthday anniversary, Master Frederick Daiger invited a few of his most intimate friends on a picnic at one of the lakes.

The jolly group motored out early and spent the day playing games of all kinds.

At noon a bon fire was built and venies were roasted, these were served with a regular picnic lunch.

Late in the afternoon the tired but happy group returned to their homes, voting this one of the most delightful of days.

Frederich was assisted in entertaining his guests by his mother, Mrs. Fred Daiger, Mrs. A. K. Powers and Miss Maria Ann Powers.

The guests included Charles Betts, Wilson Smith, Charles Britt, Russell Wallace, Billie Thigpen, O. P. Herndon Jr., Melvin Taylor, Braxton Perkins, Teddie Morse, Charles Thompson and Ainslee White.

## Additional Service To The North

Effective September 27, the Merchants & Miners Transportation Company will increase its service from Jacksonville to the North.

There will be five sailings a week, instead of four.

The NEW, magnificent S. S. ALLEGHANY, and other splendid steamers are now in service between Jacksonville and Savannah, Baltimore, Philadelphia and Boston.

Through tickets and rail connections to all important points.

## The Comfort Route

Travelers to the North enjoy the comfortable steamer trip. Excellent meals and service. Fares from Jacksonville, including meals and berth are: to Baltimore \$39.95; to Philadelphia \$44.35; to Boston \$42.52.

Through fares to other points quoted on request. Automobiles carried. Send for booklet.

NOTE: The S. S. BERKSHIRE (sistership of Allegany) sails every 19 days from MIAMI direct to Philadelphia.

## PITTSBURGH COPS FROM BOSTON AS N. Y. BEATS CUBS

Pirates Draw Nearer Goal With Defeat of Braves; Cl. Is Knocked Vance From Box as Easily Win Game

PITTSBURGH, Sept. 19.—(AP)—The league leading Pirates pounded four Boston pitchers for 18 hits yesterday and won, 9 to 7. The slugging Carl Smith, who knocked out two base hits, and Hanes Cuyler, who got a double and a triple, featured the contest, which was marked by a clash between Smith and outfielder Gus Felix, of Boston. Cuyler came to blows in the eighth inning when Felix spiked Smith as he was doubled at the plate on a throw by Cuyler. Umpire Moran parted the players and both were ejected from the game.

Score by innings:  
Boston . . . 003 011 021—7-11-3  
Pittsburgh . . . 023 021 011—9-18-1  
Batteries: Gronam, Ryan, Kump and Gibson; Morrison, Sheehan, Yde and Gooch.

**BATTED OUT OF BOX**  
ST. LOUIS, Sept. 18.—Dazzy Vance, who pitched a no hit game last Sunday was batted out of the box in the eighth inning Friday and St. Louis defeated Brooklyn 9 to 5. The Cardinals thus obtained a full game hold in fourth place.

Vance struck out eight men and hit a home run but weakened in the eighth when he allowed several safeties and three base on balls, the last of which forced in a run. Hornsby led the Cardinals' rally in this frame with a single and a double, and seven runs were tallied before it was over.

Score by innings:  
Brooklyn . . . 000 120 101—5-11-0  
St. Louis . . . 000 002 071—9-14-0  
Batteries: Vance, Brown and DeBerry; Reinhart, Smith and Warwick.

**GIANTS BEAT CUBS**  
CHICAGO, Sept. 19.—(AP)—New York bunched its hits in three innings and defeated Chicago 8 to 3. Lindstrom led the attack for the Giants with three hits, including a double and triple, in four times up. Barnes pitched a steady game, the Cubs being able to bunt hits in only one frame when they scored three runs. Pittsburgher Cuba above story, had a perfect day at bat, with four hits in as many times up.

Score by innings:  
New York . . . 020 000 240—8-14-2  
Chicago . . . 000 003 000—3-11-1  
Batteries: Barnes and Snyder; Cooper, Keen and Gonzales.

**PHILLIES BEAT REDS**  
CINCINNATI, Sept. 19.—(AP)—Philadelphia took the second game of the final series from Cincinnati 5 to 1, Friday. Wiltoughby, a recruit, allowed eight hits which were well scattered. The Phillies hit Donohue freely in the third and eighth innings.

Score by innings:  
Philadelphia . . . 000 030—5-13-0  
Cincinnati . . . 000 001 000—1-8-1  
Batteries: Wiltoughby and Henline; Donohue and Krueger.

**PALE, NERVOUS**  
West Virginia Lady Says That She Was in a Serious Condition, But Is Stronger After Taking Cardui.

Huntington, W. Va.—"I was in a very weak and run-down condition—in fact, was in a serious condition," says Mrs. Fannie C. Bloss, of 1964 Madison Avenue, this city.

"In my left side the pain was very severe. It would start in my back and sides. Part of the time I was in bed and when up I didn't feel like doing anything or going anywhere.

"Life wasn't any pleasure. I was very pale. I was nervous and thin, and so tired all the time. My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time."

Cardui is made from mild-acting medicinal herbs with a gentle, tonic, strengthening effect upon certain female organs and upon system in general.  
Sold every.

## Baseball Analysis

CHICAGO, Sept. 19.—(AP)—Six more victories for the Pittsburgh Pirates will make them the champions of the National League, even though the New York Giants, who are trailing in second place, win all their remaining 13 games. The Pirates have 11 more contests to play and today hold a seven-game margin over their rivals.

The standing today:  
Pittsburgh . . . 89 54 .622  
New York . . . 81 60 .575  
The Philadelphia Athletics cut down the lead of Washington Senators to seven games Friday by taking a twin bill from Detroit when the league leaders walloped Chicago. With 15 games remaining on its schedule, Washington needs to win only eight of them to be crowned champions for 1925, even if the Athletics should win their remaining 13 contests.

The standing today:  
Washington . . . 99 49 .647  
Philadelphia . . . 84 57 .595

## 206 Chinese Are Now Awaiting Deportation

NEW YORK, Sept. 19.—(AP)—As the result of continued tong murders, 206 Chinese were in the toms today awaiting deportation of 1000 arrested in two raids this week. Those at the toms have been unable to produce certificates of registration as required by law for presence of Chinese in the country.

## SENATORS POUND SOX HURLERS TO WIN EASILY 10-5

Mackmen Take Double Header From Detroit, Indians Nose Out Boston Red Sox 6 to 5; Yankee Win 5th Straight

WASHINGTON, Sept. 19.—(AP)—Hammering two Chicago pitchers for 17 hits, Washington easily won the opening game of the series yesterday, 10 to 5. Rice and J. Harris had perfect days at the bat with four hits each. Ferguson struck out six men but weakened in the last two innings and was replaced by Marberry in the ninth.

Score by innings:  
Chicago . . . 000 000 041—5-12-1  
Washington 100 115 208—10-17-1  
Batteries: Kerr, Connally, Thurston and Crouse; Ferguson Marberry and Severeid.

## ATHLETICS TAKE TWO

PHILADELPHIA, Sept. 19.—(AP)—The Philadelphia Athletics won both ends of a double bill from Detroit here today, 4-2, and 7-3. Baumgartner was invincible after the first inning of the opening game while Rip Collins was eluded unmercifully in the second frame. The batting of Al Simmons featured the twin bill, the slugger amassing a total of seven hits in nine times at bat, including two triples and a double in the second game.

FIRST GAME  
Score by innings:  
Detroit . . . 200 000 000—2-7-1  
Philadelphia 103 000 008—4-10-1  
Batteries: Stoner, Dayle and Woodall; Baumgartner and Cochran.

SECOND GAME  
Score by innings:  
Detroit . . . 000 210 000—3-9-1  
Philadelphia 205 000 008—7-12-0  
Batteries: Collins, Doyle and Bassler; Woodall; Groves, Walberg and Perkins.

WIN FIFTH STRAIGHT  
NEW YORK, Sept. 19.—(AP)—The Yankees won their fifth straight game today by defeating St. Louis, 4 to 2. Home runs by Meusel and Ruth featured the New York triumph. Meusel's 29th of the year coming in the fifth circuit drive came in the seventh with none on. Marty McManis, of the Browns, drove out his 18th four-bagger in the sixth, breaking the Yankees' pitchers' record of 27 runless innings.

Score by innings:  
St. Louis . . . 000 001 100—2-7-1  
New York . . . 000 021 108—4-7-3  
Batteries: Davis, Girard and Dixon; Hoyt and Bengough.

INDIANS WIN, 6-5.  
BOSTON, Sept. 19.—(AP)—Cleveland assailed pitcher Ross of the Red Sox for six runs in the fifth inning in the first game of their final series of the season here today and the visitors won 6 to 5. Pronger singled his first time up, bringing his string of consecutive safe hits to seven. Next time he fouled out.

Score by innings:  
Cleveland . . . 000 050 000—6-11-0  
Boston . . . 011 020 001—5-8-2  
Batteries: Karr, Shaute and Sewell; Ross, Fuhr and Bischoff.

## FROM STOCK TO COTTON

The great stock ranches of the Panhandle district are being cut up into cotton farms. Stock land that sold from 50 cents to \$2 an acre now brings from \$20 to \$40 as cotton land.

## TILDEN TO MEET JOHNSTON TODAY FOR TENNIS TITLE

Two Super-Stars Win Right to Meet Each Other When They Eliminate Richards and Williams on Friday

FOREST HILLS, N. Y., Sept. 18.—(AP)—"Big Bill" Tilden and his veteran Californian rival, "Little Bill" Johnston, dominant forces of American tennis for most of the past decade, will have another just today for the national singles title.

These two super stars reached the final round of the forty-fourth annual championship tournament Friday when they turned back the challenges of the two men who share Davis cup laurels with the rival "Bills." Johnston's crushing power brought about the downfall of Richard Norris Williams, 7-6, 6-3, 6-2, while Tilden, although losing the first set to his young New York rival, Vincent Richards, left a convincing impression of his superiority by scores of 6-8, 6-4, 6-1.

Today's match will bring together Tilden and Johnston in the

title round for the sixth time in seven years. It will be Tilden's big for his sixth straight title, a big no other champion D. Sears, accomplished since Richard D. Sears, the first recognized tennis king, ruled seven years from 1881 to 1887.

Tilden has conquered Johnston five straight times in his march toward the national crown, once in the semi-finals and four times to the finals. He will be a favorite to reach the heights once more today.

Neither Johnston nor Tilden was extended greatly Friday. Neither Williams nor Richards was able to do more than threaten the two Dick Williams. He had rare considerably short of the spectacular flights expected of them. Williams faltered after the first set, and losing control, was easy prey for Johnston's smoking drives, while Richards exhausted himself by the desperate attempts he made to hold Tilden even in the first two sets.

Tilden's victory left little doubt in the minds of observers that he is still in command of the game which has kept him at the top so long. It seemed last week, when he had close calls against the two French stars, Jean Borotra and Rene Lacoste, that Tilden was slipping, but his advance to the title round again has seen him once more dominant.
