### NEW SCENERY FOR HOLLY CROSS PARISH HOUSE

The Holy Cross Men's Club has secured some four sets of new scenery for better equipment of Holy Cross Parish House to be used on the stage. Carpenters are now busy at work making the necessary alterations. The equipment besides the scenery comprises new drop curtains, back and front and proper arches. Altogether it is a most artistic and complete outfit.

### SWOPE HAD THE RIGHT IDEA

County Commissioner O. P. Swope who is also Kiwanian-Swope gave the boys of the Kiwanis Club something to think about the other day when he made the principal address at the meeting of the club. It was taken from some of his recent travels and he called special attention to the fact that there were more people coming to Florida this season than ever before and that what Seminole county wanted was more producers. He also sounded the keynote of getting in new money stressing the fact that at present all the improvements being made in Sanford were being made with home money, the banks and the business men putting up all the money while other sections of the state were getting in new money and new investors all the time. This is something worth thinking about and the talk was so good that the Herald has been asked to give it—the only trouble being that Mr. Swope makes extemporaneous speeches and never has any notes or written matter. He has consented to get us as much as the important data as he can and in line with the policy of printing in full the talks made by the Kiwanis Club or any of the other clubs where it is typewritten the Herald will print this one as soon as it can be handed in. The various clubs of the city are putting on a series of these talks that should be heard by the citizens generally and the only way all the citizens can hear them is to have them printed in the Herald.

Hon. Forest Lake has returned from a business trip to points in West Florida.

### NOTICE!

There will be a meeting of the Political Club of Seminole County, at the Masonic Hall in Sanford, Saturday night, September 23rd at eight o'clock. All citizens, and particularly the ladies, are invited to attend. The principles and objects of the club will be announced. There will be some interesting short speeches.

## PERSONALS

Nice weather.

Business is picking up all along the line.

The Sanford Band is one of the greatest assets in the life of the city.

The winter visitors all want a good band in the winter season. They will be greatly pleased with the Sanford Band this year.

Born to Mr. and Mrs. Oscar Duboss a fine baby boy weighing seven pounds. He will be called J. O. Duboss, Jr.

Go out to the Country Club tomorrow afternoon and knock the little white ball around the green. It will do you good and make you an enthusiastic member of the club.

Mrs. Sorenson and daughter, Mrs. Clark, of Chicago and St. Petersburg, were in the city yesterday enroute to St. Petersburg for the winter. While here they were the guests of Mr. and Mrs. G. Bassett Smith.

Miss Margaret Zachary and her aunt, Miss Beale Zachary, have arrived safely at Bristol, Va., and are ready to take up their duties at the college although Margaret writes that Sanford looks mighty good to her.

H. Cataneo is spending a few days at the Valdez Grill and is jubilant over the fine business the grill is doing in the summer time. He has several changes that he will inaugurate in the Valdez Grill for the winter season.

Frank Kay Anderson of Tampa was in the city today on business and made the Herald office an appreciated visit. Frank is a former newspaper man and one of the best who ever gave up the sanctum for other lines of business but he has not entirely abandoned the typewriter as he is still in the publicity game.

## SANFORD'S TEMPERATURE

What do you think about our cool weather? We have been talking about it so long and now we make good. 85 today as the max but really it was cold this morning—cold enough for a blanket. Now this sounds real nice to those who do not know what fine climate we have and those who are taking the Clyde Line trips are greatly surprised at our great summer climate. Remember that tomorrow is Sunday. Go to church! 5:40 A. M. SEPT. 23, 1922

What a great world it is—nothing seems to suit some people—and what a world it would be if you could suit them.

The Herald is contemplating many improvements along every line this summer and fall and expects to have one of the best equipments in the state for the publishing of a daily and weekly paper.

There are so many good things here in Sanford that need support and it always devolves upon just a few people to put up the money for them. Why not equalize the burden by having a war chest for all emergencies?

The country club was greatly enjoyed yesterday and bids fair to be the favorite meeting place for the busy business men and their wives. The country club and golf links are the greatest asset of the city and every man in the county should join the club and help along a good thing.

There is much being said about early shipments of oranges and grapefruit. While some varieties of oranges are early and can be shipped about the first of October there will be fruit that goes in the green in spite of all the authorities can do. This will kill a good market as usual.

Again we wish to call your attention to the prevention of fires. It is something in which we can all help and to prevent fires is to prevent losses. As the Herald stated some time ago few people take out sufficient fire insurance to pay all losses and it is up to the individual to keep down fires. Big cities can no more prevent fires from spreading than small cities. Atlanta is the last one to suffer and press reports says that the fire threatened the entire business portion. And the fire could have been prevented, no doubt.

YOU PAY FOR WHAT YOU GET.

Taxes are one of the bugbears of modern life along with the percentages put on by the government for the privilege of stopping the Kaiser from getting to Paris. But our own little taxes down here in Seminole county are what worry us considerably especially the man in town who has to pay double for the privilege of living in town and pays twice as much as the man in the country when it comes to state and county tax on a home that brings him in nothing. And yet when we study the situation we can look around and find that the High Cost of Living means we are living faster and perhaps better than in the olden days. The Fort Myers Press expresses it as follows:

"The High Cost of Living is one of the things that joke makers have for several years used in their business. They get so familiar with it that they speak of it intimately, by initials, 'Old H. C. of L.' with a genial slap on the back, maybe.

"And we read their jokes. Maybe we can manage a grin at them. Yet every one of us knows it's no joke—but reality. And 'H. C. L., Old Doy,' is no kind friend of our wallet, no matter how much the wallet knows about him.

"I'm the average man, say. Whatever my trade or profession I live in a house from three to ten times as expensive as that my father owned, if he held the same relative position in the community that I hold. If I am to keep face with my crowd I must wear clothes costing many times as much per year as my father found it necessary to spend. My father, if he was an average man, raised a larger per cent of the food on his table—or maybe mother was the gardener. Every time I go to the movies the price is just 100 per cent more than my father spent on them—and his neigh-

borhood literary society, school and dance were usually without other expense than the effort made in getting to the place and preparing his share of the program. My light costume more than his did, my fuel ditty furniture, house servants, drinking water, all the same. My telephone bills shows up regularly the first of every month—it never worried him. My silver juice is another item that never appears in his old red-backed diary. Rotary, Kiwanis, Booster and Commercial club dues—father wasn't clubbed like I am, hence there were fewer bruised spots under his wallet pocket.

"And then my taxes—there's where you sit up and take notice. By all the saints that from their labors rest—maybe they wouldn't have sounded so much like saints if you heard them talking about our taxes like ours. This is fact—taxes are doubled, tripled, quadrupled then on up where I don't know, the words for 'em. Are these tax lifters clean gone off their heads? "Well—? Taxes are, I suppose the community pocket book. If I am spending three or four times more on myself personally than a man spent a generation ago, because of this H. C. L. it may be up to me before I make my road to think a minute whether or not the community is hit the same way. It may be a case for sympathy instead of damning.

"I remember the Old Man anying a few things occasionally. It was after he was out of the game—sorta settin' back on the side, clear of the dust of the ruckus. The autos were going past at not over forty miles if there was no cops in sight up the street. He had driven an ox team through sand ruts down Main street. "Go it, Son!" he said, "your road costs \$30,000 a mile; ours cost nothing—we worked out our poll tax and made our culverts of corduroy."

"But how far did you go in a day, Dad?" "Twenty miles." "Yeah—that's a half hour for me." On a pitch dark night father carried a lantern. We have high power lights, so close together that the street is lighted from one to the next, at \$50 a year.

Father and his neighbor dug his well and he carried in the water; the city brings ours to a dozen taps.

When his horse got on fire the neighbors brought buckets; the city brings pressure and chemical engines to mine.

Father burned or hauled off his garbage himself; the city does it for me. After a cloud burst during the rainy season father stayed at home maybe a week, until enough water had run off that he could wade out; but I tell the city how the place is to be sewered and ditched so that the water is got out of sight in fifteen minutes after the last drop dropped. That's me!

And then I tell the world about taxes.

Old H. C. L. appears to have struck the same brand on me and the community—he owns us both. But at that I can't figure where the community spends for and joyrides the per cent of the advance that I spend.

The man, who spends on himself, personally and privately for comforts, conveniences and efficiency four times what a similarly situated man spent a generation ago, has no very high or steady handstand to mount while he berated his community for raising more taxes to meet the demands of community safety and efficiency.

POST CARD DAY.

Reports received by the Florida Development Board show that more communities are taking part in the Post Card Day campaign this year, than in any previous year, the local realtors, upon recommendation of the Florida Realtors Association, giving hearty co-operation to the chambers of commerce, most of the local campaigns being scheduled to close on the evening of September 30th. However, some cities which are organizing for very intensive campaigns have set their final closing dates a little later in order to insure an adequate supply of picture post cards, the heavy demand from all over the state having depleted the wholesalers stocks temporarily.

TO CENSOR ADVERTISING.

The directors of the Florida Development Board, at their last meeting, authorized appointment of a committee to censor advertising and promotion schemes of a state-wide nature in an effort to conserve untold thousands of dollars for legitimate and worth while advertising projects, which now go largely to fatten the incomes of the "fly-by-night" advertising solicitors who flock to Florida each winter.

Following are names of the committee members: F. C. Groover, Jacksonville, chairman; L. P. Dickie, Tampa, secretary of the Board of Trade; Gilbert D. Leach, Leesburg, publisher of the Leesburg Commercial; Guy W. Livingston, Miami, managing sec-

William L. Wilson, Panama City. Proposals may be submitted to the Florida Development Board by the promoters, or any chamber of commerce or business men in the state may, before proposals, submitted to them, to the Board, and such proposition will be considered strictly on its merits as an efficient advertising medium. The committee urges that every chamber of commerce appoint a local committee to pass upon the "one time" local advertising schemes and to consider the reports made on state-wide propositions, and further requests all business men to demand that strangers present an endorsement of their proposition by the local committee, before granting them audiences, which will conserve a lot of valuable time and considerable money.

THE UNMINDFUL BUSINESS MAN.

Charlie Barnes is editing the Okeechobee News and making it one of the snappiest papers in that great region of the Everglades and Lake Okeechobee. He is not getting the support of the business men of his city as he should get it and this seems to be the favorite lament of all newspaper men everywhere. Few towns and cities ever realize what what the newspaper man has invested in his plant, or the times that he spends boosting his town when other people are asleep, or of the hard times that he goes thru keeping the wolf from the door all for the thankless job of being an editor. Charlie has the following article about it:

"Just how unmindful the business man is regarding the advertising of his business in Okeechobee can be judged by the advertising columns of the Okeechobee News. The stranger in looking over these pages would surmise Okeechobee to be a country commissary town. No, stranger, we have ten times more business establishments doing a large wholesale and retail business each month that do not spend one dime in advertising their particular line to the buying public. Yes, we have dry goods, grocery, hardware and furniture, drug stores, garages, meat markets, hotels, restaurants, ice factory, electric lighting and heating plant, barber shops, pool rooms, service stations, lumber yards, ice cream parlors, cold drink stands, phone system, boat yards and machine shops. None of the above mentioned will be found represented in the advertising columns of the News, yet these same people want us to boost and do everything in our power to bring new settlers to the town that they may sell a few more unadvertised goods."

FIGURES TALK

Jacksonville, a city free of municipal taxes! It is not impossible. Consider the relative statements of Jacksonville with its municipally owned light plant and Tampa with its privately owned plant. Here in Jacksonville we are paying 7 cents a kilowatt, while in Tampa they are paying 12 cents a difference of 5 cents per kilowatt. Do a little figuring. That 5 cents difference is more than enough to pay all the taxes in the city of Jacksonville. Tampa is paying to their privately owned municipal light plant a rate equivalent to our light and tax rate combined. Substitute Tampa's light rate here and Jacksonville citizens would not have to raise a dime by taxes or by licenses for city government. The 12-cent rate would cover everything.

Carry your mathematical deductions a little farther. Suppose the city owned the gas plant and the street car system. Another difference of 5 cents per unit on each one of those, figuring on a basis of our electric light plant showing, and our state and national taxes could be wiped out, assuming, of course, that ability and not politics determines those in charge. There is reason to believe this possible in the comparison between Jacksonville's municipally owned and Tampa's privately owned plants.—Jacksonville Journal.

TELLING THE NEWS

It happens very frequently that the newspaper man is accosted by some one on the street with the remark, "Well, you didn't have anything about so-and-so in your paper." And he feels aggrieved that some incident occurring in his immediate neighborhood and in which he was interested did not receive the public mention to which he thought it was entitled.

The answer always is, of course, that newspaper men, being merely human, can only tell the public such news as the individual members of the public tell the newspaper man. That is all there is to news.

But the enterprising newspaper man is just as much disappointed that his paper did not get any particular incident as is the more or less indignant citizen. It is his business to furn-

ish news. He has fallen down on his job when even the most trivial of incidents escape him.

The Herald is earnestly desirous to bring about conditions where no one within the radius of its influence can truthfully say that any item of news has eluded the vigilance of its reporters. To that end it would remind the people, especially those who live in communities where it is not possible to station professional reporters, that it welcomes items of news from everybody either in or out of the city. So far as in it lies the Herald will always try to print all the news and it is especially gratified when its friends especially those in outside communities, inform it if incidents that have occurred or events that are to happen in the future.

On that line it cordially and courteously asks the co-operation of all its readers.—Miami Herald.

It will be a great day when the strikes are all settled and all the men who are idle now go back to work. There is so much work to be done that no man should be idle. All of us have our allotted work for every work day and we should not lose any time in accomplishing the many tasks that confront us. We should all join hands in making our city, our county and our state the greatest in the union.

COMRADES OF THE FLORIDA DIVISION, U. C. V.

Your Commander has accepted the invitation of Anna Jackson Chapter, U. C. V., and of the citizens of Tallahassee to hold our next annual reunion in Tallahassee, and the dates set for our meeting will be October 18th and 19th, next.

Upon the shoulders of Division, Brigade and Camp Commanders and their Adjutants rests the life of our organization, and we appeal to them to stimulate interest in it, to the end that the attendance at our approaching convention may be a full one, and that this, our Thirty-second Reunion, may be marked by a degree of enthusiasm and fraternal affection—of comrades for comrades—second to none in the history of our gatherings.

The City of Tallahassee will be our host, and it's richly merited reputation for hospitality, we are assured, will be conspicuously maintained. Full of traditions of a glorious past, the only capital of the Southern States which was not occupied by federal troops during the civil war, there will be found many objects of interest to cherish and renew the holy memories of our great struggle. A visit to Natural Bridge, where was fought the decisive battle which saved our capital, on March 6, 1865, is staged for the second day.

All regrets that our utmost efforts have failed to obtain favorable rates from the transportation companies,

BANKING THAT IS PLEASANT AND PROFITABLE. It is our constant aim to so conduct our bank that it will not only be a pleasure to come in, but to render every possible assistance to make your connection here a profitable one.

but the Veterans will be taken care of in the homes of the citizens, and Tallahassee has ample garage facilities. No nation of people ever survived who failed to keep alive and cherish the traditions of his past. Let us, therefore, meet in Tallahassee in October, there to renew our vows of love for each other, and of undying loyalty to the grand basic principle of self-government for which all of us suffered in our struggle to maintain it, and for which our brothers died. Your Commander is pleased to announce that the following ladies have consented to serve on his Sponsorial Staff, and by the grace of their presence and charm of manner will add to the pleasures of the occasion. He commends them to your care and consideration:

COULD STAY ON SECOND CALL

Ruth and Marjorie were spending the afternoon with their little friend, Jane. At five o'clock they informed their hostess that they must be going.

"My dears," said Jane's mother, "can't you stay and have supper with us?"

"No, thank you," they both replied. "Mother told us to come home at 5."

"Hugs and wraps were brought. As they were being put on, Jane's mother asked again: 'Are you quite sure you must go before supper?'"

"Yes, thank you; we must go," replied Ruth.

Marjorie seemed to have a different opinion, and said sotto voce to her sister: "We don't have to go. Mother said we could stay to supper if she asked us twice."

RUNS AMUCK

EGG HARBOR, City, N. J., Sept. 25.—After attacking and seriously injuring her adopted daughter with a hammer, near here today, Mrs. Sarah Sealey, 70 years old, cut her own throat with a kitchen knife and died later.

"Cheer up old man every dog has his day." "Yes, but I'm beginning to think I've already had mine."

A. J. Balfour said on the question: "I go back home impressed with your American quickness. You are certainly the quickest people on earth."

"How many sheep do you think there are in that field?" the farmer asked.

"Er—000," said the American. "Right! Exactly right!" said the farmer. "How the deuce did you know?"

"Why," drawled the American, "I just counted the legs and divided by four."

Warm Ladies: "The little Lillian Stessel on her recent diplomatic mission to London, Scotland and Paris, was a millionaire's wife."

Well, you see, Miss Russell explained, "women who dress that way are an embarrassment to themselves that they blush continually, and that keeps them warm."

Farm According to Military Rule: Every major engagement of the American expeditionary forces in the World War is represented by 46 former fighters, who, disabled and receiving government training, are engaged in retraining 100,000 to 150,000 acres of land near McGrath, Minn., title to which has been placed in the veterans' name.

Minister—"Do you know Donald, when I see you in this intoxicated condition you remind me of a certain animal."

Scotchman—"Ah know Dominie, yer-r thinkin' 'Lucky Dog'."

COUGHS DISTURB SCHOOL WORK

School teachers should give the same advice to children who have coughs as this Florida teacher. "I recommended Foley's Honey and Tar to the children in my school who had the 'flu' and good results came when- ever it was used," writes Mrs. L. Armstrong, Okeechobee, Florida.

Stood the test of time serving three generations. Quickly relieves colds, coughs and croup, throat, chest and bronchial trouble. Sold everywhere.—Adv.

NOTICE OF ELECTION

WHEREAS, The Legislature of 1921, under the Constitution of 1925, of the State of Florida, did pass four Joint Resolutions proposing amendments to the Constitution of the State of Florida, and the same were agreed to by a vote of three-fifths of all the members elected to each house...

GENERAL ELECTION

will be held in each county in Florida on Tuesday, next, succeeding the first Monday in November, A. D. 1922, the said Tuesday being the SEVENTH DAY OF NOVEMBER.

A JOINT RESOLUTION Proposing an Amendment to Section 10 of Article XII of the Constitution of the State of Florida, relating to Education.

A JOINT RESOLUTION Proposing an Amendment to Section 10 of Article XII of the Constitution of the State of Florida, relating to Education, and the same is hereby referred to and shall be submitted to the electors of the State at the general election of representatives in 1922 for approval or rejection.

## STATE NEWS

**ST. PETERSBURG, Sept. 25.**—The city commission has come forward with more than its moral support in the weed cutting and mosquito eradicating campaign, with an appropriation of \$2,000 to be used in the work. The purchase of a mowing machine will make up one of the items of expenditure. Waste oil is being used on water hazards.

**GAINESVILLE, Sept. 23.**—The onward march of ants into the home, the boarding house, the store and other habitats of men can be stopped if you only find their beds and then follow the directions of Prof. J. R. Watson, of the Florida Experiment Station.

When the nest of the ants is found, get a solution of sodium or potassium cyanide in water. With a cane or sharp stick punch a hole a foot or more deep in the center of the hill and pour into it a few fluid ounces of the solution. As soon as the liquid has soaked away, cover up the hole with dirt and tramp the surface solid. The gas given off will find its way throughout the ant hills and will kill all the ants or prospective ants present. The attack should be made in the early morning or at night when all the ants are at home.

**JACKSONVILLE, Sept. 25.**—Mrs. Laurie Jean Reed has succeeded Dr. W. B. Keating as director of the bureau of child welfare, Florida board of health. Dr. Keating retired from service to enter private practice at Key West.

While Mrs. Reed is not a physician, she is a graduate of the Clara Barton Hospital, Los Angeles; post graduate of Lane Hospital at San Francisco, and the Presbyterian Hospital at Chicago, and a registered nurse in several states of the union. She served prominently in her work during the war at Macon and Columbus, Ga., and later at Washington.

**JACKSONVILLE, Sept. 25.**—Dr. Ralph N. Greene, superintendent of St. Luke's Hospital here and widely known as a specialist in mental diseases, has been granted a commission as major in the medical corps of the Officers' Reserve.

During the World War Dr. Greene was in charge of neurotic cases in the southern department. At one time he was superintendent of the state hospital for the insane at Chattahoochee.

**TALLAHASSEE, Sept. 23.**—The Governor has received and accepted the resignation of S. R. Fields, of Bunnell, from the board of commissioners for Flagler county.

Fields was twice the victim of foggings by unidentified persons. He gave his wife's ill health as the reason for his quitting the office.

**JACKSONVILLE, Sept. 25.**—The Boy Scouts were called upon recently to aid in this city's campaign against "jay-walking" in the downtown section. Following closely on the heels of the traffic regulations recently put into effect with the augmenting of the police traffic squad, the downtown street intersections have been marked with chalk into safety zones.

The establishment of the safety zones carried a taboo on jay-walking. The scouts turned out in full force to instruct the walking public to what the white lines meant but although they were armed with banners admonishing the pedestrian to "Walk right" the youngsters had quite a time of it. The more optimistic of the campaigners believe, however, that the idea will soon be publicly absorbed.

As an example of how far the city has progressed within the past few weeks in the matter of traffic regulations, it is now considered improper to stop the car in the middle of the street half way in the block to converse with a fellow motorist.

### GUARDS SWORN IN.

**NEW ORLEANS, Sept. 23.**—Eighty-six special deputy United States marshals were sworn in by United States Marshal Victor Lolsel here today, for service in Gretna, a railroad suburb, following the shooting there last night of James Dillon, a negro helper in the Trans-Mississippi Terminal yards. Dillon was dangerously wounded by a man who fired at him as he sat in a train waiting to be taken home from work. His assailant escaped.

### FOUND GUILTY

**FRANKLIN, Tenn., Sept. 23.**—Dr. Geo. C. Paschall, of Arrington, well known physician of this county, who

has been on trial here since September 12, charged with the murder of his wife, Mrs. Beattie Wilson Paschall, on September 4 last, this morning was found guilty of murder in the second degree, the verdict carrying with it a penalty of ten to twenty years in prison.

### GETS PENSION

**WASHINGTON, Sept. 23.**—A senate bill to pay a monthly pension of \$150 to Mrs. Marie Doughty Gorgas, widow of General Gorgas, who died Cuba and Panama from yellow fever, was passed during the last hours of the house and sent to the president.

### WON OVER ALL HANDICAPS

Famous Explorer Conquered Disabilities That Would Have Daunted Big Majority of Mankind.

The belated dedication of a monument to Dr. Elisha Kent Kane, once a famous Arctic explorer, is a reminder of an achievement quite as remarkable as anything that Kane did to add to the sum of knowledge of the polar regions. This was his mastery of physical handicaps which would have daunted ninety-nine men in a hundred. He was physically so frail that he was unable to complete his studies at college; he completed his medical education at home, became a surgeon in the navy, and while physician of the American legation at Peking began his career as an explorer which marked him for fame. It is less known than it ought to be that his polar researches, important though they were, constituted only a small part of his work. He succeeded in descending into the crater of the Taal volcano though several able-bodied adventurers had failed; he fought Bedouins in Egypt; he crossed the island of Luzon on foot, and he made an early study of Alpine glaciers in Switzerland. All this and more he accomplished before he died at the age of thirty-seven, sustained always by unflinching pluck and by determination such as few men possess.

### MORALITY AT A DISCOUNT

Evidently Guide Had Learned Wisdom From Association With the Modern Business Man.

Attorney General Daugherty said at a dinner in New York:

"There's a certain class of business men—a very small class, thank goodness—whose honesty reminds me of a fish story."

"Two men with their guides were fishing for salmon in Lake Sunapee. The first man's bag of salmon was the smaller of the two, so he swiped a fish from the second man."

"But the second man caught him in the act. He had the nerve, though, to deny his guilt, and he refused positively to give back the stolen salmon."

"A pretty bitter altercation followed, of course, and it looked as if there would be a fist fight; but just as they were peeling off their coats the second man's guide—it was the second man who had been robbed, you know—the second man's guide drew him aside and whispered: "Ah, let him have it, boss, let him have it. I got two of his."

### Disguised Genius.

Even the art students are denied a little fun nowadays. Aspirants for fame were recently informed that for their year's competition for the Prix de Rome they could submit either "A Nude Boy" or a "Prometheus."

These themes seemed rather hackneyed to the ambitious mind of youths, and the students protested, pleading for some less banal test of their powers. The protest was ignored, and one of the students, in the exuberance of his disgust, proceeded to ridicule the decision of the authorities by himself posing as "a nude boy" in one of the windows of the Ecole des Beaux-Arts.

The Philistine residents in the Beaux-Arts quarter were much scandalized, and complained to the authorities of the school, with the result that as a punishment for the student's levity it has been decided to hold no competition for the Prix de Rome this year.—London Times.

### Cause for Haste.

"We had a big argument last night, Squire, about the real cause of the coal strike," began the village boog, upon discovering Esquire Ramsbottom, the well-known jurist of Petunia, sitting in comfort in his back-titled chair in the shade. "Now, what is your opinion about—"

"Sorry, Emory, but I haven't time to settle that for you now," interrupted the squire. "I just happened to remember that my niece told me to be sure to do something right away. I forget whether it was one or the other. To make certain of being right I am going now and have both operations performed. See you later!"—Kansas City Star.

### The Whipped Cream Age.

Old Charlie Isaacson says: As I rode out of Buffalo I observed three men playing poker in the club car—three tough politician types.

When I arrived in New York I was thirsty and went into my favorite fountain at Grand Central. While I waited for the electric shaker to make my egg phosphate I heard in a gruff voice:

"Three chocolate sodas, please." And in a gruffer voice came the remark:

"And give me plenty of whipped cream."

I turned. I found the customers were my tough companions from the train.—Pittsburgh Leader.

### Wireless Signals and the Aurora.

It is due to the observations of a scientist of Montreal that we now know to a practical certainty that wireless telegraphy may be affected by the aurora borealis.

This scientist describes three occasions when the aurora was present, or in the brilliant weather associated with aurora, when his apparatus received dispatches over abnormal ranges. Singularly, the apparatus apparently affected by the aurora could receive but not transmit signals while the influence lasted.

# "OPEN SEASAME"

Ala Baba murmured the magic words, the cavern door swung open and costly treasures lay at his feet.

You, too, have an "open sesame" to the treasures of the world. It is advertising.

Read the advertising and you open the door to countless comforts and conveniences you otherwise would miss. For advertising will spread before you the product of fields, looms and factories the world over—things that make life easier, happier, more interesting and more fruitful for you and your family.

There is no questioning the real benefits that come from regular and systematic reading of the advertising columns. No other one thing will give you such economy and keen satisfaction in every day buying.

Advertising is far too important to be overlooked.

Read it every day--it is a profitable practice

## INFORMAL DANCE

One of the most delightful social events of the early fall season, was the informal dance given Friday evening by Mrs. W. C. Hill at her attractive home on Fourth street complimenting her niece, Miss Olive Newman, one of Sanford's young society ladies.

Quantities of out flowers, ferns and potted plants were most effectively used in decorating the rooms and formed a lovely background for the rich colored frocks worn by the young ladies.

Dancing was enjoyed until a late hour, the music was furnished by Peter Schaefer. The grand march was led by Mrs. J. D. Woodruff and Walter Connelly. Several feature dances were introduced, favors of wands and ribbon confetti for the girls and crepe paper caps for the boys.

Punch was served throughout the evening and at a late hour dainty refreshments were served.

Mrs. Hill was assisted in entertaining by Mrs. A. E. Hill, Mrs. R. A. Newman and Mrs. J. D. Woodruff.

Miss Newman, the honoree, was lovely in green and silver tulle with over draperies of tulle. In her hair she wore a band of the tulle. Mrs. Hill had other guests wearing a smart costume of black satin combined with a cover rose taffeta. Mrs. Newman was attired in peacock blue georgette.

About twenty couples enjoyed the cordial hospitality of this charming hostess.

## WORLD'S SERIES OF OTHER YEARS UP FOR DISCUSSION

(By The Associated Press)  
**NEW YORK, Sept. 25.**—In the world series of 1921 the New York Giants, led by John McGraw, and Hughey Jennings, formerly of the Detroit Americans, defeated the New York Yankees, bossed by Miller Huggins, in eight games.

The Giants were shut out in 3 to 0 in the first two games, Maya pitching the Yanks to victory in the opener and the youthful Waite Hoyt turning the trick in the second. The third game, a heavy hitting affair, went to the Nationals, 13 to 5, Jess Barnes defeating Bob Shawkey. Phil Douglas pitched the Giants to victory, 4 to 2 in the fourth game, but Hoyt came back in the fifth against Artie Nehf, the young Giant and the Americans won 3 to 1. Barnes won the sixth game for the Giants, 8 to 5 and Douglas won the seventh, 2 to 1, against defeating Mays.

Nehf and Hoyt engaged in a stirring mound duel in the final game, and the Giants won 1 to 0. The Giants accounted for 19 extra base hitters in the series. Of these 13 were two baggers, four were three base hits and two were home runs. The Yankees had seven two baggers, one three base hit and two homers. The Giants had 71 hits for a total of 98 bases and 29 runs. Fifty hits were credited to the Yankees for 65 total bases and 22 runs. Giant pitchers struck out 38 batters and walked 22. Forty-four batsmen were struck out by Yankee hurlers and 27 were passed. The Giants stole seven bases, one more than the Yankees.

The Giants had a combined batting average of .269 as compared to the Yankees' .207.

## CARPENTIER WHIPPED BY SENEGALESE NEGRO IN SIX ROUNDS

(By The Associated Press)  
**PARIS, Sept. 25.**—Georges Carpentier, European heavy weight champion boxer, and idol of France, was defeated today by Battling Siki, the Senegalese fighter, in the sixth round bout.

Carpentier never had a chance after the third round. He was barely able to respond to the bell at the beginning of the fifth. With his right eye completely closed, and his nose broken, he was unable to put up a guard.

In the sixth the negro fighter planted a series of terrific rights to Carpentier's head, and the French fighter crumpled to the floor. One of his legs caught between the legs of the Senegalese while he was falling.

The crowd, the largest that ever witnessed a boxing contest in France, roared the end. All was uproar. Many persons jumped into the ring and carried the Senegalese on their shoulders to his corner.

The referee, Harry Barnstein at first ruled that Siki had been disqualified for "whipping." But the throng, which considered that Carpentier had been beaten squarely by a better man, overruled the decision with a great chorus of hoots and jeers and even threatened the referee bodily. The three judges of the fight—Victor Breyer, Jean Poole and Mr. Bennison of London—went

# LAKE MONROE

The Ninth Annual meeting of the Seminole Baptist Association was held at Lake Monroe last week, and in point of attendance and accomplishment of purpose, proved a success in every way. A full report of the convention appeared in last Friday's Herald.

Lillian Harris, the 14-month-old daughter of Mr. and Mrs. George Harris died at the home of her uncle, John Davis, of this place. The body was interred at Silver Lake cemetery.

An infant child of Mr. and Mrs. Col. Henderson died at this place after a short illness. Burial took place at Silver Lake cemetery.

Mrs. Ender Curlett, of Oviedo, the chairman of the Child's Welfare Department of the Woman's Club, was a pleasant caller at the Lake Monroe school recently. Mrs. Curlett talks the good news that we are to have a health nurse this school term, the work to be taken up in October.

Mr. Kaiserman and son Emil and William Hawkins spent the week end at Coronado Beach.

Miss Eliza Orton, of Jacksonville, visited Mrs. R. T. Wynne a few days enroute to Mount Dora.

Miss Roberta Wynne has returned home after a pleasant visit to Mount Dora.

Mr. and Mrs. J. T. Mathews and family have removed from Lakeland to this place.

F. T. Black has returned from the hospital at Daytona after recovering from a severe illness. His many friends are pleased to see him at his post of duty in the grocery at Monroe.

Little Herbert Black is confined to his home by illness also.

K. J. Cates spent a few days with relatives at Palatka last week.

Mr. and Mrs. L. B. Mann entertained Thursday in honor of their guest, J. L. Horne, of Georgia. Those present were: Mr. and Mrs. G. Purvis and little daughter, Wanona and Mrs. Mann's father, K. J. Cates.

J. L. Horne has extended his visit to Florida by visiting Jasper and Boston.

Born to Mr. and Mrs. Lee Keller Sunday, September 17th, a fine girl. Quite a crowd of the association folks visited the school Wednesday morning. Among them were Rev. Wilson Finch, pastor of the Baptist church at Umatilla, and B. F. McWhorter also of Umatilla, both of whom made a very pleasant address.

A large rattlesnake measuring about five feet in length, was killed by one of the Stafford boys just on the Lake county side of Lake Monroe one day this week.

"Bud" Hawkins and others are out hunting a large bear that has been seen in the vicinity of Monroe lately. If captured their friends are expecting a delicious piece of bear steak.

Work continues to be plentiful and it is only a matter of time until pool room owners will have to advertise again for boys to provide local color around their establishments.
