Reach \$40 Million General Dynamics Earnings Soar

ST. LOUIS, Mo.—General Dynamics Corp. announced net operating earnings for 1973 of \$40,302,000. This was 53 per cent higher than in 1972 and was the highest since 1967.

Net earnings for the year ended Dec. 31 totaled \$3.94 per share, compared with \$2,642,000, or \$2.47 per share, for 1972.

Net earnings for the fourth quarter were \$12,772,000, or \$1.22 per share, as compared to \$7,892,000, or 76 cents per share in the like 1972 quarter—an increase of 62 per cent. All of the foregoing earnings data are before extraordinary items.

Net earnings after extraordinary items were \$11,341,000, or \$1.04 per share, as compared to \$2,471,000, or \$2.30 per share, for 1972.

Sales for the year were \$1,641,799,000, or 7 per cent higher than the \$1,539,390,000 level achieved in 1972. This reversed the downward trend of the previous four years. Sales for the fourth quarter of 1973 were \$431,953,000 compared with \$377,553,000 in 1972—an increase of 11 per cent. Commercial sales increased by 19 per cent to \$545,600,000, or 39 per cent of the year's total.

Total funded backlog at year-end was a record \$2.8 billion. Funded and unfunded backlog totaled \$3.7 billion, the highest since 1968.

"Our performance in 1973 proves the inherent strength of our company and of the diversified nature of its business," said David S. Lewis, Chairman and Chief Executive Officer of General Dynamics.

"The continued growth of our commercial operations and our success in winning new, high-potential government contracts should continue to produce higher earnings in coming years."

During the fourth quarter, contracts totaling \$770 million were received for construction of 11 688-class nuclear attack submarines by the Electric Boat Division, bringing to its total under contract. Revenues under these contracts are expected to exceed \$1.45 billion through 1981.

A major milestone was achieved during the year when the company rolled out a

Rely On Lawyer On Legal Tangle

By MARTIN PORISS

Whenever you tangle with a merchant, spouse, landlord or bureaucracy - a lawyer's the (woman) to see! In the eyes of the law, everyone's equal, but those with legal help are MORE equal than those without.

Avoiding lawyers is a sure way to "court disaster." So learn WHEN you should call a lawyer, WHERE to call, and how to get legal help cheap, but good!

Most of us think "Lawyer" only when we're in trouble - ready for jail, divorce, or worse! That's like starting to practice birth control when going into labor. Think of lawyers as GENERAL ADVISORS - friends to call BEFORE you need them. When advice is gotten early enough, a few words can avoid a long "sentence."

Is your landlord threatening to evict you, "lease" you, or leave his pet cockroaches permanently in your car? Don't tear your hair out - call an attorney ("attorney" is just another word for "lawyer"). Having problems with Aunt Isadora's will, the kids being tossed out of school, or a fuel company's refusal to deliver. Don't simply "stand witness" to such trials; judge for yourself and CALL a lawyer, BEFORE things go

from bad to awful. It makes little difference whether you're selling a house, squabbling with neighbors, the victim of an auto smashup or job injury, battling with welfare, Social Security or the police. If you've never called a lawyer BEFORE a small plain-iff turned into a big trouble, DON'T be a prisoner of your old habit! Avoid the swearing of great oaths: call a lawyer.

BUT I CAN'T AFFORD AN EXPENSIVE LAWYER!!

Howwash. At ANY price, when obtained early enough, the advice of a good lawyer is cheap. But, if you're low on dough - inexpensive and free legal advice is available. Take advantage of it! Now!

Use your telephone books - pages both White and Yellow - to locate your nearest Lawyers Reference Service. Sometimes called "Legal Referral Service," this organization is sponsored by your local Bar Association. Be sure to check listings in the phone book's Yellow Pages under three categories: "Lawyer," "Legal," and "Attorney." The Lawyers Reference Service can locate legal help who CAN afford.

CAN'T AFFORD EVEN A DIME? There are about 500 offices of the Legal Aid Society in the USA. Usually associated

with local poverty programs, Legal Aid will help ANYONE who can demonstrate an inability to pay for legal advice. Find out if there's a branch office near you!

Finally, if you can't either a Legal Reference Service or a Legal Aid Society near you, all is NOT lost. Call your local public library newspaper office for advice. Or, spend an early morning at your local courthouse talking with a judge or with ANYONE hanging around the courthouse (wearing a tie) before the day's trials begin. Do a "soft-sell" job of presenting your legal problem and, with luck and a lawyer, you'll never end up with a "hard-cell" job. If taken care of early, yours will probably be a very simple "brief-case!"

Remember whether you find a private attorney, get one through Legal Reference Service, or find a lawyer in any other way - discuss that lawyer's price with him/her when setting up the appointment, at the beginning of your first meeting!

Using a lawyer BEFORE you sink into real trouble is called "Preventive Law." Make a habit of visiting attorneys for early legal and financial aid. By telling you what to watch out for, a lawyer will keep you out of trouble. In the ocean (or at its swamps) is a good attorney is a good friend.

Dale Carnegie Course to be presented soon in Sanford... what's in it for you?

New Perspectives toward career, family, life conditions

New Self-Reliance in coping with problems and situations

New Enthusiasm for work and responsibility and living

New Awareness, increased sensibility to the influences that govern your personal progress

Jaworski, Nixon Heading For Clash

WASHINGTON (AP) - With a strongly worded letter to the chairman of the Senate Judiciary committee, Special Watergate prosecutor Leon Jaworski has moved toward a confrontation with President Nixon.

"It is now clear that evidence I deem material to our investigations will not be forthcoming," Jaworski said in a letter Thursday to Sen. James O. Eastland, D-Miss. The White House said the President himself made the decision to

end cooperation with the investigations.

Jaworski disclosed that the material the President had refused to supply included the tapes of 27 presidential meetings and telephone calls related to the investigation of the Watergate break-in and cover-up. That number was far higher than had ever been indicated by the prosecutor's office.

Jaworski said that in rejecting his requests, the White House had given no indication "any requested recording is either irrelevant to our inquiries or subject to some particularized privilege."

Eastland was in Mississippi and had no immediate comment on the letter.

Sen. Edward M. Kennedy, D-Mass., a judiciary committee member, said he would request an early meeting of the panel "to consider the ominous implications of Mr. Jaworski's letter."

Deputy White House Press Secretary Gerald L. Warren told newsmen at Key Biscayne, Fla., that the President had de-

ferred Jaworski already had received sufficient material to allow the grand jury to proceed with their work without further delay.

Vice President Gerald R. Ford said Jaworski's letter indicated "that the White House has cooperated sufficiently for him to carry out his duties."

Jaworski's letter said that while he has sufficient evidence for criminal indictments, "the requested material is important to a complete and thorough investigation and may contain evidence necessary for any future trials."

Meanwhile, the President's Watergate counsel, James D. St. Clair, was engaged in negotiations with the House Judiciary committee over access to White House files for the committee's impeachment inquiry.

John Dour, chief counsel for the House inquiry, and Albert Jenner, minority counsel for the probe, told newsmen Thursday that St. Clair wanted assurances that confidentiality of White House files would be protected.

66th Year, No. 152 Price 10 Cents

By 3.1 Per Cent

Wholesale Prices Leap In January

WASHINGTON (AP) - Wholesale prices boomed upward in January at the second highest monthly rate on record as the inflationary spiral stretched across the entire economy, the government said today.

Wholesale price rises mean that the higher costs will be translated into higher retail prices in the weeks ahead, as inflation shows no letup for the consumer.

Sharply higher wholesale boosts for farm products, industrial commodities, consumer finished goods and fuels pushed the wholesale price index up by a seasonally adjusted 3.1 per cent, a rise exceeded only by the record 6.2 per cent of last August.

Friday, February 15, 1974 - Sanford, Florida 32771

66th Year, No. 152 Price 10 Cents

If January's rate is computed on an annual basis, it comes out to an annual rate of inflation of 37.2 per cent - 3.1 per cent a month for 12 months.

Wholesale prices, accelerating in the past few months, have risen at an annual rate of 32.3 per cent in the past three months, a record. In the past 12 months, they have gone up 20.8 per cent, the second highest rise for any 12-month period since October 1947.

The Bureau of Labor Statistics said wholesale prices in January actually rose at a monthly rate of 3.5 per cent when usual seasonal influences are subtracted.

Prices of farm products and processed foods

and feeds jumped 5.1 per cent on a seasonally adjusted basis; industrial commodities 2.3 per cent and consumer finished goods 2.8 per cent. All three figures reflected an economy caught in a tremendous inflationary grip.

A month earlier, wholesale prices went up 2.2 per cent.

The Nixon administration has offered consumers hope that the price surge will let up in the second half of this year.

The bureau said the wholesale cost of fuel accounted for almost 40 per cent of the jump in industrial commodities prices, with refined petroleum products leaping by 7.7 per cent and crude oil 22 per cent.

Truckers Get Relief On Fuel

WASHINGTON (AP) - The Interstate Commerce Commission today announced new regulations designed to relieve independent truckers from the inflationary effects of fuel costs, but admitted its regulations would affect only 50 per cent of the industry.

ICC chairman George Stafford called on Congress to look into the ICC's authority to determine whether it should be expanded to cover independent truckers not now regulated by the commission.

The commission announced it had adopted a regulation which provides that trucking companies compensate independent owner-operators who work under contract to them on the basis of...

The six per cent freight rate surcharge which the ICC announced last week to cover rising costs to independent truckers. The surcharge was offered to help end a truck stoppage.

Land Planning Act Delayed

By BOBILLOYD City Editor

Seminole County commissioners were told Thursday to redraft a bill that would establish a Seminole County Expressway Authority to include two representatives of municipalities with the county commissioners on the authority board.

The direction, by the Seminole Legislative Delegation, came after Thursday hearing at the courthouse in Sanford.

Sanford Mayor Lee Moore said his city accepts and supports "the philosophical concept" of the planning act but feels it fails to set much needed uniform standards for countywide land use planning.

"Uniform standards are a basic, significant part of planning," Moore said. "Without this bill, we'll be worth the paper it's written on."

Moore urged the county to work with municipalities and the East Central Florida Regional Planning Council to come up with a model use plan that could be submitted to the legislature in 1975 in a form the people of Seminole County can live with.

Senator Lori Wilson agreed standards are important but said she "has had it up here" with Seminole legislation submitted without input from the cities. Spectators applauded when she commented she was almost ready to propose the delegation refuse to hear Seminole legislation unless it was agreeable to both the county and municipalities.

County Commissioner Sid Vihlen Jr., has been named one of Florida Jaycees five outstanding young men of 1973. He and four other winners will be honored Saturday in Tampa. Other winners are R. Clark Thompson, Pensacola; Dave C. Williams, Lake City; James Lawrence, Deland; and David Agresti, Tampa. All are between ages of 18 and 35.

Weather

Yesterday's high 80 low this morning 44. Mostly fair today and tonight. Saturday partly cloudy with slight chance of showers. Continued mild with highs in upper 70s and lows 50s and 60s tonight in mid to upper 50s.

Rain probability 30 per cent Saturday.

Extended forecast - partly cloudy to occasionally cloudy, mainly in the south and central portions of the state. It will be cooler Sunday and Monday.

City Workers Get Pay Boost

By J. RICHARDS Herald Staff Writer

Orange and Osceola Counties at a \$500 yearly fee.

James said he was elected to the group's board of directors and Casselberry Mayor Bill Grier was named secretary-treasurer.

Citing the expected return of the city hall annex to its former use as the free medical clinic, the mayor pushed for alternative housing for the growing city bureaucracy.

The discussion quickly swelled to include the fire department, which still has one man sleeping in the council room. Authorization was given for purchase of a roll-away bed to ease the immediate problem.

"I want council to commit themselves to some kind of building. Some plan," said James, citing the need already for additional office space.

Councilman Don Schreiner brought up discussion of having developers "pay for their own impact" as is the case in several county municipalities.

James said the city had negotiated with developers for a fire station, but felt the present city hall site was more ideally located for that and the city could easily expand on the site.

Schreiner also received council permission to repair two damaged police department cars at a cost of approximately \$1,000, giving the department all four of its cars "on the road" status.

Solzhenitsyn Heading For Switzerland

COLOGNE, West Germany (AP)—Alexander Solzhenitsyn left West Germany for Switzerland today to take up the life of a wealthy, best-selling author in Western Europe.

After two nights in the rural West German village of Langenbroich, Solzhenitsyn and his Swiss lawyer boarded a train for Zurich.

Awaiting the exiled Soviet writer in the Swiss financial center were the large fortune his books have accumulated for him in the West and the voluminous records of lawyer Fritz Heeb's dealings on Solzhenitsyn's behalf with publishers in Europe and America for the past five years.

It was not known how long Solzhenitsyn planned to stay in Switzerland. But Heeb indicated earlier that he would probably settle in Scandinavia.

The Paris newspaper France-Soir estimated that the writer has amassed at least \$6 million in royalties from the publication of his books outside the Soviet bloc.

He has said that Solzhenitsyn told him two years ago that he wanted his royalties used for humanitarian purposes inside the Soviet Union. But that was in the days when the writer thought Soviet law protected him from expulsion and that he would live out his life in Russia.

Solzhenitsyn talked by telephone with his wife in Moscow after he arrived in West Germany Wednesday, and they had another conversation for 25 minutes Thursday night, friends said. But his host in West Germany, novelist Heinrich Boll, told newsmen today Mrs. Solzhenitsyn would remain in Moscow until her husband finds a permanent home.

The family includes the couple's three sons, Mrs. Solzhenitsyn's 11-year-old son by a previous marriage, and her widowed mother. Friends of the family thought the Soviet government would let all of them leave.

EMPLOYER TAKES A SHINE TO HIM
RICHARD DENAPOLI, an unemployed stockbroker who set up a shoeshine stand in Boston to pass out employment resumes, was hired by a Detroit, Mich., map firm.

Julie Eisenhower OK After Surgery

INDIANAPOLIS (AP)—Julie Nixon Eisenhower was reported in satisfactory condition today and on the road to recovery from emergency major surgery performed to halt internal bleeding from an ovarian cyst.

President Nixon's 25-year-old daughter was in surgery 44 minutes Thursday night at the Indiana University Medical Center where "two of the state's leading gynecologists removed a benign cyst."

Her mother and her husband, David Eisenhower, had rushed by separate military jet planes to be at her side shortly after the operation.

Afterward, a hospital spokesman read a statement saying Mrs. Eisenhower was experiencing some postoperative discomfort and pain, but was considered in satisfactory condition. Then he added, "She is doing very, very well."

Mrs. Eisenhower had come to Indianapolis for an editorial meeting of the Saturday Evening Post, where she is a \$10,000-a-year assistant editor.

Dr. Cory SerVaas, wife of Curtis Publishing Co. board chairman Beurt SerVaas, said Mrs. Eisenhower became ill during the meeting and was taken to her home in the northwest Indianapolis suburbs.

"Julie complained of pain in her lower back," Dr. SerVaas said. "She spent a restless night at our house and by Wednesday noon she was in extreme pain."

Dr. SerVaas took Julie to Dr. Sprague G. Ordner, one of the state's leading gynecologists, who found substantial internal bleeding and had Mrs. Eisenhower admitted to Krannert Pavilion of the university's medical center.

"At first I thought it was an ectopic pregnancy," Dr. SerVaas said. "But we found she had a benign ovarian cyst."

"The cyst was removed and the bleeding was stopped. Everything went well."

Escaped Convict Believed To Be Hearst Kidnaper

BERKELEY (AP)—Authorities are reported investigating the possibility that an escaped convict is the leader of the Symbionese Liberation Army. The newspaper and television station KQED said Thursday night that the man is Donald David DeFreeze, who escaped from California's Soledad Prison last March 5 while serving a term for robbery, assault and possession of stolen checks.

Both the newspaper and the station said DeFreeze is the "Cinque" of the Hearst kidnap case.

However, the FBI said DeFreeze is not a prime suspect at this time.

DeFreeze is "one of several people who are known to have used the alias 'Cinque,'" said John Kelley, assistant in charge of the San Francisco FBI office. "Cinque was the name of a leader of a slave ship revolt in the 19th century."

The Chronicle said the man who called himself "Cinque" in a tape recorded message to the Hearst family on Tuesday was actually the leader and founder of the Symbionese Liberation Army.

Miss Hearst, 19, was dragged from her apartment near the University of California on Feb. 4. Her execution was threatened by "Cinque" unless Miss Hearst's father finances a huge food giveaway for California's needy. This was called preliminary negotiations for her release.

The cost of such a food distribution has been estimated at as high as \$400 million.

The girl's father is Randolph A. Hearst, president and editor of the San Francisco Examiner and chairman of the Hearst Corp.

Terrell, Gilbert, and his 36-year-old wife Yvonne were killed when Terrell's car collided with the Gilbert car at the U.S. 17-92-SR 427 intersection at Five Points.

Mrs. Hilda Jean Terrell and her two-week-old son Daniel survived the crash. Thursday Mrs. Terrell tearfully testified her husband was driving at a high rate of speed. She said she didn't know their car was being chased by police and she never saw a flashing blue light or heard a siren.

Bernsky returned to the witness stand to again testify his blue lights and siren were operating during the chase.

Earlier in the trial George W. Arnold III, of Sanford, testified he was on a motorcycle alongside U.S. 17-92 near Sunland Estates when Bernsky's patrol car passed and he saw a blue light but didn't hear a siren.

Witnesses have testified Bernsky was at least eight-tenths of a mile behind the Terrell car when the fatal crash occurred.

Robert Ray Taylor Jr., of Orlando, testified Thursday that he was a passenger in the Trans Am, with Terrell driving at speeds up to 140 miles an hour, several hours before the accident.

The city is expected to present as its final defense witness an acoustical expert, Dr. Gerald Venti of Florida Technological University, with testimony on siren tests made on Sanford police vehicles.

The defense has alleged

Station Owners Hit Anti-Customer Rule

BY THE ASSOCIATED PRESS

Angered by federal fines for entering to regular customers and a federal price freeze which they say cuts profits, some service station operators have closed their stations in two states and threatened shutdowns in several others.

Some stations were closed Wednesday and Thursday in Connecticut and a majority of gasoline retailers in the Tidewater area of Virginia appeared ready to begin a four-day shutdown today.

Protests there and in other states showed strong opposition to a ban on special sales to regular customers and to the federal price freeze which operators claim is strangling profits.

Seven gasoline retailer groups meeting in Fresno, Calif., representing 3,400 of the state's 20,000 service station operators, said they would take a "vacation" March 22 unless they are granted a gasoline price increase.

The 300-member Southern California Retailers Association said it was planning a shutdown of service stations for Feb. 24.

About 2,000 service station dealers in Washington and Oregon issued an ultimatum to the federal government saying they would pump their tanks dry if their demands were not met by midnight Monday.

Spokesmen for the Evergreen Service Station Association of Washington and the Oregon Dealers Association said the demands included more police protection, a minimum increase of five per cent in gasoline allocations and authority to raise prices.

Federal energy chief William E. Simon, invoking the Emergency Petroleum Act of 1973, had directed service stations to treat all customers alike or be fined \$5,000.

Max Victor, executive director of the New York State Association of Service Stations, said the federal order amounted to "telling dealers to forget about good will and, in many cases, to forget a clientele he's worked for years to build up."

North Korea Takes Boat In South Korea

SEOUL, South Korea (AP)—North Korea captured a South Korean fishing boat and sank a second one today in an act of "grave, deliberate armed provocation," the South Korean government charged.

The Defense Ministry said North Korean gunboats opened fire on the two vessels—both reportedly unarmed and each carrying a crew of 12—in a disputed part of the Yellow Sea.

It was the first shooting incident reported between the North and South since they issued a joint communique on July 4, 1972, pledging to refrain from hostile action.

Rescuers reported that all 12 crew members aboard the sunken craft, the Suwon No. 21, were missing. The Defense Ministry said it did not know if there were any casualties on the other boat, the Suwon No. 33.

Chang Key-young, of the joint North-South coordinating committee, sent a formal protest to the North Korean capital of Pyongyang demanding that the 12 crew members aboard the captured ship be returned immediately. He said the boats were engaged in peaceful fishing operations on open seas when attacked.

A spokesman said the attack occurred at midmorning, 30 miles west of the island of Paengnyong, which is controlled by South Korea, and about 150 miles northwest of Seoul.

Area Death

MRS. NINA KING

Mrs. Nina B. King, 81, of 3502 S. Park Ave., Sanford, died Thursday. Born in West Union, Ohio, she had lived in Sanford since 1968, having moved here from Fort Smith, Ohio. She was a member of the Methodist Church and Eastern Star in Fort Smith.

Survivors include a daughter, Mrs. John B. Vaughters, Sanford; son, Robert L. King, Columbus, Ohio; 20 grandchildren and 27 great-grandchildren.

Burial will be in Fort Smith. Gramkow Funeral Home in charge of local arrangements.

World News Briefs

Mines Kill U.N. Troops
CAIRO, Egypt (AP)—Two Finnish soldiers with the United Nations peacekeeping force were killed and seven others were wounded by mines in an unmarked minefield in the U.N. buffer zone west of the Suez Canal, the Finnish Embassy reported today.

The embassy said four of the wounded were in serious condition.

A Finnish captain was slightly injured Thursday afternoon when he detonated an antipersonnel mine in the field. A group of Finnish soldiers rushed to his rescue, and their vehicle hit an antitank mine, killing two of the men and injuring six others.

An embassy spokesman said he did not know whether the mines had been laid by the Egyptians or the Israelis.

National News Briefs

Thieves Hit Liberace
DALLAS, Tex. (AP)—Thieves raided the hotel room of pianist Liberace during the night and made off with valuables and jewelry with an estimated value of \$75,000, his manager said today.

Police acknowledged they were investigating a burglary at the Statler-Hilton Hotel, where the musician has a 70th floor room, and that it involved "a very large loss."

Liberace's manager, Seymour Heller, described the missing items as primarily gifts from admirers. He said they were stolen from a locked case between 7 p.m. and 12:30 a.m. while Liberace was playing a concert at Southern Methodist University.

Bank's Drinks Offer
MINNEAPOLIS, Minn. (AP)—A Minneapolis bank has made an unusual arrangement with a downtown drinking spot called Ichabod's.

For a \$20 deposit in Farmers & Mechanics Savings Bank's new Marchbank—located next door to Ichabod's—you get a \$5 gift certificate for food and liquor. They're calling the promotion "Ichabod's."

A bank spokesman said only 10 people have taken advantage of the offer so far.

Fear Of Clothing?
EDMONTON, Alta. (AP)—A 25-year-old man who walked nude through an Edmonton Transit System bus has pleaded guilty to a charge of committing an indecent act.

Edward Chatschaturian was examined in Alberta Hospital before appearing—clothed—in Provincial court. He will be sentenced Feb. 21.

Chatschaturian was arrested Thursday after he disturbed shortly after boarding the bus.

He held a bus driver by a sun visor and was afraid of his clothes. The temperature was about five degrees above zero.

VICTORY IS SWEET
PAT REGISTER, who headed up winning division in Greater Sanford Chamber of Commerce membership drive, is congratulated by membership chairman, John Carl, as Bill Fraasa, leader of losing division, promises his team will serve the "Victory Burgers" at the cookout for campaign workers and the spouses.

Jury To Get Death Trial

A four man, two woman circuit jury was scheduled to begin deliberations this afternoon at Sanford in a million dollar civil damage suit against the City of Sanford in connection with the traffic death of an off-duty Sanford policeman.

Defense testimony in the fourth day of the trial before Circuit Court Judge Clarence Johnson Jr. was delayed until noon as attorneys argued points of law in the judge's chambers and the jury took an extended coffee break.

The administrators of the estate of Sanford policeman Hirschel Gilbert, 40, claims that city partman Tom Bernsky was negligent in a high speed chase on U.S. 17-92 June 2 of a Pontiac Trans Am driven by Sidney E. Terrell, 21, of Winter Springs.

Terrell, Gilbert, and his 36-year-old wife Yvonne were killed when Terrell's car collided with the Gilbert car at the U.S. 17-92-SR 427 intersection at Five Points.

Mrs. Hilda Jean Terrell and her two-week-old son Daniel survived the crash. Thursday Mrs. Terrell tearfully testified her husband was driving at a high rate of speed. She said she didn't know their car was being chased by police and she never saw a flashing blue light or heard a siren.

Bernsky returned to the witness stand to again testify his blue lights and siren were operating during the chase.

Earlier in the trial George W. Arnold III, of Sanford, testified he was on a motorcycle alongside U.S. 17-92 near Sunland Estates when Bernsky's patrol car passed and he saw a blue light but didn't hear a siren.

Witnesses have testified Bernsky was at least eight-tenths of a mile behind the Terrell car when the fatal crash occurred.

Robert Ray Taylor Jr., of Orlando, testified Thursday that he was a passenger in the Trans Am, with Terrell driving at speeds up to 140 miles an hour, several hours before the accident.

Stock Market Struggling To Break Sluggish Grip

NEW YORK (AP)—The stock market tried once again today to break out of the sluggishness that has gripped it for the past several weeks.

The opening Dow Jones average of 39 industrials was up nearly a point, and gainers led losers by almost a 3-1 margin on the New York Stock Exchange.

The upward push came despite the government's report today that wholesale prices soared at a 37.2 per cent seasonally adjusted annual rate in January. It was the second highest monthly rise since 1947.

Analysts say strong inflation has been one of the major causes of investor concern during the bear market climate that has prevailed on Wall Street for most of the past 13 months.

The Dow Jones index included American Telephone & Telegraph, up 1/2 at 22.

A couple of Glaxo stocks which have fallen sharply in recent months showed gains today. Walt Disney climbed 1/2 to 41 1/2 and Upjohn was up 1/2 at 55.

On Thursday, stock prices turned in their third straight session of narrow movement in slow trading. The Dow Jones industrial average edged up 3.05 to 809.92, while gainers out-

U.S. Judge Hopes Talk Of Dean Ends

WASHINGTON (AP)—A federal judge said today he hopes President Nixon and the special Watergate prosecutor Leon Jaworski will stop discussing whether or not former White House counsel John W. Dean III has told the truth.

U.S. District Judge Gerhard A. Gesell said he hopes "every effort will be made by appropriate authorities to stop discussing matters before the court."

Gesell noted that Nixon, in a letter to him urging him to withhold White House tapes, had "indicated his concern with pretrial publicity."

The issue arose when a lawyer for former White House aide Dwight L. Chapin charged that Jaworski had violated court rules by commenting on Dean's credibility during a television interview two weeks ago. Jaworski's comments were part of a dialogue that began when Senate Republican leader Hugh Scott said he had seen evidence at the White House that indicated Dean had lied to the Senate Watergate committee when he said he thought Nixon was aware of the Watergate cover-up before March 12, 1973.

Gesell called Jaworski before him and said that he was aware that highly unfavorable remarks had been made about a government witness "by persons in positions much higher than your own."

But the judge added that did not excuse Jaworski's television remarks and "any further lapse would have increasingly serious consequences."

"It seems to me your good sense ought to keep you off talk shows," Gesell said.

The judge said, however, he has no authority over Nixon or Scott.

The fuel shortage: it affects you; it affects us.

Right now our country faces a serious shortage of oil and natural gas. This shortage is especially significant for Florida, which produces only a negligible amount of its own fuel. And the shortage has important meaning in relation to Florida's energy needs, since so much of our state's electricity is generated by oil and natural gas. The following Summary of Fuel Facts points up the potential problem.

How FPL generates electricity for you:
Natural Gas 24%
Oil 64%
Nuclear 12%

As the Summary shows, Florida is much more dependent upon oil for filling its energy needs than is the nation as a whole. This is because Florida is far from the major sources of coal, and does not have the mountains of uranium needed for hydroelectric power generation.

A Source More Abundant than Oil and Natural Gas
Years ago, FPL realized that America's supply of oil and natural gas was limited. We decided to plan for a more abundantly available fuel.

This is what led FPL to build such nuclear generating units as Turkey Point Units #3 and #4. By supplying significant amounts of electricity during 1973, these units saved 6½ million barrels of low-sulfur fuel oil. And right now FPL has two more nuclear units in the building and planning stages at Hutchinson Island.

But it takes about ten years to bring a nuclear unit from first planning to actual delivery of electricity. The fact that FPL already is so well advanced in nuclear generation shows how far ahead we plan to assure you an adequate supply of electricity to meet your needs.

Since it does take so much longer to bring nuclear generating plants on line, FPL has also made arrangements to assure an adequate supply of the fuel oil and natural gas needed to supply you with electricity from our conventional plants. Thus, provided extreme conditions and disruptions in supply do not interfere, FPL will be able to supply the electric power you need.

But the Need for Fuel Conservation is a National Reality.
Like you, FPL is aware of the need to conserve all fuels because of the serious situation nationwide. We are taking positive steps to conserve fuel as it applies to electric energy in our own operations. In addition, FPL's fleet

of cars and trucks is observing lower speed limits. And we're keeping them in the best possible operating condition. Sensible conservation is important because cutting down on use will make scarce fuels last longer.

We Can Help You Conserve at Home.
We have taken a hard look at energy use. And here are a few ways you can help conserve electricity at home.

Some examples:
1. Turn down the thermostat on your heating system. If you change the setting on your reverse-cycle air conditioner from 75° to 68° you will be both watt-wise and budget-wise.

2. Keep your filter clean. A dirty, clogged filter makes your heating system work harder. And uses more energy.

3. Enjoy the sunshine. Open the curtains on sunny days and let the sun warm your home.

At night, close draperies to hold warmth inside.

4. Insulate your home. Insulation will pay for itself in energy savings, and you save money in winter and summer.

5. Lighting? Yes, you can save by turning off lights you don't need. But lighting uses a lot less electricity than your major appliances and other motor loads. Efficient use of reverse-cycle air conditioning, dishwashers, laundry appliances and ranges saves a great deal more than turning off lights. So does turning off a TV set that no one is watching.

We have a booklet of Watt Watching hints for you. It lists many ways to save watts...and money.

Pick up your free copy at your appliance dealer's. Or at any FPL office.

Once you brush up on the wise use of your cooling and heating systems and your major appliances, you can do your part to use energy wisely and prevent waste.

BROTHERS ACHIEVE EAGLE RANK
Brad and Jeff Walters with parents and Scoutmaster
(Herald Photo by Elda Nichols)

Casselberry Brothers Awarded Eagle Rank

CASSELBERRY — Two brothers received the highest scouting award — the Eagle Rank — in a court of honor held by Scout Troop 341 Monday night, at Community United Methodist Church.

Brad and Jeff Walters, sons of Mr. and Mrs. Hoscoe Walters, were given their awards in a ceremony which also included awards to other Scouts in each rank. An event that has only occurred twice in the long history of the troop, according to Scoutmaster W. T. Daniel.

Also advancing in rank were Vernon Manning, Life; Mike McClaren, Star; Karl Anderson, Dennis Duffy and James Boone, first class; Bill Oliver and LaMar Jackson, second class; Steve Smith, Bill Piland, James Boners, Peter Howlett, Van Letz and Doug Bettelstone, Tenderfoot; and Mike Hiers, who was inducted as a new Scout.

TALLAHASSEE, Fla. (AP) — Floridians with questions about the 1974 legislature will be able to dial a toll-free number 24 hours a day this year for answers, Sen. George Firestone said today.

The number is 1-800-342-1827. It will begin operation March 22 and end June 15, Firestone, D-Miami and Joint Legislative Management Committee chairman, said in a news release.

The 1974 legislature convenes April 2 and is scheduled to adjourn May 31.

The toll-free phone service was inaugurated during the 1972 legislative session and expanded last year, he said.

Alcoholic Center Announces Opening

Werner A. Metz, executive director of Seminole County Mental Health Center, announced the opening of the Alcoholic Receiving Station, a new service offered in Seminole County.

Under the recently enacted Myers Act, public inebriates with no other charges pending may no longer be confined in jail, but must be taken to a facility such as the Alcoholic Receiving Station where they will be attended by qualified personnel during the sobering up period.

After sobering up, and prior to discharge from the Center, individuals will be enjoined to take advantage of the outpatient services, counseling and therapy offered by the Seminole County Mental Health Center.

The receiving station is funded by state funds provided by the Myers Act and matching funds provided by recent action of the Seminole County Board of Commissioners. Future plans call for the opening of a Half-way House adjoining the Receiving Station, thus providing a full-scale treatment program. The Alcoholic Receiving Station is located approximately three miles south of Sanford on Highway 17-92 at 591 Lake Minnie Road.

At the same time, Metz also announced the opening of a satellite office of the Seminole County Mental Health Center at 214 S. Oak St., Sanford.

Grace Is Sufficient

By REV. E. A. REUSCHER
Lutheran Church of the Redeemer

Carl was only 39 years old, and to us that seems too young to die. We may try to accept his comparatively early death with the common saying, "Everybody has to go sometime." Carl wanted to live as much as anyone else, but death comes even to the stoutest of hearts. However, somehow such answers do not satisfy. Our basic question, almost a complaint, is what seven months of repeated setbacks and incessant suffering prove when death comes anyhow. After all our concern and all our prayers, why must we finally submit to this? What is the value of experiencing all this weakness?

I have heard people say that suffering is good for the body or the soul, that it teaches self-control and patience, that it even molds character. Such things may say as a way of getting around the problem of suffering, but how many of us really believe them? Suffering makes some people lazier and resentful; it can drive them to self-pity and even self-destruction. Suffering does not always end in blessing. The problem remains.

In fact, the problem is accentuated the moment we begin to speak of the grace of God. There is a seeming contradiction between the suffering of man and the love of God. But is there? Remember what God says: "My strength is made perfect in your weakness."

Take Carl's case. In one sense, a weaker man you never knew. Week by week his weakness became more evident, until finally he was stripped of everything commonly associated with strength. He was without physical strength, without a livelihood, without entertainment, cut off from the world, without all the things that are part of our fast, furious, suburban living. He was stripped to the bone, literally and figuratively. What was left?

The grace of God remained. All Carl's suffering and weakness illustrated that if a person has the love of God as a living reality in Christ, that is enough. This is certainly not to despise the blessings we enjoy in life. Even Paul did not welcome pain. He prayed that his "thorn in the flesh," whatever it was, would pass. The value of his trials was that in the midst of the worst kind of weakness Paul discovered the sufficiency of God's grace and came to know that in his own weakness the power of Christ was being made perfect.

What is more, when a man lives long with suffering, he often comes to know himself better. He discovers his true values, his false trust. He is brought face to face with his essential weakness. With all his strength drained, he has no defense but Jesus Christ.

Why is the grace of God enough? It is because God accepts us in our weakness. By nature we are set against facing and confessing our weakness. For this reason we resist grace till God exposes our weakness and reveals His strength. Then God's strength can become not our undoing, but our making. His power is made perfect in weakness. These are not idle words. They express the sure Word of the Gospel. Christ accepts us as we are and turns us into His likeness.

Here lies the secret of God's power in our lives. When we were without life or strength of our own, He made us. When we took the life and strength He gave us then we used it for ourselves against Him in the weakness of sin. He rescued us when we were not by our own reason or strength believe in Jesus Christ. He called us by the Gospel. And when we fall victim to the final weakness of death itself, He will be our resurrection and life. We, the living or the dead, have been given the power of Christ, and His grace is enough.

Dough Presents Wesley Hymns

A dramatic presentation of Charles Wesley's hymns will be given this Sunday at 7 p.m. at the First United Methodist Church of Sanford by Rev. Whitney Dough, music director of the popular radio program, "The Methodist Hour." The Methodist Hour is nationally known and appears on over 50 stations each Sunday morning.

He will speak on Charles Wesley's life, sing the gospel hymns and play some of the hymns on the trombone.

A family night covered dish supper will be held Sunday in Fellowship Hall at 6 p.m. Everyone is invited to the fellowship supper. Drink and table service are provided. Following the supper a Slave Auction will be held as Lewis Dellarco auctions members of the United Methodist Youth Fellowship to do work projects.

The UMYF has several activities of service planned as well as mission giving.

FRIENDSHIP BAPTIST

Several area churches are sponsoring a Spiritual Life conference at Friendship Baptist Church, Allamonte Springs, Rev. Jerry White and Cecil McGee are teaming up to conduct meetings at 10 a.m. and 7:30 p.m., Feb. 25-27.

The public is welcome to come and join in seeking a deeper life in Christ.

HOLY CROSS EPISCOPAL

Deaconess Kay Knapp will conduct a Quiet Day at Holy Cross Episcopal Church Feb. 22, beginning at 9:30 a.m. with the Holy Eucharist. Any necessary questions will be answered during the 10 a.m. coffee, otherwise silence will be maintained throughout the day. Dismissal at 2:30 p.m. The program is open to visitors. Bring Bible, note pad, and sandwich.

FREWILL HOLINESS

"Behold He Cometh" will be the theme of a youth revival to

UNIVERSITY UNITED

Rev. James W. Atchison of University United Church (Congregational) of Goldenrod, will conduct Sunday worship services at 10 a.m. at the temporary meeting place, Baldwin-McNamar Chapel. Permanent facilities are planned on FTU Boulevard near Lake Irma Shores.

Sunday school and nursery care are provided at the same time in temporary church buildings at 740 E. Aloma Ave. The church council at its Feb. 5 meeting elected Wayne Washburn, chairman and Orlan Condit, vice-chairman for 1974.

The congregation celebrated Communion Sunday and received several new members.

FIRST ASSEMBLY OF GOD

Ether Itinsky, missionary to Lebanon, will speak Tuesday at 7:30 p.m. at First Assembly of God Church at 27th and Elm Street, Sanford. The Women's Missionary Council invites all women to attend. A fellowship time will follow the meeting.

RECOGNIZED AS ONE OF THE FINEST GROUPS IN THE GOSPEL MUSIC FIELD TODAY, THE WEATHERFORDS, consisting of Earl Weatherford, Lily Fern Weatherford, Haskell Cooley, Ken Williams and Fulton Nash, will appear Tuesday at 7:30 p.m. at Palmetto Avenue Baptist Church, Sanford.

St. Andrews Dedication Scheduled For Sunday

St. Andrews Presbyterian Church located at 9913 Bear Lake Road, will dedicate its new sanctuary on Sunday at 11 a.m. The dedication service will be led by a number of Presbyterian leaders and friends assembled by the men of the congregation, directed by Hal Gettings.

Dr. Howard Chadwick, minister of the First Presbyterian Church of Orlando, will be the guest speaker for this occasion. Other guests include Rev. James Moore, executive secretary of St. Johns Presbytery, Dr. John B. Dickson, Pastor Emeritus of the Tampa First Presbyterian Church, and James Robinson, a trustee of the Synod of Florida and local attorney. Dr. Howard Gress, former executive of the Presbytery will dedicate the furnishings.

Construction, begun last year by E. C. Heinsen Construction Company, was completed recently. Robert L. Webb, AIA was architect of the \$13,000 structure, which houses the sanctuary for the South Seminole congregation. The building also includes two classrooms and two choir rooms. The furnishings were given as memorials and gifts by the church members and friends of the church.

Mahogany pews and furnishings are arranged on a background of green with bronze communion ware. The pulpit along with the communion table is placed in the center of the chancel area to symbolize the central position of the Word and the sacraments. The Schoeber organ was assembled by the men of the congregation, directed by Hal Gettings.

St. Andrews was organized in 1962 and moved into their first building in 1964. It has been served by Rev. Tom Makin and Rev. Fred Guthrie. The Rev. Michael L. Andrew is present minister. The first building is now for the Fellowship Hall and classroom space.

St. Andrews has been increasing in membership quite rapidly over the past two years. For two years in a row it has been one of the leaders in the Presbytery for its per-capita growth and its per-capita giving.

One of the highlights of dedication week will be the hosting of St. Johns Presbytery by St. Andrews congregation on Feb. 23. All Presbyterian Churches in a six county area will be represented at the meeting.

The worship service for the dedication service will be led by Rev. Andrews and the Junior and Senior Chorus of the church will participate. The women of the church will host a reception following the service in the Fellowship building, which has been redecorated by the men of the church.

Wesley Hymns

The Friends of Music Group will be featured in concert on Sunday at 2 p.m. at the Community United Methodist Church in Casselberry on Hwy 17-92.

The sextet consisting of piano, voice, violin, clarinet and flutes will present a program of classical music by several of our great composers. The group began performing together a few years ago for the "Palmetto" Public Library Chamber Music series and have continued to perform in group as well as solo appearances. The majority of the members are performing artists with the Florida Symphony Orchestra, and each has quite an interesting musical background.

Included in the group are Constance Gottschalk, pianist; Peter Harris, principal clarinetist with the Florida Symphony; Saul Cornell, flutist; Patricia Cornell, violinist; Linda Threault, principal flutist with the Florida Symphony; and Charles Threault, vocalist.

Billboard Ministry Signs Of The Times

By JOHN WOLCOTT
Copley News Service

SEATTLE, Wash. — "Jesus is a life savior," shouts a billboard in Everett, Wash., in giant yellow letters on a black background, with a round, well-known candy forming the "O" in savior.

"It's not the Water...or anything else...It's Jesus," proclaims a billboard in a paraphrase of a popular Pacific Northwest beer commercial. "The Bible—everything you always wanted to know about Jesus (But were afraid to ask)," promises a billboard in north Seattle.

"He Lives," a post-Easter billboard trumpets in giant green letters in Portland, Ore. "Let Jesus untie the knots," urges a Norfolk, Va., billboard dominated by a knotted piece of rope.

Billboards like these have been stirring thoughts of Christ in millions of hearts and minds for the last year and billboard readers can expect more of them to pop up.

This unusual billboard ministry, the only one of its kind in America so far as its originators know, has been growing so rapidly since it began in the fall of 1972 that its promoters are overwhelmed with its success.

Once thought to be a temporary effort, the ministry is permanently established. Once believed in by a handful of supporters, it now has thousands of backers. Once limited to the Seattle area, the campaign has crept into Oregon and skipped to the nation's East Coast.

"No matter what message we create for each month's displays, we have one intent: to reach people who have turned away from Christ's message, those who have turned Him out of their lives."

"We want to plant a seed of thought about Jesus in human hearts during that moment a person scans our billboard," explained Roland James Hofer, the Seattle real estate appraiser who started the Maranatha Association Inc. He shares direction of the association with five others.

"All of us are in this business because we believe that being just a few warmer isn't enough for Christians," explained Sorberger.

"The idea came to me about a year ago," said Hofer. "I was raised as a Christian but I was always bothered by the hypocrisy of churches and Christians and I rejected them. Then, last year, I took a new look at my life. I had a happy family, a good job, antique cars, a big home. But then I looked at the pressures of the ulcer factory life I had and wondered what it was all about."

"It was then that I realized God had let me accomplish all these things so I could feel the void left in my life by only having material accomplishments. While I was searching for a new Christian commitment, my wife and I and the Sorbergers were returning through Oregon from an antique car show at Harrah's in Reno, Nev.

"In Eugene, the four of us were leaving a restaurant one evening when we saw a billboard promoting a nudist colony. "I told my wife if the devil could use a vehicle like this for his sinful ways then why couldn't Christians recognize the fantastic potential of secular advertising to reach unbelievers," Hofer said.

When he returned home, he telephoned his attorney, told him he wanted to incorporate a nonprofit firm that would "evangelize Christ's message through secular media."

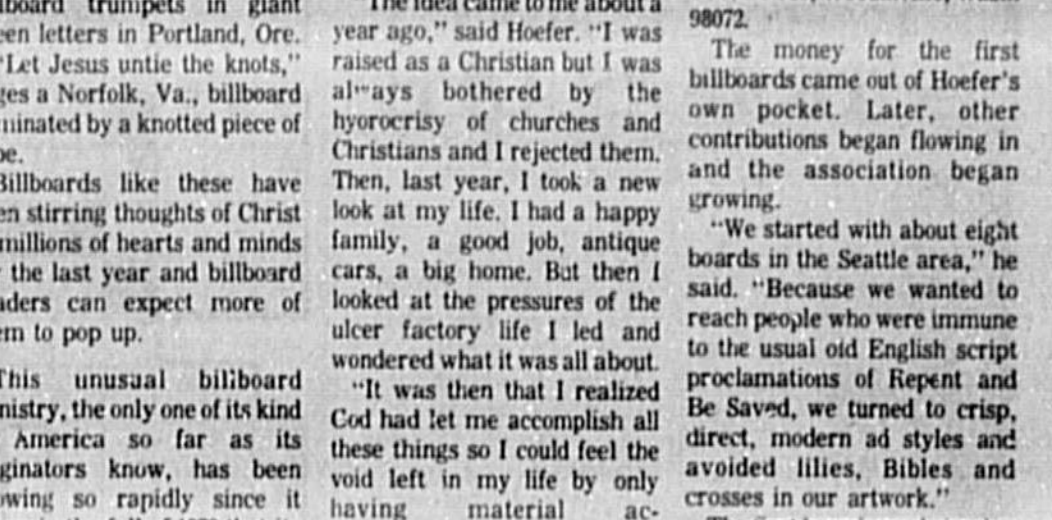

Thus, Maranatha Association—based on a Bible word meaning "our Lord is coming"—was launched. Soon, billboards began appearing with sparkling, catchy messages about Christ and a modest signature at the bottom: Maranatha Association, P.O. Box 18, Woodinville, Wash. 98072.

The money for the first billboards came out of Hofer's own pocket. Later, other contributions began flowing in and the association began growing.

"We started with about eight boards in the Seattle area," he said. "Because we wanted to reach people who were immune to the usual old English script proclamations of Repent and Be Saved, we turned to crisp, direct, modern ad styles and avoided lilies, Bibles and crosses in our artwork."

"The first boards read simply: 'Another Billboard for Jesus,' with billboard marketers figuring that 500,000 people saw the message daily.

Then came others, including one showing a computer card stamped with the words 'Multitasked, Stapled or Bent? Try Jesus.' At Valentine's Day came, 'Roses are red, violets are blue...You may be a sinner...But Jesus Loves You' set in three side-by-side hearts.

St. Andrews Dedication Scheduled For Sunday

St. Andrews Presbyterian Church located at 9913 Bear Lake Road, will dedicate its new sanctuary on Sunday at 11 a.m. The dedication service will be led by a number of Presbyterian leaders and friends assembled by the men of the congregation, directed by Hal Gettings.

Dr. Howard Chadwick, minister of the First Presbyterian Church of Orlando, will be the guest speaker for this occasion. Other guests include Rev. James Moore, executive secretary of St. Johns Presbytery, Dr. John B. Dickson, Pastor Emeritus of the Tampa First Presbyterian Church, and James Robinson, a trustee of the Synod of Florida and local attorney. Dr. Howard Gress, former executive of the Presbytery will dedicate the furnishings.

Construction, begun last year by E. C. Heinsen Construction Company, was completed recently. Robert L. Webb, AIA was architect of the \$13,000 structure, which houses the sanctuary for the South Seminole congregation. The building also includes two classrooms and two choir rooms. The furnishings were given as memorials and gifts by the church members and friends of the church.

Mahogany pews and furnishings are arranged on a background of green with bronze communion ware. The pulpit along with the communion table is placed in the center of the chancel area to symbolize the central position of the Word and the sacraments. The Schoeber organ was assembled by the men of the congregation, directed by Hal Gettings.

St. Andrews was organized in 1962 and moved into their first building in 1964. It has been served by Rev. Tom Makin and Rev. Fred Guthrie. The Rev. Michael L. Andrew is present minister. The first building is now for the Fellowship Hall and classroom space.

St. Andrews has been increasing in membership quite rapidly over the past two years. For two years in a row it has been one of the leaders in the Presbytery for its per-capita growth and its per-capita giving.

One of the highlights of dedication week will be the hosting of St. Johns Presbytery by St. Andrews congregation on Feb. 23. All Presbyterian Churches in a six county area will be represented at the meeting.

The worship service for the dedication service will be led by Rev. Andrews and the Junior and Senior Chorus of the church will participate. The women of the church will host a reception following the service in the Fellowship building, which has been redecorated by the men of the church.

RECOGNIZED AS ONE OF THE FINEST GROUPS IN THE GOSPEL MUSIC FIELD TODAY, THE WEATHERFORDS, consisting of Earl Weatherford, Lily Fern Weatherford, Haskell Cooley, Ken Williams and Fulton Nash, will appear Tuesday at 7:30 p.m. at Palmetto Avenue Baptist Church, Sanford.

Wyrick Portrays Luther

The World of Martin Luther will be presented Sunday at the 8:30 and 11 a.m. services at Community United Methodist Church of Casselberry by Rev. V. Neil Wyrick. It is a one man dramatic presentation realistically portraying the fiery Luther. Sometimes shunning, at times anguishing, it is always the gripping saga of 16th Century Germany.

Wyrick has extensive radio and television experience. Besides authoring and creating "The World of Martin Luther," he has written "The World of Charles Wesley" — which he previously presented at the Wyrick Luther. Sometimes shunning, at times anguishing, it is always the gripping saga of 16th Century Germany.

The Church... OUR NATION!

...THE HOPE OF OUR COMMUNITY,

WIND OF FAITH

Old-timers used to rely on this mill. This mill used to depend on the right wind. Despite man's most valiant efforts the wheel was frequently at a standstill. What then? Waiting, waiting, waiting! What patience they must have learned—only faith sustained them. The wind would blow again.

The patient life also requires a foundation of faith. It can come early or late, slowly or fast.

If you lack the necessary faith to fulfill your life's needs, turn to the Church. The wind will blow again.

Parents Killed in Wreck

Jury Awards Children \$245,000

By MARK WEINTZ
Herald Staff Writer

Sanford Police Chief Ben Butler said today he is pleased about the Friday verdict that indicated one of his officers was not negligent in connection with a June 1973 car crash that killed another Sanford policeman and his wife and resulted in the jury awarding \$245,000 to the children of the dead policeman.

The four-man and two-woman jury reached the verdict in the chambers of 18th Circuit Court Judge Clarence Johnson after nearly two hours of deliberation that followed four days of testimony.

The trial began as a million dollar civil damage suit against the city of Sanford and the estate of Sidney E. Terrell, who police say they chased for several miles before he crashed into a car occupied by officer Hirschel Gilbert, and his wife Yvonne.

The \$245,000 verdict is against the Terrell estate. The city of Sanford was not found at fault.

The suit was filed by the survivors of the Gilberts and alleged the city, through officer Tom Bernosky, was negligent because the chase was not carried out with reasonable care.

Butler and Fred Peed, attorney for the city, both agreed the jury reached the right verdict.

Peed said he doubted if there would be an appeal in the case and also indicated there may be problems in collecting the quarter million dollar awarded from the Terrell estate.

"Terrell had very little. He had only a minimum insurance policy with State Farm and they offered to pay the maximum limit months ago," Peed said.

In closing statements the attorneys for the estate told the jury there was no question that Terrell was negligent.

Eight States Inaugurate Gas Rationing

By JOHN A. SPOLSKI

In case you didn't know it, when you go for your auto renewal license and should you fail to pass same, it will cost you another \$1 the next time you try. That's in addition to the first \$3 you paid, neighbors.

Oregon was the first to go for the odd-even license plate plan for selling gasoline. Since then, seven other states and the nation's capital have instituted the program.

Two other states will adopt it soon. And at least eight other states are waiting in the wings, most of them considering the Oregon plan.

That plan allows motorists with even-numbered plates to buy gasoline on even-numbered days. Odds buy on odd-numbered days.

The federal government has prepared a coupon rationing plan but has not put it into effect. The Federal Energy Project says it would be April before its World War Letop coupon plan could be implemented if it were ordered now.

Motors traveling through states with distribution plans will find that most of the odd-even plans are about the same. Most are voluntary and most exempt the out-of-state traveler. But there are some tricky exceptions that could foul up travel plans of the unaware.

Public records show that the milk producers gave \$150,000 to each of the GOP congressional committees on Oct. 27, 1972. Within days, the Senate committee gave \$120,000 and the GOP House committee gave \$100,000 to the Republican National Finance Committee, headed by Stans.

Former Nixon fundraiser Lee Nunn, contacted Friday by telephone at his home in Kentucky, confirmed that the dairy money was drawn off from the Republican House and Senate campaign committees and into the Nixon campaign.

Nunn said Nixon finance chief Maurice H. Stans arranged for the transfers as a repayment of money the President's campaign had advanced to the two GOP congressional committees.

More Secret Dairy Cash Found

WASHINGTON (AP)—Some \$200,000 in funds from the dairy lobby was secretly passed from congressional campaign committees to the Nixon re-election campaign.

The transfer, around the time of President Nixon's 1972 election victory, brings to \$727,000 the amount of money known to have passed to Nixon's political operatives from the nation's three largest dairy co-operatives.

The White House has denied allegations that the dairy lobby's political donations were linked to Nixon's decision to oppose certain dairy import quotas and to raise milk support in 1971.

The transactions involving the dairy money were reported in another instance, a mother was awarded custody of five children and the mother was ordered to pay only \$40 per month. Where in the world can you expect a mother to raise five children on \$40 per month?

If and when the Equal Right Amendment is passed, it certainly will have a tremendous bearing on divorcees, per se.

Lyman Wrestlers In State Playoffs

By J. RICHARDS

Sports Editor

FOOT LAURELDALE—Three of Lyman High School's four state wrestling championship hopefuls survived the first two rounds of mat eliminations Friday.

Undeclared Seniors Glenn Hill and Bob Brucato still have a chance at the state title, while Sophomore Doug Peters lost his second round match, but is still in contention for third or fourth place, Lyman wrestling coach Bill Scott said Saturday.

Senior Dave Colombo, who had to lose 16 pounds last week to make his weight qualification, lost in the first round.

Lyman has 7 1/2 team points, putting them in a four-way tie for fifth. Miami-McArthur High School leads the tournament with 13 points.

Central Florida lost four schools in the first round of wrestling, leaving only Melbourne and Lyman with a chance for state honors.

District champion Cocoa was eliminated in the first round, as were Merritt Island, Boone and Winter Park. Only Kenosha and Cocoa were left active, aside from Lyman's trio.

Hill had the easiest time, winning 2-1 and 1-4, while Brucato came away with 5-1 and 10-6 wins.

Peters coasted to an easy 16-4 opening round victory, but lost 4-7 in the second round. He is still eligible to continue competing, however.

Fitzsimmons, Saxbe Face Stock Probe

LOS ANGELES (AP)—The circumstances by which U.S. Atty. Gen. William B. Saxbe and Teamsters President Frank Fitzsimmons acquired stock in a gambling machine firm are being investigated by Nevada gaming authorities, the Los Angeles Times says.

The Times said in a story in today's edition that investigators are trying to determine whether Bully Manufacturing, a Nevada gaming machine firm, is a subsidiary of the Chicago mail, gifts or cut-rate sales of its stock to Saxbe and Fitzsimmons.

Eight States Inaugurate Gas Rationing

By JOHN A. SPOLSKI

In case you didn't know it, when you go for your auto renewal license and should you fail to pass same, it will cost you another \$1 the next time you try. That's in addition to the first \$3 you paid, neighbors.

Oregon was the first to go for the odd-even license plate plan for selling gasoline. Since then, seven other states and the nation's capital have instituted the program.

Two other states will adopt it soon. And at least eight other states are waiting in the wings, most of them considering the Oregon plan.

That plan allows motorists with even-numbered plates to buy gasoline on even-numbered days. Odds buy on odd-numbered days.

The federal government has prepared a coupon rationing plan but has not put it into effect. The Federal Energy Project says it would be April before its World War Letop coupon plan could be implemented if it were ordered now.

Motors traveling through states with distribution plans will find that most of the odd-even plans are about the same. Most are voluntary and most exempt the out-of-state traveler. But there are some tricky exceptions that could foul up travel plans of the unaware.

Public records show that the milk producers gave \$150,000 to each of the GOP congressional committees on Oct. 27, 1972. Within days, the Senate committee gave \$120,000 and the GOP House committee gave \$100,000 to the Republican National Finance Committee, headed by Stans.

Former Nixon fundraiser Lee Nunn, contacted Friday by telephone at his home in Kentucky, confirmed that the dairy money was drawn off from the Republican House and Senate campaign committees and into the Nixon campaign.

Nunn said Nixon finance chief Maurice H. Stans arranged for the transfers as a repayment of money the President's campaign had advanced to the two GOP congressional committees.
