66th Year, No. 304—Tuesday, August 13, 1974 Seminole County, Florida 32711—Price 10 Cents

President Facing Mixed Marriage

WASHINGTON (AP) — A man of Congress, President Ford has pledged to make communication, consultation, compromise, cooperation his watchwords in dealing with his former colleagues. It will take all of that to extend the congressional honeymoon into the good marriage Ford proposed.

Floor Harvest; High Prices

By LOUISE COOK Associated Press Writer Americans can expect their supermarket prices next year because of smaller-than-expected farm harvests this fall. That was the message that economists and food industry sources got from the Agriculture Department's report on Monday that the nation's corn harvest would be lower than at any time since 1970.

Brown To Face 'Ballots' Trial

By DONNA ESTES Herald Staff Writer absentee ballots cast in the election. The appellate court in West Palm Beach overturned Seminole County Judge Antonio Hoseman's dismissal of the charges contained in a grand jury indictment against assistant State Atty. Bill Staley said.

Fluoridation In Casselberry Could Be Put Up For Vote

By JEAN PATTESSON Herald Staff Writer The company, which began in Orlando in 1964 with a \$100,000 contract to fluoridate 50 employees, expanded its point where Scott considered moving out of the state, Scott said. The 1973 plans to employ up to 3,000 people would make Scott Electronics easily the county's largest private employer.

Artis' concept of new plant to be constructed in Lake Mary by Scott Electronics Corporation and eventually employ 2,500 persons

Scott Creating 6,000 Jobs

The company, which began in Orlando in 1964 with a \$100,000 contract to fluoridate 50 employees, expanded its point where Scott considered moving out of the state, Scott said. The 1973 plans to employ up to 3,000 people would make Scott Electronics easily the county's largest private employer.

NATION IN BRIEF

Mayors To Meet Ford

SAN FRANCISCO (AP)—A delegation of mayors going to the White House for the first time in three years will discuss critical urban problems with President Ford, Mayor Joseph L. Alioto says. The 15 mayors will meet with Ford for one hour on Wednesday. They will be led by Mayor Joseph L. Alioto, president of the U.S. Conference of Mayors, and Mayor Tom Bradley of Los Angeles, president of the National League of Cities. Alioto told newsmen on Monday that presidential adviser William M. Scranton, former Pennsylvania governor, told him "the President expects a full discussion; he wants to listen."

Nixon Apologizes To Klein

BALTIMORE, Md. (AP)—Former White House aide Herbert G. Klein has received a telephone apology from former President Richard M. Nixon for derogatory comments Nixon made about him, the Baltimore Sun says. Klein, former White House director of communications, said Nixon called him from San Clemente, Calif., to offer the apology, the Sun said. Nixon's derogatory remarks about the competency of his former aide were revealed in White House tape recordings made public Aug. 5.

Local Wants Postal Strike

MIAMI BEACH, Fla. (AP)—New York members of the Postal Workers Union are backing their national leaders with a proposal that would clear the way for a nationwide postal workers' strike. Delegates from the union's 28,000-member New York Metro local say they are promoting a no-contract, no-work proposal that would allow a complete shutdown of the mails if contract talks are not successful by July 20. Though union president Francis Filby would not comment on the proposal Monday, other officials said the national leaders strongly oppose the New York proposal. "New York may be the biggest local," a Filby aide said Monday night, "but most of our members come from small cities and towns. They don't always go with New York."

Watergate Poll Results

NEW YORK (AP)—Before Richard M. Nixon revealed he had withheld some Watergate evidence, 74 per cent of the respondents in a Harris poll believed he knew of the Watergate cover-up while it was going on. Only 16 per cent of a cross section of 1,552 adults surveyed between July 23 and Aug. 2 thought he didn't, according to the poll. The same question in May 1973 showed only 50 per cent of respondents were convinced Nixon's knowledge of the cover-up, while 34 per cent said they didn't believe he knew of it, the Harris organization said Monday. The current survey found that in different groupings, the respondents agreed by majorities ranging from 60 to 88 per cent that Nixon was guilty of obstruction of justice in the Watergate case. Those who differed ranged from 19 to 22 per cent of the pollster said. The poll was completed three days before Nixon made public a taped conversation in which he ordered a halt to a 1972 FBI inquiry into Watergate.

George Burns' Condition OK

LOS ANGELES (AP)—Comedian George Burns will be moved from the intensive care unit at Cedars of Lebanon Hospital today after undergoing open heart surgery, a hospital spokesman said. Doctors said Monday that Burns, 78, was in stable and satisfactory condition, but the exact nature of the problem was not disclosed. The surgery was performed Friday.

New Economic Adviser

WASHINGTON (AP)—Alan Greenspan is a step closer to heading the President's Council of Economic Advisors. Former President Nixon's nomination of Greenspan, president of a New York economic consulting firm, was approved Monday by the Senate Banking Committee. President Ford has said he will stick by the nomination, which now goes to the full Senate.

Dazzling Niagara Precedent

NIAGARA FALLS, N.Y. (AP)—French journalist Philippe Petit, who wants to walk a high wire across the Niagara River gorge, has officials worried about the precedent he may set in doing it. Petit, who dazzled New Yorkers with a walk between the 1,300-foot high twin towers of the World Trade Center last week, met Monday with U.S. and Canadian officials about the proposal. Keith Hopkins, regional administrator of the Niagara Frontier State Park and Recreation Commission, said afterwards he was worried a high wire walk by Petit might encourage others to try the same thing. "We don't need this kind of thing right now."

\$1.7 Billion For Health

WASHINGTON (AP)—The House has authorized \$1.7 billion for health programs that have been extended for the next two years. The measure, sent to the Senate on a 369 to 12 vote Monday, would continue a program of block grants allowing local authorities to spend funds largely at their own discretion for public health needs. At the same time, it would require states to provide more information on how the funds will be spent, and would put the burden of reviewing the plans on the Health, Education and Welfare Department. Figures contained in the bill are maximum amounts that can be spent. Exact amounts will be set in appropriation bills later.

Ford Plans Inflation Battle

WASHINGTON (AP)—President Ford is moving swiftly to plan an economic summit conference to battle the inflation he labeled "Domestic Enemy No. 1." And he is pressing Congress to act within 10 days to revive the government's tools to monitor wages and prices. Congressional Democrats joined Republicans in applauding the tone of Ford's presidential keynote speech Monday night. But some said they will have to be convinced the new President can find the correct cure for the nation's soaring prices. Ford spoke to a packed House chamber and millions across the country, calling on Congress to join in getting this country reved up and moving" and pledging to seek a balanced federal budget in the fiscal year starting next July 1. He never referred directly to the Watergate scandal that drove Richard M. Nixon from the presidency last week but pledged, "There will be no illegal tapings, eavesdropping, buggings or break-ins by my administration." And Ford mentioned his predecessor's name only once, declaring he has supported and will continue "the outstanding foreign policy of President Nixon."

President Ford hirted during speech he will seek Presidency in 1976

And he said the nation's voters should support the candidates this November "who consistently vote for tough defense, restraint federal spending and bring inflation under control." Waves of cheers and applause thundered across the cavernous chamber as Ford was escorted in. And members of both parties cheered when the 25-year-old congressional veteran declared his motto towards Congress: "Communication, conciliation, compromise and cooperation."

But the applause was noticeably louder from Ford's fellow Republicans, then from the majority Democrats, when the president pledged to fight for a balanced budget while maintaining a strong defense. "It's going to be quite a trick to balance the budget by fiscal 1976, and not cut the Pentagon budget," said Sen. Phillip A. Hart, D-Mich. "The said the things the country wanted to hear. His big task now is to find the solutions," said Sen. Henry M. Jackson, D-Wash. Sen. Barry Goldwater, R-Ariz., said "it was exactly what the country needs. I agree with what he said on the economy and the defense budget."

In urging an economic summit conference, he said he was composed of congressmen, senators, businessmen, labor leaders and executive branch officials, Ford acknowledged he was adopting a plan first pushed by Senate Democratic Leader Mike Mansfield and later pushed by five freshman senators. "Neither I nor my staff have much time just now for letter writing," he said, "so I will respond in person. I accept your suggestion and I will personally preside."

The President declared he plans to hold the meeting "at an early date and in full view of the American public. They are as anxious to get the right answers as we are." Aides said later the target date is within two weeks and national television coverage. Ford, an aide said, "is really pushing this... he wants it to be not just a show thing, but just a collection of people listening to speeches."

In urging reactivation of the Cost of Living Council, without economic controls, Ford picked up a proposal made last April by some Democratic senators and last month by Nixon. He said it "will let us monitor wages and prices to expose abuses." Earlier in the day, Ford criticized General Motors Corp. for a 5 per cent increase it announced on its 1975 model cars and trucks. He said in a statement, "It is essential, at this time particularly, that all segments of the economy, industry and labor exercise restraint in their wage and price actions."

House Speaker Carl Albert promptly supported the plan. However, Rep. Wright Patman, D-Tex., chairman of the House Banking Committee, declared "It would just be a fake. You've got to have power behind it." On health insurance, Ford said he has urged efforts by those in the administration and in Congress to agree on a compromise measure. "I very definitely think we'll get it this year," said Rep. John J. Rhodes, R-Ariz. But time is running short.

Protection Force has some materials already and has requested others for use as evidence in various investigations. But officials said those eventually will be returned to Nixon when they are no longer needed by the courts. Ralph G. Newman, the Chicago appraiser hired by Nixon to evaluate vice presidential papers given to the National Archives, estimated in 1969 that the Nixon collection at that time were 1,250 papers, 750 tapes and 100 films. The papers, consisting primarily of letters to Nixon from American and foreign dignitaries, were removed from the government and retained for Nixon. Newman said they were worth \$250 each. The vice presidential tapes, which have an estimated average length of 15 minutes and could contain nothing as important as the secretly recorded White House tapes, were appraised at \$25 each. The films were listed at \$250 each. If Newman's estimate is an indication of what some libraries and many private collectors would be willing to pay for the Nixon collection, the ex-president is potentially very wealthy.

House during the Nixon years—except treaties, legislation and similar documents of state—are considered the personal property of the ex-president. The spokesman said that the famous White House tapes are considered to be among the papers, but no decision has been made on where the tons of documents will be sent. The Special Watergate

Protection Force has some materials already and has requested others for use as evidence in various investigations. But officials said those eventually will be returned to Nixon when they are no longer needed by the courts. Ralph G. Newman, the Chicago appraiser hired by Nixon to evaluate vice presidential papers given to the National Archives, estimated in 1969 that the Nixon collection at that time were 1,250 papers, 750 tapes and 100 films. The papers, consisting primarily of letters to Nixon from American and foreign dignitaries, were removed from the government and retained for Nixon. Newman said they were worth \$250 each. The vice presidential tapes, which have an estimated average length of 15 minutes and could contain nothing as important as the secretly recorded White House tapes, were appraised at \$25 each. The films were listed at \$250 each. If Newman's estimate is an indication of what some libraries and many private collectors would be willing to pay for the Nixon collection, the ex-president is potentially very wealthy.

Tapes, Documents Make Nixon Wealthy

WASHINGTON (AP)—Richard M. Nixon is still worth millions, although his financial papers don't show it. Nixon's disclosure of his net worth late last year did not mention what is almost certainly his single greatest asset: The tapes, papers and memorabilia accumulated during his many years in public life. A professional estimate made five years ago placed the value of documents and memorabilia Nixon collected before he became president at nearly \$1.5 million. The value of that collection which Nixon still owns presumably increased when he attained a unique place in history by being the first president of the United States to resign.

Congressmen Cheer 'Old Pal'

WASHINGTON (AP)—The applause was for the President of the United States. The cheers were for Old Friend Jerry. Presidents have waved to congressmen in recognition before. For President Gerald R. Ford, congressmen waved back. Congressmen and senators have become presidents before. But not this way. Not by appointment to the vice presidency and resignation of a president. Clearly he was among friends in his first speech to a joint session of Congress, his presidential oath of office not yet four days old. Political adversaries, yes. Enemies, no. "Part of my heart will always be here on Capitol Hill," said President Ford, and no one doubted it. Twenty-five years in Congress is a long time and, as Ford said at his inauguration, old habits are hard to change. There was a special bill, an emphasis on the word before: "Mr. Speaker, the President of the United States."

And there was a smiling snap to Speaker Carl Albert's introduction: "Distinct privilege, high personal honor... indeed a very personal pleasure." "I have no need to learn how Congress speaks for the people," Ford said. "As President, I intend to listen."

Georgia 'Memorial' Closing Proposed By UMW

WASHINGTON (AP)—The United Mine Workers union has called a work stoppage expected to close about 1,200 soft-coal mines next week and lower the nation's stockpiles of coal. UMW President Arnold Miller said Monday the shutdown will "commemorate the thousands of coal miners killed while working in the nation's mines, all the miners whose lives have been ravaged by black lung disease, and coal mining fatalities who are victims of company violence designed to prevent them from winning protection of a United Mine Workers contract."

The shutdown, scheduled to start Monday and extend through the work week, will coincide with the planned opening of negotiations on a new national UMW contract. The present contract expires Nov. 12. The memorial period was called under a section of the UMW's contract with coal operators that allows memorial pe-

POLICE BLOTTER

Sanford
Bicycle valued at \$30 reported stolen Monday from home of Harriet Deas, 1802 Madera St. Deas said bicycle was probably stolen two weeks ago.

Wallet containing credit cards and driver's licence stolen Monday from Chris Ray, 1001 Esplanada Way, Caselleberry. Ray was in front of Seminole Courthouse when incident occurred.

Automobile belonging to George Borque, Green Meadows Apartments, valued at \$2,000 stolen from parking lot Monday.

Freer valued at \$30 stolen Monday from side of SR 46 and fish camp after it fell from a truck. Reported by Leonard Christian, 745 Baywood Circle, Sanford.

Tent camper worth \$1,000 stolen from back lot of Vaughn Motors, 186 N. SR 600, Longwood, Monday. Reported by James McKee, 100 Melton Dr., Caselleberry.

Approximately \$70 cash stolen Monday from home of John C. Fox, 1920 Magnolia Ave., Sanford. Incident Monday between cars driven by John R. Alexander 107 Lake Drive, Sanford and Eva S. Chandler, 713 Chandler Rd., Sanford. Chandler's car sustained \$400 damages. Chandler was charged with careless driving.

Four guns valued at \$300 stolen Monday from home of James M. Murray 20 E. 19th St. Auto belonging to Arthur L. Overstreet, 24 William Clark Court, valued at \$200 stolen Monday from 3rd Street and Popular Avenue. Recovered later at 2nd Street and Magnolia Avenue with \$250 damages to hood.

Vandals Monday night broke into two rooms at the Lake Mary Elementary School, sprayed paint inside and out, and escaped. Police said the amount of damages is incomplete.

Mrs. L.C. Berry of Delaware told police she left an envelope in the phone booth at the Majik Mart on Crystal Lake Drive that contained \$500 in cash and her driver's license. She has offered a reward for the return of the envelope.

County
Benjamin Jenkins, 26 arrested Monday and charged with driving without a valid driver's licence. Posted \$50 bond.

John M. Partain, 24, 2307 Magnolia Ave., Sanford arrested Monday for reckless driving and driving under the influence of alcohol. \$150 bond.

Sanford city commissioners authorized Police Chief Ben Butler to buy three new Harley-Davidson motorcycles for \$10,269 in the fiscal year beginning Oct. 1 but also requested information be gathered on imported cycles to see if they would be cheaper.

Mayor Lee Moore who last week (while Butler was on vacation) pushed for a move to Honda cycles conceded after Butler said motorcycle officers say they won't ride the imports. "Apparently Ben feels strongly about this," Moore said. "He (Butler) says he's willing to buy one Honda but I'll agree to keep it only one year."

Sanford Police Keep U.S. Cycles

Sanford city commissioners agreed the motorcycle patrol should have the same brand cycles. In work sessions on the new \$3.5 million city operating budget last week the commissioners left in the \$10,269 earmarked for the domestic motorcycles.

Commissioners voted to reduce the engine size in eight new police patrol cars from the 400-cubic-inch range. City Manager Warren Knowles and Butler will select exact engine sizes and police package equipment when the patrol cars are advertised for bids.

Knowles had reported the city can initially save \$3,000 by going to the smaller engine cars and another \$2,800 a year to repair parts alone.

However, today Butler said because "even with smaller engines the same repairs will be necessary because the cars are used for 14 hours a day on patrol."

City commissioners took under advisement a request from James G. Lee, of 113 W. 15th St., that the city's public library at First Street and Palmetto Avenue be opened at night and on Saturdays.

The library is now open 9 a.m. to 5 p.m. Monday through Friday. Next year's budget shows only a \$1,000 increase in funding to \$38,056 and provides for three regular employees and one student helper.

Lee noted that 40 years ago when the city's population was only 5,000 the library was open nights and Saturdays. He said the present hours severely limit library use by citizens.

A survey by Lee and his daughter shows of 10 central Florida cities with libraries only the Sanford and St. Cloud libraries are closed evenings and only Sanford's library is closed on Saturdays.

In other actions commissioners: — Instructed City Atty. Vernon Mize to draw up a "board" resolution seeking relief from double taxation by city property owners under a new state law effective Jan. 1.

Earlier commissioners discussed seeking relief from taxes levied on city residents to fund the sheriff's department. But Knowles has mentioned that the county for road and bridge planning, and a new intergovernmental coordination department that he says are "all county-oriented departments which do not benefit the cities."

Authorized Knowles to work out an agreement with local septic tank service firms for dumping sewage at the city's treatment plant. When the city improved the plant from primary to secondary treatment last year the service was stopped.

Approved first reading of an ordinance raising city residential garbage collection fees from \$1.10 to \$1.95 a month. The increased fees will provide \$73,352 to keep the refuse division from operating at a deficit in the next fiscal year.

Rejected a request for restricted commercial zoning on four recently annexed lots west of Sanford Ave. between Hibiscus and Poinsettia Drives and zoned the property single-family residential.

City Halts Dog Club Annexation Legal Ruling On 'Ditch'

Sanford city commissioners have tabled for a week any action on Sunland Estates' complaints that a drainage "ditch" in the mobile home park is a safety hazard.

City Pollution Control Officer Langley Adair today called the drainage route a "ditch" and said, "I would reject plans for a 'swale' (Shallow depression with side slopes like that, but maybe the city doesn't agree."

Adair said the department of pollution control has no jurisdiction unless it can show the ditch will degrade surface bodies of water or subsurface waters. He said he is checking to see if plans submitted to the agency show the ditch.

After hearing Tim Trot, 742 Baywood Circle, speak for eight Sunland residents Monday city commissioners instructed City Engineer Mack LaZebny to submit cross-section drawings of the drainage work for next Monday's 4 p.m. commission session and asked a representative of Dreyfus Interstate Development Corp to be present.

Sunland Estates is in the county but the Dreyfus project that abuts their property is in the city. Residents' complaints center around the Dreyfus grading of the firms' property so that "ditch," which is labeled a swale, has seven foot side near their houses and an 18-inch side nearest the mobile park.

"I think it's a hazard," Commissioner Gordon Meyer said, "and I don't think the city should condone it in new construction."

One of the highways annexed under the unconstitutional state law was SR-94 west—was taken away from the city by U.S.

The green belt and parkland, along with the entire Shadow Hill subdivision of the E.E. Williamson Road is zoned residential. Longwood's zoning ordinance does not provide any zoning district wherein the keeping of livestock is permitted.

He asked for a long-term lease, mentioning 99 years as a good term. Last year, council turned down an identical request from Grissom, when the legality of leasing dedicated parkland for grazing purposes was questioned.

In other action, council placed the city in a legal stance by adopting updated building codes. Previously it had been noted that the city was enforcing new codes while ignoring the only valid codes adopted in 1959.

The 1973 Southern Standard Building Code with 1974 revisions and the 1971 plumbing code with 1971 revisions were adopted.

In other action, council: — Turned down a request for maintenance on the Longwood

entrance road, pending that the city does not own the road and it is not built under city supervision.

Agreed to retain the services of Sanford City Manager W.E. Knowles after budget figures are totaled.

Advised that the creation of a public works director slot, creation of a citizens advisory committee and creation of a special attorney position by resolution was illegal.

Council Monday night on a vote of 3-2 with Helms and Commissioner B.H. Ferrell in the minority—adopted ordinances creating the two jobs and the committee.

Griffin Campaign Gets Buck Boost

Evening Herald

JACK ANDERSON

Ford Is Simple, Direct, Honest Man

WASHINGTON — Behind the broad shoulders, square jaw and ruggedly handsome features, what is President Gerald Ford really like?

Nor have his friends ever heard him, even in his most relaxed moments, let an ethnic slur slip by. He has often vetoed the economic interests of the blacks. At first he opposed but later supported civil rights legislation. When the black congressional caucus opposed his confirmation as vice president, Ford was hurt.

to pack the crates when he moved from his congressional office to the vice presidential quarters. The visitor, not recognizing the muscular Ford, mistook him to be the chief of the moving crew.

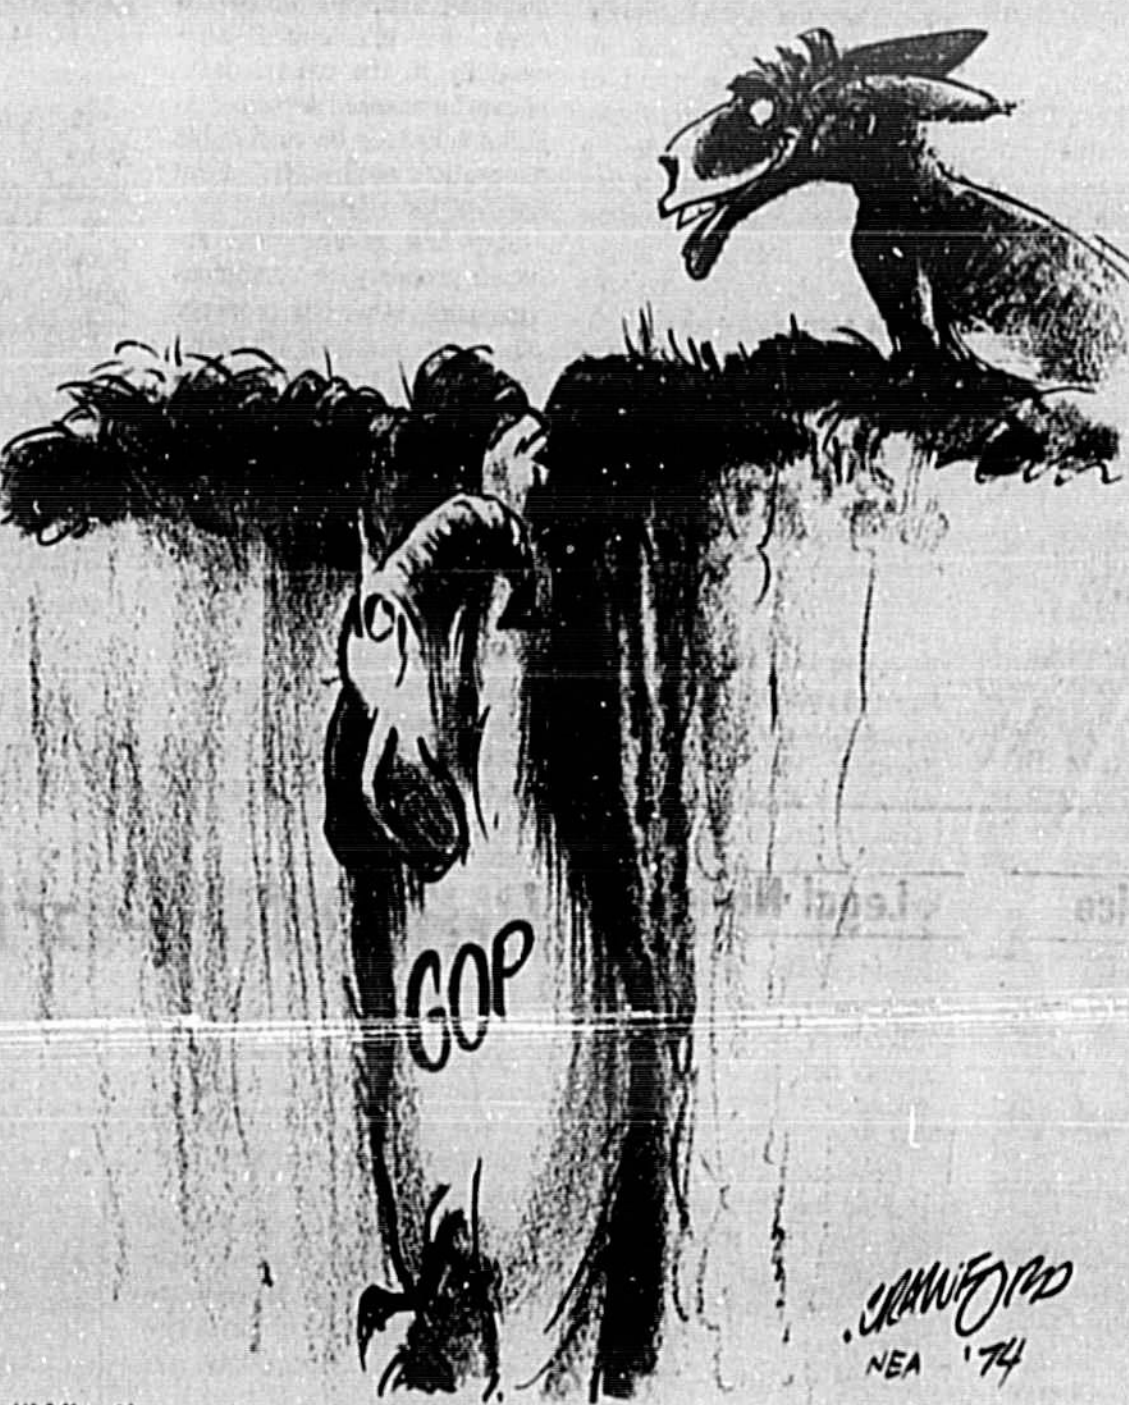

the handicapped. The compassionate Ford shifted his attention to the women's conversation.

System Stronger Than It Looks

We are constantly fascinated by the ease with which government functions in the United States. Our last three Presidents have departed office under circumstances that would likely have led to anarchy or a military takeover in virtually any other country in the world.

RAY CROMLEY Politicians Gain At Loss To Citizens

WASHINGTON — (NEA) — Billions in public money and favors are channeled to individuals, groups and firms for political purposes. The loss to the taxpayer may be as great as the loss through theft by organized crime.

DON OAKLEY A Matter of Life And Fast Speed

There are few simple choices in this complex technological world. Often the question of what will bring the greatest good to the greatest number comes down to trying to decide what will cause the least harm to the least number.

Money Troubles

The federal government is the biggest of the big-time debtors and the only existing entity with money to burn. Burning money is not only a privilege it's a legal obligation, and that is raising a stink in San Francisco.

Letter To The Editor

Editor Evening Herald Sanford, Fla. Dear Sir: Last week at the check out counter of a nearby grocery store my attention was drawn to an argument at the adjoining cash register between the cashier and a patron. The issue was that the store would not take food stamps for the deposit on the soft drink bottles the woman was buying.

TALLAHASSEE, Fla. (AP) — Ben Hill Griffin's campaign for the Democratic nomination for governor received the largest financial boost of any campaign in Florida last week. Griffin's contributions came from himself, his companies and business associates.

Super salesman Glenn Turner of Orlando, who is also seeking the Democratic Senate nomination, reported \$4,750.58 in contributions and \$8,573.28 in expenses.

Griffin reported total contributions of \$1,188,922.89. He reported total expenses of \$58,735.55 since the last report was made a week ago.

Griffin reported spending a total of \$2,004.04, while Askew and running mate Sen. Jim Williams, D-Ocala, reported spending a total of \$90,565.52 for the campaign.

Monday was the deadline for filing the weekly give-away, 100-1001 campaign spending reports with the secretary of state's office, but those reports were expected to arrive in the mail today.

MIAMI (AP) A 21-month-old girl was under state care today after her mother said she sometimes allowed the child to smoke marijuana as a "folk remedy."

Mary Katherine Russo was jailed under \$100,000 bond Monday on charges of possession of cocaine and conspiring to distribute cocaine.

School 'Repairs' Continuing

By MARK WEINZITZ
Herald Staff Writer

Be of good cheer, mothers. Those lovely little tots who have been driving you nuts all summer will soon be back in school. No more fights. No more slamming doors. Bring back the soap operas!

Even now Seminole County stores are besieged by buyers hustling to make the back to school scene.

But for the moment the classrooms now house only work crews. After all, the classrooms also must be spruced up for the new term. Actually, the activity in the rooms began when the students

adjourned to the homefront for the summer.

The work in the classrooms is now building to a crescendo, according to Herbert Musc, supervisor of maintenance, who says his crews are "hitting as hard as they can."

"We always have more work to do than we can complete," he says, adding that the crews will soon be putting in extra hours to try and get the necessary refurbishing done.

There are rooms as well as whole schools to paint, some classes have had walls removed and some have had walls added, air-conditioning has been installed and repaired, and fire

alarmers have been added to five schools, Musc explains.

Most of the work is being done by county school maintenance crews. There are 43 men who are doing the bulk of the work, although some work like the air-conditioning is subcontracted, he says.

"It's hard to estimate how much money is being spent on the refurbishing because we are still in the middle of the project," he explains, "but I would guess we will spend more than \$20,000 before we are done. In one day 14 windows were broken out of one school and doors and windows were

knocked out of two other schools, he says. But we do face similar problems even when school is in session, he adds.

Seminole School Supt. William P. Laver says lighting is also being upgraded and block walls are being patched to prevent leaks.

The work varies from school to school but we do have to paint all of the restrooms every year, Laver said.

Some schools, when the new academic year begins, will have kitchens that weren't there last year, Musc says. Other schools that had kitchens will not have them, he adds. The

reason is the school board, working to provide systematic food service, has juggled the food preparation centers.

"Of course there is more work to be done at the older schools," Musc explains while his men are busy painting, cleaning, repairing.

The crews of electricians, painters, carpenters and plumbers have not had time to worry about ways to spend their summer hours. They have moved from school to school and when the new school year begins their work will not be over. Maintenance is a year-around job, according to Musc.

Smooth Ford 'Honeymoon' Hinges On Inflation Action

WASHINGTON (AP) — Congress has made clear it welcomes a honeymoon with President Ford. But many members say that even though they like his style, the marriage may be rocky unless progress is made in fighting inflation.

(Related story page 2A)

Ford's two new economic initiatives—recreating the Cost of Living Council and calling an economic summit meeting—received widespread approval after the new President's address Monday night to a joint session of Congress.

House and Senate members, however, had nothing but praise for Ford's candor, his promise to put an end to covert wiretapping and surveillance and his pledge of "communication and compromise" with the Congress.

Sen. Edward M. Kennedy, D-Mass., said Ford's accession to the presidency and the tone of his speech marks the end of Watergate as a political issue on which Democrats can successfully draw.

The fact that it was Ford standing at the podium of the House of Representatives instead of the just resigned President Nixon appeared to please most of his former colleagues.

"He was the Jerry Ford we all know, a warm human being despite the aura of his high office," said House Democratic Leader Thomas P. O'Neill Jr., of Massachusetts.

"There's a great sense in this hall tonight of wishing him well and cooperating," Kennedy said.

"It looks as though we're moving from an era of confrontation to one of cooperation," said Sen. Lloyd Bentsen, D-Tex.

"It was a bellringer," said Sen. Republican Leader Hugh Scott who earlier said his job had not been fun for two years and that he hoped it soon would be again.

But many Democrats and some Republicans said that when Ford refines his stands, he will get the opposition he expects on many issues.

Many agreed that inflation is the nation's No. 1 enemy but said they did not believe the new President can balance the budget in fiscal 1976 without cutting deeply into Pentagon spending.

Sen. Walter F. Mondale, D-Minn., termed Ford's economic ideas "disturbing" and "half-formed."

Two Harvard University economists reacted cautiously and somewhat skeptically.

John Kenneth Galbraith, an economic adviser to former President John F. Kennedy, said Ford appeared to be relying on the same policies and advisers used by former President Richard M. Nixon.

James S. Dusenberry, chairman of the Harvard economics department, said he was skeptical of Ford's pledge to balance the federal budget within two years.

Sen. Jacob Javits, R-N.Y., said: "I don't believe that he can expect the defense budget to be sacrosanct. It's not reasonable to talk about a balanced budget in 1976 without cutting military spending. It can't be done."

The Senate's youngest Democrat, Joseph Biden of Delaware, said:

"The important thing is his downplaying of the imperial side of the office. There will be a lot of fights in the Ford administration. But they'll be good, honest, clean fights. No one will try to intimidate you or watch your office or bug your phone."

"That's what I find so refreshing," Biden said. "He's got a gut instinct for what the country needs most."

Safety Staff Recommends Vinyl Chloride Spray Ban

WASHINGTON (AP) — The staff of the U.S. Consumer Product Safety Commission has recommended banning all aerosol sprays under the agency's jurisdiction that contain vinyl chloride.

In an internal briefing paper due to be distributed today to the five commissioners, the staff noted that vinyl chloride "has been rather conclusively established as the cause of rare liver cancer in 24 industrial workers."

The staff also recommended full refunds to get the chemical out of American homes.

Workers with vinyl chloride run a 10,000-times greater risk of contracting the disease angiosarcoma, a form of cancer, than the general population, federal scientists reported.

"No safe level of exposure to vinyl chloride has been established," the staff said. "On the other hand, there is no specific evidence that the concentrations and frequencies of exposure to vinyl chloride from aerosolized consumer products is causally related to development of angiosarcoma of the liver in humans."

The commission on May 23 proposed designating vinyl chloride-containing sprays under its jurisdiction as banned hazardous substances.

Two spray paint companies and a trade association suggested that refunds be limited to products marketed after the effective date of the proposed ban.

However, the staff suggested that refunds be unrestricted to "facilitate the removal of products" containing the chemical as part of their proppellant.

Tests with laboratory animals have produced liver cancer in mice, rats and hamsters at all levels tested down to 50 parts per million, medical personnel reported.

A typical household aerosol sprayed in a small bathroom for 30 seconds could produce concentrations of 250 parts per million, they said.

The commission has jurisdiction over paints, degreasers, lubricants and adhesives containing vinyl chloride in aerosolized form.

Cigarette Sales Up 4 Per Cent

WASHINGTON (AP) — The Federal Trade Commission reported today that 1973 cigarette sales increased 4 per cent over the previous year, the largest jump in 10 years. More significantly, it said, the sale of low-tar cigarettes jumped 40 per cent in the same period.

The FTC said the overall increase, the fifth in a row since 1968, was the largest since the surgeon general's warning on smoking hazards 10 years ago.

In the commission's statistical supplement to its annual report to Congress, it said cigarette sales for 1973 totaled \$584.7 billion.

The biggest previous jump was in 1965, when sales rebounded by 3.2 per cent after nosediving in response to the Surgeon General's report in 1964.

The increase came despite the government effort to discourage smoking with the surgeon general's report, the warning label on cigarette packages, reproduction of the warning and tar and nicotine content in every cigarette advertisement and, in 1971, an outright ban on broadcast ads for cigarettes.

GAS LINE BY-PASS

Florida Gas Transmission Co. chief inspector, Jim Bell of Lakeland, checks welded 4-inch pipe along West SR 46 as Gilbo Dennis of Rockledge operates Ditch Witch. The 1100 ft. pipeline will be used as a by-pass for the next three weeks while old 18-inch gas pipeline along old W. SR 46 is tested with water for leaks.

W.Springs Council Backed On Millage

By JANE CASSELLBERRY
Herald Staff Writer

WINTER SPRINGS — A public hearing on the city's tax increase deteriorated into a name calling exchange between Councilmen John Booth and Irene Van Eepool Monday night.

Mrs. Van Eepool objected to being called a "nut" by Booth and demanded an apology.

Booth later apologized to the audience saying Mrs. Van Eepool had called him "paranoid."

Most of the residents speaking out at the hearing favored a real estate tax. John Smith of 218 Alderwood St. North described the tax as "a wise move."

Leroy Couch of 308 Moss Road questioned whether the 3.5 mill levy would be sufficient to provide adequate fire and police protection.

Several members of the audience asked why the utility tax could not be reduced or eliminated. Council recently passed an ordinance calling for a 3.5 property tax coupled with a six per cent utility tax.

The first of two public hearings on the city budget will be held Sept. 8.

Because of the delay in getting the city's loan from Southeast National Bank of Maitland validated it was necessary for council to instruct the mayor to withdraw \$16,520 from the building fund to pay bills on the new fire station-city hall complex new under construction.

Piland said the contractor expects to complete the building by November.

Council was asked for a clearer interpretation of last week's ruling that banned construction burning in this city. It was the consensus that this did not include land clearing in isolated areas if it meets city Division of Forestry and Pollution Control Board regulations.

Fire Chief Charles Holman was instructed to draw up specific recommendations to aid council in defining details of the burning regulation.

Flooding was reported again on Butternut, Alderwood, and Bitterwood streets in the Terraces and Hayes Road which is again under water for 75 feet.

Your Mental Attitude Can Increase Strength

DEAR ABBY Note-Happy Gal Has Hubby Bugs

By ABIGAIL VAN BUREN

DEAR ABBY: My wife is a wonderful woman and I appreciate her many good qualities, but she has one fault that drives me to distraction. When she wants to remind me of something, she doesn't TELL me, she writes me a note!

It's not as if we weren't together half the time. When I get up in the morning, I find a note in my pocket: "Don't forget to gas up your car, and please pay the electric bill."

At breakfast, she had a note stuck under the toaster: "Get a haircut today, please."

Yesterday, she taped a note to my bathroom mirror: "Are you going to do something about your mother's birthday, which is next Sunday? Or should I?"

How can I get the message across to this note-happy woman that she has a voice to talk with, and I have ears to hear with, and I wish she would communicate with me verbally. Thanks.

BUGGED IN EUGENE

DEAR BUGGED: Use your voice to get the message to her ears. (On second thought, since she's so note-happy, write her a note.)

DEAR ABBY: What do you do with a husband who wants to have his cake and eat it, too?

HIS WIFE

DEAR WIFE: If you're smart, you'll bake him TWO cakes. One to eat, and one to have.

DEAR ABBY: Regarding Animal Lovers: When our four children asked for a dog, we explained that many children in the world go to sleep hungry every night. It was decided that for the cost of maintaining a dog we could join FOSTER PARENTS PLAN, INC., a national organization that helps poverty-stricken children the world over. For \$18 per month, we are able to assist a family in South America with medical aid, food and housing. But most important of all, this plan has enabled a foster child to be cut so the lining is smaller than

PEOPLE FIRST (ANIMALS NEXT)

DEAR PEOPLE FIRST: Many readers will remark: "We have plenty of disadvantaged in the United States — how about helping after our own first?" That's the question I put to PLAN, INC.

Their reply: "PLAN selects the neediest from those countries not yet able to assist their own poor. Since North America does not fall into this category, PLAN doesn't operate in the U.S.A. or Canada."

Are we presently in Bolivia, Brazil, Ecuador, Colombia, Haiti, Peru, Korea, Vietnam and the Philippines, PLAN Officially 35 years in business to help war orphans. For more information write to PLAN, Box 400, Warwick, Rhode Island 02886.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY, Box No. 49700, L.A. Calif. 90049. Enclose stamped, self-addressed envelope, please.

For Abby's books, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 122 Lexy Dr., Beverly Hills, Cal. 90212.

Let Sunshine In Is It A Crime To Grow Weeds?

By ANN RUDY
The Herald Services

Sunny Fabrics Brighten Bedroom

A bedroom should be a cheerful, sunshiny place. Even if you don't have a lot of natural sunshine coming into the room, you can sew your own with sunshine-yellow corduroy. Mix this with a garden of geranium-patterned sheets.

Sheets long have been a favorite decorating fabric. They are inexpensive, wide, mostly permanent-press and now delightfully colored and patterned. Furthermore, for each pattern there are several coordinating solids so the guesswork is taken out of color-harmonizing.

An example is a room using soft yellow corduroy for a tufted spread, pillow and table covers and draperies. The geranium sheeting lines the draperies, covers the chair cushion and the floor cushions. The solid green handkerchief and cording are from a coordinated set. The bedspread reverses to show more patterned sheeting. Polyester fiberfill provides the padding and the tufts are hand-stitched.

All of this is easily made on your sewing machine.

Normally, lined draperies are cut so the lining is smaller than the drapery material. Since these draperies are reversible the lining is cut to the same size as the corduroy. Add four inches to the top, for rod channel and heading and one-inch seam allowance for bottom and side seams. Sew drapery sections together to top to lower edge of rod channel.

Happily, these fabrics are entirely washable so you will keep their sunny good looks for several seasons.

Officers Installed

Galnes-Morgan Amvets Post and Auxiliary No. of Sanford recently held their installation service. Left to right, installing officers: Willie Barnes of Orlando and Ruthie Dixon of Sanford; W. Agnes Fields, auxiliary president; and Warren Richards, post commander.

POLLY'S POINTERS What's What With Social Security?

By POLLY CRAMER

DEAR POLLY — I would like to know if and how one can restore the luster to polished cotton. — MARIJE.

DEAR POLLY: My biggest Pet Peeve is with the way Social Security is set up. Both my husband and I worked full time until 65 and paid almost the full amount most of the time. Yet, as a wife, I can receive either the Social Security for which I paid or as a wife or widow only the one I chose of the two, which probably will be the one that is greatest. This is also for the husband if the wife dies first. I do not think this is fair as both my husband and I paid into the fund and yet the remaining one gets the benefit of only one contribution.

There should be some allowance for this double payment. No other insurance demands two premiums with only one benefit. This facet of Social Security must have been planned by rich men or some college professors out of touch with a realistic world. This letter is long but so is my Pet Peeve and strong, too. — MRS. PET PEEVE HERSELF.

DEAR POLLY — Lucille should put her shedding angora and rabbit's hair sweater in a lightweight plastic sweater bag and pop it in the bottom of the refrigerator. No furs, no muss and good luck to her.

I remove glue left from those picture hangers with lighter fluid. It takes spots off of painted walls when carefully applied with a clean natural sponge. — E.C.Q.

DEAR POLLY — When making my own body shirts I use fast tape on the crotches that close. This is the tape such as we put on wrap-around skirts, slips and hair protectors to wear at night. This is easier to fasten than the snaps usually found on readymade body shirts. — L.T.

DEAR POLLY — After one has her first baby most of us hate to throw away the cute baby cards we have received. I bought a large inexpensive picture frame and painted it white. While construction paper was used for the background mat. Then I mounted about a dozen of the cards on it and an unusual "picture" was all ready to fill a bare spot on the wall in baby's room where it has become a conversation piece. I have since used other greeting cards in frames for other places and thought some of the readers might like to try this, too. — MRS. R.H.

DEAR POLLY — If your patio or picnic tablecloth is constantly flipping in the wind borrow some LARGE lead weights from Dad's tackle box and pin one to each corner. When lunch is over Dad can have them back to go fishing. — MRS. J.W.

DEAR POLLY — How do I clean a hand-carved Oriental chest? It was covered with linseed oil to keep it from cracking after we brought it back to the States. — MRS. J.K.

DEAR POLLY — My Pet Peeve is with station attendants who are careless about whether or not they are selling one the proper product for a particular car. One attendant sold me another type transmission fluid, not so expensive, that he said would work just as well in my car. As a result I had to have the transmission replaced because it gummed up the valves and gears would not shift. — L.M.

Design Available At Small Cost

By VIVIAN BROWN
AP Newsfeatures Writer

If your taste in home furnishings hasn't improved in these last years, perhaps you aren't really trying.

Tastemaker Freda Diamond, who influences every area of the home furnishings field, says the industry "is putting tremendous effort into producing good design within the pocketbook of the average person."

She coordinates merchandise for buyers of three chains of stores for whom she is home furnishings consultant, designs for many manufacturers and helps foreign governments do their own thing in design that will appeal to Americans. She has been awarded the Professional Achievement citation by Cooper Union.

"There is a very strong cycle in home furnishings although it may not seem so. It moves slowly because there is theory and philosophy behind it. We keep in mind that people with small budgets must play it lots safer in furnishing their homes than people who have a lot of money to spend and can redecorate any time they want," she explained.

"You can find good things in any price bracket. Taste and price no longer equate," she insists. "More people have good taste than bad taste, but it all depends what the market forces are on them. Because of exposure to so many good things, the American middle-class consumer has better taste than other middle-class peoples."

Some people, of course, are more sophisticated, and manufacturers find it difficult to design for an elite few with avant garde taste.

"When plastics came in, everybody got excited, but then it became a dirty word until the Italians led the way with their beautiful furniture. Now plastics are widely accepted and you can go to the housewares department of any store and you will see good-looking plastic furniture that has become perhaps the best selling items in the entire home furnishings area. Of course there are still some people who don't use the best ingredients and make inferior objects and there may be some reaction to that."

Tableware has become so tasteful almost anyone can set a beautiful table. Miss Diamond observed. Oven-to-table ware is elegantly high styled and glassware designs are really spectacular.

DR. L. E. LAMB Gimmick Diets Will Never Die

By ANN RUDY
The Herald Services

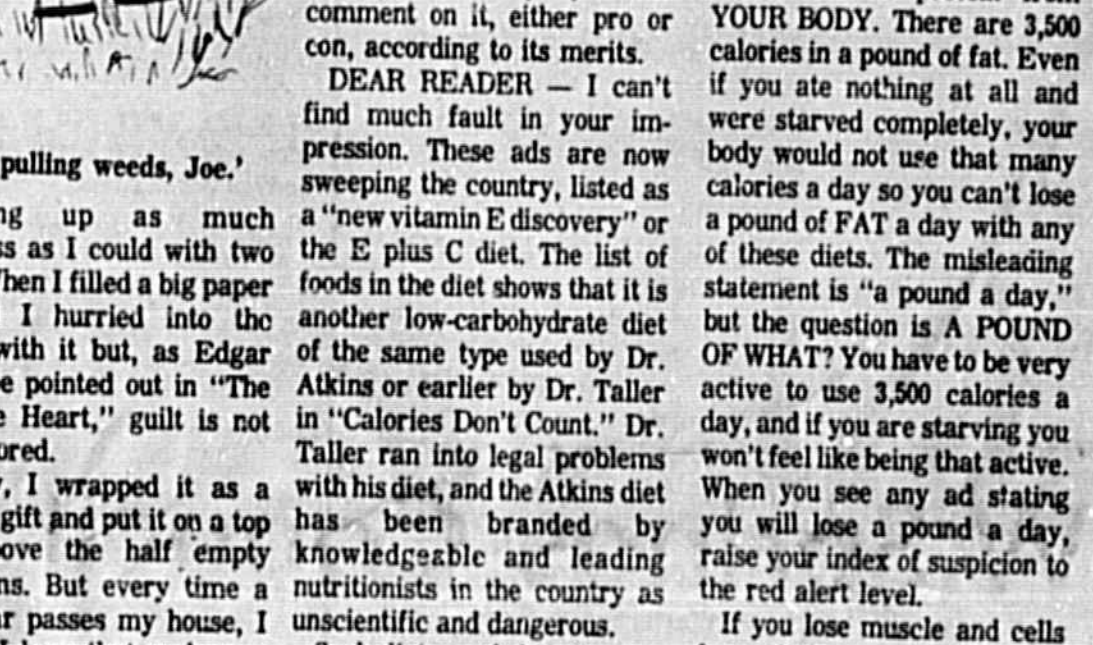

Dr. L. E. Lamb Gimmick Diets Will Never Die

DEAR DR. LAMB — Recently in our paper there was an article about a new vitamin E supplement C diet which was supposed to give fast weight loss. Reading the article convinced me that it was another scheme to defraud gullible fat people who were so eager to reduce that they were willing to try anything. I am enclosing this article, and I hope you will comment on it, either pro or con, according to its merits.

DEAR DR. LAMB — I can't find much fault in your impression. These ads are now sweeping the country, listed as "new vitamin E discovery" or the "E plus C diet." The list of foods in the diet shows that it is another low-carbohydrate diet of the same type used by Dr. Atkins or earlier by Dr. Tallier in "Calories Don't Count." Dr. Tallier ran into legal problems when he advertised that you would lose weight if you ate with his diet, and the Atkins diet has been branded by knowledgeable and leading nutritionists in the country as unscientific and dangerous.

Such diets work because the person eats fewer calories. Many high protein foods, lean steak for example, contain a lot of water. Lean raw round steak body helps you keep lean normally (your lean muscles are also 70 per cent water), and when you lose salt, water goes with it. The loss of too much salt and water leads to fatigue, faintness and a chemical disturbance of the body. You can recover from this by adding carbohydrates in a normal amount to your diet and then regain your normal amount of salt and water.

The vitamins in the so-called E and C diet do not do a thing to cause a person to lose weight. That is pure hokum. It is a good idea to take vitamins, though, if one is on a poor or unbalanced diet that limits all those important vegetables, cereals,

SPORTS IN BRIEF

Phillie Gets Heckey

PHILADELPHIA (AP) — Philadelphia's entry in the North American Hockey League will be known as the Philadelphia Firebirds, it was announced Monday. The team will play a 74-game schedule, opening at home Aug. 15.

Metreveli Beat

WARSAW (AP) — Balazs Taroczy of Hungary won the European Amateur Tennis Championship Monday in Wrocław, Southern Poland. He beat the favored Alex Metreveli of the Soviet Union 6-2, 10-8, 2-4, 4-6, 6-4.

Brewer Hurler Dropped

MILWAUKEE (AP) — The Milwaukee Brewers announced Monday that they had returned veteran relief pitcher Dick Selma to Salt Lake City of the Pacific Coast League. Selma was obtained from that club two weeks ago, but had been unimpressive with the Brewers in two appearances.

Padre Top Player

SAN FRANCISCO (AP) — Enzo Hernandez of the San Diego Padres has been named the latest National League Player of the Week award winner. Charles S. Feeney, league president, announced the honor today. The Padres' shortstop had a 450 batting average last week with nine hits in five games from Aug. 5 through Aug. 11.

Patriot Recovers

NEWTON, Mass. (AP) — Steve Corbett, the New England Patriots' top National Football League draft choice, should be completely recovered in two or three weeks after surgery at Newton-Wellesley Hospital, his physician says. Dr. Francis Rockett said some scar tissue was removed from Corbett's shoulder during the four-hour operation.

Hall Of Famers

COOPERSTOWN, N.Y. — New York Yankee greats Mickey Mantle and Whitey Ford were inducted into baseball's Hall of Fame, along with former umpire Jocko Conlan, Negro League star "Cool Papa" Bell, Sam Thompson and "Sunny Jim" Bottomley. Thompson and Bottomley were honored posthumously.

Strikeout Record

ANAHEIM, Calif. — Nolan Ryan, righthander for the California Angels, broke the American League strikeout record for a nine-inning game by striking out 19 Boston Red Sox in a 4-3 victory.

Tennis Wins

TORONTO — Tom Okker of the Netherlands defeated Pat Renshaw of Australia 6-3, 2-4, 6-4 in the opening round of the \$100,000 Canadian Open tennis tournament. INDIANAPOLIS — Top-seeded Jimmy Connors came from behind to beat Sweden's Bjorn Borg 5-7, 6-3, 6-4 and win the \$130,000 U.S. Clay Court men's singles tennis championship.

Chicago Bowler

BOWLING EDISON, N.J. — Carmen Salvino of Chicago is the top-seed in a field of 16, \$50,000 New Jersey Open Bowling Tournament heads into the final round.

Cycling A Way Of Life For Many Americans

NEW YORK — (NEA) — In "The New Complete Book of Bicycling" by Eugene A. Sloane, you will discover: — that the Wright Brothers manufactured bicycles at one time; — that 68-85 pedal strokes a minute is the most easily maintained pace for long trips; — that in 1886 one John Kendrick Bangs wrote a farce called "The Bicyclers"; — that American Airlines will put your bicycle in the flight; — how to choose, equip, repair and dress for your bicycle; and more than you could ever possibly want to know about gear ratios.

What Sloane is stressing in the book, however, and in a current transcontinental promotion tour (pedaling into metropolitan areas from the airport) is bicycle safety. "Smarter outfitted in a blue-and-white striped seersucker jumpsuit, orange jacket — the better to be seen with — and double-padded mittens (for comfort) and to brush broken glass from bicycle tires), the former public relations man discovered this after the book was published, is that because it's only good for one eye, you don't have the depth perception

expresses strong feelings on the subject. "The Department of Consumer Education of HEW thinks it's really doing something for safety by legislating reflectors on bikes. Reflectors are fine," he says, "but most people don't ride bikes at night. "Forty thousand people are killed every year on bicycles. — that American Airlines will put your bicycle in the flight; — how to choose, equip, repair and dress for your bicycle; and more than you could ever possibly want to know about gear ratios.

THINGS YOU ALWAYS WANTED TO ASK ABOUT BUT DIDN'T KNOW WHO TO ASK

HYPNOSIS
QUESTION — Do Physicians ever recommend Hypnosis?
ANSWER — Yes! The American Medical Ass'n. "Officially" recognized Hypnosis in 1958, as a useful tool of medicine particularly in the field of psychosomatic disease. Such use may manifest themselves in the form of Migraine, Phobic nervous tension, insomnia, Sexual problems such as frigidity or impotence, Specific phobias or other neurotic-like, but of personal motivation (Excessive smoking, Poor concentration, retention, or recall, and so on). Induction, Hypnosis, in many cases, can be performed in a few minutes. However, a Physician's approval is required before a Licensed Hypnotist will accept such cases.

HERALD BUSINESS REVIEW

Prepared By The Herald Advertising Department — Call 322-2611 or 831-9993

At Vale's Jr. Shoeland Fitting Can Be Fun!

Shopping for children's shoes can be fun, both for the children and the parents. Hard to believe? Then visit Vale's Jr. Shoeland, Vale's Jr. Shoeland, Longwood, and become a believer.

Cheryl Todd, owner, assisted by Betty Vale, draw upon their years of experience in fitting children's shoes to ensure that the children enjoy the visit to the store and that it is not an ordeal for the parents.

The new school term is almost here, and school means shoes for the children. Just in time to save you money on these necessary purchases, Vale's has a "back-to-school" sale now in progress that can save you up to 40 per cent.

Cheryl Todd has just purchased the business from Betty and Ed Vale, with Betty staying on as an assistant. Cheryl is a nurse, but is no novice to the shoe business, having 4 years experience in selling shoes. The plans no changes for the store, except to make it even more fun for the children.

Vale's Jr. Shoeland is very conscious of the need for children to have good fitting, comfortable wearing shoes. For these reasons they carry Keds, Jumping Jacks, Child Life and Mother Goose shoes. They also have on hand a large supply of Edwards shoes. Mom will be glad to know that although these brands are well constructed and durable, they are reasonably priced.

Vale's is stocked with a tremendous selection of boys and girls sandals and tennis shoes in the latest styles. There are adjustable strap sandals available in 11-12 colors, white, tan and red for both boys and girls. For a dressier looking sandal, Cheryl will show you the barfoot sandal which can be used as either a shoe or a sandal. They have the bare foot look of a sandal with the two "T" straps in front and the support a shoe offers, with an attractive crepe sole which will give miles of wear. These sandals come in burgundy and white.

For teens, Vale's Jr. Shoeland has the leather "Honey-like" sandals by Jumping Jacks.

If your child needs an orthopedic shoe you will find what you need at Vale's. Today's orthopedic shoe cannot be distinguished from a regular shoe, and come in the same styles as other shoes and in assorted colors. Child Life is "Tops" when it comes to great fitting orthopedic shoes, and Vale's also has some of the Edwards brand in stock. Cheryl and Betty are experts in fitting children for these specialized shoes.

A.Duda & Sons-From The Mini To The Mighty

Florida as well as in Australia, the home office in Oviedo, you will find nine of the 11 Dudas hard at work. The other two are based in the Belle Glade plant.

Oviedo Tractors, a division of A. Duda & Sons, has been in operation since 1957. It started out with only two employees and now boasts 14.

Oviedo Tractor carries the widest range of farm equipment and machinery in the state. They handle five major lines of equipment to include such tractors, lawn and garden equipment, and three major hay forage equipment lines. New Holland, Gehl and Lely. They have deep tillage tools for all sorts of ground preparation. The Dudas are responsible for very capable and knowledgeable salesmen, Fred Hall and Kerry Sherwood, who will assist you in your selection of farm equipment.

GardenLand Says Prepare For Your Fall Garden

Let the friendly people of GardenLand assist you. (1 to 1) Jim Mayfield, Lydia and Harold Humziker

We're all familiar with the aged axiom "The Early Bird Gets the Worm." At GardenLand, 1400 W. First St., Sanford, the Early Bird Gets the healthiest garden. Right now is the time to start preparing your ground for a fall garden by fumigating the soil against nematodes and having your soil tested to determine the proper PH. You can select all necessary tools, supplies and seeds for your fall garden at GARDENLAND.

Harold and Pat Humziker, owners of GardenLand have for the past 2 1/2 years kept customer satisfaction first in mind. Quality and durability are a must for the products carried.

In addition to helping you create a beautiful garden, they'll assist you in showing it off at it's best. Select from the wide assortment of unusual Malibu lights designed to make your lawn, patio, garden, driveway and walks beautiful and safe.

House plants bring a breath of the outdoors into your home. GardenLand has a tremendous selection of usual and unusual indoor and outdoor plants which will brighten your decor.

Jim Mayfield who has joined GardenLand on a full-time basis, is in charge of the nursery. You will find him eager to offer suggestions and share his extensive knowledge of farm and garden matters. Orchid enthusiasts will find a friend in Jim since these exotic flowers are his specialty. GardenLand has orchid supplies and river rocks in small and medium sizes, to highlight your garden and landscape.

GardenLand, largest retail seller of bulk seed south of Jacksonville stands ready to serve the needs of the smallest home gardener, as well as the farmer. Planting your garden can be practical as well as good, healthful exercise. Help lower your food bill by planting a vegetable garden. GardenLand carries Kilgore seed planning guides which are a tremendous help for even the most experienced planters.

In addition to seeds and plants, GardenLand carries an extensive line of lawn and garden equipment, decorative wrought iron plant holders, boots, hoses, rakes, gloves, soil test kits, planting soil, peat moss, sprayers, fertilizers. A dealer for Sunnysland and Chase & Company, GardenLand has pesticides and fertilizers needed for a healthy, hardy, productive garden.

Three well-known brands of knives are offered for your selection—John Primbly, Schrade, Walder, and World famous "Buck" knives—the latter two carrying life time warranties.

Quality weed-free seeds, healthy plants, proper planting and suitable care are the ingredients that go to make a beautiful garden and lawn. Included in care of course is the protection of your grass and plants from the attacks of insects, disease, starvation and drought. Insecticides can dispose of the insects; chemical sprays will take care of fungus and other disease; fertilizers will end the starvation by providing necessary nutrients and needed watering will bring you safely through the drought. Stop envying the beautiful lawns and gardens of your friends and neighbors. You can look like that by starting preparation today. GardenLand will supply everything necessary except the effort—you can supply that and be the healthier for it.—ADV.

second diamond back to his ace, ruffed his last small diamond and played a trump. West took his ace and led his last diamond. East ruffed and the contract had been saved. Once dummy had been able to ruff that diamond, South had a sure thing play starting him right in the face. All he had to do was to ruff a second club in his hand, ruff his king of diamonds with dummy's last trump, show the opponents his hand and claim his contract. He would have six tricks in it and four sure trump tricks to come.

The bidding has been: 13 West North East South 3♠ Pass 3♥ Pass 3♦ Pass 3NT Pass 4♥ Opening lead-K♠

One of the chapters in the Morehead-Frey book discusses the generally folly of bidding your partner's cards for him. This card is given as a proper example of when to bid for your partner. The reason is that while he probably has little or nothing in the way of strength, his cards—such as they are—will help you.

If West had opened ace and one spade he would have beaten the hand, but he did open the king of clubs. South ruffed, led a diamond to dummy's queen; a

RIVER QUEEN LIES ROTTING
Instead of cruising the St. Johns River, this paddle wheel pleasure boat lies rotting in dry dock at the Seminole Port Authority. The merry laughter and gay music that once rang across her freshly scrubbed decks have given way to the sigh of the wind through her sunblistered superstructure.

Single Fire District Ordered By County

By CHRIS NELSON
Herald Staff Writer

Seminole County commissioners are moving towards abolishing individual fire districts by authorizing creation of a single countywide fire district.

Approximately 30 per cent of the unincorporated areas of the county are currently without any fire protection service.

The board set a Sept. 10 public hearing on an emergency ordinance it directed be drawn up over the objections of County Atty. Howard Marsee, who said he fears a referendum might be necessary to ratify the action.

Marsee said he has asked the attorney general's office for an opinion, but that in the meantime, "No one in Florida really knows whether a referendum is needed."

Immediate action was set up by Commissioner Mike Hattaway, who shot down Marsee's words of caution, saying, "Meanwhile we have areas of the county unprotected, and we are endangering life and limb, and personal property."

"I'm willing to take the chance (on having the single fire district action thrown out in the courts because the voters were bypassed) in this particular instance," Hattaway said.

Vice Chairman Dick Williams and Commissioner Sid Viblen Jr. agreed, giving Marsee the three votes necessary to begin drafting the ordinance.

Fire Administrator Gary Kaiser, whose plan for a single fire control district was not presented by several of the smaller departments in anticipation of an Aug. 28 meeting of the county firemen's association, praised the commissioner's action in not ordering a referendum.

"This will let us provide nearly immediate protection for 30 per cent of the county which, incredibly, has no protection at present save that which other departments might voluntarily provide," Kaiser said.

In a related move, the commission authorized Kaiser to immediately purchase six trucks and five "slip on" pump tank units so that service can commence Oct. 1.

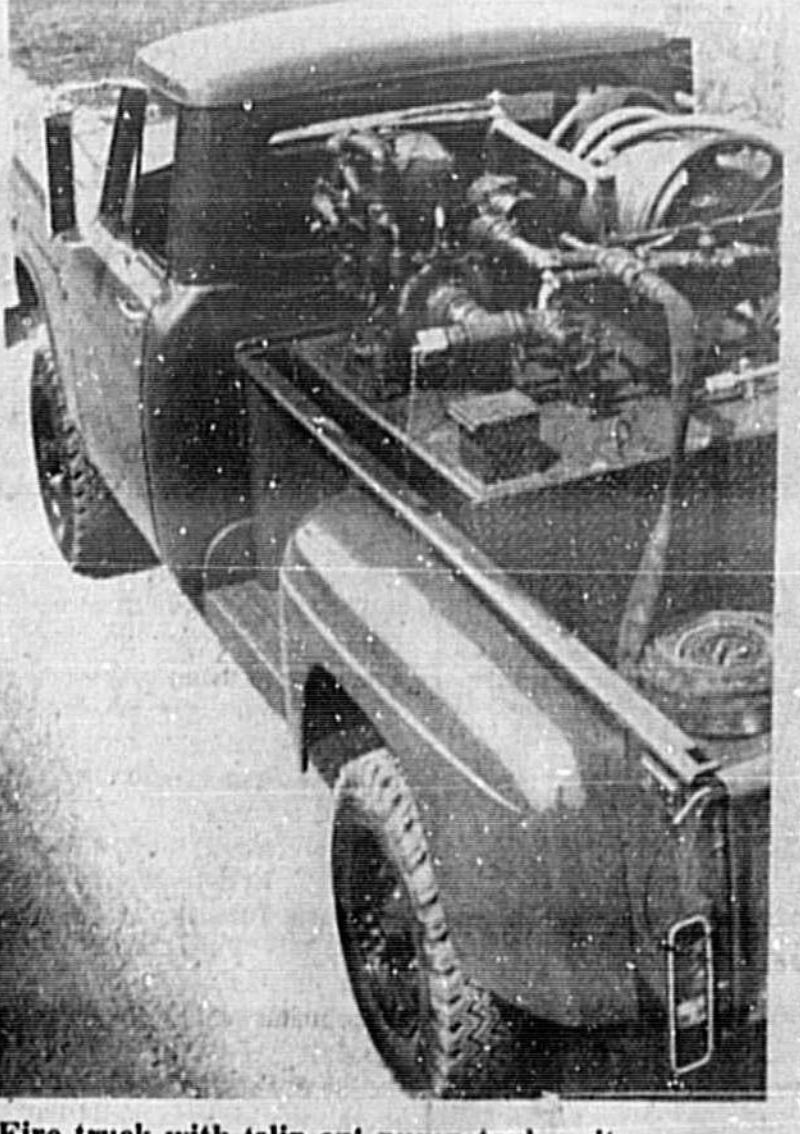

Kaiser said waiver of the bid policy because of the emergency ordinance will not mean loss to the taxpayers because he has recently gone through the full bid process for a truck and slip-on unit for the Midway Ginderville department.

The equipment to be ordered will provide stop-gap service until larger trucks can arrive for six areas without any equipment at present, Kaiser said, including:

- SR-46-Panola, the "buffer zone" between Langwood and Lake Mary, areas south of Lake Jessup, south of Oviedo, and territory not covered by the Chulavita Fire Department.

Seeking to ward off massive opposition by the volunteer departments protesting the single tax district move, Kaiser repeated previous assurances that local identity is a key to the plan, and will be preserved.

The county will take over purchasing and administration, and set strict training standards. In return, the volunteers will receive massive equipment and uniform supplies, and \$600 a year compensation, he said.

Fire truck with 'slip on' pump tank unit

Cost Of Buying Home Continuing To Spiral

WASHINGTON (AP) — The cost of buying a home, particularly the crucial cost of borrowing money, is pushing upward relentlessly.

Rising interest rates for home buyers were reflected Tuesday in the government's decision to raise the maximum allowable rate on federally insured home loans to a record 9.5 per cent.

The rate had been 8 per cent for just more than two months. The increase was twice the government's usual quarter of a percentage point adjustment.

Meanwhile, the Senate Tuesday approved a compromise \$11.3 billion housing and community development bill that, among other things, authorizes \$8.6 billion in block grants for urban renewal, model cities, open spaces and other community development programs over the next three years.

The bill also increases from \$45,000 to \$65,000 the maximum amount of mortgage loans that federally chartered savings and loan associations can approve. It also increases the ceilings for FHA-insured and VA-guaranteed loans on single-family homes from \$33,000 to \$45,000.

The government's decision on the higher interest rate followed two other government reports detailing record interest rates.

The first showed that the effective rate on conventional loans—those not insured by the government—increased to 8.14 per cent for new homes in July and 9 per cent for previously occupied homes.

The higher interest rates, higher prices and more restrictive terms mean the average cost of buying a new home has increased from a purchase price of \$55,700 with \$8,400 down and payments of \$200 a month in March 1973, when the current surge started, to an average price of \$60,700 with \$10,500 down and \$241 a month in July.

The second report indicated interest rates would continue to rise for home buyers, probably to 10 per cent or so over the next four months.

The shape of things to come was in the results of the auction of home loan commitments reported by the government's Federal National Mortgage Association.

The FNMA, known as Fannie Mae, commits itself periodically to buying a certain number of mortgages over the next four months, selecting from among the lenders who offer the best return.

Fannie Mae said the latest auction produced an average yield of 10.1 per cent for loans insured by the Federal Housing Administration and the Veterans Administration. The average rates for conventional loans was about the same.

And at 10 per cent, that means FHA-VA home buyers and sellers would have to pay about 7.5 "points" to make up the difference between the 8 per cent in their loan agreement and the 10 per cent return the lender probably would be demanding.

In cold cash, the buyer would have had to pay his maximum permissible one point, or \$300 on a \$30,000 loan, and the seller would have to forfeit 6.5 points.

FPC Executive Hints Blackouts

ST. PETERSBURG, Fla. (AP) — Customers of Florida Power Corp. face an "increasing possibility of power shortages and blackouts" because of cost-cutting programs by the utility, the company president says.

Andrew H. Hines Jr. made the comment while testifying before the Public Service Commission during a Tuesday hearing on a temporary \$14.5 million rate hike.

He said customer service will deteriorate because of delays in construction of new generating facilities in the company's necessary drive to cut costs.

Last month, he said, the company had to implement phase two of its three-pronged cost-saving plan and mothball a generating facility at nearby Tarpon Springs.

Also, Florida Power is reducing its fuel inventory to a "thin operating margin," he said.

"Future oil boycotts or shortages, a severe and prolonged hurricane in the Gulf, a truck drivers' strike or any number of occurrences could leave one or more of our plants without fuel," he added.

Ten people testified, most of them opposed to the rate hike and contending that the "ordinary citizen cannot afford another increase."

Shevin Halts Hospital Notes And Interest

By JEAN PATTERSON
Herald Staff Writer

Public hospitals may not accept notes for bills and may not charge interest for late payments, Atty. Gen. Robert Shevin said in an opinion Tuesday.

"At Seminole Memorial Hospital the 'note' we accept is nothing more than what the patient signs on admission to the hospital—an agreement he is responsible for paying his bill," said the county hospital's controller Richard Smith.

"When a patient is discharged, he sits down with the hospital counselor to work out how his bill is to be paid—by the week, by the month, and so on," Smith explained. "But these notes are not notarized or recorded in the county courthouse nor would a judge accept them in court."

"We're a county tax-supported hospital and as such are serving the people of this county in as many ways as we can. We understand that few people can sit down and write out a check for the full amount of their treatment on being discharged," Smith commented.

Smith said the type of promissory note referred to by Shevin was in no way the same as Seminole Memorial Hospital's regular billing system.

Assistant administrator Reid Brodie added that the hospital had never charged interest on overdue bills although the subject had come up for discussion before the board of trustees on several occasions.

Brodie said persons who could not pay their bills obviously had financial problems which would not be helped if they had to pay interest on outstanding bills.

At Tuesday's hospital trustees' meeting, Chairman John Schirard Jr. had no comment on the county commission's apparent rejection of a hospital request for \$130,000 worth of tax support during the 1974-75 fiscal year, as he had not been notified by the commission of such action.

It is doubtful whether the commission could legally turn down the trustee request, said Hospital Atty. Gordon Frederick.

An 0.66 mill for hospital support has been tentatively set in the county's proposed budget for the coming year. This, in effect, denies the hospital's full request for financial support.

The proposed 0.66 mill would only fund the year's obligations of about \$47.75 on hospital construction bonds.

The \$193,000 requested by the hospital would require a tax levy of about 0.22 mill.

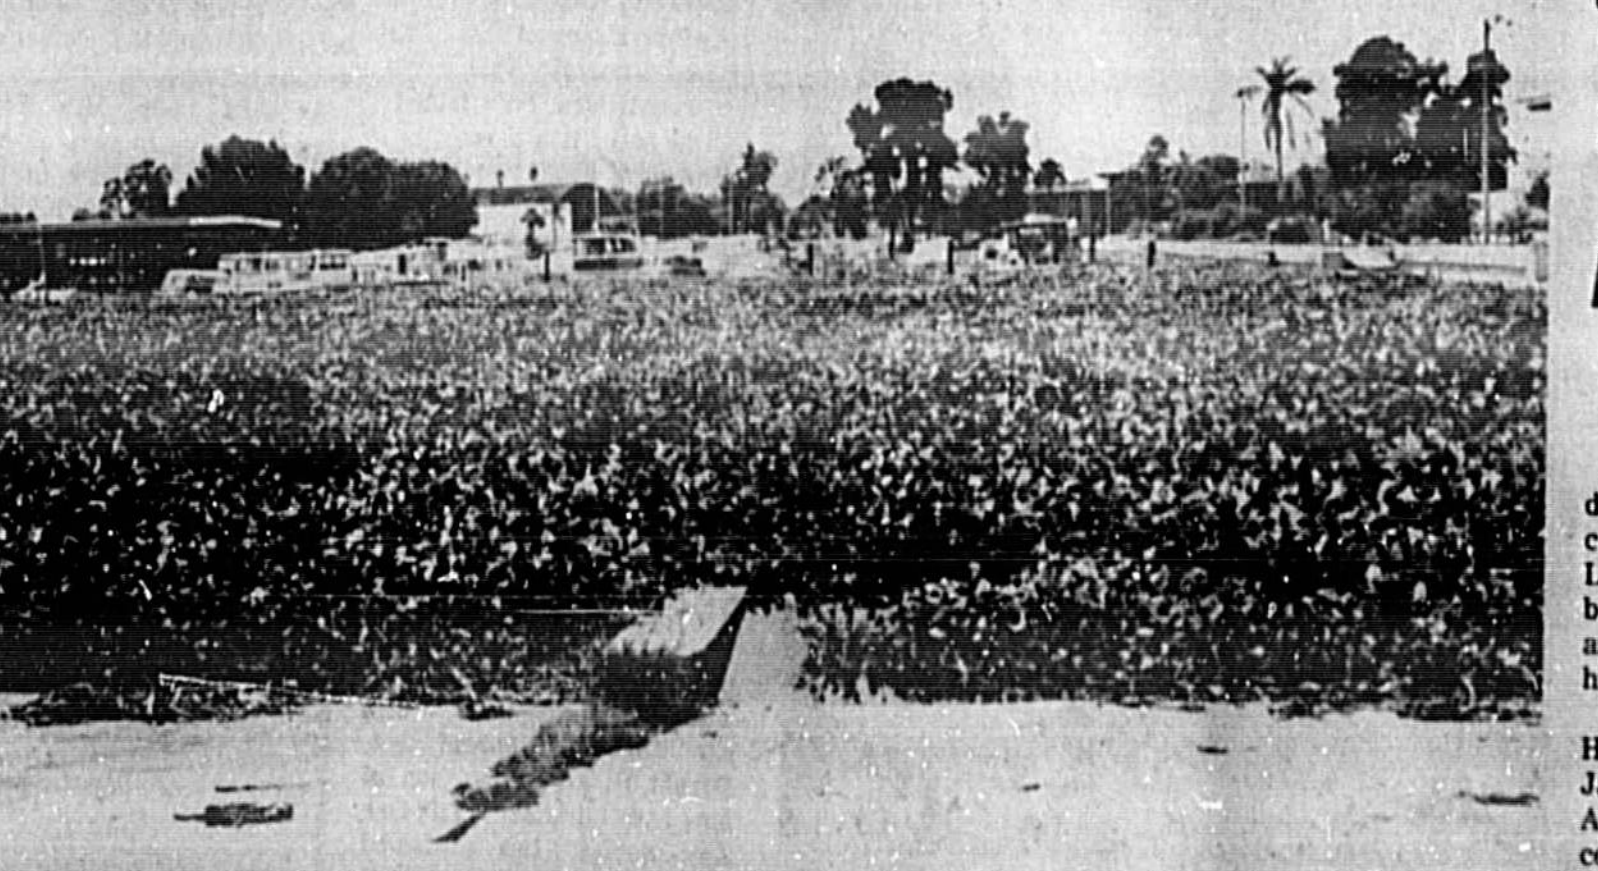

Hospital trustees has asked for an additional \$22,336 for plant improvements and \$92,889 to cover a projected operating deficit for the current fiscal year.

'Alma' Nearing Trinidad

MIAMI (AP) — Gale warnings and a hurricane watch were extended to include parts of Venezuela today, and flash flooding was predicted for several of the Windward Islands as tropical storm Alma approached land.

The center of the storm's first tropical storm, with heavy rains and maximum winds of 55 miles an hour, was expected to pass between the islands of Trinidad and Tobago before noon today, forecasters at the National Hurricane Center in Miami said.

At 9 a.m. EDT today, Alma was located near latitude 10.3 north and longitude 60.8 west or close to the east coast of Trinidad.

'PURPLE PLAGUE' BLOCKS MARINA
Marina, Marina, how does your garden grow? one might paraphrase the old nursery rhyme. Certainly not with cockle shells or silver bells, but with water hyacinths all in row. The purple blooming aquatic, weeds, often called 'purple plague,' periodically choke Lake Monroe Harbor in Sanford and are a major obstruction to traffic on the waterways in the area. As yet, no completely safe or effective method has been found to control the hyacinths.

Hijackers Beat Trucker

By BOB LLOYD
City Editor

Thursday in the New York City area but FBI agents told him five men were involved.

Mrs. Dench said her husband was found in "satisfactory" condition today at a New London, Conn., hospital after being beaten about the head and body with a baseball bat by hijackers.

A Lawrence Memorial Hospital spokesman said James Dench, 2722 Ridgewood Ave., Sanford, suffered a concussion in the incident.

Mrs. Barbara Dench said her husband, a driver for National Freight Inc. of Vineland N.J., told her by telephone Tuesday that he saw only three men when he was attacked early left Orlando last Wednesday with the load of concentrate.

FBI agents in New Haven, Conn., said Dench and the truck were found in a rest area at Richmond, R.I., by a state trooper about 1 p.m. Saturday.

Dench had been tied up in the truck's sleeper cab for at least 30 hours, according to the National Freight spokesman.

The FBI entered the case because it involves theft from interstate shipment, agents said. No arrests have been made in the case, an FBI spokesman said today.

The FBI said the concentrate being hauled by Dench was scheduled for delivery to a Boston, Mass. firm.
