You Should Know

You should know about the 80% collision or upset automobile insurance offered by the State Farm Mutual Insurance Co. If you carry \$50 deductible collision or upset insurance on your car or truck, \$50 is deducted from each collision and upset claim. It costs you \$50 to repair a damaged fender, you pay ALL. If another fender is damaged and it costs you \$50 to repair, you again pay ALL.

If you had 80% coverage you could get both fenders repaired by paying only \$20.

The premium after the 1st year is no more than you would pay for the \$50 deductible kind and \$15 to \$25 less than you would pay for the 80% coverage in most companies.

Hitler Gang Goes On Trial At Nuernberg

Henchmen Listen To U.S. And British Prosecutors With Varying Emotions

NUERNBERG, Nov. 20, (AP)—The former German Foreign Minister Joachim von Ribbentrop, collapsed today at his trial here. He was removed from the chamber where he is being tried with other top Nazi leaders. It is also reported that the defense attorneys had tried to pass some poison to Julius Striecher, the notorious anti-Semite. Twice today guards have prevented something being passed over the sill of the dock.

NUERNBERG, Nov. 20, (AP)—An epoch in the history of mankind and the world began today in a small, oak-paneled courtroom in Nuernberg, Germany. Twenty men, as strangely garbed as a cast of beggars in an opera, listened with varying emotions, as an American—his voice trembling with nervousness—described them with these words: "The defendants, with diverse other persons, are guilty of a (Continued on Page Four)

Schools To Close For Thanksgiving

Schools will be closed throughout Seminole County both on Thanksgiving Day, Thursday, and on Friday, it was announced today by Supt. T. W. Lawton. At the First Baptist Church Thursday morning at 9:30 o'clock a Sanford Ministerial Association Thanksgiving day service will be given. There will be prayers and organ selections. The Senior Class of Seminole High School will present a Thanksgiving Day program at 10:30 o'clock. Offices at the City Hall and Court House will close Thursday. The Post Office and most stores and businesses will close for the holiday. The Herald will publish no edition on Thursday in order that employees may enjoy the holiday. Groceries lately have been stocking the largest supply of food they have been able to obtain and the meat departments report there are plenty of turkeys available at about 47 cents a pound.

Superfort Sets New Long Distance Mark

WASHINGTON, Nov. 20, (AP)—An American superfortress has completed a non-stop flight from Guam to Washington—a distance of more than 8,000 miles. The Army Air Force immediately laid claim to a world's distance record. The B-29 landed at Washington at 1:35 P. M. Eastern Time about 58 hours after it had taken off from Guam. The recognized distance record of 7,158 miles was set by the British in a flight from Egypt to Australia in 1933. The plane carried a crew of specially picked and trained personnel—all veterans of the Pacific war. The Army announced that the Commanding General of the Army Air Force, General H. H. Arnold, would present the distinguished flying cross to each member of the crew.

Loften Is Critical Of ACL Testimonies

WEST PALM BEACH, Nov. 20, (AP)—Scott Loftin, former United States Senator and trustee of the Florida East Coast Railway, has criticized the testimony of Atlantic Coast Line witnesses who appeared in the Interstate Commerce Commission hearing here. The witnesses described what Loftin termed their "unusually factory" meetings with the F.E.C. Loftin declared that he had never heard any complaints from shippers who were reported to complain before the ICC of "superior service" until they appeared at the hearing. He further said that testifying shippers gave most of their business to steamship lines prior to 1941 but came to the F.E.C. when the war closed sea routes.

Nimrods Out In Force Today As Hunting Season Opens With Bang

By Willard Connolly
Residents in some rural areas, excited by the crack of rifles and shotguns this morning, thought that war had been declared in Seminole County. They were promptly assured by those "in the know" that the general hunting season had opened. Hired deer, turkeys, quail, squirrels and doves were making noises like a Walt Disney cartoon film and strutting for cover. The season on turkeys, geese and ducks had already opened on Nov. 2, and the season on marsh hens has been under way since Sept. 15. Under the rules of the Game and Fresh Water Fish Commission, a hunter may legally bag one deer, one turkey, 12 quail, 15 squirrel and 10 dove in any one day. Much of the activity this past week in the office of County Judge R. W. Ware has been centered on the purchase of hunting licenses. Approximately 975 state (\$7.50) licenses, and 300 county, Marion, Orange, Ocala, Putnam, until Monday noon. Residents of 65 and boys and girls under 15 are exempt from purchasing hunting licenses. All duck hunters of 16 years of age or over must secure a \$1 federal duck stamp at the Post Office. A few trapping licenses are being issued. Hunting is permitted in the Ocala National Forest from today until Dec. 20, except on Mondays, Wednesdays and Fridays. The fee has been raised to \$5.00. In the Fifth District comprised of Brevard, Citrus, Flagler, Lake,

Marion, Orange, Ocala, Putnam, Seminole, Sumter, St. Johns, and Volusia counties, the deer season extends from November 20 to January 1, the turkey season from November 20 to January 31, the quail and squirrel season from November 20 to February 15 and the dove season from November 20 to January 18. On these species hunting is permitted every day of the week, except on ten days of the season. After that, hunting is prohibited on Mondays, Wednesdays and Fridays during the remainder of the season. The season on duck, geese and cool extends from November 20 to January 20, and they may be taken every day during the week. The Commission has ruled that the prohibition as to days of the week will not apply to hunting on November 20, Thanksgiving, Christmas and New Year's Day. The Commission today urged all hunters to exercise "all possible care" during the 1945-46 hunting season in an effort to curb the growing number of hunting accidents which last year cost 38 casualties. Director I. N. Kennedy blamed carelessness as chief factor in accidents last season which resulted in eight fatalities and thirty other accidents. He listed other main causes of hunting accidents as firing at moving objects not fully identified, mishaps in boats and improper handling of weapons. "If every hunter will be careful, not fire at targets he hasn't positively identified, and remember that his gun is a deadly weapon, loaded or unloaded, there will be far fewer accidents," Kennedy added.

Stores Will Remain Open On Wednesdays Starting Lineup For Baby Feds Announced

Following a poll of the directors of the Sanford Merchant's Association Monday, W. V. Blitting, president, announced that starting tomorrow, stores that have closed on Wednesday afternoons, will remain open throughout the day until Christmas. This decision was made, he stated, in order to give shoppers more time to do their buying for the holiday. Stores will be closed during the Thanksgiving holiday.

HARDIN ENLISTS

Vernon Burns Hardin of Enterprise, Florida was last week sworn in the Regular Navy. Young Hardin, 17, took the Navy oath at State Recruiting Headquarters in Jacksonville on Nov. 15, after preparing his enlistment papers at the Navy Recruiting Station in Orlando. He is the son of Mr. and Mrs. J. H. Hardin, 111 N. W. 1st St., Sanford.

YOKOHAMA, Nov. 20, (AP)—An Army Quartermaster unit (the 430th) is operating what is believed to be the largest gasoline station in the Pacific. Situated on the Tokyo to Yokohama road, it pumps 80,000 gallons of fuel a day into 1700 Greenland is a possession of Denmark.

Vinson Warns Legion Of Risk In Going Soft

Treasury Head Says U.S. Must Remain Strong-And Support World Organization

CHICAGO, Nov. 20, (AP)—Treasury Secretary Fred Vinson warned today that the United States cannot let international positions go by default in an American-led convention in Chicago, Vinson declared that we cannot decline in easy chairs and wallow in the luxury of the feeling that "the war is over."

Vinson told the Legionnaires that this nation must do three things: remain powerful, support international discussion to keep the peace, and provide leadership for a world prosperity. General Dwight D. Eisenhower arrived in Chicago today for an "Eisenhower Day" at the American Legion's 27th annual national convention. And General "Ike" lost no time in making news. He disclosed an agreement with the Russians on a greater freedom of movement for their troops. He said there will be exchange of troops in the military zones occupied by the Russians and the Americans. General Eisenhower will make an address which he has termed "The most important of my career. Before that, however, he has scheduled to ride at the head of a parade through the Legion's headquarters to receive the Legion's Distinguished Service Medal.

Gainesville Plays Feds In Charity Contest On Dec. 3

By Julian Stearns
Seminole High School's Celery Feds will appear in a post-season game this year when the Purple Hurricanes from Gainesville will meet the locals at the high school stadium on the evening of Dec. 3, according to an announcement today by Herman Morris, principal of the school. The game will be sponsored by the Sanford Kiwanis Club and the proceeds will go to the organization's fund for underprivileged children. Regular prices for this game will prevail, according to Dr. Luther T. Doss, president of the Kiwanis club of this city. A crowd of better than 1,000 is expected to attend the affair. The Purple Hurricanes is a member of the Florida Big Ten Association but has had some difficulty this season with more experienced conference teams. More information on the Gainesville squad will be released shortly, according to Mr. Morris. This will be the first time the Feds will step into Big Ten circles this season since the game with the Orlando High School Tigers was postponed due to widespread respiratory infections within the Tigers ranks earlier this year. Orlando is a member of the Big Ten Association. Mr. Morris announced that the Orlando tilt was postponed but will not be played off since the Florida State Athletic Association is scheduling games this year with the Gainesville squad. The game will be played Monday, Dec. 3.

Citrus Fruits Soar As Lid Is Removed

DETROIT, Nov. 20, (AP)—Removal of government controls sent the price of citrus fruits skyrocketing today on Detroit markets. Some housewives were paying as high as \$1 per dozen for oranges, and there were corresponding increases on prices of grapefruit, tangerines and when available, lemons. However, George Thierwechter, manager of the Detroit Union Fruit Terminal, said the price rise was confined to the better grades of fruit. He predicted that average or poorer grades will remain at the same level or slightly higher. Price controls on citrus fruits were removed from Nov. 19 to Jan. 13. California oranges rose from the old ceiling price of 33¢ a case, to as high as \$4.50 for choice sizes. Florida oranges were about 75 cents a case higher with corresponding increases in grapefruit, tangerine and lemon prices.

Saint Petersburg Printers Go On Strike

SAINT PETERSBURG, Nov. 20, (AP)—A strike of printers has closed down the composing rooms of the Independent and the Times. Printers employed by the two Saint Petersburg newspapers took a strike vote early this morning. This action comes at the termination of several weeks of negotiations between members of the scale committee of the local of the International Typographical Union and representatives of the two publishing companies. The dispute is over pay rates and working hours. The strike is the first in history of the two Saint Petersburg newspapers. The Evening Independent has announced that it will publish an alternate photo-engraved edition this afternoon. The Saint Petersburg Times plans to do likewise tomorrow.

County Growers Face An Acute Labor Shortage

Vegetable and celery growers of Seminole County face one of the most acute labor problems in their experience, especially in regard to harvesting of crops. It was announced by County Agent C.R. Dawson, following a meeting held yesterday afternoon of the Seminole County Farm Bureau. Members of the Growers Association re-elected Perry White as president and listed their labor needs as no fewer than 300 Bahaman negro workers. M.L. Cullum was re-elected president, and Leo Butler vice president of the Seminole County Farm Bureau. Although many negro agricultural workers have returned from northern states where they

Lions Plan Boxing Card Friday Night At Lakemont Park

Another program of boxing events sponsored by the Lions Club will take place at 8:00 o'clock Friday evening at the Municipal Softball Field, it was announced today by Joe Moss, chairman of the Lions boxing committee. New fighters have been added to the line-up of fighters. The big main bout Friday evening will be a clash of negro heavyweight sluggers, Butlerwood Henderson and Monte of Sanford, and "Atomic Bomb" Taggert, 175 pound mauler of Charleston, S. C. Other featured events, according to Mr. Moss, will be a return bout of Malcolm MacNeil versus "Sluggo" Kinard, both of Seminole High School; six two-minute rounds between Freddie Williams and Harry Stronough, 110 of Baltimore, Md., and a Louie of the Coast of Orlando, and Bob Gray, same weight, of Long Island, N. Y. There will be a battle royal with five men in the ring, another bout between two contestants not yet determined, and a "mystery" feminine hair pulling and mouling affair, said Mr. Moss. The portable boxing ring was loaned to the Lions through the courtesy of Carl A. W. Connolly of the Orlando Air Base. Wednesday evening the Lions will have their Thanksgiving dance at 10:30 P. M. until 2:00 A. M. Music will be by the Banana Boys.

Legion Post Plans Holiday Activities

Members of the Campbell-Lossing Post No. 53 of the American Legion held their regularly scheduled meeting last night at the Legion Hut with Acting Commander—Bill—Thorn presiding. Several plans for various types of entertainment to be sponsored by the local post during the forthcoming holiday season were introduced by Legionnaires. George Steele and Henry Wollcott, final action on these plans were delayed until the next regularly scheduled meeting which will be held Dec. 3. It was announced that every Thursday evening open house activities are held at the Legion Hut and all members are invited to attend.

Truman Will Attend Army-Navy Contest

WASHINGTON, Nov. 20, (AP)—President Truman won't play favorites when he attends the Army-Navy football game in Philadelphia on Dec. 1. The President—as is the custom—will sit on the Army side of the field during the first half and on the Navy side during the second half. The game will be his first first out of town engagement since he cancelled a series of trips into North Carolina and other states because of matters at hand. He'll leave Washington by noon on Saturday and will arrive in Philadelphia on Saturday morning, Dec. 1, and will return to the capital that same night. Sanford Lodge No. 62, F and AM will meet Tuesday evening at 7:30 o'clock in the Masonic Temple at which time the Master Degree will be conferred. Refreshments will be served between the first and second sections of degree. All Master Masons are invited to attend.

Surprise Attack Was Foreseen As The Opening Phase Of U.S.-Japanese War

WASHINGTON, Nov. 20, (AP)—The Pearl Harbor investigating committee has learned that the late Secretary of the Navy, Frank Knox, had a premonition more than ten months before that a Japanese surprise attack might be launched at Pearl Harbor. An exchange of correspondence between Knox and former Secretary of War Stimson has been laid before the committee, disclosing that Knox had suggested possibility of a Pearl Harbor attack some ten months before the disaster actually took place. On Jan. 24, 1941 the late Navy Secretary wrote, "If war events with Japan, it is believed easily possible that hostilities would be initiated by a surprise attack upon the fleet or the naval base at Pearl Harbor." And in his letter, Knox went on to declare that because of the possibility of a major disaster to the fleet or the Pearl Harbor base, every possible step should be taken in preparation for such an attack. Knox's letter went even further in its prediction of what would happen. He suggested that the Japs might use air bombing, air torpedo attacks, sabotage, a submarine attack, mining, or bombardment by gunfire. But he went on to express the view that defenses against aerial attack were adequate at Pearl Harbor. Earlier in the day, former Pacific Fleet Commander Admiral J.O. Richardson gave the committee further details of his pre-attack Pearl Harbor conversations with President Roosevelt. He said that Mr. Roosevelt was rather loath to increase the manpower of the Pacific Fleet beyond the level of 1940. This was because, Richardson declared, Mr. Roosevelt felt that men skilled in mechanical trades could be quickly inducted and turned into adequate sailors if the need should arise. Richardson then told the committee how he had conferred with Secretary of State Hull to learn more about the nation's foreign policy, and had likewise talked with the Secretary of the Navy about preparations.

Watson Lists Deals On Higgins Deals

TALLAHASSEE, Nov. 20, (AP)—There seems to be a possibility that part of the vast Higgins industries will be moved to Florida, but Attorney General Tom Watson thinks this will depend on several things. Among the conditions Watson lists are the raising of approximately \$8,000,000 in subscription—a state upheld open shop—and the best proposition offered by the Higgins plant, Watson, Miami or Pensacola. Watson—who recently conferred with the New Orleans industrialist—says Higgins offers Florida a \$13,000,000 loan. In discussing the recent lay-off of the Higgins strike-bound New Orleans plant, Watson said "any man with fortune and sense for the time being has taken to uphold the open shop in this state." The Attorney General expressed his views last night to a Jacksonville audience.

Higgins Goes To Washington To Get Naval Facilities

Mayor Edward Higgins left Monday afternoon for Washington, D. C. for a conference with Navy officials in regard to use by the City of the facilities of the Sanford Naval Air Station when the Navy leaves. In his brief he is to be presented to the Naval authorities, Mayor Higgins, acting in his double capacity as mayor and as manager of the Seminole County Chamber of Commerce will present information which will stress the need for hospital facilities such as are afforded by the naval station dispensary, and the need for additional buildings and facilities for training of returning veterans.

Patrick J. McDonald Rail Machinist Dies

Patrick James McDonald, 75, retired Pennsylvania railroad machinist who had lived in Sanford for the past 18 years, died Sunday afternoon at his home on the Orlando highway after an illness of four months. He is survived by two sons, Alfred McDonald of Sanford, and William McDonald of Ann-Rillo, Texas. Mass will be held for Mr. McDonald at All Souls Catholic Church, of which he was a member, at 9:00 o'clock Wednesday morning, with Father William Nachtra officiating. The remains will be sent to Wheeling, W. Va., for interment, accompanied by Alfred McDonald. It was announced by the Erickson Funeral Home.

THE ACTOR

(From Poetry)

BEWARE the old tragedian heart
That loves to weep within the hall
And all enraptured by his art
Confounds the real with but the
role.
For he who sheds his tears
Until the listening rows are blurr-
ed,
And after cries without the doors
"Have I not also much endured?"
Neither have I been forth to look
At Trojan towers that are come
down.
Lest that my mimic heart mistake
Another's sorrow for its own.
For rather would I be a stone
Than emulating sympathy
Think for an hour to have won
Grace in the reckoning to be.

LABOR PROBLEMS AND MACHINERY

difficulties are not confined to
small communities. The people in
Seattle, Wash., have been with-
out newspaper service for two

the big city of New York, major
metropolitan dailies were
forced virtually to suspend
publication for three weeks.

that. The Admiral said Roose-

thought we would eventually be
drawn in. There is not the
slightest doubt that Roosevelt
knew from long ago that this
nation would be in the war.

industries seems inevitable. And
that means delay of weeks, per-

public with those automobiles
which are not only a great
pleasure and relaxation but also
an absolute necessity in these
days of rural newspaper de-
privations. The time is coming
when strikes will be outlawed

A Tale With A Moral

One of Grimm's fairy tales is about a family that had
nice table manners and enjoyed the decorum of a dinner-
table where meals were nicely served and properly eaten.

When the grandfather of the family grew old, his
hands became unsteady. He spilled his soup. He sometimes
upset his coffee. He dribbled gravy on the tablecloth,
and on the front of his vest. As his eyesight became dim,
unaided he used his fork very awkwardly.

It was too hard on the esthetic tastes of the family, so
the old man was served his meals on a tray out of sight of
the household.

One day the little son of the family was noticed ham-
mering lustily on a contraption he was making, and his
amused father asked what the thing was intended to be.

"It's a tray for you to use when you are old like Grand-
pa," the boy explained.

If we remember the story rightly, the old man was
brought back to the family table "and honored ever after
unto the time of his death."

We are reminded of the story when we read of how
many old people are treated here in Florida. Some of them
have no children. Some of them have no friends. Probably
it is too much to ask that strangers should give them lov-
ing care. But there are others who are regarded as nuis-
ances by their families. And there are no little sons in
such families to remind their parents that someday they
too, will be pitifully old. — Ketchum Times.

The New Capital

San Francisco may not have it all her own way when
it comes to selecting the capital of the United Nations. She
has over 40 rivals, some very serious, but others fairly con-
vinced that they have a chance and that the good old boot-
legging tactics may avail.

Objections have already been raised to San Francisco
on account of its remoteness from the Atlantic Coast which
would be more convenient for the European nations. Eastern
South America would like an Atlantic location also, and
some of the smaller countries think that if the new capital
were near Washington, their present diplomatic stuffs
might be doubled.

If not San Francisco, where? Philadelphia and Chicago
are in the race. Philadelphia's advocates point to the ap-
propriateness of the City of Brotherly Love. A suitable
choice, think others, would be some point on the United
States-Canada boundary, the world's longest unfortified
dividing line. The 4,000 miles and 131 years of peace which
this boundary has enjoyed make it a good site for the capi-
tal of the United Nations.

Another proposal, just made, might better please some
who hope for an Atlantic location. It suggests the choice of
a site in Dutchess County, N.Y. President Roosevelt's home
county.

Betatrons

These are the days that strain people's vocabularies.
Announcement recently that the University of Illinois planned
to build the world's largest betatron sent most readers
scurrying to their dictionaries, and generally in vain.

A betatron is one of the latest and most spectacular in-
ventions that have come from atomic study. It might also
be called an "electron accelerator." The example in the Gen-
eral Electric Research laboratories at Schenectady, N.Y., is
a mass of iron, glass and copper, weighing 130 pounds. It
hurls electrons into space at a speed like that of light and
can shatter almost anything into atoms. Twelve-inch armor
plate is pierced like butter by the electrons thus hurled.

The General Electric apparatus can produce 100,000,000
electron volts of energy says its inventor, Prof. Donald W.
Kerst of the University of Illinois. The improvement on
which Kerst is working for the University will produce more
than 250,000,000 electron volts, or more energy than that
obtained by splitting a uranium atom.

This word is only the beginning. Eventually atomic in-
vestigations may add as many new words to the language
as came from the automobile and airplane.

Heroes

One of the finest examples of old-fashioned American-
ism observed lately is the farmhouse now rising like a
benefaction on the "Thank You Farm" of Pvt. Gene Atkins
at Spartanburg, S.C. He is a winner of the famous Congres-
sional Medal of Honor, which comes to few men, and his
proud neighbors are building the house for him free.

It would do no harm for some other communities in
various parts of the country to show similar appreciation
in their communities for distinguished war heroes. There
isn't much danger of over-doing it, from the viewpoint of
either the hero or the neighbors. This is a land of heroes,
with hardly a county in it that couldn't find at least one to
celebrate without looking very far.

Oklahoma Tackle Turns Out To Be Able Cartoonist

NEW YORK, Nov. 19. (AP)—A crowd of better than 3000 is ex-
cited, rugged-looking tackle on a
college football team is about the
last man in the world you would
expect to be a first-class cartoon-
ist, but just to prove that all
things are possible in this world
of ours, one has turned up.
His name is Tommy Tallchief,
a 215-pound Indian who amply
fills a tackle slot for the Univer-
sity of Oklahoma. Tommy is a
born sketcher. Before and after
the Oklahoma daily practice ses-
sions, he can be found stalking
about the Sooner stadium with a
pencil and some white cardboard,
drawing likenesses of fellow play-
ers and coaches.

Tommy began combining his
football and cartooning in his
high school days at Fairfax, Okla-
homa. As one of his friends puts
it, Tommy could have been an
honors student in high school had
he applied himself. But, it seems
he preferred to sit and draw the
teacher.

Of course, he branched out a
little, too. Tommy then began to
sketch Indians and landscapes.
One of his drawings, a picture of
an old Indian, achieved a school
recorder fame out beyond Fairfax.
For the purposes of the story, the
Indian's name was Harry. He
liked to drink, Tommy sketched
him sitting a day-long bottle horse
and called the finished work
"Old Harry Riding Old Day." That
particular painting still graces
the walls of one of the leading
pool parlors in Fairfax.

Tommy enrolled at Oklahoma in
1937, after serving for two
freshman terms, joined the Navy
eight months before Pearl Har-
bor. He saw some of the bright-
est fighting in the Pacific and
was on the upper Enterprise at
the time of Midway Island.

Incidentally, Tommy does not
subscribe to the lecture method
of class instruction. He has been
known to arise from his seat dur-
ing a lecture which bores him and
stalk out of the classroom, pos-
sibly on the theory that whatever
doesn't interest him can't educate
him.

Long Arm Law

Automobile Owners & Drivers

If you drive or if your car or
truck is driven in any State
in the Union and is involved in
an accident, you can be com-
pelled to return to that State
to defend a suit.

Recently a party from an-
other State had an automobile
accident in Sanford. He was
insured in one of the com-
panies we represent. The in-
surance company agreed to pay
any claim for bodily injury
and property damage against
him and he was allowed to
continue his trip.

Without insurance his car
would probably have been tied
up in court procedure and he
required to return to Sanford
to defend the suit.

The cost of this protection is
very reasonable for the bene-
fits you get. For \$16.50 you
can be protected up to \$5,000
for bodily injury and property
damage claims while driving
your car in any State.

Special Union Service At Baptist Church

The Sanford Ministerial Association has invited city-wide support of the Thanksgiving Union Service which will be held at the Baptist Church Thursday morning at 9:30 A. M. All religious groups are invited to attend. Dr. J. B. Root said: "Thanksgiving has been much in our thoughts of late just as sacrifice was uppermost in our mind during the long years of the war. We have profound reasons for thanksgiving. Our victory represents the quest of right over error, and we may feel a particular gratitude in the evidence that we have seen of the controlling hand of God in the affairs of men. God moves in a mysterious way His wonders to perform. On this occasion we may well center our thoughts on the love and the loyalty of the millions of little cottages scattered all over America. Be it ever so humble, there's no place like home." The Thanksgiving service Nov. 22 at the Baptist Church will include organ selections, a vocal solo by Mrs. J. S. Cleveland, prayers by Frank Shames, Rev. Mark Carpenter, Rev. W. P. Brooks Jr., Rev. J. B. Root, Rev. J. E. McKinley, Rev. E. D. Browne, Rev. Glenn Smith, Rev. L. J. Wright, and Rev. A. S. Whorton.

Lt. and Mrs. Minarik Are Guests Of Honor

Lt. and Mrs. Harry J. Minarik were honor guests at a tea given yesterday afternoon by Mrs. L. M. Leinhardt and Mrs. F. E. Roumillat at the home of the latter on 910 Palmetto Avenue.

The rooms of the Roumillat home were decorated with various colored Fall flowers. A sweet course was served on the patio with Mrs. Michael Minarik presiding at the tea table. Assisting in serving were: Mrs. James Dosssey, Mrs. James Crappo, Mrs. Dick Aiken, Jr., Mrs. Russell Simmons and Mrs. James Terwilliger.

The hostesses presented the honor guests with gifts of Florida crystal. Those invited to tea were: Mrs. L. M. Leinhardt, Mrs. F. E. Roumillat, Miss Susan Kirtley, Miss Elizabeth Dyson, Miss Clea Dyson, Miss Helen Tamm, Miss Louise Perkins, Miss Margaret Spencer, Miss Jane Thier, Miss Betty Thurmond, Miss Doris Hall, Miss Guendolyn Hayes and Miss Cecelia Truluck.

West Side PTA Has Its Monthly Meeting

The monthly meeting of the West Side School P.T.A. was held Thursday afternoon in the school auditorium with the president presiding, Mrs. Lottie Nix, the devotional chairman presented a short program with the pupils of the third and fourth grades participating.

A report of the Halloween Carnival was given and the chairman expressed her thanks to those who helped make the carnival a success.

A report was given by Mrs. C. A. Anderson on the recent P.T.A. state convention which she attended as a delegate of West-side school. Mrs. Frank Bauer, another delegate, also reported on the convention.

The blue ribbon certificate was presented by Mrs. Anderson on the convention and the West Side school was the only school in the county receiving the award for the year 1944-45. This certificate was given in recognition of having successfully carried out the Florida Program of Service for Children.

The first grade won the party award for having the most parties presented.

Mrs. Anderson introduced the guest speakers, Miss Ruth Hand and Mrs. R. F. Cooper. Miss Hand gave a talk concerning her work as county supervisor of education and Mrs. Cooper's topic was "When and How to Say No To Children." Refreshments were served in the lunch room to members and guests. Hostesses were: Mrs. George King, Mrs. C. Robinson, and Mrs. A. C. Cleveland.

County Growers Face An Acute Labor Shortage

(Continued From Page One)

have been working during the summer months, there is an acute labor shortage, due to their disinclination to work full time, Mr. Dawson said. He attributed this to high wages they had been paid in the north.

The labor program under the WPA policy of importing negro labor from the Bahamas, has been very successful during the past two years, said Mr. Dawson, and Congress appropriated money for this purpose. He added that while last year he was certain of getting the imported workers here, this year he had no such assurance.

If the workers can be brought here they will be housed at the War Food Administration Labor Camp on the west side. He predicted that this would be the last year such imported labor would be available to local growers.

Hitler Gang Goes On Trial At Nuernberg

(Continued From Page One)

common plan of conspiracy for accomplishment of crimes against peace—against humanity—war crimes—not only against armed forces of their enemies, but also against non-belligerent civilian populations.

Thus, the United States, Great Britain, France, and Soviet Russia began the trial of Adolf Hitler's henchmen—a unique and unprecedented trial to convict for all time the twelve year scourge of German aggression which sought to rule the world for 100 years. Under the glare of spotlights in the heavily guarded courtroom, the Nazi plotters and triggermen alternately appeared bugged and interested as one lord deed of the Third Reich after another was recounted.

Herman Goering stole the show—nodding and gesturing during the recital; leaning forward to Kibitz over the shoulder of a black-powdered German lawyer, Rudolf Hess, looked back and forth with a strange grin on his face. It later turned out that he had a stomach ache—a congenital case of cramps—and not from the bread and oatmeal, bread and black coffee which he and his notorious pals were served before being marched into the courtroom. But all twenty looked very solemn as the Allied prosecutors spelled each other in retelling those parts of the indictment describing the brutalization and murder of millions of Nazi victims.

Still another Nazi—Adolf Hitler's deputy and number two Nazi, Martin Bormann—is standing in the courtroom, but he is not present in the city. Bormann's listed office is in Berlin and he is being tried in absentia.

But except for three other Nazi, all of Hitler's inner gang were on hand for the proceedings. From the Punjabi Prince Donna of the rather obscure propaganda Nazism—Hermann Goering—to ministry handyman, Hans Fritz, sche.

All listened with varying emotions as the American and British prosecutors took seventy min-

utes to read only the first two. They are using a condensed version of the charges in an effort to speed up the trial proceedings. One lord deed after another. The two prosecutors reconstructed the careers of the Germans on trial. There were no legal turkeys at the start of the historic case. The windows of the court room overlook the city of Nuernberg—one-time shrine of the Nazi party.

Tension Mounts As Workers Send Ultimatum To GM

(Continued From Page One)

les Wilson has expressed doubt that a reply can be prepared in time. Should the company reject the union demand, many observers are convinced that a strike would be called.

Some 150 labor disputes are keeping idle 275,000 workers throughout the country, but one of the nation's really sore spots on the labor front is Chicago. Union officials said today that affiliates of the National Federation of Telephone Workers are throwing their lot in with the Illinois Telephone Traffic Union. The strike of 8,700 telephone operators has crippled long distance service.

In Chicago, 1,500 members of the Federation of Long Line Telephone Operators have turned sympathizers. Though they're not striking, a New York union official, J. J. Moran, said they would refuse to handle long distance calls to or from Chicago. Other affiliated unions across the country have been asked to stand by for full support of the strikers if necessary.

Nor is the picture much brighter in Washington. Management officials have declared that the various subcommittees are failing to get down to brass tacks on the issues at stake. And the management men say they will be forced to bring in separate reports of their own if the committees cannot get together on a more realistic approach.

General Eisenhower, meanwhile, is on his way to Chicago where he will speak at the American Legion Convention tonight.

WASHINGTON Report

Southern Senator's Recipe For Keeping Good Spirits
Too Many Things to Worry About Now—So Why Worry?
By HELEN ESSARY
Central Press Columnist

WASHINGTON—As stories, proved by factual evidence, reach the stay-at-homes of much disgruntled looking by United States soldiers in being asked by troubled civilians.

Why did not the officers-in-charge of troops stop such shocking outrages? And there were many incidents best described as "outrages." Was it not their duty to control the men they were supposed to command?

Heaven knows, I cannot answer any of the messy questions peace has brought to light. Nor did I ever think that the wholesale killing and destruction that is war could bring about a paradise of four freedoms.

I mentioned my anxieties to Senator Burnet Maybank (D) of South Carolina with a "How do you manage to look so cheerful when things are in the state they are?"

"I tell you it's this way," said the senator. "There's just so much to worry about. Strikes and unemployment and atom bombs and what to do with veterans and inflation and do we feed Europe and give money all over the universe and the next war? Not to mention such minor complaints as where does the butter go?"

"To tell you the honest truth there are so many troubles in my head, I just can't concentrate. So I have figured out the only thing to do is not to worry about anything and do the best I can with each problem as it comes along."

AMERICAN INGENUITY, distasteful side, meets the capital bus of street car strike as a maiden standing on a corner of 14th and streets. Washington, holds aloft placard reading in large letters: CONNECTICUT AVENUE AND ORDWAY STREET.

I asked the maiden if she was having any luck. "Been doing it for weeks," she said. And then jumped to take her choice of four private cars in the act of draping up to the curb to offer a lift.

"WE HAVE WALKED into the crisis of civilization," said Representative Clare Luce, as she sat with other members of the House Military Affairs committee listening to the testimony on the atom bomb.

Absent minded professor from Cambridge, Dr. James E. Conant, president of Harvard university, wore a War department identification tag pinned to his conservative grey coat when he appeared at the atom bomb congressional hearing. He forgot to return the label that had proved him a reliable citizen in the Pentagon building.

GETTING READY FOR SPRING at 1600 Pennsylvania avenue: In the flower beds in front of the White House, gardeners are at work digging up the big red cannae from around the fountain. Next the gardeners will put in tulip bulbs. Clear pink ones, such as they planted last year. It is the opinion of connoisseurs that either pink or red is effective against the white walls of the White House. Especially so, since the walls have been painted.

"DON'T TELL ME ANYTHING more about the war. I'm sick of it," you say. Perhaps you are right. But there are some echoes of extraordinary goings on in the European and Pacific theaters that ought to be given an airing.

For example, the carefree activities of many high-ranking officers who quite forgot the wives they left behind. There were open examples of extra curricular life that, speaking politely, were not a pretty example to unrelated men.

You hear criticism of the frivolousness of some women in uniform. I've inquired a bit into these matters. To every such question I got the same answer.

"This is one time when you can't blame the women. You can say the girls stalked the men. The situation was quite the opposite. The girls with few exceptions were nice girls. But the men—they were silly and vain. Determined to be flashy regardless of the spectacle they made of themselves."

French Youth Is Stowaway On Army Troop Transport

BOSTON, Nov. 20, (AP)—A 14-year-old boy, wearing three bronze battle stars, waits in an immigration station today. The boy is French; the bronze stars are unofficial; and he got into this country as a stowaway.

The whole strange story came out when the Massachusetts Victory landed in Boston yesterday. The French boy, Tony Acciari, came in with statements of the first Airborne Army. He was their mascot, their humorist, and their comrade. For him they'd cut down a regulation Army uniform and placed the chevrons of a Sergeant on the sleeve. The bronze star medal they'd given to Tony for his participation in a safari which won a bronze star officially for one of the Yanks with him.

Tony Acciari was the son of French citizens of Italian extraction. When the fighting was still near Nice on the French Riviera, Tony, just 11 years of his family, that's where the first Airborne Army came to the rescue. Tony stayed with them through months of warfare and took part in the actual fighting. The type of his regiment unit say that Tony can handle various weapons. He speaks fairly good English and a few other languages. His big desire is to stay in this country and go to school. Tony has been offered a home by Sergeant Nicholas Butera, a bachelor who owns a garage in South Boston. But as of this moment, the boy is being held at the immigration station. Just before authorities took him off the pier, the man of who had seen Tony "float" through the port waters, the immigration officer collected several hundred dollars for the homeless young soldier. To tell him over till happier days.

Jap War Criminal Commits Suicide

TOKYO, Nov. 20, (AP)—One of the 11 Japanese war leaders ordered arrested by General MacArthur has committed suicide in his cell in less than 24 hours after the immigration station. Just before authorities took him off the pier, the man of who had seen Tony "float" through the port waters, the immigration officer collected several hundred dollars for the homeless young soldier. To tell him over till happier days.

He is Baron General Shigeru Honjo, who is reputed to have started the Japanese conquest of Manchuria. Honjo killed himself in his office less than 24 hours after MacArthur ordered his arrest along with ten other top military and political leaders.

Honjo had a long career in the Japanese army and achieved his greatest notoriety as commander of the Japanese Kwantung army. But he decided to commit suicide after reading in a Tokyo newspaper the victory's terms in his arrest.

Meanwhile, MacArthur has issued another order affecting the finances of the Japanese imperial household. He has ordered all its assets frozen and suspended all transactions until further notice. In addition, MacArthur has directed the Jap government to furnish a certified audit of the

Correspondents Are Banned From Shrine

TOKYO—United States military guards on duty around the Yasukuni shrine barred American newsmen and photographers today from the grounds. The newsmen and cameramen were attempting to cover the visit of Emperor Hirohito to the shrine to pay homage to the war dead.

The newsmen now have the status of civilians as they are no longer accredited as war correspondents to the Army.

The Allied Headquarters Public Relations Office said the action of the guards was in error. The office promised that the status of the civilian correspondents will be clarified.

Sen. Maybank

Sen. Maybank

WASHINGTON—As stories, proved by factual evidence, reach the stay-at-homes of much disgruntled looking by United States soldiers in being asked by troubled civilians.

Why did not the officers-in-charge of troops stop such shocking outrages? And there were many incidents best described as "outrages." Was it not their duty to control the men they were supposed to command?

Heaven knows, I cannot answer any of the messy questions peace has brought to light. Nor did I ever think that the wholesale killing and destruction that is war could bring about a paradise of four freedoms.

I mentioned my anxieties to Senator Burnet Maybank (D) of South Carolina with a "How do you manage to look so cheerful when things are in the state they are?"

"I tell you it's this way," said the senator. "There's just so much to worry about. Strikes and unemployment and atom bombs and what to do with veterans and inflation and do we feed Europe and give money all over the universe and the next war? Not to mention such minor complaints as where does the butter go?"

"To tell you the honest truth there are so many troubles in my head, I just can't concentrate. So I have figured out the only thing to do is not to worry about anything and do the best I can with each problem as it comes along."

AMERICAN INGENUITY, distasteful side, meets the capital bus of street car strike as a maiden standing on a corner of 14th and streets. Washington, holds aloft placard reading in large letters: CONNECTICUT AVENUE AND ORDWAY STREET.

I asked the maiden if she was having any luck. "Been doing it for weeks," she said. And then jumped to take her choice of four private cars in the act of draping up to the curb to offer a lift.

"WE HAVE WALKED into the crisis of civilization," said Representative Clare Luce, as she sat with other members of the House Military Affairs committee listening to the testimony on the atom bomb.

Absent minded professor from Cambridge, Dr. James E. Conant, president of Harvard university, wore a War department identification tag pinned to his conservative grey coat when he appeared at the atom bomb congressional hearing. He forgot to return the label that had proved him a reliable citizen in the Pentagon building.

GETTING READY FOR SPRING at 1600 Pennsylvania avenue: In the flower beds in front of the White House, gardeners are at work digging up the big red cannae from around the fountain. Next the gardeners will put in tulip bulbs. Clear pink ones, such as they planted last year. It is the opinion of connoisseurs that either pink or red is effective against the white walls of the White House. Especially so, since the walls have been painted.

"DON'T TELL ME ANYTHING more about the war. I'm sick of it," you say. Perhaps you are right. But there are some echoes of extraordinary goings on in the European and Pacific theaters that ought to be given an airing.

For example, the carefree activities of many high-ranking officers who quite forgot the wives they left behind. There were open examples of extra curricular life that, speaking politely, were not a pretty example to unrelated men.

You hear criticism of the frivolousness of some women in uniform. I've inquired a bit into these matters. To every such question I got the same answer.

"This is one time when you can't blame the women. You can say the girls stalked the men. The situation was quite the opposite. The girls with few exceptions were nice girls. But the men—they were silly and vain. Determined to be flashy regardless of the spectacle they made of themselves."

One-Arm Grid Star Plays For Florida School

"Punch" Hoffman Is Athletic Contests Sensation In FMA

ST. PETERSBURG, Nov. 20. (Special)—One-arm baseball players are nothing compared with Loyce "Punch" Hoffman of Florida Military Academy, St. Petersburg.

"Punch" goes one step farther. He is a one-arm football player and a rattling pool player.

In a recent contest with Gulf High of New Port Richey, for example, Hoffman was trailing 7-0 at the half. The New Port Richey team was down 10-0 when Hoffman was in the game.

Hoffman's right arm is a natural, but it has never been responsible for any inferiority complex.

"I have always liked sports," he explained, "and have never considered my one arm as a handicap."

Though football is his favorite sport, "Punch" also has played on the FMA baseball team. He has tried out for basketball at FMA, but as "Punch" put it, "I just couldn't get started."

"Punch" is scheduled to graduate this June and has hopes of going to college.

Blocking and line backing are not the only handicaps "Punch" exhibits on the gridiron. In two other contests, "Punch" left the opposing players and sport writers amazed by snaring two long passes with his one arm.

He's one of the few scholastic football players cheered by rooters of the opposition. The opposition has good reason to cheer only because Hoffman displays a typical American spirit to succeed in spite of his handicap but because he is a consistent threat to their hopes of victory.

The 17-year-old senior at FMA is the son of Mrs. J. D. Clarke of Fort Smith, Ark., and one of the few commissioned and non-commissioned officers leading the more than 200 cadets at the school.

He is a natural with a natural right arm, but it has never been responsible for any inferiority complex.

"I have always liked sports," he explained, "and have never considered my one arm as a handicap."

Though football is his favorite sport, "Punch" also has played on the FMA baseball team. He has tried out for basketball at FMA, but as "Punch" put it, "I just couldn't get started."

"Punch" is scheduled to graduate this June and has hopes of going to college.

Chinese Communists Enter Changchun

CHUNGKING, Nov. 20. (AP)—The China Times says 4,500 Chinese Communist troops have entered the Manchurian capital of Changchun. The dispatch did not say whether Soviet occupation forces previously had evacuated the city.

The account of the entry into Changchun was received in Chungking as other dispatches told of gains by Generalissimo Chiang Kai Shek's Nationalist forces in their struggle into Manchuria. The Nationalists were said to be 35 miles inside Manchuria and only 190 miles from the big industrial city of Mukden.

At the same time, the China Times published an otherwise unconfirmed story that new conferences between China and Russia on the tense Manchurian situation would be held soon either in Chungking or Moscow.

Rumors in Chungking said the Russians had laid down 20 conditions which must be met before they would permit the entry of airborne Nationalist troops into Manchuria.

The Chinese previously had asserted that Nationalist troops would be flown direct to Changchun.

The mouthpiece of the Chinese Communists—the new China Daily News—once again raised its voice against America's position in China. It charged that Chinese patriots were becoming enraged over what it said was the intention of United States

Swiss-Italian Trade Policy Ineffective

BERN, (AP)—Swiss commercial circles report that a Swiss-Italian trade agreement has been rendered ineffective by the opposition of American military authorities.

The two countries had arranged for the amortization of the 400,000,000 Swiss francs clearing debt which Italy owed Switzerland, and a credit of 80,000,000 Swiss francs was planned to finance Italian exports to Switzerland.

The view of American authorities, Swiss sources said, was that Italy should first liquidate its debt toward the United States.

"Punch" is scheduled to graduate this June and has hopes of going to college.

"I'M SORRY, SIR, BUT I'LL HAVE TO CHARGE YOU MORE IF YOU HAVE MORE!"

How much can you pay?

What would you think if the clerk at your favorite store asked to see what you had in your wallet before he decided what to charge you for a shirt?

Or if, just because you happened to have some money saved up, you were asked to pay more than other people for a haircut, a movie ticket, or even such important items as rent, food and clothing.

That's exactly the kind of reasoning UAW-CIO leaders are using in their wage demands on General Motors—

They point to funds we have saved up over the years to expand and improve our plants and provide more jobs and more production. They say, "Give us that in higher wages."

General Motors does not go along with that kind of reasoning. People should not have to pay more just because they have a savings account—

For many years we have used our savings to expand capacity, create more jobs and provide greater values.

And we intend to keep on doing just that. We are, at present, embarked on a very important reconversion and postwar expansion program. Our objective, now as always—to produce more and better things for more people.

Celebration For Colored Vets Is Slated Thursday

Program Will Be Given At Bethel A.M.E. Church At Cannan

A Thanksgiving Victory celebration, welcoming home colored veterans of World War II, will be given in the form of a banquet at Bethel A. M. E. Church at Cannan City, Thursday noon, to be followed by a program at 3:00 P.M. in which the Rev. W. C. Wynn, AMDBD, Chaplain of Florida A.M. College will speak and to which response will be made by State Senator Lloyd F. Boyle.

Wives, mothers and sweethearts of the colored veterans, veterans of World War I, and citizens, white and colored, are invited to attend the serving of fresh water fish, barbeque and coffee.

According to the Rev. Wallace H. Sanders, pastor of the church who originated the program, "The purpose of this banquet is to instill in the minds of our returning veterans the ideals of being law abiding citizens, standing
