## DEMOCRATS TO HELP ELECT G. O. P. FRIENDS

### Farley Indicates That Independents Who Boosted Roosevelt Will Be Cared For

WASHINGTON, Jan. 27.—(A.P.)—The Republican Independents who helped to boost Franklin D. Roosevelt into the White House probably will find sympathetic co-operation at the headquarters of the Democratic national committee when they come up for election next fall.

How far this co-operation will extend has not yet been decided, but it was distinctly indicated yesterday by Chairman Farley of the national committee, Farley and his California voters would reelect Senator Hiram Johnson.

He added that his reference to Senator Johnson was a personal one, but that he knew enough about California to know that, of course its voters will retain Hiram Johnson to the Senate.

Two other progressive Republican senators, up for reelection this fall, are in a position similar to that of the California senator who broke with his party to support President Roosevelt.

They are Senator La Follette, Republican, Wisconsin, and Senator Cutting, Republican, New Mexico, and the beneficiaries of the Administration probably would be welcomed by both, particularly La Follette, who apparently is facing a hard contest.

Although it was said the Ad continued on Page Two.

## Experts Who See Business On Mend Comforted In Report Of Increased Foreign Trading

WASHINGTON, Jan. 27.—(A.P.)—Those experts who believe business is on the mend yesterday found comfort in reports of increased foreign trade for 1933 which showed particular improvement in the last six months.

December reached proportions that were near a comparative record for the past two years while the 1933 exports of \$1,676,000,000 and imports of \$1,488,000,000 both were higher than those for 1932. It was the first yearly increase since the depression began, and a part of it was attributed by the commerce department to currency depreciation.

Exports for 1932 were \$1,611,000,000 and imports were \$1,322,000,000.

Trade figures for December as made public by the commerce department were:

1933 exports, \$192,000,000; 1932 exports, \$131,514,000.

1933 imports, \$133,000,000; 1932 imports, \$97,087,000.

For the first time since 1925 exports in December exceeded the previous month. Usually, trade declines about 8 percent between the two months, while this year it reversed the trend for a gain of 4 percent. Imports also rose, this being accounted for entirely by the increase in purchases of spirits and wines.

Most of the 1933 gains occurred in the last six months of the year after a virtually continuous decline for the first six months. A continuation of the trend this year would bring 1934 totals to near 1933 levels.

A survey of statistical evidence and of the opinion of economic forecasters, both in and out of the government, disclosed the almost unanimous belief that a spring business rise was sure. There was a considerable opinion that it would be of more than seasonal size.

Most significant of the indicators was the increasing amount of government spending. Aside from its regular expenditures, the government has almost doubled its emergency payments every month for the past three months, and these seem certain to increase.

The only average of building contract awards, a good pointer because it indicates future production, is that of the city of New York. It indicates a day in the first half of January.

Automobile production, an indicator because production is being unfurlly watched by the automobile industry as well as by the demand for cars, was higher in the week ended Jan. 20 than in either comparable week in the last two years.

Steel operations climbed in the first three weeks of January. All indicators were not favorable. Loans and investments of banks were unusually low, although loans to business increased slightly in the week ending Jan. 17 over the previous week.

## TAX REFUNDS FOR 1932 WENT INTO HANDS OF 127,011

### Over \$3 Returned On Every \$1 Collected; 51 Million Paid Out

WASHINGTON, Jan. 26.—(A.P.)—The figure-studded records of the United States treasury yesterday showed that 127,011 individuals and corporations had the first year of getting a check from the government marked "income tax refund."

Being refund lists were started with some of the best known names in the nation, many of them being back on the list after having paid the \$100,000,000 annual corporation income tax for that amount.

All in all, if you wanted to get out of it, the government returned \$3.18 to you for every \$1 of tax refunded; and a total of \$3,180,000,000 was paid out in 1932. It was the first time since the war that the government has paid out more than it collected.

Individuals and corporations who were on the list in 1931 were on it again in 1932. The vast majority were the same, but for some of the names in 1932 were new.

Among the names in 1932 were prominent in the list, the name of E. W. McDonald, of the home, an old man, 80 years old, who had been in the military service of the treasury, and a number of others whose names were on the list in 1931.

Reaches 75

DOORN, Netherlands, Jan. 27.—(A.P.)—Exercising in honor of former Kaiser Wilhelm's birthday were opened by Rev. Ludovic Scheller at Doorn today.

With a sermon in which he said that "only the imperious crown" is the "crown of the king," the Catholic pastor, Rev. Scheller, called attention to the fact that the Kaiser had been a friend of the common people. "Without any a word," he said, "the Kaiser was a man who stood for the people."

Individuals and corporations who were on the list in 1931 were on it again in 1932. The vast majority were the same, but for some of the names in 1932 were new.

## Present Economy Act Is Said Driving Spanish-American War Veterans To Kill Selves

### TUGWELL SAYS THAT ACTION IS NEW DEAL BASIS

### Old Theory Of Letting Nature Take Course Has Been Abrogated

WASHINGTON, Jan. 27.—(A.P.)—A statement that the Economy Act was driving Spanish-American War veterans to suicide was made before a Senate appropriations subcommittee yesterday.

With it went a recommendation that the act be amended to make it unnecessary for these men to prove their disabilities were of service origin.

Rice M. Means, appearing for the veterans, said it was unfair to make them prove service connection for their disabilities on the basis of the act. He noted a number of the House as saying that the act was a "suicide" law.

He said that the act was a "suicide" law, and that it was driving Spanish-American War veterans to suicide.

## FRANCE LOSES 4TH CABINET WITHIN YEAR

### Bayonne Bank Scandal Demonstrations End In Resignation Of Chautemps Group

PARIS, Jan. 27.—(A.P.)—Premier Chautemps and his cabinet resigned today.

The resignation followed a series of demonstrations against the government as a result of the recent collapse of the Bayonne municipal pawnshop, and the resultant "Mud bath" for government officials in the Chamber of Deputies.

Two cabinet ministers, Albert Dalmer, minister of colonies, and Eugene Lamy, of the justice department resigned under the fire of deputies. The Chautemps government lasted exactly two months. Its collapse was the fourth in a year.

After a hectic day in which Minister of Justice Raymond Lacombe resigned, Premier Chautemps announced last night that he would fight to the last ditch an opposition drive to wreck his ministry as a result of the Bayonne pawnshop scandal.

The premier was reported by socialist deputies early last evening to be ready to quit, but he later issued a fighting statement declaring he would face parliament today for another debate on the 400,000,000 Bayonne pawnshop.

Minor street disorders occurred in the center of Paris, meanwhile, as popular indignation over the government's alleged part in the affair flared again.

## SILVER MEN PLEAD CAUSE IN CONGRESS

### Despite Odds Against Them, Senators Beg For Inclusion Of Metal In Money Act

WASHINGTON, Jan. 27.—(A.P.)—Under speech making limitations expected to result in the passage of the monetary bill late this afternoon, the Senate went through more silver innings today with Westerners proclaiming that their amendments would "materially assist" rather than hinder the Roosevelt program.

Recess in the House for a week-end attracted through senate galleries as Democrats Wheeler of Montana and Pittman of Nevada pleaded in the face of enclosed odds for the white metal which means so much to these states.

Sitting placidly by Robinson, Democratic leader, evidently was counting on getting the amendments reelected and been having a final vote.

Chances for Congress at this session to enact regulatory legislation for stock exchanges and communications shown today to have been recommended by administration committee were seen as perilously dwindling inasmuch as the President himself didn't make any specific request.

The Senate vote on a bill to provide for the purchase of silver certificates method of the Department of the Treasury which would issue of the President's bill. The selection bill will be debated by tonight.

First however the chamber must vote on the proposal of Senator Wheeler, Democrat Montana, that the treasury be instructed to issue 50,000,000 ounces of silver certificates and silver coins.

Wheeler's persistent champion of the white metal brought up his proposition at the close of a day.

## Byrd Fears For Safety Of 43 Off-His-Comrades

RAY OF WALES, Antarctic Jan. 27.—(A.P.)—Rear Admiral Richard Byrd expressed apprehension today for the safety of his press camp and 43 men of the second Antarctic expedition marooned there by disintegration of a vast ice shelf covering the bay.

In addition to the 43 men at the camp a temporary supply base of four and one-half miles south of the edge of the ice, four others there were at Little America cut off from their comrades.

With the temperature a little below freezing the ice was disintegrating everywhere and the whole front of the bay flung 8 miles across was crumbling.

After a reconnaissance flight Byrd said he is convinced that there is grave danger for the whole flooring of the bay. The Admiral's flagship is drifting in the bay unable to berth against the crumbling ice.

Members of this committee are W. S. Coleman as chairman, Captain C. H. Hallett of Fern Park, vice chairman, C. E. Adams, E. H. Bennett, C. H. Ellis, H. W. Herndon, S. D. Higleyman, Jno. D. Jinkins, J. L. Marquette, Frank Peires, W. H. Schmidt, A. G. Wagner, W. W. Warner.

Consideration of a special proposal made by Mayor W. A. Jeffery in the matter of tourist entertainment will occupy the attention of members of the Tourist Committee of the Seminole County Chamber of Commerce when they meet at the City Hall Monday afternoon at 3:00 o'clock.

## Clearwater Man Files \$25,000 Damage Suit

CLEARWATER, Jan. 27.—A \$25,000 suit against the Florida Power Corporation was filed in circuit court Thursday by attorney for Leslie H. Miles, Clearwater, who was injured in an automobile collision here last July in which George Hanson, local manager of the power company, was one of the drivers.

No declaration was filed, but attorneys said the suit was brought against the power company because Hanson was driving a company car at the time of the accident. Miles is a minor.

When the Thursday night deadline for the purchase of 1934 city occupational licenses had been reached, 519 licenses out of a possible 600 licenses that may be sold this year, had been secured, it was reported at the City Hall yesterday.

Sale of the 519 licenses netted the city \$413,776, which sums several hundred dollars more than the entire collection for 1933. Nine Thursday, 41 licenses had been issued, bringing in almost \$500.

City Tax collector Ellen Hoy declared that police have been unusually successful in their daily drive of reminder to all merchant and professional men that licenses must be purchased. Only a few names of persons who have failed to purchase licenses remain on police lists, she stated.

## WIGWAM BIGWIGS SAID COGNIZANT OF JAIL STATUS

### Direct Link Between Tammany Heads Of Prison Disclosed

NEW YORK, Jan. 27.—(A.P.)—The Tammany Hall organization is said to have a direct link between its heads and the heads of the New York State Prison system, according to a report in the New York Herald Tribune today.

Arthur J. Rossi, former New York state senator, who is now in prison, is said to be a member of the Tammany Hall organization, according to the report.

The Sanford Herald... 111 Main Street... Phone 111

RWA Projects Needed

During the special session of Congress last Spring, a public works appropriation of some \$8,800,000,000 was authorized for the construction of highways, canals, aviation fields, public buildings, and other projects of an essential or self-liquidating nature.

Last Fall, in order to hasten re-employment, \$400,000,000 was set aside from the public works appropriation for the so-called Civil Works Administration, or the CWA. All of this fund was to be paid out as a direct grant from the federal government.

Now the CWA is necessarily a temporary proposition. Present appropriations extend its operations only to February 15. Present requests of Congress, if granted, as they likely will be, would extend it further to May 1.

Obviously, however, both on account of the excessive cost of the undertaking, and the impossibility of effecting permanent and worthwhile construction within the limitations of time and materials, the CWA cannot last forever.

As a matter of fact, it was designed only as a temporary expedient to bridge the gap until the larger and more enduring projects of the PWA can get under way. Local governments all over the country, realizing what was happening, have placed innumerable applications for funds.

Sanford should make the best possible fight to get in on this next appropriation. The money is going to be voted, and it is going to be spent. However, we will not get any of it if we do not go after it.

Recently the Times-Union published a list of Florida projects which have been submitted to the Public Works Administration. Some of them had been granted already; some of them had been withdrawn; some of them are still under examination.

Without doubt there are numerous other projects which could be proposed of a similar nature. We believe some of them could be pushed through. Projects of this type are excluded from the CWA program because they cannot be completed in the limited time available.

Deficiency Judgments

Veterans of the Florida real estate boom remember only too well the abuses and inequities of deficiency judgments. Many persons readily enough reconciled themselves to the loss of their homes when falling values and declining incomes made further mortgage payments impossible.

Such practices were, and are, as Judge Paul Bonynge of the New York supreme court stated the other day, "a shock to the conscience." In a decision handed down in the case of the Brooklyn Mortgage Guaranty and Title Company against Mrs. Margaret Ferguson, Justice Bonynge set aside a \$10,479 deficiency judgment.

In 1929 Mrs. Ferguson purchased a home in Bay Ridge and gave a mortgage on the property for \$9,000 to secure a note due in one year. In 1930 the mortgage was extended for three years.

Further the Justice wrote, "What basis of fact or circumstance exists for challenging this travesty, misnamed an auction sale? It seems almost superfluous to call upon recent happenings to mind. Ten months ago every bank in the land was closed, and a lamentable number have never since reopened.

In such a situation, the opinion continued, lending agencies are forfeited with real estate; banks have "largely abandoned their time-honored function" of accommodating the worthy borrower.

It was into this maelstrom of economic forces that Margaret Ferguson was plunged through default of her guaranty, and the consequent election of the plaintiffs to sell their loan. The law presumes that a wide-awake debtor will, under such circumstances, apply to and obtain from another lender equivalent accommodations and thus protect herself against a possible deficiency judgment.

Scope Of Work Under Way Or Projected In City, County By CWA Is Tabulated

Scope of the work now under way or contemplated under the Civil Works Administration was released by the Court House CWA office this morning in the form of the following tabulation which indicates the description and location of the various projects, the type of work under way, and the estimated cost, including that of labor and materials:

Table with columns: Description of Project and Location, Type of Work, Est. Cost. Includes projects like Employment office, Sanitation, Census, etc.

THE SMALL BUSINESS PALATKA NEWS

The right of the small business to survive is one of the mooted issues connected with NRA (National Recovery Administration) policy. There is every evidence that President Roosevelt, through his interested himself in a further study of this problem, may reach the conclusion that big and little business cannot be measured by the same standards.

"Nobody is going to starve in this country. It seems to me equally plain that no business which depends for its existence on paying less than living wages to workers has any right to continue."

SANFORD TWENTY YEARS AGO

Word was received here yesterday that Mrs. Harold... J. C. Harold, in Gainesville, Mrs. Harold was in her eightieth year and while seemingly in good health and spirits had not been well for some time.

held at the Sanford House with L. P. McCuller, W. J. Thigpen, W. E. Watson, R. J. Holly, and Fernat Lake, as the committee in charge of the affair.

There can be no question of the justice of the New York supreme court's decision. At a time when the very foreclosure of a mortgage is questioned in some courts on account of the abnormality of present conditions, the granting of a deficiency is particularly odious.

BRIDGE EXPERTS DEVISE SYSTEM SAID 'SUPERIOR'

Group, Out To Win All Major Turnkeys, Has Faith In New Style

NEW YORK, Jan. 27.—(AP)—A system, which they describe as superior to Sins and Culbertson, has been devised by a group of experts who are out to win every major contract event and who already have won many.

The system uses no artificial conventions and it lacks a name so far. Tentatively, its champion team is called "The Four Aces and a Joker." David Burnstein, Michael Gottlieb, Oswald Jacoby and Howard Schickel are the members with Richard L. Frey the "Joker." He is a "joker wild," taking the place of various members in team play.

With these players, in developing the system, has been associated the brilliant Waldemar von Sedwitz.

As spokesman, Jacoby described yesterday some features of the system, which the group is willing to put to test against any other method under suitable conditions.

Having played frequently as partners and opponents of Ely Culbertson and P. Hal Sims, these experts have discarded a fundamental of each in opening the bidding.

Vulnerable or not vulnerable, their standard for opening the bidding is the same in any position, in the main. With Culbertson a stronger hand is required to open the bidding in third or fourth position. Sims plays open light in third and fourth positions.

With Sims a one over one bid is a force requiring partner to bid again. With Culbertson a one over one bid leaves partner the option of bidding again.

If first hand, having passed and having a good suit, foresees game possibilities after third hand has opened the bidding and wishes to make third hand bid again, he uses a two over one bid.

Opening one no trumps are strong in any position, but deny a rock crusher. A hand containing three aces and a jack, but lacking a good suit, will not be passed in any position.

The experts have devised a method of hand valuation based on comparison with an average hand. They regard it as far superior to honor trick, quick trick and numerical valuations.

With a part score an opening bid of one is forcing, but an opening bid of two of a suit may be passed if the responding hand has a "bust."

Opening bids of three of a suit are shut-out bids not necessarily with "logs, designed to deter opponents. This is in marked contrast to the Sims opening three bid on a power hand and the Culbertson opening three on a semi-power hand.

Culbertson four and five no trump conventions are avoided.

DEMOCRATS TO HELP ELECT G. O. P. FRIENDS

(Continued From Page One) Administration had apparently not formulated a hard and fast policy with regard to the elections in November, it was pointed out that support of both LaFollette and Cutting would be in line with the course the President has pursued since he entered the White House.

This was asserted by party members to be the permanent alignment of the liberal sections of the west and northwest—and elsewhere, too—with the Democratic party.

Some liberals grew concerned over the fact that the postmaster general supported the candidacy of Joseph McKee, independent, in New York against Fiorella LaGuardia, an independent Republican of long standing.

It was pointed out, however, that LaGuardia had never formally announced support of Roosevelt during the presidential campaign, as had the California, New Mexico and Wisconsin senators.

McKee also took a licking in New York. On its face, this would lead to careful consideration before the Administration allowed its name to be brought into another such contest.

In some circles close to the Administration, it was felt, too, that the reorganization of the Democratic national committee might have significance beyond the mere tidying up of party government.

The reorganization, if carried far enough, would make it easier to build liberal sentiment and to aid those candidates nominally outside the Democratic party circle whom the Administration desired to aid.

(Continued From Page One) which saw the Senate give the secretary of the treasury sole authority over the \$2,000,000,000 stabilization fund that would be established and impose a limit of three years upon the effectiveness of the bill.

First efforts to reach an agreement to assure a vote today were balked by the objection of Senator Fess, Republican, Oregon, an opponent of the bill who feared time would not be allowed for a

passed if the responding hand has a "bust." Opening bids of three of a suit are shut-out bids not necessarily with "logs, designed to deter opponents. This is in marked contrast to the Sims opening three bid on a power hand and the Culbertson opening three on a semi-power hand.

Indian River County School Head Is Short

TALLAHASSEE, Jan. 27.—A shortage of \$3,250 in the accounts of former School Superintendent Walter T. James, Indian River county, was revealed Thursday at the office of State Auditor Bryan Willis.

The largest amount of the \$3,250 was in two missing time warrants of a \$10,000 issue made Mar. 1, 1926, from district No. 7. A total of \$900 of the sum represented payment to the former superintendent of ten coupons of missing warrants, \$450 representing payment of coupons from district 11, which had already been redeemed, according to the records.

Assistant Auditor W. R. England said James first denied knowing of the missing warrants or paid coupons but later admitted having received \$900 for coupons of missing warrants. England said James denied knowing the whereabouts of the warrants.

England recommended in the event the warrants are presented for payment that they be held up and investigated by state's attorneys.

As to the payment of the \$900 James was said to have received for coupons, Willis said James probably would be sued and money provided from his bond.

SILVER MEN PLEAD CAUSE IN SENATE
