

Group Will Be Set Up To Run St. Louis Cards For Awhile

NEW YORK (AP)—Fred Salih, owner of the St. Louis Cardinals, is facing a prison term for income tax evasion, said today a committee would be set up to run the club until he could divest himself of his stock.

After a conference with Commissioner Ford Frick and National League President Warren Giles, Salih said he would not participate in the major league baseball meetings scheduled here this week end.

He added, however, he would continue to operate the club and look after business until Feb. 22 when the committee will be appointed.

The cardinal owner said he himself would appoint the committee of civic-minded St. Louis citizens acceptable to the commissioner and the National League.

The committee itself will name the operating head of the club.

Frick and Giles also released a joint statement saying that Salih volunteered the program outlined and in so doing gave evidence of concern for the welfare of his community and the National League and baseball.

Salih was sentenced to 15 months in prison and fined \$15,000 on the tax evasion charges.

Sailor Shot In Heart Will Return To Duty

KEY WEST (AP)—Bobbie J. Jossie, 27-year-old Kingsport, Tenn., sailor who accidentally shot himself in the heart Jan. 8, is ready to return to duty after a convalescent leave.

Comdr. Joseph J. Zukas, 39-year-old Chicago Navy surgeon who saved up Jossie's wound after the shooting, said Thursday night his condition was "excellent" and he will return to duty after a leave.

Jossie was preparing to go off watch when his .38 caliber pistol went a slug through his heart, left lung and back.

Surgeons said the bullet's size and the damage it inflicted made the operation rare.

A doctor said Jossie's escape from death was "just as close as a man can come and survive."

Jax Has Become Top Marine Repair Site

JACKSONVILLE (AP)—Jacksonville has become a high marine repair center in the southeast, James H. Coppedge, maritime industrialist, said Thursday night.

In a talk before the Press and Club, Coppedge said the port's four big drydocks handled 200 major repair contracts in 1953, which brought more than a million dollars of business to the city.

Jacksonville's port trade set a record of close to five million tons for the year, in spite of a world shipping slump of about 15 per cent, Coppedge added. He said 1,185 ships, exclusive of Navy craft, called here.

This equipment, which was installed into the Mary Rawlin Laboratory for x-ray work and laboratory services, I believe, under existing conditions, this is as satisfactory as possible. We are indebted to Mrs. Rawlin and her associates for carrying on under very difficult circumstances. She has enabled the Hospital to continue rendering a most essential service to patients.

"Arrangements have been made for oxygen tests and equipment from the Florida Oxygen Service, which provides for an adequate number of tests and cylinders of oxygen, to be paid for if and when used. This assures better service than ever.

"Most of the members of your Executive Committee and chairman were taken to the new Ochsler Clinic for a pre-opening inspection. It is a modern, fire-proof, building and is filling a great need in this community. During the inspection these arrangements to be a shortage of some equipment. Your committee offered the following furniture that was surplus, and which was stored at the Hospital:

- 3 Chest of drawers, with over-hang mirror.
- 4 Over-bed tables.
- 4 Bedside tables.
- 2 Instrument tables.
- 1 Straight chair.
- 2 Screen frames.

"This was sent out in time for the formal opening. Your committee did not have the authority to make a gift of this equipment and, therefore, it had to be sent on a loan basis. The Executive Committee unanimously recommends that this meeting authorize that the transfer be made permanent, and not to be considered as a loan. We have been assured that the equipment is filling a real need, and is being used daily.

"Another important event in the Hospital history was the authorization by the voters of Seminole County of a bond issue for hospital purposes, which was carried by approximately a 4 to 1 vote, indicating the sentiment of the people in Seminole County and their realization of the dire need of better hospital facilities.

"The next subject may not have an official place in this report, but for the sake of the records, I wish to call your attention to the fact that during the bond issue campaign — which was carried on with a great deal of enthusiasm and sincerity — a number of statements were made about our hospital facilities which probably did not reflect a true picture. In fairness to those who are working and striving to make up by personal service and nursing care for what is lacking in facilities, I feel justified in mentioning one such instance as an illustration.

"At one of the group meetings the statement was made and subsequently published in the press, that an emergency phone call was received at the Hospital for oxygen equipment to be brought to the first floor to treat a patient who was being rushed to the Hospital, that the elevator jammed the equipment was not there when the patient arrived, and the result was fatal. A personal investigation by your Chairman re-

Operation Smack

(Continued From Page One)

Chapman Short (R-Mo) of the House Armed Services Committee said he had sent word to the Army chief of staff, Gen. J. Lawton Collins, now in Japan, asking him to tell Congress what happened. Collins gathered details on the raid when he was in Korea last week. He has made no comment.

Short said he doubted that the raid was a staged show.

A U. S. 1st Corps spokesman who declined to be named, said the "prime mission" of the operation "was that of capturing Chinese prisoners."

None was captured.

The spokesman added: "When the full story is told about the carefully coordinated plans only praise will be forthcoming for this well-conceived operation."

"The observation of the actual attack from points of vantage along the front line provided commanders at all levels with valuable information on which to base future combat operations."

"The effectiveness of an attack provides lessons for all concerned."

Mal. Gen. Wayne C. Smith, commanding the 1st Division, said the raid was never aimed at taking the hill. It was only a strong probe, he said, to show the type of fighting and casualties the Chinese might face if they launched an all-out frontal offensive against dug-in Chinese and Korean Communist forces.

Commander Edward said he watched Allied planes, artillery and tank units blast Spud Hill for hours, turning it into a volcano of erupting explosions.

"This was Operation Smack," he said. "I knew who it had been named—Spud Hill was getting specked and smoked hard."

Smith was thinking, "There can't be a Commie left in fighting condition on that hill."

"But when infantrymen went up the hill, the Chinese Reds, far from being knocked out, threw smashing air strikes and thunderous barrages, were pouring rifle fire at the Americans from both ends of the Communist line. They were lobbing hand grenades down the hill at the assault force."

Edward said mismanaged operation plans, such as those given the visiting generals and correspondents, are standard for any action in the Korean War.

Wolfson's Group Gains Control Of Shipbuilding Firm

WASHINGTON (AP)—Louis E. Wolfson, Miami, Fla., industrialist, announced today he and a group of associates have acquired control of the New York Shipbuilding Corp., Camden, N. J.

Purchase of controlling stock was made from the Avco Manufacturing Corporation of New York City, he said.

New York Shipbuilding, a 54-year old company, is one of the largest shipbuilding firms in the country. Its principal ways and construction yards are on the Delaware River at Camden. It employs about 9,000 workers.

Wolfson, former operator of the Tampa Shipbuilding Corp. Tampa, Fla., said in a statement:

"After several years absence from shipbuilding business I am pleased to have this opportunity to see what can be done with this outstanding ship construction company."

Wolfson is chairman of the board of directors of Merritt, Chapman and Scott Corp., a big construction company. He also is chairman of the board of the Capital Transit Company, Washington, D. C., operator of the city's street car and bus lines.

Dules

(Continued From Page One)

armed as part of a European community enterprise then it will have to be formed separately—something which U. S. policy does not now provide.

The slowdown is by no means the only problem before Dules and Stassen, although Dules' speech made it the most spectacular. There are also marked difficulties in the way of reaching defense targets set up for the North Atlantic Treaty force.

Bonn, Germany (AP)—Chancellor Konrad Adenauer declared tonight he hopes Secretary of State John Foster Dulles will "destroy the illusion" of those who think the United States will guarantee the security of Europe without European doing anything to help themselves.

The chancellor said in a broad cast that he wished this could be made plain especially to Germans and other Europeans who oppose the treaties to raise West German divisions for the projected European defense army.

He said that if the European Army scheme collapses "American interest in Europe will decline" and there will be a resurgence of isolationist sentiment in the United States.

John Davis, Olympic weight-lifting champion in 1918 and 1932, won his first world title in 1938 when he was 17 years old.

THE WEATHER

Partly cloudy with occasional rain today and tonight and some eastern mists early Tuesday. Partly cloudy otherwise, not quite so warm.

Mountainous Tides Bring Fresh Peril To Europe's Coast

Holland Suffers Its Worst Disaster By Flood Waters Since Fifteenth Century

By The Associated Press
AMSTERDAM, The Netherlands—Mountainous new tides rolled in upon Europe's battered coasts today, bringing fresh peril to lands which already have counted more than 850 dead in a week end of hurricane and flood. The toll may pass the 1,000 mark when all bodies are recovered.

Towering waves pounded through ancient dikes at 70 places and covered a sixth of Holland with salt water, bringing the worst disaster since the 15th century. The death toll according to the best available count mounted to 464.

Britain counted 297 dead, 250 in floods, 132 in the sinking of the ferry Princess Victoria and 15 in the disappearance of a British trawler, Belgium had 17 drownings. All three countries mustered a heavy effort—army, navy, relief workers of all kinds—to save thousands threatened by death or cold or disease and to aid millions more whose homes were destroyed.

Property damage was in the millions of dollars.

The Thames River burst its banks at four new places today under the pile-driving force of the afternoon high tides, spreading more desolation. Hospitals at King's Lynn and Tilbury were flooded in part and isolated.

Scores of bodies floated among vast seas of debris on Britain's beaten coasts. There were corpses on rooftops of abandoned homes.

Canvey Island 25 miles down the Thames estuary from London reported at least 100 drowned and 300 missing. Many families were wiped out or broken. Sobbing mothers searched for their children. Homeless lads clinging to boys' sea-washed faces for sight of parents or other kin.

Meteorologists said a million to one combination of wind and tide caused the great storm, a tiny cyclone developed in the Atlantic late last week and a belt of warm air stretching from Africa to Iceland began moving eastward.

Air from the high pressure area fed the cyclone which developed into a big storm center. At the same time, the warm air front pushed the storm east into the North Sea. The storm, a full 100 miles across, was full of lightning and ice.

Illness Of Judge Postpones Opening Of Court Session

Illness of Judge M. B. Smith has forestalled the opening of the fall term of circuit court for civil cases until Feb. 16. Seven cases were originally scheduled to have been heard today.

The first case on the docket when court convenes at 10:00 a.m. will be a \$100,000 damage suit brought by Naomi J. S. Shubert and husband against J. C. Gibbs and wife. An automobile accident in Sanford during 1951 was listed as cause for the action.

At 9:30 o'clock on the morning of Feb. 17, a \$50,000 damage suit will be brought by Hamilton Concrete Products Inc. against H. Leonard Alexander and James B. Alexander. Doing business as Alexander Bros.

The first afternoon case that same day will see action in the complaint filed by the Sanford Orlando Kennel Club Inc. against Walter G. Connelly. The case will come to trial without a jury and involve \$8,000.

Another accident in Sanford this one at the corner of First Avenue and Ninth Street on Jan. 28, 1952, will result in a hearing at 10:00 o'clock the morning of Feb. 23. A city truck driver, Frank Wheeler, is being sued for \$75,000 damages by Margaret F. Howell and her husband, Roy Howell Jr. of Lake Mary.

On Feb. 24 at 9:30 a.m. Emma M. Ryan, an eight-year-old child is bringing suit by her next-of-kin, Anna R. Ryan, against \$100,000 damages from H. B. Ryan, of Lakeland, as the result of an accident four miles north of Maitland on Dec. 16, 1951.

Collins Visits The Korean Front

GEN. J. LAWTON COLLINS, U.S. Army Chief of Staff, receives first hand information from Lt. Gen. Yu Jue Hsing, commanding general of the Republic of Korea Army, on his "routine" inspection tour of the Korean front. Looking on at right is Gen. Mark W. Clark, U.S. commander in the Far East. On his return to Washington, Gen. Collins is expected to give President Eisenhower a "final evaluation" of what America's future course should be in Korea. (International)

Financial Aid Sought From Chains In Drive To Bring Industries Here

By BOB SMITH
The drive for lodges of front-end support of the now-forming Sanford Industries, Inc. will go into another phase today as Gen. Ralph Collins of the national committee undertakes the task of getting the backing of retail chains that have stores in the city.

Appointments were lined up by Mr. Collins in Jacksonville this morning so that he might develop the thinking of as many as possible of the leaders of chain store systems as to the participation in the drive to make the Celery City, the Relay City.

First on the list of the visit to be made by the first "retail" merchant was James E. Goodman, managing director of the Florida Chain Store Council, Inc. This council, according to Mr. Collins, is the final word on any form of concerted action that might be taken by retail store owners.

Included in the morning appointments are also A. D. Davis, president of Winn-Dixie Groceries of Florida, and Mr. Cowan, a man who has shown more than passing interest in the effort to make Sanford a progressive industrial city. The A. & P. Stores will be represented by Mr. Lyles and the Goodyear Tire and Rubber Company of Florida by Humphrey Smith.

"This trip will be most fruitful," said the committee chairman, "because these fellows know that their stores here will reap a large portion of the benefit of any expansion in the pay-roll population of Sanford. They are well aware of the fact that in order to maintain the position of being a part of the town, they must take part in worthwhile community projects. I don't think it will take them long to decide that this is an outstandingly worthwhile movement and that their pledges will be substantial."

After the several local pledges continued to come in to E. G. Kilpatrick at the Florida State Bank and all of these were from people who voluntarily acted to "get on the map" for a bigger and better Sanford.

According to Mr. Collins, the number of persons who have undertaken to call on business or individuals to get their pledges has been surprisingly small. The only business pledge is, as yet, that of the chairman, "that when the time comes to make a real live project, here is one in which I will be glad to participate."

At the Sanford Industries, Inc. still on the formative stage of series that business firms which have read about it in the paper and have heard of it over the radio are "knocking on the door" to be included in the drive.

Florida City — volume and prices down after heavy rain brought more damage to water-soaked fields. Market moved 11,000 bushels of tomatoes for a return of \$48,000.

Immokalee — ground cold and damp after several rainy nights. Crop conditions are only fair. Last week, moved 8,115 units of produce for \$27,777. Cucumbers brought \$1.94 to \$1.93. No. 1 tomatoes averaged \$4.01 a field crate. No. 1 yellow crockneck squash \$2.77; No. 1 white squash \$1.15; No. 1 pepper \$3.95; and string beans \$1.

Wauchula — the early hoarded cucumber crop somewhat retarded in growth but looks good. Weather too cold for best growing condition.

Plant City — strawberry sales totaled 307,038 plants for an average of 25¢ cents a plant and a bank of \$78,460. Crop conditions excellent.

Pompano — volume on all items increasing but prices declining in proportion.

Winter Vegetable Crops Get Adverse Blow By Weather

WINTER HAVEN — The weather hasn't been treating Florida's winter vegetable crops right. State Farmers Markets at Florida City, Immokalee, Wauchula and Ft. Myers reported adverse affects last week from wind, rain and cold. Some other markets, however, reported good conditions.

Marketa Director L. H. Lewis tells about it in his weekly summary: Florida City — volume and prices down after heavy rain brought more damage to water-soaked fields. Market moved 11,000 bushels of tomatoes for a return of \$48,000.

Immokalee — ground cold and damp after several rainy nights. Crop conditions are only fair. Last week, moved 8,115 units of produce for \$27,777. Cucumbers brought \$1.94 to \$1.93. No. 1 tomatoes averaged \$4.01 a field crate. No. 1 yellow crockneck squash \$2.77; No. 1 white squash \$1.15; No. 1 pepper \$3.95; and string beans \$1.

Wauchula — the early hoarded cucumber crop somewhat retarded in growth but looks good. Weather too cold for best growing condition.

Plant City — strawberry sales totaled 307,038 plants for an average of 25¢ cents a plant and a bank of \$78,460. Crop conditions excellent.

Pompano — volume on all items increasing but prices declining in proportion.

Fernandina Beach — A railroad worker who said he was aiming at a squirrel halfway up a tree, was held today in the wounding of State Game Warden Lewis Stokes by a hunter.

Stokes, 38, was hit in both legs and the groin by a shotgun blast Saturday when he went into a swampy area to investigate firing. His condition was reported good.

Duval County Patrolmen H. S. Lee and B. W. Gordy said they traced a pickup truck Stokes saw near the scene to Woodrow W. Davis admitted shooting at someone but claimed he didn't know anyone he was aiming at a squirrel.

The man did not have a hunting license, Lee said. Davis was turned over to Nassau County Sheriff H. J. Youngblood who held him on a charge of assault with intent to murder. Stokes said he got within 120 feet of the man in the swamp, then the man without speaking fired and warned him not to "come any closer." Stokes jumped behind a tree and when the hunter left trapped in a trail road where he spotted a pickup truck.

While he wrote down the license number, the man reappeared, Stokes said, again leveled his gun and ordered: "Get out of here." Stokes said he warned the man, "I'm an officer—I think you made a mistake shooting me. Now come and help me."

The man replied by exchanging the shotgun for a rifle in the truck and taking new aim, Stokes said. He then got into the truck and drove off.

President Will Order Fleet To Stop Protecting "Reds"; 'Secret Understandings' Hit

Sanford's Fire Department Has Good '52 Record

Losses Are Cut To 85 Percent From Preceding Year Report

The Sanford Fire Department, long known as one of the best in the state of Florida, added further laurels to its impressive record last year by answering a record 254 fire calls, while cutting fire losses down by 85 percent from the preceding year, the official 1952 fire report, issued by Fire Chief Cleveland, revealed today.

In addition to the 254 fire calls, which was three more than the 1951 all time record, the City Fire-which attended 29 alarms of various types other than fire calls for an aggregate total of 263.

The 1951 fire damage of \$98,292.67, which was the all time high for Sanford in any one year since the department was first organized in 1912, was cut to a record \$16,707.37 in 1952, the lowest damage figure since 1941.

The property loss from fire, as a percentage of population in 1952 was a record \$5.17. This loss was cut down to only \$2 in 1952.

Chief Cleveland attributed the improved record of 1952 to the fact that there was no major fire in the City like the previous year when over \$60,000 damage was caused by the Valley Hotel fire and the fire at the Petite Factory on Celery Avenue.

"Of course we are improving our methods of fighting fires every year," Chief Cleveland added. "We are teaching those new recruits to our staff in our weekly classes, which I instituted when I first became fire chief in 1925."

For the record 254 fire calls, 122 percent of 145 were in the minor category of gas, oil and tree blazes. Next high were 22 frame building fires and 21 frame building and contents blazes.

Among the 29 calls other than fire blazes, six called for fire hydrant repairs, the largest single item was plumbing, 112. The second highest frequent cause was theft, 12.

There are some interesting facts on the value of property involved in the fires last year and the (Continued On Page Six)

Outdoor Activities Bloom With Weather

Sunny skies and high temperatures continued to make yesterday the forerunner of the year for outdoor activities in the Sanford area.

From early morning until the late evening hours a steady flow of traffic was maintained along the main arteries passing through the city. North-south traffic was brought to a standstill several times during the day as water activity in Lake Monroe and the St. Johns River necessitated frequent openings of the draw at the Lake Monroe dam.

The zone was a focal point for sightseers with several new animals getting a good share of the attention. Recently added as attractions are a large, eight-point buck deer, two turkeys, and a kilo which is a cross between sheep and cattle.

Swimming areas were jammed with swimmers and sun bathers. There were outdoor picnic places throughout the section.

Nearly every state in the union was represented among the cars passing through the city. The most prevalent license plates were those from Ohio, New York, Pennsylvania, and Illinois.

Sanford's Fire Department Has Good '52 Record

Losses Are Cut To 85 Percent From Preceding Year Report

The Sanford Fire Department, long known as one of the best in the state of Florida, added further laurels to its impressive record last year by answering a record 254 fire calls, while cutting fire losses down by 85 percent from the preceding year, the official 1952 fire report, issued by Fire Chief Cleveland, revealed today.

In addition to the 254 fire calls, which was three more than the 1951 all time record, the City Fire-which attended 29 alarms of various types other than fire calls for an aggregate total of 263.

The 1951 fire damage of \$98,292.67, which was the all time high for Sanford in any one year since the department was first organized in 1912, was cut to a record \$16,707.37 in 1952, the lowest damage figure since 1941.

The property loss from fire, as a percentage of population in 1952 was a record \$5.17. This loss was cut down to only \$2 in 1952.

Chief Cleveland attributed the improved record of 1952 to the fact that there was no major fire in the City like the previous year when over \$60,000 damage was caused by the Valley Hotel fire and the fire at the Petite Factory on Celery Avenue.

Car Accident Occurs Near Police Station

City police didn't have far to go to investigate the single automobile accident reported over the weekend.

Three cars and a pole were involved in a Sunday morning jam-up at the corner of Water St. and Police Station Drive. The driver of the single car in motion, Willie James Brown of Orlando, was arrested by investigating patrolmen and charged with making a wide left turn.

According to the police blotter, the Orlando man was proceeding east on Water Street and while making a turn struck one parked car, bounced into another, and ended up by striking a pole. No one was injured in the crash investigated by Patrolmen J. H. Patterson and C. C. Debus.

TODAY'S BIBLE VERSE

We do not owe much to great
orators and rhetoricians. Paul
turned the world upside down by
the sheer splendor of his faith and
daring. It came not in excellency
of speech or of wisdom. — 1
Cor. 2:1.

Great teachers, preachers, par-
ents have given the world such
epistles, known and read of all
men. Ye are our epistle, written in
our hearts, known and read of all
men. — 2 Cor. 3:2.

Welcome back to Seminole
County, George Barr.

The greatest headache in all ad-
vertising is the business man
who has unlimited faith in the
value of free publicity.

We see where the overparking
lines in Orlando have been
labeled to 50 cents. Well, it just costs more
to live in a big city anyway.

The Republicans are going to
spot check the gold in Fort Knox.
At least they will find out whether
it glitters down there is brass.

The wife of an innkeeper farmer
has three children with two front
teeth, one upper and one lower. So
far as it is known no toothbrush or
powder came attached.

We see where the Atomic Energy
Commission says that Russia has
exploded three atomic bombs. May-
be that is why Truman said they
didn't have any more.

Florida's citrus population is so
great there are over 12 trees for
every man, woman and child in the
state. This should produce enough
juice to keep every man, woman
and child free from the intrusions
of influenza; that is, if every man,
woman and child had sense enough
to drink citrus juice as a matter of
health.

Information from Ohio discloses
automobiles kill more deer in that
state than hunters' guns. It is too
much to hope that motorists will
ever learn to be compassionate to-
ward human life on the highways,
but it seems not too unreasonable
to hope they might show some little
spark of humanity when it comes
to the safety and protection of our
innocent wildlife.

A new and revolutionary change
in the movie industry is being pre-
dicted with the introduction of a
third-dimensional illusion, which,
according to screen moguls makes
it possible for Marilyn Monroe to
come out in the audience and kiss
you if you sit anywhere in the first
eight rows. If this is true then we
predict great things ahead for the
motion picture industry, with the
first eight rows of every movie
house at a premium and every seat
occupied by bald-headed gentry
waiting for Marilyn to do her stuff.

Eloy Delgado, affable former
resident of Sanford and now Jus-
tice of the Peace in Winter Haven,
has been called upon to render a
decision to a perplexed question. A
Negro purchaser of a ballot ticket
wanted to know if it was legal for
a peddler to do him out of a pay-
off on last Saturday's winning
number. We don't believe we know
the legal answer but we do know
that if you don't want to get bur-
ned, don't play with fire.

Sanford Industries, Inc. will be
no wild cat promotional stunt, ac-
cording to the policy statement as
released by the industrial commit-
tee. The executive committee of
the corporation should consist of
successful and experienced business
men holding a hard boiled business
viewpoint determined to eliminate
speculative or impractical risks.
The statement adds significant-
ly that it is important to avoid start-
ing a failure as it is to attract a
successful industry. How true. We
have no homes, barns, or kind-

Manpower Blueprint

A report of two University of Minnesota professors who made a study for the Labor Management subcommittee of the last Congress argues that a "human energy commission" be set up to blueprint the nation's future need for manpower. The professors, Dale Yoder and Herbert G. Hensman Jr., believe that some attempt should be made to anticipate what our manpower needs will be and to make certain that we have the right number of trained workers to fill the need.

The report emphasized that nothing must ever be done to violate the right of every citizen to choose the way in which he will earn his living. On the other hand it would be foolish to neglect research along the suggested line and find out some day that there is a drastic shortage of men with the particular type of training we may need in an emergency.

By discovering what may be needed in the way of specialized personnel the government can take steps to encourage men and women to enter certain fields. All this could be accomplished without any infringements on anyone's personal liberty. The report recommends that manpower considerations be made the responsibility of some federal agency.

In the past the United States has been fortunate in being able to match the right men with the right jobs. During World War II millions of men and women were trained in jobs in which they had no previous experience and the manpower shortage, while it did grow acute, did not prevent our production from rising to the highest point in history. We may not always be so fortunate, however, and some sort of planning for future needs would be wise.

Words Still True

On January 30th, 1882, Franklin Delano Roosevelt thirty-second President of the United States, was born on a large estate near Hyde Park, New York. In a country where great wealth is often a political handicap Roosevelt, the son of an old and very wealthy family, came to be considered the great champion of the poor. He was a figure who inspired great loyalty and affection as well as violent controversy and bitter criticism.

He was President longer than any man in our history and his record is likely to stand. A new law makes it impossible for a President to serve more than two terms.

The most severe critics of the administrations of FDR admit his political genius and his ability to reach the hearts of the people. His informal fireside chats inspired the country to renewed hope in the dark and discouraging days of the depression. During World War II he appealed to the faith and the courage of the American people and they responded with one of history's most splendid efforts.

Whatever differences some Americans may have held with some of the political beliefs of Franklin Delano Roosevelt all will agree that the words of his great speeches will provide a source of courage and inspiration for his countrymen as long as there is an America. In these troubled days, for instance, with a new leader just taking over the helm of the government, it would be well to recall his words that "We have nothing to fear but fear itself." Those bold words are as true now as they were when he said them.

Save Or Destroy

One of the steps in the development of the atomic bomb was the construction of the cyclotron, the machine that smashed atoms. Now it is possible, Yale scientist Dr. E. C. Pollard believes, that cyclotrons can be used to make vaccines to fight diseases.

The process sounds complicated to a layman. Some viruses are useful in vaccines because they are capable of producing antibodies which build immunity to a particular disease. But first the viruses must be "killed," to be made safe for use in the treatment. The cyclotron, according to Dr. Pollard, can do that efficiently.

It would be fitting if part of the machinery used to develop a terrible way to kill men could also be used to fight disease and save lives. It would be a poetic statement of the choice modern man has of using his great skill and resources to help or to destroy himself.

Farm Bureau Will Hold District Meet

WINTER PARK (Special)—County Farm Bureau leaders in Lake, Seminole, Orange, Osceola and Marion counties will hold their first 1953 district meeting Monday, Feb. 9, in Winter Park, it was announced here today.

The session will be held in the State Office Building, from 10:00 a.m. until 4:00 p.m. T. K. McClane Jr., executive secretary, Florida

Winter Vegetables

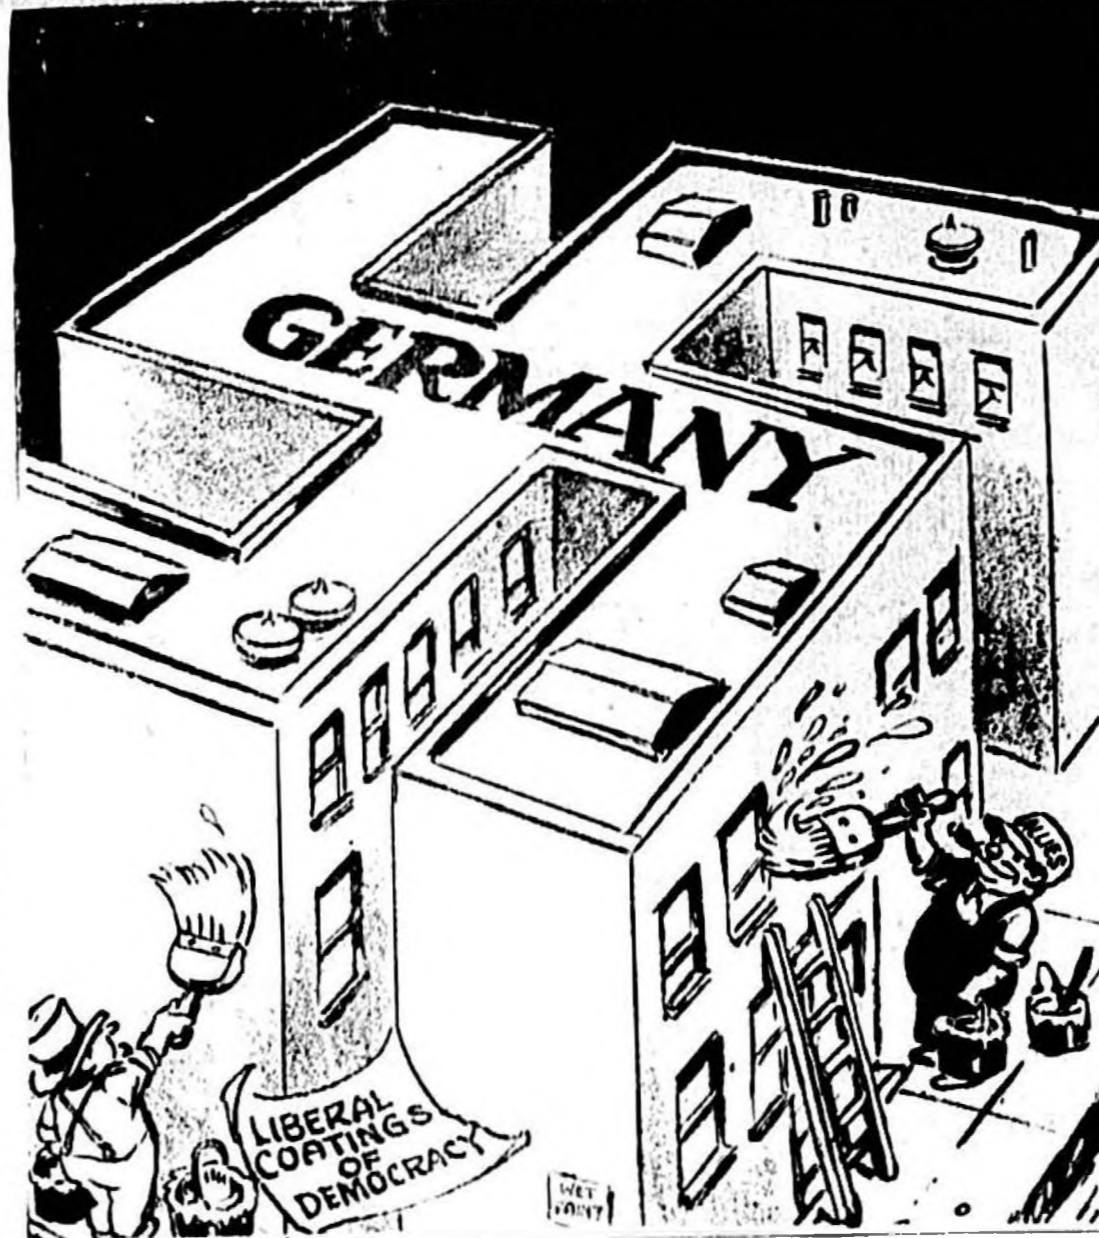

(Continued From Page One)
of the crop has finished.
Sanford — cleared over 108,000 units of vegetables valued at over \$170,200. Cabbage, averaging 65 cents, led in volume with 47,342 sacks. Other leaders included: celery, 11,632 crates, \$2 average; potatoes, 7,149 50-pound sacks, \$2.25; cauliflower, 4,750 crates, \$2.25.
P. Myers — strong winds and recent cold weather damaged crops slightly. Harvesting of spring crops starts about the middle of the month. Last week, sold 14,321 packages for \$45,222.42.

Second Thoughts

By W. V. Billing
Toucheit Drug Co.
Impulsive physical actions are fine in childhood but they often get the adult into serious trouble. The man who hasn't run in years and gets into the race at the picnic, or attempts to catch a fast ball with his untrained arm, or perhaps once again wishes to show off his football technique for junior may receive a permanent injury for his impulsive action.
Exercise, when one is trained for it causes no hardship to the body. Doctors will tell you, but the occasional athlete better think twice before he proves his strength and ruins his health.

This is the title of a series of national advertisements appearing in this paper each week.

SKIN DEEP

THE WORLD TODAY

WASHINGTON — President Eisenhower reportedly will tell the U. S. Seventh Fleet to let the Chinese Nationalists on Formosa attack the Chinese Communist mainland. This would not prevent the fleet from blocking any attempt by the Communists to raid Formosa.

Such a White House order to the fleet would be official blessing to something which has been going on anyway for more than a year on a small scale. While Chiang Kai-shek's main body of troops is on Formosa his forces have been making commando-like raids on the mainland from 30 islands off China's coast.

Even with the fleet pulled aside it's doubtful Chiang could increase the size of such raids for some time. His delegate to the United Nations, Dr. F. T. Tsiang, says large-scale operations against the mainland could not be made for a year or two, and they could be made then only with American help.

At the same time an Associated Press reporter on Formosa wrote over the week end that the Communists at present do not appear capable of invading Formosa, which is separated from the mainland by 80 miles of water. He said they could make air raids on the island and that Chiang who has some planes, could do the same to them. And the Nationalists have some small boats, could help the U. S. blockade the China coast if a blockade should be undertaken.

On Formosa Chiang has at the most 600,000 troops, not all of them ready or equipped for a full invasion of the mainland. He probably couldn't attempt it, when ready, without U. S. help. The unanswered question, even

with the issuance of a White House order to the fleet, is the unpredictable one: How deeply can Chiang get involved in fighting the Chinese Communists without getting the U. S. more deeply involved?

The most immediate effect of this reported first get-tough effort of the Eisenhower administration may be more psychological than anything else. It will give the Chinese Communists, who have been concentrating their forces and attention on Korea, something else to worry about.

Since they don't know whether this is just the first of a series of American moves to end the Korean War, they can't tell where the next

will hit them. The purpose of this, or any series of similar decisions, would be to put pressure on the Communists to quit fighting.

When the North Korean Communists invaded South Korea in June, 1950—no doubt with the help and blessing of the Chinese and Russian Communists — no one knew where they would strike next.

So when he decided the U. S. should intervene on the side of the South Koreans, former President Truman announced: "I have ordered the Seventh Fleet to prevent any attack on Formosa. As a corollary in this action I'm calling on the Chinese government on Formosa to cease all air and sea operations against the main-

Congressman Herlong Reports

Dwight D. Eisenhower has been inaugurated as President of the United States and now, campaign issues aside, is the President for all the people and not simply the standard bearer of the Republican Party.

Those of us who are Democrats owe him our support and allegiance as citizens, and the vast majority of us will give him the full measure of our support in advancement of our nation, the betterment of the people of the country, and the cementing of the bonds of strength which will give us world peace.

Along with my colleagues who are about evenly divided as to party allegiance, I observed the inaugural ceremony as an official witness and part of the formal party on Jan. 20. (There are now 18 Republicans, 47 Democrats and I independent in the Senate.) I am sure that most of us in both parties feel that President Eisenhower, from the moment he touched the nation's heart with a display of humble devoutness by starting his four year term with a personal prayer, begins his White House service in a moving spirit of dedication to a great task.

At any rate, we must depend upon President Eisenhower's leadership in this "Time of Tempest" and never stoop to petty party politics. We must seek to serve only the national welfare.

For we in the minority party, this is no time for pure negativism and obstructions, but a time only for constructive efforts to strengthen our country and establish world peace, and we, as the party of loyal opposition, must hold the majority party accountable on such principles.

NEWS NOTES FROM CAPITOL HILL.—We are getting into another season of television and radio appearances, an scheduled for "The American Forum of the Air" on Feb. 8 in a debate with Senator Hubert Humphrey, of Minnesota (NBC, 2:30 p.m.). On Feb. 15 will be in Philadelphia as guest on "Junior Press Conference" with several college students as inquisitors (ABC, 1:30 p.m.).

All of us are proud of the Florida float in the inaugural parade, a beautiful replica of Ponce de Leon's ship, which was awarded first place. "Miss America" (Neta Jane Langley on the float) came up to ride on the float which was financed by the Florida Citrus Commission and was designed and built by Earl Brown of Deland.

Look what's worrying the low-priced three!

You get the steady going and the sweet handling ease that come of a still finer Million Dollar Ride. Steering ratio is increased. Front wheels have been brought to zero-caster. And here, of course, you get coil springs on each wheel, full-length torque-tube drive, rigid and massive X-braced frame—ride features you get in no other car at the price.

But—you get the idea. And when you realize that the figure on this big, brawny, beautiful Buick SPECIAL is just a few dollars more than you'll pay for one of the so-called "low-priced three"—we're sure you'll say: "This is for me!"

Come in and try it out—then tell us if we're wrong or right.

THE GREATEST BUICK IN 50 GREAT YEARS

Blues In The News
By BOB ANTHONY
The regular monthly Captain's Personnel Inspection for the men of NAAS, which would have normally been held last Saturday, was cancelled for the month of January due to the recent showing of the NAAS men in their recent Administrative Inspection by the Commander of Naval Air Base, Sixth Naval District. This was a realistic, spoken man says, "a guy in the eighth row can kiss Marilyn Monroe."
The device is called Cinema scope. It creates a third dimension illusion, the studio announced yesterday, and presages an era "as far reaching as the transfer from silent pictures to sound in 1927."
Fox's method permits filming in color and projection on a screen 2 1/2 times ordinary size "as to give almost lifelike definition to the players. This creates the same feeling of audience participation as attendance at a performance by living players on the speaking stage."
Screens especially developed for extra brilliance may be any length desired to fit any theater. The screen used in tests at the studio had a length of 25 feet and curved inward to a depth of five feet at the center.
"A theatre like New York's Regal would use one 80 foot long, they would use one 80 foot long," the studio said.
"Cinemascope is a simple, inexpensive color film device which simulates third dimension to the extent that objects and actors seem to be part of the audience. Its stereoscopic sound imparts additional lifelike quality as it moves across the screen with the action."
"Cinemascope will be made available in all studios, producers and theaters in the United States and throughout the world as soon as additional equipment can be manufactured."
Fox announced the first Cinema scope film in color, "The Role," based on Lord C. Douglas' novel, goes into production Feb. 11 with world-wide premieres planned for October.
Meanwhile, three dimension production is spreading through other studios.
Producers Bill Pine and Bill Thomas are shooting "Sanctuary" in a two-camera, 3-D system developed by their releasing studio, Paramount. It requires viewers to wear polarized spectacles to get a three dimensional effect. So does the Natural Vision system, first used with the film "Ivana" (Ivan), which drew \$25,000 worth of business in a four-week run here at Christmas.
Warner Brothers is shooting "Homes of Wax" in Natural Vision. Columbia starts "Fort Ticonderoga" in the same system in a week. MGM, with a similar system of its own, starts its first 3-D film, a Western, in three weeks. Universal-International is working on a system of its own.
Fox says Cinemascope requires no spectacles for viewers. The method needs only one standard camera and projector, with special lenses to create wide-angle scenes.
Cinemascope, now on public view in New York City, uses three cameras and three projectors.
It is advanced to Chief Petty Officer.

This was a realistic, spoken man says, "a guy in the eighth row can kiss Marilyn Monroe."
The device is called Cinema scope. It creates a third dimension illusion, the studio announced yesterday, and presages an era "as far reaching as the transfer from silent pictures to sound in 1927."
Fox's method permits filming in color and projection on a screen 2 1/2 times ordinary size "as to give almost lifelike definition to the players. This creates the same feeling of audience participation as attendance at a performance by living players on the speaking stage."
Screens especially developed for extra brilliance may be any length desired to fit any theater. The screen used in tests at the studio had a length of 25 feet and curved inward to a depth of five feet at the center.
"A theatre like New York's Regal would use one 80 foot long, they would use one 80 foot long," the studio said.
"Cinemascope is a simple, inexpensive color film device which simulates third dimension to the extent that objects and actors seem to be part of the audience. Its stereoscopic sound imparts additional lifelike quality as it moves across the screen with the action."
"Cinemascope will be made available in all studios, producers and theaters in the United States and throughout the world as soon as additional equipment can be manufactured."
Fox announced the first Cinema scope film in color, "The Role," based on Lord C. Douglas' novel, goes into production Feb. 11 with world-wide premieres planned for October.
Meanwhile, three dimension production is spreading through other studios.
Producers Bill Pine and Bill Thomas are shooting "Sanctuary" in a two-camera, 3-D system developed by their releasing studio, Paramount. It requires viewers to wear polarized spectacles to get a three dimensional effect. So does the Natural Vision system, first used with the film "Ivana" (Ivan), which drew \$25,000 worth of business in a four-week run here at Christmas.
Warner Brothers is shooting "Homes of Wax" in Natural Vision. Columbia starts "Fort Ticonderoga" in the same system in a week. MGM, with a similar system of its own, starts its first 3-D film, a Western, in three weeks. Universal-International is working on a system of its own.
Fox says Cinemascope requires no spectacles for viewers. The method needs only one standard camera and projector, with special lenses to create wide-angle scenes.
Cinemascope, now on public view in New York City, uses three cameras and three projectors.
It is advanced to Chief Petty Officer.

Mrs. Smith Beats Mrs. Carraway To Win Powell Title

Mrs. Smith Stages Recovery To Edge Mrs. Carraway By Slim 1-Up Margin

By KENT CHETLAIN
Mrs. E. B. Smith weathered a late two-hole deficit and a bitterly contested final match to edge Mrs. Andrew Carraway, 1-up, on the 18th and thus win the 17th annual Ed Powell Women's Handicap golf tournament at the Mayfair Inn Seminoles Country Club last Friday afternoon.

It was a realization of a six-year dream for the gracious, patient and quiet Mrs. Smith, who paid high tribute to her opponent by saying, "I thoroughly enjoyed the final match and Mrs. Carraway is a good golfer and wonderful sport."

Mrs. Smith's chances began to darken during the early holes as Mrs. Carraway carried a one-up edge at the conclusion of the first nine of the match play tourney. The consistent playing Mrs. Carraway forged two holes ahead by snaring the 12th and it appeared that she could see the championship trophy in her grasp.

The victory last night gave Mrs. Smith an unblemished 7.0 CFT record and a sterling 8-2 season's count. Oviedo will play Titusville in the Oviedo Community gym tomorrow night. Earlier this morning, the Lion-Ferrier clash in Titusville was cancelled because of a flu epidemic in the Indian River city.

The Oviedo girls made it a clean sweep of the doubleheader by slipping on a 17-14 defeat in the first and a 12-10 win in the second.

However, Mrs. Smith made a beautiful recovery on her second shot, making the green. Mrs. Carraway's second shot sailed into a sand trap at the approach to the green, which led to her downfall as her desperate recovery efforts via the club strokes, the hole and the championship.

Mrs. Smith became the fourth player to cop the Powell trophy in six years, previously Ellen Betts, who was eliminated by Mrs. Ross Adams earlier in the tourney, held a two-year claim to the title in addition to winning the trophy in 1934. Mrs. Adams won in 1935 and 1936, respectively.

The official presentation of the Powell award will be made in May at the annual Women's Golf Association's banquet. This year's tourney was distinguished by Mrs. Adams' victory and Miss Betts' withdrawal early and they have been in the finals almost every year. It also provided two of the better golfers with a chance to vie for the championship and produced a new star in the person of Mrs. Ross Adams.

POWELL TOURNEY WINNERS
1938—Ellen Betts
1940—Mrs. Raymond Landquist
1950—Mrs. Bill Williams
1951—Ellen Betts
1952—Ellen Betts
1953—Mrs. E. B. Smith

Sanford Tourists Defeat Longwood Shufflers, 23 - 6

The Sanford Tourist Club's shuffleboard team scored its fifth victory of the season by decisively whipping the Longwood team, 23-6, last week.

The local tourist shuffleboarders now own a 2-2 record this year, holding three victories over Orange City, a split with New Smyrna in two games, and a win each over Longwood and Deland. The other loss was suffered at the hands of Winter Park in the latter city a week ago last Saturday.

The Tourist Club will have a covered luncheon at the Tourist Building tomorrow night at 5:30 p.m. Preceding the dinner at the shuffleboard team will entertain the Deland shuffleboarders at 8:30 p.m.

Oviedo Cagers Win 7th Straight By Slapping Clermont, 49-24

Jones Hits For 26 Points To Boost His County Total To Top 176 Mark

CLERMONT (Special)—Those following Oviedo Lions roared on unbridled winning their seventh straight game of the season and seventh consecutive Central Florida Conference clash without a defeat by overwhelming Clermont High, 49-24, here last Friday night.

Seminole County's leading scorer, Johnny Jones, proved his title by scoring 26 markers against the feeble Clermont defense. Jones hit for 26 points against three same Clermont cagers last December to give him a 54 point total in two games with Clermont for a phenomenal 27-point game average.

The 26-hally effort on Jones' part increased his lead in the county to 176 points and placed him within eight of being last year's county scoring leader. Sanford's Gerald Covington, Covington amassed his leading total of 182 points in 17 games. Jones has 176 in 10 games for a lustrous 17.6 average per game.

Playing on Clermont's outdoor play court, Oviedo broke fast taking 17-8 and 25-13 leads in the initial half. The Lions increased to 39-18 by the fourth period. The Oviedoans dominated the boards on both ends of the courts with Jones, Walter Babin, and agent Harvey Joe Slaton all playing key rebounding roles.

The victory last night gave the Lions an unblemished 7.0 CFT record and a sterling 8-2 season's count. Oviedo will play Titusville in the Oviedo Community gym tomorrow night. Earlier this morning, the Lion-Ferrier clash in Titusville was cancelled because of a flu epidemic in the Indian River city.

The Oviedo girls made it a clean sweep of the doubleheader by slipping on a 17-14 defeat in the first and a 12-10 win in the second.

However, Mrs. Smith made a beautiful recovery on her second shot, making the green. Mrs. Carraway's second shot sailed into a sand trap at the approach to the green, which led to her downfall as her desperate recovery efforts via the club strokes, the hole and the championship.

Umatilla Quintet Rolls Over Lyman Cagers, 57 To 41

UMATILLA (Special)—Longwood's scrappy high quintet fought hard again here last Friday night but a superior Umatilla five poured it on the Greyhounders in their fifth Central Florida Conference defeat in seven outings, 57-41.

The Umatilla girls made it a clean sweep by stonning the Lyman quintet, 57-41, in the opener. Charlie Shaw hit for 16 points for Lyman, equalling the individual high point effort of Umatilla's Clara, but outside of Hubby Driskill, 11, the Huskies were mastered on the court and under the boards.

Shaw's 16-point effort was Lyman's total to 93 for the season to give him the Lyman high honors and second place in Seminoles County behind the championing Umatilla. The usually fast starting Greyhounders held a slim two-point deficit at the end of the initial quarter, 10-14. Jim Payne's Longwood cagers fought desperately, ceiling only another point as the intermission found Umatilla holding a narrow three-marker edge, 29-28.

The powerful Umatilla quintet moved into high gear in the third period scoring better than two points to Lyman's one, which made the running count read 46-24.

Lyman is idle until Friday night when they will travel to Titusville to play the Terrers in a CFC game. The hapless Longwood place now owns a poor 2-5 season's record.

Ketterlinus Crushes Seminoles, 58-27; Fed JVs Win 7th In Row

By KENT CHETLAIN
Seminoles High School's two cage contingents made a near disastrous basketball junket to St. Augustine last Friday as the one-time East Florida Conference leaders Clermont Fed varsity crumpled before the host Ketterlinus quintet, 58-27, while the Sanford Junior Varsity staged off a complete catastrophe by a precarious 28-24 overtime victory in the opener.

The Junior Fed's triumph was distinctive for two reasons: 1) It constituted their seventh consecutive triumph without a defeat, giving them a brilliant 7-1 season's record; 2) The Seminoles JayVees won it without the services of their two best players, Cecil Post, Mose and precious Jimmy Butler.

Both the latter mentioned stars were summoned to the varsity for a 12-day night's important 2FC clash, Coach John Scott's strategic decision nullified the towering Ketterlinus machine and so negated its tremendous scoring onslaught, failed completely.

After carefully mapping out his new offense and defense for his green charges against the mighty costal cage army, Scott says his meticulously drawn plans collapsed as the famed French Maxillot line wilted before the enveloping Seminole number units in 1940.

Like the French soldiers in 1940, the Seminoles players rebelled at the sudden abandonment of the familiar "zone-defense" in favor of the specially designed man-to-man scheme which Scott's master strategy called for.

The Scott-plan offense never matured. Noting the Ketterlinus propensity to draw out the 2-3 zone to harass the ball carrier at any point in front of his charges, Scott instructed his charges to "back" in the 31.

This bit of stratagem failed as the Fed keynote decry became an unending loop to the guards instead of under the ladders. More often than not Ketterlinus intercepted the return pass and unleashed its lightning quick "fast break" on one side or another and wrought such devastating havoc that the St. Augustine hosts snuffed to an amazing 10-0 in the waning minutes of the initial period. At the close of their first quarter Mose hit true twice from the charity line and both Junior Metts and Clark pumped in three marks to put the staggering margin to 24-0.

The bewildered Seminoles wandered off the court at the intermission crushed by an overwhelming 28-14 margin. Stan Markel had no mean role in the smothering rout. Ketterlinus fast break and his basket-showering 14 points for the first two periods aching. After a severe tongue lashing, the stunned Seminoles back and were completely mesmerized in the third quarter, while the bucket machine from St. Augustine poured in 17 more tallies through the nets to make the score read 35-17. Wayne Ketterlinus epilogue.

Scott's persistent orders finally reached home too late as the Fed's rebounding prowess while reeling the hosts 44-31 through the Clermont Fed's overcame a 20-10 deficit to tie the haughty Seminoles at the end of the overtime. Ralph Flowers pumped a bucket and charity shot to preserve the Seminoles JV's winning ways and avenge their 28-20 overtime time triumph.

Tomorrow night these same Ketterlinus quintets will face Sanford in the RHH gym beginning at 7:00 p.m. Coach Scott promises H. Adams a rousing reception. It might be interesting to watch.

Ace Glass Team Moves Within 1 Game Of Leaders

Cooke's 553 Series And Kanner's 211 Game Pace Acemen

Faced by Jack Kanner's 211 game, 499 series and Jesse Cooke's loop leading 553 series, the Ace Glassmen forged within one game of the City League leading Shinn Machine Company bowlers by handling the hapless Florida Power and Light teamners a 2-1 setback at the Sanford Bowling Alley last Wednesday night.

The front running Shinnmen didn't add their own cause any as they fell victim to a 2-1 setback at the hands of the fifth place Celery City Printers.

The Mallomen from the Post Office edged a little closer to the first division by stumping the pin-banging Stanley Rogers Hardware men, 2-1, in the other series.

They were paced by Leon Lawson's 194 series in his last seven games. The ace class, The average pin-printers of Celery City were led by Al Neer's 491 series. George Shinn was high for the losing Shinnmen with a 486 three-game total.

Paul Peadar recorded a high 609 series for the losing Stanley-Hogersmen while Bob Steele hit for 399 for the triumphant Mallomen.

Carl Hubbell Stops Over At Mayfair Inn

By JACK HIANO
NEW YORK (AP)—Joey Giardello, the Philadelphia middle-weight with the reverberating decisions, gets out of the court room and into the ring tonight to meet Harold Green in the main event at Brooklyn's Eastern Parkway.

Giardello, making his first start since he lost to Billy Graham on Commissioner Bob Christenberry's veteran reversal, hopes to use the veteran Green as a stepping stone in the middleweight scramble.

The 10 rounder will be televised (Dumont) in some sections of the country. Green knocked out Giardello back in 1950, the only KO loss on Giardello's record. Although he will be the underdog, Green could wreck Joey's title ambitions.

Carl Hubbell Stops Over At Mayfair Inn
Carl Hubbell, immortal New York Giant screw-ball pitcher who gained a coveted niche in Baseball's Hall of Fame in 1917, is stopping over at the Mayfair Inn for the next several days on his way to the Giant farm training camp at Melbourne. He reiterated today the Giant policy of contracting the minor farm holdings and foresees a dark future for lower baseball in view of rising color-taxes and the "insurmountable television problem."

Edgewater JVs Lose To Longwood, 34-23

ORLANDO (Special)—Paced by Bob Driskill's 17-point scoring binge, Lyman High School won its first non-conference game and fourth encounter of the season by 11 outings by drubbing the Edgewater JVs 34-23 here last Saturday night.

Driskill vaulted past his team-mate Charles R. H. Shaw in the point race and now has 108 markers for second high honors in Seminoles County. Driskill is only the second player in the history of the county. Johnny Jones is first and he boosted his total to 170 last Friday night, only eight behind last year's high figure of 182 by Gerald Covington.

The Lyman Greyhounders will play Titusville on Friday night.

Wildlife Officers Arrest 8 Seiners Near Lemon Bluff

DELAND (Special)—Eight men were arrested Thursday night by Wildlife officials and an illegal catch of fresh water fish is being held in cold storage as evidence.

Headed by Walden Priest, chief state wildlife officer, assisted by A. W. Ansley, D. C. Land, Charles Clark and Roy Ostern, the men were arrested in the Lemon Bluff and Lake Harney area in Volusia County.

They are: Herbert Drehsow, Enterprise; Wallace Oglesby, Sanford; Vivian Watson and Charles Carter, Sanford; Floyd and Charles Chapp; J. P. Mitchell, Sam and H. C. Yates.

Floyd, Sharp, Mitchell and Yates were charged with using a 200 yard seine to take fresh water fish near Lemon Bluff, Drehsow, Oglesby, Watson and Carter were alleged to have been operators of a 100 yard net in Lake Harney. Both nets contained shad, bass and bream.

Union Ordered To Purge Self Of Corruption

Executive Council Of AFL Takes Unprecedented Action For Ridding Crime Taint

MIAMI BEACH (AP)—The AFL Executive Council today ordered the 16-member union to purge itself of "racketeering, crime and corruption." Failure of the longshoremen's union to place itself "above suspicion and completely free of all racketeering" by April 30 will bring a recommendation from the 16-man council to suspend the 60,000-man union from the big labor federation.

In a letter addressed "to the officers and members of the International Longshoremen's Association," the council said:

"Union representatives with criminal records can not be tolerated in any official capacity and they must be immediately removed from all positions of authority."

2 Club Musicians Taken On Narcotic Count By Deputies

Two Negro male musicians from the San Oleo Club, located on Highway 17-92 between Sanford and Orlando, were being held today by the County Jail under bonds of \$5,000 each on marijuana charges according to the Sheriff's office this morning.

Jessie Price, leader of the Negro band at the night club, which has been held on a charge of selling marijuana cigarettes, and Lee Jackson, bass fiddle player, an accused of selling and having possession, Deputy W. A. Horn revealed.

The arrests were made after the marijuana traffic was uncovered by two young men from New York City, who are being held under bonds of \$5,000 each on marijuana charges according to the Sheriff's office this morning.

The arrests were made after the marijuana traffic was uncovered by two young men from New York City, who are being held under bonds of \$5,000 each on marijuana charges according to the Sheriff's office this morning.

They were arrested in their office duties when they were given a few pointers by the deputy. In the proceedings which followed, the two musicians were taken to the County Jail on an unexplained place, the deputy said.

They purchased a marijuana cigarette from Price on Jan. 19, the deputy stated and brought it to the Sheriff's office. Price, in turn, got in touch with the federal narcotics agent at Jacksonville. He called in the state narcotics agent at Tampa.

Another purchase was made by the two volunteers, Jan. 21 at the club, with the state agent watching. Deputy Horn said. The federal agent found the two cigarettes at Jacksonville, where another purchase was made by the two volunteers.

Several more trips to the club were made during that night. Ten marijuana cigarettes were purchased by the two volunteers, the deputy said, with marked money provided by the Sheriff's office. The purchase was made by the two volunteers, the deputy said, with marked money provided by the Sheriff's office.

Elks Benefit Auction Set For February 17

A benefit auction will be held by the Sanford Elks Club at the Sanford Farmers' Auction Market on Route 17-92 South of Sanford Tuesday night Feb. 17. It was announced today by A. C. Coe, chairman of the Elks benefit auction committee.

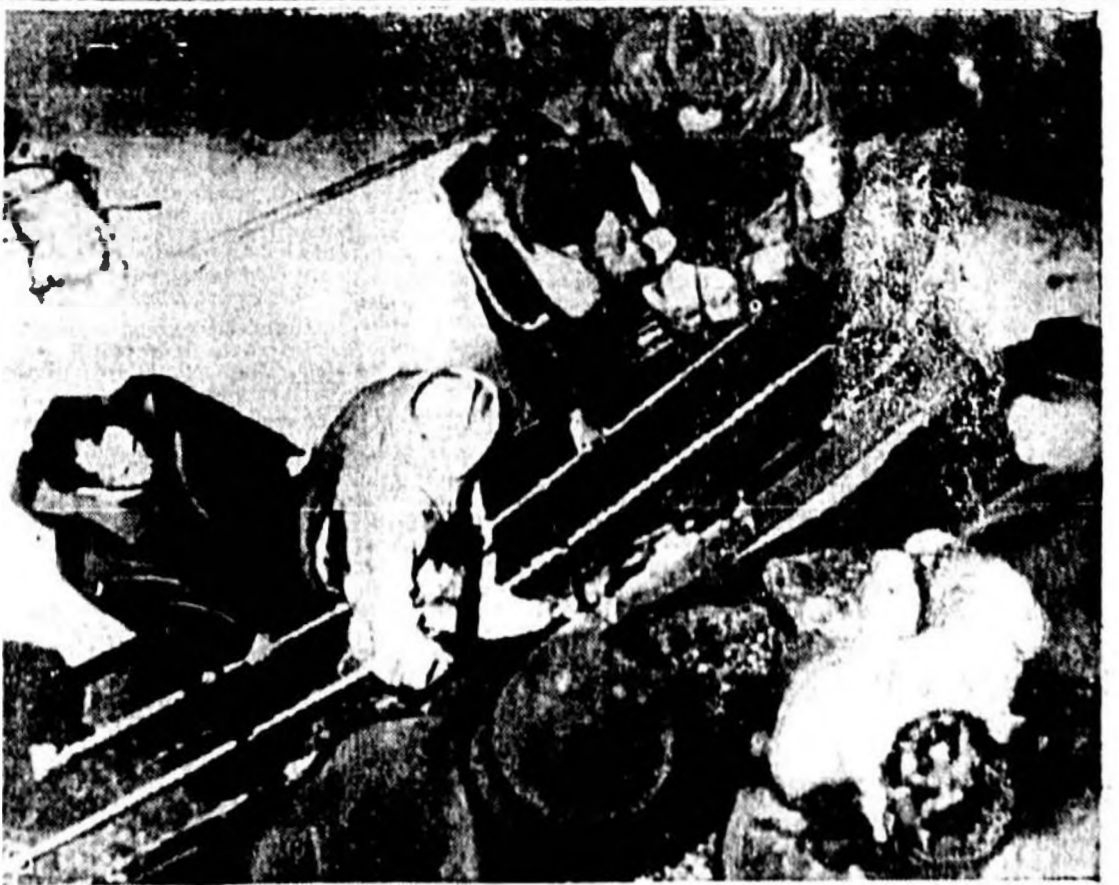

All net proceeds from the auction will be given to the Harry Anna Children's Home in Umatilla. The home is supported entirely by the Florida Elks Association and is operated for the benefit of underprivileged children in the state, whether they have any Elks affiliation or not. Orphaned children are accepted at the Harry Anna Home at no charge for the child and supported there by the state Elks, Mr. Coe said.

Auctioneer Larry Jones will be in charge of the auction and a chicken barbecue dinner will precede the affair.

The auctioneer invites the public to attend and urges anyone with something to donate for the auction to call Herman Jacobson at 491.

Benefit committee consists of R. B. Billheimer, Earl Hines, Herman Jacobson, Harry Jones, Leo Barber, Bud Dwyer, Jess Cameron, Jimmy Hoolahan and Elton Moughton Jr.

Survivors Of British Sea Ferry Taken Ashore

Survivors of British sea ferry "Princess Victoria," which capsized off the North Ireland coast, stand at the railing of a rescue craft as members of a lifeboat crew lower others ashore. At least 130 persons met death when the motorship, which plies between Scotland and Northern Ireland, went down in the worst hurricane in decades. Some 45 were rescued. (International Radiophoto)

Board Approves Validation For Hospital Bonds

County Commissioners Also Increase Salary Of Attorney

Approval was given by the Board of County Commissioners this morning to the request of the County Hospital Board of Trustees for the validation of \$800,000 worth of hospital bonds at the maximum amount provided under law.

The approval was given by the Commission after T. E. Tucker, chairman of the hospital board, presented a certificate which stipulated that \$800,000 is the amount which will be necessary for the "construction and establishment" of the County public hospital.

The County Commission refused to take action upon validation of the bonds at a recent meeting on the advice of the County Attorney, Lloyd F. Boyle, who stipulated that the amount of the bonds at the time would be split by the hospital trustees before validation procedure could take place.

The certificate of cost was signed by all the hospital trustees, Mr. Tucker, John W. Evans, Dr. B. F. Seaman, Victor M. Greene and Fred R. Wilson. Mr. Evans, the enthusiastic support of the movement to put Sanford in a prominent position on the industrial map of the state.

The approval action was the first matter of business in this morning's session, following the reading of minutes by Mr. Boyle, which consumed more than a half hour.

Ralph Cowan, who is heading the fund-raising campaign for the hospital, Inc., asked the Commission to give moral support and individual financial support to the drive.

He pointed out that A. E. Davis, president of the Winn-Lovett grocery chain, had pledged \$5,000 in support of the campaign.

A public meeting is to be held relative to the campaign tonight at 8:00 o'clock at the court room, the County House at 8 o'clock tonight. People who are interested, those who would like to have questions answered, should come to this meeting, Mr. Cowan said.

Yesterday the drive picked up momentum when A. D. Davis, president of the Winn-Lovett grocery company, told Mr. Cowan, when he called on the chain store executive in Jacksonville, that he would pledge for his firm \$10,000 toward the promotional effort and if results were produced as it now seemed they would, he felt that an additional sum of between \$1,000 and \$4,000 would be forthcoming to "promote this industrialization idea further," Mr. Cowan said.

The chairman said that the local support had amounted today as Sanforites realized that if a large organization like Winn-Lovett thought well enough of the drive to pledge funds to it, it certainly was a responsibility of theirs to join those who already have promised financial aid to the Industrial Board for the "make the Celery City the Salary City."

In his talk to the county commissioners Mr. Cowan said he was interested in three things pertaining to these men. First, he said, he hoped that they would endorse the important movement as individuals and assist it all they could. Second, he continued, there was

Hero Of Sea Ferry Disaster

Petty officer Will Warren of the British destroyer "Contest" is shown shortly after he had helped in saving survivors of the British sea ferry "Princess Victoria" as they clung to drift. The vessel sank off the coast of Northern Ireland during one of the worst hurricanes in recent history. At least 130 persons died when the vessel foundered. (International Radiophoto)

County Commissioners Are Asked To Lend Support To Industrial Drive

By BOB SMITH

The County Commissioners meeting this morning was the latest front on which the task forces of the Sanford Industrial Board centered its effort, when Chairman Ralph Cowan of the fund-raising contingent appeared before them to ask for their enthusiastic support of the movement to put Sanford in a prominent position on the industrial map of the state.

A meeting of the Industrial Board has been scheduled for tonight and the public has been invited to attend it, the drive chairman said. The group will assemble in the court room at the County House at 8 o'clock tonight. People who are interested, those who would like to have questions answered, should come to this meeting, Mr. Cowan said.

Commiss Sentenced To Terms In Prison

NEW YORK (AP)—Seven Communist leaders today were sentenced to three to seven years in prison for their part in a plot to overthrow the government.

The defendants were: William Winterrowd, 41, of New York; William Winterrowd, 41, of New York; William Winterrowd, 41, of New York; William Winterrowd, 41, of New York; William Winterrowd, 41, of New York; William Winterrowd, 41, of New York; William Winterrowd, 41, of New York.

Eden Fearful Over Effects Of New Policy

Sees Regrettable Political Repurcussions Minus Compensating Advantages

LONDON (AP)—Foreign Secretary Anthony Eden said today Britain feels the U.S. decision on Formosa will have unfortunate political repercussions without compensating military advantages.

Eden disclosed Britain had brought two main points to the attention of Secretary of State Dulles:

- 1 That the change in the U.S. policy of keeping Formosa non-aligned would have important political repercussions which he did not name.
- 2 That the British government hopes the U.S. has no intention of allowing its neutralization policy to go by the board.

The foreign secretary added "What we do not yet know and we should be wise to suspend judgment until we know what action if any will follow this decision."

Eden revealed before a tense, crowded House of Commons the United States' administration under President Truman in 1950 on its own initiative had posted the Seventh Fleet to Chinese waters to neutralize the island of Formosa.

President Eisenhower's step announced yesterday before Congress "in consequence is a unilateral decision."

Final Rites Held For D.L. Thrasher Who Died Monday

Funeral services for D. L. Thrasher were held at the First Presbyterian Church this afternoon with the Rev. A. G. McTear conducting the funeral rites. Interment was made at Greenwood Cemetery.

The six active pallbearers were W. A. Adams, Dr. Harry Wood, W. F. Watson, Dr. C. J. Park, W. C. Hill, George D. Bishop, J. I. Frazier, W. A. Jeffrey, W. M. Kinross and Ernest G. Lowry.

Mr. Thrasher, who was active in educational, church, school and other civic organizations, died yesterday morning at the age of 80 in the Florida Sanatorium in Orlando of the complications of pneumonia.

He was born in Sanford, Fla. in 1873 and came to Sanford at the age of 25. Mr. Thrasher was the first superintendent of the county when the Seminole County Government was created out of the division of Orange County in 1911.

GOP Legislators Are Warming Up To Own Inquiries

WASHINGTON (AP)—Capitol Hill Republicans, enthusiastic party leaders in the investigation by House and Senate committees, today warmed up for some inquiries of their own.

The Senate Investigations subcommittee and its new chairman, Sen. McCarthy (R-Wis.), started off a parade of hearings with a probe into reports of waste and mismanagement in the Federal Security Agency.

The big agency administers federal social security, public health and education programs.

House tax fraud investigators swung into action for the first time this year with an inquiry into alleged irregularities in the Internal Revenue Bureau's alcohol tax division.

New Course Will Be Started At School

A new short-hand course will begin at the Vocational School on Commercial Avenue opposite the bus station next Monday with daytime classes commencing at 11:00 a.m. and separate evening sessions starting at 7:30 o'clock. It was announced today by Mrs. Maybelle Maxwell, director of the school.

Mrs. J. P. Hall will teach the morning class and Mrs. Harry Watt will instruct the evening session. Both classes will be of one-hour duration, Monday through Friday.

Any student who has studied shorthand and wishes to take a review and brush-up course may also begin in the regular short-hand course now in progress. Mrs. Maxwell stated. Such students should consult the teachers at school this week.

"It is important that beginning students all start at the same time," Mrs. Maxwell added. "The root is phonetic, being only books and materials."

Bookkeeping and typing students may enroll at any time. There is also a class in Commercial English for office workers. Other commercial subjects taught at the school are Piling, Office Practice, preparatory courses for Civil Service examinations and Commercial Law, she explained.

The Vocational School now has an enrollment of 105, including 35 veterans. Railroad classes are conducted in the north side of the building while commercial classes are held in the four rooms on the south end of the second story.

Newmons Dies

DELAND (AP)—William Newmons, 78, who lived here for 70 years, died Monday. He was a former city policeman.

Famed Fighting Unit Of U.S. Strikes With Fury On Korea Front

Ike Will Let Chiang Raid Foo

President Eisenhower is ordering the withdrawal of the U.S. 7th Fleet from Formosa as a move that would free Chinese Nationalist forces for use in the Korean peninsula. The fleet, which has been in the area since the outbreak of the Korean war, is being moved to the waters off the coast of China. (Associated Press)

Netting Of Salt Water Fish Gets Ban By Cabinet

WASHINGTON (AP)—The netting of salt water fish in the Chesapeake Bay and other waters of the United States is being banned by the cabinet.

The ban was imposed on April 1, when the cabinet will be presented to the legislature.

Conservation Director Charles S. Townsend today announced that the netting of salt water fish in the Chesapeake Bay and other waters of the United States is being banned by the cabinet.

Highway Toll For January Discloses Increase Over '52

State Trooper Robert D. Harrison's monthly report, issued today, covering January of this year shows an increase in the number of accidents, arrests, injuries and property damages in his district.

There were 71 arrests made last month as compared to the 54 during January, 1952. While the number of accidents, arrests, injuries and property damages in his district.

Most startling increase registered last month, in the corresponding period of 1951, was in the number of injuries inflicted in accidents, starting from 2 last year to 24 this year.

There was one traffic death last month and one in January of 1952. Property damage rose for an estimated \$1,065 in 1951 to \$15,011.50 last month.

Of the 71 arrests, no drivers' license was the most frequent violation, 18, with improper license ranking second, 10, and reckless, willful and wanton driving charges standing third with 11.

State Trooper Harrison put in 203 hours driving 3,571 miles last month, assisting no fewer than 74 cars and drivers in distress. In addition, Mr. Harrison apprehended two federal prisoners and had 110 convictions, some including holdovers from last year, while 10 more were dismissed. He also issued 35 warning tickets.

Raid Carried Out With Precision, Success Involving Unusual Feat With Tanks

ST. LOUIS (AP)—A famed Allied fighting unit struck on the western front today with sudden fury, blasted Chinese Communists in their tanks and retreated after killing an estimated 300 Reds.

Unlike the ill-fated "Operation Struggle" of Jan. 25, this raid was carried out with precision and success involving an unusual feat with tanks and artillery, a front line dispatch reported.

About 200 men of the outfit, which can not be identified, struck two low Chinese hills behind an artillery barrage, and tackled the Chinese in the trenches with rifles, grenades and machineguns.

The commanding general kept the Chinese guessing with a feint attack to the west of the main attack. The latter hill was pounded first with artillery.

Then 74 tanks rumbled out and poured their fire into the hill. The Reds were kept guessing as to whether the attack was coming, and they were unable to commit reinforcements in time to check the raid on the two hills to the east.

The hills are part of the Chinese defense line of Kaesong. Communist have been for the now suspended offensive talks.

There was no estimate of the number of wounded or of the number of tanks destroyed. A division officer said the bodies of the Communists actually were counted.

Earlier, Lt. Gen. Maxwell D. Taylor arrived in Korea for a round of conferences prior to launching a personal survey of the Eighth Army, which he will command.

The famed paratrooper "Jumping General" of World War II flew in from Tokyo shortly after outnumbered South Koreans drove off 850 attacking North Koreans on a narrow eastern front. The battle-line elsewhere was quiet.

U.S. Sabre jets patrolled MIGs but for the first time in 16 days failed to flush 235 Communist bombers.

Taylor will take over as United Nations field commander from Lt. Gen. Mark W. Clark.
