

## MISSISSIPPI ON RAMPAGE BREAKS THROUGH LEVEES AND FLOODS LOUISIANA

### Town of Ferriday Under Water Today But Inhabitants Escaped

### VIDALIA IS NEXT

#### WITH TWO THOUSAND INHABITANTS EIGHT MILES FROM FERRIDAY REACHED TODAY

(By The Associated Press) NATCHEZ, April 27.—Flood waters of the Mississippi, which late yesterday broke through Weocomé Levee today had entered the town of Ferriday, La., with a population of 500. The waters traveled four miles before reaching the town and the residents had ample time to escape. In the path of the waters is the town of Vidalia, La., with 2,000 population, 8 miles from Ferriday, which is expected to be reached today.

NEW ORLEANS, April 27.—Break in the Mississippi levee at Poydras, 10 miles below New Orleans was reported today. Early reports said 100 feet of the levee went out and approximately 350 families are fleeing before the flood waters. Poydras is on the east bank of the river and unless the break is stopped is expected to cover a large area just south of the city.

FORT WORTH, Tex., April 27.—The Trinity river is well within its banks this morning, the gauge showing a drop of sixteen feet overnight. Street car service was restored today to all flooded suburbs. The dead and missing list is now placed at forty-nine. An examination of the levee embankments along the river was started today in an effort to determine whether the levee was dynamited. Levee board offered \$500 for information leading to the arrest of any person convicted of illegally dynamiting.

FORT WORTH, Tex., April 27.—Continued reports of dead and missing in the flood that has gripped Fort Worth for two days, last night had brought the list to sixty-two. A check is not yet possible and verification of the unofficial reports are held up while the flooded areas are searched by rescuers. Three bodies have been recovered.

The list of injured remained at 29, according to reports from the hospitals. The property loss is estimated at \$1,000,000.

The levee board will investigate m

### Grant's Birthday Being Celebrated at Point Pleasant

Little Ohio Town the Scene of Gathering of Many Statesmen

(By The Associated Press) POINT PLEASANT, Ohio, April 27.—The nation turned today to this little hamlet to celebrate the hundredth birthday of Ulysses S. Grant. Up the Ohio river from Cincinnati came the flotilla river craft bearing President Harding and wife, congressmen, high national officials and others. President Harding is to speak from the platform near the Grant homestead.

### LIBRARY BONDS CARRIED BY A BIG MAJORITY

#### Leaves No Doubt in Minds of the People as to How Majority Views the Situation

The election for bonds for a public library held yesterday did not bring out a large crowd and only two hundred votes were cast chiefly on account of the fact that the people were busy, it was a bank holiday and as usual few people took the time to vote. It was evidently a movement that had the endorsement of the majority of the people for they did not think it was necessary to vote for the proposition as it was sure to carry anyhow but bond issues have been lost by this same over confidence.

Out of 200 votes cast there were 158 votes for the bond issue and 42 against the issue and two votes mutilated that could not be counted which shows beyond peradventure that the library is something the people want and intend to have.

It is just another step forward in the public life of Sanford, just another big improvement for the benefit of the people and the tourists and visitors to the city, just another step for the benefit of the young people who with the free library will find that knowledge for which they are seeking and should be seeking at all times. Just another place where the people of all classes can go and spend a quiet hour and one that will be productive of much good in the community.

### COMMISSIONERS ARE CALLED IN A SPECIAL SESSION

The Board of county commissioners in and for Seminole County, Florida, met at the call of the chairman, at 3 o'clock Wednesday, April 26th. Present: L. A. Brumley, chairman, and L. P. Hagan and E. Curlett, commissioners, with V. E. Douglass, deputy clerk and C. M. Hand, sheriff in attendance.

Absent: Commissioners C. W. Entzminger and O. P. Swope. Chairman L. A. Brumley here made a report of the meeting of the State Road Department, held in Tampa on Tuesday, April 25th, A. D. 1922, which he attended in company with Commissioner C. W. Entzminger, and Clerk E. A. Douglass, as a committee representing the board of county commissioners of Seminole county. He reports that the State Road Department agreed to furnish rock, necessary to build shoulders on the Sanford and Orlando road, from Sanford city limits south to the Orange county line this being a part of State Road No. 3. The State Road Department agreed to deliver this rock at the points designated by the Board of County Commissioners, all freight to be prepaid, rock to be furnished at the rate of not less than two cars nor more than six cars per day. Seminole county is to unload and lay the rock in the road bed, and the State Road Department is to reimburse Seminole county for the cost of laying this rock in the road bed, as soon as the money is available.

Motion of Comr. Hagan, seconded by Comr. E. Curlett, and carried, this Board of County Commissioners accepts the above report and orders that it be made a part of these minutes, and the clerk of this board is instructed to mail a copy of these minutes to the State Road Department, and also extend to them their sincere thanks for the courtesy extended their representatives at Tampa, and for their co-operation in this matter. There being no further business the board stands adjourned to meet again at their next regular meeting May 2nd, 1922.

L. A. BRUMLEY, Chairman.  
E. A. Douglass, Clerk.

## DIPLOMATIC RELATIONS RESUMED BETWEEN RUSSIA AND GERMANY, AMBASSADORS ARE APPOINTED

### Rappollo Treat Goes and it Will Be Carried Out by Both Parties

(By The Associated Press) LONDON, April 27.—Diplomatic relations between Germany-Russia is to be resumed immediately in accordance with the Rapallo treaty, says a Central News Berlin Dispatch. German ambassador to Russia is Professor Wiedenfeld, and Russian ambassador to Germany is Leonid Krassin.

GENOA, April 27.—Announcement by the British delegation that a meeting of the signatories of the Versailles treaty will be held in Genoa within a fortnight to determine upon action in the event of Germany's failure to meet her reparations obligations at the end of May was the chief feature of yesterday's conference activities. This call for a meeting of the Allies was inspired by Premier Poincaré's Marle Duc address intimating that France was prepared to act alone if the Allies failed to support her in enforcing the treaty.

Poland replied to Russia's protest charging the Poles with violating treaties with Russia and seeking to undermine Russian sovereignty. The Polish reply asserted that the Poles were endeavoring to assist in the reconstruction of Russia and had no thought of violating their treaty agreements with Russia.

## BAND WEEK PROGRESSES, BIG MEETING WAS HELD AT VALDEZ LAST NIGHT

### Big Concert Monday Night With Street Dance Will Start the Campaign

The joint committee of civic clubs met last evening and completed arrangements for Band Week which will begin Monday, May 1st. Each organization have agreed to furnish eight members from their respective organizations to canvass the city and secure a dollar a piece from each adult in the family. Monday evening the band will parade from First to Tenth street through Park and Magnolia avenue and will then give a concert on the corner of First and Magnolia in front of the Seminole County Bank. The street will be roped off and those desiring to, may dance at this time. The members of the various committees will be supplied with badges to be given to those who have contributed their share to the band fund, and this committee will make an attempt to see that every one in Sanford wears one of these badges before the end of the week.

The band will also give concerts during the week on the east and west side of town and Saturday, the final day of the canvass, the band will again be heard in the business district.

## PROVISIONAL FREE STATE GOVERNMENT TROOPS WIN CONTROL OF MULLINGER

### JURY SELECTED TO TRY BLIZZARD FOR TREASON

#### Charge Might Mean Death if He is Found Guilty

(By The Associated Press) CHARLESTON, W. Va., April 27.—A jury to try William Blizzard, district officer of the United Mine Workers on treason indictment was selected in court here today. Before sented the jurors were asked if they had opinion "that would prevent you from minding the men guilty of an offense punishable with death." The charges against Blizzard are he assisted in assembling men for a march against the Logan and Mingo non-union coal fields last fall, that he furnished men with arms and ammunition, that he directed them in battle on Blair mountain against state forces and volunteers and that he participated in the fighting.

## CLAYS OF FLORIDA TO BE INVESTIGATED BY FLA. GEOLOGICAL SURVEY

The state of Florida has an abundance of clay suitable for the manufacture of various clay products. There are several plants now making common building brick and some making drain tile and building tile. Florida also produces quantities of highest grade ball clay or kaolin. This is shipped out of the state to potteries in the North for manufacture into various porcelain wares. In the production of fullers earth, a variety of clay used in the clarifying of crude oils, Florida leads all the other states of the Union. The total value of the clays and clay products for 1920 was \$2,975,732.

Provisions have been made for the preparation of a detailed report on this important natural resources. Professor Olin G. Ball of the Department of Geology, Cornell University, will be connected with the Florida Geological Survey during the summer and will have active charge of the investigations. Mr. Ball's association with Dr. H. Riss, Director of the Department of Geology of the institution mentioned and who is a recognized authority on the clays of the United States, gives assurance of the reliable character of the proposed report.

Field work will begin the latter part of June and will continue for several weeks. Samples of clay will be collected and analysed and tested in the laboratory of Cornell University. The state Geological Survey invites the co-operation of everyone interested in this work. Correspondence should be addressed to Herman Gunter, State Geologist, Tallahassee.

## 12,000 KNIGHTS TEMPLAR PARADE AT NEW ORLEANS

(By The Associated Press) NEW ORLEANS, April 26.—More than 12,000 Knights Templar, clad in the full regalia of their order, marching to the strains of two score bands, passed through the downtown section of the city today, while a crowd estimated at 200,000 lined the sidewalks, numerous stands and every vantage point to watch.

After the parade the first session of the Grand Encampment was opened. All the business sessions are held in the recesses of the lodge room and nothing has been given out as to the proceedings there.

Exhibition drills in which the many specially drilled teams will take part will begin tomorrow and be continued Thursday.

In addition to the drills, the business sessions of the GGrand Commandery will continue.

Hostilities continued two hours both sides using rifles and machine guns. One man was killed on each side, and six reported wounded.

## MEMORIAL DAY OBSERVED HERE BY DAUGHTERS

### FIRST SOUTHERN MEMORIAL DAY EXERCISE EVER HELD IN SANFORD

The N. de V. Howard Chapter U. D. C., observed memorial day yesterday, April 26th in Central Park. It was the first Southern Memorial ever held in Sanford. Beginning promptly at 4 o'clock the following program was carried out:

Prayer—Dr. Brownlee of the Presbyterian church.

Southern airs—By the City Band. In a few well chosen words Dr. Brownlee told of our first Memorial Day more than half a century ago and then introduced the speaker of the day, Judge Ernest Householder, whose speech was a gem of eloquence and pathos. After the address by Judge Householder, our President, Mrs. L. G. Stringfellow, escorted by the Daughters of the Confederacy, placed a beautiful wreath on the monument honoring our heroes of the late war. Mr. Ball, leader of the band, sounded taps. After placing of the wreath, favorite hymns followed by "Dixie" concluded the program at the park. The daughters and a few old Veterans preceded to Lake View cemetery, where we placed wreaths, flowers and bouquets on Confederate and Federal alike.

The following are the names of those we honored.

Dr. J. J. Harris; Capt. Otis Lerner, Capt. B. F. Whitner, Dr. A. E. Phillips, Wm N. Loeffler, Capt. R. H. Marks, Capt. Wm. Sirm, Algean Spear, Arthur Spear, G. W. Williams, Buck Thrasher, Dr. D. J. ## SUB CHASER WITH OFFICERS CARRIED BOOZE

OFFICERS WORE UNIFORMS OF UNITED STATES NAVY ON CHASER 101

(By The Associated Press) NEW YORK, April 24.—Bootlegging scheme whereby liquor was smuggled in from Bermuda and Cuba on a former submarine chaser commanded by officers wearing uniforms of the United States navy were unearthed at the custom house it was announced today. Former chaser 101 renamed Fidus was seized with commander and crew. Officials said the crew declared pirates held up the chaser yesterday off Long Island and boarded the craft with drawn revolvers and bound the commander to the mast and seized the chaser's cargo of liquor.

## POINCAIR STATES

IN SPEECH MADE BEFORE THE GENERAL COUNCIL DEPARTMENT OF MEUSE TODAY

(By The Associated Press) BAR-LE-DUC, France, April 14.—France will, if necessary, undertake alone to see that the treaty of Versailles is executed if the Germans default in the reparations payments, Premier Poincaré intimated in a speech before the General Council Department of Meuse today.

GENOA, April 24.—The French delegation announced today it was willing to subscribe to the proposed pact under which various nations would agree to abstain from aggression provided it was backed by the proper guarantees. It was considered especially necessary in view of the Russo-German treaty.

BAR-LE-DUC, April 24.—Premier Poincaré announced in a speech here today that if the French delegation at Genoa could not go ahead with its work under agreed conditions France would regretfully have to cease participation in the conference.

GENOA, April 24.—The crisis in the economic conference raised Saturday by the French objecting to Germany's reply to the ten-power note suggesting that the German delegation refrain from discussions relation to Russian affairs, had not passed satisfactorily as yet.

At a meeting of representatives of the ten entente powers late Saturday it was agreed that another note be sent to the Germans stating it was assumed that they meant, in their reply transmitted Friday, to refrain from all Russian discussions in the political commission of the conference.

In fact the British and most of the other interested delegations so interpreted the German reply, but the French expressed fear that the German note left a loophole through which the Germans might enter into discussions of Russian questions not treated in the Russo-German treaty signed at Rapallo last Sunday a week ago.

## FOOLS FARMERS

PROTECTION AS A PRINCIPLE HAS BEEN COMPLETELY ABANDONED BY BILL

(By The Associated Press) WASHINGTON, April 24.—Characterizing the administration tariff bill as an "economic monstrosity without precedent or prototype" senator Walsh, of Massachusetts, Democratic member of the senate finance committee declared in a statement yesterday that the Republican party "has at last presented to the country a tariff bill that does not merely protect, but in fact prohibits and keep out foreign goods altogether."

"Protection as a principle has under this bill been completely abandoned," Senator Walsh said. "The underlying purpose of the bill seems to be the handing out of special favors and subsidies to those groups who are able to exercise either sinister political influence upon the legislators or pernicious forms of economic pressure. It is plain that certain schedules were dictated by powerful trusts which hold in the palm of their hands a large part of American business and control the production and the price fixing of many of our most essential commodities."

"Other schedules it is well known, were dictated by vote seeking politicians who propose to entrench themselves in power by attempting to bestow the blessings of protection upon the farmer, with the implied assurance that a mirage of high tariff rates will create overnight millionaire colonies, rivaling Wall Street in the agricultural sections of the middle and western states."

"In attempting for the first time to establish an effective tariff on agricultural products, the bill undertakes to increase the broad lines of our large cities and multiply poverty in the great industrial centers. Even the food that the children of the crowded tenements so sparsely receive, is to be taxed, as even the most unformed knows that half our import and export trade are agricultural products."

"Every essential for domestic consumption and use, including wearing apparel will be increased in price by the rates fixed in this bill; and this forced upon the country at the very time wages are being rapidly reduced and deflation of prices urged. The unsparing millions of American are going to be taxed for the benefit of the old army of tariff beneficiaries, plus all the war mushroom industries and last but not least the new leadership group in the Republican party, the farm bloc."

"The provisions of the bill that give the president unlimited power to change rates, schedules, classifications, and valuation standards if not unconstitutional, are at least most pernicious. It delegates to one man the power to completely nullify the expressed will of the chosen legislative representatives of the people. It vests the president for the first time in our history with the power of taxation. It is a step towards autocracy to bestow on the executive the power of law making."

"The bill leaves uncertain the question of making rates on the basis of foreign or American valuation. The house demands one standard, the senate another, and the president is to be given power to jump from one to the other."

"In desperation to keep out German made goods an embargo in reality has been placed on merchandise made or produced in every other country except Germany."

## PEACE BETWEEN REBELS AND FREE STATERS SIGNED

LONDON, April 24.—An agreement has been reached between the military leaders of the Republican and Free State forces in Ireland, says a dispatch to the West Minister Gazette from Dublin, which will constitute the basis for peaceful arrangements in connection with the future policy of both sides and profoundly influence events in southern Ireland for the better.

The correspondent claims authority for this announcement and says he understands that in consequence of the agreement arrived at, hostilities between the rival forces are to cease, altho the political issue between the two parties is not affected.

The decision, it is added, followed negotiations between the respective leaders, who have been deeply influenced by the fratricidal character of the struggle as well as by consideration of the effects upon the national situation.

## FREIGHT RATES OUT OF PROPORTION TO TRADE VALUES

WASHINGTON, April 24.—Transportation rates on products of agriculture, as on many other commodities, now "bear a disproportionate relation to the price of such commodities," and should be immediately reduced, according to findings of the joint congressional commission on agricultural inquiry, announced Saturday by Chairman Anderson. Not only should these freight charges come down, the report declared, but in the future rate making bodies and railroad traffic officers should give "greater consideration to the relative value of commodities in the making of rates," and let existing charges on high priced finished products stand if necessary to remove cost burdens from basic materials.

# FIRST BUSINESS SKY SCRAPER TO BE BUILT BY THE FIRST NATIONAL BANK OF SANFORD

## PURCHASED MILLER CORNER TODAY AND WILL BUILD A SIX-STORY BANK AND OFFICE STRUCTURE THERE AT ONCE

The First National Bank, of Sanford, purchased the T. J. Miller corner and will erect on it a modern banking and office building to cost upwards of \$100,000.00. The preliminary plans call for a six-story structure of steel and stone and terra cotta to cover the lot 50 by 117 feet, with banking accommodations second to none in the state and the upper stories devoted to offices, modern in every detail, served by electric elevators.

The deal was closed this morning and the bank takes immediate possession of the property and will proceed as rapidly as possible in the development and consummation of its plans.

This is the result of a year of earnest thought and consideration of the very best for the bank and for Sanford.

When it became apparent that the bank would be obliged to enlarge its quarters to accommodate its rapidly increasing business, it was first planned to build on its present site. This would have meant the demobilizing of the present group of buildings owned by the bank, which are among the best in town, in addition to which the great expense and inconvenience of equipping temporary quarters had to be considered.

The action taken today is the result of an analysis of the situation from every angle.

In preparation for this step the bank recently increased its capital from \$50,000.00 to \$100,000.00, the combined capital and surplus now standing at \$125,000.00 and the deposits at nearly a million and a half.

The directors of the bank feel that the continued growth and prosperity of Sanford is assured, and they are looking ahead and building for the future—the structure planned will be a credit to Sanford when it has grown to be a city of 25,000 inhabitants.

This action is in accordance with the policy and reputation of this old institution—progressive conservatism—it means that F. P. Forster, S. O. Chase, L. A. Brumley, T. J. Miller, T. J. Hawkin, B. E. Squire and B. F. Whitner, together with the other stockholders are willing to prove their faith in Sanford by their works.

The First National has seen Sanford through the "rough spots" during the past 35 years, and now that we are entering on a period of development and growth, they propose to lead the way.

As details are worked out in the bank's plans they will be given to the public from time to time, recognizing as the bank does that it has seen the unswerving confidence and loyal patronage during these years that has enabled it to maintain its standard of usefulness, and to be in a position to take the forward step today.

# SHRINERS WILL CAPTURE CITY ON MAY 27TH OF THIS YEAR AND INITIATE SEVENTY MEN

## All Candidates Must Send Petitions to Recorder at Jacksonville at Once

Morocco Temple, A. A. O. N. M. S. of Jacksonville, will hold a ceremonial session and confer the Order in Sanford on Saturday, May 27, 1922.

All candidates for this ceremonial must have their petitions in the Recorder's office at Jacksonville not later than May 7th.

It is expected that this ceremonial will be one of the largest ever held in Florida and every true son of the desert of whatever Oasis is cordially and fraternally invited.

Jacksonville has promised to send a delegation of five hundred and a good many prominent Shriners throughout the state will attend.

President F. L. Miller of the Sanford Shrine Club has appointed the following committees who will bend every effort to make this ceremonial an unqualified success.

Parade Committee—Sam Yountz, Dr. R. E. Stevens, H. H. Heeren.

Candidates—James Moughton, R. B. Chapman, Gifford Garrett

Publicity—J. R. Forest, James Moughton, J. M. Gillon.

Ball and Banquet—Chas. M. Hand, Fred Walsma, Dr. E. E. Stevens.

Place and Arrangements—Fred Walsma, L. P. McCuller, W. M. McKinnon.

Decorations—J. M. Gillon, R. H. Morris, S. F. McAllister.

Reception—Forest Lake, James Moughton, L. H. Gibbs, H. H. Heeren, J. S. Wilson.

Automobile and Entertainment—C. M. Hand, R. A. Newman, L. P. McCuller, W. C. Hill, Harry Ward, J. C. Deen, J. S. Wilson.

A Shriners' ladies committee will also be appointed whose duty it will be to assist in entertaining the visiting Shriners' ladies. Cars will be at their disposal for sightseeing and boats for trips on the lake.

It is estimated that fully ten thousand visitors will be here on that date which will give to Sanford the biggest time in its history.

### UNION STATION GROUNDS METAMORPHOSED INTO ONE OF SANFORD'S GARDENS

Since the Chamber of Commerce started the work of improvement at the Union Station by calling attention to the dilapidated appearance of the grounds and afterward by the good work of the Woman's Club and the A. C. L. Railway and assistants the grounds surrounding the station are now a thing of beauty and despite the present drought the flowers and shrubs and trees are all growing and as soon as the rainy season starts the grounds will be beautiful.

Mrs. A. E. Hill of the welfare department, who has labored long and faithfully on this work and also on the parks of the city made the following report to the welfare meeting of the Woman's Club last week:

As chairman of your committee on depot work, I beg to submit the following report:

So far as I know, the first definite move towards improving the looks of our station was when Mrs. W. B. Herndon, then chairman of the welfare Department of the Woman's Club, set the little space between the express office and railroad building with hibiscus and palms. Soon after this through the fine work of Miss Whitner the transportation force of the Coast Line employees, bought shrubbery and set out the park at the south end of the station. This work they have maintained right straight along, until now their efforts have been recognized and money and labor have been given by the railroad to keep up the entire tract around the depot in a manner befitting the needs of a city like Sanford. This is necessary for me to explain, but neither the money nor the labor HAD been provided when I accepted the appointment from the welfare department, and the little plot Mrs. Herndon had set was badly in need of care and attention. At all times we have had the greatest courtesy and consideration from Mr. Dumas and his office force. The work of your committee is as follows:

Cash from Welfare for labor, fifteen dollars.

Man from the city once a week when needed.

Two loads of fertilizer from city.

One load of fertilizer from Mr. Spencer.

One load from Mr. Henry.

Bamboos donated and set around the northeast edge of depot park.

10 hibiscus plants donated by Mrs. Jewett.

Thousand of petunia plants grown by Mr. Meisch and myself, and dis-

tributed.

4 Japanese palms from Mrs. Stevens.

1 yellow elder, 2 date palms from Mrs. Newman.

1 sago palm, and 1 crape myrtle from Mrs. Fred Williams.

Nasturtium seed from the Allen Seed Co.

4 lbs Allamandas and sinna seed Mrs. Hill.

4 Malvaviscus, Mrs. McLaulin.

2 American Beauty Roses by Mrs. Guinn.

Double row of poinsettia cuttings in front of bamboo hedge, to the express office, given by Mrs. Holly, Mrs. W. C. Hall.

15 flame vines donated by the welfare department, and set out along the board fence west of the depot.

2 planted Express Office; 2 round the oak tree; one round palm trees.

Your chairman has also held a plant sale and a rummage sale during the club year, both of which were very successful, and have already been reported through out secretary-treasurer.

As our committee will not be needed any longer at the depot, I wish to recommend that a letter of appreciation be written from the department to Mr. Dumas for all his helpfulness and courtesy.

Respectfully submitted for the committee on depot work.

MRS. ALICE F. HILL

### FOREST LAKE AGAIN HONORED BY THE BANKERS OF THE STATE OF FLORIDA

Hon. Forest Lake attended the convention of bankers at Gainesville last week and was again honored by them in being elected vice president of the State Bankers Association and will represent the state bankers of Florida at the American Bankers' Association in New York on October 4th. Mr. Lake served as president of the State Bankers' Association two years ago and has held several offices with the association since its organization and his Sanford friends are congratulating him upon his added honors.

WASHINGTON, April 25.—The restoration in the House tariff bill duty of fifty cents a thousand on shingles, was asked of the Senate Finance Committee today by twenty-five senators of the Republican Agricultural tariff block. Shingles are now on the free list.

Notice is hereby given that the undersigned will, on Friday, April 28, 1922, or as soon thereafter as convenient, apply to the honorable Gary A. # MEMORIAL DAY TO BE OBSERVED IN THIS CITY

## N. de V. HOWARD CHAPTER, U. D. C. WILL RESURRECT THIS BEAUTIFUL CUSTOM

Wednesday, April 26, at 3:30 p. m. in Central Park the N. de V. Howard Chapter U. D. C., will observe Decoration Day. There will be a short program, a talk by Dr. Brownlee, song, wreath placed in monument in honor of our heroes of the late world war. Then to the cemetery to decorate the graves of the heroes of the sixties. The public is invited. A special invitation is extended to the old veterans, G. A. R., and American Legion boys.

Following is the history of our first Memorial day:

On April 26th, 58 years ago, our mothers and grandmothers of the South with bleeding hearts, with hope almost gone, yet with a loyalty and devotion hardly known to civilization established our Southern Memorial Day to the Confederate soldier the first Memorial day to be established in the history of the world.

The war was not long over, the heavy hand of reconstruction was pressing the very life out of our stricken land yet these women put all bitterness aside and where an erstwhile foe had found a last resting place in our midst his grave was strewn with April blossoms just as were our own.

Established by our mother and our grandmothers to commemorate the glorious deeds of our Confederate soldiers and a cause not successful, but the memory of which will never die, the keeping of this day has been handed down to us by our mothers to be in turn bequeathed to our children.

The Southern people have shown in a gallant way their faith in a re-united nation, and while the Stars and Bars are furled and laid away forever, the people of the South will never allow its history to die, they will forever near its mantle of heritable, for a people who take no pride in its past history will never achieve history worthy of the name.

With our April blossoms to tell of the love for our heroes who fought to maintain what they thought to be right and just who gave all that men could give, a love so strong, so true so all abiding, having a beautiful influence and memory that will never die, we publicly honor our Confederate dead.

Note an unbroken year, Confederate Memorial day has been observed every year. Then let us weave,  
"Garlands for Confederate Memorial Day,  
For the men who wore the gray,  
And the Confederate flag shall wave,  
For the Cause they died to serve."

—N. de V. Howard, C. U. D. C.

# ADDITIONAL LOCAL

(From Monday's Daily)  
J. H. Huddleston of Geneva was in the city today and reports the Geneva section as flourishing but needing rain badly like all of Florida.

Hon Forest Lake has returned from Gainesville where he attended the convention of state and national bankers.

Dr. and Mrs. Langley and their guests visited in Tampa Saturday and yesterday and enjoyed the beautiful "Florida Highlands" country enroute.

Mr. D. T. Robertson, insurance counsellor of New York City spent a few days here last week as the guest of Dr. and Mrs. J. C. Potter, on Laurel Avenue.

Sanford is doing business along every line now and if all the stores will advertise specials and go after the trade this will be the busiest summer in our history.

W. B. Talley and O. W. Talley of Lakeland are in the city today looking over the field with the view of drawing plans for a number of new buildings. O. W. is a former resident of Sanford and both of them are now living at Lakeland.

E. H. Kilbee of Geneva was in the city today and announced his intention of making the race for County Commissioner from the fifth district—the Geneva and Chuluota section. Mr. Kilbee served one term as commissioner from this district and says that his many friends have again prevailed upon him to make the race. The Commissioner from the Fifth now is Endor Curlett who will also be a candidate and the Fifth promises some warm campaigning along with the other districts.

HERALD BUILDING Phone 143

Knights of Pythias are in meeting at Orlando.

Bill Crawford's picture in all the Orlando papers shows his handsome phis in true form. Bill was formerly a newspaper man which accounts for his good looks.

Why do the so-called "night editions" of the Florida dailies have to be printed on pink paper. Whenever the Herald gets out a "night edition" it will be printed on light blue paper done up in baby blue ribbon.

Peter O. Knight in a speech before the Hardware convention at Birmingham "rapped the 18th amendment," says despatches in daily papers. We do not know just which amendment Peter meant to rap but if he wanted to be in style he should have rapped the 18th one just for luck.

Now that the missing Key West-Bimini seaplane has been found we can resume our accustomed perusal of the Genoa conference, the bonus bill, the sporting news and the platform of Albert Gilchrist. And Bimini will be quiet until another plane is lost.

Four million men are out of employment chiefly on account of the coal strike and other strikes throughout the United States. It is a good thing summer is coming on for with four million men out of work their families would suffer in the cold winter weather. This does not look like the good times that were promised by the Republican administration.

Two editors in Colorado settled their difference by a personal scrap and one had his nose broken and he promptly shot his assailant dead. That is really the best way to settle any personal animosities that might crop up from time to time among the rival newspaper men in the same city. Newspaper men usually go the whole way without any argument.

The old landmarks of Sanford are gradually disappearing to make way for the new buildings and the new Sanford. It is the case of the survival of things. All of which brings to mind the thought that we should so live that departing we can leave behind us footprints on the sands of time instead of finger prints on the police records.

So many men ask the question, "what is the chamber of commerce doing?" and they are usually the men who do not belong to this body. If they were active members they would know what the chamber is doing and know that the active committees are working every day for the betterment of Sanford. There are many merchants and farmers being benefitted every day by the chamber of commerce and they are not spending a nickel with the chamber to help it help them.

"How I Checked Liquor Smuggling in Florida" is the title of an article by Mr. Nutt, running in many of the daily papers. "Checked" is right. He checked the flow into the state and then went back home. Now if Nutt had said "How I Stopped the Liquor Traffic" he would have said something. Any dang fool can check it right here on main street most any night, but why check it. We are not baggage men or checker players. What the people want is a "stopper" instead of a checker.

Our county commissioners held a special meeting yesterday afternoon and decided to accept the offer of the state road department to furnish rock for the sides of the Orlando-Sanford road making it sixteen feet wide. Seminole will have to pay for the road building but it will be reimbursed later when the road department has the money. This was a move in the right direction by the commissioners and means that the main highway and the most extensively traveled will be made wider and fixed at once without waiting for the road department to bring their force down here which might be any time within the next two years.

We would like to inform the readers of the Herald that news is news and all the articles gleaned from the

world by our great press gathering agencies are printed with no thought of taking sides on any subject. Unless you see something in the editorial columns you cannot take exception to same as the gathering of news has nothing to do with the editorial policy of the paper.

Pensacola man was lost in Orlando for several hours yesterday. He was attending the Knights Pythias convention and becoming sleepy went to his hotel and slept. The other Pensacola folks jumped to the conclusion that some of the capital removal people in south Florida had sandbagged him and they were greatly alarmed until the missing one was found in the hotel. No one ever goes to sleep in Orlando and naturally the police never looked for the man to be in bed.

The first observance of southern memorial day in Sanford was held yesterday and being the first it should have been better attended but it seems that the people who are mostly interested or should be interested have lost interest and this probably accounts for the fact that the day was never observed before. Credit is due to N. deV. Howard chapter, Daughters of the Confederacy for the observance of the day yesterday and it should be made a holiday in fact as well as in name next year. Other cities closed the stores for two hours and in many other ways observed the day and called the public's attention to the day of days in the south.

BUSY TIMES IN FLORIDA

We have often remarked that it would take a large size book to tell of the activities and progress of the different cities and towns in Florida and in that assertion we have not changed our minds one bit. The state is growing fast and the optimism of the many newspapers shows that every section is on the increase.

To be sure the average person when told that the state is growing fast, his mind will run to Jacksonville, Miami, Tampa and St. Petersburg. His mind then is at rest. He never thinks of other cities like Orlando, West Palm Beach, Daytona, Lakeland, Ocala and Sanford.

Nether does he give a single thought to Fort Myers, Palatka, Plant City, Fort Pierce, Melbourne, St. Augustine, Gainesville, Clearwater, Haines City, Avon Park or Lake Wales.

Yet every town named above are growing like weeds and dozens of others are in the same boat. No matter in what direction the traveler moves he sees evidences of prosperity on every hand. Towns that were considered dead three years ago are so lively today that the man who has been absent a year or more needs a guide to show where the old landmarks were.

St. Petersburg maintains 700 carpenters the year around and Miami over 1,000. Daytona and the two cities on the beach are spending over \$300,000 right now for new buildings. The two Palm Beaches have over a half million dollars planned for new buildings. Miami and Miami Beach are putting up new buildings that will cost a million and yet there is more to follow.

Many of the towns are reporting \$100,000 and more being spent in new buildings and the town that is not reporting any improvements is not much.

Then with the many new buildings in process of erection, there will be several million more spent for hard surfaced roads, sidewalks and sewers. Nearly every town or city has the improvement fever. Municipal and district bonds are selling for more than par. The air more than reeks of prosperity.

Many new agricultural farms, stock ranches and dairy farms are being started and there is any amount of capital behind them. In the Everglades sugar mills are either started up or building. Many cities are being set out to sugar cane and within a short time the Glades will be the sugar bowl of the world.

From the North and even from other sections of the South the great trust companies are sending their representatives to Florida with a view of getting in on the top of the prosperity wave. After they have visited a few of the busy communities the trust companies announce they will lend money to any legitimate concern in Florida.

By a systematic manner of advertising Florida could attract more settlers and more capital. To our notion printers' ink is the one blessing that will bring the attention of the outside world to this great state. If anything will do it printers' ink will.

To our notion it is all right to have festivals and carnivals in the cities. Also to hold Palm Fetes, Sun Dances, Ponce de Leon celebrations and the like. Such gatherings attract a large crowd for a week or so and then the world moves on.

Nothing much has been accomplished.

UNCLE HANK

Education is eatin' spaghetti like you was used to it.

On the other hand county and district fairs and even township fairs show the visitor what can be raised there. The grand display of fruit and vegetables, poultry and live stock proves that the old state can raise something besides tourists and resort hotels. The above displays are mute advertisements of the resources of the state and the visitor is of the notion of buying a home nothing more will appeal to him stronger than to see the stuff that is raised in that section.

Yet everything helps. The tourist himself is a big asset to the state. The family that arrives and departs in an automobile leaves a certain amount of money. Even the knocker spends a certain amount, and where there is one that knocks there are ten thousand that advertise the state for all they are worth.

Willis Powell of Lake County says that the average family that comes to Florida to live, be he a home owner or renter, is worth \$2,500 to any community. And we believe that Willis knows what he is talking about. The man that patronizes the grocer, the butcher, the dry goods and clothing stores, to say nothing of the baker and the milkman is a valuable asset to any community for he is helping to circulate money in the community and keeps the dollars a-moving.

Florida will continue to grow and there is no stopping, either, at the half way station. The town of today will be a city tomorrow. While the communities in the North are worrying with strikes and shortage of coal the Floridians will be on the job twenty-four hours in a day and they are not quitters, either.—Florida Post.

OF INTEREST TO SOUTHERN SHIPPERS

As a measure to secure for the public the maximum service from its specialized equipment for handling perishable traffic, the Pennsylvania railroad will, effective May 1, discontinue entirely the operation of its separate refrigerator car lines, and will merge all of its refrigerator cars numbering 5,927, with those of the Fruit Growers' express. Thereafter the Fruit Growers' express will assume all refrigeration and protective car service on the lines of the Pennsylvania system.

The Pennsylvania railroad management has decided upon this step as being in the best interests of the shippers and the railroads generally. Its most important effect will be to more than double the number of refrigerator cars operated by the Fruit Growers' express. These now number 5,209. With the addition of the Pennsylvania cars, there will be a total of 11,136 available for service throughout the territory covered which embraces the Southern and Central Western States east of the Mississippi, the Middle Atlantic states and New England.

The Fruit Growers' express is a co-operative organization owned and managed by the leading railroads of the south and east. It has no individual stockholders and no distribution of earnings outside the owning railroads. It exists solely for the purpose of supplying refrigerator cars and protective service on fruits, vegetables and other products of a perishable nature.

Traffic of this character is seasonal, beginning during the winter in Florida and working north until the late fruit crops of northern New York and Michigan, and the potato crop of New England, are reached. It is therefore evident that the addition of the large number of cars owned by the Pennsylvania system, to those already controlled by the Fruit Growers' express, will assure a better distribution and a more flexible, efficient and economical use of the equipment throughout the season. It was for this reason concluded by the Pennsylvania railroad management that the shippers' needs are better met by such an organization as the Fruit Growers' express than by each railroad trying locally to care for the crops in its own particular territory and that of its connections.

The new arrangement will also secure professional attention to all de-

tails of the protective service for all shippers. The Fruit Growers' express was organized two years ago and has developed a working force specially trained in the handling and care of perishable freight. Last year it made a particularly successful record in handling southern products, and it was largely this fact which influenced the decision of the Pennsylvania railroad management.

The Pennsylvania railroad was the pioneer in the use and development of refrigerator cars, having established the first lines through the south more than thirty years ago, in order to bring fresh fruits and vegetables to the northern markets during the colder seasons.—Tampa Times.

THE RIGHT ROAD BUILDING IDEA.

The Orlando Reporter-Star of recent date quotes Mr. M. M. Smith as saying:

"It is not cheap road construction, but good road construction that we need in Florida."

Mr. Smith is right, incidentally he is in line with the arguments used by this paper that Florida road building, from now on, should be of the permanent type. It is not a matter of will at least as long as the bonds run which furnished the money for their building.

The Reporter-Star declaring that it is the poorest kind of economy to build cheaply, says, relative to the class of roads that will be needed for the future:

"Under the heavy automobile and truck traffic to which roads are subjected now, they must be built very heavy; must be constructed on well drained beds and must be protected at the edges. Clay and crushed stone will not serve where the traffic is very heavy. These materials serve a useful purpose on some roads but not on roads of frequent heavy traffic."

Not only is it true as the Reporter-Star says, that our roads must be built heavier, but that paper might well have gone further and said that harder and more permanent material must be used on certain roads where the traffic is heavy, and the weight to be carried grown and growing to a degree that is far beyond present construction and material.

With the extension of the "ship by truck" idea, the time is not far remote when roads of practically the lastingness and solidity, of the modern railroad track will be needed. Reinforced concrete is even now being used in many sections of the country, especially about the great commerce distributing centers such as Chicago, New York, Pittsburg, and even Baltimore.

Building permanently is building for posterity, and as posterity is going to have to take care of the retiring of many billions of dollars of these road bonds, it is but fair to posterity that we build for permanency.

Nor is it wise to attempt to build in a year all the mileage that a state or a county will need for the next score, or even decade of years. True, "progress" demands a good road to travel on to its goal, but "progress" has been enroute for many years, and only until the almost immediate now has it had any good roads to advance over. It will not do to substitute the jazz of quickness for the steady rhythmic step of progress; and the county, state, or the nation, that attempts to do in a year what might well be extended over a decade is going to find that presently its people will revolt against the excessive burden placed on them all at once.—Tampa Tribune.

TALKING ABOUT INVESTMENTS

Now that the growers of the Sanford section are making some money the investment sharks will come swarming in like so many locusts and they will be looking for easy money and they will get it unless the people here are cautious about where they place their money. There is really no reason for the people of Sanford investing their money anywhere except Sanford. The instance of a corner in this city selling for \$12,000 three years ago and selling last week for \$30,000 is enough to cause the home people to forever eschew the gold mine, oil well and other wildcat routes to throw away their money. You can search the city over and if you will find one man in this section that has ever made anything on his stock certificates in outside investments we will give him the nickel plated shoe horn. On the other hand those men who having faith in their own community have invested their money right here in Sanford are on Easy Street today. The investments in this city are better now than ever because the city is over the hill and going good. There is no place in this country where your dollars will grow quite as fast as in the city of Sanford and

the man with money who falls to buy Sanford real estate now but puts the money in some fly by night scheme (the other fellow's game) will regret just as those who have gone before have regretted it. The following from the Florida Metropolitan is timely:

"Speaking before the Florida Bankers' Association at Gainesville Saturday, D. R. Crissinger Comptroller of currency, stated a truth in these emphatic words:

"The present is a most appropriate time for bankers to admonish their clients against over-confidence in speculative investments. The world needs a restoration of opportunity to produce and consume things needed for human progress and bankers should keep in mind that the first call for liquid capital must be made in behalf of the farmer, the manufacturer, the exporter, and in general, the industrial and commercial community. It is equally important that banks be kept from over-extending themselves by too liberal accommodations to speculative clients."

Those familiar with present business conditions and the history of trade agree in the conclusion that the country is passing through a revolutionary stage. The things considered established axioms of business are not holding up, and that the outcome depends almost entirely upon the remedies applied to the various phases of the general conditions as they become acute.

Also the experts and others in touch with the trend of economic events are firm in the conviction basic economic factors are entitled to consideration and relief before potential factors are given liberal encouragement. Mr. Crissinger speaks for those who hold this opinion, and, occupying the position that he does, he should know what he is talking about.

What the country needs today, and the world as for that matter, is a more secure foundation for the things that are all-important in the great effort to live, not an indiscriminate program of developing would-be necessities; and while progress is an obligation that cannot be avoided protection of our present assets is an even more binding obligation, which doubtless is the thought that prompted Mr. Crissinger to warn the bankers of the state against investments that smack too strongly of the speculative."

WHAT IS APPRECIATION?

Sometimes this old world is a dismal place. Sometimes it would seem that none of man's efforts availed him anything worth while. Sometimes it would seem that only "knocks and kicks" greet the things he tries to do for the benefit of others.

But once in a long while there comes through this cloud a ray of sunshine—a bright spot to repay him for all the efforts he has expended in unselfish earnestness for the general good of the community.

And a newspaper is not unlike an ordinary human individual. A newspaper battles for the community in which it is published. All too often it is bemanned and criticized, knocked and kicked by those it is trying to help. All too often the men who make newspapers are led to believe that there is no such thing as appreciation.

And what is appreciation? Merely an honest expression from the heart—a telling to the other fellow that you realize his efforts in your behalf and the behalf of others.

Such a message came to The Times recently from a man in a public position in St. Petersburg. To reveal his identity or to print his letter would be violating a confidence and offending modesty.

But if none other than this man reads on this printed page how a newspaper appreciates the appreciation of those who honestly commend it, the space these thoughts occupy will not have been used in vain.

Like Carlyle, The Times believes that "one of the Godlike things of this world is the veneration done to human worth by the hearts of men."

And even a newspaper may be pardoned an honest pride in its own worth.

A not very well-known writer, G. A. Chester, once said: "To feel exclusively is the lot of very many; but to appreciate belongs to the few. Only one or two here and there have the blended passion and understanding which, in its essence, constitutes worship."

And so The Times almost worships the man who is honest enough, once in a while to show his appreciation of the efforts of this newspaper toward a constructive policy for the city all of us love.—St. Petersburg Times.

IF KIDNEYS AND BLADDER BOTHER

TAKE SALTS TO FLUSH KIDNEYS AND NEUTRALIZE IRRITATING ACIDS.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

To see the healthy bloom in your face to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for a week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a fine appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to demonstrate that those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges or whose skin is sallow or pallid, that one week of inside bathing will have them looking and feeling better every way.—Adv.

### LAKE MONROE

EXCELLENT SCHOOL CLOSURE SUCCESSFUL TERM WITH APPROPRIATE EXERCISES

LAKE MONROE, Fla., April 28.—The graduating exercises of the Lake Monroe school took place Monday evening in the presence of a packed house. The class was small in comparison to the large number of pupils there being an enrollment of one hundred and eight scholars. The graduates were Misses Iva G. Bales, Rena Mann, Alice Oglesby, William H. Miles and Ralph D. Smith. The class chose as their flower, the red verberna and gathered them from the school garden. The pretty class colors were blue and gold and the beautiful motto, "Build With Care."

The program opened with the chorus "America, the Beautiful" by the entire school. A short invocation was then offered by Rev. J. A. Johnson. The prayer was followed by the song, "My Sunny Florida," by the grammar school room and a piano duet, "Thru Field and Stream," by Misses Rena Mann and Catherine Lake. The playlet, "The Boston Tea Party," by the graduates, was a decided success. Very quaint and beautiful were the old fashioned costumes of Colonial days, the dainty tea set, candles and vases, and very becoming was the stage setting to the fair girls and gallant lads as they gracefully rendered song and dance and brought back memories of "auld Lang Syne." A dialogue, "A musical contest" a negro farce, was well received and loudly applauded followed by the military drill and the patriotic pantomime of the boys and girls of the higher grades.

Mrs. Ora D. Layton, Orlando Health Crusade representative, gave a very

interesting talk and presented crusade pins. The class song, "Dear Old Pal of Mine," was then followed by an able address by Supt. T. W. Lawton. He said in part: It is not so much where we stand but how we face, that counts. Are we headed in the right direction, are our aims true, our purposes sound, our ideals lofty? How the Monroe school seemed headed right, possessed the proper spirit showed results of superior effort. He also kindly told the community of the certificate of standardization awarded by State Inspector, and how Mr. Geiger had noted upon his report that our school stood above the average, had an excellent building, splendid attendance a delightful influence and a refining atmosphere. Mr. Lawton's remarks were greatly enjoyed and deeply appreciated by the community teachers and children.

Mrs. W. F. Blackman speaker of the evening was then introduced and delivered a most practical common sense and highly interesting talk entirely adaptable to children of the grades. She congratulated the children upon their perseverance and expressed a hope that they would continue their development through High School. She spoke of the child of today facing the most difficult age in the history of the world and how he should have all the necessary equipment, a mind stored with valuable influence, a working knowledge of the wonderful commonplace things that surround us but most important of all, he should know how to do his own thinking. It is the responsibility of those upon whom the world can depend. A captain of industry, a somebody in life. The Democracy of American needs educated citizens or it will degenerate into an anarchy, and how the tools for equipment to good citizenship are found in the great public school system of America. That no class distinction is found there, all are equal and receive just about what we deserve in the end. She inculcated into the minds of the children, the great respect for authority, law and order, a principle so lacking in our day, the duty of good citizenship, how men and women work for good together and of loyalty to our great country.

Mrs. Blackman's splendid address was then followed by the presentation of diplomas by Prof. J. T. Jacobs and the attendance certificates. The pupils perfect in attendance also received a nice present from Mr. Chas. Bales, one of the trustees, who also made a fine talk. Mr. Bales loves our boys and girls and always has something nice to tell them. Mr. Bell another trustee also made a good talk. "The Builders" was then read by the graduating class, then all the grades joined in singing the school song, "Goodnight."

The closing of this term marks a very successful school year. Community trustees, teachers and children worked harmoniously and accomplished those results attending no friction with all wheels running smoothly. Our school is climbing upon a higher plain of endeavor and this summer a baseball diamond and a basket ball ground will be planned. These with the nice library and stage curtains we expect to install by next year, will add greatly to our equipment.

**SAGE TEA TURNS GRAY HAIR DARK**

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It fades, turns gray or streaked, just an application or two of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally, and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Adv.

### UPSALA AND GRAPEVILLE

Rev. Farman of New Smyrna, the Adventist pastor was a guest from Wednesday 'till Saturday at the homes of Mr. and Mrs. Forrest West and Mrs. A. F. Westerdick.

Mrs. T. E. Speer, a long resident of Sanford, but now of Lakeland, has been spending a week with her many friends here and for two days was a guest at the home of Mr. and Mrs. Kenneth Robbins.

Mr. and Mrs. Edd Hunter have moved to their new home on the West side recently erected by V. C. Collier. We are sorry to lose them.

A number from this section took in the High School play Thursday and Friday evenings. Mr. and Mrs. Alfred Ericson and children and Miss Bright Laney attended, their daughter, Miss Margaret, having a part in it.

Mr. and Mrs. Andrew Bertleson and little daughter Claire, motored over to Daytona Beach last Sunday.

We understand Mrs. Anna De Forrest has been rather indisposed at her country home, of late.

Mrs. Cramer who has been taking in Mrs. Ballinger for treatment for the broken wrist, which is beginning to knit, is also taking treatment as well as her husband of Dr. Hetze.

Mrs. Ballinger stayed with them for Adventist service Saturday, led by Rev. Burroughs of Orlando.

Miss Hazel Pritchard has returned to her duties at the Commercial Club after a rest spent at the homes of her cousin, Mrs. Barney Beck and Mr. Pearson's family to recover from her throat trouble.

Mr. and Mrs. Volie Williams have been having a trying time as Volie is still having chills and fever and on Saturday their little son, Volie, Jr., had a conjunctive chill but Dr. Tolar their family physician was out in a jiffy and the child seems better. Grandpa Miller was up from Orlando to see them and many Sanford friends called.

A. L. Campbell, one of the A. C. L. shop force has just returned from Waycross where he had his tonsils removed.

Mr. and Mrs. Charles Cramer and little ones and brother, Vernon, motored down Saturday afternoon to Fort Morris to see their aunt, Mrs. V. C. Collier. Her many friends here will be glad to hear she hopes to be able to return home by Sunday. Mrs. Westerdick has also been down to see her.

Miss Lila West was the guest Sunday at the home of Mr. and Mrs. Fisher at Ocoee.

Good weather of late for Irish potato digging but hard on growing things. No doubt we will have the needed rain sooner than we desire it.

In a recent editorial, Bob Holly struck the right note, we think, when he said "if the present officers don't enforce the laws, kick them out and put in those who will and there will be no need for a Ku Klux Klan." If it is a good law enforce it and if not repeal it. We believe the officers are trying to do what is right and they should know the people are back of them.

Rev. Clark gave us an earnest thoughtful sermon on the need of being under the blood—Gods plan, not mans for our redemption.

The Misses Hake and Burnett and brother of Paola were present for the service as well as Mr. and Mrs. Pritchard and Vernon Cramer and Charlotte Powell, the latter coming over with Mr. and Mrs. Josse Lee.

The near relatives and friends gathered at the home of Mr. and Mrs. Andrew Bertleson on Saturday evening to remind the host that he had just passed another milestone in life's journey and to wish him many more—Last year this time as we all remember he was in the hospital. Beside the nearby folks, Miss Bright Laney who was a guest for the week end at the Ericson home and Elmer Tyner and a young lady from Lake Mary were present.

Besides some of the near neighbors Mrs. Beck, Mrs. Pritchard, Mrs. Hirschi and children and Mrs. Ericson have called in to sympathize with us in our recent trial, all of which we appreciate.

**CITATION**

COUNTY OF SEMINOLE, a corporation, by and through L. A. Brumley, O. P. 2879, E. Curlett, C. W. Bantlinger and L. P. Hagan, comprising the Board of County Commissioners of Seminole County, Florida.

The State of Florida, ex rel Geo. A. DeCottes, State Attorney for the Seventh Judicial Circuit of the State of Florida.

TO THE CITIZENS AND TAXPAYERS OF SEMINOLE COUNTY, FLORIDA:

Whereas, a petition has been filed in the above styled cause by the County of Seminole, State of Florida, by and through the Board of County Commissioners of Seminole County, Florida, setting forth the fact that an election was held throughout the County of Seminole, State of Florida, on the 11th day of April, A. D. 1922, to determine whether there should be issued by the said County of Seminole, State of Florida, bonds in the sum of \$100,000.00, to bear interest at the rate of six per centum per annum, the principal on said bonds to mature thirty years after the date of the issuance thereof, and bonds to be dated July 1st, 1922, both principal and interest of said bonds to be payable at some bank in the City of New York, State of New York, the proceeds to be derived from the sale of said bonds to be used for the purpose of constructing, resurfacing, macadamizing and paving certain roads in Seminole County, Florida, and for the further purpose of constructing a bridge across the St. Johns River in Seminole County, Florida, at a point known as Osteen Ferry, and

Whereas, by reason of the returns of said election showing prima facie that the result of said election was in favor of the issuance of the bonds aforesaid by Seminole County, Florida,

Now, Therefore, Pursuant to an order of the Court herein made, notice is hereby given that the citizens and taxpayers of Seminole County, Florida, are by said order, required to be and appear before the Circuit Court of the Seventh Judicial Circuit of the State of Florida, on the 23rd day of May, A. D. 1922, at 10:00 o'clock a. m. at Sanford in the County of Seminole, State of Florida, then and there to show cause why they have, why said bonds should not be validated and confirmed.

## FERTILIZER FOR CITRUS TREES

Now is the time for Summer application of fertilizer to citrus trees to serve the double purpose of creating new growth, which is the foundation for next year's crop, and of developing the crop now on the trees.

Summer Fertilizer pays for itself by increasing the size of the fruit. Be liberal with your trees. We recommend the following brands:

**W. & T'S SEMINOLE FRUIT MANURE**  
(3% Am., 8% A. P. A., 5% Pot.)

**SEMINOLE FRUIT AND VINE**  
(8% Am., 6% A. P. A., 8% Pot.)

**ALKIDEAL FRUIT MANURE**  
(3% Am., 13% T. P. A., 10% Pot.)

**W. & T'S SPECIAL FRUITER**  
(4% Am., 8% A. P. A., 8% Pot.)

**IDEAL FRUIT AND VINE MANURE**  
(8% Am., 6% A. P. A., 10% Pot.)

Send for our booklet, "Fertilizers for the Summer Application" by Bayard F. Floyd. It treats not only of fertilization, but gives summer schedule for spraying.

### SILVER WEDDING ANNIVERSARY.

The attractive home of Mr. and Mrs. W. P. Fields was the scene of loveliness Friday evening when they entertained a large number of their friends, the occasion being their Silver Wedding anniversary. Quantities of fragrant pink and white roses, and oleanders in baskets and vases and potted plants, were most artistically used in the spacious rooms of this attractive home. In the dining room the refreshments table was covered with a beautiful lace cloth, and centered with the wedding cake in white, around the base of which was an attractive arrangement of ferns. From the chandelier to the corners of the table were festoons of graceful asparagus ferns, fastened with white ribbons.

Mrs. Alfred Lilja welcomed the guests at the door, and Mrs. L. P. Hagan introduced them to the receiving line. In the receiving line were Mr. and Mrs. Fields and their young daughters, Misses Mary and Louise Fields. Mrs. Fields wore a beautiful gown of oyster white crepe knit, the bodice being basque effect, with baby irish lace and hand made roses, while the skirt was a draped model. Her slippers of white satin were those worn at her wedding, 25 years ago. She carried a bride's bouquet of brides roses. Misses Fields wore becoming frocks of white organdy, trimmed with hand made flowers.

Punch was served throughout the evening, at a prettily decorated table in the hall, by Mrs. E. M. Carroll, and at a late hour, delicious refreshments consisting of chicken salad, sardines, olives, pickles, wafers, angel feed and gold cake and coffee, were served by Misses Mary and Louise Fields and Ethel Kersey.

The following program was rendered during the evening:

- Piano duet—"Parade of the Amazons"—Elizabeth Shoemaker, Mrs. S. W. Walker.
- Vocal Solo—"Little Gray Home in the West"—Mildred Lee.
- Violin solo—(a) Cradle Song, Houser; (b) In the Gloaming—Mrs. P. M. Boyd.
- Readings—Group of love poems and Rosa from the Signi Rose—Mrs. Newberry.
- Vocal duet—"Silver Threads Among the Gold"—Mr. and Mrs. H. R. Laing.
- Piano Solo—"Love Song," Ambrose—Mrs. S. W. Walker.
- Vocal solo—"When You and I were Young, Maggie"—Lilly Ruth Spencer.
- Readings—"The Lapse of Memory"—Miss Ora Williams.
- Piano Solo—Julia Laing.
- Vocal solo—"O, Love of Mine"—Reiss—P. M. Boyd.
- Violin solo—"Believe me, if all Those Endearing Young Charms"—Mrs. P. M. Boyd.

### DEDICATED TO MR. AND MRS. W. P. FIELDS

(On their 25th wedding anniversary) Twenty-five years ago today He led a maiden home to stay In a cottage he had tried his best To make a cozy little nest. It was something fine twenty-five years ago To look in his handsome face and know That he would walk by her side thru life To help her bear its petty strife.

It was something fine twenty-five years ago To look in her pretty face and know That she was to walk by his side thru life To be a true and happy wife.

It is something fine when the world goes ill To know she's faithful and loves you still To feel when sunshine is hid from sight She's there to help you find the light.

It is something fine to feel her near When life with its sorrows seems hard to bear To feel when you falter a clasp divine Of her tender and trusting hand in thine.

He is to her joy of life She is to him a devoted wife Like the spray of the ocean seems to kiss the sun Their lives are blended into one.

Thru all these many years Thru joy and sorrow and sometimes tears They have walked together side by side With nothing to disturb or their love divide.

Sometimes friends, the world goes wrong For God gives grief with the gift of song Sometimes poverty but your love is more To you than riches and golden store.

There will come a long sad day

When one or the other will be taken away But on that happy golden shore You'll be happier than you were before.

MRS. E. M. CARROLL April 21, 1922 Last but not least was the poem written by Mrs. Carroll's father who is 80 years old:

TO MR. AND MRS. W. P. FIELDS Time in its flight Marks twenty-five years tonight With silvery gifts so bright Since the sacred knot was tied That made sweet Oacle my bride.

O Time, deal gently in coming years Until the golden wedding day appears To brighten again this home of love 'Till they reunite in heaven above. —Written by J. Hill Jones.

### WEATHER AND CROP CONDITIONS IN FLORIDA FOR WEEK ENDING APRIL 18, 1922

Temperature: Temperatures were unseasonably high throughout the week, the daily excess at some stations being 10 to 15 degrees. Maximum temperatures were well up in the 90's.

Precipitation: Showers occurred west of the Apalachicola River, and in the extreme northern portion of the peninsula between the Apalachicola and Suwanee Rivers. The week was practically rainless over the peninsula east and south of the Suwanee, the drought remaining unbroken in the south, where it has continued for several months.

Condition of crops: Most crops in the truck line are in a precarious condition, and some have deteriorated seriously; in fact, beans on high lands in some instances have been ruined—result of dry, hot weather. On low lands the deterioration is not so pronounced. Melons made fair progress, but growth is backward; oats are being harvested; the crop is short, owing to rust and other damage from dry weather. Corn made fair progress, but needs rain; the crop is generally well worked; there is no complaint of grass. Cotton was planted in good condition, but some recent planting is germinating slowly; some early seeding is up and chopping will begin soon. Tobacco plants are doing well, but like all other crops need rain. Strawberry plants are doing fairly well in the north, but dry weather is affecting the crop. Harvesting Irish potatoes continued on a large scale. That crop, also, has been unfavorably affected by drought. The weather during the week was excellent for harvesting purposes. Citrus leaves are curling, and some fruit is dropping where the drought has been most severe.

### GILCHRIST TO RUN AGAINST TRAMMELL

(By The Associated Press) TAMPA, April 25.—Over long distance telephone former governor Albert W. Gilchrist, at Jacksonville, last night informed the Tampa Morning Tribune that he had decided to be a candidate for the United States senate in the democratic primary of

June 6, against Senator Park Trammell, who seeks re-election. The former governor has been meeting with friends at Jacksonville the last few days and his decision is a result of these meetings.

General Gilchrist was governor of Florida from 1908 to 1912, being succeeded to the office by Mr. Trammell who went from the gubernatorial mansion into the senate. Six years ago, when Mr. Trammell sought and won the senatorship against N. P. Bryan, then senator, General Gilchrist and Perry G. Wall also were candidates.

General Gilchrist's home is in Daytona.

### WATTS IS REMOVED AS SPECIAL AGENT CHARGE OF DISLOYALTY

WASHINGTON, April 25.—W. C. Watts, special agent Department of Justice was removed today for disloyalty to the Department after admission he furnished to Representative Johnson, Republican, South Dakota, certain information on which Johnson based his attack on the department in a recent speech in the House.

### FORT LAUDERDALE, April 25.—

J. F. Bowman, merchant, of Deerfield, near here, was kidnapped last night by three men and was taken to Deerfield beach and severely beaten after his captors accused him of stealing fifty cases liquor smuggled from Bimini and concealed near his place. Warrants have been issued for the arrest of the assailants.

Druggist Sells 12 Gross (1728 Bottles) of FERRALINE in Short Period. Only Wonderful Properties Could Sell a Medicine So Fast.

In a recent letter received by the Ferraline Medicine Company, the owner of Oitman's Drug Store, a thriving Mobile, Ala., company says: "Your salesman strolled into the store and introduced Ferraline. After listening to what he had to say, I decided to try three dozen, classing it along the line of patent medicines. In three days I ordered a gross and with your line of advertising it has been one gross after another and up to the present time I have handled twelve gross. Going some for one kind of medicine. It sold strictly on its merits and I consider it one of the best repeaters I have handled. Hundreds of people have taken from one to a dozen bottles.

Could a medicine sell like this unless it really did bring to those suffering from rheumatism's aches and pains, indigestion's pangs and the effects of impure blood and poor functioning kidneys and liver, real and satisfactory relief? No. There is no other way making his report. Mr. Lauder says: "I desire, without solicitation or hesi-

The Board of County Commissioners for Seminole county met at the call of the chairman at 10 a. m. Saturday, April 22nd. Present: Chairman L. A. Brumley, and Commissioners S. W. Entzinger and E. Curlett, with V. E. Douglass, Deputy Clerk and C. M. Hand, sheriff, in attendance.

Absent: Commissioners: L. P. Hagan and O. P. Swope.

Chairman L. A. Brumley announced that the purpose of this meeting was to take up the matter of the raise of taxes in Seminole county, as ordered by Hon. M. L. Dawson, state tax equalizer.

Clerk of the Board here read a letter from Mr. Dawson, wherein he agrees to accept a 5% raise instead of a 10% raise as at first ordered.

Comr. C. W. Entzinger offered the following resolution and moved its adoption, which was duly seconded by Comr. E. Curlett, and adopted.

Whereas, The County of Seminole

Whereas, this Board of County Commissioners do believe that in fairness and justice to Seminole county, the state tax equalizer should rescind his order in reference to a raise in Seminole county,

Therefore, Be It Resolved, by the Board of County Commissioners of Seminole County, that inasmuch as the Hon. M. L. Dawson, State Equalizer of Taxes has seen fit to rescind his orders in several of the counties of the state, this Board of County Commissioners do hereby urgently request the Hon. M. L. Dawson, to rescind his order in reference to a raise in Seminole County.

Adopted this the 22nd day of April, A. D. 1922.

**RALPH BRONSON TO BRING KEY WEST BOY SCOUTS TO SANFORD IN JULY**

Ralph Bronson of Key West is in the city and his many friends are giving him a warm greeting. He was formerly the local manager of the Southern Bell Telephone Co., of this city and being a member of the Key West Rotary Club and of the Boys Work Committee, at the meeting of the Sanford Rotary Club today asked that the Sanford Rotarians would again look after the comforts of the Key West Boy Scouts who were here last year and want to come again this year in July and use the Sanford camp for a week. Ralph said the Key West Boy Scouts wanted to camp in a community that stood for boys work and especially for the Boy Scouts and for civic pride and for that reason he wanted them to return to Sanford. His request was given the hearty assurance that Sanford Rotarians under the leadership of Deane Turner chairman of the Boys Work Committee, would do all in their power to make the visit of the Key West Boy Scouts pleasant and profitable.

—you need it to plow and disc—and thoroughly prepare your seed bed. You need it to plant your seed and harvest your crop. You need it also to do your cultivating.

The type of Cletrac F best suited to your work is 43 inches wide and has a 14 inch clearance. It straddles the row in cultivating, pushing the Cletrac Straddle-Row Cultivator ahead of it or using the tools that you have at present.

And all this is just a part of Cletrac's work. It is a real all-purpose tractor—does every farm job from January to December.

You'll like Cletrac F's extreme simplicity of construction, ease of operation, quick accessibility of all working parts, and strong chrome steel construction. And you'll like even better the way it works on sandy, hilly or soft ground.

You owe it to yourself to see a demonstration of this wonderful new low-priced tractor. We're here to see that you get it. Come in and we'll gladly arrange it for any time and place that suits you.

*Cletrac F is Convertible*  
Cletrac F can be quickly and easily changed from the 43 in. width by 14 in. clearance size to either of two other sizes—32 in. by 8 in. for corn or cotton cultivation or 43 in. by 8 in. for general farm work on hilly land and for orchards. This quick convertibility gives you specialized power on any job.
