Result Of Cadet-Cornhusker Tilt May Fix National Mythical Championship; Tiger Favored Over Navy

Army has rolled up 202 points while holding its opponents to a total of 10. The eleven which have felt the kick of the Cadet rule include Southern Methodist, Harvard and Yale. While Nebraska has rolled up but 111 points, only three touchdowns have been scored against the Cornhuskers and their victims include Iowa State, Syracuse, Kansas, Missouri and Oklahoma.

Excellent weather dawned on the day of the game and indications were that a good crowd would be in the Southern bleachers at the opening whistle.

German Ship Yards Show Increases In Construction Work

HAMBURG, Nov. 21. (INS)—Only Germany formed an exception in the general decline of orders for new ships which, setting in at the beginning of the current year, continued through the third quarter.

While orders at all the world's shipyards declined some five per cent from June 30 to September 30, they increased in Germany by 30 per cent, reaching a total of 422,370 gross register tons.

Whether this lead will be kept up in the current quarter is somewhat doubtful, owing to the completion of the North German Lloyd's "Europa" and "Bremen" and the Hamburg-America Line's "St. Louis" and "Milwaukee" at the same shipyards.

Alabamians To Protect Negroes

MOBILE, Ala., Nov. 21. (INS)—Three negroes who have confessed a part in the slaying of C. C. Coffey, aged Mobile man, were held in jail here today under guard of three companies of the Alabama National Guard after threats of violence had been voiced.

Two were called out by Governor Bibb Graves on the request of Chief Deputy Molander, who was feeling against the negroes who were to be running toward violence and threats had been heard.

Juvenile Crime In London Diminishes

LONDON, Nov. 21. (INS)—The assertion of solemn statisticians, to the contrary, is that juvenile crime in London is completely eradicated in London.

This is revealed by figures recently published, showing that the industrial school is fading away because of the lack of bad boys and girls to fill it.

Of the eight schools run by the Board for the Training of Juveniles into the straight and narrow path, five have been closed in recent years, and the three remaining are in peril of disappearing unless juvenile crime increases.

PREMEN INJURED

CORDELE, Ga., Nov. 21. (INS)—Three city firemen were suffering today from injuries received when they were thrown from a fire truck as it turned a corner going to a fire here. All were expected to recover. The blaze destroyed three residences.

COCKTAILS WORRY

PARIS, Nov. 21. (INS)—There is danger ahead for France, and all because of the invention of the cocktail, according to Maurice de Waleffe, French journalist.

The invention of the cocktail is more dangerous for the prestige of France than for America, and has given birth to ten Ernest Renans and an even hundred "Borghese" writes in the "Paris Midi".

The danger, he points out, is not only for Paris, but for all of France. Only the Grand Prix du Cocktail went to a Scotchman and last summer at Biarritz, St. Jean de Luz and many other resort seaside resorts every nation but the French carried away prizes for shaking up the famous Alibi cocktail.

It is for all of this that all of the finest experts in wine-tasting will meet some time this winter and endeavor to sip back their righteous barrels from the countries' much less favored by the vine.

WASHINGTON MAY TAKE TO AGAINST SANDIFER

Sandifer Rejoins Mates For Game With Mar...
LEXINGTON, Va., Nov. 21. (INS)—Signs that Coach Pat Sandifer will use a devastating fast and aerial attack, which Gene White's line played Maryland and Florida, were announced this afternoon. Sandifer, who was dismissed from the Washington track squad, would make a Washington tomorrow on all-line tracks.

Sandifer was running his first time line track today, and set a new ends and behind his line that other members of the squad found difficult to follow. Red Jones, Lott, Eberhart, Jacob, all small, fast runners, were shown during the week's drill, and an entire system, with variations, was inaugurated against Virginia last week. It will probably be in the last two games of the season.

The injuries which have handicapped the general, and ended all season as well, were through the back, and the problem of the back during the last three months has been to find men to fill the place of Sandifer and Thibodeau. First string flank guard, first string tackle, and first string center, and Sandifer, who was dismissed from the Washington track squad, would make a Washington tomorrow on all-line tracks.

Big Charity

When Payne Whitney died, almost exactly a year and a half ago, he left behind him the largest estate ever recorded in the history of this country and probably in the history of the world.

Payne Whitney inherited the foundation for his huge fortune. His father William Whitney was a lawyer and took a prominent part in the prosecutions of Tweed and his crooked ring.

Payne, like his father, became a lawyer, but spent most of his life handling the affairs of the vast estate he inherited. He did not try to make money, he could not help it.

The question naturally arises in the matter of vast estates as to how far it is possible for a man to amass great wealth without losing something vital to his own welfare.

Payne Whitney seems to have been of this latter class. He lived, as he made money, quietly. He was never a spender, but always a generous contributor to charity.

When To Kill

One of the Ten Commandments says "Thou shalt not kill." Yet most of us do. That is, we kill mosquitoes, flies, and bugs, and sometimes other things.

In India there is a doctrine among the Hindus that it is wrong to kill any living thing, even a bug, except under certain specific circumstances.

"Just as a surgeon does not commit himsa (killing), but practices the purest ahimsa (non-killing) when he wields his knife on his patient's body for the latter's benefit, similarly one may find it necessary to go to a step further and sever life from the body in the interest of the sufferer."

"It may be objected that whereas the surgeon performs his operation to save the life of the patient, in the other case we do just the reverse. But on a deeper analysis it will be found that the ultimate object sought to be served in both cases is the same, viz., to relieve the suffering soul within from pain.

"Suppose, for instance, that I find my daughter—whose wish at the moment I have no means of ascertaining—is threatened with violation and there is no way by which I can save her. Then it would be the purest form of ahimsa on my part to put an end to her life and surrender myself to the fury of the incensed ruffian."

THE ENERVATED MIZELL

Since the earliest days of football, the fiction has been maintained that only in the rugged climate of the North, East and West can truly great pigskin warriors be developed.

But today, something has happened to the football common and we find Warner Mizell from MI and the farthest South city of also in the whole country, clinching himself a place in the backfield of the mythical All-American team.

Al Jolson Scores In "The Singing Fool" At Milane Theater

Al Jolson is better in "The Singing Fool" than he was in "The Jazz Singer"—that is, if there is ever a time when Jolson is better than he is another. Sanford got its first glimpse of the second Jolson singing and talking film last night at the Milane and liked it, if applause means anything.

Aside from Jolson, a small boy going on four years old, is the thrill of the picture. His name is Davy Lee and he contributed as true and effective a performance as ever a child actor has. Davy is strictly himself—something more than most movie actors and actresses achieve.

Quinn Martin, movie critic of the New York World, thought Davy was the best ever when he saw the film. Says Mr. Martin of Davy:

"When he spoke his first word he unconsciously pointed an accusing finger at all the hams in the world. He neither swallowed twice, moistened his lips, heaved his chest or bowed. He just replied to something Al Jolson had said to him. It was the voice of a baby, and there was some difficulty hearing it or, having heard it, understanding it. It was true baby talk. It was exquisite. It proved that if the Vitaphone or the Movietone is to advance progress it must pipe down and be quiet."

"I thought Mr. Jolson's work in "The Singing Fool" was immense. I don't for all I know, he sang his songs with the same ease, at the same velocity, striving for the same volume, which would attend the performance behind the foot-

Lake Mary Society Holds First Meeting

The Lake Mary Improvement Society held its first social meeting of the season Friday night in the community building. The meeting was in the nature of a box social, the proceeds of which are to be used in purchasing new books for the community library, a L.M.I.S. project.

Mrs. Roy Howell was chairman of the program committee and it is said that much credit for an enjoyable evening was due her and her committee.

As there was a large number of boxes quite a bit of money was realized with which to purchase new books for the library.

Friday was also observed by this Society as "Clean-Up Day" and a group of men turned out with the result that a number of the streets were cleaned up. Mrs. James Thompson had charge of the committee that prepared the dinner.

U. S. To Make Efforts To Join World Court

WASHINGTON, Nov. 26 (INS)—Taking a cue from the White House, the State Department expects to renew shortly the negotiations with the powers looking toward possible American entrance into the World Court, it was announced today.

President Coolidge told a number of senators at a breakfast conference Saturday he was anxious to secure American participation in court. The chief stumbling block has been the Senate reservation which declares the court can not give an advisory opinion, without America's consent, on any dispute which the United States has.

Police Seek Yeggmen Who Cracked 2 Safes

BIRMINGHAM, Ala., Nov. 26 (INS)—Police were searching today for yeggmen who cracked two safes under their very noses and escaped with \$5,000 in cash and checks.

EUROPE'S RACERS WILL COMPETE IN AMERICAN TESTS

Major Seagrave Will Participate According To His Dispatch

DAYTONA BEACH, Fla., Nov. 26 (INS)—European race driver will again compete with American at the annual international speed classics to be held here during the latter part of January or the early part of February.

Mayor E. H. Armstrong of Daytona Beach has word that at least two previous assaulters of the world's speed record, one of them successful, will be back when the word is given for the mighty machines to swing into the open test.

Major H. O. D. Seagrave, who two years ago established a record which last season was shattered by the 36 cylinder tri-motor monster created by J. M. White, Philadelphia manufacturer and sportsman, has already cabled that he will return.

White also will be present, together with Roy Keck, of Philadelphia, who piloted the machine down the beach sands here last April at a speed of 207.55 miles an hour. White has not announced whether his machine will be the same as last year, or whether it has been changed to increase its speed.

Major Seagrave, however, came out with the statement that he has perfected a new machine which is much faster than the big one which two seasons ago started the auto-

mobile world with its speed.

The new speedster, the details of which have not been disclosed, is capable of a speed of 240 miles an hour. Major Seagrave in fact, Major Armstrong, it is probable, will be in charge of the Seagrave team, as the other was
