

STATEMENT OF PREMIER BRIAND SOUNDS GOOD FRANCE WILL GO THE LIMIT

Head of French Government Arrived in New York Yesterday

BRINGS A MESSAGE

OF GOOD CHEER AND CONFIDENCE TO ALLIED NATIONS AT CONFERENCE

NEW YORK, Nov. 8.—Aristide Briand, premier of France, and head of the French delegation, arrived here yesterday on the steamship Lafayette.

He was accompanied by former Premier Rene Viviani, a companion of Marshal Joffre during his visit here in 1917 and Bishop Sarraut, the French senator and minister of the colonies.

Ceremonies were dispensed with so that the mission might reach Washington as early as possible, and take up the work of becoming thoroughly established there before the opening of the armament conference on Friday.

"France is ready to join in every endeavor to avert new wars provided she has nothing to fear for her own security, which remains one of the solid guarantees of the peace of the world," said Premier Aristide Briand, in a message to the American people upon his arrival yesterday to attend the armament conference at Washington.

Just because she had to suffer from the war more than any other nation," he added, "she is ready to approach the problem of the conference in the most favorable spirit for the maintenance of peace."

"Between France and the United States of America there is no room for any difference, however slight. Both our countries only endeavor to lead the men and peoples of good will to peaceful and fruitful work and to reduce more and more the risks of war."

"Today, the world, which is in such need of safety and rest, wants not only soothing words but realities."

The crowd gave the premier and his party a rousing welcome as they stepped ashore from the steamship Lafayette. Official welcoming ceremonies, which marked the arrival of other delegations to the conference, were dispensed with to allow M. Briand to go to Washington at once.

WASHINGTON, Nov. 8.—The French delegation here to the conference on limitation of armament and Pacific affairs was completed last night with the arrival of M. Aristide Briand, premier of France, at the head of several delegates from that country.

He with the other members of the party were greeted by officials representing the American government and cheered by thousands of spectators gathered about the railway station.

Secretary of State Hughes was the first to grasp the hand of the French premier and to extend the government's welcome to the visitors as they stepped from the special train. It was the second occasion on which the secretary had personally welcomed a conference group at the station.

General Pershing, as the ranking representative of the army, also was present and was the first to salute and greet General Buat, chief of staff of the French army, and acting military advisor to the delegates representing France at the forthcoming conference.

TAX REVISION BILL HAS PASSED THE SENATE AFTER MANY CHANGES

Excess Profit Tax Abolished and Surtax Lowered

END OF STRUGGLE

TRANSPORTATION WILL BE AT AN END JAN. 1ST AND OTHERS TO FOLLOW

WASHINGTON, Nov. 8.—The much revised tax revision bill finally was passed by the senate at 1:35 a. m. today, after a session lasting more than fifteen hours. It still must run the gauntlet of senate and house conferences before it reaches the president.

As now drawn the bill is estimated by treasury experts to yield approximately \$3,250,000,000 for the fiscal year ending next June 30, or \$200,000,000 less than the existing law. If all of the changes proposed become effective, however, the measure ultimately will reduce the nation's tax bill by approximately \$750,000,000 a year.

Outstanding features of the tax revision bill as passed by the senate provide for repeal of the excess profits tax and all of the transportation taxes on next January 1, and a reduction of the surtax rates all along that line, with the maximum rate reduced from 65 per cent to 50 per cent.

Besides these changes, the bill would repeal taxes on: Parcel post packages, proprietary medicines, toilet soaps and toilet soap powders, tooth pastes, tooth and mouth washes, toilet powders and petroleum jellies. (Stamp taxes).

Pianos and other musical instruments, umbrellas, parasols, sunshades, picture frames and various articles of wearing apparel costing in excess of certain amounts (so-called luxury taxes).

Insurance premiums. Articles made of fur. Moving picture films. Ice Cream. Chewing gum. Sporting goods, including billiard balls and tables, pool tables and dice. Admissions where the cost does not exceed ten cents; pleasure boats and canoes costing less than \$100, thermos and thermostatic bottles and jugs, portable electric fans, bonds of indemnity and surety.

Taxes proposed to be reduced include those on: Individual incomes of \$5,000, or less through increased exemption of \$500 to heads of families and \$200 each dependent. Candy from 5 per cent to 3 per cent and works of art from 10 per cent to 5 per cent. Capital stock issues having a par value of less than \$100 a share; cereal beverages from 15 per cent of the sale price to two cents a gallon; carbonated beverages from 10 per cent of the sale price to two cents a gallon plus five cents a gallon on the syrup used in their manufacture.

Taxes proposed to be increased include on: Corporation income from 10 per cent to 15 per cent. Corporations through the repeal of the \$2,000 normal exemption on those having a capital stock in excess of \$25,000. Estate taxes where the total sum exceeds \$10,000,000. Medicinal beer, wine (except champagne) and whiskey. Alcohol when diverted unlawfully for beverage purposes from \$2.20 a gallon to \$6.40 a gallon.

Taxes, proposed to be changed in form include: Stamp levies on perfumes, essences, toilet waters, extracts, hair oils, etc., to manufacturers' levies at 4 per cent. Retail taxes on fountain drinks to manufacturers' levies of 7 1/2 cents a gallon on finished fountain syrups for such drinks; retail luxury tax on carpets, rugs, trunks, valises, traveling bags, suitcases, hat boxes, fitted toilet cases, purses, pocket books, lighting fixtures, including lamps of all kinds and lamp shades, and fans costing in excess of certain amounts to manufacturers' taxes of 5 per cent.

MARION COUNTY WILL PLANT BIG ACREAGE.

OCALA, Nov. 7.—With the plans that are being made for an extensive planting of truck crops in Marion county next spring on a scale exceeding anything in previous years, it has become evident that a new point of view is actuating the truck growers in this county. There has been a theory among the truck growers in the past that if the plantings were limited better prices would be obtained, and this has worked against an extensive planting of vegetables for the early northern markets. The idea that is now taking hold of the truckers is that there must be a larger acreage of vegetables planted if the buyers are to be attracted. No large number of buyers, it is now believed, will come into a territory unless the volume of produce is sufficient to justify their doing so. The vegetable growers in Marion county, in other words, are beginning to realize that those sections of the country that have made the biggest success of truck crops have specialized in these crops to an extent that attracted the buyers to them.

The Marion county board of trade estimates that not less than 5,000 acres will be planted in truck crops in this county next spring, and the probability is that the acreage will be several thousand acres more than this. The acreage of watermelons will be the largest with tomatoes second, with the indications that the tomato crop will be somewhere around 1,500 acres.

G. O. P. WILL FIGHT SOLDIERS' BONUS ALL AMENDMENTS.

WASHINGTON, Nov. 5.—Republican and democratic senators were arrayed against one another today in what was expected to develop into a bitter battle over the so-called soldiers' bonus amendments to the pending compromise tax bill.

Two democratic proposals were to be disposed, one made by Senator Reed, of Missouri, for payment of the soldiers' bonus by continuing the excess profits taxes repealed by the pending measure, the other advanced by Senators Simmons of North Carolina, and Walsh of Massachusetts, for the compensation of world war veterans from interest collected on the \$11,000,000,000 foreign indebtedness to the United States.

Republican leaders predicted that both would be rejected by a substantial majority. They would seek to show they stated, that Senator Reed's amendment is unconstitutional because it is intended to tax one class for the benefit of another.

The Simmons-Walsh amendment they planned to knock out on a point of order on the ground that it is not germane to tax legislation.

The democrats were prepared however, to renew the controversy over the soldiers' bonus, and it was feared by those in charge of the tax bill that if the debate became protracted that they might not be able to force its passage by tonight.

FOR TOURISTS' CONSIDERATION.

Ex-Governor Catts May Go On Trial for Pardon-Selling Deal

May Occur at Starke Where Court Meets, Commencing Today

STARKE, Nov. 7.—Trial of former Governor Sidney J. Catts, charged in a Bradford county grand jury indictment with having accepted, while governor, money to influence action in the granting of a pardon to a state convict, is expected to take place during the term of circuit court which begins here today.

Date for the trial has not been set but officials here believe it will be held before the former executive is brought into federal court in Pensacola to stand trial on a charge of peonage. State officials in Tallahassee several days ago were summoned to appear in federal court November 9, as witnesses in the peonage case, but now have been informed that they need not be present on that date. It was added they would be notified later when to appear.

It had been expected the trial on the federal charge would begin this week, but notification to witnesses not to appear at that time is taken here to mean that the state charge would be disposed of first.

The main witness against the former governor may be John J. Mendenhall, former Clearwater business-man, who is serving a life sentence for the murder of two Tampa women. At the hearing conducted by a legislative committee appointed at the 1921 session so the legislature to look into the charges of pardon-selling made against Catts, Mendenhall testified that he conducted a pardon-selling business for the governor. He stated that he would approach certain prisoners and inform them of how much he could secure a pardon for them; that in cases where the money was delivered pardons followed.

The former governor is also under federal indictment at Pensacola on a charge of having held in peonage a negro whom the pardon board granted a pardon, and whom the governor is said to have immediately sent to his farm at DeFuniak Springs, where he compelled him to work a lengthy term practically without pay.

FEDERAL AID FOR ROADS IS "CONDITIONED."

WASHINGTON, Nov. 7.—Requirements as to how each state shall select its federal aid roads constitute the principal new feature of the federal highway act, enactment of which has just been completed, as differentiating from the federal aid act of 1916, according to an analysis of the bill by the federal farm bureau federation. To secure part or all of its allotment of the \$75,000,000 of federal funds appropriated for road construction for the remainder of the fiscal year, construction of 7 per cent of its entire road building mileage must be made in order to secure federal aid. These are divided into two classes of roads, one, including interstate roads, which shall not constitute more than three-sevenths of the system selected and upon which not more than 60 per cent of the state allotment can be expended without the joint approval of the secretary of agriculture, as administrator of the act, and the state highway department. The other class, consisting of inter-county roads, will compose the balance of the system and receive the remainder of the allotment.

The amount of federal aid received on any project, however, is not to exceed 60 per cent of the estimated cost, except in states where more than 5 per cent of the area is unappropriated public land, this latter provision increasing the percentage in 10 states, ranging up to 77 per cent for Utah. Where any state fails to properly maintain a federal aid highway the secretary of agriculture, after 90 days' notice, will maintain it out of the state's allotment and refuse approval of new projects until reimbursement is made by the state.

As in the preceding bill, the federal fund is apportioned among the states by division into three parts, one apportioned on a basis of population, one on a basis of area and the other according to mileage of rural and star mail routes. A new feature, however stipulating that no state shall receive less than one-half of one per cent of the fund, increases the allotments to Delaware, New Hampshire, Rhode Island, and Vermont, to \$305,024, each.

Allotments for the various states as estimated by the American Farm Bureau Federation, includes:

Alabama, \$1,553,430; Arkansas, \$1,254,140; Florida, \$80,825; Georgia, \$1,887,950; Kentucky, \$1,417,170; Louisiana, \$900,980; Mississippi, \$1,204,000; Missouri, \$2,448,120; North Carolina, \$1,709,300; Oklahoma, \$1,752,340; South Carolina, \$1,001,280; Tennessee, \$1,047,000; Texas, \$4,425,170; and Virginia, \$1,458,820.

Shriners Will Kick Up Sands at Florida State Fair Nov. 15th

JACKSONVILLE, Oct. 7.—It was stated yesterday that already over 800 reservations have been received by Jacksonville hotels from out of town Shriners, who will be here on November 15 for "Shriners' Day" at the Florida State Fair and Exposition.

Those in charge of arrangements for Shriners' day estimate that no less than 10,000 nobles and members of their families will be here for the big event, which they hope to make the most memorable in the history of the fair.

Clubs are said to be forming in all cities under the jurisdiction of Morocco temple, and each community will send strong delegations to the fair. Tampa and Miami, where are located Egypt and Mahi temples, are likewise preparing to come to the fair 100 per cent.

The man, or woman, who comes nearest to estimating the correct number of paid admissions to the fair grounds on Shriners' day will get a handsome watch, offered by the V. E. Jacobs Jewelry shrdlu etoaln rr shrdll Jacobs Jewelry Company. It is said the record number of paid admissions to the fair grounds on any single day stands at 30,000. The Shriners hope to set up a new high water mark on November 15.

The Shrine State Fair Committee is composed of L. G. Hitchcock, chairman; W. H. Leaker, George Kirk, E. E. McLin and Walter R. Early. The committee is planning many novel features in connection with the day, and promises a most interesting program of events.

Another feature in connection with Shrine day will be the ceremonial, which will be staged on November 16, when a healthy crowd of novices will be driven across the proverbial hot sands.

GOVERNMENT'S RAIL LINE NEARLY READY.

SEATTLE, Wash., Nov. 7.—Alaska's \$65,000,000 railroad will be ready to handle traffic from Seward to Northern points by January 1, the last spike driving ceremonies occurring Christmas day.

In constructing this road the commission has accomplished in roadbed building on its constructed trackage what it has required ten or more years to do on other railroads, building permanently as construction progressed.

When completed the United States railroad will afford one of the most wonderful scenic routes in America, as well as opening an empire of 400,000 square miles, including the Yukon, the upper Kuskowim on the north and a rich mineral and agricultural country to the south.

Stretching along the railroad from Anchorage is a strip of splendid farming land varying ten to twenty miles in width and more than 100 miles long.

The effect of construction to date has been to open the Willow Creek quartz district with seven stamp mills. Further north Valdez placer districts are beginning to feel the influence of the road and feeders have been constructed into the section at the headwaters of the Kuskowim.

A branch of the Alaskan railroad extends into the Chickaloon and Esko coal fields, where the former mines are blocking out coal for the navy. To date about a quarter million tons of semi-anthracite coal has been blocked out at Esko. Coal mined annually is used for fuel locally and to operate the railroad.

The line will prove one of the most alluring scenic routes of the world. From Chulitna Station at Mills 275 from Seward to the entrance of Nennna Canyon, lies the Glacier National, the Canadian Rockies and Switzerland rolled into one, with Mount McKinley standing 29,000 feet above the sea, surrounded by dozens of other peaks from 9,000 to 13,000 feet high.

An immense fur producing section will also benefit, enabling trappers to penetrate further into the wilderness, as supplies will be nearer.

Alaska is also coming to the front as a farming region. This year a big crop of barley, rye, oats and wheat was threshed in the Matanuska district and next year promises an increased acreage. Every one in Anchorage eats out of his own garden and citizens plan to operate a cannery next summer for fruit and vegetables.

The new road penetrates virgin forests of mammoth trees of commercial timber, as fir, hemlock, pine, birch and cedar. A big future wood pulp industry bid fair to provide tonage for the railroad to tidewater.

If Columbus hadn't discovered America, what would the world do for tobacco and chewing gum and relief kitchens?

SANFORD LOSES TWO GOOD ONES; ORLANDO GAINS TWO MORE.

Sanford lost two good boys last week when George McLaughlin and Virgil Smith decided to go to Orlando. George has been the presiding genius of the Wight Tire Co., of this city and is recognized as being one of the best automotive supply men in the State. When he and Ralph Wight and Arthur Landstreet decided to open the Quick Service Filling Station in Orlando, it was decided that George should be put in charge and Virgil would go down to become identified with the new institution also.

George is almost as well known in Orlando as he is in Sanford, but that does not heal the aching void caused by his absence, for he it known, that George McLaughlin is one of the finest young men that ever stepped up to the curb to fill your tank, and he is loved and respected by everyone in Sanford and vicinity.

The same goes for Virgil Smith, and both of them are ex-service men and members of the machine gun company—in fact, their departure almost broke up our local "army." We commend them to the people of Orlando with the feeling that they will soon know them as well as we do.

GOOD GOVERNMENT LEAGUE FORMED.

About seventy-five representative citizens of Sanford met last night and took the initial steps in the formation of a GOOD GOVERNMENT LEAGUE. Considerable enthusiasm was in evidence both by the male and female voters present and it was the unanimous vote of all those present that the time was propitious for the formation of just such an organization, which will stand for good government, not only in municipal affairs, but also in State and perhaps later on in national governmental matters.

It is the intention of the league to study the various forms of government so as to better able to enlighten the public through a system of publicity as to the advantages of the various forms and comparisons will be drawn from time to time as to results accomplished, for example, between the old form of city government and the present city commissioner form.

Various committees were appointed to gather certain information and facts concerning our present form of municipal government and the league will be in a position, within the next few days, to give to the public some very interesting and enlightening data.

The following officers were elected: Dr. S. Puleston, President; Mrs. Henry Wight, Vice-President; Mr. B. F. Whitner, Secretary.

CORN AT 32 BUSHEL IS EQUAL IN VALUE TO COAL AT \$16 A TON.

WASHINGTON, Nov. 8.—Corn at 32 cents a bushel is equal in value to coal at \$16 a ton, Secretary Wallace said today, commenting on reports that some farmers were burning corn for fuel. At 20 cents a bushel, he said, corn would be equivalent to fuel coal at \$10 a ton.

"In districts where corn is very cheap now the coal is of a rather poor grade and is selling at high prices," he continued. "Under such conditions it will pay both farmers and people in country towns to use corn instead of coal. Undoubtedly large quantities of corn will be burned on western farms this winter unless the prices should materially advance."

Mr. Wallace said the use of surplus grain as fuel in times of low marketability was not an uncommon occurrence in other cereal raising countries, corn having been burned in Argentina, under such conditions "not only for farms but in power plants."

The Largest Purchase and Greatest Values

We Have Yet Had the Pleasure of Offering the Public

A broad statement to make for we have given the public some wonderful values, but this one will cap the climax. Dozens of beautiful Georgette and Crepe de Chine Blouses involved in this sale, and every one goes in, nothing reserved. Wednesday we have set aside as SPECIAL WAIST DAY and our whole aim is centered on making it the greatest ever witnessed. We have bought a tremendous stock of Waists and Blouses and some must be cleaned out. The price we offer them for on this day is far less than the cost of the material used in them, but we have them piled on shelves, packed in cases and a large number in the stock room that we haven't even had room to display, so some must go. You will be saving an average of over double to lay in a good supply. They are made of the very best materials, embellished with hand drawn work, hand embroidery or hand-made lace; in every dainty color or shade imaginable. They are divided into three groups and will be on sale WEDNESDAY (Tomorrow) MORNING AT 8 O'CLOCK.

BEAUTIFUL GEORGETTE AND CREPE DE CHINE BLOUSES

Regular \$4.00, \$5.00 and \$6.00 values. SPECIAL WEDNESDAY \$2.98

Group 1.—Print and description could not begin to do these Blouses justice. No words could convince you what they really are until you see them. You will not buy one, but all your purse will allow. They are such marvelous values that you will be informing all your friends about them. Dozens of models and every one beautiful. All sizes.

FINEST QUALITY BLOUSES EVER SHOWN

Regular \$7.00, \$10.00 and \$12.00 values. SPECIAL WEDNESDAY \$3.98

Group 2.—We emphasize this sale of blouses, for they are blouses of more than usual beauty. Youthful and fresh looking garments. Soft Crepe, Georgette and Nets are used to artistically fashion many of the newer blouses that have just arrived. They have becoming neck lines and newer sleeve arrangements. There are plenty of sizes of all styles.

GROUP 3—BEAUTIFUL MATERIALS

Values to \$25.00. Surprising when you see them displayed. WEDNESDAY SPECIAL \$3.00

Group 3.—Odds and ends, broken sizes, some slightly soiled,—but values that you will long remember. This is a wonderful offering; one that you will probably never see the equal again. Words cannot describe the values. Just come and see for yourself. Some of these models you will adore, for they are effectively trimmed with hemstitching, two toned embroidery and fashionable touches that are very pleasing to the eye.

THESE PRICES POSITIVELY FOR WEDNESDAY ONLY

CUT DOWN CHINA BERRY PLANT REAL TREES.

JACKSONVILLE, Nov. 8.—Sycamore and China berry trees are being cut down in Jacksonville and their places taken along the streets by palms, other evergreens and oaks. St. Elmo W. Acosta, commissioner of public grounds, who is behind the movement, says prettier streets will result and also that the China berry tree is the breeding place of the white fly and the San Jose scale, both deadly enemies of Florida's citrus fruit, and that the Sycamore harbors caterpillars and gnats.

WOMAN'S CLUB HOUSE AND LOT FOR SALE.

The building committee of the Woman's Club of Sanford, will receive offers on the club lot and building from date to December first, with the privilege of accepting or rejecting all offers.—Mrs. E. M. Galloway, Chairman. 194-3tc.

NOTICE.

Owners of lots suitable for Woman's Club building can submit location and prices to building committee, from date to December first.—Mrs. E. M. Galloway, Chairman. 194-3tc.

PEOPLE WANT NO MORE OF IT.

If it was possible to sum up the total of cost, to the people of this country, of the McAdoo mismanagement of the railroads the aggregate would be appalling, notwithstanding that the public has a very comprehensive idea of the total amount and quite sufficient to convince that government ownership of railroads is far from being either desirable or profitable.—Time-Union.

GRANITE QUARRIES ASS'N WILL MEET AT JAN.

JACKSONVILLE, Nov. 8.—The National Building Granite Quarries association will hold its annual convention here next January, 9-11, inclusive according to announcement by George B. Massey, of this division of the organization. The association is composed of owners of quarry interests throughout the country.

TWO LEADING WOMEN IN THE MEIGHAN FILM

Blonde and brunette! That's the title of an old love story of bygone days, but it fits "White and Unmarried" in which Thomas Meighan stars and which will be shown at the Star Theatre tonight.

Two beautiful women—Jacqueline Logan and Grace Darmond—appear in the leading feminine roles. Miss Logan, a former beauty of the Folles, is dark. Miss Darmond, who has been leading woman for numberless stars, is blonde.

They are so diametrically opposite in type, complexion and stature that they make remarkable contrasts in the picture story.

Mr. Meighan has a role that fits him to perfection. He is a crook who inherits a fortune and then fraternizes with the lawless class he once preyed upon. In the end, of course, he comes out right and the love story winds up satisfactorily.

Tom Forman was the director; John D. Swain wrote the story for Munsey's—"Billy Kane—White and Unmarried" was the original title. Will M. Ritchey wrote the scenario. Jacqueline Logan heads a capable supporting cast.

RULES FOR THE PARADE ARMISTICE DAY

All cars that are entered in the parade must be decorated. This is a rule on account of the number of decorated cars that are entered. The parade will form 10:00 and start to move at 10:15 regardless. This is a set rule and be on time.

You will receive your assignment for your position in the parade from Sam Yountz who will be stationed at Sanford avenue and Tenth street. The city band will form at corner Park avenue and 10th street. Please follow these rules to avoid confusion.

CATTS' TRIAL TO BE HELD IN NEW COUNTY OF UNION.

STARKE, Fla., Nov. 8.—Trial of former Governor S. J. Catts in the state courts on a charge of having accepted money in influence his action in the pardoning of a state convict during his term as governor, will not take place in Bradford county, even though he was indicted by the grand jury in this county, it was said here today.

The Bradford county grand jury investigated the charges and returned the indictment because the state prison farm was located at Raiford, in this county.

After the indictment was returned however, Union county was created by the legislature from a part of Bradford county with Lake Butler as the county seat. Raiford is in the new county of Union and the trial, it is said, will be held in Union county. The fall term of circuit court in Union will begin November 21 at Lake Butler.

DISTRIBUTION OF MILK PROTECTED.

NEWARK, N. J., Nov. 8.—An injunction forbidding striking milk men to interfere by act, word or conduct in the distribution of milk, was signed today by Clee-Chancellor John E. Foster.

The injunction specifically provides for the protection of employees of Borden's Farm Products Co., the Keystone Dairy Co., and the Sheffield Farms Co.

CITRUS FRUIT MARKET WILL BE REPORTED.

Beginning Monday evening, the Florida Citrus Exchange, with headquarters in Tampa, will begin supplying the Associated Press with a brief summary of market conditions throughout the nation as they affect citrus fruit. The report, which probably will contain between 75 and 700 words at the start, will be compiled from information gathered by representatives in 104 northern markets.

Reports as to carload shipments from Florida are compiled at Jacksonville and will be supplied newspapers getting the Associated Press report from that place. It is probable that the summary of market conditions which is sent out from Tampa will be used by newspapers in connection with the car shipment report.

Just what points will be covered by the new reports or how extensive they will be is a matter which the first few weeks, perhaps, will develop. It is not expected that the form adopted at the start will remain unchanged if it is found later that the report can be altered to present the matter in better form.—Tampa Times.

CONFEDERATE VETERANS ATTENTION.

All the Confederate Veterans in Seminole county are to be the guests of DeV. Howard Chapter Daughters of the Confederacy on Armistice Day, at which time a special car will be provided for them to ride in the parade, and they are to be the guests of the chapter for the day. All of them who are living in Seminole county are requested to report to Mrs. J. Nolle Tolar, in order that their names can be filed for reference. 182-3tp

DECORATE YOUR CAR

Many have shown their willingness to decorate cars for the parade. Mr. Yountz has your name taken from the Sanford Herald and expects you will enter your float. He will give you your position in the parade Friday morning at Sanford avenue and Tenth street. Mr. Daugherty has opened an office in the place vacated by the Popular Market in the Welaka building and you can get decorations for your car at a reasonable price and has store front decorations. If you can't enter your car, let us know. 194-1fp

REAL ARTISTS IN CAST

Meighan Finely Supported in "White and Unmarried"

Thomas Meighan's cast in "White and Unmarried," which will be shown at the Star Theatre tonight is one of the best ever chosen to support a Paramount star. Jacqueline Logan is leading woman; Grace Darmond has a role of almost equal importance; Walter Long has the role of a savage Apache, and Fred Vroom, Marion Skinner, Lloyd Whitlock, George Stone and Jack Herbert are well cast. As Billy Kane, Mr. Meighan is said to have the most effective characterization of his stellar career. John D. Swain wrote the story and Will M. Ritchey made the adaptation.

Everything waits on Armistice Day.

The Disarmament Conference will be next Friday.

Maybe the German mark will go up after the Disarmament Committee decides to cut out the future wars.

The Lena Clarke case will attract the attention of the people this week and next week. We will be glad when this case has been settled for all time.

After looking them all over it would seem that Sanford had the best prospects of any city in the state. But you can't lay down on the job and take it for granted.

According to many of the South Florida papers, West Florida is getting all our road money. It would seem wise for South Florida to send legislators to Tallahassee that would prevent such measures from being taken.

And this reminds us of the fact that about half of the laws passed by the legislature are invalid. Maybe it is just as well. Some of the laws passed are freaks, at the best, passed by freak legislators and freak people behind them.

All this fuss about the "unknown soldier" may be all right but we really think that a little more fuss about the "known soldiers" would be more to the point and greatly appreciated by the boys who are here to get the benefit of it.

Gasoline tax law declared invalid, says reports in papers today. That's good dope. This million dollars in gasoline that every one will eventually pay will go toward good roads, maybe. If all the taxes on every necessity could be cut out the people would gain thereby.

Several states are holding elections today and the results will be closely watched by the students of political science to discover signs of weakening in the G. O. P. and the Democratic nas. When there are sufficient signs of weakening in both parties the leaders will get together and start something new.

We rise again to remark that if Congress really wants to cut expenses they will begin in the government printing office and cut out all the bunk that is being sent through the mails. Every newspaper in this state and every other state is flooded every day with woody boopy dope that means nothing whatever except a big printing bill for the people to pay. If the entire government printing office could be cut out entirely the people would be better off in the matter of money saved.

Bandits are holding up banks with leveled guns while others are holding them up with out guns and armed men are holding up people in the big cities with guns while the smother rascals are holding them up by lawful means. It is all according to the laws of the land and "stealing" is only when you get caught in petty pilfering. The big ones are never caught. They have money enough to get away. The law allows them that privilege as all laws are passed for the benefit of the rich and not the poor. Watch the papers and find out for yourself.

CHOCOLATE BREAD PUDDING

2 cups bread crumbs, 1 quart scalded milk; 1-2 cup sugar, 2 squares Baker's Chocolate; 1-4 teaspoon salt; 2 eggs, 1 teaspoon vanilla. Soak crumbs in milk. Melt chocolate, add sugar and 1-2 of milk, add the crumbs, salt, vanilla and beaten eggs. Bake 1 hour in moderate oven. Sauce.—Boil 3-4 cup sugar and 1-4 cup water 5 minutes, add 2 tablespoons butter and 1 teaspoon vanilla.

WELAKA BLOCK

PRESS AND PEOPLE ARE UNITED IN PROTEST.

For the past year and a half the News has been opposing the policy of the state road department, which was collecting money from all over Florida and spending practically all of it, as well as all of the funds obtained from the federal government in north and west Florida.

The writer had been wondering for years what the state road department was doing with all the money placed in its hands by the people of the state of Florida—and never knew until he made a trip by auto from DeLand to Pensacola in June, 1920. He then saw where all the state road money is going—and where it will continue to go for years to come. Beautiful, substantial, magnificent concrete bridges built over rivers and streams where there are no roads—and no funds for roads provided by the counties. It will take years to complete these bridges and south Florida will pay for them unless south Florida abolishes the state road department.

The foregoing from a recent issue from the DeLand News is fairly indicative of the sentiment being given expression by the press of south Florida, and undoubtedly is a voicing of the views of our people. The feeling is general that our section of the state is not getting a square deal in the distribution of the road funds. And the injustice becomes the more apparent and irksome when it is known that the bulk of these funds are collected from the taxpayers of south Florida. The counties of the southern and central section of the state have, practically without exception, bonded themselves heavily for the construction of good roads, while very little road-building has been done by the northern and western counties with their own funds.

The Leesburg Commercial, after carefully considering the exhaustive report on the operations of the state road department recently published in the Jasper News—a synopsis of which was printed in the Times—comments as follows:

There is much more to the question of completing state highway No. 2 than the mere construction of a road. The entire scheme, in which this is one of the important links, is the most flagrant gouging of south Florida by north Florida, with the bulk of the money with which the gouge is worked coming out of the pockets of the south Florida producers.

Pator O. Knight, must have been right when he said a few months ago that the west Florida bunch has more sense than the rest of us, no matter how far wrong he was when he said we would do well to let them continue to manage our affairs lest we get too progressive.

West Florida is progressive; too much so with our money. The road construction program which we south Florida people did not protest even though we realized how unfair and lopsided it was, develops into more than a grasping for the lion's share of road money. Out of pity, because those west Florida counties have for many years told us they were "too poor" to pay for good roads and their people lacked the vision or confidence in their own counties that would permit them to go into debt and work themselves out into a higher plane of development through better roads, we submitted without demur to the division of funds proposed by the original highway commission. We had built our roads, were reaping benefit from them and would reap more as soon as this splendid south Florida system was connected through the proposed state highways with the states to the north of us.

But with a meanness of spirit of which we had no conception, our acquiescence has been betrayed. Deliberately withholding connection through the upper tier of counties between our roads and those of Georgia, these people have set about building a system of good roads in north and west Florida, using money the bulk of which is ours here in south Florida for we own more of the state than they do, pay more taxes and are more liberal in every way but one—we do not furnish the state as many politicians.

It is readily apparent that a shortsighted policy would dictate just such a movement as has been started and carried along. It would appear to those utterly devoid of psychology other than that within their own selfish hearts, that visitors to Florida reaching the north and finding that good roads ended there, would tarry and eventually settle with them. That such reasoning is futile in this day of enlightenment most of us realize at a glance but on no other grounds could you explain the utterly unbusinesslike plans that have been followed and that have cut off that portion of the state which was first justly entitled to benefit from good roads because it had invested millions of its own and was paying the lion's share of what was yet to be expended.—Tampa Times.

OUR WEEKLY BUSINESS REVIEW

By Henry Clews & Co.

New York, Nov. 8, 1921.

With the railroad strike definitely disposed of, financial conditions have naturally shown a tendency toward betterment during the past week. The economic side of the approaching arms conference assumes more and more significance, not only because of its bearing on taxation but also in its foreign exchange aspects. Congress is being strongly urged to pass the International Debt Funding bill and there is a fair chance that the measure may be adopted prior to the opening of the conference. This should give our representatives a very large bargaining power.

The Sales Tax Gaining Friends. There has been a decided growth in the strength of the sales tax plan in congress, and while it has been technically beaten on the floor, the development of a strong support in that body greatly increases the chance of substituting some form of it before the work of the conference committee of the two houses is over. As a result of the addition of a high surtax rate and still other amendments tending to make the administration of the income tax over more oppressive, dissatisfaction has become much more pronounced in many parts of the country. Accordingly members of congress are now searching for some alternative which even at this late day might serve as an acceptable plan that has been worked out during the income tax discussion. The point at which more serious uncertainty prevails today is in connection with the attitude of the administration, but the bill as now before congress has departed so widely from what had been planned by the administration that the hope of securing the adoption of anything like the original measure has long since been given up.

Railroad Developments. The railroad stocks have of course shown the good results of the relief from strike threats. Owners, however, are very desirous to find out what is to be done regarding the question of rates and wages. Informal pledges, given by members of the Railroad Labor Board, seem likely to stand in the way of a satisfactory adjustment of the differing points of view as to labor expense. It appears likely that a sort of promise to defer further consideration of wage cuts until several months from date has been extended. If this is actually the state of affairs notwithstanding that rate cuts are expected to become operative in the near future, the effect upon the net earnings of the roads may be unsatisfactory. It is too soon to predict exactly what the outcome of existing conditions will be. Meanwhile, the demand for the adoption of the railroad funding bill continues to be active.

Business on the Upgrade. The monthly business report of the Federal Reserve Board, made public this week, points to a general growth in the volume of operation in nearly all lines of activity, although basic manufacturers are not in as forward a condition as businesses producing finished goods. Particularly hopeful is the fact that prices are apparently reaching a much more stable or normal condition than any that has prevailed for a long time. There is an increasing degree of activity in retail trade in almost all parts of the country which grows out of the larger purchasing power placed in the hands of farmers through the sale of their

crops at good prices. During the past week, copper shares have reflected the much better outlook in the copper metal market. This is partly the outgrowth of export demand and in part the reflection of improved business conditions at home, especially of the increase of building activity. The oil outlook is also far better. There is a diminution of unemployment in a good many manufacturing districts which promises to make the winter now opening much less serious for the wage earner than had been expected some time ago. Unemployed men number not over 50 per cent of the estimated total of three months ago. All these more hopeful factors in the trade situation have had their share in helping the quotations of industrial stocks, notwithstanding that the outside demand originating with investors is still comparatively limited.

Exchange and Money Prospects. Continued growth in our holdings of gold and reduction in the portfolios of reserve banks reflects the steady liquidation of credit in many parts of the country and furnishes the basis for the prediction of the treasury department with regard to lowered discount rates. Reduction of the Federal Reserve rate to 4 1/2 per cent in New York and Philadelphia, Boston and at nearly all other reserve banks in amounts of from 1/4 to 1 per cent leaves no doubt that rediscount accommodation may be expected to be both abundant and cheap for some time ahead. Postponement of the time for Germany's next reparations payment has been necessary as a result of the disturbed conditions in Berlin, but indicates no change in the situation there. Reduction of the local quotation of the mark to little more than 1/2c shows that no plan for the relief of the situation is yet in sight.

Market Review and Outlook. Prices have been on the whole fairly strong during the past week, but profit taking has been from time to time a considerable feature although the market has shown good recuperative power on comparatively small buying. Borrowing demand for a number of the active stocks continues brisk—a clear indication of the fact that the bear account continues extended. It seems likely that the market will be subject to cross currents for the immediate future, but with the expectation that adequate supplies of money will be obtainable on easy terms no serious setback is in sight, as it has been shown on numerous occasions that liquidation ran its course several months ago. Indeed if business continues to expand, as now expected, it is reasonable to suppose that prices will gradually work to a higher level basis on merit.

KEY WEST ESCAPED BUT THEY LOOKED BAD AFTERWARD.

TAMPA, Nov. 8.—Key West escaped the recent gulf hurricane but its citizens experienced none of the fright that other less fortunate communities underwent, according to W. P. Reeve, a traveling man who was there when the storm passed by. He laughingly described how he hid in a supply of good cigars and a jug of water and a copy of Robinson Crusoe. "I might get some tips from DeFoe's tale." There were more serious preparations made also, he added.

ST. PETE PRISONER ROAMS AT WILL OVER THE JAIL.

ST. PETERSBURG, Nov. 8.—An officer discovering the cell of J. E. McConkey in the city jail deserted Wednesday except for a few insects and other specimens of wild life common to Florida, which McConkey kept as pets, ordered the huge ciren sounded as a warning to the public that a prisoner had escaped. Then it was discovered that the prisoner had sawed the bars leading to another cell, moved his quarters and was sitting on an empty moonshine yiqour barrel reading a newspaper. "I didn't like that cell over there so I just decided to move over here where I could get more light," McConkey told the officer. The prisoner was being held for Tampa police who wanted him on a charge of having passed worthless checks. 195-tfc
