LEAGUE OF NATIONS WILL PROTECT ARMENIA—WANT HELP OF UNITED STATES

CALIFORNIA WANTS HELP AGAINST ENCROACHMENTS OF THE JAPANESE ALIEN

Other States Urged to Protest New Treaty

MENACE TO WHITES

SENATOR PHELAN SAYS TREATY WOULD LEAD TO WAR.

SAN FRANCISCO, Nov. 23.—Sen. James D. Phelan, of California, yesterday sent a telegram to governors and senators of western states asking them to "please telegraph your political protest to the state department against any treaty which gives foreign-born Japanese now in this country the rights of citizenship." The telegram was prompted, Senator Phelan said, by news dispatches from London which said an agreement was nearing completion between the United States and Japan which proposes full citizenship for Japanese now in this country and under which Japan would absolutely restrict further immigration to the United States. He further said, in an interview, that very often where treaties were in course of consummation reports were allowed to be circulated of the plans to test the public opinion.

"Citizenship for Japanese," said the telegram, "would give them not only control of the land but also a dangerous political power." The telegram said in part:

"Experience teaches us that Japanese exclusion can be effected only by United States laws. To grant rights of citizenship, including land ownership to the 100,000 Japanese in California and the other thousands scattered throughout the western states would be nothing less than the destruction of the white population.

"The Japanese invasion has taken the form of land purchase and under the constitution persons now born on the soil can own land and enjoy the voting privilege. The Japanese already here have a birth rate three or four times as great as the whites.

"Resident Japanese have recently returned to Japan in large numbers since the picture bride system was abolished, to bring back wives, with the studied plan of increasing their numbers.

"The initiative anti-alien land law just passed by an overwhelming vote by the people indicates their temper. Such a treaty as proposed, instead of producing better relations, would cause greater antagonism and possibly lead to war. The Japanese, as usual, are preparing for war as a background for forcing their diplomatic negotiations and the state department evidently is frightened.

"A treaty should not be allowed to attempt to avert a state law, passed by the people who understand their own peril and are acting for their own preservation."

PROMINENT GERMANS SMUGGLED MONEY INTO HOLLAND RECENTLY

BERLIN, Nov. 23.—One hundred eminent persons, among them Crown Princess Cecilie, Prince Eitel Friedrich, Prince August Wilhelm, late Prince Joachim, Count Radolin and Princess Wanda Dadsywill, have smuggled into Holland two hundred and fifty million marks, asserted Herman Mueller, former German chancellor in the Reichstag today.

COUNCIL CLASHES WITH ASSEMBLY IN LEAGUE OF NATIONS

GENEVA, Nov. 23.—A clash between the Council and the Assembly of the League of Nations over the Armenian question loomed up as a possibility as the result of the failure of the Council of the League to act last night on the Viviani resolution. The entire question of the relations of the Council and Assembly might be raised.

AMERICAN CAPITAL NOT INTERESTED IN INSULAR AFFAIRS

WASHINGTON, Nov. 23.—Inability to interest American capital on a large scale in the nation's insular possessions has retarded the development of the natural resources, according to the report of the Bureau of Insular Affairs.

SPARKS SHOWS IN SANFORD TODAY BOYS ARE HAPPY

SPARKS BIG CIRCUS SPENDING DAY IN SANFORD

The old circus is here. She unloaded this morning early but not too early for all of us kids to get down there at the tracks and see the big wagons come off the cars and run down the chutes and then the big fat horses take them out to the lot and then when all the elephants and everything had been unloaded we went out to the ball park and they were just getting up the tent, the big top, when it was time to go to school and then gosh ding it, we had to leave the lot. But if nothing happens we will get there this afternoon and this morning we had a chance to see the big parade and that is really the big part of the circus and we can all go tonight.

Sparks Circus is not only one of the largest shows on the road but it is one of the cleanest and since the time it started way back yonder as the Virginia Shows it has lived up to that reputation and even now that it is among the big shows it still carries the old idea of having a clean and high class performance in every respect.

The show is out at the ball park and this is an ideal spot for a circus although the park is not large enough for the Sparks Circus but by crowding it has been squeezed in and the people who attend will find everything in good shape for their convenience. And then the performances afternoon and night will be found the best that you have ever witnessed so go out and enjoy it. The circus is like Christmas, Sanford only sees it once a year.

HARDING ARRIVES AT CRISTOBAL

COLON, Panama, Nov. 23.—President-elect Harding arrived at Cristobal at 9 o'clock today aboard the steamer Parismina. He was given a noisy welcome by the harbor craft and flooded with invitations to public functions. He will stay only five days.

INDIAN VOTE NORTH CAROLINA THROWN OUT

ASHEVILLE, N. C., Nov. 23.—Every Indian vote cast in Jackson county at the general elections have been thrown out by a vote of the Jackson county board of canvassers who moved hearing here to prevent the threatened disorder.

Sanford Lettuce Growers Jubilant Over Prices Received for Crop

Lettuce — Sanford lettuce — brought the remarkable price of \$8.00 per hamper in the northern markets yesterday. This is the report from the F. F. Dutton Co., and other shippers no doubt did equally as well if they had stuff on the northern markets Monday morning. The lettuce shipped by F. F. Dutton was from the West Side Farm and was their own product. The cool weather of the past few days and the prospects of colder weather this week and the fact that Thanksgiving week is here makes the price of lettuce go up. It is not supposed for an instant that such prices will prevail very long but reasonable prices will prevail as long as the weather is cold and the lettuce will head up and carry strong.

It is thought by the growers that the record for good prices and good weather on lettuce will be broken this year and that the growers will make more money and make it during a longer period than ever before.

Today the F. F. Dutton Co. did really better on a car of lettuce for J. B. Little on the West Side who received \$8.00 per hamper straight for a car of lettuce which totalled \$3,200 gross on the car, the largest amount of money ever received by a grower in Florida or any other state.

DOORN, Holland, Nov. 23.—The former empress of Germany is very weak. She is suffering from heart trouble.

BIRMINGHAM, Nov. 23.—Two men were killed and nine injured in a mine explosion at Parrish, near here today.

WASHINGTON, Nov. 23.—Representatives of Florida fruit and vegetable growers appeared before the Interstate Commerce Commission today to argue the petition for the suspension of the proposed diversion and reconignment charges on fruits and vegetables as ordered by the commission. The legation says it affects the entire country.

Demonstration of Wakefield Products at Womans' Club

The meeting of the Welfare Department on Wednesday afternoon was unusually interesting and one of the most helpful it has been the good fortune of this most active department to have held. Among the interesting features of the meeting was the wonderful demonstration given by Mrs. P. T. Wakefield, of the Uses of Florida Fruit Juices. A display table of preserves, jellies and marmalades made from Florida fruits and especially guavas and citrus fruits was of especial interest.

Mrs. Wakefield, who is an artist in her line, cleverly demonstrated the various uses of fruit juices, giving instructions in the preparation of them. The assortment of the fruit products was a beautiful display that charmed and delighted the housewives. The department is particularly grateful to Mrs. Wakefield for her interest and co-operation and fully appreciate the valuable gift of her knowledge and time.

In connection with the meeting a cooked food sale was also held under the direction of Mrs. Fred Williams which with the commission received from the sale of the Wakefield products, netted the department a nice sum.

Granulated Sugar Takes Another Drop

NEW YORK, Nov. 23.—Sugar dropped again. One refiner quoted eight and seventy-five hundredths for fine granulated. Others quoted nine cents today.

THE HAGUE, Nov. 23.—Former Emperor William, of Germany, could go to Corfu only with the consent of the Allies, the foreign office announced today, even though former Greek King Constantine regained the throne and invited him.

Presbyterian Ladies Entertained

LADIES OF THE CHURCH GAVE THE MEN AN OYSTER SUPPER

The ladies of the Presbyterian church entertained the Brotherhood Class and their friends last night at the church with an oyster supper. About seventy-five gathered for the feast and after the invocation by Dr. Brownlee were served oyster cocktails, oyster soup, pickles, doughnuts and coffee. During the course Mrs. R. C. Maxwell entertained them with several readings in negro dialect about selling cotton in Mississippi and other stories and as ever her readings were greatly enjoyed.

When all had eaten until they could eat no more, President H. R. Stevens, of the Brotherhood Class, made a brief announcement calling attention to the Brotherhood Class and inviting all the old members who had not been attending regularly and all those who were not members to

PARIS, Nov. 23.—The French foreign office is informed that the plebiscite to decide on the return of Ex-King Constantine has been postponed until December fifth.

WOMEN PREACHERS HAVE BEEN LICENSED SINCE LAST MAY

CHICAGO, Nov. 22.—Fifteen women have been licensed to preach in the Methodist Episcopal church since this right was granted last May by the General Conference of the church, Miss M. Madeline Southard reported here Thursday. Miss Southard is president of an association of women preachers in the United States and Canada that represents 15 denominations. She is director of evangelism of the Epworth League.

"The first woman preacher to be licensed in the Methodist Episcopal church under this ruling," Miss Southard said, "was Miss D. Willis Gaffrey, of Wenatchee, Wash. She came from a family of preachers and at the age of nine wanted to preach. She had been acting as associate pastor of the First Methodist church at Wenatchee. Her pastor who was at the General Conference telegraphed word of its decision, and she was licensed as a local preacher within two hours.

"The same evening Miss Winifred Willard was licensed by the First Methodist Episcopal church of Denver. At the time she was 2000 miles away in the east, but the enterprising Denverites called a meeting as soon as they heard the news and took action."

join the class. A committee of three were appointed to make up a list of candidates for the new officers to be elected for the year and came in with the names which were promptly voted to serve. The following officers were elected: W. M. McKinnon, president; L. A. Brumley, vice-president and L. J. Frazier, secretary and treasurer. Committees were also elected to take charge of entertainment, publicity, membership, etc.

President Stevens called upon the following for talks during the evening: E. T. Woodruff, W. L. Henley, R. J. Holly, J. H. Hutchinson, Dr. Dodd, H. C. DuBose, Dr. Brownlee, A. C. Clark, Henry McLaulin, Chas. Henry and several others who responded in merry vein and many of the members of the class expressed their appreciation of the efforts of H. C. DuBose, the teacher of the class, to expound the doctrines of the bible each Sunday morning in the year.

At the close of the session a rising vote of thanks was given to the ladies for their successful efforts to entertain the men and it was also hinted that the men will in the near future give the ladies something of the sort and show their appreciation in a substantial manner. It was also darkly hinted during the evening that the supper was intended to get more recruits for the Brotherhood Class in order to keep the ladies from distancing them in membership figures for the year.

The Presbyterian Brotherhood Class is one of the most active in the city and it was decided last night to have more of these social affairs during the year as the Presbyterian church is so well adapted for social gatherings of all kinds the church plant being one of the most complete in the state.

AMERICAN FLEET TO PROTECT ARMENIA

International Army May Go To Their Rescue

ALTHOUGH NOT A MEMBER, WOULD COUNT ON US FOR HELP

GENEVA, Nov. 23.—A resolution presented by M. Viviani, of the French delegation, to the representatives of various powers, with a view of constituting a force to gain peace and equitable settlement of questions relating to Armenia, was adopted by the assembly of the league of nations yesterday.

The possibility of American aid for the Armenians was touched upon in debate by the Assembly of the League of Nations on resolutions demanding intervention by the league in Armenia. Supporting Lord Robert Cecil's demand that the assembly appoint a committee to examine into means for ending the hostilities between the Turkish nationalists and the Armenians, M. Spalckovitch, of the Serbian delegation, declared the United States senate at one time had approved of the use of the American fleet to protect the Armenians. It was recalled here that Senator Harding was the senator who reported the resolution.

(A resolution requesting the president to send Marines to Batum, was adopted by the senate May 13 last. It was offered by Sen. Harding on behalf of the foreign relations committee.)

A. J. Balfour, Great Britain, said she had the men, money and spirit to make her an ideal mandatory. The league has been unable to accomplish anything with regard to the Armenian situation, Mr. Balfour admitted, because of the condition of Armenia, he argued, which was not the same as when the league for organized.

M. Balfour says an appeal must be sent to the 41 states of the league for united effort to save Armenia. Rene Viviani, of France, following Mr. Balfour, said all agreed that compassion would no longer suffice for Armenia.

"It is not the fault of France if the league today is disarmed before the situation in Armenia is righted," said M. Viviani. Virtually the entire assembly applauded this statement. It was noted however that the British delegation did not applaud.

"If the conference had listened to France," continued M. Viviani, "we would have had an international staff and an international force to deal with this situation."

M. Viviani introduced a resolution inviting the league to consult with the powers with a view to the institution of a force sufficient to put an end to the hostilities in Armenia.

Dr. Fritjoff Nansen of Norway, declared 60,000 men would be a force sufficient to deal with the situation. He thought that if the assembly appealed to the whole world, the United States, although it had refused the mandate, would do its share.

Delegate Jonescu, Armenia, supported by M. Viviani's proposition and also thought the United States could be counted upon for help. The debate gave an opportunity for anyone thinking of a solution, and yet not wishing to call it by that name, to speak his mind. D. J. D'Harby of Canada, put in an "exceptional remedy for an exceptional situation." At the close of this debate, however, Lord Robert Cecil said he would have named intervention or any practical plan of dealing with the matter.

Congratulates The Herald

Indianapolis, Indiana, Nov. 19, 1920.

Chairman Chapel, Sanford Daily Herald, Sanford, Florida.

Dear Sir:

In looking over considerable belated correspondence, I found a copy of the Sanford Daily Herald of October 4th, containing an announcement of the unloading of the Sanford Herald.

Will you please convey to the management and to the members of the chapel my congratulations upon the entry into the unique field of that publication, and to wish to the management great success in their journalistic enterprise, and to the chapel a harmonious and profitable career.

With best wishes, I am, Fraternally yours, JOHN McPARLAND, President, International Typographical Union

REPUBLICANS WILL MAKE MORE PIES

(Continued from page one)
house and senate committee strongly Republican, Democratic officials generally see their severance from the government payroll soon after March 4. Madden doesn't like the southern people and does not deny it.

Declaring that in the near future the prospects are good for Florida and Texas to stand in the Republican column politically, Washington newspapers are making a strong bid in this direction. Today, in its gossip, the Washington Post quotes a visitor as saying:

"Despite Democratic hopes for a comeback four years hence, a number of prominent Democratic leaders have, since the election, expressed real apprehension over the great increase in the Republican vote in the South.

"During the last ten years the shift in the population of this country has been tremendous, and it is now being felt politically. Northern people, Republicans for the most part have moved by tens of thousands into the southern states. Texas and Florida perhaps furnish the most notable examples of this northern immigration. Northwest Texas is now overwhelmingly Republican because of the influx of northern people, drawn there by the great oilfields and the immense agricultural opportunities. Were it not for the fact that Texas is traditionally Democratic, the newcomers, following in a large measure the prevailing politics in their new homes, the Republicans might have captured one or two more seats in congress from that portion of Texas.

"The northern population of Florida is made up largely of wealthy people seeking health and recreation. Thousands of them have revoked their residences in northern states, and have established their voting residences in Florida. On the other hand, the colored population of the North, especially the border states of West Virginia, Ohio, Illinois and Indiana, has grown enormously since the war. It is stated that negroes are going north at the rate of 500,000 a year."

CLAIM IRISH ARE GETTING TOUGH DEAL

(By The Associated Press)
WASHINGTON, Nov. 20.—More eyewitnesses tales of violence in Ireland and accounts of social and economic developments resulting from the effort from the Irish independence were received today by the Commission of the Committee of One Hundred investigating the Irish question. The commission then adjourned over Thanksgiving to resume its inquiry presumed in the first week in December.

Personal accounts of the killing of citizens and police last September at Balbriggan and the burning and looting of homes and stores there and at Galway and other Irish towns, were related by John Derham, town commissioner of Balbriggan, and by the Americans who toured the country recently, including Mrs. William A. King, of Ironton, O., and Mr. and Mrs. Francis Hackett of New York. A copy of the report made by the Quaker commission from Great Britain, which investigated Irish affairs recently, was submitted by Paul J. Furnas of New York, president of the Society of Friends.

"Terrorism" was the term applied by all of today's witnesses to the military rule in Ireland. Mr. Derham said the "black and tans" bayoneted two citizens of Balbriggan and burned twenty-four houses during a raid in reprisal for the shooting of two officers by unknown persons.

FINANCIAL LEADERS SEE HOPEFUL SIGNS AHEAD IN RECONSTRUCTION PERIOD

(Continued from page one)
thereafter we will be ready to start out successfully on solid ground.

Taken as a whole these letters show that the business leaders of the South are meeting the difficulties of the re-adjustment period in the same splendid spirit which characterized all our people during the war. They are ready for the sacrifices or temporary inconveniences which the situation brings upon us and show the kind of cheerful and clear headed courage, which always wins. With these qualities they manifest a fine spirit of co-operation and willingness to "help the other fellow," provided the other fellow will help himself.

Edward W. Lane, president of the Atlantic National Bank of Jacksonville: It was a great day for the commercial interests of this country when the Governor of the Federal Reserve Bank of this District inaugurated a campaign for the control of credits. Time has vindicated the wisdom of this policy, and it behooves the bankers to take heed and co-operate to the fullest extent with this great institution during the period of deflation.

When re-adjustments are being made they are always accompanied by inconvenience to some, and strain and financial losses to others, therefore, we should meet the situation calmly and see that this deflation is done in an orderly way.

Our section of the country, especially Florida, has been very prosperous during the past few years, therefore, should be in a splendid condition to meet the situation.

In conclusion, it is my humble opinion that when this settling process is over it will redound to the best interests of the public as a whole.

Arthur F. Perry, President, Florida National Bank, Jacksonville:
The dreaded time which was looked forward to with such apprehension has arrived, and the re-adjustment is progressing without panic or violent economic disturbance, which fact should animate us all with pride.

It is a familiar saying that "the American people can be trusted to do the right thing," and it is apparent that the merchants and bankers are today showing that same steady nerve which has so often characterized their movements in other trying times, and the re-adjustment will undoubtedly be completed without undue strain or disaster.

It is indeed fortunate that we have at this time an adequate banking system, which enable the banks of the country to continue granting credit to those entitled to it, rather than aggravate a trying situation by contracting credits.

Merchants will, of course, suffer some loss in the downward trend of prices, but there seems to be a reluctance on the part of retailers to make drastic cuts in prices, and rather an effort to dispose of a good share of their present stocks at prices calculated to show a fair profit before reordering at reduced prices.

Just one more thing I would mention: frown on any attempt at selling pleasure cars on credit. If a man hasn't the money to pay for a car, he isn't able to own it, much less pay the upkeep.

Going home to turkey and trimmin's

THANKSGIVING DAY last year.

I ATE my chow.
ALONE in the big town.
AND THE TURKEY was all.
NEATLY VARNISHED and had.
NICE LITTLE paper pants.
ON BOTH its legs.
AND TASTED strongly.
LIKE NOTHING at all.
BUT THIS year.
MAN ALIVE, I'm going home.
AND THERE will be,
A COUNTRY turkey,
DONE TO a turn.
CROWN AND savory.
CRISP AND flaky.
SENDING UP little clouds.
OF TANTALIZING steam.
MAKING NOSTRILS wrinkle.
AND PALATES quiver.
OH BOY, real turkey.
AND THEN afterwards.
ABLE to breathe.
BUT NOT to bend.
I'LL REACH for a smoke.
THAT'S THE real turkey, too.
COSTLY AROMATIC Turkish.
BLENDED WITH the best.
OF MELLOW Domestic leaf.
AND ONCE again—oh boy.
CAN'T YOU just hear me.
INFORMING the world.
"THEY SATISFY."

IT'S real Turkish tobacco that goes into Chesterfields—really grown in Turkey and bought on the ground by our own buyers. To blend it with best Domestic, in the exclusive Chesterfield way—leave that to us. "They Satisfy!" We'll leave that to you.

A salad course was served during the afternoon.

BROTHERHOOD ENTERTAINED

The members and friends of the Presbyterian Brotherhood Class assembled in their social rooms on the 22nd for a sumptuous oyster supper served by the ladies, and so organize the work and elect officers

for the new year. Proceedings of the meeting and names of officers elected will be found elsewhere in this paper.

There was one fact brought out clearly in this gathering of nearly one hundred representative men, that is, that they must derive some considerable and good benefit out of being members and attendants of a Sunday School class. Only a very few years ago hardly a man could be found in the Sunday schools of our town, while now there is not a Sunday that, by going the rounds of our different churches, one could not count between two and three hundred men in attendance regularly. What did it? It is the obvious fact that these men have found something of much help to them in the exercise of their aims. They are a representative gathering, where the best that our city has on brains, energy and progressive spirit can be found and should certainly be an inducement for the outsider to join in and find, what it is, that holds the interest and enthusiasm of these men. This is the aim of the Brotherhood Class, to spread the knowledge of the help, the simple teachings in our Sunday Schools give us, in helping ourselves over the hard roads of this life as well as helping our fellow man to the same purpose.

Every man seeking helpful knowledge is always cordially invited to the class meetings Sunday mornings at 9:45 at the Presbyterian Brotherhood rooms as well as to the periodical social gatherings, and we are sure that by simply attending as an observant listener he will soon find where he is deriving a good and lasting benefit from the same.

Thanksgiving Proclamation

Three hundred years ago in November, 1620, the Pilgrim Fathers founded what they called a free nation. The following year they proclaimed a day of Thanksgiving because their plans had come safe to port after many storms.

The political freedom the Pilgrims sought did not come to women until 300 years later. Now the women of America have, after a long voyage and many storms, arrived at their port of freedom. Their day of Thanksgiving is therefore due. For this reason the National American Woman Suffrage Association, the direct heirs of the long line of brave women who in the person of Abigail

Adams, Lucretia Mott, Susan B. Anthony, Lucy Stone, Elizabeth Cady Stanton, Anna Howard Shaw and thousands more, never paused in their work for liberty, now urges that the women of the United States use Thanksgiving Day as a day for especial expression of their gratitude for the blessing of political emancipation.

We, the members of the executive board of the National American Woman Suffrage Association, offer our own thanks; first, to Almighty God, who has led the unflinching efforts of three generations to this hour; second, to the noble company of men in the fifteen full suffrage states, who have in the last fifty years braved opposition at the polls in order to enfranchise the women of their several states.

We thank again the Sixty-fifth and Sixty-sixth congresses of the United States which stood staunch against fierce opposition and finally brought the barge of liberty to port. We thank the President of the United States for his unprecedented act in personally bringing the amendment before congress. We thank those states which cleared the way for the amendment by prompt ratification. We thank the governors who called special sessions, the hundreds of legislators who responded to these calls, who endured journeys, resisted opposition, repudiated bribery, defeated corruption, for the sake of justice to the women of the country.

We thank all the political parties for their final acceptance of the principle that just government rests upon the consent of the governed; we thank the minor parties for their adoption of this principle before the major parties had awakened to its application. But we also thank the two major parties which have since 1915 increasingly accepted woman suffrage as a political issue to be maintained, and who furthered the cause of ratification in spite of reactionary element in their midst.

Finally we give thanks that in spite of all obstacles the women of the United States on November 2nd were invested with full political liberty. With new self-respect and new hope for the future, millions of them went to the polls and participated in the great presidential election. Reverently they dedicate themselves to the service of their country that "government of the people, by the people and for the people shall not perish from the earth."

THE NEGLECT OF THANKSGIVING DAY

What have I got to be thankful for?

Well, I live in that country which is the "land of the free and the home of the brave."

I live in a state of glorious beauty—where lakes glint in the sunlight nearly every day of the year; where flowers bloom perennially, where birds never forget to sing; where the climate furnishes a resort to suffering ones for health and comfort; where delicious fruits abound; where more and more beautiful homes are being erected, and new churches ascending? Ought I not to be thankful?

Is it not proper for every patriotic American to resort to the holy sanctuary and offer Thanksgiving, on

our great national day, to the giving of all good?

Isn't it right to bend the knees and worship the God, who, in spite of our national sins, has withheld a visitation of famine, flood and fever from sweeping over our broad beloved land?

Is it right when God's house is open to worshippers on Thanksgiving day to turn our backs and hasten away on some selfish excursion and neglect to render in public worship our mite of praise and gratitude to Him who alone can save us from all the ills and horrors of a national disaster?

"Blessed is the nation whose God is the Lord."

"He hath not dealt so with any nation" 'as ours.

Oh, come, let us sing unto the Lord. Let us come before His pres-

ence with Thanksgiving, and make a joyful noise unto Him with psalms."—Contributed.

HOOPLA—TODAY IS CIRCUS DAY IN SANFORD

Hurrah! Hurrah! Today is circus day in Sanford as was evidenced bright and early when the kiddies and grown-ups began to assemble by

Tampa and other cities in this vicinity.

The circus arrived in Sanford early this morning from Orlando where they played yesterday to two big crowds and have pitched their tents on the Ball Park grounds. The parade was on the streets at

10:30 the crowds were getting large waiting to see the parade. The small boy is always able to persuade pop, grandpop, uncle, aunt or at least ma to take him to the circus, where the adult is speedily as much engrossed as the child.

Consequently yone was prepared for the large crowd that was on the streets this morning and that remained for the afternoon performance. The second performance will begin tonight, the doors opening at 7 o'clock and the performance commencing at 8 o'clock and it is expected the capacity of the tent will be taxed, as was the case this afternoon. While the Sparks Circus has not been in Sanford for years it comes highly recommended from

about 10:30 o'clock this morning and displayed many new features, such as the cage of monkeys drawn by the team of camels, the beautiful tandem teams, and the horses were the finest seen here with any circus and the three bands and callope furnished plenty of music.

The afternoon performance began promptly at 2:10 and it is plain to be seen that Mr. Sparks is a strong believer in the "performance is the thing" as this season's Sparks circus is full of novelties and features throughout and runs like clock work from the opening or Grand Entree to the finish of the high jumping horses. All in all, the show is right up to the minute and is well worth our time going miles to see.

WORLD'S GREATEST SUPERDREADNAUGHTS

U. S. Navy's Recent Contracts Will Supply World's Greatest Fighting Machines.

Above is the silhouette of the new heavily armored battleships, South Dakota, Indiana, Montana, North Carolina, Iowa and Massachusetts, which have recently been laid down. The biggest change in appearance from the Tennessee, our latest addition to the Navy, is the arrangement of the single smoke stack, there being three separate stacks at the deck line which come together half way up and join into one immense affair.

These ships will be one-third again as large as the Tennessee and Mississippi, being 684 feet long, 106 feet beam and displacing 43,200 tons with a speed of twenty-three knots. Their main battery will consist of twelve, sixteen-inch guns which will fire a weight of approximately 31,000 pounds, or almost double that of the present day super-dreadnaughts whereas the complement will be practically the same, there being 62 officers and 1,289 men on board.

We opened up a beautiful booklet on Florida today that was supposed to be a Hotel Guide (it said so at least) and looking for the guide to hotels in Sanford saw the Carnes Hotel. This is a sample of some of the up-to-date booklets being published on Florida.

Florida, as a sugar producing state is coming into her own. The following comment from the Manufacturers Record should prove of interest: "Significant expansion in the South's sugar industry, marking the beginning of a development in Florida, is an announcement this week in the Manufacturer's Record's summary of industrial news to the effect that Philadelphia interests will erect a \$1,300,000 sugar refinery on the St. John's river in Florida, near Palatka. The new plant has a planned daily output during harvest of 160,000 pounds. Several small refineries are expected to feed the plant with raw sugar." What is happening at Palatka is not a remote possibility for this section of the state.

HAS THE CIRCULATION

Robert Holly, Jr., has taken the circulation list of the Daily Herald and found the list badly mixed up, necessitating a general reorganization of the system of carrying the daily and seeing that the subscribers get it every night. New boys have been put on some of the routes and the management will see that changes are made from time to time that will guarantee the proper distribution of the daily. We can add 500 more names to the list if the paper can be delivered each night in the proper manner and we hope that the majority of the kicks will now be eliminated. Saturday night two of the carrier boys quit without giving us any notice and their routes had to be guessed at in a way but all these matters will be straightened out and we want the kicks to come direct to the Herald office until 6 o'clock (phone 148) and after six o'clock to the Holly home (phone 64) and Robert Holly will bring your paper to you and find the trouble. We intend to give service on this paper from this time forward and will keep the circulation in the family.

the woods with his dog. His assistant, Clayton C. Codrington, was taken ill during the morning and was forced to leave his work and seek his bed. In the early afternoon, the day linotype operator, Miss Katherine Taylor, was taken sick and was forced to go home. The force made the best effort they could, thus badly crippled, to get out the paper, and did as well as could be expected under the circumstances. That the paper was not up to its usual standard and that the most important item of all, the indictment of Editor T. E. Fitzgerald by the circuit court grand jury, was omitted from the columns, was unfortunate.—DeLand News.

REAL ESTATE MEN MAKE THE TOWN

Live real estate men make a town or retard its progress according to the life they put into it. Strange to say there are dead real estate men just as there are dead merchants and when a real estate man is dead to the possibilities of his city that city is dead sure enough for it takes boasting real estate men to move the town by keeping property on the jump and bringing in new people by plenty of advertising. The real estate men of Florida have formed a state association and they are meeting in Jacksonville this week and laying plans for one of the largest campaigns of advertising that has ever been put over in the state. Speaking editorially of the state association now in Jacksonville the Times-Union says:

"Real estate is the basis of all wealth, progress and prosperity, and the men who handle real estate are coming to be recognized as leaders in the commercial world. Time was when real estate men were looked upon with suspicion and even fear, but that time has passed and thru organization this profession has been placed on a plane equal with the most respected of the professions or trades.

"The success of this movement culminated in the National Real Estate Association, with which are affiliated the various real estate associations and boards of the country and a membership in the national association is a badge of trust that is now given the respect of all those who trade or have occasion to buy or sell real estate. Florida has a number of live real estate organizations that are affiliated with the national association and about two years ago a State Realtors' Association was organized and just at this time the annual convention of this organization is being held in Jacksonville with representatives here from more than a dozen organizations in Florida.

"Jacksonville is well represented in the real estate world with a splendid local organization, the Jacksonville Real Estate Board, and it is affiliated with the State Realtors and the National Real Estate Association. The local board is acting host on this auspicious occasion and we believe it is making good in the important role. The visitors are being royally entertained and are being shown the city and its environments and today they will be guests at the Florida State Fair. Jacksonville is honored by having so many distinguished guests and extends them a most cordial greeting and the Times-Union wishes them every success in their splendid efforts to develop the state and to locate as many as possible of the good people of other sections within our confines. The real estate men are the builders of the nation and to them all credit is due for much of the progressive development in Florida in the past decade."

MOON MEMORIAL LIBRARY.

As November 21 is the birthday of Rev. J. Lawton Moon, in commemoration of whose life and services the library formerly owned by him was presented to Southern College last year, this date this year will mark the first anniversary of this helpful movement for the enlargement and betterment of the library facilities at

Southern by the friends of the institution.

Every reader of the Advocate and every friend of Southern and every Methodist in Florida is urged to remember the spirit in which this collection was given to the college and is requested to do something, no matter how little it may be, toward this worthy cause. The contribution of one good book by each of the friends of the school each year would do much toward increasing the library collection at Southern.

To those who contemplate observing the first anniversary of the J. Lawton Moon Library Memorial it is suggested that they select a volume of merit and worth, as it is true of the books in the Moon collection, and present it to the college during this month. If any contributor is in doubt about what kind of a volume to give a request directed to the Librarian, Southern College, will bring suggestions as to the books desired, and a list of books that are needed will be sent to anyone who wishes to help fill these needs. Will not the Methodists of Florida respond to this plea and help remove the handicap caused by lack of adequate library facilities at Southern College?—Florida Christian Advocate.

TENT COULDN'T HOLD 'EM ALL

Sparks Circus Had to Give an Extra Performance Friday Night.

Two performances were necessary to take care of the throng which poured into the fair grounds Friday night to see the Sparks circus, and at the second performance, which opened at 9:30 o'clock, the big tent was filled to capacity by the "overflow crowd" who had been unable to get seats at the first show.

The excellent street parade given by the circus Friday morning, and the fine performance in the afternoon, which played to a capacity audience, proved the best sort of advertising for the big show, and early in the evening every road to the fair grounds was filled with children of all ages, for whom the lure of the Big Top and the clowns and all the rest of the things that go to make up the Great American Circus will never lose its grip.

So while the audience that packed the big tent at the first night show was watching the varied wonders of the three rings, an impatient throng, just as big, was wandering about the show grounds outside, amusing itself at the stands, the sideshows and the other incidentals of the big Sparks organization, waiting for the seats to be emptied, so they could regale themselves with the soul satisfying scent of the sawdust rings, the spangles and the glitter and the crack of the ringmaster's whip and the elephants' ponderously "cute" antics, and the red lemonade.

The bill was complete and satisfying with high wire artists, aerialists who performed some startling tricks, bareback riding and gymnastics, and a group of clowns who kept the crowd in chuckling contentment during the show.—Tampa Times.

Don Carraway, of Lake Wales, is returning home folks this week.

E. L. Sutton, of Geneva, was in the city today on business and pleasure.

Mr. and Mrs. Forest Gatchel are taking in the fair at Jacksonville this week.

Ernest Betts motored to Jacksonville Sunday to attend the fair and hear Billy Sunday.

Mrs. McG. Carraway returned home Sunday from a visit with her daughter, Mrs. E. D. Tyler, of Live Oak.

Mrs. Herbert Luffgen and children, of Chicago, arrived in Sanford Monday to spend the winter with her mother, Mrs. Robert Davis.

Oscar DuBose, of Lexington, Ill., was called home Saturday by the serious illness of his father, who had a stroke of paralysis last Tuesday.

Mrs. Wm. Ahern and little son are with Mr. Ahern again this season and the family is comfortably quartered at the Gables for the winter.

Mrs. C. A. Betts is visiting her daughter, Mrs. R. L. Rowe, of Jacksonville, a few days. While there, she expects to attend some of Billy Sunday's meetings.

The many friends of B. A. Duncan, of the A. C. L. Ry., with headquarters in Waycross are glad to see him here today. He is on a visit to Mrs. Duncan and the children.

Dr. George Hyman, Supt. T. W. Lawton and Judge Maines leave today for Jacksonville where they will hear Billy Sunday and take in the State Fair, thus combining business with pleasure.

Chas. D. Brumley, of Chuluota, was in the city today bringing Mrs. Brumley and the grandchildren in to the circus. Mr. Brumley announces that the Chuluota Inn will open on Thanksgiving with a big turkey dinner.

E. T. LeBarron, of the Mucklow & Ford Co., of Jacksonville, expert accountants, is in the city helping the City Clerk of making up the annual budget and other items. Mr. LeBarron has been here before and has many friends who are glad to see him again.

Secretary Pearman leaves for Jacksonville today where he will attend the state meeting of commercial secretaries and also visit his family and take in the state fair. He is anxious to move his family here but like hundreds of others is unable to get a house for them.

Col. J. A. Blount and wife, of Waynesboro, Ga., are in the city the guests of their daughter, Mrs. Henry Purden. Col. Blount has been to Sanford before and has many friends here who are always glad to see him. He is one of the big cotton planters of his section and is also a county commissioner for his county.

W. C. Fields in some manner ran into W. A. Stapler on Park avenue yesterday as Stapler was getting out of his car and crossing the road. He was knocked in the ditch and was unconscious when picked up. The case came up before Judge Maines this morning in police court and Fields was fined \$10 and costs for reckless driving.

Among the visitors to the city today are Mr. and Mrs. H. O. Brown, of Madison, Wis.; Mr. and Mrs. B. A. Sprague, of Vermontville, Mich.; and Mr. and Mrs. E. L. Keuth, of Vermontville. All of them are living at Paula on the Morse place and enjoying life in the balmy Sanford weather, very different from that they left in their northern homes.

Mr. and Mrs. Terheun will leave for their home in New Jersey tomorrow after spending several weeks here with Mrs. Terheun's sister, Mrs. F. F. Dutton.

Among the prominent visitors to the city today from Eustis is Clarence Woods, formerly editor of the Eustis Lake Region. Clarence paid the Herald office a pleasant visit.

Harry Reed, of San Francisco, is in the city the guest of his sister, Mrs. Harry Ward. This is Mr. Reed's first trip to Florida and he likes it so well he may remain all winter. Mr. Reed is a linotype operator and paid the Herald office an appreciated visit.

MOTOR CAMPS FOR TOURISTS

Motor camps for tourists have become the rule in the wideawake cities and towns of the state. If the hotel is crowded or other housing is scarce, the auto-bummer—as the tourist who come through from the North or West in his car has come to be known—doesn't worry a bit; he just goes to the auto camp and "beds down" in comfort for the night. There's a lot of them who prefer the motorists' camp to any hotel or boarding house, for not only is it cheaper, but there is the freedom also of the open air, and its healthfulness, and the quaint surroundings, and the stories the other fellows have to tell about their experiences.

Some of the motor camps are merely places for transients, while others are regular winter communities, with well regulated conditions, and allowing for permanency. The campsite at DeSoto Park, Tampa, is one of the latter kind. So popular was this camp last year that it sheltered several hundred winter visitors, or rather they sheltered themselves on the grounds provided by the city. It is a typically well-regulated motor camp, with running water, good sanitation, fuel, camp regulations, and the like. The folks who people it style themselves "tin can tourists" not as a term of reprobatation but because dinner is more frequently served out of a tin can than otherwise.

Yet they don't have to get chuck from the innards of a tin can, for they are close to all sorts of supply depots, and good cook pots, and it's a poor auto-bummer who can't sling a pot from a tripod and make Irish stew or Hungarian goulash. And there is Sparkman bay, and the mile upon mile of Hillsborough bay right at the camp, and teeming with all sorts of edible fish and shellfish—yes, oyster stews, clam stews, fish chowder and any other sort of a "marine dish" ready to the hand.

Auto camps of inland towns are, in most cases, within easy distance of a lake, where fishing is good, and there's quail, squirrels and rabbits in the woods and the fields and the hunting license isn't costly.

If you leave it to us to say, it well, we'd rather be an auto-bummer, tin-can tourist in Florida at this time of the year than a stalled millionaire in decabaretized Gotham or Windyville. —Tampa Tribune.

PADERICK CALLED ON TO SHOW CAUSE FOR NOT VACATING OFFICE

JACKSONVILLE, Nov. 23.—Quo warranto proceedings sworn out in the circuit court here yesterday were served on K. R. Paderick, tax collector of Duval county and scion-in-law of Governor Sidney J. Catts, demanding that he show by what authority he holds the office. R. Fleming Bowder, who was elected Nov. 2 to fill the unexpired term of Collector J. R. Rast, and the regular term, filed the proceedings after Governor Catts refused to sign his commission and Paderick refused to vacate the office.

LOOSE BUSINESS METHODS LED TO BIG LOSSES ON CANCELLATIONS

(By The Associated Press)
NEW YORK, Nov. 23.—Loose business practices throughout the country recently led to loss of two hundred and fifty million dollars through cancellation of merchandise orders, H. F. Baker, an official of the National Association of credit men declared today. He advised business men to make short credit terms and prompt collections.

DOING GREAT WORK

The Lake County Chamber of Commerce issues what might be termed a "house organ." The secretary of that organization is Willis B. Powell, by every instinct a newspaper man and an advertising expert. Incidentally and on the side, he is the editor and general manager, society editor, city reporter and advertising manager of "Lake Conics," which is given free distribution in the up-building of famous Lake. This publication is full of pep and information, a combination hard to beat. Therein is told a gratifying and amazing story of achievement, made possible by the combination of all the principal towns of Lake county, Leesburg, Eustis, Mount Dora, Tavares and others in the one patriotic purpose of making known the delights and advantages of life in that section of Florida. Willis Powell is a whirlwind of energy and is making a tremendous success of his work.—St. Augustine Record.
