space with nothing but a "silk umbrella" between you and eternity! Yet men do it every day, and they trust that umbrella as Faith is something like that white par

chute, as thousands upon thousands of Christians can testify. Faith upholds you and supports you, no matter how rough the going may be. Without faith in a loving God, man is very much alone . . . and man was never meant to deal with life's problem

Like the first parachute jump, faith isn't easy at the beginning. It takes courage to hand over the reins of one's life, but you can be sure of one thing . . . you'll always land on your feet. Strengthen your faith by attending the church of your choice.

Freedom From Politics

A people may prefer a free gov-ernment, but if from indolence, or want of public spirit, they are unequal to the exertions necessary for preserving it; if they will not fight for it when it is directly attacked; . . . if by momentary discouragement, or temporary panic, or a fit of enthusiasm for an individual, they can be induced to lay their liberties at the feet even of a great man, or trust him with powers which en-able him to subvert their institutions — in all these cases they are more or less unfit for liberty; and even though it may be for their good to have had it even for a short

time, they are unlikely long to enjoy it. _____ John Stuart Mill
