Denmark May Join Atlantic Defense Pact

Rasmussen Indicates He Will Ask His Country To Enter Proposed Alliance WASHINGTON, Mar. 15-(A')

-Denmark's foreign minister indineted today he will recommend That his country join the North Atlantic Defense Alliance. The minister, Gustav Rasmussen, wound up his five-day fact-finding

mission here with a farewell call on Secretary of State Acheson. When he was leaving, reporters asked what his recommendation to the Danish parliament would be Basmussen said: "I leave it to you draw the sensible conclusion."

Rasmussen and Acheson issued a In Bus Accident joint stalement. Its tone also plainly indicated Denmark might come in us the

ninth member of the growing Atlantic Defense Pact.
This statement said in part:
"The Secretary of State stressed the purpose of the pact as being the maintenance of peace as well as its purely defensive maracter. The Secretary of State also pointed out that the pact is drafted in close conformity with persons were admitted to Jackson the Charter of the United Nu- (Confinued On Lage Six)

Because he was an illegitimate cast off women's clothes, long and Social Council. tangled hair, and looking like a that child's mother vote.

If a group of foreigners trampled American city, or desecrated the Statue of Liberty, they would be tucky to escape with their lives. Three drunk American sailors were lucky last week when they insulted a crowd of Cubans in Havana by desecrating a statue to their national hero. Only the prompt action of al hero. Only the prompt action of Cuban police saved the sailors from heing lynched. The fact that they represented the big and mighty United States, and Cuba is so tiny, made their crime all the more remarks might fail under Communist and might fail under Communist pared to the 1948 average of 2,479 as compared to the 1948 average of 1,705.

cases. All the various state agencies which have got the "gimmles" have had their say and it all boils down to this: Governor Fuller Warren announced that at least "340,000,000 a year more in state taxes will be needed." Isn't it too bad we can't borrow the money the way the federal government does? And what kind of a tax can we levy that will raise \$40,000,000 a year? A sales tax would do it, but the Governor is committed to a veto on that? An income tax might do it, but the people voted a constitutional amendment against that only a few years ago. A homestead tax sight do it, but the people fixed that too. It looks as if we have about reached the point where, if we want certain things, in state matters at least, we will have to pay for them. Nobody is going to doot Sirsta Claus, to be sure, but

A Sad Indictment

Considerable bad publicity comes to Florida at long last as a result of its continued failure to clean up its lakes and i streams, to prevent polution of its bays and ocean beaches. Philip Wylie, a 20 year resident of Miami, tells the story of Florida's shame in the current issue of Look Magazine in an article entitled "Florida, Polluted Paradise".

Pointing out that most of Florida's three million winter end Ho Ying-Chin. visitors come to this state for the benefit of their health! and to take advantage of its widely advertised salubrious climate, Mr. Wylle points out that Florida's water is among the nation's unhealthiest. Because it dumps its sewage and industrial wastes into the nearest lake, river or bay, meet of its water supplies are contaminated.

It is not an unusual practice for cities all over the embark on the all but hopeless country to follow the ancient and ensiest practice of dispos- task of trying to gain concessions ing of sewage and garbage via the water route, but it is from victors who are demanding particularly dangerous in Florida, Mr. Wylie points out, unconditional surrender. His job because of the unprecedented growth of the state, because of its flat terrain with poor natural drainage, and because of war criminals. of its porous substrata and high water table which virtually connect every flowing well with neighboring cesspools.

We have repeatedly pointed out the danger of this and has seen tough times before practice to the health and welfare of the community. So the figure of defense and a for health and welfare of the community. have many other newspapers in this state. Yet, for the most part, nothing has been done about it. The excuse is always represented China on the United given that we do not have the money. The cities are starved Nations military staff committee for funds by antiquated laws limiting their sources of re. at Lake Success. venue, and the State, which can spend \$6,000,000 for unemployment benefits, \$36,000,000 for welfare, cannot raise one hand and, next to the generallythin dime to give the people pure water.

"Many cities continue to pour the deluge of their sew- with Nationalist China's military age into their own aquatic dooryards", Mr. Wylie points leaders than any other man, The out, "Hundreds of thousands of men and women daily dis- influence is the key to his appoint port themselves in the water marked in red by the State 1. Although Chiang Kal-She Board of Health. Water-ski schools take their pupils out ["retired" and left his capital so on the turgid, often evil-smelling bays, Recognizable debris, Jan. 21 he sun has remained down floating and repugnant, invades the seaside premises of hear in military affairs and the smart hotels. Even the celebrated golden strand of Miami and Spin President Li Tsung Beach grows visibly nastier every year".

This is a deplorable indictment. The sad part about army. it is that it cannot be denied. It may be argued that there | 2. A unified military comman are other states which are just as bad. Florida crackers may point out that most of our newer residents came here from better position to negotiate peace other states and are as much to blame for present day north bank of the Yangtse filver conditions as anyone. But the fact remains that, recognizing reportedly pushing preparaing an evil condition, we are doing nothing about it.

What if it does cost \$300,000 for a sewage disposal war further south in China. The plant? We have a \$500,000,000 tourist industry to protect. pared to meet this new offensive

Espionage System

If prediction can safely be based on the action of the their chances of standing off the House, the Central Intelligence Agency is to get full powers Red forces are slight. Still, Genfirst wind that blows from the and standing to operate as an independent government eral Ho's great influence with the North may bring to our cars the agency. Created by the military reorganization act of 1947, Nationalist military chiefs is bound the agency has been more or less in the position of being since the Red command might reway he puts it. He sounds a little tolerated, without having wide authority to net on its own ther drive a bargain for control penimistic But suppose he should and without having exceptional attention given to its re- of Southern Chies than wage a

Espionege is as old as politics. Ever since there have the Communists finally will debeen as many as two distinguishable communities of people mand is a matter of speculation in the world, they have been spying on each other. The However, some close observers bein the world, they have been spying on each other. The sever saw on the Chatauqua circuit was Harry Lauder whose famous Scotch brogue and funny antics we never will lorget. We thought he had died years ago: But we read in the paper the other day where he is now planning to retire at last.

In the world, they have been spying on each other. The lowever, some close observers be close observers be rudimentary communities which were the first political lieve there is a chance that they might compromise on the formation of a coalition Communist. The University of Florida has requested in the veterans have graduated to the fall of 1947 and 10, and died years ago: But we read in the paper the other day where he is now planning to retire at last. The paper the other group of people that softed of the paper the other group may make some valuable discovery and seek that they might compromise on the formation of a coalition Communist. The University of Florida has requested in the state's functions. The University of Florida has requested in the state's functions. The University and the state and nations; still they spy, Partly this is because in the state and nations; still they spy. Partly this is because in the state and nations; still they spy. Partly this is because in the state's functions. The University of Whom 58 per cent are they other group may make some valuable discovery and seek to keep it secret. Partly it is plain curlosity.

We in the United States have every reason to maintain

Florida enjoyed the largest per capita income last year of any state in the southeast. Altogetheast. Altogetheast. Altogetheast of know what other peoples are doing in the southeast of the houses us to know what other peoples are doing in the southeast. Altogetheast of the southeast of the southeast. Altogetheast of the southeast of the sou state in the southeast. Altogether It believes us to know what other peoples are doing in the was in America and bits at a people of this state made \$2. politics, economics and science. It is questionable whether be bed not some and science are doing in the was in America and of which \$0.880,000 level because: Veterans Administration. The secthe people of this state made \$2. politics, economics and science. It is questionable whether he told me he had got some new 51. The population of Florida is cond year of the 1949-51 blennium 750,000,000, but Florida did not curiosity is sufficient cause for spying, but political and ideas that there were other ways have money enough to provide economic preservation certainty is. Our man in time we more than half her people with tive exploringe has been costly in the past, it is time we of my fight against materialists in China," he told me, "the meeconomic preservation certainly is. Our lack of fully effection the very than by force. Istration has helped make up the vear which is faster than in any ergs by about 1,000 and \$1,000.

Ne soap scum to coarsen threads... no scap-fading! Vel leaves no soap seum to coarsen sheer stockings, as even finest soap flakes do! Vel is not a soap, but a great, new soapless suds that leaves no color-dulling seum of any kind . . . so fine washables look far fresher-brighter

MILDER TO HANDS THAN ANY LEADING PRODUCT MADE FOR WASHING DISHES AND FINE FABRICS!

when washed with Vol. And Vel washes woolens

softer—fluffler than finest soap flakes, too.

Actual skin tests made by an independent laboratory — name on request—prove that Vel is milder to hands than any other leading product made for washing dishes and fine fabrics!

MarVELous for OXSHES STOCKINGS · LINGERIE · WOOLENS! Instant SUDS in hardest, coldect water!

cuts dishwashing time in half! Dishes, glassware gleam without wiping!

Vel leaves no soap scum or streaky film to polish away ... so even glassware dries sparkling clear! Just wash dishes with Vel and rinse ... no wiping! Vel removes grease faster-more completely than soap can, and leaves no dishpan ring! Vel cleans dishes cleaner than soap; saves up to half your dishwashing time!

"VEL is the trade-mark of the Galgate-Palmelive-Poet Go.

26 Men Appear For 2nd Sanford Giants Training Session

Gruber Plans Intra-Squad Contests By End Of This Week: 12 Pitchers Listed!

By ARTHUR BECKWITH JR. Herald Sports Editor The Sanford Giants completed

their second day of spring base-ball practice with 26 men on band to greet Manager Hal Gruber. There are ten additional youths in the Sanford camp, but they are not under contract and are trying out for the team.

Manager Gruber sent his 12 pitchers through a lengthy drill today in order to get them into condition as quickly as possible. Bill Spinks, a hold over from 1948, and James Boyd a rooke, are the only two left handed hur-

lers in camp. Henry Becker, James Glackin. Ed Kurpewski, Buddy Lake, Al-Miller, Churles Rose, oe Schultz Gene Shelton and John Boback are the ten righthanders. Lake, Rose and Schultz return from the 48 squad.

Catchers include Len Matte Alex Romanello and George Shmagranoff. Matte and Romanel to played with Sanford last year and Shmagranoff was assigned to Sanford during the winter months. Infielders include Johnny Me-Manus, Charlie Peplo, Dick Bangham, Charles Furey, Ed Kasco, Joe Malinowski and Al Caronis, McManus and Peplo are return-

ing from the 1948 Sanford team Connie Kavakis is the only ex-perienced outfielder on the Sanford rester. Other outfielders in clude Jerry Hoeger, Charles Cole man and Sal Ferrare.

With a pitching staff of lake, Schultz, Spinke and Rose, who return from the 1948 team, Manager Gruber has a pretty fair atart for his 1949 mound staff. Lake won 20 and lost o inst year (He is driving down from as home and chalked up a 2.16 carned run 9 and had an earned run average of 3.56, while Spinks won 7 and lost 7 and posted a 3.91 carned carned run average.

dam is built, if at all, he stated. The vegetable industry in Texas is recovering faster than the citrus group from the freeze, he declared. He saw good carrots growing that had been planted since the freeze.

He described the Texas climate as mild, whereas that of California was "nice and cool and very exhilerating," averaging 65 legrees in the day time and about 117 at night. He wore a top coat mornings and evenings, he revealed. Mr. Chase estimated that he traveled 1,800 miles in California and "never saw so many automobiles in one area" as around Los Angeles. He motored from Santa Barbara in the southern part of the state to the San Joaquin Valley, where he found citrus trees comparable to those of Florida in

Citrus freeze damage was negligible there compared to that o Texas, he said, and estimated the California loss of lemons and oranges at about 34 percent of the rop. Some oranges were spotted by snow, he asserted, Avocados is the San Diego area were hard hit by the cold.

California oranges are small sized and average 338 to the box compared to 200 to 216 for Florida, he declared, "I saw some good sized Valencias in the San Josquin Valley, however," he said.

The biggest problem of the California and Texas fruit growers is to secure water for groves that is free from so much alkada has some alkaline content but nothing to that of those 44 states," he pointed out.

He revealed that the Californians had a "bone to pick" with Florida at the way citrus is marketed from this state, but suggested 46 "This will not work out at one effort on the part of the entire The
