

## DOOLITTLE IS MAKER OF NEW SPEED RECORD

### Wins Bendix Trophy And Sets Transcon- tinent Airplane Mark On Long Hop

ST. LOUIS, Sept. 5.—(A.P.)—Major Jimmy Doolittle, former army pilot, may have been a bit tired today after shooting 3362 miles through the skies yesterday to win the Bendix trophy in the national air races and later establish a new transcontinental airplane record, but he was not too tired to plan to return to the scene of his triumph with only a short flight's rest.

Doolittle hoped to be back in the air today.

CLEVELAND, Sept. 5.—(A.P.)—Major Doolittle arrived back here shortly after noon after a flight from St. Louis.

NEWARK AIRPORT, N. J., Sept. 5.—(A.P.)—In a dazzling streak of super-speed, Maj. James H. Doolittle raced across the transcontinental sky trail to a new record yesterday.

The audacious aviator set his plane down here at 3:05 P. M., just 11 hours and 15 minutes after he had hopped off from Burbank, Calif., at 4:35 A. M.

In bettering the 1930 performance of Capt. Frank M. Hawks by one hour, 10 minutes and three seconds, Doolittle also beat a field of eight in Cleveland, Ohio, to capture the Bendix air trophy competition from Burbank to Cleveland.

Tired but still ambitious, Doolittle turned his plane around here and streaked back towards Cleveland last night, starting at 10:30 P. M.

He arrived in Cleveland at 8:42 P. M., one hour and 32 minutes after leaving New York. He took six minutes longer to cover the distance on the westward hop than he had taken coming in this direction.

"Where's my gas?" was his main concern when he landed here on the flying artery which will carry him over a total of more than 3500 miles by the time he reaches St. Louis.

A prize of \$7500 rewards him for his victory in the Bendix race and an added purse of \$2500 was his for the new cross-country performance.

Captain Hawks completed his record-smashing flight in 1930 at Roosevelt Field, N. Y., but that airport is only six or seven miles distant from here, and Doolittle's whirlwind trip at an average of 225 miles an hour left a wide margin for the difference in their terminals.

"I had good weather except for a few thunderstorms," he said. "My motor worked beautifully. My best time was 340 miles an hour, between Kansas City and Cleveland, but as I circled Newark airport for a landing I was making 250 miles an hour."

A crowd of several thousand persons, and more than a score of cameramen lined the edge of Newark.

## More Wheat Needed For China's Victims

SHANGHAI, Sept. 5.—(A.P.)—Estimating it would have food for 18,000,000 destitute persons throughout the winter, the Chinese flood relief commission reported today the 15,000,000 bushels of wheat purchased from the American Farm Board would be less than half enough for the need.

While an accurate census of the destitute in the current flood is still lacking, the commission adopted 18,000,000 as the working figure. The national government recently authorized the federal commissary to purchase the wheat.

Through an error in a telegraphic communication the men sent to the National Police Department reported the death of a man yesterday, a news item which should be a source of relief to the man's family.

ST. PAULI BAPTIST church, Monday morning.

## State Files Appeal In Gas Tax Decision

TALLAHASSEE, Sept. 5.—(A.P.)—The State of Florida today filed an appeal to the supreme court to Judge Love's order restraining the payment of gasoline tax revenue to 67 counties. The injunction was granted yesterday on application of John Mathews, Jacksonville legislator, enjoining state officials from distributing the revenue from three cents of the seven-cent tax on gasoline as authorized by the 1931 legislature. The appeal didn't raise new points in the case.

## MAN, BELIEVED DEAD, SAYS HE WAS KIDNAPED

### Once Gave Affidavits At Federal Trade Commission Inquiry

MINNEOLA, N. Y., Sept. 5.—(A.P.)—George J. Wemyss of Quines, Mass., who was given up for dead when he disappeared from a Boston bathing beach August 25, yesterday told a story of having been kidnaped and threatened with death for refusal to repudiate affidavits he gave the Federal Trade Commission.

Clad in tie and trousers and a torn shirt, Wemyss appeared at New Hyde Park, N. Y., yesterday in a dazed condition and placed himself under the protection of the police there.

Yesterday, Lieut. Inspector John E. Durney of the Boston police questioned Wemyss for hours and then made his story public with the comment that he believed it to be true.

Wemyss told the officer that in July he quit his position with a telephone company, for which he had investigated the methods of rival companies.

After he left, he said he gave the Federal Trade Commission affidavits.

## Labor Day Will Be Observed With No Festivities In View

Hundreds of Sanford residents are expected to join in the observance of the unofficial ending of the summer season Monday, when, with all business houses, offices, and major industries shut down, they will trek to the various beaches and nearby cities, as well as lakes and streams, for a day's pleasure and frolic.

Another year finds an official Labor Day celebration here conspicuous by its absence, so local residents must journey away from home to find their various pleasures.

Daytona Beach is expected to draw a majority of the fun-seekers, for, in addition to bathing and fishing, an elaborate sports program headed by a 150 mile automobile race and some 50 or more rounds of amateur boxing, is scheduled.

Local hardware stores and sporting good establishments report that anglers have purchased a large supply of fishing tackle and accessories, indicating that the lakes and streams nearby may be depopulated to some extent.

The only sporting event in Sanford on Monday is a baseball game between two crack colored teams, the Sanford Red Sox, and the Palatka Giants. It will be staged at Municipal Park at 4:00 o'clock.

The Sanford postoffice will observe Monday, Sept. 7, as a holiday. The city carriers will make the morning delivery, only on that day. No service will be required of the rural carriers. Patrons receiving mail through the general delivery window will be served between the hours of 8:00 o'clock and 10:00 o'clock in the morning.

Money order and registry divisions will be closed all day. The regular holiday collection will be made between 1:00 o'clock and 3:00 o'clock. Mail will be dispatched from the office the same as on other days.

All city and county offices will be closed for the day. The Sanford Atlantic Bank will be closed. The Sanford Herald will not be published in accordance with a custom of some years standing.

## QUINCY LEADS

CHICAGO, Sept. 5.—(A.P.)—Francis Quinnet, Boston veteran, won five up on a youthful Jack Whitland, Chicago, at the halfway mark of their final match for the amateur golf championship of America. The final sixteen is set for this afternoon.

APALACHICOLA — Chapman High School building improved.

## SITUATION IN BARCELONA IS STILL SERIOUS

### General Strike Ends Following Period Of Gunfire Killing Score Of Persons

BARCELONA, Spain, Sept. 5.—(A.P.)—The general strike which has paralyzed Barcelona for two days had been declared off last night, but the situation remained grave after a day in which the crack of machine gun and rifle fire was heard through out the city.

With at least 20 persons killed and 40 wounded and hundreds arrested as a result of two days of rioting, Barcelona's women took a hand in sporadic fighting between police and communist rioters.

They were accompanied by hundreds of women stormed the central where police strike on violence had taken refuge, and shot at police from the roof. The police replied to the sniping, killing at least one woman and wounding several others.

Sniping women in the streets and on balconies, after failing to induce their men folk to return to work by threats of a "waves" strike, ransacked them on bonded streets to come home to safety.

Riotous leaders called off the strike yesterday afternoon when the authorities displayed an unusual show of force, but there were indications of further trouble.

The martial law has not been declared, but Spanish blue-jackets were headed to protect the civil population.

Every main street was patrolled by strong police squads, although the venture out had to move with their hands above their heads. Anyone refusing to stop when challenged was shot.

Groups rallied to the display of force with assaults on public buildings. The police station, post office and town hall were besieged in turn, but in each case the leaders were driven off by police fire.

At several points where police charges were made the crowds cried "up with the soviet" as they scattered wildly.

Motor traffic virtually was at a standstill, only cars belonging to the consulates, doctors, first aid detachments and newspaper men being allowed to proceed unimpeded.

Strikers manned trenches dug across main roads leading into the city and travelers had to come by side roads. Telephone and telegraph service still was interrupted. The movement spread to outlying towns.

The origin of the present trouble was in a refusal of the agricultural demand for release of prisoners held in the local jail and for dismissal of the civil governor.

The general strike followed.

## Jellicoe Laments Inadequate Naval Power Of England

TORONTO, Ont., Sept. 5.—(A.P.)—Earl Jellicoe, admiral of the British fleet, last night declared Great Britain's cruiser and destroyer strength is becoming "totally inadequate."

The British naval head warned that the security provided by the English fleet has been sacrificed for the ideal of disarmament. He spoke at a dinner given him by the navy league of Canada.

"We have an example in disarmament which no other nation has followed," Lord Jellicoe said. "We have not only dropped our navy but done nothing for our coast fortifications. The example may be laudable, but it involves the greatest possible risk."

"We all hope the will to war has gone, but the will to fight has not gone from this world. One has only to look at such things as general strikes to understand that."

Lord Jellicoe in 1920 submitted a report to Canada's navy for naval defense which he said was "expedited" the following year the Washington conference when Great Britain agreed to naval parity with the United States.

"At Ottawa," Lord Jellicoe continued, "we thought the total for cruiser and destroyer tonnage suggested to us by the United States was totally inadequate. We considered, then as now, that we cannot safely have less than 700,000 tons."

HEAT HITS NORTHWEST

KANSAS CITY, Sept. 5.—(A.P.)—A mid-summer heat wave with temperatures soaring above 100 in some points in Kansas and Oklahoma reminded the South-west today that fall has not yet arrived. Hot weather was ideal for holiday outings but made the fall styles in clothing a bit premature.

CRESTVIEW—Julia Bjorklund and Grady Garrett opening general grocery store.

## NO, HER MOTHER DOESN'T WORRY

This youngster, Aruth Donadonovic, of Los Angeles, takes great delight in playing with a baby leopard. And Mrs. Donadonovic, her mother, doesn't fret. The mother, you see, happens to be an animal trainer. She has trained the leopard to be a safe companion for her child.

## DRIVING CAR ON DRY AGENTS TOLD RIM DRAWS FINE NOT TO DRINK TO OF TEN DOLLARS OBTAIN EVIDENCE

### Chief Says He Plans To Wage Campaign To Preserve Roads

SANFORD, Sept. 5.—(A.P.)—Federal prohibition agents yesterday were forbidden to drink intoxicants as a means of obtaining evidence.

Director Woodcock of the prohibition bureau, in a lengthy letter to all members of the federal dry army, said it was better to proceed against speakeasies by cutting off their supply, not that in any event drinking by agents to avert suspicion was "the old method."

When it was necessary to act against the speakeasy directly, he said, it was preferable to advance by the method of purchase of the drug, not by consumption.

"I strongly recommend to you for use a certain type of speakeasy," he said. "The method of immediate arrest after purchase. This method is certain and direct. It eliminates the necessity for consuming intoxicating liquor and it is followed by careful intensive investigation in order to lead to the disclosure of the rest parties in interest."

In compliance the federal dry chief went in round for almost the first time in saying "we are loathly warning this night against the commercial trafficker in intoxicants."

(Continued on Page Five)

## Farm Club Meeting Has Been Postponed

Charles R. Dawson, director of vocational agriculture at the Osceola High School, and supervisory of programs given before members of the Osceola Agricultural Club, announced this morning that the regular meeting of the club, scheduled for Monday night, has been postponed for one week.

A further discussion of fertilizer and cover crops is expected to occupy the attention of the farmers at that meeting, he said, and it is hoped to secure a prominent state speaker to appear before the club.

## Probe Continues Into Third Degree Method

WASHINGTON, Sept. 5.—(A.P.)—A dozen special agents of the department of justice's bureau investigation today began a widespread inquiry into the reported use of third degree methods of Washington police in obtaining confessions.

Five policemen were indicted yesterday on charges of assault in connection with the alleged use of third degree methods. They will be arraigned in the district supreme court next Friday. Witnesses and evidence are being sought in approximately 25 cases in which charges are understood to name policemen in every precinct in the city.

## GREEN OFFERS PLAN TO SOLVE JOBLESS MESS

### Suggestion Will Be Offered Commission Now Studying Methods To Get Relief

WASHINGTON, Sept. 5.—(A.P.)—A plan for solving the unemployment problem by allotting a proportional quota of the public works to each industry will be advanced yesterday by William Green, president of the American Federation of Labor.

The plan will be presented by the labor leader to the committee of President Hoover's unemployment relief organization which is studying methods of creating work for the unemployed.

"The best relief that can be offered an unemployed person is a job," Green said. "The only way to immediately provide jobs for the unemployed is to get the cooperation of those who control the putting into effect a general plan of a national scale."

"Those who control the supply of money and their banks, the employers and the workers who must work under the plan agreed upon."

"A conference of representatives of such groups called by the president of the United States should determine the general plan and allot to each industry its quota of unemployed. Each industry would then be urged to do its part. Such a method would abolish the majority of the unemployment."

"There would, of course, be no connection with such a plan. This expense should be balanced against the funds that would otherwise have to go into relief of the unemployed, did not get work and against the cost of a business depression."

"The method of allotting the unemployed would give them the right to work in their own field. It is a productive investment of capital whereas capital spent in relief is not consumed due to it."

"If every industry will take its quota of the unemployed, reduce the work week for all while maintaining wage rates, our united industries will pull us up to the level of better business."

Green has sought to have President Hoover call a conference of industrialists and labor leaders to discuss his plan. In case such a conference is not called, he will announce his proposal to the president's committee of the president's organization.

This committee, headed by Harry A. Wheeler, of Chicago, is composed of industrialists, economists and labor leaders.

Another member was added yesterday to the advisory committee set up by President Hoover to aid Walter S. Gifford, national relief director. The new member is E. W. Lane, president of the Atlantic National Bank, Jacksonville, Fla. Lane may also be designated as a member of the third committee now being formed by Gifford to coordinate administration of relief to the unemployed in local communities.

President Hoover announced yesterday Governor Buck had assured him Delaware would provide relief for its own unemployed this winter, making a total of six governors who have given such pledges.

## Planes Fly To Bomb Revolt Chile Navy

SANTIAGO, Chile, Sept. 5.—(A.P.)—Bombing planes took off from naval bases along the coast between Talcahuano and Coquimbo today to bomb ships of the battle fleet in the hands of rebel crews. They were ordered out after rebels had defied an ultimatum calling upon them to surrender.

Meanwhile federal forces occupied coast defenses and stationed troops to protect foreign holdings. A guard was placed on the fuel oil base owned by the American Copper Company of Talcahuano but thus far no Americans have been injured and no American property damaged.

The government today disclosed it had learned the whereabouts of the rebels until one A. M. to comply, and then 20 minutes grace before the planes were ordered out to attack the fleet from the air.

FORT MYERS—New \$100,000 bank plan of Gulf Building Co. located at Dean and Bay streets, formally opened.

## New Slant On I.C.C. Ruling Shows Jump In Freight Rates

### SANFORD MAN IS VICTIM RECENTLY OF ROAD HOLD-UP

### T. J. Mailer Is Robbed Of 52 Dollars By 2 Negro Stick-Up Men

As the result of a daring hold-up on the Kalamoosie-Orlando highway at about 10 o'clock last Thursday night, Captain T. J. Mailer, master of the pleasure yacht "Soudan," operating from this city, is today minus \$52.00 in cash, a set of automobile tools, and a tire pump, and two negroes believed wanted for a series of robberies in Florida and Georgia, are being sought by authorities in every city in this section.

Captain Mailer, returning from a business trip to Kalamoosie, Fla., was driving his automobile toward Orlando when it suddenly stopped, about a mile and a half from the nearest filling station. While he was seeking the trouble, an automobile approached, slowly passed him, and stopped a short distance ahead of his car.

Captain Mailer looked up to see two well dressed negro men coming toward him, asking if they could be of assistance. Told that the trouble was apparently in the motor, one of the negroes made as if to look under the hood of the automobile. As he turned away, Captain Mailer also turned around to feel the barrel of a pistol against his chest.

The other negro asked him how much money he had, ordered him to hand it over, searched the car and removed the tools, and then, as Captain Mailer stood by helplessly, the negro tried to start the Mailer's car. Unsuccessful, the negroes ordered Captain Mailer to hold his hands in the air, backed down the road, entered his car, a new Chevrolet sedan bearing a Georgia license, and drove away in the direction of Orlando.

The robbery victim set out at once for the nearest filling station, telephoned authorities in Orlando and Kalamoosie and then reported his automobile and proceeded to Sanford.

Chief of Police Roy G. Williams said today that the negroes' description as told by Captain Mailer, corresponded exactly with those of a pair of negroes known to have stolen automobiles in Georgia.

Captain Mailer said that he would be able to identify the negroes if they were apprehended. They were both well dressed. One of them was tall, yellow, and weighed about 200 pounds, wearing a white suit. The other was short and very black.

The petition is signed by the following: Mr. and Mrs. Ernest Lagunquist, Mr. R. Brown, Harry Carrington, Fred Koenig, Mr. and Mrs. R. L. Heston, Ned A. White, Carl Anderson, C. A. Johnson, C. B. Buchanan, A. B. Johnson, J. B. Brown, Mr. and Mrs. H. B. Fennell, Mrs. Heston, R. L. White, J. W. Fenton, E. L. Humphrey, Mr. and Mrs. Fred Butler, Mr. and Mrs. J. H. Hunt, Mr. and Mrs. R. C. Hughes, A. A. Silvey, Mr. and Mrs. J. A. Pechman, Otis Pechman, G. E. Wilson, Mrs. Len Glasgow, Mr. and Mrs. F. Kemp, W. P. Kemp, E. M. Heston, E. Q. Heston, Mrs. L. Q. Heston, R. T. Wood, Wm. Hargrave, and R. M. Bell.

## Lake Mary People Will Seek Relief On Road Condition

Residents of Lake Mary are having trouble with their automobiles in heavy rain in this section during the past few days. Seeking relief, a delegation of the residents will go before the County Commissioners next Tuesday morning bearing a petition signed by nearly 60 persons, asking that a road beginning at the corner of Third Street and Central Lake Avenue running west to Lake Mary boulevard finally to the Lake Mary Longwood road, be drained, graded, and improved so that water will not stand on it at its depth at present, making it impassable during rain seasons.

The petition is signed by the following: Mr. and Mrs. Ernest Lagunquist, Mr. R. Brown, Harry Carrington, Fred Koenig, Mr. and Mrs. R. L. Heston, Ned A. White, Carl Anderson, C. A. Johnson, C. B. Buchanan, A. B. Johnson, J. B. Brown, Mr. and Mrs. H. B. Fennell, Mrs. Heston, R. L. White, J. W. Fenton, E. L. Humphrey, Mr. and Mrs. Fred Butler, Mr. and Mrs. J. H. Hunt, Mr. and Mrs. R. C. Hughes, A. A. Silvey, Mr. and Mrs. J. A. Pechman, Otis Pechman, G. E. Wilson, Mrs. Len Glasgow, Mr. and Mrs. F. Kemp, W. P. Kemp, E. M. Heston, E. Q. Heston, Mrs. L. Q. Heston, R. T. Wood, Wm. Hargrave, and R. M. Bell.

## Relations Become Strained Between Japan And Chinese

TOKYO, Sept. 5.—(A.P.)—Relations between Japan and China were strained today because of the asserted execution by Chinese troops of Capt. Shintaro Nambu as a spy in Manchuria a month ago, and other anti-Japanese acts.

Newspapers asserted the war department was resolved to take "certain resolute steps" unless the Nambu case was satisfactorily settled. The Asahi said Japanese war officials "might resort to force," and the Nishi-Nishi declared they might decide upon troop concentration somewhere in Manchuria.

Gen. Jiro Mizumi, minister of arms, told the cabinet the Japanese government should take a firm stand. He denounced failure of the Chinese government to reply to the Japanese protest against the shooting of Nambu.

A firing squad of Chinese troops, the war office asserted, shot Nambu, another Japanese, a Manchurian and a Russian on a plain, although they held certificates from Chinese officials permitting them to make maps in Manchuria and Mongolia.

Protesting against the execution, the Japanese foreign office two weeks ago sent a demand for an explanation to Tsung Tsi-chang, Manchian provincial government head. Tsung asked time for further investigation.

## Sanford Farmers Are Expected To Pay Average Increase Of \$35 Per Car Celery

That the recent revision of freight rates as announced by the Interstate Commerce Commission a few weeks ago will have the effect of increasing freight rates on Sanford celery to northern points, instead of lowering them as was at first reported, was revealed today by J. K. Watson, traffic manager of the American Fruit growers who this morning released a statement in which it is declared that the average increase in freight rates on each car of celery from Sanford to the markets which take the bulk of the Florida celery crop will be approximately \$35.00 per car.

It was further pointed out by Mr. Watson that the Executive Committee of the Interstate Commerce Commission, which is handling the case by the growers, has decided to file a petition with the Interstate Commerce Commission requesting a rehearing on the celery rates.

Mr. Watson's statement in full is as follows:

Sanford, Florida, Sept. 4, 1931.

"The recent decision of the Interstate Commerce Commission in the case of the Interstate Celery Case (ICC Docket 1032) is unfavorable to celery, potato, eggplant, sweet corn and certain other heavy weighted commodities. Celery is adversely affected most."

**OH YEAH?**

By PETER SCHAAL

The Feds caught the once again leading Islanders unaware yesterday, and aided by plenty of rain which made a wet ball hard to handle, they whipped the visitors 7 to 1. Bill Strickland was poison, holding the enemy to five hits, three of them scratch hits too. The Feds got 11 blows, including doubles by Martin, Pittman, and Strickland, and a triple by Reed, with two on. Four Sanford errors in the first inning gave the Islanders their only run. The two teams meet again at Daytona Sunday, and Hutto will get the call to stop the Feds.

The Cocoa Indians lambasted the Saints all over the lot in winning 16 to 2. Joiner gave up eight hits, while the Indians got 12 off B. Williams, and B. Wolfe. As a result of their hitting spree, the Indians jumped from a 283 mark in batting standings to a 302, 10 points back of DeLand. The Indians got six doubles, and four triples, with Murdock getting four hits in four tries, and Provoet and Culbreth four each in five tries.

A downpour of rain at DeLand halted their game between themselves and Winter Park in the sixth inning, so the score reverted to the fifth, and DeLand won, 6 to 4. They scored all their runs in the fourth on six hits and three errors. Yochem was the victim, and Cal Dennis, the former Fed, had to come in and stop the rally.

Here's how the clubs are batting this afternoon:

Club	G	AB	R	H	Ave.
DeLand	16	558	85	174	.312
Cocoa	16	549	94	160	.302
Sanford	15	534	65	133	.249
St. A.	16	514	67	125	.243
Daytona	16	515	48	115	.228
Winter Park	15	489	47	99	.203

And here's how the batting leaders are making out, the Big Twelve, in other words:

Player and Club	G	AB	R	H	Ave.
Shannon, DeL.	16	63	11	37	.429
Murdock, Cocoa	16	63	14	31	.396
Martin, Sanford	15	67	14	26	.388
Culbreth, Cocoa	15	39	8	15	.384
Phillips, DeLand	16	68	12	24	.353
Wilkes, DeLand	16	67	13	22	.328
Prine, Cocoa	16	64	14	21	.324
Hutto, Daytona	14	41	7	13	.317
Pittman, Sanford	15	57	8	18	.316
Roberson, Del.	16	61	8	19	.311
McGowan, D.	15	45	6	14	.311
Headley, Cocoa	15	54	5	16	.296

Now, in the Big Show, the Reds slipped it to the Cubs for the fourth straight day, sending them to within half a game of fourth place. Carroll had the best of Pat Malone, and, aided by Roush's double in the 10th, sent the Cubs 3 to 2. It's the first time in years that the Reds have swept four straight games from the Cubs and there is much weeping and wailing in Capeville today. Crabtree hit a homer for the Reds to tie the score in the seventh, while the Reds got nine hits to the seven made by the Cubs.

The Pirates stopped the Cards cold, winning 6 to 4 when they thumped Grimes, Lindsey and Rhem for 11 hits. Piet, the new Pirate second sacker, led the attack, getting three hits. Frisch got three of the 10 Cardinal hits of French and Osborn. As a result of the win the Pirates went into fifth place.

A six run attack on Weiland and Garland of the White Sox, was a big aid in the Tigers' ultimate win by a 9 to 3 score. Reynolds hit a homer for the Sox, but, although they got eight hits, one less than the Tigers, they couldn't do a thing with them. Herring pitched fine ball for the winners.

Schultz and Mellis, whose big bats have combined lots of times this year to punch out wins for the Browns, turned the trick again yesterday when they whipped the Indians by a 11 to 3 score. Mellis got four for five, including a double with the bases loaded, and scored in five runs. Schultz got a homer, double and single, and scored four times himself, and drove in a run. Brown and Jabrowski were the victims of the

**DAYTONA BEATEN BY CELERY FEDS BY 7 TO 1 SCORE**

Visitors' Run Comes In Opening Inning; Roy Harrison Stars

By E. H. Cullum  
Staging a rally in the seventh inning yesterday afternoon, knocking Lefty Lane out of the box, the Celery Feds defeated the Daytona Beach Islanders 7 to 1 in one of the prettiest contests staged this season.

Daytona's only run came in the first inning. After Baker and Appagar had been retired, Pellier hit one to first, Peters got the ball, but his throw to Strickland, who had gone over to first to cover the play, was wild and Pellier was safe. Pellier stole second and third and came in home on a passed ball. From then on, while the Islanders got men as far as third several times, Strickland bore down and the Islanders couldn't produce the punch to bring them in.

Lane started for Daytona and for six innings pitched at tight ball. The Celery Feds put over one run in the second inning, tying the score. Pittman opened the inning with a single to right field. Reed fouled out; Higgins hit to second base and fumbled the ball, Higgins safe at first. Pittman going to second; Peters hit to deep center, good for two bases, Pittman scoring. Higgins going to third; Higgins caught off the id for the second out and Harrison fled out to center to end the inning.

Roy Harrison was the fielding star for the Feds. In the third inning he went back into deep right field and made a sensational catch of Hutto's line drive that saved at least one and possibly more runs. In the fourth inning Harrison made a perfect peg to third which resulted in a double-play Harrison to Higgins to Martin, retiring both O'Brien and McGowan on the play. Martin and Peters led the hitting for the Feds, each securing two hits out of four times up.

Umpires, Masters and Spencer.

Brownie attack, while Coffman limited the Indians to nine hits, none dangerous.

**INDIGESTION**

Take a Pinch of Black-Draught After Meals

If bothered with indigestion after meals, try taking a pinch of Black-Draught after you leave the table. Many people do this to avoid indigestion. Mrs. H. A. Goff writes from Sherman, Texas to say: "I suffered with indigestion a full year ago. I would eat most of my meals, but my food digested very poorly. I took a pinch of Black-Draught after each meal. I soon found that my food digested much better. I soon learned to eat much better. Since then, my health has been improved."

Sold at drug stores.

**Junior Boys Beat Girls' Team 14 To 6 At Diamond Ball**

By E. H. CULLUM  
The Junior boys diamond ball team defeated the Girls team 14 to 6 last night in one of the most exciting games this year, the game going into extra innings on account of its being tied up at the end of the regulation number of innings.

Rabin, for the boys, pitched an excellent game, holding the girls team scoreless with the exception of the 3rd and 7th innings, the girls putting over 4 runs in the third and two in the seventh.

In order to ascertain the playing strength of the girls, selected to enter the St. Petersburg tournament, every girl on the tournament lineup was put into the game. This naturally handicapped the girls to some extent. However, up to the eighth inning they compelled the boys to fight hard for everything they got.

The writer wishes to express the appreciation of the entire girls team for the noble response from the fans for funds to pay the expenses to and from St. Petersburg, a little over \$40.00 being contributed, and the people of Sanford can rest assured that the girls team will be fighting all the way in St. Pete next Monday to bring back the State Championship. When it is realized that the Sanford team, in point of organization, is the youngest team in the state to enter the tournament, it will be quite an honor to Sanford for them to come through, and from the way the girls have been playing there should be no doubt but when the last out is made in the last game, the Sanford Girls team will be the state champions of Florida.

## Well, That's Pretty Hot

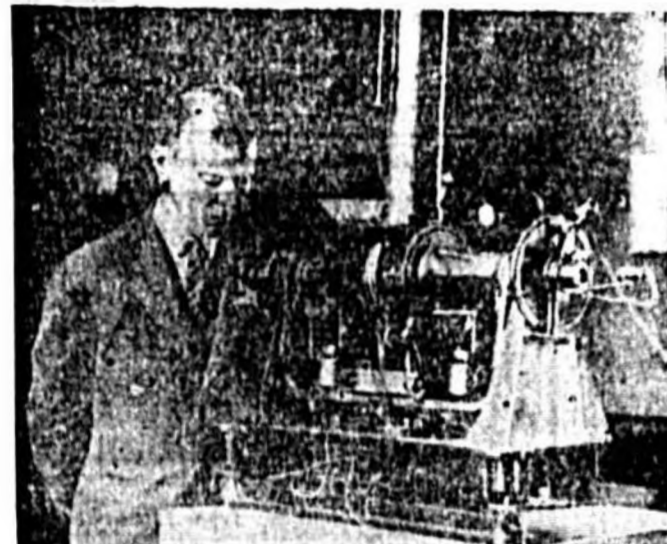

**LOS ANGELES**—A heat of 4,500 degrees centigrade, intense enough to melt any known substance or to turn a thousand into vapor, is expected by scientists at the California Institute of Technology in Pasadena, Cal., from this solar furnace of a new design. Consisting of a mounting which automatically follows the path of the sun and containing 19 lenses, each of which focuses its image of the sun on a central point within the furnace, the furnace is expected to produce 50 per cent of the sun's heat more than can be obtained by any mechanical means yet perfected. Here is a sketch of the model of the solar furnace. Demonstration by Robert C. Wherry.

## Ready for Spring Dance in Tokyo

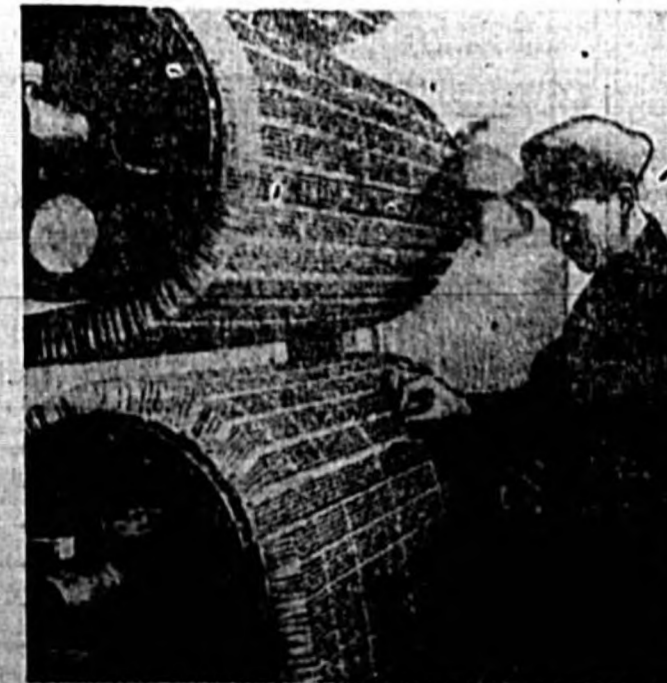

**TOKYO**—The two gentlemen you see standing between the rows of pretty Japanese girls are the Danish knight and the Portuguese. Masters in Tokyo pictured when they visited last stage of the city's new festival. The girls are shown in the costumes they wore in the Tokyo Odori, otherwise Tokyo's Dance of Spring. The girls and the costumes were a blending of ultra-modern and ancient, typical of the Japan of today.

## World's Youngest Doctor of Science

**COPENHAGEN**—The famous astronomer, Dr. Bengt Strömberg, Denmark's and probably the world's youngest doctor of Science, is pictured above. Dr. Strömberg became a Bachelor of Arts at 17 and earned his doctor's degree at 22. He was married recently.

## Putting Heads on Matches

**LENINGRAD**—You are sure this photograph is uninteresting because "who wants to look at brushes?" Come closer, study the picture carefully and you will see that what appears to be brushes are sticks of wood cut in standard lengths. Being hot already, in the picture you see what appears like one thing, but in reality, a workman in the "Proletarian Dancer" mill in this city, putting heads on matches.

## Heflin Election Contest Hard on Mailman

**WASHINGTON**—Harrison W. Smith, left, chief supervisor of the Heflin-Bankhead election contest, and Senator Daniel O. Hastings of Indiana, chairman of the Senate subcommittee on elections, examining the enormous pile of ballots received in Washington as a result of the contest between Senator-elect John H. Bankhead and J. T. Heflin, of Alabama.

## Romance Strikes the Midget World

**NEW YORK**—Here you see Eddie Flear, bird-smooth, Jack Landrus, groom; Reverend J. Earl Enders, Lacy Harrington, bride, and Dudley D. Lee, the best man, as the couple were married on the stage of a New York theater in full view of the audience. The bride and groom are stage people and they thought their wedding would make some "act."

## Air Force Off for Bagdad

**LONDON**—King George VI has decided to have a jet plane available and on part of his army, and now you see a 200-horsepower engine provided the King of six new planes, bought by the King, from London to Bagdad. Lieutenant Carter, designer of 1934 jet airplane, the mascot to the plane for latter pilot. Flight Lieutenant Carter will be attached to the Iraq government for three years.

## Stork Visits Byrd Expedition Veteran

**WASHINGTON**—Maggie, one of the original babies that accompanied the Byrd expedition to the South Pole, and now living aboard the City of New York, the Admiral's sturdy flagship, is receiving congratulations on the birth of eight puppies. Here you see Maggie proudly exhibiting her progeny to John Byrd, a member of the crew of the City of New York.

## Principals in Brilliant Wedding

**WASHINGTON**—Count Bela Hadik, descendant of a long line of Hungarian noblemen, photographed leaving fashionable St. Matthews Church in Washington with his attractive bride, the former Miss Alice Roosevelt, daughter of Count and Countess Lucie Roosevelt, the former Hungarian Minister to the United States, after one of the most brilliant weddings of this season. Countess Hadik is the granddaughter of the late Cornelius Vanderbilt.

## Tree Goes Fence Walking

**LONDON**—The hundred-year effort of a tree near Dudley, England, has caused the front garden railing of the old Purway School to become suspended from the wall to which it was first affixed. Despite this fact the railing remains firm and substantial, thanks to the support of the tree, which still flowers every Spring.

## Passes Century Mark Democratic Leader

**MAYWOOD, Ill.**—Frederick W. Seymour, III, has just celebrated his 100th birthday. This G. A. R. veteran, the oldest in the state, carried the colors for Gen. Sherman on his famous march to the sea in the Civil War. He then worked for a railway company until 1904, when he retired. He received congratulatory messages from many national figures, including President Hoover.

**BALTIMORE**—Latest portrait study of Governor Albert Cahill Ritchie, of Maryland, United Democratic leader, who has been mentioned favorably as a strong possible Presidential candidate in the 1932 election. This strong character study of the Maryland executive was personally selected and approved for publication by him.

## As Tallest Hotel Goes Skyward

**NEW YORK**—Iron workers erecting the scaffolding which will be used to construct the two huge bronze and glass enclosed beacon lanterns, which will surmount the twin towers of the new Waldorf-Astoria, the world's tallest hotel. The picture also shows exclusive Sutton Place, Queensboro Bridge and the East River, with Long Island in the distance.

Man, Believed Dead, Declares He Was Kidnaped

(Continued from Page One) affidavits for use in investigating the company for which he had worked.

The lieutenant inspector said Wemyss told him several attempts on his life were made after he had turned over the affidavits to the government.

At one time, according to Wemyss' story, an automobile almost knocked him down in the middle of a street and on another occasion a man whom he said he later recognized as one of his kidnapers almost crashed into him with a speedboat while he was swimming.

"On August 25," Dorsey quoted Wemyss as saying, "I was swimming at the I. Street Beach in Boston when I noticed the man who had been in the speedboat that almost ran me down."

"Suddenly I felt something like an explosion right near my head. When I next came to I was on a boat. The man who had been in the speedboat incident and an older man whom I did not recognize were with me."

"One of them said 'Here, buddy, you've been in a bad accident, better take a little drink,'" and handed me a bottle.

"I lost consciousness again and when I next awoke, I found myself in the cellar of a small house which I later guessed to be some where on Long Island but just where I don't know."

"I had lost my teeth and the men fed me nothing but soup. They tried to make me sign a suicide note saying that the affidavits were false and that nobody would see me any more. They said they would give me \$25,000 and that I could go to Ireland to live and use another name for the rest of my life."

"I refused to do that. Wednesday afternoon, they gave me some coffee. It tasted funny so I didn't drink more than a sip. I poured the rest out and feigned sleep."

"Then I heard a row going on upstairs. I heard the older man say, 'Well, if he won't sign, we'll kill him and put him back where we found him.' But the other man said, 'Nothing doing, I don't go in for that.'"

"They began to call each other 'yellow' and other names. I heard them scuffle as if they were fighting with their fists. I saw my opportunity and jumped out of the nearest window."

The police of Nassau County did not detain Wemyss.

One Man Is Killed As Rum Boat Flees

GLOUCESTER, Mass., Sept. 5. (A.P.)—One man was killed, two others were arrested and a speedboat carrying 400 cases of liquor were seized today by coast guardsmen after a chase outside the harbor here. Joseph Mello, 39, New Bedford, was shot in the back when several volleys were fired at the fleeing runner.

Boatswain Mate Roy Fitzgibbon in charge of the racket boat said warning shots were ignored by the runner and when the fire was trained on the craft, it swung about.

RUSTIS—Bids asked for rebuilding Arborio building into modern hotel, estimated to cost \$75,000.

GIANT AIRSHIP NEARS COMPLETION

Steady progress is being made in finishing the outer cover on the giant Navy airship, Akron, being built at Akron, Ohio. This picture shows the control car, projecting below the streamlines of the loamy hull.

DOOLITTLE IS MAKER OF NEW SPEED RECORD

(Continued from Page One) ark airport as Doolittle's tiny green and orange machine tore out of the west and taxied up to within a few feet of the spectators.

Both the plane and the pilot showed effects of the long flight. The sides of the plane were streaked with oil that had splattered from the motor. Doolittle appeared greatly fatigued.

Doolittle explained in discussing his time that he had not been benefited by the wind. He said he encountered as much headwind as tailwind. He had been on the ground less than one hour when he climbed into the cockpit. During that time he had been on the ground every minute.

As his propeller was being spun he was asked if he thought aviation benefited by air races such as are being held at Cleveland. He replied:

"Anything we can learn from racing tends to help us to build better military and commercial planes."

Doolittle made three refueling stops on the way from Burbank to Newark, at Alton, Mo., Kansas City, Mo., Cleveland, taking on 140 gallons of gasoline each time.

He took off to return to Cleveland at 4:50 P. M. His reason for continuing to St. Louis last night, he explained, was that he had arranged to fly a group of passengers from St. Louis to the Cleveland air races this morning.

Doolittle was followed across the finish line in the Bendix race at Cleveland by Harold S. Johnson of Chicago and Beel R. Helms of Atlanta, who were awarded second and third prizes respectively.

Helms received a bronze plaque and \$3000 cash.

CLEVELAND, Sept. 5. (A.P.)—Jimmy Doolittle, pilot of the trans-continental speed record, "sped back to Cleveland tonight to receive the acclaim of the

Dry Agents Told Not To Drink To Obtain Evidence

(Continued from Page One) toxicating liquor." He added that no one in the prohibition bureau "has any reason to be discouraged."

"One little bit of effort more on the part of all of us," he said, "will make victory assured."

Woodcock plans to sail from New York for Miami, this noon to continue his inspection of the south, thus completing his circuit of every state in the union in the year, he has been in office. His letter was made public here upon telephoned orders from his Salisbury, Md., home.

The letter recommended increased use of the injunction against speakeasies as a powerful and easily applied weapon. Woodcock said the "basic strategy" of his use was that it brought the property owner "to the side of law, order and decency."

Although a saying that he believed it was no longer necessary for agents to consume intoxicating liquor, Woodcock added "it is conceivable that there are still places in some districts where the older method will be necessary. If such places exist, administrators are authorized to give special permission in order to give agents to consume intoxicating liquor upon the premises, but the permission must be given in advance for each particular place before any agent in this service will be permitted to consume intoxicating liquor."

In further recommending the method of immediate arrest after purchase, he pointed out it removed all doubt as to the identity of the seller and the delay and circumlocution of the search warrant system.

Woodcock said he would meet Administrator R. E. Tittle on Tuesday following his arrival at Miami, and would, he later at Pensacola and Jacksonville. The commander of his itinerary, he said, will be arranged by Tittle.

WASHINGTON, Sept. 5. (A.P.)—The weather bureau today issued the following storm warning: "Advisory 10:00 A. M. tropical disturbance of slight intensity is apparently moving west northward over the Caribbean Sea with its center some distance southeast of Isle of Pines."

STORM GOES WEST  
WASHINGTON, Sept. 5. (A.P.)—The weather bureau today issued the following storm warning: "Advisory 10:00 A. M. tropical disturbance of slight intensity is apparently moving west northward over the Caribbean Sea with its center some distance southeast of Isle of Pines."

NEWSPAPER SUSPENDS  
BIRMINGHAM, Ala., Sept. 5. (A.P.)—The Birmingham Independent, a morning newspaper, established here two months ago, suspended publication yesterday. A front page editorial signed by F. H. Gibson, editor, said the suspension was made because of one of inadequate operating capital.

ENGAGEMENT ANNOUNCED  
NEW YORK, Sept. 5. (A.P.)—The engagement of Cornelius Vanderbilt (Sammy) Whitney to Mrs. Gladys Crosby Hopkins, of Stafford, Pa., and New York, is announced.
