Heartening news comes from Florida. The people are turning from real estate to land. The plow is replacing the subdivision stake. True prosperity depends not upon inflation of land values, but upon production. The state is getting back into production. Florida took a gallant step when she banished the 'binder oovs' and other real estate sharpers from her borders. It stopped soaring prices, but it restored the confidence of the nation in Florida's good faith. And now the state goes back to fundamentals. Instead of placing exorbitant values on idle land, the people are extracting real values from active land. The state has unique advantages, not only as a resort place but as a producer of essentials. Florida has a great future.

PONTIAC SI

The Pontiac Six is scoring themost spectacular first year success ever recorded in automotive history-because it meets the driving conditions of today like no other car in the world at its price.

Without an excess ounce of bulkwithout an unncessary inch in length, it is ideally suited to the congested highways of today. Having the largest engine of any six costing less than \$1,000, it flashes swiftly through congested traffic; and so sturdily is it constructed that it can be held at top

speed for as many continuous hours as the driver likes.

Yet despite its highly desirable external compactness, the Pontisc Six is a supremely comfortable car. Step into the Pontiac Six Sedan. Note its roominess. Mark well the wide, inviting seats and ample leg room.

Then remember, that with all its luxurious provisions for comfort, the Pontiac Six turns in a 38 foot circleand that it can be quickly and easily parked in places too small for other cars of equal passenger capacity.

Oakland Six, Companion to Punting Six-\$1025 to \$1295. All prices at factors. Easy to have in the liberal Unional Moore Time Payment Plan.

Paige welcomes your strictest comparisons of the newest and finest Paige with any or every other car. For Paige believes that you simply cannot duplicate the performance, appearance or sheer downright dollar-for-dollar value of these latest Paige cars at anywhere near their amazingly low prices.

The newest Paige cars sell for nearly a thousand dollars less than last year's Paige models. And they do it because Paige is building and selling five times as many cars this year as last. Indeed, Paige sales throughout America registered a months of 1926.

But even the new low prices of these Paige cars will not delight you as much as the wonderful performance they display. They are speedy cars, powerful cars, economical cars. Acceleration is instantaneous, while the slightest pressure on their Paige-Hydraulic 4-Wheel brakes bring them to cushioned rest immediately. They are the easiest cars in the world to handle in traffic.

SANFORD GROVE

"Amid Majestic Pines"

Fortunately for those who have purchased Sanford property at reasonable prices there is no embarrassment. Those who have shown their faith in Sanford Grove have been amply rewarded.

Not only has the price of most of Sanford Grove lots increased, but the near future will see such a demand for property in this exclusive section of Sanford that those who buy now will certainly be favored with good returns upon their investments.
