# ODHAM & TUDOR

*Eleven Months ago this month...*

The impressive panorama of homes pictured in the above aerial view was a tangle of palmetto, scrub oak and pine. The land was cleared then all modern city conveniences installed—sewers, water, electricity and paved streets. Soon, as if by magic, modern Florida homes appeared until now, just 11 months later, 108 families live in this beautiful community.

# SOUTH PINECREST

**WE ARE PROUD**

THAT WE HAVE BEEN ABLE TO BUILD AND SELL MORE HOMES IN SANFORD IN THE LAST 11 MONTHS THAN ALL OTHER BUILDERS COMBINED. WE FEEL THERE ARE SEVERAL IMPORTANT REASONS FOR THIS:

We are interested in building you a home — not just a house. So we carefully selected our architects who would design individual homes. Each home designed to take full advantage of Florida climate and weather.

Our homes have twice the usual amount of windows for better light and ventilation. Each of our homes have long roof eaves to allow your windows to remain open during light summer showers.

Our floors are all of marble terrazzo, life time floors, no rot warping, no termite damage to be concerned about

HAVE YOU SEEN SOUTH PINECREST LATELY?  
WHY NOT DRIVE OUT?

from **\$11,000** to **\$15,000**

All roads are 8 ply built up with asphalt and marble chips. Throughout each home we have used only the best workmanship and best materials.

Our financing plan is the best. We offer V. A.—F. H. A. and Conventional Financing.

We know how to qualify our buyers without delay. In 30 minutes we can tell you yes or no... if your answer is yes you can move in while we process the papers.

For 1 year we fully guarantee you that any defects, major or minor that occur in your home will be corrected at our expense.

Don't take our word for this, ask our home owners. They are our best sellers.

We sincerely believe we are offering the best dollar buy in home values today. We invite you to compare our homes with all others.

## Budget Addition To Raise Millage

### Officials On Alert To Keep Traffic Accidents Down

Local law enforcement officials are on the alert to keep down traffic deaths and injuries, as well as property damage, in Seminole County.

The Florida Highway Patrol, represented in Seminole County by Trooper T. Mark Mack and Patrolman Carl Williams are patrolling the county's highways watching for reckless holiday drivers who endanger the lives of others.

Also alerted to keep down traffic violations and prevent the wanton loss of life and property are the corps of deputies under the direction of Seminole County Sheriff Denver Cordell.

In Sanford, the Sanford Police Department has received instructions from Police Chief Roy G. Williams to watch for reckless drivers through the city.

Over the nation, the picture reveals that the number of traffic deaths and drawings appeared to be running about even in the first hours of the nation's observance of Independence Day.

The traffic toll since 8 p.m. local time yesterday was 19 deaths in the same period 8 drawings were reported. Three persons lost their lives in miscellaneous types of accidents.

With millions of motorists heading for outings in resort areas, the National Safety Council has estimated 180 persons will be killed in automobile accidents. However, the council said strict enforcement could hold the toll for the 36-hour holiday period ending at midnight to 50, a normal figure for a Wednesday in early July.

On the one-day Memorial Day holiday, also on a Wednesday there were 100 traffic deaths, 33 drawings and 23 deaths from miscellaneous causes. The only other one-day Fourth of July observance since World War II was in 1951 and there were 106 traffic fatalities.

The Associated Press, for comparative purposes, made a nationwide survey of traffic deaths in the 26-hour period from 8 a.m. June 19 to midnight June 20. The death toll was 66 traffic, 31 drawings and 21 in miscellaneous accidents.

Last year July 4 was on a Monday and the holiday was extended over the weekend. There were 308 violent deaths, the biggest recent holiday death toll in U.S. history. Included were 67 traffic, 251 drawings and 147 from miscellaneous causes. One death was attributed directly to fireworks.

### General Sanford Library Group Reports Progress

Members of the General Sanford Memorial Library and Museum Association appeared yesterday before the Board of Seminole County Commissioners to report the progress of their present building program and ask for a continuing appropriation to complete the plans originally set out for the memorial.

General J. C. Hutchison and Randall Chase were spokesmen for the nine-member group appealing to the Board of Commissioners for additional funds.

Randall Chase reported that the present one-room building is nearly complete at a cost of approximately \$17,500 with the funds derived from both the City of Sanford and Seminole County along with individual contributions.

"It will soon be ready for the books, papers and other items from the General Sanford Library," said Chase.

General Hutchison told the commissioners: "There is a lot of feeling among the members of our association that we should continue the building as originally planned."

"The Association feels we cannot go ahead unless the City of Sanford and Seminole County share the bulk of the expense," he said.

General Hutchison informed the commissioners that a revised plan of the building would permit the construction of additional rooms at a cost of between \$5 and \$6 thousand dollars.

The committee asks that you

## Vaccine Shots Urged

Parents are strongly urged to contact their physician or the local Health Unit immediately to secure inoculations of the Salk Polio vaccine for their children.

The local Health Unit, on Palmto Ave., next to the Sanford Fire Department, advised the Sanford Herald that the inoculations are given each Tuesday and Friday morning from 8:30 to 11:30.

However, they emphasized that family physicians also have the vaccine available for children.

In a telegram to the United States Public Health Service office in Atlanta today, Dr. Wilson T. Bowder, State Health Officer, released Florida's allotment of the 33rd allocation of Salk vaccine (now ready for delivery) for re-allocation to other states.

This step was taken because supplies of the polio vaccine have accumulated in Florida—due to both slackening of demand and increased supplies available.

"We regret not accepting our allotment, which will now be assigned to other states," says Dr. Bowder, "as our figures show that only slightly more than a third of our eligible population, 0-19 years, have received this vitally important protection."

In a recent letter to county health officers, county medical societies and local chapters of National Foundation for Infantile Paralysis Dr. Bowder asked these groups to "make every effort to get as large a number of children immunized as is possible and soon."

Though there may be some reluctance on the part of parents to have children immunized during the polo season, Dr. Richard Skinner, Jacksonville, Chairman of the State Advisory Committee on Salk Vaccine stated that the committee recommended that vaccinations continue throughout the summer months.

Florida ties with Virginia for fourth place in a comparison of eight southern states in percentage of polio vaccinations, with a percentage of 44.9 with one or more inoculations. Mississippi reports 44.9; Alabama 43.2; Georgia 40.3; Virginia 34.9; South Carolina 34.7; Tennessee 28.6; and North Carolina 29.3.

### Housholder Asks For Appropriation

Seminole County Juvenile Judge Ernest Housholder yesterday asked the Seminole County Board of Commissioners for an appropriation of \$9,500 for the operation of the Juvenile Court during the 1956-57 budget year.

Judge Housholder told the Board of Commissioners that the Juvenile Court is a State Court in the county and "provides that the County Commission appropriate adequate and necessary funds to support the court."

The Juvenile Judge said "It is a court that does not make any money for there are no fines assessed, no sentences handed down. The expenses must be paid by taxpayers."

In his summary of the requested appropriation, which was also presented the commission in writing, Judge Housholder asked for a salary of \$2,000 for a counselor with expenses of \$200.

He pointed out that Counselor Larry Jones "will not serve next year as a Trust Officer for the Negro schools." Housholder said, "He has been with me for two years and has been invaluable."

Speaking of the Juvenile Court itself, Judge Housholder said, "I will say, without fear of contradiction, that the operation of the Seminole County Juvenile Court was second to none in the State."

He then asked that the budget include \$2,000 to provide an Assistant Counselor which would carry with it an appropriation also of \$200 for expenses. He explained that the assistant counselor would be a woman but refrained from naming the choice for the office. "I think there is a need for her," he said.

Housholder set his own salary as Juvenile Judge at \$2,000 and asked for an appropriation of \$500 for emergency welfare of delinquent juveniles and miscellaneous office expenses. "I believe every man is worthy of his hire," and explained that his efforts were to bring about a stronger feeling and an attempt to eliminate juvenile delinquency in our county.

The final item on his budget request, made by Judge Housholder, was for \$2,000 as a salary for the Court Secretary, clerk and recorder.

"I ask you to place this request in your budget and add the necessary millage for the funds," said Judge Housholder.

# 3 Killed As Bomber From SNAS Explodes In Mid-Air Near Eustis

LIONS BECAME BELL RINGERS instead of rosters during yesterday's noon luncheon meeting of the Sanford Lions Club. Irene and Carl Mikus, nationally known bellringers, who had last week entertained Lions International Convention in Miami, had the local Lions entertained themselves. In the act are: Arthur Kirchhoff, Bill Rawls, Jack Stemper, Irene Mikus, Ben Wade, Dallas Loop, Carl Williams, Ludwig Kutera, Carl Mikus, and Clarence Welch. According to reports it was a "ding dong" program. (Staff Photo)

### Cause Not Known

An A-1J Savage bomber from the Sanford Naval Air Station crashed yesterday after exploding in mid-air while on a training mission over the Lake George area.

The bomber with three men aboard came down and dug into the earth about three miles south of Eustis in a pasture on the old Eustis-DeLand highway.

The entire crew was killed in the explosion, the cause of which had not been determined last night.

Parts of the bodies of the three men were found over a wide area as were bits of wreckage strewn over at least a mile square.

Six witnesses were reported as seeing the explosion of the plane during mid-afternoon at a time established as shortly after 3 o'clock.

Identified as pilot of the plane was Comdr Auburn Harrow, 37, whose wife and three children live in Sanford at 808 E. 20th St. The third crewman was Electronics Technician 2-J. R. Whinnant, 33, whose wife and three children live near Sanford at Moberly's Trailer Park.

Identification of the third member of the crew, the bombardier-navigator is being withheld pending notification of next of kin. He was a commissioned officer.

News of the explosion reached Sanford shortly after the crash. An ambulance, emergency search vehicle, and Search Patrol officers and men were dispatched immediately to the scene.

Lt. John E. King of Hwiting-1, attached to the Sanford Naval Air Station, was reported as the investigating officer. A helicopter took investigating personnel to the scene of the crash.

Also at the scene was an ambulance and emergency vehicles from the Pinecastle Air Force Base. A cordon of Air Police was also sent to the crash area to assist in security operations until the bodies of the crash victims and the plane wreckage could be removed.

The three dead Navy men were attached to VAH-9 squadron, a unit of Hwiting-1.

One of the crash victims, according to authorities at the crash area was found about 3-1/2 miles from the point of impact and another body was found in the immediate vicinity of the downed plane.

Opened parachutes were found in the area, one of them hanging from a tree with the seat, operated by a seat ejector, attached to the chute.

The body of the plane, on impact, in an open pasture field, dug deep into the earth. A wing of the plane was found at least a half mile from the area where it had crashed.

The plane explosion occurred during yesterday afternoon's downpour of rain and thunderstorms which was accompanied by intense lightning.

The bomber, capable of delivering atomic bombs but not carrying any explosives at the time of the explosion, left the Sanford Naval Air Station last yesterday morning for the training mission and was apparently returning to its home base at the time of the crash.

Shore Patrol and Air Force police were still guarding the wreckage of the downed plane late last night. The security cordon was still intact as late as 10 o'clock.

Military officials were assisted at the scene of the crash yesterday by Sheriff Willis McCall.

A Navy spokesman said neither of the bodies recovered was immediately identified.

Witnesses reported seeing parachutes drifting down but the spokesman said there was no evidence the crew used them.

The crew and the plane—which had two conventional engines and one jet engine—returned to the United States in May after five months operating off an aircraft carrier in the Mediterranean.

A Negro ranch worker reported he saw the plane explode "Pieces started flying everywhere," said Emmett Cady, and "a big ball of fire formed" as it plunged into the ground.

### Request For Funds To Conduct Census Presented To Board

A request for funds to conduct a special census to be made by the United States Bureau of Census was made yesterday before the Board of Seminole County Commissioners.

Karlyte Housholder, representing the Seminole County Bar Association, told the commissioners, as he requested the funds to be included in the forthcoming 1956-57 budget, that the "Orange County Bar Association had asked the Bar Association of the eight counties comprising the Ninth Judicial Circuit Court of Florida to request their respective Boards of County Commissioners to provide the items in their budgets."

Florida ties with Virginia for fourth place in a comparison of eight southern states in percentage of polio vaccinations, with a percentage of 44.9 with one or more inoculations. Mississippi reports 44.9; Alabama 43.2; Georgia 40.3; Virginia 34.9; South Carolina 34.7; Tennessee 28.6; and North Carolina 29.3.

Housholder explained, in person before the Board and by letter addressed to them, that the reason for the special census is "because at present there are only four Circuit Judges in the Ninth Judicial Circuit Court of Florida which is the number of judges allowed based on the 1950 Federal Census."

"It is the feeling of the Bar Association that a new census at this time would probably provide an additional four Circuit Judges, and in any event no less than two, one of which would be a resident in Seminole County and would greatly increase the amount of judicial work handled through the Clerk's office of our county for the Circuit Court," he said.

Housholder explained, "Under the normal process we will not get any additional judges until approximately 1962 which would be based on the 1960 Federal Census."

"By that time," the Bar Association president said, "the amount of legal business being handled in the Circuit Court of the Ninth Judicial Circuit will be so great that the present four judges could not possibly handle it as all of them are at present handling a great volume of work as possible."

Housholder told the commissioners that the estimated cost of the census to be taken in Seminole County would be approximately \$7,500. He asked that the funds be provided in the ensuing budget based on the contingency that it and when the other counties in the Ninth Judicial Circuit approve the taking of a census in their respective counties that the same would be approved for Seminole County.

No action was taken on the request at yesterday's meeting.

### Sputtering Wires Cause Excitement

Sputtering fire from electric wires shorted on a power pole at 311 Holly Ave. yesterday afternoon caused excitement in the neighborhood.

Burning insulation on the wire caused smoke and fire while the fallen wires arced and jumped. Wire, which was at first thought to have fallen on a house, was on the ground.

The alarm was answered by the Sanford Fire Department shortly before 5 o'clock. No damage was reported.

### Take Time To Recall Real Purpose Of July 4

Today, July 4, 1956, just 18 decades after the signing of the Declaration of Independence, we pause to celebrate one of the most important events in the history of our country.

For seven years war was waged to protect what we today cherish, our freedom.

Too many, in a hurry-burly world, fail to realize the impact that the signing of the world's most famous document has had on nations around the globe.

Too many, in the height of their hey-day, fail to realize that each of us owes a debt of gratitude to those gallant countrymen who, not only as brave men signed the Declaration of Independence, but wrote and worded the document that guarantees, behind the Constitution and all of the other famous documents of our country, our freedom from oppression.

The Declaration of Independence was the forerunner to the formation of our government, the written Constitution.

Few of us have the time to pause as the dawn of July 4 makes its appearance to offer a prayer—thanks to God that through troublesome years freedom has been maintained, our individual rights have remained intact, and the stamina of our government continues to face many countries in their efforts to thwart all that we hold dear to us as right and just.

Independence Day is significant to both civil and religious interest—yet we yield to the beckoning of road and festivities—forgetting the real purpose of the holiday.

Cannons have roared and the sky has been blackened by the fury of battle—to preserve all that was gained when seven years of war raged following the signing of the Declaration of Independence. Men have been snatched from peaceful homes to protect the vital freedoms of our nation—the terms upon which liberty has been established have sometimes had to be written in blood.

The Declaration of Independence was a testament to all generations of men, wherever they lived. Those of us who have accepted the legacy have found that it is not always an easy one to live with.

Yes—it takes, sometimes, courage and work to live up to it.

But the knowledge of our freedom and dignity as men and women was the legacy to us today.

Yes, we celebrate—July 4, 1956—Independence Day!

### CofC Is Thanked For Sending Herald Tourist Edition

Personal replies from the Chamber of Commerce in answer to routine inquiries in combination with complimentary copies of the Sanford Herald Tourist Edition recently brought letters of appreciation in the same mail from New Mexico and Illinois. The writers of both letters were women, and both are making definite plans to be in Sanford with their families this fall.

The New Mexico resident asked that information also be mailed to a friend. She said, "I'm not about to let mine get away! We are really interested in Seminole County and if nothing happens we plan to be there this coming fall." The writer from Illinois expects to be in Sanford not later than Sept. 1.

"Thank you so much for a very nice letter," she said, "also the help you have given us by sending the large edition of The Sanford Herald. Believe me, we are still reading it. Don't be surprised if I drop in at the Chamber of Commerce for no other reason than to say hello to you."

### Farmer Gets Even With Cow

LINCOLN, Neb. (AP)—Farmer Marv Knudsen is even with his "ornery heifer."

Knudsen told yesterday how he went out at night to herd his 20 cows to the farm buildings as flood waters rose in a creek crossing his land. But he was caught by the rising water, lost his sense of direction, and spent the night leaning against a tree in deep water.

With daylight he herded his cattle to a 30 foot channel of swift flood water. As the last cow crossed the channel he grabbed her tail and let her pull him across.

"That ornery heifer has given me a lot of trouble and I thought I'd just get even with her," said Knudsen.

### YOUTH THROWS FIRECRACKER IN WRONG PLACE

HUNTINGTON, W. Va. (AP)—Bill Farley not only picked the wrong time to celebrate Independence Day—he tossed a firecracker in the wrong place.

The 18-year-old youth pleaded guilty in court yesterday to throwing a firecracker at a street intersection. And who should be driving by at the time but State Trooper C. E. Davis, who arrested Farley and confiscated several packages of the noise makers.

Firecrackers are illegal in West Virginia. Farley was fined \$10.

### Weather

Partly cloudy through Thursday, scattered thunderstorms occurring mainly during afternoon.

### Sanford Streets Flooded In Hard Rain Yesterday

Sanford was literally covered with palm fronds, leaves, tree limbs and more yesterday afternoon as one of the hardest rains in the last two or three years hit the City.

Sanford Weatherman E. J. "Bud" Moughtin, Jr., said that 2.58 inches of rain fell on the city in the 24 hours ending at 8 a.m. this morning.

Many of the Sanford streets were flooded and left standing with water from curb to curb and in many places an up into the lawns and across intersections.

The San Lane section seemed to be the hardest hit by the deluge of rain with most of the streets still deep in water as late as 1 o'clock last night.

Celery Avenue, Geneva Avenue, Sipes Avenue, and Beardahl Avenue were covered with water until a late hour yesterday. Automobiles were drowned out in one place on Geneva Avenue while the auto was virtually adhering to one-way traffic on Celery Avenue.

No apparent heavy damage hit any part of the City and with the exception of a general cleanup job because of the debris strewn over the streets, parks and lawns Sanford is in pretty good shape on the holiday.

The rain was a welcome one, cooling off the high temperatures that had prevailed throughout the day yesterday. Rain was so heavy during the full hour of downpour that traffic was virtually halted until the sheets of water let up shortly before 6 o'clock.

### Woman's Softball League Is Being Organized Here

"We need an ladies to play in the Sanford Woman's Softball League," said George Kilby yesterday as he explained that for teams which are now being organized for the ladies in this area.

Kilby said that sponsors for the teams are available and the league is ready to get underway as soon as enough players have shown their willingness to play.

Seminole County Motors, Celery City Restaurant, and Echols Redding Company are three of the sponsors that have indicated they will field teams of the lady players.

"The ages doesn't matter, anywhere from teenagers on up," said Kilby.

The league is being formed with the approval of the Sanford City Manager and Howard Gordie who is in charge of that phase of the citywide recreational program that is underway.

Only things required of the ladies, said Kilby, are the gloves and sneakers. Hats, balls, uniforms and other paraphernalia necessary to play will be furnished, he said.

Fifteen ladies have already signed up for the softball league and practice sessions will be held on Monday and Saturday nights in Fort Mellon Park at the softball diamond. Play will be under lights.

Managers will be furnished each team, Kilby said as he explained that the Sanford Woman's Softball League won't be a haphazard helter-skelter thing.

It is expected that the league will schedule 60 games under lights at the softball diamond and play will continue through the month of August.

# Social Events

## Three Women Are Attending Confab For B&PW Group

Mrs. J. E. Gradick, Mrs. R. E. True and Mrs. W. E. Baker left last night by plane for Miami Beach where they will attend, representing the local club, the B.P.W. biennial convention.

Business and professional women of the nation elected officers yesterday and heard a cabinet minister at their biennial convention.

Secretary of Commerce Sinclair Weeks spoke last night.

Nominated unopposed for president of the 170,000 member Federation of Business and Professional Women's Clubs was Miss Hazel Palmer, a Sedalia, Mo. lawyer.

The federation's legislative committee called on both major political parties to come out for equal pay for equal work and endorsement of the equal rights amendment.

## 35 Girls Will Leave For Camp Monday Morning

Monday morning at 10 a. m. 35 4-H girls along with five adult leaders will leave the Seminole County Court house steps enroute to Camp McQuarrie, 4-H Camp, located in the Ocala National Forest.

This State 4-H camp will last from July 8 through 18th. Four classes will be held including lessons on dairy foods, recreation, swimming and handicraft.

Miss Bronnie May Elkins, State 4-H leader will be on hand to teach a course and "much fun is planned for the girls."

Leaders attending are Mrs. J. M. Dingman, Longwood; Mrs. Ruby Sjoblom, Lake Mary; Mrs. Steve Mikler, Slavia; Mrs. W. R. Wemberly, Sanford; Mrs. Vincent Matecki, Longwood and Miss Wilson.

MRS. AUGUST PHILLIPS proudly displays her Japanese collection brought back to her from Tokyo by her son, Clyde, during his three year assignment there. (Staff Photo)

## Japanese Collection Interesting Part Of Mrs. A. Phillips' Life

BY SANDRA BERG

In their Lake Mary home Mrs. August Phillips displays a Japanese collection which would do any collector proud. It was brought back to them by their son, Clyde, while stationed in Tokyo with the U.S. Army, which by the way is his career.

In the foreign city for three years, Clyde made many friends and accumulated all of his collection through gifts.

Two exquisite dolls were given to him by two Japanese boys who worked in the office with him and by a friend of Japanese birth. The dolls are in glass cases, standing upright, and are taken out only once a year for the Japanese children to play with," said Mrs. Phillips.

"The people in Japan were wonderful to Clyde," she went on warmly "and we were glad as he was stationed in China during World War II."

She showed two handpainted pictures by an artist friend of her son's who owned a hotel. Other articles were shoes, a set of sticks for removing food from the bowl which is served by the people, to smaller plates; tea cups, one for the ladies and one for the men, (the larger going to the men) with covered tops and a delicate wine set consisting of two "little" jugs and five bowls.

Mrs. Phillips explained that in Japan you pour the wine from the jugs into the bowl. It is always served warm.

Mr. and Mrs. Phillips also have an album their son kept for them with "many colorful and beautiful" shots of Japan. One picture shows Hiroshima before and after the bombing and is very interesting.

Clyde has been in the Army for 12 years and is now in Germany. Mrs. Phillips quipped, "I guess our next collection will be from Germany."

She particularly talked about the dolls which are enclosed in a box to be conducted by Rev. A. G. McInnis, Pastor of the First Presbyterian Church at 7:30 p.m.

The Finance Club will rehearse at First Presbyterian Church at 8:15 p.m.

The Girl Scouts will meet at First Presbyterian Church at 7:30 p.m.

The Mid-Week Bible Hour will be conducted by Rev. A. G. McInnis, Pastor of the First Presbyterian Church at 7:30 p.m.

## New Radio Program Planned By Group

A new radio program over the local station WTRR will begin Saturday morning at 11:30 a.m. as a 4-H county extension program.

Miss Myrtle Wilson, head, has announced that July and August have already been set up.

Talent 4-H meetings, projects and short courses will be offered the listeners. To start the events off with a bang the two girls who attended the 4-H short course will reveal their lessons and tell of their experiences over the air.

All interested members and persons are asked to join in with the groups over the radio.

## Personals

Dr. S. P. Vann of Albuquerque, N. M., is visiting Mr. and Mrs. W. S. Thornton, W. First Street.

NOTICE OF SET ASIDE OF DECREE OF DIVORCE. STATE OF FLORIDA vs. T. ATKINS, et al., Defendants. In the County of Seminole, Florida, the Court has rendered a decree of divorce in Case No. 818, between Plaintiff and Defendant.

## Christening Celebration Held In Honor Of Margaret Castano

Little Miss Margaret Ellen Castano, daughter of Mr. and Mrs. James Castano, was honored at a Christening celebration held July 1. She was named Margaret for her paternal grandmother and Ellen for her maternal grandmother.

All the guests were present at the All Saints Catholic Church at 11 a.m. where the Father Richard Lyons officiated at the ceremony.

Little Miss Castano wore a dress, bonnet and jacket of white embroidered nylon with ankle strap satin shoes, a gift of the godmother, Mrs. S. Capriola. Mr. Capriola represented the godfather.

and for Seminole County Florida. In chambers, entitled, Thomas S. Anderson, Plaintiff, vs. Gladys H. Anderson, Defendant, by said Thomas S. Anderson, Plaintiff, and Gladys H. Anderson, Defendant.

# PRIMER FOR AMERICANS

COPYRIGHT 1955.  
DAVID S. LAPHAM

**Y**ou live in the United States of America. You are an American.

Real Americans like their country. They are proud of it. They think it is a good place to live. And they want to keep it good—to keep it getting better and better all the time.

Why is America the way it is? What makes it a good place to live? The answer is simply this:

Throughout our history most Americans have believed that every person has certain *rights and duties and responsibilities*.

Americans have believed that there are certain things that people *should do*, and other things they *should not do*.

They have also believed in certain things that people *are*, and *are not*.

These things that people believe are called *principles*. This book is an attempt to state the Principles of America in simple, primer fashion so that you can understand them, learn them, and remember them.

This is important. It was because earlier Americans believed in these principles and guided their lives by them, that America has grown to be the good place it is.

If all of us learn and remember these principles—if we also guide our lives by them—then we can help to keep America growing better, and better, and better.

And if we follow these Principles of America, we can help make the world a better place to live in, too.

*The Principles of America are these . . .*

**1. Each Person is of Importance and Value as an Individual.**

This is the cornerstone . . . the foundation of all our other beliefs in a person's right to live his own life, to speak for himself, to choose and change his leaders.

From it comes our hatred of those "isms" under which the individual has no value or importance as a person, but is only one of many unimportant people who have to live the way their leaders tell them to.

Coming directly from that first principle are two other principles that are also part of the foundation of Americanism.

**2. We Believe that All Men should Enjoy Personal Freedom.**

**3. We Believe that All Men are Created Equal.**

It is worth noting that the Declaration of Independence expressed the belief that "all men are created equal." It did not state or imply a belief that men develop equally or have equal ability, or that they should ever be forced to an exact equality of thought, speech or material possessions.

That would be equality without freedom. Americans have always believed the two should go together.

From the days of the Declaration of Independence and the writing of the Constitution, Americans have known that even though Life, Liberty, and other unalienable rights are granted to man by his Creator, they require some protection by man himself.

So, in our Constitution, and in other laws of our land, there are set down principles to protect the rights and freedoms and equality of individuals. And these principles play an important part in keeping America a good place in which to live.

**4. The Right to Freedom of Speech.**

This includes freedom of the press, of radio, of motion pictures, of every means by which man may express his thoughts on any subject.

**5. The Right to Freedom of Assembly.**

As we believe in the right of individual action, so we believe that individuals should be free to act together for the benefit of all. This is Democracy.

**6. The Right to Freedom of Worship.**

Not only is the individual free to worship as he will, but religions themselves are free and equal . . . regardless of their size or their faith.

**7. The Right to Security of Person and Property.**

Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."

**8. The Right to Equal Protection before the Law.**

As individuals are equally important, so laws must apply equally to all, without special privileges for any particular individuals or groups.

**9. The Right to Freedom from Slavery.**

This includes "the right to quit," for no individual may be forced to work for another.

**10. The Right to Petition the Government.**

The legally guaranteed right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

**11. The Right to Vote for people of your choice.**

This is the individual's most potent weapon in the protection of his rights and freedoms . . . a weapon that to be effective must be constantly and wisely used.

*The Principles of America hold that every man has . . .*

- 12. The Right to a Good Education.
- 13. The Right to Live where he pleases.
- 14. The Right to Work where he wants to.
- 15. The Right to Join and Belong to an Organization.
- 16. The Right to Own Property.
- 17. The Right to Start his Own Business.
- 18. The Right to Manage his Own Affairs.
- 19. The Right to Make a Profit or to Fail, depending on his Own Ability.

There are other, similar rights of individual action which are Principles of America, but all of these individual rights may be combined in these two broad principles . . .

**20. Every Man is entitled to Freedom and Equality of Opportunity.**

**21. Every Man may Earn his Living When, Where, and How he wants to.**

*There are also Limiting Principles . . .*

Principles of individual freedom sometimes clash with those of individual equality. Therefore our rights as individuals must be limited, and those limitations are themselves principles.

**22. The Rights of any Individual shall not Interfere with the Equal Rights of Other Individuals.**

Your right to swing your arms stops where the other fellow's nose starts.

**23. The Rights of any Individual shall not Interfere with the Welfare of the People as a Whole.**

Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.

**24. Every Individual owes Obedience to the Laws under which he Lives.**

The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.

*Principles that are Patterns of Behavior . . .*

Many of our principles of individual freedom and equality are guaranteed to us by law.

But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. They have stood the test of time. They have worked. They have become a basic part of the way we live and of the way we look at things.

These principles, too, are foundations of Americanism. They are as true, if not more true, today than they were in 1850 or in 1750.

If America stays free, they will still hold true in 2050 . . .

**25. Every Man shall be Judged by his Own Record.**

A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.

**26. Every Man is Free to Achieve as much as he can.**

We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.

**27. To Achieve anything, a Man should be Willing to Work.**

Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work and to work hard.

**28. Achievement also Depends upon the Ability to do a Good Job.**

Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.

**29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.**

Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.

**30. Security is the Ability of a Man to Provide for himself.**

The only true security for any individual is the opportunity, the ability, and the determination to work and plan and save for his own present and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.

**31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.**

We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.

Printed as a Public Service by  
**The Sanford Herald**

**32. Every Individual must Deal Fairly with other Individuals.**

Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.

**33. Fair and Free Competition is a Good Thing.**

Americans have always believed that competition among individuals or groups encourages greater effort which in turn brings greater benefits to all.

**34. Cooperation among Individuals is Vitally Important.**

PRESIDENT EISENHOWER has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."

*Principles of Individual Responsibility . . .*

Freedom for individuals carries with it an equal responsibility to use that freedom wisely. Therefore, if we wish to remain free, we must faithfully fulfill our responsibilities as free men.

**35. The Individual is Responsible for himself and his Family.**

He must protect them and provide for their present and future well-being.

**36. The Individual has Responsibilities to the Groups of which he is a Part.**

He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.

**37. The Individual has Responsibilities to his Country.**

He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.

**38. The Individual has Responsibilities to the World.**

Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.

**For America's Future**

Most of us are still confident of ourselves and of our country. We do not claim perfection. But we have faith in our ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life . . .

If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:

**39. The only way we can Have More is to Produce More; and**

**40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.**

If we, the people of the United States, want to have a better life, spiritually as well as materially . . .

**41. We must stand firmly for our Beliefs, our Rights, our Principles.**

WALT WHITMAN, writing nearly 100 years ago, put it this way:

"There is no week, nor day, nor hour when tyranny need enter upon this country if the people lose their supreme confidence in themselves . . ."

There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea . . .

**Is it With or Against the Principles of America?**

## Investigators Trying To Determine Cause Of Plane Crash Tuesday

### 'New Courthouse' Proposed By Board At Today's Meet

The Board of County Commissioners this morning was talking in terms of a "new courthouse" when discussions relative to the remodeling of several offices in the building came up.

Commissioner B. C. Dodd: "It is time that we begin to set aside a neat egg for a new courthouse. We're being asked to build this and that all over the county," said Dodd. "Maybe we could build a new courthouse and turn this building over to various agencies," he added.

Offices in the County Court House have been remodeled innumerable times in order to allow additional space for various branches of the county government. The latest office to be remodeled was the office of the County Judge and the Juvenile Court Judge.

Discussions this morning centered around the need for additional space in the office of the County Tax Assessor.

Other business this morning, coming before the Board of County Commissioners, was the offer from Garple, Inc., of \$12,250 with which to buy materials to build a road from State Road 628 north to State Road 624.

The offer was accepted with one dissenting vote from Commissioner John Meisch. Meisch believed that the offer should be "the purchase of materials" for the 9 1/2 miles of road by Benaldo Springs.

A search for a missing Navy plane went on today while investigators began putting pieces of an "atom bomb delivery" plane together to try to find out what made it crash near Eustis Tuesday.

One hundred Navy men combed an area of about a square mile yesterday to gather the bits of the AJ Savage bomber from Sanford Naval Air Station. Most of the pieces were recovered, the Navy said.

Searchers didn't find the missing body of one of three men presumed killed in the crash.

A Navy spokesman, however, said it officially discounted that any of the three was alive. He said two parachutes, opened but empty, were found and an eyewitness report of seeing a third chute was discounted.

A dredge was scheduled to be brought into the search to probe in a hole 30 feet deep where part of the plane hit.

One witness said the craft exploded in the air. Three said they heard it before the crash and it sounded as if it were in trouble.

Of two bodies recovered, the Navy identified one as J. R. Whelan, 22, electronics technician second class, of Sanford.

The other a spokesman said, was either Cmdr. Auburn W. Heron, 31, pilot, of Sanford or Lt. L. E. Foley, 25, bombardier navigator, of Birmingham Ala.

### Sanford Women Attending 3-Week Course At FSU

The first students complete their summer school work at Florida State University this week—113 teachers and supervisors of vocational education programs who have been attending a three-week course.

Those attending include: Mrs. Gladys S. Hall and Mrs. Lydia Watt from Sanford.

Dr. Edward K. Hankin, who is in charge of the course, said the 113 include craftsmen of many trades and each a master of his own.

All have come here, he said, to acquire additional professional skill in passing on their trades to others. The State Department of Education is jointly sponsoring the course, which will be followed by another three-week course starting July 9 and a two-week course starting July 23.

Among the group of teachers taking the course are 18 English-speaking Cubans of the San Julian Alarcas Technical School who expect to pass on some of their knowledge to non-English-speaking members of the faculty.

There is an expert horticulturist from Daytona Beach school, two dentists who are teaching dental technology, two registered nurses who are teaching practical nursing, cabinetmakers, carpenters, beauty culturists, auto mechanics, TV-radio specialists, printers, welders, photographers, and diversified cooperative training personnel.

Most of the students are from Florida but some come from Alabama and Georgia and as far away as Wisconsin. Faculty also have been brought in from several states.

### Co. B Is Attending Specialized Schools

By JOHN E. KRIDER JR., SFC  
The local National Guard Unit, Co. B of the 14th Armored Infantry Battalion, arrived at Fort Stewart, Ga. Sunday July 1 for two weeks of summer training.

The unit, commanded by Capt. Joseph D. Bryant a veteran of 14 1/2 years service in regular and reserve and his last active duty being with the Infantry in Korea. The other company officers are Lt. Glenn A. Lingie, John O. Keeling, Charles Lansing and Bill Noma.

The recreational facilities include swimming pools, tennis courts and pool exchanges for all personnel while at Fort Stewart.

Donahue said about 30 inspectors could man the first road blocks set up on U. S. 19 South of New Port Richey in Pasco County, Pinellas' northern neighbor; and U. S. 41 at Land O' Lakes on the Pasco-Hillborough county line.

By tomorrow, Donahue said, similar roadblocks would be in operation on U. S. 29 west of Tampa, State Road 26 west of the town of Tampa and U. S. 201 east of Edgewater in Manatee County, south of Hillborough.

### Farewell Party Is Staged For Officers

A group of more than 100 fellow officers and wives of officers of VAM-7, attached to Navy Air Station One of the Sanford Naval Air Station, held a farewell party Tuesday night for Commanding and Mrs. Forrest E. Norwell and Lt. (jg) Edward W. Zimmerman.

The banquet and party was held at the Turf Club.

Those invited included both present and former members of the squadron.

Comdr. Norwell, Executive Officer for the Squadron, is leaving the unit to take command of Heavy Attack Training Unit Two and Lt. (jg) Zimmerman is being released from active duty to return to his home in Texas.

Mrs. Norwell was presented with a silver tea service during the evening when Comdr. L. B. Libbey presided over the introduction of various members of the squadron and department heads.

The new executive officer of Squadron VAM-7 will be Comdr. Gayle Forrest who will take over his duties on July 15.

### Last Night's Game Yields 2 Home Runs

Last night's softball game between Robson Sporting Goods and Hunt-McRoberts produced two home runs.

Robson Sporting Goods defeated Hunt-McRoberts team by collecting 10 runs off 10 hits. The two home runs were made by E. Ray and D. L. Merritt.

Hunt-McRoberts took just one hit off the Robson pitcher but failed to score a single run.

Batteries for Robson Sporting Goods were D. L. Merritt and W. L. Whiteaker, for Hunt-McRoberts C. O. Jones and Ed Lynch.

### 2 Local Youths Are Undergoing Basic Infantry Training

Private Virgil M. Pichlerman, son of Mr. and Mrs. William Castle of 218 South Elm Ave. and Private Chester Cherry, son of Mr. and Mrs. W. E. Cherry of 1118 French Ave. of Sanford, have recently been assigned to "C" Company, 1st Battalion 1st Training Regiment at Fort Jackson, S. C. for eight weeks of basic infantry training.

During those coming eight weeks they will learn the fundamentals of being a soldier. This involves classroom lectures on such subjects as first aid, military courtesy, field sanitation, and military history; they will also take part in field problems involving the use of the M-1 rifle which they will fire on various ranges.

Fort Jackson is one of the country's largest infantry training centers, and offers schooling in various tasks associated with an infantry division such as clerk-typists, radio operators and vehicle mechanics.

After the training completes his first eight weeks of training he is given about 14 days leave. After this he may return for further infantry training or attendance at one of the post's schools.

### Finnegan, 2 Aides Arrive For Talks Over Steel Strike

PITTSBURGH (AP)—Joseph P. Finnegan, director of the Federal Mediation and Conciliation Service, and two aides came to Pittsburgh today for "exploratory talks" with disputing parties in the 8-day old nationwide steel strike.

Finnegan said he will meet with United Steelworkers' President David J. McDonald and John A. Stephens, U. S. Steel Corp. vice president, and try to find out what the points of contention are.

Finnegan said there are no immediate plans for resumption of the negotiations that broke off in New York Saturday six hours before 625,000 workers walked out of mills producing 50 per cent of the country's steel.

The mediation director said he had not "the slightest notion" when and where peace talks could be resumed. He said he is always hopeful of getting the striking unions and industry representatives together.

Accompanying Finnegan were Robert H. Koenig, general assistant, and Clyde H. Miller, assistant director. Finnegan said he plans to return to Washington tonight.

## Sales Tax Exceeds \$86 Million

Sales Tax collections for the fiscal year ended June 30, 1956 exceeded \$86 million, an increase of \$12 million over the previous fiscal year, Ray E. Green, State Comptroller said today.

The continual upward trend in sales for Seminole County is shown in the collections by counties for the month ending June 30, 1956. The total tax collections for the month is shown as \$25,630.66. This is in comparison with the \$22,792.71 collected for the month ending June 30, 1955. A more than 10 per cent increase is reported for Seminole County.

Total collections in the state for the year were \$96,101,320.64, said Green, as compared with \$74,036,423.91 for the 1955-56 fiscal year. This is an increase of 12.3 per cent.

Collections in June, according to the report from the State Comptroller, covering May sales, were \$6,906,968.00, an increase of \$1,185,448.64 or 19.28 per cent.

Similar to gasoline tax collections, June collections were surprisingly high as they almost equaled May collections rather than taking the customary drop.

## Holiday Traffic Deaths Are High

By THE ASSOCIATED PRESS  
The nation's traffic deaths over the Fourth of July appeared to edge toward the pre-holiday estimate of 130.

With final figures not compiled, traffic deaths for the 24-hour period starting at 6 p. m. local time Tuesday and ending last midnight, was 128. In other violent deaths, 72 drownings were reported and 24 persons lost their lives in miscellaneous accidents, for an overall total of 222.

The number of traffic fatalities as well as the overall total were greater than that reported on Memorial Day (128 and 311) and compared with a normal traffic toll of 90 for a Wednesday in early July.

The National Safety Council, which before the holiday had said 120 persons might be killed in automobile accidents, said indications were the final toll may approach 130.

"It's running even worse than we feared," said Council President Ned H. Dearborn. "And this is in the face of splendid efforts of law enforcement authorities who have conducted a vigorous campaign."

The council had hoped that by rigid enforcement and driver caution the death toll could be held to 90.

## Anti-Communist Riots In Poland Blow For Freedom

BLOOMINGTON, Ill. (AP)—Adlai Stevenson said yesterday recent anti-Communist riots in Poland were "a powerful blow for freedom," but the West lacks a leader to be the "calm and confident spokesman for free men everywhere."

Stevenson, a candidate for the Democratic presidential nomination, told a McLean County Democratic Central Committee picnic the meaning of the Polish uprising "is as clear as the Kremlin as it is to free men here."

"A little breath of freedom is a dangerous thing in a totalitarian regime and the West must make it clear that Soviet rulers cannot find any solution to their internal problems in external adventures," he said.

"That is why the quality of Western leadership is so important now."

He said Americans have learned that "we can be left isolated and alone and that we can be defeated in the cold war without a shot being fired."

## First Federal Resources Increase

The mid-year statement of the First Federal Savings and Loan Association shows total resources of \$2,250,000. This is an increase of over ten million dollars in the last 12 months, according to Howard Faville, president.

The progress of the local thrift firm is "most satisfactory" in the face of the economic conditions that have seen the money supply shrink and consumer spending mount to record heights, Faville said.

In spite of the temptations for workers who are earning more than ever before in their lives to buy many of the "push-button conveniences," savings have continued at a good pace, it was said.

Since June a year ago the savings accounts at First Federal have increased 18 per cent. Since the buying spurge induced by the "credit limit and trade-in bluge" that started the last quarter of 1955, the rate of additions to thrift accounts has declined slightly, but the overall picture still is quite encouraging, according to Faville.

In the six months just closed, regardless of the "tight money market," loans for the building, buying and improving of homes was within \$75,000 of the same period of 1955, regarded as a peak year for this type credit, according to the loan association executive, with four 8 1/2% of a million dollars going for these needs.

Paying dividends at the rate of three per cent a year and totaling over \$30,000 for the first half of 1956, the directors increased the reserves from \$48,531 as of Dec. 31, 1955 to \$493,783 in the period just closed. It was said that this attitude of the governing board has prompted many commendations for the provision of increased safety for those who have savings accounts at First Federal.

Officials expect continuing favorable conditions for further growth in the remainder of the year.

The directors are E. F. Doudney, A. Edwin Shishler, E. C. Harper, Jr., J. H. Van Hoy, H. James Get, George Tushy and Faville.

## County Commission Adopts Tentative 1956-57 Budget

### Hospital Complete

### Seminole County To Receive \$5,000 Of Racing Funds

A check for \$5,000 has been mailed to Seminole County by State Comptroller Ray E. Green to bring its share of the race track monies up to \$125,000, equal to the amount received by each of the 67 counties in Florida, for this fiscal year.

According to the Comptroller's records, the 1955-56 racing season has produced a total of \$11,034,000 for equal division among Florida's counties. This compares with \$9,322,400 received from jal, alai, horse, and dog taxes during the previous year, or an increase of \$2,332,800.

Final distribution of racing monies totaling \$5,000 to each county was mailed Monday. Of a total of \$125,000 each county has received this fiscal year, \$135,250 was provided by taxes enacted prior to the 1955 session of the legislature, and \$29,750 from the 1955 additional tax on dog tracks.

In addition to the \$11,034,000 distributed to the counties, racing funds produced \$12,230,000 for the State's General Revenue Fund to be partially offset appropriations made by the legislature for old age assistance.

Racing taxes this fiscal year have exceeded last year's collections by approximately \$2,379,000. Total receipts for 1955-56 were \$9,181,311 as compared with \$6,794,136 for the previous year.

### Hospital Complete

### Seminole County To Receive \$5,000 Of Racing Funds

One of the major projects of the Women's Auxiliary of the Seminole Memorial Hospital has recently been completed with the furnishing and decoration of the family room.

"It is gratifying to me and to the auxiliary," declared Mrs. A. W. Epps Sr., president of the Auxiliary, "the favorable response we have received upon the completion of this room which is designed for use of persons feeling the need for a quiet place for meditation and prayer, for those that may have a member of the family critically ill, for those that would like privacy in meeting their pastor or for a private talk with the doctor."

Mrs. R. N. Blackwelder served as chairman of the committee on decorations with Mrs. Warren Adams and Mrs. Dallas Loop assisting her.

The room, on the east side of the hospital entrance hall, just opposite the main office, has a predominating color scheme of maroon and gold against the two shades of green of the walls. Sectional chairs, placed together, are covered in green plastic material. A corner tiered table, with a single brass stand, with a top of light-colored wood, is placed between the sectional. There are three Bibles, the Protestant Bible, given by the Sanford Ministerial Association; the Catholic Bible, given by Mrs. H. B. Pope and the Jewish Bible, given in memory of Mrs. James A. Epps, by Mrs. William J. Epps.

A modern design desk and chair of Philippine mahogany wood, sable color with lacquer finish, was purchased by the auxiliary. Other furnishings include a Toll desk lamp maroon color and brass; a desk set; small brass flower container with a side-triangle arrangement of artificial pink roses, lilacs or the valley and pink grapes. A maroon and gold waste paper basket stands beside the desk.

A beautiful Doric Ultra Step-A-Light floor lamp with tarlish red, resilient base and white shade, furnishes three way lighting and stunning heavy weight brass bookends, leaf design, grace a low table opposite the desk.

A number of books have been placed in the room including "A Guide to Confident Living" and "The Power of Positive Thinking" by Dr. Norman Vincent Peale; "Forever" by Mildred Bram; "The Prophet" by Khalil Gibran; "Call to Faith" by Richard Lintarline, as well as devotional booklets.

On the wall facing the entrance door is hung a 24x36 inch picture of "The Head of Christ" by the famous religious painter artist, "Bellini." A special treatment was given the picture to preserve it and to give an appearance of an oil painting. The frame has a dull gold leaf finish, simple in design.

The entrance door is finished with double nylon net glass curtains, with side draperies of silk maroon color material, jersey offering privacy to those within.

The room was furnished at an approximate cost of \$200. It is planned by the auxiliary as funds permit, to purchase much needed equipment for the hospital, as well as making the patient's rooms more attractive and "homelike," stated Mrs. Epps.

### Signs To Be Erected Publicizing Zoo, Business District

Within the next few days the Sanford Zoo and Business District will be highly publicized with the placing of four highway signs to the north and south of Sanford.

A program was recently developed by the Seminole County Chamber of Commerce publicity and advertising committee and presented to the Sanford Merchants Association Directors for their approval and assistance.

Two Chamber of Commerce signs previously publicizing the St. Johns River Cruises are being repainted to direct tourists to the Sanford Zoo and Business District.

Mrs. Harold Appleby volunteered to raise additional funds to pay for the location of two other signs both of which will fit into the overall program being carried out by the Merchants Association and the Chamber of Commerce.

One of the signs was erected Monday at a location near the corner of First Street and French Ave.

The three additional signs will be erected within the next few days and will be located as follows: On the left hand just west of the Sanford Boat Works plant on U.S. 90, on U.S. 90 just south of the French Ave. and Park Ave. intersection; and on U.S. 90 two miles south of the Sanford city limits.

The signs will carry "See the Free Sanford Zoo and Business District," and additional information and information as to how to reach the city.

### Soldier Returns After 17 Months In East Germany

BERLIN (AP)—The U. S. Army said today an American soldier has returned after a 17-month absence in Communist East Germany.

He was identified as Pvt. Gayler L. Turner, 20, of Montgomery, Ala.

Turner had been absent from his artillery unit in West Germany since Jan. 31, 1955, the Army said. The announcement quoted him as saying he had been living in East Germany all that time.

The soldier is undergoing a complete medical examination. He will remain in custody until his absence has been investigated.

### S. Carolina Girl Named Miss Dixie

DAYTONA BEACH (AP)—A South Carolina girl with brown eyes and brown hair beat out two Florida girls for the Miss Dixie title last night.

The crown, the \$1,000 scholarship and an assortment of merchandise and vacations here and in New York City went to Martha Dean Chestnut, 20, of Conway, S. C.

She represented her home state in the Miss America contest last fall and was a favorite with the crowd of about 15,000 that saw the finale of the Dixie Festival holiday pageant.

Miss Chestnut is 5 foot 7, weighs 125 and measures 36-24-36 1/2.

Francis Layton, 19, of Callahan was second and Carol Baldwin, 17, of West Palm Beach third.

In the afternoon 5-year-old Debbie Lynn Blanton of New Smyrna Beach won the Little Miss Dixie title.

### Bank Is Robbed Of \$28,000 Today By Lone Gunman

STARKE (AP)—A lone gunman robbed the Florida National Bank today of \$28,000.

Sheriff P. D. Reddish and the FBI immediately began an investigation.

They said the robber appeared to be 21 years old, 5 feet 11 inches tall, weighed 165, had dark brown wavy hair, a small mustache and hazel eyes.

He took the money in bills from the vault and bank.

President S. L. Frost Jr. was one of those held up by the gunman.

Bank employees said the man appeared to be a stranger in this town of around 6,000 population some 6 miles southwest of Jacksonville.

### Weather

Partly cloudy through Friday with clearing and cooling Saturday; low tonight 65 to 70.
