

WORLD'S FAIR
BDS IN BLAZE
E LIGHT, NOISE

Large Undertaking
Of Most Successful
Ever Undertaken

CHICAGO, Nov. 6.—(AP)—A Century of Progress rushed into the last mad hours of its existence tonight with the same gusto that made it the most successful American fair.

Conceived in a boom era, born in the depths of depression, it matured in a period of recovery effort and grew to giant stature. The sixteen millionth patron of the 1934 season was admitted, bringing to more than \$8,500,000 the number of visitors who entered the grounds since the fair was opened May 26, 1933.

The farewell was a pyrotechnical spectacle worthy of a show which will be remembered for its brilliant color and daring illumination.

A single movement on the drums of Holloway's midnight band led all the exposition lights for a second; then the show moved away again in an array of fireworks, flickering in darkness at last when the bells chimed at three o'clock in the morning.

The remains were dissected, an aftermath that will last months. Throughout the day preceding the Holloway's high jinks, cannon boomed, trumpets blared, whistles shrieked and bells rang. The din grew in volume and worked to a crescendo marked by a dazzling display of fireworks.

President Rufus G. Dawes of the fair corporation, Mayor Edward J. Kelly of Chicago and Governor Henry Horner of Illinois, headlined a half-hour program in formal farewell to the exposition.

At its conclusion Dawes pulled a lever which turned off every exterior light at the fair, locked every turnstile, and loosed the first bomb of a bombardment of 500,000 pieces of fireworks.

Coming on Holloway's, the occasion brought out a galaxy of magicians and through the evening there were costume contests, a parade and scores of celebrations.

Attendance for the two five-month seasons neared 29,000,000. The 1933 show counted 22,565,259 admissions. Of the grand total an estimated 15,000,000 came from outside Chicago.

ROLLINS HOPES
HIGH FOR WIN
OVER MIAMI 11

Fine Work Offstage
Gives Tarz Visions
Of Victory Saturday

WINTER PARK, Fla., Nov. 6.—Football stock at Rollins has taken a decided jump, upward, as a result of the recent work of Dave Schrage, Tar halfback, and fans are hopeful that the fleet-footed Chicago boy will reach the peak of his form next Saturday night in the game with Miami at Tinker Field.

Schrage has been slow in getting started this season, a sprained ankle early in the season making it impossible to display the power and dash which characterized his play in 1931 and last year.

amendment to permit payment of pensions to retired teachers. Looking back at Maine's prohibition repeal in the September election anti-prohibitionists were counting on at least a majority of the seven states voting on the question today to go over to their side.

Liquor is now legal in twenty-eight states, excluding Maine, which will join the column as soon as a regulatory law is framed. South Carolina, which with North Carolina were the only states to vote against repeal of the Eighteenth Amendment, also has started toward legalization. Voters in the primary there gave advisory consent to passage of a state liquor law.

Constitutional amendments proposing repeal of state prohibition were being voted on in Kansas, Florida, South Dakota, Nebraska, Idaho and West Virginia, while Wyoming will conduct a referendum on retention or repeal of its dry law.

In addition there was a referendum in Massachusetts cities and towns on whether to permit sale of hard liquors, or wines and beer. Of the twelve states to vote on tax proposals, five proposed state income levies, that in Louisiana range from 2 to 6 percent on individuals and a flat 4 percent on corporations.

Michigan, Montana, Texas and Washington were voting on income levies.

Florida will extend its fruit and sunshine battle with California to embrace the motion-picture industry, one of its constitutional amendments proposing exemption from taxation for fifteen years of motion-picture studios.

Arkansas was balloting on a proposal forbidding new taxes or an increase in existing levies, except by a three-fourths majority of the Legislature in an emergency. It also will hold a referendum on reducing the penalty for non-payment of taxes from 10 to 3 percent and giving delinquent 3 years in which to pay without penalty.

Besides the income tax, Michigan was counting a proposed gasoline levy of not more than 2 cents a gallon. Amendments in Ohio would limit the gasoline tax to 3 cents, restrict the use of such funds to highways and related projects, and exempt licensed motor vehicles from the general property levy.

Minnesota was to determine whether its Legislature should be empowered to exempt household goods and farm machinery from taxation, while an Oklahoma proposal would permit cities and towns to levy a tax for pensioning peace officers.

Oregon was voting on a 200-mill tax limitation; Texas authorizing the Legislature to impose occupational, poll and income taxes, and West Virginia on requiring women to pay a head tax now paid only by males.

Several states were considering the power question in various phases, Oklahomans being asked to make an amendment requiring utilities to obtain permission of the corporation commission before merging with or buying other utility companies.

Oregon was deciding in a referendum whether to authorize the state to vote bonds for state-owned power districts.

In addition to repeal, Nebraska was balloting on creation of a one-house legislature, an old favorite of Senator Norris, and legalization of pari-mutuel horse race betting.

Massachusetts also was conducting a referendum on pari-mutuel, the vote in each county in December for the county alone.

Railroads Told
To Cut Costs,
Improve Service

(Continued From Page One)

He telephoned here Thursday, explained the situation, and said that eight out of the ten local workers were in Lakeland being charged. The six were: W. W. Gotsch, county auditor, Jack MacDonald, Mrs. Thompson Margaret Edwards, Laella Mahoney, and Mary Fin-smill. Early Friday afternoon the payroll was ready, and Lakeland officials and employees had been given a lesson in efficiency which they received thankfully. The Sanford delegation returned home on Sunday.

At the suggestion of the New Smyrna Chamber of Commerce, this city and county through the Seminole County Chamber of Commerce will co-operate with New Smyrna in petitioning the Postoffice Department for the establishment of a star route between the two cities. At the suggestion of trade bodies in Tampa, St. Petersburg and Oklawaha, this section, also through the trade body is uniting with other cities in the St. Johns River Valley in a petition to the Postoffice Department to route airmail from St. Petersburg to Tampa, Lakeland, Orlando then north via Sanford, DeLand, Palatka, Green Cove Springs, and Jacksonville. Resolutions covering both subjects were passed at a meeting of the Executive and Finance Committees of the trade body, held yesterday, with the following attending: H. M. Papworth, H. J. Lehman, John Melech, Sr., S. G. Gray, W. H. Schmidt, L. L. Dumas, B. F. Malone, Arthur Branan, and Karl Lehmann.

A geological survey of the sources of water supply for irrigation of farms in this county was recommended by H. James Gut at the meeting of the Agriculture Committee of the Chamber of Commerce, held yesterday afternoon. Mr. Gut had been appointed at a previous meeting to get in touch with Hernan Gunter, State Geologist, in reference to the possibility of a survey and its possible cost. It was determined that such a survey should be made some time ago in the Sarasota district would have to be done jointly by the federal, state, and county authorities, and financed by them. Mr. Gut's recommendation is to be presented to the Board of Di-

rections of the organization when it meets next Tuesday night. The survey would indicate the sources of water supply and the danger from their depletion as a result of the waste from uncapped wells. Those attending yesterday's meeting included H. P. Haines, John Melech, Sr., H. J. Lehman, James Wilson, Andrew Duke, Jr., G. E. Baines, F. F. Dornier, E. J. Meyer, Gus Schmah, H. James Gut, M. E. Smith, and Karl Lehmann.

As president of Woodmen of the World District Two, C. C. Collins of this city has announced that the regular semi-annual business meeting of the District will be held at the American Legion Hall in Winter Garden, Friday night, Nov. 16, starting at 8:00 o'clock. There will be a parade, led by the W. O. W. State Drum and Bugle Corps of Lakeland, while degree teams from Sanford, Umatilla and Leesburg will compete for the honor of installing a new Camp at Winter Garden, where over 50 men are seeking admittance to the order. Installation will come during the meeting. More than 200 Woodmen are expected to attend this meeting. Mr. Collins said. Officers who will preside are: Mr. Collins as president, H. F. Hargis of Umatilla as secretary-treasurer, and the following vice-presidents: C. E. Thompson of Winter Garden, C. Demko of Umatilla, J. C. West of Orlando, Claude Gilmore of Leesburg, and Judge J. G. Sharon of Sanford. A chicken picnic supper is to be served by a committee composed of A. D. Mims, J. T. Porter, and Ray Bowden, he added.

Celebrations Committee of the Chamber of Commerce will meet at headquarters tomorrow afternoon at 4:00 o'clock to complete plans for the Charity Ball that is to be held at Mayfair Hotel on the night of Nov. 30. It was learned yesterday that the Fern-aid-Laughter Hospital is in need of a new operating light, and money that will be made on the Ball is to be used to purchase this article.

Wesley Itoza, young white resident of the Longwood section, is being held in the County Jail here awaiting the outcome of injuries sustained by Ellis Locke, Longwood laborer, during an alleged argument in that town late Saturday night following a dance. Locke is understood to have been struck over the head with a lead pipe and rendered unconscious. His condition was reported as only slightly improved today.

J. F. "Battle Axe Bill" Curry, officer for the Church of God in Florida, has returned to Sanford for a short visit to announce that the recent convention in Cleveland, Tenn., attracting 8435 registered delegates, "was the biggest thing we've ever had." Mr. Curry said that about 15 Sanford persons were in the crowd and that he and they did everything possible to boost Florida and particularly Sanford. A feature of the convention was a parade of about 1000 automobiles, he said.

Faced with an emergency that required immediate and expert attention, FEHA Regional Administrator O. P. Swepe at Orlando turned to officials and employees in the Seminole County set-up last week, and, as he reported in Orlando yesterday, they came through with flying colors and with credit to both the state set-up and themselves. The Folk county organization had not responded to the program mapped out for it, Mr. Swepe announced.

In his call for the special session of the grand jury, Judge Hare said it was "For the purpose of a thorough investigation of the laws of the State of Alabama have been violated by any person connected directly or indirectly with the recent jail delivery in which a prisoner from Florida was forcibly removed from the State of Alabama and lynched."

The negro was removed from the Escambia county jail at Brewton by a mob of more than 100 armed men, who took him back to Greenwood, Fla., near the spot where he killed Lois Canfield, young white girl.

New York, which now has oral betting, will consider the same issue in the next legislature.

THE ACCORDIAN TONIC SHOW

City Remains Dry
Even If State And
County Vote Wet

(Continued From Page One)

In cases where the store is located outside an incorporated city, the county must levy a license fee of \$750 and the state, \$500.

Another restriction requires publication for two weeks of notice of an intention to apply for a Davis package store license.

At noon today, County Tax Collector Jno. D. Jinks stated that no one had yet sought information relating to the opening of a Davis package store, nor had he received any data from state headquarters as to his part in the sale of licenses.

He did say, however, that a federal license for the sale of liquor could be secured for \$25 per year for retail stores and \$100 per year for wholesale stores. Many people around the county already have federal licenses covering the sale of beer, wines, and liquor, he added.

Assuming that someone complies with all the requirements of the Davis package law and is given a permit by the County Commissioners, liquor cannot legally be sold in the city of Sanford until its Commissioners pass an ordinance repealing present laws against the sale of liquor stronger than 2.2 alcoholic content by weight.

In April 1933, the Commissioners passed an ordinance permitting the sale of beer and wines of a weight not exceeding 2.2 alcoholic content. But they did not go further, and the sale of liquor still is prohibited by law, as far as the City of Sanford is concerned.

Stop Chills
and Fever!

Rid Your System of Malaria!

Shivering with chills one moment and burning with fever the next—that's one of the effects of Malaria. Unless checked, the disease will do serious harm to your health. Malaria, a blood infection, calls for two things. First, destroying the infection in the blood. Second, building up the blood to overcome the effects of further attacks.

Grove's Tasteless Chill Tonic supplies both these effects. It contains tasteless quinine which kills the infection in the blood and iron, which enriches and builds up the blood. Chills and fever soon stop and you are restored to health and comfort. For half a century, Grove's Tasteless Chill Tonic has been sure relief for Malaria. It is just as useful, too, as a general tonic for old and young. Pleasant to take and absolutely harmless. Safe to give children. Get a bottle at any drug store. Now two sizes—50c and \$1. The \$1 size contains 2 1-2 times as much as the 50c size and gives you 25 percent more for your money.—Adv.

Bilious Attacks

For bilious attacks due to constipation, thousands of men and women take Theodore's Black-Draught because it is purely vegetable and brings prompt, refreshing relief. "I have used Black-Draught," writes Mr. T. L. Austin, of McAdenville, N. C., "There is a package of it on my mantel now. I take it for biliousness. If I did not take it, the dizziness and headache would put me out of business. It is the quickest medicine I have ever used to relieve me of that icky."

PENNSYLVANIA GOES DEMOCRATIC

County Okeys Homestead Act, Local Option

Voters Nearly Five To One In Favor Of Exemption Measure; 1508 For, 308 Against

68 Percent Of Qualified Voted

Oviedo, Chuluota, Lake Mary, Forest City Turn Down Liquor

Two-thirds of the qualified voters of Seminole apparently want to live in tax free houses where they would be free to drink beer, light wines or even hard liquor, and to eliminate waste in governmental operations by reducing the number of circuit judges, the number of grand juries called into session and by setting up uniform provision for the operation of similarly sized cities and towns.

Further, they would let the people of Duval county decide whether or not they wanted to consolidate their city and county government.

That, in effect, is what 2000 of the county's 2978 qualified voters said at the polls yesterday.

They voted nearly five to one in favor of the Homestead Exemption Amendment. The vote was: for exemption, 1508; against exemption, 308.

They voted nearly three to one in favor of retaining the state prohibition amendment. The vote was: for repeal, 1000; against repeal, 413.

They voted nearly two to one in favor of selling liquor in Seminole county. The vote was: for selling, 1048; against selling, 551.

As far as the Homestead Amendment was concerned, the city voters' five-to-one approval was matched by the same kind of endorsement around the county. The vote in the two city precincts to hold 1931 for the amendment and 111 against it, while the vote in 11 county precincts totaled 557 for the amendment and 118 against it.

On the local option question, the margin was slightly different. In the city, the voters were nearly three to one in favor of local option, but in the county the margin was reduced to about 3 to 2 in favor.

The total local option vote in the city was 707 for and 294 against; in the county it was 341 for and 260 against.

On the First Amendment—to reduce the number of judicial circuits in the state to 15, allowing one circuit judge for each 50,000 population—they voted approval by 1213 to 160, or nearly eight to one.

On the Fourth Amendment—to reduce the number of grand juries and give the prosecuting attorneys the right to indict any person for any other than a capital crime—they voted approval by 920 to 272, or nearly four to one.

They voted three to one in favor of classifying towns and cities by population to make uniform provision for their incorporation, governmental jurisdiction, powers, duties and privileges. The vote was for, 823, against, 273.

They voted a little better than

(Continued On Page Five)

Voters Of Nation Assure Roosevelt Another Two-Year Right-Of-Way For New Deal

WASHINGTON, Nov. 7.—(AP)—The single rational certainty emerging from the congressional margins yesterday was that President Roosevelt won right of way for the New Deal for two more years.

In a sense the actual balloting was but the passing of a known horizon. Ever since the Maine results in September, the tallying of those Senate and House majorities for the Democrats had been about taken-for-granted, even by innumerable Republicans.

Now the event was over. Far ahead gleamed another horizon, with the figures "1935" beckoning.

Far from resting back, the Democrats—through Chairman Farley—already had announced the New Deal was going the same as ever. He mentioned the relief and Public Works policies especially.

And Chairman Fletcher for the Republicans said that party's national platform was unchanged.

(Continued On Page Three)

RED CROSS ROLL 'DICTATOR' LONG CALL DRIVE TO OPEN ON SUNDAY SAYS LOUISIANA SHOULD QUIT U.S.

NEW ORLEANS, Nov. 7.—(AP)—Louisiana State University students are making plans now for the annual Red Cross Roll Call membership drive which opens on Sunday, Nov. 11, according to a statement today by Mrs. A. W. Knox, chairman of the local chapter. The quota assigned to this chapter is 700 members, and Mrs. Knox says there is every indication that the goal will be reached, if not passed, during the roll call campaign.

A gain in membership was reported by the national organization for last year. Mrs. Knox said to-day "The organization did not suffer a serious loss in members at any time during the period of stress, such decrease as occurred was checked last year, and the response to the roll call this year is expected to be well up toward the pre-stress figure."

"Immediately after President Roosevelt was inaugurated in March, 1933, the Red Cross pledged its support and the use of all its facilities, and ever and over again the federal government has called on the Red Cross for cooperation. Disaster relief and relief and rehabilitation for veterans and soldiers and sailors are a permanent national responsibility of the Red Cross.

"In addition to this permanent service there has been close affiliation between the Red Cross and various Federal Emergency Relief activities during the past year. Red Cross chapters gave information as to emergency set-ups and administration; boys and war veterans were enrolled in Civilian Conservation Corps camps and in the ranks of Civil and Public Works forces.

"First aid was taught by the Red Cross on CWA and PWA projects, and is now being taught in CCC camps to lessen accidental deaths and injuries; public health nurses have worked to prevent illness and malnutrition in the homes of the needy and home hygiene instructors have taught girls and women

(Continued On Page Three)

Local Volunteer Workers Planning To Enroll 700 Members

Volunteer workers for the Seminole Chapter of the American Red Cross are making plans now for the annual Roll Call membership drive which opens on Sunday, Nov. 11, according to a statement today by Mrs. A. W. Knox, chairman of the local chapter. The quota assigned to this chapter is 700 members, and Mrs. Knox says there is every indication that the goal will be reached, if not passed, during the roll call campaign.

A gain in membership was reported by the national organization for last year. Mrs. Knox said to-day "The organization did not suffer a serious loss in members at any time during the period of stress, such decrease as occurred was checked last year, and the response to the roll call this year is expected to be well up toward the pre-stress figure."

"Immediately after President Roosevelt was inaugurated in March, 1933, the Red Cross pledged its support and the use of all its facilities, and ever and over again the federal government has called on the Red Cross for cooperation. Disaster relief and relief and rehabilitation for veterans and soldiers and sailors are a permanent national responsibility of the Red Cross.

"In addition to this permanent service there has been close affiliation between the Red Cross and various Federal Emergency Relief activities during the past year. Red Cross chapters gave information as to emergency set-ups and administration; boys and war veterans were enrolled in Civilian Conservation Corps camps and in the ranks of Civil and Public Works forces.

"First aid was taught by the Red Cross on CWA and PWA projects, and is now being taught in CCC camps to lessen accidental deaths and injuries; public health nurses have worked to prevent illness and malnutrition in the homes of the needy and home hygiene instructors have taught girls and women

Morro Castle Fired By Explosion Is Hint

WASHINGTON, Nov. 7.—(AP)—The possibility of an explosion of contraband munitions aboard the Morro Castle caused the fire which swept the liner and resulted in the death of 134 persons is mentioned in the report Dickerson M. Hoover has made on the tragedy.

Hoover, assistant director of navigation and steamboat inspection, said yesterday his report on the disaster also reviewed other possible causes of the blaze, among them incendiaries, spontaneous combustion and defective electric wiring.

2 Negroes Qualify For Offices In Atlanta

ATLANTA, Nov. 7.—(AP)—Two negroes yesterday qualified as independent candidates for alderman and school commissioner of the city of Atlanta.

Mauro Blackbear, a life insurance district superintendent, opposes Almeron W. Guy Coleman, Democratic nominee for another term from the first ward.

Dr. E. M. Sheppard notified Mayor Key he is running as an independent against School Commissioner H. J. Landers.

MERRIAM WINS OVER SINCLAIR

SAN FRANCISCO, Nov. 7.—(AP)—Upton Sinclair's bid for the governorship of California with his "E.P.U." plan has failed. Charging that thousands of votes had been "stolen," the former Socialist who won the Democratic nomination conceded the victory of his Republican opponent, Acting Governor Frank E. Merriam early today with a lesser kind of a recall movement.

With the defeat of Sinclair hopes for the immediate capture of part of California's vast movie industry.

High film executives had declared before the election that should Sinclair win, the industry would move to Florida.

Florida's bid still was strong, however, due to the passage of a Constitutional amendment exempting studios from ad valorem taxes for 15 years.

Governor Merriam, Iowa born, said his victory was "one of Americanism over radicalism," while Sinclair, author of the widely denounced "End Poverty in California" campaign, retorted, "We are going ahead and ending our program."

Upton Sinclair, Democratic candidate, reiterated yesterday that if he is defeated by Frank E. Merriam, Republican candidate, he will continue to fight for his cause.

7 AMENDMENTS WIN APPROVAL AROUND STATE

JACKSONVILLE, Nov. 7.—(AP)—Florida voters in their general election snatched statewide approval for seven amendments to the state constitution.

The amendments also gave a hearty vote of support to the New Deal by repealing all Democratic nominees for national and state offices they were opposed on the ballot.

A total of 1,000,000 votes from complete and unqualified figures for the amendments were counted.

In total returns late this afternoon for the Homestead Amendment, voters at the polls in Jacksonville gave approval by 1,000,000 to 300,000.

On the local option question, voters gave approval by 1,000,000 to 300,000.

The vote on the First Amendment—to reduce the number of judicial circuits in the state to 15, allowing one circuit judge for each 50,000 population—was 1,200,000 to 150,000.

On the Fourth Amendment—to reduce the number of grand juries and give the prosecuting attorneys the right to indict any person for any other than a capital crime—the vote was 1,000,000 to 250,000.

On the Fifth Amendment—to reduce the number of judges in the state to 15, allowing one judge for each 50,000 population—the vote was 1,000,000 to 250,000.

On the Sixth Amendment—to reduce the number of judges in the state to 15, allowing one judge for each 50,000 population—the vote was 1,000,000 to 250,000.

On the Seventh Amendment—to reduce the number of judges in the state to 15, allowing one judge for each 50,000 population—the vote was 1,000,000 to 250,000.

Former Sebring Bank Head Heads For Jail

SEBRING, Nov. 7.—Chester A. Skippy, former Sebring banker, yesterday was ordered committed to the state penitentiary by the judge of the trial court in the July of last year on conviction of embezzling funds of the suspended Highlands county bank.

Commitment papers were issued yesterday morning upon receipt of the state supreme court's mandate in the case, but Skippy was out of the county and not expected here until last night when he will be taken into custody.

Sheriff Schumacher said it had been reported previously Skippy would make last minute moves to evade the prison sentence, but had not done so late yesterday.

110,000 Acres Of Land Long Used By Local Hunters Closed To Trespassers

ORLANDO, Nov. 7.—E. C. Bess is bounded on the east by the beachside game preserve and on the west by the Morro Castle. The three tracts, now closed to hunters and sportsmen, are owned by the state and are the largest game preserves in Florida.

"I have to follow in the footsteps of my friends and my position exactly as they will help me in every way to protect the land," Bess says. "I say that the 110,000-acre tract is under fence and had been posted on all sides and at all corners. It was pointed out that the instructions would serve to establish a large game preserve which would prove beneficial in later years.

All the lumber companies' property lies in East Orange county and northern Ocala county. It is said to be one of the most beautiful sections of Florida abounding in lakes, streams, virgin timber and rare vistas of scenic beauty.

Little Change Anticipated In Securities Prices On Street As Result Of Off-Year Vote

NEW YORK, Nov. 7.—(AP)—Wall Street brokers have been talking widely about a post-election rise in securities prices, but if the stock market conforms to the November chart line of past off-year elections, the bullish hopes will remain unfulfilled.

Neither will the market, in event of history repeating itself, show any bearish reaction to the day's voting. For the story told by the charts, which show all of its upward and downward curves and safe wise movements for the last 34 years, is one of negative response to all elections except the quadrennial national election.

The theory that the market might show improved action after the counting of the votes was largely fostered by the frequent repetition of observation in trade quarters that business had been showing hesitancy and uncertainty pending outcome of the election.

On this basis the brokers have argued that whatever the voters' approval of the New Deal, trade could be counted upon to show a

(Continued On Page 2)

CODE VIOLATION CHARGED AGAINST LEESBURG FIRM

LEESBURG, Nov. 7.—A petition for an injunction to restrain the Walling Gate Company, Leesburg, from alleged violations of the code for the lumber and timber product industry was filed in federal court today by John W. Holm.

United States attorney for the southern district of Florida, acting under the direction of the federal general of the United States, charged that the defendants are now selling and offering for sale large quantities of lumber and timber products in violation of the code.

The code, which was passed by the state legislature in 1929, and which has been clearly shown and continued to show their intention to violate the code, is a violation of the code.

Such a violation, it is alleged, constitutes an unfair trade practice, giving the defendants an unreasonable advantage over competitors and demoralizing interstate commerce.

Holm presented the petition stating the practice will result in injury to the industry and will tend to defeat the purposes and objectives of the NRA.

Fletcher Says Bank Laws Now Are Okey

WASHINGTON, Nov. 7.—(AP)—Chairman Fletcher of the Senate Banking Committee, said yesterday he saw no reason why any drastic changes should be made in the banking and currency exchange control laws by the next Congress, and unless a positive agreement is reached over the proposed legislation the session would not be a long one.

After mentioning the Bank and Securities Act of 1933, the Securities and Exchange Act of 1934, the RFC and mandatory legislation housing and home owners' loan measures Fletcher said:

"My idea is we had better see what the experience of the administrators has been with reference to these acts before trying to change them. We had better go on with the laws we have without undertaking to pass drastic reform measures which would change the whole system under which we are acting."

200,000 Fire Wipes Out Block In Jax

JACKSONVILLE, Nov. 7.—(AP)—Fire swept through virtually an entire city block along the waterfront near the downtown district yesterday, doing an estimated \$200,000 damage, and adding a spectacular close to the city's election day.

Two firemen were injured and two spectators hurt, none seriously. Thousands of residents were attracted by the blaze, one of the largest here since the big fire of 1901 which almost wiped out the town.

The fire started in a building at the corner of Duval and Duval streets, and spread rapidly to the adjacent buildings. The fire was extinguished by the Jacksonville Fire Department.

The fire caused the destruction of several buildings, including a large warehouse. The damage was estimated at \$200,000.

Republican Citadel For Years Moves In—To Ranks Of States Endorsing New Deal

Democratic Sweep Is Overwhelming

By the Associated Press

Pennsylvania, long the nation's citadel of Republicanism, has gone entirely Democratic.

Returns from yesterday's national election in which Democrats generally triumphed over a whittled Republican line showed that Joseph P. Gurnea, Pittsburgh oil man had been sent to the Senate by Pennsylvania and George H. Lodge, former Maine Gov. to the House had been elected a majority.

Gurnea replaced the veteran David A. Reed, speaker of the congressional body. Lodge succeeded Gifford Pinchot, independent Republican who was eliminated in the primary.

Throughout the nation the Democrats collected 25 senators, winning nine seats from the Republicans to give them a two-thirds Senate majority for the first time since President Wilson's day, with four contests still undecided.

Defeated senators of all Republican and their opponents, all Democrats, are as follows:

In Missouri Senator Roscoe Frank C. Wall was defeated by Francis I. Mahoney.

In Indiana Senator Arthur Robinson was defeated by Sherman Minton.

In Massachusetts Senator Roscoe C. Patterson was defeated by Harry S. Truman.

In New Jersey Senator Hamilton F. King was defeated by Governor A. Harry Moore.

In Ohio Senator Sherman D. Fess was defeated by Van Dine Ross, whose conversion of that state into a Democratic state Senator David A. Reed was defeated by Joseph E. Gault Jr.

In Rhode Island Senator Felix H. Brown was defeated by Peter G. Bowers Jr.

In West Virginia Senator Henry H. Hatfield was defeated by Ben Holt.

In New Mexico Senator Bronson Cutting was perhaps defeated by Dennis Chavez.

In North Dakota Senator Lynn E. Frazier was perhaps defeated by Henry Holt in a close race.

In Maryland, George L. Radcliffe, Democrat, was elected to the Senate by Phillips Lee Goodson, Republican who had retired in a fourth term to give the Republican nomination for governor Radcliffe's old defeated former Senator Joseph E. France.

They also had named 211 Democrats to House seats compared to 100 Republicans, with many seats to be pending the GOP captured 11 Democratic seats while the Democrats took 15 Republican seats.

Democrats were leading in all four undecided Senate fights—two in New Mexico and in North Dakota and Wyoming.

Four states repeated their prohibition laws and four others were joining the wet parade in latest returns from wet party elections in seven states.

Kansas alone kept the prohibition amendment. West Virginia and Florida voted repeal. Antiprohibition was leading in Idaho, Nebraska, South Dakota, and Wyoming.

In California, Merriam was re-elected victory by Sinclair early today.

Seven thousand five hundred and twenty-eight incomplete precincts of 10,721 gave Merriam 661,396, Sinclair 522,488 and Haight, 149,134.

Other states where overturn was possible on the basis of inconclusive counts, were Pennsylvania, and Connecticut—both of which preferred Hoover in 1932—Indiana, Maryland, New Jersey, Ohio, Rhode Island, and West Virginia now all Republican; and Minnesota, where Farmer-Labor was possible on the basis of a

19 MEMBERS OF MIAMI ELEVEN TRIED VETERANS

Powerful Team Will Meet Rollins In Orlando Saturday

WINTER PARK, Fla., Nov. 7.—Nineteen members of the Miami football squad which will invade Central Florida for a game Saturday night of this week with the Rollins Tars are veterans of at least two years' service with the Hurricane colors.

Eight of the players from down state are playing their third year on the varsity, eleven are playing their second year, and fourteen are first-year men, as far as their varsity competition is concerned.

The outstanding star of the Hurricane's backfield is Cecil Cook, a diminutive powerhouse, who raised havoc with the Tars last year in helping to administer an 18 to 0 drubbing to Coach McDowall's team. Other brilliant performers on the squad are big Mike Sisaman, a 190-pound end from Exeter, N. H. who can punt plenty good; Charley Baker, a husky quarterback from Portchester, N. Y.; Peter Petrovski, a veteran halfback from Brooklyn, N. Y.; Gwynne Bierkamp, a powerful 6-foot end from Kittanning, Pa.; Walter Damsky, a 205-pound tackle, who is playing his third year as a varsity member; and Martin Kalix, a rangy guard from White Plains, N. Y. who has been a star for two years.

In the line-up which will face the Tars Saturday night, the line will have an average weight of 184, the backfield will average 168, and the average of the team will be 178. Rollins will be weighed in both the line and backfield but that is nothing new in the life of a Tar.

The sluggish work which characterized the work of Rollins in the game with Southern last Friday night is a thing of the past. This week, the Tar players are going about their practice periods with vim and vigor. Being "doped" to lose, the squad is determined, to the last man, to upset predictions. The players don't know how they are going to do it. But they are apparently going to try because nothing would be sweeter than to turn the tables on the Hurricane from Miami.

Lodge Plans To Open New Meat Market

Remodeled and reconstructed, Lodge and Son's Market, located at 113 Palmetto Avenue, will re-open again tomorrow morning after being closed for several days, with a full line of Western and native meats, according to an announcement made today by M. F. Lodge, manager.

With the exception of a small line of pickles, salad dressings, and crackers, this store will sell only meat products, the announcement said. "By changing my grocery store to an exclusive meat market I will be in a better position to serve my customers," Mr. Lodge explained this morning, when extending an invitation to his friends to visit the remodeled store.

JOAN HAS SON

HOLLYWOOD, Nov. 7 (AP)—A son was born Friday night to Joan Blondell, golden haired film actress, and her husband, George Barnes, cinematographer. The youngster, named Norman Scott Barnes, weighed 7 pounds, 12 ounces.

DR. ALBEE LAUDS BENEFITS FOUND IN OUR SUNSHINE

Florida Has 700 Hours More Of Powerful Rays Than Rhone

FORT MYERS, Nov. 7.—(AP)—Florida has 700 hours more of beneficial sunshine every year than the famous Rhone Valley health section, Dr. Fred Albee, noted home surgeon of New York and Venice, Fla., said last night in an address before the convention of the Florida State Nurses' Association.

Sea level sunshine in this state, Dr. Albee said, contains more vitamin building ultra violet rays than sunshine in other mountain health resorts.

Absence of dust in Florida gives persons full benefit of ultra violet rays for general health, bone, skin and gland treatments, he told the nurses.

"At Florida sea level, the intensity of ultra violet light is over 10 times more than radiation of a quartz mercury lamp consuming 100 watts per lamp," the bone specialist stated. "In Florida people naturally receive bodily tone and energy from the superiority of sunlight.

Sunlight treatment in the state, he said, has been of great advantage in the treatment of surgical tuberculosis, nervous asthma, skin diseases, bone grafts, and in skin diseases, bone grafts, and in skin diseases.

"Its stimulative effect is seen in increasing fecundity and treatment of defects of endocrine glands," he said.

General Motors Declares Dividend

NEW YORK, Nov. 7 (AP)—Director of General Motors Corporation yesterday declared the usual quarterly dividend of 25 cents on the common stock. In the previous quarter the corporation authorized an extra 25 cents in addition to the regular payment. The dividend is payable Dec. 12 to stockholders of record Nov. 15.

Declaration of the extra dividend three months ago followed publication of an earnings statement for the June 30 quarter, which was more favorable than that for the Sept. 30 quarter. For the second quarter the corporation earned a balance of 88 cents a share for the common stock against 48 cents in the third quarter.

Crooms-St. Augustine Play Scoreless Tie

Crooms Academy football team played a scoreless tie at Municipal Park last Friday afternoon with the St. Augustine team which it defeated last year by a score of 11 to 11.

Wasted opportunities prevented either team from scoring, although both lines played brilliantly on defense. The first half was a punting duel with the visitors having the edge, but during the last part of the game, Crooms came back and carried the fight all the way.

Once during the last half, St. Augustine took the ball to the Crooms one foot line to be held on downs, while later Crooms reached the five yard line to fall for the score.

Crooms plans a "Homecoming Day" game at Municipal Park next Monday afternoon, Armistice Day. The powerful Orlando team will furnish the opposition, and a record crowd is expected.

Federation Night" at the Elks Hall where members of Sanford Lodge will gather to honor State Elk Association President Caspian Hale of New Smyrna, and G. W. Spencer of Sanford, one of the state Association vice-presidents. Elks from many lodges in this district are being expected to attend, according to Howard Overlin, club secretary who urges every Sanford Elk to be present. "We're going to have an old time Elks party Friday night," he said, "and we want every member of the lodge to be present."

The Sanford Concert Orchestra will begin rehearsing a special program of concert music tomorrow night at the Elks Hall at 8:00 o'clock in anticipation of a public concert in the near future. George

C. Feltow, director, made the following statement in this connection: "The purpose of this concert is to attract the attention of all musicians to the fact that the Sanford Concert Orchestra is a civic organization, working in the interest of public music, and to provide public concerts for the benefit of all who wish to listen to good music. Since it is a civic work it should be of interest to all musicians of the county who take pride in their ability to play an instrument. I need more musicians for these concerts, especially violinists, and I am making an appeal to your civic pride to join the orchestra and do your part."

When Theodore Roosevelt went to Cuba to fight in the Spanish-American war, he took 12 extra pairs of spectacles with him, knowing that he would be helpless should he break his eyeglasses in battle.

Mothers--if you love your Children here's important news for you!

You can aid Nature in building strong bones, sound teeth, and straight, sturdy legs.

(softness of the bones), helps to build sound teeth.

Recognizing the benefits of child welfare and general public health, we are proud to announce that we have been awarded exclusive rights to put this natural Vitamin D in the new O BOY VITAMIN D BREAD.

New!

THIS announcement is of great importance to everyone in this community because it concerns the proper development of children. It deals in scientific facts which can be verified through doctors, dentists or public health officials.

The Finest Bread Plus Vitamin D

O BOY VITAMIN D BREAD costs more to make but is available to you at no increase in price. Each loaf contains 90 Steenbeck (240 U.S.P.) (900 A.D.M.A.) Vitamin D units.

Now at No Extra Cost

In the laboratories of Columbia University has been developed a process for extracting the Vitamin D from cod liver oil in concentrated form. This concentrate, called Vitex, can be incorporated in bread—and children eating Vitex Vitamin D Bread actually receive a supply of Vitamin D without knowing it.

Nutritional investigators advise an additional source of Vitamin D in the daily diet of children, to help nature make their little legs and backs sturdy and straight, their teeth sound, and their bones strong.

We are the exclusive bakers of O BOY VITAMIN D BREAD.
Tune In: 10:15 A. M. Wednesdays & Fridays Seybold Baking Co. Program WDBO

Medical authorities consider Vitamin D of very great importance, especially for the development of children; yet this necessary vitamin is almost entirely lacking in the ordinary diet. Vitamin D is an aid in the proper growth of bones, prevents the disease called rickets

Since you must buy bread for your family order O BOY VITAMIN D BREAD. It is the finest bread available. No other extra value bread like it is sold in this community. Easily identified—at your grocer in the new red, yellow and blue wrapper containing the Vitamin D Seal.

O Boy VITAMIN D BREAD

8 KILLED DURING ELECTION RIOTS THROUGHOUT U.S.

State Police, National Guards Called Out in Many Sections

NEW YORK CITY, Nov. 7. — Eight persons were dead and more than a score wounded in election battles as gunfire and street fighting swept scattered sections of the country Tuesday.

Four were dead as a result of shooting into a Democratic election eve parade at Kearsy, Pa., a hay mining town near Hazle-

ton. The dead were: John Fiorello, 65; William Forke, 33; John Golski; John Kostich, 36, of Lofry, Pa.

A negro was shot and killed in front of a Philadelphia polling place in a quarrel with a voter, supposedly over politics. The dead man is William Rocks, 38, Philadelphia.

A. Brown, 50, war veteran, was shot and killed by police in an election battle at Livingston, Ky., when he allegedly attacked Marshal John Lakes in front of a polling place with a knife. Brown seriously wounded the marshal.

Horace Ferrell, 33, Hermondale, Mo., was slain on a highway near Steele, Mo., by a group of white men, who said they were trying to prevent negroes from coming from Arkansas into Missouri to vote.

Twenty-five were wounded in the Kearsy shooting. Joseph Bruno, political boss of Kearsy township and 13 members of his family were held by police.

Two men were in a hospital and five were arrested as a result of election battles near Pittsburgh, Pa. State police guarded polling places at Braddock, Pa., and four policemen ordered arrested for invading an election booth in uniform and supposed using night sticks on voters.

Gunfire broke out on Chicago's South Side, when Dr. Joseph E. King, negro campaigner, was kidnaped amid a barrage of bullets. National Guard detachments were ordered into two couples in New Mexico to preserve order at polling booths.

Alfred Warney, of Scranton, Pa., was shot and killed near an election booth at Throop Borough, just after polls closed. He was called from the booth and five bullets pumped into his body.

Voters trudged to the polls in six ayes under a surface calm, although the tension resulting from the night's wholesale slaughter still was acute.

State police said the firing occurred when an impromptu parade of "Rebel Democrats" revolting against the dictatorship of Bruno, Republican leader, marched 500 strong past Bruno's home. Two bursts of fire were reported, one from each side of the street, the marchers suddenly breaking and running for their homes.

The onslaught left three dead and half a dozen wounded in the streets. Others who escaped were treated at hospitals and sent home. Those in serious condition include:

Dominic Perma, 32, near death and John Belongo, 32, Edward Escuret, 26, and John Saladego, 29, all seriously wounded.

Violence was reported in several Allegheny county elections in the districts surrounding Pittsburgh, Pa. Two men were in a hospital and five in jail following street fights at Lawrenceville, Pa.

Voters Nearly Five To One In Favor Of Exemption Measure; 1508 For, 308 Against

(Continued From Page One) ... two to one give the people of Duval county the right to decide whether they want to consolidate their city and county governments.

The only thing a majority of the voters of this county protested was the idea of exempting motion picture studios from taxation for a 15 year period. The voters turned this down as follows: for exemption, 1508; against, 308.

Assuming that almost everybody expected the Homestead Amendment and the state and county liquor issues to be approved as far as this county was concerned, the actual returns held only a handful of surprises.

The Homestead Amendment carried in every precinct in the county. Only in Chuluota was the vote close on this amendment. There, 25 persons voted for the amendment and 19 voted against it.

In every other precinct, the amendment carried by a margin of from a little better than two to one in Fern Park, Altamonte Springs and Oviado, to nearly two to one in Paola and Geneva.

In the two city precincts, the Amendment carried by 435 to 74 in Precinct No. 1, or nearly six to one on the west side of Park Avenue, and nearly five to one in

Precinct No. 2, or the east side of Park Avenue, and nearly five to one in

precincts in the city of Sanford. The total vote was 1508 for and 308 against.

Some indication of what was to come was given in the county-wide election which was held on Nov. 5. The Herald office in Ocala, Fla., Goldenrod, first of the county precinct to report on the ballot announced itself as five to one in favor. The vote at Goldenrod was 20 for the amendment and 4 against it.

From then on, the returns piling up for this amendment in every precinct revealed that while the amendment carried in favor of exempting the state prohibition from taxation, a majority of the voters of Oviado, Chuluota, Lake Mary, Forest City voted against the liquor in Seminole County.

The local option vote was in Paola, Geneva, and Ocala. The little settlement of southeast of Oviado, established

MERRIAM WINS OVER SINCLAIR

(Continued From Page One) ... the race for governor of California he will start immediately a campaign of education to bring about the recall of the winner.

The Democratic nominee said if he were defeated, the defeat could be traced to a campaign of "lies and vilifications."

"The campaign against our EPRC movement was one of unprecedented bitterness, with fallacies hardly to be believed bandied about by our opponents," Sinclair said. "They told the people that I was an atheist, a communist and a millionaire, printed fake attacks and frightened the voters with threats of arrest and dis-

charge.

"They said I have been inviting the unemployed to California, whereas I have been warning all not to come to California unless they have money in their pockets."

"We shall proceed after the election to educate the people of California into the meaning of production for use, the only way by which the unemployed can be taken off the backs of taxpayers."

"A reactionary administration can be elected in our state, but if the people will find it has no real program and will be confronted with a deficit of more than \$100,000,000 next year, the voters will put up and the party will have to pay. The reactionaries will be badly concerned with putting down strikes and starting business."

"The discontent of the people will amount to a tax, and I will call on our people to start immediately a campaign of education to bring about the recall of the party government within six months from date."

"I declare, I shall immediately issue a proclamation as governor, elect out of time, a definite plan of procedure for the immediate ending of our party."

Merriam said he would be glad to discuss his program with anyone who is interested in the state's future.

Republican Citadel For Years Moved In Ranks Of States Endorsing New Deal

(Continued From Page One) ... the Shipstead has prevailed. News of James P. Tuffey over-throwing the early lead of the G. O. P. among men, David A. Reed, for Pennsylvania's Republican Senate seat, overshadowed all developments. It was apparent that the Administration was set more on breaking the opposition hold on the Keystone state than on many another goal. It had put its very best efforts forth to that end.

Leading the Democratic sweep in the home state of President Roosevelt, Governor Herbert H. Lehman was re-elected early last night.

The Tammany incumbent, Dr. Royal S. Copeland, was also re-elected to the United States Senate on the basis of incomplete, but decisive, returns.

An ever growing roster of New Deal supporters elected to Congress or running well ahead brought an expression of delight from President Roosevelt near midnight last night and the claim of a "wonderful victory" from his party's high command.

Postmaster General Farley talked with the President by telephone and reported Roosevelt, receiving the results at his Hyde Park home, was "overjoyed."

Is This Too Good For Your Cough?

Croupism may be a better help than you need. It combines seven helps in one. It is made for quick relief, for safety.

Mild coughs often yield to lozenge help. No one can tell. No one knows which factor will be most for any certain cough. So our fan people, more and more, are using Croupism for any cough that starts.

The cost is a little more than a single help. But your druggist is authorized to guarantee it, so if you cough nothing if it fails, to bring you quick relief. Coughs are danger signals. For our fan's sake, deal with them in the best way known. (Adv.)

VISUAL NEWS of the WORLD in PICTURES

NEW ECHO IN SCOTTSBORO CASE

The famous Scottsboro case sprang into the news again when three men were charged with attempting to bribe Mrs. Victoria Price, a chief witness in the prolonged litigation growing out of a reputed attack on her and a girl companion by a group of negroes. The men are shown in Inferior Court at Huntsville, Ala., where they were bound over to the grand jury under bonds of \$2500 each. Left to right: Daniel Swift and S. Kone, New York attorney, and J. W. Pearson of Birmingham, Ala.

Seized As Spy

Miss Helen Lyter (above) of New Rochelle, N. Y., was seized, searched, stripped and held for seven hours at Munich on suspicion of espionage when Nazi storm troopers found her with a camera near where they were executing maneuvers. She was with Griffith Johnson of Washington, D. C. (Associated Press Photo)

TENNESSEE LOSES TO FORDHAM BY SINGLE POINT

The failure to make a point after touchdown brought defeat instead of a tie to the University of Tennessee eleven in a bitter struggle with the Fordham Rams at the Polo Grounds, New York. The Vols outplayed the Rams in every department except kicking, but went down fighting, 13 to 12. Here Toby Palmer, Tennessee's right halfback, is shown being brought down just as he nabbed a pass thrown by Charlie Vaughn. This pass paved the way for the Vols' second touchdown. Biggers, of Concord, N. C., is proud of the 26 months-old hound which he watched win the championship. (Associated Press Photo)

THEY HELD ELECTION SPOTLIGHT

In the most momentous off-year election in several decades, California has taken the spotlight from other states with a bitter gubernatorial campaign in which Upton Sinclair, right, former socialist sought the chief executive's post on the Democratic ticket. Governor Frank Merriam (center) was his opponent, and returns early this afternoon indicated that Sinclair had been defeated.

Cracker's New Pilot

Eddie Moore, former big leaguer, who has been named as manager of the Atlanta Club in the Southern baseball Association. Moore formerly played for St. Petersburg in the old Florida State League. He is well known in Sanford.

"Dictator" Long Says Louisiana Should Quit U.S.

(Continued From Page One) crats and all those other 'crats' up there." By "up there," it was understood he meant in Washington. The senator said he had enough on his hands in Louisiana without stopping to analyze politics in other parts of the country. Asked about Upton Sinclair, in California, he responded: "The State of Louisiana is big enough for me to handle—I don't know anything about those other states. There's two million people here in Louisiana and I'm just one in two million."

Left alone, though, the "kingfish" promised to have 4,000,000 people in Louisiana "in five or six years." The senator heard of a dispute as to whether Minnesota or Alabama had the best team in the country to play in the Rose Bowl this year. Before 8 A. M. he was on the telephone to tell the world who had the best team. "Louisiana State University," he lauded into the mouthpiece. "I'll tell you what we'll do," he hurried on. "We'll play both teams at any place they pick in the same week." His enthusiasm mounting, he added quickly: "We'll play 'em both the same day." By this time his talk in L. S. U. had run on all over the world, and his

enthusiasm went out of control: "We'll play 'em both at the same time—and if they're still afraid, we'll let 'em pick any 11 men they want out of our squad and we'll beat 'em with what's left, just provided they'll leave us four backs." "Now," roared the "kingfish," "let 'em come on and play us or shut up all this talk about who's got the best team in the country." Of all industries in Germany, the piano business probably is in the most difficult position, according to reports to the Department of Commerce. In 1932 German piano makers produced 157,000 instruments, valued at only 1,500.

Federal Officers Charge Tusconan With Robles Affair

WASHINGTON, Nov. 7.—(AP)—The Department of Justice today announced that its agents had taken into custody Oscar H. Robson, "Buster," upon authorization of the United States attorney of Phoenix, Ariz., as the kidnaper of six-year old June Robles. The department said that a federal complaint is being filed charging Robson with the sending of extortion letters through the United States mails. Robson, 31-year-old resident of Tucson, Ariz., was identified by system handwriting experts who

declared that the handwriting in the extortion letters which called for the payment of \$15,000 was his. For several years he has been connected with a dance hall at Tucson. The Robles child was kidnaped by an unidentified man Apr. 25 while she was going home from school. On the afternoon of May 14 she was found and returned alive to her home. There is no scientific basis for the popular belief that salt, aspirin, or baking soda will prolong the life of cut flowers. Flowers will, however, do fairly well if the water is changed regularly and the stems cut daily. The chief expert of Delaware, French West Africa, is ...

DOUMERGUE IS OUSTED AS PREMIER

Flandin Agrees To Organize New French Government at Request of President

PARIS, Nov. 8.—(A.P.)—French politics tossed Premier Gaston Doumergue into discard today, and Doumergue's minister of Public Works, Etienne Flandin, agreed to form a new French government and serve as Premier.

He accepted this task at the request of President Lebrun who previously had offered the premiership to the chief neutral in French politics, Pierre Laval, the resigned foreign minister.

Laval, however, declined the task. The French public was fearful of a repetition of the riots which brought the Doumergue government into being and watched the rapid succession of events with nervousness.

Doumergue had based his rule on the idea of a "political truce" and Lebrun called upon Laval in an effort to salvage that type of government.

Former Resident To Be Buried On Friday

Funeral services for Mrs. Agnes Armstrong, 79, former resident of Sanford who died in Detroit on Monday, will be held from the First Congregational Church tomorrow afternoon at 3:00 o'clock.

Rev. J. B. Root, pastor of the church, will officiate, and burial is to be made in Lakeview Cemetery opposite the body of her late husband, George Armstrong, A. C. railroad engineer who died here in 1912.

Mrs. Armstrong had been ill for about three months. She resided in Sanford for several years prior to 1917 when she removed to St. Augustine. In 1923 she left that city with her sons and they have made their home in Detroit since.

Her survivors are two sons, George E. Armstrong, who accompanied his mother's body to Sanford by train, and Fraser Armstrong, who is enroute to Sanford by automobile.

Friends of the family are invited to call at the Erickson Funeral Home until 2:30 o'clock tomorrow afternoon if they desire to pay their respects.

FRICK IS NAMED

NEW YORK, Nov. 8.—(A.P.)—Forl A. Frick, head of the National League's service bureau last spring today was elected president in succession to John A. Heydler who was named chairman of the board of directors, a new office. Harvey Trahan was elected secretary-treasurer.

Wine To Be Served Within White House

WASHINGTON, Nov. 8.—(A.P.)—The White House will serve light wines at state dinners this season, the first time since pre-prohibition days. It must be light and American wine in accordance with Mrs. Roosevelt's pronouncement on the subject when wine first became legal. No more than two wine glasses will be at each plate during any dinner. Mrs. Roosevelt made this announcement at her press conference today.

EXEMPTION ACT NOT EFFECTIVE UNTIL NEXT YEAR

Taxes For 1934, Prior Years Must Be Paid; Ad Campaign Urged

TALLAHASSEE, Nov. 8.—(A.P.)—Attorney General Cary D. Landis yesterday ruled the Homestead Tax Exemption Amendment, written into the Constitution by the Florida voters Monday, cannot apply to taxes levied and assessed for 1934 and prior years.

Its first effective year, he advised Comptroller J. M. Lee, will be 1935. State and county taxes for that year will become due Nov. 1, 1935.

Taxes for state and county purposes for 1934 became due and payable Nov. 1, six days before the amendment was ratified by an overwhelming majority in Tuesday's general election. A discount of 4 percent is allowed if taxes are paid during November.

Writing in response to an inquiry from Comptroller Lee, the attorney general said: "Under the adoption of the Homestead Tax Exemption Amendment... it is my opinion that the same is effective with respect to taxes levied and assessed thereafter. This in effect means that taxes for the year 1935 will not attach to homesteads up to the valuation of \$5,000."

"All taxes for the year 1934 and prior years levied and assessed against homesteads prior to the effective date of said amendment, even though they have not yet been paid, in my opinion constitute a continuing tax charge against homesteads on which levied and assessed until paid."

The amendment met stern opposition in Duval County, but emerged with a margin of 7798 to 6761 in its favor. Dade and Hillsborough counties, the other two centers of population, voted overwhelmingly for exemption.

A nation-wide advertising campaign to tell of the \$5,000 Homestead Tax Exemption law in Florida was advocated in Orlando yesterday by Walter W. Ross, member of the State Senate from Duval County. (Continued From Page Two)

WHEAT PRICE ZOOMS FIRST TIME IN MONTH

New Deal Landslide Serves To Agitate Financial Markets; More Inflation Seen

NEW YORK, Nov. 8.—(A.P.)—Financial markets, after manifesting apparent apathy to the New Deal landslide at the polls, finally surged upward in the late dealings yesterday.

The late upswing carried wheat above \$1 a bushel for the first time in nearly a month, gave the stock market its best turnover in four weeks, and sent average prices of industrial shares to the highest levels since late August. Net gains of \$1 to \$4 a share were numerous.

In the morning trading, stocks and bonds, notably U. S. government issues, sagged a little in sluggish dealings, and commodities were hesitant.

Buying was believed in brokerage quarters to be largely speculative, but some quarters said important buying of American securities for foreign account was evident.

U. S. government bonds were off as much as 1-32 to 7-16 of a point in the Stock Exchange at their lowest levels, but they recovered part of their losses as stocks and staples rallied. Final prices were 1-32 of a point higher to 6-16 of a point lower—one point representing \$1 per \$100 par value.

Some quarters in Wall Street were inclined to read inflationary implications into the overwhelming New Deal victory at Tuesday's (Continued On Page 2)

Hamilton Fish Sees GOP Needing New Set of Policies

NEW YORK, Nov. 8.—(A.P.)—Representative Hamilton Fish, a Republican survivor of the Roosevelt landslide, declared yesterday the "unmistakable mandate of the election is that the Republican party must humanize and liberalize its policies."

Fish, a vigorous opponent of the Roosevelt New Deal, was re-elected in the twenty-sixth district which includes the President's home county, Dutchess.

"The old guard reactionaries," Fish said, "were slaughtered by the voters all over the country. The Republican party must reaffirm its early principles enunciated by Abraham Lincoln that human rights are superior to property rights and that labor is prior to capital."

The leadership of the Republican party, he said, "and I do not refer to Henry Fletcher, head of the New York state committee, as they have just taken office, has been hopelessly Bourbon and in certain states dominated by wealth and special privileges. No amount of progressive lip service from reformed reactionaries out of sympathy with the rights and aims of the people will satisfy or deceive the voters."

The amendment met stern opposition in Duval County, but emerged with a margin of 7798 to 6761 in its favor. Dade and Hillsborough counties, the other two centers of population, voted overwhelmingly for exemption. (Continued From Page Two)

Paola Men Find Remains Of Mastodon, Mammoth Which Lived Here 10,000 Year Ago

George Smith, I. M. Dyess and D. B. Denmark, all living in the Paola section of Seminole County have announced the finding of the fairly complete skeletal remains of the American mastodon and also some mammoth material. This find was made in the Wekiva River about 11 miles west of Sanford about two weeks ago.

The major fossil material is as follows: a broken but complete lower jaw with four complete teeth; also a portion of the skull with three teeth in place, the upper part of the skull being represented by numerous fragments. A fourth upper tooth was also found. The tusks are represented by one large piece and several small fragments, probably part of one tusk.

Among the skeletal remains are the following: four complete leg bones and two fragmentary leg bones; a number of foot and toe bones; several ribs and vertebrae; a portion of the pelvis of one animal, probably the mastodon.

In addition to the above, two complete teeth of the mammoth in a very good state of preservation were found. It is believed that some of the above mentioned skeletal material represents both of the animals.

Upon making this find H. James (Continued on Page Two)

LIQUOR SALES PREVENTION OF ACCIDENTS GOAL OF RED CROSS

Several Days Delay In Prospect Before Officials Can Act

TALLAHASSEE, Nov. 8.—(A.P.)—While prospective dealers and transportation companies sought ways of meeting the new Florida liquor regulations yesterday, Attorney General Cary D. Landis ruled that intoxicating liquors cannot be legally handled before licenses are issued.

Licenses, he said, cannot be issued until the State Canvassing Board officially declares the result of Tuesday's general election when state-wide prohibition was yanked out of the Constitution after a stay of 18 years.

Meanwhile, a steady flow of applications from prospective liquor dealers was reported from various sections which he in counties that are wet through local option, either through a local referendum Monday, or by hold-over from pre-prohibition days.

The canvassing board is required to meet within 35 days after a general election, or sooner than that if official returns from the counties are received. Usually the state board meets about 10 (Continued on Page Two)

Oscar DePriest Out; Another Negro In

CHICAGO, Nov. 8.—(A.P.)—A scholarly negro lawyer from the old South has unseated Rep. Oscar DePriest to be the first of his race on the Democratic side of Congress.

By a margin of 3,000 votes, Arthur W. Mitchell, 37, one-time office boy to Booker T. Washington at Tuskegee Institute, was declared elected by the first Illinois district that since 1928 has been represented by the only negro congressman, DePriest.

"I've run my campaign on an educational basis and have tried to teach the people in this district that it is not a bad thing to be a Democrat," Mitchell said. He added he felt the race issue should not be the dominant idea of a negro in Congress.

Road Department Is To Call For Bids For Completing Lakefront Boulevard

A request, by resolution, that the State Road Department act at once in calling for bids to complete the lakefront boulevard was ordered sent to Department officials by members of the Board of County Commissioners when they met in regular session at the Court House yesterday.

By resolution, the Commission also endorsed efforts now being made to induce the War Department to establish an airplane base and training field at Arcadia.

ELECTION OUTCOME DISTURBING

Experts Ask If Trend Now Will Swing To Left As Result Of Apparent Mandate

WASHINGTON, Nov. 8.—(A.P.)—Of the major questions thrust forward by Tuesday's Democratic election sweep, two stand out above all others:

Will the forces of liberalism which massed at the ballot box push the pendulum of Administration policy still further to the left, producing a new cycle of pending, new advances in social legislation, and new projects for the control of business?

Which way will the Republican party go now, and when and how will the struggle for mastery of that party in 1936 begin?

Neither of these questions is easy to answer. On both sides, and especially among Republicans, there is apparent a certain bewilderment over the magnitude of the Democratic victory. Until that phase passes, to predict specific policies would be merely to guess.

Elements of uncertainty are many. In one sense, it is possible to regard the election results as a reorganized above of the pendulum to the left. By and large, those who were defeated were right-wingers. They condemned the spending program, complained of government restrictions on business, asked for an end to uncertainty at Washington. By and large those who won defended the spending, agreed with the restrictions (Continued on page two)

Mrs. Knox Tells Of Important Services Offered To World

"Training the public in first aid measures is one of the most important tasks of the American Red Cross," said Mrs. A. W. Knox, chairman of Seminole Red Cross chapter today. The roll call membership enrollment opens on Armistice Day, Sunday, Nov. 11, and from its proceeds this and other services of the Red Cross are supported.

"Two results have been noted time and again in the groups to which Red Cross training has been given," she continued. "First, there is a marked decrease in the number of accidents, as a result of the accident-consciousness the training has developed; and second, there is a lessening of grave consequences such as death or permanent crippling in many cases where proper first aid measures were used by those near the scene of the accident."

"First aid as interpreted by the Red Cross is the practical application of the age-old habit of neighborliness in time of distress. Accidents are inevitable, but they are not incurable. They can be prevented by the use of proper safeguards and that these safeguards be provided for all machinery and that carelessness be prevented on the part of the human beings who use the machines."

"All of us who drive or ride in automobiles should also be concerned over the great hazards on American highways. Approximately 30,000 men, women, and children are killed on our highways every year—a terrific toll, a number equal to the inhabitants in a middle sized city. And this doesn't take into account the maimed, the many injured for life, and the suffering and great waste entailed by these accidents."

"The Red Cross is giving much (Continued on Page Two)

LaFollette Victors In Wisconsin Vote

MILWAUKEE, Nov. 8.—(A.P.)—Two young brothers who dared to take their infant Progressive Party into battle against veteran Republican and Democratic hosts last night commanded the Wisconsin political arena.

On the sidelines with the country's liberal leaders, speculating on whether they now have the core around which to build a national third party. Many claim to see a new political alignment with progressives arrayed against conservatives of all groups.

Ritchie Supporter Concedes Defeat

BALTIMORE, Nov. 8.—(A.P.)—The Baltimore Sun, which vigorously supported Governor Ritchie's candidacy for a fifth term in office, last night conceded the election to Harry W. Nice, Republican.

With only 24 of the state's 1376 precincts left to be heard from, Nice had a lead of 2316. Governor Ritchie declined to make a statement. He was in conference with a number of political leaders last night. (Continued On Page Four)

Fleischer Ships 1st Cars Of Romaine

The first carloads of romaine shipped from Florida this season left Sanford this afternoon consigned to the New York and Sanford produce firm of Fleischer Bros. and Danziger, Inc. It was announced by Sam Fleischer, member and local representative of this pioneer organization. The quality of the romaine was considered good, and 450 baskets were stored in each of two cars. The product was harvested two weeks in advance of its usual time although the seed was planted on Oct. 10. The regular movement of romaine is expected to begin next week.

CITY NEWS BRIEFS

Local weather yesterday: High 79, low 61.

The City Briefer offers many happy returns to Lucian Johnson, Altun Steele, and others whose birthday anniversaries are to be celebrated tomorrow, and congratulations to Mr. and Mrs. Eddie Keene (nee Ols Spurling) on their seventh wedding anniversary, to be celebrated tomorrow. Congratulations also are extended to City missionary and Mrs. H. J. Lehman who will celebrate their 36th wedding anniversary tomorrow.

James O. Huff, commander of Campbell-Lossing Post of the American Legion announced today that because Monday is Armistice Day, the regular meeting of the Post has been postponed indefinitely.

County Judge J. G. Sharon, County Board Chairman John Meisch, Sr., and Supervisor of Registration W. J. Thigpen, comprising the Canvassing Board, will gather at Judge Sharon's office tomorrow afternoon at 2:00 o'clock to check the results of Tuesday's election in this county.

Seminole County Agricultural Association is scheduled to meet tonight at Seminole High School in a regular session. Among the items to be considered is the appointment, by the projects committee, of Rex Packard, E. J. Meyer, and Alex R. Johnson as the Association's representatives on the new State Farmers' Wholesale Market Advisory Board. The meeting starts at 8:00 o'clock.

Plans have been completed for the joint meeting of Cely Camp No. 625, Woodmen of the World and the Woodmen Circle, scheduled to be held at Woodmen Hall tonight, starting at 8:00 o'clock. (Continued From Page Four)

Mrs. O'Day Among Few Women Given Office

WASHINGTON, Nov. 8.—(A.P.)—Just five women last night were sure of seats in the House—the three feminine old timers on Capitol Hill and two warm friends of Mrs. Franklin D. Roosevelt.

One of the latter was Mrs. Caroline O'Day, Democrat, chosen New York's representative at large, for whom Mrs. Roosevelt actively campaigned, breaking precedent to do so.

Thirty-one women ran, and the result is only one campaign remained in doubt, Rep. Virginia Jencks, Democrat, trailing former Representative Purnell, Republican, in a close Indiana contest. Twenty-five were defeated.

Alabama Judge Orders Probe Of Election

FORT PAYNE, Ala., Nov. 8.—(A.P.)—Crowds, keyed to a high pitch over the closeness of election results in DeKalb county, yesterday afternoon thronged the streets and courthouses here as Judge A. E. Hawkins charged a hurriedly summoned grand jury to investigate alleged widespread violation of election laws.

Both Democrats and Republicans claimed the victory in Tuesday's election, the result of which may hinge on uncounted absentee ballots. The county administration now is largely Republican, but Democrats claim at least a 75 vote majority for their ticket when the absentee ballots are counted. (Continued on Page Four)

DEMOCRATIC VICTORY MOUNTING

Roosevelt Silent But Happy Over Outcome Of Most Amazing Sweep In 132 Years

WASHINGTON, Nov. 8.—(A.P.)—President Roosevelt, returning today to exercise his tremendous new power in carrying out the New Deal, says his party's victory grows more emphatic in the cleanup returns.

The late counts for congressmen gave the Democrats eight more seats in the House and the astonishing lineup reads as follows:

Democrats, 320.
Republicans, 7.
Farmer-Laborites, 3.

In doubt, three. Almost complete returns for the Senate showed the Democrats had 69 seats; the Republicans, 26; the Progressive, 1; and the Farmer-Laborites, 1.

This Senate line-up was based upon the assumption that the Democrats and Republicans would split the two seats in New Mexico as the latest returns indicated they would.

Late returns showed this roster of governors:

Democrats, 38.
Republicans, 3.
Progressives, 1.
Farmer-Laborites, 1.

President Roosevelt was silent but happy over the most overwhelming "off year" victory since the Federalists were ground to pieces by the Republicans 132 years ago.

He had a luncheon engagement today with Senator "Young Bob" LaFollette who won on the new Progressive ticket in Wisconsin while his brother, Philip, was capturing the governorship.

Home Owners League Thanks A. I. DuPont For Aid In Campaign

JACKSONVILLE, Nov. 8.—The Home Owners' League of Florida, through John E. Cecil, executive secretary, announced that the tremendous majority given at the polls Tuesday, in behalf of the Homestead Exemption Amendment, was made possible through the generosity of Alfred I. DuPont and members of his state-wide organization who came to the rescue of the League when it was facing a financial crisis.

Mr. DuPont, who is president of Alcoa Securities and chairman of the boards of the Florida National Bank of Jacksonville and Miami, yesterday lauded the overwhelming victory given the Homestead Exemption Amendment by the voters of Florida:

"I am much gratified that the electorate of Florida, by an overwhelming majority, has ratified the amendment to exempt small homes from all taxation.

"The primary benefit, of course, is to the small home owner and gives an added security to his family of great value. But, I am sure that every class of business enterprise in the state will benefit.

"I predict that the adoption of this amendment will mark the beginning of a revival in real estate, in that wide variety of business enterprises connected with the building industry and home furnishings and supplies. It will be a great contributing factor to the relief of unemployment in Florida. Unemployment has been most severe in the building trades, which will experience a marked revival.

"The advertising value alone of this advanced step in equitable taxation will draw many permanent residents and winter tourists to the state. The voters of Florida by this sound and intelligent movement, in the face of great opposition, started Florida on a new era of permanent and sound prosperity. The adoption of the Homestead Exemption Amendment will have far-reaching effects on taxation throughout the United States within the next few years."
