Mrs. McKay To Head County Federation

Mrs. Glenn E. McKay was installed as president of the Seminole County Federation of Women's Clubs at the meeting held in Geneva last Thursday with the Seminole County Council, Home Demonstration Clubs, as hosts.

Other officers who will serve with Mrs. McKay include Mrs. James Wilson of Oviedo, first vice president; Mrs. R. W. Wright, Sanford, second vice president; Mrs. W. B. Ballard, Altamonte Springs, corresponding secretary; Mrs. E. Davenport, Sanford, recording secretary; Mrs. Frank Evans, Lake Mary, treasurer; and Mrs. F. E. Geisler, Fern Park, auditor.

Mrs. F. E. Geisler, retiring president, presided over the business session and called for the reports of the eight clubs, which comprise the County Federation. A contribution was made by the federation toward sending a 4-H Club girl to the Short Course in Tallahassee in June.

It was voted by the members to observe the "noon-day" prayer which is being endorsed throughout the county for the safety of the men in service for their country. Members were reminded of Hospital Day on May 12 and urged to attend.

Mrs. Frank Evans, defense chairman, entreated members to enter into a spirit of co-operation in their respective communities by buying defense stamps and bonds whenever possible.

The next federation meeting was announced to be held in Sanford next Fall with the Sanford club as hostess.

The business meeting followed covered such subjects as: Emigration of attractive girls; arrangements of mixed garden flowers.

Those from Sanford attending included: Mrs. McKay, Mrs. Davenport, Mrs. B. D. Higley, Mrs. Ouida Wilson, Mrs. B. C. Moore, Mrs. C. P. Proctor, Mrs. W. A. Hewitt, Mrs. Roy Tullis, Mrs. D. D. Horn, Mrs. J. W. Sheffer and Dr. Elizabeth Tracy.

The retiring president, Mrs. H. H. McCallin, presided over the business session at which time the following reports were submitted:

Mrs. L. E. Spencer, chairman of the Florida Garden Club Association, reported that had been given at each meeting, including lessons in nomenclature; clippings for scrap books; names of flowers corresponding to the initials of the members; suggestions for Christmas tree decorations. Plants were set out at the Fernald-Laughton Memorial Hospital; Arbor Day three Kosterick trees were planted in the Fourth Street Park; 180 plants had been put at Christmas for people at West Side School to give to their parents; help had been extended the Junior Garden Club essay contest, a donation of \$5 given to the Salvation Army Drive, and helped to pay for a membership in the Audubon Society. The annual Flower Show of the Garden Club was sponsored this year by Aral ea Circle, and two war bonds purchased with the proceeds realized from it.

Mrs. W. B. Shippy, chairman of the Dirt Gardeners Circle, stated that during the year talk had been given on nomenclature programs were in charge of designated groups who gave information on Christmas decorations, azaleas, and camellias. Special emphasis was placed on flower arrangement; a garden quilt was held; and stress put upon the importance of each member taking part in the various programs.

Mrs. R. A. Newman, chairman of Rose Circle, declared that programs had been carried out as outlined in the year book in line with State and National Federation, a special study had been given to nature planting; the Red Cross sewing in September was sponsored by Rose Circle; repair of the pool at South Side School and bought seeds, plants and fertilizer; prizes of \$2.40 in defense stamps were awarded to school children, and a magnolia tree given for Arbor Day. A home flower show was presented and the garden tour for tourists participated in. A total of 25 memberships and one honorary member was reported.

A report of the Central Circle showed a full membership and interesting programs planned for each meeting. Explaining the meaning of a "Sensible Garden," Mrs. M. C. Swingle, horticulture chairman, told the best months for planting various gardens and flowers. She

that much gasoline he may buy it all at once or stretch the purchases over the 15-day period.

If a motorist uses his car in business, he must fill out his application, giving his name and address, the nature and description of his business or work, and answer the following questions:

If you drive to your work, what is the shortest mileage from your home to your regular place of work or commuting point?

How many miles do you drive each working day in carrying on your work (other than from home to work and back)?

What is the total average daily mileage customarily driven in the car described above to get to and from work and to carry on your work?

Are you making every possible effort to reduce the mileage by using public transportation and by doubling up with your neighbors (Answer Yes or No)?

It was emphasized that the plan is a temporary emergency program set up for 45 days until July 1, and must be put into effect immediately. Beyond July 1 no definite plans have been made. Rationing will apply to all of Florida east of the Apalachicola river which is west of Tallahassee and to all states along the Atlantic seaboard.

The first thing the average motorist should do is to hunt up his automobile registration card he got with his license tag and have it ready before registration starts Tuesday, Mr. Peterson said.

Large Scale German Offensive On Kerch Peninsula Folds Up

Nazi Attackers Are Forced Back In All But One Sector By Hard Fighting Reds

(By Associated Press) LONDON, May 12.—The British admiralty today announced three British destroyers, Lovely, Jockal and Kipling, have been sunk by German bombs in the Mediterranean. More than 500 officers and men were saved.

A big scale German offensive on the Kerch peninsula, supported by Rumanian divisions and warplanes, folded up today after four days of fierce Russian resistance, according to a British report. The Nazi attackers have been forced back to their starting point in all but one sector which now is under a savage attack by the Soviets, a London commentator said. The Germans announced the battle for the Crimean oil fields is the greatest offensive operation since last fall and is still in full swing. The Italians announced waves of German planes caught and sank three of four British destroyers in the Mediterranean seas. During May 11 in the Kerch peninsula, the communists said, four large warships between them expended thousands of shells and took the offensive.

This department from the Crimea... began a large scale movement toward the oil fields... heavily armed by Adolf Hitler... thousands of lives in previous efforts to get them.

Bottles Will Be Thinner, Cocoa Consumption Cut

(By Associated Press) WASHINGTON, May 12, (AP)—The War Production Board Monday made a clean sweep of the nation's favorite breakfast beverages, cutting cocoa processing about 50 percent after previous cuts curtailing tea consumption 50 percent and coffee drinking by 25.

All three of these products are imported from the hot countries and their imports are subject to the hazards of war and the shortage of cargo ships.

This country, whose citizens consume about 18 pounds of candy and confectionery apiece each year, is the world's largest user of cocoa beans. The average American does away with almost four pounds of chocolate annually, WPB said, but that's all changed for the duration.

Supplies in this country on April 1 would have lasted something less than one year if war had continued and interrupted WPB officials said. Under the new rules they will be stretched out for about 18 months.

Another WPB order required that glass bottles have thinner walls and come in fewer sizes and designs. The purpose is to make the available metal and glass-making materials available to the government for the production of war materiel.

Bottles for beer, ale and other beverages will be made of thinner glass. The same will apply to bottles for soda water and other soft drinks. The new order also requires that the minimum bottle capacity used for individual brands be specified.

Two new defense training classes for young men between 17 and 22 will start at the Sanford High School next week June 18, and boys who are interested in joining should immediately contact the school.

French Break In Relations With U. S. Is Foreseen

(By Associated Press) VICHY, May 12, (AP)—The German military in France today issued a sweeping decree taking 15 itself the powers to increase working hours in French enterprises and ordering employees to report immediately the number of categories of workmen available for other work. The result will be longer hours (presumably the order applies only in the occupied zone).

With French-German negotiations reaching the state of urgency, Field Marshal Herman Goering may meet tomorrow with Marshal Petain and Laval to reach final decisions, reported French diplomatic quarters today. It was predicted the French would refuse to accept the Martineau negotiations with a resultant break in relations with the United States soon.

Saboteurs have wrecked radio Paris, the key broadcasting station for Nazi propaganda in occupied France and the station is silent for the first time since the Germans marched into Paris nearly two years ago, the London Daily Mail reported in a dispatch from the French frontier today.

The giant masts and pylons at Bourges, 130 miles south of Paris, were destroyed by a gigantic dynamite explosion Saturday, the dispatch said.

Property trawlers here from Bourges declared the damage will take weeks to repair. Masts, pylons and aerials were shattered and twisted. Transmitting and relaying machinery were wrecked.

The station had not been heard in London for two days.

Defense Classes For Men, 17-25, To Start

Two new defense training classes for young men between 17 and 22 will start at the Sanford High School next week June 18, and boys who are interested in joining should immediately contact the school.

The classes will be in construction, maintenance and repair work, and in the use of tools. They will be held in the school building.

Fierce Fighting Chinese Force Foe To Retreat

(By Associated Press) Fierce fighting Chinese defenders forced the Japanese vanguard to retreat from inside of China's Yunnan province back to the Burma frontier town of Banting today, and each force now is trying to encircle the other, Chungking declared.

Chinese lines of entrapment held fast last night around the remnants of a Japanese column enveloped and slaughtered on the Burma Road despite the stock of reinforcements rushed from Burma by the frustrated invaders of Free China's back door.

Two hundred and fifty miles south of this dramatic scene of Japanese annihilation, another ill but forgotten Chinese army, by-passed by the reckless and headlong Japanese drive, reorganized the three Indian frontiers near the River Salween, was specially reported to have smashed three attacks by a fresh Japanese column in the Laitum sector near the River Salween.

Britain's commander in India, Gen. Sir Archibald P. Wavell, was disclosed last night to have reorganized the three Indian frontiers near the River Salween, was specially reported to have smashed three attacks by a fresh Japanese column in the Laitum sector near the River Salween.

Three army commands were created—northern, south and northwest. The vast central force will be administered under the central India command, whose major function will be to train new defense forces.

Over \$158,000 Has Been Pledged In Canvass Campaign

Frank Evans, Seminole County chairman in the recently concluded "Every American Canvass" has issued a revised report on the yearly expenditures for the county for war bonds and stamps, and with 60 of 62 canvass teams reporting, the total figure to be invested in bonds and stamps is \$158,581.60. This does not include \$10,077.25 that was not pledged but actually spent when the campaign was being conducted.

Of the \$158,581.60, Sanford residents will provide 192,156.40 on a total of 1,189 pledges. Second high in the county is Little Blavia which supplied officials with a high return of \$32,774.40 on 84 pledges. Lake Mary followed with \$8,476.60 on 63 pledges, Orvidio \$6,474.30 on 142 pledges and Forest City \$4,996.40 on 156 pledges.

Concerning the immediate pledge drive, Sanford \$10,155. Surprisingly enough, Bear Lake was second high with \$2,923.50. Orvidio was next with \$1,308.75. It is estimated that nearly 10 percent of the people in the county pledged to buy a certain amount of bonds or stamps every week or month.

Action Is Urged To Supply Gas Masks

(By Associated Press) WASHINGTON, May 12, (AP)—The possibility of imminent action in Europe has prompted members of Congress to urge special action toward supplying American war workers and civilians with masks for the protection of neck gas raids which might be attempted in this country, Senator Hill said.

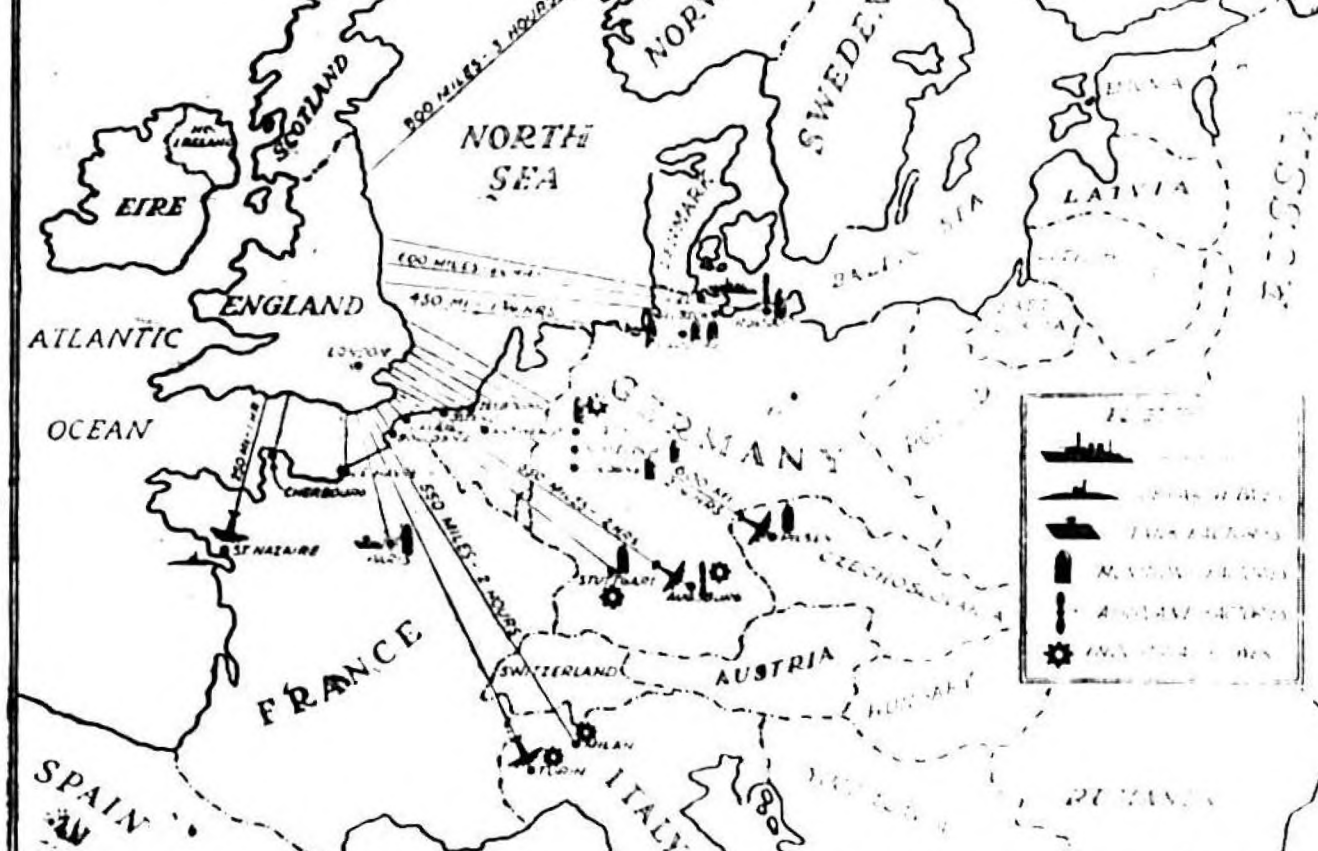

"I don't anticipate any gas raids in this country, but we can't afford to leave any stone unturned," Senator George said he was glad Prince Maurice, Winston Churchill's nephew, the war question into the open.

Younger Set Will Get Dance Place At Mellon Park

(By Associated Press) A campaign that has been gathering momentum for the last several weeks for the establishment of a proper dancing place for young people, mainly high school students, apparently will be successful with the announcement by the City Commission last night that the body is arranging for the construction of a dance floor in Fort Mellon Park for the younger set.

A petition signed by 254 of the city's leading citizens was presented to the Commission at its semi-monthly meeting last night asking that the school boards at Fort Mellon Park be filled in to provide a place for the construction of a dance floor.

There are over 1,000 vehicles in the county, but owners are not properly licensed. Many cars are not required to purchase gasline. Taxis and similar vehicles, however, must sign, but will be given X cards allowing unrestricted purchases.

Registration in Sanford may be accomplished at the Junior High School, the Office of Public Safety, or the Office of the Registrar. The office is open from 9:30 A. M. to 5:00 P. M. on weekdays.

Automobile registration cards for 1942, obtained with the purchase of 1942 licenses, must be presented when obtaining the ration card. Cards under the A classification will have seven units, each good for the purchase of three gallons of gas. These cards will go to the motorist who does not use his or her car for business. All cars are entitled to

Washington, May 12 (AP)—As motorists from Maine to Florida started registration for gasoline ration cards today, the Senate Interstate Commerce Committee recommended the investigation of possible use of inland waterways for the transportation of petroleum products.

Applications for more than the basic allowance must be signed and registered today. Motorists will take the applicant's word for his statements which will be made subject to a \$10,000 bond and 10 years imprisonment. Those applicants will get one of three types of "B" cards which carry 11, 15 and 25 gallons for the rationing period. If a traveling salesman or person in the country needs more than the maximum of 57 gallons for his business, he may apply for a supplemental allowance.

Car owners such as doctors who use automobiles in "essential" services are exempt from rationing, but should apply for an "X" or exempt card to identify their cars when buying gas.

On the eve of registration for gasoline rationing in 17 Eastern States, the Office of Public Safety today emphasized that only that driver who uses his car for business or in driving to and from their jobs, OPA officials said. They sought to put these fears at rest by assurance that "B" cards, which give a driver three gallons a week from May 15 to July 1—would be issued to provide the needed motor fuel.

Lehmann Says Payroll Allotment Plan Is Main Feature In Defense Saving

Karl Lehmann, deputy State administrator, held a roundtable conference with members of the Seminole County Defense Savings Committee Friday afternoon at which he declared the budget allotment program was the most important feature in the purchasing of war bonds and stamps by the public to lend funds to the government for use in its war budget. V. A. Soper, chairman of the county committee, stated this morning, about 25 members attended the meeting.

Under the allotment plan, every individual is asked to spend at least 10 percent of his weekly salary for bonds and stamps. It is said to be the most convenient, easy and systematic method by which the workers and salaried people of America can invest their money in the war effort.

3,500 Owners Of Passenger Cars To Sign In Gas Ration
