## HEARING IN THE FLORANADA CASE DELAYED 2 DAYS

Bankruptcy Petition Against  
American-British Improve-  
ment Corporation Scheduled  
To Be Held Next Saturday

PORT LAUDERDALE, Fla.,  
July 1. (AP)—Hearing in the bank-  
ruptcy petition against the Ameri-  
can-British Improvement Corporation,  
developers of Florida City,  
extensive real estate project near  
this city, today was postponed un-  
til 9:30 o'clock Saturday morning.

In motions for the two day  
postponement were filed from Miami  
by L. Earl Curry, recently  
appointed referee in bankruptcy  
in the case, to W. W. Burgess,  
trustee, who announced appraisal  
of the company's property also on  
Saturday.

A voluntary petition in bank-  
ruptcy was filed by the American-  
British Improvement Corporation in  
Jacksonville on May 31, the bill  
listing assets of \$2,000,000 and  
liabilities of \$8,591,576.11. It was  
said to have been the largest peti-  
tion filed in this federal court  
district in the past ten years and  
was believed to have set a new re-  
cord for the magnitude of the sum  
involved.

Aside from the pretensions scale  
on which the project was develop-  
ed, Floranada Club early attracted  
attention by reason of its promi-  
nent stockholders, among whom  
were included Mrs. E. T. Stotes-  
bury, Mrs. Horace C. Dodge, Lill  
man, countess of Lauderdale, Lord  
Hastings and Hamilton, Samuel  
Vandeman, James H. R. Crowne  
and others.

## Half Price Rate On Auto License Tags Is Placed In Effect

Half price rates on automobile  
license tags went into effect at the  
local agency of the controller's  
office this morning, and many car-  
owners were on hand to secure the  
permits authorizing the operation  
of machines until Jan. 1, 1927.

The half price rates can only be  
secured by the submission of papers  
proving that the car in question  
was purchased after June 15, R. W.  
Pearman, agency head, stated this  
morning. The agency will remain  
open daily between the hours of 3  
and 5 and those desirous of obtain-  
ing tags are urged to be on hand  
promptly at 3 o'clock, the short  
hours requiring the work to be ex-  
pedited greatly.

## Snake Bite Fatal To 2

DALLAS, Texas, July 1. (AP)—  
Two of four persons bitten in Tex-  
as by rattlesnakes yesterday, are  
dead. Mrs. Edith Jane Thornton,  
69, of Abilene died despite prompt  
first-aid treatment, as did Lon  
Burkett, 2, of McKinney. First-  
aid and administration of serum  
saved two children at San Antonio.

## Commercial Body Membership Asked End In Blanks

Questionnaires mailed to  
members of the Chamber of Com-  
merce have been received with  
blanks in the spaces asked for  
written answers. Commercial body  
announced this morning, but  
there have not yet been  
answers and the formation of the  
organization for the coming  
year is consequently delayed.  
President E. A. stated today,  
officials of the Chamber  
concern regard the organiza-  
tion big corporation repre-  
sents the interests of Sanford,  
and it would be  
the various members of the  
board of directors to formulate  
without first consulting  
member, and with this  
in mind we conceived the  
mailing to each member a  
blank inviting criticism and  
suggestions.

Plot To Kill King Of  
Spain During His Visit  
To Paris Is Revealed

PARIS, July 1. (AP)—What  
apparently was a well developed  
plot to assassinate King Alfonso  
of Spain during his visit to  
France has been prevented by  
the arrest of two members of a  
band of five.

The men are said by The  
Matin to have confessed that  
they purchased an automobile to  
follow the train on which the  
King and Queen were traveling,  
and to the king's death at the  
last stop before the train arrived  
at Paris. If this failed, it was  
their plans to slay him during  
his walks about Paris.

The men held are Spaniards,  
both notorious anarchists. One  
of them, Abadla Francesc As-  
curo, is declared to have confess-  
ed that he assassinated Cardinal  
Soldevila Y. Romero, arch-  
bishop of Saragossa, Spain, in  
June, 1923. He attempted to fire  
upon the police when he was ar-  
rested, but was overpowered.

## Dr. E. J. Pace Orders Plans For Land To Be Constructed On 500-Acre Tract

Huge Tabernacle  
Will Be Erected

Prominent Clergyman  
And Financiers Are  
Back Of Movement

A central rest and study  
camp for missionaries, home  
on furlough from foreign  
countries, and a large inter-  
denominational bible con-  
ference are to be established  
in the town of Longwood in  
the near future, according to  
an announcement made today  
by Dr. E. J. Pace,

internationally known Bible  
teacher, missionary and religious  
cartoonist, who inaugurated the  
movement several years ago and  
who heads the board of control  
under whose supervision the work is  
to be carried out.

When the sale of 500 acres of  
land immediately west of  
Longwood was made public this  
morning by the Lake Jessup Land  
Company, Dr. Pace was asked for  
an interview by a representative  
of The Herald. Asked if the re-  
port as to the founding of the  
conference was true he said:

"We are going to establish a  
missionary home and bible con-  
ference, inter-denominational in  
character at Longwood. On the  
shores of three beautiful lakes it is  
the purpose of those favoring this  
movement, to establish homes for  
the use of missionaries of all de-  
nominations or non-denominational  
boards while home on furlough  
where they may get physical re-  
juvenation and spiritual refresh-  
ment. Bible conferences, features  
will be for the benefit of  
citizens of Florida who wish  
to visit the country. It is the  
purpose to have a continuous  
conference for four or five months  
of the year and perhaps more. The  
purpose is not only to benefit  
missionaries while on furlough  
but physically and spiritually, but  
to interest tourists in the work of  
these same missionaries.

"In short the home is to provide  
a clearing house for missionary  
information and a stimulus to the  
support thereof. A board of con-  
trol composed of influential  
Christian men in Florida and lead-  
ers of the southern states are  
back of the movement.

Dr. Pace would not go into detail  
regarding the immediate plans of  
his associates. It is known, how-  
ever, that present plans call for  
the erection of a huge tabernacle,  
construction of homes and dormi-  
tories and for the beautification  
of the land which is to surround  
them. Three lakes are on the  
property, and all of them are to  
be utilized to the fullest extent,  
according to the plans.

The land sale was handled by  
Robert Long and Wade Thomas,  
all of whom have taken an active  
part in the long negotiations  
to bring the conference to San-  
ford County. A site had originally  
been selected near Gainesville,  
but matters over which the prom-  
oters had no control is said to have  
prevented the deal from going

## Douglass Requests Vacationists To Aid In Advertising City

Sanford literature and pictures  
depicting the beauty of local  
scenes are being carried away in  
large numbers by vacationists.  
President E. A. Douglass of the  
Chamber of Commerce announced  
today, and commercial body lead-  
ers are particularly pleased with  
the voluntary co-operation that  
Sanford people are exhibiting in  
assisting the organization to  
gather far and wide advertising  
material designed to intrigue the  
interest of out-of-state people.

"This grossing method of dis-  
tributing Sanford advertising liter-  
ature is the most effective system  
we could possibly obtain," Mr.  
Douglass said. "I want to  
thank every Sanford man and  
woman who has taken the trouble  
to carry away with them our at-  
tractive city and county pamphlets,  
intelligent distribution."

"If more vacationists and  
visitors would take with them  
readily interesting literature, we  
are only too glad to give the  
Sanford and Seminole coun-  
ties would be certain a profit mat-  
ter."

## Will Not Be Presented

LONDON, July 1. (AP)—The  
Evening Standard says today that  
Suzanne Lenglen, French tennis  
star, will not be presented at next  
week's royal court, because she  
finds it necessary to return to  
France for treatment for rheu-  
matism.

## L. C. Bebout Accepted As Member Of '40 And 8' At Initiation In Orlando

L. C. Bebout, local Legionaire,  
was one of seven "P.G.'s" or "post  
roots" accepted into the mystic  
circle of the "40 and 8" department  
of the American Legion at initiation  
ceremonies held at the Legion  
hall in Orlando last night, at which  
time seven candidates were taken  
into the order.

P. A. Mero, John Wimbush, John  
Hintermeister and Jim Huff were  
the local "40 and 8" members who  
accompanied "Eddie" Bebout to the  
ceremony, described by him as "very  
gruelling."

Three candidates from St. Cloud,  
one from Kissimmee and two from  
Orlando were admitted at the meet-  
ing last night.

The local chapter of "40 and 8",  
an organization which is to the  
Legion what the Shrine Club is to  
Masonry, will be completely reor-  
ganized and officers reelected at a  
meeting to be held in the latter  
half of July. Members of the club  
announced today, and plans will  
be adopted designed to make the San-  
ford chapter an active part of  
Legion activities.

## Sanford Real Estate Firms Report Business Steadily On Increase

Transfers of city lots and close  
proximity at Sanford are on the  
increase according to reports re-  
ceived at the Chamber of Com-  
merce offices from local real estate  
agencies, and indications are that  
by late summer or early fall the  
realty offices here will be handling  
a strong, healthy demand for build-  
ing sites and acreage with agricul-  
tural potentialities. R. W. Pear-  
man, commercial body secretary,  
said today.

Several city lots were sold within  
the last two days according to  
reports from various realty men,  
and deals now pending are ex-  
pected to run the week's total of  
transfers up to a point much high-

## ANDREWS' NEW DRY FORCE TO NUMBER 400,000

Most Extensive Drive Against  
Liquor In Seven Years Pro-  
hibition Has Been In Effect.  
Planned By Dry Chief

Appropriation Given  
By Solons, 29 Millions

Campaign Will Be Waged On  
Land And Sea With Attack  
Aimed At Largest Sources

WASHINGTON, July 1. (AP)—  
Prohibition's largest army of 400,000  
men was mobilized today—the  
first day of the government's  
new year for the most extensive  
campaign planned against liquor  
in the seven years of national pro-  
hibition.

General Lincoln C. Andrews, as-  
sistant secretary of the treasury  
in charge of a national enforcement  
unit, announced the campaign to-  
day on the basis of the largest appropria-  
tion ever granted for dry enforce-  
ment in one year—about \$29,000,000.

The campaign will be waged on  
land and sea, with the attack  
centered on sources of supply.  
Within two years, General An-  
drews promises not only more ef-  
fective enforcement but reduced  
costs and more popularity for the  
law.

Increased popularity will result,  
he holds, when it is proved that  
"we can protect the legitimate  
business from illegitimate com-  
petition."

He said the war would be car-  
ried on mainly against smuggling  
and diversion of industrial al-  
cohol and the "flood of high power  
beer." "The territory east of the  
Mississippi and north of the  
Potomac rivers will be the main  
battleground, although the re-  
gion prohibition staff will be main-  
tained throughout the country.

The additional forces of 906 men  
necessary to carry out this pro-  
gram probably will not go into  
action until next week, when the  
appropriation of \$29,000,000 car-  
ried in the factory bill now be-  
fore the senate, is expected to be-  
come available. These forces have  
been mobilized, however, and are  
awaiting the word.

To Combat Alcohol, Beer Leaks  
The new fighting units organized  
by General Andrews will include  
mobile squads of 88 men each  
to combat industrial alcohol  
and beer leaks. John A. Foster  
will direct the former squad, which  
has been ordered by Andrews to  
along the leak of 1,000,000 gallons  
of industrial alcohol being  
into bootleg trade annually. Thom-  
as E. Stone will supervise the  
beer squad with the task of get-  
ting "real beer" off the market by  
Christmas.

Other additions to the prohibi-  
tion army will include 250 men  
for border patrol, 318 men in pos-  
sible "under cover" men and 62 men  
for an assessment squad.

Largest Unit To Be At Detroit  
A large unit of the border pa-  
trol will be stationed at Detroit,  
where 37 will be added to the  
staff of three General An-  
drews considers this post the prin-  
cipal "leak" from Canada.

The new inspectors, who will be  
in charge with supervision of per-  
mits and drug stores, will be al-  
located as follows: 100 New York  
district, 25 Buffalo, 45 Pittsburg,  
75 Philadelphia, 5 Baltimore, 1  
Virginia, 3 Kentucky, 10 Ohio, 50  
Chicago, 3 St. Paul, 3 Omaha, 10  
St. Louis, 10 Texas, 3 Seattle and  
5 in the San Francisco district.

## Franc Establishes Another Low Record

PARIS, July 1. (AP)—The French  
franc today established another  
new low record, being quoted on the  
market at 25.90 to the dollar and  
173.30 to the pound.

Bourse circles were inclined to  
attribute the slump to the uncer-  
tain faith of the new Briand cabi-  
net, the coolness with which the  
recent ministerial declaration was  
received and the persistent signs of  
conflict in parliament over the  
pressing financial situation in France.

Eagles on United States cur-  
rency were copied from birds in  
the National Zoo.

## Evangelist To Return To Douglas Today To Aid In Investigation

DOUGLAS, Ariz., July 1. (AP)—  
Aimee Semple McPherson, Los  
Angeles evangelist, and her moth-  
er, Mrs. Minnie Kennedy, are  
scheduled to arrive here today and  
to aid local authorities in further  
investigation of the evangelist's  
story of her kidnapping.

It is understood the evangelist  
will visit a shack found in the de-  
sert south of here which answers  
the description of one in which she  
says she was held captive. Park, near  
her abduction at Ocean Park, near  
Los Angeles, May 16.

Authorities have continued the  
search for the shack she described  
when she appeared here recently  
in a state of exhaustion and told of  
her experience during the five  
weeks in which she was the object  
of a nation-wide search.

## Congress To End Saturday Afternoon Unless Plans Of Party Leaders Are Upset

WASHINGTON, July 1. (AP)—  
Unless plans of leaders unexpected-  
ly are upset, Congress will ad-  
journ at 3 o'clock Saturday, after  
the customary last-minute  
scramble of members to get action  
on pet local measures.

All of the major obstacles to ad-  
journment of the session have been  
disposed of with this session's  
farm relief record definitely  
closed and the bitterly contested  
rights and harbors bill given the  
right-of-way on the senate calen-  
dar beginning Dec. 14.

Senate pilots were confident  
they could steer the final defen-  
sive bill through to the hands of  
President Coolidge tomorrow  
night. It was reported to the  
senate yesterday and the way was  
cleared for its consideration today.  
Several amendments indicated  
that differences might have to be

adjusted with the house, which  
originated the bill, but little de-  
lay was expected on this account.  
Sponsors of the measure to es-  
tablish a radio control commission  
independent of other government  
agencies were hopeful that their  
proposal, on which the house has  
taken action, could be brought to  
a final vote, but others were doubt-  
ful that this could be done. The  
senate devoted yesterday to its  
consideration.

Despite the desire of many mem-  
bers of both chambers to get home  
for the summer and fall campaigns  
in which their seats are at stake,  
party leaders were unable to see  
their way to bringing about adjourn-  
ment until the unanimous consent  
agreement was reached by the  
senate yesterday to take up the  
Rivers and Harbors bill in Decem-  
ber, with the debate limited and  
a vote assured before Christmas.

## NYE IS TRAILING HANNA IN NORTH DAKOTA CONTEST

Rural Strongholds, Admitted  
To Be For Nye, Are Still To  
Be Heard From; Hanna Lead  
Reported At Nearly 5,000

FARGO, N. D., July 1. (AP)—  
With an opponent's rural strong-  
holds largely unreported, L. B.  
Hanna, Independent, or Coolidge  
Republican, came today led Sen-  
ator Gerald P. Nye, Non-Partisan,  
for the lone term Republican sena-  
torial nomination in North Dako-  
ta's primary election.

Similar reports marked the race  
to date. Hanna, who is expected to  
run on a special election to fill  
the unexpired term of the late  
Senator Ladd, ending March 3,  
1927.

Hanna's lead was based largely  
on returns from municipalities  
which generally are independent  
voting centers. The real outcome  
of the rural vote is yet to be de-  
termined.

A feature of the early returns  
was the failure of effort by a  
committee of "old-time Non-Parti-  
sians" to bring to life C. C. Town-  
ley, original league organizer, as  
a political power in the state.

Townley's interest in the attempt  
is not known, because he has been  
out of the state for several months.  
Democrats have a full state  
ticket without opposition and did  
not figure in the primary. The  
Farmer Labor group has contests  
in six of seven offices.

Returns from 274 precincts out  
of 2,167 for long-term senatorial  
race. Hanna, 16,538; Nye, 11,626;  
C. P. Stone, "wet" candidate, 2,533.  
For the short-term senatorial,  
273 precincts gave Nye, 10,577;  
Hanna, 43,117; Stone, 2,741.

## Many Requests For Houses Received By Commercial Body

Thirty-seven inquiries about  
houses and apartments for rent in  
Sanford have been received at the  
local Chamber of Commerce since  
the last two days, according to  
Miss Mary Powell, who is in  
charge of the housing department  
of the commercial body. Many  
of the inquiries were received from  
people already in the city, and  
others were sent in by telegram  
and letter, Miss Powell stated.

The accumulative effects of the  
municipal advertising campaign  
launched last season are believed  
by Chamber of Commerce officials  
to be largely responsible for the  
many inquiries received, since in  
nearly every letter mailed in to  
the commercial body the writer re-  
ferred to some Sanford advertise-  
ment which had appeared in his  
local paper.

"People in all sections of the na-  
tion are exhibiting more interest  
in Sanford at the present time than  
they have at any other time dur-  
ing my connection with the Cham-  
ber," Secretary R. W. Pearman  
said this morning. "Every mail  
brings scores of letters to my desk,  
and the great majority of inquiries  
are from good, substantial busi-  
ness men who desire to locate here  
permanently."

## Postmaster Says Condition Of Local Office Is Improved

The sorting, handling and deliv-  
ery of mail at the local post  
office is improving daily as a re-  
sult of a reorganization of postal  
machinery and the increasing spur-  
it of co-operation exhibited by San-  
ford people, Postmaster J. P. Hall  
stated this morning.

One extra clerk has been added  
to the personnel of the office and  
all routes and delivery systems are  
being carefully gone over, checked  
and revised when necessary.

In commenting on the condition  
of the Sanford office, Mr. Hall  
again solicited the aid of local citi-  
zens in speeding up mail delivery  
service by supplying authorized  
mail boxes or providing slots in  
doorways.

"There are still many homes in  
Sanford lacking proper receptacles  
for mail," Mr. Hall said, "and  
because of this situation the car-  
riers are delayed considerably."

He also asked that transients  
refrain from using the general tie-  
lines for more than the 15-  
15 days allotted.

## FLOODS DO MUCH DAMAGE

MEXICO CITY, July 1. (AP)—  
Dispatches from Cuernavaca say  
the floods in the Yautopac and  
elsewhere in the state of Morelos  
apparently were more destructive  
than first indicated. Although no  
deaths have been reported, the  
Yautopac railway station and a  
part of the suburbs of the town  
have been destroyed. Great dam-  
age has been done to crops.

Twenty three Florida cities is-  
sued building permits for \$14-  
746,360 worth of construction work  
during the month of June, compila-  
tion of totals made by the Asso-  
ciated Press here today revealed.

Eighteen of the twenty three  
cities reporting give totals for the  
first six months of this year total-  
ing \$96,603,943 for the period.

Miami leads both June and six

## Dr. Buhrman And Family Installed In Church Parsonage

Dr. W. F. Buhrman, new pastor  
of the First Methodist Church who  
was named at the last Methodist  
Conference to fill the vacancy here  
caused by the resignation of Dr.  
T. J. Nixon, arrived in the city  
yesterday with his wife and family  
to take up his permanent residence  
in the Methodist parsonage at  
Magnolia Avenue and Seventh  
Street.

Dr. Buhrman, who was formerly  
pastor at Hartwood, preached his  
first local sermon last Sunday at  
the Methodist church, returning to  
Hartwood shortly afterwards to su-  
perintend the opening of his house-  
hold to Sanford.

Two daughters and one small  
son accompanied Dr. and Mrs.  
Buhrman here, another son being  
on a vacation in the west. Dr.  
Buhrman's oldest son, Rev. Ar-  
thur Buhrman, is pastor of a  
Methodist congregation in  
Numerous members of the Meth-  
odist congregation were calling at  
the parsonage today to personal-  
ly welcome the new pastor and his  
family to the city.

## Prince's Engagement Is Denied In London

LONDON, July 1. The report  
published in a Spanish newspaper  
of the approaching engagement of  
the Prince of Wales to the infant  
Beatrice of Spain has, according to  
the Exchange Telegraph, been au-  
thoritatively denied.

It is also stated there is no founda-  
tion for the report, published in  
the same paper, that the prince is  
to make an official visit to Santau  
or San Sebastian during the sum-  
mer.

## Prince Will Entertain

LONDON, July 1. (AP)—Pro-  
longation of the London season by  
a week or two has given the Prince  
of Wales opportunity to complete  
his plans for entertaining guests  
at Marlborough House.

The house will be ready by the  
early part of August. In his or-  
derly planning, Wales will be assisted  
by his sister, Princess Mary, who  
will act as hostess.

## L. C. Bebout Accepted As Member Of '40 And 8' At Initiation In Orlando

L. C. Bebout, local Legionaire,  
was one of seven "P.G.'s" or "post  
roots" accepted into the mystic  
circle of the "40 and 8" department  
of the American Legion at initiation  
ceremonies held at the Legion  
hall in Orlando last night, at which  
time seven candidates were taken  
into the order.

P. A. Mero, John Wimbush, John  
Hintermeister and Jim Huff were  
the local "40 and 8" members who  
accompanied "Eddie" Bebout to the  
ceremony, described by him as "very  
gruelling."

Three candidates from St. Cloud,  
one from Kissimmee and two from  
Orlando were admitted at the meet-  
ing last night.

The local chapter of "40 and 8",  
an organization which is to the  
Legion what the Shrine Club is to  
Masonry, will be completely reor-  
ganized and officers reelected at a  
meeting to be held in the latter  
half of July. Members of the club

### CHURCH LEAGUE ASSEMBLY PLANS ARE COMPLETED

Thirty-Third Annual Meeting To Be Held At Bradenton July 5-10 With 500 To '600' Preparing To Attend

BRADENTON, Fla., July 1.—(AP)—Plans have been completed for the thirty-third annual assembly of the Florida conference Epworth League to be held in the First Methodist Church here July 5 to 10. Between five and six hundred delegates from all sections of the state will attend the assembly and leaders in missionary and recreational work as well as several of the most prominent pastors and leaders in the Methodist Church in Florida and other southern states will take part in the five day program.

Daily morning session beginning July 6 will be followed by recreational periods in the afternoon, and entertainment featured thus far planned include a reception at the Bradenton Woman's Club Monday night, July 5; motorcades Tuesday and Thursday afternoon; a track and field meet Wednesday afternoon and a fish fry and beach party at Bradenton Beach Friday afternoon. More than one hundred automobiles have been provided for transportation of the delegates through Manatee county and to the Gulf beaches.

Among the out of town church leaders who will take part in the assembly program are: Rev. S. W. Walker, St. Petersburg; Rev. G. A. Davis, Tarpon Springs; Rev. W. J. Carpenter, Palatka; Rev. F. H. Steinmeyer, Kissimmee; Rev. Ben F. Rogers, Live Oak; Rev. Ira Barnett, president of the Miami district of the Methodist Church, South; Rev. J. H. Daniels, Lakeland; Rev. Fred T. Barnett, Nashville, Tenn.; Rev. A. Fred Turner, Jacksonville; Rev. J. S. Murchell, Plant City; Rev. S. Garfield Evans and Mrs. Evans, missionaries to Cuba; Rev. O. E. Rice, Ocala; Rev. R. L. Allen, Tampa; Rev. G. Hutchinson, executive secretary of the Sunday School board, Methodist Church, Lakeland; Rev. M. O. Harbin, Nashville, Tenn. superintendent in charge of recreation and culture of the Methodist church, South; Rev. S. E. Garth, Miami; and Rev. A. M. Boyd, Tampa, evangelist leader.

Among the prominent lay officials who will participate are: Mrs. J. M. Gross, Leesburg, leader of the Woman's missionary society of the Methodist Church in the state; Miss Kathleen Plumb, Clearwater; Mrs. F. B. Langford, Jacksonville; Miss Jessica Stout, Orlando; Mrs. C. H. Arrowsmith, Tampa; Angus Williams, Tampa, president of the Florida conference.

### U. S. ENDS FISCAL YEAR SHOWING A LARGE SURPLUS

Report Shows Balance Totals \$377,768,000, Almost Four Times As Large As Was Expected Earlier In The Year

WASHINGTON, July 1.—(AP)—The federal government closed its fiscal year ending last night with a surplus of \$377,768,000. This margin, although below the estimate of \$300,000,000 recently made by President Coolidge, is almost four times as large as was expected by the president earlier in the year. The surplus will be used to reduce the public debt. The total cost of the government for the fiscal year, as disclosed today at the treasury, was \$1,541,987,000, while receipts for the year amounted to \$1,922,756,000.

### Riviera Abandoned By Army, Is Report

PARIS, July 1.—(AP)—Travelers arriving over the Franco-Spanish frontier declare that the government of Premier Primo de Rivera has been abandoned by the army, and that it is maintaining itself only with the aid of the police. They assert that grave political events are imminent.

Diapatches from Hendaye say Count Romanos, former premier of Spain, has taken refuge there to escape arrest in connection with the recent military movement against the primo de Rivera government. Some Italian aviators produce logic and warplanes and other commercial materials in such quantities that factories among them are both near the craters.

### Society Is Stirred By Thwarted Aspirations Of New York Woman

NEWPORT, R. I., July 1. (AP)—This city's exclusive colony was stirred today by public revelation of the thwarted social aspirations of Mrs. Melton J. Budlong.

Seeking a divorce, Budlong, wealthy New Yorker, testified that Mr. and Mrs. T. Sufferin Tabler, had failed to assist Mrs. Budlong to penetrate the citadel of Newport's society in exchange for Budlong's promise to sell part of his estate to Tabler for enlarging a golf course. Mrs. Budlong received considerable attention last year when she married herself in their New York residence and bombarded a curious crowd below with notes pinned to her husband's silk shirts. Mr. Budlong, who is seeking divorce on grounds of cruelty, testified that he bought the "real" estate from Tabler, and agreed to sell part of it back at the tabular

### Dade Constable Suspended By M...

TALLAHASSEE, July 1.—(AP)—Governor Martin today suspended from office P. Merritt, constable for the district of Dade county, to the executive order, and alleged malfeasance and conduct in office. The governor declared that Merritt was not qualified to serve as constable, and that he was guilty of malfeasance in the State court for violating a liquor law, and for which he received a seven-month year sentence on a fraud charge.

### PONZI SEEKS BOND

HOUSTON, Texas, July 1.—(AP)—Charles Ponzi, convicted swindler held here for Boston authorities, today is attempting to furnish \$20,000 bond set in district court yesterday. Ponzi said he would continue to fight extradition to Massachusetts where he faces a seven-month year sentence on a fraud charge.

### Interstate Traffic Body To Hear Rate Cases Of Railroad

TALLAHASSEE, Fla., July 1.—(AP)—The Interstate Commerce Commission has placed upon its calendar for hearing shortly the case of the Florida Railroad Commission, et al, versus a number of railroads of the southeast, in connection with extra charges on interstate shipments in refrigerator equipment. The charges, the commission declares are made on less than current shipments, between points in the states of Alabama, Florida, Georgia, North Carolina, South Carolina and Virginia. They are applied to agricultural consignments, but not dairy and poultry products and game, according to the brief in the case. Principally among the defendant carriers, the brief states, are the Atlantic Coast Line, Seaboard Air Line and Central of Georgia. A previous attempt to impose a penalty on less than current refrigerator shipments was made, the commission states, on interstate movements from one point to another in Florida, but passing through Georgia to their destination. An application for suspension was made to the Interstate Commerce Commission, it is declared, and the carriers "corroborated their rule." Epworth League; Miss Mabel Swope, Orlando; and Mr. and Mrs. F. Twilley, Tampa, song leaders. Business sessions of the assembly will conclude at noon Saturday, July 10.

How far do you intend to drive your CAR? Don't judge a motor car by its first 10,000 miles. Almost any car will go that far in a fairly satisfactory fashion. The miles from then on will show you the difference between Buick and a lot of other cars that sell for the same money. Buick cars are built for future, as well as for present use. Big volume makes it possible to build them without a quality compromise, and still keep the price low. Come in and look them over. The Better BUICK SANFORD BUICK CO. Magnolia Ave.

MARKETS

WALL STREET OPENING NEW YORK, July 1. (AP)—Prof- essional operations for the rise in today's stock market were shifted from the industrial to the rail shares, many of which were whirled un- in vigorous fashion to the highest levels of the year. U. S. Steel and General Motors, which had given a spectacular performance earlier in the week, were forced to absorb heavy profit taking and lagged be- hind the rest of the list without trending upward movement. Trading continued on a broad scale. The maintenance of heavy freight traffic in excess of a mill- ion cars a week, with its promise of larger earnings for the carriers, contributed to the strength of the rail issues, which were further stimulated by merger developments and dividend rumors.

Speculative attention centered mainly because of the belief that the modified Nickel Plate merger plan would merit the approval of stockholders and satisfy the objec- tions raised by the Interstate com- merce commission. With interest heightened by the meeting of direc- tors to consider the proposed Nickel Plate common, Chesapeake & Ohio common and preferred and Erie first and second preferred

Southern Pacific reached a new peak at 15 1/2, and New Haven at 12 1/2. India trial, moved ahead at a slower pace, but the mid-summer boom led to the renewal of an encouraged pool to proceed with their activities despite occasional interruptions. U. S. Steel at one time sold a point below yesterday's close and General Motors was 2 points lower, but Brooklyn Union Gas, Consolidated Gas, Air Reduction, Alamos Express, and North and Montgomery Ward had 1 to 1 points.

NEW YORK, July 1. (AP)—Stock prices continued to lag, ahead of the rest of the market, in the early trading. A general decline was noted in the afternoon, with a few exceptions. five-eighths and three-quarters, re- spectively. In reflection of the re- sult of negotiations for the Nickel Plate merger; New York. Susque- hanna & Western was up a half on the same basis. Other advances among the rails included Delaware & Hudson convertible 5s and Sen- ehard All-Florida 6s, while New York Central 3 1/2s were down a half.

Gains of one half were recorded by Polish 6s, Serbian 8s and Ger- man General Electric 6 1/2s but the French issue showed no response whatever to the decline of the price to a new low level. Polish 8s, Great Consolidated Power of Jan- uary 7s and Great 7s were off a half 5s; Mexican 5s ascended, lost in the face of the first disburse- ments on Mexican bonds since 1923.

Advances of a half to 2 1/2 points were made by Park Lexington 6 1/2s, Manila Electric Railways 5s, Kelly Springfield 8s and Brooklyn Union Gas 5 1/2s, American Beet Sugar and Colorado Fuel & Iron were heavy.

United States Government issues held relatively steady.

CHICAGO, July 1. (AP)—Trading away of crop prospects for spring wheat, together with a sharp ad- vance in Liverpool quotations, brought about an early new upturn today of wheat values here. Hot, unfavorable weather for the west has been reported. After opening 1/4@1 1/4 higher, wheat continued to advance. Corn, oats and provisions were also firmer, open starting 1/4@ 1/2 up and retaining much of the gain.

Advices regarding spring wheat in South Dakota were that ungen- uine rain came at once much wheat in the northwestern portion of the state would not even make seed. There was also word that in sec- tions of North Dakota some fields were beginning to fire, and would fail to average much better than seed back. Unofficial crop reports issued here today suggested a total do- mestic yield of about 205,000,000 bushels of spring wheat this ses- son, and 500,000,000 bushels of win- ter wheat. Heavy losses by drought in Nebraska and Northern Kansas were indicated. The condition of spring wheat as a whole was put at 88.6 per cent with possibilities of recovery poor. Only four times in twenty years has the prospective spring wheat crop been so small.

THE BEST TEACHING

These words, which I command thee, shall be in thine heart; And thou shalt teach them diligently unto thy children, and shalt talk of them when thou sittest in thine house, and when thou walkest by the way, and when thou liest down, and when thou risest up." Deut. 6:6,7.

PRAYER: "Teach me, my God, and King, In all things Thee to see; And what I do in anything, To do it as for Thee."

THE LOVER'S RESOLUTION

Shall I, wanting in despair, Die because a woman's fair? Or make pale my cheeks with care 'Cause another's rosy air? He is fairer than the day, Or the flowery meads in May, If she thinks not well of me, What care I how fair she be?

Shall my silly heart be pined Cause I see a woman kind? Or a well-dressing nature Joined with a lovely feature? He who meekly, kindly, than Turtle-dove or pelican, If she be not to me, What care I how good she be?

Cause her fortune seems too high, Shall I play the fool and die? She that bears a noble mind, If not outward helps she find, Thinks what with them he would do That without them dares her woo; And unless that mind I see, What care I how great she be?

Great, or good, or kind, or fair, I will never the more despair; If she loves me, this I believe, I will die ere she shall grieve; If she slight me when I woo, I can scorn and let her go; For if she be not for me, What care I for whom she be? —George Withers

Compulsory Military Training

Most American people have a deep seated abhorrence of militarism, and are anything but imperialistic in their views, but it is doubtful whether President Coolidge's expressed disapproval of compulsory military training in schools and colleges will find general favor.

It is absurd to hold that military training has a tendency to bring on wars, and it is equally ridiculous to argue that the broad and democratic system of military taught in America promotes a militaristic and bigoted spirit among the youth of the nation.

And aside from any connection that military training may have with ultimate military crises, the mental and physical benefits that it offers are the direct cause of America's prosperity, for in modern business, generals of strategy and initiative are needed, and there is no course of instruction better designed to development leadership and tenacity than sensible military training.

Putting the shackles of discipline on plastic and thoughtless youth is the one best way to make of the wayward, careless young man an executive with force and drive, and the ability to lead others. The boy who is daily required to do a certain thing at a certain time, who is punished consistently for every breach of discipline, soon learns to respect constituted authority, and respect for constituted authority is the fundamental, basic requirement for good citizenship.

The tolerant and rather amateurish system of military training followed by the majority of military colleges in America can in no way be compared to the harsh, autocratic, steel shod disciplinary methods practiced in pre-war Germany.

In the American college system, every man in the ranks is given ample opportunity to rise in authority if he has the ability and the ambition. There is no suppression of individuality except during the actual maneuvers of the companies, and while some take orders from others, it is generally understood that it is but a game to be played in good faith, and when the company is disbanded rear rank privates and cadet captains and lieutenants mingle at the nearest hot dog stand. There is no caste lines, no autocracy, nothing but democratic good fellowship although opponents of compulsory military training would have us believe otherwise.

And far from instilling a love of war and bloodshed, compulsory military training generally converts the student to a craving for peace, a longing for some nice office job where hikes and field maneuvers and reveilles are not.

After four years of military, the graduate takes into civil life all the benefits of the course, leaving behind all thoughts of war and longings for battle field glory. War to him is a much more foolish picture than the one confronting the man who has never shouldered a rifle, and he will be the last to get out and start one. But when wars come with the inevitableness with which they must always come, the man with the military training is the man who steps into the breach, organizing and training others for their tasks.

The benefits of military training in schools and colleges are unquestioned. In times of peace, a graduate of a military school is much better fitted to make a success in business than the man who has had no executive training, and in times of war, the man possessing the rudiments of military is the man who saves the nation.

Only radical pacifists and shortsighted idealists could sincerely believe that compulsory military training in American schools engenders militarism and imperialism. The results of the system have proven otherwise, and the hundreds of thousands of graduates of military schools will always endorse the American collegiate military code as an institution doing more for character building than any other one factor in college life.

Florida Showers

Most of us are wont to rant and rail at the almost daily showers that seem to come just as the ball game starts, or at some other equally inopportune moment, but meteorologists tell us that these rains are really blessings in disguise, sent down by a kindly providence for the comfort of those who are blind and unappreciative enough to curse them.

The Florida peninsula, these weather sages tell us, would be unbearable in the summer without almost daily rains, and if an argument is desired, these delvers into the mysteries of the elements can produce mountains of statistics, mathematical calculations and formulas showing that plant and animal life in this state would be impossible if the earth here should become dry and arid.

Located as we are at the southernmost tip of the nation, almost within the tropical zone, it is easy to believe that life would become intolerable in Florida if refreshing showers did not come at frequent intervals to keep the earth moist and damp, and the temperature at the equable point enjoyed here.

It is exasperating indeed to have a good ball game or a Thursday afternoon picnic smashed by rain, but it would be much more exasperating to work all day in sweltering heat, and then try to sleep through nights of more unbearable heat.

In the tropics, nature sends a regular rainy season, during which time rains fall continuously for weeks and sometimes months at a time. We may rest assured that there is a good reason for this condition, and working on the basis of it is logical that Florida, which is almost semi-tropical should receive a shower a day during the summer months. The Lord has our comfort at heart, and if it rains every day it is certain that rains are sent to prevent some other more unpleasant situation.

The weather is all right. It's the knucker who are all wrong.

PIRATING SERMONS

It seems a little strange that a church council should find it necessary to censor its own members, but it is not surprising to find that a group of other ministers, who are willing to practice the kind of desecration that is being done in New York. If any body of men should be actuated by a sense of honor that would not try to pass off as their own the work of someone else, it would seem that ministers of the gospel should be such a body. Unfortunately, it is never possible to determine the actual character of a young man, unless he is admitted to the ministry. For this reason there are black sheep in this profession as in others.

There seems to be evidence that a very considerable number of preachers do not consider it dishonorable to use sermons written by others. There are a number of publishing houses which make a business of supplying "lame sermons" to preachers who lack either the ability or the energy to prepare their own. Some of these may be had at as low a price as seventy-five cents. Probably many of these sermons are better than those which would have been prepared by the persons who buy them, and the joy of a good thing for the honoree, just what influence a man would have upon a group of people if he were willing to practice the kind of desecration that is being done in New York. If any body of men should be actuated by a sense of honor that would not try to pass off as their own the work of someone else, it would seem that ministers of the gospel should be such a body. Unfortunately, it is never possible to determine the actual character of a young man, unless he is admitted to the ministry. For this reason there are black sheep in this profession as in others.

Steel above 110. Purifying Her. David Danced It, Perhaps. Mysterious Money. BY ARTHUR BRISBANE (Copyright 1926, by Star Co.)

UNITED STATES steel crossed 110 yesterday, highest price. That started speculative section that will drag in little lambs all over the country. Stocks were up, bonds also, bears were down.

Individual owners of United States Steel common number 25, 671 and all wish somebody would answer these questions. What will "steel" do with its four or five hundred millions of more of accumulated cash?

Will it pay out accumulated reserves and leave itself naked to the winds and waves? Or will it issue a stock bonus? If so, what dividend will that new stock pay? Answer those questions and you can become rich in the short time needed to call up your broker. Don't gamble!

ELO ZIEGFELD, of many "folies," does not mean to have the wicked tale of indecency which he devoted his life to "selling" American girls, he now announces his intention to "purify the American stage, and the American girl with it." He advertises a show in which the most beautiful girls ever seen on earth are "properly clad." Those that have been young and now are old, little thought they would have to hear Elo Ziegfeld's announcements, ready costumes for stage plays.

## SANFORD TROUNCES GROWERS TO WIN SERIES

### Arrangements Are Made For Baseball Benefit On Thursday

Plans Are Outlined At Meeting Last Night By Douglass; Girls Are To Participate

Gala Occasion Is Plan Of Officials

Benefit To Be Staged With Sarasota Gulls As Local Opponents

Arrangements for the baseball benefit to be held at the Municipal Park next Thursday afternoon on the opening day of the Sanford-Sarasota series, were outlined by Vance E. Douglass, president of the local club, at an enthusiastic gathering of baseball fans at the court house Wednesday night.

Details of a campaign by which funds will be raised for the Sanford club were made public and the whole-hearted support of the citizens of Sanford was urged. Starting today, the campaign will be continued until next Thursday, coming to a close at the baseball park where a Hudson automobile will be given away by the club officials.

Present plans of the campaign call for the participation of many Sanford girls, some of whom had already entered the campaign already this morning. It was also announced that season tickets to the games will be given to those girls who dispose of 100 books of tickets to the benefit, and to the one selling the largest number of books \$50 in gold will be given.

The campaign is expected to create more widespread interest in the club, which already has many supporters among local citizens. The largest crowd of the year is expected to be present next Thursday and President Douglass plans to make the affair a gala occasion.

Funds raised during the campaign, he said, will go toward making preparations for the club's fight during the second half. The team, whether it wins or loses the first half, will make every effort to win the second half, is the assertion of Mr. Douglass, who told the gathering that there is a strong possibility that the winner of the Florida League title may play the champions of the Southeastern League in the fall.

### Chain Shoe Stores To Enter Business In Central Florida

John Stam, a representative of the Crown Shoe Stores, Inc., was in the city yesterday investigating local retail business conditions preparatory to the entry of his company into central Florida business.

The first store of the chain organization which Mr. Stam represents is to be opened in Orlando next week, at 53 West Church Street. Another store is to be opened in the immediate future at Daytona at 1414 South Beach Street. Style and retail business and also in shoes from the fashion centers, such as New York and Chicago, are to be featured in all the Florida stores, according to Mr. Stam.

Mr. Stam has had a wide experience in the shoe manufacturing and retail business and also in chain store operation throughout the south. He is inaugurating a "one price" policy in the Florida stores, specializing in shoes that are to retail at \$5 the pair.

The first announcement of the opening of these stores will appear in advertisement form next week. The opening of the Sanford store will probably be announced within a few months.

### Bank President Is Still Alive After Attempt At Suicide

KNOXVILLE, Tenn., July 1.—(AP)—At an early hour today John F. McMillan, president of the Third National Bank, who fired a pistol bullet through his brain yesterday afternoon, was still alive but the pulse was growing weaker and no hopes were held out that he would survive.

The banker, who had been elected to the presidency April 22, 1925, left the institution Wednesday afternoon shortly after the semi-annual meeting of the directors had been held and walked to his apartments several blocks distant. In leaving, he told Cashier Basil Ramsey that he was not feeling very well and would not return. Arriving at his home, he showed signs of fatigue and suggested to his wife that he would like to have some ice cream.

Mrs. McMillan left the room on this mission and in her absence Mr. McMillan fired a bullet through the right temple. The ball passed through the brain and out the skull on the left side.

Mr. McMillan had been with the bank since 1901. His reports to the directors Wednesday indicated the largest volume of business for the past six months enjoyed by the institution in several years.

Giants Pound Braves To Get Even Break In Series; Phils Lose To Hard Hitting Rob

PITTSBURGH, July 1.—(AP)—Pittsburgh lost its sixth consecutive contest Wednesday, St. Louis taking the first game of the series, 6 to 2. Blades, with a home run, triple and single, started at bat for the visitors and in the field through a difficult catch robbed Warner of an extra base hit at a time when the Pirates had a chance to tie the score. Meadows was touched often and in the ninth walked two men who scored when L. Bell drove a home run over the score board. Joe Bush, former Washington American pitcher, signed with Pittsburgh yesterday and will report for duty Saturday.

Taylor, Washington's outfielder from Buffalo, hit a home run and two singles in his first appearance with the Senators yesterday. Gehrig made a homer and three singles, Washington won from the Red Sox, 1 to 5.

Enabling the Macks to beat the New York Yankees, 5 to 4, Jim Poole got a homer in the sixth and in the ninth doubled with bases filled. Spurgeon and Joe Sewell led a slugging attack that gave Cleveland a 11-to-3 victory over Chicago, each registering a double and two singles.

Cubs and Reds Divide CHICAGO, July 1.—(AP)—Cincinnati and Chicago divided a double header Wednesday, the former winning the first game 8 to 2 by bunching their hits in two innings and Chicago taking the second 0 by outdueling the Reds in the ninth. The game with May and Lucas doing the pitching for Cincinnati. Four errors by the Reds aided the Cubs in their run making.

Giants Win Final From Braves NEW YORK, July 1.—(AP)—The Giants divided their four game series with the Braves when they won the final day Wednesday in 15 innings by 7 to 6. A wild throw by Young enabled Boston to tie the score with two out in the ninth. After the Braves broke their tie in the 13th, on an error and two singles, Lindstrom's home run decided the count in the Giants' favor. In the ninth, Kelly's sacrifice permitted Lindstrom to come home with the winning run.

Brooklyn Gets Even Break BROOKLYN, July 1.—Brooklyn gained an even break in the four game series with the Phillies by capturing a free hitting contest Wednesday, nine to one. Harper hit two home runs, while Wrightstone and Herman drove out one apiece. Bill Huber, captain and third baseman of the Phillies, was sent to the showers in the third inning by Umpire Pfirman for protesting a decision at third.

### Joe Bush Joins Pittsburgh; Jimmy Johnson Makes His Debut In Giant Uniform

By Associated Press  
New faces are appearing daily with the major league baseball clubs in their efforts to overtake or keep down their foes.

Joe Bush, now a Pirate, Pittsburgh, hopes for better pitching from him than Washington got. Jimmy Johnson has made his first appearance in a Giant uniform as a pitcher. Neis has been sent to Buffalo by the Braves and the 'Gants have sent Cote, this year's Holy Cross captain, to Toledo.

Taylor, Washington's outfielder from Buffalo, hit a home run and two singles in his first appearance with the Senators yesterday. Gehrig made a homer and three singles, Washington won from the Red Sox, 1 to 5.

Bobby Jones Is Big Favorite In Coming National Tournament

COLUMBUS, Ohio, July 1.—(AP)—Guesses of local rail-birds thoroughly familiar with the course and the abilities of most of the golf stars who will compete, are that Bobby Jones, as good as has the 1926 National Open Golf championship added to his other championships.

Results of a questionnaire submitted to members of the Seoto Country Club where the tournament will be held, the local press and others today, make the youthful golfer a heavy favorite. Bobby had practically twice as many votes as MacDonnell Smith, the runner-up, and still more of an edge on Walter Hagen, in third place.

Predicted scores for the winner of the tournament, to be played next Thursday, Friday and Saturday, ranged from 278 to 298. Many registered guesses between 290 and 295, with 290 having the most followers.

### QUAKE DAMAGE HEAVY

LONDON, July 1.—(AP)—The earthquake in Egypt Saturday night was more serious than at first thought, says an Exchange Telegraph dispatch from Cairo. One hundred and ten persons were killed and 66 injured. A total of 4,238 houses were damaged or destroyed.

### Rocky Kansas Will Battle Mandell At Chicago Saturday

CHICAGO, July 1.—(AP)—After a lapse of more than 20 years, legalized glory-fighting comes back to Chicago next Saturday, in the form of a lightweight championship match involving Rocky Kansas, the big-woman title-holder, and Sammy Mandell, the sleek of Rockford, Ill.

The bout, the first to be conducted under the new law providing for ten-round contests, will be staged in the Chicago American Legion baseball park, the home of the White Sox, with prospects of a capacity attendance. The match will be a charity affair. Whatever profits are realized, after the boxers get what is coming to them, will be devoted to a fund to build a gymnasium for the orphan children at Moonheart.

The Illinois State Athletic Association declares that the sport should open with a charity contest. It is not very often that a chance is given to a challenger to win the championship such as is given to Mandell, Kansas, who is champion by verdict of the New York commission, has been fighting for 16 years, and although the title came to him late in his career, the experts say this is no indication that he was at his best when he obtained it.

## Clash Between U.S. Boat And Rum Ship To Be Investigated

BUFFALO, N. Y., July 1.—(AP)—Issues raised by a clash between a Canadian rum-runner and a United States coast guard cutter in Canadian waters have been referred to Washington and Ottawa.

In the meantime, the bullet-scarred Canadian boat and the coast guard cutter CG-2205 are safely back in their own harbors. Amos Vandevere, owner of the Canadian craft, says his cargo is at the bottom of Lake Erie.

The reports of the incident, as submitted to the deputy minister of customs at Ottawa by Clarence Catherwood, custom officer at Port Colborne, and to Washington by Ralph Crowley, superintendent of the coast guard, were at variance on many points.

Crowley's report is that the rum-runner was boarded Monday night in American waters. Catherwood's statement, based chiefly on the

## STEWART'S WASHINGTON LETTER

BY CHARLES P. STEWART, WASHINGTON, D. C. President Coolidge is not a "trainer" in a careful sense of the word. The lions mind the trainer so long as they are afraid of him. But they don't like him. That is, they don't like him in any other sense than that they'd like to eat him up. Perhaps they could, too, but they're not sure of it. They're suspicious that he's got a gun or something up his sleeve. If they jump at him, they've an idea maybe he'll grab it out and bowl 'em over dead. But once let just one of those lions give that trainer a good scratch or take a bite out of his leg, and then let the rest of 'em see that he hasn't got a gun or any-

## Health Board Warns Against Rubbing Eye When There Is Cinder In It

—Rubbing off the eye when there is a cinder or any dust in it is advised against in a bulletin issued by the state board of health. The bulletin points out that rubbing the eye may make it feel better but that at the same time the object may be pushed further into the eye tissues. It will be much more difficult to get out.

"The cinder may lodge on the conjunctiva, the delicate membrane lining inside of the lids, or it may stick to the tissue covering the front of the eyeball called the cornea," says the bulletin. "In the latter case its removal is difficult and should not be attempted by anyone except a physician, immediately if the cinder is on the cornea."

"If the cinder is on the conjunctiva it may be removed by the use of a clean, moist cloth or a cotton swab." "If the cinder is on the cornea, it may be removed by the use of a clean, moist cloth or a cotton swab."

## Russian Merchant Is Fined Million Dollars, Given 5-Year Term

BERLIN, July 1.—(AP)—A million dollar fine and five years at hard labor in prison were imposed today on Ivan Kutliker, Russian merchant, who was convicted of swindling millions of marks from the Prussian state bank.

The judge, who described him as a character that could only be compared with the alchemist and inventor, visited the nobility of Europe and others 150 years ago.

Kutliker gained access to the Prussian state bank accounts in millions of marks.

The convicted man had been in this regard fine since 1911, when he was in the prison hospital where physicians had certified that he is dying.

# no doubt about it, P. A. is great makin's

THE instant you open a tidy red tin or a tippy red bag of Prince Albert and get a whiff of that real tobacco, you know you are in for some grand cigarette-sessions. Yes, indeed. You take out a makin's paper and proceed to roll a cigarette that's a sure-fire winner.

Morning to midnight, you'll roll 'em and smoke 'em. Because every wonderful puff invites another. Your taste just never wearies of this mild, mellow tobacco—good old P. A. Try this better cigarette tobacco today. It will be a smoke-experience, for a fact.

Because P. A. is crimp-cut and doesn't flutter all around, it rolls easier. It burns better for the same reason. And then the big thrill . . . that glorious taste! No other home-rolled cigarette can hold a candle to that. Cool. Sweet. Fragrant. Every inch a smoke!

If you have a pipe and want to see how much pleasure it can deliver, tamp a load of Prince Albert into the bowl. Men who thought they were all set on a smoke-program have followed this formula and have become converts overnight. No other tobacco is like this. Men.
