

Kiwanis Club Was Organized In Sanford On December 5, 1921

The Sanford Kiwanis Club, representing 74 leading business and professional men of the community, was organized here on Dec. 5, 1921, or within seven years after the time that the initial Kiwanis Club was organized in Detroit.

Local postmaster, is president of the club.

One of the charter members of the club was Edward F. Lane who later served as president and as a lieutenant governor. He was chairman of the first Ladies Night program, of which he has had charge since.

He recently recalled that the club was organized by Jeff Bailey, whom Kiwanis International

Mr. Field

sent here for the purpose.

Mr. Bailey held the first meeting at the Valdez Hotel and among those present were Mr. Lane, J. C. Hutchison, Sherman Lloyd, A. P. Connelly, Schelle Mairnes and Forrest Lake. The club received its charter on May 4, 1922, and A. P. Connelly was the first president.

The charter members included Frank P. Akers, Hodgson Ball, S. S. Baumel, A. L. Betts, L. A. Brunley, Mr. Connelly, B. D. Caswell, A. R. Cheney, E. A. Douglas, T. L. Dumas, George A. DeCottis, J. C. Deen, John M. Gillon, Dr. George A. Hyman, B. W. Herndon, T. W. Jones, Perry Jernigan, L. C. Kolb, T. W. Lawton, N. J. Lillard, Mr. Lane, Frank Lassing and W. T. Langley.

Other charter members were Mr. Lane, Mr. Lloyd, F. L. Miller, E. D. Mobley, Mr. Mairnes, James F. Magee, Dr. C. J. Marshall, F. E. Markwood, D. C. Marlowe, W. M. McKinnon, B. L. Perkins, L. McCuller, A. K. Rossetter, A.

Raffeld, H. P. Smith, L. Burk Steele, John C. Smith, J. G. Sharon, W. E. Scoggin, Dr. J. N. Tolson, Fred Walena, W. H. Wight, Leslie T. Bryan, Robert W. Deane, Mr. Hutchison, Harry F. Kent and Glenn E. McKay.

Lieutenant governors from Sanford have been Mr. Lane, 1927; William B. Zachry, 1936; Julius Dingfelder, 1940; and Fred Wilson, 1950.

Presidents of the Sanford Club have been A. P. Connelly, 1922; J. G. Sharon, 1923; T. Lucian Dumas, 1924; Rev. Dr. E. D. Brownlee, 1925; Mr. Lane, 1926; T. W. Lawton, 1927; S. M. Lloyd, 1928; Jno. D. Jenkins, 1929; Fred Wilson, 1930; A. D. Fort, 1931; W.

B. Zachry 1932; Howard Overlin, 1933; C. R. Mason, 1934 and S. F. Doudney, 1935.

Other presidents were W. S. Coleman, 1936; Howard C. Long, 1937; Sydney J. Nix, 1938; Ben D. Caswell, 1939; Karl Nordgren, 1940; Julius Dingfelder, 1941; O. P. Herndon, 1941; E. C. Harper, 1942; E. B. Randall, Jr., 1943; Gilbert D. Workman, 1944; Luther T. Doss, 1945; J. W. Hall, 1946; Lester Tharp, 1947; Frank S. Lamson, 1948; W. A. Morrison, 1949 and Ralph A. Smith, 1950.

"We build" is the motto of Kiwanis, and its leading slogan this year is "freedom is not free."

The club meets each Wednes-

day at noon at the Yacht Club building. J. Martin Stinescoper is first vice president, P. P. Campbell is treasurer and Oscar Harrison, financial secretary, and F. Hasky Wight is secretary.

The club engages in many philanthropic activities, most of which are devoted to youths and underprivileged children. Last year the club contributed \$300 to help defray the cost of a major operation on a child who had been taken to John Hopkins Hospital.

Another donation, \$100 was sent to aid in the construction and facilities of a state prison chapel. Floods came to Manitoba and \$100 was sent to aid under-

privileged children there.

This year more than \$500 was netted for the underprivileged children's fund through the kind co-operation of the Kissimmee Club which sent its complete minstrel show cast and with local talent and staged an outstanding show.

Other projects include the sponsorship of Boy Scout Troop No. 5, and of the 25 member Key Club of Seminole High School. Kiwanis aids in supplying milk to needy children, sends boys to Boys State and to summer camps, and assists the Salvation Army in co-operation with other organizations at the dime boards at Christmas time.

Joel Field, Kiwanis president

was born in Augusta, Ga., and came to Sanford in December, 1909 at the age of 12. He attended grade schools and Sanford High School through the junior year, finishing at the ARC Military School in Augusta. After graduation he attended the University of Georgia until his induction in the Navy during World War I.

Following his return here he engaged in the trucking business until 1944 when he was appointed postmaster. He is a member of the First Presbyterian Church, the American Legion, Elks Lodge, Jaycees and National Association of Postmasters. Mr. and Mrs. Fields live at 228 West Nineteenth Street.

PROTECTION AGAINST REDS

MALACCA, May 7—It's going to be a lot tougher for Communist terrorists to get back into areas from which they have been driven by British security forces. One village, Simpang Behoh, is being resettled with loyal and law-abiding citizens of Malaya, but it has a unique feature—it is to be surrounded by a moat. Dredgers now are at work, making a moat 14 feet wide around the village.

British authorities may carry out this scheme to help protect other villages which are being resettled after the areas are cleared of Communist terrorists.

Seminole County Produces Annual Celery Crop Worth Over \$4 Million

Half of the celery grown in Florida during 1950 was raised in Seminole County on the fertile sand lands of Sanford and the muck lands in the Oviedo section, and totalled more than 1,590,840 crates, valued in excess of \$4,500,000.

Figures released by the U. S. Department of Agriculture in cooperation with the State Marketing Bureau, an office of which is maintained during the growing season at the Sanford State Farmers Market where market bulletins are released daily to the trade, show that 3,370 acres of Seminole County celery resulted in shipments of 4,502 cars.

This was well over a carload of celery an acre compared to the general Florida average which with 2,040 acres, produced 9,147 cars. Palm Beach County took 3,250 acres to produce 2,739 cars of celery.

The 1950 season, however, was not up to the usual level in prices received. The farmer looked at 1949 favorable results when the crop in Seminole County was worth \$5,352,000 and thinking history would repeat itself, planned accordingly. He increased the winter acreage considerably. The spring situation took on an entirely different aspect due to the

depressed winter F. O. B. market and acreage was reduced nearly 4 percent below that of the previous season.

This season prices on vegetables are much higher than usual. Celery shipments have brought larger returns than during the previous season and of late the price has averaged about \$2.75 a crate or larger. The general average during the preceding season was about \$2.41 a unit.

The first commercial celery grown in Florida was produced in Sanford, Seminole County and it is still the county's most important crop. While other sections of the state have more recently undertaken celery production, Seminole County remains the largest celery producer—center. Growers and shippers of this county also control important acreage in other counties, so that better than one half of the celery grown in Florida is actually marketed through Seminole County interests.

Florida produces nearly one-third of all the celery grown in the United States, and during the winter and spring months, accounts for nearly two-thirds of the total shipments.

In June, the growers of Sanford may be seen preparing the seed

Sanford Swimming Pool Averages Over 3,000 Patrons Per Month

Sanford's Municipal Swimming Pool, one of the finest in Central Florida, served an average of 3,000 persons a month during its first year of operation taking in a total of \$2,378 and requiring an outlay of \$4,035, City Manager Clifford McKibbin said in an interview with the Herald.

The pool has proved to be a tremendous success during its first year of operation and is proving a tremendous asset for the summer colony.

Actual construction of the pool was begun July 18, 1949 and the grand opening was held Jan. 19, 1950. More than 100 members of the George Barr umpire school and 20 Sanford beauties were present for the christening.

This event climaxed a quarter century of publicity, promotion and civic enterprise which first got underway in 1925 when the people approved a bond issue to build a pool. Later a \$30,000 donation by Chase & Co., coupled with the support of the local Jaycee and Rotary Clubs, finally brought the project to completion.

The pool is housed in a concrete block enclosure of light green which is 50 feet wide and 124 feet long with two dressing rooms, 48 lockers and shower accommodations for both men and women. The actual tank, made of poured concrete, is 100 feet in length and 36 feet wide. It declines from a

Seminole County Ranks Fifth in Florida In Shipment Of Citrus

Seminole County in spite of its small size is considered a "mighty mite" in the citrus industry and is rated about fourth in Florida in the packing and shipping of oranges, grapefruit and tangerines.

For an industry which but a few short years ago was in the price doldrums the picture is now exceedingly bright both as to prices received and as to supply, and with oranges now bringing up to \$1.56 a box on the smaller sizes, and \$3.00 and \$3.25 on the larger sizes, citrus is regarded as one of Florida's most prosperous industries.

In spite of heavy punishment this year by Mother Nature in the form of storms and freezes, citrus fruit in the Central Florida area has emerged with some of the best quality in years.

Although official citrus acreage will not be compiled until March, local citrus experts are of the opinion that more than 3,000 acres of grove have recently been added to the 10,000 acres already listed in Seminole County.

The largest growing area of fruit is in the southern part of the county between Goldenrod and Forest City. The Geneva region has about 1,200 acres, and there are large plantings west of San-

Sanford Swimming Pool Averages Over 3,000 Patrons Per Month

ford in the Paola area.

An outstanding event in the citrus industry in Seminole County this year was the opening of the million dollar citrus concentrate plant of the Chester Foust Co. at Forest City, a community literally surrounded by citrus groves.

Frozen concentrates are being produced there at the rate of 8,519 six-ounce cans of orange juice per hour or nearly 25,000,000 cans a season. Some idea of this capacity may be gained by the fact that more than 1,000 gallons of single strength juice can be produced an hour and in turn 401 gallons of concentrate. The concentrate process, including that at nearby Plymouth in Orange County, have already had a very stimulating effect on the citrus industry.

Many old citrus groves are located in the Forest City region, and it boasts what is believed to be the oldest packing and shipping house in Florida. Owned by the Foustage interests this plant now has a capacity of 35 cars, or about 18,500 boxes of fruit a day.

The company has its own road repair department, and its own plants for the preparation of fertilizers and insecticides. The

Sanford Swimming Pool Averages Over 3,000 Patrons Per Month

attended the spring opening of the pool on Sunday, Mar. 11, with F. Hasky Wight in charge of the lockers and concessions. A spring schedule was put into effect during which the pool has been open from 3:30 to 6:30 P. M. on Tuesdays and Thursdays, from 9:00 A. M. until noon and 1:00 P. M. to 4:00 P. M. on Saturdays and from 1:00 P. M. to 4:00 P. M. on Sundays.

During the several winter months that the pool was out of service the bottom and sides were sandblasted to remove the original cement type paint, and two coats of a rubber base blue pool paint were applied. Special paint was put on the deck to make it waterproof so that no water could leak into dressing rooms. This paint also prevents leathers from slipping.

Main entrance to the pool is on First Street where an attendant is always stationed to collect admissions and assign lockers. An outside stairway is provided on the west side of the pool leading to the deck surrounding the pool. A small wading pool some 18 feet in diameter is situated in front of the entrance for very young children.

Chase and Co. made an initial gift of \$20,000 toward the construction of the pool in 1945. Another \$10,000 was added to the fund and the City made up the difference in the \$50,000 final cost of the pool.

A lifeguard is on duty at the pool when it is open to the public.

More than 40 boys and girls

Sanford Swimming Pool Averages Over 3,000 Patrons Per Month

depth of three feet at one end in a five foot drop over the next 55 feet. Below the two spring-boards the water is nine feet deep.

City Sanitary Officer E. H. Johnson estimates that the pool can safely accommodate 547 bathers at one time. Mr. Johnson pointed out that the pool is the flow-through type supplied by a 120 foot artesian well a short distance away which can fill the pool through an eight inch pipe in 24 hours from natural pressure alone. Using two electrically operated pumps, which are capable of pumping in up to 600 gallons a minute, the pool can be filled with 150,000 gallons of water in less than six hours.

A gas type chlorinator circulates a disinfectant through the water at all times in an amount specified by state law.

A lifeguard is on duty at the pool when it is open to the public.

Negative Ions Retard Growth Of Cancer

LAKELAND, May 7—(FNS)—The Florida Southern College scientists told the cancer association of exposing rats to air containing more than 10,000 negative ions per cubic centimeter for several days before the rodents were inoculated with a cancerous tumor that normally would bring death in from two or three weeks.

"Cancer in rats which breathed air saturated with negative ions

developed very slowly, and in some instances even disappeared," they stated. "Control rats (rodents kept in a normal atmosphere) showed normal progress in the development of their malignant growths and all the animals were killed in due time."

The scientists also studied the use of ionized air on mice affected with lung cancer. They reported that the animals kept in a normal atmosphere heavy with negative ions remained alive for several weeks without any sign of

Sanford's Manager, Clifford McKibbin, Born In Arizona

When City Manager Clifford McKibbin, Jr., greeted an imposing list of naval officers at the recent reception and dinner at the Mayfair Inn following the commissioning of the Sanford U. S. Naval Auxiliary Air Station, he felt perfectly at ease, as he formerly had served as an ensign in the Naval Reserve.

During World War II he was assigned to the Bureau of Ordnance and ordered to the USS Martin H. Ray, destroyer escort. He next was assigned to the Proximity Projectile Fuze program and was ordered to the Naval Ammunition Depot, Guam. There he served as ammunition rework officer and as officer in charge of the base camp.

The following duty was aboard the USS Alamosa, carrying ammunition to Seattle, Wash. Sanford operates under the commissioner-manager plan, and for two years Mr. McKibbin has been serving as manager. Prior to that he served as manager of Winter Park for three years.

He was born in Springfield, Ariz., Oct. 26, 1913. The family later moved to East Lansing, Mich. where he attended elementary and high schools. He received a bachelor of science degree at Michigan State College where he majored in mechanical engineering.

He played football both in high school and at Michigan State. At the college he belonged to the Phi Delta Theta fraternity, was a member of the Blue Key, was president of the sophomore class and served on the student council.

His hobbies include playing the clarinet and oboe, singing and sailing. He was a member of the high school orchestra, and when in college went out for swimming and wrestling teams. Another

sport at which he was adept was figure skating at East Lansing and Charlevoix, Mich.

For six years he served with the Lansing Board of Water and Electric Light Commissioners as assisting mechanical engineer, and for two years was city superintendent, Charlevoix, Mich. Mr. McKibbin is married and his family includes three boys, Clifford III, who is 10; Alex who is 8 and Bruce who is 8 months old.

An active member of the First Presbyterian Church, Mr. McKibbin sings in the choir and is a member of the Board of Deacons.

Beta Sigma Phi Group Established Here 2 Years Ago

The Sanford Chapter of Beta Sigma Phi sorority was established two years ago as a part of the national organization which was founded at Abilene, Kan., by Walter W. Ross in 1931.

More than 70,000 women make up the 3,000 chapters scattered throughout the U. S., Canada, Alaska, Hawaii, England and Scotland.

The sorority is a non-academic organization, social and cultural in nature. It is intended to unite young women in fellowship and friendship through its programs with the ultimate aim being to make an art of living.

The ideals of the organization are embodied in the Latin motto "Vita, Scientia, Amicitia" which means "Life, Learning and Friendship".

The sorority at present maintains a mobile library for the Fernald-Laughton Memorial Hospital and furnishes reading material, both books and magazines, for the patients and staff.

The group also has volunteered to maintain the reception desk at the hospital in the morning between the hours of 7:00 and

Work Comes Before Political Speeches With Mayor Dyson

Sanford's mayor, Fred Dyson, is a man who would rather be given a hard construction job to accomplish than asked to make political speeches.

A contractor and builder by profession, he enjoys nothing more than to be awarded a contract, as at present buildings at the Sanford Naval Air Station back in to condition for the naval air group to F. A. Dyson move in again.

This has proved to be a very responsible undertaking for it was only on Jan. 17 that Capt. D. T. Day, commander of the Jacksonville Naval Air Station, announced that the Sanford Station since the hospital does not provide a receptionist at that time.

Mrs. Dale L. Scott, Jr., is president of the local chapter, Gamma Lambda, and presides at the bi-monthly meetings held by the club. Mrs. Scott was born in Olanta, S. C., and moved to Sanford as a child with her parents, Mr. and Mrs. J. H. Truluck. She is a graduate of Florida State College at Tallahassee.

tion had to be ready for occupancy by May 1. Contracts were let to Mr. Dyson on Mar. 25 for the rehabilitation of nine buildings. He had previously directed demolition work in preparation for this.

Mr. Dyson, who is 57 years old, was born in White Lake, N. C. where he received his early education. He studied civil engineering and followed construction work for 17 years before coming to Sanford in 1925 to work for the Hutton Construction Co.

Prior to coming here he served as a general superintendent of road construction in both city and state projects in North and South Carolina and Tennessee. He was married in 1918 to Miss Freda Klintworth.

After serving for two years as a city commissioner, Mr. Dyson was elected mayor on Jan. 2 by unanimous action of the commissioners.

He has experienced in administrative work as well as City and county affairs, having served four terms as a county commissioner from 1932 to 1940.

During his last term he was chairman of the board. Among his late building projects was the erection of the attractive drive-in annex to the Florida State Bank. Interested in the raising of cattle, he acquired the Puleston Ranch and other property near the Wekiva River.

The Dysons live in an attractive home at 201 West Seventeenth Street. A daughter, the former Miss Elizabeth Dyson, who was recently married to Frank Mebane, Jr., assistant manager of the Mayfair Inn.

The American Association for Cancer Research was told at its annual meeting that a preliminary investigation shows that

Vitamin P from citrus will protect patient from radiation injury as a result of X-ray therapy.

Karlyle Housholder Heads Growing American Legion Post In Sanford

Karlyle Housholder, a young Sanford attorney, is commander of the Sanford Post 53 of the American Legion which has a paid up membership for 1951 of 590 members.

A World War II veteran, he is married, and has two children, a girl of two and a boy of 10 months old.

Mrs. Housholder, the former Doris Hartman of Daytona Beach, is also an attorney and associated with him and his father, Ernest F. Housholder in the practice of law. He will serve as post commander until after Sept. 1.

Other officers of the post are: John M. Senkirk, first vice-commander; James F. Benton, second vice-commander; Robert W. Deane, post finance officer; Carey Barfield, sergeant-at-arms; Dr. H. K. Hinz, assistant sergeant-at-arms; Capt. Earle T. Loueka, post historian and assistant post adjutant; E. A. Monforton, post chaplain; James J. Singletary, post adjutant and Lloyd F. Boyle, post service officer.

On Apr. 3, Denver Cordell, a Navy veteran of World War II and automobile repair shop operator, was elected commander of the post for next year by unanimous ballot. He is married and has two sons.

Elected also by unanimous ballot were James F. Benton, first vice-commander; George Mayberry, second vice-commander; and R. D. Johnson, third vice-commander. Mr. Deane was re-elected finance officer, E. A. Monforton, chaplain and Capt. Loueka, historian.

Under the leadership of Comdr. Housholder, post membership has reached an all time high of 590, or 40 more than the previous high of 550 under James Q. Galloway.

Post accomplishments have been impressive during the past year and include the decoration of graves of war dead on Memorial Day, sponsoring a Junior Baseball team; aiding in sending five boys to Boys State in Tallahassee; presenting awards to two outstanding students of Seminole High School, and presentation of a flag to the local Salvation Army Unit.

A U. S. employment office was re-established here through efforts of the post. On Dec. 9 and 10 the post was host to the Department mid-winter conference at the Mayfair Inn. An

Armistice Day parade was staged on Nov. 11, National Legion Commander Erle Coker, Jr., was greeted at the Legion Hut during a tour. Many toys were donated for under-privileged children at the Christmas tree past and were turned over to the Elks for distribution. The Seminole Legion Fair Association sponsored another very successful Seminole County Fair. Donations were made to the Red Cross, Boy Scouts and Seminole County Tuberculosis Association.

Twenty members attended the Department Legion Convention in Tampa, Apr. 20-22, and was about the largest delegation present.

The history of the post dates back to Nov. 19, 1919 when 15 young World War I veterans of Sanford signed an application for a temporary charter to form an American Legion post here, according to Capt. Loueka, post historian.

All of the first five signers are still living and include General Joseph C. Hutchison, Jr., James Ora Huff, Robert W. Deane and Dr. H. K. McCaslin. Kenneth R. Murrell, Jr., the first to sign the application, lives now in Atlanta, Ga., where he has been active in Legion work for many years.

Other original signers are Dr. B. D. Caswell, Orlando; H. Roby Laing, Sarasota, and Jim H. Lee, Oviedo.

The name Campbell-Losing Post of the American Legion, was chosen because Frank Campbell and Arthur Losing were the first two Sanford boys who gave their lives fighting in France. Arthur Losing was killed at Chateau Thierry and his body was buried in Arlington National Cemetery on or about Dec. 14, 1920. Of Frank Campbell no information is now available.

The first slate of Post 53 officers, under the temporary charter, were: Post Commander Donald D. Whitcomb; Vice Comdr. Karl J. Schulta; Post Adjutant LeRoy P. Chittenden; Post Chaplain the Rev. Dr. George Hyman; Post Treasurer Robert W. Deane; Post Historian Joseph C. Hutchison, Jr.; and Master at Arms Morris Spencer.

The permanent charter, No. 7651, for Campbell-Losing Post 53 of Sanford, was issued at Legion Headquarters in Indianapolis, Ind. on June 11, 1921 and was signed by the officers of the Department of Florida on June 15, 1921. Percy A. Mero being the local Post Commander at the time.

During the incumbency of Percy Mero the present American Legion Hut was built on the lake front on land donated under a 99 year lease by the City of Sanford dated Oct. 5, 1921. The

Local Lions Club Was 25 Years Old On Oct. 27, 1950

Harry Robson, operator of a local sporting goods store, is president of the Sanford Lions Club, a group of 35 aggressive and civic minded young men who meet each Tuesday noon at the Yacht Club, and who perform many valuable services for the community.

Mr. Robson served in the European theater of operations during World War II, and during the liberation of concentration camps in Germany had the job of searching mattresses for hidden bombs. He is married, has three children and lives at 2482 Orange Avenue.

The Lions Club on Oct. 27, 1950, celebrated the 25th anniversary of the granting of its charter with a supper and entertainment at the San Orlin Club.

The club received its charter on Oct. 25, 1925 from Lions International, and Dr. Charles L. Park was the first president.

Officers of the club include: E. S. McCall, vice-president, who is manager of the local branch of the Burpee Seed Co. Clarence Welsh, tire repairman, is second vice-president and has charge of the chewing gum machines, the profits from which are devoted to the Lions aid to the blind fund.

Joe Barnes, an Atlantic Coast Line engineer, is third vice-president of the club.

Volle Williams, Lion tamer, and attorney, was granted a leave of absence, as he is attending the session of the State Legislature as a representative from Seminole County.

Upon the shoulders of Jack Stemper, groceryman, falls the duties of the Tall Twister, fun

mittee and a Director of the Legion Fair Association.

A list of the Commanders of Campbell-Losing Post, following the first Commander, Donald D. Whitcomb, are as follows: L. Frank Roper, George G. Herring, Joe D. Chittenden, Percy A. Mero, A. P. Haggard, M. B. Hut-ton, LeRoy P. Chittenden, Karl J. Schulta, George G. Herring, J. Hodgson Ball, Fred Zerrenner, William H. Shepherd, Hayward Walker, James Ora Huff, Lloyd F. Boyle, George D. Workman, George Weinstein, Joel S. Field, E. C. Newkirk, William F. Thorne, John Jack Hocco, Henry A. Wolcott, James J. Singletary, James A. Wright, James Q. Galloway, and the present Comdr. Karlyle Housholder.

Local Lions Club Was 25 Years Old On Oct. 27, 1950

man of the club who fines members a dime on various charges such as failure to wear a Lion pin or arriving late. James Robson, Jr., men's wear merchant, is treasurer and John Lamberth is secretary.

Clyde Ramsey of Chase and Co., and John Melch, grower, head the aid-to-the-blind committee, and they recently reported that since last July the Lions had provided 20 school children with glasses. Dr. G. S. Selman made the eye examinations.

The club has an active Boys and Girls Committee headed by

Jack Morrison. Under his direction the 23rd year of Junior League baseball is being completed.

After school hours during the league's season many boys derive much enjoyment playing baseball with the four teams at the Lakefront Football Park. The Lions, although busy business men, find time to serve as team managers and as umpires.

Mr. Morrison and Joe Barnes manage the Giants; Malcolm MacNeill and Jack Stemper pilot the Cubs; Cecil Carlton and Clyde Ramsey manage the Red Sox and

those who have received benefits from the blood bank, and from civic minded people. The churches of Sanford have cooperated with the Lions Club in maintaining a credit balance in the blood bank.

Henry Witte, Jr., grower, and a past president of the club is top adviser on Lionism. A very active member, he has served as a past deputy district governor. Directors of the club include Volle Williams, Jr., Jack Stemper, John Lamberth, Malcolm MacNeill, Cecil Carlton, Clyde Ramsey and W. O. Livingston.

Mr. Robson served in the European theater of operations during World War II, and during the liberation of concentration camps in Germany had the job of searching mattresses for hidden bombs. He is married, has three children and lives at 2482 Orange Avenue.

The Lions Club on Oct. 27, 1950, celebrated the 25th anniversary of the granting of its charter with a supper and entertainment at the San Orlin Club.

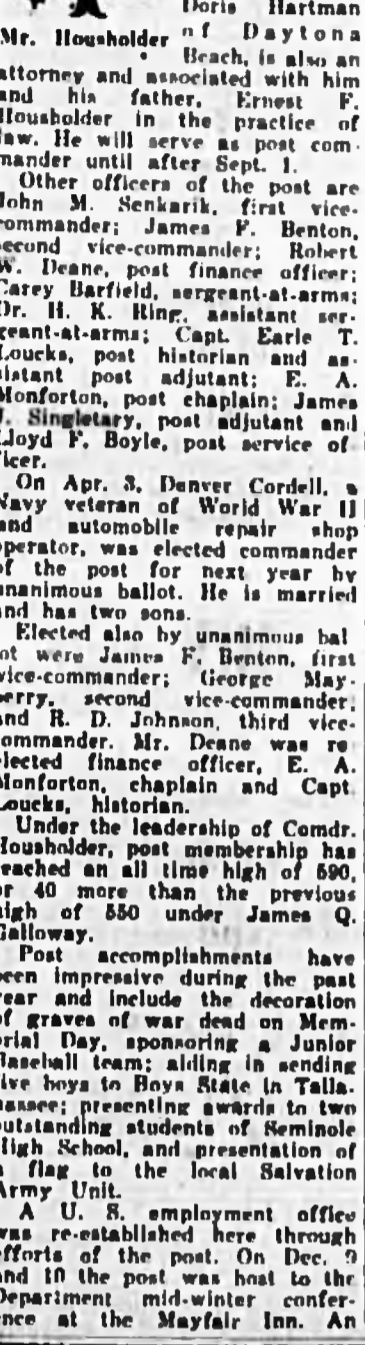

The club received its charter on Oct. 25, 1925 from Lions International, and Dr. Charles L. Park was the first president.

Officers of the club include: E. S. McCall, vice-president, who is manager of the local branch of the Burpee Seed Co. Clarence Welsh, tire repairman, is second vice-president and has charge of the chewing gum machines, the profits from which are devoted to the Lions aid to the blind fund.

Joe Barnes, an Atlantic Coast Line engineer, is third vice-president of the club.

Sanford Jaycees Play Big Roles In State Activities

The Seminole County Jaycees were organized in July, 1947 after being suspended during the war years. The national organization of the club represents 1,800 units throughout the United States and branches in 44 foreign nations.

A member of the local Jaycees, Bradley Odham, is president of Florida Junior Chamber of Commerce and with branches in the national organization.

Mr. Odham is a former member of the Legislature and has been considered as a candidate for the next gubernatorial race. The Jaycees are at present in the thick of a fight to build a new hospital for Seminole County and are active in maintaining an information booth for

tourists. Fire prevention and safety programs are also supported by the local club.

During the last election campaign the Jaycees—a non-political group—made an intense effort to get out the vote and the result was the largest turnout of any campaign in Seminole County history.

The club also sponsors a Christmas parade each year and distributes bags of candy to the city's children.

Each year the club stages a Fishing Rodeo in cooperation with the national organization for the youngsters of the community.

W. H. Stemper is president of the local club at present. Mr. Stemper, a former naval officer, received his B. S. degree from Stetson University. Following his graduation he was employed in the Seminole County schools and in 1939 joined the Florida Department of Agriculture as a chemist.

He entered the Navy in 1942 and was discharged four years later. For the past several years Mr. Stemper has operated a grocery store in Sanford.

He was elected to the City Commission in January of 1948.

The objectives of the Jaycee organization are to make the community a better place in which to live, to develop leadership, to offer recreation to the young men of the community and to give them a voice in the affairs of the community, state and nation.

Citrus Shipment

(Continued From Page One)

opening of the concentrate plant will add about 150 persons to its payroll.

Sanford has five citrus packing plants, all humming this season at the peak of capacity. These are the Chase & Company plant near Rands Siding in West Sanford, The Sanford Fruit Co., and Kastner-Roberts Co., at the Sanford State Farmers Market and the Patrick Fruit Co., and Southward Fruit Co., located nearby.

So busy have these plants become that it is not unusual to see a sign, "Sorry, no visitors." From an entrance way, however, one may be able to see boxes of fruit passing on rollers en-route to freight cars and trucks. In the packing houses the fruit is washed, colored and waxed as it rolls on belts in and out of machines. It then is sorted and packed.

The plants furnish employment for many men and women during the fall, winter and spring packing season. Large picking crews are required to work in the groves and many huge trucks are used. A novel sight is that of a large open truck rolling to market with a load of thousands of oranges.

At the Chase & Company plant about 60 are employed. More than 100 workers are employed in the field crews. Capacity output is about 5,000 boxes of fruit a day.

Kastner-Roberts Co., reported shipments of about 1,200 crates a day of citrus. Demand for tangerines has been especially good they reported and several truck loads were sent to California during the week. This plant is located at the west end of the long Market building. About 30 workers are employed in the plant and 50 in the groves. The firm is owned by Harold Kastner and Steve Roberts.

The Sanford Fruit Co., of which Harry E. Tooke, Jr. is owner, has been shipping from four to five cars a day of mixed citrus on an average. About 95 percent of this goes by truck to northern markets. More than 40 persons are employed in the packing plant and 60 to 75 in the grove crews. Supplies are received not only from Seminole County but from other nearby counties including Lake, Orange, Volusia and Osceola counties.

Near the State Farmers Market is the Patrick Fruit Co., with a large, modern and well equipped plant with the latest type of packing and processing machinery. Output capacity is about six

cars a day or more than 3,000 boxes of fruit. W. A. Patrick reported that recent cold rains added rather than diminished the quality of fruit which is said to be in the best condition in five years. He owns about 200 acres of bearing grove land.

The company has a payroll of about 225 including field workers. More than 44 trucks and trailers are required to supply the packing house.

The Southward Fruit Co., which is located on French Avenue near the State Market, has an output of about 1,500 boxes of fruit a day. More than 16 workers are employed in the plant and about 40 workers are engaged in the groves. The firm owns about 100 acres of groves.

The citrus growers are busy setting out more groves and confidently looking forward to an even bigger harvest of the golden, vitamin packed fruit next year.

Pilot Club Was Organized Here Eleven Years Ago

The Sanford Pilot Club is one of 29 such organizations comprising the Fourth District, Pilot International. A classified service organization for business and professional women, the club strives to inculcate the ideal of service as a basis of all worthy enterprises and further its application in the social, business and civic life of the community.

The local club was organized in 1940 with Mrs. A. I. Hunt as its first president. Pilot means "Leader and Guide" and the motto is "True Course Ever". Pilot International supports a memorial scholarship fund which was set up in memory of a former International president and a Florida woman, Miss Ruby Newhall of Gainesville.

The Pilot Club takes an active interest in many civic and welfare projects in Sanford and Seminole County. Its main project is the Milk Bank which supplies milk to any needy family in the county. The club sponsors a girl to Girls' State in Tallahassee each year and has helped to send several 4-H Club members to Camp McQuarrie. For many years the Pilot Club was in charge of the Tuberculosis and Health Association Christmas Seal Sale until the association was able to secure and pay a full time worker. The club has actively participated in other drives for funds, such as the Boy Scouts, Salvation Army, Infantile Paralysis and many others. A member of the club, Seminole County heads a Cancer Information Committee which works in cooperation with the chairman of the American Cancer Society and for the past two years has conducted the drive for funds with the assistance of students of Seminole High School and other high schools throughout the county.

Furnishings were secured and maintenance is provided for a room at Fernald-Loughton Memorial Hospital. During World War II, members served as hostesses for the USO and acted as nurses' aides at the local hospital seven nights weekly. The Fourth District Project is the "Mothers' Milk Bank" which is located in Jacksonville and staffed by registered nurses and supervised by the doctors of that area. Mothers' milk will be flown to any part of the United States upon a prescription by a doctor for infants that can't take any other formula.

Another district project is a Mental Hygiene Clinic established in Orlando. The International project is the rehabilitation of Vinonvillers, France, a small village that was completely demolished through error by U. S. airmen during the last war. The local club adopted a family of nine children, to which gifts of clothing, food and toys are sent at regular intervals, as well as money and eight dozen silver teaspoons which were given to the children's orphanage there last year.

Mrs. Verne C. Messenger, advertising manager of The Sanford Herald, is president of the Pilot Club and other officers, serving with her include Mrs. John L. Clark, first vice-president; Mrs. Gordon Sweeney, second vice-president; Mrs. George A. Blinn, recording secretary; Miss Maude Ramsey, corresponding secretary; Mrs. Nancy Brock, treasurer; Mrs. Orville Touchton and Mrs. Harvey Swanson, directors.

Mrs. Messenger is a member of the First Baptist Church where she serves as secretary of the Intermediate Department. She has been associated with The Sanford Herald for 13 years in the book-keeping and circulation departments; as a society editor and in the advertising department for the past eight years. She has one son, Walter Trent, who resides in Odessa, Tex.

Seminole Sheriff P. A. Mero, Enjoys Hunting, Fishing

Sheriff P. A. Mero is a man of many hobbies, and when not actively engaged in the enforcement of the law, enjoys the sports common to many residents of Seminole County. He is rated as an expert in both hunting and fishing, and a rarely returns from a fishing expedition without a long string of fish.

P. A. Mero is a saddle and rider for some time as president of the Dusty Boots Riding Association, a group that enjoys quarter horse racing, tournaments and outings.

Born in Alexandria, Va., Jan. 10, 1895, he came to Sanford at the age of 25, and for a number of years was in the garage business. For seven and a half years he was a member of the State Beverage Department. On Mar. 2, 1947, following the death of Sheriff Charles Hand he was appointed as sheriff by Governor Caldwell. He was elected to a full term in 1948.

Mr. and Mrs. Mero live in a pleasant home on Silver Lake where they enjoy a fine flower garden. They have three sons, Tom, Pete and Bobo. The latter, a fighter pilot in the Navy, recently motored here with his family to visit his parents.

Up to date in his equipment, the Sheriff's department operates three automobiles, all of which have sending and receiving radio equipment, and messages from these can be received at the Police Department.

Deputy Charles Beck has charge of the photographic equipment which includes a modern press camera. A full stock of guns is kept on hand for emergencies including gas guns and riot guns. All automobiles used by the department are equipped with fire extinguishers, first aid equipment, front and rear red lights and sirens.

Howard Hood is one of the new deputies on the force. Deputy Sheriff Claude Whitten, Sr., who has charge of the office and who keeps all of the records, has served in this capacity for 29 years and formerly assisted Sheriff Hand. He has also served as a constable in the county and at one time was a policeman in Orlando.

J. H. Hayth served as jailer at the County Jail for the past two years.

The services of constables and deputies are required in outlying areas. Constable William Lewis serves in Longwood, and Constable George Kelley in Orlando. Herman Brunley will serve during summer months in the local district.

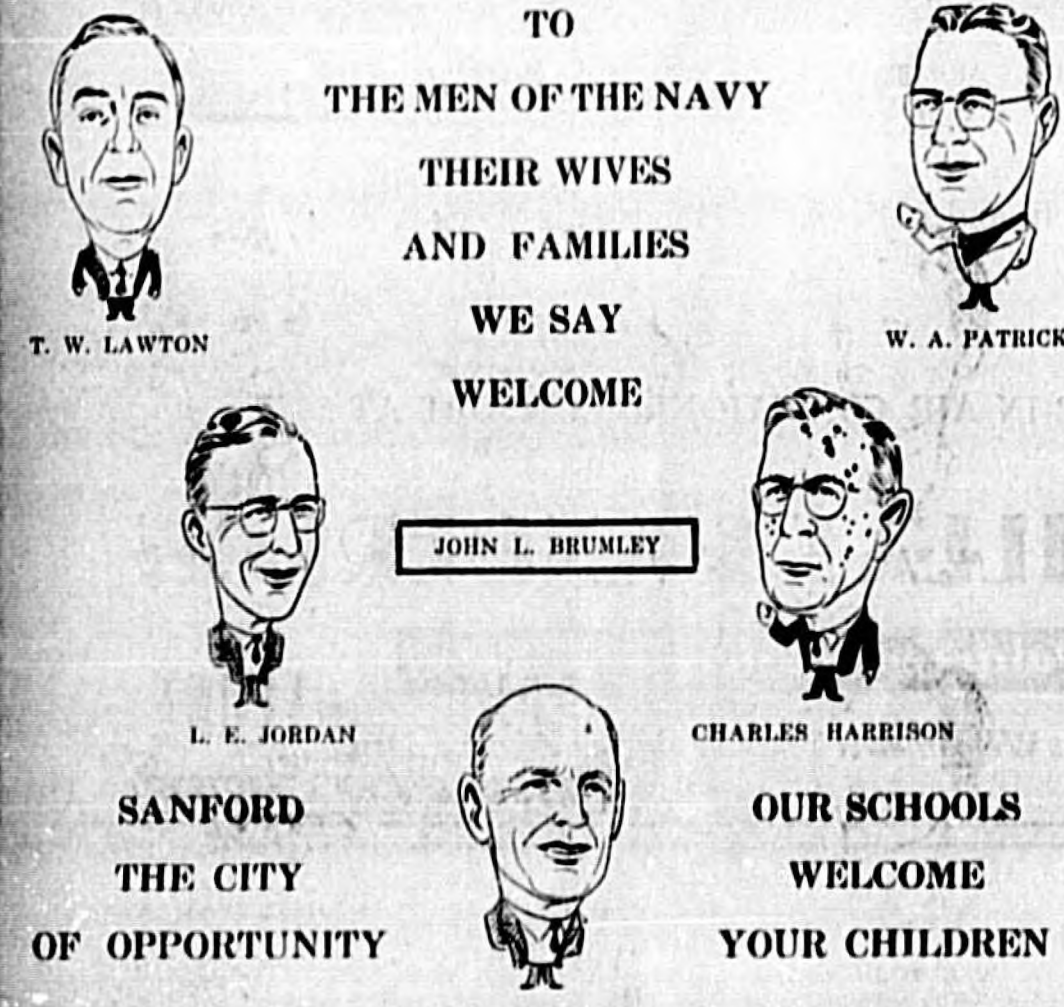

Serving as deputies at the Sanford-Orlando Jail are Ben Browning, William Lewis, Thomas Wansley and John Riley. Sam Hamilton serves as deputy sheriff at Geneva, Ross Humphrey at Lake Mary, H. O. Swoford at Palmetto Springs, and Bear Zinke and George Bell at Lake Monroe. All of the deputies have telephones.

NEW AIR SERVICE
MIAMI, May 7—(FNS)—The first through airplane service from Miami to California was inaugurated last week by National Airlines, National Delta and American Airlines were authorized to establish the new service after the Civil Aeronautics Board had refused individual applications by a half dozen carriers for one carrier transcontinental service.

HELPS GROWER

RALEIGH, N. C., May 7—(AP)—A brooder alarm is now being used on the Birchwood Farm at Fayetteville, N. C. The alarm operates by thermostatic control, one under each hover, and is wired to the turkey producer's residence. If the temperature drops below 75 degrees or rises above 110 degrees, a bell rings in the producer's bedroom.

L. W. Herrick, Jr., extension turkey specialist at State College, says faulty brooder operation or a brooder stove going out may cause poultry to chill, pile up, and smother. Or the stove may become extremely hot and possibly cause fire to break out. In either case, the alarm will notify the turkey manager. This could mean saving the poult from smothering or preventing the house, equipment, and birds from being destroyed by fire.

Sanford Masonic Lodge Is One Of Oldest In State

The Sanford Masonic Lodge No. 82 was formed in 1871 with D. C. Brookins as first worshipful master. Charter members of the lodge included C. W. Jackson, E. R. Lewis, E. S. White, D. S. Thomas, T. H. Blawie, Samuel Prossitt, A. C. Martin and James Spencely.

The lodge originally was chartered in Melroseville but was granted permission to move to Sanford in 1883. The cornerstone of the present Masonic Temple was laid in 1914 by Silas B. Wright, then Grand Master, and the first meeting in the new structure was held in 1925 with Ralph B. Chapman as Worshipful Master.

The remaining bonds on the building were burned at a ceremony in 1944 with Grand Master Fred L. Noble presiding over the celebration. The Sanford lodge has had several Grand Masters, including the late Ralph B. Chapman who held the position in 1937 and as District Deputy Grand Master in 1929, 30, 31 and 32.

Mrs. P. M. Gingles Is President Of B. And P. W. Club

Mrs. P. M. Gingles heads the Business and Professional Women's Club of Sanford and is an enthusiastic, though relatively new, booster of the community. Mrs. Gingles came to Sanford when her husband was stationed at the Naval Air Station during the war and she and her husband lived so close together that they returned to make it their home when the war ended.

Other officers of the club are as follows: Mrs. E. J. Routh, first vice-president; Mrs. R. E. True, second vice-president; Mrs. H. Little, recording secretary; Mrs. Gertrude Gilbert, treasurer and Mrs. Lela Smiley.

Officers-elect are as follows: Mrs. E. J. Routh, president; Miss Elaine Farley, first vice-president; Mrs. E. B. Carter, second vice-president; Mrs. Ed Little, recording secretary; Miss Dorothy Von

Herbals, corresponding secretary and Mrs. Marion Harmon, treasurer.

The local chapter of the Business and Professional Women's Club was formed on Dec. 1, 1948 and has become one of Sanford's most active civic organizations in the past two years.

The club sponsors a dental clinic for children, under 7, of all races. Three dentists cooperate with the club on the project. The B. and P. W. also stages a "Miss Sanford" beauty contest each year and puts on a junior tennis tournament.

The club's 66 members have assisted in the Salvation Army fund drive and were active in both the Boy Scout and Red Cross campaigns this year.

Members of the local club are now conducting a speech clinic to correct defective speaking habits in children.

Special occasions of the club include a Christmas party and Easter fashion show. It is to extend the opportunities in business and the professions and to elevate the standards of working women. The organization also attempts to provide information for study and discussion and action on national and world affairs.

Seminole County C. Of C. Was First Organized In 1930

Twelve presidents and four managers have served the Chamber of Commerce since 1930—the year in which this civic organization was reorganized and the title changed from Sanford to Seminole County Chamber of Commerce.

Fifteen years ago last month the Sanford Herald reported the retirement of Harry Papworth as chamber president following six years of faithful service. It was Mr. Papworth who led the reorganization fight in 1930 and who succeeded in bringing Karl Lehmann here as the first paid manager of the organization.

Editorially, the Herald pointed out that under the Papworth-Lehmann regime, the chamber was converted from an "insipid and lifeless thing" to an "energetic, driving force."

Tom Simpson took over the presidency in 1937 and he, in turn, replaced the following year by Walter Coleman. Meanwhile, Lehmann had resigned as manager, and been replaced by Ralph H. Whitney.

In 1939, P. P. Campbell was elected top executive and it was during his tenure of office that Edward Higgins began his long term of duty as the paid executive, a stretch of years that spanned the turbulent and continued up to the present administration headed by James H. Gut as president and Ed Whitney as manager.

W. A. Laffler assumed the chamber presidency in 1940 and served in that capacity the following three years. He and Mr. Papworth were the only two civic leaders ever to serve more than one term.

County School Supt. T. W. Lawton followed in Mr. Laffler's footsteps and was replaced by H. H. Coleman in 1945. The following term W. V. Hitting took over the helm and in 1947 E. G. Kilpatrick was the chamber leader. John Ivey followed Kilpatrick as president and W. A. Patrick succeeded Ivey in 1949.

President Gut began his present term in October last year.

Merchants' Group Strives For More Progressive City

Andrew Stine, partner in the Hill Hardware Co., is president of the Sanford Merchants Association, a progressive organization of business men whose purpose is to promote better relations between merchants and customers, regulate closing hours and work for the betterment of Sanford and Seminole County.

Bill Kirk, operator of Kirk Motors, Chrysler dealers, is vice-president. Miss Dorothy Powell of the Powell Office Supply Co., is secretary, treasurer of the organization.

Among recent presidents of the Association were Clarence Redding, 1950; Jack Hall, 1949; and W. A. Morrison, 1948.

Mr. Stine has also served a former term. Among other presidents were E. C. Harper, John Ivey, H. B. Pone, Ned Smith, Walter Haynes and George Weinstein.

On Apr. 5 the Merchants Association launched a membership drive with Bill Kirk as chairman and designed to bring the membership from 45 to 100 paid up members.

One of the recent actions of the Association was the appointment of a special secret committee for the purpose of screening all out-of-town promotion schemes which come to Sanford. This, said Mr. Stine, is intended to protect the merchants from fly-by-nights.

Prior to the recent opening of the Legislature, the Association conferred with Senator Lloyd Boyle and Representatives M. E. Smith and Volpe Williams, Jr., on legislation to be presented. One of these bills, recently presented by Senator Boyle, calling for the establishment of a small claims court, passed the Senate last week.

At the conferences the need for a limited garnishment law was also pointed out.

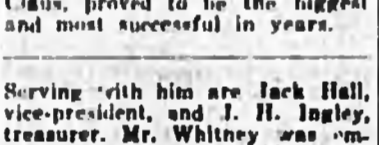

Greater economy in State government is also one of the prime aims of the Association. Return of a portion of the inventory tax to merchants and improvement of the sales tax law are also parts of the 1951 program.

Another legislative objective of the merchants is a cleaner and more workable law governing unemployment compensation benefits.

One of the most important points in the Association's program is a stricter set of regulations governing auction sales and advertising campaigns.

On Dec. 8, the Merchants Association sponsored a big Christmas parade for the benefit of thousands of joyous Sanford kiddies. They were aided actively in this program by the Sanford Junior Chamber of Commerce. The parade, headed by Santa Claus, proved to be the biggest and most successful in years.

Serving with him are Jack Hall, vice-president, and J. H. Ingley, treasurer. Mr. Whitney was employed as manager in November following the death of Mr. Higgins.

Hadassah Is Part Of 300 Thousand Member Movement

The Sanford Chapter of Hadassah was organized in 1947 and is a part of the Women's Zionist Organization which now has more than 300,000 members.

The first Hadassah Chapter was founded in Baltimore by Miss Henrietta Stodd to give relief and medical aid to what was then Palestine, from a portion of which has been formed the state of Israel.

Beginning in 1912 with only a dozen members the organization has increased in size over the years and extended its scope of activities to embrace the philosophy of its name—'Hadassah' which means "the healing of my people."

Hadassah is the Hebrew translation of the English name "Eater," a Jewish humanitarian. In America Hadassah works to interpret Israel to America and provides a basic Jewish education as a background for intelligent and creative Jewish living in America.

In Israel Hadassah supports and is helping to expand the medical facilities and public health system, child welfare and in raising the standards of education.

Maintenance is provided for refugees through Youth Aliyah of which Hadassah is the American agent. Hadassah also aids in the purchase of new land for immigrants.

Mrs. Herman Jacobson is president of the local chapter. Born in New York, she was educated in the public schools of that state and Florida. She graduated from Florida State College for Women in 1933 with a B. A. in education. She

taught in Florida schools and has five children. Other officers include Mrs. Ben Katz, vice-president; Mrs. Melvin Siskind, secretary and Mrs. William Tel, treasurer.

The Sanford Tourist Club was founded in 1935 at the suggestion of Mrs. F. E. Hollinger of Canastota, N. Y. The first meeting was held in the Montezuma Hotel under the auspices of Mrs. Pearl Hensell.

Fifteen people attended the first gathering and 31 were present when the organization's charter was adopted. Mrs. T. H. Earl of Ohio was the first president followed by Mrs. S. J. Peterson of Minnesota, Mrs. T. S. Aldrich of New Hampshire and Mrs. Mary Otto of New York. The first two secretaries were Miss Finway of Massachusetts and Miss Dorothy Parkins of Connecticut.

The meeting place was shifted from the Montezuma in later years to the Woman's Club and the City Hall.

The Tourist Club joined forces with the Palmetto Shuffleboard Club at the urging of the city in 1949 which offered to furnish a meeting place for the combined groups.

The two groups merged into what is now known as the Sanford Tourist and Shuffleboard Club which has its headquarters in the former U. S. H. building, now known as the Tourist Center.

Mrs. William A. McCarthy of Illinois is president of the club which now has 185 members and sponsors a variety of entertain-

ments each winter. Shuffleboard tournaments, chess and checkers parties and covered dish suppers have been held so far this year.

Mrs. McCarthy, who is a native of Chicago, was president of the Mother's Club there and Secretary of the Chicago League of Mother's Clubs.

Other officers include Tom Vernon, vice-president; F. Hasky Wright, treasurer; Mrs. William LaFetra, secretary; Mrs. Russell Jones, publicity; Mrs. Raymond Smith, entertainment; Miss Nancy Robbins, refreshment and L. C. Rowan and Roy Ball, shuffleboard chairman.

Trustees are Miss Mary McMahon, Mrs. Russell Jones and John Reinwald.

The possible use of limited air to retard or halt the spread of cancer is under study by Dr. Boris Sokolov and Dr. Walter H. Eddy of the Bio-Research Laboratory of Florida Southern College at Lakeland.

"Get Acquainted" Day Is Refreshing In Names, Faces

The day try to repeat in writing the newly-made "acquaintance" made.

Some may find it an easy matter to associate something abstract about a person in his mind and designing it in association with the person's name.

Get Acquainted Day is designed for those individuals who like to say "Hello" to acquaintances and friends, but who have difficulty in recalling names.

In business and social contacts one of the best habits that can be formed is that of remembering individuals' real names and addressing them properly.

How can this be accomplished? One may find a method which is helpful to him alone. Some suggest a new name mentally three or four times after meeting a person.

Still others want a name as acquaintance's name down as in a notebook shortly after an acquaintance. These there are those that make mental notes and, at the end of

the day try to repeat in writing the newly-made "acquaintance" made.

Rotary Club Observes Its 30th Anniversary Of Founding Today

Thirty years old, the Sanford Rotary Club was organized in 1921 and its first president was the late Harry E. Stevens. Since its organization it has furnished the inspiration and leadership for scores of projects which have been of commercial and cultural value to this community.

Orville Touchton is president of the club at the present time. Newly elected officers are Orville Touchton, president; Dr. R. W. Ruprecht, secretary; Walter Haynes, treasurer, and James Crapp, sergeant-at-arms.

Rotarians have been outstanding in their service as mayors, city and county commissioners, Chamber of Commerce leaders and

members, and in virtually all of the various civic, religious and fraternal organizations which have meant so much to Sanford.

During World War II the Rotary Club furnished five out of seven chairmen of the war bond drives. Sensing the need for certain projects and laying the groundwork for their achievement are traditional with Rotary. It was responsible for the early establishment of the Boy Scout camp at Silver Lake. It organized the Junior Rotarians, forerunners of the present High School Key Club.

Rotary assumed responsibility for annual contributions to the Children's Home Society of Florida at Jacksonville until a local committee for that purpose was organized. It sponsored the Seminole County Blood Bank and created a special fund for its maintenance. The building of a better spirit of fellowship among club members and with neighboring cities has been promoted

through annual boat trips and periodic inter-city meetings. Charter members who have passed on include Harry S. Stevens, George W. Knight, Ralph E. Stevens, Robert J. Holly, Sydney O. Chase, Joseph G. Ball, Samuel Puleston, Richard R. Deas, Edward Higgins, Deane Turner, S. O. Shinholser, Robert W. Peerman, John Meisch, Hampton C. Dufosse and Charles E. Henry.

Charter members now living are Walter M. Haynes, F. E. Roumillat, David L. Thrasher, William C. Hill, George D. Bishop, Robert A. Newman, A. Raymond Key and Arthur Yowell.

Following the term of Mr. Stevens in 1921-22, the following served as president of the club: David Leon Thrasher, George Knight, Robert J. Holly, S. O. Shinholser, Walter M. Haynes, Leon L. LeRoy, George Babcock, Mortimer Glover, Birdsey L. Maithe, Sydney G. Gray, Randall Chase, Paul J. Stine, G. W. Spencer, William A. Lefler, Herbert B. Pope, Homer H. Coleman, George E. Rollins, Martin J. Bram, James L. Ingley, R. W. Ruprecht, R. L. Dean, Herman J. Lehman, and Roy Holler.

More recent presidents have

been Lea Lesher, George Speer, Jr., Gordon Brisson, George Stine, George Touhy and during the present year Mr. Touchton.

One of the outstanding activities of the Club is its sponsorship of a Junior Baseball League for boys of 13 to 16 years of age during March and April and the early part of May each year.

This year, more than 60 boys comprising four teams, have been enjoying a schedule that began on Mar. 26 and which terminated on May 4. All games are of five-innings duration and are played starting at 5:00 P. M. at the Ninth Street and French Avenue Ball Park.

The following Rotarians served this season as managers of teams: Giants, John Pope and Job Newman; Pirates, James Higgins and B. L. Perkins, Jr.; Tigers, "Sonny" Powell and F. D. Scott; and Cubs, George Stine and Robert Cornell. The umpires are B. F. Ganas and Orville Touchton.

WORLD'S FASTEST CAMERA?
LONDON, May 7.—(AP)—A camera which can take 24,000,000 pictures per minute has been displayed by the Ministry of Supply at an exhibition here.

The ministry says the photographs could clearly show an ordinary house fly 100 yards away. The camera is described as the fastest high definition camera in the world. It is used for studying the details of explosions, which sometimes last only a fraction of a second.

The camera throws images on to a stainless steel mirror which revolves 150,000 times a minute. The image is reflected through small lenses on to film.

The camera contains some of the fastest moving apparatus in existence, the ministry says.

Concentrates Use 29,000,000 Dozen Oranges In Month

Twenty-nine million dozens of oranges consumed in one month is the record recently chalked up by that new wonder product—frozen orange concentrate.

As revealed by surveys conducted by Industrial Surveys, Co. Inc., 58 million dozens of oranges were consumed as concentrate

during October and November of 1950, an all-time record and one that is 66 per cent over the 1949 period.

A summary and interpretation of the survey data made by Herman F. Steele of the Florida Citrus Commission's staff reveals the continuing impact of this new product on consumer eating habits and on the state's citrus industry.

In addition to this all-time high in consumption Steele shows that institutional outlets have become more important as a distribution factor in the over-all sale of citrus and price increases during

the 1949-50 season, at the consumer level, were returned almost directly to the grower.

Steele went back to 1948 in his work because that is the season when frozen concentrate was first generally available in commercial quantities. From a consumption of the equivalent of four million dozens in October and November of 1948 the sale climbed to a phenomenal 58 million dozens during the same period in 1950, the last period for which figures are available.

He shows that the national citrus crop for the two seasons, 1948

J. Brailey Odham Continues Fight Against Gambling

Brailey Odham, state president of the Junior Chamber of Commerce, is a former state representative from Seminole County and has been prominent in civic affairs since his return from active service with the Navy during World War II.

Mr. Odham led the fight against organized gambling and corruption within the state during his two legislative terms and has continued the fight as head of the Jaycee organization.

During his tenure as head of

and 1949 were almost identical but that during this period a change in disposition was noticed. This change came about through a noticeable decline in consumer purchases but since there was an increase in the amount of purchases for institutional use the decline becomes a change. For the period this would mean an institutional use, hotels, drug stores, restaurants, schools and other, of about 11 per cent.

Despite this change showed at the consumer level the rise in consumer prices pushed the dollar volume up to show a 4 per cent increase—representing an increase of 90 cents a box on-tree for the Florida grower over his returns for the 1948-1949 season. Of every dollar spent for food, consumers bought two cents worth of citrus.

The sale of fresh oranges continues to overshadow the sale of concentrate, but the latter is rapidly catching up. During October-November of 1950 consumers bought the equivalent of 71 million dozen oranges against the 58 million as concentrate.

Other figures for the period are 14 million dozen grapefruit in the fresh form, 17 million dozens grapefruit as single strength juice, 36 million dozen oranges as single strength juice and a total of 9 million dozen oranges and grapefruit in single strength blended juice. The total was an impressive 205 million dozen.

From the same source it was learned that the per capita consumption of citrus throughout the nation represents the equivalent of about one and three-tenths ounces of some kind of citrus juice to consume the entire 1949-50 crop of 137,823,000 boxes of oranges, grapefruit and tangerines from all producing areas.

A projection of this figure requires every man, woman and

the Junior Chamber in Florida citizens committees were formed in every county in the state at the instigation of the Jaycees to fight gangster elements.

Mr. Odham is a native of Sanford where he attended the public schools. He is a graduate of Louisiana College where he played football as a tackle for three years. An all around athlete, Mr. Odham played guard on the basketball team for two years.

He entered the Navy early in the war rising to the rank of Lieutenant (senior grade) after serving in both the Pacific and European theaters.

An enthusiastic booster of Seminole County and Central Florida, Mr. Odham has urged the development of small industries in the area and fought for increased tourist trade for the area.

He was voted one of the ten outstanding members of the State Legislature in 1947 and the outstanding young man in Seminole County in the same year.

Mr. Odham is married and has one daughter. He is owner of the Odham Motor Co., Studebaker dealer for Sanford.

He has been president of the local Jaycee organization and state president of the Veterans of Foreign Wars. He is a member of the American Legion.

child in the nation to consume one and four-tenths ounces a day to consume the entire 1950-51 crop. If this figure were increased to two ounces—the size of the crop would have to be increased by more than 40 per cent.

"All under one Roof" is the justified claim of the Florida Fruit and Vegetable Association in describing the location of the

Eighth Annual Convention of the Association to be held at the Sherry Frontenac Hotel in Miami Beach on Oct. 3, 4 and 5.

Probable pitchers haven't been won't affect the pick to win. It's announced but whoever pitches Birmingham.

Word is being awaited from the State supervisor of aviation to approve the new port for the use of planes other than those operated by the Civil Air Patrol. The airport borders the Atlantic Coast Line Railroad main line measures 400 by 2,800 feet. As soon as the State approval is obtained, work will go forward on improving the area for landing and taking off purposes. The field will be known as Kirchhoff Field, as it was secured from W. E. Kirchhoff.

The Sanford Squadron was recently notified by R. G. Howls that the Florida Wing, Civil Air Patrol, has offered the services and facilities of the organization to the directors of civil defense throughout the state. Located near the principal centers of population, the facilities of these units include radio and communications equipment, plus transportation, both air and ground, also a messenger service. The Civil Air Patrol is capable of rendering assistance to civil defense agencies in the performance of the following missions: Aerial reconnaissance to assist ground traffic control agencies during emergency periods; aerial patrol of devastated and stricken areas; emergency air transport of key personnel or specialists. The C. A. P. may assist in providing emergency communication facilities for devastated areas where communications have been severed. It also may assist in the training of ground observers posts by flying planes during training exercises conducted by directors of civil defense.

Fast streamliner summer service will be maintained by the Florida East Coast Railroad on a new schedule which went into effect the first of this month. Statewide cigarette taxes collected during February totaled \$1,372,437.51 of which \$213,816.85 will go to the State Tuberculosis board.

EASTER SUNRISE SERVICE

Greeting the Easter day dawn with praise and hosannas for the risen Christ, more than 700 Sanford worshippers gathered at the Municipal Pier on Sunday, Mar. 25, and gained spiritual inspiration communing with nature and with God.

Indicating unity of spiritual aims and aspirations in Sanford during a period of deep international crisis when the sons of many are serving on a far away Korean battle front, members of many denominations received solace and comfort as the Rev. A. G. McInnis, president of the Sanford Ministerial Association and minister of the First Presbyterian Church, told of the resurrection.

His voice was carried by means of loud speakers to where people were parked in automobiles all along Seminole Boulevard. He stressed the newness of unfolding life in the spring, and the gladness of greeting newly budded leaves and flowers.

As the sun rose higher above beautiful Lake Monroe the youthful voices of the Seminole High School Glee Club choir sounded again the theme of the sermon, the victory of Christ over the fear of death. To the beauty of the music was added the full strains of the Seminole High School Band trumpeting the victory.

The churches of Sanford are noted for their co-operation

First Congregational, First Christian, Christian and Missionary Alliance, Holy Cross Episcopal, First Methodist, Free Methodist, Church of the Nazarene, First Presbyterian, Congregation Beth Israel, and the Church of God on Elm Avenue.

The spiritual life of the entire community revolves around the services of the churches and the activities of their various organizations, attendance is regular at the more than 20 churches.

In order to meet the needs of a growing community, churches in Sanford have spent more than \$300,000 since the war in repairs and additions.

The rapid growth in attendance was especially marked among the young people in the various Sunday Schools, and the need for more space for classrooms and recreational and social headquarters led to the building of annexes in three of the larger churches.

These include the annexes of the First Presbyterian Church, First Baptist Church and First Methodist Church, attractive buildings of more than \$200,000 in total cost.

The most recently completed of these was the Presbyterian Church annex on Third Street which was erected at a cost of more than \$70,000. It is two stories high and of brick and linc construction. It provides ample Sunday School facilities for the enrollment of more than 500, and a large meeting room with a modernly equipped kitchen can accommodate supper meetings of more than 100 persons. The old frame house on Myrtle Avenue that formerly served as an annex was recently demolished. Church membership is more than 900, said Rev. McInnis. Dr. E. D. Brownlee is pastor, emeritus.

Named in honor of the Rev. J. E. McKinley is McKinley Hall, the unique and attractive annex of the First Methodist Church which has a growing membership now past the 1,000 mark. Costing more than \$60,000 and of brick and block construction, the annex features a patio and garden within its walls, and this affords a charming outlook from the classrooms. A large meeting and social room serves as a center for recreation, suppers and gatherings.

Largest in membership of all of the Sanford Churches, and with a membership in excess of 1,200 is the First Baptist Church which recently completed its two story brick and block educational building adjoining the church proper. The pastor, W. P. Brooks, Jr., has served the church for more than 20 years. The Rev. John L. Miller is minister of education. The new facilities enable the church to provide 35 classrooms for the more than 900 members of the Sunday School.

Holy Cross Episcopal Church is one of the oldest churches in Sanford, and includes a large Parish House in which is a large meeting room and Sunday School class rooms. Many outstanding suppers and socials have taken place there. The first church building, erected in 1873, was destroyed by hurricane winds on Aug. 29, 1900, and the one that replaced it was leveled

by fire in 1923. The present building was occupied early in 1925. The Rev. H. Lytleton Zimmerman is rector, and prior to 1948 served St. John's Episcopal Church in Huntington, Pa.

All Souls Catholic Church occupies a beautiful building on Oak Avenue facing the park at Ninth Street and has an average annual membership in excess of 400. Father Anthony McGowan is priest, and came to Sanford at Thanksgiving following the transfer of Father William Nachtrab to Lake Wales. The church is considering the erection of a rectory and parsonage, also the erection of an educational building.

The First Christian Church on Sanford Avenue has a rapidly increasing membership, now more than 130. The Rev. J. R. Farris is pastor, and lives in an attractive parsonage near the church, which was erected through the gifts of church members and friends of the late Rev. W. P. Yesley. Rev. Farris, after three years of service, intends to retire from the ministry in July. A large parking lot was recently purchased near the church for the convenience of members.

The Congregational Christian Church in Sanford was founded here in 1898 by a small group. Its present structure of cement block was built at Park Avenue and Third Street in 1913. John Bernard Root, its pastor, also serves as a member of the faculty of Seminole High School. His parsonage is at 811 Palmetto Avenue. The church doors are always open to those who are in need of its service or its prayers.

The Christian and Missionary Alliance Church was completed last year at Fourteenth Street and Park Avenue at a cost of \$40,000. The Rev. Glenn E. Smith is pastor. Plans for an educational wing are pending, and the foundation is already laid for this. Membership is about 50.

The Seventh Day Adventist Church is located at Elm Avenue and Seventh Street, and was erected and occupied in 1941. Elder A. E. Deyo presides at services, assisted by L. H. Shepard and William Watt. Many health talks are made at the church by doctors and workers of the Florida Sanitarium and Hospital, Orlando, which is operated by the denomination. Young people from the Forest Lake Academy often provide special music and programs. Plans are pending for adding a new entrance to the church, and to complete the Sabbath School rooms.

The Jewish Community Center, Congregation Beth Israel, is located at Magnolia Avenue and Sixteenth Street. It was organized in 1927 and the present Temple was erected in 1929. Membership is about 50.

The most recently erected church building is that of the Church of God on French Avenue at Twenty-second Street. Of concrete block construction, it cost more than \$15,000. B. E. Newell is pastor. This church was formerly located at Holly Avenue and Fifth Street.

The Church of God, 2509 Elm Avenue of which the Rev. Joe C. Crews is pastor, is spending more than \$3,000 in

and mutual understanding, and the program was sponsored by the Ministerial Association in which the following churches are represented: Assembly of God, First Baptist, Central Baptist, organizations to provide additions for the Sunday School. The church is the scene of many church gatherings and has a strong orchestra.

The First Church of Christ Scientist meets in a pleasant, colonial type of building on East Second Street.

Meetings of Unity are held Tuesday evenings at the Valdez Hotel and are conducted by the Rev. Carolyn H. Parsons of the Ocean Unit, Miami.

The Rev. S. L. Whitley is pastor of the Central Baptist Church which is located at Ninth Street and Laurel Avenue. Other local churches include the Free Methodist Church, West Fourth Street and Laurel Avenue of which Fred R. Horton is pastor; the First Baptist, Lakeview, Magnolia Avenue and Hill Street; the Church of the Nazarene of which L. R. Ruckton is pastor; at Second Street and Maple Avenue; and the Church of Christ of which J. C. Nicholson is minister, is located at Second Street and Maple Avenue.

L. A. Allen is pastor of the Sanford Assembly of God Church at 1200 Laurel Avenue.

Churches Naturally Provide One Of Best Places To Get Acquainted

One of the best places in the world to get acquainted with some of the best people in town is in the church.

Since this is so why not make a special effort to get acquainted with the people in your church, especially the newcomers, next Sunday?

While there will be special mention of the occasion made from the pulpit in some churches, the day is not planned as anything that requires special promotion. Rather, it is to encourage in the members of the congregation a desire to know other members—or to know them better.

The church should be the easiest place in which to get acquainted—but because old members are preoccupied with trying to see each other or hurrying to get home and get dinner on the table, often they rush off without having greeted the visitor or new member. And, believe it or not

some congregations have been known to get a bit cyanish making it difficult for new personalities to break the crust and get into the fold.

That's not the spirit of churches, of course. The spirit is the same as the psalmist when he said, "I was glad when they said unto me: 'Let us go into the house of the Lord.'"

With the idea of making that thought warm every heart, church members are urged to linger and visit next Sunday. Especially are they urged to inquire about—and then to visit (or meet) the persons they may know by face but not by name.

And make sure that when the visitors stand for special recognition that you spot them—and then make it a point to greet them and shake their hands, so they leave the house of the Lord in other words, make them "glad."

Introduce Yourself To Clerks And Merchants Throughout Week

Get acquainted with your merchants, clerks and local industry this week.

This week has been specially designated as "Get Acquainted Week," and is set apart as a special opportunity for customers to get to know their merchants, and their helpers, better.

The vast majority of business houses are co-operating today in identifying themselves to the public. Our means they have chosen publishing cartouches of themselves in their advertisements so that you may get to know their department heads, clerks and other employees.

At the same time, businessmen hope that customers will not be overly modest in introducing themselves. Sometimes the poor clerk is caught out on a limb—he or she knows your face but not your name.

Why not throughout this week, introduce yourself. You don't

have to be coy about it—just come out and say: "I'm Mrs. Bill Smith." But if you want to use finesse, you might ask something like: "Do you know my husband, Bill Smith?" Of course, the clerk will know good old Bill, and he'll try to be grateful to know you are Mrs. Bill Smith.

Local industries, those which give you special services or which buy and process locally produced goods—are anxious that you call on them tomorrow and Get Acquainted with how they serve the community.

Most of our waking time is spent in some sort of business, so if most of us get acquainted during business, we'll be pretty well acquainted.

The major powers of Europe guaranteed Switzerland's independence in 1816 to prevent border incidents among France, Italy and Bavaria.
