SANFORD, FLORIDA, WEDNESDAY, NOV. 17, 1920

NUMBER 193

BIG TEXTILE MILLS ARE CLOSING DOWN FACTORIES PRODUCTION IS LOWERED

New England Cutting More Than Half

CURTAIL BIG PER. CT.

MANY OF THE MILLS HAVE CLOSED ENTIRELY—SOME WORK HALF TIME

(By The Associated Press.)
BOSTON, Nov. 17.—The total production is less than half that of a year ago in the New England textile industries employing 300,000 operatives, according to an estimate from a canvass of mill centers. Some mills are curtailed as high as 80 per cent, others are closed entirely, and the majority have adopted a shorter working schedule.

VEILED THREAT STATE DEPARTMENT NOTE ON TELEGRAPH CO.

(By The Associated Press.)
WASHINGTON, Nov. 17.—A veiled threat is contained in a formal statement of the State Department that permits for the landing of the Western Union cables in the United States will be revoked unless the company continues to accord the American government the same privileges as other governments in handling cable messages.

PRESIDENT WILSON SENDS MESSAGE TO LEAGUE OF NATIONS

(By The Associated Press.)
WASHINGTON, Nov. 17.—President Wilson sent a message to the president of the League of Nations assembly and expressing "hope and belief that their labors will be of immense value to the whole civilized world."

NO CORPORATION WILL DELIVER RECOGNITION TO MEXICO

(By The Associated Press.)
WASHINGTON, Nov. 17.—No corporation, no group of corporations and no individual is going "to deliver American recognition to Mexico," stated authoritatively at the State department today.

Harding Rusticating In Texas Sticks

POINT ISABEL, IS AN OUT-OF-THE-WAY PLACE ON THE GULF COAST.

(By The Associated Press.)

POINT ISABEL, Tex., Nov. 17.—An out-of-the-way place is the gulf coast resort where President-elect Harding is recuperating from the strain of the national campaign. For communication with the outside world it depends upon a narrow gauge railroad to Brownsville, and automobile road, a few telegraph and telephone lines and the big government wireless station through which came the first direct information on the Corpus Christi storm of September, 1919.

Though only 20 miles from the busy border city of Brownsville, it is like passing into a different country to make this 20-mile trip. On the way lies a plantation set in palm trees, with thatched palm huts of Mexican laborers, which is more suggestive of the Philippines than of anything elsewhere in the United States. Beyond the planted area come great flats and some low rolling hills, on which the sky reveals here and there the straight sentinel-like Spanish dagger. Hurry or worry is unthinkable in the lazy and almost perpetual sunshine of this region.

On its outer edge lies Point Isabel, a fishing village, with the always picturesque complement of Mexican population to be found in this extreme corner of the United States. A long wooden pier runs out into the water like a finger and the town extends along the shore at right angles to this finger. Padre Island, a strip of sand dunes with trees here and there, lies in front of Point Isabel, forming the lagoon which the town faces. To

CONSTANTINE KING IN GREECE AND EXPECT HIM BACK

(By The Associated Press.)
ATHENS, Nov. 17.—"Constantine is our rightful king," former Premier Gaunaris, leader of the successful party in the elections told correspondents. "We expect him back as soon as a plebiscite shows people want him."

ATHENS, Nov. 17.—Former Premier Rallis formed a new cabinet succeeding Venizelos' government.

TEN MINERS RESCUED FROM BURNING MINE

(By The Associated Press.)
EARLINGTON, Ky., Nov. 17.—Ten miners were rescued from the burning Arnold coal mine near here today. The bodies of five others have been rescued, one other person is missing. A tunnel was dug around the fire which shut off the single entry. The men have been entrapped twenty-four hours.

BANDITS FOILED IN ATTEMPTED ROBBERY

(By The Associated Press.)
DENVER, Nov. 17.—Bandits attempted hold up and rob Union Pacific passenger train here today. They flagged train but wa driven off by the train crew after a gut battle and later derailed the following train.

DEMOCRATS IN NEXT CONGRESS MUST FIGHT

WILL BE IN MINORITY AND WILL HAVE ROYAL BATTLE ON BILLS.

WASHINGTON, Nov. 17.—Washington is alive with interesting gossip concerning what the Democrats in Congress will do at the beginning of the extra session, which, in all probability, will be called for about March 15.

There is always more than the usual amount of cloak-room talk when the names of such men as Representative Byrnes of South Carolina, Frank Clark of Florida, Charley Crisp and others of Georgia are mentioned, and that it will be decidedly up to these Democratic war horses to do more than the ordinary amount of work in the next Congress.

It is a good thing that such men as Clark, Byrnes, Crisp and Claude Kitchin, of North Carolina, are to be on hand in the House with the defeat of Champ Clark of Missouri, the promotion of Tom Heflin to the Senate and the practically demolition generally of the Democratic organization in the House.

The Georgia delegation will return to Washington for the extra session with not even a dent in the House side, but with a big cavernous hole made in the senate by the defeat of Senator Hoke Smith. With Charley Crisp are Wise, Gordon Lee, Larson, Wright and Overstreet and others who will be called upon to put on the battle armor from the very moment the strife begins.

"Jimmie" Byrnes will lead the Democratic hosts on the painfully evident "minority" side of the House chamber for the men from the Palmetto state and Frank Clark, old seasoned war horse that he is, will take care of Florida's interests. In this connection it is also interesting to note that when the smoke of battle has cleared away and it is ascertained reliably who is elected and who is not, that all the members of the delegations from the states have moved up the ladder. There is possibly an exception to be noted in the case of Mr. Clark, inasmuch as he was chairman of the House committee on buildings and grounds when the Democrats were in control of the House, and is now "ranking Democrat" on all important committees to which he wishes to belong.

It will also be ascertained that the other members of the delegation from Florida—Drane, Sears and Smithwick—have moved up as the result of so

Education for Disabled Ex-Soldiers

These discharged, disabled soldiers are continuing school learning with hospital treatment. During a short period each day they attend the classroom of the school on the United States public health service reservation at Perryville, Md. They are being taught to read and write English. Uncle Sam is a great believer in education in the making of good citizens.

LEAGUE OF NATIONS IS UNNECESSARY IF RUSSIA COULD STAND ON FEET

Says the Bishop of Episcopal Synod at Norfolk

THREE BIG NATIONS WOULD BE AMPLE PROTECTION AGAINST THE WORLD.

(By The Associated Press.)

NORFOLK, Nov. 17.—Bishop Herbert D. Bury, of North and Central Europe, addressing the Episcopal Synod of the province of Washington in session here today, declared that the League of Nations will not be necessary when Russia is put on her feet and stands together with America and England, because three great nations united would be strong enough to keep the peace of the world.

many Democrats getting the axe. In South Carolina, with changes in three districts, where W. Turner will succeed R. S. Whaley in the First, John J. McSwain succeeding Sam J. Nichols in the Fourth, and H. P. Fulmer taking the place of Ed. C. Mann in the Seventh, the last named members will for a time be known as "baby" members. There is every reason to think, however, that at least one of them, Mr. McSwain, will soon elevate himself from his congressional crib and proclaim himself a full-grown man and member, entitled to all the rights, privileges, benefits and other emoluments incident and appertaining to his membership in the House. These three members must go to the foot of the ladder so far as committee places are concerned, but that will not prevent them from talking out in meeting whenever they get ready to do it. —P. H. McGowan in Times-Union.

OLD MAN VILLA SETTLES DOWN ON FARM IN LOWER CALIFORNIA

(By The Associated Press.)
SAN DIEGO, Calif., Nov. 17.—Villa is reported at the head of a big colonizing scheme in Lower California with fifteen hundred men farming with modern machinery. It is believed he was settled in Chihuahua on land given him by the government.

HARDING LEAVES SECLUDED RETREAT MAY STOP IN MEXICO

(By The Associated Press.)
BROWNSVILLE, Tex., Nov. 17.—President-elect Harding is on his way today to New Orleans where he will board a ship for Panama. He is expected to decide today whether he will accept an invitation to visit Mexico. His ship may be ordered stopped at Vera Cruz.

WITNESSES DIRECT FROM IRELAND WILL TESTIFY

(By The Associated Press.)
WASHINGTON, Nov. 17.—Witnesses direct from Ireland will be the first to be heard by the commission from the committee of one hundred investigating conditions in Ireland, which proposed no public hearings until tomorrow.

GREEKS ARE WEARY OF POLITICS AND WAR

(By The Associated Press.)
ATHENS, Nov. 17.—Venizelos is said to have attributed his defeat to weariness of the people of politics and his opponents charges he was putting Greece in the hands of foreigners.

SPANISH STEAMER IN DISTRESS OFF JERSEY COAST

(By The Associated Press.)
NEW YORK, Nov. 17.—The Spanish steamer Yute, bound for Dunkirk from Baltimore, called for help off the New Jersey coast today.

BOLSHEVIKS SWEEP UKRAINIANS OFF MAP

(By The Associated Press.)
WARSAW, Nov. 17.—The Bolshevik cavalry swept through the Ukrainian lines today and the Ukrainians fleeing evacuating Kiev and all other towns held.

FARMERS MAY HOLD THEIR WHEAT CROP NO GRAIN 'STRIKE'

DO NOT FAVOR A "FARMERS STRIKE" BUT THINK THEY SHOULD HAVE BETTER PRICE

(By The Associated Press.)
CHICAGO, Nov. 17.—While not favoring a grain "strike" for any set price, sentiment among organized farmers in the great agricultural states of the middle west runs strongly toward holding back grain as far as practicable for better prices, according to canvass made here. This survey of sentiment was taken by the Illinois Agricultural Association.

Reports were received by secretaries of state farm bureau federations in Missouri, Minnesota, South Dakota, Kansas, Nebraska, Iowa, Wisconsin and Kentucky. In no cases did a state federation report it had advised a "strike."

Need of credit facilities to enable farmers to hold their wheat if they want to was pointed out from several states. One state secretary wrote he was "using the present conditions as an argument in favor of the farmers getting into the big marketing game in such a way that they will be able to finance it and to store considerable of the grain as it is offered."

"The attitude I have taken in the matter is this," wrote H. D. Lute, of Lincoln, Nebr., secretary of the Nebraska Farm Bureau Federation, "that it is wrong to set an arbitrary price of \$3 a bushel and that it is hardly advisable to ask the farmers to hold their wheat unless we are in a position to help them on the financial and storage ends of the game. But I do tell the farmers that I believe wheat will be higher and that it will be a good thing to hold it if they are in a position to do so."

Writing that the South Dakota Farm Bureau Federation "does not believe a 'wheatstrike' necessary or desirable for the country," Secretary P. J. Crandall, of Huron said, "our method of handling the situation is to furnish farmers with accurate information regarding the wheat market to help them in determining what action is best for their needs. The farmers will hold their wheat off the market without a doubt if they are able to get credit which will allow them to carry their products. The credit situation is the key to the whole matter. We are advising that the world wheat situation warrants holding of the crop if credit allows and using our best efforts to help bring financial relief."

Officially the Missouri Farm Bureau Federation has made no recommendation, A. J. Meyer, at Columbia,

ORANGES NOW MOVING FROM SANFORD

CHASE & COMPANY OPEN PACKING HOUSES WITH BIG CROP OF FRUIT.

Chase & Company, of this city, are not only the largest growers, packers and shippers of fruits and vegetables in the other sections of Florida but they have three large packing houses here all built of brick and having the latest and most improved machinery in them. This enterprising firm recently built one of the finest and most complete office buildings and warehouse adjunct in the state at the corner of Second street and Oak avenue and have recently moved into their new quarters.

Mr. and Mrs. Sweet, who were with the mail order department last season, have arrived in the city to take charge again and brought Miss Georgia Poulson, of Montpelier, and Miss Gladys Doster, of Muncie, Indiana, with them and all of them will be in the mail order department of the Chase Co. This part of the business has grown to large proportions with the irreplaceable Tom Jones (late of London) taking care of the outside mail order packing and shipping and together with the picking, packing and shipping of oranges and vegetables in car lots all over Florida keeps the office forces of Chase & Co., here and at other points busy. Sanford is fortunate in being made the headquarters of this large firm. Already the business of packing oranges has commenced here and Will Leffler, the ubiquitous head of the office force, reports that more oranges are being packed and shipped at this time of the year than ever before and they are bringing good prices. In fact the Chase packing houses here have already started up with a large force of packers and the season has commenced with the brightest of prospects. This is only one of the many big firms here that are doing a big business in Florida fruits and vegetables and that have the faith of their convictions in Sanford and Florida so strong that they are building for the future.

Southern Commercial Congress to Meet

WILL HOLD NEXT SESSION IN WASHINGTON BEFORE INAUGURATION

(By The Associated Press.)
WASHINGTON, Nov. 17.—The Southern Commercial Congress will hold its next convention in Washington in March immediately preceding the inauguration of President-elect Harding. The congress will discuss a legislative program of the United States Congress for Southern international problems and related international reconstruction.

Executive secretary, wrote. "As individuals," he added, "all members of our executive committee take the attitude that where farmers can afford to hold wheat they should be all means do so. This is on the theory that present prices are about as low as we can reasonably expect them to go. Since we are not in a position to guarantee \$3 wheat, we can hardly advise farmers to hold for \$3."

The Wisconsin Farm Bureau Federation does not endorse "strikes" as a means of controlling the price of farm products, wrote Secretary C. A. Peters, of Rosendale, Wis. "According to the present situation in regard to wheat we believe that the low prices are unjustifiable and that it would be good business policy for the farmers to discontinue heavy marketing and allow the market to adjust itself."

From Iowa, E. H. Cunningham, of Ames, secretary of the Iowa Farm Bureau Federation, wrote, "We realize that it is the most difficult thing to hold grain and we do not recommend that it be held to arbitrarily force prices to unreasonable height. Of course we have no credit system whereby we can hold all the grains of the country, but we are advising our farmers to slow down in marketing for the present until this period of demoralization in prices has somewhat recovered."

Do Your Fall Shopping Before the Holiday Rush

Excuses for postponing your fall shopping are no longer in order.

It should be done now—at once—before the holiday rush sets in. You can shop thoughtfully, leisurely and economically if you shop now. But if you wait until the Christmas rush sets in, you must buy hastily and inefficiently, and therefore extravagantly.

Shop now. Make a list of all that the family will need—heavier clothes for the cooler weather, new shoes, new hats, that new furniture you have been discussing, linen and silverware for bed and table.

These you will find now in pleasing selections on the shelves and counters of the local stores—fresh fall stock at the new lower prices that please us all.

Make up your list now—and be sure to look for suggestions and prices in the advertisements in the Daily Herald. It is always well to read the ads before shopping, and they will be found particularly helpful now.

The season of heavy fall buying really begins tomorrow. Make your selections early.

BOYS AND GIRLS OF FLORIDA ARE BIG PRODUCERS

To Prove Their Prowess at State Fair.

Jacksonville.—Over 125,000 boys and over 75,000 girls are engaged in Boys' and Girls' Club work in the South. They produced more than six million dollars' worth of products last year: A pretty good record.

One of the means of furthering this work is the encouragement offered boys and girls by the Florida State Fair, to be held this year at Jacksonville, Nov. 18-27.

A department has been set aside for the boys' and girls' club work and liberal premiums are offered. These consist of cash and ribbons and are offered for the best displays by the boys and girls poultry clubs of Florida, boys' corn clubs, peanut clubs, pig clubs, calf clubs, boys' judging contest and girls' canning clubs.

It is not so much to the present as to the coming generation that Florida must look for the realization of her fund hopes for future development and progress. It is, therefore, of the utmost importance that boys and girls be given advantages that were denied the past, and to a certain extent the present generation.

The State Fair is encouraging them through material reward and honorary mention to greater effort in the production of better crops, better livestock and better food. Help the Fair, boost the boys and girls.

AMERICANS ABROAD IN RED CROSS WORK

United States Citizens Far Away Enthusiastic Members of the "Fourteenth" Division.

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country—sons and daughters of the Stars and Stripes residing at the far corners of the earth.

These people compose the insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the island of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported \$2,808 paid up members.

The main object of this division is to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patriotic, treasure their membership in the Red Cross as the outward expression of their citizenship. It is another tie to the homeland and to each other. There are chapters of this division in Argentina, Bolivia, Brazil, Canal zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Ecuador, England, France, Guam, Guatemala, Haiti, Hawaii, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippines, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuela and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent Home Service in their respective communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to the relief of disaster and disease victims.

The division is now establishing service clubs in foreign ports for the benefit of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part in the great Peace Time program of the American Red Cross.

CHINESE KILL RUSS

Captives Are Shot to Death With Revolvers.

First Make Victims Dig Graves, Then Execute Them for the Bolsheviks.

Amsterdam.—The correspondent of the Handelsblad, who recently returned from a trip in soviet Russia, gives the following account of his investigations of the activities of the Chinese employed there by the bolsheviks as executioners.

"Such horrible stories were being told in Europe about these Chinese that I thought it worth my while to learn more about them. As a joke, I asked everyone who asked my opinion of the bolsheviks to show me some 'real man-killing Chinese,' but I always was told they couldn't produce any just now because they had all gone to the Denikine front.

"I was told the Chinese, if commanded by their own officers were excellent soldiers, but they ran like hares if their officers were killed. Executions are now very rare in Moscow, but in August, when thousands of counter-revolutionaries were slaughtered, it was carried out by the Chinese because the authorities feared the Russian soldiers would refuse to do the work.

"The Chinese do this work indifferently—like they do all other work they are ordered to perform. They are blind, conscienceless tools in the hands of the men who feed them and pay them and who raised them from the position of coolies in which they came to Russia to the rank of soldier, of the guards.

"If the 'boltsjak' (his name for bolshevik) orders something, the Chinese does it, and he does it in his typically practical way. He first makes the victim dig his own grave and then shoots him with his revolver. He is not cruel about it, just practical.

"When boltsjak says kill, then he kills with an unperturbed face. And when boltsjak says, 'You may stop now,' with the same cool face he lets his victim go."

The correspondent after some weeks in Russia left when he was refused permission to make investigations freely as he pleased.

Notice of Application for Tax Deed Under Section 575 of the General Statutes.

Notice is hereby given that George Murphy, purchaser of Tax Certificate No. 1808, dated the 3rd day of June, A. D. 1901, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Seminole County, Florida, to-wit:

346 ft. N. and 424 ft. W. of SE. cor. of NW 1/4 of SW 1/4 of Sec. 31, Tp. 20 S., R. 30 E., run N 73 1/2 ft., W 170 ft., S 73 1/2 ft., E 170 ft.

The said land being assessed at the date of the issuance of said certificate in the name of Unknown. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 22nd day of December, A. D. 1920.

Witness my official signature and seal this the 12th day of November, A. D. 1920.

POLLYANNA

Little Miss Rebecca Stevens was hostess of the Polly Anna Club Tuesday afternoon. A very jolly afternoon was passed in sewing, and games. Delicious refreshments were served.

ST. AGNES GUILD.

St. Agnes Guild met with Mrs. Ed. Lane Monday afternoon. There were eleven members present who enjoyed a most pleasant afternoon planning a dance and Christmas bazaar. A salad course was served during the afternoon.

WILL HAVE TENT FOR METHODIST BAZAAR

The ladies of the Truth Seekers Class of the Methodist church are not to be daunted by the fact that there are no empty store rooms in Sanford and wishing to hold their bazaar will have a tent on the vacant lot on First street where the new arcade and apartment building will soon be erected. Here they will have many pretty things for sale and on Saturday will have lunches and hot coffee for the hungry as well as something upon which to feast the eyes. See their advertisement in this issue.

HARDING RUSTICATING IN TEXAS STICKS

(Continued from page one)
 the north this slender island extends virtually unbroken for nearly 100 miles. Its southern extremity reaches barely past Point Isabel's front door. The gulf surf comes in on the outside shore of the island affording year round bathing while the lagoon is a big lake, in some places several

miles wide. The fishing is on both sides of the island. Redfish running up to 20 pounds and salt water trout which average three to six pounds are ordinarily sought but, the varieties of big fish within fisherman's distance are almost endless. Wild turkeys and quail abound in the adjacent territory and deer and javelin or wildhog are numerous. Then there are the Mexican lions, which are about the size of a large Newfoundland dog and which have fully as much courage as a jack-rabbit. There are also leopard cats and bob-cats, jackrabbits and cotton tail rabbits.

Years ago Point Isabel was visited by many large vessels which served lower Texas and part of the north-eastern section of Mexico. That was before railroads connected the two countries at Largo and before the Rio Grande Valley, now famous for its truck gardens, was connected with the more populous sections of Texas. When the St. Louis, Brownsville & Mexico railroad was constructed from Houston to Brownsville, water transportation was greatly curtailed until today it is almost negligible.

Because of the town's position on the Laguna Madre and the beautiful sand beach on Padle Island, it was thought at one time that Point Isabel would become a great winter resort, and a commodious brick hotel and numerous neat cottages were constructed. Difficulting in standardizing the narrow gauge railroad to Brownsville, however, hindered development along these lines.

KEEP THE VEGETABLE GARDEN BUSY

During October and the first weeks of this month the weather has been dry and some of the garden crops have suffered for moisture, especially where water has not been available for sprinkling. Lack of rain can be remedied largely by stirring the soil with a rake constantly.

A small quantity of commercial fertilizer should be used to give the growing crops a boost and to keep them growing. A bone compound fertilizer is recommended. Vegetables are stunted and hardened by allowing their growth to become checked. High quality vegetable depend largely on the cultivation of the soil during the growin period, says C. K. McQuarrie, state agent for the Florida agricultural extension division.

A few of the vegetable crops recommended for winter planting are: Beets, carrots, lettuce, cabbage, col-

Pipe Organ Recital Presbyterian Church Very Entertaining

LARGE CROWD PRESENT TO ENJOY AN EVENING OF MUSIC.

The pipe organ recital at the Presbyterian church last night was attended by a large crowd, the church proper and the gallery being filled with the music lovers of the city and surrounding country. This is the first concert given in the church since the organ was installed and under the skillful fingers of Miss Foster the organ was given a real test and responded to the touch of a master delighting the audience in every number. The vocal selections of Miss Mabel Bowler were also well received as a general favorite who is always in fine form and the entire concert was a great success. Miss Foster is from the Jacksonville School of Musical Art and graciously consented to come to Sanford to give the concert in the interest of musical art and her efforts were appreciated as evidenced by the large crowd that greeted her last night. The following program was carried out:

- 1.—America Triumphant, from the "Pilgrim Suite".....Dunn
- 2.—The Swan.....Saint-Saens
- 3.—Morning Serenade.....Lemare
- 4.—In Capulet's Garden.....Steele
- 5.—Gounod's "O Divine Redeemer" sung by.....Miss Bowler
- 6.—Gavette (dedicated to Miss Foster).....Campbell
- 7.—Evensong.....Johnston
- 8.—Nuptial March.....Guilmant
- 9.—Spring Song.....Hollins
- 10.—Teccata.....Crawford

Demonstration of Florida Fruit juices at the Woman's Club Wednesday afternoon. Wakefield products on sale. 190-3tc

lards, onions, Dwarf Essex rape, cauliflower. The seeds of carrots should be soaked for 12 hours before planting. Growing onions should be banked, especially when desired for table use. This gives a long succulent stem which makes the product more desirable and which cannot be had if no bleaching is done.

If frost threatens, the more succulent plants should be covered during the night. The covering should always be removed during the day.

Experience teaches that no area of soil is more productive than is the vegetable garden. There should be one for every home in the country and the city, supplying the tables of every family with green, succulent food every day of the year. The healthiest people are those who eat vegetables and fruits.

Six Kinds of Safety

Have you every paused to consider the safety of the bank where you deposit your money?

The first consideration is the capital, which should be ample to meet the requirements of the community the bank is to serve.

The next question to consider is the officers in charge. They should be men of experience, high character and successful. Without men of ability no institution can succeed.

Then there is the question of confidence. The public should have confidence in the officers and in the bank.

These three principles determine the success of a bank. We adopted these principles in the outset of our career and we expect to live up to this high standard and increase our usefulness to the community as the years go by.

We Offer You:

- 1ST: LARGE CAPITAL AND WORKING RESERVE.
- 2ND: TRAINED MEN IN CHARGE—MEN OF SEVERAL YEARS EXPERIENCE.
- 3RD: THE CONFIDENCE OF THE PUBLIC, WHICH IS PROVEN BY THE DAILY ADDITION TO OUR LINE OF DEPOSITORS.
- 4TH: PROTECTION BY TWO EXAMINATIONS EACH YEAR BY THE STATE BANKING DEPARTMENT, TWO AUDITS EACH YEAR BY AN INDEPENDENT RECOGNIZED PUBLIC AUDIT COMPANY AND TWO SWORN STATEMENTS SUBMITTED TO THE STATE COMPTROLLER BY THE CASHIER, GIVING THE BANK'S CONDITION IN DETAIL, ALL OF WHICH INSURES REGULAR, SYSTEMATIC AND THOROUGH OPERATION OF THE BANK.
- 5TH: THE ADVICE OF A COMPETENT BOARD OF DIRECTORS, WHO MEET WITH THE OFFICERS REGULARLY EACH MONTH AND ADVISE THEM AS TO THE OPERATION OF THE BANK.
- 6TH: INSURANCE OF ALL DEPOSITS EVERY DAY OF THE YEAR, THIS IS A PROTECTION NOT COMMONLY FOUND IN BANKS AND IS AN ABSOLUTE PROTECTION FOR YOUR FUNDS, IN ADDITION TO ALL THE OTHER USUAL SAFEGUARDS.

THESE ARE REASONS WHY YOU SHOULD DO BUSINESS WITH US, AND WE BELIEVE THAT NO BANK CAN OFFER BETTER INDUCEMENTS.

Vulcanite Shingles

Just Lay Them Down and Nall--That's All There is To It

The Shoulder of Protection keeps hot or cold air—rain, sleet, etc., from forcing its way through the roof.

The Shoulder of Protection is also the Self-Spacing Device. Makes laying easy and rapid—thus saving time and money.

These Asphalt Shingles are surfaced with natural colored Red or Green Crushed Slate. Each rain washes away the accumulated dust—reviving perpetually the original rich colors.

Where these shingles are used the insurance rate is lowered—because they are fire-resisting.

Give us the dimensions of your roof. We will estimate the cost free of charge. Samples and prices furnished free.

OUR BLUEJACKETS HAVE CLEAN UP WEEK EVERY FRIDAY

You all know what a field day means in civil life; you have heard many times of the significance of the field day in athletics, but you will learn from the lines which follow that "field day" has an entirely different meaning in the Navy. Friday is the day for general house cleaning—it is on this day that our bluejackets "turn to" and place their vessel in tip top shape for the morrow's inspection by the commanding officer. The day set aside for cleaning is known as a "field day."

In "ye olden tymes" it was customary to have the field day on Saturday, and the inspection by the Captain on Sunday. But times have changed in the Navy as they have in civil life, and just as sure as the United States Navy ranks among the greatest and most efficient in the world and just as certain as it is

the untiring aim of not only the Navy by the people of this great nation as well to have a Navy second to none on the face of the earth, so our bluejackets who have ever stood by their guns in the face of the most trying duty endeavor to have the cleanest ships in the world.

But back to the field day. The ship is scrubbed with sand, it is "curry-combed" with holystones, and a brighter, cleaner spot on land or water cannot surpass a vessel of the American Navy after it has been cleaned fore and aft by our bluejackets. From truck to keelson and from bow to stern, on this day the vessel is titivated and every thing is put in its place, for who can tell, the folks, the best girl or friends may call and want to look over their "home" on Sunday or right after the Captain finishes inspection.

A ship of the capital type is no small matter to clean; it requires the help of "all hands and the ship's cook," as the saying goes. And it will be clean; it will be spotless when the lads finish and the captain inspects. In fact he usually knows that he will find a veritable palace, for "cleanliness is Godliness," in the Navy. Because of this extreme cleanliness on board many favorable comments are vouched by the visitors. A lady recently remarked while inspecting one of our large ships in the North River, New York: "One could eat one's lunch from the decks of this ship without the least hesitation." And so she could for our ships are cleaned thoroughly every day but on Fridays or immediately after coaling they are made almost into mirrors and shine as brightly as the sun.

FREE TUITION IS GIVEN TO EX-SOLDIERS

Y. M. C. A. OFFERS SPLENDID OPPORTUNITIES TO EX-SERVICE MEN.

"Splendid opportunities for free educational advantages have been given ex-service men by the Y. M. C. A. since January," is the announcement made by the State Office of that organization today. The National War Work Council appropriated three million dollars of the funds raised for educational work overseas, but which could not be used because of demobilization, for free Scholarships to the men at home. 449 ex-soldiers, sailors and marines of Florida have already been assisted by scholarships totalling \$28,375.82. \$7,211.00 was given for Collegiate Scholarships, \$13,174.82 for courses in High schools, Academies, or Technical and Grammar schools of less than collegiate rank, and \$7,990.00 for Correspondence courses.

Scholarships were not limited to Florida schools but were given to Florida men who are in school scattered all over the South, North and East. To those who cannot leave home and desire to improve themselves educationally, exceptionally strong correspondence courses are being given, covering such subjects as: Agricultural and Rural Engineering; Architecture, Civil Engineering, Commerce, Mechanics, Mathematics, Electricity, Radio Telegraphy, Science, English, History, Literature, Health and Hygiene, Bookkeeping, Accounting, Salesmanship, Advertising. One hundred and sixty different courses in these lines are listed in the Home Study catalogue of the Y. M. C. A., from which the ex-service man may make a selection.

Any soldier, sailor or marine who has an honorable discharge is eligible to apply for a free scholarship. Catalogues, application blanks and information are obtainable from the Florida State Y. M. C. A., Jacksonville. Only a small balance of Florida's fund is unassigned, which indicates the appreciation of the soldiers for these opportunities.

The committee on Scholarships for Seminole County is as follows: Schelle Maines, T. W. Lawton, Donald Whitcomb, of Sanford.

Scholarships have been granted to the following men in this county:

Harry Lucas, of Lake Monroe; Lesley S. Hill, Virgil L. Smith and Murrell, Wm. O., of Sanford.

(Colored) A. D. Hawkins, Wm. O. Bryant, Raymond M. Collins, Jeremiah Bronson, of Sanford.

POISON FOUND IN SHEPPARD'S STOMACH

MACON, Ga., Nov. 17.—Solicitor General Garrett announced yesterday that Director General Funke, Atlanta pathologist, had been employed to determine whether or not a certain poison found in the viscera of Fred D. Sheppard, wealthy peach grower of Fort Valley, Ga., was administered through the mouth. Dr. Funke, the solicitor stated, will examine the throat in an effort to determine the source of the poison.

Examination of Sheppard's stomach by Dr. Edgar Everhart, of Atlanta, the solicitor said, warranted investigation of every phase of the man's death. An inquest will be held at Fort Valley Friday at which several witnesses, including Sheppard's former wife, now Mrs. F. E. Elmer, will be called.

Get some of those late postcards at the Herald office. The Valdez Hotel, the Welaka Block, the Seminole Hotel and other points of interest. Only one cent each. Send a Sanford card to your friends.

A FINE COLLECTION OF HORSES ARE THOSE OF THE SPARKS CIRCUS

Lovers of horses find unusual delight in the horses of the Sparks Elg Three-Ring Circus which appears here Tuesday, November 23rd. The general collection is unusually fine, even

Woodford's posing horses and dogs will be one of the Trained Animals features of Sparks Three-Ring Circus when it comes to Sanford on Tuesday, November 23rd.

for organizations that make a specialty of beautiful and well trained equine wonders, but nowhere before has ever been seen such horses as those that are ridden by the equestriennes who do the artistic riding. They actually dance to the music of the band and keep perfect time and when the music changes, they change step in harmony.

No one can witness the horsemanship of the ladies of the Sparks Circus headed by the World's greatest

three-step—even the more modern tango, tickle toe and shimmy have been mastered by these Blue Ribbon and Diploma winners of the horse show world. Then there is the beautiful statuesque posing of the three handsomest and most valuable white horses in the world—posing so perfect that you have to rub your eyes to be sure the pictures are really live horses and not marble which they imitate so perfectly.

MELVIN'S COMEDIANS HERE ALL NEXT WEEK

Melvin's Comedians will be here all next week on the grounds near the Court House on Commercial avenue, under the auspices of the "13" Club. Melvin's Comedians have been unable to play here before on account of the high license but are well and favorably known all over the South and can be recommended to Sanford audiences as being one of the best and cleverest attractions on the road. Read what the Gainesville Sun says below:

The Melville's Comedians Tent Theatre located on the Post Office block opened their engagement in the city of Gainesville on Monday night to a capacity house.

Their opening play, "Broken Hearts" pleased a large and enthusiastic audience and was well received. The company has a well-balanced cast and each and every member of the company portrayed their characters in creditable style and we can say here the Melville's Comedians is a company deserving high commendation.

The many numbers between the acts were a treat in itself filling up the time between acts and leaving no long waits. The vaudeville rendered by Addison and Livingston, Mr. Ralph Pogue, Miss Grace Carpenter and Mr. Bert Melville, Toby, received considerable applause.

All the plays presented by this splendid company are: "All Royalty Plays" and are mounted in grand style—carrying special scenery for every production and they have a complete electrical equipment for their light effects giving the shade and color as seen by any Broadway attraction.

Melville's Comedians is a high class standard attraction and their plays are of a good moral and cleanly nature and there is no doubt that their stay in Gainesville will fill their tent theatre every night to capacity. The yare certainly deserving of good large crowds.—Gainesville Sun.

TAXPAYERS, TAKE NOTICE!

Tax books are now open for the payment of State and County taxes for 1920. A discount of two per cent is allowed for payment in November and one per cent in December.

JNO. D. JINKINS,

SPANISH ORANGE CROP FALLS OFF THIRTY PER CENT

Imports from Spain indicate a decrease in the orange crop of 30 per cent. The Spanish crop is usually marketed in England. Oranges are shipped in cases which weigh 60 kils each. A kilo is 2.20 pounds. Cases contain 420, 714 or 1,064 oranges, according to size, each wrapped in paper. Prices in England range from 15 to 60 shillings (\$3.00 to \$14.60) per case, the average being about \$10.

The cool weather is here.

And everybody is correspondingly happy.

Except those who are short on wood and stoves and overcoats.

The cold snap will bring on more sales among the merchants. This is the time to dispose of seasonable merchandise.

Next week will be a gala week on a small scale. Good time for the merchants to offer special bargains while the big crowds are in town. The circus will bring them in.

Sanford needs an assembly place where the young folks can have a dance now and then and the people can gather for meetings of all kinds and this place should be on the lake-front. Who will come forward and help the "13" Club to get such a location upon which they can erect a suitable structure for the Rod and Gun Club and the tourists.

We are not paying enough attention to our auto camps. There should be at least two of these camping grounds in and around Sanford for the people are coming here by the hundreds. We counted twelve different parties going through here last Sunday looking for a suitable place to camp and spend several weeks. The auto camps are proving to be good investments in every city in the state. They should, however, be under the proper sanitary regulations and have everything needful not only for the comfort of the campers but for the safety and health of the residents of the camp and the residents of Sanford.

CROOKED VISITORS.

The Lakeland Telegram brings out a point which is only too apparent at this season of the year. It is a situation which must be faced by every city in the state, for which the coming of winter months, the bad as well as the good make their way to climes less rigid. The good that they may enjoy rest and comfort, the bad that they may gain a livelihood by "easy picking."

The Telegram tells its story in the following words:

"That we have crooks 'in our midst' at this time is only another way of saying that another season has rolled around. They always appear in the fall, ply their trade through the prosperous winter months, and then take their early spring flight, provided, of course, they escape the eager, if not always accurate, clutches of the law. "It is almost superfluous to warn the public against them. The average crook carries his sign on his face as plain as the three balls at a pawnshop. The wonder is that he finds victims. Most of his devices are utterly crude—a man who has sense enough to invent a new swindling device does not have to remain in the swindling game. "The golden rule is to be careful not to entertain strangers who offer something for sale. If it is anything more expensive than a patent match safe, or a set of wire puzzles, the seller should be willing to submit to certain tests. Ask him for a list of references, and tell him to call again after you have written to them. Nine

times out of ten you will be rid of him forever. "If he is offering to sell stock or other financial securities tell him you never invest without the advice of your banker and invite him to call again when you have had time to investigate. "If he is trying to interest you in a new way to beat the stock market, or with inside information about horse races, you need no further evidence. If you are caught blame nobody but yourself. "But why specify further? Nobody need be taken in by a faker if he will use ordinary common sense. The reason the faker flourishes is because so many of us like to cut loose from our common sense occasionally and go it blind."

It says

"THE FUTURE STRENGTH, POWER AND GLORY OF AMERICA DEPENDS IN A LARGE MEASURE UPON REGULAR SAVING AND INTELLIGENT INVESTMENT OF ALL CLASSES. BE ONE OF THESE AMERICANS WHO ADD STRENGTH TO THEMSELVES AND TO THEIR COUNTRY BY INVESTING IN SOUTHERN UTILITIES COMPANY 8 PER CENT CUMULATIVE PRIOR PREFERRED STOCK. THERE'S NONE BETTER."

times out of ten you will be rid of him forever.

"If he is offering to sell stock or other financial securities tell him you never invest without the advice of your banker and invite him to call again when you have had time to investigate.

"If he is trying to interest you in a new way to beat the stock market, or with inside information about horse races, you need no further evidence. If you are caught blame nobody but yourself.

"But why specify further? Nobody need be taken in by a faker if he will use ordinary common sense. The reason the faker flourishes is because so many of us like to cut loose from our common sense occasionally and go it blind."

ARMY OF VISITORS FILL HIGHWAYS IN FLORIDA

Reports from various points on the highways north of here indicate the greatest immigration of tourists ever witnessed in this state. An average of a hundred tourist automobiles a day is reported at Jacksonville. From Gainesville comes the estimate that 100,000 tourists have passed that city. Camping parties are in evidence along the roads from one end of the state to the other.

These visitors come from all the states from Maine to as far west as Colorado. They come in all kinds of vehicles. While the energetic little Ford predominates, many nondescript vehicles are seen. Some of them are huge vans, loaded with the household goods of the visitors and indicating that permanent additions to our population are being made. Many come with full camping outfits. Still others content themselves with strapping on blankets and other implements of light housekeeping.

It is estimated that over half the visitors come in autos, due, perhaps, in a measure, to the increased cost of traveling by rail, but more largely to the increased facilities for auto travel, afforded by improved roads, and the general feeling of independence which an automobile gives a touring party.

The estimate of one million visitors for the entire season has been made and is not considered too high.

YOU AND YOUR BOARD OF TRADE.

To those who think that having contributed their dollars to the board of trade of their city or town, they have done all that is expected, or all that they should do, it may come as considerable of a shock to learn that there is still left the most important thing undone—giving of your influence, your personal attention and your loyalty at all times.

The president of the Miami chamber of commerce has just published an open letter to the people of his city, some of whom appear to have deserted the chamber of commerce in the belief that they and not it are the more important to civic advancement.

Among the other good things he says to them is the following which is so applicable to the people of every city and town that it is reproduced for the benefit it will have on all:

"Gentlemen, and ladies, I wish to call your attention to the fact that it is the business of the Miami chamber of commerce to make Miami prosperous, to create building and work for every man and it is working for you. These fourteen men on the directorate of the body are working without pay or graft, for you and every man in this town, and not only this, these same men have been subscribing large sums of money to carry on the the advertising and amusements for Miami and for you; to make business or employment for you. If you undermine the chamber of commerce an dit drops into the rut, as 98 per cent of all chambers of commerce do, who will feel the pinch of the need of funds quickest? You cannot hurt the chamber of commerce without hurting yourself if you are living in Miami."

No town is bigger or better than its board of trade, has been well said by men of municipal and civic association experience and knowledge. Tampa and every other Florida city needs to co-operate in more ways than merely to give a dollar now and then, with its board of trade.—Tampa Tribune.

Send in your locals to the Herald office. Phone the news to 148. We want every bit of it. Tell us the news each day.

THE HERALD HAS ONE.

The only place in Lakeland and this vicinity where you can find the latest improvement in newspaper machinery is at The Star office, where an automatic Miller feeder has been operating now for over a week. A man from the company spent three days erecting and introducing the feeder to the force and it has been working beautifully ever since, and we have been trying it out a week before anything was said about it. The Star is the only shop in Lakeland equipped with this great improvement in the operation of presses and high-class printers and pressmen who have had experience with the machine state that they don't know of anything better that an office can do than to install one of these machines. Take today noon, for instance and on other days, the machine only took five minutes off for dinner and went right on feeding job work while the force took their regular time off. If you folks want to see something work like a human and still remain a machine, come into the Star office some time and watch this animal perform; Dr. Piner says the thing is crazy. It feeds the job work into the press; pulls each sheet out and if a single thing goes wrong with the beast, a bell rings until some one looks it over or gives it more material to feed and on two color work and fine jobs the machine can't be beat. E. C. Fox, our expert pressman, says that no human pressman can come any ways near registering work and feeding it as accurately as this machine and for two color letterheads or folders, nothing can compete with the feeder in delivering the goods. We don't know how it is going to be paid for, but from the way it is performing we expect it to pay for itself in a year's time, by way of saving a press feeder, delivering high class work that will be an advertisement and by being the means to keep the presses going and turning out the work while the men about the shop can be doing something else. We are proud of the fact that the Star is the only office in Lakeland and this locality that has one of these machines and our friends are invited to call and see a big city improvement, which all well equipped job printing plants have wherever you go in the large cities.—Lakeland Star.

**RED CROSS CAMPAIGN
WILL BE WAGED ALL WEEK**

Dr. Walker, chairman of the membership drive of the Red Cross is busy today looking after his committees and getting all the workers out on the job. The committees have been having a difficult time with the rain and weather generally and the drive has been delayed somewhat in consequence but Dr. Walker expects to finish up Saturday with a whirlwind drive that will get them all.

The membership drive is for a dollar from each man, woman and child in the county and from the way in which the people are responding it looks like they will get it from every one of them. This money goes for the home service that is doing such a wonderful work here in the county under the able management of Miss Virginia Smith, who has permanent headquarters in the court house. This work embraces all phases of relief work now that the war work is over and takes care not only of the ex-soldiers and their dependents but every one who needs help. In case the flu or any other epidemic broke out here there is only one source of assistance and that is the home branch of the Red Cross and everyone knows what a wonderful work was accomplished by the Red Cross in the years past. All those who have not been approached by the workers can leave their subscriptions at the headquarters in the Union Pharmacy.

After you've tried Butter-Nut once you'll no more think of having a meal without it than you'd think of omitting sugar or salt. For Butter-Nut is more than mere bread—it's a delicious, tasty, appetizing item in a meal.

**THE NEW
BUTTER-NUT BREAD**

has all the quality of the old Butter-Nut; we couldn't improve that.

But in addition we've perfected a new mixing process which enables us to turn out a lighter, daintier loaf than ever.

Get a loaf today, for Butter-Nut is its own best advocate. It's 5 cents at all good grocers—10 cents for the larger size. The genuine bears the Butter-Nut label.

WEATHER REPORT

For Florida: Fair tonight and Thursday; frost in north and interior of Central portion tonight; rising temperature in North portion Thursday.

Mrs. E. M. Galloway, Mrs. W. L. Morgan and Mrs. H. B. Lewis are in Tallahassee this week representing the Sanford Woman's Club at the state federation of Woman's Clubs.

According to the weather sharks who arose early this morning the temperature only fell down to 42 here and no frost or if there was any it was mighty light. Should the weather be clear tonight there will in all likelihood be frost and frost means nothing serious at present unless it is a very heavy one.

Mr. and Mrs. Victor Canares are in the city for a few days. Mr. Canares is the advance man for the Melvin Comedians, who will play a week's engagement here next week under a mammoth tent to be located on Commercial avenue. Mr. Canares has many friends in Sanford as he has been coming to Florida for many years.

Mr. and Mrs. Sweet have arrived in the city after spending the summer north and are again with the mail order department of Chase & Co. They brought with them Miss Georgia Poulson, of Montpelier and Miss Gladys Doster, of Muncie, who will be with Chase & Co., also. The many Sanford friends of Mr. and Mrs. Sweet are glad to have them back again for another season.

The Pico Hotel, the oldest and one of the best known hoteliers in this section, has an ad in this issue of the Herald. Mrs. B. E. Takash, the proprietor, has had many years experience and does all in her power to make her guests comfortable. The table is supplied with the best the market affords and The Herald recommends the Pico to anyone seeking a quiet home-like place.

Albert Dorner faced Judge Maines this morning on the charge of reckless driving as Albert was trying to make an aeroplane out of his Ford coming in from the aviation field the other day. He was standing in the Ford and driving it backward by using his feet and doing other stunts and the motorcycle cop and Chief of Police Speer having been told about him on the road arrested him and he was told to appear Saturday but as his attorney, Geo. A. DeCottes was out of town the case was called this morning. Albert admitted the stunt driving and was fined ten and costs with the promise that he would drive the Ford in the way Henry intended it to be driven hereafter.

QUEEN MOTHER
WILL TAKE REGENCY
(By The Associated Press)
ATHENS, Nov. 17.—Queen Mother Olga, of Greece, will probably assume regency today, it was reported here. Admiral Coundouriot is to present regent.

**COLD WEATHER HERE;
SNOW IN CAROLINAS**

Colder weather today and continued cold tomorrow is the way the weather man locally outlines the cold snap that has already brought snow to the Carolinas. Nothing lower than 50 is expected in this vicinity, it is stated.

With the storm sweeping northward, storm warnings were continued here through yesterday and with the passing of the wind will come the chill. Freezing temperatures may be expected in the extreme northwestern part of the state.—Tampa Tribune.

Storm Overtakes Tarheel State
WASHINGTON, Nov. 17.—The Southern storm which advanced north-eastward yesterday increased greatly in intensity and last night was centered over North Carolina, according to reports to the weather bureau. Storm warnings are displayed on the entire Atlantic coast.

Considerably lower temperatures are indicated today for the south Atlantic coast and temperatures will continue considerably below normal today and Thursday generally east of the Mississippi river.

Alleghenys Under Snow Blanket
CUMBERLAND, Md., Nov. 17.—The Allegheny mountains section is blanketed by snow and sleet. At Frostburg, the snow and sleet is about five inches deep with the fall unabated. At Thomas, W. Va., on the Western Maryland Railway, it stands twelve above zero with two inches of sleet. On the Big Savage mountain the sleet is six inches deep.

First Snow of Season at Asheville
ASHEVILLE, N. C., Nov. 17.—Asheville and immediate vicinity was visited last night by the first snow fall of the season but because it has been raining two days the snow melted immediately. A fresh wind from the north turned the night into the coldest of the season.

**HERALD WILL TAKE
OVER SUBSCRIPTION LIST**

The Herald will take over the subscription list of the Daily Herald beginning Monday next on the Daily. This list has been in charge of F. P. Rines but press of other lines of business has made it necessary for him to give it up and Robert Holly will have charge of the Daily list in the future. He will carry one of the routes himself and look after the other routes and also put on a campaign for new subscriptions and any complaints about the daily will hereafter be handled through the Herald office, Phone 148. The list is growing so rapidly that a more comprehensive plan of handling the list is made necessary and it is thought that by centralizing it in the office it can be made more satisfactory for all concerned. Starting next Monday Robert Holly will be in charge of the Daily circulation department and will see every subscriber during the week.

**The Logical Treatment
"ENERGIZER"**

THE MARSHALL ISLANDS

The Marshall Islands, along with the Carolines, were seized by Japan soon after the outburst of the war, and their permanent disposition has been under discussion. Their proximity to the Philippines has been referred to in this connection.

The two chains of curiously-shaped atolls, or coral islands consisting of low-lying coral reefs encircling lagoons, known as the Marshall group, lie a little south of the center of an imaginary line between the Philippines and Hawaii.

Guam, Samoa and Honolulu form a triangle of trade routes, with its sides not penetrated by important steamship lines. Near the center of this isolated Pacific zone are the Marshall Islands.

Before the war Sydney was reached by steamer, a voyage of more than 3,000 miles. The only other egress is a steamer to Ponape which connects with the French line to Singapore.

Like two loosely-strung chains of jewels, the islands stretch from northwest to southeast, each with its lagoon setting encased by a strangely-shaped circle of coral, some like triangles, harps and stirrups, and one outlining a bull's head with its horns.

Straight-haired, dark-brown natives, still preserving the religious significance of tattoo and taboo, are to be found.

Woman was given a higher position than among most savages because succession was through the female line. But the chief's power was absolute, to the point of life and death. One ambitious ruler learned an alphabet and is said to have beheaded all his subjects who seemed likely to acquire more knowledge than he had. In some islands the mother was allowed to keep only the first three children. She had to bury the fourth.

Skillful and fearless navigators, the natives used bread-tree wood to make sailing canoes in which they would voyage for months. They devised charts, made of sticks, showing the locations of islands and the directions of prevailing winds.

Ancestor worship was their predominant religious sentiment. With petitions and gifts they worshipped the departed whose spirits were supposed to return to earth in certain palm trees which they set off in stone inclosures. Birds and fishes sometimes embodied these spirits, they believed, and thus certain species became taboo.

Homes of the natives were not pretentious. Floors were raised above the ground to escape the rats, and thatched roofs covered the combination house and storage room.

The two island groups are known as the Ratak and Ralik chains. Their entire area is not more than 160 square miles; their native population 15,000, with fewer than 300 foreigners. The seat of German government was on Jaluit and the most populous island is Majeru, with but 1,000 persons.

**HOOVER TELLS LABOR
COUNCIL NOT ALL OF
BLAME IS ON CAPITAL**

WASHINGTON, Nov. 17.—Herbert Hoover, former Federal food administrator, was called into conference yesterday by the executive council of the American Federation of Labor, as it continued a face to face discussion of economic and industrial conditions, presumably for the purpose of framing a policy to be followed by the federation in legislation, which it will urge on congress.

Mr. Hoover was invited to the meeting, it was explained, because of his wide knowledge of economic and industrial conditions in America. It was indicated also that the council desired and had obtained from him data which eminent engineers have gathered on questions pertaining to or affecting labor.

Members who were in the council meeting behind closed doors, were disinclined to talk of the discussions. There was evidence, however, that Mr. Hoover's views did not place all blame for conditions now confronting labor on employers.

Much data has been gathered by the federation with respect to economic conditions throughout the country. It is known also that during yesterday's conference some members of the council, while holding employers largely responsible for present conditions, admitted that individuals and even groups of workers had not "played fair" in some instances.

Mr. Hoover was understood to have told the conference that labor must do its share in the elimination of industrial faults and ills which make for unemployment.

Council members said they had been deeply interested in Mr. Hoover's discussion of existing conditions because of its bearing on the federation's search for methods, which will avoid intermittent operation of industry and consequent unemployment. It is understood Mr. Hoover was told that labor leaders regarded the action of some employers in closing plants or operation on part time, as "little short of a social crime."
